The copy filmed here has been reproduced thanks to the generosity of:

Thomas Fisher Rare Book Library, University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CON-TINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmá fut reproduit gr£ce à la générosité de:

> Thomas Fisher Rare Book Library, University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

This publication contains particulars of an immense number of farms, mills, and other properties for sale in various parts of Ontario and Manitoba, with maps and descriptions of the country and soil. The North British Agriculturist, published in Edinburgh, says on March 19:--Messrs. W. J. Fenton & Co., in connection with their real estate agency in Toronto, have issued a valuable publica-tion, entitled Canadian Land Advertiser, for distribution among British emigrants in Canada, Great Britain and Ireland. It contains description, prices, and terms, of purchase for over \$5,000,000 worth of improved farms, wild lands, town and village properties, mills, etc., in the provinces of Ontario and Manitoba. The special objects of this publication are to give intending purchasers of farms and other kind of real estate, reliable information regarding the country, and to adver-ties such properties as are placed in the publishers hands for sale by owners. A general description of each country in which they have lands advertised, is taken almost word for word from the report of the Agricultural Commission, which was published by the Ontario Government. These will be found very useful in giving British emigrants and others a general idea of the peculiar character and resources of each county. The publication contains carefully got up maps and sketches of the parts of the counties and provinces referred to.

## WHY DO YOU SUFFERP

WHEN YOU MAY BE CURED BY

# ELECTRICITY!

WITHOUT LOSS OF TIME OR GREAT EXPENSE.

Ten Dollars spent in ELECTRIC BELTS will do you more good than a hundred expended any other way.

CRYING BABIES. Babies cry because they suffer. Their little gums are inflamed, and their bodies are more or less feverish. If you will tie around their necks one of NORMAN'S ELECTRIC TEETHING NECKLACES you will see a wonderful change for the better, their sufferings cease, and their general health improves. Ask for Norman's, and take no other, and you will be pleased. Price 50c.

PALPITATION OF THE HEART is quieted more by the use of NORMAN'S ELECTRIC BELT than can be done by any other remedy. Ask for Norman's. Take no other. Every one guaranteed genuine.

FEVER AND AGUE. Do not throw away money on worthless remedies, when NORMAN'S ELECTRIC BELTS will cure you. Use one and you will find immediate benefit.

will cure you. Use one and you will find immediate benefit. CONSTIPATION, BILIOUSNESS, and all disorders of the Stomach and Liver are corrected by using NORMAN'S ELECTRIC BELTS. Try one and be convinced. FEMALE TROUBLES, WEAKNESS, and Lassitude yield to the influence of NORMAN'S ELECTRIC BELT when all other remedies fail. Try one and you suffer no longer. Every belt guaranteed. NERVOUS DEBILITY, INDIGESTION. These seven-headed monsters are more easily overcome by the use of NORMAN'S ELECTRIC BELT than by any other remedy, and it cannot possibly do any injury. Guaranteed genuine. SLEEPLESSNESS, RHEUMATISM, NERVOUSNESS, and HEADACHE are immediately relieved and per-manently cured by using NORMAN'S ELECTRIC BELTS. They soothe and nourish the system. Guaranteed genuine

Properties in the Cities of TORONTO, and HAMILTON are advertised in separate Lists.

## TORONTO, ONTARIO.

WITH SUPPLEMENT.

The special objects of this publication are to give to intending purchasers of Farms and other kinds of Real Estate reliable information regarding the country generally; and to advertise such properties as are placed in our hands for sale by the owners.

For general information in reference to the country we direct attention to the pamphlets published by the Ontario and Dominion Governments, which may be obtained on application to their Agents in Great Britain and Ireland.

The general descriptions of each county in which we have lands advertised are taken almost word for word from the report of the Agricultural Commission which was published by the Ontario Government. These will be found very useful in giving to British Emigrants and others a general idea of the character and resources of each particular county.

and resources of each particular county. We would advise the head of the family to come out first where it is possible to do so, and carefully select a suitable property After having done so, he can either return for his family or get them to follow him. This will give him more leisure to make a proper selection, and enable him to have a home provided for his family before their arrival in Canada.

It will be observed that as a general rule the Number and Concession of Lots composing Improved Farms are not given in this Catalogue. One reason for the omission of these particulars is, that many owners who wish to sell their farms, have from

various causes strong objections to this fact being known to their neighbors. We, therefore, simply give the number of each parcel as it appears in our books, with a full description of the land, price, terms, &c., in the printed list; but, on application to us or any of our local agents, all other particulars will be given.

We may add that we do not hold ourselves responsible for correctness of the descriptions of properties appearing in our list; these are furnished by the owners, but, as those who intend purchasing land will either examine it for themselves or get some one to examine it for them, nothing can be gained by deception. We insist upon owners giving us a fair description of each property placed in our hands for sale, and we believe that these descriptions will generally be found correct.

We invite correspondence and will be happy to furnish all information in our power to intending Emigrants.

Parties writing us about properties advertised in the following pages are requested to refer to the Parcel Numbers and to Pages on which such properties appear, and are also requested to enclose a three cent stamp.

> W. J. FENTON & CO., Real Estate Agents, TORONT'D and HAMILTON.

## LENNOX AND ADDINGTON

COUNTY TOWN NAPANEE; POPULATION 3,680.

Contains the following townships, with an acreage and average value in 1881, of :-

Amherst Island 14,700 acres, \$40 per acre.
Anglesea and Kaladar, 129,000 " from \$4 to \$8.
Camden East, 91,868 " 1st, \$50 ; 2nd \$30 ; 3rd, \$10.
Denbigh, 5.c., 192,000 " \$5 per acre.
Ernestown, 61,573 " 1st, \$60; 2nd, \$35; 3rd, \$15.
Fredericksburg North. 22,062 " 1st, \$65; 2nd, \$45; 3rd, \$30.
" South, 40,169 " 1st, 60; 2nd, \$40 3rd, \$25.
Richmond, 48,724 " from \$20 to \$60.
Sheffield

The settlement of this county-the municipal limits of which must not be confounded with the area represented by the electoral districts of the be confounded wich the area represented by the electoral districts of the county of Lennox and the riding of Addington respectively—commenced in the township of North Fredericksburg shortly after the American Revolution of 1776. The township rapidly filled, and was completely settled in about 25 years (1802). South Fredericksburg was opened in 1783; Adolphustown (from which no report has been received), in 1784; Camden and Richmond in 1800; Sheffield in 1826; Anglesea and Kaladar in 1859. The land consists, mainly, of clay loam, but there a clarge proportions of heavy clay and sandy and black loam. In Amherst Island, where the soil is reported very good, 2-5 is heavy clay, 2-5 clay loam, and 1-5 black loam. In the other townships (exclusively of Adolphustown and Effingham, which have made no returns). II per cent, consists of heavy clay, 25 per cent, clay

have made no returns), 11 per cent. consists of heavy clay, 25 per cent. clay oam, 23 per cent. sandy loum, 13 per cent. gravelly, 14 per cent. black loam, and 10 per cent. sand. About 29 per cent. of the area is reported to be too and 10 per cent. sand. About 29 per cent. of the area is reported to be too stony or rocky for profitable cultivation; a small proportion is hilly and ob-jectionable; about 61 per cent. is rolling and cultivable; about 8 per cent. is bottom land, about of per cent, is solving and curvate, about of per cent is bottom land, about 8 per cent, is swampy, and a very small proportion is wet, springy land. For agricultural purposes, about 20 per cent. of the cleared acreage may be set down as first-class, 27 per cent. second-class, and the remainder third-class In Abglesea and Kaladar, all the land is re-

and the remainder third-class In Anglesea and Kanadar, all the land is re-ported as coming under the latter category. The county is generally well watered by springs, creeks and wells. Fredericksburg and Ernestown have the advantage of a large water inden-tation from Lake Ontario; the Napanee river passes from Canden through Richmond and Fredericksburg ; and the Salmon through Sheffield and Rich-mond, besides which there are numerous lakelets in nearly every township. Water can, when necessary, be obtained by digging, at depths varying from

3 to 50 feet. In the townships of Adolphustown, Fredericksburg, Richmond, Ernes-town, Amherst Island, Camden and Shráield, the land is nearly clear of stumps. In the other townships hardly any of the clearings can be pro-nounced free from stumps, and in Anglesca and Kaladar  $\frac{2}{3}$  of those remaining are pine.

About 47 per cent. of the farms in Lennox and Addington are reported to be under first-class fence, consisting mainly of cedar. About 43½ per cent. of the farm dwe/ings are of brick, stone, or first-class frame, the remainder are log or inferior frame. Of the outbuildings about 56½ per cent. are first-class, the remainder are inferior. Under-drainage has not been commenced in the northern townships, but in the south some process has been made in tile drainage.

the south some progress has been made in the northern townships, but in Nearly 66 per cent. of the farmers use improved labor-saving machines. Denbigh reports that only threshing machines are used in that township and attache? tannicipalities.

Except in North Fredericksburg, where one-fourth of the farmers use plaster and salt on clover, peas and corn, artificial manures are very little used. On Amherst Island, superphosphates are used to a very limited extent.

About 50 per cent. of the uncleared acreage of the county would be suita-

About 50 per cent. of the uncleared acreage of the county would be suitable for cultivation if cleared. The township acreage of Lennox and Addington (omitting Effingham, from which no returns have been received) is set down as 682,0964, and the cleared acreage as 182,3444. Of the latter (omitting Adolphustown and Effingham), less than 1 per cent, is devoted to fall wheat; barley (omitting Sheffield and Camden, which do not report the acreage devoted to the various grains and roots), 35 per cent.; oats, 10 per cent.; rye, 5 per cent.; peas, 7 per cent.; corn and buckwheat, very little grown; hay, 17 per cent. About 33 per cent of the cleared acreage, and a large quantity of the uncleared, is devoted to pasturage, and a small proportion, probably about 1 per cent. to orchards. Stock raising, mixed husbandry, and barley growing are most in favor. Barley growing is extensively practised, and large quantities are exported to the United States, where a high price is obtained: Napanee is the centre of a large export trade in this cereal.

quantities are exported to the United States, where a nigh price is obtained : Napanee is the centre of a large export trade in this cereal. The townships sustain 42,487 horned cattle, 9,476 horses, 17,642 sheep, and 6,717 hogs, principally consisting of common breeds and grades, though in some townships thoroughbreds have been introduced. Azglesea, Kaladar and Denbigh, with associated townships, do not render teturns of cattle, hornes ad chem horses and sheep. Owing to the returns being in several instances obviously inaccurate, the

## [LENNOX] & ADDINGTON COUNTIES, -[Continued.]

extent of land in the counties under timber cannot be estimated. Four fifths of Denigh and associated townships are, however, reported to be under pine, maple, beech and cedar, and lumbering is extensively carried on.

There is also a considerable quantity of timber land in North and South Fredericksburg, in Camden, and in Sheffield. Napanee and Bath are the principal market towns, and they are easily reached by road, rail and water. Newburg and Tamworth are flourishing villages. The lumber shanties in the northern townships also furnish good markets. The Grand Trunk Railway runs through Ernestown and Fredericks-burg to Napanee. burg to Napanee.

DUMFRIES

COUNTY OF

The county possesses 3 large paper mills, 4 agricultural implement and several carriage factories, 4 woollen and numerous saw and grist mills, a wheel and hub factory, 16 cheese factories, several foundries, a brush factory, and several cabinet factories, and the manufacture of water lime is carried on extensively. Iron has been found in the manuature owner must scatter of extensively. Iron has been found in the township of Sheffield of good quality, but whether it exists in paying quantities is still to be decided. Silver has also been discovered in Sheffield and Anglesea. The population of Lennox and Addington, as now municipally consti-

tuted, was, according to the census of 1881, 39,784.

#### Township of Camden.

854-Farm of 94 acres, 85 acres cleared and nearly all free of stumps, 3 acres cedar swamp. The soil is black loam, land gently rolling, and well drained. There is a young orchard of 75 trees commencing to bear, a good well of lasting water at the house; a living stream within 3 rods of the barn. Frame dwelling  $36 \times 36$ , with stone cellar; frame barn  $30 \times 60$ with granary and stable attached; 1/2 mile from the village of Enterprise, where there are school, churches, etc.; fences cedar rails, and in firstclass order. Price \$4000, payable \$2500 down, balance as may agreed upon.

884-Farm of 50 acres, all under cultivation with the exception of about 3 54-Farm of 56 acres, all under culturation with the exception of about 3 acres. New frame house 21 x 32, and well finished, with cellar, excellent frame barn 36 x 48, with sheds and stables underneath. Young orchard of 50 trees just commencing to bear; within 1 mile of church and school, and 11 miles of Napanee the county town, well fenced with cedar rails. The soil is a rich clay loam and the farm is in splendid condition. Price \$3000, \$1500 down, balance as may be agreed upon.

## Township of Kaladar.

552—A good farm, containing 256 acres, of which 40 acres are cleared. Soil is light sandy loam, two log barns; dwelling house containing parlor, kitchen and 4 bed rooms. The west half of lot may be purchased separate-ly. The property is only about one mile from the village of Flinton. Price \$1100 cash.

## ALGOMA DISTRICT.

#### Cockburn Island.

1427-600 acres of land timbered with hardwood and cedar; 300 acres 127—000 acres of faild timbered with hardwood and cedar; 300 acres nearly free from stones, and 300 acres with some rolling stones. Part of this property lies within 1½ miles of the dock. Churches, stores, &c., all convenient. Soil clay. Two lines of steamboats call regularly; excellent fishing; good wharfage. Price \$800 cash.

## BRANT COUNTY.

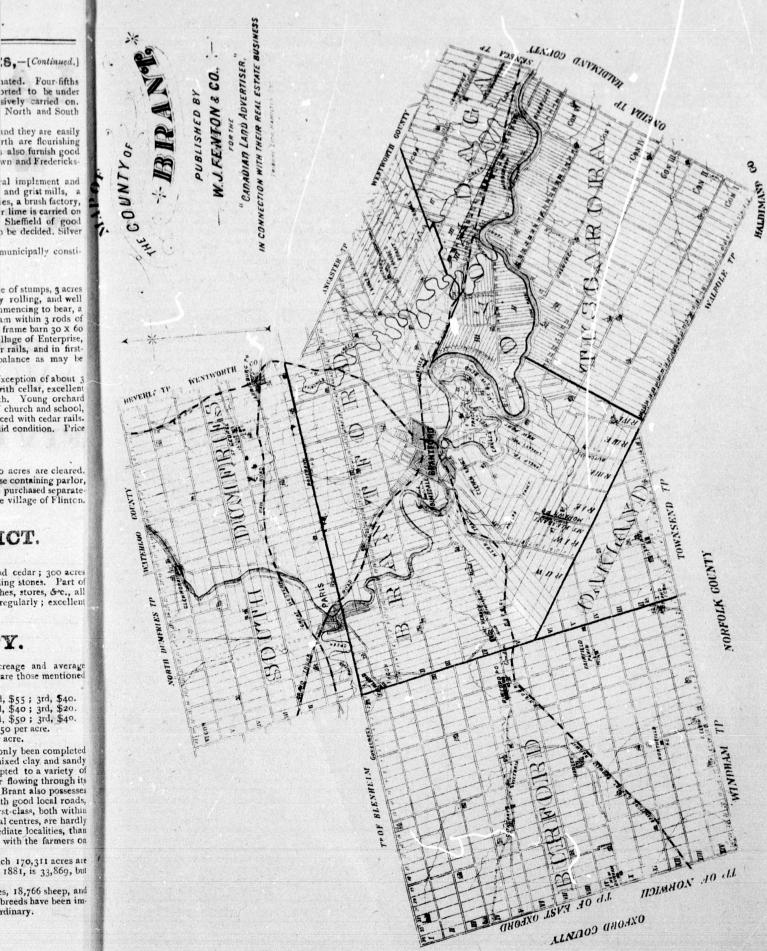

Contains the following Townships, and the total acreage and average prices obtained in 1881 for 1st, 2nd and 3rd class land are those mentioned after their names-

Brantford	acres, Ist, \$30; ind, \$55; 3rd, \$40.
Burford 67,200	" Ist, \$80; and, \$40; 3rd, \$20.
South Dumfries 46,717	" Ist, \$70; 2nd, \$50; 3rd, \$40.
Onondaga 20,432	" from \$35 to \$50 per acre.
Oakland 10,466	" about \$65 per acre.

It began to be settled in 1793, and the process has only been completed quite recently. The soil is generally a rich clay and a mixed clay and sandy loam, much in favor with agriculturists because adapted to a variety of crops. The county is well watered, the Grand River flowing through its centre and affording excellent facilities for drainage. Brant also possesses exceptionally good railway communication, together with good local roads, gravelled and macadamized. Its market facilities are first-class, both within gravelled and macadamized. Its market facilities are first-class, both within and without its limits. Brantford and Paris, the principal centres, are hardly more in favor with the farming population in their immediate localities, than are Hamilton or Woodstock in the adjoining countics, with the farmers on the borders of Brant.

The acreage of the county amounts to 223,215, of which 170,311 acres are cleared. The population according to the census of 1881, is 33,869, but Brantford has 9,616 inhabitants, and Paris 3,173.

The farmers keep 14,737 horned cattle, 7,363 horses, 18,766 sheep, and 5,009 hogs. In some townships livestock of improved breeds have been imported, but in most cases farm animals are native and ordinary.

.

Entered according to Act of Parliament of Canada, in the year 1884, by W. J. Fenton & Co., in the Office of the Minister of Agriculture.

## BRANT COUNTY, -[Continued.]

BRANT COUNTY, --[Continued.] Nine cheese factories, an iron foundry, (in which first-class stoves are manufactured), a large agricultural implement factory, and six flouring mills, all doing a good run of business; also a large number of mechanical indus-tries dependent on the agricultural population, attest the fact that Brant possesses all the elements necessary to ensure permanent prosperity. The Township of Brantford is especially adapted for grain raising; the other townships, Burford, South Dumfries, Onondaga and Oakland, are equally suitable for grain raising, stock raising and dairying. The land is generally well watered and timbered—the former by spring creeks and wells—the latter with maple, elm, oak, pine, cedar, tamarack, hickory and ironwood. The price of firewood varies from \$2 to \$4 per cord, and the prospects of supply are good for many years. A large area is under cultivation for cereals and roots. The average pro-portion of arable land devoted to fall wheat is 19 per cent.; spring wheat,

portion of arable land devoted to fall wheat is 19 per cent.; spring wheat, bottom of an abre tanta devoted to tail wheat is 19 per cent; spring wheat,  $S_2^1$  per cent.; oats,  $9_2^1$  per cent.; rye, hardly any grown; potatoes,  $\frac{5}{2}$  per cent.; turnips,  $\frac{2}{2}$  per cent.; hay, 20 per cent. Farm roots are grown, but the quantity of land taken up for their cultivation is inappreciable. About 16 per cent of the cleared acreage is under pasturage, and nearly 2 per cent. is taken up for orchards. The projection of attention hade of current at Paris and is the paid hadron.

The proximity of extensive beds of gypsum at Paris and in the neighboring county of Haldimand, and of salt wells in Huron—in direct communication with Paris and Brantford—enables the farmers to use at cheap rates salt and plaster for grain and roots and on grass lands. The majority of the farm houses are either brick, stone, or first-class frame

-only a few are log or inferior frame—while about one quarter of the out-buildings are described as indifferent, three quarters are reported to be first-class. Nearly every farmer in the county drills in his grain and gathers his harvest by the aid of labor-saving machines. The city of Brantford, the county town, is, by common consent, one of the

most picturesque in the Dominion, and the scenery of the county more nearly resembles that of the south-western counties of England than is to be

ly resembles that of the south-western counties of England than is to be found perhaps in any other part of Ontario. Quite a feature in the agriculture of Brant is the well-known stock farm called "Bow Park," formerly owned by the Hon. George Brown, and now belonging to a Scotch Joint Company. Upon the farm, which consists of 900 acres, a system of mixed husbandry has for several years been carried on and much attention has been devoted with considerable on, and much attention has been devoted, with considerable success, to the breeding and raising of horses, cattle, sheep and pigs. The proprietary has recently decided on confining itself in the future exclusively to the raising and breeding of Shorthorns.

Almost every description of non-tropical fruit is successfully raised in the district—apples, pears, cherries, grapes, plums, strawberries, raspberries, are grown in profusion, and large quantities of winter apples are annually shipped to home and foreign markets. Peaches are also grown to some extent. Fruit culture here is, in fact, capable of almost indefinite extension.

#### Township of Burford.

- 819—Farm of 100 acres, 75 acres of which are improved and free from stumps; balance covered with timber consisting of pine, elm, tamarack, ash, beech and maple—10 acres swamp—balance high and rolling; soil clay loam and gravel, 2 acres in orchard; and well watered. Frame barn 30 x 48 with shed and stable underneath the barn ; roughcast dwell-
- clay loam and gravel, 2 acres in orchard; and well watered. Frame barn 30 x 48 with shed and stable underneath the barn; roughcast dwell-ing house, in good condition, with stone cellar; fences in good repair; good roads; 1 mile from school and church; 3 miles from post office and railway; markets, first class within 3, 9 and 12 miles. Possession at once if desired. Price \$4000, \$2500 down, balance in yearly instalments with interest at 7 per cent. 820—Farm of 100 acres, of which 80 acres are improved, balance bush and pasture land; 3 acres swamp heavily timbered with ash and cedar; clay loam and gravel; high and rolling; 40 good apple trees, watered by 2 living springs; barn new (40 X 50) with a stone foundation and stables underneath; rail and stump fences in first-class repair. Farm situated on stone road within 1 mile of Railway, Churches and Post Office, and within 9 miles of Paris, 12 miles of Brantford and 10 miles of Woodstock, 3 first-class markets. Crops can be bought at a valuation. This is a first-class wheat growing farm. Price \$4000, \$3000 down, and balance in any reasonable time with interest at 7 per cent. per annum. 831—Farm of 50 acres, all improved; soil is a clay loam and sandy loam with clay bottom , land gently rolling; 1½ acres of an orchard, watered by a creek. The barn is frame 30 x 45 with shed 16 x 45, driving house and stable 25 x 38; shed 16 x 24 with loft over head; a good sized frame house, containing kitchen, parlor and 3 bed rooms and cellar , fences rail, and in good order; picket fence around the garden. This farm is situated on what is known as Governor's Road, within 1 mile of Railway station, Post Office, and blacksmith shop, etc., and on next lot adjoining farm is erected a brick school and church, within 8 miles of Woodstock, which is a first-class market. Price \$1650, \$1000 down and the balance within about two years. 833—Farm of 40 acres, all of which is improved ; 27 acres free from stumps; about two years.
- about two years. 833—Farm of 40 acres, all of which is improved ; 27 acres free from stumps; soil is a sandy loam, level and high; small orchard, watered by a never failing stream which runs across the corner of the farm. The dwelling is rough cast 16 X 26, two stories high besides kitchen which is 14 X 22, with stone cellar under main house. The barn is frame 30 X 50 with suffi-cient stabling. The buildings are all new and in first-class order; fences rail and stump. This farm is situated in a pleasant locality and on a good

This is comparatively a new county, settlement having commenced in 1848. Some of the townships still have unoccupied land, but generally settlement may be said to be completed, the process having occupied from to 15 years. This rapidity of settlement may be taken to prove the super-

settlement may be said to be completed, the process having occupied from 4 to 15 years. This rapidity of settlement may be taken to prove the super-ior excellence of the land for agricultural purposes. The soil is variable, and generally of first-rate quality, clay, gravelly, sandy and black loam predominating, with a subsoil of hard, fine sand, clay and limestone. There is a considerable quantity of rocky and stony land in the townships of Bruce, Amabel and Arran. A large proportion of the land in the county is rolling and cultivable, but a considerable acreage is describ-ed as bottom, swampy and springy land. About 35 per cent, of the area ander cultivation is reported as first-class for agricultural purposes; another of ner cent, is second-class, and the remaining 30 per cent, third-class. as per cent. is second-class, and the remaining 30 per cent. third-class.
 The county is generally well watered by springs, creeks and wells. The latter are sunk to a depth of from 5 to 70 feet, according to locality.
 Owing to the county having been so recently settled, a large area of land

retains stumps of trees, cut down by the first occupants; but few are pine stumps, and hardwood stumps rot out in from 5 to 15 years, according to the nature of the timber and size of stump.

The fences throughout the county are generally of cedar rails, which make a very lasting and substantial fence.

The farm buildings, while neither so costly nor extensive as in some of the older and wealthier counties, are generally of a comfortable and substantial character.

Some drainage has been effected, but much is required, and preparations are being made to enter upon what promises to be an extensive system of tile drainage in the low-lying lands of the county. These low-lying lands are of inestimable value in a dry summer, affording as they do a very large amount of rich pasture.

In some townships seeding and harvesting are carried on in the primitive fashion, but in the majority labor-saving machines have come into use, in Salt has been used as a fertilizer for grain, meadows and turnips, and

plaster is being used, by way of experiment, for wheat and root crops. No phosphates or other fertilizers than those named have yet been introduced, which is probably owing to the circumstance that the land, having been so lately settled, retains a good deal of its virgin richness.

Considerably over one-half of the uncleared lands in the county would be suitable for cultivation if cleared and a proper system of drainage were instituted.

The acreage of the county is given as 760,83634, and the number of acres cleared as 331,89614. The proportion of acreage devoted to fall wheat may be estimated at about 12 per cent. of the land under cultivation; to spring be estimated at about 12 per cent. of the fand under cultivation; to spring wheat about 15 per cent.; to barley about 4 yer cent.; to oats about 12 per cent.; to peas about 10 per cent.; to corn, rye, and buckwheat, hardly any grown; to potatoes about 1 per cent.; to turnips about 3 per cent.; to 100t crops—few grown—not to be estimated; to hay about 10 per cent.; to pasture about 15 per cent.; to orchard about 1 per cent. cent.

cent. The population, according to the last census (1881) amounted to 64,774. The township returns give 37,663 head of horned cattle, 19,074 horses, 35,388 sheep, 13,653 hogs. A good many farmers are making preparations to convert their farms, now devoted to mixed husbandry, into exclusively stock farms. The combination of stock farming with dairying, will, it is to be hoped, largely prevent the possibility of a deterioration of the soil of this splendid new county, a result which has proved disastrous in too many sections of the Province. Three hundred acres are devoted to flax culture in the Township of Carrick. the Township of Carrick.

The chief products of the county are grain and hay: Thoroughbred stock has been introduced in some of the townships; in others common animals prevail.

About 25 per cent. of the land is timbered ; maple, hardwood, elm, hem-ck. cedar, ash, beech, and birch predominating. There is also some pine. lock, cedar, ash, beech, and birch predominating. There is also some pine. Hemlock is used for fuel and lumber, and the bark for tanning. About 50 per cent. of the timber comes within the designation of "hardwood." Oak, white ash, cherry, maple, elm, basswood, and pine are used for the manufac-ture of vehicles, agricultural implements, and furniture. Hemlock, cedar and tamarack are in request for railway ties.

There are several markets easily reached, both within and outside the county. The farmers on the borders of Grey frequent that of Owen Sound,

county. The farmers on the botters of Grey frequent that of Owen Sound, where a good deal of shipping is done. Port Elgin, Kincardine, Southamp-ton and Inverhuron are also excellent markets and shipping ports. At Walkerton, Wingham, Teeswater and Paisley are also good markets. According to the returns, there are 8 cheese factories and 3 creameries in the county, also a number of flouring mills. In Paisley, Port Elgin and Teeswater are several tanneries, woollen mills and foundries dependent on the forming community.

the farming community. There are extensive salt wells at Kincardine which give employment to a large number of persons. There are a number of other manufactories of var-ious kinds in Kincardine, Walkerton and elsewhere through the county.

## BRUCE COUNTY,-[Continued.]

Hardly any fruit is grown in the county over and above what is re-quired to supply the local demand. If of the orchards are young, and fall and winter apples form nearly 34 of the crop. Almost every kind of fruit is successfully grown. Pears have been grown successfully in some parts of the county, and plums of different varieties form nearly 1/4 of the crop. The southern division of Bruce is well provided with railroad facilities

2 lines, the Wellington, Grey and Bruce running north to the ports of Kin-cardine and Southampton, and the Toronto, Grey and Bruce to the terminus of Teeswater,

Township of Albemarle. 132-Lot 15, Co. 27, W. Bury Road, 100 acres. Huntley;	No return.
March,	\$15 per acre.
Marlboro,	No return.
Nepean,	Ist, \$100; 2nd, \$80; 3rd, \$26 per acre.
Osgoode,	1st, \$50 ; 2nd, \$30 ; 3rd, \$ 20 per acre.
Torbolton,	#\$15 per acre.
i or bonton,	and a per more the second se

The settlement of Carleton commenced in the township of Nepean in 1810 and continued until 1827, when settlers first entered the township of Osgoode. From that date until 1874, the population gradually augmented, until now it may be said that fully seven-eighths of the country is occupied. The general character of the soil varies in the several townships, but clay, sandy and black loams predominate. In Gloucester there is a large tract of The settlement of Carleton commenced in the township of Nepean in 1810

## CARLETON COUNTY, -- [Continued.]

peat land, in what is called the Mer Bleu; in Goulburn there are over 14,000 acres of swampy land with deep black soil, while in the other townships, a good deal of the land is so rocky as to be unfit for profitable cultivation The township of Huntley alone is reported to have 18,353 acres of this rocky and uncultivable land, while Goulburn has 11,635. Limestone rock predominates and is largely used for building and fertilizing purposes. Of the cultivated land about one-half is reported first-class for agricultural purposes, about one-quarter second-class, and the remaining quarter third-class. There is very little wet springy land in the county.

little wet springy land in the county. Carleton is generally well watered. In addition to having never-failing springs, creeks and wells, it is bounded on the north and west by the Ottawa and Rideau rivers. Water can be obtained by digging at depths varying from 6 to 60 feet.

About one-half of the cultivated land is now free from stumps; those still in the ground are chiefly pine, but in Goulburn there are some hemlock and amarack

About half of the farms are reported to be under first-class fence, consisting principally of cedar.

About half of the dwellings in the county are described as of brick stone or buildings half may be considered good and the remaining half inferior. Little drainage has been done and stone is the principal material employed.

Labor saving machinery is used by over three-fourths of the farmers. Very few use fertilizers, and in Nepean, where large purchases of super-phosphate had been made by some parties, the result is reported to have been disappointing. The farmers around Ottawa draw large quantities of manufer from the city. Salt and plaster have been used to a small extent for root crops, peas, clover and meadow lands. Over three-fourths of the uncleared lands in the county are reported as suitable

for cultivation when cleared. The acreage of the county in the total is and to township of Marlboro' which does not report, is given as 505,815, of which 128,393 acres are cleared. The returns from this county have been sent in in a

128,393 acres are cleared. The returns from this county have been sent in in a very incomplete state, The population of Carleton, exclusive of the city of Ottawa, was, according to the census 1881, 24,689. The population of Ottawa was 27,412. Carleton is adapted to grain growing, stock raising and dairying, more particularly the latter branch of farm industry. It produces a number of fat beeves for local and outside markets, and stock raising is generally remunerative. A considerable portion of the land is still timbered, but the great fire of 1870 destroyed all the timber in Torbolton and March, and nearly all in Nepean. The remaining townships contain (not including Marlboro') about 77,000 acres covered with Lard and soft woods, including some pine. The timber is used principally for fuel, building, and fencing. A number of imported Clyde horses have been introduced and some attention has of late been successfully given to the raising of thoroughbreds. Grade cat-

has of late been successfully given to the raising of thoroughbreds. Grade cat-tle are the most common, but the breeds are beginning to improve. The coun-

tle are the most common, but the breeds are beginning to improve. The coun-ty sustains (exclusive of Ottawa and Marlboro') 18,525 horned cattle, 8,811 horses, 17,933 sheep, and 6,398 hogs. Considerable attention has of late years been given to fruit culture in and around Ottawa. Some varieties of apples are successfully grown, and grape culture has been very encouraging. The neighborhood of Ottawa, owing to the heat of the summer sun and the character of the soil, seems to be very favorable to the establishment of vineyards, there being no difficulty in protecting the vines in winter. The character of the grapes grown hitherto, has been excep-tionally fine. A large demand for good fruit has arisen since the city became the seat of government, and except in the matter of strawberries the district does not nearly supply it. Apple culture does not always succeed, the cause given being the severity of the winter "tructiveness of insects of the borer class, and pears and plums may by prometer in a failure except a vathe borer class, and pears and plums may be prome " a failuriety of the latter, a seedling raised in Russell county, and " to known. Peaches and cherries are not grown, but experime." with the fig. Raspberries, currants, gooseberries and metons, successfully cultivated. a failure except a va-Id to be the hardiest we being made

The county has good market facilities, thanks to good roads, railways and avigation) Ottawa city has excellent markets with reasonable fees, and Ara-

prior, Pakenham and Carleton Place markets are much frequented. The lumber trade gives considerable impetus to agriculture in this district, large numbers of men being employed at the shanties in winter and at the Chaudiere mills in the summer, who consume large quantities of farm products. A considerable trade has sprung up in horses, American buyers coming over periodically and draining the market of surplus stock. Three cheese factories are working, but three others have been closed, hot having proved profitable. The county contains in addition to the immense sawmills at the Chaudiere Falls, steam flouring mills, woolen factories, foundries sawings at the chaldrer rais, steam flouring mills, woolen factories, foundries, nachine shops, and numerous lime kilns and brick yards. The facilities at Ottawa for the establishment of a manufacturing, and, to some extent a distributing centre, may be said to be un-rivalled. Extensive mineral springs exist at Eastman's Corners, 12 miles from Ottawa.

Iron and phosphate mining are very extensively carried on within a short dis-tance of Ottawa, on the Quebec side of the river.

#### Township of Gloucester.

808—Beautiful farm of 194 acres only 4 miles from the city of Ottawa. The land is quite level, no gullies, every inch arable, no stones, well watered by a The small stream and smaller subsidiary streams running into it. Soil, muck and

clay and sandy loam over clay bottom ; excellent for all kinds of grain-no swamp-plenty of fence timber, pine, black ash, elm and maple. 3rd Con-cession bounds the place on the north ; old log house ; about 25 acres cleared, 20 acres stumped, 40 acres more nearly cleared ; no fruit trees yet. School house and church close by ; roads good ; Ottawa is the nearest market and railway station ; possession immediately. Price \$6,500, \$1,000 cash, bal-ance in five equal yearly instalments with interest at 6 per cent per annum.

## DUFFERIN COUNTY.

#### COUNTY TOWN, ORANGEVILLE.

In this County the following Townships and the average prices obtained in 1181, for 1st, 2nd and 3rd class land respectively, with the acreage in each township, are :-

Amaranth,	63,376 acres,	Ist, \$30; 2nd, \$15; 3rd, \$5.
East Garafraxa,	39,474 "	Ist, \$50 ; 2nd, \$35 ; 3rd \$20.
Melancthon,	74,000 "	Ist, \$35; 2nd, \$20; 3rd, \$7.
Mono,	69,174 "	1st, \$30; 2nd, \$15; 3rd, \$5,
Mulsmer,	69,600 "	Ist, \$40 ; 2nd, \$25 ; 3rd, \$15,

The non-resident acreage of East Garafraxa is not included in above statistics. Dufferin is composed of excellent farming land. The soil is generally clay loam, and is very productive, The internal roads are good, besides which the Toronto, Grey and Bruce Railway runs through Amaranth and Melancthon, and the Credit Vally Railway touches the southerly corner of East Garafraxa. and the Credit Vally Railway touches the southerly corner of East Garafraxa. The market facilities are, therefore excellent. Orangeville, the county town, 49 miles from Toronto, is a thriving place, with 4,000 inhabitants. The county is generally level, except some parts of the township of Mono, which are described as light and rough. Grain growing, particularly wheat, for which the soil is especially well fitted, is the most profitable industry ; but atten tion is being given to stock raising, and a good deal of dairy produce finds its way to Toronto and other markets. Good farms fetch from \$30 to \$40 per acre; in cases where farm buildings are exceptionally good a larger price may be obtained. One report says: "Hundreds of fairly good farms, of 100 acres, with sixty or seventy acres cleared, and with log buildings, can be got for from \$2,500 to \$3,000, and wild lands from \$1,000 to \$1,500. Cleared land can be rented at from \$2 to \$2,50 per acre; In East Garafraxa considerable attention has been paid to the improvement of farm stock, but in the other townships the compaid to the improvement of farm stock, but in the other townships the common grades obtain.

## Township of Amaranth.

1560—Farm lot of 100 acres, with an overplus of 12 acres, which are nearly cleared; 35 acres dry land cedar, and the balance is beech, birch and maple, and 25 acres of tamarac which has been burnt over. The cedar is of good fuality and fit for R. R. ties. Soil, clay loam. Land sufficiently rolling to drain well. Watered by a running stream. Churches and schools close at hand. R. R. station at Laurel,  $\frac{3}{4}$  of a mile, a good point for shipping cordwood. Market at Orangeville, the county town, 8 miles distant. Possession given at any time. Price \$1,200, payable one half cash, and the balance on time. ance on time, with interest at 6 per cent. per annum.

#### Township of East Carafraxa.

1303—Farm containing 1 to acres of choice land and of which about 100 acres are under cultivation. Balance good hardwood bush. Soil clay loam well adapted for all kinds of grain and roots. Watered by never failing wells with good natural drainage. Fences first-class. Orchard of two acres. Within two miles of the large and flourishing town of Orangeville, where there are 2 R. R. Stations, Schools, Churches, &c. Good Brick Dwelling 36 x 24 with cellar underneath and kitchen attached. Outbuildings good. Barn 70 x 40, having stabling underneath for 75 head of cattle. Price \$0,000, pay-able \$6,000 down and the balance on time.

### Township of Melancthon.

- 17-Lot 268, Con. 2, S. W. T. & S. Road-58 acres-Patented-A fine cedar Lot within half a mile of T. G. & B. Ry. Track. Soil sandy loam. Will make a good farm after the timber is taken off. Good road to railway siding. Price \$800.

Settlement commenced in the township of Clarke, in Durham, in 1792, in

Settlement commenced in the township of Clarke, in Durham, in 1792, in " Hope in 1793, and in Darlington in 1794, and appears to have been completed in the entire county in 1860. In Northumberland, settlement commenced in the township of Murray, in 1790, and continued up to 1870—some of the townships last entered having been the first to complete the process. In both counties the soil is described as variable—clay, clay loam and sandy b loam predominating. In some townships, and those in which settlement was most rapid, the general character of the soil is good; in others it is reported fairly good and below the average of Western Ontario. The heavy clay has a depth of from 9 to 24 inches; clay loam from 9 to 30 inches; sandy loam from 9 to 36 inches; sand extremely variable; gravelly, variable; black loam from 8 to 18 inches. Neither of the counties has much unprofilable stoney or billy land ; nearly all is rolling and cultivable, and there is a very small profrom 8 to 18 inches. Neither of the counties has much unprohiable stoney or hilly land: nearly all is rolling and cultivable, and there is a very small pro-portion of bottom, swampy or springy land. About 28 per cent. of the land is reported as being first-class for agricultural purposes; about 36 per cent. second-class, and the remainder third class. All the townships are well watered. The depth at which water can be ob-

About 58 per cent. of the cleared acreage is free from stumps; the stumps remaining are nearly all pine, and, as they are extracted, are being utilized for fencing.

About one-half of the farms are reported under first-class fence-principally onsisting of cedar rails. In Hope township wire is being introduced. About one-half of the farm dwellings are of brick, stone, or first-class frame;

About 54 per cent. of the outbuild the remainder are of log or inferior frame. ings are first-class, the remainder inferior. Very little progress has been made in the way of draining. In nearly all

the farms where draining has been resorted to, tiles have been used. Nearly 75 per cent. of the farmers in these counties use improved farm

machinery.

Plaster and salt are largely used throughout the counties, the quantities vary-ing in different localities, and according to the requirements of the soil. It is noticeable that plaster is used in every township, mainly on grass, peas and roots

About 70 per cent. of the uncleared lands are reported suitable for cultivation when cleared ; but Darlington, which has 17,967 uncleared acres, makes no return as to its quality.

The township acreage of Durham is 366, 3361/2, of which 248, 1533/4 is cleared. Of Northumberland, 442, 362, of which 291, 4505/6 is cleared. About 4 per cent. of the total cleared acreage is devoted to fall wheat; spring wheat, 20 per cent.; barley, 14 per cent.; oats, 9 per cent.; peas, 11½ per cent ; rye, corn and buckwheat very little sown; potatoes, 1¼ per cent.; turnips, 1

cent. ; other root crops, about 34 per cent. ; hay, 1 per cent. ; pasture, 17

Both Durham and Northumberland are well adapted for grain growing, but ock raising is successfully prosecuted, a large number of fine cattle being fed d shipped annually, and dairying seems capable of profitable extension, neese-making is largely carried on in both counties, particularly in Northumland.

rland. Thoroughbred and imported stock have been introduced, particularly in the wnship of Darlington. Grades and the common breeds preponderate. The wnships in Durham sustain 21,650 horned cattle, 10,775 horses, 19,340 sheep, d 8,491 hogs. About 18 per cent, of the total acreage is still timbered with hardwood, cedar, ne, hemlock, and tamarack. The former is used principally for fuel, the ter for building, fencing and barrel staves. On the whole the market facilities may be pronounced excellent. Most of townships have access to railway and steamboat communication, and the iccdamized and gravel roads leading thereto are generally good.

townships have access to railway and steamboat communication, and the cadamized and gravel roads leading thereto are generally good. Durham has several grist and flouring mills, saw mills custom woollen mills, woollen factory (supplying wholesale houses), foundries and machine shops, ngle mills, and (at Bowmanville) a pork packing establishment, and large miture, piano and organ factories. Northumberland has foundries, grist mills, ollen mills, twenty-four cheese factories, flouring mills, saw mills and shingle lls. No creameries have yet been started.

The population of Durham, according to the census of 1871, was 36,265. Northumberland, 39,283. The Grand Trunk runs along the front of Durham, from west to east, and

The Grand Trunk runs along the front of Durham, from west to east, and the Midland line to the Georgian Bay, with a branch to Peterborough, has its terminus at Port Hope, which possesses a commodious and safe harbor, and carries on a large lake shipping trade. Few counties possess better facilities by land and water for shipping to outside markets. Northumber-land has excellent gravel and macadamized roads, and is intersected by the Grand Trunk, Grand Junction, and Cobourg and Peterborough Railways. Rice Lake, whence flows the Trent River, is traversed by several steamboats, and Lake Ontario Navigation affords facilities of outlet to distant markets. Every farm in the eastern division of 1 orthumberland is stated to be within twelve miles of a railroad station. There is a large woollen factory at Cobourg, employing 120 hands—also

There is a large woollen factory at Cobourg, employing 120 hands—also car works, for building railway, passenger and other cars, employing from 50 to 100 hands. At Harwood are two large saw mills, cutting about 10,000,000 jeet of lumber annually. The Cobourg and Marmora Kailway strikes Harwood.

strikes Harwood. Durham and Northumberland both possess a healthy and invigorating climate, and are generally free from ague and other malarial diseases. There is excellent water power along the Trent River, especially at Hastings and Campbellford, where already there are two woollen mills and extensive grist mills. Montreal manufacturers are about starting a cotton mill at Campbellford on a large scale. At present the woollen mills employ from 170 to 200 hands.

from 170 to 200 hands. Apple growing is carried on successfully in the township of Haldimand. where, on one farm of 300 acres, 20 acres have been devoted to apple, pear, and plum culture Peaches are sometimes grown, but as a rule the trees rarely go beyond the blooming. Plums are more successful—the Damsons being the most prolific and the most in request. fetching \$2 per bushel. Experiments are now being made with the English and Black Eagle cherries, with good prospects. There are indications that grape culture will shortly be proitably prosecuted. English gooseberries succeed well. Some of the Haldimand farmers have clubbed together and purchased an apple drying machine, with a view to exporting dried apples to the North-West, where, it is expected they will command a remunerative price. At present the apple supply in the county considerably exceeds the local demand. At Newcastle and other points in Durkam thriving nurseries and large orchards exist. A horse-breeding establishment exists in the township of Baltimore, mostly: for the raising of Clydesdale draught horses. The owner commenced oper-ations in 1872, and has done an extensive business in exporting horses to Philadelphia and New York, where they are used for draying and other heavy work.

avy work.

## Township of Darlington.

1262-Farm of 130 acres, having 100 acres cleared and under cultivation. 262—Farm of 130 acres, having 100 acres cleared and under cultivation. Loamy soil good tor all kinds of cereals and pasture. Good natural drain-age. Orchard of 4 acres, containing all kinds of fruit. Fences good, Good brick dwelling house. New outbuildings all in a first-class state of repair. Bowmanville on G. T. Ry, 2½ miles distant. Hampton, where there are schools, churches, stores, &c., 1½ miles distant. Hampton, where there are schools, churches, stores, &c., 1½ miles distant. Price \$4,000, payable, \$1,000 down and the balance on time. 263—Farm of 100 acres, 95 acres cleared and in a perfect state of cultiva-tion; the balance cedar bush. Soil a light clay loam with good natural drainage, watered by 3 wells and a running spring. Two g60d orchards : barn 50 x 30; shed 30 x 20; stable and driving house 30 x 20. Good post and rail fences. School one mile. Bowmanville, where there are R. R. Stations and good markets 23 miles distant. Price \$3,500, payable \$1,000 down, and the balance on time.

\$1,000 down, and the balance on time. \$1,000 down, and the balance on time. 54—Fine farm of 100 acres, 80 acres cleared and in a fine state of culti-vation; balance timber land; soil, clay loam well adapted for all kinds

## Township of Darlington,-[Continued.]

of grain; good natural drainage; watered by good well and cistern close to the house. Fences in first class order; good bearing orchard; good frame house; splendid barn 30 x 60; stable and shed 50 x 20. About 2 miles from Bowmanville and 40 miles east of Toronto; first-class markets on all sides. Prize \$4,500, payable \$1,000 down and the balance on time.

#### Town of Bowmanville.

1458—Four acres of land at the place known as the "Forks" lying between the Scugog Road and the Middle Road, on which is erected a one-storey rough-cast house with five rooms. Frame ban and stable and wood shed. Most of the land is in orchard, comprising apples, cherry, pear and plum trees, and a variety of small fruits. The soil is the very richest clay loam. The ground in front of the house is laid out in lawn and shade trees. This property is situated in a subarb of the town, and with some addition to the barres is well adouted for a couldernais residence. Being Stapped to the house is well adapted for a gentleman's residence. Price \$2,000, payable \$500 down and the balance within 7 or 8 years with interest at 6 per cent. per annum as may be arranged to suit the purchaser.

## ELGIN COUNTY.

Is composed of 7 townships which contain the number of acres valued at

Aldborough,		res, 1st, \$60 : 2nd, \$40 ; 3rd, \$30.
Bayham,	56,227 '	
Dorchester, South	30,600	
Dunwich,	69,551 "	' 1st, \$50; 2nd, \$40; 3rd, \$20.
Malahide.		1 1st, \$60 ; 2nd, \$40 ; 3rd, \$20.
Southwold,	72,000	" 1st, \$60 ; 2nd, \$45 ; 3rd, \$30.
Varmouth,	70,904	" 1st, \$50; 2nd, \$40; 3rd, \$30.
Settlement commencer	in the Tou	mehin of Bayham in this county about

Yarmouth, 70,904 "1st, \$50 ; 2nd, \$40 ; 3rd, \$30. Settlement commenced in the Township of Bayham, in this county, about the year 1800, and continued more or less active until 1826, when the first settlers entered South Dorchester. Four of the 7 townships are now report-ed all settled ; 2 to the extent of 99 per cent., and the remaining 1 " nearly all." The process seems to have occupied from 30 to 70 years. The soil is principally clay, clay loam, and sandy loam. The clay loam and sandy loam varies in depth from to inches to 4 feet, with clay and sand sub-soils—the former predominating. The proportion of swampy land is very small. About ½ of the land cleared is styled 1st class for agricultural purposes ; about 23 per cent. 2nd class, and the remainder 3rd class. The general character of the soil in the county is good. Except in the Township of Aldborough, there is an entire absence of stony or rocky land not sus-ceptible of profitable cultivation ; a very small proportion is so hilly as to be objectionable, and most of the rolling land is available to the farmer. The county is, on the whole, well watered by springs, creeks, and wells. Water can be obtained by digging at depths varying from 5 to 50 feet, but generally at from 15 to 25 feet.

generally at from 15 to 25 feet. Most of the cleared land in the county is free from stumps; the stumps

remaining are principally pine stumps. About 75 per cent. of the farms in this county are reported under first class fence, consisting mainly of elm, ash, cedar, oak and wire. Rail and board fences are generally used. In former years many farms were fenced with rails of black walnut.

About 75 per cent. of the farm buildings are of brick, stone, or first class frame; the remainder, or 25 per cent. are of log or inferior frame. About 57 per cent. of the out-buildings are reported first class, the remainder are described as inferior.

described as inferior. Some attention is being paid to drainage in this county. Tiles are gener-ally used, there being a tile-yard in the centre of South Dorchester. In Southwold, which lies generally flat, 3 per cent. of tile drainage is reported with the remark that last season would increase the proporton to 10 per cent. One report says: "The introduction of underdrainage with tile, recently much stimulated by the Ontario Government, is effecting a great improvement and is likely to be very generally adopted. It is well adapted to the nature of the soil, and is facilitated by the natural water courses con-structed by government and township work in Aldborough. About 90 per cent. of the farmers use improved farm machinery. In some townships one-half of the farmers are reported as using artificial

In some townships one-half of the farmers are reported as using artificial fertilizers, principally salt and plaster, at from 50 to 100 pounds per acre, applied to meadow lands, wheat and corn.

About ninety per cent. of the uncleared lands are reported suitable for cultivation if cleared.

The township acreage of Elgin is given as 441,896, of which 237,421, or considerably more than one-half, is reported cleared. About 17 per cent. of the cleared acreage is devoted to fall wheat; spring wheat, very littl grown, barley, 4½ per cent.; oats, 11½ per cent.; rye, hardly any grown; peas, 7 per cent.; corn, 7½ per cent.; buckwheat, very little raised; po'a. toes, about 1 per cent.; turnips, about 1 per cent.; other root crops, ve little grown; hay. 16 per cent. About 23 per cent. of the land is devot 'y

## ELGIN COUNTY,-[Continued.]

10

W pasture, and 2½ per cent. to orchards. Hungarian grass is cultivated to some extent in the township of Southwold. Elgin is particularly well adapted to stock raising, grain growing and dairying. Cheese making is very successfully prosecuted. A good breed of farm stock exists in this county, owing mainly to the in-troduction, in former years, of pure Durham bulls and Leicester rams. Thoroughbred stock of other kinds is being gradually introduced. The townships sustain 32,581 horned cattle, 15,296 horses, 28,352 sheep, and 13,700 hors.

About 30 per cent. of the land is timbered with most of the indigenous woods, except cedar. White oak staves have been largely exported to Quebec for the West India trade, and as a quantity of white wood is still available, there seems no reason why the business of exporting pipe and barrel staves should not be resumed.

staves should not be resumed. The market facilities of this county are excellent—thanks to good interior roads, railways, and ports on Lake Erie. St. Thomas (the county town), Port Burwell, and Tyrconnel (an excellent grain market), are largely fre-quented. Tilsonburg, Aylmer (next in importance to St. Thomas), Spring-field, Kingsmill, and Port Bruce, are easily reached by road and railway. Port Stanley is also a grain market and shipping port, through which a large trade is carried on and supplies imported—particularly coal—for St. Thomas and London. and London.

and London. The population of Elgin, according to the census of 1881, was 42, 361. St. Thomas has now a population of about 8, 367. This county has a large number of industries, including grist and flouring mills, steam and water saw mills, sash factories, barrel stave factory, thirtymills, steam and water saw mills, sash factories, barrel stave factory, thirty-six cheese factories, corn meal mill, woollen factories, pork packing house at Aylmer, turning factory, large agricultural implement factory, and several carriage and waggon factories. Shap building is a growing industry at Pott Burwell. The different railways and workshops give employment to about 500 men. The foundries and machine shops at St. Thomas, three in num-ber, employ about 70 men, and do an estimated annual business of \$120,000. The climate of Elgin is mild and salubrious, and owing to its southern locality and proximity to the lake, it is one of the most agreeable in Ontario. In the southern part of Elgin there are many excellent water-power privi-leges, some of which are utilized for the manufacture of lumber and flour. Apples, pears, peaches, cherries, strawberries, grapes, raspberries, goose-

Apples, pears, peaches, cherries, strawberries, grapes, raspberries, goose-berrise, plums, and currents are the fruits grown in this county. Apples are very largely grown, principally the winter varieties. Plum culture is not profitable, and those grown are for home consumption. Peaches are profiably cultivated, but up to the present no attempt has been made to supply

ably cultivated, but up to the present no attempt has been made to supply outside markets. The same remark applies to grapes, which flourish well in the sandy soil of the county, and of which large quantities are grown. The Great Western Railway (Air Line branch), Canada Southern Railway, and the London and Port Stanley, and Brantford and Port Burwell Railways traverse the country.

## Township of Eayham.

**Township of Eaynam.** 795—Improved Farm of 95 and a half acres, about 75 acres of which are improved, and 50 acres free from stumps; about 12 or 14 acres in timber, consisting of beech, maple, oak, black and white ash, baswood, elm, ehestnut, hickory and a few pines. The soil is a clay loam mixed with sandy loam. The land is gently rolling, and the very best for drainage: large soft water cistern and never-failing spring well near the door, with first-class pump; easy access to good water in every field; also a beauti-ful trout stream with clay bank, and a first-class water privilege for a manufactory. There are about 150 apple trees of the very best winter varieties, just commencing to bear; about 200 peach trees of choice selec-tion, of 2 and 3 years' growth, besides pear, cherry, current, etc. The varieties, just commencing to bear; about 200 peach trees of the very best winter varieties, just commencing to bear; about 200 peach trees of choice selec-tion, of 2 and 3 years' growth, besides pear, cherry, current, etc. The dwelling is frame, with kitchen, woodhouse and corn-crib. Fences partly rail, stump and board, but all in thorough repair. The farm is about one and a half miles from school and church; 5 miles to railway station; a good market at Tilsonburgh, and post-office near by. Pos-session can be given immediately after disposal of crops and house proper-ty. The roads are good. The farm is only one mile from Ingersoll and Port Burwell, plank and gravel road. The water privilege with two or three acres of land, can be bought separately for \$1.000. Price of the whole property \$4,100, payable \$3,000 down, and balance in 4 or 5 yearly instalments, with interest at 7 per cent. 334-Undivided half of 6a., Ir., 30 per., being the S. W. cor. of Lot 24 in south gore of township. Price \$40.

In this county settlement was commenced as early as 1700, principally by French Canadians, which nationality is still strongly represented in certain localities, particularly in Fast and West Sandwich, Six townships are re-

localities, particularly in East and West Sandwich, Six townships are re-ported as still under process of settlement —the remainder are settled. The general character of the soil is good. It consists, for the most part, of black loam, with clay subsoil —in one or two townships sandy soil pre-dominates, with clay, sand, and in some cases, gravelly subsoil. The depth of soil varies from four inches to three feet, but generally it is from twelve to eighteen inches. There is a good deal of marshy lands in the townships of Anderdon and Malden, which is set down as unfit for cultivation, but which may be rendered cultivable by a proper system of drainage. There is no stony or hilly land in the county—all is rolling, with the exception of the bottom lands, which are reported to in the proportion of 26 per cent. The cultivation of the soil is undergoing steady improvement. About 84 per cent. of the cultivable land is reported first-class for agricultural purposes : about 12 per cent. second-class, and the remainder third class. Except in the townships of North Colchester and East Sandwich, the county is well watered by springs, rivers and creeks. Water can be ob-

county is well watered by springs, rivers and creeks. Water can be ob-obtained by digging at a depth of from 4 to 100 feet. In some townships wells are dug to hold the surface water. In Rochester township artesian wells are bored through blue clay to a depth of 100 feet. About 44 per cent, of the cultivable land is clear of stumps. There are

no pine stumps anywhere in Essex

The fences appear to be exceptionally good, particularly the road fences. Black ash and oak are commonly used. Board fences are being introduced on the highways.

About 41 per cent. of the farm houses are of brick, stone, or first-class frame—the remainder are of log or inferior frame. About 39 per cent. of the outbuildings are reported first-class; the remainder are inferior. Very little under-draining has been done, except in the township of Gos-fold. No sport the heave maximal are to the reportion in which the sec

field. No report has been received as to the proportion in which tiles are used. In Gosfield 1000 acres has been under-drained. But the Ontario Drainage Act, for the reclamation of wet lands; has done wonders for Essentiation of the second this Act thousands of acres have been brought into cultivation, and are to-day yielding a profitable return from land that was, till recently, all but worthless. Nearly all the farmers use improved labor saving machines. The exceptions may be found on farms not sufficiently cleared of stumps to . all render the employment of machines desirable.

The soil in Essex sems to have retained a good deal of its primitive rich-ness, and little necessity has yet been experienced for the introduction of artificial manures. In some instances; however, plaster and salt have been used mostly for corn and clover.

The whole of the uncleared lands in Essex are reported suitable for cultiva-tion when cleared. In West Sandwich some of the uncleared land would have to be drained before being brought under tillage.

have to be drained before being brought under tillage. The township acreage of Essex is given as 422,946¼, and the number of cleared acres as 147.019½. Of the later about 20 per cent. is devoted to fall wheat; spring wheat, about 3 per cent.; barley, about 5 per cent.; oats. about 14 per cent; rye, very little grown; peas, very little grown; corn, 2; per cent; in some cases a yield of 75 bushels of shelled corn per acre has been obtained; buckwheat, very little grown; potatoes 2 per cent; turnips, very little grown; hay, about 13 per cent. About 14 per cent. is devoted to pasture, partly bush, and to orchards 39 to per cent. Tobacco, flax, Hun-garian grass and sorgbum are grown to a limited extent. The surplus of wheat grown in the county during the past three years has averaged annually wheat grown in the county during the past three years has averaged annually 500,000 bushels. Not much corn is exported, but 100,000 bushels are annually

500,000 bushels. Not much corn is exported, but 100,000 bushels are annually supplied to distillers within the county, the remainder is used in feeding hogs. Pork packing seems to be a profitable enterprise, inasmuch as the net income annually amounts to about \$400,000. It is stated that over 2,000,000 pounds of pork were exported from the county this year. The Townships sustain 21,739 horned cattle, 11,774 horses, 12,075 sheep, and 19,241 hogs. The horned cattle include Devon, Durham and Ayrshire grades; the sheep, Cotswolds and Leicesters, with a few Southdowns and Lincolns; the horses, general purpose; the hogs, Berkshire and Suffork, crossed with common stock. Some old country famers have recently set-tled in the county, and they are reported as haviag introduced fine stallions and marce of the Clydesdale and Percheron breeds. A large number of horses tled in the county, and they are reported as having introduced me stations and mares of the Clydesdale and Percheron breeds. A large number of horses have been shipped this year to Manitoba and the United States for farm work and heavy draught purposes. These horses, which are not, how-ever, exclusively raised in the county, fetch—for farm work, \$90 to \$120; and for heavy draught \$130 to \$140. In New York and other American cities, Canadian horses are always in demand. About 2,200 head of horned cattle are annually fed in connection with the distillery at Walkerville and Grand exported to England. These cattle are sent by the Great Western and Grand

## ESSEX COUNTY,-[Continued.]

Trunk Railways to Montreal, where they are placed on board ship for con-veyance across the Atlantic. They mostly consist of Durham, Hereford and Galloway grades, the common stock being found unsuitable for the English market.

The chief products of Essex are corn, wheat, Oats, Fruit (apples, peaches, pears and grapes), tobacco, sugar cane, sorghum, beef, pork, cheese, and butter. The soil is equally adapted to stock raising, grain growing, or dairyng. Sweet potatoes and peanuts have also been brought to perfection. Nearly two-thirds of the county is still under bush, but there are indications of morid dealtion. No heat that there there are indications where the stock raising are the stock that the stock of the sto

of rapid depletion. No less than twenty five mi ls are at work cutting whiteof rapid depletion. No less than twenty, hve mills are at work cutting white-wood (tulip), oak ash, elm, hickory, bass, sycamore, and other woods, for exportation as lumber for the United States, where it is used for various manufacturing purposes. This industry, it is said, brings into the county every year over half a million of dollars, and gives employment to large numbers of workmen during the winter—in fact, to the extent of leaving none unemployed. Charcoal burning is also a newly developed industry, which must help to diminish the area of uncleared land. There are thirty charcoal kilns in the county consuming foo cords of wood weekly. The

which must help to diminish the area of uncleared land. There are thirty charcoal kilns in the county, consuming 600 cords of wood weekly. The charcoal is shipped to the United States and used for iron smelting. The female decendents of the early French settlers in this county are experts in the braiding of straw hats and in the knitting of woollen socks. These two industries are estimated to produce about \$95,000 annually—the city of Detroit having, it is stated, paid the French Canadian women of Essex \$\$0,000 last year for straw braid alone. The braid is also exported to the East and even to South America and Mexico, where it is made up into fashionable shapes and commands a ready sale. A manufactory has been in operation at Walkerville for the last two years, for the production of Glucose (grape suear). Glucose is used in the brewing of lager beer and in the manoperation at Walkerville.ior the last two years, for the production of Glucose (grape sugar). Glucose is used in the brewing of lager beer and in the man-ufacture of confectionary. Combined with syrup of sorghum, it will proba-bly be extensively used in the production of molasses, a common 'grade of which is already made by Essex farmers exclusively from the sorghum. The cultivation of sorghum has already been so successfully prosecuted that one farmer is reported to be growing five or six acres, which yield him six bar-rels, or 300 gallons per acre. This is sold at about 50 cents per gallon. The Early Amber sugar cane is also being introduced, and hopes are enter-tained that sugar making will, hereafter, be carried on on a large scale. A not unimportant industry, and one likely to have increased developement, is that of the fishery on the rivers and lakes bordering three sides of the county. The fish hatchery at Sandwich will probably be the means of main-taining the supply of fish, and, perhaps, of increasing it. It is estimated that the whitefish and herring caught in those waters have an annual value of \$60,000. Bee-keeping, on the best known scientific principles, is beginning So,ooo. Bee-keeping, on the best known scientific principles, is beginning to attract attention as an industry. Though, as yet, carried on in a small way; the experiment is pronounced to be entirely successful. Essex is, par excellence, a fruit growing county. The Catawba grape grows to perfection in the Pelee Islands in Lake Erie, on the south coast of Essex.

to perfection in the Pelee Islands in Lake Erie, on the south coast of Essex. Pear trees, known to be at least a hundred years old, bear abundantly—from ten to fifteen bushels being taken from a single tree Fall and winter apples are also an abundant and certain crop. Peaches, plums, and all the smaller fruits grow without culture, and pay well when attended to. The population of Essex, according to the census of 1881, was 46,962. The market facilities of Essex, are reported to be generally good. Am-herstburg, Windsor, Chatham and Detroit are within easy distance. The Canada Southern and Great Western Railwaystraverse the county, besides which there are several shipping ports on Lakes Erie and St. Clair.

#### Township of Maidstone.

520-A small farm containing 40 acres on the west side of and near the village of Belle River, with dwelling, good stable and barn. Price \$2,000.

#### Town of Windsor.

521-Lot No. 1, being subdivision of Lot 91 (formerly in the township of Sandwich), situated on front street, near Detrcit river, and opposite G. W. R. station and water works, and having a frontage of 45 feet by a depth in rear of 150 feet, with a fine dwelling house, which cost \$1,800, and a good stable.

#### Village of Woodslee.

Io88.—Valuable Grist Mill property on the Middle Road, one mile from South Woodslee, a Station on the Canada Southern Kailway; Engine 40 horse power; two run of stones; along with and adjacent to Mill are two acres of land, besides frame dwelling house and 1½ acres of land. In the Village are one hotel, 3 general stores, 2 blacksmiths shops, 2 shoemakers shops, 3 churches, 1 harness makers shop, & c., & c. Immediate pos-session can be given, price \$5,500 cash.

## FRONTENAC COUNTY.

Contains fourteen townships, with a total acreage, and valued on an average in 1881 as follows :-

70,000 acres from \$2 to \$3 per acre. 75,000 " about \$6 for 1st ; \$4 for 2nd ; and \$1 Bedford. Clarenden and 2 75,000 Miller. to \$2 for 3rd.

## FRONTENAC COUNTY, -[Continued]

Oso.	38,803 "	about \$1.50 per acre.
Palmerston,	56,571 "	2nd class, \$3 to \$10; 3rd \$1 to \$7; all depending on nature and extent of improvements.
Pittsburg,	48,25134 "	from \$12 to 55.
Storrington,	55,545 "	from \$15 to \$40 per acre
Fortland.	52,8322/3 "	1st, \$35 to 40; 2nd, \$25; 3rd, \$15.
Wolfe Island,	30,445 "	1st, \$50 ; 2nd, \$35 ; 3rd, \$20 per acre.

Settlers first entered Wolfe Island in 1780, and Kingston township in 1783. Between the latter date and 1811, Loughboro, Storrington, Portland, and Howe Island, were opened, and since then, settlement has been somewhat slow. Of the fourteen townships, only four are reported to be wholly settled, viz.; Wolfe Island, Storrington, Pittsburg and Kingston. The process occupied, on an average, fifty-one years.

The general character of the soil is variable, and most of the townships a light sandy loam predominates. In others, heavy clay and gravel are found interspersed with large rock formations and numerous lakelets. Large tracts in Bedford and Hinchinbrooke are reported to be unfit for settlement, and a similar remark applies to some other townships. Black loam is found in the proportion of about one-fifth in some townships; it varies in depth, but is generally shallow—the limestone rock in many cases coming over the surface. generally shallow—the innestone rock in many cases coming over the surface. Over 244,000 acres are reported to be too stoney, or to have rock too near the surface to be profitably cultivated, while the proportion of rolling but cultivable land may be set down as about a third of the cleared acreage. Owing to the returns not being sufficiently explicit, it is difficult to arrive at more than an approximate estimate of the proportions of bottom, swampy, wet, or springy lands, but it is clear that nearly all coming within the latter descriptions are reclaimable by drainage, and that almost the only insaperable difficulties from which the formers of Fronteneo labor, are found in the superabundance of rocks which the farmers of Frontenac labor, are found in the superabundance of rocks and lakes, which cover a large portion of the county. Of the acreage pro-nounced fit for agricultural purposes, about **20** per cent. is considered first-class, about **30** per cent. second-class, and 50 per cent. third-class.

The county is exceptionally well watered by lakes, springs, creeks and wells Water can be obtained by digging to a depth of from four to one hundred feet. Generally, however, it can be obtained from springs but a few feet below the surface.

The cultivable land may be considered tolerably well cleared of stumps, but of the stumps remaining, pine stumps preponderate in some of the townships, in one instance, that of Howe Island, to the extent of seven eights.

About 29 per cent, of the fences are reported first-class, and consist princi-pally of ash and cedar rails.

pally of ash and cedar rails. About 19 per cent. of the farm houses are described as either brick, stone, or first-class frame—the balance are of log, or inferior frame. About 19 per cent. of the outbuildings are superior, and the remainder inferior. Very little drainage has been done in the county. Tiles have been used in one township only (Kingston), and in Pittsburg, hemlock and stone have been employed. The township of Palmerston reports that no drainage is necessary.

About 35 per cent. of the farmers in the county use improved agricultural machinery; but in some townships it has not been introduced, probably owing to the rocky character of the ground.

Small progress has been made in the use of these adjuncts of productive rming. Salt and plaster have, however, been used to some extent, and, in farming. Pittsburg and Storrington, superphosphates have been successfully introduced.

About 23 per cent. of the uncleared lands are reported suitable for culti-vation, if cleared and drained. In the township of Portland 6,000 acres, covered with water by the Napanee River, would, if drained, be susceptible

covered with water by the Napanee Biver, would, if dramed, be susceptible to profitable cultivation. The township acreage of Frontenac is given as 662,312, the number of cleared acres as 199,024. Owing to the indistinct nature of several of the township returns, the area devoted to cereals, roots, grains, pasture and orchards cannot be averaged, and the products can only be approximately estimated. A small proportion of the cultivated land is devoted to fall and spring wheat, rye. corn and buckwheat. Barley, bats and hay are more ex-tensively grown. A very considerable portion of the cleared, and a large tract of bush land is under pasture, but little is devoted to orchards except in the township of Storington, where 2,000 acres, or about one-ninth of the the township of Storrington, where 2,000 acres, or about one-ninth of the

cleared acreage, is appropriated to apple culture. Frontenac is best adapted to stock raising and grain growing. Sheep are the most profitable stock, and barley, oats and rye are the crops yielding the largest returns

Very little thoroughbred or imported stock has been introduced. The common breeds preponderate—but Durham, Devon, and Ayrshire grades, Cotswold and Leicester sheep, and Berkshire and Suffolk hogs, are found in some townships. The townships sustain 15,717 horned cattle, 6,387 horses, 16,158 sheep, and 4,020 hogs. As nearly as can be computed, about 50 per cent. of the land in Frontenac

## FRONTENAC COUNTY,-[Continued]

is still timbered with pine, basswood, ash, hemlock, beech, balsam, tamarac, cedar and maple, principally used for lumber, fencing and fuel. Thanks, mainly to the Kingston and Pembroke Railway, Frontenac has easy access to inside markets. Some townships patronize Perth, Napanee and Gananoque. The interior roads are tolerably good. Excellent ship-ping facilities exist at the Port of Kingston, and by the Grand Trunk Kail-way, east and west. way, east and west. Frontenac has 6 cheese factories, woollen mills, steam saw mills, water

Frontenac has 6 cheeve lactories, woolen mills, steam saw mills, which power saw and shingle nills, grist mills, carrage factory, pianoforte factories, shingle mills, iron smeating works, iron foundry, besides planing mills, ash and door factories, boot and shoe factories, broom factories, tanneries, brick-yards and lime kilns. No creameries. Ship brilding is extensively carried

on at Garden Island, opposite Kingston. The population of Frontenac, as now municipally constituted, was, according the census of 1881, 14,993, while the city of Kingston contains in addi-tion the content of the second tion 14.001.

## Township of Bedford.

12

**Some Simple of Decision.** 86—A farm of 125 acres, situated 2 miles from Parham Station, on the K.  $\mathcal{E}^{*}$  P. R. R. of which 90 acres are cleared; 50 acres free from stumps and under cultivation; 6 acres swamp land, 35 acres of hardwood timber; soil clay loam; well watered by a well and a creek running through the farm; frame house, 18 x 24, kitchen and woodshed 12 x 30; frame barn 48 x 36; frame stable 24 x 60; frame driving house, 48 x 14; log barn 44 x 20. All the buildings with the exception of the log barn are nearly new; farm is well fenced with cedar and ash. Price \$1,600 cash, or \$2,000 on time. 986-

#### Township of Clarendon.

515—Farm on Kingston road, 100 acres, 35 cleared sono dark sandy loam, good house, partly log and partly frame, not yet him box meant to contain six rooms, good barn and fences; one mile from Binkstor P. O., and 10 miles from Kingston and Pembroke railway. Price sono payable \$400 reak balance at \$ar cont on time. cash, balance at 8 per cent, on time. 516-Lot 45, Kingston road.

#### Township of Olden.

981—Farm property containing 200 acres, of which 40 acres are under cultiva-tion; good log house 24 x 36; and log barn; 100 acres of low land tim-bered with black ash, can be easily drained and brought under cultivation. The above property lies within 5 miles of Parsam Station on the K. & P. Ry, and within short distance from school and post office. Price \$1,200, where the sub-form the state to sub-property. payable half down and balance to suit purchaser

#### Township of Oso.

9861/2 — A farm of 178 acres of which 30 acres are cleared and under cultiva-tion; balance heavily timbered with hardwood and hemlock, and may nearly all be brought under cultivation when cleared. Soil sandy loam; well watered by Crow and Victoria Lakes ; fenced with cedar and ash, log house 16 x 20 with kitchen 8 x 20, log barn 20 x 42, driving house 13 x 42, cow stable 13 x 29, Parham Station and Post Office 5 miles distant. Price \$800 cash, \$1,000 on time.

#### Township of Portland.

779—Improved Farm of 130 acres, 16 and a half miles from the city of King-ston on the line of the K. T. Ry, and half a mile north from the thriving village of Harrowsmith, Gravel road runs by property to the city. The farm is conviently situated for churches, schools, post office, telegraph office, and mills of every description. The land is all improved and free of stump and stones, and in a good state of cultivation; fenced with cedar rails; actes of sugar cane grown on property; 25 acres of low meadow land, nearly all cleared, watered by a never failing stream; 14 acres fall wheat and rye; 40 acres of meadow land, nearly all shaded; 30 acres of clover, 4 and rye; 40 acres of meadow land, nearly all snaded ; 30 acres of clover, 4 acres of an orchard, the balance pasture land; 260 apple, pear and cherry trees, planted and coming into bearing. Dwelling is 24 x 30, with kitchen and woodshed attached. 7 large rooms in main house; cellar under carriage house, which is 24 x 32, and granary up-stairs; all buildings are new; barn house, which is 24 x 32, and granary up-stars; all buildings are new; barn is 48 x 36; sheds 24 x 48; stables 24 x 30, with pig pens and poultry house. Price \$4,750; payable \$2,150 down, and balance in yearly instal-ments, with interest at 8 per cent. 302—Lot 23, Con. 13, 200 acres. Price \$400.

## GREY COUNTY.

This large County is made up of the following Townships, containing the acreage which had an average value in 1881, for 1st, 2nd, and 3rd class lands as follows :

Artemesia Bentinck	100,000	acres,	Ist	, \$30: \$18.	2nd	\$20	; 3r	d, \$10.

Besides being one of the largest, Grey is one of the youngest counties in On-tario. The first settlers entered the township of St. Vincent in 1833. From that date new townships started into existence until, in 1857, the last—that of Sarawak—was entered, and it is reported to have been completely settled in ten years. In eight of the seventeen townships, the land is all taken up—in the remainder, eighty-two per cent. is occupied. In the settled townships, an average of twenty years elapsed from the entrance of the first settlers until the completion of the process of settlement.

completion of the process of settlement. The soil is generally good, but diversified—clay loam, and gravelly loam predominating. Some of the townships are stoney, and the extreme northern ones are somewhat broken by limestone rocks. In Sarawak, fully ½ of the area is taken up by limestone rocks, which reach sometimes, an altitude of 100 feet. Collingwood reports 20 per cent. of its surface too stoney to be profitably cultivated ; Keppel, 60 per cent.; Sullivan and Sydenham, 33 per cent. About 11 per cent. of the cleared acreage consists of heavy clay ; 38 per cent. of lay loam ; 12 per cent. sandy loam, and the remainder gravelly and black loam and sand—the former predominating. The heavy clay has an average depth of about 18 inches ; clay loam about 15 inches, and sandy loam about 16 inches. About 60 per cent. of the cleared land is rolling and cultivable. The proportion of bottom lands is inappreciable. but a large percentage is swampy. inches. About 60 per cent. of the cleared land is rolling and cultivable. The proportion of bottom lands is inappreciable, but a large percentage is swampy. About 17 per cent. of the cleared land is reported first-class for agricultural purposes; 38 per cent. second-class; and the remainder third-class, excepting  $\frac{1}{2}$  of the acreage in the Township of Osprey pronounced "worthless," and  $\frac{1}{2}$  in Sydenham "not considered if for cultivation." The whole county is well watered by springs, creeks, and wells, except the Township of Proton, which has neither springs, nor creeks, but which obtains meter only her black of the due to the prime from to to too for the top for the second se

A little over 33 per cent. of the farms in the county are reported to be under first-about 28 per cent. of the farms in the county are reported to be under first-about 28 per cent. of the farms in the county are reported to be under first-

About 28 per cent. of the farms in the county are reported to be under first-class fences -- consisting principally of cedar rails. About 22 per cent. of the farm houses are first-class brick, stone, or frame; the remainder are of log, or inferior frame. Of the outbuildings about 30 per cent. are first-class—the remainder inferior. Very little draining has been done in this county, and in only one township (Sydenham), does tile appear to have been employed even to a small extent. About 33 per cent. of the farmers use improved machinery. Salt and plaster have been employed to a very limited extent in some of the townships on wheat, roots and clover. About 57 per cent. of the nucleared land in the county would be spirable for

About 57 per cent, of the uncleared land in the county would be suitable for cultivation, if cleared. In two of the townships, Kepple and Sarawak, however, the proportion is very small, owing to the rocky character of the surface.

The township acreage of Grey is given as 1,171,350; the cleared acreage as 562,004. Of the latter about 9 per cent. is devoted to fall wheat; spring wheat, 562,004. Of the latter about 9 per cent. is devoted to fall wheat; spring wheat, 20 per cent.; barley, 6 per cent.; ots, 15 per cent.; rye, hardly any grown; peas, 11 per cent., corn and buckwheat, hardly any grown; traips, 3½ per cent.; other roots, hardly any grown; hay, 17 per cent. A'out 17 per cent. is devoted to pasture, and 1 per cent. to orchards. The chief products are grain and stock, and the soil is best adapted to stock raising and dairying. General purpose horses and grade cattle are mostly raised. Some thorough-bred cattle have been introduced, but only to a limited extent. The townships sustain 57, 767 horned cattle, 21, 618 horses, 54, 612 sheep, and 25, 674 hogs. About 34 per cent. of the land is still timbered, principally with hard woods. Very little pine exists, and only sufficient cedar for fencing purposes. There are good markets, easily reached by railways and concession roads. The Northern (North Grey branch), and the Toronto, Grey and. Bruce rail-ways traverse the county and alford facilities for reaching the important ship-ping ports of Owen Sound and Meaford.

ways traverse the county and afford facilities for reaching the important shipping ports of Owen Sound and Meaford. There are few local industries in the county, and none which may be said to provide a market for agricultural products. In addition to grist and flouring mills, there are 9 saw mills, and 2 woollen mills in the Township of Colling-wood, a cheese factory in Egremont, a woollen factory in Glenelg, a cheese factory in Sydenham, and a cheese factory and a creamery in Normanby. The population of Grey, according to the census of 18S1, was 74, 129. Fruit growing is extensively carried on, along the shores of the Georgian Bay, peaches, pears and grapes do well, but plums are grown in very large quantities, and they are famed for quality and flavor. Large quantities of winter apples are shipped yearly—at least ½ of the quantity grown is thus dis-posed of. The price fatched is from \$1.50 to \$1.75 per barrel. Apple and pear orchards are being increased every year, and there is every prospect of the shore townships of Grey becoming a great fruit growing region.

#### Township of Artemesia,

# HALDIMAND COUNTY.

Contains the following townships, with an acreage of average value for 1st 2nd and 3rd class land, as follows :---

Canborough,	20,902	acres,	from \$15 to \$45 per acre.
Cayuga North,	32,492	44	Ist, 50; 2nd, \$35; 3rd, \$20.
Cayuga South,	13,295	66	Ist, 50 to \$60 2nd, \$30 to \$40.
Dunn,	14,797	66	Ist, about \$25 to \$40.
Moulton,	27,600	**	Ist, 45; 2nd, \$25, 3rd, \$10.
Oneida,	32,000	46	1st, • 45; 2nd, \$35; 3rd, \$25.
Rainham,	25,329	**	1st, 45 to \$50.
Seneca,	42,000	64	1st. 40 to \$50; 2nd, \$15 to 30.
Sherbrooke,	4.593	**	about \$50.
Walpole,	66,587	**	1st, 50; 2nd, \$40; 3rd, \$30.

The first settlers entered the Township of Seneca, in this county, in the year of the American Revolution, 1776. Although other townships were gradually occupied, the county cannot be said to have rapidly filled until after 1841, when the land reserved to the Six Nation Indians in 1793 reverted

after 1841, when the land reserved to the Six Nation Indians in 1793 reverted to the Crown. After 1841, the county had a great accession of settlers, and, at the present moment, 9 out of the 10 townships may be said to be all set-tled—the process having occupied, on an average, 55 years. — The land in Haldimand consists mainly of a deep drift deposit, resting on lime and sandstone formations, and cut by numerous streams. The soil is a mixture of clay and clay loam, and, on the borders of Lake Erie and the valley of the Grand river, sand and gravel. The Townships of Canborough and Oneida have considerable extent of black loam—the latter township to the actent of Lr percent. Heavy clay and clay loam are the predominating and Oneida have considerable extent of black loam—the latter township to the extent of 15 per cent. Heavy clay and clay loam are the predominating soils in the county, which, for agricultural purposes, is reported one of the finest in the Dominion. A very small proportion of the surface is too stony, or hilly, for profitable cultivation; nearly all is rolling and cultivable. The bottom lands, particularly in the township of Seneca, are some of the best in the county. There is no wet or springy land, while the swamps are of no account, except in the township of Moulton, where the proportion is given as one third. About 55 per cent. of the land is reported first class for agricul-tural purposes, 32 per cent. second class, and the remainder third class. Haldimand is generally well watered by springs, creeks and wells, with the exception of the township of North Cayuga: Water, can be obtained by digging at a depth of from 10 to 30 feet, but in some cases wells are sunk as deep as 100 feet. The front of Kainham is bounded by Lake Erie, and the Grand River runs the whole length of Seneca.

Most of the cleared land is free from stumps, and a few of the stumps remaining are pine, except in North Cayuga, where the balance remaining is reported to consist wholly of pine.

About 75 per cent. of the farms are reported under first class fence, con-sisting of oak, ash or basswood rails, boards and pine stumps.

About 60 per cent, of the farm houses are reported to be of brick, stone, or first-class frame; the remainder are of log or inferior frame. Of the out-buildings 65 per cent, may be termed first-class; the remainder, are inferior. Very little draining has been done, except in the townships of Moulton and Oneida. In the former 500 acres have been underdrained with tile. About 92 per cent, of the farmers use improved labour-saving machines.

Plaster salt, and lime, are used to some extent, and there are indications that they will be commonly employed in the near future. Salt is used on lands. The proximity of the white gypsum beds of Cayuga, is of immense advantage to the farmers of Haldimand, inasmuch as the cost of transit of his important requisite to high farming is reduced to a minimum.

# HALDIMAND COUNTY,-[Continued.]

26

Nearly all the uncleared land in the county is reported fit for cultivation, if cleared.

The township acreage of Haldimand is 279,596%; the cleared acreage is 3,418. Of the latter about 16 per cent, is devoted to fall wheat; spring 183,418. wheat, very little grown; barley, 6 per cent. oats, 10 per cent; ryc, very little grown; peas, 6 per cent.; corn, 2½ per cent.; buckwheat, hardly any inthe grown; peas, o per cent.; corn, 2% per cent.; buckwheat, hardly any grown; potatoes, about 1 per cent.; turnips, very little grown; other root crops as, sugar beets and mangolds, very few grown; hay, 21 per cent. Pasture takes up 20 per cent. of the acreage; 3 per cent. is devoted to or-chards. These figures are approximate only—the township of Dunn not hav-ing made a return of the acreage under cultivation for the different crops. Haldimand is equally adapted for grain growing, stock raising and detering

dairying.

The township sustain 16,928 horned cattle, 8,230 horses, 22,118 sheep, and 7,360 flogs. Draught and general purpose horses are most in request. Grade cattle are extensively raised. Thoroughbred horses, sheep, and hogs have been introduced to a limited extent.

About 24 per cent. of the acreage is still timbered-principally with hard wood, used for fuel, fencing and building purposes. Haldimand has excellent markets, and, in addition to gravel and macadam-

ized roads, the county possesses exceptionally good railway communication, The Grand Trunk, Great Western, Canada Southern and Northern and North-Western Railways intersect the entire county to the extent of 85 miles North-Western Railways intersect the entire county to the extent of 85 miles of road, and a considerable shipping business is carried on at Port Maitland. Caledonia, Hagersville, Cayuga, Indiana and Dunnville are the principal markets, but a good deal of business is done at markets outside the county-notably at Ports Dover and Colborne. The Grand River is nagivable to Cayuga, 20 miles from its mouth. The county has flouring mills, saw mills. shingle factory, sash and door factory, planing mills, cheese factories, woollen factories, agricultural imple-ment factory, a foundry and machine shops, a carriage factory and a free-stone quary.

stone quarry

The population of Haldimand as now municipally constituted, was, ac

The population of raidinand as now municipally constituted, was, ac-cording to the census of 1881, 24,980. The water power of the Grand River has been utilized, to some extent, by the construction of dams at Caledonia, York, Deans and Byng. There are also several dams across the smaller streams falling into the Grand River and Lake Erie.

Scattered along the banks of the Grand River are immense deposits of the purest white gypsum, capable apparently of supplying the wants of the Canadian farmers for centuries to come.

The scenery in many parts of the county is very beautiful, the land being generally undulating and intersected by numerous streams. The climate is mild yet bracing, and in the summer season the shores of Lake Erie are a favorite resort for seekers after health and pleasure.

All the fruits ordinarily grown in the Niagara District flourish in Haldi-mand, but it does not appear that fruit growing is yet prosecuted as an indus-try so extensively as might be expected.

#### Township of Moulton.

1533—Farm of 75 acres, more or less; 35 acres cleared and in a good state of cultivation, free from stones and nearly free from stumps; 8 acres standing cultivation, iree from stoles and hearly free from studies;  $\sigma$  acres standing hardwood timber. Soil sandy and clay loam. Land gently rolling to the N. E. and S. W. and affording good natural drainage; not hilly. Two small orchards. Fences are in a good state of repair. One and a half storey frame house 19 x 25 with kitchen 8 x 22. Barn 32 x 50. Shed 24 x 40. Hog pens 16 x 20 and 8 x 16. Ice house, smoke house and outside cellar, Church, school and blacksmith shop and P.O. ¼ mile and R. R. station  $\frac{1}{2}$ wile : and market at Wellandport 4 miles distant. Possession can be given mile ; and market at Wellandport 4 miles distant. Possession can be given on one month's notice. Price \$3,600, payable \$2,000 down and the balance in yearly instalments.

#### Township of Seneca.

727-A fine farm of too acres, in second concession, south-cast of Stoney Creek Road. About 65 acres cleared, and nearly all free from stumps. Creek Road. About of alres cleared, and hearly all neer for stumps. Soil clay loam, and easily worked. Land gently rolling, sufficient for drain age. Orchard of 2 acres, with apple, plum and cherry trees, all bearing. Watered by creek and stone cistern. The buildings consists of a good frame house 18 x 28 with kitchen in the rear, stone cellar under whole main buildings; four rooms on ground floor, and four bedrooms up stairs. Frame higs, but founds on gionnal hours, and four behavious up stars. Frame barn  $52 \times 32$ , only built about 3 years ago; stable in barn; buildings and fences all in good order; 35 acress of land are not improved—of this 15 acress are of good hardwood bush, and the balance pine. This property is only 3 miles from Canfield Station, G. T. R., to which there is a good road. Price \$3,200, payable \$1,000 down, and balance on time, with interest at 8 per cent.

736-A first-class farm of 200 acres, one of the most fertile and productive in the country ; only 14 miles south from the city of Hamilton, and 5 miles from the Caledonia junction of the Grand Trunk and H. & N. W. Railways, which is one of the best markets in the province for grain. This splendid which is one of the best markets in the province for grain. This splendid property has been used for a Stock and Dairy Farm, as well as for grain growing. The soil is a rich clay loam, and in a high state of cultivation; 160 acres are improved and free from stumps, and the remaining 40 acres are covered with a heavy growth of valuable timber; no waste land on the

# HALTON COUNTY.

COUNTY TOWN, MILTON.

Is composed of 4 townships, of which the acreage and average value at 1st, 2nd and 3rd class land in 1881 was as follows :----

Esquesing, Nassagaweya,	67,000 44,800	acres;	Ist, Ist,	\$60; 2nd, \$40; 3rd, \$10 to \$25. 40; 2nd, 30; 3rd, 15.
Nelson,	45.474	**	Ist,	50; 2nd, 40; 3rd, 30.
Trafalgar.	66,656	"	Ist,	60 to \$80; 2nd, \$30 to \$60; 3rd, 20 to 30.

Halton is wholly settled. The first settlers entered the township of Nelson 1804, Trafalgar about 1805, Esquesing in 1813, and Nassagaweya in 1820, he process of settlement was completed in the latter county in 1850—and, an average, it took 28 years to complete it.

About 14 per cent. of the soil consists of heavy clay, 56 per cent. of clay am, 16 per cent. sandy loam, and the remainder of black loam, gravel and form, to per cent, sandy loam, and the remainder of black loam, gravel and sand. About 9 per cent. (principally in Nassagaweya) is too stony or rocky to be profitably cultivated, and about 4 per cent. is so hilly as to be objec-tionable for the purposes of cultivation. About 69 per cent. in Esquesing, Nassagaweya and Nelson consists of cultivable rolling land. The quantity of bottom, swampy and springy land, is inappreciable. For agricultural purnees 52 per cent of the entire cleared acreage is reported first class, 25 per. nt. second-class, and the remainder third-class.

The county is abundantly watered by springs, creeks and wells. Water can be obtained by digging at a depth of from 9 to 40 feet. About 85 per cent. of the land is now clear of stumps, The stumps remain-

ing all nearly pine.

About 75 per cent. of the farms are reported under first class fence, con-sisting principally of cedar and pine rails, and wire. About 74 per cent. of the dwellings are of brick, stone or first-class frame; the remainder are of log or inferior frame. About 62 per cent. of the out-buildings are first-class—the remainder inferior. The pine hear executed to the a limited extent calls. The meri

Tile draining has been resorted to to a limited extent only. The Town-ships of Esquesing and Nassagaweya have some low lying lands, which might be reclaimed or improved by drainage. About 86 per cent. of the farmers use labour saving machines. Salt, plaster, and superphosphates, have been used, but not extensively, or spring heat and clover.

spring wheat and clover.

#### HALTON COUNTY .- [Continued]

About 32 per cent. of the uncleared lands are reported suitable for cultivation when cleared.

The township acreage of Halton is given as 223,930, of which about 164, 075 is cleared. Of the latter 14 per cent. is devoted to fall wheat; spring wheat, about 5 per cent., barley, 9 per cent.; oats, 9 per cent.; rye, very little sown; peas, 6 per cent.; corn, 1 per cent.; buckwheat, very little sown; potatoes, ¥ per cent; turnips, 1} per cent; toter root crops, ¥ per cent; hay, 14 per cent; turnips, 1} per cent; other root crops, ¥ per cent; hay, 14 per cent. About 18 per cent, is devoted to pasture and about 2 per cent. to orchards. The chief products are wheat, barley, oats and peas. The county is equally well adapted for stock raising, grain growing and dairying.

The townships sustain 11,418 horned cattle, 5,637 horses, 10,195 sheep and 2,892 hogs. The horses are heavy draught, for general purposes: the cattle. Durhams, Shorthorns and grade; sheep, Leicesters and Cotswolds; hogs. Berkshire, Soffolk and Yorkshire. There are also improved breeds of poultry. There are one or two extensive horse breeding establishments in the county, by whose agency a considerable amount of thoroughbred stock has been introduced.

About 17 per cent. of the entire area is still timbered—chiefly with hard-wood, and with a limited amount of pine. The timber is principally used for

wood, and with a limited amount of pine. The timber is principally used for lumber, fencing and fuel. Few counties have such excellent market facilities as Halton. The Grand Trunk, Great Western, Northern & North-Western, and Credit Valley Rail-ways intersect the county, and have crossings at Milton, and Georgetown, besides which there are good gravel and macadamized roads. The markets most frequented are Milton, Oakville, Georgetown, Guelph, Hamilton and Denoted Toronto

Among the chief local industries are woollen and paper mills, and hydrau-lic, cement, and mineral paint works. There are also the usual industries attendant upon an agricultural population. As yet, no cheese factories or creameries have been started.

International optimization of the population. As yet, no cheese rationes of a creameries have been started. The population of Halton, according to the census of 1881, was 21,919; Halton is celebrated for strawberry growing. From Joo to 150 accresin the neighbourhood of Oakville, furnish strawberries, during the season, to the greater part of the Dominion. The industry is a profitable one, but the limits of profitable production have probably been reached, unless, as has been suggested, canning or preserving is resorted to. The average crop of strawberries per acre is from 75 to 100 bushels, and the wholesale price of the fruit from 7 to 10 cents per quart. About 500,000 baskets are shipped from Oakville every season. Grape culture has also been developed at Oak-ville—the Concord, Delaware and Kogers' No. 4 and 15. for table use, and the Clinton for wine. Twelve tons of grapes were grown in 1879, on an acre and a half of land, and the grapes fetched, on an average.  $s_2^{*}$  cents per pound. The cost of laying out a vineyard of 1 acre is set down at \$200. Apple and plum culture is also successfully prosecuted, but peaches do not succeed in this county, as a rule. The smaller fruits are generally grown for home consumption. home consumption.

#### Township of Esquesing

1074-A farm of 100 acres having a new fallow of 40 acres, balance of 60 acres bush ; timber mostly Beech, Maple, Oak and Ash and some first-class Cedar. Frame dwelling house  $18 \times 24$ ; with summer kitchen attached 16 x 16; fine stream runs through the farm all days of the year. Soil, sandy and clay loam. Milton 7 miles, Georgetown 5 miles, R. -	C	TT TO I		the material she from the DY CON

The first settlers-U. E. Lovalists-entered the front township of Sidney about the year 1781. Thurlow was entered in 1788, Huntingdon in 1810, Tyendinaga in 1818, Marmora in 1820, and Madoc in 1822. The last townships opened were Carlow and Mayo, in 1865. Only 3 townships— Sidney, Thurlow and Tyendinaga—are reported "all settled." On an average only about 52 per cent. of the land in the remaining townships has been or would occupied.

Sandy loam predominates, but clay, clay lorm and black sandy loam are frequently met with. The average depth of sandy loam in some townships is 2 feet. The subsoil is variable—sometimes quicksand, at others gravelly, hard pan, or rock. A considerable portion of the land is unfit for cultivation, hard pan, or rock. A considerable portion of the land is unfit for cultivation, particularly in the township of Lake, which reports only 5,000 acres adapted to agricultural purposes, out of a total area of 68,160 acres. Of the whole county about 28 per cent. of the surface is too stoney, or has rock too near the surface, to be profitably cultivated—the balance is made up of rolling, bottom, swampy, or springy lands and lakes. About 26 per cent. of the cleared land is reported first-class for agricultural purposes : about 37 per cent. second-class; and the femainder third-class. These figures are necess-arily approximate, as some of the township returns show averages which obviously include uncleared land, considered cultivable—and not, as contem-plated by the questions, land actually cleared and cultivated. The county is generally well watered by springs, creeks and wells. Water can be obtained by digging at depths varying from 4 to 25 feet. There are, besides, numerous small lakes, particularly in the northern section of the county.

There is a large proportion of land in this county still uncleared of stumps, very few of which are pine. The fences are generally good, and the material employers is principally cedar, ash and pine.

## HASTINGS COUNTY,-[Continued.]

There are few stone or brick dwellings; frame and log buildings predom-nate, and of those nearly 60 per cent. are reported to be inferior. Of the utbuildings about 37 per cent. are reported first-class; the remainder are ferior.

Draining has not, as yet, been extensively resorted to. Only in I township Thurlow) does it appear that tile has been used, even to a very limited tent. Stone is generally used in underdraining.

xtent. Stone is generally used in underdraining. In some townships farm machinery has not yet been introduced—in others, where agricultural conditions are favourable, they are largely used. Thus, while in Sidney, 100 per cent. of the farmers use machines, in Carlow, Dungamon, and other townships, they are practically unknown. In other ownships a commencement seems to have been made. Plaster and salt has been used, to a limited extent; in 7 out of the 24 making principally on roots grain and clover.

wnships-principally on roots, grain and clover.

About 50 per cent. of the uncleared land is set down as fit for cultivation, en cleared.

The total acreage of Hastings is 885,411; the total cleared acreage is 0.043. Of the latter an inconsiderable area is devoted to fall wheat, except In the course of Huntingdon and Hungeford to the extent of 1/2 of the strenge in the bush is the strenge devoted to the several cereals and roots from the etamsrendered. In some townships hardly any land is devoted to pasturage, he cattle remaining at large in the bush ; in others the proportion is large. In the several cereal is devoted to be several cereal in the several cereal is a several cereal of 1/2 of the cattle remaining at large in the bush ; in others the proportion is large. In the townships of Irlanding on and Thegenoid to the extent of  $\lambda_i$  of the cleared acreage. In these townships cheese-making, for export, is extensively arried on—the Hastings cheese factories having established quite a European eputation. In the front townships, barley is a large and profitable crop. Here, the average yield is not less than 40 bushels per acre, and the quality anks A 1, with American malsters.

anks A 1, with American maisters. Hastings is, on the whole, best adapted for stock raising and dairying, but rain growing has been largely developed in some of the older townships, lso fuit culture in some of the southern townships. The common grades of cattle and horses are most extensively raised in the ounty. Few thoroughbreds have, as yet, been introduced. The county istains 31,485 horned cattle, 12,325 horses, 23,525 sheep, and 10,983 hogs. The townships of Monteagle and Lake make no return of animals, and in County is a purple of hogs has not been taken by the assessor angor the number of hogs has not been taken by the assessor. A large proportion of the acreage is still covered with timber—in some

This county is now much better off for market facilities than it used to be. The Grand Trunk Railway and the lake on the front afford every opportunity od rates to American and British ports, while the Grand Iun North Hastings Railways now run back some 40 miles in a northerly direction. results from the formers to have a subject of the second s he front

ne front. Gold mining is very extensively carried on in Madoc and Marmora; and ron mining is likely to have increased development. Cheese making is the most important industry carried on in the county. The cheese export from he Bay of Quinte district, to which Hastings is the largest contributor, mounted last season, to about 11,000,000 of pounds. There are 48 cheese actories in the county. The first in Eastern Ontario was started in the somehie of Sidney.

wuship of Sidney. The population of Hastings, exclusive of the city of Belleville, is 45,676; hat of Belleville in 1881, 9,516.

hat of Belleville in 1881, 9,516. A number of persons in this county have associated with others in the Bay f Qainte district, and formed a fruit shipping company, the objects of which re the careful picking, selecting and packing of fruit, so as to compete in oreign markets with the best fruit-growers of the continent. Hastings has a arge number of young orchards beginning to bear more fruit than is necessary or home consumption—hence the desirability of the organization. Apples ad pears are successfully grown; grapes do well on elevated land, and lums along the bay shore. Peaches are grown, but not to any extent. The est apples grown in the district command 22 shillings sterling per barrel in nglaad, leaving the producer \$3 per barrel, clear of all expenses.

#### **City of Belleville.**

Fity of Belleville. Sidney, and just outside the corporation limits of he City of Belleville, being a block laid out in Town lots of  $\frac{14}{5}$  and  $\frac{1}{5}$  an are each, and containing  $\frac{24}{5}$  acres : this block of land lies on the north shore of the Bay of Quinte, and is about 1 mile from the City on the York (gravel) Road ; a sidewalk from the City comes to within a few rods of it, and it is expected will soon extend past it. This is one of the finest spots for a private residence in the country ; soil clay loam, except about a  $\frac{14}{5}$  of an acre which has a good deal of lime stone ; the lot is under drained, and has two orchards; good building stone can be had here. Price  $\frac{81}{500}$ , payable  $\frac{81}{500}$ , good down and the balance in 5 years with interest at 6 per cent. per annum. the balance in 5 years with interest at 6 per cent. per annum

## illage of Bancroft.

045-The "Holton Estate" in the Village of Bancroft, the centre of large lumbering operations. The estate consists of a good grist mill with ample accommodation for storage of grain ; a splendid store ; magnificent saw, plauing, shingle and carding mills ; 500 acres of land, and never failing water power. Owing to the rapid filling up of the country this property is steadily increasing in value. Present price, \$12,500, payable \$5,000 down and the balance in to equal annual instalments with interest at 7 per cert are annual cent. per annum.

# HURON COUNTY.

Is a large and rich district, containing the following townships, which have an acreage as follows, with an average value for 1st, 2nd, and 3rd class land.

Wawanosh, West,		**	2nd, \$35; 3rd, \$20.	

Wawanosh, West, 41,850 " 2nd, \$35; 3rd, \$20. Huron is a new county, settlement having commenced as late as 1828 in the township of Goderich. From that date settlement was rapid until, in 1858, the the last township (Turnberry) was entered. Of the 17 townships, 14 may be said to be all settled, the process, having occupied, on an average, 23 years. Clay loam is the preponderating soil in the county; averaging about 48 per cent. of the cleared land. Sandy loam averages about 16 per cent. and the balance consists of heavy clay, sand, gravelly and black loam. The subsoil consists generally of clay and gravel. Stoney land prevails in the township of Turnberry—the other townships are comparatively free from either stoney or rocky land. About 40 per cent. of the cleared land is rolling and cultivable. For agricultural pupposes, about 30 per cent is first-class, 34 per cent. second-class, and the remainder third-class. class, and the remainder third-class.

The county is generally well watered by springs, creeks and wells. Water can be obtained by digging, at depths varying from 60 to 80 feet, but generally at from 10 to 25 feet.

About 52 per cent. of the acreage is free from stumps. Of the stumps remaining a small per centage are pine.

The fonces are generally good, and about 20 per cent. are first-class. Cedar, ash, elm and wire are used for fencing. About 30 per cent of the farm houses are reported to be of stone, brick, con-

crete, or first-class frame; the remainder are of log or inferior frame. 42 per cent. of the outbuildings are first-class, the remainder are inferior. About

A considerable amount of drainage has been done in this county, but very little tile has been used. Herelock, cedar and stone are generally employed. With thorough drainage the productive capacity of the county will be very largely increased, and there are indications that the farmers are alive to its inportance.

About 73 per cent. of the farmers use improved machinery for seeding and harvesting.

In some townships 50 per cent., and in 2 townships (Hullett and Tucker-smith) 80 per cent. of the farmers use salt or plaster; in others they are net used at all, or by very few. Salt is very largely used for grain crops and roots. Of the whole county about 30 per cent. of the farmers use artificial fertilizers. In most of the townships there is a large quantity of uncleared land, which, if cleared and drained, might be brought under cultivation.

The township acreage of Huron is given as 795,829; the cleared acreage as 440,338. Of the latter 13 per cent. is devoted to fall wheat; spring wheat, 12 446, 338. Of the latter 13 per cent, is devoted to fail wheat, spring wheat, 12 per cent.; barley, 5 per cent.; oats, 13 per cent.; rye, none grown, except 20 acres in Goderich; peas, 4½ per cent.; corn and buckwheat, very little grown : potatoes I per cent.; turnips, 2 per cent. other root crops, grown to a limited extent; hay, 11½ per cent. About 15 per cent. is devoted to pasturage and about I per cent to orchards. 900 acres are devoted to flax culture. The yield of seed is 12 bushels to the acre. The chief products of the country are wheat of seed is 12 bushels to the acre. The chief products of the country are wheat barley, oats and corn, but it is equally well adapted to stock raising and dairy-ing. Mixed husbandry is, on the whole, most suitable to it. The yield sof fall wheat in this county is exceptionally good. Indeed, Huron may be down as the finest wheat producing county in Ontario. The townships sustain 55,745 horned cattle, 21,501 horses, 53,833 sheep, and 16,000 hogs. General purpose horses are mostly raised, but increased

and 10,000 hogs. General purpose horses are mostly valued, but increased attentson is being paid to improving breds, and thoroughbred stock is being largely introduced—in one township(Hullett) to the extent of 75 per cent. The horned cattle and sheep are nearly all grades. In Goderich township great attention is being paid to poultry raising. The township of Colborne shows  $n_{J}$ less than \$25000 worth of imported stock. About 29 per cent, of the entire county area is still covered with timber, con-

sisting mainly of hard and soft woods, used for firewood, fencing, and draining. Some is, however, used in ship-building, and in the manufacture of furniture and agricultural implements.

Except in one or two townships, the market facilities are reported good. The London, Huron 3<sup>sh</sup> Bruce, Wellington, Grey & Bruce, Toronto, Grey & Bruce, and Grand Trunk Railways intersect the county.

#### HURON COUNTY, -[Continued]

\$72,406.

The county has 15 cheese factories, 1 creamery, several florishing mills, salt works, and agricultural implement factories. The population of Huron, according to the census of 1881, amounting to 72,406. The pupulation of Goderich is now set down at 4,564. The salt wells at Goderich and Seaforth have given a considerable impetus to pork packing and lake shore fishing. Both of those have become established industries, and large shipments of pork and fish are annually made to the United States and other markets.

United States and other markets. Nearly all the varieties of fruit grown in other parts of the peninsula thrive on the lake shore of Huron, and fruit culture in that district is rapidly developing

into a separate and important industry. In addition to the railroads already named, the county has, perhaps, 200 miles of the finest gravel roads in the Province. Goderich has a considerable

shipping trade. Several millions of eggs are annually shipped from this county to the United States markets, and the production is reported to be increasing, while greater attention is being paid to the raising of finer breeds of poultry.

# KENT COUNTY.

COUNTY TOWN, CHATHAM. POPULATION, 7,873.

This county contains the following townships, of which the acreage and average value of 1st, 2nd, and 3rd class land in 1881 was as follows :--

Cumach,		acres,	1st, @/0; 2nd, @50; 3rd, @45.
Chatham,	84,139		\$40 to \$50 per acre.
Dover,	74,359	"	1st, \$80 ; and, \$40 ; 3rd, \$6 to \$10;
Harwich,	90,000		1st, \$50 to \$80 ; 2nd, \$25 to \$50.
Howard,	58,789		1st, \$55; 2nd, \$40; 3rd, \$25.
Oxford,	49.874		1st, \$60; 2nd, \$45; 3rd, \$30.
Raleigh,	70,998		Ist, \$60; 2nd, \$40; 3rd, \$20.
Romney,	26,455	"	1st, \$75; 2nd, \$25 to \$50; unimproved \$8.50 to \$15.
Tilbury, East,	53,134		\$10 to \$60, according to improvements.
	0		from Brock BC

Zone, 25,315 " from \$10 to \$60. The first settlers entered the township of Camden in 1780, and during the next twenty years, Howard, Harwich, Raleigh, and Dover were opened up. The last township organized appears to have been that of Zone in 1835. Only two townships are reported as "all settled" but it may be concluded that all the land at present available has been occupied and that the balance consists of swampy or entire bad which is been occupied and that the balance consists of swampy or springy land, which is rapidly being cleared and drained.

drained. Clay and sandy loam, with clay and gravel subsoil, predominate. About sixteen per cent. consists of heavy clay, in some cases from three to four feet deep; clay loam about thirty-nine per cent., in some cases eight feet deep; sandy loam, twenty-four per cent., and from two to eight feet deep. The remainder consists of sandy, gravelly and black loam—the latter extremely rich, particularly in the township of Raleigh and Dover. There is absolutely no stony, cocky or hilly land in the county which may be set down as objec-tionable for the purposes of cultivation. Very little comes under the head of rolling but cultivable. About forty per cent. consists of bottom lands, nine per cent. of swamps, and in the township of Chatham sixty-seven per cent. of wet lands. Since the completely drained by cutting off the water coming from the eastern part of the township, and as the soil is of the best quality the land is largely being brought under cultivation. About fifty-four per cent. of the cleared area may be described as first-class for agricultural purposes, thirty-four per cent. second class, and the remainder third-class.

purposes, thirty-four per cent. second class, and the remainder third-class. The townships are all well walered, except Tilbury, which depends mainly on rain or surface water collected in wells or cisterns dug for the purpose. The creeks in Raleigh dry up in the summer, but water is obtained by digging at variable depths in that and all the other townships.

The creeks in Kaleigh dry up in the summer, but water is obtained by-digging at variable depths in that and all the other townships. About forty-two per cent. of the cleared acreage is free from stumps. There are no pine stumps in any of the townships. About sixty-four per cent. of the farms in Kent are under first-class fence, consisting principally, of hardwood rails, boards and wire. About forty-six per cent. of the farms in Kent are under first-class fence, consisting principally, of hardwood rails, boards and wire. About forty-six per cent. of the farm houses are either of stone, brick or first-class frame; the remainder are of log, or inferior frame. About forty-five per cent. of the outbuildings are superior—the remainder inferior. Kent is one of the counties that have benefitted greatly by the operation of the Drainage Acts of the Ontario Government, a large area, now yielding splendid crops—particularly of Indian corn, which is grown to a very large extent in the county—and wheat, having been reclaimed by an extensive system of open drains. The draining has been commenced in several of the townships, with a prospect of its extension as its advantages are appreciated. At least eighty-five per cent. of the farmers use labor-saving machines, but harvesting machines are more in request than those used for seeding. In some townships no artificial fertilizers are used; in others salt and plaster are utilized to a limited extent on grain and clover and meadow land. Generally throughout the county the uncleared land is suitable for cultiva-tion. In Tilbury and Dover, drainage is indispensable in connection with the clearing of the bush and low-lying lands, and is being extensively carried on.

carried on.

carried on. The township acreage of Kent is given as 533,063, exclusive of Camden, which has made no return; the total number of cleared acres, excepting Camden, is about 217,964. Of the latter about 25 per cent. is devoted to fall wheat; spring wheat, very little sown; barley, 4 per cent.; oats, 12 per cent.; rye, none grown; peas, 6 per cent.; corn, 12 per cent.; buckwheat, little sown; potatoes, 1 per cent; turnips, very little grown; other root crops, very little grown; hay 12 per cent. About 12 per cent. is devoted to pasturage, and 3 per cent, to orchards. A small acreage is devoted to the cultivation of white beans, clover and tobacco. Kent is well adapted for grain growing, stock raising, and dairying. Some townships are better for grain growing, stock raising, and dairying. Some townships are better for stock than others, but grain is successfully raised in all. Cheese making is successfully prosecuted in the townships of Howard, Harwich, Oxford

and Raleigh. The townships sustain 30,927 horned cattle, 15,180 horses, 19,959 sheep, and 18,168 hogs. General purpose horses are mostly raised, but in the town-ship of Howard some thoroughbreds have been imported. The horned cattle and sheep are principally native and grade; some interest has of late been manifested in improving the breeds. Attention is also being paid to poultry breeding. Hogs of improved breeds are generally raised in the county. Kent is one of the finest fruit growing counties in Ontario, every description of fruit cultivable in the Provinc' being found there. The lake shore in many places presents for miles a continual line of apple and peach orchards and vineyards.

**KENT COUNTY**, [Continued] About 37 per cent. of the acreage is still covered with timber, consisting mainly of oak, elm, black and white ash, hickory, hardwood, soft maple, cherry and sycamore. A small quantity of black walnut is still to be found in the township of Camden, but in Oxford, where it was extensively grown, it has disappeared. The tulip (or whitewood) tree is also found at many points in Kent. The timber now cut is principally used for hardwood manufacturers, feucing and firewood. Considerable attention has been paid to shade tree planting in some parts of the county, the effect on the appearance of the farms and roadsides being already striking and agreeable. The market facilities of Kent are not excelled by those of any other county. It is traversed by both the Great Western and Canada Southern railways, and in addition to railway communication, it has many excellent roads and good shipping ports at hand, and, in the summer, daily communication is maintained by steamer between Chatham and Detroit, and also by lake steamers between Chatham and Montreal.

Kent has numerous grist and saw mills, iron foundries, bending factories, planing mills, cloth and woollen factories, carriage factories, sash and door factories, stave and heading factories, several shingle mills, and sixteen cheese factories.

Thé population of Kent, as now municipally constituted, according to the census of 1881, was 54,310.

## Township of Camden.

- 1447—Small farm of 40 acres, of which 25 acres are cleared and under cultiva-Uon. Land level, but easily drained. Well watered and fenced. Small orchard. Small log house and good frame barn. Roads are good. Church 1 mile; school 1½ miles. Market and R. R. Station at Thamesville, 3 miles distant. Chatham 15 miles. Possession given at any time. Price \$1,500, payable one-half cash and the balance on time.
- \$1,500, payable one-halt cash and the balance on time. 448-300 acres of farming land, having 65 acres nearly cleared up; the balance is timbered with ash, beech, maple and oak, excepting 25 acres of low marshy ground. The soil is a sandy loam and black muck. Land is nearly level but easily drained. Watered by well. Good grazing land. Two small frame houses. Good frame barn 34 x 56 with 24 feet posts. Small orchard. Market, R. R. Station, school and churches at Thamesville, 1 mile distant. Possession can be given at any time. Price may be raised as further improvements than those specified are made. Price \$4,500, payable one-halt down, and the balance on time with interest at 7, ner cent per one-half down and the balance on time with interest at 7 per cent. per annum.
- -Farm of 1021/2 acres, of which 95 acres are cleared and free from stumps 1452 and stones. Soil is partly clay and partly sandy loam. Land principally level. Watered by a living stream and well at the house. Good rail lences. Good frame house. Two barns, one  $34 \times 50$  and the other  $30 \times 50$ . School, churches, market and R. R. Station all close at hand, as the farm lies just outside the corporation of Thamesville. Possession can be given at any time. Point School and time. Price \$6,000 cash.

#### Township of Chatham.

749—Farm of 145 acres, 50 acres bush, elm black ash, oak, soft maple. The rest is ready for the plow, and fenced in with black ash rails. About 50 acres run along the bush as prairie land, but high and dry; can raise fall wheat on it. There is a frame house and frame barn on the farm. A well 18 feet deep, situate half a mile from Wallaceburg railway station. This land used to be overflowed every spring by upland water. There has been a large ditch dug, 16 feet deep and 32 wide, that turns water into the river. The land is not taxed for the ditch. Price \$2,500, payable \$2,000 down, balance on time as may be agreed. time as may be agreed.

# Township of Dover East.

570-190 acres, suitable for pasture land or as an excellent preserve for duck shooting. Price \$1,300.

#### Township of Howard.

- 1450-Farm of 65 acres, fronting on the Thames River, all cleared, free from stumps and stones and in a good state of cultivation. Soil clay loam. Land
- stumps and stones and in a good state of cultivation. Soil clay loam. Land level. Good natural drainage. Watered by well at the house. Well fenced. One and a half storey frame house 22 x 30 with kitchen attached. Frame barn 60 x 34 with 18 feet posts. Orchard of about 2½ acres, containing apple, peach, pear, plum and cherry trees; also grapes and a variety of small fruits. Church, market, school and R. R. station at Thamesville, one-half mile distant. Price \$4, 100 cash. 1451—Farm 121½ acres, fronting on the river Thames, and having 90 acres cleared and in a first class state of cultivation; the balance is timbered with beech, elm, maple anak. Soil clay loam. Watered by a living stream and good well. Database good from any part of the farm save that lying along the banks of ne meer, Fences in good order. Orchard of about 40 apple trees, besides per plum and cherry trees. Good frame house with kitchen and wood she attached. Driving house 20 x 30. Shed 60 x 20. Granary and milk house. School ½ mile; church 2 miles; market and R. R. station at Thamesville, 3 miles distant. Roads are good. Crops may be had at a fair valuation, and possession will be given at any time. Price \$8,200, payable one half down and the balance on time.

\$\$,200, payable one half down and the balance on time. 1449—Farm of 112 acres, of which 60 acres are cleared and in a good state of cultivation. The balance is timbered with beech, black ash, chesnut and The soil is a sandy loam. Land gently rolling with good natural drainage. Fences are good, wire rail and board. Frame house and log barn. Small orchare. Good roads. Church, school, market and R. R. station at Thamesville, 1½ miles distant. Possesion at any time. Price \$3,000 cash.

# KENT COUNTY, -[Continuindi

1444—A farm of 50 acres less (2) acres taken for school, and the way purposes). About 35 acres cleared, 25 acres of the clearing being in a good state of cultivation, balance timbered with beech and maple. Well watered by springs and well at the house. Log house and barn, Good orchard. Roads good Market and R. R. station at Thamesville, 3 miles distant. Price \$1,500, payable one-half down and the balance on time.
1446—A farm of 100 acres, of which 75 acres are cleared and nearly all under cultivation. Nearly free from stumps and no stones. Soil is a sandy loam. Land is nearly level but has sufficient fall for drainage. Watered by a running stream. Log house and barn, Good orchard. Church close at hand. School one-half mile. Market and R. R. station 12 miles distant. The farm is leased but possession can be given at any time. Price \$3,000, payable \$1,000 down and the balance on time.

able \$1,000 down and the balance on time. 1462-Farm of 100 acres, of which 80 acres are cleared and 50 acres free from stumps. Balance timbered with beech, maple, elin and oak. Land is level Soil is clay and sandy loam. Good drainage. Watered by springs and well at the house. Orchard of two acres, principally apple trees. Fences are good. Log house and barn and frame granary. Possession at any time after crops is harvested. Price \$2,500, payable one-half down and the bal-ance on time. ance on time.

#### Village of Thamesville.

**1441**—A Steam Flouring Mill, erected on lots 6 and 7 in Block K, in the Village of Thamesville. The building is frame, two stories high and 36 x 50 feet, with engine-room addition 16 x  $\frac{1}{2}$ 0. Engine is 40 horse power, and the boiler is 60 horse power. Mill contains four run of stones. New bolting process. Each run can be driven separately. Machinery is all in good order. Carries 4 run of stones and patent packer on 60 pounds of steam. Capacity of mill too barrels in 24 hours. Wheat cleaning machinery and purifier. About 40 rods from Ry, station, and in the heart of a good agricultural district. No other mill within 8 miles. Possession can be given at any time. Reason for selling is that the proprietor is not a miller. Price 36, 500, payable one-half down and the balance to be secured by mortinge and fire insurance policy in a reliable company to be selected by the vendor.

# LAMBTON COUNTY.

Contains the following townships, with an acreage and average value in 1881, of

Bosanquet,	71,620	acres,	Ist, \$50; 2nd, \$35; 3rd, \$10 per acre.	
Brooke,	74,446	**	1st, \$45; 2nd, \$25; 3rd, \$15 per acre.	2
Dawn,	65,524	**	1st, \$45; 2nd, \$30; 3rd, \$20 per acre.	
Enniskillen,	82,000	"	improved farms \$30 per acre; unimproved farms \$10 per acre.	
Euphemia,	39.497		from \$30 to \$40 per acre.	
Moore,	73,328	"	Ist, \$40 to \$50; 2nd, \$30; wild lands, \$12 to \$15 per acre.	10000
Plympton,	76, 166	**	1st, \$50; 2nd \$40 per acre.	
Sarnia,	39,114	44	from \$8 to \$50 per acre.	
Sombra,	72,107	**	" 15 " 30 "	
Warwick,	70,000	**	" 30 " 60 "	

The first settlers entered the township of Dawn and Sombra in 1820-1, and in about 20 years the whole of the remaining townships were more or less settled, but Plympton and Sarnia are the only ones in which the process is reported to have been entirely completed.

have been entirely completed. The soil consists principally of clay loam with a considerable percentage of heavy clay and sandy loam. The sub-soil is generally clay. The depth of soil averages about 18 inches, but in some localities it is 2 feet deep. There is no stony or rocky land in any part of the county. There is a considerable per-centage of low-lying land, but for the most part the entire county, with the ex-ception of Dawn and Sarnia townships, consists of rolling cultivable land. Only in one township (Bosanguet) 1 72 part, or about 1.000 acres is reported to be too hilly for profitable cultivation. There is very little swampy land, and the proportion of wet, springy land is inconsiderable. About 70 per cent. of the cleared area is reported 1st class for agricultural purposes; 27 per cent. and class, and the remainder 3rd class. These figures are approxi-mate, as some of the townships have reported on the entire area (including mate, as some of the townships have reported on the entire area (including uncleared land).

The county is watered by wells and creeks, also by the Sydenham River. There are few springs, except in the township of Plympton. Wells form the principal source of water supply, and they are sunk in some cases to a depth of 150 and 160 feet.

About 45 per cent. of the cleared acreage is free from stumps. There are no pine stumps of any consequence except in the township of Bosanquet, which reports a proportion of 1-12. About one half of the farms in the county are under first-class fence, con-sisting chiefly of oak and black ash rails, and wire. Wire fences are coming

into general use.

About 42 per cent. of the farm houses are either of brick, stone, or firstclass frame; the remainder are of log or inferior frame. About 50 per cent. of the out-buildings are superior, and the balance inferior.

#### LAMBTON COUNTY .- [Continued.]

A good deal of attention has been, and is being paid to drainage in this

county, under the Tile Drainage Act. About 73 per cent. of the farmers use improved labor-saving machines for seeding and harvesting.

MAI

00

N CONNEC.

Owing to the richness of the soil, artificial manures are little used. But in some townships salt and plaster are used on grain and grass. In Warwick, salt is largely used on all crops, in the proportion of about 1 barrel per acre. About 97 per cent. of the total uncleared acreage is reported suitable for cultivation if cleared.

cultivation if cleared. The township area of Lambton is given as 665,902 acres; the cleared acreage as about 216,944. Of the latter about 17 per cent, is devoted to fall wheat; spring wheat, 4 per cent.; barley, 8 per cent.; oats, 16 per cent.; rye, little sown; peas, little sown; corn, 5 per cent.; buckwheat, little sown; potatoes, 1½ per cent.; turnips, about 1 per cent.; other root crops, about ½ per cent.; hay, about 16 per cent. About 16 per cent. is devoted to pasture; 1 per cent. to orchards, and in Plympton 5 per cent. to summer fallow. Flax is extensively raised in Enniskillen, and beans, Hungarian grass and millet in Eaphemia and Moore. The county is equally well adapt-ed to grain growing, stock raising and dairying. Grazing is carried on as a ed to grain growing, stock raising and dairying. Grazing is carried on as a profitable industry; a large export trade being done in fat beeves for the English market.

English market. The townships sustain 31,879 horned cattle, 11,130 horses, 30,157 sheep, and 7,674 hogs. General purpose horses and grade cattle preponderate-thoroughbred stock having been introduced only to a limited extent. About 48 per cent. of the entire area is still covered with timber, consisting

of oak, ash, elm, beech, maple, basswood, hickory and some pine, used principally for fuel, building and fencing. The oak, however, is made into staves, square timber and planks for ship and car building, and ash is used for barrel hoops.

Lambton has good markets and ample facilities for reaching them. The roads are good, and the Grand Trunk, Canada Southern, and Great Western Railways intersect the county.

Lambton is the principal seat of the great petroleum industry in Canada, which, with some salt works, furnishes employment for a large number of population. There are 19 cheese factories in the county, also several steam saw, grist and stave mills.

The population of Lambton, as now municipally constituted, was accord-Fruit growing is coming to be looked upon as an industry in this county.

Winter apples are exported to England and the States, where they fetch good prices. Apples form two-thirds of the entire fruit crop, but autumn pears, plums, cherries, grapes and currants are successfully grown for home consumption. Peaches and melons are also grown, but not profitably.

#### Township of Enniskillen.

19-N. W. part of W. 10 acres of Lot 11, con. 6, running 40 chains from north to south by 50 links from east to west, 2 acres. Price \$40 cash.

#### Township of Euphemia.

- 839-Farm of 50 acres, of which 35 acres are cleared, and free from stumps: 15 acres well timbered with hardwood; soil sandy loam; land gently roll-ing; small orchard; well watered and drained. The dwelling house is ing; small orchard; well watered and drained. The dwelling house is frame, 17 x 25, containing 3 rooms down stairs and 3 up stairs; fences in good repair. There is a new well on the premises; roads good; 34 mile from school; 2 miles from church; Bothwell, on G. W. Ry., the best market, is 5 miles distant. Price \$1,200; payable \$600 cash; balance in 3 yearly instalments, at 7 per cent. 809-Nice farm of 160 acres, 70 acres of which are improved, 60 free from
- stumps, 30 not improved ; hardwood timber ; soil clay loam ; rolling land; small orchard; a never failing spring creek runs through the property; the dwelling is a new brick; frame barn and driving house; one well;
- the dwelling is a new brick; frame barn and driving house; one well; fences all good, also good roads; 1½ miles from school; church across the road; Alvinston is the nearest market, 5 miles distant, on C. S. Ry. No incumbrance; possession at once. Price \$4,800; \$3;000 down, bal-ance in three yearly instalments, with interest at 7 per cent. \$22—Fine farm of \$2 acres, 70 acres of which are improved, and 12 cress timbered with hardwood; soil clay loam; land partly rolling; 100 fruit trees, well watered and drained; 2 wells on the premises; frame dwelling house and barn, and good outbuildings; fences in good repair; good roads; one mile and a half from school; 1 mile from churches; best market at Alvinston, a station on C. S. Ry. 8 miles distant, 7 miles from Bothwell on G. W. Ry. Possession in fall. Price \$3,600; \$3,000 down, balance in 2 yearly instalments at 7 per cent. interest. \$23—Farm of 80 acres, bounded on the South by Sydemham River, all cleared, and well fenced and free from stumps. mostly level, and some
- cleared, and well fenced and free from stumps. mostly level, and some what rolling ; soil a rich loam ; first class land, well drained ; small orchard of 100 fruit trees; the dwelling house is frame, also barn, which orchard of 100 full trees, the dwering house is halle, also barn, when is nearly new; roads all good; 1½ miles from school; church on the adjoining farm; market at Alvinston, only 7 miles distant, on C. S. Ry. Price \$4,000; 53,000 down, the balance in 5 years, at 7 per cent. interest.

# LINCOLN COUNTY.

COUNTY TOWN ST. CATHARINES; POPULATION, 9,631.

Is composed of the following townships, which contain an acreage at aver-e prices in 1881, for 1st, 2nd and 3rd class lands :---\*

Caistor,	32,827	acres,	from \$20 to \$40 per acre.
Clinton,	24,875		about \$60 per acre.
Gainsborough,	39,933		1st, \$60 ; 2nd, \$45 ; 3rd. \$30.
Grantham,	18,871		from \$30 to \$60 per acre.
Grimsby,	34,057	**	from \$30 to \$150, acording to location.
Louth,	18,695	44	1st, \$80 ; 2nd, \$40 ; 3rd, \$25.
Niagara,	22,000	**	about \$50 per acre.

Lincoln is an old and wholly settled county, which was entered immediately Lincoln is an old and wholly settled county, which was entered immediately ber the American Revolution by U. E. Loyalists. The township of Caistor ed rapidly, and in 20 years from the entrance of its first settlen. In 1770, it is completely occupied. Between that date and 1784, when Niagara town-ip was entered settlement was rapid—land having been taken up in all the which will be process of settlement was completed in entire county in, on an average, about 50 years. The soil of this county consists mainly of clay, clay loam, gravelly, sandy, d black heams—some of surpassing richness. The proportions are theavy

a black loams—some of surpassing richness. The proportions are : heavy ay, about 28 per cent.; clay loam, 23 per cent.; sandy loam 17 per cent.; nd, 14 per cent.; gravelly, 13 per cent.; black loam, 16 per cent. (These ures are approximate, as the report from the township of Louth embraces e entire acreage; while the others are based upon the cleared acreage). The pth of soil varies from 6 to 15 inches. The subsoil is generally a reddish clay, pth of soil varies from 6 to 15 inches. The subsoil is generally a reddish clay, th here and there—and particularly in Niagara township—hardpan. About ooo acres, principally the face-of the mountain, are uncultivable, and 1,000 res in the township of Louth are so hilly as to be objectionable for the poses of cultivation. About 14 per cent. of the land is rolling, but culti-ble, 14 per cent. is bottom land, a very small quantity of land in Grimsby d Louth is swampy, but can be drained and cultivated, and there is an entire sence of wet, springy land. Of the entire cleared acreage 62 per cent. is posted first class for agricultural nurposes 25 per cent. Second-class and the

orted first class for agricultural purposes, 25 per cent. second-class, and the nuinder (in the townships of Caistor, Gainsborough and Louth) third class. The county is well watered. In Niagara township there is what is called "Four Mile Creek," which is fed by never failing springs. There are also yeral small streams. There are several springs in other townships, but ills form the principal source of supply. These are sunk to depths varying n 4 to 30 feet.

Nearly 90 per cent. of the cleared acreage is free from stumps, those re-The whole of the farms in the county are well fenced with rails, board and The whole of the farms in the county are well fenced with rails, board and

In the township of Caistor, pine stumps have been employed to some tent.

About 56 per cent. of the farm dwellings are reported to be of brick, stone, first class frame; the remainder are log, or of inferior frame About 50 cent. of the outbuildings are reported to be first class; the remainder are erior.

In the townships of Grimsby, Grantham, Louth, and Niagara, tile draining

# LINCOLN COUNTY,-[Continued.]

has been carried on to a limited extent. Niagara reports that very little unde draining is necessary, owing to the configuration of the land. In Caistor, Clinton and Gainsboro, no under draining has been done. All the farmers (except in Caistor and Louth, where the proportion is  $\frac{1}{2}$  and

9-10,) use improved farm machinery. Lime, salt, plaster and superphosphates, are used to a considerable extent, but in variable quantities. In Niagara township, the proportions are as fol-lows: salt, 300 lbs.; superphosphates, 250 lbs.; plaster 250 lbs.; and lime, 40 bushels per acre. They are used on all kinds of crops, and on grass land and clove

All the uncleared lands in the county would be suitable for cultivation, cleared, except the mountain, which runs through Grantham and Grimsby.

cleared, except the mountain, which runs through Grantham and Grimsby. <sup>2</sup>/<sub>3</sub> of the uncleared land in Louth could be brought under cultivation. The township área of Lincoln is given as 191,459 acres; the cleared acre-age as 133,045. Of the latter about 15 per cent. is devoted to fall wheat, spring wheat, very little grown; barley, little grown; cats, 15 per cent.; rye, very little grown; peas, very little grown; corn, 14 per cent.; buckwheat very little grown; potatoes, about  $\frac{1}{2}$  of 1 per cent.; turnips, hardly any raised; other root crops, very few raised; hay, 20 per cent. About 18 per cent. is devoted to pasturage, and 8 per cent. to orchards. In addition a portion of each farm is summer fallowed, and a certain amount of land (not estimated) is devoted to the growth of various descriptions of fruit, sugar cane, sweet pois devoted to the growth of various descriptions of fruit, sugar cane, sweet po-tatoes and Hungarian grass. Some of the townships are best adapted to grain tatoes and Hungarian grass. Some of the townships are best adapted to grain growing, stock raising, and dairying, but in Niagara and along Lake Ontario shore fruit is the chief product, and all the townships are well adapted for fruit culture.

General purpose horses (heavy draught and roadsters); native bred cattle, crossed with Durhams, grade sheep and hogs, and the common varieties of poultry, are mostly in request, but some thoroughbred stock has been intro-duced, particularly in Niagara township, which is reported as possessing some very fine full-bred Durhams. The townships sustain 12,962 horned cattle, 7,224 horses, 12,155 sheep, and 6,560 hogs.

7,224 horses, 12,155 sheep, and 6,560 hogs. Exclusive of the township of Caistor, which does not report the area of land still timbered, Lincoln has over 24,400 acres still covered with beech, black ash, maple, elm, oak, hickory, and some pine; used for firewood, fencing, building and manufacturing purposes—also for ship timber and railroad ties. Lincoln has good markets within her own limits; in addition she has easy communication with the markets of neighboring counties and with Buffalo. The Great Western and Canada Southern Railways pass through the county. Hamilton, St. Catharines, Niagara, Beamsville, Grimsby, and Smithville, furnish good markets for farm produce. The stone quarries in the township of Clinton give employment to about 150 men, who draw their supplies from neighboring farmers. There are several steam saw mills in Caistor, flour mills, breweries, paper pulp, cotton and woollen mills, and saw, axe and knife factories in Grantham, also several saw and grist mills and machine shops in Grimsby and Niagara townships.

saw and grist mills and machine shops in Grimsby and Niagara townships. Only 3 cheese factories are reported in this county.

The population of Lincoln, as now municipally constituted, was, according to the census of 1881, 31, 573. The population of St. Catharines is now 9,631 Welland, 1,870, and Niagara, 1,441. Fruit growing is a very important industry in this county, and it is likely to

increase, owing to the adaptability of the soil and climate for the raising of almost every kind of fruit. Peaches are largely cultivated; as many as 70,000 baskets, raised within an area of 2 miles, having been shipped from trimsby baskets, raised within an area of 2 miles, having been shipped from Grimsby station in 1880. Large quantities of peaches are canned, and next season canning will be carried on on an extensive scale, probably for exportation to the United States and England. Peaches find a ready market in Toronto, Guelph, Hamilton, London, Montreal and Halifax, which latter point is reached by express in 3 or 4 days. Apple and grape culture is also extensive-ly prosecuted. Apples are shipped to England, where some choice varieties command high prices. An apple-drying establishment has been started at St. Catharines, with a capacity to dry 150 bushels a day, during the season. Grapes, of which large quanties are grown, are sold for dessert or made into wine. Plums, pears, strawberries, raspberries, currants, and all the com-moner descriptions of fruits, are extensively and profitably grown.

#### Township of Caistor.

775—Farm of 100 acres, of which about 45 acres are cleared and fenced off in 10 acre fields, with very few stumps. The remainder is in bush—mixed 75—Farm of 100 acres, of which about 45 acres are cleared and reneed on in 10 acre fields, with very few stumps. The remainder is in bush—mixed timber—no swamp. Land is gently rolling, sufficient for drainage. No dw elling. Frame barn, about 32 x 50 with 20 feet posts in stone abutments, and in first-class repair. The whole land is fenced with oak rails, and in good state of cultivation. Soil is clay loam mixed with black muck; good clay road to Caistorville village, only one mile distant, where there are 3 stores, school, sawmill and 2 chapels. About 6 miles to Canfield station on the G. T. Ry.; 20 miles S. E. from Hamilton, and 12 miles from Dunville. Rolling land with good natural drainage. Watered by 4 wells and cistern at the house. Fences in fair order. Orchard of about 6 acres, comprising apple, cherry, peach, pear and plum trees, besides a large quantity of small fruits. One and a half story brick house  $24 \times 32$  with two brick kitchens each 16 x 24. Two stone cellars under the main building each 16 x 24. Barn with hip roof 30 x 50. Shed  $24 \times 50$ , with stabling for 18 head of cattle ; another shed 18 x 50. Stable  $24 \times 36$ , and drivinghouse 30 x 42. First-class roads. School 34 of a mile. Church, postoffice and blacksmith shop, half mile distant. Market and R.R. station at Wellandport 232 miles distant. Possession can be given at any time. Price \$5,200, payable one-half cash and the balance to remain on mortgage, payable in five equal annual instalments with interest at 6 per cent. per annum.
- 1522—Farm of 90 acres, of which about 60 acres are cleared, free from stumps and stones and in a first-class state of cultivation, 30 acres standing timber, mostly beech, maple, oak and pine. Watered by a running stream and wells at the house and barn. Soil is a mixed black gravelly and clay loam, well adapted for grain or hay. Land rolling with sufficient fall for drainage. Orchard of three acres, comprising apple, cherry, peach, and pear trees, besides a goodly quantity of small fruits. Frame house, fair size, with stone cellar underneath. Frame barn 30 x 48 with stable attached. Small shed and hog pen. Buildings are in a fair state of repair. Fences fair. School half mile, Church I mile. Market and R. R. station at Beamsville, 9 miles, and market at Smithville, 3 miles distant. Possession can be given at any time after crop is harvested. Price \$4,000 cash, or one-half cash and the balance in yearly instalments.
- the balance in yearly instalments. 1523—Farm of 80 acres, having 40 acres cleared and in a good state of cultivation; 10 acres of slash and 30 acres bush, timber principally beech, elm, maple and pine. Soil is clay and gravelly loam. Watered by the Sixteen Mile Creek, with low banks. Land gently rolling. Fences in fair order. A small orchard. Frame house with two kitchens. Frame barn 36 x 50. Waggon houre 24 x 30. School ¼ mile, and church ¾ mile, Market at Smithville, 3 miles, R.R. station at Beamsville,  $\sim$  miles distant. St. Catharines 16 miles, and Wellandport 6 miles distant. Possession can be given at any time by purchaser paying for crops. Price \$3,500, payable half down and the balance in three equal annual instalments with interest at 6 per cent. per annum.
- 1529—Four acres of land on which are erected a steam saw mill 30 x 60, with an addition on each side; engine house which is on east side is over 100 feet long. Self-feeding shingle mill; edger; button saw: engine, 25 horsepower and boiler 30 horse-power. The machinery and building are both near ly new and in good order. Capacity of shingle mill 25,000 per day of 10 hours. Car running from mill to creek to load logs on. There are also two frame dwelling houses on the place, one 22 x 30 with addition 22 x 30 and the other 18 x 24 (for workmen), both in a good state of repair; barn 24 x 36. Abundance of water for both houses and mill. Good orchard. Schools, churches, stores, post-office, etc., at Wellandport, one-half mile distant. Any amount of timber to work on. Possession given at any time. The vendor being in poor health wishes to retire from business. Price \$3,500, payable \$2,000 down and the balance in three equal annual instalmeles, with interest at 6 per cent. per annum.
- with interest at 6 per cent. per annum. 1530—Farm of 101 acres, of which 85 acres are cleared, free from stumps and stones and under cultivation. Le ud sufficiently rolling to afford good natural drainage. Watered by a running stream, two wells and a cistern. 16 acres bush timber, beech, maple, oak and pine. Soil clay loam, well adapted for grain or stock. Orchard of about 75 apple, pear, peach, and plum trees. Fair-sized frame house with kitchen attached. Frame barn 30 x 50, shed 16 x 30; driving-house and stable 30 x 36. Church ½ mile, school 1 mile. Post-office, stores and R. R. station at Wellandpoor 1 mile distant. Possession can be given at any time by purchaser paymer or crops. Price \$4,000, payable one-half down and the balance on time with interest at 6 per cent. per annum.
- per annum. 1531—Farm of 50 acres, having 42 acres cleared for from stones and nearly free from stumps, 8 acres timbered with soft and black ash. Soil clay and clay loam. Good water, Fences need some repairing. Land rolling; no waste land. Frame house (fair size) and frame barn 30 x 40. Church 1/4 mile and school I mile. Wellandport, where there are stores, R. R. station, etc., 3 miles distant. Price \$1,300 cash.

#### Township of Grantham.

793—Improved term containing 150 acres, 100 acres of which lie on the south side, and 30 acres on the north side of the Queenston and Grimsby stone road, and in a fine fruit growing country. 140 acres are cleared, in a good state of cultivation, and have but very few stumps; 7 acres in bush with beech, maple and oak timber—no swamp; soil, good black and clay

## LINCOLN COUNTY, -[Continued] Township of Grantham, -[Continued];

loam, very rich. A creek runs through the farm. There are a well and cistern ; 150 bearing apple trees, some pears, plums and cherries. A frame barn 36 x 48 with 18 ft. posts; shed 20 x 60 with an L 28 x 20, and all in good repair. There is a large brick dwelling. The land is gently rolling, with enough fall to drain naturally and easily ; a stone road to schoolhouse—  $\frac{1}{2}$  mile; church,  $\frac{3}{4}$  mile; post office, I mile; market at St Catharines, and station only 4 miles distant. Price \$10,500; payable \$6,000 down and balance on time as may be agreed.

down and balance on time as may be agreed. 1528-Farm of 152 acres, having 136 acres under cultivation, 18 acres wood land; good loamy soil; well cleared and easily cultivated; well watered by springs. Large orchard Two dwelling houses; two barns and driving shed, close to the City of St. Catharines; new Welland Canai, and proposed Dry Dock. Excellent fruit, dairy or grazing farm. As the Government have decided to lease water power along the new canal, this property is specially adapted for manufacturing sites, and will be sold in parcels to suit purchasers. Price for the whole \$20,000.

#### Township of Crimsby.

- 785-An improved farm of 100 acres, of which 85 acres are cleared and almost free from stumps, about 12 acres of good bush, beech, maple, joak and pine; soil is clay loam in a good state of cultivation; well fenced with rails all around; land is level and drained with surface drains; watered by 2 wells and a good soft water cistern. There is a small orchard about 15 years old. The dwelling house (frame), is 18 x 30, with 6 rooms and wood house 18 x 24, out from which is a stone root house with 20 ft. posts shed 24 x 36, connected with stable for 7 head of cattle; driving house 30 x 42, with stalls for 6 horses. All the buildings are in a good state of repair. About  $\frac{1}{2}$  mile to school;  $\frac{1}{2}$  mile to Episcopal Methodist Church; 6 miles from Winona station on G. W. R.; and 15 miles from the city of Hamilton. Possession can be given 1st of October, next, but purchaser would have privilege of putting in his fall crop. This farm lies in a splendid locality, and is a fine fruit growing country. Price \$4,200, payable \$1,500 down and balance with interest at 6 per cent, within 4 years. 662 = Farm of 82 acres, (in the Grimsby fruid district.) of which 50 acres are
- 962—Farm of 82 acres, (in the Grimsby fruit district,) of which 50 acres are cleared and under cultivation ; and the remainder bush and pasture land, 2 orchards of about 100 apple, plum, peach, and pear trees; most of the timber is small white oak, black ash, chesnut, soft maple, walnut and butternut, etc.; very few stumps; about 12 acres swamp; soil is mostly gravelly loam, easily worked, but in some places rather stony. The farm is beautifully situated for a private residence, as there, is a splendid view of Lake Ontario. Land is watered by several never failing springs; the dwelling is frame, contains 5 rooms, besides kitchen; barn 28 x 48, with shed 24 x 40; large workshop; buildings and fences are in a fair state of repair Price \$4,000, payable half down, balance at any time within 10 years to suit purchaser, with interest at 6 per cent.
- Price \$4,000, payable half down, balance at any time within 10 years to suit purchaser, with interest at 6 per cent. 991—A splendid farm of 80 acres,  $1\frac{1}{2}$  miles from the village of Grimsby, land the very best quality, and all under cultivation; 2,167 apple trees, 6 years planted, and covering 26 acres; also a number of peach and pear trees; 700 trees of one kind of apples, namely the St. Denis Greening; the others are Russets, Spitzenburg, etc., all of the very best varieties of shipping apples, selected with the greatest care and the best attention given them; trees are now fruiting; a never failing supply of water; new house, barn, and other buildings, barn 36 x 68; house very comfortable, with a good cellar and a good sewer from the house; 15 acres of fall wheat growing, 30 acres fall ploughed for barley or other spring crop; the fruit trees are worth all that is asked for the farm. Must be seen to be appreciated. Price \$3,000, payable \$3,000 down and the balance can remain any length of time at reasonable rate of interest.
- of time at reasonable rate of interest. 1035—A small farm 614 acres, of which 40 acres are under cultivation and free from stumps; the balance in pasture land and bush, containing oak, ash, elm, and soft maple trees, some large enough for saw logs; soil gravelly and black loam; rolling and slöping land 25 acres high land, and the remainder low black ground, easily drained; this would make a good dairy farm, as it yields large quantities of hay or any spring crop; and 3 wells yield an unlimited supply of water; there are 2 orchards of about 80 trees, comprising apples, pears, plums and cherries; fences in good order; house 22 x 26, contains 8 rooms and cellar under the whole building; barn 30 x 48; shed 24 x 36; driving house 24 x 26; all buildings in a fair state of repair; church and school near Beamsville, which is only 3 miles distant; R. R. station 4 miles; roads good. Possession at any time; crops at a valuation. Price \$3,000, payable half down and the balance on time with interest at 6 per cent. per annum. 1018—A splendid fruit farm of between 25 and 30 acres situated on the Queenteen and Geinerby magademiced acred, and 30 acres situated on the Queen-
- 1018—A splendid fruit farm of between 25 and 30 acres situated on the Queenstown and Grimsby macadamized road; soil for the most part sandy, well adapted for gardening and fruit raising, about 16 acres are level and in a very high state of cultivatior, with about 700 young peach and apple trees in fine bearing condition; the remainder of the farm is hillside, partly covered with good sized basswood, elm and ash trees, large enough for saw logs; about five acres of the 16 acres with a little clearing can be planted with trees at once; fences in good state of repair: watered by never failing springs; no buildings, but a most beautiful the for building, as there are very fine maple trees standing all along the road; school at the corner of the farm; Grimbsy Village 2 miles from farm where there is everything re-

- quired in the shape of churches, schools, mills, post office, R. R. station,  $\Im$ ,  $\Im$ . This is in the great fruit shipping part of the country as it is raised here in the greatest abundance; there is land lying beside this farm that was sold a year ago for \$200 per acre without the trees, and some this winter very close to the farm for \$400 per acre without trees and taking the rate that trees are sold at here the 700 trees are worth \$4 each, possession can be given at any time. Price \$4,000 payable one-half down and the balance in 4 years with interest at 7 per cent, per annum.
- 1112—A farm of 106 acres, situated about midway between Hamilton and St. Catherines; 3 grain markets, post offices and villages within 4 miles; school thouse on adjoining lot, and church on one corner of the farm; 25 acres of orchard for the most part recently planted, and at present yields a fair profit. Is situated in a very healthy district, and in the midst of the linest fruit and grain producing farms; soil sandy loam; land slightly rolling; main road runs parallel with the farm. About 15 acres of bush, timber mostly white oak and pine, with some hardwood; a good supply of water. House 24 x 30, with seven rooms; barn 36 x 40; driving-house 30 x 36; fences in fair repair. The owner will sell the 25 acres that are in orchard, and the above buildings separately, if required, for \$2,500. There are about 40 or 45 acres of new meadow, all easily worked; no stones and with the exception of 15 acres just being cleared is free from stumps. Price \$6,000 for the whole farm, payable one-half cash, and the balance in from two to five years, with interest a seven and a half per cent. per annum.
- 1138 A farm of to3 acres; soil, black ground and sandy loam; 70 acres free from stumps and stones, and the balance in bush and part cleared land; timber small, being oak, ash, elm and maple; no swamp, but what can be easily drained; orchard of 70 trees, mostly apples, pears and cherries. A small but comfortable house with a few outbuildings; barn '30 X 48, in fair repair; fences have been neglected; I mile from school, 1½ miles from church, and 4 miles from Grimsby, where there are P.O., schools, churches, &.c.; macadamized road, within the table of the farm. Price \$2,600, payable \$1,000 cash, and the balance waying 4 years, with interest at 6 per cent. per annum.
- interest at 6 per cent, per annum.
  1499 Farm of 130 acres, of which too acres are in a good state of cultivation, and about 6 acres of a new fallow, all free from stumps and stones. The soil on front part of farm is a sandy loam, and clay loam and black muck in the rear. Over 20 acres of good standing timber, principally ash, beech, elm and oak, and a good sugar bush. Watered by the Twenty Mile creek, skirting three sides and affording ahundance of water in nearly every field on the farm. Mostly high banks. Splendid stone quarry on banks of the stream near the house. No stones on any other part of the farm. Well fenced. Two-story frame house 24 x 36, with kitchen and woodshed attached. Good stone cellar under the house. Barn 25 x 80, not in good repair. Driving house 30 x 42. Cow house 20 x 30. Two sheds, one 20 x 50 the other 30 x 40. Hog pen and hen house 16 x 30, and other necessary outbuildings. Watered by well and cistern at the house and creek. School half mile. Churches of various denominations at Smithville, one mile distant, where there are also grist and saw mills, foundry. & There is an orchard of over tooo fruit trees, consist-of 50 pear trees, too cherry trees, a few peach and plum trees, the remainder being apple trees. All choice fruits and in good bearing condition. Also grape vines and berry bushes. Possession can be given 1st March, 1883. Price \$7,500, payable \$2,000 down and the balance on time with interest at 7 per cent. per annum.
- Interest at 7 per cent. per annum. 1502-Farm of 130 acres, having 70 acres free from stumps and stance ard in a first-class state of cultivation. Balance of 60 acres in acoult sunding hardwood, timber chiefly beech, maple and oals. The solid's a first-class clay and black loam. Land slightly unding the Watered by four wells. No waste land. Small orchard. Well enced. Convenient to churches, schools, stores, &c., at Smithville, only one mile distant. Grimsby, on G. W. Ry., 8 miles distant. Price \$5,000, payable one-half cash and the balance in five equal annual instalments with interest at 6 per cent. per annum.

#### East Gore Township of Grimsby.

1143—A farm of 149 acres, 19 acres improved, balance bush and stony land; 20 acres of bush; timber beech, maple oak and pine; also plenty of rail timber; soil black and gravelly loam; orchard of about 100 bearing apple trees; also cherry and peach trees; some of the farm is naturally underdrained and all lies in fine shape for drainage; fences in fair order; dwelling is a frame cottage 36 x 34, containing 8 rooms, with wood shed and summer kitchen attached; barn 36 x 54, with 18 feet posts; shed attached 24 x 54; drive house which is very commodious 36 x 30, with 16 feet posts; corn crib and garnary which holds 600 bushels of grain; all the buildings are in a fair state of repair; watered by a never failing spring; well at the house, and creek which runs through the farm : roads nearly always good; Hamilton and Queenston Stone Road runs within one mile of the place; 2½ miles from Berto sville and Grimsby; school and church close at hand; there is a fair view of Lake Ontario and some of the cities on the lake from the house; the farm is well adapted for either stock, grain or fruit raising. Possession at any time; crops at a valuation. Price \$52 per acre, payable one-half down, and the balance on time as may be agreed.

### LINCOLN COUNTY, -[Continued.]

## Village of Beamsville.

1225—Three-eights of an acre of land, on which is erected a frame dwelling house 1½ stories high 22 x 24, with addition 16 x 18, and containing in all seven rooms, hall and kitchen. Stone cellar under the house and kitchen. Small-word that hel cow stable. Good cistern and well at the door. The lot is a the former displanted with shade and fruit trees, also a number of grape vide and a large quantity of currant bushes. Churches, schools and R. R. station, all close at hand. Price \$1,475, payment one-half down and the balance to be secured by fire insurance policy and mortgage, which is to run for 3 years with interest at 6 per cent. per annum.

#### Village of Smithville.

1498—Lot No. 9, on the east side of Canborough street containing one acre on which is erected a steam saw, planing and bending mill. Shingle and lath mill and auger for boring tubing. Also broom handle machine. Capacity of saw mill 8000 feet per day. Capacity of shingle mill 20,000 per day. Engine 25 horse power, and boiler 35 horse power. Machinery all in good order. Buildings are all frame. Main part 26 x 72. Engine-room 14 x 36 and planing-room 12 x 36. Ill health the cause for retiring. Price \$2,800, payable one-half cash and the balance in three annual instalments with interest at 7 per cent. per annum.

#### City of St. Catharines.

1048--Fine two storey brick residence on Ontario Street fitted up in latest style; containing on first floor, double parlor, breakfast-room, dining-room, one bed-room, pantry and large storage room; and on second floor, six bedrooms, (large and airy) bath-room and closet, and large room suitable for a play-room for children in the inclement weather . splendid clothes closet for each bed-room; good cellar under the greater part of the house; furnace in good running order; gas and water service introduced; slated roofs; also a splendid brick barn with cellar underneath. The property on which these buildings are erected comprises 34 acre of land, it was sold in 1877 for \$8,000 but it may now be purchased for \$5,000 payable \$3,000 down and balance secured by mortgage at current rate of interest.

5	Settlement commen	nced in th	e to	ownship of Delaware in 1801, and con-

E LA PAR

Settlement commenced in the township of Delaware in 1801, and continued in active operation until, in 1849, the last township—that of West Williams—was entered. To out of the 15 townships are now reported to be all settled, with the exception of some wet lands in Caradoc; Delaware is "nearly all settled," while the proportion settled in Dorchester is 9-10, Ekfrid, 15-16, Mosa, 4-5, and McGillivray 9-10. About 32½ years elapsed between the entry of the first settlers and the completion of the process of settlement in the 10 townships reported fully occupied.

Heavy clay, clay loam and sandy loam are the predominating soils, but as some of the returns are incomplete, the exact proportions cannot be stated. The soils vary in depth from 12 to 24 inches, and rest upon subsoils of clay and sand—mainly the former. Only a small portion of the area in Adelaide and Nissouri are reported stony or rocky, and in the former township there are only rocks and stones cufficient for huilding purposes. 1,800 acres in Adelaide, Biddulph, Delaware, Ekfrid, Nissouri and Westminster, and about 4,000 acres in McGillivray are reported to be so hilly as to be objectionable for the purposes of cultivation; the remainder is largely rolling and cultivaable, though there is a considerable percentage of wet, springy land. As nearly as can be estimated, and omitting 3 townships which have obviously based their report upon the entire area instead of the cleared acreage, about 55 per cent. of the farm land may be set down as first-class, 30 per cent. second cl. 3, and the remainder third class.

The county is on the whole well watered. Some townships have the

ships have the

MIDDLESEX COUNTY, -[Continued] rivers Thames and Sable, several have creeks; and all have wells of various depths. In Mosa, water is obtained, in sandy soil, at from 5 to 15 feet, in elay, 65 feet, or by boring 260 feet; and wells have, apparently, been sunk to a depth of 100 feet in 2 other townships. There are 3 flowing wells in Mosa and several in West Williams.

About 64 per cent. of the cleared acreage of Middlesex is reported to be free from stumps. Only in Dorchester township is there any considerable portion of pine stumps.

portion of pine stumps. Three townships lay claim to a few first-class fences; the remainder have them in proportion of  $52\frac{1}{2}$  per cent. The material employed, generally, consists of ash, oak and elm boards, with, in some cases, cedar posts. In one township (West Williams), hickory rails are used. In Westminster and Lobo, rail timber is scarce, and in most of the townships hardwood has to be

employed.

employed. About 52 per cent, of the farm houses are reported to be of brick, stone or first class frame; the remainder are log, or of inferior frame. About 59 per cent of the outbuildings are first class; the remainder are inferior. Considerable progress has been made in this county in the matter of drain-age. In some townships 20 or 25 per cent, of the farms have been under-drained. There are nearly 97 miles of tile draining in the township of Westminster, and a considerable proportion in other townships. In Lobo, ½ of the clay soil was underdrained with tile ten years ago, and this land now yields the best crops. Other townships are realizing the advantage of tile draining, and there is likelihood of its being, hereafter, resorted to on a very extensive scale.

very extensive scale. About 84 per cent. of the farmers use improved machinery—mostly reapers and mowers and sulky rakes. Seed drills are not so much in request— About 16 per cent. of the farmers use artificial manures, in various propor-

tions per acre. In Lobo, salt is used at from 300 to 400 pounds per acre, and plaster at from 200 to 300 lbs. per acre. In other townships, salt is used to the extent of 200 lbs. per acre, and plaster 100 lbs. Plaster is mostly used for corn, and salt, generally, on grain and root crops, clover and meadows. It is profitably used on oats and mangolds, in the township of labo Lobo.

About 81 per cent. of the uncleared land is reported fit for cultivation, if

cleared and properly drained. The township acreage of Middlesex is given as 753,692; the cleared acreage as 478,479. of the latter about 15 per cent. is devoted to fall wheat; spring wheat, very little grown, barley, 9 per cent; oats, 14½ per cent; rye. hardly any sown; peas, hardly any sown; corn. about 4 per cent; rue, buckwheat, hardly any sown; potatoes, about 1 per cent.; turnips, rather less than 1 per cent.; other root crops, 3½ per cent.; hay, about 16 per cent. About 11 per cent. of the cleared acreage is devoted to pasture, and about 1½ per cent. to orchards. 40 per cent, of the pasturage in Caradoc is woodland. Flax is grown to a small extent in Biddulph; 432 acres are devoted to its culture in McGillivray and Westminster, and 1 per cent. of the cleared acreage in West Williams.

The townships sustain 50, 595 horned cattle, 19, 129 horses, 47, 684 sheep, and 13,018 hogs. General purpose horses are most in request. There are also some large breeders of thoroughbred and coach horses in the county. Thoroughbred Durhams, grades and native cattle, Leicester, Cotswold and Lincoln sheep, and Berkshire hogs are extensively raised. About 35<sup>1/2</sup> per cent. of the land in the county is still covered with timber

About 35 /2 per cent. of the fand in the county is still covered with timber (excepting the township of Delaware, which makes no return under this head). The timber generally consists of hardwood, used for fencing, fuel, sawlogs railway ties and building. Some pine is reported in the township of Lobo. Middlesex has excellent markets within easy reach of every farmer. The county is traversed by the Grand Trunk, the Great Western, the Canada South-ern, the London and Port Stanley, and the London, Huron & Bruce railways. In addition there are excellent concession read.

control is London and Port Stanley, and the London, Huron & Diate Landon and Port Stanley, and the London, Huron & Diate Landon and Port Stanley, and the London, Huron & Diate Landon, In addition to ordinary in-dustries attendant on a farming population, there are 3 saw mills, I flax mill, 2 woollen mills, I stave factory, and I tile yard. The grazing of cattle for exportation to England is rapidly developing into an important industry. The oil works of Middlesex are very extensive, and not only do they supply a large promotion of the home markets, but considerable quantities are shipped to proportion of the home markets, but considerable quantities are shipped to Europe. London has a large establishment for the manufacture of railway cars, and several furniture factories. It has, also, one of the largest brewenies in the Dominion.

The population of Middlesex (including London), according to the census of 1881, was 82,595. The population of London, according to late return, is out 20,000.

All the varieties of fruit grown in Ontario flornish in Middlesex, with the excep An the varieties of that grown in Ontario hornish in Middlesex, with the exception of peaches, apricots, nectaries, and quinces. The yield of apples, pears, and plums is abundant and profitable. Grape culture is prosecuted to a considerable extent, but as yet there is not sufficient quantity raised to supply the home market. All the smaller descriptions of fruit are cultivated more or less successfully.

#### City of London.

1519 That property in London East, known as the "Eastern Hotel." The main building is 32 x 48, two stories high, built of white brick and having 14 inch walls. Frame addition in the rear 16 x 24 also two stories high, containing in all 20 rooms. There is a large yard and stable in the rear. Price \$3,500, payable \$1,000 down and the balance on time to suit. This property will be exchanged for a farm.

## MIDDLESEX COUNTY,-[Continued.]

#### Village of Parkhill.

714—That splendid private residence known as "FLORAL HALL," the pro-perty of A. Emerson, Esq. The main building is 30 x 40, rear part 16 x 26, containing 9 rooms besides bath room, kitchen and wood shed. With the building there is one acre of land, situated on main street; grounds beautifully laid out; a young orchard; hard and soft water on the premises. Price \$3,200, payable \$1,200 down and balance on time as may be arranged to suit purchaser.

## MUSKOKA [AND PARRY SOUND DISTRICTS.]

#### COUNTY TOWN BRACEBRIDGE. POPULATION, 1,500.

The electoral district of Muskoka and Parry Sound is popularly known under the general name of the Free Grant District, and has since 1868, when the first Free Grant Act was passed, been largely resorted to by settlers who have availed themselves of that privilege offered by the measure. Previous to 1868 there were a few squatters in the country, but, practically, settlement began in that year. Along the whole of the Western coast it is washed by the waters of the Georgian Bay.

that year. Along the whole of the Western coast it is washed by the waters of the Georgian Bay. Its area is stated to be 5,500 square miles or 3,520,000 acres. At the present time it is penetrated on the South by railway only to Graven-hurst in the township of Muskoka, at the foot of Muskoka Lake, but by the construction of the projected Ontario and Pacific Junetion line via, Bracebridge and Huntsville to the South East shore of Lake Nipissing, and the connection of that road with the Canada Pacific or Canada Central, not only will the Eastern half of the district be intersected for its whole length from south to north, but an outlet will be had, either to the south by way of Toronto, or to the east by way of Ottawa, Montreal and Quebec.

On the west the harbors of the Georgian Bay are points of access to the grand water navigation of the Upper Lakes, and by that means communicate with the whole Western and Southern coast line of Ontario with the United States,

the whole Western and Southern coast line of Ontatio with the United States, and via the Gulf of St. Lawrence with the European markets. Parry Sound with its fine harbor, is the seat of a large humbering industry, and the resort of a considerable number of vessels in connection therewith. The two principal Lakes, Muskoka and Rosseau, united by a lock at Port Carling, give for some 50 miles means of access to the very heart of the dis-trict, while the Muskoka River is also navigable to Bracebridge. The face of the country consists chiefly of rolling downs or ridges, intersected in all directions by lakes, rives and streams, while in the flat land, along the banks of the latter, the baver meadow is a conspicuous object. The whole land is (except where cleared), covered with timber, mostly the harder woods, interspersed with pine. It presents an aspect rugged and broken, but the wealth of its forest vegetation precludes the idea of barrenness or sterility. wealth of its forest vegetation precludes the idea of barrenness or sterility.

Pure water abounds everywhere, and can be had by well-sinking at a very moderate depth in any situation.

moderate depth in any situation. According to Mr. Murray, (see Geological Survey, 1854), the head waters of the Muskoka river are 1,405'85 feet above the sea level, or 827'85 feet above Lake Huron; and those of the Maganetawan 1,097'34 feet above the sea level, or 519'34 feet above Lake Huron; while Lake Nipissing is given as 647 feet above the sea level, equal to less than 100 feet above Lake Huron. The ch-mate is eminently favorable to vigorous animal life.

The summers are cooler than in the more southerly parts of Ontario, and the air in winter is so dry and bracing as to diminish greatly the sensation of cold. The effect of the atmosphere on vegetation will be noticed further on.

While the prevalence of rock in a great many places too profusely manifest-ed, and in others, if not so plentiful, is quite sufficiently intrusive, is admitted by all. But while this diminishes the actual amount of the cultivated area it does not seriously interfere with or impare the cultivation of the portion clear of rock. Moreover, as a perusal of the evidence shows some of the roughest portions are well adapted for pasture. No doubt exists in the minds of the Commissioners that, while in the area of country visited, there is a fair proportion of agricultural land, it is to be found in larger quantities, and of a superior

unity in many of the more northerly townships at present but little knowr. The Free Grant legislation, whilst it has had the effect of attracting to the district a population now estimated at about 30,000 souls, naturally invited in the first instance the class of people who were the least likely to give signs of rapid progress. One of the witnesses who described his means in entering upon his location as "exactly fourteen pence, a little pork and flour, a wife and six children," was a representative man in this sense. When it is consid-ered that every foot of the ground has had to be cheared with the axe, and that even in more favored regions the seasons will not always befriend the husbandman, the wonder is that so much has been accomplished. It was the universal testimony of the witnesses, that the most successful of the settlers without capital, were those who had worked steadily and continuously on their farms at a temporary sacrifice, or submitted to any privation, rather than make a little money by chances only secured by neglecting their holdings. Why so many men in Muskoka have succeeded without capital or previous

training is because they have been men of the right stamp-frigal, industrions, persistant and courageous, And it has been most gratifying to the commission ers to observe symptoms in every direction of steady prosperity.

The recent show of Muskoka products at the Toronto Industrial Exhibition evidently caused some astonishment. Thousands of people went away with

#### MUSKOKA [AND PARRY SOUND DISTRICTS,]-(Continued.)

-to them-the newly received information that Muskoka was something bet-But the Commissioners are able to state, not n ter than a wilderness. that these displays were fair and honest, but that they failed in some respects to do justice to the productions represented. Is in the most exposed situations where the action of the winds are felt, the

summer frost does little mischief; in the immediate vicinity of large bodies of water the air seems to be mellowed by their influence, and the summer frosts are nearly harmless; but in sheltered inland spots or on the low lands they have been very pernicious. The opinion appeared to be that as the clearings were enlarged and the air had more play, summer frosts would be less frequent, while a knowledge of their local peculiarities, already period is a settle shelt to have mentioned, is a partial safeguard to the settler by giving him warning to plant in the more favorable or more dangerous spots the crops best adapted for them. The risks of such visits did not seem to have a seriously discourging effect,

at all events, on the minds of any of the persons examined. As it is a question whether the district is suited to the growth of wheat, atten-

tion should be primarily given to other branches of agricultural industry than the cultivation of wheat, even should there prove a considerable portion of the territory adapted to it, but the soil is well adapted to the growth of oats. The territory adapted to it, but the soil is well adapted to the growth of oats. The cultivation of barley heretofore has been on a rather limited scale. In fact the local demand by the lumbermen and hotel keepers for oats, and the good crops of that cereal almost invariably obtained, have had the effect of preventing, to some extent, attention being given to other grains; but where barley has been grown it appears to have succeed well, the annual average being about 30 bushels to the acre. The growth of peas is very general, and the crop, with a few drawbacks, appeared to be a certain one, and in few cases has it fallen below 20 bushels to the acre. The quantity of rye hitherto grown has been very small but favourable views are freely expressed to its larger cultivation. Indian corn centrally rinens fairly well. and may be looked upon as a successful cron. The generally ripens fairly well, and may be looked upon as a successful crop. The general reputation of the Province of Ontario as a country particularly adapted for the growth of roots, is well maintained in the district. The yield of potafor the growth of roots, is well maintained in the district. The yield of pota-toes is very large, and is generally good both as to quantity and quality, rang-ing from 150 to 300 bushels per acre. All the ordinary guiden vegetables are cultivated successfully, and where properly treated attain a very large size. Hops grow freely, and are worth attention as a profitable crop. Tobacco is also grown on a small scale, and appears to do well. With the exception of the grape, the smaller fruits are indigenous to the district. All the "berries" abound in the woods, and the wild plum is also very pleantiful, and strawverries yield a very good return.

#### Township of Brunel.

42

- 891—Cheap farm of 200 acres; 16 acres of which are cleared and fenced; the dwelling is log 18 x 24; a fine never failing spring creek runs across the property; 30 acres of beaver meadow; hardwood bush, good tail timber for fencing. This farm is on Government Road, half-way between Huntsville and Breek and the second sec fencing. This farm is on Government Road, half-way between Huntsville and Baysville; I mile from church. Possession at any time. Price \$800,
- \$400 cash balance to suit purchaser. 1569—Farm lot of 200 acres, having 15 acres cleared and partly free from stumps; about 25 acres more or less available swamp, and about 20 acres rocky. Both swampy and rocky land grows excellent clover and timothy. The balance is timbered with beech, birch, ironwood and maple on high land, and balsam, birch, cedar, with some hemlock in the low land. When the railway now in course of construction is carried through the birch will be worth more than the price asked for the whole property. Soil a rich mould unrivalled for grass, roots, potatoes and oats. France house  $15 \times 30$  with kithen 10 x 15; hay barn 20 x 38; log stable 12 x 18 and good root house & c. Fences principally cedar, pine and beech rails, all in good order. The Brunel Government Road runs between the lots and leads to Port Sydney, 9 miles, and Huntsville 7 miles distant, where there are good stores and mills, and the stations have been located for the N. P. Junction Railway. Possession 1st October 1883. Price \$1,000 cash, or \$1,200 if on time payable one-half down, and the balance in yearly instalments of \$200 each with interest at 7 per cent. per annum.

## Township of Chaffy.

- \$27-Improved farm of 200 acres 20 acres cleared and fenced; 180 acres in bush ; 5 acres of swamp; timber maple, beech, birch, white ash and cedar, Soil dark ioam or vegetable mould; land slightly rolling; small orchard; bearing; watered by two spring creeks. The dwelling is a log house 18 x 22. a log stable and barn, a good root house, and other small buildings ip good repair ; on Government Road; 1¼ miles to school and church, best market et Huntsville; railway station at Gravenhurst. Possession at any time. Price \$1,000 cash, without stock and implements, but with them half cash and balance in 5 years. Owner is forced to sell because he got his leg broken and cannot work the farm himself.
- Farm of 200 acres, of which 40 acres are cleared, and 15 acres partly 00 7-Farm of 200 acres, of which 40 acres are cleared, and 15 acres partly cleared; balance bush; timber maple, basswood, birch and cedar; 5 or 10 acres swamp; soil rich dark clay loam, with clay subsoil; the land is roll-ing; a small young orchard; watered by 2 spring creeks; log dwelling 18 x 24, with kitchen 12 x 28, lined throughout-with lumber; well, (with pump) close to the house door; new frame barn 32 x 48 with stables; the fences and buildings have only been put up within the last two years; farm is situa-ted on the Government Road east of Huntsville;  $3\frac{1}{2}$  miles from the thriv-ing Village of Huntsville, where there are grist, saw, and woollen mills, churches, etc.; I mile from school ; there are about 25 acres of rock on

## MUSKOKA [ANG PARRY SOUND DISTRICTS,]-(Continued.) Township of Chaffy,-[Continued];

the farm, the balance can all be ploughed. This farm is without doubt, one of the best in the district for stock and grain, it lies well to the south; there are about 8 acres free from stumps. Possession at any time; crops at a valuation. Price \$2,200, payable 1,500 down and the balance on time.

### Township of Humphrey.

So2—Farm of 137 acres in the district of Parry Sound, beautifully situated on the western shores of Lake Joseph where there is goodfishing and en the route of steamboat navigation to Port Cockburn, P. O. within 5 miles; good roads leading to Parry Sound, Gravenhurst, and Port Carling, 40 acres cleared, and under cultivation, and free from stones or rock; and the remainded is far above the average of land in the district. The dwelling is log 16 x Matrix 10 x 20; stable 14 x 22; immediate possession can be given. The above is an excellent farm, and there is as much as 75 acres in one block free from rock or stone and the balance above the average of farms around. Price only \$650, payable \$200 cash ; balance in ten years payable by instalments with easy rate of interest.

#### Township of Monk.

1566—Farm of 100 acres, having 22 acres cleared and nearly free from stumps. The balance is timbered with basswood, hemlock, maple and pine, and 3 acres of cedar. About 60 acres of the land is free from rocks and the balance more or less rocky. Soil is a good clay loam. Watered by a running stream. Log house  $14 \times 24$  and one storey high. Fences rail. Roads good. Church and school  $1\frac{1}{2}$  miles. Market and steamboat wharf at Bracebridge  $2\frac{1}{2}$  miles, R.R. station at Gravenhurst 14 miles distant. Price \$1,200 cash.

#### Township of Stephenson.

- 860-Farm of 200 acres, 15 acres cleared and fenced ; frame house 18 x 24 1/2 storeys high; 100 acres level, balance slightly rolling; soil sandy loam; hardwood timber; watered by spring creek, building and fences in good repair; distant 12 rods from Muskoka Road, 1/2 miles from school, church and Post office. 4 miles from Grist Mill and Saw Mill, and 1<sup>1</sup>/<sub>2</sub> miles from market. Price \$600 cash.
- house 18 x 24, 14 feet posts, well finished and in good repair; frame stable 14 x 20, 12 feet-posts; spring creek; hardwood timber; soil sandy loam, 14 x 20, 12 feet posts ; spring creek ; hardwood timber ; soil sandy loam, land somewhat rolling ; distant 14 miles from school, church, P.O., grist and saw mill, and 1 mile from Port Sidney on mail stage route and 14 mile from Survey of T. & R. R.R. Price \$600 cash or \$700 on time payable half down and balance in yearly instalments with interest at 6 per cent. 1001-Farm of 100 acres, of which about 27 or 28 acres are cleared and under crops ; soil clay loam ; buildings consist of a hewed log house, in the state of a back state for a with stable attached 20 x 14 ; ered
- side size 25 x 20, a log barn 64 x 30, with stable attached 30 x 14; good well; watered on front of lot by a never failing creek; hardwood bush; pine sufficient for fencing and building purposes; land level and dry; 85 acres free from stones; good fences; I mile from church, school, store and post office, and ½ mile from survey of O. P. J. Kailway. Price \$800 cash.

I

\*NORFOL-IN

COUNTYOF

-----

- 69—Farm of 106 acres, 26 of which are under crop, balance covered with timber consisting of pine, spruce, tamarack, maple, birch, ironwood and black ash. The land is slightly rolling; soil good sandy loam. A beautiful little lake of 20 acres, partly on the lot; the buildings consist of log house 18 x 20; log stable 16 x 20: and frame barn 25 x 40; also pig sties; good garden and good well on the premises; church, store and P.O., within ½ mile, school within ¼ mile, telegraph station within 8 miles, good road running past the door; immediate neighborhood famous for fish and game. Possession at any time. Price \$550 cash. 170—Farm of 200 acres, 15 of which are chopped. The buildings consist of log house 18 x 227 barn 18 x 20; and stable 12 x 12; soil sandy loam; land gently rolling. churches, school, etc, within 1¼ miles; telegraph station 8 miles. Possession at any time. Price \$300, payable \$100 down, and balance in 2 annual instalments of \$100 each with interest at 7 per cent. 69-Farm of 106 acres, 26 of which are under crop, balance covered with
- per cent.

#### Village of Bracebridge.

925-Lot on Manitoba Street on which are erected a Frame Dwelling 18 x 32 with kitchen, and also a workshop and large stable. Price \$600 cash As it is expected that Bracebridge will soon be a county town and a station on the Ontario Pacific Junction Ry., which is to be extended from Gravenhurst to Lake Nipissing, this property is a great bargain.

#### Village of Port Sidney.

890—That fine property known as "Sidney Hotel" with ½ an acre of garden attached; size of the building 42 x 45; 2 storey frame house on stone foundation, containing 13 rooms; 2 frame stables capable of ac-comodating 30 horses with hay loft above; good piggery; daily stage to and from Bracebridge connects here with the Steamer Northern for the North and South. Price only \$2,000, \$1,000 cash, balance on easy terms with iteraset at 6 tare cash. with interest at 6 per cent.

## NORFOLK COUNTY.

COUNTY TOWN, SIMCOE. POPULATION, 2,645.

Contains the following townships with acreage and average value for 1st, and, and 3rd class lands ;

Charlotteville,	57,753	acres,	Ist,	\$40;	2nd,	\$30;	3rd.	\$20.	
Houghton,	33,898			35;		20 ;		10.	
Middleton,	44,831	"		40:		30 ;		20.	
Townsend,	64,686	"		50;		35 ;		20.	
Walsingham,	87,814	"	"	50;		30;		10.	
Windham,	66,538	"	"	60;	"	40;	"	20.	
Woodhouse,	33,898	"	"	65;		50 ;		35.	

Windham, 60,533 a 60; 40; 20, Woodhouse, 33,898 a 65; 40; 40; 20, Woodhouse, 33,898 a 65; 20, 35; The first settlers entered the Township of Walsingham in 1791, and be-tween that year and 1796, the Townships of Woodhouse, Charlotteville, Windham, and Townsend, were entered. The last 2 townships occupied— Middleton and Houghton—were entered in 1810 and 1820. It is remark-able that the first township entered is reported not yet wholly settled. Wal-singham is occupied to the extent of 90 per cent., Houghton about 87 per cent., and Middleton 85 per cent. The 4 townships wettled took, on an average 77 years to complete the process. Sandy loam is the predominating soil in this county, though clay, and clay loam are found in considerable proportions, and there is a large percentage of sand. Very little is gravelly, but black loam is found in Middleton to the extent of 10 per cent., and in Woodhouse, 20 per cent. The subsoil is generally clay, sand, and hardpan of varying depths. Heavy clay soil has a depth of from 1 to 2 feet; clay loam and sandy loams, to inches to 2 feet; gravelly, 12 to 18 inches (only found in the township of Townsend); black loam (in Townsend), 10 to 15 inches. There is no rocky or stony land re-ported to be in the county calculated to interfere with profitable cultivation, but Charlotteville reports 4-5 and Walsingham 5 per cent. so hilly as to be objectionable for agricultural purposes. About 70 per cent. of the cleared area is rolling, but cultivable; a little less than 5 per cent. consists of bot-tom land more or less susceptible to profitable drainage; probably about 4 per cent. is swampy (Walsingham does not report); and about ¼ per cent. is wet and springy. About 40 per cent. of the cleared acreage is reported first-class for agricultural purposes, 41 per cent. second-class, and the remainder third-class. is wet and springy. About 40 per cent. of the cleared acreage is reported first-class for agricultural purposes, 41 per cent. second-class, and the remainder third-class.

remainder third-class. The county is exceedingly well watered by springs and creeks, and water is obtained by digging, at depths of from 5 to 40 feet. About 45 per cent. of the cleared acreage is now free from stumps; those remaining are principally pine. Omitting the township of Woodhouse, which makes no return in this respect, about 73 per cent. of the farms in Norfolk are under first-class fence consisting principally of rails, boards and wire.

About 47 per cent. of the farm dwellings are of brick, stone, or first-class frame; the remainder are log, or of inferior frame. Of the outbuildings, about 70 per cent. are superior, the remainder inferior.

About 76 per cent. of the farmers use labor-saving machines for seeding and

About 60 per cent. of the farmers in this county use artificial fertilizers— About 60 per cent. of the farmers in this county use artificial fertilizers— principally plaster and salt. The former is used in the proportion of from 70 to 100 lbs. per acre, on corn, clover and grass ; the latter from 100 to 300 lbs.

to too los, per acre, on corn, clover and grass; the latter from too to 300 los, per acre on grain and root crops. All the uncleared land in the county, except about 1 per cent. in the town-ship of Woodhouse, and 50 per cent. in the township of Charlotteville, is re-ported fit for cultivation, if cleared. The township area of Norfolk is given as  $389,418\frac{1}{2}$  acres; the cleared area as  $203,769\frac{1}{4}$  acres. Of the latter about 18 per cent, is devoted to fall wheat :

as 263,769% acres. Of the latter about 18 per cent, is devoted to fall wheat : spring wheat hardly any sown ; barley, less than I per cent.; oats 12 per cent.; rye, 3 per cent.; peas about 8 per cent.; corn, a little over 16 per cent.; buckwheat, hardly any sown ; potatoes, I per cent.; turnips, very few grown ; other root crops, not grown to any extent; hay, 17 per cent. About 16 per cent. of the cleared acreage is devoted to pasture, and 7 per cent. to orchards, but the latter must be over-estimated in the township of Charlotteville, which per cent. of the cleared acreage advected to conship.

but the latter must be over-estimated in the township of Charlotteville, which reports 20 per cent. of the cleared acreage devoted to orchards. A small acre-age is taken up with summer fallow, and for the raising of beans and sugar beets. The county is well adapted for grain growing, but stock raising and dairying are becoming specialities. Fruit culture is also making rapid progress. About 24 per cent, of the entire area is still timbered, and the standing timber consists principally of pine, oak, maple, chestnut, black and white ash, elm and cedar, used for railway ties, lumber, fencing, shingles, firewood and general farm nurposes. farm purpos

Three railways pass through the county--the Northern and North-Western, Great Western Air Line, Canada Southern, and Port Dover and Lake Huron. Simcoe, Delhi, Tilsonburg, Waterford and the neighbouring city of Brantford are good markets and are easily reached. At Ports Rowan and Burwell a shipping trade is carried on. Norfolk has 22 cheese factories, I vegetable canning factory, I agricultural

implement factory, I woollen, 16 saw, 6 shingle, and I planing mill, I sash and door factory, and 7 grist mills. The woollen mill (at Port Dover) em-ploys about 100 hands when running to its full capacity. The principal streams the river Lynn and Big Creek—have excellent water privileges. According to the census of 1881, the population of Norfolk was 33,593.

#### NORFOLK COUNTY,-[Continued]

The townships sustain 21,691 horned cattle, 10,190 hornes, 20,557 theep, and 11,336 hogs. The horses are nearly all native and general purpose ; theep are generally Southdown, Leicester and Cotswold ; hogs, Berkshire and Suffolk. Thoroughbred sheep, cattle and hogs have been introduced, and in the town-ship of Townsend, which is represented to be one of the finest for agricultural and stock raising purposes in the Province, quite extensively.

Norfolk being one of the most southerly counties of the peninsula, the climate is mild and favorable to the growth of almost every description of fruit. Winter hardly ever commences before the 20th of almost every description of animate wind. hardly ever commences before the 20th of December, and summer is cool and pleasant. Apples, plums and peaches are largely grown, and in a lesser degree, pears, cherries, apricots, nectarines, and the smaller fruits. There is every probability of Norfolk becoming an extensive fruit growing county, and that apple, peach and grape culture will become profitable industries.

#### Township of Charlotteville.

- 800—Choice farm of 100 acres one half of which is a clay loam, balance sandy loam 70 acres cleared; 25 acres covered with good timber, and all in a good state of cultivation. There is a small dwelling house on the place which is well fenced; roads good; school-house on the corner of the farm; two saw mills within 2½ miles of the village of Viltoria, where there are good stores and grist mills and a good grain market, and 6½ miles from Sincoe, the county town, at which there are 2 railway stations. Price §3,200, payable \$2,000 down and balance with interest at 7 per cent. on time as may be arranged. 1526—A fine farm of 96 acres. Soil clay loam with some sandy loam. Land being rolling, drains naturally, and having a southerly exposure is not sub-
- s26—A fine farm of 90 acres. Soil ciay foam with some sandy foam. Land being rolling, drains naturally, and having a southerly exposure is not sub-ject to late or early frosts, so that all kinds of fruit grown in this locality arrive at maturity, and as a grain farm it has no superior. Crops are good when they have failed on other farms near by. There is a sandy ridge ex-tending across the north side of the farm, and protecting about 55 acres from the north and west winds, so that the grain grown is seldom if ever, winter-blied. The send idde scenes about on the local data are also been been to be block and and the protection of the local of th the north and west winds, so that the grain grown is seldom if ever, winter-killed. The sand ridge covers about 20 acres of the land, on most of which peach trees could be successfully cultivated. On the south side of the ridge are two fine never failing springs, the water from which could easily be con-ducted through pipes to the house and barn. Two frame dwelling houses standing side by side, and each about 36 x 40. One old but well preserved, the new one has a good stone cellar underneath. Driving house and stable about 30 x 40. Good sized frame barn, granary and shed. There is plenty of wood for use on the premises, chiefly oak timber. Orchard of choice apple, cherry, peach, pear and plum trees, besides grapes and other small fruits. The location of the house cannot be surpassed, being on high Ground and sheltered by trees, which do not interfere with the fine view of the surrounding scenery. The grounds in front of the houses are dotted the surrounding scenery. The grounds in front of the houses are dotted with fruit, shade and ornamental trees, and extend to the public road. with fruit, shade and ornamental trees, and extend to the public road. On the side of road opposite the house, there is a splendid stream of water which flows at all seasons of the year. Goo bushels of wheat have been taken off the place this year. Church and school within  $1\frac{1}{2}$  miles. Vil-lage of Vittoria about  $2\frac{1}{2}$  miles, and Simcoe, the county town, is only 8 miles distant. Any one desiring a farm for beauty of location, and a sure support cannot fail to be pleased with this property, as it is cool in sum-mer and sunny and cheerful in winter. The vendor being a physician, resides at a goodly distance from the farm, and nothing but this would persuade bin to part with it. Price  $5 \le 500$ , mayable from 51-good to 52 good down him to part with it. Price \$5,500, payable from \$1,000 to \$2,000 down and the balance within 5 or 10 years with interest at 7 per cent per arnum.

#### ownship of Middleton.

663—Farm of 87 acres, 46 of which are improved, and 20 acres of drained swamp, with fine spring creek running through the farm. On this proper-ty, which is 7 miles from the town of Tilsonburg, there are a small house, log barn and orchard of 50 trees. Price \$2,000, payable \$800 down and balance to suit purchaser, with interest at 8 per cent. 1144-A farm containing 100 acres more or less, 60 acres cleared; 35 acres

- under plough this year, 24 acres newly seeded down; 40 acres bush : tim-ber beech, maple, elm, black ash and chesnut; land rolling; no stones; open drain; fences good; two wells, one at the house, the other at the open drain; iences good; two wells, one at the nouse, the other at the barn; house  $24 \times 30$ , 6 rooms; kitchen  $24 \times 20$ ; barn  $30 \times 52$ ; stone foundations; waggon house and hay loft  $30 \times 50$ , with stabling for 6 horses; shed  $20 \times 24$ ; 72 apple trees, besides cherries, pears, plums, &c., of the best varieties; school  $\frac{1}{4}$  mile; church I mile; P. O.  $\frac{3}{4}$  mile; telegraph office 3 miles; Tilsonburg, on Brantford and Port Burwell Railway, 8 miles distant; markets at Courtland and Tilsonburg; cheese factory  $\frac{1}{4}$ mile. Possession given at any time. Price \$2,900, payable \$1,000 to \$1,500 down, and balance in yearly instalments, with interest at 6 per cent. per annum on unpaid principal.
- 1147-Farm containing 96 acres having about 55 acres cleared; soil clay loam and sandy loam; land rolling; not stovey; about 41 acres wooded, timber mostly beech, maple, chesnut, oak and ash; well at the honse; timber mostly beech, maple, chesnut, oak and ash; well at the honse; open drains; fences rail, in good condition; frame house 24 X 30, contain-ing 6 rooms, (2 stories high) stone foundation, no barn; orchard of 25 apple trees, good varieties. Church 1 mile; school ¼ mile, P. 0. ¾ mile telegraph office 3 miles, Courtland station on the Air Line of the G. W. Ry. 4 miles; Tilsonburg on the Carada Southern and Brantford and Port Barwell Ry. 8 miles destant; at both of which places there are good mar-kets; 2½ miles to Gravel Road; cheese factory ¼ mile. VI.

VP

Whithy, East, 31,576 " \$60 to \$100. Settlement commenced in the townships of Pickering and East Whitby in 1800. In 1807 Uxbridge was entered, and 1810, Whitby. From the latter date up to 1853, when the first settlers entered Rama, the remaining town-ships were gradually occupied, until now (1880) only two (Mara and Rama) are reported not wholly settled. In the other townships it took on an average nearly 42 years to complete the process of settlement. Clay loam is the predominating soil in the county; the proportion being (omitting the townships of Brock and Scott, which have furnished no averages)  $37\frac{12}{2}$  per cent. Sandy loam exists to the extent of about  $22\frac{12}{2}$  per cent.; the balance is made up of heavy clay (which exists to the extent of 25 per cent. in Whitby and East Whitby), sand, gravelly and black loam. The sandy loam is reported to be 2 feet deep in Mara and Pickering, with a sub-soil in the former township of sand and hardpan. The heavy clay in the same townships is from 18 inches to 2 feet deep, with a subsoil in the former township of gravelly clay. The clay loam in the same townships is 18 inches deep with a subsoil in the former township of clay and sand. In Uxbridge the clay and clay loam are usually on a quicksand bottom, varying in depth from 3 to 20 feet, and in the the former township of clay and sand. In Oxologe the clay and clay load are usually on a quicks and bottom, varying in depth from 3 to 20 feet, and in the same township sand and sandy loam have been found in some instances 60 feet deep. Rama and Mara are reported somewhat rocky, and portions of Brock are too stony for profitable cultivation, while I, coo acres in Pickering and one-fiftieth of Scugog are reported so hilly as to be objectionable. As nearly as can be estimated 71 per cent, of the cleared acreage is rolling and cultivable, and cultivable. About 231/2 per cent. bottom land, and the remainder swampy and springy. About 46 per cent, of the entire cleared area is reported to be first-class for agricultu-ral purposes, 26 per cent. second-class, and the remainder third-class, Rama only reports one-half first class, and no second or third-class--probably be-cause a large part of the township is overflown by water in the spring. Ontario is generally well watered by springs and creeks, and in every town-

ship water is obtained by digging at depths varying from 10 to 50 feet.

About 60 per cent. of the cleared acreage is reported free from stumps. Of the stumps remaining in 7 out of the 11 townships, about 21 per cent. are reported to be pine stumps.

About 67 per cent., as nearly as can be estimated, are first-class fences, consisting mainly of cedar.

About 46 per cent. of the farm houses are either brick, stone. or first-class frame ; the remainder are log or of inferior frame. About 48 per cent. of the outbuildings are superior ; the remainder inferior.

Drainage has been prosecuted to a considerable extent in some of the townbias been prosected to a considerable extent in some other towns ships—in Whitby to the extent of  $\frac{1}{2}$  the cleared acreage. Tile draining has been commenced in Scugog, Uxbridge and Whitby East, and in the latter considerable progress has been made. In Pickering 20 per cent, of the farms have been underdrained, but the material used is not stated in the return rendered

from that township. About 781/2 per cent. of the farmers use improved machinery for seeding and harvesting.

harvesting. About 30 per cent. of the farmers use artificial fertilizers—principally salt and plaster—in varying quantities. In Brock 100 lbs. salt per acre is used ; in Uxbridge, 250 lbs. per acre ; in Whitby, I barrel per acre. Plaster is used in the proportion of  $V_3$  of a barrel per acre in Whitby, 100 lbs. per acre in Uxbridge, and in Scugog 3 barrels per acre. Plaster and salt are used, the former for clover, timothy, roots and meadow land, and the latter for grain

crops. The township area of Ontario is given as 488,030 acres; the cleared area as The township area of Ontario is given as 488,030 acres; the cleared area as  $269,147\frac{14}{24}$  acres. Of the latter about  $7\frac{1}{6}$  per cent. of 7 townships is devoted to fall wheat; spring wheat, 26 per cent.; barley, 13 per cent.; otas, 10 per cent; rye, hardly any grown; peas, 7 per cent.; corn, very little grown; buckwheat very little grown; potatoes,  $1\frac{14}{4}$  per cent.; turnips,  $3\frac{14}{2}$  per cent., other root crops, very few raised; hay, 10 per cent. The cleared land devoted to pasturage cannot be estimated owing to the uncleared pasturage having been included in some of the returns. Probably about 1 percent. is devoted to or chards. In Thorah and Uxbridge 5 and 7 per cent. of the cleared careage is reported to be under fallow and summer fallow. Ontario is especially adapted to grain growing and stock raising, but dairying is also successfully prosecuted. The townships sustain 31,927 horned cattle, 16,527 horses, 25,004 sheep, and 12,355 hogs. The horses are native, crossed with Clydesdales and other imported animals; the sheep are Cotswolds and Leicesters; the cattle, improved Durhams and Devons; and the hogs Berkshires and Suffolks. Im-

proved Durhams and Devons; and the hogs Berkshires and Suffolks. Im-

## OXFORD COUNTY.

#### COUNTY TOWN, WOODSTOCK. POPULATION, 4,373.

This very fine agricultural district comprises the following townships, with acreage and average value for land in 1881, as follows :

	Blandford,	29.714	acres,	Ist, \$70; 2nd, \$40; 3rd, \$20.
ę	Blenheim,	67,200	**	1st, \$65; 2nd, \$45; 3rd, \$25.
	Dereham,	64,706	"	\$50 to 260.
	Nissouri, East,	46.452	**	1st, \$70; 2nd, \$50; 3rd, \$30.
	Norwich, North,	33,833	"	\$30 te \$65.
	Norwich, South,	36,000		Ist, \$75; 2nd, \$50; 3rd, \$25.
	Oxford, North,	20,000		Ist, \$70; 2nd, \$55; 3rd, \$35.
	Oxford, Fast,	34,700		Ist, \$60 to \$70; 2nd, \$45; 3rd, \$30.
	Oxford, West,	25,735	"	1st, \$65 to \$80; 2nd, \$50 to \$65; 3rd, \$30 to \$50.
	Zorra, East,	57,000		\$50.
	Zora, West,	55.032		Ist, \$75; 2nd, \$65; 3rd, \$40.

The first settlers entered the township of West Oxford in 1796, and between that date and 1810, East Oxford and North and South Norwich were successfully opened. Between 1810 and 1833, settlement commenced in all the remaining townships, and the process was completed in, on an average about

remaining townships, and the process was completed in, on an average about 39 years. The soil consists, generally, of clay loam, of which the proportion is about 61 per cent. Sandy loam exists to the extert of about 21 per cent., and the remaining 18 per cent consists of heavy clay sand, gravely, and black loam—the latter preponderating. The clay loam is of a depth varying from 6 to 14 inches, with clay and gravel sub soils; the sandy loam of from 6 to 15 inches, with sand and gravel sub soils. There is no stony or rocky land in the county to interfere with profitable cultivation, and only 30 acres (in the township of East Nissouri) is so hilly as to be objectionable for the purposes of cultivation. About 82 per cent. of the cleared acreage is rolling and cultivable ; about  $6J_2$  per cent. is bottom land ; 6 per cent. swampy is and the remainder wet, springy land. About 60 per cent. of the land is reported first-class for agricultural purposes, 21 per cent. second-class, and reported first-class for agricultural purposes, 21 per cent. second-class, and the remainder third class.

The county is well watered. The township of Dereham reports few springs and creeks. Water is obtained by digging, at depths varying from 12 to 180 feet.

About 85 per cent. of the cleared acreage is free from stumps. A small proportion of the stumps remaining are pine. About 68 per cent. of the farms are under first-class feace, consisting, mainly of cedar and ash rails, wire and pine boards.

About 65 per cent of the farm houses are reported to be of brick, stone, or first-class frame; the remainder are log, or inferior frame. Of the outbuildings about 65 per cent. are reported to be superior; the remainder are inferior.

Considerable progress has been made in this county in the way of drainage In North Norwich, the land has been under-drained with tile to the extent of 25 per cent. and in East Oxford.  $\frac{1}{2}$  of the cleared acreage is reported to have partially tile drained. In every township, tile drainage is being prosecuted with the best results.

About 89 per cent. of the farmers use improved labour-saving machines for

Salt and plaster are largely used in this county, on grain and root crops, clovers and meadows—plaster in the proportion of 100 lbs. to an acre, and salt from 50 lbs. to 200 lbs. to an acre.

About 78 per cent. of the uncleared acreage is reported fit for cultivation, if cleared and drained.

The township area of Oxford is given as 470.376 acres; the cleared area as The township area of Oxtord is given as 470.376 acres; the cleared area as  $315,587\frac{1}{2}$  acres. Of the latter about 10 per cent. (omitting Dereham and East Zorra, which do not report) is devoted to fall wheat; spring wheat, about 4 per cent.; turley, about 5 per cent.; oats, about 15 per cent.; rye, (only cultivated to the extent of 720 acres in South Norwich); peas, about 11 per cent.; corn, 3 per cent.; buck wheat, none grown, except 350 acres in south Norwich); potatoes, about 1 per cent.; turlips, about 2 per cent.; other root crops, rather less than 1 per cent.; hay,  $14\frac{1}{2}$  per cent. About  $22\frac{1}{2}$  per cent. of the land is devoted to pasturage, and rather less than 2 per cent. to orchards. Flax is cul-

tivated to some extent in North and West Oxford and West Zorra. The county is well adapted for mixed husbandry, but in several of the town-

county is well adapted for mixed husbandry, but in several of the town-ships dairying is a speciality. The townships sustain 44,730 horned cattle, 15,752 horses, 28,667 sheep, 12,715 hogs. The horses are generally bred from imported stock—princi-pally Clydesdales—for general purposes. The cattle are grades—principally Ayshires and Durhams. The sheep Leicesters, Cotswolds, Southdowns and Lincolns, and the hogs, Berkshire, Suffolk and Yorkshire. About 17 per cent, of the entire area is under timber, consisting of pine, cedar, beech, maple, elm, ash, basswood and oak; used for lumber, fencing, frewood building nurroses and railway ties.

cedar, beech, maple, eim, ash, basswood and oak'; used for lumber, fencing, firewood, building purposes and railway ties, Oxford has unexceptionally good markets and facilities for reaching them The Great Western and Credit Valley Railways are crossed by the Port Dover and Lake Huron Railway at Woodstock, and the Brantford Norfolk and Port Burwell strikes the Canada Southern in the township of Dereham, besides which the Grand Trunk runs through the townships of Blenheim, Blandford and East Zorra Zorra.

Zorra. Oxford has 48 cheese factories and 3 creameries, 8 flouring mills 5 saw mills, 2 carding mills and 3 oat mi<sup>1</sup>ls. There are also several extensive agricultural im-plement factories, a cheese box factory, carriage and waggon factories and a drain tile yard, in addition to the ordinary industries attendant upon a farming community. Oxford is entitled to credit for having been the first county in Ontario to enter largely into cheese making on the factory system. This sys-tem was introduced by the late Mr. Harvey Farrington, of Herkimer county, N. Y., who settled in Oxford in 1863 or 1864.

The population of Oxford, according to the last census, was 50,093.

WE DIFICE OF THE MUNISTED OF AGRICULTU

PEEL COUNTY.

COUNTY TOWN, BRAMPTON. POPULATION, 2,920.

Contains the following townships, with acreage and average values for 1st, and and 3rd class land in 1881, as follows :

Albion,	55,070	acres,	Ist,	<b>\$00;</b>	2nd,	\$30;	3rd,	\$15.	
Caledon,	69,000			50;		30 .	""	12 to \$15.	
Chinguacousy,	80,400	"		70:		50;	"	30.	
Toronto,	65,024		\$50	to \$70	0.	30,		30.	
Toronto Gore,	19.000		Ist.	\$70:	and.	\$10			

Toronto Gore, 19,000 "1st, \$70; and, \$50. The first settlers entered Toronto township about the year 1808, and the four remaining townships of Caledon, Chinguacousy, Albion and Toronto Gore, were all entered in 1819. The county was wholly settled in, on an average, a little over 25 years from the entrance of the first settlers. The soil of this county consists mainly of heavy clay, clay loam, and sandy loam—the former to the extent of about 23 per cent.; clay loam, 33 per cent.; and sandy loam, 22 per cent. The remainder consists of sand, and gravelly and black loam—a large proportion of the acreage of Caledon (30,000 acres) consisting of large gravel and rock, and 13,000 acres of black loam. The sub soil of the clay loam is generally clay resting upon rock; of heavy clay, gravelly clay; and of sandy loam, ad, clay and gravelly. The depth of soils and sub-soils varies in the sevent ships, and cannot be averaged from the reports. About 11,100 acres don, Albion and The depth of soils and sub-soils varies in the sever ships, and cannot be averaged from the reports. About 11,100 acres don, Albion and Chinguacousy township are reported to be too stony crucky for profitable cultivation : one-third of Albion and Caledon, and 1,000 acres in Chingua-cousy, are so hilly as to be objectionable for the purpose of cultivation. About 48½ per cent. is rolling and cultivable ; about 9 per cent. is bottom, and a small proportion wet and swampy land, except in Caledon, which re-ports 19,000 acres as coming under those heads. About 69 per cent. of the band is reported to be first-class for agricultural purposes 26 per cent. land is reported to be first-class for agricultural purposes, 26 per cent, second-class, and the remainder third-class

The county is well watered, but natural springs are reported scarce in To-ronto Gore. Water can be obtained by digging at depths varying from 8 to 100 feet. There is a good deal of running water in Caledon township. About 90 per cent, of the cleared land is free from stumps. The stumps

About 90 per cent, of the cleared land is free from stumps. The stumps remaining are principally pine. About 55 per cent, of the farms are under first-class fence, consisting main-ly of cedar rails, stone, wire and pine boards. About 64 per cent of the farm dwellings are reported first-class; the re-mainder are log or inferior frame. About 58 per cent, of the outbuildings are provided are inferior. superior and the remainder are inferior.

Very little drainage has been effected in this county. About 1, coo acr. have been underdrained in Caledon—1/2 with tile. In Toronto Gore, drainage is not found necessary to any great extent, owing to the natural under-drainage performed by the numerous creeks. About 88 per cent. of the farmers use labour-saving machines for seeding

and harvesting.

About 33 per cent. of the farmers use facour-saving machines for seeding and harvesting. About 33 per cent. of the farmers in the townships of Albion, Caledon, Chinguacousy and Toronto use salt and plaster—the former mostly on grain crops, and the latter on clover. corn and meadow lands, both in the proportion of about 100 lbs. per acre. In Toronto Gore salt, plaster and lime appear to have been used with differing results, owing to the diversified character of the soil in that township, and plaster has not, on the whole, been found useful. Omitting Caledon, which makes no return under this head, about 85 per cent. of the uncleared acreage would be suitable for cultivation if cleared. The township area of Peel is given as 289, 294 acres; the cleared area as 232, 887 acres. Of the latter about 13½ per cent. is devoted to fall wheat; spring wheat, 9 per cent.; barley, 10 per cent., oats 9 per cent, rye, hardly any grown; peas. 8 per cent.; curn and buckwheat, not grown as field crops; potatoes, about 1 per cent.; turnips ½ per cent, order root crops, very few grown; hay 10 per cent. About 10 per cent, to orchards. A considersble percentage of the cleared acreage is under fallow, and in Caledon a few farmers raise clover seed. The county is best adapted to grain growing, but in Toron-to to wnship stock raising and dairying are largely followed, with a view to the city market. city market .

Strawberries and grapes are cultivated extensively in Toronto township. The latter are made into wine by the Canada Wine Growers' Association.

The latter are made into wine by the Canada wine Growers' Association. The townships sustain 14,959 horned cattle, 8,532 horses, 17,023 sheep, and 6,782 hogs. General purpose horses are mostly in request, and to a limited ex-tent these are sired by imported stock. Cattle are generally Durham and Jer-sey thoroughbreds and grades; sheep, native, Cotswold, Leicester and South-down; and hogs, Berkshire, Essex and Suffolk. Imported stock has been largely introduced in Toronto township.

About 11 per cent. of the entire acreage is still under timber, eonsisting of beech, maple, hemlock cedar, white and red oak, ash, elm, hickory aud bass-wood. A few pine are scattered in Chinguacousy and Toronto townships. The timber is generally used for fuel, fencing and domestic purposes. Market facilities are exceptionally good. The Toronto Grey and Bruce, the Northern and North Western, the Grand Trank, and the Credit Valley

railways run through the county. Besides the city of Toronto, which is largely supplied with dairy produce by Toronto township and Toronto Gore,

#### PEEL COUNTY,-[Continued.]

there are good markets at Brampton. Georgetown, Orangeville, Alton, Mono Road, Cheltenham, Salmonville and Port Credit.

Peel has 4 cheese factories, 16 flouring mills, 2 foundry and machine shops, (employing about 150 hands); 1 large woollen mill (at Streetsville), when in full work, employing 150 hands. There is also a large red sandstone quarry in Operation in the neighbourhood of Brampton. Among farmers butter

making is the most important county industry. The population of the municipal county of Peel, was according to the last census 26, 175.

- census 26, 175.
  Township of Caledon.
  1442-100 acres (less 7 acres cut off by R. R.); our cleared and in good state of cultivation. The balance of the land is timered with basswood, cedar and hardwood. Land is a little stony and falls gently to the south. Frame house in a good state of repair. Large bank barn with good stabiling underneath. A good orchard. School ½ mile; church 1½ miles, and market and R. R, Station on corner of the lot. Price \$5,650 cash.
  1473-Farm said to contain 200 acres (but which overruns by 14 acres), of which 175 acres are cleared and under cultivation, and 8 acres that never have been worked, and 15 acres bush. Soil sandy loam. Cleared land is entirely free from stuffps. Watered by three living springs and a well. Only about 2 acres of waste land. Good board fences all around outside; other fences rail. Old orchard of 60 trees, and young orchard of 50 trees. Two frame houses, one 20x30 and the other 18x24 with lean-to 14x24. Frame barn 30x60; granary 12x18. Log barn and stable 18x24 with stone cellar 12x18. About two miles from the village of Alton, where there are two flouring mills, foundry, stores, &c. Three quarter of a mile from stuffy. two flouring mills, foundry, stores, &c. Three quarter of a mile from school. About 4 miles from Orangeville, the county seat of Dufferin, where there is monthly fair held and a good market. One mile from G. T. R'y, station and ½ half mile C. V. R'y, station at Acton. Immediate pos-session can be given provided present owner is allowed to take off growing crops. Price \$37.50 per acre, payable one-half down and the balance on time to suit the purchaser.

## PERTH COUNTY.

COUNTY TOWN STRATFORD; POPULATION, 8,239.

Contains the following townships, with acreage and average values for 1st, 2nd and 3rd class lands for 1881, as follows :---

Blanshard,	45,910	acres,	Ist, \$75; 2nd, \$50 to \$65.
Downie,	48,468		\$50 to \$90; average about \$60.
Ellice,	54,370		\$65 for good land.
Elma,	67,500		1st, \$40; 2nd, \$25; 3rd, \$10.
Fullarton,	40,004	"	\$60 to \$80.
Hibbert,	41,332		between \$40 and \$60.
Easthope, North,	43,127	64	about \$50.
Easthope, South,	23,259	"	Ist, \$55 ; 2nd, \$40 ; 3rd, \$30.
Logan,	53.7.5	**	\$60 to \$35.
Mornington,	50,387	++	Ist, \$50; 2nd, \$30; 3rd, \$10.
Wallace,	49,850	**	\$40 to \$60.
 		.1	

The whole of the townships in this county were entered by settlers between 1829 and 1850, commencing with South Easthope and ending with Elma and Wallace. Nine out of the eleven townships may be considered settled— the process having occupied on an average 17 years. The township of Ellice reported two thirds settled, and the township of Logan to the extent of

is reported two-thirds settled, and the township of Logan to the extent of about 85 per cent. Clay loam is the predominating soil, the proportion being about 64 per cent. Heavy clay is found to the extent of about 17 per cent., and black loam, 11 per cent. The remainder is divisible between sand, sandy loam and gravelly. The clay loam varies in depth from 8 inches to 2 feet, with a sub-soil of sand or hard clay, with limestone. The heavy clay has a depth of from 2 feet to 10 feet, with a stony<sup>\*</sup> and gravelly sub-soil. There is no stony, rocky or hilly land reported in the county. About 86 per cent, is rolling and cultivable; about <sup>m</sup> per cent, is bottom land, and the remainder is swampy and springy. About 57½ per cent, of the clared acreage report-ed to be first class for agricultural purposes, about 30 per cent, second-class. ed to be first class for agricultural purposes, about 30 per cent. second-class, and the remainder third-class.

The county is well watered by springs, creeks and wells; also by the head aters of the River Thames. Water can be obtained by digging at depths waters of the River Thames. About 69 per cent. of the cleared acreage is free from stumps. Of those re-

About 69 per cent, of the created acteage is not non-standport of those te-maining, an inconsiderable portion are pine. About 43½ per cent, of the farms are under first-class fence, consisting principally of ash and cedar rails, pine and hemlock boards, and wire. About 48 per cent, of the farm houses are reported to be of brick, stone, or first-class frame—the remainder are log or inferior frame. About 60 per cent.

of the outbuildings are superior, and 40 per cent. inferior. About 16½ per cent. of the cleared acreage is reported to have been drained —probably to the extent of 1/3 with tile. About 84 per cent. of the farmers use labor-saving machines for seeding and

harvesting.

Salt is used to a limited extent, pobably 14 per cent., in the proportion of

from 200 to 400 pounds per acre on grain and root crops. With proper drainage all the uncleared lands in the county would be suit-able for cultivation if cleared, with the exception of about 1,500 acres of marsh

and in the township of Ellice. The township area of Perth is given as  $518,007\frac{1}{8}$  acres; the cleared area as 278,152 acres. Of the latter (omitting the township of North Easthope, which does not furnish the acreage devoted to the several crops) about  $16\frac{1}{2}$ per cent. is under fall wheat; spring wheat, about 10 per cent.; barley, 9 cent. oats, about 12 per cent.; rye, not grown; peas,  $7\frac{1}{2}$  per cent.; corn,

## PERTH COUNTY,-[Continued]

**PERTH** COUNTY, -[Continued] hardly any grown ; buckwheat, hardly any grown ; potatoes, 1½ per cent. ; tarnips, two per cent. ; other root crops, few grown ; hay, 13 per cent. ; About 21 per cent. is devoted to pasture, and 1½ per cent to orchards. The townships of Blanshard, Ellice; Fullarton and Logan have a limited acreage devoted to flax culture. The county is, on a whole, equally well adapted for grain growing, stock raising and dairying. The townships sustain 42,264 horned cattle, 19,636 horses, 30,337 sheep, and 14,602 hogs. The horses, native and general purpose, with some Clyde blood; few thoroughbreds have been introduced. The cattle are mostly common breeds, with some Durhams grades. The sheep are Leicester Cotswood grades, and the hogs, Berkshire and Suffolk. About 21 per cent. of the entire acreage is still covered with timber, con-sisting of beech, elm, maple, basswood, black and white ash, pine, hemllock, cedar, birch and tamarac, used principally for timber, feneing and firewood. The latter, at the present rate of consumption, is calculated to last for about zo years. It is sold at from \$2.00 to \$2.50 per cord.

20 years. It is sold at from \$2.00 to \$2.50 per cord. Perth possessess good market facilities. The principal markets are at Stratford, St. Mary's Listowel and Mitchell. Stratford being the centre of a great railway system, the farmers are afforded excellent opportunities for visiting distant markets. The Grand Trunk, Port Dover and Huron, Wel-lington, Grey and Bruce, and Buffalo and Lake Huron Railways, run

through the county. The country has besides, excellent gravel roads. Perth contains 30 cheese factories, several agricultural implement, broom, pump and carriage factories, extensive salt works (at Dublin), woollen, grist. oatmeal and saw mills, tanneries, a brewery, a vinegar factory, a brick and drain tile yard, and many smaller industries. Two flax mills at St. Mary's employ 40 hands ; 2 flouring mills, 20 hands ; 1 woolen mill, 30 hands ; and employ 40 manus, 20 hands; 20 hands; 1 woolen mill, 30 hands; and 2 foundries, 20 hands. Listowel has industries employing about 300 hands. of which about 75 are engaged in a cabinet factory, 60 in fouring mills, 30 in carriage factories, and 25 in a flax mill. Stratford has about 160 hands employed in machine shops and foundries; about 200 hands in the work-shops of the Grand Trunk Railway; 40 in cabinet shops; and about 200 in since industries minor industries.

The population of Perth was, according to the last census, 54,985. Apples, pears, plums, cherries, grapes, currants, gooseberries, some peaches, strawberries and raspberries are the fruits cultivated in this country. of the fruit grown apples form 75 per cent. and plums 10 per cent., almost wholly for the home market.

#### Township of Elma.

- 846—Farm of too acres, 85 acres of which are cleared, 3 acres partly cleared 12 acres in standing bush; land gently rolling, and well adapted for wheat growing; soil sandy loam and clay loam; well watered by a branch of the Maitland river, running through the lot; fences good; bank barn (frame), good sized stable under the barn; splendid orchard; crop can be had at a fair valuation if required, and possession given at short notice; plank house 24 x 30; church, school, stores gris, and saw mills, 2 miles distant. price \$3,600, payable \$1,600 cash, balance on time. 852—Farm of 100 acres, 80 acres, of which are cleared, 60 acres free from
- stumps ; soil loam and and clay ; 20 acres bush, consisting of beech, elm, etc. stumps; soil loam and and tray; 20 acres bush, consisting of beech, efm, etc. front level; back rolling; no swamp; 4 drains on farm; good frame barn 40 x 60; good frame house 20 x 24; kitchen 18 x 24; a young orchard of apple, plum and cherry trees; fences good; the place is well watered by 2 never-failing springs; farm implements can be had at a valuation; nearest station and market at Listowel, only 4 miles away; store, post office, grist and saw mills, etc., 2 miles off. Price \$4,500, which is the assessed valua-tion on easy terms of payment. tion, on easy terms of payment.

#### Township of Hibbert.

9-Improved farm of 50 acres more or less except I acre for the right of way of the Buffalo and Lake Huron Railway. The soil is a clay loam slightly of the Buffalo and Lake Huron Railway. The soil is a clay loam slightly undulating with a moderate ridge running across middle of farm, which would answer for a splendid building site. There is on the place 2 frame dwelling houses, I frame bank barn with stabling under, also a frame stable, a draw lime kiln, and a lot of building sand; about 30 acres, partly clear of stumps, 15 acres cleared, the balance bush, containing ash, cedar, pine and elm timber; the timbered part is swamp, being about 4 acres. There are 70 fruit trees, eonsisting of apples plums, cherries, etc. The farm is fenced in with ash rails, and is I mile nom common and high school and all the prin-cipal churches (Protestant and Catholic). Farm fronts on Huron gravel road, about 1 mile from Mitchell market and railway station. There is an abundant supply of spring water, all the year round. Price \$3,500, payable \$2,600 down, and balance on time as may be agreed.

## PETERBOROUGH COUNTY.

COUNTY TOWN PETERBOROUGH. POPULATION, 6,812.

Contains the following townships, with acreage and average value for 1st, 2rd and 3rd class lands in 1881, as follows :---

1st, \$38 2nd, \$25; 3rd, \$1 to \$10.

Asphodel,	38, 142 acres, \$25 to \$50 per acre.	
Belmont,	63,637 , \$8 to \$30 per acre.

-Smith,	56,579 "	Ist, \$40; 2nd, \$30; 31d, \$20.

The township of Asphodel was entered by the first settlers in 1817, North Monaghan and Smith in 1818, and Otonabee in 1820. From the latter date the other townships gradually filled until, in 1858, some of the land in Galway was occupied, but some of the older townships—Belmont in particular—are still sparsedly settled, and only two townships of Burleigh, which makes no return under any of the different heads, and Smith, which does not give the pro-portion of land settled, about 68 per cent. of the area of Peterborough may be considered settled. onsidered settled.

The character of the soil in this county is very variable. Heavy clay exists in The character of the soil in this county is very variable. Heavy clay exists in the proportion of about 5 per cent.; clay loam, 35 per cent.; sandy loam  $28j_2$ per cent.; sand, 7 per cent.; black loam, 9 per cent.; and gravelly,  $8j_2$  per cent. About 33 per cent of the entire acreage is too stony, or has rock too near the surface to be profitably cultivated, and probably about 4 per cent. is so hilly as to be objectionable for the purpose of cultivation. About 60 per cent. is set down as rolling and cultivable; about 6 per cent. is bottom,  $10j_2$  per cent swampy, and a considerable portion—not determinable—wet, springy land. About 21 per cent. is reported first-class for agricultural purposes, about  $22j_2$  per cent. second-class, and the remainder third-class. Water can be

Water can be Peterborough is well watered by springs, creeks and wells.

obtained by digging at depths varying from 4 to 60 feet. A large portion of the cleared acreage (not determinable, owing to the in-complete and unsatisfactory character of the returns, but about 30 per cent.) is

clear of stumps. A good many of the stumps remaining are pine. About 57 per cent. of the farms are under first-class fence, consisting mainly of cedar rails and pine boards.

About 29 per cent. of the farm houses are of brick, stone, or substantial frame—the remainder are log, or of inferior frame. About 35 per cent. of the

outbuildings are first-class; the remainder are inferior. Tile drainage has made considerable progress in the township of Otonabee, but little has been done in other townships, excepting with stone and timber. About 45½ per cent. of the farmers use improved machinery for seeding and

About 45% per cent of the faillets are impleted at the some of the town-harvesting. Salt, lime and plaster, are used to a limited extent in some of the town-ships; but in Monaghan, Otonabee and Smith; they are largely employed on grain roots and clover. Lime is used to the extent of 50 bushels per acre, and salt and plaster too lbs, per acre. Probably about 50 per cent. of the uncleared land would be suitable for cultivation, if cleared and drained. The township area of Paterborough is reported to be (omitting Burleigh,

The township area of Peterborough is reported to be (omitting Burleigh, The township area of Peterborough is reported to be (omitting Burleign, which makes no return) 476, 32434 acres, and the cleared acreage 259, 337%acres. A considerable acreage is under fall wheat; spring wheat is more largely grown; coats, also largely grown; rye, considerably grown, peas. largely grown; corr; very little grown, an uncertain crop; buckwheat, very little grown; potatoe; about 1% per cent.; turnips, not many grown; other roots, few grown; hay, 10 $\frac{1}{2}$  per cent. A large proportion of cleared and uncleared! and is devoted to pasturage, and rather less than 1 per cent. to or the whole the source is about the adapted it orgain growing. orchards. On the whole the county is about equally adapted to grain growing.

Stock raising and dairying. The townships sustain 17,396 horned cattle, 6,781 horses, 14,770 sheep and 5,140 hogs. There is some thoroughbred stock in the county, but native breeds preponderate. There are indications, however, of a desire on the part of the farmers to improve all classes of stock.

A large proportion—not far short of  $\frac{1}{2}$  of the area—is under timber, consisting of pine, cedar, beech, maple, hemlock, basswood, tamarac, birch, and ash, used for timber, fencing, filewood, shingles, bolts, railway ties and tele-

ash, used for timber, fencing, filewood, shingles, bolts, railway ties and tele-graph poles. Bush fires have destroyed large tracts, particularly in the town-ship of Harvey. There are good markets, both within and without the county. Peterbor-ough, Bellville, Hastings, Norwood, Kinmount, Bobcaygeon and Omemee, are roost frequented, and generally, they are easy reached. The Grand Junction Railway is now opened to Peterborough, and the Midland Railway has a sta-tion at Peterborough and a terminus at Lakefield; besides which there is excel-lent navigation on Rice Lake during the summer season. There are several small industries in the incorporated village of Norwood, in the township of Asphodel. There is also a steam bending factory, where is produced waggon and sleigh materials which are shipped to different parts of the world. Iron mining is carried on extensively in the township of Bel-mont. There are Scheese factories working in the townships of Asphodel. Belmont, Dummer, Otonabee, and Smith. The population of Peterborough was, according to the last census, 34,324

#### Township of Chandos.

662—Good farm of 100 acres,  $3\frac{1}{2}$  miles distant from the thriving village; 50 acres cleared, well fenced, and in a good state of cultivation, with young orchard. House 26 x 32, well finished; barn 28 x 44 : cow stable 15 x 26; horse stable 15 x 20; two root houses and plenty of water. Price \$800, cash.

#### PETERBOROUCH COUNTY, --[Continued] Township of Calway.

859—Farm of 95 acres, of which about 60 acres are cleared, and in a good state of cultivation, soil clay loam well fenced : 40 acres comparatively free from stumps ; 35 acres good hardwood bush ; living water on the premises ; land rolling ; log house and log barn all in good repair ; house 18 x 24, i a few apple trees bearing ; this property is situated on the main road leading from Bobeaygeon to Kinmount; best market at Bobeaygeon 8 miles east from Fells station on Victoria R. R. school ¾ mile. Price §1,200 cash. Posterior et any time.

session at any time. 802—Farm of 100 acres, of which 38 acres are improved, about 12 acres are free from stumps, and 50 acres not improved ; nearly free from swamp ; soil The from stamps, and 50 acres not improved; hearly free from swamp isoil is a sandy loam. On the unimproved portion, there grows a splendid bush comprising cedar, hemlock, beech, ash, elm, ironwood, sugar maple, birch, etc. Land is gently rolling, sufficient for drainage. There is a good log house and bara on the place. The fences are mostly cedar, and the greater part new.  $\frac{1}{2}$  of a mile to school and R. C. church; 2 miles to English church, and 3 miles to railway station and market. Possession can be given at any time. Price \$700, payable \$350 down and balance in 3 years with interest at 7 per cent. interest at 7 per cent.

All the townships reported upon appear to have been entered and more or less settled between the years 1823 and 1856. Not more than 4 townships however, can be set down as wholly settled, and in those a portion of the land

however, can be set down as wholly settled, and in those a portion of the land is said to be unfit for cultivation. There is a large area of rocky, stony and gravelly land in the county, which will never be utilized for farm purposes. The proportion, as nearly as can be estimated by the returns, is in the neighborhood of 34 per cent. Of heavy clay there is about 8 per cent.; clay loam, 10½ per cent.; sandy loam, 30½ per cent.; sand, 19 per cent.; gravelly, 11 per cent.; black loam,  $2\frac{1}{2}$  per cent. (These figures must be assumed to apply to the cultivable area only.) The balance is made up of bottom, swampy and springy land, more or less suscepti-ble to drainage. Of the cultivable area about  $9\frac{1}{2}$  per cent. is reported first-class for agricultural purposes, 23 per cert. second-class, and the remainder third-class. third-clas

The whole county is reported to be well watered by springs, creeks and wells. There are also numerous lakes, the Ottawa, Madawaska, Bonnechere and In-dian Rivers, and several smaller streams. Water can be obtained by digging,

at depths varying from 5 to 50 feet. From the nature of the replies to question 16, it is impossible to draw an average of the proportion of land free from stumps. Probably about 20 per cent, is more or less clear, and the stumps remaining are chiefly pine.

The fences are generally of cedar logs, and the proportion reported first class is in the neighborhood of about 11 per cent.

About 5 per cent. of the farm dwellings are reported to be of brick, stone or first-class frame, the remainder are log or inferior frame. Of the outbuild-ings 22 per cent. are superior, the remainder are inferior. Under-drainage has, as yet, made little progress in this county, and tile has not been introduced.

Labor-saving machines are used to a considerable extent in most of the townships. In others they have not either been employed or are in use to a limited extent. Reapers, mowers and sulky rakes, are used to a much greater extent than seeding Units. Artificial fertilizers have not, as yet, been employed in the county, except to an inappreciable extent in the townships of Horton and N-Nab.

#### RENFREW COUNTY, -[Continued.]

About 24 per cent of the ancleared lands are reported suitable for cultivation, if cleared.

The township area of Kenfrew is reported to be 955,404¼ acres; the cleared area is set down as about 204,836¼ acres. Of the latter a small proportion-not determinable—is devoted to fall wheat; spring wheat, rather largely grown; barley, hardly any grown; c its and rve, rather largely grown; peas, considerably grown; corn and buckwheat, little grown; pota-toes, rather less than I per cent.; turnips and othe root crops, few grown; hay, largely grown. A large proportion of the cleared acreage is devoted to pasture, and rather less than ½ of I per cent. to orchards. On the whole, the country is equally well adapted to stock raising. grain growing, or dairying, but in some townships—Grattan for example—stock raising is mostly followed on account of the land being ill-adapted for grain crops. The townships sustain 22, 372 horned cattle, 6,839 horses, 25,369 sheep, and 8,731 hogs (omitting the township of Bagot, which returns no hogs). The common breeds of stock are generally raised, but some townships are importing good stalkions, bulls and rams, and the breeds will, consequently

importing good stallions, bulls and rams, and the breeds will, consequently About 40 per cent. of the entire area is still timbered. Red and white

pine exists in large quantities. There is also an abundant supply of ash, elm, maple, basswood, spruce, cedar, tamarack, balsam, poplar, beech and hemlock. Lumbering is extensively carried on for exportation to European and American markets. The hardwoods are chiefly used for fuel, and cedar for fencing.

for fencing. Renfrew has good markets at Pembroke, Arnprior, Renfrew Village, and Cobden, a station on the Canada Central Ry., but a large part of the farming population sell all their spare produce to lumbermen, and depend wholly on that industry. Ottawa and Montreal are easily reached by railway all the year round, and by the Ottawa River in summer. There is a wollen factory in Admaston ; saw and grist mills and cloth fac-in Reomlay iron foundries. A steam cabinet factories, a woollen mill 2 grist

There is a wollen factory in Admaston; saw and grist mills and contraction in Bromley; iron foundries, 2 steam cabinet factories, a woollen mill, 3 grist, and 2 saw mills, 2 axe factories, a planing mill and sash factory, and a cheese factory in the village of Renfrew; some steam mills, a woollen factory, and 2 foundries in the town of Pembroke; and a carding mill, 2 grist and 2 saw mills in Wilberforce. Lumbering is looked upon as the great industry of the county, but it is carried on almost wholly by outsiders. The population of Renfrew according to the last census, 40,007.

#### Village of Renfrew.

908-Lot 4 and one-half of lot 5 extending from Main street to Argyle street with large wooden carriage shop fronting on Main street and fitted up with horse power, turning lathe, drill, boring machine, planer, upright and circular saws. On this portion of the property there are also lumber sheds, store house, stable and large blacksmith shop, fronting on Argyle street is a good 1½ storey frame dwelling, 26334 with kitchen 18x 24, all lined with brick and well finished with good cellar and well. This is a most desirable property for any one within to corre on the carbon is a most desirable property for any one wishing to carry on the carriage making and blacksmith business, as it has been established here for 20 years, and the property is quite close to the railway station and P. O. Price \$4,000 cash.

## SIMCOE COUNTY, -[Continued]

are pine.

Some of the reports on the fences are similarly unsatisfactory and mis-leading, but in 14 out of the 24 municipalities, the average number of farms under first-class fence is about 32 per cent., the material employed being cedar posts and rails and pine boards.

About  $16_4$  per cent. of the farm buildings are either of brick, stone, or first-class frame; the remainder are log or inferior frame. Of the outbuildings about  $26\frac{1}{2}$  per cent. are superior; the remainder inferior.

Under-drainage has made little progress in this county, but in some town-ships it is gaining in favor. In West Gwillimbury, about ½ of the farms are the drained, and in Innisfil and Tecumseth 1-10. 15 out of the 24 municipalities have not, as yet, made a commencement.

In 15 out of the 24 townships about 51 per cent. of the farmers use improved labor-saving machines. In the remaining townships they are used to a small extent. In the Muskoka townships, they have not yet been found available owing to the clearings not being free from stumps.

In the older townships, salt and plaster are employed to a considerable ex-tent in the proportion of from 100 to 120 lbs, per acre. Plaster on clover, meadow land and roots, and salt principally on cereals.

Taking into consideration the uncertain character of some of the returns, it is probable that about 39 per cent. of the uncleared land in Simcoe would be suitable for cultivation, if cleared. Omitting the townships of Monck, which makes no return, and including the townships of Cardwell, Humphrey, Muskoka, Morrison, Watt, Wood,

the townships of Cardwell. Humphrey, Muskoka, Morrison, Watt, Wood, and Medora, which form part of the electoral district of Muskoka, the town-ship area of Simcoe is reported to be about 1,320,327 ½ acres, and the cleared area about 469,565 acres. Of the latter, as nearly as can be estimated, about 8 per cent is devoted to fall wheat; spring wheat 13½ per cent.; barley very little sown; oats 21 per cent.; rye very little sown; peas 8 per cent.; corn, very little sown; buckwheat, very little sown; potatoes average estimate under seed cannot be estimated; turnips very little grown; other root crops, very little grown; hay about 22 per cent. About 20 per cent. is apparently devot-ed to pasture, and perhaps about ½ of 1 per cent. to orchards. (In some townships all the uncleared land is used for pasture.) Most of the townships are best adapted to grain growing (particularly wheat)—others are adapted to mixed husbandry, steck raising and dairying. The townships sustain 37,842 horned cattle, 20,720 horses, 39,975 sheep, and 19,649 hogs. The horned cattle are chiefly Durham and common grades; sheep, Corswold, Leicester and Southdown; horses, Clydesdale, general pur-pose and roadsters; and hogs, Berkshire, Chester White and Suffolk. Thoroughbred stock has been introduced to a limited extent in some of the townships.

townships.

It is impossible to glean from the returns the total acreage under timber, It is impossible to glean from the returns the total acreage under timber, but probably, over one -half of the entire county area is under maple, beech, elm, basswood, tamarack, pine, hemlock, cedar, balsam, birch, ash and oak. Lumbering operations are very extensively carried on in several of the town-ships, and there is a large amount of business done in hemlock bark (which is largely used within the county, and also exported for tanning purposes), and in railway ties, telegraph poles and shingles. The hardwoods are prin-cipally used for fuel, and the soft woods for building and fencing. The market facilities are on the whole good, though some townships are at a disadvantage from want of railway communication, particularly these in

a disadvantage from want of railway communication, particularly those in the Muskoka district, north of Gravenhurst, the present terminus of the Northern Railway. Simcoe proper is well served by branches of the same road, and by the Midland, the Northern and North-Western, and North

#### SIMCOE COUNTY, -[Continued]

Simcoe roads. There are also tolerably good concession roads, and ex-cellent markets are found in nearly every township. The township of Hum-phrey reports that it can consume all it can raise, while the farmers of other townships rely almost wholly on the lumberman for the sale of farm pro-duce. The county has good water communication, bounded as it is by Lakes Simcoe and Couchiching, Nottawasaga Bay, a large indentation from the Georgian Bay and the River Severn.

The local industries are almost wholly confined to lumbering and to the hemlock bark trade. There are, however, several steam flour mills, some shingle mills, several saw mills, 4 cheese factories, pail, broom and glove factories, a lath mill, and 2 woollen mills, in the county. At Beeton in Te-

cumseth, bee-farming is carried on on a large scale. The population of the municipal county of Simcoe was, according to the last census 76, 129. Mono and Mulmur, which are now incorporated in the new county of Dufferin, were then included in Simcoe,

#### Township of Essa.

-Farm of 136 acres having about 60 acres cleared and in a good state 543—Farm of 136 acres having about 60 acres cleared and in a good state of cultivation, nearly free from stumps and a few rolling stones in some fields. The timber on the balance is beech, cedar, hemlock, maple and pine; about 30 acres of swamp cedar and pine. Soil mostly a sandy loam. land gently rolling. Watered by 3 springs. Well fenced. Small orchard of apple and plum trees. Log house, frame barn 40x32; log barn 30x32 and a small wagon shed. School 1½ miles, church 2 miles, market, R. R. station and steamboat wharf at Barrie, the county Town, 3½ miles distant. Possession can be given at any time. The price may be increased as further improvements and buildings are out upon the land. be increased as further improvements and buildings are put upon the land. Zo acres of fall wheat now in the ground will be sold at a valuation. Price, \$3,000, payable \$.,600 down and the balance in 4 years.

  1382-Farm containing 100 acres, which has 40 acres cleared and under cultivation, but not yet stumped; about 4 acres cedar and the balance is timbered with beech, elm and maple. Land level and watered by a never failing stream which affords good natural drainage. Soil sandy and clay loam. Fences are fair. Good sized frame house. Frame barn 31x50 with stabling underneath. Log barn 18 x 30, and granary 20 x 14. School and church close at hand. Markets and Railway Stations at Creemore and Avening, each 2 miles distant; and at New Lowell and Stayner, each 5 miles distant. Possession can be given at any time. Price \$3,000, payable \$2,000 down and the balance on time.
  1383-Market garden of 20 acres, all cleared and fenced, laving a frontage of
- 383-Market garden of 20 acres, all cleared and fenced, having a frontage of 20 rods on Hurontario street, near the village of Nottawa. Soil sapdy and 1383 20 rods on Hurontario street, near the village of Nottawa. Soil sandy and gravelly loam. Watered by a living stream. Good frame barn 24 x 46. No dwelling. School and churches 30 rods distant. R. R. Station at Nottawa, ½ mile distant. Collingwood, where there are market, R. R. station and steamboat, only 3 miles distant. This is a most eligible site for a private residence or nursery. Possession can be given at any time. Price \$1,250, payable one-half down and the balance as may be agreed. 1384-50 acres, all of which is cleared and in a good state of cultivation. Soil partly clay and partly sandy loam. Land rolling with good natural drainage. Well watered by a small river and living springs. Frame barn 36x50 with 16 ft. posts. Sheds and stables 60x20. Fences good. Church and school at Nottawa, ¼ mile distant. Market and R. R. Station at Collingwood, 3 miles distant. Possession can be given at any time. Price \$3,000, payable \$1,000 down and the balance on time.
- 56—Farm of 100 acres, of which about 10 acres are cleared and in a good state of cultivation; 15 acres of slash nearly ready for clearing, and the balance is timbered with cedar, tamarac and soft wood. Soil is a clay loam. 1386

# SIMCOE COUNTY,-[Continued.]

## Township of Nottawasaga,[Continued]-

- Township of Nottawasaga, [Continued]—
  Land is level, with sufficient fall for drainage. Fences good. Fair-sized frame house. Frame barn 36 x 60, with 18 feet posts. School 1 mile. Church 2½ miles. Market and R. R. Station at Stayner (which is said to be the best mait on the N. & N. W. Ry.) Watered by a running stream and well. 15 acres fall wheat now in the ground which goes with the property at the price named below. Possession can be giv r. at any time. Price \$4,000, payable one-half down and the balance on time.
  1337—Faim of 98 acres, of which 80 acres are clear but not yet free from stumps, balance timbered with mixed wood. Soil is a clay and sandy loam. Land is gently rolling with good natural drainage. Bearing orchard of about 2 acres. Fair-sized frame house. Frame barn 36x60, with eighteen feet posts and underground stabling. Church, school, woollen mills, market and R. R. Station. Possession given in fall. Price \$4,500, payable one-half down and the balance in five years.
  1388—Farm of 100 acres, having 50 acres cleared and in a good state of cultivation. Some rolling stones, but none to hinder cultivation. Soil clay loam. Land is level but has sufficient fall for drainage. Watered by a spring creek, the balance is timbered with beech, rock elm, maple and bass wood. Good roads. Log house and barn. Fences very good. P. O. about 1 mile. Church, school, market and R. R. station at Gler. Yuron, about 20 rods distant. Price \$3,000, payable one-half down ard the balance in the county. containing 200 acres, of which
- about 20 rous distant. Frice \$3,000, payable one-nail down and the balance on time to suit the purchaser. 1389—One of the finest farms in the County, containing 200 acres, of vhich 150 are cleared and in a good state of cultivation and free from stumps and stones; the remainder of the farm is timbered with basswood, beech and maple. Soil is a first class class class large 1 and is pathonally action and stones; the remainder of the farm is timbered with basswood, beech and maple. Soil is a first-class clay loam. Land is gently rolling, with good natural drainage. Fences in good order. Fine two-story brick residence containing on ground floor four rooms besides kitchen and pantry, and up-containing on ground floor four rooms besides kitchen and pantry, and upmaple. Soil is a first-class clay loam. Land is genly rolling, with good natural drainage. Fences in good order. Fine two-story brick residence containing on ground floor four rooms besides kitchen and pantry, and upstairs eleven rooms besides attic, every room heated by furnace. Good cellar under the whole house, and a drain passing from the cellar drains the house. Two barns, one 60x 36, and the other 60x 40, each having 18 feet posts. Granary, cow stable, horse stable and driving house. Pig pen 20 x 40, and all other necessary outbuildings. Brick woodhouse 20 x 30, Well close to the door. Cistern capable of holding 100 barrels of water, also sink in woodhouse to carry off waste water. Good orchard of two acres, all choice fruits. Church and school close at hand. Post Office about I mile. Grist and saw mills, stores, market and R. R. station at New Lowell 4 miles, Creemore 3 miles, and Stayner 7 miles distant. From where the buildings are situated a splendid view of the surrounding country can be obtained. Possession at any time. Crops, stock and implements can be had at a fair valuation. Land produces from 35 to 40 bushels of Fall wheat per acre. Price \$2,000, payable one-half down and the balance as may be agreed upon with interest at 7 % per annum.
  1399 – Farm of 100 acres, of which about 75 acres are cleared and mostly free from stumps and atones ; the balance is timbered with various kinds of wood. Soil is a clay loam. Watered by wells and a running stream. Well fenced. Good frame house. Frame barn. Stable, shed and all other necessary outbuildings. Market and R. R. Station at Stayner on N. & N. W. Ry., I mile distant. Small young orchard. Possession can be given at any time. Crops at a fair valuation. Price \$4,000, payable \$1,000 down and the balance on time with interest at 6 % per annum.
  1400-70 acres of land on the Mad River, having 12 acres cleared ; the balance is timbered with hard wood and cedar. Land rolling, with good natural drainage. Well watered by the river. Churc

Stephenson,	39,728	66	from \$1 to \$10.
Verulam,	56,016		1st, \$40 ; 2nd, \$20 ; 3rd \$10.

The first settlers appear to have entered the township of Emily in 1819, and settlement proceeded very slowly until the last township—McLean— was opened in 1871. Only two townships in the county—Mariposa and Ops --are reported wholly settled, and in those the process occupied, on an average, 321/2 years. The remaining townships are settled to the extent of, on an average, how the remaining townships are settled to the extent of, on an average, about 55 per cent. Sandy and clay loams are reported to be the predominating soils in Vic-

Sandy and clay loams are reported to be the predominating solis in Vic-toria, but some of the townships are extremely rocky, particularly in the northern part of the county, where large tracts now under timber are of such a character as to preclude this idea of their being ever brought under cultivation. Some of the returns from the country are such as to render an exact average of the different soils impossible, while the Townships of Laxton, Digby and Longford, give answers so conflicting as to be untrustworthy. As merely as can be estimated, fully at part out of the unitie accesser is too nearly as can be estimated, fully 31 per cent. of the entire acreage is too stony or rocky for profitable cultivation, while the proportion of rolling cultivable land is about 46 per cent.; the remainder is made up of bottom, swampy, and springy land. About 18 per cent. of the cultivable area is re-ported first class for agricultural purposes, 30 per cent. second-class, and the remainder third class.

Victoria is generally well watered by springs, creeks, ar. wells, but few of the former exist in the township of Ops, and in Dalton there appears to be a similar deficiency. Water can be obtained by digging, at depths varying from 4 to 80 feet. There are many beautiful lakes and numerous streams, which materially help to drain the county.

Except in the more advanced townships, a large percentage of the acreage is still encumbered with stumps, and those nearly all pine. In to townships about 40 per cent. of the farms are under first class fences,

consisting principally of cedar.

Consisting principally of cedar. In 9 townships the proportion of farm dwellings of brick, stone, or first-class frame, average about 27 per cent.; the remainder are log or of infertor frame. Of the outbuildings in 13 townships, those coming under the denomi-nation of first-class average about 28 per cent.; the remainder are inferior.

Very little progress has been made with draining in this county. In Emily and Mariposa, a small proportion is reported under-drained; in Opa, under-drainage is about commencing, and in Stephenson, 5 per cent. of the farms have been in this way improved. It does not appear, by the returns, that tile has been used in any instance.

In 5 townships improved labour saving machines have not yet been intro-duced; in the remaining townships, omitting Laxton, Digby, Longford, and Ryde, they are used to the extent of about 57 per cent. Salt and plaster are used, in the oldest and most advanced townships, on cereals, roots and grass. In only I township (Mariposa) is the proportion given. It is —salt, I barrel per arce; plaster, I barrel to 3 acres. In most of the townships artificial fertilizers are either not used at all or only to an in-appreciable extent.

In 9 townships the uncleared lands reported to be suitable for cultivation, if

The downships the uncerteen and reported to be satisfies for currication, in cleared, are in the proportion of about 57 per cent. The township area of Victoria, omitting the townships of Laxton, Digby, and Longford, which are united for municipal purposes, and from which the returns are unsatisfactory, is given as 772,59644; the cleared acreage, omitting the same townships, is reported to be 236,776. In a number of the township returns the proportions of the acreage devoted to the different cereals, roots, have nearly use and orchards are not even. hay, pasture, and orchards, are not given. Barley, spring wheat and oats,

#### VICTORIA COUNTY, -[Continued]

appear to be the principal grain crops. Some of the townships are best adapt ed for grain growing, particularly spring wheat. Others are better adapted for stock raising and dairying.

stock raising and dairying. The townships sustain 16,556 horned cattle, 7,906 horses, 17,703 sheep, and 7,976 hogs. The horses are nearly all of the general purpose class; horned cattle, sheep and hogs, are principally grades. In Bexley, some thoroughbred Shorthorns have been introduced, and Mariposa and Ops appear to be making rapid advances in this direction. In Stephenson, also, thoroughbred stock has en introduced to a limited extent.

Probably about 50 a number extent of the uncleared land is under timber, consisting principally of cedar, pire, hemlock, maple, birch, beech, basswood, black ash, mountain ash. balsam, tamarack, oak, and elm; used for lumber, fuel, building and fencing.

These are, on the whole, good, but some townships, like Carden and Ryde e at a disadvantage, as compared with others. The Toronto and Nipissing, are at a disadvantage, as compared with others. The Toronto and Nipissing the Midland, the Victoria and the Whitby and Port Perry Railways, traverse the bild and, he victoria and the whichy and Fort Forty Kurtovic the county, and in the old settled townships around Lindsay, there are good roads. In the Muskoka townships a market is found with the lumberers— also at Orillia, Bracebridge and Gravenhuist. For the southerly townships, Lindsay, Omemee, Coboconk, Bobcaygeon, and Fenelon Falls furnish good markets.

There are 6 cheese factories and 1 creamery in Victoria, and several saw, shingle and grist mills, but no other industries, save such as are generally

attendant upon an agricultural population. The total population of Victoria, according to the census of 1881, was 34,

612. Most of the ordinary varieties of fruit are grown in this county successfully. but it does not appear that enough of any variety is raised to supply the home markets. Plums have not, so far, been a success. Fall and winter apples, of certain varieties, and most of the smaller fruits, can be raised to any extent in some localities.

#### Township of Digby.

50

862-Farm containing 154 acres, 40 acres of which are cleared; 10 acres of cedar; balance hardwood; rolling land; deep loam soil, partly fenced; the dwelling is a log house; log barn and stable; railway station within 10 miles; school house, 1 and a half miles; good orchard; good roads; possession after harvest; a spring creek runs past north end of the house; Price \$1,250; \$400 cash; balance on time as may be agreed upon.

#### Township of Eldon.

- 858-Farm of 200 acres, of which 40 acres are cleared; 160 acres in bush ; 60 acres of Tamarak, and rest hardwood; log house and stable; fences good; and situated west of Victoria Koad; about 1 and a half miles from school; 3 miles from church and railway station; soil clay loam; a well and never failing spring of water at the house; possession at any time; price, \$2,300, payable \$300 down, and balance in 8 or 9 years, with in terest at 6 per cent.
- -A good farm of 100 acres, of which about 25 acres are cleared, with 718 very few stumps or stones; 75 acres not cleared, of which about 20 acres can be cleared for 100; soil, clay loam; fences good; log house 18 x 22; can be cleared for \$100; soil, clay loam; tences good; log house 18 x 22; stable 18 x 24, land gently rolling; a never failing creek; the property is cnly a quarter of a mile from school house; 3 miles from a railway sta-tion, 6 miles from Kirkfield, and 9 miles from Woodville. Immediate possession given. Price \$1,500, payable \$600 down, and balance in 9 or 10 annual instalments, with interest at 7 per cent. 719-A splendid farm, only 14 of a mile from Eddon station, T. and N. Ry, containing 100 acres, of which 90 acres are cleared, and 10 acres in good hardwood bush, and no swaups; soil excellent. and in a good state of cultivation; land rolling; three wells on premises, log building in good remair, and fences good; the property is only a guarter mile from school.
- repair, and fences good; the property is only a quarter mile from school, o miles from Woodville, and 5 miles from Kirkfield. Immediate possession given. Property was valued at \$3,600. Price \$2,500, payable \$600 down, and balance on time.

#### Township of Somerville.

796 - Improved farm of 258, of which 90 acres are cleared and mostly in a good state of cultivation, none entirely free from stumps as it is only about 12 years since any of it was cleared; there are about 70 acres of good cedar swamp, the most of which could be cleared for meadow and for stock. The rest of the farm is timbered with maple and heradow land for stock. The rest of the farm is timbered with maple and heradow lock, soil is clay loam, and land gently rolling; there are a few fruit trees, some of them commencing to bear; the place is well watered, as it fronts on Balsalm lake, and there is also a good well convenient to the house; the buildings consist of cedar log house 22x30, frame barn 30x55, cedar loss table for horses and cours the forces are order rolk the read good the buildings consist of cedar log house 22x30, frame baru 30x55, cedar log stables for horses and cows, the fences are cedar rails, the road good and convenient; 2 miles to school, half mile to Methodist church, post office, hotel and store; 7 miles to a good market at Fenelon Falls, and 6 miles to Coboconk station on Toronto and Nipissing Railway. Posses-sion can be given next fall. Price \$4,000; payable \$2,000 down, and bal-ance in time to suit purchaser, with interest at 6 pcc cent. 842-Farm of 100 acres, 35 acres cleared, 15 acres cedar and tamarack, swamp, balance dry, but timber killed by fire; s small creek of living water passes through the lot; about 30 scres comparatively free from stumps;

#### VICTORIA COUNTY, -[Continued.] Township of Somerville,-[Continued]

a log barn 26 x 42, and log stable; the dwelling is log, I storey high  $15 x_{33}$  the farm is situated 5 miles east of Fell's Station on the Victoria R. Waterloo Township was entered in 1800, and from that date until 1834, when Wellesley was opened, the settlement of the remaining townships was rapid. The county was wholly settled in on an average, 31 years from the entrance of the first settlers.

Heavy Clay and sandy loams are the predominating soils of this county. Clay and sandy loams are the predominating soils of this county. Heavy clay exists in the proportion of about  $14\frac{1}{2}$  per cent. (nearly all in the Town-ship of Wellesley); clay loam, 36 per cent.; sandy loam, 25 per cent.; sand,  $4\frac{1}{2}$  per cent.; gravelly,  $12\frac{1}{2}$  per cent.; and black loam,  $6\frac{1}{2}$  per cent. The heavy clay is of varying depth, from a few inches to 5 feet, with clay, sand and gravelly subsoils ; the clay loam is from 7 to 18 inches deep, with clay, sand and gravel subsoils ; the sandy loam is from 5 to 18 inches deep, with sand and gravel subsoils ; the sand is from 5 inches to 5 feet, with sand and gravel subsoils; the sandy loam is from 5 to 18 inches deep, with sand and gravel subsoils; the sand is from 5 inches to 5 feet deep, with sand and gravel subsoils; the gravelly is from 6 inches to 9 feet deep, with gravel subsoils; and the black loam, from 11 to 30 inches deep, with clay, sand and gravel subsoils. There is very little hilly land in the county objectionable for the purposes of cultivation, none too stony or rocky for profitable cultivation, about 9 per cent. bottom, 2 per cent. swampy, and 1 per cent, springy land. About 66½ per cent. of the area is rolling and cultivable. About 31 per cent, is reported first-class for agricultural purposes, 53 per cent. second class, and the remainder third-class. the remainder third-class.

The county is well watered by springs, creeks and wells. Water can be ob-tained by digging, at depths varying from 10 to 100 feet. In the Township of Wilmot, it is reported that there are about 15 wells sunk to a depth of from 70 to 100 feet.

About 93 per cent. of the cleared aoreage is free from stumps : those remain-

About 93 per cent, of the cleared aoreage is free from stumps : those remaining are principally pine. About 70 per cent, of the farms are reported to be under first-class fence, consisting of cedar, pine boards, black ash, stumps, and wire, which latter is being largely employed in the Township of Wilmot. About 74 per cent, of the farm dwellings are reported to be of brick, stone, or first-class frame—the remainder are of log, or inferior frame. Of the outbuildings 79 per cent, are first-class, the remainder are inferior. Nearly 10 per cent. of the farms in Waterloo have been underdrained, principally with tiles.

pally with tiles.

About 91 per cent. of the farmers use labor saving machines for seeding and harvesting

About 38 per cent. of the farmers use salt, lime and plaster, on cereals, roots and grass. In Willot 300 lbs of salt per acre is used; in Waterloo, 200 lbs. Plaster is used principally on clover and meadow land, in the proportion

of from 70 to 100 lbs. per acre. About 861/2 per cent. of the uncleared land is reported suitable for cultivation if cleared.

The township area of Waterloo is given as 305,250 acres; the cleared area The township area of Waterloo is given as 305,250 acres; the cleared atea as 220,517 acres. Of the latter, about 14 per cent. is devoted to fall wheat; spring wheat, about 8 per cent.; barley, about 6 per cent.; onts 11 per cent. rye, very little sown, peas, about  $7\frac{1}{2}$  per cent.; corn and buckwheat, very little grown; potatoes, 1 3.5 per cent.; turnips, about 3 per cent.; other root crops, about 1 per cent.; hay, 11 3.5 per cent. About 13 per cent. is devoted to pasture, and about 2 per cent, to orchards. In Wilmot and Woolwich, flax is grown to a considerable extent, and the former township reports 10 per cent. as

Price \$7,200, marble \$7,200, barned a schools, and convenient to churches. payable \$3,000 down, balance in 6 or 7 equal yearly instalments with interest at 6 per cent.

# WELLAND COUNTY.

COUNTY TOWN, WELLAND. POPULATION, 1,870.

Contains the following townships, with acreage and average value for 1st, and and 3rd class lands in 1381 as follows :---

Bertie	35,269	acres	about \$40.
Crowland,	19.193	**	\$45.
Humberstone,	29,833	**	Ist, \$80 ; 2nd, \$50 ; 3rd, \$30.
Pelham, about	28,800	**	1st, \$70 ; 2nd, \$45 ; 3rd, \$28.
Stamford,	21,622	,.	1st, \$50; 2nd, \$30.
Thorold,	22,590		\$30 to \$60.
Wainfleet,	53,000	**	Ist, \$50 ; 2nd, \$30 ; 3rd, \$10.
Willoughby,	18,639	"	Ist, \$40; 2nd, \$30; 3rd, \$20.

The whole of the townships in Welland were entered and largely occupied between 1780 and 1790. 7 out of the 8 townships are now wholly settled. Omitting Humberstone, which does not report under this head, it took, on an average, about 49 years to complete the process. The township of Wainfleet, which was entered in 1790, is now reported three-fourths settled. Heavy clay exists in this county to the extent of about 26 per cent, with a

Heavy clay exists in this county to the extent of about 26 per cent, with a depth of several [eet, and resting on rock; clay loam 31 per cent., with a depth of several [eet, and resting on clay; sandy loam, 1134 per cent., with a depth of several feet, and resting on clay; sand, 7 per cent., (depth and subsoil not given); gravelly, 10 per cent. (depth not given) but resting on hardpan and rock; black loam, 1634 per cent., about 1 foot deep and resting on clay. The quantity of stony, or rocky and hilly land in the county of a kind to be objectionable for cultivation is inappreciable; about 2334 per cent. is rolling and cultivable, about 243 in Humberstone and 34 in Wainfeet is bottom land, about 4 per cent. is swampy, and a very small proportion wet, springy land. (The returns leave considerably over  $\frac{2}{5}$  of the cultivable area unaccounted for.) About 50 per cent. however, is reported to be first class for agricultural purposes,  $\frac{13}{2}$  per cent. second class, and the remainder third-class. third-class.

The county is well watered by springs, creeks and wells, and the Niagara and Welland rivers. Water can be obtained by digging, at depths varying from I to Ioo feet.

As nearly as can be estimated, about 81 per cent. of the farms are free from

As nearly as can be estimated, about 81 per cent, of the farms are free from stumps. Of those remaining very few are pine. About 74 per cent, of the farms are reported to be under first-class fence, consisting principally of oak and ash rails, cedar posts, wire and pine boards. About 64½ per cent, of the farm dwellings are of brick, stone, or first-class frame; the remainder are log, or of inferior frame. Of the outbuildings about 57 per cent, are first-class; the remainder are inferior. Very little drainage har been effected in Welland, and in no instance does tile seem to have been employed. Nearly all the farmers in this county use improved labour-saving machines

Nearly all the farmers in this county use improved labour-saving machines

for seeding and harvesting. Plaster, lime and salt, are used in some townships on cereals, grass and

### WELLAND COUNTY .- [Continued]

roots. In Stamford, plaster appears to have been applied to the extent of 300

Ibs. per acte. About 96 per cent, of the uncleared land is reported to be suitable for cul-tivation, if cleared.

tivation, if cleared. The township area of Welland is given as  $228,946\frac{1}{2}$ ; the cleared area as 141,418 $\frac{3}{4}$ . Of the latter about 16 $\frac{1}{2}$  per cent. is devoted to fall wheat; spring wheat, scarcely any grown; barley, about 3 per cent.; oats, 13 $\frac{1}{2}$  per cent.; rye, hardly any grown; peas,  $3\frac{1}{2}$  per cent.; corn, about 8 per cent.; the cleared area as other root crops, very little grown; hay, 23 $\frac{1}{2}$  per cent. The count is devoted to pasture, and 4 per cent. to orchards. The county is equally well adapted for grain growing, stock raising and dairying. Fall wheat, beans, and clover seed are the principal crops. The townships sustain 13,640 horned cattle, 8,203 horses, 14,235 sheep,

The townships sustain 13,649 horned cattle, 8,203 horses, 14,235 sheep, and 7,164 hogs. The horned cattle are principally Durham and Jersey grades, the horses—heavy draught and general-purpose (some imported thorough-breds); sheep—Leicester, Cotswold, Merino and Southdown; and hogs— Berkshire and Chester Whites. About 18 per cent of the area is still under timber consisting of break

About 18 per cent. of the area is still under timber, consisting of beech

About 18 per cent, of the area is still under timber, consisting of beech, maple, oak, ash, basswood, elm, hemlock, poplar, birch, chestnut, walnut and butternut; used for ship building, house-building, fencing and fuel. Welland is well situated with regard to market facilities. Four railways traverse the county, and there are besides excellent gravel roads in every town-ship. There are good markets at St. Catharines, Welland, Thorold, Clifton, Port Colborne and Dunnville. The traffic on the Welland Canal and the ex-tension methods in every towns of the could demand for fur unoduce

tensive works in progress, create a large local demand for farm produce. There are no local industries reported, except a saw mill at Black Creek and 3 small cheese factories.

The population of Welland, as now municipally constituted, was, accord-ing to the census of 1881, 26, 152. Peaches, grapes and other fruits are very largely grown in Pelham and other townships. The Fonthill Nurseries are extensive and celebrated.

#### Township of Pelham.

1306—Farm containing 200 acres of excellent clay loam, a great quantity of it black loam in the best order as there has been a number of horses and cattle fed on the property for years. About 170 acres cleared, free from stumps, and the balance is timbered with pine, oak, beach and maple, the timber being very good and heavy; Well feneed, part being new wire fence. The buildings consist of a good 1½ story frame house with kitchen and wood-house in the rear. A large barn and extensive stables and sheds, loo new atchle act det divide house out on beact the stables and sheds, Hence. The buildings consist of a good  $1\frac{1}{2}$  story frame house with kitchen and wood-house in the rear. A large barn and extensive stables and sheds, also new stable and driving house put up about one year ago. Good or-chard of grafted fruit and a quantity of small fruits. Well watered and drained. Three miles from Jordan and seven miles from the City of St. Catharines. Close to churches. School within one-half mile. Price 510,000, payable half down and the balance rs may be agreed upon at the time of sale.

#### Township of Stamford.

1059-A farm of 128 acres, of which about 110 acres are improved, and 18 acres of bush; timber mostly oak, ash, bech and maple; about 90 acres free from stumps. Soil chiefly clay loam. Land gently rolling. Wat-ered by spring creek, running through close to the stables, and by a well at the house; two orchards, one old and the other just lately set out; large brick house, with 10 rocms; good frame barn 36 x 60, with stables underneath ; driving house 18 x 24; wood house,  $\mathcal{S}$ c. School, blacksmith shop and store, on next lot, 4 miles from Niagara Falls; 12 miles from St. Catharines; 6 miles from Clifton. Churches of all kinds close at hand. Price \$7,000, payable half down, and the balance in 7 years, with interest

Price \$7,000, payable half down, and the balance in 7 years, with interest at 6 per cent. per annum. 259—Fine farm of 410 acres, having 380 acres improved, free from stumps and stones and in a good state of cultivation ; 30 acres hardwood bush, no broken land, soil sandy loam, land is level, but has sufficient fall for drainage; partly underdrained with tiles; watered by 7 good never failing wells; orchard of 2,000 peach and 2,000 apple trees, besides cherry and plum trees; 1 acre planted with grape vines. One brick house and 6 frame dwelling houses; the frame houses are at present occupied by tenants and hired hands; good stone cellars under all the houses; one sett of out-buildings is so arranged that it encloses a fine yard which is roofed over; 3 other harns with stabling and every other convenience : 2 driving bouses. 3 other barns with stabling and every other convenience; 2 driving bouses. This property is 2½ miles from Niagara Falls, and in the finest fruit and grain growing district in the province, and might be sub-divided into 3 good farms, leaving ample buildings upon each part. Possession can be given at any time. Price \$30,750, payable ½ down and the balance to suit the parchaser within from 10 to 20 years with interest at 6 per cent. per annum

260-A fine farm of 125 acres, 110 acres cleared and in a good state of cul-A nne tarm of 125 acres, 110 acres cleared and in a good state of cul-tivation; 15 acres of hardwood bush; no rough or waste land; soil, clay loam; land nearly level, but drains well; watered by a flowing well; well fenced; comfortable frame dwelling house, with good stone cellar under neath; good barns, sheds, and stable;  $2\frac{1}{2}$  miles from Niagara Falls, and in the best portion of the province. Possession at any time. Price 397, 500, payable  $\frac{1}{2}$  down and the balance on time to suit the purchaser, with interest at 6 per cent per annum.

#### WELLAND, COUNTY,-[Continued]

#### Township of Stamford, -[Continued]

1501-Fine fruit farm of 34 acres, all planted with fruit trees and grape vines. 501—Fine fruit farm of 34 acres, all planted with fruit trees and grape vines. Soil sandy loam and in a good state of cultivation. Orchard contains 1000 apple trees planted in 1864, all grafted, chiefly Baldwin's, 'Greening's and King of Tompkin's County : 400 plum trees just commencing to bear : from 1000 to 1500 peach trees; 6000 grape vines which bore 41 tons of fruit in 1881, besides a large quantity of small fruits. Frame dwelling house, about 7 or 8 years old which cost \$1,400, very comfortable, having hall, parlor, dining-room, kitchen and six bedrooms, with necessary closets and outbuild-ion. ings. Good stone cellar with cement floor under the whole house. Frame barn and stables for 10 head of cattle or horses. Good well with windmill and tank, which cost \$125. In front of dwelling, which faces towards the and tank, which cost \$125. In front of dwelling, which faces towards the West, is a natural pine grove, and along the West end of the farm is a strong pine wind break. Most of the farm is fenced with thorn hedges. Distance from Clifton 2 miles, and from Niagara Falls 3 miles. Owner will guarantee \$2,500 from the next year's production. Price \$10,200, payable one-half down and the balance within five years with interest at six per cent. per snoum. annum.

#### Township of Wainfleet.

1532—Farm of too acres, of which 75 acres are cleared and in a good state of cultivation; free from stones and nearly free from stumps. 25 acres good standing timber, chiefly beech, maple, oak and pine. Soil clay and clay loam. Land gently rolling. Watered by running stream; well and cistern at the house. Fences in fair order. Small orchard of grafted fruit. One-and-a-half story frame house 16 by 25, with kitchen in the rear, also wood shed. House contains seven rooms besides hall, pantries and closets. Frame barn 36 x 54; stable and driving house 40 x 36; pig pen. Church and school  $\frac{14}{2}$  of a mile and market at Wellandport  $\frac{3}{2}$  miles distant. Pos-session can be given in spring. This would make a good stock farm. Price  $\frac{5}{5}$ , ooo, payable one-half down and the balance on time, with interest at 6 per cent, per anum. per cent. per annum.

#### Village of Chippawa.

- 478—That fine property known as the homestead of the late John Kirkpatrick, being a 2½ story brick house, with large grounds, containing 16 rooms, and supplied with hot-air furnace, bath-room with hot and cold water, marble mantles, etc., etc., only half an hour's drive from Niagara Falls. Price \$6,000 ; one-fourth cash, balance on time.
- 479-That splendid property known as the residence of the late James Cummings, being a large 2 story brick house, with 2 and a half acres of ground, stone
- and iron fence, and good fishing in front of the premises, which cost originally over \$20,000. The house is fitted up with hot-air furnace, baths, etc. etc., and has a cellar under the whole building. Price \$8,000, one-fourth cash, balance in yearly instalments, with interest at 7 per cent. 480—Also a large number of houses and lots in this village.

#### Town of Welland.

483-Several fine Building Lots.

# WELLINGTON COUNTY.

COUNTY TOWN GUELPH. POPULATION, 9,890.

Contains the following townships with acreage and average value of 1st, 2nd and 3rd class land in 1881, as follows:

Arthur,	68,823	acres	, 1st, \$40; 2nd, 830; 3rd, \$18.
Eramosa,	44,000		1st, 55; 2nd. \$40; 3rd, \$10.
Ērin,	70,400	"	1st. 30 to \$40; 2nd, \$20 to \$30; 3rd, \$10 to \$20.
Garafraxa, West,	46,967	"	Ist, \$55; 2nd, \$40; 3rd, \$25.
Guelph,	37,083	"	Ist, \$60 to \$70 ; 2nd, \$40 to \$60 ; 3rd, \$30 to \$40.
Luther,	89,000	**	1st, \$30; 2nd, \$20; 3rd, \$10.
Maryborough,	57,074		\$30 to \$50.
Minto,	69,020	**	\$30.
Nichol,	26,730	"	\$50.
Peel.	73,858	46	1st, \$50; 2nd, \$30; 3rd, \$15.
Pilkington,	29,202		1st, \$60 ; 2nd, \$40 ; 3rd, \$25.
Puslinch,	58,243	**	Ist, \$60; 2nd, \$30; 3rd, \$15.

With the exception of about 331/2 per cent. in Luther, and a few hundred acres in Arthur, Erin and Maryborough, the whole of Wellington is reported The settled townships, 8 in number, completed the process in, on settled. an average, twenty-four years. Clay and sandy loam are the preponderating soils in this county.

clay exists to the extent of about 13 per cent., with a depth of about 6 inches and resting on a clay sub-soil; clay loam, about 40 per cent., with a depth of from 6 inches to 2 feet, and resting on a sand and gravel sub-soil; sandy loam from 6 inches to 2 leet, and resting on a sand and gravel sub-soft, sandy loam about 29 per cent., depth 2½ feet, sub soil sand; sand, inappreciable, gravelly about 6 per cent., depth variable, with gravelly sub-soft) black loam, about 12 per cent., depth from 1 to 3 feet, variable sub-soils. A very small pro-portion—not determinable—is reported too stony for profitable cultivation

#### WELLINGTON COUNTY, -[Continued]

(except in the township of Erin, which reports 10,000 acres, or about 1.7 of its area), very little is so hilly as to be objectionable for the purpose of profitable cultivation; about 15½ per cent is bottom, and 11 per cent and a small proportion—not determinable—wet, springy land, portion reported rolling and cultivable is about 73½ per cent. cent. swampy, and. The pro For agricul. tural purposes about 451/2 per cent. is reported first class, 31 per cent. second class, and the remainder third class.

Wellington is well watered by springs, creeks and wells; also by branche of the river Speed and other small streams. Water can be obtained by digging at depths varying from 4 to 100 feet.

About 58 per cent. of the cleared acreage is free from stumps. There are hardly any pine stumps remaining, except in the townships of Erin and Pas-linch. The former reports 500 acres, and the latter 1% of the cleared acreage. About 58 per cent. of the fences may be considered first-class, and the material employed is generally cedar rails. Wire fencing has been introduced in the township of Guelph.

About 33 per cent. of the farm houses are reported either of brick, stone or first-class frame; the remainder are log, or of inferior frame. Of the out-buildings about 48 per cent. are reported first-class; the remainder are inferior

Hardly any drainage has yet been effected, though the necessity is ad mitted. Drain tile is reported as just coming into use in the township of Nichol, and some tile under draining has been done in Pilkington, but the other townships have made little or no progress.

About 65 per cent. of the farmers use improved machines for seeding and harvesting. Salt and plaster are used to a limited extent in some of the townships-salt

Shift and phaster are used to a more extern in some of the townships—sain in the proportion of from 200 to 300 pounds per acre, and plaster of from too to 150 pounds per acre. Both agents are used on grain crops, roots and meadow land, but plaster is principally used for roots and clover. About 73/5 per cent. of the uncleared land is reported suitable for cultiva-tion, if cleared and drained.

The township area of Wellington (omitting the non resident area of the townships of Nichol and East Garafraxa (now in the County of Dufferin) which townships of Atchoi and East Garafraxa (now in the County of Puttern) which is not included in the return is given as  $773.250\frac{1}{3}$ ; the cleared area as 439.894. Of the latter (omitting Amaranth and West Garafraxa which re-port "very little grown" "and not largely cultivated," and East Garafraxa,) about 6 per cent, is devoted to fall wheat; spring wheat (omitting Amaranth, which reports "extensively grown," and East Garafraxa), about  $13\frac{4}{3}$  per cent; barley (omitting Amaranth, which reports "extensively grown,"

1534 per cent.; barley (omitting Amaranth, which reports "extensively grown," and Erin), 9 per cent.; oats (omitting Amaranth, which reports "extensively grown," and East Garafraxa), about 12 per cent.; rye, hardly any grown ; peas (omitting Amaranth, which reports "extensively grown," and Erin), about 9 per cent.; corn, none grown ; buckwheat, none grown ; potatoes, about 1½ per cent.; turnips (omitting Amaranth, which reports "extensively grown," and East Garafraxa), about 4½ per cent.; other root crops, few grown; hay (omitting Amaranth, which reports "extensively grown," and Erin), hay (omitting Amaranth, which reports "extensively grown," and Erial, 13% per cent. Omitting Amaranth, which does not report about 16 per cent. 1375 per cent. Omitting Amaranth, which does not report about to ber cent. is devoted to pasture, and a small proportion—not determinable—to orchards. The chief products of Wellington are grain and roots—the latter largely used for cattle feed. The country is well adapted for grain growing, stock raising and dairying, One report says : "More turnips are raised and more beef sold in Wellington than in any other county in Ontario. Barley is a sure crop, and anext headth is another owner owner in the same beef

and agreat breadth is annually sown. The population of Wellington, according to the last census, was 73.535, which included the townships of Amaranth and East Garafraxa, now in the County of Dufferin.

The townships sustain 48,235 horned cattle, 17,167 horses, 47,924 sheep and 15,625 hogs. Of horned cattle, Durham and Durham grades predominate. There are fine herds of Galloways and Devons in the township of Guelph, which ranks as the premier township in the Province for stock raising. The principal markets of the Dominion are supplied from Guelph with fat beeves, principal markets of the Dominion are supplied from Guelph with fit beeves, and in addition large numbers are exported to England. The horses are heavy draught and general-purpose, with some Clydesdale blood; the sheep, Leicester, Cotswold and Southdown; and the hogs principally Berkshire grades. One report says: Wellington possesses better herds and more good stock than any county in the Dominion. Durham blood is largely diffused and a poor beast is becoming a rarity. The county has many importers of thoroughbreds and, in addition to Shorthorns, has herds of Herefords, Galloways and Devons." The city of Guelph, the county seat, of Wellignetic here here mean factures

The city of Guelph, the county seat of Wellington. has large manufactures of sewing machines (which have a world wide reputation), musical instruments and woollen fabrics. There are also a carpet factory, stove foundries, engine and agricultural works, saw, bone and oatmeal mills, and brush. barrel, furniture and cigar factories and breweries. Butter making and pork packing are carried on an extensive scale There are 7 cheese factories and 1 creamery the county.

Wellington has excellent markets, and, thanks to good gravel roads and Wellington has excellent markets, and, thanks to good gravel 'coads and railway communication, no single township is now without good 'acilities for reaching both near and ditsant markets. The county is traversed by the Toronto. Grey and Bruce, Credit Valley, Wellington, Grey and Bruce, Strat-ford and Lake Huron, Georgian Bay, Great Wostern, and Grand Trunk Kail-ways. Guelph, Galt Elora, Orangeville, Mount Forest, Palmerston and Waterloo are among the most frequented markets. Probably about 15 per cent. of the area of Wellington is still timbered with beech, maple, elm, cedar, hemlock, basswood, ash and balsam, used chiefly

326-Lot 96, E. H. Kertland's survey, 1 and a tifth acre. Price \$25 cash.

#### llage of Morriston.

978—A frame Hotel 40 x 30, two stories and a half high; with 2-5ths of an acre, being village lot No. 7; frame stables 40 x 20; licence granted, Price \$1,100, payable one-half down and takets in instalments of \$200 annually, with interest at 7 per cent. per annum transition on completion of purchase.

# WENTWORTH COUNTY.

#### COUNTY TOWN, HAMILTON. POPULATION, 35,961.

Contains the following townships with acreage and average value of 1st, 2nd and 3rd class land in 1881, as follows :---

Ancaster,	45,500	acres,	1st, \$60; 2nd, \$45; 3rd, \$30.
Barton,	14,020		\$40 to \$100.
Beverley,	70,200		1st, \$45 to \$65; 2nd, \$35 to \$45.
Binbrook,	26,500		1st, \$30 to \$60; 2nd, \$20 to \$30.
Flamboro', East,	33,433		1st, \$70; 2nd, \$40; 3rd, \$20.
Flamboro', West,			1st, \$80; 2nd, \$40; 3rd, \$20.
Glanford,	23,039		Ist, \$55; 2nd, \$35.
Saltfleet,	-28,000		\$60.

Most of the townships of this county were entered about the end of the last century. All are reported settled, and, omitting Barton, which does not report,

All are reported settled, and, omitting Barton, which does not report, settlement was completed in about 53 years. Clay and sandy loams are the predominanting soils in this county. Heavy clay exists to the extent of about 12½ per cent., with a depth of about 7 inches, and with a clay sub-soil; clay loam, 38½ per cent., depth from 8 to to inches, sub-soil clay; sandy loam, 20 per cent., depth 8 inches, sub-soil clay; sandy none, except about 1-16 in Ancaster. and about ½ in East Flamboro'; gravel-ly, none, except ¼ in Beverley, 1-20 in Vest Flamboro', and 1-20 in Saltfleet —sub-soil in West Flamboro' gravel and sand; black loam, about 8 per cent., depth 10 inches, sub-soil clay and rock. Very small proportions—not deter-minable— are too stony or rocky for profitable cultivation, or so hilly as to be objectionable. About 6½ per cent, is bottom, probably about a per cent, swampy, and 2 per cent, springy land. About 59 per cent, is reported rolling and cultivable. For agricultural purposes about 55½ per cent, is re-ported first class, 20 per cent, second-class, and the remainder third-class. Wentworth is watered mainly by wells, though there are some good springs and creeks. Water can be obtained by digging, at depths varying from 4 to 60 feet.

feet

About 76 per cent. of the cleared acreage is reported free from stumps. Of those remaining a good many are pine. About 76 per cent. of the farms are reported under first-class fences, consist-

ing of stumps, boards, rails, stone and wire. The latter has been largely in-

troduced in some townships. About 64 per cent. of the farm houses are either brick, stone, or first-class frame; the remainder are log, or of inferior frame. Of the outbuildings about 60 per cent. are reported first-class, the remainder are inferior.

Hardly any draining has been effected, and only in one township (West Flamborough) does any tile appear to have been used. East Flamborough re-ports very little drainage required.

Almost all the farmers use improved machinery for seeding and harvesting. In some townships large quantities of plaster are used—in others scarcely any. On an average (omitting Barton, which does not report), about 27 ½ per cent. of the farmers use salt, plaster and superhosphate, in the proportions of —plaster 150 lbs., salt 400 lbs., and superhosphates 500 lbs, per acre-principally on

hay lands, roots, barley and clover, With the exception of East Flamborough, which does not report, about \$5 per cent. of the uncleared land would be suitable for cultivation, if cleared.

The township area of Wentworth is given as 272, 1903 acres; the cleared The township area of wentworth is given as 2/2, 190/3 acres; the created area as 197, 586. Of the latter, omitting Barton, about 15/2 per cent.; is de-voted to fall wheat; spring wheat very little raised; barley, 9/2 per cent.; oats, about 14/2 per cent.; rye, very little grown; peas, about  $3\frac{1}{2}$  per cent.; per cent.; turnips, very ent.; buck wheat, very little grown; potatoes, about  $3\frac{1}{2}$ per cent.; turnips, very few grown; other root crops, very few grown; hay, about 17 per cent. Probably about 13 per cent. is devoted to pasture, and 4 per cent, to orchards. The county is well adapted to mixed husbandry. Cereals—particularly corn-roots, garden produce, and fruit, are profitably caltivated, Stock raising and dairying are not reported as specialities in this county, though good stock has been introduced, particularly in the township of Glanford.

#### WENTWORTH COUNTY,-[Continued.]

The townships sustain 15,860 horned cattle, 8,982 horses, 16,427 sheep and 7,662 hogs. The horned cattle are mostly Durham, Durham and Ayr-shire grades, and common stock ; horses-general purpose ; sheep-Leices-ter, Southdown and Cotswold ; and hogs-Berkshire, Suffolk and crosses. Probably about 14½ per cent. of the entire area is still under timber, con-sisting of pine, beech, maple, elm, black ash, cedar, tamarac, oak, hickory,

walnut and chestnut ; used for lumber, firewood, fencing, building and gen eral purposes.

Wentworth has unexceptionable markets and good facilities for reaching them. The Great Western, Credit Valley, and Northern and North-West ern Railways traverse the county. The markets at Hamilton, Brantford, Dundas, Galt and Guelph, are largely frequented. No township is at any disadvantage for want of easy and rapid communication.

manufacturing centres of the Dominion, almost every industry being repre-sented there, and it furnishes an excellent market for agricultural products.

The population of Wentworth, not including Hamilton, was, according to the census of 1881, 33,991. The population of Hamilton is, according to a late report, 35,961.

#### **Township of Ancaster.**

- 786-Choice farm of 130 acres, beautifully situated, all cleared, and nearly free from stumps, except about 18 acres of standing beech, maple and pine free from stumps, except about 18 acres of standing beech, maple and pine bush; about 80 acres are sandy loam, and about 50 acres clay loam. A. Mackintosh, grocer. The property includes about 2 acre of laid, with ornamental and fruit trees. Price \$1,500, payable half down and balance as may be agreed

# YORK COUNTY.

# COUNTY TOWN, TORONTO. POPULATION, 86,415.

Contains the following townships, with acreage and average value for 1st, and and 3rd class land in 1881, as follows :--

Etobicoke,	30,000 acres,	1st, \$80; 2nd, \$60.	
Georgina,	34.996 "	\$50 to \$60, best ; \$10 swamp lands.	
Gwillimbury, East,	58,000	1st, \$60; 2nd, \$40; 3rd, \$15.	
Gwillimbury, North,	29,011 "	Ist, \$50 to \$80; 2nd, \$25 to \$50; 3rd, \$10 to \$25.	
King,	86,014	Ist, \$70; 2nd, \$45; 3rd, \$25.	
Markham,	67,578	Ist, \$80; 2nd, \$60.	
Scarboro',	43,020	Ist, \$80 to \$110; 2nd, \$50 to \$80; 3rd, \$10 to \$50.	
Vaughan.	67,510	Ist, \$70; 2nd, \$50; 3rd, \$30.	
Whitchurch,	59.743	Ist, \$60; 2nd, \$40; 3rd, \$20.	
York,	64.400 "	\$40 to \$80.	

All the townships in this county were entered and largely settled between 790 and 1805. The first entered was Markham, and the last Georgina, in the 1790 and 1805. The first entered was Markham, and the last Georgina, in the years named. One-third of the latter township is still unsettled; also about 2,000 acres in East Gwillimbury, ard 1,000 in North Gwillimbury; in the remaining townships the process of settlement was completed in, on an average,

a little over 45 ½ years. Heavy clay, clay loam, and sandy loam, are the predominating soils in this a little over 45½ years. Heavy clay, clay loam, and sandy loam, are the predominating soils in this county. Heavy clay exists in the proportion of about 21 per cent., with a depth of from 8 to 24 inches, and resting principally on sub-soils of clay and marl; clay loam, about 38 per cent. depth from 11 to 15 inches, and resting principally on sub-soils of clay ard marl; sandy loam, about 22 per cent., depth from 6 to 12 inches, with sub-soils of clay and marl; sand, about 10 per cent., depth not determinable, with sub-soils of quicksands and gravel; gravelly, not appreciably; black loam, about 35 per cent., depth from 2 to 8 feet, and resting on clay, sand and quicksand. Except in North Gwillim-bury, which reports 3,000 acres, there is no land in the county which is too stoney or has rock too near the surface to be profitably cultivated, about 7 per cent. is so hilly as to be objectionable for purposes of cultivation, about 11 per cent. is bottom, 7½ per cent. is swampy, and rather less than 2 per cent wet, springy land. About 68 per cent of the area is reported as rolling and cultivable. About 443 per cents, springs and wells, also by the Don, Holland, Humber, Black and Rouge Rivers; in the South by Lake Ontario, and in the north by Lake Simcoe, and many tributary streams. Water is obtained by digging at depths varying from 4 to roo feet. About 54 per cent of the cleared acreage is reported free from stumps. Of the stumps remaining a large proportion are pine. About 69 per cent of the farms are reported to be under first-class fences, consisting principally of cedar, pine and hemlock rails. About 69 per cent of the farm farm dwellings are reported to be either of brick, stone, or first-class frame—the remainder aris.

About 62 per cent of the farm dwellings are reported to be either of brick, stone, or first-class frame—the remainder are log or of inferior frame. Of the outbuildings 57 per cent are reported first-class; the remainder are inferior.

About 12} per cent of the far r s are reported to have been drained, prin-cipally in King, Markham and York townships. Tile has been largely used in the latter township, and in the others to a limited extent.

#### YORK COUNTY, -[Continued]

About 93 per cent of the farmers use improved machinery for seeding and harvesting.

There are larger quantities of artificial festilizers employed in this county than in any other county in the province—the average being 42 per cent. Plaster and salt are used in the proportion of from too lbs to 150 lbs of the former and 300 lbs of the latter, on nearly all descriptions of crops—but plaster, principally, on clover and roots, and salt on cereals. Superphos-phate is also employed to a small extent on roots.

About 89 per cent of the encleared land is reported suitable for cultiva-

About 89 per cent of the uncleared land is reported suitable for cultiva-tion, if cleared. The township area of York is 540,2711 acres; the cleared area is 392, 5132. Of the latter, about 121 per cent is devoted to fall wheat; spring wheat about 13 per cent; barley 112 per cent; oats 121 per cent; rye, hardly any sown; peas 7 per cent; corn, hardly any grown; buckwheat in Whitchurch only; I per cent; potatoes about 14 per cent; turnips I 3-10 per cent; other root crops, about 1 per cent; hay about 14 per cent. About 16 per cent is devoted to pasture, and about 2 per cent to orchards. In King 121 per cent, in Markham about 9 per cent, end in Vaughan about 14 per cent is put under summer fallow. The county is well adapted for stock raising, grain growing and dairying. A good deal of attention is being paid to the former in townships specially adapted for grazing and for the growth of clover. Fruit growing and market gaidening are also largely followed, especially in Etobicoke and York townships, where are also some extensive nurseries. The townships sustain 27,669 horned cattle, 20,230 horses, 27,984 sheep.

The townships sustain 27,669 horned cattle, 20,230 horses, 27,98; sheep, and 14,388 hogs. The horses are draught and general purpose, with Cly-desdale blood (some fine thoroughbreds have been introduced and the number is increasing); cattle-Durham, Ayrshire and Devon grades; sheep-Leicester, Cotswold and Sou hdown; and hogs-Berkshire, Suffolk and Essex. A great improvement has taken place of late years in all descriptions of farm stock.

About 221 per cent of the area of York is still under timber, consisting of beech, maple. elm, basswood, pine, hemlock, cedar, tamarac and birch; used for bui ding purposes, fencing and firewood.

The market facilities of this county are unexceptionable. Toronto, the principal market centre, is easily reached by road and railway. There are

rine market centre, is easily reached by road and railway. There are also good markets at Newmarket (which has just become a town—the only one in the county outside of Toronto), Sutton, Aurora, Stouffville and King. Every township has one or more railways passing through it, of is within easy access to railways. Nearly all the farm produce of the county is con-sumed in Toronto, or is shipped thence to eastern and western markets. Oniting the City of Toronto, which has no municipal connection with the County of York, and which has large and varied manufactories, there are in addition to other local industries dependent upon or providing a market for agricultural products, 3 flouring mills reported in Etobicoke; 2 cheese factories, 2 tanneries, 2 carding mills, 7 saw mills and 7 grist mills, in King; milling, farm implements, carriage and waggon and 2 cheese fac-tories, in Markham; 2 agricultural implement factories in Vaughan; 6 grist, 1 woollen, and 3 paper mills and 3 tanneries in Youk; and flouring, saw and planing mills, a tannery, a woollen mili, a hat manufactory, and organ, carriage and furniture manufactories in Newmarket. Some lumber-ing is still carried on in the county. The total population of York, according to the census of 1881 was 66,698.

#### Township of Etobicoke.

1292—" Maple Grove Farm," a valuable farm of 100 acres, but which over-runs about 6 acres, all of which is in a perfect state of cultivation. Soil clay loam, well adapted for all kinds of grain and roots. Drainage natural. Fences first class. Two good hearing archards. Good store do the clay foam, well adapted for all kinds of grain and roots. Drainage natural. Fences first-class. Two good bearing orchards. Good stone dwelling house. Two barns, one for x 30 and the other for x 40. Two stables, one for x 25, the other for x 30. Splendid driving house, hog pens, etc.; watered by three never-failing wells. This farm is splendidly situated, being only 134 miles from the thriving village of Weston, on the G. T. R. and T. G. 59 B, Rys, and to miles from the city of Toronto. Good market, schools and abueles at Weston. and churches at Weston. Stocks, crops and implements can be had at a fair valuation. Price \$10,000, payable one-half down and the balance on time.

#### ownship of King.

1294—Farm that is said to contain 100 acres, but which overruns by about 10 acres, all cleared and in a good state of cultivation. Soil clay loam, thoroughly underdrained. Watered by cistern, well, pond and running stream. Good board and rail fences. Two good orchards bearing an abundance of all kinds of small fruits. Land sufficiently rolling to drain naturally; watered by the Twenty Mile creek, which runs through the back part of the farm and by a good well at the house; rail fences in a fairstate of repair; orchard of one a good well at the house; rail (ences in a fairstate of repair; orchard of one acre, mostly apple trees; frame house about  $18 \times 24$ , with kitchen in the rear  $12 \times 24$ ; small wood house; frame barn  $30 \times 40$ , with stable attached  $14 \times 34$  and shed  $30 \times 60$ ; good clay roads; school  $\frac{14}{5}$  mile, and church  $\frac{1}{5}$  mile, store and Fulton P. O. one half mile; Winona on G. W. Ry. 6 miles, and Rymal station on H. S<sup>5</sup> N. W. Ry. 7 miles distant; Hamilton market 15 miles. Possession given on one month's notice, providing purchaser pays for crops in the ground. Price 2,200, payable 800 down, and the balance in 5 years with interest at 7 per cent. per annum.

# YORK COUNTY.

#### Township of Whitchurch.

1576—Farm of 100 acres, having 50 acres cleared and stumped; the balance being bush, timber mixed; soil sandy loam, land gently rolling; drainage natural; small log dwelling house; new frame barn and other necessary outbuildings, all in a good state of repar; clay roads; within one-half mile of Vivian station on Midland Ry, and about 6 miles from Newmarket on N. & N. W. Ry. Thisp arcel will be exchanged for other property in Torente. Price \$4,000, payable one-half down and the balance on time.

# MANITOBA

### AND THE

# North-West Territory.

In the following pages we publish a list of lands for sale in the Province of Manitoba. We have established local agencies at Winnipeg, Brandon and many other places in Manitoba and the Great North-West Territory, and having selected our local agents at these points with the greatest care, we are satisfied that we shall be able to render valuable aid through them to parties going there to purchase land and settle.

Besides selling land to settlers, we also intend to act as purchasing agents for capitalists in the Eastern Provinces and in Great Britain and Ireland, where our catalogues are very extensively circulated. Through our local agents we shall be able to obtain reliable reports as to the lands which may be for sale in their various localities, with description of soil, timber, &c., upon very moderate terms. This information will be of great value to those wishing to purchase for the sake of investment, who do not want to spend time and money in going so far to inspect the lands for themselves.

Most of the parties in Ontario who have placed their farms in our hands for sale, intend removing to Manitoba with their families, to enter upon the hardships of pioneer life in a new country, for which they are better fitted than any other class of people, and their places in Ontario will be filled by tenant farmers from the old country, who prefer settling down in homes already prepared for them, surrounded by all the comforts of life to which they have been accustomed, and which can be purchased at prices amounting to only about two or three times what they have had to pay yearly as rent.

We invite owners of land in Manitoba to place them in our hands for sale, stating prices and terms, and giving as full description as possible, and we also invite parties intending to emigrate to Manitoba to correspond with us in reference to the lands advertised in our list.

It will be observed that the prices of most of the lands in the Manitoba list are not stated. The reason for this is that the prices there have been rising so rapidly that owners are unwilling to bind themselves to sell at present prices for any length of time in the future. Many bargains made must therefore be subject to approval of owners at the time of sale, and in many cases we shall be obliged to correspond with the a before quoting prices to intending purchasers. This will account for any delay that may occur in answering correspondents, who may implicitly depend upon getting all information required at the earliest possible date.

Parties writing for information about any particular Lots will please refer to each of them by the NUMBER OF PARCEL in our Books.

We may remark in conclusion that we do not guarantee the correctness of the descriptions of lands published in our list. These are given in all cases just as we get them from owners, but it would be unsafe to rely in all cases upon such descriptions without getting such a report as may be obtained through our local agents for a very moderate fee.

COUNTY OF CARLETON.

### **Township of Gloucester.**

1720 .- Farm of 312 acres, of which 130 acres are cleared and under cul 720.—Farm of 312 acres, of which 130 acres are cleared and under cuttivation, and balance in good hardwood timber land. Soil, clay loam, land well watered, good fences; valuable stone quarry on farm. Comfortable two storey frame dwelling in first-class repair. Frame barn, sheds, and granaries; stone stable, &c. Cost of buildings alone, \$25,000. Only 3 miles from Ottawa, the capital of the Dominion. Price, \$20,000, payable \$5,000 down and balance in three equal yearly instalments, with interest at 6 per cent. per annum.

### COUNTY OF DUFFERIN.

#### Township of Melancthon.

- 1731 .- Fine farm of 296 acres, of which 100 acres are already cleared Generally free from stumps. About sufficient stone for use on the place. Of the uncleared portion, about 120 acres might be easily cleared, and the remainder contains partly hardwood and partly cedar cleared, and the remainder contains partly hardwood and partly cedar timber. Land pretty level, but with sufficient fall for good drainage. Soil, good rich clay loam; water supplied from two wells, one near the house, the other at a little distance. Fences are of cedar rails. Of the portion cleared, part is planted as orchard, with about 70 young fruit trees—apple and plum—and about 70 acres seeded down. There is a frame dwelling on the property, 20 ft. x 18 ft., with 20 ft. x 18 ft. addi-tion. Log stable and granary, 30 ft. x 24 ft. Distance from school, 1‡ miles; from church and P. O. 2‡ miles; from steam saw mill, 1 mile; from Dundalk, 6 miles; from Shelburne or. T. G. & B. Ry., 8 miles; from shipping station in same direction, 3 miles. Roads good, except one mile, to be made so immediately. This farm is well suited for either stock or grain growing. Price, \$5,200; \$2,600 down and balance in 5 yearly instalments, with interest. 732.—Fine timber lot, within 2½ miles of Melancthon R. R. Station, con-
- yearly instalments, with interest. 1732.—Fine timber lot, within 21 miles of Melancthon R. R. Station, con-taining 200 acres of green bush; all standing timber, consisting of good hardwood, hemlock, cedar, and pine, except about three acres cleared, on which are log house, 20 ft. x 16 ft., and a new saw mill 50 ft. x 26 ft. This latter building was erected by, and belongs to, the owner of the land, but the machinery was put in and is the property of another man, under agreement with the owner of the land to cut 200 000 feat of timber yearly on shares, or more if required from the of another man, under agreement with the owner of the land to cut 200,000 feet of timber yearly on shares, or more if required, from the standing timber on the property. The lot contains no broken land, no stones or rock, but plenty of timber to pay for the place of itself. When cleared, this would make a splendid dairy or stock farm, the soil being a rich clay loam, distant only 1½ miles from school. The town of Shelburne is distant 5 miles. Government drain passes through the property. Possession at any time. Price, \$3,500; payable \$1,500 down and balance in four equal yearly instalments of \$500 each, with in-terest. terest.

### COUNTY OF CREY.

### Township of Derby.

1739 .-- Farm of 100 acres, of which 75 acres are cleared, and balance time bered with beech and maple. Soil, clay loam, in a good state of cultivation. Good log house and new frame be 'n, stable, &c. Distance to Kilsyth P. O.,  $\frac{1}{2}$  mile, and to Owen Sound,  $6\frac{1}{2}$  miles. Price, \$3,500; payable one third down and the balance on time, as may be arranged, with interest half-yearly, at 7 per cent.

#### Village of Brooke.

VIIIage of Brooke. 743.—Lots 37, 39, 41, 43, 45, and 47, on Raglan Street, and Lots 38, 40, 42, 44, 46, and 48, on Sound Street, in the Town Plot of Brooke, in the Township of Sarawak, containing 30 acres, more or less, beautifully situated between the main gravel road and the shore of Owen Sound Bay, with a frontage of 1500 feet. Soil, gravelly loam, with stone suffi-cient for building purposes. Church, school, P. O., stores, saw-mill, and brick-yard within half mile. This is a most desirable site for gentleman's residence, summer hotel, or cottages, being exceptionally healthy and dry; cool breezes, pure water, boating, bathing, fishing, &c., at the door. Good society in the neighborhood, and in the live town of Owen Sound, the western limit of which is only one mile distant. Taxes low. This would be a valuable property for manufacturing or shipping purposes. There are 16 feet of water within 30 yards of shore, which will yet be required for C. P. Ry. steamers and other deep draught vessels. draught vessels.

### COUNTY of HALTON.

Willage of Shannorth

#### Township of Neison.

780.—Splendid fruit farm, close to the to vn of Burlington, containing 53 acres, more or less, of which about 40 acres are planted with fruit trees of the best varieties, all bearing. Besides a considerable number of pear, plum, cherry, peach, grape, and small fruit trees, there are 1600 apple trees, composed of Northern Spy, 800; Golden Russet, 300; Roxbury Russet, 50; Greening, 200; Astrachan, 100; King of Tomkins' County, 50, Baldwins, 50; and upwards of 50 assorted. The soil is a mixed sandy loam, and alluvial clay of the very best quality for fruit growing, and the land is all under-drained with tile and stone drains. The dwelling-house is a very fine two-storey brick building, about 52 ft. x 40 ft., having on ground floor, hall, drawing-room, parlor, living-room, dining-room, bedroom, and kitchen, with summer kitchen; and on first floor, seven bedrooms, with every convenience in the way of 1730 .- Splendid fruit farm, close to the to vn of Burlington, containing room, dining-room, bedroom, and kitchen, with summer kitchen; and on first floor, seven bedrooms, with every convenience in the way of closets and cupboards. Water supplied by windmill to house, out-buildings, fountain in lawn, and shrubbary in front of house. First-class cellar with cement floor under the whole house. In the cellar is a splendid brick soft water eistern. Out-buildings consist of driving-house, stable, work shop, and wood shed, about 60 ft. x 40 ft.; barn, 60 ft. x 40 ft., with stone foundations, having underneath stabling and cellar, with concrete floor; engine house, blacksmith's shop, and other necessary buildings. A fine creek runs across the farm, conveniently situated to barn and stables. Price, \$23,000, payable one-half down and balance in equal yearly instalments, extending, if desired, over 8 or 10 years, with interest at 6 per cent., secured by mortgage on the property. years, with interest at 6 per cent., secured by mortgage on the property.

733.—Rare opportunity for purchase of a valuable property within 6 miles of Milton and 18 miles of Hamilton, close to R. R. Station, con-sisting of 100 acres, less 3 acres reserved for station purposes on the H. & N. W. R. R. The soil is of the very best clay loam and sandy loam; 90 acres are aiready cleared, and the remainder is well timbered with pine, maple, and beech The farm is well fenced with good rail and picket fences, all in first-class order, and is easily drained. The fields are arranged to contain about ten acres each. Water supply and picket fences, all in first-class order, and is easily drained. The fields are arranged to contain about ten acres each. Water supply obtained from 6 good wells, never failing. The buildings comprise new large bank barn, 86 ft. x 30 ft., with stabling for thirty head of cattle; driving-house, 30 ft. x 28 ft., with stabling for 6 horses; cow stable, 30 ft. x 16 ft.; implement house, 24 ft. x 18 ft., also four dwell-ing houses, one for the use of the farm consisting of a 1½ storey frame building, 36 ft. x 24 ft. with kitchen attached, 24 ft. x 14 ft., contain-ing in all 8 rooms, besides 2 cellars underneath; the other houses are good dwellings always occupied and bring in a rental of \$150 per ing in all 8 rooms, besides 2 cellars underneath; the other houses are good dwellings always occupied and bring in a rental of \$150 per annum. There are on this property two large apple orchards of grafted fruit, besides plums, pears, peaches; about 50 large cherry trees and plenty of small fruit. Distant from school, church, store, and P.O. only  $\frac{1}{2}$  mile. This valuable and conveniently situated property is a genuine bargain, and purchaser may have privilege of taking other 15 acres adjoining at same rate per acre. Price, \$6,500, payable \$3,600 down balance to suit purchaser on mortgage at 6 per cent. per down, balance to suit purchaser, on mortgage at 6 per cent. per annum.

### Township of Trafalgar.

-Farm consisting of 166 acres more or less (except 4 or 5 acres off S.E. corner), of which about 150 acres more or less (except 4 or 5 acres and tion; the remaining 12 acres are bush and pasture land. The north-east of the farm is black and clay loam, and the south-west a rich sandy loam suitable for market garden or fruit, and all kind of grain sandy loam suitable for market garden or fruit, and all kind of grain or root crops. There is a young orchard of between ten hundred and twelve hundred trees, including peach, apple (about seven hundred beginning to bear), cherry, plum, and pear. The water supply is never failing and consists of two running streams and four wells, all of which may be depended upon in the dryest weather. The land is sufficiently rolling to secure good and easy drainage, and extends to the lake shore where there are banks from ten to twelve feet high at different points and a good gravel beach. Upon the farm are two dwelling houses; 1st, a two-storey frame house, not yet finished, with stone foundations and good cellar under the whole, which might be divided into 12 or 15 rooms; 2nd, a brick cottage, 30 ft. x 40 ft., with frame kitchen, 18 ft. x 30 ft., containing in all 7 rooms besides attic. There are also frame barn, 30 ft. x 50 ft., driving house and horse stable, 30 ft. x 50 ft., and other necessary out-buildings. School and church at Bronte,  $1\frac{1}{2}$  miles distant. Price, 12,800, payable \$2,000 down and balance as may be arranged.

N.B.—The Company have for sale City and Town Lots and Farm Lands in Ontario, Manitoba, and the North-West Territories. Their farm lands in Manitoba are in choice localities, have been selected with great care, and are offered for sale at low prices and on easy terms.

Attention is specially called to the Company's properties in Toronto, including some of the choicest Lots on St. George and Bloor Streets. Their Rosedale Park property is the finest suburb in the vicinity of Toronto, and, being purely a residential suburb, should be visited by all intending purchasers before investing. The Company have also for sale some good lots in and near the Village of Norway.
