\* Before the issuing of Stamps, the Fees were carried to account a quarter in arrear, and consequently the Fees for this quarter (as per statement) include those for the previous quarter.

† This sum was erroneously stated to be \$21,833.93 at page 80, part I. The difference, \$383.33, has therefore been deducted at end of Statement No. 12.

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Tables of the Trade and Navigation of the Province, for the Fiscal Year ending 30th June, 1865, together with the Report of the Commissioner of Customs and Excise thereon.

All which is respectfully submitted.

A. T. GALT,

Minister of Finance.

QUEBEC, October, 1865.

To the Hon. A. T. GALT,

*Minister of Finance, &c., &c., &c.*

SIR,—I beg leave to lay before you the Trade and Navigation Tables of the Province, for the Fiscal Year ending on the 30th of June last. These tables comprise, as usual, Statements (1) of the Commerce of Canada with Great Britain, with Foreign Countries and with the Maritime and other British Possessions; (2) of the movement of Vessels and Goods through our Provincial Canals; and (3) of the result of the operations of the Excise Laws in the Distilling of Spirits, the Brewing of Malt Liquors and the Manufacture of Tobacco, to which articles the Excise Law is at present confined.

The tables are deduced from the Official Returns transmitted to this Branch of your Department by the Collectors in the various Branches of the Revenue referred to, viz.: Customs, Tolls and Inland Revenue, and they, for the first time, appear as covering the period from the 1st of July in one year to the 30th of June in another, which now composes the Fiscal Year, as provided by law. The present Tables cover the Fiscal Year commencing on the 1st July, 1864, and ending on the 30th June, 1865.

A comparison of the value of importations and duties for the two fiscal years, 1863-4, and 1864-5, gives the following results:

|              | Importations.          |              | Duties.     |
|--------------|------------------------|--------------|-------------|
| 1863-4 ..... | \$49,753,469           | ....         | \$6,081,916 |
| 1864-5 ..... | 44,620,469             | .....        | 5,663,377   |
|              |                        |              |             |
|              | Decrease in 1864-5.... | \$ 5,133,000 | \$ 418,539  |

With regard to Excise, a considerable decrease has taken place in the production of Proof Spirits during the same period, but the Returns show an increase in the quantity of Malt Liquor manufactured, viz.:

|              | Spirits—proof gals. |       | Malt Liquor—gals. |
|--------------|---------------------|-------|-------------------|
| 1863-4 ..... | 3,975,878           | ..... | 4,598,168         |
| 1864-5 ..... | 2,973,130           | ..... | 5,320,601         |

Thus it appears that the falling off in the quantity of spirits distilled exceeds 1,000,000 of gallons (1,002,748), whilst the increase of malt liquor for the same period (1864-5) has been 722,433 gallons.

The Excise accruing on spirits during the past fiscal year is...\$891,939  
On malt liquor ..... 159,618

Total .....\$1,051,557

In 1863-4 the duties accruing were—

On spirits..... \$908,135  
On malt liquor..... 137,945

Total .....\$1,046,070

shewing a small increase in 1864-5 on the aggregate amount of duties represented by the quantities of the two articles manufactured.

Of the above gross amount of duties on spirits and malt liquor in 1864-5, \$985,053 were actually collected and paid into the Treasury; the balance, \$116,504, represents the computed duties on the quantities exported during the year, or remaining in warehouses at the close of the year, subject to duty.

The Tobacco Inland Tax came into force on the 1st June, 1864, under the Act 27 and 28 Vict., cap. 3; and inasmuch as the Existing Stocks, at the time the Act came into force, were relieved from the Excise duty imposed, the duties accruing during the fiscal year ending 30th June, 1865, can scarcely be taken as a criterion of the revenue which may hereafter be derived from that source.

The tables, however, for the fiscal year which closed on the 30th of June last, show that, exclusive of cigars and snuff, the aggregate quantities of tobacco paying the various rates of duty imposed by law, manufactured in both sections of the Province, is 2,687,952 lbs., representing a duty of \$242,934.78. In the manufacture of this article, part of the raw material, to the extent of 487,474 lbs., is the produce of Canada; 2,432,886 lbs. being tobacco of foreign growth.

The total number of cigars of the various classes returned for the whole Province is upwards of 5,866 M, representing a duty of \$13,562. Of snuff (dry), 82,892 lbs. were manufactured, the duty upon which amounts to \$8,289.20.

The gross amount of Excise duties which the total quantity of manufactured tobacco of all kinds represents, is \$264,786, upon which were actually collected upon what went into consumption—

|                      |              |
|----------------------|--------------|
| Ex Manufactory ..... | \$ 52,121 39 |
| Ex Warehouse .....   | 64,270 45    |
| Total .....          | \$116,391 84 |

Leaving \$148,394.20 to cover the computed duty on the quantity exported during the year, and that which remained in warehouse on the 30th June last.

During the past fiscal year, the movement of vessels and property on the Provincial Canals, stated in tons, was—

|                            |                  |
|----------------------------|------------------|
| Property paying toll ..... | Tons, 2,452,394½ |
| “ free .....               | “ 85,502         |
| Total.....                 | “ 2,537,896½     |

Tonnage of Vessels .....

The corresponding year of 1863-4 shows—

|                              |                 |
|------------------------------|-----------------|
| Property paying toll . ..... | Tons, 2,837,688 |
| “ free.....                  | “ 32,735        |
| Total.....                   | “ 2,870,423     |

Tonnage of Vessels .....

|                                                        |               |
|--------------------------------------------------------|---------------|
| The gross amount of tolls collected in 1863-4 was..... | \$ 374,456 53 |
| “ “ “ in 1864-5 .....                                  | 282,757 17    |

Excess of 1863-4 over 1864-5.....\$ 91,699 36

---

The falling off is almost wholly confined to the Welland and St. Lawrence Canals and the Burlington Bay Canal, all of which are essentially the avenues of the Western trade, while the Chambly and the Ottawa and Rideau Canals exhibit a steady and handsome increase, as shown by Table No. 12.

All which is respectfully submitted.

*Commissioner of Customs and Excise.*
