## TWO HOTELS GET LICENSES

Mitchell's Bay And Big Point Establishments Are In Good Shape

Transfer For Park House Granted—The License Commissioners

A meeting of the West Kent License Commissioners was held yesterday afternoon in Harrison Hall at the hour of two o'clock. All the members were present and much business was transacted.

The minutes of the last meeting were read and adopted. The licenses of two hotels expire to-day, but after due consideration they were renewed or granted. The two hotels in question were Mitchell's Bay and Big Point. Mr. Wilson, of the Board of License Commissioners, stated that the hotels were in good shape. Mr. Wilson stated that the hotels were in good shape. Mr. Wilson stated that the hotels were in good shape.

Mr. Arnold was present and spoke in reference to the Mitchell's Bay. He stated that the contract had been let to Piggott & Sons and the work was going on as fast as it could. On account of the foundation being bad the work was not proceeding as fast as it might. The old building is partly moved over and the work is progressing as favorably as can be expected. Mr. Drew made a motion that the license for Hogan & Hoy be extended for one month on account of the work not being far enough advanced. The motion was seconded by Mr. Purser and carried. Next was brought up the following letter. Mr. Talous, of this city, has made application for the transfer of his tavern license for the premises on William street known as the Park House, to Mr. Alexander McNeill, of this city. After a thorough discussion it was moved by Mr. Purser and seconded by Mr. Wilson that the transfer be granted. It was carried by a unanimous vote.

## MR. PLUMERIDGE WAS A RESPECTED FORESTER

The death of George Plumeridge, West street, occurred yesterday afternoon at 1.30 o'clock after an illness of about six weeks.

Deceased was 68 years of age, and was a victim of nervous prostration. He has been a resident of this city for over forty years, being one of Chatham's most prominent brick masons. He was born in London, England, and came here when a young man. He was one of the oldest men of the Ancient Order of Foresters, and has been an employee of the corporation for years.

He leaves a widow, a family of three sons to mourn his loss. The sons are William, of Winnipeg; George, of West Lorne, and Albert, of England. The funeral will take place on Sunday at 2.30 o'clock from his late residence, West street, and will be conducted by the Rev. J. W. Wilson, of the Anglican Church. The interment will be made in Maple Leaf cemetery. The Veteran Firemen will attend the funeral in a body, and will meet at the fire hall for that purpose at 1.30.

## FUGITIVE CAPTURED.

St. John, N. B., June 1.—Word reached here late yesterday afternoon that A. E. Akersley, wanted in Seattle on charges of forgery, has been captured in L'Abadie, Que., by officers of the Canadian Detective Bureau. Akersley, who came from Seattle, was found in St. John on May 30, but before he could be got, he shipped to Montreal, then to Montreal, and finally, May 30, he went to L'Abadie, where he was landed. He is said to be one of the most notorious crooks in America.

## ONE KILLED, FOUR INJURED.

Ottawa, June 1.—A head-on collision occurred between two extra freight trains on the G. T. R. a little to the west of Beatty's Station, on the Depot Harbor branch, early yesterday morning. Fireman Alexander Rochon of Hull was killed, three freight cars were wrecked and two engines badly smashed. Engineer H. Cluff, Conductor A. E. Gorman, Engineer H. Champness and Conductor F. Graham were slightly injured.

## ONE SMALL INDUSTRY BROUGHT 74 PEOPLE HERE

Chatham Bending Works Has Added To Chatham's Population And Helps The City—Wolverine Company Will Do The Same Only On A Far Larger Scale—Henry Smyth Talks

A Planet reporter met Henry Smyth yesterday afternoon, and asked him what he thought of the Wolverine Brass Works by-law. In answer to the question, "Are you in favor of the by-law?" Mr. Smyth gave the following reply:

"Most decidedly; every ratepayer who cares a continental for the progress and continued progress of our good little city should support the by-law."

"Aside from any question of sentiment and of the benefit the city will derive from the expenditure for construction in the first instance—the yearly outlay for maintenance—the addition to the population and the fact that it is an establishment for the manufacture of a line of merchandise not in conflict with any of our other numerous industries—IT WILL BE A PAYING PROPOSITION TO THE CITY—IT WILL RETURN TO THE CITY, YEARLY, IN STRAIGHT ACTUAL CASH MORE THAN WE PAY OUT. It is practically casting a line with a 'Sprat' and landing a 'Salmon'."

"Showing the benefit the city has already derived and is deriving from one of our most recent industries—through the courtesy of this firm and for my own information, I have procured from the pay roll of the Chatham Bending Works Company the names of those who removed hither with them—with the members in each family—from which will be seen the extent the city has been benefited by the addition to our population from this one factory. Mind you this does not include all the workmen employed there, but solely those who came to Chatham and became citizens with them, and in nearly every instance property-owners. The total number of workmen is thirty-eight. If you will publish this list, as I am sure it will be a revelation to the public, and it may have the effect of increasing the enthusiasm with which the Wolverine by-law has been received by the ratepayers generally."

"It is a matter for congratulation."

## MERCHANTS ENDORSE BRASS WORKS BY-LAW

The following letter has been forwarded to every merchant in the city:

Dear Sir,—At our regular meeting of the 18th inst. the following resolution was adopted, "That the Retail Merchants Association recognizing the importance to the retail trade of securing new industries for our city, endorse the Wolverine Brass By-law, and request each of our members to render all the assistance possible in securing the passing of the by-law."

Knowing as you do the immense benefit this industry would be to the retail trade, we feel confident that you will comply with this request of the association, and leave no stone unturned in the interest of our city and our trade.

Yours faithfully,  
W. A. WINTERSTEIN,  
Secretary R. M. A.

## ANOTHER BLAZE IN MONTREAL

Dance Hall On Fire While Light Fantastic Is On

St. John's Church at Madoc Destroyed By Flames

Montreal, June 1.—A sensational fire took place early yesterday morning during the progress of a dance in a hall in the east end. A number of persons were compelled to jump from a third story window, and eighteen of them were more or less injured, some fatally.

Arthur Duperreault, a butcher, has succumbed to the injuries sustained by jumping. It was about 3 o'clock when the fire broke out.

The hall is in the top floor of a building, a few doors east of the City Hall, on Notre Dame Street. The fire started in the basement, the ground floor being occupied as a dry goods store by C. Marsolais.

The crowd of dancers upstairs became panic-stricken by the rush of smoke and flame, and started jumping from the windows before the firemen arrived. One man had both legs broken, and another his spine injured. The firemen rescued many by means of ladders. The fire did not amount to much, and was quickly extinguished. Many injured were taken to their homes for treatment, and it is difficult to ascertain the exact number hurt.

## Madoc Church Burned.

Madoc, June 1.—St. John's Church, the oldest church in Madoc, was almost completely destroyed by fire Thursday afternoon. The fire started in the roof of the building, burning through inside, destroying all the woodwork and the leading glass windows and the pipe organ.

## Serious Prairie Fire.

Snowflake, Man., June 1.—A prairie fire, starting on the prairie, caused considerable havoc for a few days, commencing May 24, and continuing on the 25th and 26th.

## FOUR BURNED TO DEATH.

Woman Tried to Save Children But Is Injured.

Long Branch, N. B., June 1.—The bodies of four persons were found yesterday in the ruins of the house occupied by Walter Schiffer, secretary of the United Cigar Manufacturers' Co., which was burned Thursday night. They were: Ruth Schiffer, aged 14, and Marjorie Schiffer, aged 10, daughters of Mr. Schiffer, and Tilly Monahan and Mary Diller, servants. In attempting to rescue her children Mrs. Schiffer was so severely burned as to be in a critical condition yesterday and Mr. Schiffer suffered severe burns in fighting the fire.

Two guests of Mr. and Mrs. Schiffer, B. Clifton and M. Broder, were also seriously burned. The servants were awakened barely in time to jump from the windows of the upper story, several of them being severely injured. The building was a blazing furnace before the fire alarm sounded.

## Stores Burned Out.

Kingston, N. Y., June 1.—A fire which started in the drug store of Eltand & Shoemaker on Wall street, yesterday burned out that store and the adjoining stores of Herman Marblestone, clothes, and W. Scott Gillette, wholesale, grocer and liquor dealer.

The total loss is estimated at \$130,000, partially covered by insurance.

## Compliment Bishop Dunn.

Quebec, June 1.—The Anglican Synod yesterday concluded its labors by presenting a complimentary address to Bishop Dunn on the completion of fifteen years of his episcopacy, enlarging upon his great liberality in his work as well as his fervency and zeal.

His lordship gave his entire salary to the work of the church, and since his consecration is said to have contributed to church objects in Canada over \$100,000.

The proposal to make arrangements for the appointment of a coadjutor was practically killed by being referred to a committee to report only in two years hence.

## Will Boycott Railway.

Philadelphia, June 1.—Because of the enforcement of the 2-cent rate on railways in Pennsylvania, the Reading railway have announced an increase in rates to suburbanites of Philadelphia of from 30 to 50 per cent. As a result the residents affected have commenced retaliatory measures. To an effective passenger traffic boycott against the Reading railroad is to be added an organized, persistent and determined freight boycott, which will cost the company thousands of dollars daily.

## MAY GET A MAIL DELIVERY

Ald. Chas. Austin Receives Word From Postmaster General

House Numbering Should Now Be Pushed Rapidly Ahead

Recently, Ald. Charles Austin, to whose committee the matter was referred by the council of the Board of Trade, wrote the following letter, re free letter carrier delivery, to the Postmaster-General at Ottawa:

Chatham, May 22, 1907.  
The Honorable R. Lemieux,  
Postmaster-General,  
Ottawa, Ont.

Honorable Sir,—In accordance with a resolution passed at a joint meeting of the Board of Trade and the City Council, the undersigned was requested to bring to your attention the claims of Chatham for a free postal delivery.

We understand that the policy of the Government is to extend free mail delivery to all cities and towns of 10,000 and over, of which the revenue exceeds \$20,000 per year. We are pleased to inform you that Chatham conforms to both these requirements. We inquired from Postmaster Barfoot as to the revenue last year, and he gave us the following figures:

For the year 1906, ending June 30, the revenue from Chatham post office was \$25,565.

From June 30, 1906, to March 31, 1907—the months the revenue was \$20,385, which is at the ratio of \$25,480 per year, and we believe, under conditions as they now exist in Chatham, it will continue to increase rapidly.

I may say that at the present time we are having the city thoroughly re-numbered, and this can be completed in a very short time should we be advised that the Department contemplated taking action.

There is a strong feeling existing here amongst the members of the Board of Trade and the citizens generally, that Chatham is entitled to this recognition from the Government. We would, therefore, respectfully ask you to take it into your early and favorable consideration.

Very respectfully yours,  
CHARLES AUSTIN.

Ald. Austin yesterday received the following reply from Hon. Mr. Lemieux:

Ottawa, May 29th, 1907.  
Ald. Charles Austin,

Chatham, Ont.  
Dear Sir,—I beg to acknowledge receipt of your correspondence of the 22nd inst., asking, on behalf of the Chatham Board of Trade and City Council, that a free letter carrier delivery system be extended to Chatham, and to say in reply that the matter will receive very careful consideration.

Sincerely yours,  
R. M. COULTER,

Deputy Postmaster-General.

This reply would seem to indicate that Chatham's chances for receiving free mail delivery are the very best, and it is to be hoped that the street numbering will not be delayed any longer than is possible.

## DR. HALL ATTENDS MEDICAL CONVENTION

Dr. W. R. Hall, local Medical Health Officer, has returned from Toronto, where he attended the convention of the Ontario Medical Association.

"The convention was a most profitable and interesting one," said the doctor. "It was held Tuesday, Wednesday and Thursday evening, and many important topics were taken up. On Thursday evening we were banqueted at the King Edward Hotel."

Dr. Hall discussed a paper on "Public Health Aspects," which elicited much favorable comment. Cuts of the doctor in characteristic poses appeared in the Toronto Star and the Toronto News.

## THIEVES PULLED OFF A SUCCESSFUL JOB

A bunch of eccentric thieves visited the vicinity of Prairie Siding some time during Thursday night.

Robert Atkinson got up the next morning to find that a set of single harness had been taken from his stables. It was afterwards discovered that the thieves next went to James Simon's stables, where they exchanged the harness, and took Mr. Simon's buggy. They next visited Sylvester Garbutt, where they exchanged the buggy for Mr. Garbutt's cart.

Leaving Mr. Garbutt's place, they apparently next went up the Middle Road to W. Hamilton's stables, where they exchanged the cart for a buggy. After their last visit they must have come to the conclusion that they had done a pretty good night's work, as they discontinued the trading process, and left for parts unknown.

The names of the thieves are as yet unknown, but the police of all the surrounding districts have been notified and are on the lookout for them.

### NEW AERIAL ACTS ASTONISH

Forepaugh & Sells Bros. Circus Imports Novel Features.

Among the forty aerialists with Forepaugh & Sells Bros. circus this season are the great Le Vans, celebrated throughout the world, and presenting this season something entirely new in the way of trapeze casting acts. The wonderful Flying Fishers, the greatest family of aerialists in the world, are others, while Miss Minnie Forepaugh, who leaps across the arena from one swing to another, and Miss Nettie Carroll, who is doing a daring bicycle act on a slender steel wire, are adding greatly to the interest of the high-air features.

Just as the aerialists excel, so do all the others of the 300 performers, riders, acrobats, bar artists, gymnasts, clowns and all. Made up largely of European talent, the circus abounds in novelty. The parade, entirely revised and reconstructed into something absolutely new, is proving one of the best surprises of the day, and the million-dollar fire spectacle, introducing the regular program, provides a half hour of most intensely dramatic interest.

When Forepaugh & Sells Bros. circus comes to Chatham on June 18, the size of it will be a great surprise. No other show can compare with it. In numbers it comprises 1,200 people, 500 horses, three herds of elephants, a caravan of camels, 500 other animals, seven acres of tents and 600 vehicles.

### The Modesty of Women

Naturally makes them shrink from the delicate questions, the obvious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all this annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispensed with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating diseases, irregularity and female weakness. It always helps. It is almost always cured. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicine entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of the ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing card. Send Dr. R. V. Pierce, Buffalo, N. Y., at one-cent stamps for paper-covered, or to stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

### Change in United States Subscription Rate

The Planet, in common with all other newspapers of Canada, has been notified by the Postoffice department at Ottawa that on and after May 8th next, the rate of postage on papers entering the United States will be changed from one-half cent a pound, bulk weight, to one cent for each four ounces or fraction of four ounces.

This means that single papers entering the United States will each require two-cent postage, that parcels of papers sent to one office will be four cents a pound.

In view of this, after May 8th the price of The Planet sent to the United States will be \$5 per annum.

There is a reduction in the actual price of the paper of over \$1, as the postage the publishers will be obliged to pay will be \$3.12 a year on each subscription. The Weekly Planet will be \$1.50 per annum, strictly in advance.

Cloud Bursts in Texas. Houston, Tex., May 31.—A series of storms, accompanied by cloudbursts, swept over this vicinity Wednesday night and continued until yesterday.

### BEHIND THE SCENES.

The Indifference of the Actor to His Stage Companions.

The indifference of the actor of almost every grade to the play and his fellow players is to the outsider one of the many innumerable things about this little known profession.

There is an authentic case of an actor who gained sufficient favor and fortune in a certain play to appear in it continuously for four seasons. Although he naturally played the principal part, he did not appear until the second act, and it is a well known fact that during those four years he never saw the first act played or any part of it. There is no life behind the scenes, because actors and actresses who amount to anything go at once to their dressing rooms immediately their scenes on the stage are finished.

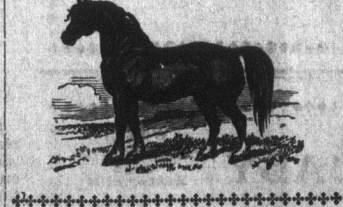

I recall an instance of a young woman whose dancing was a genuine sensation on Broadway for several years. She was very young and very pretty, and her engagement did much to establish the success of the theater at which she appeared. It must have been quite two years after she achieved her first success when the star, who was also the manager and owner of the theater, casually remarked one night in his dressing room: "Let's go down on the stage and look at Miss ———— dance. I have never seen her, but they tell me she is very good."—Outing Magazine.

It is quite possible for a fellow to be blown up without feeling inflated.

Obedience to law is ennobling; obedience is the king-pin to character.

## TROOPS FIGHT REBELS

Resulted in Victory of Chinese Government Forces.

Leader and Flags Were Captured—Over Hundred Men Are Killed—Gunboat Sent to Disaffected Places With Additional Troops—Swatow May Be Attacked—Famine Now Broken—Milk Supplied to Babies.

Canton, China, May 31.—A severe engagement has occurred between the provincial troops and a body of rebels, resulting in a victory for the former. The rebels lost over a hundred men killed and the Government forces captured the rebel leader.

Two thousand additional troops have been despatched to Chaochow. The Chinese gunboat, Sum Hong, having on board the fifteenth regiment of Chinese troops, has sailed from here for Swatow, to defend that city against a possible attack on the part of the rebels.

Chinese Famine Ended. Shanghai, May 31.—The famine which has prevailed for many weeks, causing hundreds of deaths and great suffering, has been broken. The crops are still thin, but the hot weather of the past a week has been favorable to a good yield.

American gifts have supplied milk regularly to 1,000 babies at the Hsu Cheo Fu Temple, while 200 more have been nourished occasionally. The children are left with their parents or relations, as the Chinese dread foreign orphanages.

What is left of the gift will be turned over to the Red Cross Society to relieve individual cases of need, and to grapple with the next crisis.

### LAFLAMME EMPHASISES.

Insists That Article Published Was True.

Quebec, May 31.—Judge Bosse yesterday having ruled against the evidence offered to prove Baron LePine's incapacity, all his testimony was allowed to stand and Laflamme spent all the afternoon addressing the jury for the defence.

He claimed Asselin's article in Le Nationalist was fully justified by evidence which showed that as charged, Prevost sold mining permits privately and landed as well. Thus one other paid \$1,000 for 200 acres, which he sold for \$100,000.

McKenzie had bought land for a few thousand, which he sold to a company with a capital of six millions, and declined to say how much he made out of it. He had been favored by being given permits fraudulently, which had been previously applied for.

"I have known men to serve time in penitentiary," said Mr. Laflamme, "for less offences."

He said that the mining department had been proved to be thoroughly demoralized.

### COBALT LICENSE SWINDLE.

Two Men Asked \$3,000 for Government Campaign Fund.

Toronto, May 31.—The provincial detectives have unearthed what they believe to be the beginning of a gigantic swindle in the sale of bogus liquor licenses in Cobalt.

Two men were arrested Monday. A man called Bright was taken into custody by Chief Caulback of Cobalt, and another, Davidson, of Ottawa, was arrested there, charged with conspiracy to defraud.

It is alleged that these men went to Cobalt and undertook in at least one instance to procure a liquor license for a Cobalt man in consideration of \$3,000, which should go to the Provincial Government's campaign fund.

They are said to have represented themselves as the fountain-head of influence, and to be able to produce licenses at the given figure.

Davidson is being sent to Cobalt, and the twin will appear there before Police Magistrate Brown this morning for a hearing.

Later in the day a despatch by wireless telegraphy was received from the coast guard station at Scilly Islands reporting that the two lieutenants had reached the station in safety.

### Many Bank Bills Lost.

Kingsport, Ont., May 31.—Early yesterday morning the frame house at the G. T. R. outer station, occupied by Mrs. Anna McKay, was burned to the ground. Mrs. McKay lost several hundred dollars in bank bills. She kept them in her room, and in her alarm left them until too late. She made several attempts to re-enter, but failed. The neighbors saved much of the furniture.

FRANK WESLEY HAYNES, Vice-President,  
Director of The New Lickard and Northern  
Ontario Mining Co.

We earnestly recommend that you purchase the Lucky Boys Gold Mines stock at 6 cents per share. This advice means riches to you. The time is not far distant when Lucky Boys will be paying large and continuous dividends. By buying now at a price you can afford to pay, you will be a participant in these assured profits.

As we have heretofore stated in our circular letters and advertisements, we are willing to stake our standing and reputation on the present conditions and the future outcome of the Larder Lake district and as to its possibilities. We believe it will be the most wonderful gold field that the world has produced. When we make these assertions it is after we have made most searching and thorough investigations. We do not believe that a financial house who has every facility at its command, having a number of experienced mining men in the field, and reliable and trustworthy mining engineers, could go to more pains regarding the actual worth of a gold camp than we have done. We have been most cautious and we are very particular as to what we recommend for investment. We have built up a big business and the investors who place confidence in us and follow our advice number many thousands. We guard the interests of our investors just as closely and with as much care as we do our individual investments. This is the reputation we have attained among the investing public. We have gone to great expense in ascertaining the true merits and real conditions of the Lucky Boys properties. In order to satisfy ourselves beyond question we despatched various crews of men to make examinations. They were supplied with all the necessities, such as hand drills, dynamite and camp outfits.

They have visited all of the properties, have blown out the ore, and we have had some assayed, not only by our own assayists but by others. The proofs that we have obtained demonstrate beyond question the great values of the LUCKY BOYS.

We say to our clients follow our advice in the purchase of shares of the Lucky Boys, rely upon our reputation and standing as being reliable and trustworthy. Follow our advice and you will make profits that will astonish you.

Law and Co. have experts and engineers who are rated among the best engaged in examining and reporting on properties. Only those properties which have every indication of richness are handled by us; all the others are turned down as too risky. Our engineers and experts are in the field at a great expense, and it would not pay us to simply make a report on and sell the stock in any worthless company.

We are looking far into the future, and we thoroughly realize that the only way to hold our customers and keep them interested is for them to invest their money in stocks that have merit and that are sure winners.

THE MAN OR WOMAN WHO INVESTS THEIR MONEY THROUGH US CAN SIT DOWN AT THEIR HOMES AND FULLY REALIZE THAT WHATEVER FUNDS THEY HAVE INVESTED HAVE BEEN WELL PLACED.

You can absolutely depend that the officers and directors of the Lucky Boys will expend the money received from the sale of Treasury stock in the development of the property. We wish to call your attention to the fact that 1,000,000 shares of the stock of this company are for the absolute use and benefit of the Treasury.

# 6c PER SHARE

If you will compare the price, 6c per share, and the organization and incorporation of the Lucky Boys against any of the other companies, you cannot but realize the great percentage there is in favor of your investing your money in this stock in preference to any other.

## THE WOLVERINE BY-LAW.

It is a matter of great satisfaction to the men who are devoting their time freely to boosting the Wolverine Brass Works By-law, to know that the measure is rapidly gaining in favor every day. This is as it should be, and it is exactly what was expected. The men who are responsible for bringing this proposition before the ratepayers of Chatham have implicit faith in the excellence of the scheme. The wisest business heads of the city have gone into the terms of the agreement carefully and fully, and the unanimous opinion from such competent men as these is that the proposition is the very best one ever offered to Chathamites, and one which will bring nothing but good to the city. And for all this, the city will not have to pay one cent.

What more could be wanted? When a city can get something for nothing, it would be the greatest of folly to refuse it, especially when that something is a concern which will give employment to labor, increase the population, and contribute annual sums of money towards reducing the tax rate of the city. No wonder the busy men in the commercial world, who feel their duty of citizenship, are neglecting their private interests in order to help along a proposition which is so plainly a scheme to forward the city's best interests!

In a circular recently sent out by the Industrial Committee of the Council, some very valuable information is given in reference to the by-law which is the subject of the hour among the ratepayers. The circular is intelligently written, and explains many points which heretofore have been rather hazy in the minds of the voters.

The city is asked to loan (not bonus) the Wolverine Brass Company, of Grand Rapids, Mich., the sum of \$20,000 for a term of 20 years, at 4 per cent, repayable in 20 annual payments of principal and interest.

The company agree to erect a building to cost not less than \$20,000, and to equip the same with machinery costing not less than \$12,000. The building will be large enough to employ 100 men. The company agrees to commence operations with not less than 25 men, and to gradually increase the number to the full capacity.

The city will be given a first mortgage on the entire plant, including machinery, valued at not less than \$35,000, and also the personal bonds of Cornelius Bros. for the re-payment of the first five annual installments.

The cost of the loan to the city is figured on the basis of three-fourths of one per cent, which makes an annual sum of \$78.75. Loss on taxes on the site, \$25; estimated cost of free water, \$35, making a total cost to the city of \$138.75.

To offset the above cost, the city will receive in school taxes alone the annual sum of not less than \$190.00, making, at least, \$59.25 which the city will receive in money above all expenses in connection with the loan and concessions.

The amount of \$53.25 per annum will be a net gain, so that not one cent will be added to the taxes, but on the contrary, the city will have \$53.25 per annum to apply to the reduction of the general tax rate.

The company will not receive one cent of the loan until the building is complete and in running order.

Among the advantages of receiving this industry will be: Spending \$20,000 among mechanics and workmen in erecting the building this year; Adding a valuable industry for the employment of labor; Increasing the population and making a demand for vacant houses, and the erection of new ones, all of which will add to the general assessment, with consequent lowering of tax rate.

Skilled labor will be largely employed in the new factory, receiving from \$2.50 to \$3.50 a day. The company is now paying \$2,000 a week in the Grand Rapids factory.

The company will manufacture brass goods and plumbing supplies, including 5,000 different articles. Their volume of business last year amounted to something over half a million dollars.

This will be all clear loss to the city if the by-law is defeated, so it will be seen that it is indeed very desirable that the by-law should be carried.

Polling day will be on June 5, next Wednesday, and this is a date which every ratepayer should keep in mind. It will pay everyone to vote FOR the by-law.

A statue of Napoleon has been recently erected at Montreux, France, on the spot where the Emperor uttered the words, "The bullet which is to kill me has not yet been cast."

We regret to record that the wife and daughter of the Venerable Archdeacon Sandys met with an accident yesterday afternoon, which might have resulted in much more serious consequences than we are glad to say, it really did. As we understand the facts, Mrs. and Miss Sandys had driven down to Thornbury Cottage to pay a visit to the family of G. W. Foot, Esq. On their return, and about a mile from town, the horse became restive, threatening to run away, and a Soldier of the Rifles who was walking along the road, caught hold of the horse's head to endeavor to quiet him. The horse, however, broke loose, throwing the soldier down and cutting a severe gash in his thigh with his fore-foot. Mrs. Sandys succeeded in stopping him by turning him into the fence, and, jumping out, she tried to quiet him. He immediately made off again, and Miss Sandys was thrown out, alighting on her head and receiving severe concussion. She was conveyed to her home and has since been attended by Drs. Askin & Holmes. She is recovering and is expected to be perfectly convalescent in a few days.

## ITALIAN FOUND GUILTY.

Convicted of Murder at Parry Sound on Christmas Day.

Parry Sound, May 31.—The trial of the two Italians, Capelle and Marano, accused of the murder of Daw on Christmas Day, as the result of a drunken row, was brought to a close yesterday.

A verdict of guilty was brought in against Capelle, while his companion, Marano, was acquitted.

All the evidence was put in on Wednesday, and the proceedings opened yesterday morning by the address of Mr. Keeler for the defence.

He spoke for one hour and devoted most of his remarks toward the defence of Marano.

Judge Teetzel's charge to the jury lasted upward of an hour and was considered very fair toward the prisoners.

At about 1.30 the case was given to the jury, and after deliberation of some four hours the verdict was reached.

Sentence will not be passed until the close of the term, as the two accused in the case just terminated, have two more charges against them, on which they will be tried during the present term.

## CLERICAL LIBEL SUIT.

Professors of Montreal College Settle Their Difference.

Gananoque, May 31.—The libel charge as preferred by Dr. Workman against Prof. Shaw of the Wesleyan Theological College, Montreal, has taken a great deal of the time of the ministerial sessions of the Montreal conference which opened here Wednesday, and is the main theme for discussion between sessions.

Dr. Workman and Prof. Shaw were both on hand. Dr. Workman was allowed to read the circulars issued by Prof. Shaw, but when he proceeded to comment on them he was ruled out of order. The question was then warmly debated and finally it was decided to have a committee deal with it.

The committee heard both Dr. Workman and Prof. Shaw and endeavored to get both to give and take a little. It is understood Prof. Shaw expressed regrets that he had made statement to the board of governors before they had been proved true, and also published without his knowledge, thereby doing an injustice and harm to Dr. Workman. Dr. Workman was willing to accept this and call quiet.

## MANY HURT IN WRECK.

Two Killed and Many Others Fatally Injured.

Elyria, Ohio, May 31.—Crowded with holiday passengers a Cleveland & Southwestern trolley car, bound from Wellington to Cleveland, was struck rear-end by another car at the corner of Sixth street and Middle avenue early last night, resulting in at least two deaths and 11 persons being injured. Two of those injured, it is thought, will die.

# SUNSHINE FURNACE

## THE LARGE DOUBLE FEED DOORS

on the Sunshine furnace provide an opening deep and wide enough to admit great rough chunks of wood that would either have to be wasted, or chopped up for an ordinary furnace.

As for putting coal in the Sunshine, why, it's the easiest thing imaginable!

Such a generous opening would be next to impossible to miss. And you can easily deposit the coal in any spot you desire.

After you have experimented with small feed-doors, and hit the edge of the door frame a few

times, you will recognize more completely the ease and advantage of the Sunshine method. The illustrations hint at the difference.

If you will examine the fire-pot of the Sunshine you will notice that the sides are straight up and down.

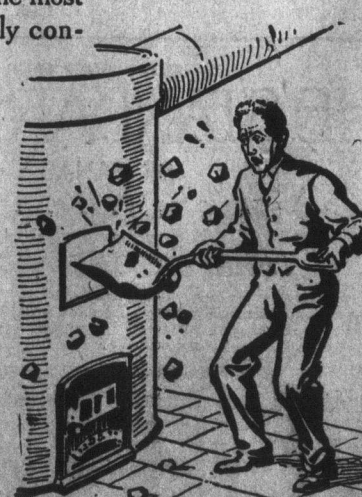

On many furnaces the fire-pots slope, forming a rest on which the ashes accumulate.

As ashes are non-conductors of heat they prevent the fire-pot from radiating as much heat as it should; they clog up the draft and deaden the fire.

But the Sunshine fire-pot is a wonderful radiator of heat. No ashes can cling to the straight, sheer sides of its fire-pot. The live, red-hot coals are always snug up to them. There is nothing to prevent the radiation of every unit of heat produced by the fuel.

The Sunshine is the most scientifically and perfectly constructed furnace. It radiates most heat with less consumption of fuel. It is the easiest-managed, cleanest, greatest labor and fuel economizer you can buy.

If your local dealer does not handle the Sunshine, write direct to us for Free Booklet.

## FALCONER FOR TORONTO.

Resignation Accepted by Board of Pine Hill College.

Halifax, N. S., May 31.—The Presbyterian College Board met yesterday morning. Principal Falconer, who presented and his resignation of the principalship of the college, in view of his decision to accept the offer of the presidency of Toronto University, was laid before the board. The action of the board was that, while greatly regretting to lose his services, nothing would be placed in the way of Dr. Falconer's acceptance.

The board unanimously nominated Rev. Dr. Magill, one of the professors of Pine Hill College, as Principal Falconer's successor, and Rev. J. W. Falconer, pastor of Fort Massey, to succeed his brother as professor of New Testament exegesis.

## WHEN YOUR BACK HURTS

Of course it's hard to work. Stooping over huts, lifting is tedious, and you wonder what to do. Ever try Nervine? Nothing like it for weak or lame back. It penetrates to the core of the pain, eases from the first application, brings cure that defies a relapse. No liniment is so clean, so soothing, so certain to kill muscular rheumatic or sciatic pain. Your dealer sells Polson's Nervine in large 25c. bottles. Why not try it?

## Coal Going Up.

Winnipeg, May 31.—G. G. S. Lindsey, of the Crow's Nest Coal Co., who was in Winnipeg yesterday, said: "A rise in the price of coal is inevitable, owing to the action of the public and the press."

The newspapers stated that the recent strike would tie up everything in the West and the effect of this in the striking miners was to make them feel that the rotation of the wheels of industry depended upon them, and consequently they became more independent than ever, for what the workman likes to think more than anything else is that he holds the key to the situation.

"The public can hardly complain, then, if the operators are forced to raise the price of coal on account of the increased wages which they will have to pay the miners."

## BLOOD, PURE, RICH, RED.

Roxy glow in the face, sparkling eyes, vivacious spirits are all the outcome of good blood. No surer way exists of purifying and enriching the blood than to use Dr. Hamilton's Pills. By their gentle action on the bowels, kidneys and liver they filter every impurity from the system, leaving it wholesome and able to do the work necessary for the maintenance of health.

To be well, look well, and feel well at your best use Dr. Hamilton's Pills of Mandrake and Butternut, a truly wonderful medicine for young and old. Price 25c. at all dealers.

## Mining Commission.

Alberta, May 30.—The Lethbridge mining commission began taking evidence yesterday morning. A number of miners stated their views, based on experience, plainly to the commissioners.

It was established that conditions in Galt are on the whole satisfactory, though ventilation and the system of paying men were criticized. There had been no fatal accident in these mines for four years.

The eight-hour day was strongly advocated as being conducive to more effective work and less liability to accidents.

When a boy turns his bulging pocket inside out we marvel at the quantity and variety of articles he has stowed away. Odd lengths of string, marbles, a horse-chestnut, a top, brass nails, hickory-nuts, an apple, and many other articles are garnered by this "snapper up of uncon sidered trifles." We think the collection must be hard on a boy's pocket. And it is. But do we ever think of the variety of the substances we put into the pocket of our stomach? There's the apple and the nuts, and things besides quite as indigestible as brass nails and with no more food value than so many marbles. And yet we wonder that the stomach "gives out."

When the stomach breaks down under the careless eating and irregular meals it can be perfectly and permanently restored to health and to strength by the use of Doctor Pierce's Golden Medical Discovery. The action of this medicine on the stomach and other organs of digestion and nutrition is so marked, that relief from disease is at once experienced, and the headaches, liver troubles, kidney disorders, skin eruptions and other symptoms of a diseased stomach are quickly cured. Dr. Pierce's medicines are purely vegetable—no alcohol or habit-forming drugs enter into their composition.

## FRIBBLES OF FASHION.

Exquisite French Fans—Crochet Buttons on Pique Suits.

Exquisite little French fans of green, reddish brown, blue and other colored silks with an inserted band of cloth of gold are works of art. These dainty and artistic breeze makers are spanned with golden sequins in wreath and feather designs, and the sticks are of sandalwood.

Pique and duck coat and skirt suits are braided in fine soutache. An occasional inserting of a heavy lace, such as Irish crochet and crochet lace buttons, enriches some of the gowns.

As in gay colors there ever lurks the element of coquetry, how irresistible will be the maidens who carry those quaint conceits, the crotone or chins parols!

Where skirts are made plain the best materials to use are the glossy ones, as they carry a certain dressiness with them. The new and very brilliant silks and the new satins make up admirably into the plain skirted suits. The skirts must be rather full and must have an elegant sweep, without which all style is lost.

An auto bag of dark green leather is lined with silk and fitted with brushes and combs and mirrors.

The illustration shows a charming blouse for a young girl. In the cut it is checked blue and white silk trim med with blue velvet and a chemise of white lace. The way the bands of velvet are arranged is decidedly chic and novel.

are very smart. For instance, a gown of gray and white printed chiffon has a surplus ice bodice folded over a cream chamois yoke and vest. At the top of the lace yoke is a narrow line of soft silvery green silk. Below the neck are three demure little bows of the same. At the elbow where the undersleeves of white mull emerge from those of chiffon and lace are narrow platings of the green silk.

Dainty summer frocks in batiste or muslin have finely gathered bodices and skirts, the uncommon touch being a box plait of satin ribbon down the center, decorated with tiny ruffled rosettes of ribbon in place of buttons. The neck is finished with the daintiest of small lawn and valenciennes collars.

Panama cloth is a favorite material for spring suits, and the model illustrated is of this cloth in smoked gray trimmed with braid. The little vest is of velvet overlaid with oriental embroidery, that gives a touch of color and brilliancy to the whole.

PALE AS A CORPSE

Dr. Williams' Pink Pills Brought Back the Ruddy Glow of Health.

Thousands of young growing girls have pale, pasty complexions, distressing headaches, backaches and sideaches. Sometimes they are unable to sleep; their nerves are unstrung; they are languid, breathless, and the heart palpitates violently at the least exertion—that's anaemia—and it may develop into consumption unless promptly attended to. Anaemia means bloodlessness. Dr. Williams' Pink Pills make pure, red blood—that's the secret of their success. Miss Winnie Allen, Montreal, Que., says:—"I was so weak and run down that my friends thought I was going into consumption. I was as pale as a corpse, had no appetite and did not sleep well. The least exertion tired me out and I walked a few blocks I was almost breathless. My sister advised me to take Dr. Williams' Pink Pills and after using them for a few weeks I am again enjoying good health and have a good color. I think every weak, sickly girl should take Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills make new, rich blood, and in this way strike right at the root of such troubles as anaemia, indigestion, rheumatism, St. Vitus' dance, the secret ills of girlhood and womanhood and a host of other every day troubles and cure them. But you must get the genuine with the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box—imitations never cure anyone and sometimes they do much harm. If your dealer does not keep the genuine Pills they will be sent at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Judge Morson's View of Sunday Selling Not Appreciated.

Berlin, May 31.—The 13th annual session of the Hamilton conference opened in New Trinity Methodist Church yesterday afternoon, over 300 ministerial and lay delegates being present. President R. J. Elliott of Waterloo, presided.

A civic welcome was extended by Mayor Bricker, who was accompanied by several aldermen, and the delegates were given the freedom of the town.

In speaking of the recent decision of Judge Morson in Toronto, Rev. T. Albert Moore, secretary of Ontario Lord's Day Alliance, pointed out that it only touches the City of Toronto and County of York, and does not affect any other portion of Canada, and he was confident that very few judges in the Dominion would coincide with Judge Morson in his opinion.

HOW DO YOU JUDGE A PIANO?

Musically inclined people naturally judge a piano by its tone—and that's why "Nordheimer" Pianos are found in the homes of so many musicians of note.

If you have an ear for tonal quality the remarkable beauty, sweetness, purity and volume, soothe "Nordheimer" will appeal to you.

We could explain at length the various mechanical contrivances which are incorporated in the "Nordheimer" piano to produce its unrivaled tone, but they would be understood by a mechanic only.

We much prefer you to judge this piano from what your own ear tells you about its tone—then you are sure to be satisfied.

Pleased to have you call at your earliest convenience and examine the "Nordheimer." The One Price System assures you a fair and square deal.

Our Mr. R. V. Carter will visit Chatham frequently in our interest and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.

Minard's Liniment Co., Limited, Yarmouth, N.S.

Gentlemen,—In January last, Francis Leclaire, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained of his recovery, his hips being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him, and he was freed from the pain, and with the use of three bottles he was completely cured.

A much appreciated musical concert was given at the House of Refuge last evening by Mrs. S. C. Walker and a number of her vocal pupils. The program consisted of Irish and Scotch ballads, duets and trios. The old people enjoyed the concert to the fullest extent, and the singers on the program were amply re-paid for their trouble in furnishing the evening of music, by the applause of appreciation tendered them by the inmates. Mrs. Walker herself gave a couple of fine solos which were much enjoyed. At the conclusion a vote of thanks was passed to Mrs. Walker and her able assistants for providing such an enjoyable evening. Douma Declines To Accept  
The Government's  
Explanation

Minister Of Justice Denies  
Stories Of Tortures  
—The Debate

St. Petersburg, June 1.—The Lower House of Parliament Thursday declined an unsatisfactory explanation made by the Government in the matter of the tortures inflicted upon prisoners at Riga, and consequently the affair will be submitted to the Emperor.

In the course of the debate the Minister of Justice denied that officials of his Department had taken any part in inflicting these tortures, as had been charged, and declared that the information of the Douma committee in this respect was absolutely untrue. Mr. Makaroff, Assistant Minister of the Interior, then denied that the police had been guilty of inflicting tortures. He said a preliminary inquiry had shown that in some cases policemen had struck prisoners with their fists, but these blows were never severe. A total of forty-two police officials had been arraigned on charges. He did not wish to justify their conduct, but under the existing abominable conditions the actions of the police might be excused by the cruelty of the revolutionaries. It could not be expected that the police always should remain calm when more than one thousand of their comrades had been killed or wounded in the Baltic Provinces alone.

The debate on the answer of the Government to the interpellation concerning the mutiny in the prison at Riga, April 13, when seven mutineers were killed and twelve wounded, was then continued. This matter last came up in the House on April 23. The Minister of Justice, M. Chlogolevitch, denied that medieval tortures had been inflicted on the mutineers, but admitted they had been beaten with Cossack whips and rubber sticks.

## GOVERNMENT FOR N. B.

Hon. W. Pugsley Resigns—New Members Sworn In.

Fredericton, N. B., June 1.—Hon. Wm. Pugsley last night placed in the hands of the Lieutenant-Governor his resignation. His honor accepted, and called Hon. Clifford W. Robinson to form a Cabinet.

The new Premier announced his Government, which was sworn in, as follows:

Premier, Provincial Secretary and acting Attorney-General—Hon. C. W. Robinson.

Commissioner of Public Works—Hon. C. H. Labllois.

Surveyor-General—Hon. F. J. Sweeney.

Solicitor-General—Hon. W. P. Jones.

Commissioner of Agriculture—Hon. L. P. Farris.

No new members were taken into the new Cabinet, but it is likely such will be the case before long.

Mr. Jones will then probably become Attorney-General.

## MOTORMAN ARRESTED.

Held Responsible For the Death of Seven People.

Elyria, June 1.—C. M. Forney, motorman of a Cleveland and Southwestern traction car, was arrested in Cleveland yesterday and brought here to answer to the charge of being responsible for the death of seven persons, killed in a traction accident here early Thursday evening, and for the injury of eight more persons, several of whom will probably die. He pleaded not guilty and was held in \$5,000 bonds.

Forney was operating a car which ran at high speed into the rear end of another standing still on a straight track in broad daylight.

## Against Conciliation Board.

Ottawa, June 1.—The Labor Department has received a telegram from A. M. Nanton, manager of the Alberta Railway and Irrigation Co., protesting against the appointment of a conciliation board, as requested by the men, in connection with the labor troubles at the Lethbridge mines.

He says that there are no grounds of dispute to justify the appointment of a board, and he thinks the Department acted hastily. He also protests against Sherman being on the board, and asks for reconsideration.

## CUSTOMS REVENUE HIGH.

Increase of \$1,208,968 Announced For the Month of May.

Ottawa, June 1.—An increase of \$1,208,968 in customs revenue for the month of May is the decidedly satisfactory statement handed out yesterday by the Customs Department. The total revenue for the month was \$5,333,253, as compared with \$4,124,285 for the corresponding month of last year. For the first two months of the present fiscal year the revenue has been \$9,801,647, an increase of \$1,736,367 over the same period of last year.

## Yukon River Open.

Winnipeg, June 1.—Postoffice authorities received a telegram announcing the opening of navigation on the Yukon River. The telegram arrived at 7 o'clock, and one hour later more than a ton of merchandise that had accumulated at the various mail order houses in the city during the winter was started on the way to that destination.

The regular navigation opens on June 5, and all the different classes of mail are now being forwarded to points beyond White Horse.

## FRANCE IN DANGER

General Strike of Sailors Belonging to Naval Reserve.

Paris, June 1.—French commerce is threatened with complete paralysis as a result of the general strike of sailors belonging to the naval reserve which went into operation at daylight yesterday in all the ports of France. The naval reserve comprises almost all the entire maritime population devoted to seafaring life. They number about 117,000 men, of which 25,000 belong to the war fleet. Practically the entire personnel of the merchant marine, as well as the longshoremen, are inscribed in the naval reserve. The Executive of the National Seamen's Union ordered the strike because the members of the union regard the Government's new bill, increasing pension from \$40.90 to \$72.50 in the case of seamen and from \$136 to \$230 in the case of captains, as being inadequate.

The reports thus far received indicate that the tie-up is complete. The Government promptly ordered the army transports at Marseilles to be placed in commission in order to insure a mail service between France and her African possessions, but the transportation companies were taken by surprise and are at the mercy of the strikers. The officials of the French Transatlantic Co. hope that the steamer La Provence will be able to sail from Havre to-day.

Legally, the companies are in a position to coerce the men, as, being members of the naval reserve, the crews are subject to heavy penalties for insubordination, but it is regarded as more likely that they will try to effect a compromise.

## More Going Out.

Bordeaux, France, June 1.—A meeting of the seamen, held last evening, confirmed the decision to strike, and from 15,000 to 20,000 men go out to-day.

## Arrange for Mails.

Toulon, France, June 1.—The transports Vindol and Nive left yesterday for Marseilles, following instructions sent out by Minister of Marine Thomson, in order to assure the transportation of passengers and merchandise to Corsica and African ports. The transports Mythe and Shamrock will follow to-morrow. Twelve torpedo boat destroyers have been designated to carry the mails.

## PREMIER GOUIN RETURNS.

Came Sooner Than Expected, Declines to Discuss Politics.

Quebec, June 1.—Premier Gouin returned from his European trip yesterday, his first enquiries on landing being naturally as to the progress of the Asselin-Prevost libel case. He declined to discuss in any way the changed political conditions produced by the revelations during the trial, or even to admit their existence, except to deny most absolutely any knowledge of the existence of the alleged election fund mentioned by Baron Lepine.

There were interchanges of courtesies in London between the Quebec party and Sir Wilfrid Laurier and his party, the Canadian Premier being reported by Mr. Gouin to be in the best of health and spirits and looking very large in the public eye on the other side of the water.

President Fallieres received him cordially in Paris, the Pope gave him a private interview, and Cardinal Merry Del Val, papal secretary of state, entertained him at dinner at the Vatican.

## Fushimi Sails.

Liverpool, June 1.—Prince Fushimi sailed for Canada yesterday by the Empress of Ireland.

Other distinguished passengers are the Earl and Countess and Lady Sybil Grey, Sir Frederick Borden, Sir Joseph Simmon and Sir Charles Ross.

Addressing Prince Fushimi at Euston Station prior to his departure for Liverpool, Sir E. Davidson, equerry to the King, said King Edward hoped he would thoroughly enjoy his stay in Canada.

## Station for Port Arthur.

Port Arthur, June 1.—The Grand Trunk Pacific Co. have completed the purchase of a site for a station here. The price paid was fifteen thousand dollars.

That railway will do considerable work at Port Arthur.

## Lord Barrington to Hang.

Jefferson City, June 1.—The supreme court on June has decreed that "Lord" Frederick Seymour Barrington, now in jail at Clayton, Mo., shall be hanged July 25 for the murder of J. P. McCann, a St. Louis horse man.

**Carefully Milled From The  
Finest No. 1 Manitoba and  
Ontario Red Winter Wheat**

OUR method of combining the finest No. 1 Manitoba with Red Winter Wheat so as to make the most perfect bread and pastry flour—so as to retain both the nutriment of the Manitoba and delicate flavor of the Red Winter Wheat—would be wasted if our milling process was not so absolutely perfect.

The extreme care we take in milling "Kent Mills" Gold Medal Flour might seem unnecessary to the casual visitor to our big plant.

The most improved devices for manufacturing flour are used.

You should see our immense rollers in operation. These gradually reduce the wheat to flour—do not crush it to powder and take the life and nutriment out of it as in the old fashioned way.

By our improved system the gluten and starch cells are carefully and entirely separated from the indigestible bran and cellulosic coats, and partially crushed into myriads of tiny, sharp, white granules of uniform size.

Not a grain of the wheat germ, which impairs the keeping qualities of the flour, or any other substance that shouldn't be there, can possibly get into "Kent Mills" Gold Medal Flour.

It's always uniform, always dependable—the highest grade, most satisfactory flour for household use.

Order from your grocer to day.

Every bag or barrel "Kent Mills" Flour guaranteed by both the manufacturer and dealer.

Precipitated Into Cellar.

Sixty Persons Have Nasty Fall at  
Wilkes-Barre—Bishop Hoban of  
Scranton Gets Severe Shaking—  
Accident Due to Insufficient Brac-  
ing—Injured Rescued With Ladders  
By the Police.

Wilkes-Barre, Pa., May 31.—At the laying of the corner-stone of St. Mary's Greek Catholic Church yesterday, a temporary flooring collapsed, precipitating about 60 persons into the cellar, 12 feet below.

For over an hour the utmost excitement prevailed. The screams of those in the wreckage and the groans from the injured could be heard for a block away. Ladders were obtained from neighboring factories, and with the aid of the police, the injured were removed from their perilous position. Some were able to walk to their homes. Others were removed to hospitals in ambulances.

The accident, it is said, was due to insufficient bracing beneath the new floor.

Bishop Hoban of Scranton, who went down with the wreckage, was at first reported to be seriously hurt. He was soon rescued by friends and removed to a place of safety. He was badly shaken up, but escaped injury.

**CAMPAIGN IN WEST YORK.**

Suddenness of Campaign Hardly Appreciated By Electorate.

Toronto, May 31.—Canvassers in the West York campaign report a surprising lack of knowledge among electors that a contest is imminent in this riding.

The speed with which the vacancy in the local House is being filled is believed to be mainly responsible for this, as it has allowed little time for public meetings. The election takes place to-morrow (Saturday). The riding comprises Etobicoke and Vaughan and York Township west of Yonge street, the towns of Toronto Junction and the villages of Weston and Woodbridge.

The candidates are Dr. Godfrey, Conservative; Eaten William, independent, and F. J. Peel, Socialist.

**SHOT SISTER AND SELF.**

Two Little Girls Found Dead In River

Springfield, Ill., May 31.—Carrie Lederbrand, 7 years old, and her sister Cora, 17 years old, daughters of Joseph Lederbrand, a farmer, were murdered and thrown into Sugar Creek Wednesday, and the bodies were found that night by the girls' father.

The girls left home early in the afternoon.

Dr. Duncan found that each girl had a bullet hole in the right temple. It is believed that Cora shot her invalid sister Carrie and then killed herself. Cora had often complained that she was unable to associate with other girls because she had to care for Carrie.

**SHOT AT BISHOP.**

Attempted Assassination Foiled By Young Priest.

Lublin, Russia, May 31.—An attempt was made to assassinate Bishop Yatshevsky, of the Catholic church.

A man, who subsequently was identified as a socialist agitator, who had twice been imprisoned, fired several shots from a revolver at the Bishop while the latter was walking through a street here and then attacked him with a dagger, slightly wounding the prelate.

The latter's life was saved by a priest, who sprang before the Bishop. The would-be assassin was captured by the police.

**COTTON SHIP AFIRE.**

Reaches Port With Cargo Ablaze and Decks Crumbling.

Hamilton, Bermuda, May 31.—The British steamer Boniface from Galveston for Liverpool arrived here yesterday morning with her cargo of cotton on fire.

The Boniface carried nine passengers, eight of whom are women. The flames were discovered May 26, when the vessel was 700 miles from Bermuda. The hatches were battened down and the Boniface was headed for the island. When she arrived here her cargo was burning furiously and her decks were crumbling in.

**Cow Runs Amuck.**

Exeter, May 31.—While 300 children were dispersing from school a cow, being led by a young man, got enraged, charged into the crowd. It carried one boy for a distance on both horns and threw him to the ground, and then pinned a 12-year-old girl named Welch to a fence. The horns, however, escaped her body, but she had a leg broken.

**Forger Being Deported.**

Ottawa, May 31.—Geo. Shenton, who, on May 18, presented a forged cheque for \$60, bearing Nelson D. Porter's name, has been ordered to be deported by the Dominion Government. He will be put on board the steamship Ionian.

He came from Yorkshire, Eng., about ten months ago.

**Election Not Yet.**

Ottawa, May 31.—There will be no general election this year," stated W. S. Calvert, M.P., chief Liberal whip yesterday.

"We gave our word to the leader of the Opposition that there would be another session before dissolution and it holds good."

Race Train Derailed.  
New York, May 31.—Several persons were injured, none fatally, when a Long Island train was derailed at the Belmont Park race track station yesterday afternoon.

**LEA and PERRINS'

Seventh race—3-4 mile, 4-year-olds and up, selling, \$400 added—Fire Fang, 1st; Balfot Box, 2nd; Court Martial, 3rd. Time, 1:14.

**Indigestion**

Stomach trouble is but a symptom of, and not itself a disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nervous condition.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Restorative—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. With-out that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Queen of Norway Has Narrow Escape In Paris.

Paris, May 30.—While King Haakon and Queen Maud of Norway were driving in the park of Versailles yesterday, accompanied by President and Mme. Fallieres, the leading horse attached to the carriage containing the Queen and Mme. Fallieres suddenly reared while crossing a small bridge and jumped over the parapet into the water, dragging the postilion over the bridge.

The two ladies were somewhat alarmed, but happily they did not sustain any injury.

The postilion was dragged out of the water, none the worse for his wetting, another horse was attached to the carriage and the party proceeded.

As a souvenir of their visit to the French Government has presented to their Norwegian majesties a gobelin tapestry, some fine engravings from Louvre, and several Sevres vases. M. Fallieres has decided to go to Norway during the summer and return King Haakon's visit.

It is entirely probable that his trip will be extended to include England, Denmark and other countries, whose sovereigns have been guests of the French republic.

**STOMACH TROUBLES**

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

**BURDOCK BLOOD BITTERS**

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicines from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had done with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price \$1.00 per bottle or 6 bottles for \$5.00.

## LITERARY

The June number of Keith's Magazine on Home Building opens with The Making of a Home, by Una Nixon Hopkins. The illustrations which accompany it show the exterior and two views of the interior, which exhibit an ideal, artistic, cozy home. A special feature is the sun room. What Will the Exterior Be deals with various materials that are suitable for exteriors, and the illustrations show some very new ideas. General Use of Terra Cotta Blocks and Fire Proof Brick is a most instructive paper.

A special feature of this number is the department for designs and plans of flats; these are given from sizes suitable for two people to large Apartment Houses, and are furnished with every convenience.

The Decoration and Furnishing Department, Household Economics, Table Chat, Architect's Corner, etc., are all up to their usual high standard.

For sale at all news dealers' at 15c. a copy, or \$1.50 per annum.

To burn a letter may show a lack of sentiment, but it is in very many cases a mark of good judgment.

**Straightened Out the Blunder.**  
Beef was very scarce in Ladysmith during the siege, but General Sir Ian Hamilton, then a colonel, insisted that "horse is not half bad when properly cooked and when one is used to it. In fact," he said, concluding a discussion, "I have a joint cooked tonight, which I hope you will all sample. Of course, there's beef, too—tonight!" Every one at the table preferred the beef, with the exception of Colonel Ward and Ian Hamilton, who ostentatiously carved generous slices from the "horse-flesh." The dinner was nearly over when one of the servants whispered a communication to Ward. Up he sprang. "I'm distressed, gentlemen," he announced to the startled company. "A silly mistake has been made. Those joints were mixed up somehow, and you have been eating the horse. I'm really annoyed. But I hope you'll be convinced now that the meat is splendid eating. I'm sure you all seemed to enjoy it." Glances were exchanged; mustaches were twirled. Nobody seemed ready with a response. Then a voice from the bottom of the table piped up: "Oh, don't distress yourself, Ward! I thought some mistake had been made, so I just changed those dishes as they stood on the sideboard. It was you and Hamilton who had the horseflesh all right!"

### INTERNATIONAL S. S. LESSON FOR TO-MORROW.

(By Dr. R. A. Torrey.)

Moses Called to Deliver Israel. — Ex. 3, 1-14. Read the chapter.

Golden Text—"And He said, certainly I will be with thee."

Moses is found faithfully tending the flock of his father-in-law, the Priest of Midian, in the lonely wilds of Mount Horeb, when a bush flaming yet unconsumed aroused his curiosity and he turned aside to investigate. Suddenly God's voice called him by name twice, to halt and remove his sandals, for God Almighty's presence made the ground under his feet holy ground. God announced to him that He was the God of thy father and of Abraham, Isaac and Jacob, who had hundreds of years before found a home, just as they expected in the Holy City, whose builder and maker is God.—Heb. 11, 10-16.

God has four things to tell the fearful Moses to begin with.

1. I am the God of Abraham, who made him a promise.
2. As a father pitied his children, so the Lord had seen their affliction and heard their cry.
3. I am going to deliver them from their cruel slavery, and fulfill my promise to bring them into the land of Canaan.
4. I will send thee, Moses to be their deliverer and lead them forth. God speaks His will very plainly. Will Moses promptly respond? A soldier's first duty is to obey and ask no questions; but Moses asks questions and raises objections. What are they?

1. What fitness have I for this great mission?
2. When the Hebrews question my authority and demand the name of He who sent me, how then?
3. They will not believe me or heed me, but count me a fraud or a fanatic.
4. I am no good at public speaking; send an eloquent man.

Here are God's answers:

1. It is not a question of thy fitness, but of mine. "Certainly I will be with thee," for this is my affair.
2. Moses is commissioned under the new name, (I am), which stands for God as the ultimate being, and the supreme cause of all that is.
3. If they will not believe thy word show them the signs mentioned.—Ch. 4, 2-9.
4. Who made the machinery for speech, the mouth and voice? Did not I, and can I not use what I created, and teach thee what to say? If the lives of men are planned out by God's wisdom and love, and He begins to lead us, what folly to question and mistrust and grieve the Holy Spirit, trust and obey.

## THE One Minute Washer

Revolutionized the soiled clothes question and makes domestic life easy. A fly wheel under the bottom of the tub of the One Minute Washer is a feature of the machine exclusively its own. This fly wheel is driven by a gear wheel with crank attached and revolves on little steel balls like the wheels of a bicycle. You would be surprised how hard it is to stop the machine when once it is in motion. Two strokes of the handle are sufficient to get up speed and then the fly wheel does half the work. The construction of this machine is the very best and is made of Louisiana cypress imported from the United States. The machine filled with clothes to its capacity makes from fifteen to twenty reciprocating motions (forward and backward) before coming to a stand still.

Parry Sound, June 1.—The trial of Frank Capelle, convicted already of murder, and his chum, Eugene Marano, acquitted of complicity in that crime, for an assault which occasioned grievous bodily harm to the person of Angus McLeod was continued Thursday after the first jury had rendered its verdict, and at about 11 o'clock the second jury found both prisoners guilty of the joint offence, Capelle having done the actual stabbing, and was assisted and countenanced by Marano.

Yesterday morning all the prisoners convicted at this Assize were brought up for sentence. James Vancouver, a boy said to be under the age of 14, was convicted of indecent assault on a little girl, his age saving him from a more serious offence, and he was sentenced to be imprisoned three months in Parry Sound jail, and to receive two whippings of ten lashes each on the first Thursday in June and the first Thursday in July.

Eugene Marano, for the assault, was sentenced to three years in Kingston Penitentiary, less the time he has been confined here awaiting his trial. Frank Capelle, for the murder of Dow, was sentenced to be hanged in Parry Sound jail yard on Thursday, the 1st of August next.

In sentencing the prisoners, the judge commented strongly on the habit of Italians and others carrying daggers, knives or pistols, and said that it would be a good thing for the country if some law would be made. Marano, after his release, would constitute himself an apostle to his countrymen to urge them to lay aside their old country habits of carrying weapons and learn to trust to the strength and protection of the just laws of Canada.

**BREWERS' UNION DEAD.**  
Expelled From American Federation of Labor for Rebellion.  
Chicago, June 1.—The last barrel of “union” beer in Chicago and the whole country, according to an edict of the American Federation of Labor, was manufactured yesterday.

At midnight the Brewery Workers' Union ceased to exist, in the eyes of the national labor leaders, and the two million working men in the United States will be asked to “get on the water wagon,” or use some other kind of beverage.

The brewery employees have rebelled against President Gompers and the National Labor Executive Council, and they are to be disciplined. The method adopted is that of expulsion.

Two months ago the National Labor Council met in Washington and gave the Brewery Workers' Union until June 1 to comply with an order to oust all engineers, firemen and teamsters from its organization. They refused.

Scheme For Enlarged Navy Demands Economy.  
Madrid, June 1.—The scheme for an enlarged navy, now being carried forward under the direction of Minister of Marine Fernandez Nino, has necessitated extensive reforms and economies in other directions, and, as a result a number of overpaid officials are hard hit.

Consequently, the Minister's plans are receiving considerable opposition at some of the arsenals and naval stations, whence a number of heated protests have been received. The Minister, however, is supported firmly by the Cabinet and the Chamber of Deputies, and is proceeding with his policy in spite of this opposition.

## MOVES CLIENT TO TEARS.

Lafamme's Dramatic Address In Quebec Libel Suit.

Quebec, June 1.—Counsel completed his address to the jury last night in the Prevost-Asselin libel prosecution, and only the charge of the judge remains for to-day before the case is left in the hands of the jury.

The general expectation here is a disagreement of the jury.

Before the startling evidence concerning the election fund came out, most people looked for the conviction of Asselin, the Ministerialists seeming sure.

So confidently do they count on political friendship in these matters that a member of the Government yesterday claimed nine of the jury would be for Asselin's conviction.

While Lafamme, M. P. P., made strong and eloquent appeals in the defence of Messrs. Prevost and Turgeon and against the accused, treating Baron Lepine's evidence as largely false, the real sensations of the day occurred in the masterful address of Mr. Lafamme, whose peroration on behalf of the accused so affected the overwrought feelings of his plucky but excitable young client that the latter burst into tears being utterly unable to control himself any longer.

Mr. Lafamme said Turgeon's evidence was unsatisfactory, because he contradicted in court what he had declared in the House concerning the Belgian syndicate. He had entrenched himself behind his state secret in other matters as Prevost had behind his lack of memory.

In his peroration he said “When the large papers in Canada” make a cry for reforms, they are at once listened to. The protesting voice in this case comes from a young man who has but the sincerity of his conscience. What is the result? You are asked to stifle free expression. Here in a court which confers liberty, you are asked to stifle free expression. If you acquit Asselin, you set a noble example. If you declare him guilty, you do not recompense a public service. In that case, were I my client I know what I would do. After having devoted my youth to defend conscience, honor, devotion, disinterestedness and patriotism and the patrimony of my fellow countrymen and wounded by such a condemnation, I would turn toward the judge and implore him to inflict the maximum of the penalty, in order at once and for all convince the youth of the country that civic virtues are but vain formulas, which sleep in the dictionaries, to be aroused alone by loaded politicians upon the stump, for the purpose of imposing upon public opinion.”

## DRAWING NEAR CLOSE.

Jury in Haywood Murder Trial About Complete.

Boise, Idaho, June 1.—The state yesterday exhausted its arbitrary rights as to the personnel of the jury by using its tenth peremptory challenge. In all probability the defence must use its final challenge to-day. After that the selection of the twelfth juror is to be left to chance, for the first talesman who comes within the requirements of legal qualification must be chosen. There may still be dismissals by mutual agreement, but it is usual, for contending counsel to agree on the disqualifications of a juror.

The new special venire of 61 talesmen which presented itself when the trial was resumed yesterday morning, proved fruitful in men qualified to act as jurors. There was the usual offering of asserted excuses, but only five of them moved the heart of the court.
