FORESTS ARE SURPRISE TO VISITORS

Members of Forestry Conference Amazed at Natural Regeneration.

TRIP PLEASANT

St. John Extends a Hearty Welcome to Party in the Province.

"Your wonderful natural regeneration of the forests is the thing which has impressed me most deeply," was the statement of Major General Lord Lovatt, chairman of the British Empire Forestry Conference, this morning to a reporter for The Times, and this was the testimony borne by every member of the visiting party to whom The Times representative talked. Lord Lovatt said he had been deeply impressed by what he had seen so far on the trip through Canada and was especially struck by the New Brunswick forests through which the party had travelled yesterday, when they had gone more than 40 miles through virgin woods so thick that one could hardly see through them. He was particularly struck with the wonderful natural regeneration and in his opinion it was the best nature has ever known. He said he had seen a number of places where the forest had been cut and he was surprised to find that the trees were growing again so thickly that one could hardly see through them. ASKS LICENSE, POLICEMAN SHOT

Three Men in Automobile Escape—Wounded Officer Dies in Hospital.

Bower was killed today by a shot fired from an automobile which he had held up to demand the registration certificate and to check the driver's license. The three men in the car escaped. Bower and a fellow officer, John McDonald, had been sent to the Lawrence Cricket Club, where it was reported five men were trying to break into the building. When the officers arrived they found five men had left the building and they started toward Lawrence in search of them. Coming upon a car without lights, the officers demanded the driver's papers. There was an exchange of shots and Bower fell. Bower had emptied his revolver and McDonald also fired six shots as the fugitives' car passed him, but none of them took effect. Campbell, struck by the shot, assisted in taking the wounded man to the hospital, where he died.

NEWBOLT SPEAKS ON SEPARATION

Education Authority, Who Was Here, Guest of Colonials in London.

London, Aug. 1.—Sir Henry Newbolt, widely known authority on education matters, was the guest at a dinner last night of members of the Overseas Education League who are on a visit to Great Britain from Canada, Australia and New Zealand. Responding to the toast in his honor, Sir Henry said that one of the great evils of the world might be expressed by the single word "separation." It was because of the enormous separation of high and low education that differences arose. That was a very great difficulty. "The empire cannot all be of the same point of view merely because of the fact that the members do not know each other personally," Sir Henry said. He spoke very highly of the action of the engineer of the express, who after applying the brakes, stuck to his post in a vain effort to stop the train and thus lost his life.

IMMEDIATE ACTION IS DEMANDED

Premier Baldwin is Expected to Give Frank Statement of Plans.

PLAN NEW MOVE

London Speculates on Action to be Taken by the Italians.

(Canadian Press)
London, Aug. 1.—The recent expectation that Premier Baldwin's statement in the House of Commons on Thursday with respect to the negotiations with Great Britain's allies would be very informative has yielded to a belief that the premier will explain the situation fully. The Government is credited with the hope that it will be possible to publish before Thursday the whole correspondence between Britain and her allies since June, but the documents are so numerous and so lengthy that it is now feared the time will not suffice for their arrangement, printing and discussion in parliament. To Give Outline. It cannot be done, the premier, according to well-informed political writers, will take parliament and the public into his confidence and will give a verbal outline of what the British correspondence would disclose. The supposed decision is taken to indicate that the Government is convinced nothing can be gained by further negotiations and that it must now take a fresh course. What that course is to be, it is said, will be considered at two three cabinet meetings today and tomorrow. The present supposition is that the Government will decide to seek an immediate separate settlement with Germany. Opinions differ as to whether Italy would associate herself with Great Britain in such a move or whether it would act independently. It is indicated the present view here is that the Italian attitude in the main is identical with the British.

EYE STRAIN THE PRINCIPAL CAUSE OF HEADACHES. Some authorities say 80 p. c. of all headaches are caused by eye strain; no authority puts it less than 70 p. c. Leave it to your own experience. When getting a headache, you close your eyes, don't you?

Of the twelve pairs of nerves in the head six have some connection with the eye. No wonder the dull ache from eye-strain occurs in any part of the head. So when defective eyes are called upon to do the work of the other pair of eyes, the tired ocular muscles set up pain along the nerves which connect with the other pair of the head. A correct pair of glasses gets at the cause. Glasses do not cure one headache, but a thousand.

Kansas Girl of 15 Clad in Overalls Sees First Frock

Has Lived All Her Life With Her Father and Brother on Little Island.

Topoka, Kas., Aug. 1.—"A Swiss Family Robinson" was discovered recently on a little island in the Kaw river. Three persons made up the "family"—a man and his two children, one a girl, 15, and the other a boy, 17.

The discovery was made by T. D. Williams and Miss Eva Cornish, county welfare officers. And the little family—only about three blocks in size—was only a few minutes' drive from the domed Capitol of Kansas.

But from the discovery of this little family living so near civilization, and yet so apart from it, there was unfolded a tale of a modern Alice and her adventures in Wonderland.

True, there was no March Hare or Mad Hatter, no Tweedle-dee and Tweedle-dum, but the things the girl—Emma Adams is her name—found beyond the magic mirror were as startling to her as were the discoveries Alice made.

For one thing, there were girls' frocks—and she had known only boys' overalls. There was a red ribbon for her hair, hair that had known only tangles. And shoes—her first—were Emma's Adams is her name—found beyond the magic mirror were as startling to her as were the discoveries Alice made.

She knew a city, she had seen a city once before—eight years ago—on a visit she, barely remembered. But now she was in the city, she had seen a city once before—eight years ago—on a visit she, barely remembered. But now she was in the city, she had seen a city once before—eight years ago—on a visit she, barely remembered.

Orders Chinese to Abolish Land Dept. Harbin, Aug. 1.—General Chang Tso Lin, dictator of the three Manchurian provinces, has ordered the Chinese authorities to abolish the land department of the Chinese Eastern Railway and to take over all land owned by Russia under old treaties. These measures became effective today.

Comment on North Sydney By-Election. Ottawa, Aug. 1.—Gratification was expressed in Liberal circles here last night, when the return of the Government candidate in the federal by-election in Cape Breton North and Victoria became known. Prominent Liberals said they regarded the outcome of the contest as a vote of confidence in the Government. The gesture of the Liberal candidate was considered probable in political circles in the capital and little surprise was expressed at the result by supporters of the three parties concerned.

STILL ARGUE OVER SPEED AND SIZE OF THE GREAT SHIPS

The controversy about the relative speeds of the Cunarder Mauretania, the White Star S. S. Majestic and the U. S. Shipping Board S. S. Leviathan is still an important one in the eyes of shipping men. A bulletin issued recently by the White Star Line claims that the Majestic holds the world's record of five days, six hours and thirteen minutes, and states that the Mauretania's best official time for the same distance, eastbound, was five days, seven hours and thirty-three minutes. The relative sizes of the Majestic

and the Leviathan have also been the cause for argument. A dispatch from Berlin to the New York Commercial tells of inquiries made at the plant of Blohm & Voss, in Hamburg, where both ships were built. Experts of the company gave their opinion that the Majestic formerly the Bismarck, was 55,351 registered tons, while the Leviathan, now the Leviathan, was 54,291 tons. They also said that the Majestic was more than five feet longer than the Leviathan. They expressed surprise that the American measurements could show 29,360 tons for the Leviathan unless extensive changes had been made in her.

Japan's mercantile marine in 1920 was 3,209,000 gross tons.

TRAFFIC BLOCK MEANS MILLIONS

London Loses £20,000,000 a Year By Congestion In Streets.

London, Aug. 1.—(By A.P.)—Twenty million pounds annually is thrown to the winds as a result of traffic delays and congestion on the streets of London, according to experts in statistics. This large sum, which is said to be a conservative estimate, is sufficient however, to arouse the indignation of many London newspapers, and to open a campaign against the present plight of the street traffic.

The members for London in the House of Commons have agreed to take the matter up and present bills designed to regulate all classes of traffic in the city.

The most difficult problem in London is that of the omnibus and other heavy motor lorries. There are about 3700 passenger buses in operation in the city and the number is steadily increasing. The congested traffic has caused a considerable loss to the bus owners, as it has made it impossible for them to make any speed through the maze of other vehicles. The situation is becoming worse, according to the newspapers, and it now takes a bus three minutes longer to traverse the Strand, about half a mile in length, than it did six months ago.

A report shows that 26,500 vehicles pass Hyde Park Corner every day, beginning at 8 o'clock in the morning, while Piccadilly Circus accounts for 32,000 and Trafalgar square for 41,000.

At the present time only in the City of London proper, an area of less than a square mile, is heavy traffic prohibited on some of the main streets. (On all other streets any class of vehicle may wander at its own will.)

There have been many attempts by royal commissions and select committees to deal with the problem, but these have been unable to find a solution.

OLD BISMARCK LETTER DEMANDED GOOD BEER
Missive Written in 1851 Took Brewer to Task Because His Quality Was Not Maintained.

Berlin, August 1.—When Bismarck's beer was not exactly to his liking, the Iron Chancellor was very unhappy and was not slow to let his displeasure be known. A hitherto unpublished letter of Bismarck's to Herr Leventstein of the Berlin Tivoli brewery has just been printed by the Berlin Tagblatt, complaining of the quality of the brewery's beer.

The letter was written Nov. 5, 1891, from St. Petersburg, where Bismarck was Prussian Ambassador. Bismarck complained that Leventstein's quality of beer was not keeping up as well as that of the previous year, and urged a change in the methods of brewing. He said his beer was working in the bottles and was as muddy and as sour as English ale.

GOOD HEALTH SECRET OF BEAUTY

Beauty lies in the care a woman bestows upon herself and in keeping at bay those dread ailments peculiar to her sex, which drag her down and leave telltale traces upon her countenance. Sparkling eyes, the elastic step and a clear complexion never accompany organic troubles. Distressed expressions, a sallow complexion, dark circles under the eyes, lassitude, headaches, and mental depression are the telltale symptoms of women's ailments. Women so troubled should not lose a day in taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, the most successful remedy known to overcome woman's ills and restore health and beauty.

SPANKED HIS FIANCEE.
"How About Her Black Eye?" Asks Judge Who Holds Cave Man.

Atlantic City, N. J., Aug. 1.—"I love her, Judge; we're engaged. She disobeyed me, so I spanked her. That's all right, ain't it?"

That was the defense made by Edward Lewis when arraigned in the Atlantic City court on a charge of assault and battery made against him by Evelyn Johnson who appeared in court with a black eye.

"That's the first time I ever saw anybody get a black eye from a spanking. You'll have to dig up \$500 bail and tell it to the Grand Jury," ruled the court.

KICKS WAY FROM CELL TO FREEDOM Prisoners Gone at Reading Lock-up When Officers Arrive With His Breakfast. Boston, Aug. 1.—Officers John Slack and Patrick Long of the Reading police force had the surprise of their lives one morning recently. Shortly after midnight they had locked up Dominic Zanni, a contractor, charged with being drunk. They locked him in a cell and then, according to custom, went out on the street in quest of more victims of circumstance and the 16th amendment. No one remained in the station with Dominic. At daybreak Slack and Long, in accordance with custom, went to the neighboring lunch cart for the usual breakfast for a prisoner, namely coffee and doughnuts. They found the cage that had been occupied by Dominic was open and the man was gone. Evidently Dominic, on being left alone, had shaken and kicked the door until he broke the lock. Slack and Long split up the doughnuts, sipped the coffee and called it a day, which was more truthful than poetic, since they had been on duty all night. Dominic at the last check-up was still at large. Formosa supplies the world with camphor. In England the first hospital of which there is record was founded in 900.

Chicago, Aug. 1.—While residents of the suburban town of La Grange were attempting to reconcile themselves to the shock of his arrest, George O. Hincliffe, a prominent business man, is being questioned at the Chicago Detective Bureau as the slayer of Policeman Bryan Porter recently.

Handcuffed to Wheel, Drives For 116 Hours

Detroit Aug. 1.—H. L. (Daredevil) Lockwood, handcuffed to the wheel of an automobile, on Saturday finished his phenomenal endurance run of 116 consecutive hours of non-stop driving around and in Detroit.

That the feat taxed his physical endurance was plainly evident when Lockwood collapsed completely as he stopped his motor in front of the City Hall. His left arm, which had been

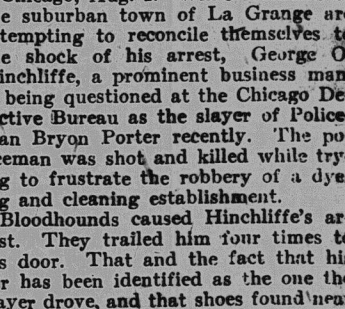

chained and handcuffed to the steering wheel, was semi-paralyzed and he was unable to get out of the seat.

Dr. J. F. MacPherson attended him almost constantly during the last 24 hours of his run, bandaging two boils which developed after he had been at the wheel for 64 hours.

His only stop was made in front of the Waterworks Park earlier in the day when a flat tire held him up for 16 minutes.

GIRL KEPT IN PIG PEN TEN YEARS BY HER STEPMOTHER

El Paso, Tex., Aug. 1.—Reared in a pigsty for 10 years through the alleged malice of a stepmother, a 13-year-old girl was found asleep in the pen near her home here, by Detectives Fenley and Ira Cline.

The child, scarcely the size of a 3-year-old, could answer only simple questions. She said that she has lived in the little pen as far back as she can remember, and that her food was always given to her through the bars.

Neighbors told the officers that her food consisted principally of scraps. Some of them have been taking milk to her pen. The stepmother said the child was put in the pen only to play. County Probation Officer Mrs. Emma Webster took charge of the child.

BOSTON WOMAN DROWNS IN MOTOR ACCIDENT

Car Hits Tree and Hurts Miss Robins Into Swiss River.

Berne, Switzerland, Aug. 1.—Miss Eliza Robins of Boston was drowned Friday night when an automobile in which she and her sisters, the Misses Ida and Claire Robins, struck a tree in the Valley of Simmen and fell into the Simmen River. Ida Robins was badly bruised and was taken to a hospital at Entenbach. She will be able to leave in a few days. Claire Robins escaped uninjured. The chauffeur suffered slight wounds.

The accident occurred as the car was going from Lake Thur toward Montreaux. The machine failed to take a sharp curve and ran over a steep slope, struck a willow tree and threw the occupants into the river. Eliza Robins was thrown into the swift part of the current and her body carried away. It was found half an hour later, near Entenbach.

**MRS. CHISHOLM
SCHOOL TRUSTEE**
Council Deals With Light-
ing Matters—Waterloo
Street Request.

At the city council meeting yesterday Mayor Fisher moved that the Civic Power Commission be authorized to expend for equipment \$24,430.90, to be purchased from the following firms: H. M. Hopper, E. Leonard and Sons, Northern Electric Co. and Canadian General Electric Co. Commissioner Thornton asked if tenders had been called for these supplies and was informed the tenders were being bought on a former tender by these firms. Barry Wilson, engineer of the Commission, said the prices were not any lower. The resolution to authorize the expenditure passed providing that lower prices could not be obtained. Commissioner Frink said that recommendations from the Civic Commission should first be dealt with in committee. This was decided on.

The Civic Power Commission sent information on the cost of lights for the streets. The 1,000 c.p. lamps cost \$78.83 a year; the 250 c.p. lamps cost \$22.90; the cost of an ornamental light complete was \$220; the cost of the lamp and bracket was \$120. Placed on file.

Hon. P. J. Veniot wrote, confirming the contract for the carrying on of the employment bureau.

A recommendation of Mayor Fisher that the city engineer be asked to prepare a report on the Spruce Lake water main was adopted.

Commissioner Frink's recommendation that a bulkhead be built at the head of the Quinn Slip, was referred to committee of the whole to give some of the commissioners an opportunity to look over the situation. Commissioner Bullock was in favor of filling in the entire slip.

Commissioner Bullock was given authority to substitute a plan for a bulkhead in the repairs at the north Rodney wharf.

Commissioner Wigmore moved that Mrs. D. P. Chisholm be appointed to the school board position made vacant by the death of Mrs. R. O'Brien. This was seconded by Commissioner Wigmore.

Commissioner Bullock moved the election be by nomination and ballot but failed to get a second and the resolution to appoint Mrs. Chisholm passed unanimously. On the motion of Mayor Fisher, Allan A. MacIntyre was re-appointed to the board.

It was decided to repay to the Harris Abattoir Co \$268.95 taxes paid in protest on the 1922 assessment, their appeal having been sustained, with a year's interest at 4 per cent.

A letter from George Carroll, water street, asking for a hearing in connection with ornamental lighting for that street, was referred to the Mayor to arrange for a conference.

A letter from Rev. J. V. Young, re games of chance at the Exhibition, was referred to the Commissioner of Safety.

His Worship was given authority to name the committee from the council on East St. John amalgamation.

An invitation to attend the closing of the summer vocational school on Thursday afternoon, was accepted.

Power Commission Bill
A bill from the New Brunswick Electric Power Commission of \$8,907.10 presented at the council meeting yesterday, came as a big surprise to the Commissioners, all of whom professed ignorance of any authorization for the account.

A letter accompanying the bill stated the account had been incurred under authority of a letter dated May 14, 1922 and the services charged for rendered in May, June and July of that year.

The bill was referred to committee, with the understanding that each of the commissioners be furnished with a copy of the bill and letter of May 14.

**PADEREWSKI BUYS TICKETS
FOR HIS OWN PERFORMANCE**
Paris, July 10.—(A. P. by mail.)—Ignace Jan Paderewski, famous Polish pianist and composer, received one of the warmest welcomes accorded him since his return to the concert stage when he appeared before a Paris audience recently. Thousands of people thronged to see him pass on his way to the theatre, and he was again besieged when the concert, a benefit affair, was concluded.

The French press re-told at great length the story of how the noted artist was expelled from Russia years ago by Emperor Alexander III, after Paderewski had played before the court.

"You are a great artist, and an honor to Russia," the Emperor is reported to have said.

"Pardon, Your Majesty," replied Paderewski, "to Poland."

The next day the pianist received an order to leave Russia, and he had never returned since.

The newspapers here also mentioned the fact that on the day of his first concert, Paderewski drove to the theatre box office and purchased nearly a hundred seats at regular prices, which he distributed among his friends.

His only request was a dressing room, so that he could let his hands soak in very hot water for half an hour before the concert. He explained that he had found this the best way to make them supple.

**Workers' Holiday
Cost \$615,000**

Binghamton, Aug. 1.—It cost the Endicott-Johnson Shoe Corporation \$615,000 to give to its 14,000 employees one week's vacation with pay, the first week in July.

The corporation announced that it would give each employee who had been in the concern a year a week's vacation with pay, but it was found that in assigning the vacations through the various weeks the factories would be short handed during the summer, so the entire plant was shut down for one week, each employee receiving a week's pay in advance.

The management believes the experiment was a success, as it resulted in increased output, and it will be repeated next year.

**Diplomat's Grandson
Wins Boxing Bout**

Stockbridge, Aug. 1.—Master Robert Underwood Johnson, 2d, 13, grandson and namesake of the poet and former ambassador to Italy, is the champion lightweight boxer of the Berkshire hills. He won the title in a bout with Master William H. Ryan, 11, son of Mr. and Mrs. John Barry Ryan, and grandson of Thomas Fortune Ryan, of New York.

The bout took place under a tent at Ingleside, the estate of the champion's father, Owen Johnson, and was advertised to go for 15 rounds of two minutes each. The bout was called at the end of the 10th round with Bobby Johnson declared winner by Dr. Arthur M. Walker, referee. Edward A. Cowmanfield was timekeeper.

The boys have been taking lessons for a month and made all arrangements for the bout, even selling regular printed tickets at 10 cents each. Each had a second with a fan, and the bout was held in a roped arena, which was an exact duplicate of the one at Shelby, Mont. Robert Underwood Johnson, the diplomat, and Mrs. Johnson were among those occupying box seats, with Mr. and Mrs. John Barry Ryan, Misses Olivia and Katherine Johnson and others in Stockbridge society. There was heavy betting, Thomas Fortune Ryan on a placid wager on his youthful grandson.

**Diva, Famous 30
Years Ago, Fights
For \$50,000 Fortune**

Greenville, Ill., Aug. 1.—Mme. Pauline L'Allemand, grand opera star of 80 years ago, who is living in destitute circumstances at Beaver Creek, near here, said she would make every effort to have the state of Wisconsin restore her alleged lost fortune of \$50,000. She declared her possessions were destroyed by fire while she and her son Edgar, were held in the State Hospital for insane several years ago. She charges their detention was illegal.

The once famous diva, whose rich soprano voice thrilled Europe and America in the 80s and 90s, and who composed the opera "The Cap of Conscience" lives in three rented rooms while her son works as a laborer. Mme. L'Allemand was the star of the American opera company and the Boston Ideal opera company, and while employed by the latter organization was said to have been the highest paid person singing in English on the American stage.

After her husband, Marcus L'Allemand, died in Vienna in 1918, she and her son went to Wisconsin and settled in Black River Falls, where she said she bought 120 acres of land.

On Aug. 23, 1920, she said, she and her son were taken to jail, where they were held for five days, after which they were confined in the insane hospital for 18 months.

Returning to their home they found it had been destroyed by fire.

She said the house contained art objects, theatrical costumes and jewels, besides its furnishings, and indications were that what objects had escaped the flames had been stolen.

**How, 'Millionaire
Hobo', Arrested**

Held at Philadelphia on Technical Charge of Disorderly Conduct.

Philadelphia, Aug. 1.—Dr. J. Eads How of St. Louis, referred to as the "millionaire hobo," who is attending the "hobo" conference in this city, was arrested while distributing cards advertising the meeting and a picnic to be held along the Wissahickon creek. He was arraigned on a technical charge of disorderly conduct, but later was released.

The arrest occurred in Franklin square. Dr. How complied with the order of a policeman to gather up all the cards he had distributed but then, it was charged, he continued to advertise the conference by word of mouth. Dr. How was prevented from appearing at the religious services of the conference, where he was scheduled to "deliver a sermon."

The conference which has for its aims mutual and educational benefits also urges that migratory workers in quest of employment be provided with food and lodging, according to Dominick Roach, national organizer. George S. Donner of this city, chairman of the conference, praised the re-

Paris Doctor Spurns Yankee Woman Patient's Embroidered Cigar Case.

Paris, Aug. 1.—(By A. P.)—A Paris surgeon is telling a good story against himself. He was called in to operate on an American woman for appendicitis, and when the cure was complete the patient, seeking to show her gratitude in some way that was not commonplace, embroidered a cigar case and took it to the surgeon.

Unfortunately the surgeon had just had a run of patients who had paid for his services by presents of little intrinsic value, so he could not help saying, "No, really, Madam, take away such rubbish; a thousand franc note would be much more acceptable."

"All right," said the American woman, and opening the cigar case she drew a thousand franc bill from it, laid it on the table and said coolly: "There were five others like it in the case."

The soldiers and staff of the D. S. C. R. Hospital, Lancaster, enjoyed a real musical treat yesterday, when Miss May Barron, contralto, of the Boston Opera Company, who is the guest of Mr. and Mrs. Glendon Allen, Manawagonish road, sang for them. A.

Argentine Turfmen Try to Restore Yrigoyen, But He Dies.

Buenos Aires, Aug. 1.—(Associated Press)—Yrigoyen, one of the most famous race horses in Argentina, was subjected to Yornoff's gland operation, believed to be the first operation of the kind ever performed on a horse.

The gland used for this purpose was removed from another race horse, but Yrigoyen died several hours after the operation.

It is explained that the horse's death was due to an internal hemorrhage resulting from the fracture of a thigh bone caused by the horse's struggles when he was reviving from the effects of the general anesthetic.

Yrigoyen was 13 years of age and the sire of many winners on the Argentine turf. He broke down physically about three years ago, and his owners decided in a last effort to restore his vigor to have the glandular operation performed.

Victor Lee acted as accompanist. Miss Barron's concert was greatly enjoyed.

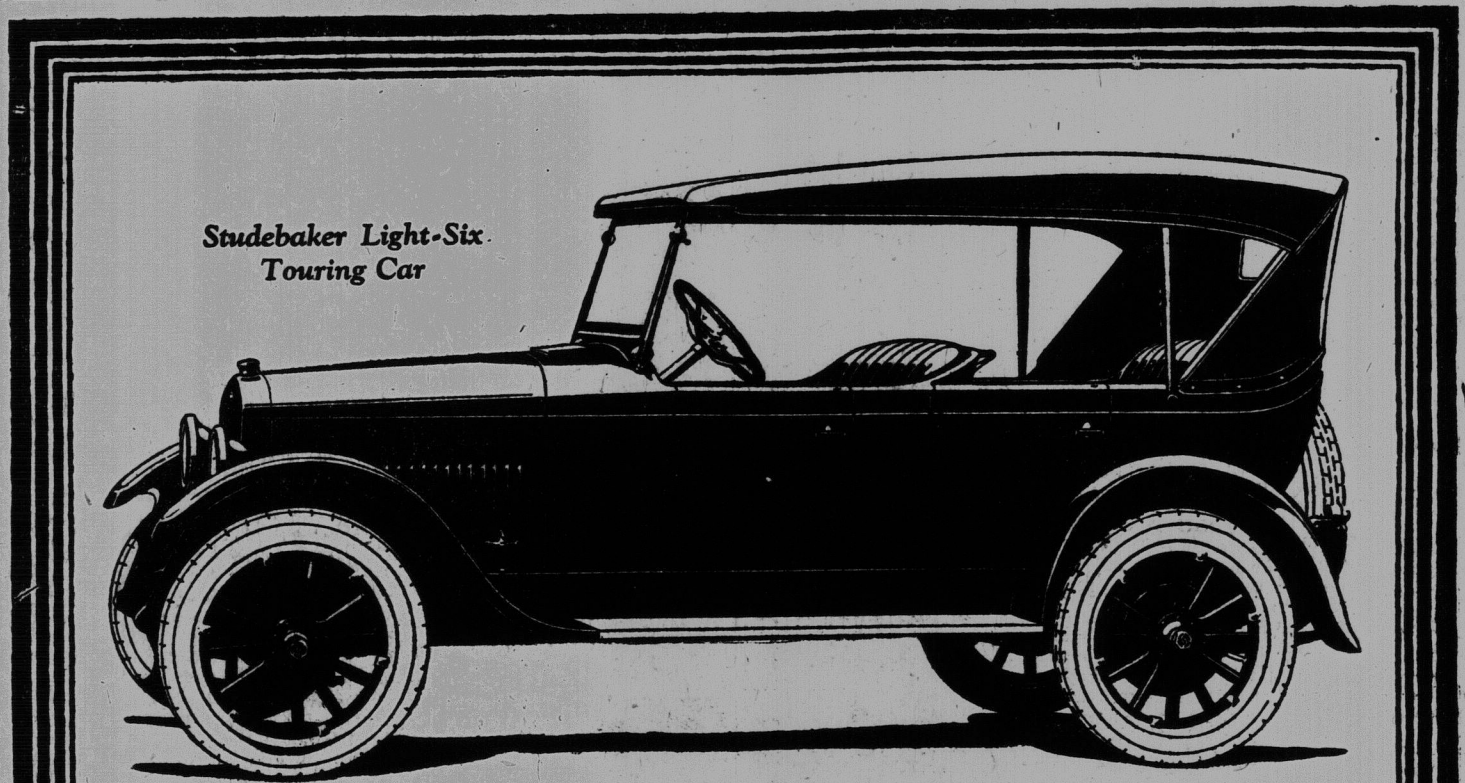

The matron of the hospital, Mrs. Foss, served refreshments for the members of the staff and the guests.

FIND FRICK JEWELRY.

Prides Crossing, Mass., Aug. 1.—A bar pin mounted with a horse's head in diamonds, which was lost two weeks ago by Miss Helen Frick, daughter of the late Henry Clay Frick, was found by two boys in Woodland Road, near the Frick Summer estate here. The pin, valued at \$3,000, had been kicked about in the dust and dirt for two weeks, but was undamaged.

Henry Roberts and Edwin Andrews, caddies at the Essex Country Club, found the pin and returned it to its owner, receiving \$100 to share between them.

St. Catharines Folk Pick Him to Win at Baltimore.

Hilton Believes He Can Beat Gilmore on Friday—Has Kept at Training.

A Canadian Press despatch today from St. Catharines, Ont., says:—Hilton Belyea, St. John, N.B., sculler, and former Canadian champion, left last night for Baltimore, Md., to compete in the singles at the N. A. A. O. regatta which will be held there this week.

Confidence that Belyea has a good chance to win in Baltimore is expressed by rowing fans in St. Catharines. As Hiram Sees It

"You didn't hev no reporter out to that there convention in the Saddleback woods last week," said Mr. Hiram Hornbeam to The Times reporter. "Didn't hear a thing about it," said the reporter. "What was it—a camp meeting?" "No, sir," said Hiram. "It was the spruce budworms. They heard about this here British Empire Forestry Association 'gallivantin' about the country an' they got together to talk things over. I guess some of 'em was kinda scart, somethin' was brewin' that might hurt 'em. They're jist like human bein's, that way. They look around 'n' say, 'Where's this thing gonto hit me?' Some o' the budworms was afraid they'd be fed on partridge spruce—or somethin' like that. Well, sir, one fat old word said he'd bet his pile on Barnjum—an' 't that what they orto be scart of was the firebugs. Jist then a firebug come along an' they tackled him. He told 'em he was sorry fer them, but they was too slow. He said his fust name was Efficiency—an' if a piece o' spruce woods hed to be wiped out he believed in goin' to it an' doin' it quick. As fer this here forestry lynch—he said they'd hev to show more speed if they ever expected to see anythin' o' him but his smoke. Then he lit a match an' the convention stopped right there. We'll be loggin' on that strip next winter—yes, sir."

REFUSES BAIL IN AUTO CASE

Magistrate Hears More of the Prince Edward Street Ride.

No Judgment Before Definite Turn in Condition of Owen McCann.

The evidence of Walter W. Leonard to the effect that Thomas Crawford is charged with operating a car while under the influence of liquor and with neglecting to stop at an accident in Prince Edward street in which Owen McCann was seriously hurt, was the chief feature of this morning's hearing in the police court.

Evidence was given by Policemen Gaudet and Hatt and Detective Saunders and the accused was remanded until Saturday. Magistrate Henderson refused an application of E. J. Henneberry, counsel for the defence, for bail, and remarked that Owen McCann, the injured man, was reported from the hospital to be in a serious condition. He had not regained consciousness since the accident. The magistrate also said that he would not give judgment until there was definite development in the injured man's case.

Today's Evidence. Policeman Gaudet said he was on duty at the March Bridge on Saturday night about 12.20. An automobile had passed and he had heard someone calling for a policeman. He went to the car and found Walter Leonard of Rothesay. He had got into the car and they had overhauled another car near the McAvity plant. Crawford had been driving the other car. He had inquired of him if he had hit anyone in Prince Edward street and Crawford had replied that he did not know. He had then told Crawford to drive to the police station, woman and two other men were in the car at the time. There was no sign of Crawford being under the influence of liquor.

Policeman Hatt said he was talking to Crawford at the central police station on Saturday night. The man had been very nervous and there had been the odor of liquor on his breath. Walter Leonard of Rothesay testified that he was in Prince Edward street in his car about 100 feet behind another car which had struck a man near Brunswick street. He intended to stop but he had gone after it to get the number. At the Marsh he saw that the number was 5988. He decided to stop and go back but saw a policeman and took him in charge of the other car. He had his name in the policeman and gone home.

To Mr. Henneberry he would say that a person's body would bend a fender. The evidence of William Garvin, owner of the car and one of the occupants at the time of the accident may be introduced later.
