The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE NEW PUBLIC SCHOOL MUSIC COURSE

Its Inspiration As the literature of the world is the flower of its folk-lore, so music — the great tone-poems of the masters, is the florescence of folk-song. As true appreciation of what is excellent in literature is possible only with knowledge of the folk-lore in which it is rooted, so a just appreciation of what is excellent in music, is possible only through familiarity with the folk-songs which have forerunners simplified the larger and more complex compositions. Sprung many of them from undiscovered sources, living for hundreds of years on the lips of the people, passing from generation to generation and voicing each to the next its tenderest and most sublime emotions, they stand to us as more than song, more than story, — a veritable artery of emotional life and feeling pulsing in unbroken rhythm from the earliest times to the present day.

Its Pedagogy As the development of the child follows the development of the race, so his development in music should follow its development in the race. The New Public School Music Course is based upon this fundamental principle of education. The folk-song is its key-note, its *motif* and its theme. Upon the folk-song it stands, an earnest effort to lead the children in song to the heritage of the ages which is rightfully theirs.

Its Material Many of the melodies were obtained by the author and others directly from the peoples by whom they were developed and sung, carefully reduced to writing at the time and subsequently verified. Others, ornamented and used as themes by the masters, have been followed toward their source, divested of that which was not theirs in the mouths of the people, and restored to their former simplicity of tune and time. Still others stand as they have stood since the memory of man.

Its Arrangement The better to differentiate in the minds of the pupils that which is cultural from that which is purely technical, the former material has been grouped as Songs and the latter as Exercises. As accuracy and fluency in sight-reading depend upon the singer's working knowledge of the tonic relation of tones known as movable *dō*, and as the success of movable *dō* depends upon constant change of key, the Songs and Exercises have been set in key-rotation rather than in key-chapters, thus securing the advantage of continual change with the convenience of consecutive study, — by page and title in the Songs, and by number in the Exercises. The pedant looking for the development of all possible difficulties in melody and rhythm will note with regret the absence of exercises in the more unusual varieties of measure, of certain accidentals such as flat-five, seldom met with in song except in exercises mechanically constructed expressly for introduction into school music readers, of some keys in the minor mode, and other problems incident to an exhaustive treatment of sight-song.

The educator, however, interested in the development of the child rather than in the elaboration of sequence, will commend their careful exclusion. If the child is to love to sing, he must be given songs not newly written for the purpose and whose enduring worth is yet unknown, but songs whose age-cherished existence has delighted the ear and inspired the tongue of succeeding generations; and if he is to acquire fluency in reading, the few minutes a day allotted to the subject must be devoted exclusively to such problems as are essential to his progress within the limits established by circumstance and environment. For convenience when many or all divisions of a school are gathered for opening exercises or on other occasions demanding united effort in song, the patriotic selections have been grouped as Assembly Selections and appear in all the books of the series identical in melody, rhythm, harmony, text, title and pagination, an arrangement the advantages of which are manifest. The several books will be found free from cues to pupils, scale diagrams, development exercises, instructions to teachers, and all matter more properly belonging to a Teachers' Manual.

Its Application The Supervisor will observe that no attempt has been made in the books to force upon his teachers a method of instruction which may or may not coincide with that which his personal experience has developed and successfully established in the schools whose conditions have been to him a life-study, and whose needs no other can know so well. The NEW PUBLIC SCHOOL MUSIC COURSE is not a method of instruction but a collection of original and selected, properly graded, and conveniently bound material, intended for use as follows: In schools under music supervision, in connection with the methods already established by the supervisor in charge. In graded schools without music supervision, in connection with a Teachers' Manual for Graded Schools. In ungraded schools without supervision, in connection with a Teachers' Manual for Ungraded Schools.

Its Readers The First Reader assumes on the part of the pupils a sight-reading knowledge of all combinations of the tones of the diatonic major scale in the several keys, and of measure up to and including the equal division of the beat. The Second Reader includes songs and exercises embracing the fractional division of the beat, a more extended use of accidentals, the minor mode, and two-part song. The Third Reader involves the sub-fractional division of the beat, a more remote approach of accidentals, an extension of the minor mode, and greater freedom of voice in the continuation of two-part song. The Fourth Reader introduces three-part song, which in the Fifth, with its two editions, the G Clef edition for girls' schools and the F Clef edition for boys' schools and mixed schools, affords the largest possible opportunity for real interpretive work.

All the Songs and Exercises in this Series of Music Readers, except when some Composer's name is given, have been composed and are owned by the Author.

The first line may be played as a prelude.

 From Cape Race to Nootka Sound,
 May peace for ever be our lot,
 And plenteous store abound,
 And may those ties of love be ours,
 Which discord cannot sever,
 And flourish green o'er Freedom's home,

 May kind Heaven sweetly smile,
 God bless Old Scotland ever more,
 And Ireland's Emerald Isle ;
 Then swell the song both loud and long,
 Till rocks and forest quiver,
 God save our King and Heaven bless
 The Maple Leaf for ever.
