INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

IN AFFILIATION WITH

TRINITY UNIVERSITY, THE UNIVERSITY OF TORONTO, QUEEN'S UNIVERSITY,
VICTORIA UNIVERSITY, AND THE UNIVERSITY OF MANITOBA, AND
SPECIALLY RECOGNIZED BY THE ROYAL COLLEGE OF SURGEONS,
ENGLAND, THE ROYAL COLLEGE OF PHYSICIANS, LONDON,
THE ROYAL COLLEGE OF PHYSICIANS AND SURGEONS,
OF EDINBURGH, THE FACULTY OF PHYSICIANS
AND SURGEONS OF GLASGOW, AND THE
KING'S AND QUEEN'S COLLEGE OF
PHYSICIANS OF IRELAND,
AND BY THE CONJOINT EXAMINING BOARDS IN LONDON AND EDINBURGH.

The Winter Session of 1892-93 will begin on Monday, the 3rd day of October next, and will continue for six months. The opening lecture of the course will be delivered by Dr. Powell, at 4 o'clock, p. m., on that day, in the College. The regular work of the College begins at 8 o'clock, a. m., on the following day. It is hoped that, in view of their own interests, students will, as far as practicable, be present at the opening lecture, so as to lose none of the early teaching in the several branches.

The Faculty record with pleasure the constantly increasing prosperity of the College, the late Session having been one of the most successful in its history.

This College has the great advantage of being entirely governed by its own Faculty composed of Medical teachers of long experience.

From its inception, "STABILITY AND EFFICIENCY, with PRACTICAL

TEACHING IN EVERY BRANCH," has been the motto and the basis on which the College has been, and will continue to be, conducted.

The only modification made in this Institution for many years, was the passing of an Act by the Legislature in 1887, raising "Trinity Medical School" to the standing and dignity of a "Medical College" a position well earned by many years of successful teaching.

TRINITY MEDICAL COLLEGE WILL GO ON AS IN PAST YEARS, ADVANCING AND IMPROVING every Session, keeping fully abreast of the advances of science, and of the requirements of the medical profession, as laid down from time to time by the Ontario Medical Council.

Thoroughness in TEACHING—making it as PRACTICAL AS IT CAN BE MADE in every Department, and PUNCTUALITY and ZEAL in all College work, will as heretofore, be steadily maintained in view of the high position this Institution has gained by continued strict attention to these fundamental essentials of a sound medical education.

All the lectures, except those on Clinical Medicine and Clinical Surgery are delivered in the large College Building, situated in the immediate vicinity of the Toronto General Hospital. This College has found it essential to medical students, and a great saving of their valuable time, to have the lecture rooms where they are taught the nature of disease, AND ALL THE BRANCHES OF SCIENCE RELATED TO MEDICINE, as close as possible to the General Hospital. The Clinical teaching is all done in the Hospital. Very special attention has been paid to the fitting up of the Lecture and Dissecting Rooms, Laboratories, etc. They are large, exceedingly well lighted, and contain every appliance required for Practical Teaching.

One of the largest rooms in the College, and well lighted from the ceiling, is set apart for the Museum; and the Reading Room is well supplied with the leading journals and papers. The Faculty continue to make every improvement necessary for the comfort and convenience of the constantly increasing number of students in attendance. To meet the requirements of the large Anatomy classes, the new Dissecting Room was built. It is spacious—lighted from the ceiling, and, for SANITARY REASONS IS ENTIRELY SEPARATE FROM THE REST OF THE COLLEGE BUILDING. Large additions were recently made to it comprising a Demonstrator's Room, Vat Room, Wash Room, etc. It is furnished with every modern requisite of a Dissecting Room. The entire arrangements for the study and teaching of Practical Anatomy

have received to
as perfect as the
Anatomy as the
sidered by the
Students.

named, go up fo
in addition, they
"Trinity Medic
provisions of the

have received the greatest attention in this College, so as to have them as perfect as they can be made, taking the best European Schools of Anatomy as the models. The perfect isolation of this Building is considered by the Faculty as essential to the health and comfort of the Students.

Although it is not many years since the erection of our commodious Medical College Buildings, the attendance of students has increased so as to require from time to time more ample accommodation, and large additions have been built. Very recently, the buildings were enlarged, so as to meet all the requirements of a thoroughly equipped Medical College. The latest additions and improvements, are those made in the Laboratories, in the Department of Practical Anatomy, and in the Ophthalmological Department.

There are in the College two equally spacious lecture theatres, a new Laboratory for Practical Histology, one for Practical Chemistry, and a new one for Pathology. THESE LABORATORIES AFFORD ALL THE PRACTICAL FACILITIES WHICH MEDICAL STUDENTS REQUIRE, OR CAN USE IN LABORATORY WORK. The Laboratory for Practical Chemistry was, last summer, (1891), much improved and completely re-equipped.

TRINITY MEDICAL COLLEGE IS AN INDEPENDENT, SELF GOVERNING CORPORATION, ENTIRELY SEPARATE AND DISTINCT FROM EVERY OTHER. UNDER ITS OWN SPECIAL ACT OF INCORPORATION, THE COLLEGE IS EMPOWERED TO ENTER INTO AFFILIATION WITH ANY "UNIVERSITY OR UNIVERSITIES" WITH WHICH IT MAY BE DESIRABLE, IN THE INTERESTS OF THE STUDENTS, TO HAVE IT CONNECTED. THE COLLEGE THEREFORE RESTS ON THE BROADEST POSSIBLE BASIS, AND IS IN AFFILIATION WITH

Trinity University,
The University of Toronto,
Queen's University,
Victoria University,
The University of Manitoba,

Students attending Trinity Medical College have every advantage which ample University connections afford, under which they can, by conforming to the curriculum laid down by the several Universities named, go up for their degree, before any one, or more of these. And in addition, they can, if they desire to do so, present themselves for the "Trinity Medical College" Examinations, which are held under the provisions of the SPECIAL ACT incorporating the College. Full particu-

THE TRINITY MEDICAL COLLEGE
Trinity Medical College.

lars regarding these Examinations are given on page 26 of this Announcement. They are equivalent in every way to those required for University Degrees in Medicine, and if successful, the candidate will obtain the "Fellowship by Examination" Diploma. This qualification is fully recognized, separately and conjointly, by the several Examining Royal Colleges of Physicians and Surgeons in Great Britain.

Under its special Act, this Medical College is represented on the College of Physicians and Surgeons of Ontario, and is therefore possessed of every privilege enjoyed by any Medical teaching body in the Dominion.

The "Fellowship by Examination" Diploma entitles its holders to go up before the Royal Colleges of Surgeons and Physicians in Great Britain and Ireland, with precisely the same exemptions from various parts of the examinations as are allowed to holders of University Degrees.

Full instruction is given in Trinity Medical College in all the subjects required for degrees in Medicine, by the University of Toronto, including Biology, Comparative Anatomy and Practical Pharmacy, etc.

The Faculty has been greatly gratified with the high standing uniformly taken by the students of Trinity Medical College at the Examinations of the College of Physicians and Surgeons of Ontario, and the various other Medical Boards at home and abroad, before which they have presented themselves. This, better than anything else, proves the **HIGHLY PRACTICAL AND THOROUGH CHARACTER** of the **TEACHING** given in the College.

THE SUMMER SESSION 1892.

Attendance upon ONE Summer Session is now made compulsory by the Medical Council of Ontario, and the teaching throughout this Session will be thoroughly practical. The course began on Monday May 2nd and continued for two months.

TEACHING AT THE COLLEGE, AND CLINICAL INSTRUCTION AT THE GENERAL HOSPITAL.

In the Summer Course, as during the Winter Session, it is the desire to make the instruction of a very practical nature, and at the same time to take up the entire subject of Medicine and Surgery in the hospital wards.

The hospital and theatre, including patients, and the instruction of splints.

Every facility for assistance given.

In the Out-patient department, prescribing of medicine.

The hospital work will consist of daily Clinics in the hospital wards and theatre, where the students will be taught the methods of examining patients, diagnosing cases, and the treatment of disease, the application of splints, surgical apparatus, etc.

Every facility will be given to students to examine patients, and assistance given in the making of clinical reports and note taking.

In the Out-door Clinic the method of examining patients and the prescribing of medicines will receive special attention.

In addition to the hospital course, there will be special classes at the College, in which the subjects of Medicine, Surgery, Midwifery, Gynæcology, etc., will be systematically and thoroughly taken up each day. These classes will be open to all students, without additional charge, who have taken out tickets for the Summer Course.

Special attention will be given to the making of post mortems.

To intending Medical Students who propose to begin their Studies during the present Summer Session.

Instruction will also be given in the Anatomy of the Bones and Ligaments, in Elementary Physiology, Materia Medica, and in Elementary Chemistry. Those who take this work, which will be done in special Private Classes, will be prepared for beginning next Winter Session, as it embraces the first year's work.

Primary work will also be taken up for those who desire it.

For Instruction in First Year's work—in Practical Pathology, or in Primary work, an extra fee will be charged.

SUMMER SESSION—CLINICAL INSTRUCTION AT HOSPITAL.

Out-Patient Clinics—Daily, by members of the Acting Hospital Staff, Operations on Saturday. There is also a Course of daily bed-side instruction, Medical and Surgical, giving particular attention to the Diagnosis and Treatment of disease, by members of the Acting Staff of the Hospital. Fee for Summer Course, \$30. Tickets will be issued on payment of the fees.

For further information regarding the Summer Session, and Summer Session Tickets, apply to DR. BINGHAM, 64 ISABELLA ST., Secretary of Summer Session.

Full details as to the SUMMER SESSION WORK of 1893, will be published towards the end of the coming Winter Session.

THE UNIVERSITY OF
Trinity Medical College.

MATRICULATION.

EVERY STUDENT WHO INTENDS PRACTISING IN ONTARIO IS ADVISED, BEFORE ENTERING UPON HIS MEDICAL STUDIES, TO PASS THE MATRICULATION EXAMINATION REQUIRED BY THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO.

NO PERSON CAN PRACTICE IN ONTARIO WHO IS NOT REGISTERED AS A MEMBER OF THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO.

Prior to July 1st, 1888, this MATRICULATION consisted of the THIRD CLASS NON-PROFESSIONAL EXAMINATION WITH THE LATIN OPTION included,—after that date, the SECOND CLASS NON-PROFESSIONAL, with Latin,—and after July 1, 1892, the Departmental Junior Matriculation Examination in Arts, with the Physics and Chemistry prescribed for the Junior Leaving Examination—will be required from every Candidate, not a graduate in Arts, who desires to register with the Medical Council as a Matriculate.

A COPY OF THE PRINTED REGULATIONS GIVING ALL DETAILS OF THIS "DEPARTMENTAL EXAMINATION," can be obtained on application to the EDUCATION DEPARTMENT, TORONTO. This EXAMINATION IS ACCEPTED BY *Trinity Medical College, Trinity University, and by all Canadian Universities.*

Attention is called to the fact that the Medical Council dates the period of study, *in every instance*, from the time the student is registered on their official list as a *matriculated medical student*.

The Medical Council of Ontario requires that every one desirous of being registered as a matriculated student on its register, must present to the Registrar of the Council the OFFICIAL CERTIFICATE of his having passed the Examination entitling him to registration.

Students who previously to July 1st, 1888, have passed THE THIRD CLASS NON-PROFESSIONAL EXAMINATION, or, after that date, the SECOND CLASS, ON ALL OTHER SUBJECTS, BUT WITHOUT THE LATIN OPTION, can complete the required examination, by going up for the LATIN ONLY, of the Junior Leaving Examination,* held annually, at the various High Schools. The names of such students cannot be entered on the Medical Council's Register *till the Latin has been passed*. All such candidates must either go up for the LATIN of the "DEPARTMENTAL ARTS" MATRICULATION, above mentioned, or for that of the ARTS MATRICULATION, in any British or Colonial University,

* Or of the Matriculation Examination conducted by the Education Department.

—and in every c

which is accepted by Trinity Medical College and by the Universities, as well as by the Medical Council. A candidate who requires to take LATIN ONLY, (having a certificate for everything else), who DOES NOT INTEND TO PRACTISE IN ONTARIO can take the LATIN at the Trinity University, MEDICAL Matriculation Examination, which is held in Trinity Medical College, in October and March in each year.* BUT EVERY CANDIDATE WHO INTENDS TO PRACTISE IN ONTARIO, WILL BEAR IN MIND THAT THE MEDICAL COUNCIL, SINCE JULY, 1888, ACCEPTS ONLY EITHER THE "SECOND CLASS" LATIN, or that of the DEPARTMENTAL MATRICULATION IN ARTS, OR THAT REQUIRED FOR THE ARTS MATRICULATION IN THE SEVERAL UNIVERSITIES.

Graduates in Arts, or Students who have matriculated as the Medical Council now requires, are exempt from any further matriculation examination, and are entitled to registration in TRINITY MEDICAL COLLEGE on payment of the fee of \$5, and to registration, as a Medical student, at the College of Physicians and Surgeons of Ontario, on payment to the Registrar of that College of the fee of \$20.

From the foregoing, students will see, that there are but two ways of being REGISTERED WITH THE COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO, as a matriculated student; and they are specially asked to bear in mind that THIS REGISTRATION IS ABSOLUTELY REQUIRED FROM EVERY ONE WHO INTENDS PRACTISING HIS PROFESSION IN THE PROVINCE OF ONTARIO.

FIRST.—By having passed the THIRD CLASS NON-PROFESSIONAL EXAMINATION, WITH LATIN, PRIOR TO JULY 1ST, 1888; OR, AFTER THAT DATE, THE SECOND CLASS NON-PROFESSIONAL EXAMINATION WITH LATIN, or after July 1st, 1892, The Departmental Junior Matriculation in Arts, including the Science Group, and Latin; or

SECOND.—BY BEING A GRADUATE, IN ARTS, IN A BRITISH OR COLONIAL UNIVERSITY.

Trinity University, the University of Toronto, Queen's University, and Trinity Medical College do not insist upon the matriculation examination being passed BEFORE attendance on medical lectures, but it is very strongly recommended that this should be passed as soon after entering as possible, where it has not been passed before—and in every case, where at all practicable, this should be attended

* See page 18.

to, before the passing of the second year's or PRIMARY Professional Examination.

A certificate of having passed the MATRICULATION EXAMINATION IN ARTS, or in MEDICINE, in any British or Colonial University, or of the Medical Council of Ontario, or that required by the various Colleges of Physicians or Surgeons in Great Britain and Ireland, or that of the College of Physicians and Surgeons of Quebec, or that of the Law Society of Ontario or Quebec, or having passed an examination, whether for a TEACHER'S CERTIFICATE in any of the PROVINCES of the DOMINION, or an examination EQUIVALENT to any of the above, is also accepted by Trinity Medical College, and by Trinity University.

Non-matriculated students from the Maritime Provinces, Manitoba, and the North-West, the West Indies, or other British Colonies, the United States, or from any quarter, and who are non-residents of Ontario, and therefore do not take the Examinations of the Medical Council, may attend lectures in Trinity Medical College on payment of the fees. Should such non-matriculated students however desire to graduate at Trinity University, or at any of the other Universities with which Trinity Medical College, is affiliated, or to go up for the "Fellowship by Examination" Diploma, of Trinity Medical College, they must either pass the Trinity University Medical Matriculation Examination, given below, or present a certificate of having passed some other Matriculation Examination equivalent thereto in every respect.

THE MEDICAL MATRICULATION EXAMINATION of any of the Universities with which this Medical College is affiliated, is only required from Students who have not previously matriculated otherwise, and who do not intend to practise in Ontario, and while recommended to be taken at the beginning of the course, MAY BE PASSED AT ANY TIME BEFORE GRADUATION. Details as to these University Matriculation Examinations are given in this Announcement, under the proper headings.

Students who have not otherwise matriculated, and who desire to take the Fellowship Diploma of Trinity Medical College, or to graduate in Trinity University, or Queen's University, will be required to pass an examination on the following Subjects :

(1) Writing and Dictation ; (2) English Language, including Grammar and Composition ; (3) Arithmetic ; (4) Algebra, including simple Equations ; (5) Euclid, (in 1892 Books I., II. and III. of Euclid will be required, and at least two of the Latin authors named), Bks. I., II. ; (6)

I., (c) French, Voltaire's Charles XII., Bks. VI.-VIII., (d) German, Schiller's 'Thirty Years' War, Bk. I., (e) Natural Philosophy, including Mechanics, Hydrostatics and Pneumatics, (Balfour Stewart's *Physics* is recommended), (f) *or* Logic.

Where more than one TEXT BOOK is named on any subject, as in Latin, the candidate may select the one upon which he may prefer to be examined. Two will be required after 1892.

THIS EXAMINATION, which is that required by the Medical Council in Great Britain and Ireland, WILL BE HELD in Trinity Medical College on THE SECOND FRIDAY AND SATURDAY IN MARCH, AND THE SECOND FRIDAY AND SATURDAY IN OCTOBER OF EACH YEAR. Applications may be made to the Dean of the Faculty of Trinity Medical College, till the evening of the day before the Examination.

All students going up for examination in Great Britain before the several Royal Colleges there, are required to present a certificate of having passed an examination in Elementary Mechanics. An examination on this subject will therefore be held at the Medical College in November of each year, at the same time as the Supplementary First year's Examination, when any students who intend going to Europe, whose matriculation examination may not have embraced it, may present themselves, without any additional fee being charged.

LECTURES.

CLINICAL AND DIDACTIC.

The several Professors and Lecturers will illustrate their respective courses by plates, preparations, models and specimens—including the application of the Laryngoscope, Ophthalmoscope, Sphygmograph, Spectroscope, etc., and the various forms of Electrical apparatus used in medicine. It will, as heretofore, be the constant aim of the Faculty to make the entire teaching of the College as PRACTICAL and THOROUGH as possible. IN THIS COLLEGE, ever since its organization, throughout the entire session, FIVE Lectures have been given each week on the principal subjects *viz.* : Anatomy, Physiology, Chemistry, Materia

THE PROPERTY OF
Trinity Medical College.

Medica, Medicine, Surgery, and Midwifery, thus fully meeting the requirements of the Ontario Medical Council, and all the Boards in Great Britain and Ireland. And on every subject the courses are made not only FULL, but thoroughly PRACTICAL, and are amply illustrated.

CLINICAL TEACHING.

Clinical Teaching has always been carried out in every department of the College as fully as possible, and in view of its very great importance, SPECIAL and INCREASING attention continues to be given by the Faculty to this essential department of the course. It includes CLINICAL LECTURES, and teaching the DIAGNOSIS of Medical and Surgical Diseases at the bedside, nothing being of more value to those engaged in the study of medicine and surgery, than a close and careful observation of the numerous cases in the Hospital wards. Arrangements were made years ago, and are now very perfect, which have largely increased the amount of clinical instruction given in the Toronto General Hospital, and afford to all students who attend it, as great facilities as are enjoyed in any part of Canada in this important part of their studies. Besides this, the number of Hospital patients is very large and increasing, and the College being CLOSE TO THE HOSPITAL, students can readily avail themselves of the many advantages there afforded for gaining practical knowledge.

In connection with the treatment of the out-door patients who apply DAILY for advice and treatment at the TORONTO GENERAL HOSPITAL, an OUT DOOR Patients' Clinic is given every day from 1 to 2.30 p.m. These patients are examined and prescribed for, in the presence of the students. An IN-DOOR Patients' Clinic is also given daily, immediately after the other, from 2.30 to 3.30 p.m., the patients being brought before the students, and everything of importance pointed out by the Professors of Medicine and Surgery, as well as by the other members of the *Consulting* and *Acting Staff* of the Hospital. In addition to these, there is, every day, making THREE HOURS AT LEAST OF CLINICAL WORK, a BED-SIDE CLINIC ON MEDICINE, and a BED-SIDE CLINIC ON SURGERY, given by members of the Acting Hospital Staff. The students attend these bed-side clinics in regular rotation.

The CLINICAL Teachers on the Hospital Staff act conjointly, in giving daily instruction of the most practical kind to the students in the Hospital; and as there are many such teachers, it is manifest that young

men studying in
not excelled and

The Lectures on
be fully dwelt up

men studying in Toronto receive an amount of practical instruction not excelled anywhere on the Continent.

The giving of special daily Clinics at the bed-side, as above referred to, by all the Hospital teachers in turn, is a special feature of the greatest value, in addition to the Out-door and In-door Clinics above mentioned. Much importance is attached to this work, and the greatest care is bestowed upon it, so as to make it as profitable to the student as it can be made.

Special Clinical instruction will also be given by the Professor of Midwifery at the Burnside Hospital, and by other members of the Staff of the Hospital, on Diseases of Women and Children, and on Practical Midwifery, and special Practical Instruction at the Eye and Ear Department of the Hospital is also regularly given, as well as on Dermatology. The Diseases of Children may, during the Winter and the Summer Session, also be practically studied at the Victoria Hospital for Sick Children, on College Street, a little West of Yonge Street.

Trinity University and the Medical Council require CLINICAL EXAMINATIONS in Medicine and Surgery from ALL candidates for the FINAL examination, making careful CLINICAL study a necessity, throughout the entire course of study.

PRINCIPLES AND PRACTICE OF MEDICINE.

PROFESSOR GEIKIE.

This course embraces the following :—

I. The General Principles of Medicine, the Nature and Causes of Disease, the Symptoms and Morbid Changes which arise in the course of disease, together with the general principles of treatment, as well as the means to be used for its prevention.

II. The Classification of Diseases, and the Description of the affections of the different Organs and Structures throughout the body.

The Lectures will be Practical throughout and very fully illustrated by the most recent plates, also by models, and morbid specimens from the Museum, as well as by fresh specimens from the Hospital post-mortem rooms, furnished by the Hospital Pathologists.

PRINCIPLES AND PRACTICE OF SURGERY.

PROFESSOR GRASSETT.

The Lectures on this branch embrace Surgical Pathology which will be fully dwelt upon. The entire course will be illustrated by pre-

THE UNIVERSITY OF
Trinity Medical College.

parations from the Museum of the College, by specimens from recent cases at the Hospital, and by those which may be obtained in practice, as well as by the best models and plates.

The course will be thoroughly Practical and will include the Practice of Surgery, and Surgical operations. These operations will be performed before the Class, on the fresh Cadaver. Surgical Apparatus and Instruments will also be exhibited, and their uses pointed out to the students. In the Department of Surgery the Hospital will be used as largely as possible to illustrate the teaching, by cases of all kinds, in the theatre, and in the wards.

MIDWIFERY AND GYNÆCOLOGY.

PROFESSOR TEMPLE.

This course, like all the others in the College, will be Practical and will embrace the Principles and Practice of Obstetrics, illustrated by Diagrams, by fresh and Preserved Specimens, the Artificial Pelvis, etc. The Principal Diseases of Women forms an important portion of the work taken up.

In teaching the Diseases of Women, the Anatomy and Physiology of the Female Organs will be demonstrated, and the various methods of Examination fully described,—the necessary instruments will be shown and their use explained. The diseases peculiar to the sex will be considered as fully as time will permit, as follows:—Disorders of Menstruation; Leucorrhœa, Pelvic Cellulitis and Peritonitis; Lacerations of the Cervix Uteri and Perineum; Urinary and Fæcal Fistulæ; Inflammations of the Uterus; Displacements of the Uterus; Tumors of the Uterus; Diseases of the Ovaries, etc.

The Lectures will also be fully illustrated by plates, models and morbid specimens.

ANATOMY, DESCRIPTIVE AND SURGICAL.

PROFESSOR TESKEY.

The Course on Anatomy, Descriptive and Surgical, is made very complete, as this subject is unquestionably the foundation on which all professional knowledge is based. It will be taught in the most practical manner possible. The relations of Anatomy to Pathology, Medicine, Surgery, etc., will be fully taken up. The Lectures will be illustrated by the fresh subject, moist and dry preparations, sections, models, plates and original drawings.

The College has a large supply of Disarticulated Skeletons, as well as other preparations, and a complete collection of the best models of various parts of the body, to aid in the study and teaching of this all important branch. This collection has recently been largely increased by models imported from Paris.

To facilitate the study of Osteology, students under certain regulations, can procure the use of finely prepared imported bones belonging to the College, from the Senior Demonstrator of Anatomy, on payment, of a small fee.

APPLIED ANATOMY.

PROFESSOR BINGHAM.

The Lectures of this Course, now required by THE MEDICAL COUNCIL TRINITY UNIVERSITY, and TRINITY MEDICAL COLLEGE, are for FINAL students only, and will embrace the most important parts of Anatomy as applied to Medicine and Surgery. This practical course will be made more extensive during the coming season than heretofore, and it will be found of the greatest practical value. It will consist of FIFTY LECTURES.

PRACTICAL ANATOMY.

DR. G. A. BINGHAM, DR. GORDON, DEMONSTRATORS; DRS. COWAN, WISHART, STRATHY AND FOTHERINGHAM, ASSISTANTS IN PRACTICAL ANATOMY, WITH ADDITIONAL SESSIONAL ASSISTANTS.

To the Department of Practical Anatomy, so closely connected with Surgery, the greatest attention is paid, and the Demonstrators, with the Assistants in Practical Anatomy, will give daily attendance in the Dissecting Room, forenoon and afternoon, while dissection is going on. The Dissecting Room is large, perfectly lighted and ventilated; and under the amended Anatomy Act recently passed by the Ontario Legislature a more abundant supply of anatomical material is secured. It is the desire of the Faculty that each student should have every facility to acquire a thoroughly practical knowledge of Anatomy in the Dissecting Room, where alone it can be properly studied. Every student will be closely examined on the parts he dissects, and his standing in Practical Anatomy at the close of the first session will be determined by his standing at the above examinations during the winter. In the Dissecting

THE PROPERTY OF

Room, sets of prepared and marked bones are so placed that they may be studied on the spot.

All Pathological Specimens or Abnormalities, found in subjects in the Dissecting Room, are the property of the College, and are added to the Museum for the benefit of all the students.

PHYSIOLOGY, INCLUDING HISTOLOGY.

PROFESSOR SHEARD.

This Course will embrace a description of the Elementary Tissues of the Body; the Structure of the various Organs and Glands; also the functions of Respiration, Circulation, Digestion and Nutrition, Secretion and Excretion. Special attention will be given to the nervous System, and to Embryology, and Development. The last will be fully illustrated in all its stages by specimens.

The Physiological Laboratory is furnished, regardless of expense, with all the best modern appliances necessary for the practical study of this subject. Amongst the apparatus imported for this Laboratory are a DuBois Raymond's Coils, DuBois Raymond's Keys, Foster's Moist Muscle Chamber, Revolving Drum Cylinders, Galvanometers and Scale, Electrodes, Exciters, Mercurial Keys, Stricker's Warming Stages, Hot Air Baths, etc. Further additions are being made from year to year.

Microscopic Anatomy will receive ample attention from the several lecturers upon the branches in which the microscope is employed; and in addition to this, very complete Courses of Instruction will be given upon Microscopy, and the use of the Microscope in connection with Normal and Pathological Histology, BOTH OF WHICH SUBJECTS ARE NOW REQUIRED BY THE MEDICAL COUNCIL. An additional number of the best of high power Microscopes from Europe have been provided this year. The various methods of injecting, staining, mounting, etc., receive special attention.

GENERAL CHEMISTRY AND CHEMICAL PHYSICS.

PROFESSORS KIRKLAND AND STUART.

In this Course the general principles of Chemistry will be fully discussed, and the laws and theories deduced from suitable experiments. Great pains will be taken to point out its relations and applications to Physiology and other departments of medical science. Physics, including Heat, Light, and Electricity, will be discussed both

theoretically and connected with Clinical

The Lectures are more particularly interesting to students. In the course a number of experiments. The whole subject is illustrated by diagrams and drawings, and a thorough knowledge of the Chemistry of the

PRACTICAL

Practical Chemistry is under the supervision of the Professor. The care has this year been given to the Laboratory, and the Clinical and Quantitative and Qualitative poisoning committees. Attention paid to the grave responsibilities of the lecturers. Each student is provided with apparatus, and the physician in his *Urinalysis*, also animal fluids—as to the other

MATERIA THE TH

All important subjects will be described. Special attention is given to disease, and DRUGS DESCRIBED in detail, and one of

Tr

theoretically and experimentally, as far as they bear upon, or are connected with Chemistry.

The Lectures on both Inorganic and Organic Chemistry will deal more particularly with those substances and compounds of special interest to students in Medicine and Pharmacy. Towards the end of the course a number of lectures will be devoted to Medical Chemistry. The whole subject will be illustrated by numerous experiments, charts and drawings, every facility being offered students for acquiring a thorough knowledge of these branches. Professor Stuart will take up the Chemistry of the metals.

PRACTICAL AND ANALYTICAL CHEMISTRY.

PROFESSOR STUART.

Practical Chemistry is taught very thoroughly, under the personal supervision of the Professor. In view of its growing importance, great care has THIS YEAR been bestowed on the re-fitting up of the Laboratory, and the Course will include experiments of various kinds, qualitative and quantitative analysis, etc., etc. In view of the many cases of poisoning coming before the courts of law, Toxicology will have much attention paid to it—no pains being spared to prepare students for the grave responsibilities which such cases impose upon them as practitioners. Each student will be supplied with the requisite re-agents and apparatus, and the course will be adapted to meet the demands of the physician in his daily practice. Special attention will be devoted to *Urinalysis*, also to the normal and abnormal constituents of the animal fluids—to Tests for Blood, for Bile, for Albumen, etc.—as well as to the other departments of Medical Chemistry.

MATERIA MEDICA AND THERAPEUTICS, WITH THE THEORY AND ART OF PRESCRIBING.

PROFESSOR DAVISON.

All important drugs used in Medical, Surgical or Obstetrical Practice will be described, and their properties, preparations and doses given. Special attention will be devoted to the therapeutic action of remedies in disease, and the course will be illustrated by SPECIMENS OF THE DRUGS DESCRIBED. The course of Materia Medica proper, is very complete, and one of its special features will be the description and *modus*

THE PROPERTY OF
Trinity Medical College.

operandi of all valuable new remedies, as well as the theory and art of prescribing.

It is desirable, in the present state of medical science, that much attention should be given to the physiological action of medicine. As much time will therefore be devoted to this part of the subject by the Professor, as may be compatible with giving a complete course on the whole subject.

MEDICAL JURISPRUDENCE AND TOXICOLOGY.

DR. POWELL.

This course will include :—A full discussion of the inter-relations of Law and Medicine, Medical evidence from the Inquest to the Superior Courts, making the reporting of *post mortem* examinations, the signs and the phenomena of death, and the various causes of death by violence, Wounds, Examination of Blood Stains, Offences against Chastity, Abortion, Infanticide. Insanity in its Medical as well as its legal aspects. Feigned diseases, Mal-Practice, Life Insurance, &c., &c. In Toxicology the classification and general action of Poisons will be considered, and then the common Poisons will be taken up, their symptoms, treatment and *post mortem* appearances given, and such tests as a Physician might be called upon to make will be illustrated before the class.

SURGICAL APPLIANCES.

DR. POWELL.

This course consists of twenty Demonstrations upon minor Surgery and Bandaging, the *technique* of Antiseptic Wound treatment, the selection and uses of the various instruments required in general and in special practice, the making and fitting of splints in Fracture treatment, the fitting of Trusses, and of the Apparatus used in Orthœpedic Surgery, the application of Plaster of Paris, and other Permanent Dressings, the methods of inducing local and general Anæsthesia, the Medical and Surgical uses of Electricity, the use of the Photographic Camera in Medical Practice, etc., etc.

This course is an optional one, and the fee is payable once only. Third year, as well as all Final Students, should take it.

SANITARY SCIENCE AND PUBLIC HEALTH.

DR. BERTRAM SPENCER.

A Course of Lectures will be delivered on this subject, attendance upon which is now compulsory. The course comprises lectures upon

Air—Its chemistry, including the constituents and impurities of external and internal atmospheres, and the chemical and biological analysis. The physics of air, and the influence of temperature, moisture, and heating. Its meteorology with special reference to winds, malaria, deforesting, and transmission of diseased germs.

Water—Its chemistry, impurities and analysis.

Meat—Its constituents and various diseased conditions.

Milk and Cheese—The constituents, impurities, their source, adulteration, and inspection.

Canned Meats—Their constituents, impurities, adulterations, changes, analysis and inspection.

Fruits—Fresh and preserved.

Soil—Its constituents, impurities, pollution, examination, methods of purification, cultivation, sewerage, drainage, and how to prevent pollution.

Preventable Diseases—Origin and causes, methods of communication, methods of prevention, quarantine and investigation.

Municipal Sanitation—Sanitary law, vital statistics, house construction, plumbing inspection, road building, conduct of factories, isolation, hospitals, cemeteries, crematories, over-work and over-crowding.

School Hygiene—Technical and physical training, regulation of studies, heating and light.

PATHOLOGY.

The teaching upon this subject will include both Gross and Microscopic Pathology.

Specimens for the Microscope of the various Pathological conditions in the different parts of the body will be prepared, mounted, and studied under the direction of the Demonstrator.

Such teaching in Bacteriology as is of practical value in Medicine, will receive ample attention.

The recently received high power Microscopes will greatly facilitate studies in this department.

THE PROPERTY OF
Trinity Medical College.

In addition to this, ample opportunities for the study of Pathology are afforded to the students, at the Post Mortem Examinations, made in the Hospital by the member of the Faculty who is one of the Pathologist of that institution, and also by other members of the Hospital Staff.

BOTANY.

PROFESSOR KIRKLAND.

In the course of Botany, the general principles of the science will be fully developed, and its relation to medicine constantly kept in view. The lectures will be illustrated by fresh specimens diagrams and models. The aim will be not only to make it useful, in its application to medicine, but also to train the mind to that kind of research which is essential to successful medical study.

OPHTHALMOLOGY AND OTOTOLOGY.

PROFESSOR RYERSON.

Lectures will be given at the Medical College on Diseases of the Eye and Ear, illustrated by the latest appliances—plates and diagrams. Professor Ryerson will also give special clinics in the Eye and Ear Department of the Hospital on cases of interest which may present themselves.

LARYNGOLOGY AND RHINOLOGY.

DR. E. A. SPILSBURY.

A practical course of Lectures on Diseases of the Throat and Nose, illustrated by cases, plates, models, etc., will be given.

A Special Throat and Nose Department has been fitted up in the East Wing of the Hospital, where Clinical Instruction will be given TWICE a week.

PRACTICAL INSTRUCTION IN OPHTHALMOLOGICAL AND OTHER APPLIANCES.

DR. D. J. GIBB WISHART.

Instruction will be given in the College, in the practical use of instruments employed in Diseases of the Eye, Ear, Throat and Nose. Dr. Wishart will form a class for students who desire in this way to become

practically familiar with these parts of the Hospital, and to gain great practical experience.

This course is designed for students to prepare themselves for the study of Pharmacy, and it is a necessary condition of the Course. The subject of compounding and dispensing of all kinds of pills, suppositories, and injections, will be given instruction in the character, and the Dispensing will be given. A desire to go to the Dispensing where such a course is given.

BY DR. DANIEL

A course of Lectures on the Diseases of the Throat and Nose, delivered on Monday and Wednesday evenings, for gentlemen who desire to become familiar with these parts of the Hospital, and to gain great practical experience.

A. Y. SCOTT,
UNIVERSITY

A course of Lectures on the Diseases of the Throat and Nose, delivered on Monday and Wednesday evenings, for gentlemen who desire to become familiar with these parts of the Hospital, and to gain great practical experience.

Tr

practically familiar with all the Appliances used in the special diseases of these parts. This class is an optional one, but it will be found of great practical value.

PRACTICAL PHARMACY.

PRINCIPAL E. B. SHUTTLEWORTH.

This course, which is optional, has been established to enable students to prepare fully for the Medical Council's Examination on Pharmacy, and it will be of much value to candidates who take the Examination of the Council. The students will have every advantage in studying the subject. The teaching will have reference principally to the compounding and dispensing of drugs, and the making up of Prescriptions of all kinds—including powders, mixtures, ointments, plasters, pills, suppositories, etc. Incompatibles will also be pointed out, and the instruction in this department will be of the most practical and useful character, and a certificate of having attended this course of Practical Dispensing will be given to students who have attended it, who may desire to go before the Medical Council, or any of the Universities where such a certificate is required.

MEDICAL PSYCHOLOGY.

BY DR. DANIEL CLARKE, MEDICAL SUPERINTENDENT AT THE PROVINCIAL LUNATIC ASYLUM.

A course of Lectures, open to all who desire to take it will also be delivered on Medical Psychology, at the ASYLUM, for the special benefit of gentlemen who desire to graduate wherever this course is demanded.

ZOOLOGY, ETC.

A. Y. SCOTT. B. A., M. B., TORONTO UNIVERSITY, M. D., C. M., TRINITY UNIVERSITY, AND DEAN OF THE ONTARIO COLLEGE OF PHARMACY.

A course of Practical Zoology is given IN THE COLLEGE, for the special benefit of gentlemen who desire to graduate wherever such a course is required. The lectures embrace the morphology and classification of the various sub-kingdoms, classes, etc., of the Animal Kingdom, also the special practical study of the several type-forms.

THE FACULTY OF
Trinity Medical College.

TRINITY MEDICAL COLLEGE.

PROFESSIONAL EXAMINATIONS.

Professional Examinations will be conducted at the close of the 1st, the 2nd, and the last session, to be known as the *first year's*, the *primary*, and the *final* Examinations, respectively.

I. The First Year.—Anatomy of the Bones, Ligaments, Muscles, also the Viscera of the Abdomen and Thorax. All candidates for this examination must present a certificate of having dissected carefully an UPPER and a LOWER extremity, and MUST PASS A PRACTICAL EXAMINATION on the parts dissected.

The Physiology of the elementary tissues, *e. g.*, Connective tissue, Protoplasm, and cells; also of Respiration, Circulation, and Digestion.

Materia Medica.—Drugs and their preparations.

Chemistry, Inorganic, including Chemical Theory.

Physics.—Heat, Light, and Electricity.

Botany.

A certificate of having passed this examination is required by Trinity University, Trinity Medical College, and the Medical Council.

A Supplementary First Year's Examination will be held **Annually** on the **first Saturday** in November.

II. The Primary.—Descriptive Anatomy, Physiology, and Microscopic Anatomy, Chemistry, Theoretical and Practical, Toxicology, Botany (when it has not been passed at the end of the first year), and Materia Medica.

The Primary Examination may be passed at the close of the second Winter Session. A certificate of having passed it in Trinity College, or in any recognized British or Canadian Medical College, School or University, or at the College of Physicians and Surgeons of Ontario, will be accepted by this College.

III. The Final.—Theory and Practice of Medicine, and Medical Pathology, Principles and Practice of Surgery, Applied Anatomy, Midwifery, and diseases of Women and Children, Medical Jurisprudence, Sanitary Science.

CERTIFICATES OF HONOR.*

Certificates of Honor are awarded annually in all the Professional Examinations to Candidates who obtain **not less than 75 per cent.** of the total number of marks.

SCHOLARSHIPS.*

There are **Five Scholarships** offered for competition in this College, as follows:—

First Year.—**Three First Year's Scholarships** known respectively as **FIRST, SECOND, and THIRD**, will be competed for at the close of the **First Session**. The value of these Scholarships is \$50, \$30, and \$20 respectively.

Special Prize in Physiology (Dr. Sheard's.)

For the highest standing in the Physiology of the First Year. This prize is given annually, value \$25.

Second Year.—**Two Second Year's Scholarships**, known respectively as the **FIRST and SECOND**, are open to competition at the close of their second **Winter Session**, to all students who have taken out their entire Primary Course at this College. The value of these Scholarships is \$50 and \$30 respectively.

Scholarships will be awarded only to the candidates who stand highest in the Honor lists of the First and Second years respectively.

Dr. Ryerson's Prize, Value \$25.

This prize will be given to the student who stands highest in Applied Anatomy at his Final Examination, at the end of the Fourth Winter Session.

MEDALS.

A **GOLD** and **TWO SILVER MEDALS**, known as the "**TRINITY MEDICAL COLLEGE MEDALS**," are open to competition annually at the close of

* N. B.—Breach of the regulations, on page 40 will disqualify any candidate from receiving a **MEDAL, SCHOLARSHIP, or any other HONOR** in the College. **SPECIAL ATTENTION IS CALLED TO THIS NOTE.**

THE PROPERTY OF
Trinity Medical College.

their FOURTH winter session, by students undergoing examinations in the College in the FINAL BRANCHES. They will be awarded to the gentlemen who stand FIRST, SECOND and THIRD respectively on the Honor list. All students competing for them, must have attended at least two full courses of lectures, out of the FOUR required, in this Medical College, and must have paid all fees for the same.

FELLOWSHIP DIPLOMAS.

Under the authority of the Special Act of the Legislature, incorporating the College, Diplomas will be awarded at the close of the Final Examination, to candidates whose standing has been sufficiently high to merit them. These Diplomas constitute students who obtain them "FELLOWS BY EXAMINATION" of Trinity Medical College, *and such "FELLOWS" are allowed in Great Britain the same privileges as are there accorded to holders of Degrees in Medicine, from Colonial Universities, by the Royal College of Surgeons of England, the Royal College of Physicians of London, the Royal College of Surgeons, and the Royal College of Physicians of Edinburgh, and the King's and Queen's College of Physicians of Ireland; and also by the conjoint Examining Boards in London and in Edinburgh.*

No candidate is allowed to present himself for examination for the SCHOOL FELLOWSHIP DIPLOMA who has not passed a recognized Matriculation Examination, and spent FOUR entire years in the pursuit of Medical studies, and attended during that time TWO FULL COURSES OF PRIMARY, and TWO FULL COURSES OF FINAL LECTURES during FOUR winter Sessions. Attendance on not fewer than FOUR Sessions is in ALL cases (except in the cases of graduates in Arts) absolutely insisted on by the Medical Council. All students who are not graduates in Arts, or in Science, of a British or Colonial University, who entered Trinity Medical College as freshmen for Session 1889-90 and subsequently, will be required to present evidence of having attended Lectures for FOUR WINTER SESSIONS, either in this or in some other recognized Medical College, before being permitted to present themselves for their Final Examination; and at least ONE Winter course must be attended at this College.

A certificate of good moral character is required from each candidate.

The obtaining of this Diploma—*which is the Faculty's certificate of Qualification*—or any of the other Honors granted by the school, is a

students to see th

guarantee of high professional attainments on the part of those who hold them. **In every case successful Candidates for the Fellowship Diploma must be present in person, to have it presented and to enrol their names in the official list of Fellows.**

THE FELLOWSHIP DECLARATION.

The following is the declaration made by all who receive the Diploma and are admitted, after examination, to the "FELLOWSHIP OF TRINITY MEDICAL COLLEGE." It is much the same as that made by successful candidates in some of the higher Colleges in Great Britain :—

"We the undersigned, who now publicly receive the Diploma of Trinity Medical College, and are admitted '*Fellows by Examination*' of that Incorporated Medical Body, do solemnly and sincerely declare that we will exercise the several duties of our profession in its various branches to the best of our knowledge and ability, for the good, safety, and welfare of all persons committing themselves, or who are committed to our care and direction ; and that we will not, knowingly, or intentionally, do anything, or administer anything to their hurt, or prejudice, for any consideration, or from any motive whatever.

"We further declare that we will not divulge anything we may have seen, or heard, while visiting the sick, which it would be improper to divulge. We shall, moreover, do everything in our power, to uphold the honor, and to promote the welfare of the Medical College whose Diploma we now receive, and to the FELLOWSHIP of which we are hereby admitted."

THE FELLOWSHIP OF
Trinity Medical College.

HOSPITALS.

THE TORONTO GENERAL HOSPITAL.

This Institution, which is, in every respect, under the best and most efficient management, is now so greatly enlarged as to be capable of accommodating 300 patients in the various buildings on the grounds, and is visited daily by the medical officers in attendance. The patients—extern and intern—are examined and prescribed for in the presence of the students. The operating theatre is well lighted, having been recently greatly improved, and the seats are arranged so as to enable the students to see the successive steps of the numerous operations per-

formed. The theatre is, also, through the courtesy of the Trustees used daily as a lecture room for the delivery of Clinical Lectures. It has been recently greatly enlarged and remodelled, and is the largest and finest hospital theatre in the Dominion, and is not surpassed anywhere for accommodation, light, and convenience. It is capable of seating 500 medical students. Under existing arrangements, the Clinical Course, both in Medicine and Surgery, is very full; and all the numerous Lectures delivered in the hospital, by the various members of the Hospital Staff, are open to every student who has taken out his Hospital and Clinical Lecture tickets. Toronto being the great railway and manufacturing centre of Ontario, accidents requiring operation are of frequent occurrence. The attendance of out-door patients daily is also very large and increasing, and abundant opportunities are enjoyed by students for acquiring a familiar knowledge of Practical Medicine and Surgery, including not merely major operations, but minor Surgery of every kind—ordinary Medical Practice, the treatment of Venereal Diseases, Skin Diseases, and the Diseases of women and Children. Since last Session, further, and very great improvements have been made in various parts of the Hospital.

Fever Hospital—A large building has been erected in the Hospital grounds where the treatment of fevers can be practically and profitably seen and studied.

The Victoria Hospital for Sick Children—This large new Hospital is fully completed and affords students great advantages for the special study of Children's Diseases.

The Eye and Ear Hospital is on the same grounds as the General Hospital, and gives unprecedented advantages to students desirous of making a special study of the diseases of these important organs. This Institution is fully equipped with every modern appliance.

Burnside Lying-in Hospital—This Hospital is also on the Hospital grounds, making it very convenient for students attending its practice, and affording special and valuable facilities for the study of Practical Midwifery. One of the medical officers will be in daily attendance for the purpose of giving instruction to students. Students who have attended one course of Lectures upon midwifery, and who have taken out the ticket for this Hospital, are furnished with cases in rotation.

Toronto treated at this large number of operations are the application from twelve open to student possible facilities

Toronto Dispensary—From 5,000 to 6,000 patients are yearly treated at this Institution. The cases are of great variety, comprising a large number of Pulmonary Affections and Children's Diseases. Minor operations are of daily occurrence and excellent practice is afforded in the application of splints and bandages. The hours of attendance are from twelve to one daily. This Institution with all its advantages is open to students, and the attending Physicians furnish them with all possible facilities.

APPOINTMENTS OPEN TO STUDENTS.

Hospital Assistantships—The Board of Trustees of the Toronto General Hospital ANNUALLY appoint THREE students of this College as Hospital Assistants. These positions are of great practical value and the recommendation for them from the Faculty will be given to those students whose attendance and standing at the various examinations and whose moral character are such as will render them capable of discharging satisfactorily the duties belonging to the appointment.

Clinical Clerks and Dressers—The members of the Faculty who belong to the acting Hospital Staff, will each appoint two or more students to act as Clinical Clerks and Dressers, whose duties are to take notes of the cases under treatment, and to carry out such directions as they may receive from the Professors. These positions are tenable for three months, and are of very great practical utility. Under the above arrangements, each of the Medical Officers who belong to the College is able to appoint at least FOUR students during each session. No student can act as Clinical Clerk for longer than ONE period of THREE months during the same session.

Prosectors—There will be appointed annually two students who have distinguished themselves as Practical Anatomists, as Prosectors, who will have the great advantage of assisting to prepare the material required for the lectures on Anatomy.

LECTURE FEES.

Anatomy, Surgery, Practice of Medicine, Obstetrics, Materia Medica, Physiology, General Chemistry, Clinical Medicine, and Clinical Surgery, \$12 each; Applied Anatomy, \$10; Practical Anatomy, Practical Chemistry, Normal Histology, and Pathological Histology, \$8 each;

THE PROPERTY OF
Trinity Medical College.

Medical Jurisprudence, \$6; Botany and Sanitary Science, \$5 each; Registration, payable once only, \$5.

Optional Branches—Surgical Appliances,—Practical Pharmacy,—Zoology,—Medical Psychology,—Eye, Ear, Throat and Nose Appliances. For the Fees of these Classes, intending Students will apply to the respective Teachers.

All students, after having attended and paid the fees for two full courses of lectures in any branch, shall be entitled, without further charge, to a perpetual ticket for that branch, except the following:—Practical Anatomy, Practical Histology, (Normal, or Pathological), and Practical Chemistry, every course of which, if attended, must be paid for. Botany and Sanitary Science are charged for once only.

All fees to be paid strictly in advance.

For the Final Examination (including Diploma in all cases where the previous Examinations have been passed in some Institution recognized by the College)	15 00

LIBRARY.

The Library is large and is being added to every session. Last session many new and valuable books by the best authors were procured,

and the intention is, to have a copy of every standard work on Medicine, Surgery, Midwifery, etc.

MUSEUM.

Special care has been taken in regard to the Museum in order to make it useful, not only to the members of the Faculty in the teaching of their respective departments, but also, as far as is possible, to the student himself in getting up his work. Great expense has been gone to by the College in procuring Skeletons, Preparations, Models, Apparatus, etc., and the collection is not surpassed by that of any Medical Institution in the Dominion. While, at whatever cost, nothing *practically useful* has been omitted, the mere multiplying of specimens of no *practical* value has been studiously avoided.

A large and constantly increasing number of specimens gathered from hospital and private practice has been collected during past years, which are used in illustrating the several lectures of the course. A considerable number of the very finest models and preparations, from Paris, have recently been added to the Museum, which is growing rapidly in size and in practical value.

The Museum has been lately still further enriched by the addition of a very large number of the specimens of the drugs most commonly used in medicine, including the Alkaloids. The greatest care has been taken in the selection of these, and they are arranged in their **orders**, as required by the Examining Boards in Great Britain and Ireland, so as to be readily studied by the students.

Former Graduates, Students and friends of the College may greatly benefit it, and advance the interests of medical science, by sending to the Museum, as many have already done, any interesting specimens they may meet with in practice. They may be sent by express addressed to Dr. Powell, Curator of Museum, care of the Janitor, **Trinity Medical College, 41-7 Spruce Street, Toronto.**

The Curator will be in attendance at stated times, to give all required information to students regarding specimens and preparations.

GENERAL MATTERS.

College of Physicians and Surgeons of Ontario, before the Board of which, all who desire a license to practice in Ontario, whether graduates or not, must present themselves.

Gentlemen who hold Certificates of Registration as qualified practitioners in Great Britain, are entitled to registration by the Medical Council in Ontario, on payment of the same fees, and passing the same examinations before the Medical Council, as are required of all Canadian graduates.

All Ontario students who intend practising in their own Province, are required to take the Examinations of the Council, whether they intend going into practice immediately after graduating, or going to Europe for a time, to pursue their studies still further.

The requirements for graduation in each of the various Universities with which this College is affiliated, will be found at the end of this Announcement. IT IS THE PRIVILEGE OF THE STUDENTS OF THIS COLLEGE THAT THEY MAY PRESENT THEMSELVES FOR EXAMINATION FOR DEGREES IN MEDICINE AT ANY ONE OR MORE OF THESE UNIVERSITIES. Those who desire to proceed to Great Britain, after finishing their studies here, will find Trinity Medical College fully recognized by all the Medical Institutions, Hospitals, and Examining Boards of the mother country.

The Treasurer or some other member of the Faculty will be in attendance at the College on Wednesday, September 28th, 1892, and the following days, up to the day of the opening of the session, from 10 a.m. till 12 noon, and from 2 till 4 p.m., to register the names of intending students, and to give such information regarding Lectures, etc., as may be required.

For further information, or for copies of this Announcement, apply to W. B. GEIKIE, M. D., C. M., D. C. L., *Dean*, Holyrood Villa, 52 Maitland Street, Toronto.

Board may be obtained in the vicinity of the School at rates varying from \$3 to \$4 or \$5 per week, according to the accommodation required.

THE PROPERTY OF
Trinity Medical College.

REGULATIONS FOR STUDENTS.

(To which special attention is requested.)

I. Students are required to conduct themselves in an orderly manner in the Lecture rooms, AT ALL TIMES, not only DURING LECTURES, but also when neither Lectures nor Demonstrations are going on.

II. In the case of noisy, or other disorderly conduct, or of doing wilful injury to College property, any student may, at the discretion of the Professor or Lecturer, be required to leave the Class-room. Persistence in this, or in any other offence against discipline, after admonition by the Professor or Lecturer, shall be reported to the Dean of Faculty.

The Dean may, at his discretion, reprimand the student, or refer the matter to the Faculty at its next meeting, or he may suspend such student, or students, from attending the Classes till the decision of the Faculty has been reached. SUCH CONDUCT ABSOLUTELY DISQUALIFIES A STUDENT FROM COMPETING FOR MEDALS, SCHOLARSHIPS, OR FOR ANY HONORS.

III. While in any part of the College buildings, Students are required to conduct themselves in the same orderly manner as in the Class-rooms.

IV. When students are brought before the Faculty under these regulations, they may be (a) reprimanded, or (b) suspended from classes, or (c) summarily expelled, according to the circumstances of the case.

V. Regular and punctual attendance on all lectures taken, is expected from every student. Non-attendance to any considerable extent, unless from illness, or from some other unavoidable cause, will prevent the tickets being certified at the end of the session.

VI. Damage done to College property must in every case be made good by the party who does the damage.

RULES AND REQUISITES FOR GRADUATION.

DOCTOR OF MEDICINE AND MASTER OF SURGERY.

The candidates for this degree must have matriculated in one of the following ways :

- (a) By having passed the Matriculation Examination in Arts or Medicine of Trinity University, or of some other recognized University.
- (b) By having passed the Matriculation Examination accepted by the College of Physicians and Surgeons of Ontario, or Quebec, or that of the Law Society of Upper Canada.
- (c) By having passed an Examination recognized as equivalent to any of the above.

The subjects of the Medical Matriculation Examination are :

- (1) Writing and Dictation.
- (2) English Language including Grammar and Composition.
- (3) Arithmetic.
- (4) Algebra including Simple Equations.
- (5) Euclid, Bks. I., II., with Simple Deductions. After 1892, Book III. will also be required.
- (6) Latin, Cæsar, Bellum Gallicum, Bks. I., II., or Bks. V., VI.; or Bellum Britannicum; or Cicero, de Lege Manilia; or Virgil, Æneid, Bk. II.

Latin Grammar.

Translation of easy passages from unspecified Latin Authors (after 1892).

(7) And any ONE of the following subjects, to be selected by the candidate :

- (a) Scripture History; and St. Matthew's Gospel, chap. 1.—ix., incl. in Greek.

THE PROPERTY OF
Trinity Medical College.

(b) Greek, Xenophon's Anabasis, Bk. I.

(c) French, Voltaire's Charles XII., Bks. VI.—VIII.

(d) German, Schiller's Thirty Years' War, Bk. I.

(e) Natural Philosophy, including Mechanics, Hydrostatics, and Pneumatics. (Balfour Stewart's Physics is recommended.)

The Candidate for Degrees in Medicine or Surgery must be of the full age of twenty-one years, and present a certificate of good moral character.

All Candidates who have registered with the University after March 1st, 1890, must produce certificates of having pursued medical studies for a period of *four* years, and during that time of having attended Medical Lectures during *four winter sessions*, in any of the Medical Colleges affiliated with, or which are recognized by, Trinity University. Graduates in Arts or in Science will only be required to attend *three winter sessions*.

During the four years he must have attended two courses of Lectures of six months each, on Descriptive Anatomy, Practical Anatomy, General Chemistry, Materia Medica and Therapeutics, Physiology, including Histology, and ONE course of three months on each of the following subjects:—Botany, Practical Chemistry, including Toxicology.

The above Lectures must have been attended, and the first year's Examination must have been passed in a recognized Medical College or School, before the candidate can be admitted to the Primary Examination in Medicine.

He must further have attended two courses of Lectures of six months each, on Theory and Practice of Medicine, Pathology, ONE course of Practical Pathology; Principles and Practice of Surgery; Midwifery and Diseases of Women and Children; ONE course of Applied Anatomy; and TWO courses of three months each on Medical Jurisprudence, and ONE course on Sanitary Science.

He must have attended for at least *eighteen* months the practice of some General Hospital, and during two sessions, Clinical Lectures on Medicine and Surgery, the course of Lectures on Medical and Surgical (*i.e.*, Applied Anatomy*), to be attended during the third or fourth Winter Session. He must have attended for at least six months the practice of a Lying-in-Hospital, or give satisfactory evidence of having

otherwise enjoyed equivalent advantages of gaining obstetrical knowledge, with a certificate of attendance upon at least six cases of labor.

He must have passed two University Examinations, called the Primary and Final Examinations in Medicine.

EXAMINATIONS.

The Primary Examination may be passed at the end of the Second year. The subjects are Anatomy, Physiology, including Histology, Chemical Physics and General Chemistry, Practical Chemistry, Materia Medica and Therapeutics, Toxicology and Botany, unless where this last subject has been passed at the First Year's Examination, at the end of the First Winter's Session.

The Primary Examinations of other recognized Universities, and that of the College of Physicians and Surgeons of Ontario, Quebec, or Manitoba, will be accepted in lieu of the University Primary Examination, provided that the candidate shall in all cases pay the full fee for the Degree, but if any of the subjects of the Primary Examination do not form a part of the Examination allowed, the candidate shall be required to take such subjects together with his Final Examination.

The Final Examination takes place at the end of the Fourth Year. The subjects are :—Theory and Practice of Medicine, Pathology and Pathological Histology, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Medical and Surgical (*i.e.*, applied) Anatomy, Medical Jurisprudence, Sanitary Science.

The Primary and Final Examinations may be taken together at the end of the Fourth year.

The Examinations are held annually in the Spring, and the time of holding them is so arranged as not to interfere with those of the Medical Council of Ontario, which are held annually in Toronto.

The Curriculum of this University being formally recognized by the several Royal Colleges of Physicians and Surgeons of Great Britain, all graduates of Trinity University are entitled to every privilege enjoyed by the holders of Degrees from any Colonial University.

Conferring of Medical Degrees—These are conferred at a Special Convocation held annually, at the close of the Winter Session.

D

THE UNIVERSITY OF
Trinity Medical College.

MEDALS.

Two Medals, one gold and one silver, known as the "University Medals," are given by this University, annually, in Medicine, to the two students who stand first and second respectively, in the FINAL Subjects at the close of the Examination. Two additional silver Medals are also given by the University annually, known as the FIRST AND SECOND UNIVERSITY PRIMARY SILVER MEDALS, to the two students who stand first and second respectively in all the Primary subjects at the close of the Examination. Medals of any kind are only awarded to students whose standing are the highest in the list of those reaching, or going above 75 per cent. of the maximum number of marks.

CERTIFICATES OF HONOR.

Certificates of Honor require 75 per cent. of the marks, and are given in this University annually, only to those students who reach this standing annually.

FEES.

For matriculation examination, including Registration.. . . .	\$ 5 00
For Registration of a Candidate who has matriculated otherwise than at Trinity University.....	1 00
For Degree of M. D. C. M.	24 00

The fee for the Degree is distributed as follows: \$10 before the Candidate presents himself for the Primary Examinations, and \$14 before he presents, himself for the Final Examination.

Candidates rejected in either the Primary or final Examinations will have the fees for that examination returned to them less \$5. Candidates required by the Examiners to take any of the Subjects of the Examination a second time, will not be required to pay any other fee for such examination,

UNIVERSITY OF TORONTO.**AFFILIATION.**

Trinity Medical College is, and always has been, FULLY AFFILIATED with the Provincial University, and is represented in the Senate. All the Degrees and other Honors of this University are as open to the students of this College, who fulfil the requirements laid down in the curriculum, and given in this announcement, as to those of any Medical College or School in the Province.

Rules and Regulations for Graduation—Degree of M. B.—

The following are the requisites for admission to the degree of Bachelor of Medicine, to which there are two ordinary modes of proceeding, viz. : (1) by taking a Pass Course ; or (2) by taking an Honor Course.

Matriculation.—Candidates must pass the Matriculation Examination, unless (1) they possess a degree in Arts, not being an Honorary Degree, from any Dominion or British University, or (2) having already matriculated in the Faculty of Arts, or in the Faculty of Law in this University, or (3) present a Certificate of Registration as Students in the College of Physicians and Surgeons of Ontario. They must also produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The Annual Matriculation Examination (both Pass and Honors), will commence in the beginning of July. Supplementary Examinations for matriculation will be held in the latter part of September, at which those who were rejected in the July examination, as well as new candidates, may offer themselves. The fee for matriculation is \$5.

Candidates may delay presenting themselves for the Matriculation Examination until any time before the Final Examination for the degree of M. B. ; but no candidate will be allowed to compete for relative standing or prizes until he has passed the Matriculation Examination. Candidates are requested to signify whether they propose taking the Pass or Honor Examination. The following groups of subjects must be passed by every matriculant : Two, out of the four languages, Latin, Greek, French and German, one of which must be Latin.

1891-92.—CICERO, in Catilinam ; Bellum Britannicum. Translation from English into Latin Prose, involving a knowledge of the first forty exercises in Bradley's Arnold's composition.

Greek.—XENOPHON, Anabasis, Book II.

French.—A paper on Grammar. Translation from English into French prose. SOUVESTRE, Un Philosophe sous les Toits.

THE PROPERTY OF
Trinity Medical College.

German.—A paper on Grammar. GRIMM'S *Kinder in Vund Hans Marchen*. Schiller *Der Taucher*.

Translation of easy passages from English into German.

(2.) Mathematics, including Arithmetic, Algebra to the end of Quadratics, and the first three books of Euclid. (3.) English Grammar, Composition and Dictation, with the outlines of English History and the Geography of America and Europe. The following text-books indicate the scope of the examination in Grammar and History; Mason's *English Grammar*, Edith Tompson's *History of England*.

Candidates who proceed to the degree of M. B., by taking the Honor Course, will be grouped in two classes according to their success in the Honor Examinations. Only these candidates will receive their Degree with First Class Honors who have obtained First Class Honors in the Second, Third and Fourth professional examinations. Those candidates will receive their degree with Second Class Honors who have been placed in the Honor List in the Second, Third and Fourth professional Examinations.

Candidates who are taking the Honor Course will be entitled to First Class Honors in any of the professional examinations if they obtain seventy-five per cent. of the aggregate marks allowed to such examination. Those who obtain sixty-six per cent. of the aggregate marks will be entitled to First Class Honors.

Extra papers on all the Pass subjects will be set for Honor candidates, as well as papers on certain Extra Honor Subject. The Extra Honor Subjects are: Comparative Anatomy of the Vertebrata (Huxley), and Practical Examination in Natural Philosophy for the first year, and Physiology of Muscle, Nerve, Circulation, etc. (Brunton, Foster, etc., pp. 165-419.)

Degree of M.D., Fees, etc.—The following are the requisites for admission to the degree of M.B., viz.: Having been admitted to the degree of M.B., being of one year's standing from admission to the degree of M.B., and having composed an approved Thesis on some medical subject, or having been engaged in active practice or in post-graduate work at any British, Foreign or Canadian University for at least three years since admission to the degree of M.B. in the University of Toronto. The fee for the degree of M.B. is \$20; for the degree of M.D., \$20; and for admission ad eundem gradum, \$20.

Medals, Prizes and Certificates of Honor.—A gold medal and three silver medals are offered annually for competition among the Undergraduates who have succeeded in obtaining the degree of M.B., with First Class Honors, and will be awarded according to the percentage of marks in the aggregate results of the Second, Third and Fourth professional examinations; but the gold medal will only be awarded on the special recommendation of the examiners. Prizes, each of the value of Ten Dollars in books, may be awarded annually among Undergraduates in Law, Medicine and Arts, for the best composition in Greek Verse, Greek Prose, Latin Verse, Latin Prose, English Verse, English Prose, French Prose or German Prose.

Certificates of Honour will be given to those students who, at any of the examinations, have been placed in the First Class in Honors in any department.

Starr Medals.—The late Richard Noble Starr, M.D., devised certain property for the encouragement of the study of the subjects of Anatomy, Physiology and Pathology. In fulfilment of this object the Senate has established one gold and two silver medals, called the "Starr Medals." These medals are conferred upon the three Bachelors of Medicine who have attained in the course of their annual professional examinations, the highest marks in the following subjects:—Anatomy for the first and second years, and in Surgical Anatomy of the third year; Physiology for the first and second years, and Histology, Physiological Chemistry and Practical Physiology of the second year; General Pathology and Morbid Anatomy and Histology, of the third year. Every recipient of the medal must have attained the standing of First Class in each of the above-mentioned subjects, and must have been classed in honors in the fourth Professional Examination.

Regulations for Undergraduates.—Undergraduates are required to attend lectures and receive practical instruction during each of four years, at ONE OR OTHER of the Schools of Medicine recognized for this purpose by the University. Each undergraduate, at the end of each of the four years of his course, may present himself at the annual examination of that particular year, or if he prefer to do so, he may elect to take the Primary Examination, held at the end of the second, and the Final Examination held at the end of the fourth year. The annual examinations are styled the first, second, third, and fourth professional examinations, and are to be passed in separate years in the

order named, by all candidates for the degree. Graduates in Arts of this University, with honours in the Department of Natural Sciences will be exempted from the first professional examination, and from the fee for the same. They must, however, take the Anatomy of that examination along with the second professional examination. The fee for each professional examination is Five Dollars, payable when the candidate notifies the Registrar of his intention to present himself. The following certificates are required for the different examinations :—

First Professional.—(1) Of having attended lectures on the following subjects :—Anatomy, 100 ; Physiology, Inorganic Chemistry, each 60 ; Natural Philosophy, 20 ; Botany, Zoology, each 30 ; (2) Of practical instruction in Anatomy during six months.

Second Professional.—(1) Of having attended lectures on the following subjects :—Anatomy, Physiology, Materia Medica, and Therapeutics. Organic Chemistry. (2) Of practical instruction in Anatomy, six months ; Histology, Physiological Chemistry, each three months. (3) Of having dissected the parts of the human body once. (4) Of being skilled in compounding and dispensing drugs.

This certificate may be from a registered Practitioner, the Apothecary of a public Hospital or of a public Dispensary : or from a member of the Pharmaceutical Societies of Ontario or Quebec, and must state that the candidate has been engaged for at least three months in such work.

Third Professional.—(1) Of having attended lectures on the following subjects :—Practice of Medicine, Surgery, Obstetrics, Clinical Surgery and Medicine, General Pathology. (2) Of having dissected the parts of the human body the second time. (3) Of practical instruction in Pathological Histology, three months.

Fourth Professional.—(1) Of having attended lectures on Clinical Medicine and Surgery, Forensic Medicine, Hygiene, Medical Psychology. (2) Of practical instruction in Chemistry in its application to Hygiene and Forensic Medicine. (3) Of having attended at least six clinics in a public Lunatic Asylum. (4) Of having conducted at least six labours. (6) Of proficiency in vaccination. (7) Of attendance in the wards of a public Hospital, accommodating not less than 100 beds, during eighteen months. (8) Of attendance for six months on the out-practice of a hospital dispensary or registered practitioner. (9) Of having attended twelve Autopsies.

QUEEN'S UNIVERSITY.

Candidates for the degree of this University, with which TRINITY MEDICAL COLLEGE is affiliated, must be of the full age of twenty-one years, and must have completed a period of *four years' study*, and have passed the Matriculation Examination, which is as follows :

English Language, Grammar and Composition.
 Arithmetic, with Vulgar and Decimal Fractions.
 Algebra, including simple Equations.
 Geometry, first two Books of Euclid.
 Latin Grammar, and translation (Cicero, Cato, Major,
 Virgil, Æneid, Bk. I. 1-304. Ovid, Fasti, Bk. I.,
 1-390.)
 Natural Philosophy, as in Stewart's *Physics*.

Graduates in Arts and matriculants in Arts or in Medicine, in a recognized British or Colonial University, *and those who have passed the Matriculation Examination of the Medical Council of Ontario*, or any matriculation examination recognized by that body as equivalent to its own, are not required to pass the above matriculation examination.

This examination must be passed before a student is admitted to any of the professional examinations, although lectures may be attended previous to passing this matriculation examination.

In the case of graduates in Arts or in Science, a period of three years only will be required, but not fewer than THREE WINTER sessions attendance at lectures.

All other candidates must have given regular attendance on full courses of instruction in the following departments for the periods stated, during FOUR SESSIONS.

The full course of six months each, on Principles and Practice of Medicine, Principles and Practice of Surgery, Clinical Medicine, Clinical Surgery, Midwifery, and Diseases of Women and Children, Physiology, including Histology, Anatomy descriptive, Anatomy practical, General Chemistry, Materia Medica and Therapeutics.

Also two courses of Medical Jurisprudence and Toxicology ; and one each on Practical Chemistry and Botany, and not less than eighteen months' hospital attendance, and six midwifery cases, etc., and every candidate must present a certificate of having compounded medicines in an office of a medical man, or in a hospital or dispensary for a period of not less than six months.

THE PROPERTY OF
 Trinity Medical College.

The above course of study may have been pursued either wholly at Trinity Medical College, or partly at some other Medical College or School recognized by Queen's University.

The examinations are (a) held at the end of the 1st year; (b) the PRIMARY, at the end of the 2nd; (c) the Final held at the end of the 4th year.

Candidates may undergo the examination on Sanitary Science and Medical Jurisprudence at the end of the 3rd year if they desire to do so, or they may be taken with the final examination at the end of the 4th year.

Every candidate must present a certificate of good moral character.

Graduation fee, \$25 (for M.D.)

College of Physicians and Surgeons OF ONTARIO.*

Every one desirous of being registered as a matriculated medical student in the register of this College, except as hereinafter provided, must present to the Registrar the official certificate of having passed the third class non-professional examination, with the Latin option included, prior to July 1st, 1888, or after that date the SECOND CLASS NON-PROFESSIONAL, with Latin, and after July 1, 1892, the Departmental Junior Matriculation Examination in Arts, with the Physics and Chemistry prescribed for the Junior Leaving Examination—whereupon he shall be entitled to be so registered upon the payment of twenty dollars, and giving proof of his identity. CANDIDATES FOR MEDICAL MATRICULATION ARE BY SPECIAL ARRANGEMENT WITH THE EDUCATION DEPARTMENT OF ONTARIO NOT OBLIGED TO HAVE PREVIOUSLY TAKEN THE THIRD-CLASS NON-PROFESSIONAL.

The Third class non-professional with Latin passed, after JULY, 1888, WILL NOT BE ACCEPTED.

Graduates in Arts, or students having matriculated in Arts in any University in Her Majesty's dominions, are not required to pass this

Every medical student, after matriculating, shall be registered in the manner prescribed by the Council, and this shall be held to be the beginning of his medical studies, which shall date from that registration.

Trinity Medical College.
MEDICAL CURRICULUM.

Every student, after his matriculation has been registered, must spend a period of FOUR years in actual professional study, except as herein-after provided.*

Graduates in Arts in any College or University recognized by the Council will, if registered before July 1, 1892, only be required to pass three years after graduating in Arts, in attendance upon medical lectures, before being admitted to the final examination.

EVERY STUDENT WHO HAS NOT ATTENDED ANY RECOGNIZED MEDICAL SCHOOL PRIOR TO JUNE, 1880, SHALL BE REQUIRED TO ATTEND MEDICAL LECTURES FOR AT LEAST FOUR SESSIONS OF SIX MONTHS EACH. THIS REGULATION IS STRICTLY ENFORCED IN ALL CASES.

Every student must attend the undermentioned courses of lectures in a University, College, or School of Medicine, approved of by the Council, viz. :

Two Courses of Six Months each upon Anatomy, Practical Anatomy, Physiology, Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice of Medicine, Principles and Practice of Surgery, Midwifery, and Diseases of Women and Children, Clinical Medicine and Clinical Surgery.

Two Courses of Three Months each upon Medical Jurisprudence, and *One Course of Three Months* upon Practical Chemistry, including Toxicology, and one on Botany.

One course of *Twenty-five Demonstrations* upon Normal Histology, and *One* course of *Twenty-five Demonstrations* upon Pathological Histology, and one course of twenty lectures on Sanitary Science, and *One*

* Students who register after July 1, 1892, will be required to spend *Five* years in Professional Study. This, or other regulations of the Medical Council may be modified during the June (1892) Session of that Body. Students will learn of any changes which may be made through the papers—or by application to the Dean of Trinity Medical College, or to the Registrar of the Medical Council, Toronto.

course of *Fifty Lectures* on Medical and Surgical Anatomy. This last course is for FINAL candidates, and is to be taken in the 3rd or 4th year.

Every candidate must prove his having carefully dissected the whole adult human body.

Every student before being admitted to the Final Examination hereinafter mentioned, must have spent a period of six months in compounding medicines.

He must have attended the practice of a General Hospital for 24 months.

He must have attended six cases of Midwifery.

He must, before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all examinations hereinafter prescribed, and must have attained the full age of twenty-one years.

All persons from recognized Colleges outside the Province of Ontario and Quebec, who desire to qualify themselves for Registration in this Province, must pass the Matriculation Examination recognized by the Council, and must attend thereafter one or more full "Winter Courses" of Lectures, in one of the Ontario Medical Schools, so as to complete fully the Curriculum required by the Council, and shall pass, before the Board of Examiners appointed by the Council, all the examinations hereinafter prescribed.

EXAMINATIONS.

The next Examination of the Medical COUNCIL will commence on the second Tuesday of April, 1893.

1. The Professional Examinations are divided into *Primary* and *Final*.*

2. The *Primary* Examination shall be undergone after the SECOND, and the *Final* after the FOURTH winter session.

* After July, '92, there will be a Primary held at the end of the 2nd year, an Intermediate at the end of the 3rd or 4th year, and a Final at the end of the 5th year. Full details of any changes which may be made in the curriculum by the Council in 1892, will appear in the Council's Annual Announcement for this year. THESE CHANGES AFFECT NO STUDENT REGISTERED WITH THE COUNCIL BEFORE JULY 1, 1892.

4. Each candidate for the Primary Examination must present with his Lecture tickets a certificate of having undergone an Examination at the school he has attended, at the close of his First Winter Session, on Anatomy, Physiology, Chemistry, Materia Medica, and Botany. Such Examination shall not, however, in any way affect the Primary Examination of the Council. Also a certificate of ability to make and mount Microscopic Specimens. Each candidate for Final Examination must present a Certificate of attendance at Six *Post Mortem* Examinations, and a Certificate of ability to draw up a report of a *Post Mortem* Examination ; also, a Certificate of having reported satisfactorily on six cases of Clinical Medicine and six cases of Clinical Surgery.

5. The following branches are embraced in the Final Examination :

Medical and Surgical Anatomy, Theory and Practice of Medicine and Therapeutics, Clinical Medicine, Sanitary Science. Surgery, other than Operative. Surgery, Operative. Clinical Surgery. Medical and Surgical Pathology. Midwifery (other than Operative), and Diseases of Women and Children. Midwifery, Operative. Medical Jurisprudence.

6. Any Candidate who passes creditably in three or more branches, but fails in the others, shall receive credit for the subjects so passed, and be compelled to pass in the other branches *only*, at a subsequent Examination.

THE PROPERTY OF

Trinity Medical College.

MEDICAL COUNCIL FEES (After July 1, 1889.)

The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario :—

Registration of Matriculation.....	\$20 00
Primary Examination.....	30 00
Final Examination.....	50 00

Candidates who are unsuccessful are entitled, at a subsequent time, to a second Examination on payment of a fee of \$10.

All fees are to be paid to the Treasurer of the Medical Council prior to the several Examinations.

For students not registered before July 1st, 1890, the Primary fee will be \$30, and the Final fee, \$50.

Any student registered with the Medical Council as a matriculate, PRIOR TO JULY 1, 1889, pays \$20 for the Primary, and \$30 for the Final Examination Fee.

TEXT BOOKS.

Class books suitable for the Examinations of the different Universities, the Medical Council, and Trinity Medical College, with the price of each.

Books needed for First and Second Year's Work :

B. H. Scott, M.D., C.M., Trin. Coll., F.M.T.S., (obtained at the examination for the army in England 731, out of a possible 900 marks).

THE ROYAL COLLEGE OF PHYSICIANS AND SURGEONS, EDINBURGH.*Double Qualification.*

S. A. McKeague, W. F. Sprague, J. Johnston, O. M. Belfry, R. Oven, A. S. Thompson, E. T. Eede.

PASSED ROYAL COLLEGE OF PHYSICIANS AND SURGEONS, EDINBURGH, AND THE FACULTY OF PHYSICIANS AND SURGEONS OF GLASGOW.*Triple Qualification.*

F. G. Parker, C. McLeod, W. F. Freeman, R. C. Coatsworth, D. Thompson, A. B. Thompson, C. A. McBride, E. M. Brown, G. Gordon, B.A., Tor. Univ., D. W. Thompson, T. A. Amos, R. E. Walker, W. H. Merritt, G. R. Rennie, W. A. Dixon, E. M. Spencer, A. Thomson, D. Mitchell, A. Douglass, J. T. Rogers, D. Archer, A. J. Murchison, G. Wright, E. H. Fere, G. K. Crossthaite, D. Albert Rose, J. C. Auld, E. R. Morton.

PASSED ROYAL COLLEGE OF SURGEONS, EDINBURGH.

J. Lindsay.

SOCIETY OF APOTHECARIES, LONDON, ENGLAND.

Wm. Ianson.

KING'S AND QUEEN'S COLLEGE OF PHYSICIANS OF IRELAND.

J. E. Midgeley, J. Evans.

THE PROPERTY OF
Trinity Medical College.

LIST OF PRIZES WON IN 1892.

BY STUDENTS OF TRINITY MEDICAL COLLEGE.

Graduates in Arts or in Science of any recognized University, British or Colonial may compete for the Trinity Gold and Silver Medals, under the regulations of the College.

- H. B. Anderson—University Gold Medal. Trinity University.
 A. S. Tilley—“ Silver “ Trinity University.
 Harold Campbell Parsons, B.A.—Trinity Gold Medal. Trinity Medical College.
 Frederick Fenton—First, Trinity Silver Medal. Trinity Medical College.
 R. Victor Fowler, B.A.—Second, Trinity Silver Medal. Trinity Medical College.
 A. Leslie Danard, R. King—University Primary Silver Medal. Trinity University, (equal).
 A. Leslie Danard—First, 2nd year's Scholarship, \$50. Trinity Medical College.
 C. D. Parfitt—Second, 2nd year's Scholarship, \$30. Trinity Medical College.
 J. C. Hutchison, B.A.—First, 1st year's Scholarship, \$50. Trinity Medical College.
 Frederick Parker—Second, 1st year's Scholarship, \$30. Trinity Medical College.
 Charlton Shaw—Third, 1st year's Scholarship, \$20. Trinity Medical College.
 Frederick Parker—Special prize (Prof. Sheard's) for First Year's Work in Physiology, \$25.
 Fred. Fenton—Dr. Ryerson's prize for highest standing in Medicine and Surgery taken together. Value \$25.
 In all Five Scholarships, Two Gold, and Five Silver Medals, and two Special Prizes.
 W. Glaister was one of the two Candidates who took Honors at the Examination of the Medical Council, (April 1891.) He was a **PRIMARY CANDIDATE** *

Mr. H. L. Barber of this College, was the only Candidate who took Honors at the Medical Council Examination in 1890, and Messrs. J. Sutherland and J. Third (both Trinity Medical College students), were the only candidates who took Honors in 1889, at the Examinations of the Medical Council, where they also, were **PRIMARY CANDIDATES**. In 1892 no Honors were given to any candidate.

* The Medical Council Primary Examination includes the following subjects:—Descriptive Anatomy, Physiology and Histology, Chemistry (Theoretical and Practical), Toxicology, Materia Medica and Pharmacy. To take Honors the candidate has to get not less than 75 per cent. of the marks on each subject of the examination.

N. B.—Only ONE work on each subject is required by the student.

A Catalogue of the Museum of Trinity Medical College will be sent on application to any address. It is too large to have had bound in this Calendar.

Professional Examination papers also may be had by applying for them.

Trinity Medical College.

For some years past the Medical Students' Branch of the Young Men's Christian Association, in addition to a great deal of good work done for Students, have taken much trouble to prepare carefully, a list of suitable boarding houses, for distribution among the Students at the commencement of each Winter Session. To young men, strangers in the city, this is a great help.

Since the first part of this Calendar was printed, Dr. D. Gilbert Gordon, B.A., M.D., C.M., M.R.C.P. & S., Edin., L.F.P. & S., Glasg., has been appointed Lecturer on Sanitary Science.

Dr. Powell, Dr. Gordon, and Dr. J. T. Fotheringham, will give Clinical instruction in connection with the out door Department of the General Hospital. The arrangements for Clinical instruction at the Hospital, have never been as perfect as this year.

Dr. A. Y. Scott and Dr. J. T. Fotheringham have been appointed as additional Assistants in Anatomy.

N.B.—The Medical Council has (June, 1892) extended the time for the registration of Candidates under the four years term of study from July 1st, 1892, to November 1, 1892. The Matriculation, the Medical Council requires (June 1892) is the "Pass University Departmental Arts Matriculation Examination," which must include Chemistry and Physics. See page 16.

For Index, see page 80.
