THE CAMPBELLTON GRAPHIC

ESTABLISHED: 1868

CAMPBELLTON, NEW BRUNSWICK—TUESDAY, APRIL 27TH, 1909.

REMOVE THE TEMPTATION NOW

Mr. Currie Wants Temptations In Way of Sheriff Stewart Removed in Public Interest. MAKES ENQUIRIES.

Mr. Currie moved for all correspondence between James E. Stewart, High Sheriff of Restigouche County, and the Government, relative to appointments and dismissals of lumber scoulers and other officers, and also regarding the administration of Justice in Restigouche, and proceeded to address the House as follows:—

Mr. Speaker, we Canadians are proud of our British connections, we boast of our British institutions, our liberty and what we speak of as British fair play. We are particularly proud of our English law, and we have good reason to be proud of those things. But if the machinery by which that law is put in motion is defective, then our proud boast becomes a vain dream, and that for which we have just reason to be proud becomes a reproach to us.

My purpose, Mr. Speaker, in moving this resolution, was in order that I might bring before this House a condition that exists today in the County which I have the honor to represent, and which has existed since this Government came into power, and a condition which I think is not to the credit of this government or the Department of Justice over which the Honorable Premier presides.

James E. Stewart, Esquire, the high sheriff of the County of Restigouche, was a candidate on two different occasions for the present government in that County and I am sure you will all agree with me when I say that when a person runs two elections in a county that the lines are very clearly drawn between the friends and his opponents, and when I tell you that the same gentleman, the High Sheriff, has had the honor of the patronage for this government, and since they came into power, and has succeeded all the petty officers through out the County who dared to vote against him, and had them replaced by friends and supporters, I think you will agree with me that the lines are not more clearly defined than ever between his friends and opponents, and you can easily see that when litigation arises in litigation should arise between a friend and an opponent, this same gentleman has to go out and select jurors to sit on that case, and it is but human to expect that the jurors he would select would be from among his own friends. To add still more to the complication, Mr. Stewart's nephew, who was also a candidate for this government, is a leading lawyer, and also does the Crown Work in that County, and can readily see that when the candidate is the lawyer and the other candidate is the sheriff to select jurors to sit on the case, that there would be a very great danger to the sheriff being biased and the litigation suffer as a consequence.

Now I expect very much to have to bring this matter up, and if we will all agree there would be no necessity of doing so, but that unfortunate incident in the Garden of Eden so long ago, has so affected the human family that even we in this generation can hardly treat ourselves, and I think it is the duty of this government to remove every stumbling block that would be in the way of doing out even-handed justice to every man, and I feel that

MAY HOME JOURNAL
The May issue of the Home Journal, Toronto, gives abundant evidence of the changes promised for the new volume. "Dear Delightful Dulwich," by Katherine Hale, is breezy and interesting. "Around the Hearth," is a novel department by Jennie Allen Moore. "Domestic Science in Western Canada," by Lilian K. Beynon, is interestingly reminiscent, while the article "Our Breakfast Beverage" by M. Gustaf Knobel, gives interesting information about coffee production and use. The prices for the photo contest are announced in this issue and afford an interesting exhibition of amateur photographic art. The Home Journal announces for June an increase in size and a four-colored cover with a four-page insert in it. It will be a "Quintessential Number," illustrating the forthcoming International Congress of Women to be held at Toronto. A full-page portrait of the Countess Aberdeen and photos of the principal delegates will be given. June will also be the bridal number which will afford many useful hints as to wedding methods and customs.

FIG PILLS Nature's Remedy for Constipation
The Pills cure Rheumatism and Blood Diseases. Pimples and Blisters removed in a few days by taking FIG PILLS. One taken at night time will make you feel better in the morning. Lasting benefit. For sale by the White Drug Co.

IMPORTANT MATTERS DISCUSSED AT THE DOMINION CAPITAL

Board of Trade Delegation at Ottawa Presents Memorial to Various Departments—What Campbellton Needs. CHANGES WILL BE MADE.

(Special to the Graphic)
OTTAWA, April 27.—A delegation from the Campbellton Board of Trade arrived in the city Monday morning and are holding conferences with the ministers of the Railways and Canals, Marine and Fisheries, and Post Office Departments. This delegation which is composed of D. Murray, M. D., Mayor of Campbellton; L. G. Pinault, M. D.; A. E. G. McKenzie; John M. McLean; and Alex. McLennan, are looking for important changes in reference to the I. C. R. at Campbellton.

Armed with a memorial and comprehensive plans of what is required at the I. C. R. terminals, they interviewed the railway department, and received careful consideration of their proposals.

THOMSON'S MANAGER ORGANIZING ROUTE FOR S. S. SENLAC

Will Run on Express Service on the Campbellton-Gaspé Route This Season. COMMENCES JUNE 1ST.

Mr. C. D. Robinson, one of the managers of the Wm. Thomson Co., St. John, is in town today, making preparations for the placing on the Campbellton-Gaspé route of the steamer Senlac.

In an interview with the Graphic Mr. Robinson stated that the Senlac would go on the route about June 1st. At the present time she is being overhauled and extensive repairs are being made to her, so that when she arrives here she will be quick and smart, and will appear more like a yacht than a steamer for public service.

It is the intention of the Thomson Co. to run an express service only, no freight will be handled, and two round trips will be made, making close connection with the Ocean Limited both ways. As no freight is to be handled, short stops will be made at each port of call, thus landing passengers at their destination with the least possible delay.

The Senlac is comparatively a new boat and cost \$110,000. Forty thousand dollars alone were spent in providing first class passenger accommodation. She is lighted with electricity, and has a powerful searchlight. The dining saloon has accommodation for fifty while there is first class state room accommodation for one hundred passengers. Second class accommodation is also being provided. The company will open an office here and have representatives at Montreal and Quebec.

Mr. Robinson leaves this week for Bonaventure and Gaspé ports to make arrangements in reference to traffic. The Senlac on this route will mean much to Campbellton and the Bay Chaleur counties as the Thomson Co. thoroughly understand the tourist business and there is not a doubt but that many tourists will visit this country for the first time this season.

CONSTANTINOPLE SURRENDERS

Garrison Lays Down Arms Without Firing a Shot—Victorious Troops Replace Guards. MARTIAL LAW PROCLAIMED.

CONSTANTINOPLE, April 25.—The Yildiz garrison surrendered today to the Constitutional forces. The commanders of these battalions began siding in their submission to Mahmud Sherif Pasha last night and the whole of the troops protecting the palace have their formal and unconditional surrender shortly after dawn. Niaz Bay, who is called the hero of the July revolution, is now in command of the garrison.

It has been stated since victory rested with the Constitutionalists that Sultan himself gave orders to his men not to resist. Whether or not this is true, it can be safely said of the troops within the capital that they made a stubborn resistance at all points, and the casualties on both sides are exceedingly heavy for the length of time the engagement was in progress.

The last garrison to surrender was the Selimieh artillery barracks in Contari, opposite Stamboul. Four thousand stationed there with a hundred guns, threatened to blow the city into ruins, but today General Scheffer ordered up sixty big guns and several batteries of machine guns to positions which command the barracks.

Medical Science Advancing Fast
Formerly doctors prescribed stomachic remedies for Catarrh of the stomach. They seldom cured and Catarrh has become a national disease. Today the advanced physician fights Catarrh by methods all his own. He kills the mucus and throat with the antiseptic vapor of Catarrhona. Cure then is certain. Reach for Catarrhona to cure. It contains the essence of pure pine balsam. Eradicates all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sinusitis can be cured by Catarrhona, 25c and \$1.00, Sold everywhere. Get it today.

OAK BAY MILLS
James Donaher left on Saturday for the river to drive for Peter Brodeur. He has accepted a position at Shives Athol.

Close and dark are coming in to feed on the marshes. It is understood that the Sovereign mill will not be in operation this season.

HANDICAPPED
This is the case with many Campbellton people. The many Campbellton citizens are handicapped with a bad back. The unending pain causes constant misery, making work a burden and stopping or lifting an impossibility. The back aches at night, preventing refreshing rest, and in the morning is stiff and lame. Plasters and liniments may give relief, but cannot reach the cause. To eliminate the pain and aches you must cure the kidneys.

NOX A COLD IN ONE DAY
The Greatest Lung Healing Medicine known to science. A guaranteed cure for all Lung Trouble, Coughs, Colds, Asthma, Bronchitis, Sore Throat and Consumption. Every bottle sold under a guarantee. The only Cough Medicine endorsed by doctors. 25c. Bottles.

MINARD'S LIMBENT CURE BRUNS, etc.
Eradicated laundry fires should strike while the iron is hot. Repeat it—Shiloh's Cure will always cure my coughs and colds.

LATE DR. SMITH WAS A TRUE HERO

A St. John correspondent writes to a Montreal newspaper: There died last week in Tracadie, the bleakest, most lonely place on the New Brunswick coast, one of those men who, though not living in a cloister, devote their lives to the good of their fellow men. The dead man was Dr. A. C. Smith head of the medical school of the Canadian Leprosy Asylum.

He had given his life to the cause of leprosy, and to the trying of find a cure for the dread disease, and when he died he had the satisfaction of knowing that he had managed to strike upon one compound that would cure the disease in the early stages and would alleviate the sufferings and prolong the lives in the advanced ones.

To profane life for a leper seems almost cruelty, but the lepers themselves do not think so. Dr. Smith used to tell your correspondent that leprosy, at least in its early stages, is not a disease of death, but a disease of suffering, and that if they were not already doomed to die from the disease that kept them isolated from mankind.

"Some day or other," he said, "you'll hear that I have shut myself up in 'that place,' pointing to the lazaretto, and if you do hear that such is the case I want you to promise that you will write me every month." The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. The promise was given and kept. He probably died as so many of the leprosy patients in the institution. But they do not show the resulting symptoms of the unclean disease; they just waste away and die, only to have other lepers take their places. Dr. Smith himself said that there was not and never had been a satisfactory diagnosis of the cause of death, but he ascribed to the constant inhalation of the miasma, and if you do hear that such is the case I want you to promise that you will write me every month. CAMPBELLTON, NEW BRUNSWICK TUESDAY, APRIL 27th, 1909

SMASHING THE ECONOMY PLANK

The salary grab at the provincial capital affords further evidence of the persistent disregard of pre-election pledges shown by the Haxton party during their brief term of office.

It will be remembered how they went about the country prior to the last provincial election shouting about economy. They were going to abolish extravagance. They were going to cut down expenses of administration and introduce wonderful reforms.

It is interesting to recall some of the promises held out by the Haxtonites when in Opposition to the administration of the province. It is timely to note how definitely they were pledged to "economize" in the running of the governmental machinery.

Among the reforms desirable in the public interests advocated by Hon. Mr. Haxton, when he was leader of the Opposition, was the reduction in the number of government members and the lowering of the expenses of administration. The following paragraphs appear in a series of resolutions moved by him in the Legislature when leader of the Opposition.

The immediate abolition of the office of solicitor general, having in view the reduction of salaries of members of the executive and the amalgamation of offices at present existing.

The reduction of the number of members in the House of Assembly to thirty-eight and the division of the province into thirty-eight electoral districts, each returning one member; the different divisions to be as nearly as possible equal in population, having regard to other interests; lines to be proposed as far as may be and the divisions to ridges to be made by an independent commission consisting of three judges of the Supreme Court.

The reduction by at least one-half of the amount allowed by the Attorney General for the succession duties, a substantial reduction in the cost of public printing, a reduction in the travelling expenses of members of the Executive Council.

A reduction in the controllable expenditure of the province and such changes in the legislative and departmental machinery of the province as will lead to a substantial reduction in the cost thereof.

Now there is a cabinet which definitely pledge to the electorate to reduce the number of ministers at the provincial capital, and being asked a reduction of the cost of administration.

But what have the government done? They have reduced the number of members of the executive, as if they were to do when in Opposition. There are as many ministers in the government as there were when they came into power, and there have been no reduction in salaries. The salaries have remained just where they were at the time they took office, and now they come down with a vengeance to make a change, not to effect a saving, but to increase the cost of administration. After all these talk about economy, what have they done? They have increased their salaries to \$2,100 per annum.

That is the way the Haxtonites are carrying out their promise to "economize." While they were in Opposition and did not have the handling of public money they made all sorts of promises to cut down expenses, but now that they are in power and have control of the revenues, what care they about pre-election vows? Fine promises, about which there have been no talk, are thrown to the winds. They dip into the provincial treasury and increase salaries, recklessly breaking faith with the people of the province.

The smashing of the "economy" plank by the Haxton administration is only one of many instances in which the government have flagrantly violated their promises made when in Opposition. Some day the people will have an opportunity of showing their contempt for those who break their promises when they are in power and have control of the revenues, what care they about pre-election vows? Fine promises, about which there have been no talk, are thrown to the winds. They dip into the provincial treasury and increase salaries, recklessly breaking faith with the people of the province.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice when a liniment was required and have never failed to get the desired effect.

C. A. KING, M. D.

HER PHYSICIAN ADVISED

Taking Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham's Vegetable Compound during a change of life. My doctor told me I was good and since taking it I feel so much better that I can do all my work again. I think Lydia E. Pinkham's Vegetable Compound a fine remedy for all women's troubles, and I never forget to tell my friends what it has done for me.

Mrs. E. HANSON, 304 East-Long St., Columbus, Ohio.

Another Woman Helped. Grantville, Va.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing you should publish my letter."

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to the female sex, should know that Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

COURT HOUSE AT EDMONDSTON BURNED

Building Containing Jail and Other Offices Destroyed by Fire.

LOSS \$13,000.

EDMONDSTON, April 25.—The court house here was burned to the ground at an early hour this morning.

At 5:40 o'clock Sheriff Gagnon was awakened by the smell of smoke in his apartments and he had only time to grab his TRIP WATER OIL BURNER LIGHT COMMITTEES (THE) before the fire broke out.

Where is the hardship of citizens? We fall to see why. The amendment simply takes the authority away from the voters to do when in Opposition. There are as many ministers in the government as there were when they came into power, and there have been no reduction in salaries. The salaries have remained just where they were at the time they took office, and now they come down with a vengeance to make a change, not to effect a saving, but to increase the cost of administration.

After all these talk about economy, what have they done? They have increased their salaries to \$2,100 per annum. That is the way the Haxtonites are carrying out their promise to "economize." While they were in Opposition and did not have the handling of public money they made all sorts of promises to cut down expenses, but now that they are in power and have control of the revenues, what care they about pre-election vows? Fine promises, about which there have been no talk, are thrown to the winds. They dip into the provincial treasury and increase salaries, recklessly breaking faith with the people of the province.

First class accommodation will be afforded to passengers and hippers. Announcement of time tables will be made later.

BLACK BOY

Is just the kind of a draught horse now wanted. Black Boy is a beautiful black, stands 12-1 1/2 hands high; and weighs 1600 lbs. He was bred by Zacher, a pure Percheron horse imported by the Government to Miramichi. His dam was from Prefere also another pure Percheron horse, imported by the Prince Edward Island Government and cost \$50,000 and is called the best horse ever imported to America.

Black Boy is trappy and for his size is a great roader. He will travel the coming season from Grand Chapeau to New Carlisle, P. Q. Terms, \$2,000 single service, \$500 for the season for \$100 to insure. He is a sure getter and since he is owned in Beattouche has proven himself a good horse. He will start travelling May 3rd.

Other remedies may have failed, don't give up. Try "Father Morrice's No. 10", combined with fresh air and exercise, and even though you are in the first stages of consumption there is hope of a permanent cure. Sample bottle free. Regular size 50c. at your dealer's, or from Father Morrice's Medicine Co., Ltd., Chatham, N.B.

The Open Door for Consumption And How "Father Morrice's No. 10" (Lung Tonic) Closes it.

A low run-down condition, with perhaps a neglected cold and a little cough, is a cordial invitation to the White Plague, Consumption, to come in and make itself at home. And it seldom overlooks the invitation.

In such a case there is no time to be lost. The door must be promptly closed. This can be done by using a complete rest, with plenty of fresh air, and "Father Morrice's No. 10" (Lung Tonic). This medicine cleans out the passages, relieves the cough, and leads the delicate substance of lungs and air passages. But perhaps most important of all, it builds up the whole system, giving Nature the needed assistance in fighting off the dread disease.

Other remedies may have failed, don't give up. Try "Father Morrice's No. 10", combined with fresh air and exercise, and even though you are in the first stages of consumption there is hope of a permanent cure. Sample bottle free. Regular size 50c. at your dealer's, or from Father Morrice's Medicine Co., Ltd., Chatham, N.B.

VITOL

The Great Nerve Tonic Makes Blood and Flesh

TOWN TOPICS

ANOTHER SUIT
 Chief Crawford was served with papers in a suit to be brought against him by Stanley Poirier for assault.

LAST APPEAL
 The license inspector's cases were sustained by the Supreme Court last week. These were the cases of Damoiseau for selling liquor illegally.

STILL SOLID
 The heavy frost of the past few nights has made the ice exceptionally firm for this season of the year. It is possible to drive almost anywhere on it in the early morning.

BOUND FOR MONCTON
 Messrs. Pottinger, Tiffin and Brady of the I. C. R. Board of Management, went through this morning in their private car attached to the Maritime Express.

TRIED TO ROB
 Frank Gannon of Kouchibouguac, was arrested here this morning for attempting to choke a man and rob him of his money. The assault took place at Melville's hotel. He was arrested and awaits the action of the magistrate.

RAISED OLD FACTORY
 The Italian quarters in the old factory building were raised on Sunday and a number of inmates arrested for gambling. They appeared before the magistrate, but owing to the case of this nature already pending, the cases were allowed to stand.

GONE WEST
 Mr. F. W. Kennedy, who has been conducting a tailoring business here for some time, has gone West. The Sheriff is in charge of the premises. Fred's many friends regret that fortune did not smile on him, and that he was obliged to leave for pastures new.

STILL OCCUPIED TO BEED
 Mr. A. H. Fryers, I. C. R. locomotive engineer, who sustained such severe injuries in the mail train wreck near here, three months ago, is still confined to his bed, and it will probably be another month before he will be able to be around. Mr. Fryers was badly scalded and the wounds are still healing. He has had a long stay and his many friends will sympathize with him in his affliction.

MAN'S CLOTHING FOUND
 There was found in the woods near Meadow Brook, Westmorland County, some days ago a bag of clothing, including a suit of men's clothes, some underwear and an overcoat. On top of the bag was a man's cap, turned right side up, and a pipe in the cap. There were also two letters in the bag, one dated November 24th and the other October 14th, received from Mrs. Harper, Mission Harbor, N. B. addressed to Mr. J. H. O'Brien, but there are no envelopes to show where the letters were addressed to. The clothing was found by Mr. S. Saultier, who has a lumber camp in the vicinity. Mr. J. Allard, of Dolige Bridge, has the letters but is not willing to give the contents for publication. The clothing had the appearance of having been in the woods for some time probably all winter. The find has naturally excited some comment in the vicinity.

WILL ADDRESS MEETING
 Rev. Thomas Marshall of Sackville, will speak tomorrow evening in the Methodist church on the "Laymen's Missionary Movement." Open at 7.30. Collection in aid of the fund.

DETERRED THE USE OF MAILS
 An order has been issued by the Postmaster General at Ottawa stating that Free Speech, a weekly paper published at Moncton, had been added to the list of publications prohibited from the use of the mails.

NEW POLICEMAN
 Anningford Yarka of Fredericton has been appointed on the Campbellton Police force. Mr. Yarka is a fine looking man, physically, is thirty years of age and weighs 230 pounds. He comes here from Fredericton well recommended, and no doubt will make a good officer. He was sworn in this morning and entered on his duties at once, assisting in an arrest during the morning.

WERE ON DUTY
 The Tribune in its last issue endeavored to convey the impression that the police were not on duty Friday night when a young man creeps into a dance at Water Street. The police were on duty and arrived on the scene, but the disturber was warned and fled. Later he was arrested and fined five dollars and costs. Chief Crawford says that they have a large territory to cover and cannot reasonably be expected to be at all places on the instant. The police are attending to their business and it would behoove some interfering citizens to do likewise.

COMMISSIONERS MET
 The liquor license commissioners met on Monday and after reading the applications and discussing business generally, adjourned until Wednesday evening. The Graphic understands there will not be much change in the license from previous years. One dealer who has been frequently fined, and whose place has not been of the most respectable, will likely lose his license, which will be given to another. This is the right course and we are of the opinion that when a dealer persists in breaking the law he should not be again granted a license. In pursuing this course, the license commissioners will be backed up by a large majority of the citizens.

SHOESHINING PARLOR FOR CAMPBELLTON
 These parlors will be conducted in an up-to-date manner, and respectable in every respect. Ladies who do not wish to come can send their shoes and they will be polished with neatness and despatch. We use the only original shoe dressings, all other makes are inferior to the leather. We use only Parkland's Special Dressing. It softens the leather and makes it lasting and durable. Always when purchasing a pair of shoes from your dealer ask for a coupon with each purchase. This entitles you to a free shine at the New York Parlors. A trial shine will convince you. We polish all shades and colors. Use Chiff, Russette, Tan, Ox-Blood, Bronze and patent leather. We make a specialty of Dying Tan Shoes permanent black. Next door to Albion Hotel, Water St.

Boys' Clothes ARE A STRONG FEATURE HERE.

You'll get satisfaction in buying your boys suit here. The seasons best styles and patterns in Blue, Grey and Brown.

Sizes from 3 years to 15 years.
 Prices \$2.00, \$3.00, \$5.00 to \$8.50.
 See our range for the Big Boy size 33, 34, 35.

How to Have Stylish Footwear.

If you buy a first class shoe, don't you want that shoe made in the latest style.

How do you know, for instance, when you ask for the newest footwear that you're actually getting the newest? But why take chances?

Why not ask for the shoes that

Lead the styles in Canada?

The Invictus made by Geo. A. Slater. Newest 1908 Shapes in Oxbloods and Tans. Sold only at

McRAE'S SHOE STORE

OUR TAILORING!

If we are favored with your spring tailoring order, Sir, we will see that you get HANDSOME, PERFECT-FITTING, HIGH-CLASS GARMENTS.

We will see that you get those artistic touches in the tailoring and finishing that are so important to judges of correct and stylish garments.

We guarantee a fit to your satisfaction.

OAK HALL

W. L. McRAE.

THE CLOTHIER AND FURNISHER.

50c ASTONISHING VALUES IN STIFF FRONT SHIRTS. 50c

On examining our Shirt Stock we find we are too heavily stocked in stiff fronts. The stock is good. There is not an unsalable pattern in the lot, but it is taking too much room on our shelves, so we have put a price on them that will make them vanish like dew before sunshine.

ALL COLORS, ALL PATTERNS, ALL SIZES, IN THE FAMOUS W. G. & R. BRAND.

Worth \$1.00 to \$1.25, Cut Price, 50c.

50c H. L. NELSON & CO. 50c

RAMSAY'S CHOCOLATES

in the following flavors:

MAPLE, VANILLA, COFFEE CARDIAL, WALNUT, NOUGATINE, Caramel, PERFECTION, PEPPERMINT, GINGER.

Ask for sample. For sale only by

White Drug Co.

Phone 82.

GREAT OPPORTUNITY FOR FARMERS.

Bring your goods to the right market and make no mistake.—The old Masonic Hall, opposite Sam Poirier's general store. We are paying the following prices:

Calf skin up to 75c.
 Sheep skin up to 70c
 Beef hide up to 7c.
 Horse hide \$2.50.

Hoping you will patronize me, as you will surely get the value of your stock,

I remain
 Yours truly,
S. Rosenhek.
 Manager, S. Decker.

FOR
COUGHS AND COLDS.

Don't Squint

Your eyes. A pair of colored glasses will break the bright light. To protect your eyes now will mean better sight later on. We have a full line of Colored Glasses at 25c, 40c, and up to \$2.50.

C. F. CLARE, The JEWELER.

We Have This Week

Celery, Rhubarb, Ripe Tomatoes, Sweet Potatoes, Bananas, Oranges, Lemons, Grape Fruit, etc.

FRESH FROZEN

Salmon, Halibut and Cod.

Wm. Currie & Co.

LONG DISTANCE SINGLE BARREL SHOTGUN \$5.00

Send us \$1.00 deposit, your name desired, and we will send this Guaranteed Long Distance Single Barrel Shotgun C.G.B. by express, subject to examination. You pay the express and the balance and return. This Fine Gun has a heavy, every part made of the finest material. It is a most reliable gun, and is fitted with any NITRO POWDER. Latest improved top wrap and shooting hammer, best quality steel works extra strong, heavy rubber best plate, full plated grip, thoroughly tested for pattern, penetration and accuracy. Order today or write for Special Gun Catalogue which contains single barrel shotguns at \$2.75 up to \$100.00, 12 gauge, 20 gauge, 28 gauge, 30 gauge, 410 gauge, 450 gauge, 475 gauge, 510 gauge, 540
