THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES

PUBLISHED BY H. B. DONOVAN.

VOL. XIV.

58½ VICTORIA STREET, TORONTO, FEBRUARY, 1891.

No. 2.

SEEN AT ALL SHOWS.

THE CHRONIC "KICKER."

WE WONDER

If Mr. Meyer was "meyerly" joking about those silver Wyandottes?

Who the portrait above best represents?

What classes Messrs. Butterfield and Jarvis will be assigned at New York?

Why more Eastern breeders didn't show up at Bowmanville?

If Hon. Jno. Dryden delivers the same amount of saccharine matter to all gatherings he speaks to as he did to the members of the Poultry Association of Ontario?

How it is that Toronto dealers have to import egg, from the Southern States, they are so scarce here?

How Canadian exhibitors will succeed at New York?

If our readers won't think this number of the REVIEW is choke full of good things?

NOTES AND COMMENTS

MR. FRED GOEBEL,

REW Hamburg, tells us that in addition to the prizes won at this show, his good lady presented him with a

daughter on the last day of the show. Congratulations.

CANADIAN JUDGES AT N.Y.

Messrs. L. G. Jarvis and Sharp Butterfield, the well known judges, have been invited to judge at the New York show.

MR. JOHN PLETSCH,

of Shakespeare, purchased from Mr. Thomas A. Duff, of Toronto, several pairs of white Minorcas, all of which were prize winners at the recent Exhibition at New Hamburg.

MR. C. J. DANIELS,

Toronto has imported forty buff Leghorns and Indian Games from England.

The Canadian Statesman,

an enterprising Bowmanville weekly, devotes considerable space to the Poultry Association of Ontario Show, even going so far as to illustrate some of the varieties shown. However, our contemporary has got rather "mixed" in the latter feature and gives a fair cut of black Spanish as "Minorcas" and also illustrates what it is pleased to call "White Pencilled Polands" and "Sea Bright Bantams."

A MEETING OF POULTRY FANCIERS

was held in Deloraine, Man., recently,

and the Southern Manitoba Poultry Association was organized, with John Hettle, M.P.P., hon. president; T. H. Kellett, president; J. E. Maynard, vice-president; W. H. Daubney, secretary and 12 directors as follows:— John Boyd, L. E. Thompson, Deloraine; A. Cates, Napinka; R. M. Graham, Melita; John Fleming, Turtle Mountain; George Morton, Boissievain; Neil Johnson, Killarney; J. Andrews, Morden; J. S. Thompson, Waskada; W. Crosby, Manitou; W. Brown, Gertna; and Cuth. Robinson, Hartney. The membership fee is fixed at \$1 a year, and a constitution similar to that of the Ontario Association was adopted. Petitions will be sent to the legislature to have the society placed on a similar footing to agricultural societies, and an annual show will be held.

NEW HAMBURG SHOW.

At a late hour on Jan. 14th the following telegram reached us:—

January 14th, 1891.

New Hamburg, Ont.,

Come to our show to-morrow, best local show ever held in Canada, almost equal to Bowmanville. Banquet to-morrow evening.

CHAS. F. ERNST.

We regret our inability to be present, owing to unavoidable circumstances, and understand from several reliable sources that two or three gentlemen present let their feelings run away with their reason and spoke in rather dis-

paraging terms of the Editor of this Journal, because he was not present at the show

THE COLUMNS OF THE REVIEW

have been very freely used in pushing along the interests of New Hamburg Show, and we modestly think in at least some part, the success of the undertaking was due to our efforts. Under the circumstances it looked, we think, uncalled for and unjust. However, we are glad to know that these remarks did not go unchallenged, and that there were those present at the supper, where the incident occurred, who were not backward in expressing their feelings very freely, and on the other, and, of course, in our opinion, the right side.

900 BIRDS.

But enough of this unpleasantness, though it is our custom to ventilate thoroughly matters of this nature. New Hamburg had about 900 birds, and this without pigeons of which there were none shown, and is to be warmly congratulated on its initial venture. May it prove but one of a series.

AT THE ANNUAL MEETING

of the Victoria, (B.C.) Poultry and Pet Stock Association, the following officers were elected:—president, C. E. Renouf; vice-president, Beaumont Boggs; treasurer, W. McKeon; secretary, R. P. McLellan; executive com., Dr. Duncan, Dr. Milne, M.P.P., F. Sturdy, T. Black, J. Stewart, James Flett, Somenos; N. P. Snowden, B. Gordon, H. Creech, R. A. Cunningham, John Braden. Votes of thanks were tendered the retiring officers and the Judges, Mr. S. Butterfield, and Mr. S. A. Roberts. The reports on the standing of the society were of a thoroughly satisfactory nature.

MR. SHARP BUTTERFIELD

while in Victoria, B.C., was called on to act as one of the Judges, to determine which was the best looking baby in the show. The young lady of the Judges choice was Miss Clara Grace Jones, the seven months old daughter of Mrs. A. E. Jones. Where did you get your experience Mr. Butterfield? Isn't this rather out of your line? Next time you are called on to act in this capacity, come to us, we can give you "pointers."

N.B.—We thought Mr. Butterfield's hair looked rather thinner than usual, when we saw him at the Ontario Show.

(All Rights Reserved.)

POULTRY BREEDING.

By H. S. BABCOCK, PROVIDENCE, R. I.

NO. 2.

VARIATION.

EVERY observant person, whether a professed student of nature or not, knows that plants and animals vary. I do not know how it is with the fair Canadian girls, but in the summer-time American girls seek and find four leaved clovers, the possession of which they regard as an augury of impending good. That a clover plant produces occasionally four instead of three leaves is simply an illustration of a tendency to vary. Every poultry breeder knows that his chickens, bred from the same pair of fowls, are unlike each other, different from their parents and in some cases variant from any known ancestor. This tendency to variation appears among them. If one extends his observation he will find that wherever there is life there is change, and that the tendency to vary runs through all nature.

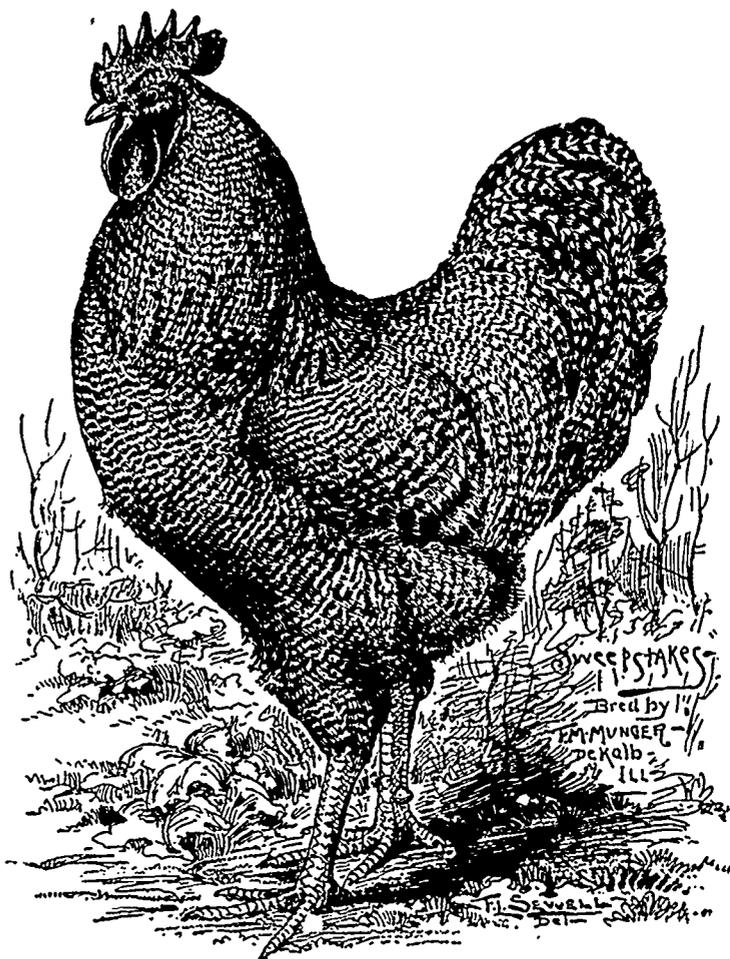

When variation takes place in wild species surrounded by natural conditions it is called natural variation or variation in nature. It usually proceeds by slow steps, the changes being comparatively small, and when they are advantageous to the species inherited and perpetuated in its descendants. Given time enough and this tendency to vary, the face of nature becomes changed. New varieties appear and these varieties become fixed and at last are called new species, and these in turn become the parents of further varieties and species. And so, from simple beginnings, complex organisms may arise, the homogeneous being displaced by the heterogeneous, and the change being one from lower to higher forms.

Under domestication this tendency to variation is greatly increased, and when man selects the varying forms and cares for them, he is able to perpetuate even variations which in nature would disappear. Thus in Massachusetts at one time appeared a ram lamb with crooked legs and long body. This variation in nature, would probably have quickly disappeared through the influences of natural selection, as one that was not advantageous to the individual in the struggle for existence, but as this was of advantage to the farmer, such a lamb being unable to jump fences, the ram was saved for breeding and became the founder of the *ancon* or otter breed of sheep. And so, when fowls vary, if the variation strikes the fancy of the breeder, he is able to perpetuate it in the production of a new variety, as in the case of the rose-comb Leghorns and pea-comb Plymouth Rocks, or in the modification of an old and well-known variety.

The cause, or causes of variation are not definitely known. By some this tendency is ascribed to an inborn force, perhaps impressed upon living creatures at the time of creation, in that dim and distant day when "the morning stars

sang together and the sons of God shouted for joy." By others it is supposed to be due, at least in some degree, to the power of environment, the changes of climate and soil, of more or less abundant food, the necessity of obtaining sustenance, and the like. By still others, those who follow the teachings of Prof. August Weissmann, it is referred to the union of the male and female cells, which may unite in various ways so that sometimes the male and sometimes the female elements preponderate, and so, as in a chemical reaction, the different proportions produce widely different results. If, as it is said, a common shirt and a lump of sugar are chemically composed of the same elements differently combined, it need not be surprising that diverse combinations of the male and female elements should produce variations, some of which may be striking in amount and character.

But what are the causes of variation? The fact is of the greatest importance to poultry breeders; it is his sole hope of improvement. If there were no variations, if the character of breeds and varieties were absolutely fixed, then the breeder would have the problems of mating simplified to the mere union of sexes; the skill that comes from study of a breed or variety would be useless, and a lad of ten would be as competent a breeder as the veteran who had made breeding a life-study. Like would produce like; the young would be just as good as the parents and no better; one fowl would be the exact counterpart of another; improvement would be at an end; poultry exhibitions would perish; poultry papers would die; poultry breeding would lose its charm; the fowls which were raised would be raised purely for commercial purposes. If there was a profit in raising eggs or poultry, fowls would still be raised for the profit, but all the fascination which attaches to

PLYMOUTH ROCK COCKEREL "SWEEPSTAKES."
Bred and Owned by F. M. Munger, De Kalb, Ill.

thoroughbred fowls would cease. The breeder, and rightly, aims to so fix the qualities of his stock that the progeny will be uniform. He desires from 95 point birds to raise all 95 point chickens. But if this purpose could be attained it would defeat itself, and his success would be transformed into a lamentable failure. It is well to remember this when matings go wrong, as they sometimes do with the best breeders. When instead of a lot of exhibition specimens a yard full of culls are produced, when in place of the desired fixity of character the fowls are found to be in a state of flux, for this disappointment rests upon the only foundation that makes a fancy possible, the tendency to vary.

Improvement is made by selecting

favorable and rejecting unfavorable variations. The fact that they both occur puts a premium upon skill, and depreciates mediocrity and inferiority. The ebb and flow, like the wave of the sea, in our stock, makes one fowl worth a half a dollar and another a half hundred dollars. If variation makes a low price for some specimens, it makes a high price for others, and the very instability of the characteristics increases, not only the price of the most perfect, but raises the average of the whole. And so, while we labor to make permanent improvements, let us not forget to be thankful for the uncertainty which makes improvement possible, the tendency to vary, that is the foundation of the charm and the profit in poultry breeding.

SECRET OF SUCCESS.

BY BLACK WYANDOT.

A WISE proverb speaks of "the luck which happens to good players at cards." It is the good business man who has the luck to succeed, and the good poultry breeder who has the luck to produce specimens of high merit. There is very little in pure luck when it comes to the practical every day business of life. Of course it might happen that a cyclone would destroy the savings of a life-time, or an unforeseen business panic or other unavoidable cause might work the same bad result, yet if we look around us we see that *pure luck* has had little to do with the material advancement of the successful men we call to mind. What they have accomplished has been by hard work—the bending of every effort and energy to reach certain ends. In no business is this more true than in poultry raising. In the poultry business it is the man who watches the little things who succeeds in making his business not only pleasant but profitable. He looks after the leaks and stops them, he finds where the sources of profit are and develops them. To accomplish this end no aid is so valuable as an account book. A strict account of the receipts and expenditures of one's poultry business will show in a reliable way just where to make the profits and where to stop losses. The fact is there is no business which requires closer attention to details.

A farmer who had a streak of "bad luck" last fall, losing half of a flock of 200 chicks by cholera, said to me the other day, "it is the easiest thing in the world to keep up the old habit of letting the hens take care of themselves. I started in to clean my hen-houses once a week, but soon fell back into the old habit of cleaning them

about once in six months." It is no trouble to find the source of this farmers loss, and "bad luck" can usually be traced quite easily to *neglect*.

The secrets of a successful poultry man are plain and simple. He is a close observer of his fowls; he attends closely to their wants; he finds where the unnecessary expenses are and stops them; he is a liberal but judicious feeder; if he is a fancier he keeps the best, and advertises them where he finds he gets good returns for his outlay. It seems to me the greatest factor in the success of our best poultry breeders is the fact that they are lovers of fowls. A man who loves his pets will not neglect them in any particular. "Love is the fulfilment of the law."

POULTRY ASSOCIATION OF ONTARIO

ANNUAL MEETING.

THE annual meeting of the above Association was held in Bowmanville on the 9th of January, the President,

MR. J. J. MASON,

in the chair, and about one hundred members being present.

The minutes of the last annual meeting and of the Board meeting were read and confirmed.

In connection with the Secretary's Report, the President drew attention to the fact that it had been found impossible to get the books from the late officials at St. Catharines. He stated that notwithstanding the numerous letters written to them, the books did not come to hand until after the Show had commenced, and since that time it was impossible to look into the books and prepare a satisfactory statement.

The Auditor's report was read by the Secretary,

MR. J. M. HERN,

which showed a balance on the wrong side of about \$75.00.

It was decided that all voting should be open, and nominations were requested for the next place in which the show should be held.

Mr. J. H. Saunders asked for the show on behalf of London. He stated they were prepared to furnish coops, building, light, heat, &c., without charge to the Association, and would guarantee the best list of specials ever offered at any previous exhibition.

Mr. Geo. G. McCormick supported Mr. Saunders.

Mr. A. Hobbs asked for the show on behalf of Bowmanville. He stated that he was much surprised to hear the show asked for on behalf of London, as he believed that when it was previously held there, exhibitors were only paid 17½ cts. on the dollar, of their

prize money, and any city or town who cannot support it, should not ask for it.

Mr. J. O. Labelle supported Bowmanville.

Mr. John Miles asked for the show on behalf of Toronto.

Mr. T. A. Duff supported Toronto.

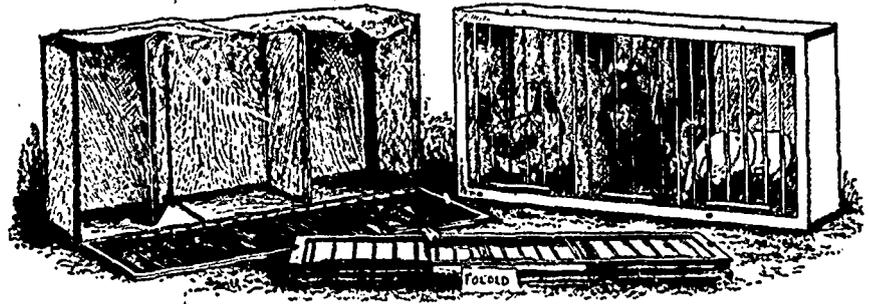

Mr. John Cole asked for the show for Hamilton. He said that they never had it there, although promised it time and again, and he thought that they were certainly entitled to it now. He said that they had good accommodation in every way and would guarantee to make a success of it.

Mr. Saunders stated that in view of Mr. Cole's request for Hamilton and of the fact that they never had the show, he would withdraw his motion for London in favor of Hamilton.

Mr. J. W. Dutton stated that after the trouble and expense in providing coops, &c., he thought that it was only fair that Bowmanville should have it another year. He stated that had they known they could have it for only one year, they would never have asked for or accepted it. He desired to ask where the coops were, upon which the \$29 charged for repairs in the Association accounts, were.

Mr. Geo. G. McCormick stated that he had no objection to the show being held in Bowmanville again, but there was a resolution on the books of the Association to the effect that the exhibition should only be held once in each place, and that a written application must be put in to rescind that resolution before the show could be held in one place a second time.

Mr. Allan Bogue stated that he did not well see how the exhibition could be held in Bowmanville the second year until the resolution referred to by Mr. McCormick was rescinded. He said there was no particular objection to the show being held in Bowman-

PINKERTON'S FOLDING, SHIPPING AND EXHIBITION COOP.
C. D. Pinkerton, Inventor and Manufacturer, Huntington, Indiana.

ville again, and when it was asked for on behalf of London, it was intended that the exhibition should not go begging. It was the practice to hold the exhibition two years in succession in each place, but that he had recently had a conversation with the now late Minister of Agriculture and he expressed it as the desire of the Government that the show should be moved from place to place and not held continually in one section, and that unless this were done, the Government grant might possibly be withdrawn.

He stated also that Mr. Hobbs was incorrect in making the statement that London had only paid 17½ cts. on the dollar. London paid her prize money in full, but it was Brantford who had failed to pay the full amount, and the trouble in regard to the seizure of coops at St. Catharines was occasioned by a man who had purchased a number of notes given by the Association after the Brantford show and had obtained judgment for the amount of them. He also stated that he had over \$500 worth of notes of the Association himself, but, of course, would never press for payment of them.

Upon this explanation by Mr. Bogue, Mr. Hobbs tendered the representatives of London, an apology for his statements.

Mr. Saunders, on behalf of the London Association, accepted Mr. Hobbs' apology, and stated that when Bowmanville asked for and obtained the show it was

on the express stipulation that they would not ask for it a second time in succession. He thought it would only give Hamilton her rights to let the show go there.

It was moved by Mr. Dutton and carried that the resolution to the effect that the annual exhibition shall not be held twice in succession in one place be rescinded.

Mr. Geo. G. McCormick supported the moving of the show on account of the precarious position of the Government grant.

Mr. Hobbs spoke again in favor of Bowmanville, and said they had gone down deep in their pockets to make the show a success, and he thought they should be given another chance so as to clear their expenses. They had run the show as economically as they possibly could, and had done their best to make it a success.

Mr. Doel expressed his surprise that there should be so much East and West in the Poultry Association of Ontario. He stated that when the Association was formed the Hon. S. C. Wood asked him to call upon him, and he was asked to divide the Province and have two Associations—one in the East and another in the West. He stated that circulars were sent out calling a meeting of those interested in the scheme, but it was found impossible to get any one to attend. He said that it was in the past the West who pushed the Association, and expressed his pleasure

at seeing the East taking such an interest in it. He advised the members to drop the feeling of East and West, and all join in making it one grand success.

Upon a vote being taken Bowmanville was chosen by an almost unanimous vote.

The President expressed thanks for the confidence shown in Bowmanville and the officers of the Association. The election of officers was then proceeded with and resulted as follows:—President, Mr. J. W. Dutton, Bowmanville; 1st Vice-President, Mr. A. Bogue, London; 2nd Vice-President, Mr. W. Barber, Toronto; Directors, Messrs. J. B. Archibald, Jno. S. Moorecroft, Bowmanville, W. McNeil, London, G. S. Oldreive, Kingston, Jno. Cole, Hamilton, Jas. Main, Boyne, D. C. Trew, Lindsay and C. F. Wagner, Toronto.

Messrs. Dilworth and Wagner, Toronto, were chosen delegates to the Industrial Exhibition; Messrs. McCormick and Saunders to the Western Fair, and Messrs. Cole and Hamilton to the Great Central Fair. Auditors: Messrs. Donovan and Duff, Toronto. Mr. Wagner spoke of the duty on pigeons, and a petition is to be gotten up by the Association praying the Government that the duty be removed.

Mr. Joseph Dilworth stated "It has occurred to me that there ought to be a deputation wait upon the Minister of Agriculture with the view of obtaining an increased grant. I think we ought to have two grants—one for the East and one for the West—and let us hold the show two years East and two years West and then have a joint show in Toronto. If \$600 were granted to each we could, every five years, have a prize list of \$1,200, and as we can get good buildings, coops, &c., there is no reason why we should not have the Crystal Palace Show of Canada. Ottawa already receives a

grant of \$300 and upon getting a further grant of \$300 they surely would permit the show to go elsewhere. I spoke some time ago to the late Minister of Agriculture with reference to this matter, and he said that if Ottawa would turn in with us he thought there would be little doubt of our getting a grant of a thousand or twelve hundred dollars."

Mr. Thomas A. Duff Moved, seconded by Mr. George G. McCormick, that a Committee be appointed to wait upon the Minister of Agriculture and impress upon him the necessity of giving an increased grant, and that Messrs. Bogue, Dilworth, Mason and Doel, constitute such committee. Carried.

DIRECTORS MEETING.

At a meeting of the Directors, immediately after the annual meeting, Mr. J. M. Hern was again chosen Secretary, and Mr. J. J. Mason, Treasurer.

After some little discussion in regard to the slight deficiency in the accounts of the St. Catharines Show the meeting adjourned.

THE SUPPER.

The Bowmanville Poultry Association afterwards entertained the visiting exhibitors, fanciers and judges at a banquet in the Bennett House, where over 100 sat down to a sumptuous repast, to which full justice was done. President Mason presided, having on his right Hon. John Dryden, Minister of Agriculture, and Dr. J. W. McLaughlin, Registrar of West Durham, and on his left W. F. Allen, Mayor of Bowmanville, and W. H. Doel, J. P., of Eglinton. An orchestra furnished abundance of music.

Mr. Dryden, in response to the toast of "The Local Legislature," said the Poultry Association had not a representative in the Assembly, but if the Association can show the Legislature that more money can be judiciously used in promoting the poultry industry

in this Province he would have no objection whatever to their receiving it. He spoke at considerable length on the agricultural interests of Ontario, and paid a high compliment to the fanciers on their intelligence and success in this exhibition.

Dr. McLaughlin also delivered a very timely address on the extent and worth of the poultry industry in Canada, stating that the amount of money brought into this country last year for eggs was \$2,500,000, which, with the home consumption of fowl and their products, would reach fully \$7,500,000.

Mayor Allen, W. H. Doel, A. Bogue, Corporal Hobbs, W. McNeil and others made brief speeches; songs were rendered by Messrs. McKnight, Barber, and others.

Too much praise cannot be given to the Bowmanville fanciers for the hospitable way in which the visitors were entertained. The Bennet House deserves the very highest compliments for the able manner in which they catered to the wants of all present.

TORONTO POULTRY, PIGEON AND PET STOCK ASSOCIATION.

REGULAR Meeting of the Toronto Poultry, Pigeon and Pet Stock Association was held in Richmond Hall, on Thursday, the 15th inst. The President, Mr. Barber, in the chair. The minutes of the last annual meeting were read and adopted. Mr. Chas. Bonnick wrote the Secretary that his name should have been placed on the list as a delegate to the Western Fair, he having been elected at the annual meeting. Through some mistake the name of Mr. Dilworth was placed on the list instead of that of Mr. Bonnick. The mistake was rectified. The late Secretary Mr. E. F. Doty presented his annual report, which was

read. The Treasurer's report was also read, and both reports were referred to the Executive Committee.

The birds brought up for judging consisted of barred and white Plymouth Rocks, golden and silver and white Wyandottes, and prizes were awarded as follows:—Barred Plymouth Rocks, first and special, Jos. Bennet; second, R. Downs. Laced Wyandottes, first and special, C. J. Daniels; second, John Gray. White Wyandottes and white Rocks, first, Robt. Bloy. One pair of barred Plymouth Rocks, one pair of white Plymouth Rocks and one pair of laced Wyandottes disqualified.

Mr. W. Fox brought two pair of pigeons, one pair of Antwerps, one pair of Dragoons; won first on Atwerps; Dragoons disqualified. Judges, Messrs. Dilworth and Miles on Wyandottes, Daniels and Otter on Plymouth Rocks, and Hobden on pigeons. There was considerable comment and dissatisfaction at the judges decision, and it was finally decided that in future the birds be shown singly, the old and young to compete together.

After some discussion re the late Ontario show, the meeting adjourned. Receipts, \$2.60.

JOHN GRAY,
Secretary.

EAST YORK POULTRY, PIGEON AND PET STOCK ASSOCIATION.

A NNUAL meeting of the East York Poultry, Pigeon and Pet Stock Association was held in Bater's Hall, Chester, on Tuesday, the 6th inst. The President in the chair. The minutes of the previous meeting were read and adopted. Five new members were proposed and accepted as follows:—Ex-Ald. Joshua Ingham, J. P., Mr. R. Hazleton, Senr., Mr. John Vanhorne, Mr. W. G. Bee and Mr. W. Bloy.

There were laced and white Wyan-

dottes and white Plymouth Rocks brought up for judging which resulted as follows: First, M. Parmenter, second and third, R. Bloy. Judge Chas. R. Bache.

The election of officers for 1891 resulted as follows:—Hon. President, Joshua Ingham; President, E. J. Otter; 1st Vice-President, R. Bloye; 2nd Vice-President, M. Parmenter; Secretary, John Gray; Treasurer, C. A. Mackinnon; Executive Committee, Thos. Bailey, Thos. Benson, John A. Macdonald, W. G. Bee and Gilbert Self; Delegates to Industrial Exhibition, Joshua Ingham and Robt. Hazleton; Delegates to Western Fair, E. J. Otter and Chas. R. Bache; Auditors, Messrs. Bache and Parmenter.

Mr. Bater having offered the Association the use of his hall on very reasonable terms, the offer was accepted and will be the permanent place of meeting in future. Adjourned.

JOHN GRAY,
Secretary.

PINKERTON'S COOP.

IT is put together with hinges; having 2 partitions hung on detachable hinges, which swinging back, will make one grand coop giving the birds a chance to walk around and use their wings, or by being brought into position making 3 coops 20 x 20 x 30 inches. Has the regulation round stick front with sliding doors, and is covered with canvas, weighing when complete about 26 lbs. This makes the nicest, cleanest coop and background procurable, and will show the birds up to the very best advantage. Its simplicity, and the fact that anyone can set it up in less than 5 minutes, recommends it to all, as the coop is as firm as any coop made. A photograph will be sent to any one desiring to investigate, on application. Regular size 60 inches in length and 20 x 30 high, odd sizes can be made to order.

Bantam Department

BANTLINGS.

A LETTER from Mr. E. B. Cale, Stratford, the Secretary of the recently formed Ontario Ornamental Bantam Club, will be found in this issue of REVIEW. There is a good work before this Club if it is carried out in the proper manner.

Why not call it the Ontario Bantam Club? Do not the miniature Games need looking after? Outside the black-reds and a few pyles the quality of these pigmies is below par.

Art. II. of the constitution says that one of the objects of the Club is to "fix rules and standards for judging." Stick to the American Standard of Perfection, you won't go far astray.

A NEW CLUB.

Editor Review :—

At a meeting of Bantam fanciers held on the 1st of January, 1891, an Ornamental Bantam Club was formed. It is to be called the "Ontario Ornamental Bantam Club." The object of the Club is the improvement of Ornamental Bantams, and by giving special prizes at the winter shows to bring more and better birds there. We also propose to look after them at the shows as regards shipping and feeding, and if possible to have a delegate at each show for that purpose. This is a Club that every Bantam fancier should join, the membership fee being one dollar only. The Club starts out on a good solid basis, and judging from appearances will soon have a large membership. The officers elected for the ensuing year are: President, J. G. Ford, Milton; 1st vice-president, Geo. H.

Carley, Barrie; 2nd vice-president, A. G. H. Luxton, Hamilton; sec.-treasurer, E. B. Cale, Stratford. A copy of the Constitution and By-laws will be sent to all who drop a card to the Secretary.

Yours truly,

E. B. CALE,
Sec.-Treas.

Stratford, Jan. 8th, 1891.

ONE OF RANKIN'S RIVALS.

SOME time ago a notion took me that to raise my own ducks and green peas, would be a nice thing to do, so after consulting my wife I determined to try. At an exhibition I bought a drake and three ducks of the Aylesbury breed, not prize birds by any means, but good of their class. I then read up all the duck lore that I could come across, more especially relating to the breed that I was adopting. I read how the old woman in my native land raised ducklings without end and how they (the ducklings) ran about the cottages in Aylesbury like the turkeys long ago described in ancient history, with knives and forks stuck in their backs crying out "Who will eat me, who will eat me." Feeling confident that it was an easy job, I went on my way rejoicing. The mildness of the climate of England, I surmised was the cause of their success, so I anxiously waited for warm weather. My ducks began laying early, but what to do with the eggs was the question as I had heard and read that they ought not to be kept too long. So after numerous appeals from the "Missus" I handed them over to her and soon they were converted into pies and puddings, and any number were boiled for the youngsters, who began to complain that they would be "quacking" soon.

May came on with its grass, leaves

and musquitos, and now thought I is my time to give an old hen, a feathered friend of mine called "Specky," some duck eggs to hatch, and in a months time ten little yellow balls came out of the eleven eggs, much to the delight of their foster mother. When strong enough, I carried them to their future home, a yard enclosed by boards standing on edge and covered by 3 inch wire netting raised sufficiently high in the centre by hoops, nailed on the edge of the boards, so as to give the old hen room to cluck and call her crowd together. At one end of the yard, I placed a coop with a door for safety at night, and then covered one half the yard with the common oil-cloth used by dry goods packers. This gave the ducklings shade and a shed against showers—as strange to say—all authorities agree that although they are aquatic birds, they require dryness to pull them through their youth. I kept them in this yard for about a month without an accident, until one unlucky day, a stupid old mare, very near her dotage, stumbled into the yard, causing a stampede and tramping upon one of the unfortunates. After this old Specky was no more confined and wandered where her own "sweet will" bade her, getting back at night to her coop. To my great chagrin, one morning I saw that two ducklings were gone, and on moving the coop I found their remains dragged underneath, evidently a provision for some vile tramp. Next morning I visited the coop again and out sprung, what I took to be a weasel, but found, when my dog had pinned him, that it was a ferret that had escaped from a neighbor's stable, where he kept a number for the amusement of rat hunting. On my handing the carcass to my friend, he bemoaned his fate, the animal having cost him a large sum, being one of a pair that had been imported from England, with a pedigree as long as your arm. But it

was hard to say who was most disgusted, the ferret man or myself.

Then came my next mishap, old Specky flew over the fence and by excited calls and gestures induced her family to follow her, after numerous attempts they succeeded in finding holes to crawl through into the potato patch, where insects of all kinds were demolished—but oh, what misery the trip caused the poor mother, on their return to their own yard her sorrow and mine, she saw three, no doubt in her mind, the finest, turn over on their backs and die. I opened the unfortunates and the cause was easily seen, finding in their stomachs from six to ten potato bugs, which evidently had poisoned them, some may say that it was paris green, but I can assure my reader that it was not, as none had been used there for years. I then decided to board up the holes to prevent a like disaster.

A new misfortune now came upon me, a favorite Terrier bitch that had hitherto behaved well, but who had a litter of pups, and who could not stand the temptation of duck without green peas, made an inroad upon my ducklings, two being carried off to her kennel to give a treat to her beauties. Fate seemed against me, and to prevent further thefts the bitch was chained up. The three remaining ducklings were watched more closely than ever, but notwithstanding my caution, one disappeared and one died a natural death. One only was left and that one turned out to be a drake and a scrubby one at that.

I hope that my troubles will not induce fanciers to drop ducks, "but if they succeed no better than I have done, ducks will be as valuable and rare, as the much 'boomed' Indian Games."

AN OTTAWA FRIEND.

LONDON POULTRY AND PET STOCK ASSOCIATION.

LONDON Poultry and Pet Stock Association held its regular monthly meeting at the residence of Mr. G. G. McCormick, Dufferin Avenue, on Thursday evening, the 22nd inst; it being the occasion of the second annual supper given by Mr. & Mrs. McCormick to the members of the Association.

President McNeil in the chair, with a full attendance of members. The meeting opened by reading minutes of last regular meeting, and on motion of Mr. Bogue, seconded by Mr. Evans, the minutes as read were adopted.

Mr. Bogue stated that in consequence of his being elected a Director of the Western Fair Association, he begged leave to resign his position as delegate from this Association to the Western Fair Board, and moved that R. Oke be appointed in his stead, seconded by J. H. Saunders.—Carried.

The committee appointed on the establishing of the Homing Antwerp Loft in this city reported through J. S. Niven, M. D. He stated that he had interviewed quite a number of the leading citizens, and they were strongly in favor of forming a club, and desired that a meeting be called at an early date for the purpose of forming the same, and he moved that the report be received and that the committee be discharged, seconded by J. H. Saunders.—Carried.

It was then moved by Mr. Bogue, seconded by Mr. Stockwell, that J. S. Niven, M. D., Col. Aylmer and G. G. McCormick be appointed a committee to call a meeting for the purpose of forming the club. It was thought advisable that it should be formed separately from the Poultry Association.—Carried.

Messrs. Bogue, Saunders, McCormick and Evans gave the members a

good description of stock, and the management of the Ontario show held in Bowmanville. They complimented the officers for the manner in which they had performed their duties in connection with the management of the exhibition. Mr. McNeil also gave an extended description of the New Hamburg show, which he had exhibited at, and complimented the boys in charge for the manner in which they entertained the exhibitors while with them.

Silver laced Wyandottes was the variety chosen for competition at our next meeting. The business of the meeting having been gone through with, an adjournment was made to the dining room, where Mrs. McCormick had a elegant repast in waiting, and it is needless to say that the inner-man did justice to the occasion. One of the members, (I refrain from giving his name as he is larger than I am) was heard to remark "that he was very glad he came." Mr. McCormick knowing his eating propensities replied that "he also was pleased as it relieved him from the awful predicament of subsisting on turkey for the balance of the week" and every one smiled a smile. After the supper an adjournment was made to the sitting room where all were amused to their hearts content until the "wee sma" hours of the morning. A hearty vote of thanks was tendered Mr. and Mrs. McCormick for the elegant manner in which they had entertained the members. Mr. McCormick replied feelingly thanking all for their presence. The singing of the National Anthem brought the most enjoyable annual outing yet held to a close.

R. OKE, Sec'y.

WYANDOTTE CLASSES.

Editor Review:—

I WAS pleased to see in last REVIEW a very good letter by Mr. Meyer referring to silver laced

Wyandottes. I am glad that Mr. Meyer has started the ball rolling, as I think it high time that Wyandotte breeders should speak out for their rights. I was not surprised, Mr. Editor, at your enquiry in December number as to whether there were any silver laced Wyandottes in Canada, and where they were to be found. I must admit that good specimens are scarce, yet there are some fine specimens to be found, and I think I can answer your question. It is simply this. Wyandottes have not been getting justice at the Ontario Shows. When silver Wyandottes had a separate class at the Ontario show, they were for a new variety well represented and good specimens shown, but since the goldens came and they are classed together there have been very few shown, as breeders do not think it justice to double them up, and only allow Wyandotte exhibitors to be able to win half as much prize money as breeders of any other variety. Put any of the old varieties in the same position and see how soon they will dwindle down at our shows, not only that, but most of our exhibitors show for the advertisement as much as for money. A Wyandotte exhibitor may exhibit and win prizes, but no person can tell by reading the prize list whether he breeds silver or golden Wyandottes as they are classed laced Wyandottes. I think that any variety of useful fowls admitted to the American Standard as long as silver, white and golden Wyandottes should have separate classes. Many of our county and township shows give them separate classes.

A number of breeders in the west have for three years patronized American shows, because they could not get justice at home.

Hoping to hear from other Wyandotte breeders on the subject I will close, and may on some future occasion give my views on breeding and judging Wyandottes. Yours Respectfully,

T. H. SCOTT.

St. Thomas, Ont, Jan. 19'91.

(No time like the present Mr. Scott, let us have part of your experience for our next issue.—Ed.)

MR. MASON SPEAKS.

Editor Review:—

BELIEVING that there are a large number of your readers who were not exhibitors at the Ontario Exhibition this year who are nevertheless interested in the welfare of the Association, I thought it would not be out of place to inform them through the medium of your valuable paper that we have already settled up all affairs in connection with our late exhibition. *All prizes and bills have been paid in full.*

When we asked for the Ontario exhibition to come to Bowmanville we did so with the determination to make the show a success. Previous to the exhibition we refrained from making any promises as we did not wish to promise more than we were sure we could fulfill. We were aware that we were working under greater difficulties than any other town where the exhibition has been held. We were the first place where the local Association had to furnish the coops, and being a smaller town we could not hope for as many local advertisements in prize lists nor as large door receipts. Further, we were not in possession of any books or records of the other Ontario exhibitions which would have helped us as a guide. But having done the best and the result having proven that we did far better than some of our predecessors you will have to pardon us if we *crow* a little. Of course an official statement of the affairs of the Ontario will be forthcoming in proper time. Our object in writing this letter is to show the fanciers that they can depend on Bowmanville doing the right thing. Some of the older heads will be able to correct me if I am wrong, but I think for promptness in settling up after the Ontario Exhibition, Bowmanville takes the lead. Regarding the manner the exhibi-

tors were treated while here, and the general working of the exhibition, we would prefer that others should speak, but we must take this opportunity of thanking the exhibitors for the numerous compliments that were heaped on us during and after the exhibition. All we can say is that we did our best and having gained wisdom with experience we promise to do better next year. We can see no reason why the exhibition next year should not be double the size of the late show. As it is not a local affair but something in which all fanciers of the province should be interested let us take hold of it and boom the Ontario. Why not? More anon.

JOHN J. MASON.

(late) Pres. "Poultry Association of Ont.,"

Bowmanville, Jan. 22'91

WORMS IN FOWLS.

Editor Review:—

A peculiar sickness occurred the other day with one of my dark Brahma cockerels, which of course was the best. I thought a line to your valuable paper about it would perhaps help others out of the same difficulty.

I noticed last Saturday, the 10th inst. that he refused to eat, only the morning before he ate, as I thought, too much, and then did not seem satisfied. I watched him at the next meal and still he refused food. I gave him a little corn but he would not touch it. I put him in a coop by himself thinking he was probably going light. I gave him a dose which as a rule never fails. Sunday morning I stood watching him for about an hour, he still refusing to eat. I was about to feed him myself, when I noticed when he was made walk about he seemed giddy but not weak on his legs. I watched him a little while

longer when I noticed his droppings were in a semi-hard condition, but seemed to be all on the move, I at once examined it and found it all alive with worms, something like pin worms. That settled the mystery as I knew I had a remedy that was sure death to worms. I always have in the house Gerred's Worm Lozenges for family use which never failed to remove them. I made up my mind to give him one, kill or cure. I got one and broke it up in small pieces and gave it to him; on an empty stomach it takes about two hours to operate. I waited patiently for the result which was good. He passed about half-a-cup full of small worms, as I said before, like pin worms. Almost immediately after he began to scratch around for something to eat. I fed him a little at a time and he is now as well as ever he was.

It was something new to me and if it had not been one of my best cockerels it is altogether likely I would never have known what was the matter with him. If any one else has seen or had anything like it I should like them to publish it and let us know how they cured them.

Hoping I have not taken too much space. Yours Respt.

E. J. OTTER.

Toronto Jan 15'91

A CORRECTION.

Editor Review:—

BUNNVILLE prize list should read thus: Sebright Bantam cock 1st and 2nd O'Brien & Colwell, hen 1st and 2nd same; instead of the way it appeared.

O'BRIEN & COLWELL.

Paris Station, Ont.

SCRAPS,

FROM REVIEW CORRESPONDENCE.

Editor Review:—

NOW that we are sending eggs to a new market, where they are sold more by weight than by count, let us then look around and secure those breeds that will meet this demand when they are properly cared for. This will lead to a raid on those breeds that many are so well pleased with, because they are good on the count. Now, let me say that I have watched this count business for many years, and what have I found? that the hen with a record of of 6½ or 7 to the lb. will beat the greatest number of Red Caps or saw combs at the end of the year, on the scales. Then, again, when you seek their eggs it is not on the top of the house or in fence corners, but in the coop you find them; and if you want a fowl for the table, you have one, and not a sparrow. Though out of place now, let me tell you that our old Brahma hen died on the 17th, aged 13 years and 8 months; she never wanted to sit but once, and her record went over 2,200.

T. HOOD.

(There is most emphatically no best breed. Each and every breed has its own particular sphere, eggs, flesh or beauty, or a combination of either one of the first two and the latter.

Nearly 14 years is a great age for a fowl to live to. How was she treated, housed, fed, etc.?—ED.]

Editor Review:—

The majority seem to say that advertising pays. Last year I did not sell enough to cover mine, and this year have sold only one cockerel at \$2.00, representing my total sales. I raised 104 chickens, hoping to get some results from 'printers' ink.' This

number, with my old hens, made a large flock to feed. I got discouraged when a dealer offered me 20c. each, and killed down to fifty, giving them all away. Poultry pays, there is no doubt of it. I would like something like this to appear in a paper to offset some of the items we see on the other side, of great gains.

I love hens or I would give the whole thing up in disgust. My wife advised me several times this fall to do so; but "with all their faults I love them still."

You see I contradict all this when I still send an "ad" showing how consistent I am.

Hoping I will be in good time for next issue, and wishing you the compliments of the season.

I am &c.,

W. S. ODELL.

Ottawa.

(Certainly we will be happy to show both sides of the question. Where does the fault lay? Is the variety offered for sale a popular one? Is the advertiser in a section of the country where sales can readily be made? Is the REVIEW at fault?—ED.)

Editor Review:—

My fowls have got a disease, they swell under the eyes and when you squeeze their nostrils a discharge comes like dirty water, it has a little smell but not so bad as roup. Only two old birds have got it, but the whole of my young ones, about 100 birds have had it all winter. I lost three. I have got about twenty cured. I put in their nostrils and around their eyes 1 oz. acetic acid; 3 drs. carbolic acid; 1 oz. sugar of lead; 1 oz. alum; 5 drs. glycerine mixed together, and tincture of iron and quinine. Since I commenced with this mixture I have lost none.

Editor Review:—

Enclosed please find \$5 for one year's subscription for the following names I have sent, \$1 to renew my subscription which does not fall due until Feb., however I want you to send me I. K. Felch's book, and oblige.

Yours truly,

C. S. JACKSON.

International Bridge, Ont.

[From all points they come].

Editor Review:—

The REVIEW for this month came to hand to-day and I must say that like good wine it continues to improve with age. I am sure your readers are in for a treat in Mr. Babcock's papers judging by the enviable notoriety he holds as a poultry writer. Mr. Mortimer's writings also are always interesting and at the same time very practical.

"Black Wyandot's" notes on Leghorns suggest to me the thought that if fanciers would only stick to the varieties we have already got and not be everlastingly seeking after something new, it would be a good thing for the trade both financially and otherwise. Of course man will ever seek to improve but why not improve what we have already got and not boom a variety for a couple of years and then when it is really getting to be of some value drop it for some new fangled variety or other. I believe that this booming of new varieties does more injury to the fancy than is generally thought. As an example take the case of a beginner who reads some puff concerning a new variety and purchases a few of them. Now ten chances to one they will not breed true, then he becomes disgusted and gives up the fancy, and as new breeds are continually being made we must, as a consequence be continually losing fanciers.

Do you not think it would be well for poultry journals to discourage booming of new varieties? I suppose it is

a matter where you must fall in with the wishes of the majority. Mr. Meyer's very sensible letter is, I think, a proof in favor of the injury done by booming.

You don't seem to think that there could be any excuse for Mr. Bicknell not turning up at Brampton, but from what I have seen of this gentleman, I am of the opinion that you will find his absence was unavoidable.

I have had a splendid fall trade having shipped fowls as far as Deloraine, Man., Augusta, Ga. and Newcastle, N.S. I am now of the opinion that it pays to advertise, although when I began and for a year afterwards I thought it did not.

You will kindly excuse the length of this letter, but as I had just been reading the REVIEW, I felt like writing and therefore have taken the liberty of boring you. Wishing you a happy New Year and many returns of the same.

I am, yours, etc.,

J. L. CORCORAN.

Stratford.

[No fear of boring us, Mr. Corcoran, it is a pleasure to get such letters. Can you find any issue of the REVIEW where any variety, new or old, has been unduly "boomed"? We *can't*. Indian Games are now receiving oceans of space from nearly all the poultry journals in America, the REVIEW has been conservative in its praise of them and will continue in that course until *proof* of their extraordinary usefulness is forthcoming. We should be very glad indeed to learn that Mr. Bicknell had been unavoidably detained from Brampton show, but the duty of this paper as a public journal was to notice what the Secretary said before all those assembled at the supper. Personally we have a very warm regard for genial, kind, J. Y. Bicknell, and it is not a thing of to day either but has existed for years back. Ed].

Editor Review,—

Kindly inform me and your readers generally, whether it is likely that laced Wyandotte pullets, now five months old are likely to change the color of their ear-lobes, that are now white, which is declared by the "Standard of Perfection" to be a disqualification, the birds are well laced and good yellow legs, but this defect would of course condemn them for exhibitions. If you can give me hopes of their lobes turning red, you would enliven

AN IDLE HOUR.

[Our experience has been that the white will not decrease with age, but if not now covering the entire lobe, rather the reverse. What do Messrs. McCormick, Meyer, Scott and others say? Ed].

Editor Review,—

Please find enclosed \$1.25 for REVIEW for 1891 with free ad. and additional ad. I am well pleased with your paper and with your kindly interest in everybody connected with the fancy. Long may you and the C.P.R. flourish.

Fraternally yours,

C. J. EISELE.

Guelph.

[Thanks, your kind wishes are cheering. It is a *pleasure* to us to do anything in our power for the good of the fraternity. Ed.]

POULTRY ASSOCIATION OF ONTARIO.

ANNUAL EXHIBITION AT BOWMANVILLE.

OUR Eastern friends are to be congratulated on the way the Exhibition was conducted this year, everything seemed to work very smoothly indeed. Mr. J. J. Mason made an able president, and

Mr. J. M. Hern had the secretary's department well in hand, assisted by the various members of the committee; on Mr. Joseph Jeffrey, the treasurer, a great deal of the later work will fall, and from what we can learn, this position has never been better filled than with the treasurer of 1890.

The show was held in an old disused Church building, and, but for the lack of more space, was excellently adapted in every way to the purpose to which it was put. The birds numbered between 900 and 1000, and we never remember having seen such high quality on the whole. Mr. Smelt's score cards and card holders were used, and seemed admirably adapted to the purpose, we would suggest, however, that the holders be hung at the middle of the coops and not at the top, as the birds in the top tier frequently pull the cards out. The holders are also too large for the Bantam coops.

The appended scores show the quality of the birds so nearly, that it becomes almost unnecessary for us to give a very extended report, in fact, space forbids it.

Messrs. Butterfield, Jarvis and Smelt judged all classes.

Brahmas—Hardly as good as we have seen. Light, fair, 1st hen a large one in good shape. Dark, 1st cock, an easy win, good all over. 1st and 2nd hens, tie.

Cochins—Very good, especially the Buffs, which made an immense show. We could not agree with Mr. Butterfield on the buff cocks. The first has black and white mixed in wing color, a bad defect, and was cut but one, while an unnoticed bird (Hare's) very sound in wing color was cut the same amount. The former also fails in under color, while the latter is clear buff to the skin, both were cut the same here too. Hare's bird is to "livery" in tail color, and tail also seemed a bit wry to us on several occasions when we look-

ed at it. The 1st prize bird has rather crooked-toes. 1st hen, a grand colored, good shaped big one, others good. Other colors good, whites shown in beautiful fit, white as snow.

Langshans—a large class of 33, showing several distinct types, several disqualified for white in plumage. 1st cockerel, short on leg and Cochiny in type. 2nd, higher and an entirely different shape, which we preferred. If one is a Langshan the other most certainly is *not*.

Dorkings—of the usual high quality, Whites especially, good.

Games—were a good lot. 1st, black red cockerel, a good upstanding one of nice color, was, we heard, sold to go to British Columbia. 1st Brown red hen, good in shape and quality. Duckwings, fair. Pyles, good all round.

Indian Games—turned out strong. They yet differ greatly in type.

Plymouth Rocks—Hardly as large a class as we expected to see. 1st cock, a large one good in shape and color. 1st cockerel, a beautiful even colored one, fails in comb. 1st pullet, nice all over, tie for 2nd. Whites, nice, 1st cockerel especially a beauty, good shape, color, legs and beak.

Wyandottes.—The whites improve if anything, the winners were shown in the pink of condition, and are excellent in all points. Silvers, few, one or two fair ones, the 1st hen we liked best of any. Golden, seem to improve, best cockerel cut five in weight, otherwise an easy win.

Spanish—a moderate lot, some of the young ones show promise.

(To be continued.)

PRIZE LIST.

Light Brahma—Cock, 1st Jno Cole, Hamilton, Ont, 91; 2nd Maplewood Columbarry, Toronto 90½; 3rd W Hodgson, Brooklyn. Hen, 1st J M Hern, Bowmanville, 94½; 2nd Jno Cole, 94; 3rd Jno Cole, 94. Cockerel, 1st Arthurs & Miles, Toronto, 92½; 2nd Jno Cole, 91½. Pullet, 1st Arthurs &

Miles, 93; 2nd Jno Cole, 92½; 3rd Maplewood Columbarry, 92½. *Dark*—Cock, 1st Arthurs & Miles, 93; 2nd Wm Hodgson, 91½. Hen, 1st Arthurs & Miles, 92; 2nd Arthurs & Miles, 92; 3rd Hodgson, 88½. Cockerel, 1st A Bogue, London, 92½; 2nd A G H Luxton, Hamilton, 92; 3rd Arthurs & Miles, 91. Pullet, 1st Arthurs & Miles, 93½; 2nd Arthurs & Miles, 93; 3rd Luxton, 93. *Buff Cochins*—Cock, 1st Geo G McCormick, London, 94; 2nd F C Hare, Whitby, 94; 3rd Bartlett & George, London, 93½. Hen, 1st F C Hare, 94½; 2nd Hare, 94; 3rd McCormick, 93½. Cockerel, 1st McCormick, 95½; 2nd Hare, 94½; 3rd McCormick, 94½. Pullet, 1st McCormick, 95; 2nd McCormick, 94½; 3rd McCormick, 94½. *Partridge*—Cock, 1st Bogue, 94½; 2nd Bogue, 92; 3rd J O LaBelle, Bowmanville, 89½. Hen, 1st Bogue, 92; 2nd Bogue, 91. Cockerel, 1st Bogue, 94½; 2nd Bartlett & George, 93 1-2. Pullet, 1st Bogue, 93; 2nd Bartlett & George, 91 1-2. *Black*—Cock, 1st Wm McNeil, London, 95 1-2; 2nd McNeil, 94. Hen, 1st McNeil, 95 1-2; 2nd McNeil, 94 1-2. Cockerel, 1st McNeil, 97. Pullet, 1st McNeil, 96 1-2. *White*—Cock, 1st McNeil, 94 1-2; 2nd McNeil, 94. Hen, 1st McNeil, 98; 2nd McNeil, 97. Cockerel, 1st McNeil, 95. Pullet, 1st McNeil, 96; 2nd McNeil, 94. *Langshan*—Cock, 1st LaBelle, 95; 2nd McNeil, 94 1-2; 3rd, McNeil, 94 1-2. Hen, 1st McNeil, 97 1-2; 2nd McNeil, 96; 3rd J H Reid, Bowmanville, 95 1-2. Cockerel, 1st LaBelle, 96; 2nd Arthurs & Miles, 94 1-2; 3rd Reid, 94. Pullet, 1st Reid, 96 1-2; 2nd LaBelle, 96; 3rd LaBelle, 95. *Silver Grey Dorking*—Cock, 1st Bogue, 95; 2nd Jno Murdoch, 89 1-2. Hen, 1st Allin Bros, Newcastle, 94 1-2; 2nd Bogue, 94 1-2. Cockerel, 1st Bogue, 95; 2nd Allin Bros, 94; 3rd M McTavish, Bowmanville, 91 1-2. Pullet, 1st Bogue, 95 1-2; 2nd J B Wilson & Son, Oshawa, 94; 3rd Murdoch, 94. *Colored*—Cock, 1st Bogue, 94; 2nd Jas Main, Boyne, 92. Hen, 1st Bogue, 96; 2nd Bogue, 95; 3rd Main, 94 1-2. Cockerel, 1st Bogue, 95; 2nd Wilson & Son, 92. Pullet, 1st Main, 96 1-2; 2nd Bogue, 94; 3rd Wilson & Son, 92 1-2. *White*—Cock, 1st Bogue, 96; 2nd Bogue, 94. Hen, 1st Bogue, 97; 2nd Cole, 95; 3rd Bogue, 94. Cockerel, 1st Bogue, 94 1-2; 2nd Bogue, 92 1-2. Pullet, 1st Bogue, 94; 2nd Bogue, 91. *Black-Red*—Cock, 1st Maine, 94½; 2nd Maine, 94; 3rd Barber & Co, Toronto, 93 1-2. Hen, 1st Barber & Co, 95; 2nd Maine, 94½; 3rd E F Doty, Toronto, 93 1-2. Cockerel, 1st Maine, 94 1-2; 2nd Barber & Co, 94; 3rd Maine, 94. Pullet, 1st Maine, 94 1-2; 2nd Maine, 93 1-2; 3rd Barber 92 1-2. *Brown*—

Red—Cock, 1st Doty, 92. Hen, 1st Doty, 95; 2nd Doty, 95. Pullet, 1st Doty, 93. *Duckwing*—Cock, 1st Barber & Co, 94 1-2. Hen, 1st Barber & Co, 93 1-2. Cockerel, 1st Barber & Co, 93. Pullet, 1st Barber & Co, 94. *Pyle*—Cock, 1st Barber & Co, 94; 2nd Doty, 91 1-2. Hen, 1st Barber & Co, 95; 2nd Doty, 93 1-2; 3rd Peak & Nokes, Bowmanville, 92. Cockerel, 1st Barber & Co, 92 1-2; 2nd Chamberlain, Bros, Guelph, 92. Pullet, 1st Barber & Co, 94; 2nd Chamberlain Bros, 92; 3rd Chamberlain Bros, 92. *Amy other variety Game*—Cock, 1st, Wm Findlay, Brampton. *Indian Game*—Cock, 1st Arthurs & Miles. Hen, 1st Arthurs & Miles; 2nd C J Daniels, Toronto. Cockerel, 1st Daniels; 2nd Arthur & Miles. Pullet, 1st and 2nd Arthurs & Miles. *Plymouth Rock*—Cock, colored, 1st LaBelle, 91 1-2; 2nd A Veal, Cedar Dale, 89. Hen, 1st Elliot & McLeod, London, 92 1-2; 2nd LaBelle, 92. Cockerel, 1st J B Clark, Dunnville, 93; 2nd divided, Allin Bros, 91, Bartlett & George, 91. Pullet, 1st Allen Bros, 92; 2nd, divided, J E Bennet, Toronto, 91 1-2, L G Pequgnat, New Hamburg. *White Plymouth Rock*—Cock, 1st H H Wallace, Woodstock, 93 1-2; 2nd Wm Hall, Napanee, 92 1-2. Hen, 1st Thomas Hawes, Whitby, 93. Cockerel, 1st Wallace, 94; 2nd Hawes, 93 1-2; 3rd Allin Bros, 91 1-2. Pullet, 1st Hall, 96 1-2; 2nd Hall, 95 1-2; 3rd Allin Bros, 95. *Wyandotte*—Cock, laced, 2nd Elliott & McLeod, 89 1-2. Hen, 1st Elliott & McLeod, 91 1-2; 2nd Maplewood Columbarry, 89 1-2. Pullet, 1st and 2nd Duke 94 1-2 and 92. *Red Caps*—Hen, 1st and 2nd Daniels 92 1 2 and 92. Cockerel, 1st and 2nd Daniels 95 1-2 and 94 1-2. Pullet, 1st and 2nd Daniels 95 1-2 and 94 1-2. *Dorkings, S G*—Cock, 1st Main 90; 2nd Carter 88. Hen, 1st Main 97 1-2; 2nd Carter 93 1-2. Cockerel, 1st Main 93 1-2. Pullet, 1st Main 90 1-2. *Any Other Variety*—Cock, 1st Main 90. Hen, 1st Main 93. Cockerel, 1st Main 92. Pullet, 1st Main 91. *Andalusians*—Cock, 1st J Dilworth, Toronto 92; 2nd W H Dustan. Hen, 1st Dilworth 92; 2nd Dustan 91 1-2. Cockerel, 1st Dilworth 91; 2nd Dustan 89. Pullet, 1st and 2nd Dilworth 93 and 88. *Game Bantams, B B R*—Cock, 1st A H Murchison; 2nd Doty. Hen, 1st Murchison; 2nd W Welsman.

Pullet, 1st and 2nd Doty. *Pyle*—Cock, 1st Murchison; 2nd Doty. Hen, 1st Doty; 2nd Murchison. Cockerel, 1st Murchison; 2nd Doty. Pullet, 1st Murchison; 2nd Doty. *G Sebright*—Cock, 2nd Jessop. Hen, 1st and 2nd Otter. *S Sebright*—Cock, 1st Otter. Hen, 1st Otter. Pullet, 1st Otter. *Pekins*—Cock, 1st D Blackie, Toronto. Cockerel, 1st Blackie; 2nd J A Ceasar, Toronto. Pullet, 1st Ceasar; 2nd Otter. *Black African*—Cock, 1st E B Calc, Stratford; 2nd Thurston. Hen, 1st Calc; 2nd Otter. Cockerel, 1st and 2nd Calc. Pullet, 1st Calc; 2nd Thurston. *Turkeys, Bronze*—Cock old, 1st Main. Hen, 1st Main. Cock 1890, 1st Main. Hen 1890, 1st Main. *Ducks, Aylesbury*—Drake and duck old, 1st Wright; Drake 1890, 1st Dewar & Mitchell; 2nd Thompson. Duck 1890, 1st Dewar and Mitchell. *Rouen*—Drake old, 1st Main; 2nd Anderson. Duck old, 1st Main. Drake 1890, 1st Main. Duck 1890, 1st Main; 2nd Anderson. *Pekin*—Drake old, 1st Cockburn. Duck old, 1st Thompson; 2nd J Tomalin. Drake 1890, 1st Tomalin; 2nd Cockburn. Duck 1890, 1st Thompson; 2nd Cockburn. *Geese, Toulouse*—Gander old, 2nd Griffin. Goose old, 1st Giffin. Gander 1890, 1st C F Trust, New Hamburg. Goose 1890, 1st Trust. *Bremen*—Gander and goose 1890, 1st Main. *Any Other Variety*—Gander and Goose old, 1st and 2nd Giffin. 1890, 1st Griffin. BREEDING PENS—*Dark Brahmans*—1st and 2nd Otter 366 and 363. *Partridge Cochins*—1st Wright 361. *Black Langshans*—1st Guy 371 1-2. *Silver Hamburgs*—1st Dawson 363. *W Leghorns*—1st and 2nd Guy 377 and 376 1-2. *Brown*—1st W Findlay 374; 2nd Mogridge 368 1-2. *Black*—1st Mitchell 371. *Dorkings, S G*—1st Main. *Plymouth Rocks*—1st Robertson 356 1-2; 2nd Pulfer 359 1-2. *White*—1st Sommerville & Nixon 380. *Minorcas, White*—1st Duff 368 1-2. *Black*—1st Cole 374 1-2. MEDAL FOR GREATEST NUMBER OF PRIZES—Main.

POULTRY AT VICTORIA B. C.

ON Saturday the 20th of December the exhibition closed, having lasted 3 days. It was a great success, though the weather was very unfavorable. The public patronized us very liberally. Mr. Sharp Butterfield spoke very highly of the quality of the stock from beginning to end, and said it did not always fall to his lot to judge such a generally excel-

lent class of birds, it being a credit to the exhibitors and I think that next year will find us away ahead of our '90 show. Altogether we can report between four and five hundred entries on exhibition.

In speaking of the exhibits, Brahmans were fair in quality, though hardly up in numbers. We noticed several fine specimens in Cochins. Langshans, only two entries, but good; several real good birds in Houdans. Wyandottes average. Only one really good bird in Plymouth Rocks. Dorking class good, especially in silver gray's. Minorcas, were up in good form. Black Spanish, a few nice birds here though out of condition. Brown Leghorns, strong in number but only average in quality. White Leghorns, several real good birds spoiled for want of water. Polish class, very small and average Hamburg class out strong and one of the best on exhibition, some specimens scoring very high. B. B. Red Games the strongest class on exhibition, keen competition all through, good specimens winning. Pyle Game fair but out of condition. Any other variety Game, very poor, but one cockerel, an Indian Game winning easily. In Bantams there were several nice exhibits. Turkeys were good, also Geese. Ducks average.

PRIZE LIST.

Brahma, Light—Cock, 1st Dr Milne, 91 1-2. Hen, 1st and 2nd F Sturdy, 92 and 91 1-2. Cockerel, 1st and 2nd Sturdy, 90 1-2 and 90 1-2. Pullet, 1st and 2nd Sturdy, 91 1-2 and 90. *Dark*—Cock, 1st Sturdy, 93; 2nd Milne, 91. Hen, 1st Sturdy, 94; 2nd Milne, 90. Cockerel, 1st Sturdy, 92 1-2. Pullet, 1st Sturdy, 90; 2nd Milne, 90. *Cochin Buff*—Cockerel, 1st Milne, 92 1-2. Pullet, 1st and 2nd Milne, 94 1-2 and 94 1-2. *Partridge*—Cock, 1st Sturdy, 93 1-2; 2nd W J Wale, 92 1-2. Hen, 1st Sturdy, 93; 2nd Milne, 88 1-2. Cockerel, 1st Sturdy, 91 1-2; 2nd Milne, 90 1-2. Pullet, 1st Sturdy, 92 1-2; 2nd Milne, 87. *Black*—Cock, 1st Milne, 94. Hen, 1st Milne, 92 1-2. *White*—Cock, 1st W Dean, 94 1-2; 2nd Milne, 92 1-2. Hen, 1st Milne, 92 1-2. Cockerel, 2nd Milne, 87.

Pullet, 1st Dean, 92. *Langshan*—Cock, 1st Milne, 94 1-2. Hen, 1st Milne, 97. *Houdan*—Hen, 1st and 2nd Master Peters, 93 and 93. Cockerel, 1st Peters, 92. Pullet, Peters, 94. *Wyandotte, Laced*—Hen, 2nd Milne, 89. Cockerel, 1st Flett Bros, 90 1-2; 2nd Flett Bros, 90 1/2. Pullet, 1st Flett Bros, 93; 2nd Flett Bros, 91 1-2. *Plymouth Rock*—Hen, 1st C E Renouf, —; 2nd C E Renouf, 91 1-2; Cockerel, 2nd R P McLennan, 89 1-2. Pullet, 1st McLennan, 95 1-2. *Dorking, Colored*—Hen, 1st Sturdy, 95; 2nd Sturdy, 91. *Silver Grey*—Cock, 1st Sturdy, 94. Hen, 1st Sturdy. Cockerel, 1st Sturdy, 95 1-2. Pullet, 1st Sturdy, 95 1-2; 2nd Sturdy, 94 1-2. *Minorca, Black*—Cock, 1st Sturdy, 93. Hen, 1st Sturdy, 95 1-2. Cockerel, 1st Milne, 94; 2nd Milne 94, pullet 1st F Sturdy 94 1-2; 2nd Milne 89. *Black Spanish*—Cock, 1st Dean, 91. Hen, Sturdy, 94; 2nd Sturdy, 93 1-2. Cockerel, 1st Sturdy, 93 1-2; 2nd Dean, 88. Pullet, Dean. *Leghorn, Brown*—Cock, 2nd Milne, 85 1-2. Hen, 1st Milne, 92. Cockerel, 1st Milne, 94; 2nd Dean, 91. Pullet, 1st Dean, 92 1-2; 2nd Dean, 92. *Leghorn, White*—Cock, 1st Flett Bros, 90 1-2. Hen, 1st Flett Bros, 94. Cockerel, Flett Bros, 93 1-2; 2nd Milne, 93. Pullet, 1st Milne, 94 1-2; 2nd Flett Bros, 92 1-2. *Poland, White Crested White*—Cock, 1st McKeon, 90. Hen, 1st McKeon, 95. *Golden*—Cock, 2nd C Becker, 85 1-2. Hen, Milne, 93; 2nd Becker, 92 1-2. Cockerel, Milne, 92 1-2. *Hamburg, Golden Spangled*—Cock, 1st Sturdy, 96; 2nd Sturdy, 95. Hen, 1st Sturdy, 96 1-2; 2nd Sturdy, 94 1-2. Cockerel, 1st Sturdy, 91; 2nd Sturdy, 90 1-2. Pullet, 1st Sturdy, 93 1-2; 2nd Sturdy, 92 1-2. *Silver Spangled*—Cock, 1st Sturdy, 91; 2nd W McKeon, 86 1-2. Hen, 1st Sturdy, 97; 2nd Sturdy, 95. Cockerel, 1st Sturdy, 91; 2nd Sturdy, 90 1-2. Pullet, 1st Sturdy, 96; 2nd Sturdy, 95. *Golden Pencilled*—Cock, 1st T Black, 94; 2nd Black, 94. Hen, Black, 90; 2nd Black, 87 1-2. *Black*—Cockerel, 1st Sturdy, 94 1-2. Pullet, 1st Sturdy, 95. *Game, Black Breasted Red*—Cock, 1st J Stewart, 92; 2nd Stewart, 91 1-2. Hen, 1st Black, 95; 2nd Black, 94. Cockerel, 1st Black, 90 1-2; 2nd Stewart, 89. Pullet, 1st and 2nd Black, 93 1-2 and 92 1-2. *Pyle*—Hen, 1st and 2nd Stewart, 90 each. Cockerel, 2nd Stewart, 88. Pullet, 2nd Stewart, 85. *Duck Wing*—Cockerel, 1st Black, 90. *Any Other Variety*—Hen, 2nd E H Braden, 89 1-2. Cockerel, 1st Fred Peters. Pullet, 2nd Braden 89 1-2. *Pit Game, Black Red*—Cock, 1st Braden, 90 1-2. Hen, 2nd Braden, 89 1-2. Cockerel, 2nd Braden, 88. Pullet, 2nd Braden, 89 1-2. *Brown Red*—Cock, 1st Braden, 90. Hen, 1st Braden, 90. Cock-

erel, 1st Braden, 90. Pullet, 1st Braden, 90. *Any Other Variety*.—Cockerel, 1st Braden, 91 1-2. Pullet, 2nd Braden, 89 1-2. *Game Bantams, Black B R*—Hen, 1st and 2nd F G F Gough, 92 and 88 1-2. Cockerel, 1st J Peters, 90; 2nd Braden, 90. Pullet, 1st Peters, 91; 2nd Gough, 91. *Pyle*—Cock, 1st Braden, 90. Hen, 1st Braden, 93. Cockerel, 1st and 2nd Braden, 93 and 90 1-2. Pullet, 1st Braden, 93. *Any Other Variety*—hen, 2nd A McDonald, 84. *Breeding Pens—Brahmas, Light, Sturdy. Dorking, Silver Grey, Sturdy. Leghorn, White, Flett Bros. Hamburg, Golden Spangled*—Sturdy. *Golden Pencilled, T Black. Game Bantams, Pyle, J Stewart. B B R Game, Large, T Black Turkeys, Bronze*—Male, 1st Sturdy, 1890, 1st Sturdy; 2nd W J Wale. Female, 1st and 2nd, Sturdy, 1890, 1st Sturdy; 2nd, Wale. *Geese, Embden*—Wale (special also); 1890, Wale. *Ducks, Pair Rouen*,—Sturdy; pair Pekin, 1st and 2nd Wale; pair Rouen, 1890, Sturdy.

SPECIALS.

Best pair brown Leghorns, Dr Milne. Pair Embden Geese, W J Wale. Collection Bantams, (medal), E H Braden. Collection B B Red Games, T Black.

MILTON SHOW.

THE third annual exhibition of the Milton Poultry & Pet Stock Association was if anything a greater success than the preceding ones, which is saying a good deal. There were no less than 629 entries. There were exhibitors from many distant points, including Guelph, Shakespeare, New Hamburg, Barrie, Hamilton, St. Catharines and Galt, and the birds shown were extra good, as can be seen from the scores given in the prize list. The brown Leghorn exhibit was particularly full and good. The judges were Messrs. Sharp Butterfield, Windsor, Ont., and T. H. Smelt, of Woodstock, and their decisions gave general satisfaction. Outside prize-winners all received their money on the last day of the show and all were well pleased with the hall and coops and the arrangements made for their con-

venience by Secretary M. E. Mitchell, to whom a large share of the credit for the success of the show is due. Before the exhibition closed ex-Secretary John Dewar was presented with a gold headed cane for his efficient services while in office. The following is the prize list:—

Rocks, B P—38 entries. Cock, A G H Luxton, Hamilton, 1st, 90 1-2. Cockerel, W B Cockburn, Aberfoyle, 1st, 92 1-2; Luxton, 2nd 92; John Colson, Guelph, 3rd, 90 1-2. Hen, W & A Wright, Richmond Hill, 1st, 94 1-2; Luxton 93; Colson 93—(tie) 2nd. Pullet, Cockburn 1st, 93 1-2; Brampton P Club 2nd, 93; do 3rd, 93. Breeding pen, C W Eckardt, Ridgeville, 1st and 2nd. *White P*—13 entries. Cock, G. Wilson, Guelph, 1st, 96; Chas Jones, Milton 2nd, 94 1-2. Cockerel, Jos Foster, Brampton, 1st, 92 1-2; J B Lawrence, Milton, 2nd, 92 1-2; Wilson 3rd, 91 1-2. Hen, Wilson 1st, 94; Jones 2nd, 92 1-2. Pullet, Foster 1st, 95 1-2; Wilson 2nd, 95. *Brahmas, L*—36 entries. Cock, Minto & Cramer, Galt, 1st, 93 1-2; John Cole, Hamilton, 2nd, 92; J G Ford, Milton, 3rd, 91 1-2. Cockerel, Cole 1st and 2nd, 91 and 90 1-2; Wilson 3rd, 89 1-2. Hen, Cole 1st, 93 1-2; Ford 2nd, 93; Geo H Carley 3rd, 92 1-2. Pullet, Ford 1st, 93 1-2; Wright 2nd, 93; Cole 3rd, 92 1-2. Breeding pen, Ford, 457. *Dark*—11 entries. Cock, Wright 1st and 2nd, 93 1-2 and 88 1-2. Cockerel, Luxton 1st and 2nd, 93 1-2 and 90. Hen, Wright 1st, 90; Wilson 2nd, 89 1-2. Pullet, Wright 1st, 91. *Cochins, P*—17 entries. Cock, Wright 1st, 94; C J Eisele, Guelph, 2nd, 92; W L Mitchell, Painswick, 3rd, 89 1-2. Cockerel, Wright 1st, 94; Eisele 2nd, 94. Hen, Wright 1st, 91 1-2; Luxton 2nd, 86. Pullet, Wright 1st and 2nd, 93 1-2 and 91 1-2; Mitchell 3rd, 90 1-2. *White or Black*—4 entries. Cock, Luxton 2nd, 86 1-2. Cockerel, Luxton, 1st, 93; Wright 2nd, 91 1-2. Pullet, Wright 1st, 93. *Langshans*—19 entries. Cock, Lamprey 1st, 92 1-2; Luxton 2nd, 91. Cockerel, Cole 1st, 95; Eisele 2nd, 93 1-2; Lamprey 3rd, 92. Hen, Eisele 94. Pullet, Cole, 93 1-2; Eisele, 93 1-2 (tie) 1st; Luxton 2nd, 91. Breeding pen, Eisele. *S L Wyandottes*—9 entries. Cock, Brampton P Club, 1st, 93 1-2; Luxton, 2nd, 90. Cockerel, Brampton P Club 1st and 2nd, 92 and 91. Hen, Luxton 1st and 2nd, 92 and 90. Pullet, Brampton P Club 1st, 89; Luxton 2nd, 88. *White*—8 entries. Cockerel, Foster 1st, 92 1-2. Lamprey 2nd, 91; Foster 3rd, 89 1-2. Hen, Foster 1st and 2nd, 93 and 91.

Pullet, Lamprey 1st, 95; Foster 2nd and 3rd, 94 1-2 and 93 1-2. *Colored Dorkings*—8 entries (notscored). All prizes went to James Main, Boyne. *Silver G*—19 entries. Cock, Cole 1st. All other prizes went to Main. *Javas, B*—12 entries. Cock, J D Robertson, Guelph, 1st, 93 1-2; Hoff & Roedler, Milton, 2nd, 91. Cockerel, Robertson 1st, 93 1-2; Luxton 2nd, 89 1-2. Hen, Robertson 1st, 93; Hoff & Roedler 2nd, 90 1-2. Pullet, Robertson 1st, 95, Luxton 2nd, 92. *Hamburgs, B*—23 entries. Cock, A Henderson, Omagh, 1st, 94; Wright 2nd, 92 1-2. Cockerel, Wright 1st and 2nd, 94 1-2; W Patterson 3rd, 94. Hen, Henderson 1st and 3rd, 95 and 93; Hoff & Roedler 2nd, 94. Pullet, Henderson 1st and (tie) 2nd, 95 1-2 and 94; Wright (tie) 2nd, 94; Patterson 3rd, 93. *Spangled*—12 entries. Cock, Henderson 1st, 94; Luxton 2nd, 92 1-2; Hoff & Roedler 3rd, 92. Cockerel, Henderson (tie) 1st; Luxton (tie) 1st. Hen, Henderson 1st, 94 1-2; Hoff & Roedler 2nd and 3rd, 93 1-2 and 91 1-2. Pullet, Henderson 1st and 3rd, 94 and 91 1-2; Luxton 2nd, 93 1-2. *Pencilled*—8 entries. Cock, E F Earl, Milton, 1st, 91; Brampton P Club 2nd, 90. Cockerel, Brampton P Club 1st and 2nd, 93 1-2 and 90 1-2. Hen, Brampton P Club 1st, 91 1-2; Earl 2nd, 90. Pullet, Brampton P Club 1st and 2nd, 90 1-2 and 90. *Black Minorcas*—25 entries. Cock, Dewar & Mitchell (tie) 1st, 90; Hoff & Roedler (tie) 1st, 90. Cockerel, Jessop (tie) 1st 94; Dewar & Mitchell 1st, 94; Jessop 2nd, 93. Hen, Jones 1st and 2nd 91 1-2 and 91 1-2; Hoff & Roedler 3rd, 90. Pullet, Dewar & Mitchell 1st and 2nd, 96 and 95; Jessop 3rd, 94 1-2. Breeding pen, Dewar & Mitchell 472. *Black Spanish, W F*—11 entries. Cock, Ford 1st, 92 1-2; Wright 2nd, 92 1-2; Luxton 3rd, 92. Cockerel, Luxton, 1st, 91; E G Paige, Kilbride, 2nd, 91. Hen, Ford 1st, 92 1-2; Wright 2nd, 91 1-2. Pullet, Paige, 1st, 91 1-2; Luxton 2nd, 90. *W C B Polish*—4 entries. Cockerel, Minto & Cramer 1st, 93 1-2. *A O V*—9 entries. Cock, Wright 1st, 95; Luxton 2nd, 90 1-2. Cockerel, Luxton 1st and 2nd, 91 1-2 and 91. Hen, Wright 1st, 95; Luxton 2nd, 91 1-2. Pullet, Luxton 1st 94 1-2; Minto & Cramer 2nd, 94. *Houdans*—7 entries. Cock, Luxton 1st, 91; Wright 2nd, 90. Cockerel, Luxton 1st and 2nd, 89 and 89. Hen, Wright 1st, 92 1-2; Luxton 2nd, 89 1-2. Pullet, Luxton 1st, 91 1-2. *Leghorns, Brown*—73 entries. Cock, John Pletsch, Shakespeare, 1st, 92 1-2; Cole 2nd, 92; Dewar & Mitchell 3rd, 91 1-2. Cockerel, W Findlay Brampton, 1st, 94 1-2; Dewar & Mitchell 2nd, 93; Cole 3rd, 92 1-2. Hen, Dewar & Mitchell (tie) 1st, 93 1-2; 2nd and 3rd, 93 and 92 1-2; Pletsch (tie) 1st, 93 1-2. Pullet,

Pletsch 1st, 95, (tie) 2nd, 94; Dewar & Mitchell 2d & 3rd, 94. Breeding pen, Pletsch 1st, F Goebel, Hamburg, 2nd. *Black*—28 entries. Cock, Gives & Lovell, Galt, 1st, 94; Pletsch 2nd, 93 1-2; A Waldie, Milton, 3rd, 90 1-2. Cockerel, Dewar & Mitchell 1st, 93 1-2; Pletsch 2nd and 3rd, 92 1 2 and 92. Hen, Jessop 1st, 92 1-2; Pletsch 2nd and 3rd, 92 and 91 1-2. Pullet, B Johnson, Milton, 1st (tie) 95; Pletsch 1st (tie), 95; Dewar & Mitchell 2nd and 3rd, 94 and 94. Breeding pen, Johnson 1st *White*—43 entries. Cock, Pletsch 1st, 92, Wright 2nd, 91; Dewar & Mitchell 3rd, 90 1-2. Cockerel, W J Bell, Banda, 1st, 94; Jas Dow, Milton, 2nd, 92; Dewar & Mitchell 3rd, 91 1-2. Hen, Pletsch (tie) 1st, 94; W Patterson, Barrie, (tie) 1st, 94; Dewar & Mitchell 2nd, 93. Pullet, W B Coburn 1st, 95 1-2; Pletsch (tie) 2nd, 93 1-2; Cole (tie) 2nd, 93 1-2; Cockburn 3rd, 93. *Game, B B R*—13 entries. Cock, Jas Main 1st and 2nd, 94 1-2 and 94. Cockerel, Main 1st and 2nd, 94 and 93. Hen, Main 1st and 2nd, 94 and 91 1-2. Pullet, Main 1st and 2nd, 94 1-2 and 94. Breeding pen, Main 1st. *Red Fyle*—13 entries. Cock, Earls 1st, Luxton 2nd. Cockerel, Chamberlain Bros, Guelph, 1st, 2nd and 3rd, 92, 91 and 91. Hen, Earl 1st, 95 1-2; Luxton 2nd, 90. Pullet, Chamberlain Bros 1st and 2nd, 93 1-2 and 92 1-2; Earl 3rd, 92. *A O V*—4 entries. Cockerel, Luxton 1st, 92; Minto & Cramer 2nd, 88 1-2. Pullet, Luxton 1st & 2nd, 94 1-2 and 92. *Fowl, A O V*—5 entries. Cock, Luxton 1st, 90. Hen, Cole 1st, 94 1-2; Luxton 2nd, 89 1-2. Pullet, Luxton 1st and 2nd, 92 1-2 and 92. *Bantams, B B, Red Game*—13 entries. Cock, Cameron Bros, Homer, 1st and 2nd, 95 1-2 and 92 1-2; Luxton 3rd, 89 1-2. Cockerel, Luxton 1st and 2nd, 94 1-2 and 94. Hen, Cameron Bros 1st, 95 1-2; Luxton 2nd and 3rd, 94 1-2 and 91 1-2. Pullet, Cameron Bros, 1st and 3rd, 94 1-2 and 93 1-2; Luxton 2nd, 94 *Red Fyle Game*—4 entries. Cock, Luxton 1st, 90; Minto & Cramer 2nd, 88 1-2. Hen and pullet, Luxton 1st. *A O V Game*—2 entries. Cockerel, Earl 1st, 93 1-2. Pullet, Fral 1st, 91 1-2. *Black African*—13 entries. Cock, E B Cale, Stratford, 1st, 96. Hen, Cale 1st and 3rd, 95 1-2 and 94 1-2; Patterson 2nd, 95. Cockerel, Cale 1st and 2nd, 98 and 95 1-2; Carley 3rd, 94 1-2. Pullet, Carley 1st and 2nd, 96 and 96; Cale 3rd, 95 1-2. *Sebright*—9 entries. Cock, Luxton 1st, 93 1-2; Ford 2nd, 89 1-2. Hen, Eckardt 1st, 92; Ford 2nd and 3rd, 91. Pullet, Luxton 1st, 92. *Pekin*—10 entries. Cock, Patterson 92 1-2. Cockerel, Carley 1st and 2nd, 95 1-2 and 95. Hen, Carley 1st, 94, (tie) 2nd,

A G H Luxton, exhibitor winning most money and making largest number of entries. Charles Jones, for Guinea pigs.

NEW HAMBURG SHOW.

JUDGES NOTES.

WE had a fine show at New Hamburg, the largest and best collection ever held in Ontario outside of the Ontario. There

were nine hundred birds on exhibition, nearly all classes, well represented. The silver cup given for the best exhibit in the Spanish classes brought out over three hundred good birds, the greater number being Leghorns. Mr. F. Wixson, Ingersoll, having taken the largest numbers of prizes, was awarded the cup. Mr. Pletsch, of Shakespeare, had a fine exhibit, and made Mr. Wixson "hustle" to get there. Light Brahma class were a fine exhibit, better birds than at the Ontario. Darks were very good. All varieties of Cochins well represented, winners at Ontario, winning excepting buff cock. Langshans were simply grand, one cockerel scoring 97½, pullets fine, three tying for 1st place. Mr. McNeil in the Poland class had a walk-over, his birds were in fine condition as they were at the Ontario. The Plymouth Rock class was very good, the same cockerel that won at the Ontario won here. The competition was keen, especially in the barred variety. Black Javas very fine, one pullet scoring 98½, the highest score in the show. Hamburgs as good as at the Ontario, blacks better. The Dorking class not as well represented as other classes. The water-fowl not as numerous as at the previous shows, although winners at the Ontario, in the Rouen class were here.

I commenced my duties about four o'clock Tuesday afternoon, had all tickets up on Thursday at same hour, having judged eight hundred birds. Mr. McNeil judged the water-fowl. I received extreme courtesy and assistance from all the exhibitors and did not hear a word of complaint.

The President, Mr. Ernst, and other officers of the Association did everything that lay in their power to make the show a success, and to make the exhibitors enjoy themselves while in New Hamburg.

The worthy Secretary got along nice-

ly with his work, not a mistake being made in entering up the awards and scores, in fact every officer did his duty. The exhibitors received their prize-money before leaving, so New Hamburg may be congratulated on the fine and successful exhibition just held.

L. G. JARVIS.

Editor Review:—

Permit me to send you a short report of the grand show of poultry held at New Hamburg 13, 14, 15, Jan. 1891. Outside of the Ontario, this show is conceded to be the best one ever held in the province, and that is saying a great deal. Some 900 entires which including pens means about 1000 birds, (no pigeons, Rabbits etc.) which for number of entires will crowd the Ontario hard. Then the quality was good, many of the winners from Bowmanville, Milton, Brampton and Dunnville being at this show in fine condition, nearly every section of Western Ontario was represented from Goderich to Dunnville and London to Richmond Hill. The local fanciers were out in full force and they are not a few. The secretary Mr. Louis Peine was untiring in his efforts to please and the smile on his face from the commencement of the show broadened as the days advanced and he became acquainted with the fanciers, and anticipated their wants, until the close of the show when he found after paying all expenses and prize money that a very respectable balance was on the right side. In all his efforts he was ably seconded by the President and Vice-President, who also did their best to make all feel at home. Why, Mr. Editor, the President marched all of us he could get hold of on the evening of 14th up to his lovely home to 6 o'clock dinner, where all were soon at home and doing justice to a most bountiful spread. The discussion was principally between W. McNeil of London favoring Bantams, and veteran Main in favor of

Bronze Turkeys. Bro Main had the best of it for he had practical proof by the way a 17lb turkey disappeared. Just fancy where a Bantam would have been for all that crowd. After dinner we were treated to excellent music by the host and officers of the society including the national airs of Germany, France and England. The evening following a magnificent banquet was held at the "Queens." Everything was good and all went happy as could be until near daylight. A grand programme of music was rendered by Director McCallum's talented sisters in the early part of the evening for which they received a cordial vote of thanks. The President read us an essay on poultry culture which was well received and voted to be printed in REVIEW for the benefit of your subscribers who were not present.

Mr. Jarvis of Port Stanley judged the show with his usual ability and speed. Fancy 900 birds being scored in 2½ days by one man. He was assisted by one of the directors, names were kept off the coops and all conceded the judging to be done quickly and well, I heard of no fault with his decisions and I believe he had expression of satisfaction from every exhibitor present. I was disappointed at not seeing you there to make you acquainted with the many young fanciers around New Hamburg, I know you were enquired after by many and I believe you were telegraphed for—you certainly missed a great treat—the fanciers there deserve a visit from you and their next show is now an assured success so don't fail to go next time.

Prizes paid in full before close of show is what brings out the birds. The union of officers and directors and fanciers in New Hamburg is most wonderful and will always ensure success, such live men as they have are bound to make it go. One hustler in particular is Mr. Fred Goebel who is known personally to many fanciers all over Ontario and to

his push is largely due the immense success of their first show, we notice all through the ability of these men to run a show, to furnish a musical and literary treat and also to play a practical joke of filling one's pockets with "Lamburger." Do you know what that is? I don't know the taste of it, but Bro. Maine and I know something of the smell of it, and to think Judge Jarvis enjoys the stuff!! Say he just hankers after it, while the smell should kill a jury, let alone a Judge. However all's well that ends well and the morning we were breaking up the banquet a fine pullet was hatched at the home of the "hustler" above referred to, and I had the honor of naming it "Myre." Report says it is perfect, this proving that perfection is possible.

On behalf of the fanciers in New Hamburg I extend a cordial invitation to any visiting fancier to make himself know to any of them when in New Hamburg and I'll guarantee you a good time among a good lot of fellows.

Yours truly,

FRANK WIXSON.

Ingersoll, Jan'y. 24, '91.

LATE ITEMS.

MESSRS. Abbot Bros. write us:—"You will be pleased to hear we got lots of applications and made several sales through the REVIEW, and we intend to continue our advt. for the year." This is pleasing to us and satisfactory to our patrons.

We notice Messrs. Abbot Bros. have thirty pure-bred (registered) Oxford Down Ewes for sale. Some of our farmer readers may be put in the way of bargains.

Mr. C. J. Daniels, Toronto, has bought Mr. D. G. Davies' entire stock of Indian Games. They include the

pullet 1st and cockerel 2nd at the Industrial.

Mr. Frank Wixson of Ingersoll sold his entire stock of Houdans and brown Leghorns to an American breeder, and purposes making "Homewood" headquarters for white Leghorns and black Spanish alone, in future.

Mr. Sharp Butterfield enlivened our sanctum for a brief space on Tuesday afternoon on his way to Montreal to judge.

We can give but a short report of A. P. A. meeting in this issue, owing to the crowded state of our columns.

The financial report showed a balance in hand of \$1,573.70. Thirty-one new members were elected. At the election of officers Mr. Orren Scotten was elected President, and our old friend, Mr. Geo. E. Peer, Secretary-Treasurer. Further report will appear in next issue.

There were four pairs Rouen ducks at the Ontario, bred by Mr. Jas. Main, which weighed 20 lbs., 19½ lbs., 19½ and 18½ lbs. per pair respectively; a remarkably good showing.

A curiosity at Bowmanville was a hen with an ear covered with feathers, hanging down on either side of the face. She was bred by Mr. R. Martin, Port Stanley.

On the afternoon of January 29th, the committee appointed by the Poultry Association of Ontario to confer with the local Government with regard to getting the annual grant increased, met in Toronto for that purpose. The committee, consisting of Messrs. A. Bogue, London, J. J. Mason, Bowmanville; J. Dilworth and W. H. Doel, J. P. Toronto, interviewed the Hons. Messrs.

Harcourt and Dryden, and laid their claims before them. As to dividing the grant into two sections it was implied by the Ministers that Ontario was too small for two exhibitions sustained by government aid, and that other objections were also greatly in the way of the adoption of such a plan. If any change is made, the following will likely be adopted, *i.e.*, the grant increased to \$1,000, and the show held each alternate year east and west. Of course nothing definite will be known until after the House meets.

We were glad to learn from Mr. Mason that the Ontario show has come out even this year.

PUBLISHER'S NOTES

Mr. J. H. Cayford, Box 1,168, Montreal is our Agent and Correspondent for the Province of Quebec. Any correspondence relating to subscriptions or advertising may be addressed to him.

U. S. OFFICE.

We have established a branch office at Boston, Mass. U. S. Readers will receive prompt attention to their enquiries when addressed to P.O. Box 1379 Boston.

AN EASY WAY TO GET FELCH'S GREAT BOOK.

To any one sending us five new subscribers with \$5 we will send a copy of "Poultry Culture" by I. K. Felch, value \$1.50, a book no fancier should be without. We have lots of these, books so don't be afraid the supply will run out.
