THREE ARE INJURED IN AUTO ACCIDENT

Mrs. J. Fregard Receives a Fractured Leg—Husband and Daughter Hurt.

James Fregard, his wife, Ellen, and their daughter, Margaret, living at 63 Grove avenue, were injured last night when they were struck by an auto at Danforth and Carlaw avenues. The three were admitted to the General Hospital, where it was found that Mrs. Fregard was suffering from a serious fracture of the left leg and her husband and daughter were badly shaken up. Gilbert Rovar, 85 Olive avenue, driver of the automobile that struck the three, was not detained.

According to the coroner, Rovar was driving his auto east on Danforth street when at the Carlaw street intersection he quickly swerved his auto to the north side of the street to avoid striking two persons, only to knock down the Fregard family, who had been walking from the sidewalk. Dr. Murray, Danforth avenue, summoned and had the three removed to the hospital in the police ambulance.

TRAFFIC INCREASE NOT DEPENDENT UPON POPULATION

So Says Engineer Witness in Examination Before the Hydro Commission.

SOME STORMY SCENES

Stormy scenes were witnessed yesterday afternoon at Osgoode Hall between W. F. Tye, a former C.P.R. engineer, and Robert McKay, K.C., counsel for the Hydro municipalities, when the Hydro Radial Commission resumed its sitting, during which Mr. Tye intimated that counsel did not

thoroughly understand certain charts and drawings under discussion. During a heated argument counsel declared he knew all about it, having studied the matter, and further passionately called upon witness to desist upon his motion, with certain percentages of costs witness had given were liable to fluctuate, to which Mr. Tye retorted that he stood by his statement. A further lively passage ensued when Mr. McKay produced the running costs of the Bute and Aconda line which showed a variation of 20 per cent, which witness admitted disapproved his assertion regarding fluctuations in running costs per mile, but added that he considered that the Grand Trunk, if electrified, would carry thru all the traffic on the suburban line proposed by the Hydro.

Counsel, who, it appeared, treated witness as being exceedingly hostile, complained that Mr. Tye used too many "ifs" and reservations.

Comparison Figures. At the opening of the session Mr. McKay produced a chart showing that 68 trains passed daily over the Port Stanley and Hamilton lines, to which witness admitted that these trains ran as shown without a break between two a.m. and five a.m.

Counsel intimated that this would cause a density of traffic, and during the heated argument that followed Mr. McKay stated that he was looking for something outside of density of traffic.

Questioned regarding the distance between trains on the Port Arthur and Winnipeg lines, witness stated that trains were only about four to five miles apart.

Counsel—"Regarding the traffic on this line, is it not a fact that the freight earnings average \$20,000 per mile?"

Witness—"Yes, provided they get their freight increase next year."

Counsel—"Are you prepared to admit that while this means an eight per cent increase in traffic on your lines, this same increase will apply to other lines?"

Witness—"Yes." And further admitted that this would mean an increase in traffic.

MAYOR SHOULD BE BEATEN AT POLLS, SAYS J. L. HUGHES

Controversy Over Building of New Schools Grows Daily Warmer.

"FRILLS" ARE DENIED

Mayor Church, in his crusade against the method of the board of education, has launched an attack upon J. L. Hughes, former inspector, and has goaded Mr. Hughes into writing a long letter to the newspapers, hitting back smartly at the mayor.

In general, the mayor's charges are that the board of education is wasting money on frills and fads, and that if such teaching were eliminated, the funds already available for school buildings would be sufficient. Mr. Hughes, in reply, declares that Toronto, in adopting the so-called frills, is merely following in the wake of advanced educational centres in Britain, Europe and the United States, and that the mayor's attitude stamps him as no longer fit for his office.

In calling attention to the fact that the board of education has failed to furnish the city with details of its building program for 1921, Mayor Church says in part:

"Let the board of education give the council their building program and they will tell you in it, why are they afraid to trust the people?"

Toronto city council voted nearly seven million for maintenance and about three millions for capital this year alone, and something of internal warfare as between mills, like that between the sugar refineries is foreshadowed.

HEADED FOR TORONTO.

FEDERATION GETS \$78,403 IN FIRST DAY OF CAMPAIGN

Fifteen Hundred Workers Cover City in Community Service.

GRATIFYING RESULTS

The returns for the first day's campaign of the Federation for Community Service totaled \$78,403, made up as follows:

Division A—\$3,241.44; chairman, A. E. Hatch.

Division B—\$10,556.76; chairman, Guy R. Roach.

Division C—\$9,663.88; chairman, John J. Gibson.

Division D—\$6,169.73; chairman, F. H. Higwood.

Division E—\$3,353.20; chairman, A. E. Clemons.

Division F—\$19,448.50; chairman, Geo. Hamby.

Special subscriptions, \$25,900.

Fifteen hundred workers—the largest number ever on any campaign in Toronto—covered the city yesterday. The objects which the federation will serve fired the teams and the public with dynamic energy, and as a result, many cases were reported at the close of the day in which contributors had doubled their amounts of last year. Team captains and district chairmen were able to announce most gratifying results.

The number of workers allowed of small areas being given to some teams with the result that not a few had covered their allotted territory early in the day. Others had to make return trips, but so forward was the work that the statement was made that it was impossible that the city might be "cleaned up" today. This, however, was felt to be, perhaps, a too optimistic view—yet the enthusiasm with the public. If all are ready when the collectors call, the workers are sufficiently numerous to cover the remaining territory. On the other hand, the determination to see the thing thru to a successful finish is so strong with the campaigners, that not until the last obtainable dollar is secured for the many charitable objects for which the fund is being collected, will the men and women relax or allow their interest to flag.

Encouraging Reports.

At the headquarters the routine business is relieved by encouraging reports that come in with the captains as they return for supplies or other details.

Mr. Clarke's team announced that in no case had any person who had previously subscribed to the fund, failed to at least equal their previous contribution.

INCENDIARY FIRES HAVE ALREADY DESTROYED A DOZEN LARGE BUILDINGS—FIVE SINN FEIN CLUBS BURNED—FIRE BRIGADE FIRED ON—REPORTED MURDER OF OFFICERS CAUSED OUTBREAK OF ARSON.

Cork, Nov. 30.—The odor of charred or smoldering wood pervades Cork, and Patrick street, the principal thoroughfare of the city, is unhealthily with the bluing debris of fire-wrecked houses.

Since Friday the sky nightly has been lighted by the glare of incendiary fires, which have destroyed a dozen large buildings, causing losses estimated at about \$1,500,000.

Early today a second unsuccessful attempt was made to burn the city hall, which recently was badly damaged by a bomb explosion and fire. No less than five Sinn Fein clubs have been destroyed.

The present series of conflagrations followed warnings that reprisals would take place unless three army officers kidnapped recently from a train at Waterfall were returned unharmed. A report, which has not been confirmed, is to the effect that the bodies of all three of the officers were found in a field near Waterfall.

The fire brigade, when responding to an alarm Sunday night, was fired upon by parties of masked ununiformed men. Consequently the firemen fear to venture forth, and when the Thomas Ashe Sinn Fein club was set on fire today they refused to leave their quarters until the protection of two lorries loaded with soldiers was afforded them.

Bombs and Petrol.

The fires usually have been started with incendiary bombs and petrol in buildings, the owners or occupants of which are believed to be Sinn Feiners. Not infrequently the fires have spread to adjoining property.

RUSSIAN PRINCESS NOW IN MONTREAL

Madeja Troubetzky of the Royal Family Tells of Being Divorced by U. S. Officer.

Montreal, Nov. 30.—"I married him because I loved him and because he declared I was the centre of his ambition. Now that illusion is shattered. His divorce action will not be opposed. All life is a tragedy, and, who knows, I may not be here long. Who cares?"

Suiting gestures, which matched in drama the pathos of her spoken words, Mrs. Wallace S. Schultz, former mistress of Madeja Vasilievna Troubetzky of the Russian royal family, today discussed her blighted romance of a few months, which culminated in her flight from Milwaukee to Montreal, where she had been instituted by Major Schultz, U.S.A.

Did Red Cross Work.

Two years ago Princess Troubetzky, an aristocrat, was married and honored women in the United States. The daughter of a Russian nobleman, well known through the republic, she had just fled from Russia, where she had performed womanly Red Cross service before the revolution brought disaster and death to her kin, and had established herself as an invaluable worker in the naval hospital at Washington, D.C.

The scene has changed. Recovering slowly after a month's suffering from influenza at the Royal Victoria Hospital, Montreal, she has been found seeking quiet and obscurity at the home of her friend, Mrs. William Owens, former wife of Senator Owens, who is living here.

### HAMILTON

Hamilton, Nov. 30.—Police and detectives are still looking for the man who struck Harry Burns over the head and caused his death. Burns was admitted to the hospital Friday night with a fractured skull, and died early this morning. Edward Taylor is held as a witness in the case, and the man who struck the blows will be charged with murder when found by the police.

Angelo Salvatore, who was murderously attacked by four foreigners with knives last night, was reported to be resting easily at the hospital tonight. His condition, however, is still serious, and arrangements have been made in the case.

### SLASHES WOMAN'S WRIST IN MONTREAL STREETS

Montreal, Nov. 30.—Last night Miss Florida Remillard of 289 Mathieu lane, this city, was attacked near her home by a man armed with a knife, who cut at her and slashed her wrist deeply, which she raised to protect her head. Attracted by her cries, a constable came up, but was unable to effect an arrest, as the man had too long a start of him.

### OAKWOOD SCHOOL BADLY CROWDED

#### Suggestions Made by Principal Gray to Relieve Situation in Collegiate.

In his address to the public at the annual commencement of the Oakwood Collegiate Institute, Principal Gray quite properly called public attention to the overcrowding of his school building, the use of four portable rooms as an annex and the continued congestion in spite of this temporary expedient. There are three ways in which this problem might be solved, at comparatively little expense to the ratepayers:

### ASK AMENDMENT OF MOTHERS' PENSIONS

Local Board Requests Views of Controllers on Suggested Increases.

The board of control was asked yesterday for a declaration of its attitude on the question of including in the scope of the mothers' pension scheme mothers who are deserted, mothers with only one child, and mothers of illegitimate children. The letter came from R. S. Patterson and Miss Jane Barclay of the local board. The controllers decided to have a conference with the pensions board on the question.

After some discussion on the proposal to raise the retiring allowances of employees about fifty per cent., the mayor said that the question had better be left to next year's board to deal with. Controller Cameron said he was prepared to support deserving cases, but would oppose in council and on the platform an increase of the allowance from \$8 to \$12 a week. The heads of the departments had recommended the general increase. "The controller was not in favor of making a preferred class of the city hall employees. Few taxpayers, who would be forced to contribute, were themselves in receipt of a retiring allowance."

City Auditor Scott reported that without the co-operation of the staff of the board of education it would be difficult to gather statistics regarding attendance at the public and high schools, as the mayor had requested. He had asked Manager Pearce of the school department to aid him and the trustees had not yet considered the request.

**Settle Sewer Claim.** There is some prospect that the claim of E. C. Stockdale and C. D. Warren for the building of sewers on their land in North Toronto will be settled by the city undertaking to sewer Briar Hill road. St. Clement's avenue and part of Strathcona avenue. The land holders had an agreement covering sewer installation with the town of North Toronto before annexation.

The Harris Abattoir Company has taken over the contract formerly held by the late C. Meech for the supplying of meat to the Riverdale Zoo, it was reported.

In a report to the board of control, the medical health officer comments favorably on a suggestion previously received by the board that the city should purchase some of the large houses now offered for sale and convert them into duplex residences for sale or rent, as a means of relieving the housing situation. Dr. Hastings said there could be no objection to fitting up a house for two families. No action was taken.

**Day Off for Firemen.** Fire Chief Russell asked the board to reconsider his recommendation that the firemen be allowed one day off each week, which, in order to keep the force up to strength, would require the employment of about 80 more men, with an additional outlay per annum of \$118,230. The board had requested the chief to try out the system in vogue during the holiday season, which gives each man one day off each week, but the chief replied that it would not be advisable to weaken the force at this season of the year when fires were more prevalent.

A recent act of the legislature gives each man one day off each week, and the board must decide whether this can be attained with the present strength of the force.

Opposition to the proposal that the city should take over and rent to homeless people the Palmer House and other buildings was offered by Dr. Hastings, M.O.H., and City Architect Price. It is estimated that an outlay of \$52,000 would be required to make the Palmer House habitable.

**NOVEMBER PERMITS FOR BUILDING DECLINE** Building permits for the month of November total over a million and a half dollars, or about a million under the November total of last year. The first eleven months of this year however, is far in excess of the first eleven months of last year. The eleven months' total is: 1919, \$17,779,811.; 1920, \$24,500,000.

The city architect's department issued the following permits yesterday: Col. A. G. Deachen, public garage, 131 West King street, \$50,000; T. A. Lewis, pair semi-detached dwellings, south side of Balfour avenue, near Dawes road, \$38,000; Toronto Hydro-Electric Commission, addition, south-east corner of Nelson and Duncan streets, \$3,000; Jno. Lucas, two pair dwellings, east side Kelvin avenue, near Danforth, \$11,100; F. A. McCabe, detached two-storey brick and stone stucco dwelling, Windermere avenue, \$4,000; Caruso Bros., addition to store at 23 Danforth avenue, \$3,000.

**CITY FILES DEFENCE.** The city has filed its statement of defence in the action brought by John Berry against the city for \$250,000 for the alleged infringement of his patent for purifying water by chlorination. The city denies that the plaintiff exhibited his processes to the city or that the city has been making use of them.

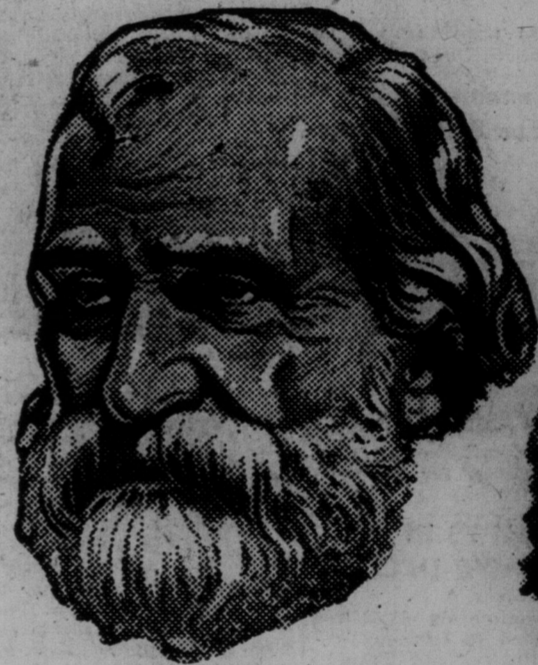

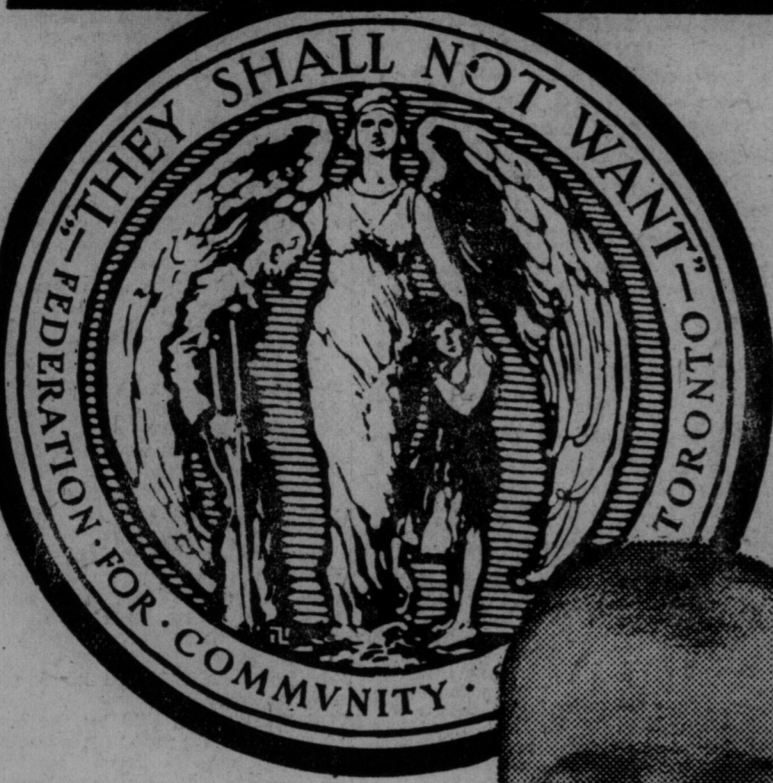

**CITY'S BORROWING POWER.** The city treasurer's department announces that the city's borrowing power will not be increased to any appreciable extent by the maturities which take place on January 1. Only about \$20,000 of obligations are maturing. The city's borrowing power now stands at about \$6,500,000.

**NEW RINKS AND SLIDES.** A number of rinks and slides are being established by the parks' commissioner. The list contains 40 skating rinks, 41 hockey rinks, nine children's slides and two toboggan slides. The toboggan slides are in High Park and Riverdale Park.

## You have your Chance to show your Thanks

These pictures are from photographs taken in Institutions in the Federation. More than 50,000 such Toronto people like them were helped by the Federation funds in the last year. It is for them that this campaign is on—as well as for many other cares of the same importance. Give once—but enough for all.

### From Orphan Babes to Homeless Old Men and Women

This is the range of the work accomplished by the 49 Institutions that are now appealing to you.

Did you help them yesterday? Have you yet donated to the Federation Campaign?

Many hundreds (they aren't all counted yet) have already subscribed.

But until everyone in Toronto has committed himself, one way or the other, the campaign can't be a success.

But it's going to be!

Every man or woman who reads this can say: "I can do something for the Federation. It sends money to charity without

You are glad you have your income—that you have your health, strength and sufficient ingenuity to carry you over the rough spots of life.

For this you are mighty thankful. And you have every reason to be—because there are thousands in the city that haven't even much to live for—just their lives—which, however, are as sweet and dear to them as to you and all the rest of the people who have some of the more material blessings of the earth.

Now you have your chance to show your thanks—in a substantial way.

waste, it saves my time and eliminates a lot of trouble for me—because Federation asks for help just once a year for 49 Charities."

One way to get right on this is to send in your subscription right now—to-day. Don't let the books close on Friday night without your name in the list of contributors; that wouldn't be fair to Toronto, and it wouldn't be much of a compliment to you either, would it? So, do it now, while the thought is uppermost in your mind.

### CONSERVATIVES TO CHOOSE NEW LEADER

Several Candidates Mentioned for Running at Big Convention.

### SPECULATION IS RIFE

Ferguson Not Likely, But Henry Supporters Are Coming With Rush.

Who is to be the provincial Conservative leader? This is the question agitating the minds of the party today, and to which an answer is to be forthcoming at the big convention arranged to open in the Masonic Hall this morning and to continue tomorrow. It is not so much a matter of choosing a leader as selecting one. The material, as was stated last night, will be all on the spot, the specific assertion being also made that "no outsiders need apply."

It will be a regular rank and file tomorrow, too, and by this it is meant that no higher-up influence will be allowed to dominate the proceedings. Many of the same rank and file sought in vain to persuade Sir William Hearst to hold a convention long before something hit him at the polls in October last year, but their advice together with that offered by The World, was rejected with disastrous results. Now they have come into their own again and the outcome of their deliberations will be awaited with keen interest.

The corridors of the hotels were fairly alive with leadership buzz yesterday. Hon. G. Howard Ferguson, the present nominal leader, was busy holding receptions at the Queen's, and appearing in much the same good spirit as in the old days when he was the chief mechanic of the party. "Can he come back?" was the frequent question heard, and some few of the old school answered in the affirmative, while not a few shook their heads, indicating that he was hopeless as a candidate. On the other hand, it was stated yesterday that if his own wishes were consulted he would not allow himself to be nominated. That he has still a goodly following is beyond question, but it is doubted whether the numerical strength is sufficient to land the prize, even supposing he desired it.

Eleventh-Hour Boom. There has been a big eleventh-hour boom for Hon. George Henry, who was minister of agriculture in the Hearst government, and one of the select few of ministerial and other survivors at the general election. Is he big enough to fill the bill? His supporters think he possesses all the qualifications necessary in a leader and a statesman, while others take a diametrically opposite view. Some who were present at his nomination meeting at Markham doubt whether he has sufficient ballast or self-control, but those are defects readily surmounted, other things being equal. Mr. Henry is a farmer and thus might be regarded as a more effective fighter against the fellows of the soil, who are now running Ontario. He was a kind of first lieutenant to Mr. Ferguson at the last session of the legislature, but this is the extent of his leadership experience. In any case, the slogan yesterday was "Watch Henry."

W. P. Nickle, K.C., of Kingston, has also been "among those mentioned." No doubt he could carry the position, but he is said to be against re-entering the provincial arena. It will be remembered that he had the refusal of the attorney-generalship in the Drury government. Hon. Dr. Ross, who had such a brief experience as minister without portfolio in the Hearst administration, has also been honored with a favorable mention, and he has quite a number of supporters.

Doctor as Clock Winder. Dr. Forbes Godfrey is another to be named in the latest dispatches, although it seems to be generally conceded that his time has not quite arrived. He is out at present for "winding up the old party clock" and despite the absence of so many of the old "weighties" he has hopes of assisting to bring the party back to time.

Mayor Geary, corporation counsel, was made an added starter for the leadership by going to the hotels, but this must not be taken too seriously. It is understood that he has no intention of entering politics, especially at this particular juncture. H. P. Hill

## THE STERLING BANK OF CANADA

### Save, Because--

The amount saved is not as important as the habit it forms.

"(Hammy)" of Ottawa, is regarded as one of the rising men of the party, and may clinch the leadership some day. Mayor Church was at one time thought to be the "rising hope," but he dashed everything when he declined to be nominated for North-west Toronto. Today he will content himself with, in his official capacity as mayor, bidding the stalwarts "welcome to this fair city." A permanent chairman of the convention will then be appointed, after which the big business of selecting a leader will be proceeded with. Captain J. B. Thompson is temporary chairman, and was at one time even mentioned for the leadership.

There will be quite a number of women delegates, and all round the convention will be of a most important character. The business outside of choosing a leader will be a general survey of the party situation, and some resolutions as indicative of future action.

### WILL SUBMIT BYLAW FOR BOTANIC GARDEN

A bylaw to authorize the expenditure of not more than half a million dollars for a botanic garden site, with a proviso that a reasonable amount will be forthcoming from other sources for maintenance, will be before the board of control today. The proposal is to secure a tract of several hundred acres within the limit of a five-cent car fare. One point urged in favor of the scheme is that it would afford an opportunity to wetland to take up landscape gardening. The chairman of the transportation commission and P. W. Ellis and other business men are supporting the scheme.

A deputation will urge the matter on the attention of the board today.

### Public Service Commission Will Probe Police Courts

W. D. Gregory, chairman of the public service commission, stated last night that this morning's session of the commission would be taken up with the examination of the police magistrates and other officials of the police courts in the city. During the afternoon session the lawyers of the court will come under the eye of the commission, and tomorrow morning the public, as well as the officials of the Federation of Community Service, will be given a chance to state the case for the public generally.

### CUSTOMS RECEIPTS IN TORONTO SHOW DECLINE

A drop of approximately \$1,000,000 has been experienced in customs revenue receipts at the port of Toronto during the past month as compared with October. Receipts for November were \$2,830,000. For November, 1919, receipts were \$3,713,200, and for October, 1920, receipts were \$3,453,597.

### RAILWAY EMPLOYES TO CONFER WITH HANNA

The Federated Committee of Employees of the Canadian National Railway, in a press statement given out yesterday following their meeting in the Labor Temple, stated that representatives would confer with D. B. Hanna during the next few days in regard to his non-political order for C.N.R. workers.

### HOSPITAL BURNS, PATIENTS RESCUED

Fire Causes \$100,000 Loss to Consumptives' Hospital Near Gravenhurst.

Gravenhurst, Ont., Nov. 30.—A fire which broke out this morning shortly after midnight, destroyed the three main buildings of the Muskoka Free Hospital for Consumptives, the loss being more than \$100,000, the 200 patients were all removed in safety. This was largely due to the valiant efforts of the nurses and other members of the hospital staff.

When word of the fire was received at Gravenhurst, three miles away, the fire brigade exerted itself to the utmost to reach the scene. Archie Sloan, a former mayor, getting out of a sick bed to help run the fire engine. Many of the other residents of the town rendered great help in getting out the patients and some of the fittings. Through their efforts the X-ray machinery, medicines, surgical instruments, etc., were saved.

Great credit is being given to a patient nurse, Miss Lillian Powell, from Toronto, who saved a patient from the burning buildings by carrying her down a fire escape.

Great speed and care of the patients resulted in their being removed without any apparent trace of ill-effects. It is thought the fire started from a connected electric wire in the diet kitchen.

Transfer Patients to City. An official statement given out by George A. Reid, business manager, from their local office at 223 College street, the following remarks are made: "At an early hour this morning arrangements were completed for the transfer of the patients to the Toronto Free Hospital, where they will arrive today. A heating boiler was procured from Gravenhurst and a staff of plumbers and gas fitters were rushed from Toronto to the infirmary building, which was saved, where the patients will be temporarily housed. Although the buildings are insured for \$900,000, the fire has caused an entire loss. Already one contribution of \$100 has been received toward a new hospital."

In a further statement, Mr. Reid says: "It is hoped that a sympathetic public will generously respond to the call of the sanitarian for assistance in recovering from the calamity by which it has been overtaken."

Some Patients Arrive. Miss Lillian Powell passed thru Parkdale station yesterday afternoon on her way to Kitchener with a serious bed case from the Muskoka Consumptive Hospital.

Several patients who arrived and who were going to their homes here, said that they had received excellent treatment during the night by the nurses, food and liquid refreshments being provided for them and every care taken of them.

It is stated that the patients who reached the city yesterday came on their own initiative, and that the first party to be sent by the institution, 34 patients, will arrive today and will be sent to the Weston Hospital.

BUREAU NOT RETIRING. Three Rivers, Que., Nov. 30.—"Hon. Jacques Bureau, late minister in the Laurier cabinet, has no intention of retiring from the political field and plans to return from Europe in time for the next session."

This is the declaration made this afternoon to the Canadian Press by Mr. Carlepy, partner in law of Hon. Mr. Bureau.

### WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASHINGTON, Ont. "I had an attack of Weeping Eczema so bad that my clothes would be wet through at times. For four months, I suffered terribly, I could get no relief until I tried 'Fruit-a-lives' and 'Sootha-Salva'."

Altogether, I have used three boxes of 'Sootha-Salva' and two of 'Fruit-a-lives', and am entirely well. Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa. 'Fruit-a-lives' is also put up in a trial size which sells for 25c.

### RESERVE DECISION ON ASSESSMENTS

Piano and Other Concerns Appeal Against Sixty Per Cent. Basis.

Judge Denton yesterday reserved his decision on the appeal from the court of revision of the Piano concerns who have been assessed on the 50 per cent. basis on their retail stores. The lower court took the view that they should not get the benefit of the retailers' 25 per cent. rate because they sold their own goods.

Several other concerns appealed on the same grounds as the piano concerns and judgment was reserved in each case. Among the firms appealing were Huyler Candy Co., Bruce's Limited, and John Northway and Son, Ltd. R. S. Gourlay of Gourlay, Winter & Leeming, argued that his firm was discriminated against in the matter of Yonge street assessment. His land was assessed at \$5,000 a foot, while the lot adjoining of double depth, was only \$6,000 a foot. It worked out at the rate of \$60 a square foot on his property, and \$86 a square foot on the other lot.

Judge Denton said that it was evident the Gourlay firm was not over-assessed, and that if the adjoining lot was under-assessed, Mr. Gourlay had no claim for adjustment.

In the appeal of the Trusts and Guarantee Company against being assessed on income paid out of the estate of John McMartin, judgment was reserved. The company claimed that it had merely acted as the executor and had received no benefit from the income.

J. Quinn was told by the court that if he did not produce his books showing his income from the National Equipment Co. his statement would not be believed. Mr. Quinn objected to exposing the affairs of the company in court.

Judge Denton confirmed the assessment against the Knights of Columbus on the Catholic Army Hotel at the old Arlington Hotel. The tax amounts to \$204.

### ACCIDENTAL DEATH CORONER'S VERDICT

A verdict of accidental death was returned at a coroner's inquest last night on the body of Thomas Ennis, who died of a fracture of the skull, caused thru a fall from a frozen pathway on Parliament street. He was 40 years of age, was unemployed, who it was alleged, was picked up by the police, who discovered the injury and carried the man to St. Michael's Hospital.

Dr. A. Jukes Johnson stated that it was not an uncommon occurrence for a man to walk some distance after receiving a brain injury, while Peter Butler gave evidence to the effect that the deceased had been well treated whilst in the police station.

### Board of Control Considers Bylaws for Vote of People

The board of control today will consider the bylaws that are to be sent to the people on January 1. After some weeding out, there will remain about a dozen, but there is a probability that council will further reduce the list on Monday night.

Following are the most urgent: Daily saving \$2,000,000 school expenditure; million dollars for passenger motor buses; botanic gardens; parks special expenditure; early closing assessment reform as proposed by A. J. Piewman; control by council of outside board's expenditure; nurses' home at Isolation Hospital; and amalgamation of Hydro and traffic commissions.

After today's meeting with Sir Adam Beck, there may be another bylaw to send to the people, providing for the purchase of the Metropolitan Railway and the P.T.C. There will be no meeting of council this week. These various matters will come before the regular meeting on Monday.

Tokio, Nov. 30.—Three large moving picture houses were burned today in the Asakusa quarter of Tokio. There were no casualties.

## The Best Food For Healthy, Hungry Children

Cold weather adds a keener zest to the healthy, hungry appetites of growing boys and girls that must be satisfied. It is not enough to see that they are given a sufficient amount to eat, but they should be given plenty of the right kind of food—food which contains nourishing, muscle-making elements.

Farmers' Dairy Milk is a perfect food, and one which should be used in all your cooking, in creamed sauces, creamed soups, breads, cakes, puddings, candies and desserts.

See that all the family drink it at every meal, and between meals, as often as they want it. There's health and strength and vitality in it.

By making milk an important part of your family's diet, by doubling your regular milk order—you can build up strength and energy, develop steady nerves and a clear brain; give those rosy cheeks and bright eyes, which mean health and happiness.

WEDNESDAY MORNING, DEC. 1.

A National Drive for a Stricter Sunday in the United States.

Flushed by their remarkable triumph in securing the passage of the eighteenth amendment, the prohibitionists of the United States are now preparing for a great nation-wide drive which will secure an amendment to the constitution establishing and directing the observance of the Lord's Day.

The National Anti-Saloon League and the Lord's Day Alliance have not officially merged, but they have passed into one control through the device of interlocking directorates and the establishment of the International Sunday Union, to which they are both pledged to give unflinching support.

The general curtailment of street cars, radials, railway trains, steamboats, ferries, and other popular methods of transportation is menaced to an extent which has already alarmed the transportation and traction companies, Sunday theatres, Sun-day baseball, and many other diversions which now attract the average American are to go by the board.

The Protestant churches generally are said to be in active sympathy with the movement, with the probable exception of the Protestant Episcopal Church. That church, the small numerically, has always been the fashionable church of the United States and exerts a wide influence over the social life of the country.

Since the passage of the Lord's Day Act by parliament in 1906 we have not had much trouble with the Sunday question in Canada, perhaps the people of Ontario and Quebec are not so far apart as they were in respect to the proper observance of the day, which they unite in agreeing should be primarily devoted to the worship of God and abstention from work and labor.

As winter approaches and political meetings throughout the country come to an end, we find the editors criticizing the statesmen for talking in a loose and inaccurate way, about the tariff.

So loosely do they talk or so carelessly do the editors listen that we have The Toronto Star solemnly declaring that Hon. T. A. Cresser is a protectionist and that the Farmers' party is against and not in favor of free trade.

Considerable capital is being made out of the speech recently delivered by Hon. J. A. Calder to his constituents because of the following cryptic paragraph:

I believe in a tariff for protection of Canadian industries. You cannot have a tariff for revenue without its being at the same time a tariff that gives protection.

With Mr. Calder proclaiming himself a believer in tariff for protection and tariff for revenue at the same time, and Mr. Mackenzie King declaring that he believes neither in protection nor free trade, the wayfarer man might be excused for becoming a fiscal agnostic.

Remarkable in Passing. The man who made way for Hon. Mr. Doherty is to get a registrarship, but that, of course, is merely a coincidence.

There is no truth in the report that the city hall will be decorated in honor of the appearance next Monday of John Doughty in the police court.

President Wilson, on his retirement from the presidency, will devote his time to writing. He has had plenty of practice during the past four years.

The Federation of Communities campaign made a good start yesterday. It will not be a complete success until you have given it your practical support.

Some people complain that the reported revival of business in the United States is not a fact because some of the factories are taking back employees at lower rates of wages. But even that is far better than having them closed down.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

THE CHINESE QUESTION. Editor World: I have been following your articles in The World, "Yellow and White," and it is high time that something more definite be done to stamp out the present conditions.

GRAY DUSK

The Toronto World's Weekly Novel By OCTAVUS ROY COHEN. Copyright, 1920.

CHAPTER IX. CARROLL and Sullivan approached the cosy little lodge slowly, intent on their work, keen eyes missing no detail of the scene. At length they reached the cabin. Carroll stopped, and bent his eyes steadily on the two wooden steps leading from the ground to the dog-trot.

It was perfectly plain; two large spots, outlined in red, and undoubtedly made by the large shoes of the murderer. The outlines of the footprints were not clear, but were sufficiently impressed to establish the fact that the man had worn a large shoe. Sullivan put his hand on the screen door leading to the dog-trot, but Carroll stopped him.

"One thing at a time, Jim. I'd like to see if these tracks prove anything." He turned away and followed the tracks as best he could for perhaps fifty yards. They were very faint, and indicated on the pine-needle-covered ground, but they showed something, and Carroll quizzed his assistant. "What do you make of 'em, Jim?"

Sullivan frowned a bit. "They're not very clear, but they strike me that they were made by a large foot, and that the man who made them walked toward the house and ran away."

"Wherever there is enough dirt for the footprints to register they show fairly plainly the imprint of the heel; heels which I should say were considerably run down on the outer edge. On the reverse tracks there are no heel marks at all. Instead they show the tips of the broad toes very plainly, which would seem to indicate that the man, whoever he was, was running and running fast, running on his toes and digging into the turf. Are those your conclusions?"

"Then, if I'm right, the murderer struck from behind with the ice-pick and ran back to that door," he said. "I should guess that she had laid the ice-pick either on the ice-box or else on that table yonder. She was probably making ready to prepare a mayonnaise or French dressing and had taken the olive oil from the ice compartment and stood it on the ledge."

"Good. Now hold it." Carroll stepped outside. He walked toward the veranda, pushed open the door, and stood motionless for a second, tipped to the table, seized the ice-pick and made a terrific stab at Sullivan.

"Now," he said, softly, "let the cover fall." The thing crashed down, "I'm standing here," he said on Carroll's intent; "I must have been very close to you, so your body falls, well say, you a favor, Jim. Stand with your face to the ice-box. Hold the cover up with your left hand. Bend over. Put the ice-pick on the edge of the table yonder. You can reach it from where you're standing, can't you?"

"Yes." Carroll stepped outside. He walked toward the veranda, pushed open the door, and stood motionless for a second, tipped to the table, seized the ice-pick and made a terrific stab at Sullivan.

"Now," he said, softly, "let the cover fall." The thing crashed down, "I'm standing here," he said on Carroll's intent; "I must have been very close to you, so your body falls, well say, you a favor, Jim. Stand with your face to the ice-box. ACCOMMODATION IN SCHOOLS DEFICIENT

Fine Talent Among Children Is Going to Waste, Teacher Declares.

EARLSCOURT

In connection with the present campaign, conducted by the school officials for more accommodation, a splendid display of work done by public school pupils is being exhibited at Billinger's drug store, St. Clair avenue. The window, which looks very attractive, was dressed by two of the Earls court public school teachers, Miss Ashdown and Miss Nelson, together with Mrs. Rattle. Among the articles that are especially good are those of the sewing classes, which won three prizes at the Canadian National Exhibition, and the samples of Junior fourth writing, which took second prize at the exhibition. The writing teacher is Miss Hutton.

In conversation with The World one of the teachers of the Earls court public school said that some talent among the children was going to waste simply for lack of accommodation, and no work in domestic science or manual training has been done for the past two years on this account. The sewing classes are conducted by the regular teachers in the class rooms, which causes considerable inconvenience.

"There are now," he continued, "six classes on part time, four of them in the adjoining portables, which means that nearly 200 pupils are not receiving educational advantages equal to the larger number of pupils on whole time. These portables hold 150 children, and while they do not give considerable help, they do not give satisfaction in severe weather."

At a meeting of ward six Conservatives, held in Kenwood hall last night, W. G. Sanderson presiding, the following delegates were appointed to attend the provincial convention today: J. A. McNeil, W. H. Jeeves, R. E. Everett, M. T. Moore, J. Hurd, R. Stewart, G. W. Wills, J. Harper, W. Russell, A. Scott, H. Parfrey, J. Jeffrey, J. McInnis, Brook Sykes, R. Kirk, H. Downs, Alex. Craig, Mrs. Craig, Alex. Gordon, T. Harter, B. Lindo, Mr. Davis, M. C. Pritchard, P. James, D. Thompson, A. Clark, W. W. Scott, Mrs. Seager and Dr. Dunlop.

C. H. Chenier was the speaker at last night's meeting of the G.A.U.V. at Belmont Hall, when he explained the complications of law and gave legal advice to the members. During the discussion of regular business J. Higgins of the main branch of the G.A.U.V. moved that the members of the Earls court branch endorse the following: "That the number of working hours per day for men, paid by the hour, be reduced, so that more men could be employed, thus helping the great problem of unemployment." C. Whitaker occupied the chair.

A white rose meeting was held last night at Creber's Hall by the Earls court Lodge, No. 308, of the Sons of England, when ten members were initiated to the white rose degree. There was a good attendance. The chair was occupied by J. Martin, president.

The 49th Troop Boy Scouts of Earls court are making rapid strides to perfection, at the regular practices held during the week at the public school. Scout Master B. Lindo is pleased with their work and stated to The World that the members of the troop will be included in the competition for which the boys are preparing at the January rally. The parents in this district take a keen interest in the work of the scouts and turn out in large numbers on the regular practices. The ladies' branch of this troop is making the regulations necessary for the coming rally.

SCORE MAYOR'S SCHOOL POLICY

Dr. Noble in Spirited Speech Deplores Increased Taxation Argument.

WEST TORONTO

"We have a mayor who is a vote-getter," said Dr. John Noble, addressing an educational campaign meeting last night at the Annette Street school, West Toronto, "but you cannot get him into a school house to see the little children. You might as well expect to see his satanic majesty at a prayer meeting." We are confronted with a very serious situation, explained the speaker, "and it is up to us to put up a fight for the children. Songs and dances, that is the most vital part of the small child's education."

"His worship says the board of education has failed to furnish the building program for 1921. He says that this is the second year we have refused to give it. I am sorry to say the mayor is not to be relied upon, and I am more sorry to say that of the chief magistrate of this city. We have never given them a building program, and they have never asked for one." Principal Wilson of Perth School and Trustee Edmunds were also speakers. The introductory program was given by the pupils.

TODMORDEN WOMEN APPOINT DELEGATES

Todmorden Liberal-Conservative Association women's branch executive met last evening, when seven delegates to the provincial convention were appointed.

The Conservative Association of Todmorden met on Monday night and appointed delegates to the provincial convention. The annual meeting of the association will be some time during December. George Moses, Jr., past president, occupied the chair.

(2). Hockey rinks—Riverdale Park (4); Kew Gardens (2); Withrow Park (3); Leslie Grove, Greenwood Athletic Field, East Riverside Recreation Centre and East Toronto Y.M.C.A. (2). Children's Slides—Kew Gardens, Leslie Grove, and toboggan slides, Riverdale Park.

OAKVILLE CONSIDERS AUXILIARY FIRE PLANT

Movement on Foot to Force the Council to Provide Extra Protection for District.

Time and again the subject of an auxiliary fire fighting plant has been broached in the town council, but has always been dropped. The fact that, owing to the cold wind and ice during the recent wintry snap, the Dominion Power and Transmission Co.'s lines broke down, thus rendering the pumps at the Oakville power house useless for water-pumping purposes, has brought the necessity for an auxiliary plant once more to the notice of the citizens and a movement is on foot to force the council to take some definite steps in the matter of more satisfactory fire protection.

Quite a number of local business people went north after deer this fall and most of them have returned with at least one animal. Among others who brought home venison were Ray Bartlett, Charles Freestone, Stan Chamberlain, L. M. Bray, Jackson Chamberlain and W. H. Thomas. J. L. Hewson's bag consisted of a fine big buck with a huge pair of antlers.

Oakville council has decided to leave over the matter of tenders for the purchase of town debentures for a week or two, when it is believed, better offers are likely to be received. This decision was arrived at owing to the break in Monday's market.

The council has, by unanimous vote, appointed W. T. Marlatt fuel controller for Oakville.

Since the advent of the frost and snow last week the subject of a skating rink for Oakville during the coming winter has been much discussed and has even been brought to the notice of the council. As a result, Reeve Hillmer has offered the free use of his large lot on Navy street for the open rink and a committee has been formed to have the same ready for use by the time the skating season is on. A small shack for use of the skaters is also planned.

NORTH TORONTO WILL DISCUSS EDUCATION

Ratepayers Invite Chairman of School Board and Trustee to Speak on Question.

A well-attended meeting of the executive of the Mount Pleasant Ratepayers' Association was held last night, when the program was drawn up for the next regular meeting. It was decided to devote the evening to education, with speakers relating to North Toronto, and it was agreed to ask Dr. Noble, chairman of the board of education, to appear. A committee has been formed to attend and address the meeting. Many prominent school teachers will also express their views.

The St. Clement's Musical and Literary Society held a social last night in the school under the auspices of the Sunday school, presided over by J. Brooks, president. The following ladies were in charge: Mrs. Mill Pellatt, Miss Rogers, Miss Stewart and Miss Hopkins.

The regular business meeting of Court Eglinton, I.O.O.F., was held last night in the Masonic Hall, presided over by J. S. Davis, M.C.

MIMICO RATEPAYERS ADOPT PLATFORM

The local Ratepayers' Association have adopted the following three provisions as chief planks of their platform in the coming municipal election: 1. That taxation be made equitable on the basis of the improvements which have been made in certain districts; 2. That all unoccupied ground be adequately assessed; 3. That all vacancies occurring in the municipal staff be filled by qualified returned soldiers.

NEW TORONTO DESIRES ANOTHER SEWAGE PUMP

The joint sewage commission of New Toronto and Mimico have decided to ask Engineer Worthington and members of the firm to meet the council on Tuesday evening at Mimico in connection with the installation of a new and more up-to-date sewage disposal pump for the two districts. At the present three pumps are in operation at the disposal plant and the results are anything but satisfactory.

Secretary J. A. Telford of the joint sewage commission of New Toronto and Mimico has been granted a bonus of \$50 for his services to the commission during 1919.

TO FACE MURDER TRIAL

Andover, N.B., Nov. 30.—The grand jury brought in a true bill at noon today in the case of Seaman Clark, of Four Falls, N.B., charged with the murder of Phoebe Nell, a young woman of Grand Falls, who was shot and killed there on the afternoon of March 25 last.

TARIFF COMMISSION SESSION FOR TORONTO

I have been asked by the Tariff Commission to give notice that the Commission will open its Toronto session in the COUNCIL CHAMBER, CITY HALL. This (Wednesday) Morning at 10 o'Clock and will continue day by day until all representations have been heard. Persons desiring to appear before the Commission are requested to communicate with the City Clerk in order that appointments may be arranged. The sittings will be open to the public. T. L. CHURCH, Mayor. Mayor's Office, Toronto, December 1st, 1920.

PROTEST AGAINST HIGHER GAS RATES

Member of Ratepayers' Body Thinks Mayor Should Protect Public.

DANFORTH

"Should the Consumers' Gas Company increase the price of gas 15 cents per 1,000 cubic feet, from Dec. 9, as they have advised the public that it is their intention, the consumers should pay under protest?" said George R. Ellis of the central council of the Ratepayers' Association. "It is the mayor's duty to protect the citizens and he should act immediately to put a stop to the threatened advance by instructing the city solicitor's department to take prompt action," he declared.

Preparations are being made by the committee appointed by St. John's Presbyterian Church, Broadview avenue, to unveil the two memorial tablets now being erected to the memory of the late pastor, Rev. J. McE. Scott, and the late deaconess, Mrs. Tupper, which it is expected will take place within the next few weeks.

"A Visit to France in 1920" was the subject of an interesting lecture delivered by C. W. Dunnett in St. John's Church, Broadview avenue, last night, under the auspices of the Young People's Society. There was a large attendance and the president, Robert Scott, occupied the chair.

In response to an appeal from Mrs. Goforth, Presbyterian missionary, China, for the Chinese famine fund, announced by Rev. T. Rodger, pastor, at last Sunday's service in St. John's Presbyterian Church, Broadview avenue, the sum of \$300 was subscribed. A further sum of \$85 was presented by the Chinese pupils attending the Sunday school.

SONS OF ENGLAND REGRET DISLOYALTY

T. H. Warrington Advises the Members to Link Up With Veterans.

TODMORDEN

Lodge Todmorden, No. 298, Sons of England Benefit Society, held their regular quarterly white rose meeting in Players Hall last evening, when ten members were advanced to the W. R. degree, with full musical honors. Bro. J. G. Weston, president, was in the chair. During the evening Bro. T. H. Warrington, W.E., gave a spirited address on the disloyalty at present so rampant in our midst. He stated that members seriously deprecate the mischievous propaganda and anti-British sentiments now being expressed by certain sections of fanatics, and requested that all the subordinate lodges of the Sons of England act in harmony with the Army and Navy Veterans, Orange Order and other loyal Protestant associations to stop this blatant sedition before it imperils the integrity of the British Empire.

The speaker also criticized The Toronto Globe for its stand on the Irish question, stating that the society could do a lot to bring this paper into line with an attitude more compatible to the welfare of the commonwealth of nations comprising the empire.

Victoria County Farmers Elect J. J. McNevin President

Lindsay, Ont., Nov. 30.—At the annual meeting of Victoria County U.F.O. officers for the following year were elected as follows: President, J. J. McNevin, Reabrook; first vice-president, Jasper Portman, Kirkfield; second vice-president, A. J. Mark, Oakwood; secretary, M. J. Hogan, Lindsay. The meeting was addressed by Mrs. Frank Webster of Cambridge and F. G. Sandy, M.L.A.

MARRIED SAME DAY HIS LEG WAS BROKEN

Glace Bay, Nov. 30.—(By Canadian Press)—Broken legs don't mean anything at all to Cape Bretoners. Donnell Kerr of this town had his leg broken in a tugsy scrimmage at 3 o'clock one afternoon, had it set, put in splints and cast, and early in the evening was married to Miss Florence McKelgan at her home here. Mr. Kerr stood on crutches during the ceremony.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Parmitin (double strength), and add it to 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

# ROGUEY PARKDALE TEAM IS BANQUETED

## BUSY PREPARING FOR BIG BUSTLE

Both Argonauts and Varsity Hold Stiff Workouts at the Stadium.

The serious training for the Dominion football final started yesterday when both Argonauts and Varsity held stiff practices at the stadium. The students were first and Coach Laddie Castello drove them hard for a full hour. He had half a dozen half backs in action and they all took a whirl at the booting.

Varsity are in great shape and will try out all the regulars against the scullers on Saturday. The blue and white team will enter the game favorites, but they are taking no chances. The coach has ordered stiff workouts every night this week.

Garrett and Stanfield were the only absentees from the Argonaut practice. Garrett is nursing a cold, and Stanfield is expected out tonight. The rail birds were surprised to see Batstone turn out last night. He took many light practices, but reports great improvement to his ankle under special medical treatment. He expects to be right as ever for the big tussle. Alex Sinclair was also on the job, but was limping badly. He is another who hopes to get into the fray on Saturday.

Coach Rodden gave the team a hard drill last evening with a line-up practice as a wind-up. This program will be adhered to for the balance of the week, and he expects to send them against Varsity in the best possible shape.

While many expect to see Varsity win on Saturday, the fact must not be overlooked that Argonauts are a great defensive team and a game one of the city legions will not find it easy to break thru the wing line of the double backs and the tighter battle the better the team are. In Batstone, Garrett, Munro and O'Connor Argonauts have four great halves and no matter which two of backs they send into the battle Varsity will have to show a smart turn of hand to win on them. Again, a great battle is in prospect for the quarter back honors. Varsity have Henry Hobbs, the best, but Cochrane, the Argo player-director, has had a wonderful argument and many fans will give you an argument that he is the king of them all. Varsity's great line is up against a team that can just about match them for holding tight. It looks like a real battle in every department with the dry field the finest football struggle of the season should be the order.

Hamilton Herald: In the opinion of Dr. Smirle Lawson, the big ex-Varsity and Argo star, Mike Rodden is one of the greatest coaches in Canadian rugby. During a discussion in Tiger's clubhouse following last Saturday's game between Tigers II and St. Bridgid's, Lawson stated that he regarded him as second only to Frank Shaughnessy, the McGill coach. Some persons remarked that Rodden's actions on the field were not the sort expected of a first-class coach.

"Maybe not," said Lawson, "but he doesn't teach his players to play a rough game. He has a method that is wonderful and he commands the respect of the entire Argo squad."

Frank Park, who refereed Saturday's game here, then joined in the discussion, and the Argo-Varsity game of next Saturday was taken up.

"Varsity ought to win," said Park. "The students can practice in the daylight and they're always there on the job when the work is heavy, while the city players have to work hard all day and then go out to practice under electric lights. It's no credit to a team that is able to defeat either the Big Four or O.R.F.U. champions every year."

A Hamilton despatch says: Toronto, champions of the senior section of the O.R.F.U., will be here on Saturday for a game with Tiger's intermediates.

The Bengals received word from Manager Broderick this afternoon that they will be at the stadium on Saturday.

Torontos have asked for Walter Marriott and Billy Mallett as officials, and it is probable, if both will act, that they will be agreeable.

The senior championship of the O.R.F.U. will be at stake. Tiger's by virtue of their victory in the intermediate series, get the right to play off with the senior victors.

Holder of Argonaut season tickets may obtain their reservations for Saturday final game against Varsity this afternoon at J. Leslie Ferguson's office, 23 Toronto street.

Mr. and Mrs. F. Coulter gave a banquet to the Riverdale champion juvenile rugby team at their home, 73 Laing street, last evening. This team won three straight games from teams who won their own, and then took the final from Strathcona, weekend winners.

The City Rugby League wound up the season's business last night, paid back the deposits, and carried over a balance of \$80, which will be spent for medals or presents for the champion teams.

# MITCHELL MANAGER THE BOSTON BRAVES

## Appointed to Succeed George Stallings.

Old Toronto Pitcher-Catcher Appointed to Succeed George Stallings.

Doston, Nov. 30.—The appointment of Fred Mitchell, who has been leader of the Chicago Cubs for the last three years, as manager of the Boston Braves, was announced by President E. W. Ryan today. In taking the place of George W. Mitchell, who returns to the club for which he acted as battery coach before going to Chicago.

As Stallings' right eye in the sensational rush of the Braves to National League and world championship honors in 1917, Mitchell was accorded considerable credit for his part in the team's success by his chief. He left the Boston club to become coach of the Harvard University team. Mitchell later turned out to be a catcher and his good work behind the bat at Diamond Park sent him to the National League, where he played for the Boston Braves, and then for the Red Sox.

Mitchell helped the Leafs to win the championship under Joe Kelley in 1907, the other pitchers being Rudolph McGinnis, Apollon Hoffer and Hester. Bill Carrigan was the catcher, and catcher for Toronto and his good work behind the bat at Diamond Park sent him to the National League, where he played for the Boston Braves, and then for the Red Sox.

Coach Rodden gave the team a hard drill last evening with a line-up practice as a wind-up. This program will be adhered to for the balance of the week, and he expects to send them against Varsity in the best possible shape.

## ENGLISH BILLIARDS CHAMPIONSHIP MATCH AT HART HOUSE, TORONTO

A very interesting billiard match took place on Friday and Saturday in the Hart House gymnasium. The match was between E. F. Cooke, amateur champion of Ontario, and Luke E. Leonard, amateur champion of Ulster, Ireland, and Fort William, Ont. The match was for 2,000 points, and was divided into three blocks of 700, 600 and 700.

The match was a first class exhibition of what strokes can be played on an English table. The ease with which both players controlled the balls was greeted with great applause by the spectators. For whenever difficult positions were encountered, such strokes as masse, pique, long and short jennys and a variety of screw strokes were used with deadly accuracy.

Cooke played consistently. He got in touch with the cushions and balls almost immediately and maintained consistent form throughout the game. Considering the fact that he had been serving his country, at the front, for over four years, and that he had not touched a cue for almost six months, his playing was little short of marvelous. His average was a little over 15 and his breaks were: 46, 60, 99, 45, 57, 58, 52, 73, 23, 77, 29, 55, 49 and one magnificent run of 155. The feature of his game was his accurate and beautiful touch. His cue arm swings like a well-balanced machine. His stand at the table speaks a love of the game.

Mr. Leonard's opponent, never found his stride; from the beginning he found himself in a difficult position. His cue arm swings like a well-balanced machine. His stand at the table speaks a love of the game.

Both players brought to the game a thoroughly good spirit. There was always real sportsmanship, real good will and a good equitable temper.

The table upon which the match was played was an exquisite example of a standard full size, 6 x 12, Madison mahogany, built and set up, free of charge, by the courtesy of the Brunswick-Balke-Commer Company of Canada, Limited.

Among the guests will be Mayor Church, John O'Malley, M.P.A., Dan Rose, M.P., Jas. D. Baillie and Sam Kennedy, M.P., Jas. D. Baillie and Sam Kennedy, M.P., Jas. D. Baillie and Sam Kennedy, M.P.

Joe Wellington in Wisconsin. Milwaukee, Wis., Nov. 30.—Joe Wellington, Chicago boxer, has been suspended from fighting in Wisconsin for one year by the State Boxing Commission, it was announced today.

# INDUSTRIAL HOCKEY LEAGUE IN EAST END

## Seven Prominent Riverdale Industries Already in the Circuit.

The East End Industrial Hockey League was organized last night at a meeting held in the Broadview Y.M.C.A., at which seven of the most prominent Riverdale industries were represented.

The election of officers resulted in Mr. A. Weiss being elected hon. president; C. Franchon, secretary-treasurer, Harold C. Franchon, secretary, and J. H. Armstrong, secretary. The teams already entered are: Dunlop Tire & Rubber Goods, Ralph Clark Co., Bowes Ltd., Canada Wire & Cable Co., Booth Coulter Co. and United Drug Co. Any other teams interested should send in their names to a meeting which will be held at Broadview Y.M.C.A. on December 6, at 8 p.m.

The way the applications for membership are pouring into the Western City Hockey League indicates that this will be a big year for the young organization.

The senior and junior series will add a lower of strength to these two series. The Franchon Club, whose teams pulled down the silverware in both these series last season, will have plenty of competition from the Bellwoods Club. They have already held a strong hand in past in other hockey leagues, and judging from the list of players the respective leagues pulled down in the lion share of silverware in the city championships last year, and hope to repeat the success this season.

The league is holding a meeting Friday at St. Francis. The senior league will be grouped with Smith's Falls and Perth in the E.C.H.A.

Jack Walker, the hockey star, leaves for Arthur today for Seattle to join his team.

Six-man hockey is likely to be introduced in the Brookville City Hockey League this season. The senior team will be grouped with Smith's Falls and Perth in the E.C.H.A.

Lindsay midweek has made arrangements to have Ken Randall, the Toronto pro, coach the senior team a week during the fore part of the coming season. Lindsay is the only nominee for a portion of the O.H.A. executive from eastern Ontario, the Lindsay club AD HOCKEY.

Oshawa Hockey Club was reorganized last night, and it was decided to have intermediate and junior O.H.A. teams. Dr. F. F. Kennedy was chosen manager of the intermediate.

The Aurora Hockey Club organized last night when it was decided to have intermediate and junior O.H.A. teams. Dr. F. F. Kennedy was chosen manager of the intermediate.

The carpool results of last week were as follows: Moose Hart 17; North End 25; Davenport Albion 15; S.O.E.A. 15; Carlton 15.

THREE CUSHION BILLIARDS. Chicago, Nov. 30.—Pierre Mapeau continued his steady play in the preliminary for the national three cushion league championship today and defeated Augie Kleckler of Chicago 50 to 42 in the one last year in Blythwood road, and a campaign is to be started immediately to get sufficient subscriptions.

## NEW ATHLETIC LEAGUE. At a special meeting called last night in the Anglican Methodist Church an athletic club was formed to be known as "The Blythwood Athletic Club."

At a meeting of the executive of the club the following officers were elected: President, Magistrate; secretary, Forsey Page; secretary, Bruce Toy; and sec. treasurer, MacGe, dove and Nibbs. It was decided that the rink should be the one used last year in Blythwood road, and a campaign is to be started immediately to get sufficient subscriptions.

## Toronto Amateur Hockey Association Has No Controversy With Toronto H. L.

Toronto Amateur Hockey Association issues an official statement: The Toronto Amateur Hockey Association is an association of leagues called together last fall by the Ontario Branch of the Amateur Athletic Union of Canada for the purpose of forming a controlling body for outdoor hockey in Toronto. All leagues operating in the city received an organization meeting in the city of Toronto.

It takes two parties or organizations to make a controversy, and the Toronto Amateur Hockey Association refuses to be drawn into a controversy. The Toronto Hockey League is invited into the association on the same basis as the other leagues entered, namely: (1) Conformity to association rules; (2) Complete autonomy of operation of their own league.

ECONOMY IN HEATING

To save money in every way is the duty of all now. In no item is economy more desirable or more important than economy in fuel. Fuel economy is only one of the advantages of the King Boiler and Imperial Radiators. The boiler makes the heat and loses but a small portion of it, and the radiators spread the heat to the utmost parts of the house—with minimum loss.

King Hot Water Boilers and Imperial Radiators. If you have been having any difficulty in getting heating supplies come to us, call or phone. We can supply you. We Make Prompt Delivery. STEEL AND RADIATION, LIMITED. 80 Adelaide St. E., Toronto.

# BANKERS ARE UNHELPFUL BUT STOCKS STILL DIP

## Losses Are Not Pronounced Save in Case of Independent Steels, Coppers and Secondary Rails—Call Money Rate Advances From Six to Seven Per Cent.

New York, Nov. 30.—Regardless of the more hopeful feeling prevailing in banking circles and the absence of untoward conditions in the money situation, stocks were in process of further liquidation today, the irregular revision being aggravated by an extension of the short interest.

The reaction, so far as it dealt with relatively new issues, was relatively moderate, high-grade rails, industrials, and the steel situation being the only factors causing only nominal losses at the close.

Among the few exceptions was Southern Pacific, that stock displaying heaviness almost from the outset on selling of a persistent character and making a net loss of 2 1/2 points. Other investors' transactions were little altered, a few ending at gains.

Attention focused in the independent steels and coppers and secondary

DESIRES CHANGE IN COPYRIGHT LAWS

British Authors' Representative in Canada Seeking to Secure Legislation.

Canadian copyright laws are sadly behind the times, declared G. H. Thring, secretary of the Incorporated Society of Authors and Playwrights of London, Eng. when seen by The World at the King Edward Hotel yesterday afternoon.

Mr. Thring stated that when Great Britain passed the copyright act in 1911 she gave the Dominion power to adopt that act, or legislate on the same lines, in order that there should be unity in its working, but the authors had found that while New Zealand, Australia and South Africa had adopted the act, Canada had done nothing and in consequence the old imperial copyright act of 1840 was still in operation here formally presented by a color party, consisting of the following distinguished old students: Col. R. S. Burton, C.B.E.; Capt. Brooke Bell, M.C.; Croix de Guerre, and Capt. Gordon Caswell, M.C.

Mr. Thring mentioned that he was here to get legislation regarding the protection of copyrights and wanted it done as soon as possible, and added that the more unified the legislation throughout the world the greater would be the world's production of literature.

Mr. Thring stated that he does not wish the legislation to be a political matter, but mentioned that at the revised convention of Berne the great majority of the nations present maintained practically intact by all the belligerent nations throughout the world. He will get local opinion on this matter before proceeding to Ottawa.

SUGGEST ABOLISHING SCHOOL GRADE SYSTEM

Woman Trustee Favors Doing Away With Scheme Up to Fourth Department.

Chief Inspector R. H. Cowley, of the Toronto public schools, has made a report to the board of education upon retardation in the progress of pupils. His report states that the board of inspectors has considered a proposal of Trustee Mrs. Courtice that the grade system be abolished up to the fourth grade. The board of inspectors is opposed to such a sweeping change, and suggests a modification of Mrs. Courtice's proposal.

Chief Inspector Cowley's report says: "It is not advisable to change the present mode of organization, which provided one grade per teacher except where the number of pupils is insufficient to fill the regular classes."
