REPORTS THROUGH AMERICAN CHANNELS

The Cannonading is Reported to Have Been Terrible-Losses Said to Be Heavy on Both Sides-Spanish Spy Caught at Key West, Tried by Drumhead Court-Martial and Shot-Warship Oregon at Rio Janelro-War News Generally.

New York, May 1.-[Special to Toronto World.]-A London special to The Journal says: News comes from Madrid that a fierce battle has been fought at the Philippines between Admiral Dewey's fleet and the Spanish ships and forts. The American ships arrived off Cavite at daylight Sunday, and Dewey immediately opened fire on the Spanish vessels and forts. The cannonade is described as having been terrible. The Spaniards fought bravely, according to the report, and compelled the American fleet to retire. Admiral Dewey renewed the attack and had several ships disabled. The Spaniards admit that four of their ships were badly damaged. A Spanish gunboat was struck and the captain killed.

SPANISH SPY SHOT. The marines now on the Purushar will police and hold the town after the bombardment.

San Was Attempted to Blow Up the Warship Purushar Riddled With Bullets.

New York, May 1.-[Special to The Toronto World.]-A Key West special to The Journal says: Jose Yglesias, the Spanish spy who plotted to blow up the Purushar, was condemned to death by a drumhead court martial and shot yesterday at sunset. Twelve bullets were fired into his body.

A Company of Immunes. A New Orleans special says: Newspaper men in New Orleans have organized a company of volunteers, all immune from yellow fever. The company is composed of 100 members, and will go to Cuba with the Louisiana militia.

WASHINGTON REJOICED. The people went into a frenzy of excitement when the news of Dewey's victory was received.

Washington, May 1.-Washington is rejoiced tonight. Not since the dark days of the great civil conflict of a third of a century ago have the people of this city been so profoundly moved by war news as the first this evening.

A DECISIVE VICTORY. Is What It Appears to Have Been for the American Fleet, According to the Later Reports.

New York, May 1.-[Special to The Toronto World.]-A London special to The Journal says: Further reports from Madrid admit that Admiral Dewey landed his men under a strong guard after the first engagement was fought, preparatory to making a combined land and naval attack on the forts. The Spaniards admit that the American ships are now anchored together inside the bay, and, although some are damaged, none are badly disabled. The Spanish report says five of their ships were badly damaged, and says the American fleet was compelled to retire. The Spanish boats sought refuge under the guns of the Cavite forts.

Blanco Will Defend Desperately. London, May 1.-The Havana correspondent of The Daily Mail, telegraphing on April 29, says Captain-General Blanco has determined upon a desperate defence of Havana. He has ordered all the troops engaged day and night in throwing up earthworks and encompassing the entire city in a segment of a great circle.

Queen Appeals to the Czar. London, May 1.-The Berlin correspondent of The Sunday Special asserts that the Queen Regent of Spain has appealed to the Czar, through Emperor Francis Joseph of Austria, to assist Spain in her conflict with the United States. Emperor Nicholas replied directly to the Queen Regent, assuring her of his deepest sympathy with Spain, and that country the United States has forced war; stating, however, that he does not consider matters yet ripe for Russian diplomatic or military intervention, but that he will do whatever is possible at the proper time.

Massacre Feared at Manila. Hong Kong, May 1.-Advices from Manila say a massacre there is feared. The British Consul has cabled for a warship.

Salem to be Attacked. New York, May 1.-[Special to The Toronto World.]-A Washington special says: The Government has reason to believe that if the Spanish fleet crosses the Atlantic off one of the first places attacked will be Salem, Mass., where nearly 70,000 tons of coal is stored. Salem harbor is practically unprotected, having no shore batteries. This is believed to be the one reason why the Columbia and Minneapolis were ordered to the New England coast. The coal would be badly needed by the Spaniards after the run across. Senior De Lome sent a great deal of time examining the coal pockets and wharves last summer while visiting Manchester.

Weather Propitious Now. A Key West special says: Advices from Cuba say that the weather is propitious for invasion at the present time. Five weeks of campaigning can be carried on before yellow fever sets in. There is said to be little danger from yellow fever outside of Havana. The polluted water there makes it very unhealthy.

A San Antonio special says: News has been received here that Mr. Roosevelt expects to join his command of mounted rangers within a week. He and his troops desire to be among the first to invade Cuba.

Bombardment on Tuesday. A Miami, Fla., special says: An officer of the Purushar said today that another attack will be made on Matanzas on Tuesday. Both forts will be shelled, and, when succeeded, landing parties will be sent ashore.

Serg-Major Prentice, who appeared for the constable, asked the Mayor if he bore any ill-will towards Cameron, and if it was not true that he had been dogging him for months. The judge and magistrate protested against such matters being introduced and Mr. Cameron's office to the constables, almost to a man, were complaining about Serg-Major Prentice's conduct and over-zealousness.

WOMAN OFFICIALS FALL OUT

Administrator Walsh and Inspector Constantine at Variance.

The Mayor is Coming to Ottawa to Lay His Complaints - William Ogilvie May be the Next Administrator - Ottawa Paper to be Sued for Libel - General News Items from the Capital.

Ottawa, May 1.-Advices received by the Government state that Mayor Walsh, Administrator of the Yukon, is on his way to Ottawa and may be expected here in about three weeks. He is expected to consult with the Government in regard to vexed questions of international import, but these in a position to know say this is all poppy-cock. The Mayor has not been on friendly terms with Inspector Constantine, who is in charge of the Mounted Police, and the latter has not hesitated to tell Mayor Walsh what he thinks of him. It is rumoured that the Mayor has written a scathing article in the Ottawa Citizen, in which he has attacked the administration of Inspector Constantine. The Mayor has been very much annoyed by the Inspector's uncompromising observations of the Mayor's administration, and has been annoyed in the same groove as Mayor Walsh and, consequently, would not put up with the Mayor's attacks. The Mayor, says, has his authority denied. Mayor Walsh is, accordingly, it is said, coming to Ottawa to get the Government to appoint Inspector Constantine. The general belief is that Mayor Walsh will not return to the Yukon as Administrator, as it is well known his appointment was only for one year and once he is out of the country the Government may conclude to let him stay out and send a man of fact and judgment like Mr. William Ogilvie.

BOTH SIDES ARE SATISFIED

Toronto to Share Traffic From West, Though Not From Hudson Bay.

No Opposition to be Offered Hudson Bay Railway Charter to Day, 'Tis Promised—Local Vendors Getting Worst of It in Elevator Shuffe—Controllers Caucus Again—City Council to Day.

Mayor Shaw has returned from Ottawa highly pleased with the result of his mission in the interests of the Bill to incorporate the Toronto and Hudson Bay Railway. The measure, it is true, has not yet passed the House, but His Worship is assured that as the result of the compromise effected with William McKenna and the C.P.R., it will pass today. The Mayor regards this arrangement as extremely advantageous to the city. It secures at least one of the two objects aimed at by the projected civic road in that it guarantees for Toronto a fair share of the western trade now monopolized by Montreal. There is no provision as yet for the opening up of the country between the C.P.R. and James' Bay, but it is thought possible that the Grand Trunk, which would be deprived almost entirely of its traffic now going along the Northern, may be compelled to extend that road northward for self-preservation. But he regards the compromise as the only means by which the passage of the charter bill through the House could be secured. By it Mr. McKenna is bound to have at least 15 per cent. of the cost of the Toronto, Parry Sound and Sudbury line, and the big railway builder is very enthusiastic, and it is expected will have much more completed than is required from the city of Toronto.

The Board of Control can now have no recommendation in respect to the elevator contract for to-day's council. The requirement for a 24-hour service will stand in the way. While in Ottawa Mayor Shaw requested Solicitor Drayton to take the matter up at 12 o'clock yesterday. The telephone call, however, when received at the City Hall. The members were summoned to call the Board of Control to order, but no appearance was made. The Mayor desired a postponement for an hour, to have a breathing spell in order to transact certain matters of business. He has, however, been informed that his colleagues entered the great-box in company, it is understood, with a representative of the City of New York. Subsequently the party repaired with the architect to inspect the plans for the new building at King and Yonge-streets, as well as to see certain of the Fenelon elevators in use. The strong lobby put up by the foreign tenderers has had a visible effect. The tendency is now strongly in their favor. Architect Leung will report, as it must have been expected he would, that the Fenelon Co. have not tendered according to specifications, and has given it out that to do so must cost them nearly \$3000 more than to tender on the improper specifications, he claims they used. Solicitor Drayton goes further. He was also appointed to look into the Fenelon tender, and while agreeing with the architect, further states that he is not sure that the local tenderers cannot be held down to the architect's specifications at the prices already submitted on pain of forfeiting their deposit.

The board, with the exception of Ald. Fenelon, seems also to be against Fenelon. In fact, a representative of the Fenelon Company says it is already "fixed" when he has been asked to give his endorsement of a large proportion of council, when he has been asked to give his secret understanding to this question. The chances are that if such arrangement be found to exist, there will be no chance for the Council that is in hand.

Will Be Satisfying For Us.

City Engineer met with E. P. Clarke, M.P., writing from Hon. J. J. Tarte, Minister of Public Works, while in Ottawa, consent to have placed in the supplement estimates amounting to repair 500 or 600 feet of the bridge over the Victoria. The Street Commissioner's "white-wings" hunt the season's operations on the streets to-day.

City Hall Notes.

A General Manager Meeting of the Toronto Street Railway Company was notified the Mayor of the refusal of the company to construct a loop line on Victoria and Shuter-streets, and has applied again for permission to lay a spur line on Victoria-street north of Queen-street.

NEW INDUSTRIAL HOME

Description of Rescue Institution for Young Women Which the Mayor Will Open To-morrow.

Right on Yonge-street, between Davenport-road and Pritchard-street, is the handsome new Rescue Home of the Salvation Army, which His Worship Mayor Shaw will officially open to-morrow. Street cars by past here every few minutes, and yet the Home is sufficiently far from the busy byways to command some glimpses of green fields between sparsely dotted houses. The fact that this imposing building is dedicated to philanthropic purposes is testified by the tablet at the door, bearing the words, "Salvation Army Industrial Home for Young Women." When the reporter entered the door was thrown open by the matron, a tall, commanding woman, with a heart to match her stature, and the door's white seemed fully in keeping with the all-charitable-needs that never find refusal here. The rooms inside are uniform in light color and grace, and there is a pleasing variety of once taking steps to have the Yukon Railway built, is playing into the hands of men who want to bleed the province to the extent of \$1,000,000. The Yukon Railway is a Dominion work, not a provincial one. Kootenay is crying out against any provincial aid to McKenna and Mann, and now New Westminster has joined in. At a public meeting held there, the following resolution was adopted: "Resolved, That the people of New Westminster, in public meeting, best to enter respectful but most emphatic protest against any proposal to increase the already large debt of the province for the purpose of subsidizing a railway to the Yukon country."

Before adopting this resolution, the meeting voted down an amendment, recommending the Provincial Government to grant \$4000 per mile to a line between Glenora and the coast. The feeling of the majority is that the Dominion Government must arrange for the building of the line.

Recent Celebration.

The May devotion was celebrated at all the Catholic churches of the Toronto diocese yesterday. The ladies of the Sodality of the Blessed Virgin Mary attended in large numbers. At St. Mary's there was a procession and an able sermon was preached by Vicar-General McCann. The devotions will be continued on Wednesdays and Fridays throughout the month.

Spring Sermons.

Pulpi Sensationalism.

Morgan Wood was not to be outdone by Sam Jones yesterday. Before going to the Court Street Church Mr. Wood gathered up all the news to be got on the window bulletins of the different newspaper offices and read them out to his congregation. He had to "scoop" the papers, however, and telephoned to the G. N. W. Telegraph office for the latest. This, in the shape of "Great sea right; two Spanish war vessels sunk; 1000 Spaniards blown into eternity," was dramatically announced.

POISONOUS CANDY.

and Story of the Effects of Some Mixture Thrown to a Child—Police are Investigating.

The 4-year-old daughter of Mr. C. L. Winters of 21 Galliard-street had a very painful experience on Friday afternoon, and circumstances have led Mr. Winters to place the case in the hands of the police. It appears, while the child was playing in the back yard, a small round ball of some material that exactly resembled cream candy was thrown over the neighboring fence. The child naturally picked it up and conveyed it to her mouth, with the result that her fingers, lips and the interior of her mouth were terribly burned. From some acid in the mixture, Mr. Winters knows of no reason why such a thing should be done maliciously, but he is having the case looked into.

The child at present is doing well under medical care.

Senor Polo's Secretary to Lecture.

An event of much importance is the announcement this morning that Senor Polo de Bernabe's first secretary, Senor Du Rose, is to give a lecture on the Cuban question at the Spanish Consulate, Thursday evening. Much pressure has been brought to bear upon Senor Du Rose (two Spanish speakers) to speak on this interesting subject, and apply the proceeds in aid of the Red Cross Society. Further, he is to speak to the sick and wounded of both sides within the Spanish lines. His name is Archbishop Walsh, the Hon. Sir George Kirkpatrick, C. M. G.; His Excellency Senor Polo de Bernabe and members of the late Spanish Legation, will be present on the platform. "The Cuban Question" and "Spain's View" should prove a most interesting and didactical lecture to a large audience. Plan of seats for the lecture will open at the Hall box office to-morrow morning.

THE OLD AND THE NEW.

My father he fit into the Revolution and was wounded; he drove a baggage-wagon and was killed by a mine. I was a boy and was admiral of the fleet. He bunched Matanzas with his 14-inch shooting iron and did powerful execution; he saved a Cuban vessel—Sammy Sampson.

New York Bank Reserve.

New York, April 30.—The New York Bank Reserve says this week: The bank statement shows a surplus of \$4,000,000. On Feb. 21 the reserve of the clearing house association was approximately \$4,000,000 and \$19,188,000 specie, a total of \$23,188,000. On April 30 the reserve was \$18,322,800 specie and 700,000 legal, or a total of \$19,022,800. The total cash holdings are four millions heavier than at the close of February, but the same time they have decreased their loans \$71,680,000 and their deposits \$70,711,000. This will give an idea of the general liquidation that has been in progress for six days. The conversion of sterling deposits has been influenced by the demands of interior institutions. The losses in loans have been almost counterbalanced, so that the reserve requirements of the banks have been reduced seventeen millions, so that with four million more cash on hand than reported sixty days ago the surplus holdings are over \$21,000,000 greater. In other words, the excess reserve is now \$14,000,000. Sixty days ago it was \$22,000,000. The sense of the Government loan will largely reduce this amount, but it will not necessarily require a further contraction of the several important items of the banks.

THE TORONTO WORLD ONE CENT MORNING PAPER.

No. 55 YONGE STREET, TORONTO. TELEPHONES. Business Office 4734 Editorial Room 422

THE WORLD'S WAR NEWS

During the past week a great deal of anxiety was felt for the safety of the Paris. It was reported shortly after she left Southampton that the steamship had been captured by the Spanish fleet. Although this rumor was not confirmed, there was a possibility of the steamship's being taken as a prize at any point in her voyage across the Atlantic. The anxiety was heightened by the fact that there were 150 passengers aboard, whose safety was naturally the object of no little concern. The public of two continents were on the tip-toe of expectation all week to learn something definite about the fate of the vessel. At 2.47 Saturday morning the Paris was reported off Fire Island. The word was immediately flashed to New York and from thence all over the continent. The news reached this office at 4 o'clock, and a copy of The World containing the definite announcement of the ship's arrival was in thousands of homes in Toronto before 5.30 a.m. This is undoubtedly a lively piece of journalism, even in this electric age. Within two hours after the arrival of the Paris at Fire Island thousands of copies of The Toronto World announcing the fact were in circulation. The rapid newspaper work was not the result of accident, or a mere fluke, as far as The World is concerned. While not sending a correspondent to Key-Weat, or chartering an ocean steamship, The World has made arrangements to secure, not a part of the news, but all the news about the war. A certain contemporary of The World has been trying to impress on the public that it alone of all the papers in Toronto was able to furnish an up-to-date war service. It had made an alliance with The London Times and, if we are to believe its statements, it had chartered a grand ocean vessel, not a mere yacht, to carry its despatches from the scene of war. It had at its service some 20 correspondents of world-wide reputation. Well, this great war journal failed to record the fact of the Paris' arrival on Saturday morning, although The Globe and The World announced it. This same journal was surprised the other day that The World had the news of the bombardment of Matanzas as soon as itself. It even went so far as to insinuate that we had pirated its despatches. Of course the insinuation was a lie, but lies count for little in the world of journalism. The World may rest assured that The World will be behind none of its contemporaries in the publication of authentic news concerning the war. We do not put every rumor that comes along under a two-inch heading, but we give the news, and the whole of the news, and which is more than the other journals, with all their shouting, are able to do.

THE HUDSON BAY RAILWAY.

The Hudson Bay Railway problem is exactly where it was when the Commission was appointed to solve it. Mayor Shaw states that he is highly pleased with the result of his mission to Ottawa, but just what it is he has accomplished we fail to discern. Mr. Mackenzie says he is going ahead with the Toronto-Studbury branch of the C.P.R. It was not necessary to organize a commission to secure the building of this line, because the C.P.R. has been committed to its construction for a long time. It certainly will be advantageous to Toronto to have direct connection with the main line of the C.P.R. from the west, but this project has nothing in the world to do with the proposed Hudson Bay Railway. It was expected that the commission would devise some means whereby railway connection would be made between the C.P.R.'s main line up north and James Bay, but no such advantage is to be secured. Instead of building north of the C.P.R., where we have to communicate at all, we are to have a duplicate line south from the C.P.R. to Toronto. Existing railway facilities between these points are adequate for the traffic for several years to come. If the commission had brought about an agreement between the two railways to use a common track, the line far north as the C.P.R.'s main line, it would have made the construction of the gap from that point to James Bay a much more feasible project. As it is Toronto's much-talked-of Hudson Bay Railway is still a mythical proposition.

SUNDAY WORK ON THE CANALS.

The closing of the canals for the entire 24 hours of Sunday is too great a sacrifice to make to orthodox Substantivism. The request of the Marine Viceroy that the Welland Canal should be open from midnight to 6 a.m. and after 9 p.m. was a very reasonable one, and it should have been acceded to. Under this proposal the canal would be closed for 15 hours, which is longer than the period during which the average individual is awake on Sunday. As far as the religious aspect of the question is concerned 15 hours ought to be ample to satisfy the most scrupulous. If we view the question from a labor standpoint the necessities of traffic and of economy demand that as little time as possible be lost in the transportation of produce through the canals. The Lord's Day Alliance people are doing all they can to drive traffic from Canada to the United States, where there is more freedom in this respect.

ELECTRIC CURRENT FOR THE ISLAND.

There is no doubt as to the policy that ought to be pursued in supplying the Island with electric light. With a steam plant of its own already on the spot the city can produce electric current cheaper than any private corpora-

THE TORONTO WORLD

tion. If for no other reason the city ought to install a plant of its own on the Island in order to afford us reliable facts and figures as to the cost of producing electric current. We believe the effect of operating a civic lighting plant on the Island would be the establishment of a municipal plant for the city itself. As soon as the people become aware of the benefits of civic ownership of the electric service, they will insist on adopting it. If an electric plant is placed in the water-works at the Island, as we trust it will be, it ought to be large enough to supply current to the cottages and to light the streets.

ANNOUNCED THE FRENCHMEN.

The Montreal du Commerce Takes Exception to an Article in a Toronto Paper. Montreal, May 1.—Referring to a Toronto evening paper's pro-American article and its slur that French Canada can make no contribution to the success of the Franco-Canadian Committee, the Montreal du Commerce, a French Canadian commercial paper in the province, says: "In the solemn circumstances under which Great Britain is now placed, who mistalight the neutrality and whose flag protects the words that we have just quoted?
