TOPICS OF TO-DAY.

Overhauling the Czar's civil list with economy recently, one of the covered was the payment of \$750 for "lip salve," which has been family ever since the time of Catharine, who is supposed to have chapped lips.

Female students have finally con- sidered their "alma mater" of Basle, among Swiss universities, has kept its doors shut against their return. A formal decree now allows only male students to be received. The experiment does not work well here, and the university will again be closed.

Great investigation has shown that the rate of Great Britain swallow over 1,000 pills daily, or one pill a week for every person in the population. The pill consumption for one year would weigh 178 tons, and would fill 38 freight cars, which would take two powerful locomotives to haul. Placed in a row the pills would reach nearly 6,000 miles, or from Liverpool to New York and back again.

The Austrian police at Ala, in the Tyrol, discovered in a railway carriage coming from Italy five little boys who were crying bitterly. The man who accompanied them confessed to having received the boys from their parents in exchange for food and money. He intended taking them to Hamburg, where they were to be shipped to the United States. The police were informed, and sent the boys back to Lucca, whence they came.

In Zurich, Switzerland, the other day, a beggar who opened the garden gate in front of a house where he intended to ask for food was attacked by a watch dog and bitten in the left arm. Soon after the owner of the dog, calling for heavy damages, on the ground that the dog had received a wound from the beggar, who had been rendered him permanently unable to work. The defense was that the beggar was just as well as ever, and that the injury in question, far from being a disadvantage, only increased his chances for life. But the court held that the proprietor of a house is responsible for the security of the people who come to visit him, even when the object of the visit is to make an appeal to his generosity. So the beggar won his suit.

Under the Hammer.
BRANTFORD, Ont., April 8.—An employee of A. Harris, Son & Co., named Arthur Brown, had his right hand terribly crushed yesterday morning by the steam hammer which he was running.

Poisoned by Paint.
BRANTFORD, April 8.—Lottie Narlat, a little girl aged 8 years, died on Saturday as the result of having swallowed a square of paint which a schoolmate had given her. The paint contained Paris green. Another child of 4 years swallowed ammonia, mistaking it for a cough medicine, but by prompt action its life was saved.

Mrs. Birchall's Movements.
NIAKARA FALLS, Ont., April 8.—Mrs. Birchall, accompanied by her father, Mr. David Stevenson, and her sister, Mrs. West, leave here to-day for Woodstock. Mrs. Birchall and her sister will remain at Woodstock until after the 15th inst. Mrs. Stevenson will sail on the White Star Line steamship Germania for England.

A Princely Gift to McGill.
MONTREAL, April 8.—W. C. McDonald, of this city, has given \$150,000 to found two chairs in the law faculty of McGill; \$50,000 to found a chair of experimental physics, and in addition will spend \$200,000 in putting up and equipping a building for technical education and physics. The total endowment will amount to \$850,000.

Miss Wiman's Narrow Escape.
NEW YORK, April 7.—Miss Mattie Wiman, daughter of Erasmus Wiman, had a narrow escape from being burned to death at her home at Tarrytown, N. Y., on Thursday evening. While striking a match the lace on the drape of her dress caught fire from a flying spark, and before the flames were extinguished Miss Wiman's throat and wrist were seriously burned.

Touched an Electric Lamp.
ST. JOHN, N. B., April 8.—Mattie Louise Shumack, 15 years old, died on Saturday from an electric shock. A week ago while at the Salvation Army barracks she touched an electric lamp with an iron poker, while at the same time she unconsciously caught an iron post, thus completing the circuit. She received a heavy shock, and after a few days' illness died in great agony.

Three Miners Killed.
KINGSTON, Ont., April 8.—Abraham C. Grant, of Oso, Joseph Hope, of Delorocque, and a Polisher, unknown, were killed on Copper Cliff mine, near Sudbury, on Friday afternoon. Men were working in the mine at the foot of an inclining railway, when a few minutes previously a carload of copper had been sent. The car was drawn off by a wire cable, which worked about a steam winch. The car had almost reached the surface when the cable snapped, and before the miners could be made aware of the accident the car crashed them and buried them to death.

The Boat Sugar Boom.
NEW ORLEANS, La., April 8.—The steamship Nymph has arrived here from Hamburg, Germany, loaded with elaborate machinery for the new beet sugar factory at Grand Island, Neb. She also brought over 80 tons of beet seeds. Several tons of these seeds go to the Agricultural Department at Washington. The department has had applications for seed from over 2,000 farmers throughout the United States, and further applications are constantly coming in. The plant at Grand Island, Neb., when completed will cost over \$500,000, and will have a daily capacity to work up 400 tons of beets. The opinion is expressed that the wheat and corn farmers of the West have a sure and profitable future before them in the cultivation of beets, which is a great source of profit of the European agricultural men.

Death of Banker J. S. Morgan.

Well-known banker, died to-day at Monte Carlo from the effects of injuries received by being thrown from his carriage while driving.

Invitation of France by Germans.

International Industrial Conference.

Madrid, April 8.—The Marquis de la Vega de Armijo, Minister of Foreign Affairs, formally opened the International Industrial Conference yesterday and welcomed the delegates. This evening the British Ambassador gave a banquet in honor of the delegates.

A Boy Hanged for Parricide.

London, April 8.—The appeals made on behalf of Richard Davies, the 18-year-old boy who, with his brother George, 16 years old, was sentenced to death for the murder of their father at Crewe, were unavailing, and to-day the prisoner was hanged. The younger brother was released.

Mutiny on Shipboard.

London, April 8.—A dispatch from Hong Kong reports a desperate encounter on board the German steamer Choo Foo, on her passage from Amoy to Delhi, between the ship's forces and 200 coolies, who murdered the officers. Thirteen of the coolies were killed before the mutiny was suppressed.

British Evacuation of Egypt Urged.

Paris, April 8.—The Sicile urges the Government to hasten a renewal of its demands for the evacuation of Egypt by the British. France, the paper says, has never assented to the presence of the British on the Nile any more than she has assented to the presence of the Germans in Alsace-Lorraine.

Madame Tchebrikova.

LONDON, April 8.—Madame Tchebrikova, who was reported to have been exiled by her letter to the Czar, is now at Pensa, in the Caucasus, in strict police watch. She was conveyed thither hurriedly in a carriage without windows. No halt was made except in the open air. Her food was abominable. She was constantly guarded by gendarmes, and not allowed to speak to anyone.

Why It Was.

LONDON, April 8.—The recall of the Bulgarian Minister at Belgrade last week was not due to the strained relations between the two Balkan powers, but to the fact that the Serbian Government had sent the Sofia Cabinet proofs of the Bulgarian Minister's intrigues against the regency of the Serbian Government. The Bulgarian Government in recalling its Minister showed that it was anxious to maintain good relations with Serbia.

Alexander Feels Better.

ST. PETERSBURG, April 8.—The Czar has entirely recovered from his indisposition. He will return to the Imperial palace at Gatchina on April 20. A commission of officials of the Ministries of Public Instruction and Police have made inquiries into recent riots among the students at the Technological Institute, and as a result 28 students will be expelled from St. Petersburg. The other students who were arrested have been released.

The Emperor and the Army.

BERLIN, April 8.—Emperor William's recent order with reference to commissioned officers in the army does not increase the pay, but lowers the scale of private incomes necessary to secure commissions. The Imperial receipt relative to the army has caused several officers to resign their membership in the Union Club, where gambling for heavy stakes is indulged in. It is stated that Emperor William will appoint a court of honor to deal with quarrels between officers in the army. The Emperor will only permit a dueler to be fought for a blow or an insult to a lady relative or fiancée to whom the offender refuses to apologize.

Emigration Decreasing.

LONDON, April 8.—The statistics submitted by the authorities in charge of British emigration show that since Jan. 1, 1889, the number of emigrants has decreased 8,000 below that for the corresponding period of 1889. This falling off, it is represented, is due to the fact that wages have increased at home until they are quite as high and in some cases, higher than the rates paid for similar employment in America, while the opportunities for obtaining work here are equally good. The evidence of improvement is attested by the fact that the number of immigrants arriving in England from foreign countries has increased since Jan. 1 by more than 8,000 in comparison with the months of January, February and March, 1889.

Diagnosed with William.

Edmund Yates, in his London letter to the New York Tribune, says the federal

princes of the Empire have no sort of belief in the brilliant capacity of Emperor William. They are disgusted and terrified at him. The Duke of Saxe-Coburg, Gotha, took advantage of his relationship to remonstrate in strong terms with the Emperor, and he was justified in so doing, as the trust friend and often the confidential adviser of his Majesty's father and grandfather; but his protest was of no avail. The Duke was so indignant that he refused to stay in Berlin for a Chapter of the Black Eagle, but went off to Coburg. The Duke's sentiments are most fully shared by the King of Saxony, the Prince Regent of Bavaria, and above all the Grand Duke of Baden.

Stanley and Emin.

LONDON, April 8.—Henry M. Stanley left Cairo yesterday for Brussels. Stanley reproaches the British East Africa Company for allowing American and Russian sportsmen to exhaust the resources of the territory, which, he says, is required for railway laborers—merely to decorate their stuccoed walls with furs, hides and horns without any return. It is better, he says, to allow the district to fall into the hands of Germany, who will not permit English buccaniers in her territory. He had hoped the district would revert to a single shot from being fired for crupor.

Father Schynz, who returned to the coast with Stanley and Emin, has published his diary. It is better, he says, to allow the district to fall into the hands of Germany, who will not permit English buccaniers in her territory. He had hoped the district would revert to a single shot from being fired for crupor.

Old World Wirelets.

The premium on the gold at Buenos Ayres is 187 per cent.

The French Government has ordered the construction of 30 torpedo boats in private yards.

Rev. Mr. Toulson, president of the Primitive Methodist conference, fell dead on the spot.

The German officials at Zanzibar are hastening preparations for the departure of the Emin expedition. It is believed the first objective point of the expedition will be the lake district.

A Constantinople dispatch says: Despite the fact that the Ministry supports the convention agreement entered into by the Finance Minister and the banking syndicate, the Sultan does not approve the project. It is expected the Ministry will resign.

A Vienna correspondent says Emperor Francis Joseph has decided to create several Ministers for the whole empire who shall be responsible both to the Crown and to the Bundsrath. The Chancellor is to be President of the new Ministry.

BEHRING SEA.

A Hith in the Negotiations Reported—Mr. Blaine "Put Out."

WASHINGTON, April 8.—Mr. Blaine is reported to be very much put out over the alleged action of the Canadian Government in objecting to the features of the convention negotiated between Sir Julian Pauncefote and Sir Charles Tupper as adviser on the one hand and the British Minister on the other. He is reported to be very much put out over the alleged action of the Canadian Government in objecting to the features of the convention negotiated between Sir Julian Pauncefote and Sir Charles Tupper as adviser on the one hand and the British Minister on the other.

Shylock in Toronto.

TORONTO, April 8.—Some Italians had a free fight in the West End, and an axe, several knives and many other weapons were used. One of the Italians had a wound on his arm, and it is likely his arm will have to be amputated at the shoulder.

Honors for the Late M. Chauveau.

QUEBEC, April 8.—The flag hangs at half-mast at the City Hall in respect to the memory of the late M. Chauveau. Her Royal Highness Princess Louise and the Marquis of Lorne have ordered a wreath to be placed on the coffin, and it is likely the body will have to be amputated at the shoulder.

\$500 for Breach of Promise.

HAMILTON, April 8.—A woman sues for \$500 for breach of promise. She claims that the defendant, a young man, had promised to marry her, and had then broken the promise.

Hanged in a Hammock.

WICHITA, Kan., April 8.—When the Rev. T. Thomas Cefton, pastor of one of the leading Presbyterian churches, returned from church Sunday he found his little girl, 1 year old, hanging in a hammock. She had been left by a servant playing in the hammock, and the child apparently got her head fast in the hammock meshes and swung down her feet falling to the floor by six inches.

Stories of Starvation in the Northwest.

MINNEAPOLIS, Minn., April 8.—It is reported the 1,300 Indians on Cour d'Alto's reservation are suffering for want of food, and that the aged and infirm are liable to die of starvation unless supplied at once.

Winnipeg, April 8.—A letter received from Hudson Bay, in the Athabasca district, says great distress existed among the Indians near Lesser Slave Lake during the winter, and in some cases the Indians killed and ate their own children, and dogs and all kinds of domestic animals were used for food, from which many Indians died.

"Egg-rolling."

WASHINGTON, April 8.—The White House ground presented a decidedly picturesque appearance yesterday, the occasion being the annual egg-rolling on the children of the district for the purpose of "egg-rolling." The entire grounds were turned over to the children, and several thousand spent a portion of the

day there. They were of all classes and conditions, from the colored pickaninny to the pampered child of luxury. They ragged together on the lawn and made a bright and animated scene. The President stopped occasionally in his work to look at them and seemed to enjoy the sight. The presence of the Marine Band, which was ordered out by the President for the special benefit of the children.

CHICAGO, April 8.—It is estimated that 7,000 carpenters here are on strike. In some places the bricklayers went out with the carpenters out of sympathy. EVERY HOUSE LVELED TO THE GROUND.
LOUISVILLE, Ky., April 8.—It is just learned here that Harper's Ferry, Henry county, was almost completely destroyed by the recent tornado. The village contained less than two dozen houses. There are many breaks in the levee from Lake Village up, and the water in the swamps has risen to within a foot of the 1882 flood. Little dry ground is to be seen. The streets are all under water except Front street, and water is running across it. The stock is huddled on the high banks, and with the exception of a few ducks, travel is suspended. Much suffering is sure to ensue.

CARRIED AWAY THE RAILROAD STATION.
CHICAGO, April 8.—The W. U. and the railroad wires to Prophetstown are prostrated. At the Chicago, Burlington and Quincy Railway offices, however, brief dispatches are being received from the station, which said the town had been carried by a severe wind storm, which had wrecked a grain elevator and several houses. The dispatch said nothing about loss of life.

ANGLICAN CHURCHES.

Business Before the Various
Easter Vestries.Interesting Statements of the Progress
of City and Suburban Parishes as
Shown at the Annual Meeting.The Easter vestries of the various Angli-
can churches throughout the city and
suburbs were held last night. At St.
Paul's Cathedral the Dean occupied the
chair and opened the meeting with a few
remarks, advising the adoption of the
envelope system, as the ordinary collection
was insufficient, and recommending the
erection of a school house and vestry. He
called attention to the fact that while other
churches in the city had expended much in
the way of building, St. Paul's had spent
nothing except the money derived from
sale of lands.Messrs. W. J. Reid and J. S. Pearce
were re-elected churchwardens. Follow-
ing is an extract from their report:RECEIPTS.

unanimously.After discussion as to some absolutely
necessary repairs to the church, Messrs.
Bremner, Labatt, Sippi, Jewell, Shawman,
Peters, Bayly, Barrow, Barker, Reid,
Weld and Pearce were appointed a com-
mittee, with Rev. R. Hicks as chairman, to
take steps in the matter.At St. John's the Rev. Mr. Hill, rector of the Church of
St. John the Evangelist, presided. After
signing of the parish register by members
who had not already done so, Messrs. W.
J. Imbach and Henry Macklin were elected
delegates to the Synod of Huron, and
Messrs. Chas. F. Complin and E. S. Col-
lins were again placed in the position of
people's warden and rector's warden re-
spectively. Messrs. Macklin, Paddicombe,

boham and Macklin were appointed sides-
men, and Messrs. E. Manigault and L. N.
Hayne were reappointed auditors.The rector read the reports of the
Parish Guild, the mothers' meetings,
Auxiliary Missionary Association, Ladies'
Aid Association, Parish Club and Sunday
school. It was decided to have these re-
ports printed and circulated through the

wardens, sidesmen, organist and choir for
their services during the past year, and thanked
the customary grant of \$300 was voted to
the Sunday school.The envelope system of contribution was
discussed and finally referred to the
wardens.The question of purchasing additional
land to the east of the church was then
taken up, and power was given to the
wardens to purchase in the necessary
quantity as occasion arose.A petition to the Council for a new side-
walk in front of the church block was
signed, and a plan proposed by Col. Shan-
ley for the improvement of the church
property was favorably discussed. The
meeting adjourned for the usual two weeks.

At St. Matthew's Church.

Rev. W. M. Seaborn occupied the chair at
St. Matthew's Church, and expressed his
gratification at the progress the Church had
made during the past year, and thanked
the gentlemen and ladies who had worked
to bring about such a result. After the
reading of the minutes of the last annual
meeting by Secretary Spicknell, Auditor
Stratford was called upon for the financial
statement, which was as follows: Receipts
from church collections, \$408; contribu-
tions—Mrs. Seaborn, \$100; Mr. Conner,
\$45; Girl's Aid, \$100; Ladies' Aid, \$72 55;
Mr. Minihinnick, \$72 55. Disbursements—
church expenses, \$397 08; paid off the
debt, \$482 21. Balance on hand,
\$28 01. Upon motion of Mr. Stratford,
seconded by Mr. Isaacs, a vote of thanks
was tendered the Ladies' Aid, Girl's Aid,
Minihinnick, Mr. Conner and Mrs. Seaborn
for their efforts in paying off the
debt, thus leaving them clear ground for
free exertions. A vote of thanks was also
tendered the choir for their excellent services.
Mr. Gardiner was retained as choir
master at a salary of \$50 a year. The fol-
lowing officers were then elected for
the ensuing year: Secretary,
Mr. Spicknell (re-elected); minister's
warden, Mr. Clark; people's warden, Mr.
George Minihinnick; delegate to Synod, Mr.
Oley; vestrymen and sidesmen, Messrs.
Gardwick, Percival, Isaacs, Oley, Mc-
Kenna, Laphorn, Henshaw, Jean,
Shoulders, Phillips, Martin and Brewer;
auditors, Messrs. Jean and Lawson. Many
of those present expressed their pleasure at
the bright outlook for the coming year, and
spoke in glowing terms of the manner in
which Rev. Mr. Seaborn was laboring for
the welfare of the church.

CHRIST CHURCH.

The vestry meeting in Christ Church last
evening was well attended. Rev. Canon
Smith presided. Mr. W. Brown was ap-
pointed secretary. The report of the
auditors was read and considered by the
congregation to be very satisfactory. Mr.
F. Robinson was elected rector's warden
and Mr. A. McCormick was elected people's
warden. Messrs. W. J. Element and W.
W. Rogers were appointed auditors. The
old board of sidesmen were re-elected for
the next year with the addition of Messrs.

tion was present at the vestry meeting of

ardson occupied the chair and Mr. G. H.
Harrison acted as secretary. The report of
the wardens for the year ending March 31,

000. Since that time \$2,320 had been paid,
leaving a balance due of \$3,680. The
report of the Sunday school gave the

W. Deberry, John Evans, A. Vick and E.
N. King. Messrs. Luscombe, V. Cronyn

the Synod.The question as to the best method of
taking up the special collections during the
year occupied much of the time. The
annual collection for the year was left in
the hands of the rector and church wardens.
The others it was decided to raise by the
envelope system.Votes of thanks were tendered the
band of "D" Company, I. S. C. Mr.
J. C. Wright, superintendent of the

the congregation.Reports from the Women's Aid Association,
Young Men's Society, Young Ladies' Society,
Auxiliary Mission Society, Girls'
Haven, Haverhill Mission Band, Minis-

healthy and flourishing condition.

STANLEY'S STORY.

The American reading public is seem-
ingly very much exercised to-day over the
Stanley books which have been published
and are now upon the market for its
patronage, and not without good reason.
The numerous editions offered are bolstered
up by such glaringly inconsistent state-
ments that the average reader, if he will
but exercise a reasonable degree of caution,
may readily perceive the deception
intended to be practiced upon him.The best rule for our friends to pur-
sue in this matter is this: See that the
publishers are well-known and legiti-
mate members of the Book Trade, with
thoroughly established business reputations
of many years' growth; that the title or
subject of the book really represents what
is wanted; and lastly, beware of the
publishers who cry the loudest over
imaginary frauds of other publishers.These can safely be set down as the ones to
be shunned, for the cry of fraud with them
is their only stock in trade—their best ad-
vertisement with the unthinking public."Stanley's Story, or Through the Wilds
of Africa," just issued by the
John E. Potter & Co., the old and well-
known publishers of Philadelphia, is a fine
realistic work, handsomely printed
from large, open type, on most excellent
paper. The work covers Mr. Stanley's en-
tire career in Africa, and is wholly discon-nected from the accounts of other explorers.
It is exclusively confined to its subject.
Henry M. Stanley, and gives all the in-
teresting and highly thrilling incidents in
his most remarkable career. Of
what he saw and what he experienced,
and not what others saw and ex-
perienced in years past, with a coating
of Stanley at the end, as in the case of the
Stanley in Africa. It is based on the official
reports and letters of the celebrated ex-
plorer and is therefore thoroughly authentic
in every respect. The illustrations are
highly artistic, specially the colored chro-
matic plates, and are characteristically
illustrative of the text throughout. The
style of binding is also a novel and attrac-
tive feature, and in which respect it far
surpasses all others. The work is only
sold by subscription. Agents desiring ter-
ritory should address the publishers at
once, as this book must have a very rapid
sale.

remarks an agricultural journal, is the
merest nonsense imaginable. If the farmer
had to rely upon the home market, he
would find it poor sledding. It is the
farmers' pork, beef, grain and cotton that
pays for all the sugar, woolen, cotton,
rubber, iron and other goods imported.
When they sell their products they com-
pete with the labor of the world and sell
for what they can get, but when they buy
they must pay a bounty to some protected
tariff monopolist of from 30 to 100 per
cent. Just so with the mechanic and
laboring man. He sells his labor in com-
petition with the world, but when he buys
he is on a par with the farmer, and is
actually robbed of from one-fifth to
one-quarter of his earnings, and he does not
seem to know it because he is not knocked
down and the money deliberately taken
from his pocket.LINDSAY POST: Mr. Wood, of Hastings,
has done well to call attention to the grow-
ing tendency of the pretty young school
mams to get married and leave the profes-
sion at an early stage. This is one of the
most serious drawbacks of the Ontario
educational system. It may not be so
marked a grievance when the country
adopts the Post's plan of largely increasing
or doubling teachers' salaries. The only
effective way is for Mr. Wood to bring in
a bill to prohibit pretty school mams from
getting married until they have devoted at
least (blank) years to the profession of
teaching. This would squelch the third
party, for "gooseberries" would not be
wanted. But it might lead to a Ministerial
as well as to an Opposition break-up, for
good-looking men like Mr. Meredith and
Mr. Hardy would never support a measure
of that sweeping kind. The Minister of
Education would be against it, too, though
not on exactly the same grounds.

GENERAL MIDDLETON'S CONFESSION.

Mr. Lister is spoken of by the special
correspondent of the St. John, N. B., Globe
as a "fearless and outspoken" representa-
tive of the people. He has well earned the
description through his exposure of various
rascalities that the Macdonald Ministry have
tried to gloss over. His latest achievement
is creditable to his good judgment and
kindness of heart. For years, serious
charges have been circulated against Gen.
Middletown, Mr. Hayter Reed and others
high in authority in the expeditionary force
sent to put down the Northwest rebellion
of 1885. These charges centered round the
robbery of a merchant named Brynner,
whose furs, to the value of several
thousand dollars, were taken from him
at the instance of the General in command.
If a statesman were at the head of the
militia of Canada, and not a mere dandified,
egotistical figurehead like Sir Adolphe
Caron, these serious charges against General
Middletown and other servants of the people
would have been investigated long ago now,
justice would have been done and the
offenders sent about their business. In-
stead of that, the Minister, the General and
the other delinquents were contented to
give a general denial to the accusation,
and when Mr. Lister, in the public
interest, took possession of the
papers, and expressed his belief that a
grave injustice had been done to Brynner,
he was accused of trying to make political
capital out of an ill-founded complaint. In
the House of Commons, too, Tory M.P.s
tried to excuse the Commander by bring-
ing a wholesale charge of looting the settlers
against the entire expeditionary force.
Never was a sweeping accusation so ill-
founded.The evidence of General Middletown has
now been heard, and he confesses that he
regarded Brynner as a rebel, and therefore
worthy of no respect. Hence his furs were
confiscated and divided between the Gen-
eral and his immediate friends. At least
they were packed with that object in view,
but according to General Middletown never
reached their destination, and strange to
relate mysteriously disappeared. Brynner
has all along denied that he was a rebel,
and though he was arrested and jailed he
has never been put on trial. But even if
he had been a rebel, we should like to
know by what law of Canada or of the
British nation, from which he obtains his
title, General Middletown felt authorized to
appropriate private property for the use of
himself and his fellows? It matters not
whether he received the appropriated furs.
He confesses that they were boxed up and
shipped to Winnipeg by his direction, andif they were lost in this way he is clearly
responsible for them. If they had been
retained in the fort at Battleford they
would have been as secure
as the other property taken to
that place of safety. It has always been
conceded that the commander of an ex-
peditionary force has a perfect right to
seize from the residents of a belligerent
neighborhood all supplies necessary for the
sustenance of the force under him; but it
cannot be contended that the furs appropri-
ated at Battleford could be classed in that
category. There was a time, of course, when
looting in the territory of an enemy was
authorized, and dreadful were the excesses
indulged in. But apart from the fact that
the Northwest rebels were not residents of
a foreign land, but a minority in the
country which sent out the expeditionary
force, it is well known that looting has been
absolutely prohibited by the British War
Office ever since the last war with
China, and it is most difficult to believe
that General Middletown was not well
aware of this fact. The best he can do
now is to amply repay his victim out of
his own purse, apologize to the Canadian
people and take a long trip across the
Atlantic. Recent developments have not
served to confirm the confidence of the
Canadian people in his management
of the Canadian militia. And, by the way,
would it not be an excellent thing for the
force if Sir Adolphe Caron could be pre-
vailed upon to join Sir Fred?

THE RECORD.

Yesterday the fourth session of the sixth
Legislature of Ontario was brought to
a close with the customary formalities.
Though there was a good deal of
business done, and the Opposition made a
big effort to manufacture campaign griev-
ances, it cannot be said that the session
was an exciting one. The fact is that
Hon. Mr. Mowat and his colleagues have
proved careful administrators of Provincial
affairs, and it is hard work for even the
most chronic grumbler to find fault with
them. That they are not perfect, and have
made mistakes, is but to say that the Min-
isters are human. It is only an Opposition
orator, a man who has never been in public
life, or a chronic fault-finder, who will
contend that a Government should be in-
fallible in all things. But while this much
may be acknowledged, it would be difficult
to point to an Administration now in exist-
ence the world over that has ruled with so
scrupulous care to conserve the interests of
the people who repose confidence in it,
or against which so little can fairly be said.We sometimes see statements in Tory
journals lamenting the small quantity of
new laws that have been placed on the
statute book. Our own idea is that in
the past there has been too much
haste to put forward new enactments.
And it cannot be denied that the Mowat
Government has been found ready to make
such reforms in the laws of the Province
as public experience has shown to be
necessary. To be sure, it has not gone as
far in the direction of tax reform as the
friends of the Government would like, but it
has made a good beginning in the direction
of tax exemption abolition, and the Premier
has promised another installment so soon as
the people, through their representatives,
show their desire to obtain it. Last
session, too, important temperance legisla-
tion has been passed. No liquor can in
future be sold on board lake steamers, and
in municipalities the man who wants a
license will have to show that a majority of
the taxpaying residents are in favor of his
application before the commissioners can
consider it. These provisions, coupled with
those which have from time to time been
added to the Ontario License Act, are in
the interest of the public, and will no
doubt be endorsed by all moderate men and
women. The large majority of the members
of the Legislature supported the views of
the Administration in regard to the steps
taken to further secure a thorough teach-
ing of the English language in the French
and German speaking districts of the Prov-
ince. It has been shown beyond the possi-
bility of a doubt that the Liberal policy is
to Anglicize these districts as thoroughly as
possible, and as speedily as can fairly be
accomplished, by the same agencies as are
now doing good work in New Brunswick,
in Wales and in other portions of the world
where another considerable portion of the
population speaks a language other than
English. The Mowat Government has
secured the sympathy of the parents of the
children. They are anxious to have their
children thoroughly drilled in English; but
they do not wish their own language to be
ostracized as had been proposed by Mr.
Meredith and his friends till the proposition
was shown to be utterly absurd.Another item of legislation on which a
good deal of discussion took place was the
law more clearly defining the statute which
sets forth the fact that a man can only be-
come a separate school supporter by giving
notice to the municipal authorities that
such is his intention. The statute was
clear before; the Government has always
declared that such was its intention; but a
county judge had chosen to interpret in
another way, and the possibility of making
errors is now reduced to a minimum.
Henceforth only such persons as have given
notice to the clerk of a municipality, and
have their names registered in a book kept
for that purpose, can be assessed as sup-
porters of separate schools, and it is provided
that if any mistakes are made the Court of
Revision shall remedy them, and if that
body fail in its duty, there is an appeal to
the Municipal Council. The separate
schools were established as a compromise
at Confederation. Without their conces-
sion the union of Canada would have
been impossible, and Mr. Mowat, in recent
debates, has shown that only by a rupture
of the Dominion, to which few, if
any, Canadians would be consenting
any, can they be abolished. In the cir-
cumstances, he has from time to time asked
the Legislature to aid in making these
schools as effective as possible. In this
work, up till recently, he has had the
unanimous support of the Legislature.
Even Mr. Meredith agreed to every
change that was made up to the time
when he found that the "Facts for Irish
Electors" were of no avail in seducing themajority of the electors from their al-
legiance to Ontario's Grand Old Man.
These "facts," which were issued after the
laws regarding separate schools were im-
proved with the unanimous consent of the
House, were compiled by Mr. Meredith's
man Friday, who had control of the cam-
paign literature of the Tory party. They
set forth that Mr. Meredith and his family
were the best friends that the separate
school supporters ever had, and that the
Mowat Government, far from being too
friendly to that section of the community,
as the race and religious firebrands of the
Tory party now allege, had not given them
a fair show. They were circulated with
the object of aiding Mr. Mowat's defeat.
The conclusion to which an inde-
pendent investigator is forced is that
Mr. Meredith's recent opposition to the
course of the Ontario Government is a last
desperate scheme to obtain office. The
Tory leaders have failed to unseat the Gov-
ernment by one class of cries—undoubtedly
dishonest cries—and they now try another
class, equally ill-founded, as we have had
occasion before now to show.The Government has also secured the
passage of a law for the encouragement of
mining, and another giving aid to railway
lines destined to open up the new districts
in Northwestern Ontario. From the Prison
Reform Commission, which it has promised
to appoint, we have no doubt that much
good will come. The prisons are largely in
the hands of the local authorities, and as
the investigation now ordered will enable
the County Councils to assist the
Government in its efforts to treat
crime on a scientific basis, and thereby aid
in reducing the number of offenders, the
commission is calculated to have far-reach-
ing influences. Under the Government the
other public institutions have been
economically managed, and at the same
time brought to a state of efficiency far in
advance of similar establishments in the
neighboring nation, and made to equal that
of any other civilized country. This portion
of the record is one which should not be
lost sight of by the electors when the time
for pronouncing upon it arrives. It is in-
deed one to be proud of.

Clancy, D. Creighton, G. F. Marter, A. F.

rescued himself.

Mr. O'Brien's Warm Choice.

[Montreal Herald.]
Mr. O'Brien, M. P. for Muskoka, says
he would prefer on the question of the fiscal
policy of Canada to "hang up to dry in the
reins of Pluto (H—) than to reign in
glory with the Grits forever." All right,
no Grit will object. Let Mr. O'Brien go to
Pluto and be hanged.
