Behind the Line.

"There's many a man, been spots like you"
And told to stay behind.
Many a man who's keen and true
With wheezy lungs, of a joint ache.
Pocket your pride, and set your jaw,
It isn't the time to whine!
Do what you can to help the war, and those in
the fighting line.
One needs to be staggled by a splintered shell
To cherish one's British pride!
'Wounded before the war began.'
Your job may be just as fine.
Doing your share as an earnest man behind
the fighting line.
Some must work while the war goes on
'Till the daily duty dawn
Though glamor and glory be dead and gone
The chance to die on the field of fame may
not be yours or mine.
But a Briton's honor all the same—even behind
the line!

What Is Your Diet?

Canadians eat too much meat. They are one of the three greatest meat-eating peoples in the world, Australia and the United States being the other two. High prices for meat are coming. The cost of food as well as its nutritive value should be considered.

Prof. James Long, the eminent British authority, recently addressed the following advice to the War Office:

'Jam has three and a half times the energy value of butter. Its value lies in its richness and sugar—of which one half its weight consists—in the minerals present in the skins of fruits, in its laxative character and its mechanical aid to digestion.

'The sugar of fruit has a remarkable effect on nutrition. Commercial sugar, if eaten too freely, causes irritation, acidity and other freaks of indigestion.

'The most nutritious and useful varieties of jam are those made from plum, apricot, gooseberry and currant, but a mixture of plum and apple stand at the head of the list. Jam should not be considered as a dainty but as an article of food.'

Dr. Frank T. Shutt, of Ottawa, Dominion Chemist, gives us the following authoritative statement as to the great importance of vegetables, especially fresh or home grown.

'The importance in connection with small gardens in towns and cities is very apparent, and the subject is opportune at this time of the year. It may be that a small garden will keep down the doctor's bill.

'That many of the ills that flesh is heir to arise from indigestions in diet is a fact that more of us should realize—and the earlier in life the better. Many of us, and perhaps this applies especially to those who live in the city, eat too much. As a result, we get too stout as life advances and what is still more serious, an extraordinary strain is put on certain of the organs of the system in nature's effort to get rid of the waste. Further, we who live more or less sedentary lives, eat too much meat; the man who sits at a desk all day long or stands behind a counter may work as hard as the navy or ploughman, but it is a different kind of work. It does not call for the same amount of strength. There is no necessity to diet ourselves by formula or to weigh out what we should eat, but we ought to be guided to a certain extent in our eating by common sense and the knowledge which science furnishes respecting the requirements of the body for the maintenance of the vital heat, the development of energy and the repair of tissue.

'As city people we might keep in better health and live more cheaply if we would eat less meat and concentrated foods and use more vegetables

Spring Reminders of Rheumatism.

RAW, DAMP WEATHER STARTS THE PAIN, BUT THE TROUBLE LIES IN THE BLOOD

Spring weather is bad for rheumatic sufferers. The changes from mild to cold, the raw, damp winds that stir the aches and twinges, or in the most extreme cases the tortures of the trouble again. But it must be born in mind that it is not the weather that is the cause. The trouble is rooted in the blood—the changeable weather merely starts the pain. The only way to reach the trouble and to cure it is through the blood. The poisonous rheumatic acids must be driven out. Liniments and rubbing may give temporary relief, but cannot possibly cure the trouble. The sufferer is only wasting time and money with this kind of treatment and all the time the trouble is becoming more deeply rooted—harder to cure. There is just one speedy cure for rheumatism—Dr. Williams' Pink Pills. They act directly on the impure, acid tainted blood. They purify and strengthen it and thus root out the cause of the rheumatism. Here is strong proof of the above statements. Mr. J. Routley, Sydney, Man., says: 'I was so badly crippled with rheumatism in my hips and knees that I could hardly go about. I began the use of Dr. Williams' Pink Pills, which I took steadily for a couple of months, by which time all traces of the trouble had disappeared. I can most strongly recommend the Pills to all rheumatic sufferers.'

A Weak Chested Boy.

'My boy Frank seemed weak chested and took a severe cold,' writes Mrs. D. Stevens, Nings, Man. 'The many medicines used did not seem to benefit him, until we tried Dr. Chase's Syrup of Lisinseed and Turpentine and found it to be exactly what was wanted to cure him. No treatment is so thorough, and effective as a cure for croup and bronchitis.

'Stop!' thundered the client at the barber, who was cutting his hair. Then he continued in somewhat milder tones:

'Why do you insist upon telling me these horrible, blood curdling stories of ghosts and robbers while you are cutting my hair?'

'I'm very sorry, sir,' replied the barber, 'but, you see, when I tell stories like that to my clients, their hair stands on end, and it makes it ever so much easier to cut.'

As it happens, hearing of a friend who had a stone coffin made for himself, exclaimed: 'Rath, that's good. Sure, an' a stone coffin will last a man a lifetime.'

So you went to church last Sunday? asked the doubtful one. 'Then to prove it, what was the text?'

'The text was, 'He giveth his loved sleep.'

'You're right. How many of the congregation were there?'

'All the beloved, it seemed to me.'

True Dignity of Girlhood.

We are likely to associate the word dignity with men and women of maturity, people who have achieved something, who stand a little above the rank and file. And it is a pity we should have this idea, for dignity should characterize girlhood as well as maturity and old age. A girl's dignity is not just like that of some statesman or artist. It is a girl's dignity, simple and sweet and unassuming.

There are some girls who are afraid that dignity will interfere with their popularity. They will submit to the most casual treatment, mistakenly imagining that they will be better liked. The girl who allows her boy acquaintances to call her by some nickname, to address her in cavalier fashion, to disregard her in her presence the little courtesies which custom demands of his sex towards hers, is sacrificing in vain. She is losing what is her right, and gaining nothing in return.

There are few things the modern girl needs to cultivate as much as dignity. This does not mean a stiff, pompous, keep-at-your-distance manner, but the quiet, unassuming atmosphere of self respect that compels the respect of others. It is not only a safe guard to the girl who possesses it, but it is a promise of true happiness.

Hints for the Housewife.

Several sheets of good thick brown paper make an excellent substitute for ironing blankets. Tack them to the edges to keep them together. If put away carefully each time after use they will last some time, and all that is needed when working is the ironing sheet over them. A good pad of brown paper or newspaper is much preferable to try the iron upon than a duster; the paper cleans the iron, and if it is scorched it does not matter.

It is a good plan to enamel grates. If the hard enamel is used a bright looking grate is obtained which only wants dusting occasionally with a damp cloth.

Marble topped washstands can be successfully cleaned in this way: Add a little turpentine to some warm water and apply it with a clean cloth. All stains will disappear, and if cleaned regularly in this way the stand will soon look like new. Polish with a soft duster.

TO ENJOY WINTER

Prof. Frankland demonstrates that COD LIVER OIL generates more body-heat than anything else.

IN SCOTT'S EMULSION the pure oil is so prepared that the blood profits from every drop, while it fortifies throat and lungs.

If you are subject to cold hands or feet, if you shiver and catch cold easily, take SCOTT'S EMULSION for one month and watch its good effects.

14-40 REFUSE SUBSTITUTES.

Children's stockings first show the wear at the knees. Before the stockings are worn, take a deep tuck in them just below the shoe top. When they are worn at the knees, let out the tucks and the worn parts will come too high to be noticed when mended.

A flower pot can be made in the following way: Procure a lard bucket, remove the handle and scour it perfectly clean. When quite dry enameled it white inside and out. Paint the metal bands, if there are any, with gold paint. Buy two little brass handles or knobs and screw them on in place of the handles and you have a good pot for plants, etc.

Always buy meat with some fat; it ensures that the rest of it is of a better flavor.

But the Writer of This Letter Resolved to Try Dr. Chase's Ointment First and Was Cured.

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment. Dr. Chase's Ointment is becoming so well known that it is being used by a large number of people for piles or hemorrhoids.

Mr. Charles Beauvais, a respected citizen of St. John's, Que., writes:—'For 14 years I suffered from chronic piles or hemorrhoids and considered my case very serious. I was treated by a well-known physician who could not help me, and my doctor decided on an operation as the only means of relief. However, I resolved to try Dr. Chase's Ointment first. The first box brought me great relief, and by the time I had used three boxes I was completely cured. This is why it gives me such great pleasure to recommend Dr. Chase's Ointment to everybody suffering from hemorrhoids as a preparation of the greatest value.'

Predicts the Tides.

A machine known as the United States tide predicting machine No. 2 and which is in daily operation in the United States geodetic survey at Washington, makes mathematical calculations which would otherwise require 100 persons to do.

Its work is nothing less than the predicting of the times and heights of high and low tides a year in advance. Its mechanism is of brass and steel, its house a huge mahogany and glass case. Its tender turns a crank and copies off on paper the reading of several dials and later removes from the machine a roll of paper on which is plotted the tidal curve for the particular spot along the coast the tide of which have been predicted.

Every year the United States issues a book of tide tables primarily for the use of its navy and secondarily, for the use of all who go down to the sea in ships. This book of tide tables gives the time to the minute and the height of the nearest tenth of a foot of every high and low tide during the year for seventy of the world seaports, and by means of an auxiliary table the same information for 3,000 other places—Scientific American.

Eczema and Sore Eyes.

'My daughter suffered from inflamed eyelids and eczema on her head,' writes Mr. H. W. Lear, Port Plantford, Nfld. 'The child was in a bad state and suffered greatly. The doctor failed to help her, and on recommendation of a friend, I used Dr. Chase's Ointment, which made a complete cure. With a grateful heart I write you this letter.'

'You are not very happy in this house,' friends remarked to the renter. 'No, I can't say we are.' 'Your ceilings are falling.' 'They are, and they isn't all. Our roof leaks, our cellar fills with water every time it rains, our radiators thump, our furnace is too small for the house, its appetite is too large for our income, our gutters have rusted away, the porch sags, the house has not had a new coat of paint for seven years, the wall paper hangs loose in every room and the chimney is shorter after every wind storm.'

'Why in the world don't you move?'

'Because we can't find another house with a hall that our long Oriental runner will fit.'

I had a dreadful fall last night. Tell me of it, Egbert. My wife was talking; I hung on every word, and then, and then—'Yes, yes, and then?'

Her voice broke.

Operation Decided On

As Only Means of Relief

But the Writer of This Letter Resolved to Try Dr. Chase's Ointment First and Was Cured.

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment. Dr. Chase's Ointment is becoming so well known that it is being used by a large number of people for piles or hemorrhoids.

Mr. Charles Beauvais, a respected citizen of St. John's, Que., writes:—'For 14 years I suffered from chronic piles or hemorrhoids and considered my case very serious. I was treated by a well-known physician who could not help me, and my doctor decided on an operation as the only means of relief. However, I resolved to try Dr. Chase's Ointment first. The first box brought me great relief, and by the time I had used three boxes I was completely cured. This is why it gives me such great pleasure to recommend Dr. Chase's Ointment

THE ACADIAN.

WOLFVILLE, N. S., APR. 9, 1915.

A Good Movement.

The Clean Up and Paint Up movement means what the slogan implies. It means cleaning up the front yard, cleaning up the back yard, digging the rubbish out of corners, inside and outside, upstairs and downstairs and in the cellar. It means cleaning the streets; it means picking up waste paper everywhere; it means placing rubbish barrels along the curbstones and inducing people through the influence of the community and through schools and school children to deposit scraps of paper and other refuse there instead of on the street. It means painting the front door which is very apt to lead to the painting of the whole house, and then the out buildings; and as painting usually calls for some sort of repairs to be made before the paint is applied, it means in the end general renovation, and improvement to the decided advantage of property. Any home-owners of any building, the surroundings of which are kept well painted and well repaired, are of more value to the owner than in a dilapidated condition.

This movement, then, is a producer of industry. It creates demand for labor, and aside from the fact that it is a great sanitary movement, it is decidedly in the interest of the unemployed for whom such great plea is being made in so many directions.

Go along any of our back city streets or alleyways; go through the streets of any of our country villages; enter any back yard, peer into most front yards with the Clean Up and Paint Up idea in mind and anyone can readily see just what it means. There is work enough to be done all within the scope of paint up and clean up.

More than this, it is a great fire prevention measure. More fires originate probably because rubbish is allowed to accumulate in isolated corners, indoors and outdoors, than from any other cause.

Without particularizing, cleanliness is commended. It is wholesome; it is good; it is an emblem of civilization, and the Clean Up and Paint Up movement, we think, is akin to all the best of reform movements that have taken place in all past time.

City and Country Labor.

The unemployment problem is still existent in the cities and the scarcity of labor is still complained of in rural districts. The question is how can the one be reconciled with the other, and the one brought to supply what the other needs and the other to take what the one possesses in excess.

After the war there may be a rash of immigration but that cannot be for a year at least. We must, therefore, make the best of the situation and try to get along with what we have. A Toronto paper has been publishing letters from a number of men who have accepted positions on farms. They all, without exception, speak in good terms of their experience. The pay is not lavish, but the food is good and abundant, the bed clean and life in the open brings a keen appetite for meals and a pleasant desire for sound refreshing sleep. One man writes: 'I have tramped miles and miles after deer and dropped when too exhausted to eat or sleep. Here when I'm hungry I have a good meal to go to and when I'm tired there is a nice clean bed waiting. You know how I hated to break from the city, but Mary and I are both glad we came. You should see her with her skirt tucked up bustling to and from the bars. It's the pastoral life for us all right. Men who wander cities idle and hungry while there are opportunities like this offering are crazy.'

Perhaps readers of this may think the writer of the foregoing has hit upon a soft spot. It is more than likely, however, that he is possessed of that Mark Tapscottian should accompany all desires for work. That hopefulness which leads to success and, at this period of time, begets some fulfillment of the scriptural injunction to bear one another's burdens. Every man, yes and every woman who goes to work in this strain of spirit, and to all it is possible, is helping to take the hand off somebody else's shoulders and is contributing to the welfare alike of his own country and the empire. He is assisting his fellowman, he is assisting in the clothing and feeding of his countrymen, may be his townsmen at the front, and he is setting an example that cannot be too extensively followed. He is doing his share towards reconciling the wants of the city with the needs of the country. He is also probably prolonging his own life as well as making matters easier for others. Above all he is proving himself a true patriot in earnestly doing his best to promote production.

Editorial Brevities.

It is a mistake to assume that everybody was disappointed by the Easter snow storm. The city men who have been saying all along that they would get the winter good and plenty before the first of May were all day the joyous smile of a prophet whose prediction has been verified.

Town Council.

The regular monthly meeting of the Council was held on Wednesday evening with Mayor Fitch in the chair and Couns. Hales, Regan, Rand, Porter and Harris present.

The Finance Committee reported receipts for the month \$667 61, with expenditures \$1959 22. The debit bank balance was \$4013 17.

The balance sheet as at March 31st was also presented by the auditors. The report of the investigation into the late fire was laid before the Council.

The following bills were read and ordered to be paid: Acadia Electric Light Co. \$ 48.05 Hutchinsan's Express 15.00 John W. Wallace (revisor) 6.00 M. W. Pick (revisor) 6.00 B. O. Davidson 6.40 King's Printer 2.50 Miss Mary Raymond 1.50 John Lawrence 225.00 W. W. Pick 3.50 Davidson Bros. 1.00 A. M. Wheaton 29.47 W. C. Bleakney 8.15 R. E. Harris 12.00 C. M. Gormley 3.40

The rate-book for 1915 having been reported as correct by the Finance Committee this report was received and adopted.

The statement of the joint service between the towns and municipality was read, showing the proportion to be paid by Wolfville as \$1801 64 as against Kentville, \$1773 84, and the Municipality \$14,153 15.

The matter of providing for making a fire proof roof district in the town was brought up and on motion was referred to the Committee on Fire and Water to report at the next meeting of the Council.

The following resolution was passed: Whereas, a number of cases of thieving and house-breaking and of fences of various kinds have occurred in our town during the past year, and Whereas, in the opinion of the Council, we should safeguard the property and convenience of our citizens as much as possible; therefore

Resolved, that a reward of ten dollars be offered for information that will lead to the conviction of persons guilty of the following offences:

Thefts of any kind, breaking into houses or buildings, trespassing, despoiling public or private property, the use of profane or abusive language on the streets or in public buildings, the illegal selling of intoxicants, incendiaryism or any criminal offence. This offer to stand until recalled by the Council.

A delegation composed of Couns. Wood and Nichols, Dr. Hattie, Provincial Health Officer, and Mr. Herbert Stairs, appeared before the Council, asking co-operation in the matter of providing an institution for the care of the poor and harmless insane of the county and towns.

Baby's Own Tablets Used Eleven Years.

Mrs. McEachern, Glencoe, Ont., writes: 'I have used Baby's Own Tablets for the past eleven years for my children and have every reason to praise them as they always do good. Once a mother uses the Tablets for her little ones she will use no other medicine. They are absolutely safe, pleasant to take and never fail to regulate the bowels and stomach. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.'

Agricultural Bulletins.

So great has been the demand for Bulletins, Pamphlets, Records and Reports upon the Publications Branch of the Department of Agriculture at Ottawa as a result of the Patriotic and Production Movement, that it has been found impossible to comply with all the applications as promptly as could be desired. Of some of the Bulletins the supply has been exhausted and no time has been afforded for reprinting, while of others the quantity asked for individually has been such that instant compliance would mean many applicants might have to go without. This has meant extra correspondence and consequent delay. The situation is, of course, satisfactory as indicating the success of the campaign, and the widespread interest created, but the inability to respond on the instant with the multitude of applications is greatly regretted. At the same time it is impossible that the size of the demand could have been foreseen. As far as possible the requests will be attended to, but in the meantime there will have to be reprinting and in cases revising. In such circumstances patience appears to be a desirable and necessary quality.

RUB ON NERVILINE.
Neuralgia quickly cured in twice, nay, ten times cured. Little neuralgic pains grow into big ones, but Nerviline in ten minutes relieves even the worst ones. Even a single application will remove the nerve congestion that causes the pain. Nerviline penetrates deeply into the nerve tissue, reaches the source of inflammation, drives it out, root and branch. Every Drop of Nerviline is potent in pain-removing power, and its strongest charm lies in the

fact that it rubs right in, even to the very last drop. Nerviline is not greasy, and its pain removing power is at least five times greater in strength than ordinary remedies. We guarantee Nerviline will cure neuralgia - not only relieve it but actually and permanently cure it. Just in the same way will it cure lumbago, sciatica, stiffness and rheumatism. To conquer all muscular and nerve pains, use Nerviline. A large bottle in the home keeps the doctor's bill small; it is more economical than the central star. F. O. GODFREY

THE HARDWARE MAN.

Does War Make Hard Times.

At the beginning of the war the opinion was quite freely expressed that the waste occasioned by this event would be so great that the world would be in a state of commercial paralysis after it should be over. But this is not the view of economists. According to one reviewer it is pointed out that while every great writer from the time of Aristotle down to the present day has shown that war is wasteful and destructive in spite of that, the wars of the past, as well as the present conflict, quicken the wheels of industry. It is pointed out that following the Napoleonic Wars England grew rich at an unprecedented rate, while similar experiences followed in the Crimean and the Franco-Prussian Wars. The Boer War was followed by the greatest trade expansion in the history of England, while the progress made by the United States following the Civil War was the greatest in that country's history. The wastage of war is undoubtedly great but there are savings effected which make good in a large measure the losses caused by the war. In addition industry and commerce are stimulated at the end of a struggle owing to the efforts being made to make good the losses. The probabilities are that following this struggle there will be a period of great commercial activity in which Canada will take her full share. In fact, it seems that while Canada has really suffered less than any other country engaged in the war, her immense resources and well established industries entitle her to the belief that she will prosper in greater measure within the next ten years than she has ever been dreamed of before.

Miss Parker, teacher of the primary department, spent the Easter holidays at her home in Belleisle, Annapolis.

Among those suffering with a very severe attack of la grippe is one of our oldest residents, Mr. Robert Westcott. Mrs. Benjamin, accompanied by her daughter, Mrs. John Coldwell, of Wolfville, spent the holiday season in Halifax.

Mr. Renford L. Martin, of the firm of Stairs, Sons & Morrow, Halifax, was an over Sunday guest at the home of his father, Mr. J. D. Martin.

Miss Florence Martin, of Falmouth, spent Easter with friends in Gaspereau.

Mrs. Earl Duncanson and little son, Bedford, were visitors in Kingston, at the home of Mrs. B. W. Cleveland, and attended the dedicatory services of the new Methodist church held at that place, on March 28th.

The funeral of the late Simon Mieser, whose death occurred at the home of Mrs. Harriet Davison, was held from the home of his brother, Mr. Moody Mieser, last Tuesday week. Dr. G. O. Gates conducting the service. The remains were interred in the cemetery at Round Hill, Annapolis county, beside those of his wife, whose death occurred eight years previous. Since that time Mr. Mieser had resided in Gaspereau and by his kindly, unassuming manner had endeared himself to those who knew him. He leaves one brother residing here, and several brothers and sisters in the United States.

There were floral tributes from the family, the I. O. O. F. and others. He is survived by two brothers, James Fraser, of Groton, and William R. Fraser, of Wolfville, N. S. He was not married.—The Groton Landmark, Groton, Mass. [Windsor papers please copy]

Britain's Wonderful Credit.

Sydney Hart, chairman of the London Financier, in a recent address, said: "I could say much of the way in which British credit has withstood the world wide upheaval, but I will confine myself to expressing the belief that, however costly this war may be, our credit will be stronger at its close than it has ever been before. Our resources have been tested and proved inexhaustible; they have been conserved and administered in a way that has proved the financial ad- vices of the crown to be possessed of breadth of vision, daring originality, unshakable determination, an enlightened enterprise that have deservedly won the admiration of the financial stability. If they had failed, not all the wealth of even the United States of America could have averted a financial cataclysm of overwhelming intensity. The result of our efforts will be that London, in a wider sense than ever before, will be the great Money Market of the world."

Mr. Watson L. Bishop, of Dartmouth, highway engineer in the Provincial Department of Roads, addressed a meeting in Temperance Hall on Thursday evening of last week. The audience though not large was representative of the district and listened with close attention to the speaker's suggestions concerning road building. By means of a series of magic lantern slides good views of different roads in the province were presented to the audience, and hints were given as to the treatment of same. A number of questions were asked by those present and elicited much valuable information. Mr. Bishop is undoubtedly well qualified for the work he has in hand.

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-tives" Healed His Kidneys and Cured Him

HAGERVILLE, Ont., Aug. 26th 1913.
 "About two years ago, I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised, I decided to try them. Their effect, I found more than satisfactory. Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had."

B. A. KELLY

"Drink is the best stalking-horse the devil has got."—The late Archbishop of York.

Work is not Vain.

No work is vain, if rightly done;
 Each talent wisely used is blessed;
 E'en though no glittering prize be won,
 Toil gives to life a healthful zest,
 And sweetens all the after-rest.

No work is vain, if rightly done;
 Before each soul some task is placed;
 If, heedless, we our duty shun,
 And let the moments run to waste,
 We miss the joy God's servants taste.

No work is vain if rightly done;
 The seeming failure may not be
 So deemed by heaven's thrice Holy One,
 Whose goodness never fails to see,
 Or recompense fidelity.

No work is vain if rightly done;
 Since work is oft its own reward,
 And God, though God, for aye works on,
 And thus with Him, creation's Lord
 Work brings us into grand accord.

No work is vain, if rightly done;
 Each deed is nearest in its place,
 And our poor work, in faith begun,
 Before our heavenly Father's face,
 May end in good, and shine with grace.

No work is vain, if rightly done;
 The good is ne'er with good at strife;
 But, linked to worlds beyond the sun,

Whose goodness never fails to see,
 Or recompense fidelity.

 Rise
 Endures to everlasting life.

 Will all our labors overpay—
 Be faithful, soul, in this thy day.

The Menace of Cocaine.

HOW THE HABIT IS OFTEN ACQUIRED.

It is generally acquired by accident, and sad to say, one of these accidents is the presence of cocaine in catarrh medicines. A physician tells a story of a young man who became a cocaine fiend quite innocently by taking a widely advertised 'catarrh cure,' that contained only a small percentage of cocaine, but, unfortunately, enough to establish the habit.

The young man sniffed this 'catarrh cure' up his nose, and after each sniffing experienced a characteristic sense of elation, a peculiar well being. He took more and more of the stuff, and soon discovered that his exhilaration came from cocaine in the powder. Now it was cocaine he wanted, not the catarrh cure; and presently he began to take the drug pure, sniffing it after the manner of adepts, and finally learning to use it in hypodermic injections.

Soon he learned that the sensations were not all pleasant. Far from it! Quick after each period of intoxication came the dread reaction that calls for more and always more cocaine. The characteristic physical and moral deterioration went on rapidly. The victim grew sallow faced, sunken-eyed, restless, irritable. He became a liar, a wreck, helpless and useless and within a year he was placed in an asylum.

Notice that all this came to pass because a perfectly well meaning young man bought at a reputable drug store what was advertised as an excellent cure for catarrh. And before he knew what he was doing and taking he had become a 'coke fiend' and his life was irretrievably ruined.—W. C. Cry.

DAINTY SANDWICHES

HOW TO MAKE THEM

Delicate Fillings Nowadays Replace
 the Stab of Meat Used by the
 Titled Inventor.

It was the fourth Earl of Sandwich
 who, some hundred and fifty years
 ago, ate the first sandwich, and though
 that gaming card has long since aban-
 doned his last deck of cards and taken
 his last trick, the ingenious article of
 diet which he invented has been in
 favor—increasingly so, in fact—ever
 since. John Montagu, that was the
 earl's baptismal name, was an indefatigable
 card player. He played in the
 morning and he played in the after-
 noon, and he played in the evening,
 and then half through the night, and
 though he had a very good appetite
 he used to become so attached to his
 game that he actually refused to stop
 to eat. So he ordered his servants
 to bring his meals to him and in or-
 der not to have to stop long enough
 to eat his meat and break his bread
 he had slices of bread, with thick
 slices of ham placed between them,
 which could be easily consumed be-
 tween plays.

So sponsored by an earl, the sand-
 wich came into favor in England and
 was speedily adopted as a convenient
 and tempting form in which to serve
 bread and meat at any time when the
 guests were not to be seated at the
 table. For refreshments at the card
 table, for receptions, for buffet break-
 fasts, for garden parties and for even-
 ing collations the sandwich came at
 once into prominence.

More Dainty Now
 But what an evolution from the
 earl's coarse slices of bread and ham
 to the dainty layers of bread that we
 have nowadays, cut and rolled and
 tied into clever shape and put to-
 gether with filling that taxes the
 ingenuity of the cleverest chefs!

Although a sandwich is known by
 its filling, still the first thing to do
 in making a good sandwich is to make
 sure of satisfactory bread. Sandwich
 bread can be bought at almost all
 caterers or bakers. The task of cutting
 it is easily accomplished if the
 bread knife, made very sharp, is
 heated before using. In cutting the
 bread it is also a good idea to butter
 each slice of bread on the loaf before
 cutting it. The butter should be soft-
 ened, but under no circumstances
 allowed to become really hot.

As the slices are taken from the
 loaf care should be taken to keep ad-
 joining slices in pairs so that after
 the filling is added the slices can be
 fitted exactly together again. Usually
 the butter is spread on one slice and
 the filling on the other.

Some Savory Fillings
 Among the most appetizing sand-
 wich fillings are the imported fish
 pastes. These pastes spread sparingly
 on the bread with a little shredded
 lettuce produce a delightful result.
 Among other fillings that are al-
 ways acceptable, though exceedingly
 usual, are those made from combina-
 tions of cream cheese. Cream cheese
 and green peppers, cream cheese and
 pineapples, cream cheese and olives,
 cream cheese and celery, and a dozen
 other tasteful combinations of cream
 cheese.

Among newer sandwich combina-
 tions are the following:
 Minced celery and mayonnaise
 dressing, with one slice of white
 bread and one slice of brown bread.
 Apple sauce, with lemon juice and
 grated lemon peel and whipped cream.
 These ingredients should be mixed
 thoroughly and spread on thin slices
 of whole wheat bread.

Dry broiled bacon and cooked
 chicken liver put through the meat
 chopper and mixed with mayonnaise
 dressing.
 Minced celery, canned salmon and
 mayonnaise with shredded lettuce.
 Raisins chopped and mixed with
 mayonnaise dressing, with or without
 the addition of chopped nuts.

For a heartier sandwich, chopped
 chicken livers with bacon and mayon-
 naise dressing and sliced tomatoes.
 In making all dainty sandwiches the
 bread crust should be cut off after
 the slices of bread have been placed
 together. Then the sandwiches
 should be cut into dainty shapes.
 Triangles made by cutting a slice of
 bread diagonally into four pieces are
 easy to make. Narrow oblongs can
 be made by cutting the slice into length-
 wise strips. With the use of fancy-
 shaped cutters more interesting
 effects can be gained.

Corks may be made airtight, and
 watertight by keeping them immersed in
 oil for five minutes.

The Home of Lantic Sugars
 The most up-to-date refinery in the world.

This new Refinery gives to Canada the most up-to-date Sugar Refinery on the Continent

After a year and a half's work, we have completed and are now operating the most sanitary, up-to-date sugar refinery ever constructed. Every new and improved method of refining has been installed. No expense has been spared to make the sanitary conditions perfect.

Every step in the process of manufacture is one of care and patience for quality.

The result is that no hand touches the product from the time the raw sugar reaches the refinery until the perfectly refined sugar enters the home in the Original Packages.

Only cane sugar used in the refinery—no beets—no substitutes.

Tell your grocer to send you Lantic Sugar in original packages. This will ensure the purity and cleanliness of the sugar used in your home. Look for the Red Ball on every package.

Another Woman Recovers.
 Auburn, N. Y. "I suffered from nervousness for ten years, and had such terrible pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health."

—Mrs. WILLIAM H. GILL, No. 15 Pleasant Street, Auburn, New York.

The above are only two of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which show clearly what great things Lydia E. Pinkham's Vegetable Compound does for those who suffer from women's ills.

If you need special advice write to Lydia E. Pinkham, Boston, Mass., and your letter will be opened, read and answered by a woman who has been through all the same old-time sufferings.

Special Notice.

Owing to the fact that Nova Scotia housekeepers have become more convinced than ever of the ability of the "Big Store" to help them keep down the cost of living, notwithstanding the fact that we had printed a very much larger edition than usual of our Catalogue the supply is completely exhausted.

As soon as prices adjust themselves after the dearrangement caused by the increase of the tariff we shall publish and have ready for distribution our Annual Spring and Summer Catalogue.

In the meantime if there is anything you require send in your list and we shall quote you very lowest prices.
