THOSE GALLANT IRISH SOLDIERS with whom I have spent so many I have said before, a varied one—always reedy and prompt, willing and anxious, to take their share of danger, when danger was to be undergone. I should be a craven if for no other reason—I should not be worthy of the uniform or worthy of the position which I hold in the army, if I should wish to be disassociated in any way whatever from, not the Ireland of politics, but the Ireland of chivalry and courage. It is not necessary for me to tell you that during the recent war in Egypt I had a considerable number of Irish soldiers with me in that army, and I can only say that there were no men with whom I had the honor of being associated that did their work better. They were always willing to undertake any difficult service without grumbling or making any difficulty about it, and I have been so impressed with the manner in which these Irish soldiers do their work that, should it be my good fortune at any future time to be entrusted with the command of an army, I hope and trust most sincerely that there will be in that army an Irish brigade commanded by an Irish brigade comma and trust most sincerely that there will be in that army an Irish brigade commanded by an Irish brigadier.

When this Valley Railway was under consideration in 1875 some of the papers in other parts of the Province called attention to the project, preference being given to Route No. 1, which runs along the northern bank of the South West. We reproduce an extract or two.

"A number of influential gentlemen at the Morth have earnessly taken in hand a matter of vital consequence to the city of Fredericton and County of York. We refer to the construction of a Railway from this city, via the Nashwask and Miramichi Rivers, to a point on the latter near Newcastle and Chatham. Bearing in mind that this would constitute the shortest route from Europe to the Western world, its importance as a line of communication and travel can scarcely be over estimated. \* \* Our friends at the North may rely upon it, however, that in this great undertaking York will work shoulder to shoulder with Northumberland; and that her reply cannot be otherwise than favorable. \* \* The route which York prefers is known as No. I of Mr. Buck's survey."

Another quotation. (From the Daily Telegraph, January, 1875.) "We have no hesitation in saying that this suggests the construction of a line 100 miles long to a port on the Miramichi, a port open at least 240 days in the year, and which, while it is nearer to Europe than any port in Nova Scotia except Louisburg, is several hundred miles nearer than the latter to New York, Montreal, and the great centres of American commerce. The construction of American commerce. The construction of such a line would involve far more than the mere local traffic, which alone seems to fill the eyes of some journalists in considering this question. We believe it would go a long way towards solving the problem of rapid and passenger communication with

this question. We believe it would go a long way towards solving the problem of rapid mail and passenger communication with Europe during the summer, at least, for there is no doubt that, as a rule, a steamer from England direct to Miramichi, would gain from three to four days on a steamer bound to New York. The railway, if built, should not be a narrow guage road, but should be of the same guage as the Intercolonial, for. we believe, with a bridge over the St. John at Fredericton, it would very soon become a through road. At the same time its local results would be very great, considering the fertile character of the country it would open up."

impure state of the blood, To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most pow erful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases, A Recent Cure of Scrofulous Sores. A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used Ayer's Sarsaparilla, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, Mrs. Ann O'Brian."

is All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge. The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, Jun

"Having suffered severely for some years with Eczema, and having failed to find relief from offer remedies. I have made use, during the past three months, of AYER'S SARSAPA-RILLA, which has effected a complete cure, I consider it a magnificent remedy for all blood diseases." Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheuma-tic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weak ened vitality. It is incomparably the cheapest blood medicine, on account of its concentrated strength,

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalcause: the entire fulfilment of its promises. The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic prepara-tions, but remain a long time, which makes its use a matter of economy.
