### TO MOVE VIADUCT BE BUILT OF STEEL

Controller Church Will Offer Resolution Next Tuesday—Foundation Uncertain.

### DISCUSS BUILDING LAWS

Special Meetings of Heads of Departments Will Be Held to Discuss Proposals.

Controller Church said in the board of control yesterday that he would offer a resolution next Tuesday that the Bloor street viaduct be constructed of steel. Supporters of a steel viaduct contend that a foundation for a concrete structure is too uncertain, owing to more or less bog. Those who favor a concrete viaduct object to the expense of maintenance of a steel structure. The resolution of the conference committee of 190, that city roads connecting with the good roads system have permanent pavements of sufficient width built promptly, was approved and sent on to the council. The city solicitor reported that a bylaw to regulate dock storage houses could not be legally enforced. It is expected that the health department may deal effectively with the situation. Corporation Counsel Geary will be asked to advise if the railway companies can be compelled to pay a proportion of the expense of installing and maintaining electric signal lights at dangerous crossings at grade. The lights to be similar to those installed at Royce Avenue crossing and approved.

At the suggestion of Ald. McBride a conference of the city council and heads of departments will be called for a week from next Tuesday upon the amendments to the building bylaw. He said that some of the proposed amendments conflict with the health department, and that the works committee has not given the amendments sufficient consideration. Copies of the amended bylaw are to be sent to the heads of departments, who will state at the conference the clauses that conflict with their policies. A report upon tax rolls not yet returned will be asked from the city treasurer, with a view to closing up rolls more speedily.

Controller Foster put thru a motion to query the city solicitor as to the legality of voting bonuses to permanent employees of the city. City Auditor Sterling reported that the audit of the North Toronto books would be completed in a week. He said that there are \$33,000 of open accounts that should be paid, besides several notes.

Controller Church suggested bringing an action against the editor of The News, alleging that an article on the city's finances, published last Wednesday in The News, is incorrect and injures the credit of Toronto. His suggestion was not adopted.

The dapper little ribbon clerk gazed languidly into the dark eyes of the handsome brunet waitress. "Isn't it wonderful," he gurgled, "how opposites seem to be attracted to each other?" "It sure is," agreed the beauty. "I noticed only today that the tallest man at the lunch counter ordered shortcake."—Lippincott's.

### BEACHERS QUITE CALM OVER CARS

Indignation Strangely Missing in Meeting That Results in Deputation Decision.

Resolved that we send a deputation to the board of control on Friday morning, March 7 at 11 a.m., to impress upon the controllers, in a manner perfectly friendly, the necessity of getting an adequate street car service for the Beaches. This resolution, moved by Mr. Cunningham and seconded by Mr. Allan, was passed without a dissenting vote at a meeting of the Beaches Association last night in the Balmly Beach Canoe Club, called to discuss the street car situation and other matters. Mr. W. L. Edmonds was chairman. Several speakers took part in a free discussion of the transportation difficulty, but there were none of the intemperate remarks and threats that generally characterize an indignation meeting. The Beach dwellers are sober-minded citizens, and while deep indignation is felt, none was expressed. Nothing could be gained, the speakers pointed out, by hasty action. Even the name of Robert J. Fleming, which might be expected to bring forth muttered curses from the Balmly Beachers, was mentioned without intemperate being connected with it. The meeting was most orderly; all the decencies of customary procedure were strictly observed, and those present resolved to wait upon the board of control this morning in a body to talk the matter over with the controllers.

As was emphasized by two speakers, the Toronto Railway cannot be forced to operate lines outside the old city limits, and the York Road has been ordered by the courts to operate the stub line for five years, so that only by the use of diplomacy can anything be done to restore the old service. It was suggested by one speaker that the York Road was running the stub car at a loss, carrying no passengers, and would accept the line. In the meantime, the Beachers are getting a lot of healthy exercise.

### WOODBINE HOTEL CHANGING OWNERS

George H. Spears, Who Sold Out the Walker House, Said to Be Taking It Over.

The new Woodbine Hotel, which was taken over about six weeks ago by what were thought to be straight liquor interests, is to be transferred at a premium of \$30,000, to Geo. H. Spears, who sold out his interest in the Grand Union Hotel to the owners of the Walker House. Until recently the Woodbine Hotel was situated on the south side of King street between York and Bay streets, but when the remodeling of the buildings purchased on the Baldwin estate leasehold property directly opposite was completed, the license was transferred. Mr. Spears could not be found last night for confirmation of the report.

### CITY INDEPENDENT FINANCIALLY NOW

At One Time Serious Consideration Was Given to Stopping of Expenditure.

### STATES TO UNITE IN FIGHTING VICE

Anti-White Slave Traffic Crusade to Be Thorough in Methods.

Mayor Hooker states that the city's finances previous to the sale in New York of bonds caused serious consideration of stopping the payment of some of the current expenditures. He says that local bankers demanded 8 per cent interest, and the city's account, for a year or two, when the London brokers could not handle Toronto securities, and that then he determined to offer the city securities in New York and Chicago, where he found the interest was only 5 per cent. At the end of 1911 Toronto had \$5,454,000 of unsecured debentures. In 1912 there were \$5,000,000 of debentures authorized. Of these \$12,554,000 there have been sold by bonds \$7,121,000, leaving a balance unpaid of \$4,263,000. This year \$12,000,000 of debentures have "been authorized." The above is a statement of Toronto's issue and sale of debentures. A ready and favorable market for sale of city securities is now available, but sales will be made only as money is required.

### FOURTH ELECTRIC CHARTER IN WEEK

Hamilton to Mount Albin Line Makes Application—People Safeguarded.

The Hamilton Mountain Electric Railway applied for a charter yesterday, which the private bills committee treated favorably. This was the fourth application for charters within the week, from electric railway companies. The Hamilton line is to run between the Ambitious City and Mount Albin and it is backed by a number of Hamilton capitalists. The other applications were from the Ottawa, the Ganougue and the Renfrew lines, which propose a network of radials in the eastern end of the province. These applications may cause the Hydro-Electric Commission to put on a little extra speed in the matter of beginning the construction of radial lines for which several municipalities have applied. The people are safeguarded from private companies by a clause in the Power Commission Act which prevents any company from supplying either power or light to municipalities thru which they pass, without first obtaining the consent of the hydro commission, and the rates charged are also fixed by the commission.

### CITY OFFERS TO CLEAN UP SEWAGE

To Satisfy Claimants in Ashbridge's Bay Suit, Who Will Press For Rights.

The city yesterday offered to remove the sewage accumulation at the foot of Carlaw avenue, to satisfy the plaintiffs in the Ashbridge's Bay dispute, which has been going on for several days at the city hall. It is evident that Ashbridge's Bay property owners are resolved to fight to keep the harbor board from closing Keathley's Cut. Yesterday Chancellor Boyd decided to notify the harbor commission that it was intended to make it a party in the suit. Walter Humphrey and ex-Ald. Sanderson gave evidence concerning the filthy condition of the waterfront at the foot of Carlaw avenue. "I saw the sewage discharging and floating on the water, liquid and solid sewage, with an unpeppable smell," said Mr. Sanderson. The serial story will be continued today.

### COURT DAVIS AT HOME.

Court Davis No. 187, C.O.F., held their annual at home and supper last night in Foresters' Hall. A very enjoyable program was rendered. Musical numbers were contributed by Miss Trevelan, Mr. E. Hill, Mr. Peacock, Miss Mance, Mr. McLean, Mrs. Masson, Mr. Hoag, Miss Findlay, and recitations by Miss Shea, Miss McCarthy, Miss Webster and the Warren Bros.

### CO-OPERATIVE SOCIETY IN GALT.

GALT, March 6.—(Special).—As a protest against the existing high prices, several hundred citizens have joined in a co-operative society to conduct a grocery and provision store. A meeting in the town hall of the promoters decided to continue solicitation purchase a lot of \$5 a share. Sufficient has already been subscribed to justify organization.

### MUST NURSE TRAFFIC TILL BRIDGE IS FIXED

Work of Strengthening Gerrard Street Structure Will Be Hurried.

Gerrard street bridge is quite safe while the traffic during rush hours is nursed across, is the opinion of Works Commissioner Harris. He says that the strengthening of the bridge will be completed quickly, and that traffic will be well regulated until the structure has been reconstructed.

### Husband's Sacrifice Unavailing.

KINGSTON, March 6.—(Special).—Mrs. Mitchell, Shortall, Brewster's Mills, died at the Hotel Dieu from blood poisoning. She was the wife of J.  FRIDAY MORNING, MARCH 7, 1913

**EUROPEAN ALIGNMENTS.**  
 Germany's change of policy from that of military expansion is without doubt due to the elimination of Turkey from the roster of European powers. The sudden emergence of the Slav powers and the relation of their military strength and efficiency has changed the whole European situation, and caused Germany to look more to the continental balance of power than to its effort after maritime supremacy. And her action has caused an immediate response on the part of France, which is now in a much less favorable position as regards population than it was in 1870 on the outbreak of the Franco-German war.  
 So delicate is the European situation that the least disturbance of its balance leads to an immediate readjustment, and this largely because the existing divisions are artificial and not in consonance with the spirit of the twentieth century. The hostility between France and Germany cannot be removed, and Bismarck been the master mind in statesmanship with which he is accredited he would not have left the inheritance of enmity which is the real reason of the present unnatural alignment in Europe.

**ALBERTA'S PUBLIC TELEPHONE SYSTEM.**  
 Remarkable progress has been made in the Province of Alberta with the development of the state-owned telephone system during the four years that have elapsed since it was taken over from the Bell Company. At that date the company operated 1859 wire miles, connecting 70 offices. Now the mileage is 6998, connecting 234 offices, there having been as many miles constructed in each of these four years, as were altogether in operation under the Bell system. Last year no less than 2494 miles of long-distance lines were strung, representing an increase of 59 per cent. on the previous mileage and establishing a record. On rural lines the wire mileage was nearly doubled, 4746 miles having been constructed as compared with 4225 in operation at the beginning of the year. This activity has naturally been followed by large additions to the number of customers, rural subscribers increasing by 88 per cent. and exchange subscribers by 35 per cent. These proportions show the interest taken by farmers and agriculturists in telephone communication and their realization of its value and convenience. At the end of 1912 the totals of the Alberta system showed 6998 wire miles of long-distance lines; 9671 miles of rural lines; 7120 subscribers at rural stations, and 14,692 subscribers at exchange stations. The total capital expenditure has been \$5,728,288, and the surplus of receipts over expenditures last year was \$62,283, equal to a profit of 12.1 per cent. on the investment.

**PACIFIC BURT COMPANY.**  
 At the annual general meeting of the Pacific Burt Co., a very satisfactory report was presented by the directors for the year ending Dec. 31, 1912. The net profit was \$79,669.52, which, with the balance of \$21,285.81 brought forward, left \$100,955.33 at their disposal. Of this dividend on preference and common stock absorbed \$58,500, and after transferring \$10,000 to real estate and plant reserve account, the balance of \$32,455.33 was carried forward as credit of the current year. The real estate and plant reserve account now stands at \$39,000.

**INQUIRING INTO YARDMAN'S DEATH**  
 Shirley Paddon, With Both Legs Cut Off, Unnoticed For an Hour.

**ST. THOMAS, March 6.—(Special).**—The remains of the young St. Thomas man, Shirley Paddon, who was killed in the Windsor yards Wednesday morning while inspecting a car which was being moved by a crane, were taken to St. Thomas. An inquest was held and it was brought out that the young man lay for an hour in the yards with both legs cut off before he was discovered by the M. C. R. employees.  
 The young man's parents, who reside in this city, will have a searching inquiry made at the adjourned inquest next week, when it will be brought out who gave Paddon orders to go under the car when he met his death.

**TORONTO'S NEW CLOTHES.**  
 Some people are quarreling with the banks and some with the city because there has been difficulty recently in carrying on the city's financing. But why should the blame be laid upon the banks? Their game is strictly according to the rule of dog eat dog, and if the city placed itself in a position to be eaten, the banks would not be loyal to business principles if they did not avail themselves of any advantages they could find. As it happened, thanks to Mayor Geary, they did not find any.

**SAILORS FROZEN WHILE CLINGING TO SPARS**  
 BERLIN, March 6.—The total number of German blue-jackets and naval ratings killed as the result of the ramming of torpedo boats destroyer "S. 178" by the York off Heligoland, was greater than at first supposed. Two officers and 69 men perished, most of them by drowning, but because while clinging to loose spars after the vessel had sunk.  
 The admiral states that the destroyer, while crossing the bows of the York, became unmanageable owing to the terrific seas, and was out in two.  
 The storm made the rescue of the men almost impossible, and many of the corpses were not picked up until this morning.

**CO-OPERATIVE SOCIETY IN GALT.**  
 GALT, March 6.—(Special).—As a protest against the existing high prices, several hundred citizens have joined in a co-operative society to conduct grocery and provision stores. A meeting in the town hall of the promoters decided to continue solicitation for shares in stock at \$5 a share. Sufficient organization has been subscribed to justify

who, for ten years past, instead of preparing for the city of today, in spite of every indication of progress and prosperity, have been holding the brakes hard down, and keeping the city years behind the times. Works that should have been completed years ago, are only being prepared for this spring. As a result we have \$17,000,000 worth of debentures, looking for a market today or tomorrow or next month, which ought to have been distributed over the ten years past and leaving us only a couple of millions to raise in 1913. The congestion in city improvements is the real reason for the congestion in the city finances and we do not know any one more responsible for this than Controller Foster with his unprogressive, parsimonious outlook. We acquit him on the score of the Bloor street viaduct, this year and last, but it could have been built ten years ago at half its present cost. Our delays are overtaking us now, and costing us double in dearer money, dearer materials, dearer land, dearer wages.  
 There is a natural reluctance to shell out after cultivating the tightwad habit for a term of years. Toronto is in the position of a man who has bought no clothes for some years and needs a new outfit. And the clothes must be several sizes larger than the last suit.

**F. N. BURT COMPANY**  
 In another column of this issue of The World will be found the report of the annual general meeting of the F. N. Burt Company, Limited. Although the report it must have been exceedingly satisfactory to the shareholders, the profits for the year ending Dec. 31, 1912, being \$189,430.55. With the balance at credit of profit and loss account at Dec. 31, 1911, this left \$325,793.48 at the disposal of the directors. After payment of the usual dividends of 7 per cent. on preferred stock, making transfer of \$5,900 to realty and plant reserve account and writing off the entire amount of unissued shares of the company, the amount of preferred stock made Dec. 31, 1912, a balance has been carried to credit of profit and loss account of \$137,874.67, a little in excess of the amount carried forward from the preceding year.  
 As will be seen from the report, these very satisfactory figures do not represent the full value of the company. Payments on account of new capital were made quite largely in advance of calls, and but little of the money so received was utilized during the year under review. Although the volume of business in 1912 exceeded that of 1911, various causes intervened to prevent the net profit from proportionately increasing. Among these were compulsory removals; installation of new machinery; the transference of plants; the necessity of employing hand-made labor instead of automatic machinery, and the employment of expensive money, largely caused by expenditures in buildings and plant. With the larger and better facilities now provided the outlook for the shareholders appears highly favorable and the shipments for the first two months of the current year warrant the anticipation that the outlook is highly favorable.

 N. W. Rowell Was Not Able to Say More Than a Few Words—Has Bad Cold.

The premier of Ontario was the butt of some rather pointed but good-natured reflections made by speakers at the inaugural of the Varsity Liberal Club at the Tea Pot Inn last evening, when U. W. Rowell, leader of the opposition, and J. C. Elliott, M.L.A. for West Middlesex, his lieutenant, were present as guests.  
 Mr. Rowell had been asked to speak on "Social Problems in Ontario," but owing to a severe cold, which confined him to his home all day, and on account of which he was advised by his physician not to venture out at all yesterday, he was unable to say more than a few words of encouragement for the infant organization. Just before Mr. Rowell had risen to speak the constitution of the club was read and recitation of it with peculiar interest, the speaker in a few words stated that in a referendum on the constitution it was amended by the constitution frequently amended by the constitution, he said, amid spirited applause.

**INQUIRING INTO YARDMAN'S DEATH**  
 Shirley Paddon, With Both Legs Cut Off, Unnoticed For an Hour.

**ST. THOMAS, March 6.—(Special).**—The remains of the young St. Thomas man, Shirley Paddon, who was killed in the Windsor yards Wednesday morning while inspecting a car which was being moved by a crane, were taken to St. Thomas. An inquest was held and it was brought out that the young man lay for an hour in the yards with both legs cut off before he was discovered by the M. C. R. employees.  
 The young man's parents, who reside in this city, will have a searching inquiry made at the adjourned inquest next week, when it will be brought out who gave Paddon orders to go under the car when he met his death.

**TORONTO'S NEW CLOTHES.**  
 Some people are quarreling with the banks and some with the city because there has been difficulty recently in carrying on the city's financing. But why should the blame be laid upon the banks? Their game is strictly according to the rule of dog eat dog, and if the city placed itself in a position to be eaten, the banks would not be loyal to business principles if they did not avail themselves of any advantages they could find. As it happened, thanks to Mayor Geary, they did not find any.

 BERLIN, March 6.—The total number of German blue-jackets and naval ratings killed as the result of the ramming of torpedo boats destroyer "S. 178" by the York off Heligoland, was greater than at first supposed. Two officers and 69 men perished, most of them by drowning, but because while clinging to loose spars after the vessel had sunk.  
 The admiral states that the destroyer, while crossing the bows of the York, became unmanageable owing to the terrific seas, and was out in two.  
 The storm made the rescue of the men almost impossible, and many of the corpses were not picked up until this morning.

**INVENTOR PASSES KNIGHT ENGINES**  
 Distinctive and Attractive Feature of the Russell Car—New Starting System.

At every automobile show—Montreal, Ottawa, Toronto and Winnipeg—the feature that has aroused most comment has been the exhibit of Knight engines. This Canadian built most perfect Knight-type motor that has yet been built. This, notwithstanding the fact that leading makers in the United States and Europe also built them.  
 Part of the reason for this is that Mr. Knight, the inventor, personally has his engine at the Russell works at West Toronto.  
 The incorporation of this engine in the 1913 Russell-Knight cars demonstrates conclusively that Russell Motor Car Company takes first rank among the builders of the world's foremost automobiles.

NEW YORK, March 6.—Harry Kendall Thaw's latest attempt to secure his freedom from the asylum for the criminal insane at Mattawan for the third time, failed today. Thaw, acting at the request of his attorney, had himself produced before Justice Sigheer in his supreme court on a writ of habeas corpus. But when Thaw's family learned of the state intended to use the entire contents of the writ to secure the charge that Thaw had been vouched for by the officials of Mattawan to secure his liberty, it promptly vetoed the proceeding.

FALL OF JANINA FURTHERS PEACE

Troublesome Question of Albania's Claims Is, However, Revived—Greeks Celebrate Great Victory.

LONDON, March 6.—(Can. Press).—The fall of Janina, with a garrison of 32,000 men, to the Greek arms after more than three months' gallant defence by Essad Pasha, is expected to have the effect of expediting peace negotiations.

At the close of the chamber, the allies with regard to mediation by the powers is still awaited, and the orders for demobilization by Austria and Russia, which are daily expected, have not been issued.

ON confirmation has been received of the reported sinking by a Turkish cruiser of three Greek transports, and it is semi-officially desired in Athens. A Suttari despatch, published in Vienna, says that the crown prince of Montenegro during the recent fighting had a narrow escape from capture by the Turks, who surrounded and afterwards killed every man of the Serbian battalion which went to the prince's rescue.

CELEBRATION AT ATHENS. Premier Venizelos announced the victory in the chamber of deputies. All the leaders of the opposition spoke, congratulating the crown prince and his army on the brilliant achievement.

A telegram was despatched to the crown prince in behalf of the grateful people of the nation. At the close of the sitting the members of the cabinet and the deputies, followed by cheering crowds, marched to the cathedral, where a thanksgiving service was held.

The Gourlay Tone

Beyond question the most desirable feature of a Piano is a pleasing tone. That is the characteristic on which is based our first and final opinion.

It is the tone qualities of a piano that impresses the occasional listener—and they who hear it daily in their own home.

The Gourlay Piano is distinguished from pianos less well made, by a tone that has mellowness, resonance and beauty.

This feature of the Gourlay piano makes appeal not only to trained musicians, but it influences—consciously or unconsciously—both the superficial student of music and he with no training whatsoever.

The purchase of a piano is an important step. It deserves your careful thought because it involves a very considerable expenditure.

Therefore you should investigate the Gourlay claims to musical and material excellence.

# AMSLLEY GARDENS

This is the choicest homesite subdivision that has ever been offered on the Toronto market. The Glengrove district with stately avenues of pine trees and wide boulevards will surpass Rosedale or Avenue Road Hill. Already very heavy advance requests have come in for lot reservations regardless of price. Our lowest opening figures range from \$65 to \$75 per foot with such restrictions as will assure a strictly exclusive district.

### ACTIVITY HAS MOVED WESTWARD

King West District Out to Bathurst and Beyond Looks Busy.

Activity on West King street seems to have gone further west than was earlier anticipated. In the last few weeks several changes of ownership of property in that vicinity have been noted. This property seems to be mostly bought for investments, although there is no doubt that in the near future that section will be a much greater manufacturing district than at present. Although most of the larger sales seem to be centred on the streets below Queen and east of Spadina, especially in the vicinity of Simcoe and Juncion streets, the tendency seems to be to go even farther west, to Bathurst and beyond.  
More deals have been put thru on King street. Dr. Niddrie paid \$10,000 for Nos. 615 and 617. The first was owned by William H. Hoskin and is 16 feet 2 inches by 98 feet and is assessed \$2,020 on the land and \$1,800 on the building, and the latter from Marshall Nell, which is 15 feet 1 inch by 90 feet and assessed \$1,898 land and \$1,300 building.  
J. H. Hammill bought three lots for which he paid \$14,700. No. 573 was purchased from Nathan Gorbach, and is 12 feet by 96 feet 8 inches and is assessed, land \$1,625, building \$1,400, and 555 and 557 were previously owned by Percival Rupp and had a total frontage of 28 feet by 96 feet 8 inches. They were each assessed \$1,750 on the land and \$200 on the buildings.

### GOV. POTHIER WOULD ASSIST GRAND TRUNK

Asks Reconsideration of Refusal to Guarantee New England Bonds.

PROVIDENCE, R. I., March 6.—(Can. Press.)—A request for a reconsideration of its finding and a further investigation of the matter was made by Gov. Pothier today to the committee which on Monday voted against the proposition that the state guarantee a \$6,000,000 bond issue of the Southern New England Railway.

The governor asked the committee which is composed of 15 state members and city officials and prominent business men, to meet in his office on Monday, and also suggested that representatives of the Grand Trunk Railway, of which the Southern New England is a subsidiary, be invited to the meeting.

### ONE COUNT AGAINST HAWTHORNE

NEW YORK, Mar. 6.—(Can. Press.)—The government's suit against Julian Hawthorne, who with others is charged with using the mails to defraud investors by promoting Canadian mining ventures, was set upon one of two counts in the indictment against him, according to a ruling this afternoon by Federal Judge Mayer. The court ruled that the district attorney could seek which of the two counts, both charging conspiracy, as would press against Hawthorne.

### Shock Upset The Nerves

This letter from Mrs. Tweedle is interesting, because it shows how nervous trouble develops gradually from such derangements as stomach trouble, until prostration and locomotor ataxia or paralysis render the victim helpless.  
It is even more important because it tells how the writer was cured by Dr. Chase's Nerve Food, the greatest of nerve restoratives.

Mrs. T. F. Tweedle, Brighton, Ont., writes: "For years I was troubled with the stomach, and have always been of a nervous temperament. The death of my husband was a great shock to me, and a few months later I was prostrated by nervous trouble. Locomotor ataxia developed later, and I was in a bad condition."  
"I took treatment from different doctors, but did not gain until I began the use of Dr. Chase's Nerve Food. When I had used five boxes I was so fully restored that I was like a different person. I am sure that the Nerve Food is a good medicine, and have told many people about the remarkable way in which it has restored my health."

### LET US COMPLETE WORKS OF PEACE

This Is More Important Than Organizing Defence of Our Land, Said Bourassa.

### AT THE EMPIRE CLUB

Nationalist Member Contributed Greatly to Knowledge of Party's Doctrines.

It is safe to say that Henri Bourassa is not mentally in sympathy with the greater number of those who at the Empire Club luncheon yesterday heard him speak on "Imperial Relationship," but they felt his sincerity. Speaking from a point of view that few of his audience understood, the shaper and leader of the Nationalist party contributed to the sum of Toronto's knowledge of the Nationalist doctrine. He denounced the policies of both political parties, and said that Canada should either be independent or take part actively in the affairs of the British Empire.

"Canada and other self-governing colonies have no voice whatever in the government of the empire," said Mr. Bourassa. "The people of the United Kingdom are the sole and absolute masters of the empire. Therefore they should assume the whole cost and burden of its defence."  
Mr. Bourassa, practically quoted from the columns of Le Devoir. "The only duty Canada has to perform is to look after the defence of her own territory—the only portion of the empire over which she exercises any action of government."

The home of the arch-Nationalist's address was simply that until Canada is allowed a part in the direction of imperial affairs it is beneath our dignity as a self-respecting people to devote one cent to imperial armaments.  
"Let us organize the defence of our land, put our shores and harbors in fair state of defence; above all, let us complete the works of peace so urgently needed by the farming community and the trade and industry of Canada. This would be a better and a more effective contribution than the building of dreadnoughts."  
Mr. Bourassa was given an enthusiastic reception by those present at the luncheon, at which he was the guest of honor.

Teachers in Consultation.  
Beaches' Ratepayers' Association waited upon Works Commissioner Harris in the city hall yesterday and discussed with him the need for sewers, pavements, etc. in its district.  
Maple Leaf Council, 387, Royal Arcanum, had its (annual) meeting last night in St. George's hall last night.

### BINDING PAPERS AND MAGAZINES

How to Do the Work at Home in Simple and Effective Way.

A good way to preserve files of favorite publications is to bind them one's self. A little practice will make a very good bookbinder of one, and the binding will save much valuable information. Have two pieces of heavy cardboard an inch longer, and about half an inch wider than the volume to be bound. Have a strip of good, stout cloth about five inches longer and wider than the cardboards, and a pot of not too thick glue, and drawing the thread too tight, but leaving loose enough so the volume will open easily. Commence at the left-hand end of the strip of cloth, and cover the board with the glue, lay it on the cloth, leaving about an inch at the front edge to lap over on the inside, smooth the cloth down, removing all air spaces from between it and the board, and when it is done, turn the front edge over on the inside and paste down tightly. Leave the top and bottom edges until later.

Then, allow enough of the cloth in the middle to cover the back of the file—about two inches—and commence gluing down the other board, laying careful to have both boards even, working from the space left for the back cover, and when this board is covered like the first cut a slit down the space at the back or either side and at each end, and turn the strip down on the back space and paste. Then, mitre the corners of the cloth and paste or glue down on the top and bottom of the boards.  
A lining of some light strong cloth should be pasted over the inside, and down the boards, just as the paper inside is pasted on "store" books. In fact, it will be a good plan to study the work of some well-bound book, even, working from the space left for the back cover, and when this board is covered like the first cut a slit down the space at the back or either side and at each end, and turn the strip down on the back space and paste. Then, mitre the corners of the cloth and paste or glue down on the top and bottom of the boards.

WORK OF TORONTO CITY MISSION PROGRESSES  
David Snowden Appointed as Additional Missionary—Month's Report.

The board of the Toronto City Mission met yesterday afternoon at the Upper Canada Tract Society's rooms. There was a good attendance. The president, Rev. Dr. Nell, being absent thru sickness, H. L. Stark presided. The appointment of David Snowden, presently pastor of Bayville Presbyterian Church, as an additional missionary, was confirmed.  
Rev. Robert Hall, superintendent,

also urges the engagement of another deaconess or Bible woman, and an appointment will be made as soon as the state of the funds permits.  
Four hundred homes in the most congested parts were visited by the missionaries during February. A number of cases of suffering were discovered and assisted, and provisions, coal and other helps were given in urgent cases to the value of \$7554, besides 633 articles of clothing and bedding.

### ACQUIT TAXI DRIVER JUDGE IS INDIGNANT

Man is Free to Go Out and Kill Somebody Else, He Remarks.

NEW YORK, Mar. 6.—(Can. Press.)—"You may go home, get another taxi and go out and kill somebody else," Justice Foster of general sessions court told Leon Gerard, a taxicab driver, acquitted of murder this afternoon. "The jury has given you permission to do so."  
"Gentlemen," continued the court, addressing the jury which had just given its verdict, "you seem to think that a drunken chauffeur can run recklessly with his machine thru the streets and go unpunished. At least that is what you say by your verdict. But in this case your state of mind, in order to reach that verdict, can be best described as the peace of heaven that passeth all understanding."  
Gerard was indicted for the murder of District Attorney Whitman, whom he ran down last April.

**MARKET DEVELOPS WEAKER UNDERTONE**  
Alarm Over Monetary Situation in Europe Reflected in Toronto Exchange.

**ANOTHER DIP IN C. P. R.**  
Shares Near Recent Low Record Again—Investment Demand in Evidence.

Under the leadership of C.P.R. and Brazilian, both of which were quoted lower in London, the Toronto Stock Exchange developed weakness yesterday. The market was not materially overburdened with liquidation; in fact, a few of the active favorites manifested a measure of firmness, but this was the exception rather than the rule. The ruling factor in London was the international monetary situation, which is showing up in an unfavorable light again, and the security list here proved readily susceptible to the adverse influence of the declines abroad.

In New York Canadian Pacific dropped off 2 1/2 points to 27 3/4, a figure just a quarter of a point above the low level of last month's decline. Berlin was a seller of the stock in London, which was accepted as an indication of apprehension in Germany over the outlook. Since Berlin has been almost a steady seller of the shares on every break of the last year, there would seem to be little ground for alarm in this latest occurrence. The stock sold here at 230. A month ago it was 230.

**Brazilian Down Again.**  
The setback in C.P.R. was not without its effect on sentiment, as the numerous small declines witnessed. Brazilian lost half a point to 96 3/8. The most significant fact in connection with the action of this issue was the paucity of the dealings, only 20 shares changing hands over the afternoon board. Traders will find room for thought in the lessened speculative interest in the security. Duluth Superior duplicated its recent low at 69 1/2. Twin City lost a fraction at 78 1/4. Toronto Railway strengthened, gaining a fraction, at 140 1/2, a new high for three weeks. Toronto Paper at 82 had recovered a large portion of its recent setback.

**BANK CLEARINGS SHOW BIG GAINS**  
Eight-Million-Dollar Increase in Toronto's Record for the Week.

Bank clearings in Toronto for the week ended yesterday made a remarkably fine showing, crossing the \$46,000,000 mark for the first time in over a month, and reaching the second largest record for the year to date. The exact figures were \$46,240,000, or over eight millions above the previous week, and a similar amount above the corresponding period of 1912. While the figures by themselves are not particularly significant, they may be accepted as an indication of more active trade, particularly when viewed in connection with the dearth of stock market trading. The high level for the year is \$52,974,414, the total for the week of January 9.

**BANK OF ENGLAND MAKES POOR SHOWING**  
Another Drop in Reserve Account—Discount Rate Is Held Unchanged.

LONDON, March 6.—The weekly statement of the Bank of England shows the following changes:  
Total reserve, decrease ... \$ 641,000  
Circulation, increased ... 409,000  
Bullion, decreased ... 232,339  
Other securities, inc. ... 680,000  
Public deposits, inc. ... 1,092,000  
Notes deposits, dec. ... 1,181,000  
Reserve, dec. ... 611,000  
The proportion of the bank's reserve to liability this week is 42.69 per cent.; last week it was 43.61 per cent. The rate of discount of the Bank of England remained unchanged at 5 per cent.

**STOCKS SOLD OFF ON LIGHT TRADING**  
Movement Had Little Significance, Traders Being Inclined to Caution.

**SOME SHORT SELLING**  
Profit-Taking on Wednesday's Advance Also Aided in Weakening Prices.

NEW YORK, March 6.—In response to another dip in speculative sentiment, stocks sold off today. Trading was not large, and the movement appeared to reflect little more than the passing mood of professional operators. On Monday stocks were put down, on Tuesday they were put down, on Wednesday up, and today down. Traders are feeling their way while awaiting developments of sufficient significance to serve as guide posts. In this connection, much importance is attached to the first acts of the new national administration, which realized that some time will be required to put into effect the policies of the administration, and that the stock market has ahead of it a period of suspense. In the meantime the professional element trades from day to day, selling on rallies and buying on declines.

**Bears Renew Attack.**  
Few important stocks today lost more than a point. There was some profit-taking as well as renewed bear selling, on the theory that the long position had been weakened by recent extensive covering. Except in some of the specialties, there was no evidence of liquidation. American Tobacco stocks fell over 7 points, marking its decline in the last two days 12 points, which, however, was reduced by a rally in the day. Other tobacco stocks were heavy. The average of Berlin's financial requirements was indicated today by the raising of the German bids for money in this market to 6 1/2 per cent. for funds to April 30. It is understood that loans were placed at this figure. Further strength in the average of Berlin's exchange market today, rates for both sterling and continental exchange rising.

**ANXIETY OVER THE GERMAN SITUATION**  
Europe Is Apprehensive Regarding Loans Which Must Be Raised Soon.

LONDON, March 6.—With a satisfactory settlement of the Balkan troubles, all Europe is looking for great relief in new capital issues. Already the market is dotted with flotations, but the Balkan States, Italy, Austria, Spain and China will all have to borrow money. It may be taken for granted that the German Government will also require further loans, in addition to which the demand of trade, even if activity in that direction in Germany should diminish somewhat, will also be an important factor.

**LONDON MARKET IS AGAIN DEPRESSED**  
Monetary Situation in Europe Creates Alarm—C.P.R. at Lower Prices.

**MONTREAL LIST HOLDS UP WELL**  
Weakness in C. P. R. Had No Marked Effect on Other Stocks.

MONTREAL, March 6.—The local stock market accepted so unfavorable an influence as a further decline, and a sharp one, in C. P. R., with characteristic equanimity today. While the tone ruled heavy throughout the day, there was little liquidation and changes for the most part, while practically all in the direction of losses, were comparatively slight. C. P. R. was heavy on all markets today, due to monetary reasons again accepted as the principal reason. Only 600 shares of the stock changed point. The tone in the afternoon was slightly better, with last transactions by the C. P. R. declined an opened one point lower at 226. In the afternoon there was a further decline of one point, but the influence of C. P. R.'s improvement in the rally back to 228 in the final trading. Apart from C. P. R. and Power the market was very quiet. Brazilian and Dominion Iron, which ranked the point of activity, were on the heavy side and showed a loss of 3-4 for the day. The range of quotations for iron was down a full point at the close. Total business 5430 shares, 3015 rights, 90 mining shares and 40,300 bonds.

**HOLLINGER MAKES NEW HIGH RECORD**  
Porcupine Stocks in Limelight Again—McIntyre Up—Pearl Lake Erratic.

Hollinger moved into the centre of the stage in the mining exchanges yesterday, a spectacular spurt carrying the shares up about a dollar to a new record in their history. McIntyre was another strong spot, with a new high-water mark established. Elsewhere the list was irregular, with erratic changes in Pearl Lake the feature. The Cobalts were firmer in general, the trading was of a circumscribed nature throughout.

**RIGHT OF WAY MEETING.**  
OTTAWA, March 6.—Only routine business was transacted at the annual meeting of the Right of Way Mining Co. The old officers were re-elected.

**SENECA SUPERIOR RECORDS.**  
On the Toronto Stock Exchange Curb yesterday a block of 40 shares of Seneca Superior Cobalt sold at \$2.10. This is a new high record price, the previous high level of \$2 having been reached last month. The stock sold at \$1.40 in January.

**TORONTO'S CREDIT IS OF THE HIGHEST**  
So Says "The Thunderer"—Canada Must Proceed Cautiously in Matter of Loans.

LONDON, March 6.—The Times publishes an article discussing the recent high level of the Toronto loan of £1,200,000, the public opinion taking 15 per cent. It is shown that with the extraordinary increase in the wealth of the country, the public opinion could bear a debt double that permitted by law. Nevertheless, the highest financial authorities urge that the time has not yet come for a free flow of Canadian issues.

The Harris Abattoir Company, Limited, distributes its products, principally fresh meats, through its branch houses—St. Lawrence Market, Toronto, Sudbury and Haileybury in Ontario; Montreal and Quebec City in Quebec, and Sydney and Glace Bay in Nova Scotia. By-products, such as Hides, Wool, Bones, Tallow and Oleo Oil are distributed very widely over Canada, the United States and Europe.

The Company has buildings now under construction at the Union Stock Yards, West Toronto, which, when completed, will be one of the most modern packing plants in Canada. They consist of a group of six buildings, mostly of concrete construction and fireproof.

The Management of the Company is in most capable hands. Mr. James Harris and Mr. W. T. Harris have from its inception acted as Managing Director and Sales Manager respectively, while Mr. J. S. McLean, Secretary-Treasurer, has held that position since 1903. There has been no change since then in the personnel of the Stockholders, Directors or Management of the Company. Nearly all the heads of departments have been associated with the enterprise for many years.

Copies of the Trust Deed and of the appraisal certificates may be seen at our offices. Interim Certificates will be furnished pending delivery of definitive bonds.

INSOLVENCIES IN U. S. LAST MONTH  
During February there were 1454 commercial failures in the United States, reported to R. G. Dun & Co., with an aggregate indebtedness of \$25,141,258, this record being much more favorable in point of number than as regards amount, also after eliminating three defaults of unusual size the exhibit of liabilities is by no means bad.

The 1454 insolvencies last month compared with 1539 in 1912, 1198 in 1911, 1067 in 1910 and 1105 in 1909. In February, 1908, the suspensions numbered 1621. There were 360 fewer
