Montreal Stock Market.

STREET, TWIN AND CABLE BONDS WERE THE FEATURES - DULUTH ACTIVE-PROSPECTS ARE BRIGHT-FINANCE BILL CONSIDERED IMPORTANT.

Montreal, March 22.

Montreal Street, which with Twin City was the most active stock forenoon, was weaker and closed 1 lower at 299½. Taking of profits, on the bulge caused by the new stock, is responsible for the declines of both yesterday and today. The movement was downwards in the first three transactions, but showed some rallying effort in the closing sale.

Taking price up where it closed yesterday Twin City, in three transactions, advanced gradually till it made 65½ as price for the last lot, registering thus an advance of ½ to 65½.

Another of the most important transactions this forenoon was the transfer of \$10,000 Commercial Bonds at 104. The money value of this deal and the high price secured, helped to make the morning business valuable and not lively.

Pacific was ¾ lower and was much neglected. Toronto was ½ higher, but there was little demand for it. Duluth both common and preferred were active; common at the same price and pfd. at ½ advance. It is about 10 days since preferred sold at 157½.

Bank of Montreal at 260 advanced 2 points on the highest price of the week to this time. Montreal Telegraph at 160, the closing price, registered a value that is 5 points lower than the lowest taken in the earlier sessions.

Electric advanced ¼ to 193¼. Republic sold down 1 point to 104. Payne at 123 for closing price stands on the same level of price as yesterday.

Some members of Exchange were of opinion today, that though the actual improvement is very small, stocks are keeping steady and there are good prospects of a change for the better at an early period. Rates of the Bank of England are un-

changed and Americans are a feature of the London markets today. The Finance Bill is looked upon there as a most important financial change in the United States.

C. P. R. RATES.

Can. Pac. is making, it is said, a rate of \$36.50 from Chicago to Northern Pac. Coast points against the rate of \$51.50 by American lines

STRAWS.

Sugar stock is considered now as being in a similar position to that of Third Av.

Directors of Metropolitan have declared regular dividend of 1½ per cent. payable April 16.

N.Y. Air Brake has declared regular quarterly dividend of 2 per cent. payable April 16.

Directors of the New York Central have declared regular quarterly dividend of 1¼ per cent. payable 16.

An increase in the dividend on American Tobacco (com.) expected to be declared on March 28 at a special meeting of Directors.

The result of McGill assays of Cumberland ore gives between \$2,000 and \$3,000 to the ton. The public are wondering if \$5.00 for Virtue stock is the ghost story they thought it was.

A short interest in Third Av. of 60,000 shares combined with only 30,000 available for delivery carried price up some more points today again.

Plans for development of Third Av. will be discussed at the meeting of Metropolitan Directors to be held soon. Regular quarterly dividend of 1¼ per cent. will be declared at this meeting.

London-The India office has issued its annual financial statement. It shows a surplus of £2,573,000. Estimated surplus for next year £160,000. Estimated famine expenditure for 1900-1 will be £3,330,000 as against £2,055,000 last year.

MONTREAL MINING EXCHANGE.

MARKET CONTINUES TO BE STRONG-BUSINESS ACTIVE-PRICES NOTHING TO BOAST ABOUT-PAYNE HOLDS MEETING TODAY-A DIVIDEND WILL PROBABLY BE DECLARED.

Montreal, March 22.

The market continues to be quite active and seems to have taken a new lease of life, no doubt, with the advent of spring and good roads, etc., we shall experience a revival of business, which will come up to the expectations of the bulls.

The Payne Directors meet today, where it is said their policy re-dividends will be made known. There were no sales today. The stock being offered at 133½. During last week 150 tons were shipped from the mine.

SlocanSov. was stronger selling at 32 cents. The demand keeps good. 1,400 shares changed hands.

Big Three has few friends who are willing to take an initiative. It sold today at 8½.

The Slocan district is said to be threatened with another labor strike. We, however, have heard no confirmation of this report.

Deer Trail Cons. remain active at 11c. 7,500 shares were successfully placed on today's market. The enquiry, however, scarcely equals the supply, and consequently the closing quotations are not quite so good. The stock was freely offered at 11c with buyers bidding 10½.

Republic still continues its downward course, although the feeling at the close was of a better nature. No last sales being made at 10c. Former sales were at 103½, which same figure was bid at the close.

Montreal-London remains firm round 30c and Knob Hill at 55c, 50,000 shares of the latter selling at that figure. This stock is a bargain at the present figure.

Golden Star remains nominally unchanged. The demand being poor; at the best it is somewhat weaker and sold at 17½c.

Dominion Consolidated was freely offered at 6c. There being no buyers on the market.

NEW YORK EXCHANGE.

GENERAL STRENGTH OF LONDON MARKET, NOTABLE IN PACIFIC—GREATEST EVENT IN U. S. FINANCIAL HISTORY—TO WHAT STOCKS SPECULATION HAS TURNED—YESTERDAY'S MEETING OF THIRD AV. DIRECTORS.

New York, March 22.

The London market is extremely strong under lead of Pacific stocks.

The buying of Union Pacific and Southern Pacific being especially heavy.

It has been known for some time that London took a very favorable view of the passage of the Finance Bill. The required indications made their appearance yesterday and the day before, and it is by no means improbable that Americans will be the feature of the London market for some to come.

The strength of our market yesterday is ascribed almost wholly to the growing recognition of the fact that the passage of the Finance Bill is the most important event in the history of the United States. It not only establishes beyond peradventure the gold standard, but it provides for a possible inflation of the currency of something like \$650,000,000. Of course the inflation may not reach these enormous figures, but that there will be much inflation admits of little doubt.

Judging from yesterday's market, speculative attention is being turned to the middle priced railroad stocks, which have only recently entered the dividend paying ranks, or which may be expected with a fair amount of certainty to become dividend payers in the near future.

The stocks preferred are Union Pacific com., Northern Pacific com., Atchafalpa pfd., Southern Pacific, B. & O., and possibly Norfolk.

The latter, however, has been affected rather by rumors of Penna. buying for control, than by any immediate dividend prospects. It was noteworthy yesterday that Penna. was heavily bought by Phila. interests, which interests have been large buyers of Norfolk in the past.

The meeting of Third Av. was held yesterday at which about half of the old Board resigned and their places were taken by representatives of Met. St. Ry.

It is semi-officially announced that as soon as the exact indebtedness of Third Av. is established a bond issue will be arranged for.

MINING NEWS.

THE MINER-GRAVES PROPERTIES.

Rosslund, March 14.

Mr. J. P. Graves, Mr. E. C. Gault, Secretary of the Granby Smelting Company, and wife, and Mr. Fairbanks, of Montreal, form a party which was at the Allan hotel yesterday. Mr. Graves is the representative of the syndicate which controls the California, the Mascot, the Old Ironsides, the Knob Hill and many other properties and which is now engaged in erecting the Granby smelter at Grand Forks. Mr. Graves, in talking about the work in progress which he represents, said that all of the machinery for the 10-drill compressor plant for the California property in this camp had arrived, and that the drills would be in operation in about 10 days, he thought. This is because the 150-horse-power electric motor furnishing power for the compressor is in place and the foundations and buildings are ready. The 35-horse-power motor for the hoist has not yet come to hand, but will be here in a few days, and inside of two weeks the entire plant will be in motion. The plant, the McKee Machine Company declares, is one of the best and most complete of its size that has yet been turned out of its works, and it is considered rather as a show plant.

Mr. Graves says the winze in the Mascot, in this camp, which is one of the properties of the Big Three, is down to a depth of 80 feet. On the hanging wall there is from six inches to two feet of ore that runs over \$30 to the ton. The intention is to lengthen the winze to 100 feet, and then to drift along the ore body in order to develop up.

In speaking of the properties in the Phoenix camp, Mr. Graves said his people controlled four companies there, the Old Ironsides, with one claim; the Knob Hill, one claim; the American Eagle, four claims and the Granby Smelting Company, four claims. These claims extend from the top of the mountain to its foot, and are being developed under the superintendance of Mr. W. Y. Williams. The companies are different, but they are all owned by the same people.

The syndicate has two properties in White's camp, and about 1,000 tons of ore has been shipped from the City of Paris there to Grand Forks. Shipping has been in progress for the past three weeks. This will be reduced in the Granby smelter at Grand Forks as soon as it begins operations, and it is now anticipated that it will be blown in by May 1. It is thought that the mines in Phoenix and White's camp will easily furnish 500 tons per day,

which will be the initial capacity of the smelter. The capacity can be easily increased to 1,000 or 1,500 tons a day. The dust chamber, flue and power capacity for the increased size are being put in now so that when the times comes to enlarge all that will be necessary will be to add the sampling works and the furnaces.

Mr. Graves stated that he had just returned from the East, and was now en route for the Boundary Creek country. This is the first time he has been in this section since Christmas.

A' THERE!

Rosslund, March 14.

Mr. J. C. Robertson, secretary of the recently formed McKee Copper Mines, Ltd., of Greenwood, is in the city on his way to Spokane and Portland. At Spokane he will meet the President of the Company, Mr. George Leyson, and together they will go to Portland for the purpose of closing up a large deal for the stock of this company. Mr. Robertson, in speaking of the property, last night said: "The company was formed for the purposes of acquiring the A' There and Sidney M. Johnson claims in Deadwood Camp, about two miles from Greenwood. On the A' There upon which development is now being carried on, we have one of the typical ore bodies of the Boundary district. It would be impossible for me to say at the present stage of the development just how wide the ore body is. Previous to the formation of the company the claim was developed by hand power, but since then we have installed a steam hoist, and are now in a position to develop at depth. A double compartment shaft has been sunk to a depth of 90 feet. At the 50-foot level we crosscut in one direction into the hill the ore for a distance of 50 feet. Even at this small depth the values were most encouraging, and it is noticeable when depth is attained in sinking that copper values gradually increase. It is the intention of the management to continue the shaft down to the 150-foot level before any crosscutting will be attempted. Without a doubt the ore showing is one of the most remarkable in the Deadwood camp. The ore is similar in many respects to the Mother Lode."

ORIPPLE CREEK NEWS.

IMMENSE DRAFT FOR THE INDEPENDENCE MINE.

It is stated that recently the final payment to Mr. Stratton for the Independence Mine was placed to that gentleman's credit in a Denver bank. The draft is said to have been the largest ever paid to a single individual in the West and calls for the sum of \$6,500,000. By this payment the property passes entirely out of the hands of the Colorado millionaires.

An option on the whole of Mr. Stratton's stock was held by the Venture corporation the company which so successfully floated Stratton's Independence. The second ordinary general meeting of the corporation was held in London the beginning of February, at which it is believed the directors decided to take up the option. A report is current here that about ten weeks ago some shareholders in the new company got slightly alarmed over the purchase and sent some experts to again examine the ground. This was done with the most painstaking care and then reported, as the first result was so startling. Both reports reached London within ten days of each other, and arrangements were at once made to get the last payment together at the earliest possible moment.

The report is correct in some respects.

So far as known no experts have visited here, and moreover the new company had already secured the property. The recent transfer, for which the enormous sum of money was paid, was the taking up of the option by the Venture corporation held on Mr. Stratton's stock.

Mr. Stratton is quoted here as saying that he made the mistake of his life when he let go of the Independence mine. Development adds to the enormous store of wealth, and it would not be surprising if a craze should result for Cripple Creek district properties among foreigners. The camp is yet in its infancy. There will probably be other Independence mines developed. It can, however, be safely asserted that the people of the district would more gladly welcome English capital for the development of its undeveloped and unprospected territory than for the purpose of its mines already opened upon and known to be bonanzas.

W. S. Stratton has unbounded faith in Gold Hill locations and within the last six months has put in over \$500,000. It is said that he intends to consolidate all of his purchases into one company and that on his next visit to London a new corporation will be formed and the controlling interest in the stock will be purchased by English investors, but this, however, is positively denied by Mr. Stratton and his agent in the camp.

ISABELLA PAYS 3-CENT DIVIDEND.

The directors of the Isabella Gold Mining Company declared the regular quarterly dividend of 3 cents per share, amounting to \$87,500.

The dividend is payable March 24th to stockholders of record March 17th. The books close the 16th and reopen the 26th. When this dividend is paid the Isabella Company will have distributed to stockholders \$607,500.

ANCHORIA-LELAND.

A rumor was in circulation a few days ago that a large body of high-grade ore had been encountered in the bottom of the shaft of the Anchoria-Leland, but it seems to have been only ordinary ore opened up in process of development. It is said the recent workings have been what is known is a barren zone, and that the barren strata has been passed. The Anchoria-Leland is the deepest mine on Gold Hill.
