ANOTHER DAY PASSES WITH UNORDERED STREETS AT LARGE

Police Find no Trace of Person Responsible For H. L. Williams's Death

Men Working in Lansdowne Avenue Tell of Flight of Unknown Man; Attempt Made to Link Mysterious Fugitive at Martinon With the Dark Deed; Few People on Main Street at Time of the Murder

The murderer of Harry L. Williams, he well known and popular young grocer and butcher of the North End, is still at large and as far as is known no one of any importance has as yet been discovered, which will lead to the assassin's apprehension. The local detectives are vainly endeavoring to throw some light on the mystery, but their efforts up to the present time have been availing.

AGAIN IN COURT ON CHARGE OF NEGLIGENCE. Mother Warned Previously, is Severely Reprimanded by Magistrate—Several Juveniles Arrested

An eight-year-old boy was before Magistrate Hittiche in the juvenile court this morning for wandering about North Market square at 11:50 o'clock last evening and not giving a satisfactory explanation of his wanderings to Sergeant Samuel Journey. The boy was fined ten shillings.

The woman said that she had been in the street at ten o'clock attempting to locate the child. Turning to the court-sergeant, the magistrate ordered her to be taken to the cell and intimated that another charge would be laid against her. Later in the morning the mother and her boy were allowed to go with a severe warning.

Two other boys, brothers, were before the court for wandering about Waterloo street at 10 o'clock and not giving Sergeant Journey a satisfactory account of their doings. They also were allowed to go under suspended sentence, with their parents. Three other juveniles were rounded up by the police this morning and a charge of theft entered against them on the police books.

The number of juvenile arrests within the last week has been exceptionally large.

RUSSIA HAS MANY BOGUS ASSASSINS

Pose as Martyrs of Liberty and Get Money as Well as Brides

Petrograd, June 30.—(Correspondence of The Associated Press)—Among the novelties which Russia's revolution has presented to the world is the profession of fake assassins. In other countries only persons suffering from hallucinations claim to have committed murders of which they are innocent. Here, as a result of Nicholas's overthrow, posing as an assassin is a highly profitable, if transitory, branch of business.

THE NORTHERN LIGHTS QUEER WIRE SERVICE

Chicago, Aug. 9.—The aurora borealis or northern lights interrupted wire connection over the northern half of the United States and all over Canada from the rocky mountains to the Atlantic ocean and even was felt in southern latitudes last night and for several hours early today. The phenomenon became visible and began to affect telegraph and telephone wires shortly before midnight last night and for several hours before daylight this morning many trunk lines circuits were useless most of the time.

FRENCH GAIN MORE GROUND AND BRITISH REPULSE RAIDS

Enemy Artillery Continues Great Activity East of Ypres; Allies Airmen Do Much Damage Back of German Lines; British and French Prisoners Deliberately Exposed to Air Raids

London, Aug. 9.—To the northwest of Bixchoote the French gained further ground against the Germans during the day, while the British repulsed attempts made by hostile contingents at several points on their front, according to the official communication issued last night. A heavy rain is again falling in Flanders, the statement adds.

London, Aug. 9.—The text of the British official communication issued tonight follows: A heavy rain is again falling. Our allies gained further ground during the day northwest of Bixchoote. Hostile raiding parties were repulsed last night and this morning north of Reux and in the neighborhood of Oppy.

The enemy's artillery continued to show great activity east of Ypres. Yesterday, in spite of continuous wind, airplanes bombed the enemy railway tracks, sidings and trains forty miles behind the German lines, causing much damage, derailing one train and blowing up another. Bombs also were dropped the previous night on an enemy ammunition depot. One of our machines is missing.

HUNS EXPOSE PRISONERS TO DANGER. Paris, Aug. 9.—The French authorities learn that during the night of July, when French airplanes bombed Treves and Essen, the Germans forced French and English prisoners, both officers and men, interned at Karlsruhe, to leave their quarters and remain in the open where they most probably would have been killed in case Karlsruhe was raided. The men were compelled to remain in these places until all danger had passed.

AUSTRIAN SUBMARINE DESTROYED. Pola, Aug. 9.—During a recent Italian aerial raid on Pola, the Austrian naval base on the Adriatic, two airplanes, with bombs, destroyed two Austrian submarines which were being repaired there.

TO CONCENTRATE ON BRITISH SHIPPING. London, Aug. 9.—A despatch to Reuters Limited, from Amsterdam, says it is reported from a German source that Germany intends to concentrate her submarine activities exclusively against England.

Kereksky's Appeal. Petrograd, Aug. 9.—Premier Kereksky in an appeal to the people for support for the reconstituted government declares that only a rule of iron in the present night, resulting from the military situation, together with ardent and self-sacrificing support by the people, can save a powerful creative government with authority to free the land of the enemy and enlist in its work of reconstruction all the living forces of the nation. The government, the statement adds, will employ its whole strength in its task confident that the unshakeable power of the revolution will be utilized for the salvation of Russia's honor, which has been affected by treason, Prussian militarism and treacherous cowardice.

Huns' New Device. Paris, Aug. 9.—The French war office announces that the Germans have invented a new device to kill their opponents in the belief that artillery batteries are still in position for action when actually they have been withdrawn, and by it to prevent untimely advances. The device consists of a mechanism fitted with half a dozen spherical capsules filled with an explosive which is placed on the site of the battery to be or being withdrawn. The capsules explode every thirty to forty seconds with a sound exactly like that of a field gun heard from a distance. They are said to easily fool listeners into thinking that he is still facing artillery.

Russia's Liberty Loan. Petrograd, Aug. 9.—Wednesday, the first of three 'liberty loan' days in Russia proved a great success. Automobiles paraded the streets of the capital and decorated booths were installed by the principal thoroughfares for the sale of the war bonds.

Will Not Interfere. London, Aug. 9.—The press association says it understands that the government will exercise no influence in either direction on the allied labor meetings to decide whether the laborites shall send delegates to the Stockholm conference.

Spain Prepares For Trouble. Madrid, Aug. 9.—It is announced in official circles, that the government is preparing to employ the most rigorous measures which may be necessary to put down the impending country wide agitation. In the case of a general strike, it is said that a state of siege will be declared.

NEW LEGISLATURE RESUMES NEXT WEEK

St. John, Nfld., Aug. 9.—The Newfoundland legislature was prorogued yesterday, but the government announced that a new session would be opened next week. At that time the present vacancies in the legislative council will be filled and the government will again introduce the business profits tax which was defeated at the session just closed.

It was decided to give them a hearing on Thursday morning next.

OBJECTS TO THE SPECIFICATION

PLANS FOR NEW WAREHOUSE

Council Decides to Call For Tenders—C. P. R. Protests Against Assessment on Valuation of \$6,500,000

Plans and specifications for the rebuilding of No. 5 shed at West St. John, which recently collapsed, were submitted at a meeting of the common council in St. John this morning. The mayor presided and Commissioners Wigmore, McLellan, Russell and Fisher were present.

Commissioner McLellan took objection to section 5 of the specifications, which read as follows: "Should the contractor fail to begin the work within ten days of the execution of a contract to perform same or, having commenced, suspend it, the contractor or the City of St. John, at the discretion of the council, should be deemed to have abandoned the contract, and the council, in its discretion, may award the work in such a manner as to leave no reasonable prospect of completion within three months of the completion of the said contract, the commissioner, in his discretion, may suspend the contract for three days' previous notice in writing of his intention so to do, to enter upon and take full control of the work and discontinue the same. The contractor shall, in such case, forfeit all claim to proceed with said work or to recover any sum due from city for the said work."

William Murdoch, city engineer, said that this section was a standard section, and for that reason it was inserted in the specifications.

Commissioner Russell said that he was willing to submit the specifications to J. B. M. Baxter, the city solicitor, and have him go thoroughly into this matter. It was decided to leave the specifications with Commissioner Russell to submit to the solicitor and report back to the council. In the meanwhile, however, on motion of Commissioner Russell, seconded by Commissioner Wigmore, it was decided to call for tenders, the same to close on Monday, August 20, at 11 o'clock.

It is understood that the appropriation will amount to about \$80,000. The city intends making an effort to have the work completed about the middle of November, so that the shed will be in readiness for the winter work.

The following letter, received from the C. P. R.'s solicitors here, was read by the mayor: "We are instructed by the Canadian Pacific Railway Company to ask for a hearing with reference to the valuation of this company's property in St. John at \$6,500,000. This is far and away in excess of the actual value of the company's property, and is relatively a much greater assessment than imposed upon other cities. The company instructs us that they would like to have an opportunity of putting the facts before the council."

It was decided to give them a hearing on Thursday morning next.

Touchy Corns and New Shoes

The comfort of old shoes may now be had with new shoes. Blue-jay makes it possible. No need to wince from new shoes nor frown. No need to undergo a period of pain. Before getting a new pair of shoes be corn-free by using Blue-jay, gentle and certain. Then, should a new corn come later, Blue-jay will bring instant relief. Most families have a package of Blue-jay Plasters at home, always ready. Relief is always handy, and instant. Paring never cures. Harsh liquids are harmful. Blue-jay removes the corns permanently, roots and all. The first application removes 91 per cent. More stubborn cases require a second or third treatment. Wear new shoes—any shoes—with complete comfort. Forget your feet. Blue-jay points the way. Know tonight.

The Majestic brought down a fairly large cargo of freight yesterday afternoon. Included in the cargo were 240 crates of new potatoes. They sold at \$1.20 a bushel, which is twenty-five cents less than what they sold for last week. The price compares very favorably with last year's price at this time of the year. Abel Humphrey, an employe of R. P. and W. F. Starr, was painfully hurt yesterday afternoon while at work

around the coal pocket in North Wharf. A door fell about twenty feet and struck Mr. Humphrey on the back of the right shoulder. He was taken to his home in Metcalf street. A. C. Skelton, president of the Local Council of Boy Scouts, received a communication from H. W. Hubbard, of the Experimental Farms, Fredericton Junction, yesterday, requesting that some hundred boy scouts be sent out to the farms, for the purpose of going over about ten acres of turnip patch. This work, tanking as war service, will be the means of the Scouts qualifying for war service badges. More than 100 sailors of the steamer Kristianfjord, which was wrecked about two weeks ago off the Newfoundland coast, arrived in the city yesterday morning from North Sydney. They were taken from St. John's (Nfld.) to North Sydney and from there they were brought to the city on the C. G. R. via Moncton, arriving here yesterday morning at about 7 o'clock. They were to leave for New York last night by the Boston train, but were held up by the U. S. immigration officials, and will leave as soon as possible. They will go from New York to Norway on the Bergensfjord, a sister ship of the wrecked Kristianfjord.

BORDEN MUST GO

The great Liberal convention at Winnipeg, representing the views of four provinces where Liberalism is supreme, has declared that the Borden government must be defeated, as the first preliminary to the formation of a national government, the adoption of a more vigorous war policy, the revision of the tariff, and other necessary reforms.

"We condemn it as no longer entitled to the confidence of the Canadian people," says one of the resolutions, referring to the government and the reasons for this condemnation are that it has been grossly partisan during the life and death struggle of the nation; has been incompetent and inefficient; has substituted selfish partisanship for honor and fair dealing; has had dissension among its leaders when unity and efficiency should have prevailed; and when the whole strength of the nation should have been thrown into the war.

With regard to the war, the convention has a clear-cut policy. It would maintain unimpaired the strength of the Canadian divisions at the front, and take all steps necessary to secure reinforcements. It would secure the food, munitions, and other war necessities upon lines of the greatest efficiency. It would cut out profiteering, even if that should involve nationalization of some industries. It would recover the undue profits already taken by exploiters; and by general taxes make every citizen bear his or her full share of the war burden.

Not is this all. The western Liberals would attack the tariff and extend the free list to include wheat and its products, farm implements and machinery, mill machinery, oils, cement, fertilizers, machinery, wire, cordage, and some other articles, besides lowering the tariff on many other goods, excepting luxuries; and increasing the Liberal preference to fifty per cent, having free trade with Britain as the ultimate aim. They demand state-owned coal storage plants all over the country. Other resolutions of a more or less radical nature were adopted, designed to curb the big interests and give expression to the aspirations of the west.

Reviewing the work of this convention, which appears to have been marked by the greatest unanimity, it is clear that the west will not stand for a union government such as Sir Robert Borden might seek to form. The elections must come first, and the national government afterward, under Liberal auspices. There is to be no split in the Liberal party in the west. Those who voted in parliament for conscription are satisfied with the war policy adopted by their party yesterday. It is predicted by some that a western party would be formed, with a western leader, but this was not even discussed. The aim is to send a solid Liberal delegation to Ottawa, to join with Liberals from the rest of Canada to organize a national war government. The Ontario programme of a national government and an extension of the life of parliament to split the Liberal party and range the rest of the country against Quebec has been knocked in the head by the Winnipeg convention. Presumably the Liberals of the maritime provinces will also take counsel together at an early date, and consider the situation as it has developed in Ontario and the west.

HEROIC WOMEN One cannot but believe that the formation of battalions of Russian women will have a powerful influence in that country in support of the war policy of Premier Kerensky. We are familiar with the story of Serbian women and others in the Balkan states voluntarily sharing with their men the hardships of the battle-field in defence of their native land, but these Russian women have a wider vision and are ready to fight not only for Russia but for the cause of democracy in the world at large. A recent cable from Petrograd says: "As the result of the heroic conduct at the front of Miss Vera Butchareff's female battalion the movement for the creation of a great woman's army is progressing throughout Russia with amazing rapidity. Already Petrograd, Moscow, and Kiev have formed regular recruiting bureaus and established barracks under the ordinary system of army

administration, subject, under a newly issued order by Minister of War Kerensky, to the staffs of the local military districts. The government has issued arms and complete equipment to the women, and has appointed male commanders and instructors, and in view of the spread of the movement it is planning a more suitable uniform for the women fighters."

The cable adds that a new battalion is being raised in Petrograd, with Miss Fromenko, a university student, at its head, and that 700 women are already in uniform, with 1,500 more from amongst whom the balance will be chosen. The organizer will herself go with them to the front. We quote further:

"In the entrance hall today there was gathered a group of new recruits whose ordinary feminine attire, long hair and soft features, contrasted sharply with the cropped heads and masculine bearing of the girls already in uniform. The girls are for the most part between 18 and 30 years of age. Some of the force are married women with children, and a few are of middle age. Among these latter a striking figure is Miss Sofie Vansa, widow of a colonel killed in battle, and whose two sons are now lying wounded. Sixty per cent. of the members are peasant working girls of sturdy physique, with hard features and tanned faces, who, unlike the Butchareff's followers, all were subjected to severe physical tests before being accepted.

"The organization of the battalion," said Miss Fromenko, "will be similar to that of the male fighting forces. It will have a regular staff, its own transport and medical service, its own signal corps and a machine gun company with four guns, to which of which our girls take readily. Finally there will be an expert scouting detachment of twenty-six Cossack girls, magnificent riders since childhood, all of whose fathers or husbands are now at the front. In the battalion are fifteen girls who already have seen service in men's units, three of them having been wounded. These are invaluable, as they thoroughly understand the drill and camp life. Many of our girls have been at the front. All the officers of the battalion of high rank will be men."

"Remarkable on the efficiency of the recruits, their chief instructor, Captain Loskoff, said: 'I have drilled hundreds of men soldiers, but I do not hesitate to declare that these women learn with double the speed. This is true not only of the educated girls, but also of the peasant girls, some of whom are entirely illiterate. Their overmastering motive is the patriotic desire to save Russia from ruin. Many of them display a zeal and ardor worthy of Joan of Arc.' In Canada we regard it as quite a wonderful thing that some young women are willing to go overseas as nurses, and that others are willing to give up their luxurious ease to work for the Red Cross or Soldiers' Comforts, or for some other patriotic purpose. As a matter of fact the women of Canada, except those who have lost relatives, have not yet begun to realize what war means to the womanhood of Europe.

Here is a paragraph from a booklet issued by the Metropolitan Life Insurance Company, that deserves to be quoted and emphasized. It is clear that the people die from tuberculosis. Typhoid fever caused 822 deaths last year in New York city alone. No less than 3,178 babies died from summer complaint last year in New York city, or one in every 44 babies born. A certain number of these deaths was due to unclean food."

CANADA IS DICTATOR IN PULP SITUATION Prohibition of Export of Raw Material Causes Concern in United States Philadelphia, Aug. 9.—Reports from Canadian sources indicate a great boom is taking place in the pulp industry. This is due to a proclamation issued by the government prohibiting the exportation of timber from the Canadian woods for pulp manufacturing purposes. Heretofore the International Paper Company has been exporting great quantities of timber from Canada to its mills in the United States, for paper pulp. Hence their proposed opening of a plant at the Soo.

Paper interests here freely admit that the world's paper supply depends almost entirely upon the Canadian output. Previous to the war large shipments were made from the Russian forests to Scandinavian mills, where the timber was converted into pulp and transhipped to this country and elsewhere. This supply has been and consequently the paper mills of this country are facing a strenuous situation at the present time. Labor conditions in Canada reduced the supply of paper last winter to a serious extent, and United States paper manufacturers are now attempting to splice out their supply by purchases of timber from the eastern Mississippi Valley forests. This material is very scarce and the present supply is being taken from last summer's cutting, and that which is being cut now will not reach the mills till next summer.

Too Raw. "Whom have we here?" said the king of the cannibal islands as a prisoner in soldier's uniform was dragged before him.

"It appears to be a raw recruit," answered the Prime Minister. "Raw? Very well, cook him!"

Where The Trouble Was. They are telling a good story illustrative of Winston Churchill's ready wit. He was, it appears, told by an acquaintance that a very dear friend was seriously ill with appendicitis, and at once set down to write a note of sympathy.

Just then word came that the trouble was, after all, nothing more serious than a sudden attack of acute indigestion. Whereupon Winston, having the pen already in his hand, dashed off the following:

"Dear Blank—I am very sorry to hear that you are ill, but am glad that the trouble is with the contents rather than with the appendix."

Nothing Left. "Yes, we used to sit out in the old summer house in the beautiful moonlight. Strange to say, Jack never believed he kissed me as often as I accused him of doing."

"Ah, and how did you convince him?" "Why, the next night I told him to cut a notch in the summer house each time he took a kiss."

"How did the scheme work?" "Very well for a while, but—er—by the end of the week there was no summer house left."

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

Shipping Losses. London, Aug. 8.—There was a slight increase in the loss of British merchant vessels by submarines or mines during the last week, according to the official summary issued tonight. Twenty-one British vessels of more than 1,600 tons and two vessels of less than 1,600 tons were sunk last week. Thirteen ships were attacked unsuccessfully. No fishing boats were lost.

If Stomach Hurts Drink Hot Water

"If dyspeptic, suffers from gas, wind or flatulence, stomach acidity or sourness, gastric catarrh, heartburn, etc., would take a teaspoonful of pure bisulphated magnesia in half a glass of hot water immediately after eating, they would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients." In explanation of these words a well known New York physician stated that most forms of stomach trouble are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and bisulphated magnesia instantly neutralizes the excessive stomach acid and stops food fermentation, the combination of the two, therefore, being marvellously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines of inferior quality.

Buying Advertising Space Means Buying A Market. Cautious merchants buy advertising space the same as they do merchandise or goods in trade—with a microscope in their hand. "What do I get for the expenditure?" is the paramount question in the present day merchant's mind. Stunts, schemes, fictitious and proof lacking circulation claims have no attraction for the keen space buyer. That's why the Daily Telegraph and The Evening Times-Star represent solid and steady growth in advertising volume—because they can satisfy the most exacting demands made by local or national space users as to the real condition of their circulation. The membership in the Audit Bureau of Circulations—the A. B. C.—of The Telegraph and Times-Star ensures accurate and trustworthy circulation statements. The A. B. C. is Your Safeguard. The A. B. C. is a non-profit organization made up of concerted advertising interests—publishers, advertisers and advertising agents; and the object is to produce verified and authentic net figures of circulation. All local newspapers were invited to become members. The Telegraph and The Times-Star were the only two in New Brunswick to accept. As Post would say "There's a Reason" Telegraph Ad Service

Conscription Bill Passes The Senate

Ottawa, Aug. 8.—The military service bill passed third reading in the senate today and now awaits only the commons' endorsement of the government amendment inserted in the upper house making approval of the minister of justice a necessary preliminary, and the governor-general's signature before it becomes a law of the land.

Four Recruits, One For R. F. C.

New Call For Recruits For Army Service Corps—Farewell Dance For 8th Draft—Captain Thomas Volunteers

The recruiting staff in Prince William street was successful in securing four men for the colors yesterday, one for the Happy Eighth, one each for the St. Lucia draft of artillery, the British engineers and the R. F. C. The day's recruits were: W. H. Wiltshire, Chicago, British Engineers; Edward Waddell, Kings county, St. Lucia Artillery Draft; H. R. McNulty, St. John, No. 8 Field Ambulance; Glenn Elliott, South Berwick (Me.), R. F. C.

Glenn Elliott is an American by birth and has been flying for years for fairs and exhibitions. He flew as an instructor with Max Little, one of the earliest and longest birdmen in the game. His flying school was situated at Cicero, Illinois. Mr. Elliott is just twenty-two years of age and is one of the clean-cut straight-forward type of young America. He was an officer acting as instructor of aviation in the United States volunteer naval reserve. When the United States declared war and his regiment was sworn in, he failed to pass the rigid physical examinations of the U. S. army. He tried to enlist time and time again, in the navy, the marine corps, the flying corps and other branches of the service, but was always rejected as not having sufficient weight or height. He then came to St. John and determined to enter the R. F. C. in Canada, where the requirements were not so exacting. He was signed on by Captain Miller in the Prince William street recruiting office yesterday afternoon and, after settling his show business, now plotting at St. George, he will proceed to Toronto to join his unit.

Recruit for C. A. C. The following letter is being sent by Colonel McVoy to various recruiting centres in the province: "I am directed to inform you that authority has been granted for recruiting for the Canadian Army Service Corps, all branches.

"You, of course, understand that the qualifications for this unit are exactly the same as for the infantry corps. Should you be successful in securing any recruits for this branch of the service forward them direct to Camp Borden, Ontario."

Commission in Forestry. Lieut. S. E. Calhoun, late of the 8th Princess Hussars, has received a commission as lieutenant in Major Hanington's Forestry Company.

Winn Military Cross. London, Aug. 7.—Lieut. G. C. Rogers, Flying Corps, and a nephew of the Hon. Robert Rogers, has been awarded the Military Cross. He is a Leithbridge soldier.

A most enjoyable evening was spent by about 400 people in the quarters of the Happy Eighth last night at the dance tendered the overseas draft from that unit. Mrs. E. A. Young, president of the Soldiers' Field Comforts Association, and Staff Sergeant Wallace, of the Eighth, were largely responsible for the affair and Mrs. Young co-operated with the eighty-five ladies of her association in providing the ice cream, cake and various other good things which were on hand last night.

Official orders have now been received by Captain McVoy to prepare the draft of fifty men for immediate overseas duty. He had already made anticipatory preparations and the members of the Field Ambulance who are to go have been chosen and have had their last leave. The good wishes of the citizens of St. John will accompany these boys of the Happy Eighth across "the pond." They have

POLICE WORK ALL DAY BUT FIND NO CLUE

The police still are endeavoring to solve the mystery which surrounds the murder of Harry L. Williams, who was found dead in his store at the corner of Main and Elm streets on Tuesday night with a bullet wound through his head. A theory is being advanced that there is a woman in the case, as a woman was seen standing in front of the store at 11:18 o'clock on the night of the murder. This, however, is not substantiated by friends, who knew the unfortunate young man to be of a quiet disposition and one who took every opportunity of being with his wife and children.

It is also reported that a man was seen running along Lansdowne Avenue some time after eleven o'clock that night, but owing to the darkness and the rate of speed he was travelling his identity is unknown. Coroner F. L. Kenney and a jury viewed the body and the scene of the murder yesterday afternoon, after which they adjourned to meet in the court house Friday evening when evidence will be heard.

Chief Inclines to Suicide Theory. The police are grasping at every possible "lead," and officials are divided in the theories they hold on the murder. "There is not sufficient evidence to satisfy me that the man suicided and there is not enough to establish that he was murdered," remarked Chief of Police Simpson last night in discussing the case. He was inclined yet to the suicide theory, although he admitted that the disappearance of the revolver was a most puzzling feature. He intimated, however, that there might have been a purpose in some one removing the revolver after the tragedy. The chief, in explaining why he held the line of suicide, stated that if powder was found in the wound and the hair was singed, he would consider his contention fairly established.

Following the empanelling of a jury, who viewed the body in Chamberland's undertaking rooms, Dr. F. L. Kenney, coroner, held a post-mortem on the body. Later it was announced that a blacked had been found in the wound behind the left ear, where it was apparent the bullet entered. The skin was also severely lacerated.

Woman Outside Store? Different theories supported by small evidence introduced different motives, the strongest being that a woman was concerned in the case. Wellington H. Dunham, a street car conductor, who resides at the corner of Main and Albert streets, informed the police yesterday that he passed Williams' store in his car at 11:18 o'clock Tuesday night. He stopped near a window and saw a woman standing directly in front of Williams' door. She was a stout woman and appeared to be dressed in dark clothes. He thought he could identify her again.

To effect this the police produce the evidence of W. J. McGuire, a clerk in T. J. Durlek's drug store. He went into Williams' store Tuesday night and brushed and started washing windows. He was at the job until 11:30 and he feels certain that if a woman had been standing there he would have noticed her. Yesterday afternoon Detective Hiddescombe and Policeman Hopkins interviewed Mrs. John Wilkins in the basement of the store. She stated that she saw Mrs. Wilkins appear excited. It is stated, while her husband, a returned soldier, appears agitated at the police in the hope of finding a woman who was being put to.

Last night, the chief of police sent detectives to check the Williams house again, and it is stated that the officers made a thorough search of the place. The vacant street in the rear of the store, consisting of A. A. McIntyre, foreman, E. R. Robertson, William Crosby, Charles Gurney, N. C. Springer and W. Thompson, at 5 o'clock yesterday. Later the men visited the scene of the tragedy and its surroundings.

At night detectives and policemen visited the store and made a still more thorough search, looking in every crack and crevice for the least indication of a motive or clue to the murder. It is stated, however, that nothing of any importance was discovered. What the chief hoped they would find—the revolver—did not appear.

The vacant street in the rear extending from the old baseball field to the rifle range was thoroughly searched by the police in the hope of finding a weapon thrown away there. All day yesterday the Williams store was closed and crews of men assembled, peering through the window. Throughout the city and in the North End particularly, the case excited the most intense interest.

At 10 o'clock Tuesday night, or only an hour or so before the tragedy, Williams called his wife on the long distance wire at Nerepis station. Mrs. Williams' father was with her and for this reason Williams suggested that he stay in town overnight to finish up some posting he had to do, so that he could go to the country at noon next day and fish. The chief of police, in discussing the police statement from Mrs. Williams, drew attention to the fact that at the close of the conversation with his wife Williams "kissed her over the telephone" and then said good-bye.

"This may have a good deal of significance," remarked the chief, "and on the other hand it may not have been important." Information reached police officials yesterday afternoon that some time the last of the week a woman residing in Main street near the store, was in there doing some purchasing and overheard Williams making a date with some person to meet him Tuesday night. The police, it is learned, were given some idea of who the woman was who made this statement and started out to find her.

Hawkhurst Accounted For. Yesterday the police again interviewed Stanley Hawkhurst, an employe of Williams' store, who saw him there about 11 o'clock, but nothing new was disclosed. He had been down to the side Park for the light and on returning passed down Main street in a car. He noticed then that the lights in the store were burning, so on his way back to his home in Adelaide street, he went in and saw Williams, who was writing. Hawkhurst remarked that he must have missed his train, and Williams replied, lightly: "Well, it looks that way." He then went to his home and was there after midnight when he was notified of the murder and requested to come to the store.

A safe, reliable home-treatment for the quick removal of superfluous hair from your face or neck is as follows: Mix a stiff paste with some water and powdered detolene, apply to objectionable hairs and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This simple treatment is unfeeling and no pain or inconvenience attends its use, but to avoid disappointment be certain you get genuine detolene.

MURDER TRIAL AUG. 28 In the circuit court yesterday afternoon, Aug. 28, was set as the date for the trial of Everett Carland and John O'Brien, charged with the murder of Robert Harris. The prisoners will not be admitted to bail.

Dr. W. B. Wallace, K. C., who is appearing for the crown against Carland and O'Brien, petitioned the court to summon 100 additional jurors over and above the usual array of thirty men. Instructions to this effect have been issued to the high sheriff.

In the morning bail was arranged for Hughes and O'Brien, the striking plumbers, who are to be tried in September on a charge of arson. The prisoners entered on their own recognizance for \$2,000 each, and two sureties of \$1,000 for each were arranged for John O'Brien, father of Joseph, and John McCann are the sureties for O'Brien, and John Calnan and John Newman are the sureties for Hughes.

SEALS FATE OF THE BORDEN GOVERNMENT

Western Liberals Reflect Opinion of Dominion

Resolutions Adopted

Case Against Administration Is Frankly Stated - New War Policy and Constructive Economic Platform Approved by Great Gathering

Winnipeg, Aug. 9.—The fate of the Borden government was definitely sealed to-night with the practical unanimous adoption by the western Liberal convention...

gramme which he thought would meet the approval of the convention, and command the confidence of the country. The resolution read by Dr. Neely is as follows: "In this war of democratic civilization against military despotism, the conditions call for the putting forth by each allied belligerent of its full power as the only assurance of victory; in times of peril the entire resources of the country, moral and material, manpower and wealth, are justly disposable by the state for the preservation of its national liberties. The imperative duty of the people of Canada today in regard to the war is its continued and vigorous prosecution: (1)—By conferring with the of definitely ascertaining the scope and character of the service that can best be rendered by Canada in the conduct of the war; (2)—By the maintenance in unimpaired strength at the front of our fighting forces and the taking of all steps necessary to secure required reinforcements for the Canadian contingent; (3)—By organizing the productions of other contributions to the war, such as food, munitions, and other war necessities, upon lines of the greatest efficiency; (4)—By the complete extinction of profiteering in all business having to do with munitions, and the necessities of life, if necessary by the nationalization of those industries or by the adaptation of the British system of control; (5)—By the recovery for the public treasury of undue profits obtained since the beginning of war by the exploitation of the interests of the people for the present requirements of the state; (6)—By the application of a combined system of sharply graded taxation upon incomes and excess profits which shall insure that every citizen shall bear his or her full share of the war burden according to his or her means; (7)—By thoroughly organizing the nation and carrying out this programme by whatever means may be necessary for its accomplishment." Condemnation of the Borden government as a war administration was expressed by the Liberal convention at the close of the morning's session, when the delegates cheered loudly in adopting a resolution declaring the federal govern-

ment to be inefficient and incompetent and unworthy of support. The resolution read as follows: "This convention of Liberals of the four western provinces of the Dominion of Canada, assembled for the purpose of assisting in the solution of the many serious problems facing Canada at the present crisis, feels compelled to place on record its most severe disapproval of the war administration of the Borden government. "War is essentially the business and concern of the entire nation, and not of any section, class or political party. "War can be waged to the best advantage only if behind its prosecution the people are right at heart, and imbued with the same passion and determination to defend the right and triumph over the forces of despotism and unrighteousness. Any intent to arrogate to one section of the people or one political party a monopoly of the prosecution and the prestige of the conduct of the national struggle for freedom and existence, can be characterized only as base and unworthy, in the highest degree. "Because the Borden government has sought, from the outset, to make our national life and death struggle the prerogative of one political party, to the exclusion of one-half of the Canadian people, and an instrument for selfish political advantage, rather than the triumph of national ideals. "Because it has exhibited gross incompetence and inefficiency in the face of national peril. "Because it has substituted selfish partisanship for honor and fair dealing. "Because discussion has overcome leadership in its councils, and disaffection has taken the place of firmness, resolution, courage and efficiency in execution. "We condemn it as no longer entitled to the confidence of the Canadian people." J. H. Lamb of Alberta, introduced a resolution on cold storage facilities, which was carried, as follows: "Resolved, That as the private ownership of cold storage facilities for food-

stuffs tends itself to the extravagant manipulation of food prices, thereby greatly increasing the cost of living in Canada and as producers of foodstuffs by reason of such private ownership are usually absolutely at the mercy of the food manipulators, we believe that the state should own and operate cold storage plants throughout the Dominion." Hon. G. W. Brown, Regina, introduced a motion calling for the stamping out of all combinations in restraint of trade and the appointment of a public prosecutor. He vigorously attacked combines, declar-

ing the greatest combine in the country to be the banks. Sir Thomas White, said Mr. Brown would not occupy the position he does today were it not that he was the appointee of the banking interests. The convention went on record as approving of an increase in the British preference to fifty per cent. of the general tariff, with a view to ultimate free trade with Great Britain, the latter phrase being added in the convention as an amendment. The tariff resolution also approved of important additions to the free list. The convention adopted a resolution declaring that the federal government should, as an emergency war measure, for the immediate conservation and production of foodstuffs: "Prohibit the manufacture of all high grade white flour in Canada, and establish a maximum grade that will add materially to the bread produced in Canada this year." Suggested for Free List. The tariff resolution reads: "Resolved that the British preference be increased to fifty per cent. of the general tariff, with a view to ultimate free trade with Great Britain. "That wheat, wheat flour and all other products of wheat be placed upon the free list. "That the following articles be placed on the free list: "1. Farm implements, machinery and repairs for same. "2. Farm tractors and internal combustion engines with repairs for same. "3. Mining flour, saw mill and logging machinery, with repairs for same. "4. Rough and partly dressed lumber. "5. Illuminating, lubricating and fuel oils. "6. Cement. "7. Fertilizers. "8. Fishing lines, cordage, swivels and metals for fishing spoons. "That staple foods and food products other than white flour, domestic animals

PITCHING RECORD OF EDDIE CICOTTE. White Sox Twirler Ranks With Best of Great Veterans. Thirty-three years old and just beginning to have his most remarkable success as a pitcher—that's the record of Eddie Cicotte. Credited this year with the most successful use of the "shine ball," he also is given credit for having some control over a knuckle ball and is more than the average performer with the splitter. Cicotte, a veteran who, according to usual records, should be getting out of the way, heaved himself into the records for keeps when he hurled a no-hit, no-run game this year. When Jack Coombs was getting his first experience as a major leaguer, Cicotte had been taken on by Detroit, found wanting and sent back. He graduated from the same club that turned loose of Ty Cobb and they both went to Detroit the same year. Since the beginning of the 1908 season Cicotte has been twirling them over in the American League—first as a member of the Red Sox and then as a member of the White Sox. Cicotte missed participation in the 1912 world's series by a hair, for he was transferred to the Chicago Club in that year, after he had been turned down and spurned by Jake Stahl as no good. Cicotte has been going along in an even way, winning a game here and losing one there. His most successful season was while he was with Lincoln in the Western League in 1907. He won twenty-three and lost ten games. If the White Sox finally do club their way into the American League pennant it will be largely the fault of the veteran. His work is the most consistent, and the really brilliant among all the curvers of the great baseball club. Woman is the nearest perfect when he's not womanly.

NEW BILL AT THE GEM EXCELLENT. Fine Irish Comedian—Old Time Songs Recalled—Robert Warwick in Great Picture. There's no discounting the fact that the Gem's new programme was keenly enjoyed last night and that it is a remarkably good one. The picture feature is "Sudden Riches," in which a noted English actor, Robert Warwick, is again welcomed to the Gem. This time Gelda Holmes plays the leading role opposite him and there is a strong company in support. It is a World film picture in five reels. The story is that of the results of having a large fortune dumped into your lap, in which the recipients turn from thrifty to spendthrifts, from upright and honest husband and wife to dissipated, high-flying and otherwise leaders of a dissolute life, and how their great love for their little child succeeds in making them realize the folly of following their life of extravagance, bringing the father and mother back to their happy little home. It is told in a dramatic, convincing, plausible manner, by the author, E. Richard Schayer. There are magnificent scenes of life among the very rich and in the gay life of the high rollers. Actors, director and photographer have lent their best efforts to bring out the story effectively and the results are strikingly good. The picture was followed with close interest and all were delighted with it. The first of the new vaudeville acts was presented by Harry Kelley, who proved to be an excellent Irish comedian. He has a very entertaining line of stories and songs. The stories he presents well and the songs he renders in excellent voice and with good effect. The act was very much enjoyed. Lang and Green gave a delightful rendering of old-time songs. Their act represented them as sitting in their home on their fiftieth wedding anniversary and they sing some of the songs of other days with much feeling. It was very pleasant indeed to hear the good old melodies and the tear that moistened the eyes of many was a tribute to the singers and the songs. The act was heartily received. The Gem will continue this act until and including Friday night with an entire big change on Saturday afternoon.

**AN EXCITING RUNAWAY**

There was considerable commotion on Main street this morning when a large span of horses owned by Randolph & Baker became frightened and dashed down the street. The driver, John Hamilton, pluckily retained his seat and strove by every means in his power to check the frightened steeds. He succeeded in turning their heads into Mill street and eventually bringing them to a stop before any person had been injured or any damage done to vehicles. The horses took fright when the ring at the head of the wagon pole broke and the sleeves struck their heads. One of the horse's legs was cut, but the injury was not of a serious nature.

**SOLDIERS' AID COMMISSION**

A meeting of the Provincial Returned Soldiers' Aid Commission was held this afternoon at 8 o'clock in the office of the secretary, Charles Robinson, at 49 Canterbury street. Business in connection with the new convalescent home in Fredericton was discussed. Matters pertaining to the welfare of the returned soldiers were taken up. This committee acts in connection with the Military Hospitals Commission. Among the outside delegates who arrived in the city today to attend the meeting were: Colonel MacKenzie, Chairman; Colonel Forbes, Richibucto; Judge Wilson, Fredericton; J. D. Creighton, Newcastle; F. M. Burns, Bathurst; D. A. Stewart, Campbellton; Dr. L. N. Burke and J. Masters, Moncton; L. A. Ganong, Edmundston; J. A. Peat, Andover; D. Munroe, Woodstock; D. S. Peacock, Fredericton and Rufus Steves, Sussex. The local members of the committee are: J. B. Baxter, Colonel Thomas Walker, James Sugrue and Thomas Bell.

**FAIRVILLE GIANTS WIN FROM ACADIAS**

A very fair crowd was in attendance at the baseball game in Woods' field, Manawagonish road, Fairville, last evening, when the Fairville Giants vanquished the hopes of the St. John Acadias to the tune of 8-3 in a four inning battle. Fryers and Carrigan supplied the battery for the visitors in the opening part of the game, but Carrigan was withdrawn in the third, and Chestnut twirled from that on, and very good ball too. The fans look for some real work when another match is played and Chestnut tosses the pill during the whole programme. For the Fairville team, Charles Duke was in the pitcher's box and in good form. Dick McLeod held him down on the receiving end. The score hardly tells the story of the game, which was really a better exhibition than the figures would suggest. The Giants are a much lighter and younger aggregation than used to perform previous years in Finner's Park, but they have some promising material and should be supported and encouraged a bit more by the public. The base ball boys of the old Fairville League have responded nobly, taken as a whole, to the call of king and country. These new comers are mostly too young yet for military service, and in their efforts to enjoy a good clean game of play the public should help them out.

### YOUNG SOLDIER GIVES HIS LIFE

**SERGEANT FRED FISH**

The accompanying is a picture of Sergeant Fred Fish, whose death was reported several days ago. He was a young man of only twenty years of age. He went overseas with the 26th Battalion and with that unit took part in practically all of the heavy engagements on the western front from the Somme to Ypres to the Somme. Recently his mother and little sister removed to Toronto, where they are now residing with his married sister, Mrs. W. W. White. Sergeant Fish leaves, besides his mother, three brothers, Private Harold Fish, now in France; George Fish, now in France, and three sisters, Mrs. W. W. White of Toronto; Mrs. Harry Hughes of Calgary and Miss Harriet of Toronto.

### CALL FOR FIRST DRAFT ON SEPT. 1.

United States Will Send Third of Quota to Training Camps a Week Later—Married Men and Exemptions

Washington, Aug. 9.—Governors of the various states today received notice from Provost Marshal General Crowder that the first one-third of the quota of 897,000 men drafted for service in the national army will be called to the colors on September 1 and sent to training cantonments before September 5. More than 200,000 will be called into service in the first increment, bringing the country's total military forces up to one million men. The provost marshal's instructions to governors urged that they make certain that the first quota be ready on time.

Exemption boards were instructed today to deny immunity to married registrants in cases where the parents or other relatives of the wife volunteer to assume her support during his absence.

**WRONG SIDE BUT IN RIGHT PLACE**

South Bend, Ind., Aug. 9.—A man with his heart on his right side was discovered here today during the physical examination of men for the selective draft. He is Fred Mumme of River Park. Despite the abnormal position of the organ it is pronounced normal by the physicians and Mumme passed the examination with flying colors.

### ANOTHER CANADIAN HOSPITAL ACQUIRED

Building in Liverpool For Wounded to be Returned to Canada and Sick Who Arrive There

Liverpool, Aug. 9.—In that part of the Mersey City known as the Scotland Division—they call it the Scotland Division because all the Liverpool-Isle are denized there—there is a sixty-year old pile of buildings known as the Kirkdale Hospital. They were built in the first instance for children who came under the care of the poor law. Later they furnished shelter for older members of the community who were forced to accept the charity of the ratepayer. And within the last month the buildings have come into the hands of the Canadian Medical Service, wherein to place sick and wounded soldiers, about to be returned to Canada.

The opening of this new centre at Liverpool will furnish a place to which can be sent forthwith any soldier whom a medical board has slated "for further treatment in Canada." The new place, in fact, will serve as an assembly centre for those of the rank and file whose fighting value has been destroyed through wounds or sickness. Not a very inspiring foundation, certainly, for an inscription to be placed over the main entrance, although the usefulness of the institution, from the viewpoint of medical administration and economy, will be obvious.

Here too will be retained such men among troops fresh from Canada who fall sick during the voyage. On an average these number one or two per cent. Hitherto such cases have been admitted to English hospitals at the port of landing. The staff of the hospital will be about 250.

Lieut.-Col. J. L. Biggar is the officer commanding. He came to England with the 18th Field Ambulance from Victoria. Col. Biggar is also well known in Toronto to the other officers of the staff are: Major T. H. MacDonald, Captains M. G. Thomson (Adjutant), who lives in France, with the C. F. A.; H. A. W. Brown, A. B. Walter, W. C. Pratt, P. F. McCue, S. Hawthorne (chaplain), I. H. Roberts, A. S. Burns, Lieut. W. G. Robertson and Lieut. Haylett (quartermaster).

**OAK HALL** **SCOVIL BROS., LIMITED**  
ST. JOHN, N. B.

Dear Mary:—

Do you know some people don't like company? I do. The real reason they don't is they are not fixed for it. I think it is a shame that women who enjoy having their friends come to see them can't ask them just because their houses are not properly furnished.

They ought to just go to their husbands and tell them plainly how they suffer cause they haven't got the furniture and rugs they need. That's what I'd do if Frank were not so good to me always.

Your chum—HELEN
