ST. GEORGE'S IS GONE

Kingston's Fine Cathedral a Prey to the Fire Fiend.

EARLY ON SUNDAY MORNING

The Old Edifice Was Discovered to Be in the Grasp of the Flames.

ton Bowen had started fire to warm the edifice for worship and it is supposed there was an explosion of gas in the furnace room—fighting the flames in a temperature of 12 below zero—only \$28,500 insurance—old lady died from shock

Kingston, Ont., Jan. 1.—St. George's Cathedral was burned down this morning. The fire was discovered about 5 o'clock and in a few hours the fine building was a mass of ruins, the interior being completely gutted. The fire is supposed to have started from an explosion of gas in the furnace room. Half an hour before the alarm was given, Sexton Bowen had visited the church, fixed the fires, and left for his quarters. Firemen, policemen, soldiers and citizens worked hard in weather 12 degrees below zero, and all were soon coated with ice. When the roof and dome fell in the shower of flying pieces spread fire along King-street, doing special damage to the residences of Very Rev. Dean Smith and George H. Allen. Both homes were flooded before the fires in the rooms were stayed. The cathedral was built in 1825, and remodelled in 1840 and 1853. It is probable that \$100,000 had been expended upon it. The church officials carried a debt of \$30,000. The insurance was \$25,000, on building and contents, carried by the Sun, Mutual, Northern Alliance and Gore Lumber Companies. Little was saved. The altar and Mrs. Smith secured a portion of the church records and vestments from a vestry. The many fine windows, memorial tablets and brasses, were all destroyed. The church will be restored.

BUFFALO WOMAN KILLED

Joseph W. Gray, who says he is from Toronto, was arrested on Saturday night in Buffalo, charged with murder. The prisoner is about 40 years of age and states that he was a hostler and coachman here, and left the city about two weeks ago in search of work. The crime he is charged with is the killing of a Mrs. Thomas Sibbald, whose husband conducts a restaurant at 310 Main-street. Gray claims to be a son of a gun, and carried with him several bottles of various liquids, which are claimed to be the means of the many ailments of horses. When Gray reached Buffalo he took up his apartments at the Sibbald residence, and on Saturday evening, while the Sibbalds were asleep, he administered a dose of the poison to the horse. The horse died shortly afterwards. It is not thought by the police that Gray gave the deceased the poisonous fluid with any wicked design, but that she took it inwardly instead of rubbing it on the afflicted parts. An autopsy will be held on the body today, when the direct cause of death will be determined. In the meantime Gray is held, awaiting the result of the proceedings. The detainer contains the name of no Joseph Gray, and he cannot at present be traced in this city.

SITUATION AT ILOILO

A despatch from Iloilo represents the situation as grave. Armed natives show a menacing attitude. All the women have withdrawn, and foreign residents have petitioned the American General, Miller, to allow time for the insurgents to get word from Aguinaldo before beginning hostilities. General Miller has refused, and the rebels are preparing to resist. Meanwhile machine guns are being prepared for work and the United States transport Pennsylvania has steamed up.

A CHINESE CRISIS.

An Imperial edict issued on Friday at Peking shows that the Empress Dowager realizes that the situation is serious and that reforms must be inaugurated. A deadlock has resulted from a demand by the Russian authorities for the surrender of certain British property which the Chinese Government has awarded as part of the Russian concession at Han-Kau. The British refuse to surrender the property.

You Have Aid. McMurrich's Statement That the Mayor Was Pledged to Retire and the Mayor's That He Was Not

An evening paper rings in a roorbark to the effect that there is a strong probability of Aid. McMurrich retiring from the mayoralty field. The World has persistently denied this on the alderman's behalf, and must do so again to settle this question once and for all.

Aid. McMurrich could not have been more emphatic when he said last Saturday afternoon:

"John Shaw is the man you may look to to retire, and if he did the decent thing he would. Mr. E. F. Clarke and many of his other friends came to me last year, and I retired from the field to let Shaw beat Macdonald. I did so on the representation of these gentlemen that I was to have the field against all comers, excepting Shaw.

SALISBURY AND CAMBON

Have Been Very Busy Trying to Get Matters in Shape Between Britain and France.

Some Ugly Questions to Solve.

Lord Salisbury Wants to Trade Parts of Africa for the French Shore of Newfoundland.

London, Jan. 1.—For the last week there have been almost continuous diplomatic negotiations in progress at the Foreign Office between Lord Salisbury and Ambassador Cambon of France. These two shrewd diplomats have been endeavoring to effect a settlement of the long-standing colonial disputes between England and France that have time and again almost precipitated war.

Ambassador Cambon left London to-day to return to Paris and to report to Foreign Minister Delcasse the results of the negotiations he has been carrying on with the British Premier.

According to information obtained at the British Foreign Office, Lord Salisbury has proposed a general settlement of the disputes, but his terms are such that it is not believed that France can accept the proposals for a general entente.

Lord Salisbury's proposals include the cession of Gambia, a part of Sierra Leone, in Africa, in exchange for the surrender of all French rights on the shores of Newfoundland, except St. Pierre Miquelon, which will be retained by France, but must not be fortified. France will not be asked to vacate the island of Obock, at the entrance of the Red Sea.

Lord Salisbury lays claim to a British sphere of influence in Central Africa, extending to the shore of Lake Tchad, and in return for this, France would be granted a trading access to the White Nile.

While these African differences are being settled, the disputes between the two countries on the shore of Lake Tchad, and in return for this, France would be granted a trading access to the White Nile.

Lord Salisbury also notified the French Ambassador that the French opposition to the Anglo-German agreement concerning the partition of Portuguese East African possessions will be ignored. The negotiations for the division

of Portuguese territory in South Africa have progressed rapidly recently, and there is good authority for the statement that protocols have been exchanged between Great Britain and Portugal regarding these possessions.

Great Britain is to get the territory around Delagoa Bay, extending as far as the Quillimane River. The Delagoa Bay Railway will be acquired by an Anglo-German syndicate. It is understood that this syndicate will pay the \$3,000,000 award of damages rendered against the Government by the Swiss Arbitration Tribunal for the seizure of the railway.

In this division of African territory, as agreed between England and Germany, the latter is also to get some rich possessions in the region of Delagoa Bay. Germany is to have the territory extending from the northern bank of the Quillimane River as far as Capre Delgado.

Mr. Asher has taken an active interest in everything that has been connected with the part of the ward in a private way, and if he works as well in Council it will be safe to open his there.

Open on Election Day.

George S. McConkey's restaurant, confectionery and lunch parlors will be open to-day.

THE TORONTO WORLD

RESPECTFULLY REQUESTS YOUR VOTE AND INFLUENCE FOR

The Market By-Law

BECAUSE

1. It is the best business proposition before the citizens. Leading financial authorities who have looked into it say so.
2. It will not cost one cent more than \$150,000 or it will not be gone on with. Contract must be signed for less than this amount before the by-law is read a third time.
3. It will not interfere with the trade of small stores. It is not to be a series of retail stalls, but a large wholesale produce exchange, where all storekeepers can buy to best advantage.
4. If we do not provide speedily for the rapidly growing wholesale produce, export and fruit trade, it will leave us. Outside places have profited by Toronto's backwardness before, see that they do not do so again.
5. Pay no attention to disappointed architects and their grumbles—Mr. Herbert Paul is one of them. He has had \$1000 already out of the market for a set of plans which are "fearfully and wonderfully made."
6. There are hundreds of responsible citizens behind this scheme, and they purpose sticking to it until it is a handsome paying venture for the city.

THE BLUEHOSES ARE KICKING

Goods from Britain Under the Preferential Tariff Should Come to Canadian Ports.

DEPUTATION GOING TO OTTAWA.

ostensibly to Talk About Inland Fisheries, But Really, It is Suspected, to Protest Against Concessions to the Yankees.

Montreal, Jan. 1.—(Special).—There is a leading gentleman here from the Lower Provinces, who states that the feeling is daily growing down by the sea that all British goods receiving the preference duty of 25 per cent. should come into the Dominion, both in summer and winter, by Canadian ports, and through Canadian ports alone. He says that this policy would have a better effect than the granting of steamship subsidies, and it would be the best thing that ever happened for Montreal, Quebec and Halifax.

Hon. Messrs. Emerson (the Premier) and Tweedie and White of the New Brunswick Government, with Premiers Murray and Fairbairn of Manitoba and Prince Edward Island, and Attorney-General Longley, have gone to Ottawa for the purpose, so Ministers believe, of discussing the judicial Committee of the Privy Council affecting the internal fisheries of the Dominion.

It appears however, that this question would have kept, and that it is one of a more pressing nature that called the Maritime politicians to Ottawa. It is stated here to-day that it had been rumored about the internal fisheries, and that the three Premiers decided to go to Ottawa and impress upon Sir Wilfrid and Sir Louis Davies that any such act would be suicidal in the three provinces down by the sea.

HOW RUSSIA HAS GROWN

Output of Gold-Bearing Ore Has Been Nearly Double That of 1897.

THE INCREASE IN DOLLARS 700,000.

Stock Business Has Been Unexpectedly Good During the Holidays—The Year Reviewed.

Rosiland, B.C., Jan. 1.—(Special).—Stock business has been unexpectedly good during the holidays. There are now 35 working properties, with a pay roll averaging \$1250 each.

Regarding ore production, The Miner says to-day:

The showing made by the mines of the camp during the past year is very satisfactory. There was a production of 116,697 tons of ore, which returned values aggregating \$2,807,708.12. This is against 68,000 tons and an output of \$2,100,000 in 1897, an increase in dollars of \$700,000. The increase was made under such circumstances that the wonder is that there has been any growth. Le Roi, the largest producer in the camp, owing to complications has more over its purchase, did not ship over half the time. Centre Star had shipped only about 2000 tons when it was purchased and its output stopped, pending its more complete development. A.R.M.

THE MAYORALTY CONTEST.

Tilden and Teetzel Have Conducted a Quiet Campaign for the Civic Chair.

FOREMAN BREWSTER BADLY HURT.

Chemical Engine Exploded and Its Suffers Seriously - Pistol Accident - General News.

Hamilton, Jan. 1.—(Special.)—The mayoralty contest has been an unusually quiet one and save the ward meetings held by Candidate Teetzel and the nomination speeches, little has been heard in public of the merits and demerits of the two candidates. Mr. Teetzel has chosen the unexciting scheme of terming himself an independent candidate, for the purpose of getting the votes of wavering Tories.

Mr. John H. Tilden, the other hand, has come out plainly and squarely as a Tory. He has put forward no "independent" nonsense, but as a business man with considerable Aldermanic training and a willingness to serve the city's interests faithfully, he appeals to the electorate.

He has his forces well marshaled and his lieutenants are among the ablest of the city's wirepullers; while the Tory leaders have not been active in coming to the help of J. V. in the fashion that is most serviceable at election times.

Mr. Tilden seems to be Hamilton's next mayor and if the electors do the right thing to-morrow, he will be.

Butler in His Hip. Last evening Albert Vandervort, a brakeman on a T. H. & B. R. passenger train, got a bullet in his thigh while in the baggage car. The baggage man, Joe Woodson, was examining a revolver, when the weapon went off. It was pointed towards the floor and the bullet struck a piece of iron and glanced upward, entering Vandervort's thigh. The injured man was taken to the City Hospital. The injury is not dangerous.

Fireman Injured. Foreman Brewster of the King William-street Fire Hall was painfully injured yesterday while the new combination wagon was being tested. A large fire started, and before Chief Aitchison had taken the precaution to see that everything was all right, the pipes in the wagon were frozen and a hand chemical extinguisher was brought out. It was shaken and the hose being twisted, it exploded, injuring Brewster. Several spectators had a close call and the cylinder was blown into an adjoining yard.

Wished to Be Forgotten. The remains of Henry Hargrove, formerly of the Singer Sewing Machine Company's office here, who died suddenly in Montreal, N. Y., were brought here yesterday and interred in Hamilton Cemetery. The cause of death was grip, the doctor says; his friends say he died of a "broken heart." Hargrove left Hamilton over a year ago, leaving his wife and children behind. About the same time a Miss Huntworth, who was also employed at the Singer factory, died. It was supposed at the time that the two died.

Mrs. Hargrove did not hear from him till the other day, when she was telegraphed for by the physicians in attendance, as the sick man wished to get her forgiveness. Mrs. Hargrove went and returned with the body.

Left a Large Estate. The will of the late Robert Thomson, lumber merchant, was entered for probate yesterday by his son, J. C. Thomson, who is sole executor. The amount of the personal estate is about \$180,000 and real estate about \$100,000. After a legacy of

MANIPULATES' WORDS

Mayor Shaw, Ald. McMurrich and E. A. Macdonald Hold Their Final Meetings.

AT ALL THERE WAS KEEN INTEREST.

Civic Problems Discussed by Leading Citizens—Big Crowd Greeted All the Speakers.

Disman's Hall was crowded to the doors on Saturday night by the electors of Ward 1, who wanted to hear the last arguments of Mayor Shaw and of his friends.

Mr. S. H. Defries presided, and the speakers were: Mayor Shaw, G. C. Robinson, J. S. McCorkindale, H. S. Neville, William Elliot and Napier Robertson.

J. S. McCorkindale devoted his time to a personal criticism of the Mayor's past and present. Throughout his speech he was interrupted by a chorus of "Sit down!" and "Tell us something about Mayor Shaw!"

"Visionary Schemes. Mr. C. C. Robinson thought that Mr. McMurrich had no chance of being elected. Mr. Macdonald would never be taken back his annexation views the speaker had not publicly accused him of holding them. The noisy spirit of the crowd was somewhat quieted at this point by Mr. Robinson telling them that there was some of the British born in the crowd.

Goldwin Smith was through. Mr. Goldwin Smith was through and was not seeking to be Mayor of Toronto. He was in the city to see that the city was not affected by Mayor Shaw and concluded by saying that Mr. Macdonald had never made a success of anything, but was always coming before the city with inflated and visionary schemes.

No Dishonorable Act. R. S. Neville spoke for Mayor Shaw because he thought the government of the city was in the hands of the Mayor. Shaw's career was enough to recommend him to the confidence of the people. He had never been a dishonest man, nor committed by him. The economy practised by Mayor Shaw was a credit to the city.

William Elliot was allowed to thank the audience for their kind attention.

Had Best Honest. It was one thing to make charges and another thing to prove them. He was sorry Mr. Macdonald was attacking capital, as capital was necessary for the city. He was a friend of progressive social reform and commerce and gave work to the unemployed. He had been honest in all his dealings and was not a swindler.

A voice that asked "What about the city?" replied: "Well, really, it is a very handsome city. It has a fine harbor, a good street, and it is not a swindler's den."

Mr. Napier Robertson said that Macdonald had proved himself a fakir.

ALD. McMURRICH'S MEETING.

Good Speaking, But Attendance Was Small - A Good Opponent.

Forty men and some thirty boys, who crept in from the awful cold to warm their stockinged shins at the red hot stove, formed all the audience that greeted Ald. George McMurrich at St. Mark's Hall on Saturday night.

George G. Lindsey, voluble, clever and racy, was the chief speaker. He was in the chair for an hour, and he was in the chair for an hour, and he was in the chair for an hour.

George McMurrich, when he gets his feet to the fire, never retires, made a speech that was a model of eloquence. He explained that the afternoon paper which stated that he would retire had telephoned him early in the evening, and he had replied: "Not on your sweet life!"

The house enjoyed the body-blows Mayor Shaw receives for his political blunders. He pledged to retire, an historic moment in the street railway to make concessions for allowing the C.P.R. to still have a line of track and a voice cast out.

George Lindsey was hopeful of Mr. McMurrich's success, because in their constituency Fleming, Shaw had secured 8000 votes while George McMurrich had secured 10,000 votes.

What He Would Do. To secure the direct car communication between the Union Station and the west end of the city, to get better service, better bicycle roads; the readjustment of water rates, and to reorganize the labor bureau.

Alex. Asher talked in a mild way against the candidature of Messrs. Macdonald and Shaw, but evidently affected by the lassitude of the house, held on to a chair with both hands.

George Lindsey was hopeful of Mr. McMurrich's success, because in their constituency Fleming, Shaw had secured 8000 votes while George McMurrich had secured 10,000 votes.

MACDONALD IN THE WEST. The final shot fired—A Give-and-Take Meeting—The List of Speakers.

The final shot in Mr. E. A. Macdonald's mayoralty campaign was fired on Saturday night, when a rousing meeting took place in the West End Branch of the Y.M.C.A.

Several persons in the audience were abusive at different times, an able candidate for the office of Mayor of Toronto, and escorted a man out of the platform officer. This action brought round after round of cheers and a voice cast out.

On the platform were Mr. H. H. Cook, in the chair, Mr. J. N. McKendry, Solicitor-General.

FROM MAKER TO WEARER. "Tiger Brand" clothing and furnishing goods for men and boys—ready-made.

1899 A happy and Prosperous New Year To all who have been—are now—and might be our patrons.

E. Boisseau & Co. Temperance and Yonge.

Mr. S. H. Bradford, Mr. A. H. Rudolph, Post Scribe, Prof. Fielding and several others, H. H. Cook Wants Him.

Mr. Cook opened the meeting with a plea to elect Mr. Macdonald as the Chief Magistrate, and closed with saying that he would do all in his power to elect him.

Solicitor Bradford then came forward and revived the story of Mr. Macdonald's denials of the charge of swindling, and also the appointment of R. J. Fleming as Assessor-Commissioner.

Mr. J. K. McKendry was well received. He called the people to stick to their man, and to elect him to the Civic Chair.

Given an Ovation. Mr. Macdonald on coming to the front, was given an ovation which lasted for several minutes, hats and hands waving.

That is given you, begins Mr. Macdonald, and I have yet to ask for the first vote. The campaign will be entirely unexciting. The remaining two seats are expected to be divided by Messrs. Scobard, Ellis and Spittle.

Thorough. Anniversary services were held yesterday at the Methodist Church, with Rev. Peter Addison of Toronto as preacher. To-night an oratorical supper will be given and a program of entertainment of excellent merit presented.

York Township. York Township, the banner township of the county, is considering the advisability of inaugurating a movement, that might, among other things, be called a revolutionary municipal government.

Against All Exemptions. The candidate made a sensation when he brought the details of his occupation. He said: "Toronto is blessed in the possession of Massey Hall, and it is a big advantage to the city. When I was in the chair, I would not tolerate them coming down to the city. If a public institution, it will be a benefit to the city."

Questions Answered. Mr. Macdonald was given an opportunity to the audience to ask questions and they became so warm that at times it looked almost like a riot. One man asked: "Can you open an investigation if elected?" To this Mr. Macdonald said: "The Council will pass resolutions, and the Council will be appointed by the Government."

There is a Difficulty. Mr. R. J. Jamieson, of the Appleton of the shoe factory at 138 King-street west, which was gutted by fire on Dec. 22, was taken into custody yesterday by Detective Burrows. The charge against Mr. Jamieson is fraud and arson over the insurance money on the loss he incurred at the recent fire.

They Were After It. Douglas Hutton, of Appleton John Hallam, posted a letter at the general post-office yesterday morning at one second past twelve, with the new penny stamp attached. Altogether there were ten persons who sent letters away at the same time.

PEOPLE CHEERED—GUNS BOOMED. Captain-General Castellanos Transferred the Authority and Departed With Wet Eyes.

On entering the palace the American general was going up the stairs, escorted by the Cuban officers. The Cuban officers were in uniform, and they carried a flourish of trumpets to greet the procession, and the Spanish troops presented arms.

Addressing himself to Major-General Wade, President of the United States Military Commission, though he seemed to look at the floor, he said: "General Wade, in complying with the Treaty of Paris, the agreement of the military plenipotentiaries of the United States and the sovereignty of Cuba passed to the United States. In consequence, I declare you in command of the island with the object of exercising it, devolving to you that I will be first in respecting it.

Majority Election—Goldwin Smith and the Hebrew Race

Editor World: On behalf of a large number of the members of the Jewish community, I desire to express extreme regret at the unwarrantable manner in which Prof. Goldwin Smith's name has been dragged into the discussion as to the merits of the rival aspirants to the mayoralty. We contend, and in doing so feel sure that we voice the sentiments of the vast majority of our brethren-in-faith, that, in a purely municipal question of this character, we ought not to be appealed to, nor should we vote, as Jews; but altogether as citizens of Toronto—proud of our privileges as such, and eager to show ourselves worthy of it. We unhesitatingly recognize that it is our sacred duty to take a broad, unbiased view of the situation, when exercising the franchise, and to scorn to allow ourselves to be actuated by narrow-minded sectarianism. The election of Mayor cannot, by any ingenuity, be distorted into a religious issue. Therefore, it is very wrong indeed to attempt to catch votes of Jews by exciting their religious prejudices. In justice to Prof. Smith, we beg to enter an indignant protest against the mean assertion that his recent speech was a "campaign dodge." He generously donated us this amount eighteen months ago, and not "on the eve of his election," as erroneously stated by Mr. Gurofsky, in his letter to you. Alfred D. Benjamin.

For School Trustee for No. 3.

Dr. E. H. Adams, who served on the Collegiate Board of Trustees, is running for Public School trustee in Ward No. 3. Dr. Adams has lived for many years in Ward No. 3, is known to nearly everyone, and will make an excellent member of the board. He favors a program of economy, and that the teaching in the schools ought to be on the lines of fitting the child for the actual work of life.

Heartiest New Year's Greetings

To Company's Agents and Policy Holders on its Best Year's Work.

THE MONEY BYLAWS TO-DAY. Freeholders should support the three money bylaws submitted to-day. They involve \$235,000 in all, and of this all but \$65,000 of the expenditure is to be productive.

But by far the most discussed and probably the most profitable speculation will be the \$150,000 which it is proposed to spend in improving St. Lawrence Market. The one argument used against it is that "the end is not in sight." The new City Hall is held as a warning against thrusting in the side of a wedge of expenditure. It has been said: "You ask us for \$150,000 now, but we will have to vote twice that much more before four years are accomplished." This is a bugaboo pure and simple, unjust and contrary to the fact.

The other two bylaws are safe business speculations. The one involving an expenditure of \$40,000, to crib Harbour-square, a block on the Bay front between Bay and Lorne-streets, extending out to the new Windmill Lane, provides a central city dump for five years; after that it will provide extensive new dock accommodation. In its first capacity, it means a saving in cost of handling of garbage of \$7000 a year, or of \$35,000 during the whole filling-in period. The interest on the remaining \$5000 will be overwhelmingly counterbalanced by the rentals from the 1300 feet of additional dockage which it will entail, and which the city will have, since we have only the 14-foot canal.

The market bylaw deserves particular attention. It is a good one, and we have the authority of two architects, Messrs. Symons and Denton, that it will carry out for that sum. It is said that \$150,000 would not do the thing justice. You have the authority of two architects, Messrs. Symons and Denton, that it will carry out for that sum. It is said that \$150,000 would not do the thing justice. You have the authority of two architects, Messrs. Symons and Denton, that it will carry out for that sum.

It will preserve the balance in city property. It will enable the city to keep pace with the west, without retarding the west. It will make Toronto the greatest distributing depot for the fruit, dairy, meat and agricultural products in the province within a radius of sixty miles. It will make Toronto the shipping centre for this province. It will encourage the hubbing of radial railways in this city, and a profitable business is awaiting a favorable time to expand into the country in all directions. It will hurt no vested interests. It is to be essentially a wholesale market. Retail merchants are, therefore, its warmest supporters.

It will serve to keep Toronto abreast of the times, for other cities are in the market business. Finally, it will help Toronto to realize its possibilities under the new era of deeper canals to the seaboard.

A YEAR OF PROMISE. A reference to the dinner given by the T. Eaton Company on New Year's Eve to its more than two thousand employees might very appropriately form an introduction to a few remarks on Toronto's prospects for the year upon which we have just entered. This event, more than anything else that has transpired in Toronto, is indicative of this city's supremacy as a centre of distribution and of the great future that is in store for it through its enjoyment of this supremacy. Up to a certain point we agree with those who contend that the departmental stores have injured Toronto. As far as their business is local in its character Toronto reaps little or no advantage from these mammoth bazars. The local retail business of any city is a matter of little importance. There is very little difference to the community, as far as population is concerned, whether a few big stores do the local retail business in the centre of the city or whether the same business is done by a large number of smaller stores.
