WAR HAS BEEN DECLARED BY AUSTRIA AGAINST SERBIA

Official Notice Of Outbreak Was Sent To Government of Balkan State Today

ACTION OF GERMANY BROUGHT THINGS TO CRISIS

Refused to Accept British Suggestion of Conference of Ambassadors in Interests of Peace—C. P. R. Stock Takes Tumble—British Navy Preparations for Eventualities—Austrian Troops in Belgrade

"Austria has declared war upon Serbia," was the substance of a telegram received over the brokerage wires this afternoon by J. M. Robinson & Sons, F. B. McDowdy & Co., and McDougall & Cowans.

C. P. R. went off six points on the war news, and stood at 170 at lunch time.

The whole fabric of the market is shaky on the assumption that war had actually been declared or would be within a few hours.

This news, coupled with the press despatch confirming it and announcing that two Austrian army corps had crossed the frontier to occupy Belgrade made the situation look as serious as possible.

A Vienna despatch to The Times through the Canadian Press says: "Austria has officially notified Serbia of a declaration of war."

FOLLOWS CLOSE ON GERMANY'S REFUSAL

Vienna, July 28.—Austria today declared war against Serbia. Official notification was sent to Belgrade for transmission to the Serbian government. This action was made as soon as the Austro-Hungarian government was notified that Germany had refused to become a party to any conference having for its aim the mediation of the difference between Serbia and Austria.

The government gave formal notice through the British ambassador here that it would refuse to halt hostilities pending the result of such a conference, and shortly afterward issued the declaration of war.

London, July 28.—There are no new developments in the near east situation, stated Premier Asquith in parliament this afternoon. "I hope," he added, "that no unfavorable inference will be drawn from this statement."

Serbia Defiant

Kraguyevats, Serbia, July 28.—"We will crush Austria." With these proud words King Peter of Serbia today proclaimed himself and his country ready for combat and set at rest rumors that he was urging Prince Alexander to flee to Austria without giving battle.

"By calling upon all the reserves," said King Peter, with flashing eyes, "we will be able to put half a million men in the field. Every man is resolved to perish in the last ditch, rather than allow a country, which has just risen after 500 years of oppression, to be crushed. My Serbs are equal to a million Cossacks, Hungarians, Germans, Ruthenians and Slavonians who form the Austrian army."

The Danube Crossed

London, July 28.—Reports received in Paris, Berlin and London, today indicate that Austrian troops have crossed the Danube into Serbian territory.

Two army corps occupied Belgrade without resistance according to word reaching the Austrian embassy in Paris. Unofficial reports in Berlin and London declare a detachment of Austrians invaded Serbia at Mitrovic, fifty miles northwest of Belgrade. The Serbians, it is said, withdrew before the advance of the Austrians.

Vienna, July 28.—Austro-Hungarian patrol boats captured two Serbian ships carrying arms and ammunition near Kocovar today, according to a despatch received here. Serbian troops are reported to have been defeated by invading Austrians, about fifty miles west of Belgrade.

The greatest patriotic demonstration ever witnessed here occurred last night and today great throngs marched through the streets of the capital with angry cries of "Down with Serbia" and "We want war with Russia."

London, July 28.—The refusal of Germany and Austria-Hungary to participate in a mediation conference on the Austro-Serbian conflict, reports of the rapid movement of Austro-Hungarian troops, and the persistent downward trend of European stock markets, were the chief news items today.

Berlin, July 28.—The public here was very nervous today and alarmist rumors continued to circulate. A run on the savings banks which the poorer classes depend upon for their money, was resumed this morning. The stock market was demoralized by the news of a special session of the Reichstag called by the German government to discuss the situation.

Hopes of peace faded today when a ministerial council called by Emperor William at Potsdam adjourned without any announcement that Germany would accept England's proposal. "Germany's line of action has been settled," said a prominent government official, but he refused to give any details. No secret was made of the fact that government circles regarded the situation as most grave. The Kaiser took part in the cabinet meeting.

In Serbia

Belgrade, July 28.—Via indirect route the capital for the country districts in spite of the advice of the authorities, while there has been a great exodus of Austrians and Hungarians from Belgrade and other parts of Serbia. Perfect order prevails in the capital, the police duties being undertaken by a corps of volunteers composed of students.

Military preparations are being carried out with feverish activity. They have been concentrated in fortified positions, the headquarters of the army being established at Kraguyevats, but in the event of necessity they will be transferred to Knin, ninety miles southeast of Belgrade.

More Settled on London Stock Exchange London, July 28.—A feeling of uncertainty prevailed at the opening of the stock exchange here today, but conditions were not so panicky as they were yesterday. British consols opened at 92 1/2, then fell by slow stages to 91 1/2, but soon rallied to 92. Continental favorites were offered freely at first but gradually recovered.

Canadian Pacific were again the weakest feature of the market on the continental settlement liquidation. They went to 4 1/2 below par, being quoted at 176, but before noon, had regained 178 1/2.

Dealings on the foreign markets were still a matter of negotiation, the tone being steady.

Troops Moving

Berlin, July 28.—Reports from the Austrian border state indicate the transport of the 8th and 9th Austrian army corps from Bohemia toward the Serbian frontier began yesterday and that there was no other traffic on the Bohemian railroads except troop trains. The two army corps in Bohemia consist of thirty-two battalions of infantry with a large number of quick firing machine guns, six regiments of cavalry, two regiments of field artillery, and two regiments of the army service corps.

The German battalions today telegraphed offices in Austria-Hungary will accept messages only at the sender's risk. The concentration of the German fleet in some waters.

The Austrian ambassador to France today said it was probable that active hostilities between Austria-Hungary and Serbia had begun this morning.

Italian warships visiting the Adriatic today were ordered to return immediately to Italian waters.

Clyde were ordered today to return immediately to Italian waters.

Mobilization of the Belgian army began today.

There is a financial panic in Kiel and other towns in Germany. Runs have started on the savings bank.

All Russian frontier coasts have been strengthened. Eighty thousand men have been distributed along the German border alone.

OTHER CONDUCTORS GO BACK TO WORK

Hearing In The Street Railway Matter Is Ended

All the eleven men who were dismissed by the St. John Railway Co. have been reinstated. With the exception of Conductors Blendon and Brazilian, the others had been reinstated in the settlement of the strike, and the twelfth man, Frederick Hanney, former president of the union, had resigned. The company agreed to give a hearing to the remaining two conductors, and it was ended with their reinstatement this morning.

The directors met this morning in the office of Weldon & McLean. The members of the board present were Col. H. H. McLean, M. P., Senator Thorne, R. E. Emerson and James Macneil. The directors were prepared to continue the hearing, with evidence to support their denial of the charges, but after a consultation amongst the directors, Colonel McLean, president of the company, announced that since the other nine men had been returned to the employ without a hearing, it had been decided to reinstate the remaining two as well. The hearing was accordingly ended.

Government Gives Gould The Valley Railway And \$400,000 As Cash Bonus?

Counsel's Interpretation of The Profit And Loss Account

Ten Per Cent For His Construction Company's Profit Added To Cost of Construction—"Items Which Are Included But Not Shown"—More Payments To Lawyers—Mr. Teed Finds That Company Must Have Put Up \$34,000 Cash

"Mr. Gould builds a railway, the governments pay for it, it becomes his property when completed and now he is taking ten per cent of the cost of the road as well."

This was F. B. Carvell's summing up of the evidence furnished by the profit and loss account of the Quebec and St. John Construction Company at the morning session of the legal inquiry.

Mr. Gould is practically the whole railway company and he is 99.9 per cent of the construction company. As the former he made a contract with the government to provide a railway; as the latter he made a contract with himself to build it. In one capacity or the other he sub-let all the work but, for the arduous task of passing the money from one pocket to another he charges the government ten per cent which should have been a margin of at least \$400,000.

This situation made even the commissioners on the bench show their surprise when it was brought to light.

Although some of the amounts charged aroused the curiosity of counsel and commissioners the amounts which have not been charged received a share of their attention. After a search for the details of a payment Commissioner Fisher asked: "Is that one of the items which are included but not shown?"

Mr. Carvell also spent some time trying to locate a payment of \$5000 to A. H. Hamilton but was unsuccessful. He was able to assure the witness that the payment had been made, although the latter admitted that they tried to charge up everything they could, there seemed to be no trace of it in the books.

"Another of those items which are included but not shown" said Mr. Carvell. "That were simple payments to other legal agencies, Messrs. Weldon & McLean, services, \$1,500; disbursements, \$608.78; Heath and Andrews, August, Me, \$405; Paxon, Cohen and Gordon, New York, \$670.09 and J. N. W. Winslow, another \$2,000."

Towards the close of the session Mr. Teed drew from the witness the statement that, according to the books, the amount of cash expended and the amount on March 31 was \$34,645.55 greater than the government allowances to that date.

Ralph D. Hoban rounded out an entire week on the witness stand today and when his court adjourned he was asked to furnish some tabulated statements in addition to the verbal evidence he has already given.

The commission resumed for this morning's session at ten o'clock with Ralph D. Hoban, accountant for the construction company, on the stand for his sixth day's evidence.

Mr. Carvell, continuing his re-examination on the profit and loss account in the ledger, asked about the first entry. This was an entry on the credit side, dated May 4, 1914, for \$841,766.74. Reference to the journal gave the explanation as balance due on cost of construction in accordance with new contract.

The witness replied that the credit side of the ledger, asked about the first entry, was entered \$338,222.74. The journal explained this as ten per cent on construction cost as per the auditor's report \$841,767.40 less J. D. Seelye's account of \$16,000, interest on bonds, \$14,640 and reserved entry \$14,000; net total \$338,222.74.

Mr. Carvell asked if any domain subsidies had been received since the new contract was made on April 15, 1914. The witness replied that the last payment shown was in January 1894.

Mr. Carvell then offered in evidence a letter from the federal department of railways showing the amounts received and said that it showed a difference of about \$800. The witness explained that J. N. Jones of Woodstock had filed a claim against the subsidy on account of Connors Brothers and the department paid to them direct \$796.50, thus reducing the payment to the construction company.

Mr. Carvell—Was that charged to construction? A.—Yes.

Q.—And ten per cent charged on it? A.—It will be.

Q.—The witness said that the interest paid in June was \$82,000. This was made up by the \$13,300 and another \$4,800 deducted from progress estimates and the balance was borrowed from the Presidential Trust Company.

Q.—Do you know anything of an amount of \$500 paid to A. H. Hamilton about January 1913? A.—Not on my books.

Q.—One of those cases where it is paid, but not shown? A.—No. It may have been paid from the New York office.

Q.—Where is it charged up? A.—I do not know.

Q.—Try to find it. I think it should be there.

A.—We generally try to charge up everything we can, I will see if I can. Mr. Carvell said he thought he could throw some light upon the payment to Mr. Hamilton and produced a voucher dated Jan. 31, 1913, showing payment to Weldon & McLean for legal services, \$1,008.78. The details were for retainer, conferences with promoters, government, Hon. Mr. Haes and bankers, letters, telephone conversations, incorporation of St. John & Quebec Railway Company, etc., dating from Dec. 1, 1909 to April 19, 1911. The account also contained charges for disbursements totaling \$908.78, making the grand total \$2,008.78.

Another voucher dated Sept. 30, 1913, was produced. It covered \$200, an amount received from Mr. Macdonell by Weldon & McLean.

Mr. Carvell—Is not that the same \$200 shown in the disbursements in the other account? A.—I could not swear to that. The date and amount are the same.

Q.—Can you find \$200 charged? A.—I do not know.

Another voucher produced showed a payment of \$405 to Heath and Andrews, August, Me, for legal services.

Q.—Do you know what services they performed? (Continued on page 10, fourth column)

SEVEN THOUSAND IN NEW YORK ON STRIKE

New York, July 28.—About 7,000 members of the Inside Iron Workers' Union in this city went on strike yesterday, demanding a wage increase of 20 per cent, a fifty-three hour week, instead of sixty or sixty-five hours, recognition of the union, and more sanitary shop conditions. About 250 places are affected.

Mr. Carvell—In this case Mr. Gould is building the road, but the government is paying for it, and Mr. Gould wants ten per cent profit on the deal as well as the railway which he will own when it is built.

Mr. Teed—That is not a fair statement. Mr. Carvell—I cannot see anything else in the books.

GOOD WORK OF SHAMROCK ON OCEAN VOYAGE

Challenger Has Arrived At The Azores

PROVED GOOD SEABOAT

Took Heavy Seas in Fine Style Under a Severe Test—On One Day She Averaged Ten Knots For Twenty-Four Hours

Fayal Azores, July 28.—Shamrock IV. arrived here today after seven days and three hours from Falmouth, England. During her trip she proved herself a good sea-boat. In hard blows she took the big sea like a duck, and slipped through the water with great ease.

Before the Shamrock made farewell to the English coast Colonel Neil, on the steam yacht Erin, proposed a challenge hard to test her gear and her ocean rig. Everything was found in good order, and the little racer made good weather out of the hard blow and the drenching rain storm which she encountered on the run from Liverpool to Plymouth, where she anchored for the night.

On the next day at dawn the Shamrock made for Plymouth, which she reached at eight o'clock in the morning in very stormy weather. She left Falmouth at five o'clock on the morning of July 21 for her run by way of the Azores to New York. At noon she was ten miles west of the Isles, and then Colonel Neil decided to take her in tow as a dead calm had fallen and the tide was setting her back. The same evening the challenger picked up a breeze, and the line was slipped. The slow motion increased to a hard north-westerly wind which churned up a heavy sea.

The contest, extending over six weeks, she rose easily to each wave. On that day she averaged ten knots an hour for the twenty-four hours.

On the following day conditions were similar, but the weather was finer, and the line was slipped. The slow motion gradually slackened until at times there was a dead calm. Then Colonel Neil took the Shamrock made a fine picture as the breeze strengthened sufficiently for her to run under her own sail. The best runs were 240, 222, 195, 142, and 162 knots.

Success Tools

Writing on the benefits of newspaper advertising to the national advertiser, Richard A. Foley, of Philadelphia, says: "Newspaper advertising shortens the process of building success, and sweetens the task. In its co-operation to business it is somewhat different from magazine advertising. It obtains quicker and more centralized results. It provides a method of intensive cultivation. "It has a peculiarly awakening effect upon community because while the men and women of, say, Philadelphia, Chicago, or Milwaukee might know in a detached sort of way about national products, the importance of their own use of these products is much more strongly impressed upon them by the rather personal application of articles advertised in newspapers, to their own lives and affairs."

THE GOVERNOR OF BERMUDDA HERE

Sir George Bullock Arrives on a Tour of Canada—Governor Wood Welcomes Him

Lieut. General Sir George Bullock, Governor of Bermuda, arrived in the city this morning on the R. M. S. P. Line Chaleur, on the start of a vacation trip in Canada, extending over six weeks. He was met by His Honor Lieutenant Governor Wood, who welcomed him to the city. The governor is accompanied by the lieutenant-governor, Col. H. H. McLean and J. E. Moore, Sir George will make a trip about the city and will be entertained afterwards at the bungalow.

Sir George said this morning that his trip was solely for pleasure and he expected to be in Canada for about six weeks.

The Chaleur arrived about eleven o'clock and docked at the Pettibone wharf. She brought fifty-five passengers and a full cargo of general freight. Among the passengers was a party of military men from Bermuda on their way home to England on shore leave.

Hon. Suen, a Chinese, was also on the steamer, bound for Hong Kong.

TEN YEARS AND FINE FOR BELGIAN BANKER

Brussels, Belgium, July 28.—Nestor Wilmar, a Belgian banker, railroad man, newspaper proprietor and sportsman, was sentenced today to ten years' imprisonment and \$800 fine on a charge of swindling the public out of \$3,400,000 by over issuing shares in the Ghent-Brussels Railway in 1912. Fire accomplices also were sentenced.

MORE FIRE HYDRANTS

The department of water and sewerage will start tomorrow to renew all the hydrants in Charlotte street between St. James street and King Square. In place of the single nozzle hydrants now in use, the new three-way fire-plugs will be installed and a greatly increased capacity will be provided for. Instead of a four inch pipe connected with a three inch stop-cock, the new plugs will be served with pipes measuring six inches with stop-cocks of the same dimensions.

Another provision has been made for the installation of fifty new hydrants this year and in each case, the old one way hydrants will be replaced with the more modern form with three connections. The increase in the size of the lead, although it may not materially affect the force from the hydrants will greatly increase the flow and should minimize the fire risk.

CLOUDBURST BRINGS DEATH, AND DESTRUCTION OF BUILDINGS

Telluride, Col., July 28.—Two persons were drowned, fifty families were rendered homeless and fifteen business blocks, including 100 buildings, were partially wrecked last night when a wall of water ten feet high, originating in a cloudburst, descended through Cornet Canon, and flooded the town. Mrs. E. B. Blakey and Mrs. John Johnson were drowned. The damage is estimated at \$150,000.

SHOT THREE WITHOUT ANY PROVOCATION

W. J. Campbell, Forman of Garig at Thorold, Ont., Opens Fire on His Men and Injures Three—Escapes Into Woods

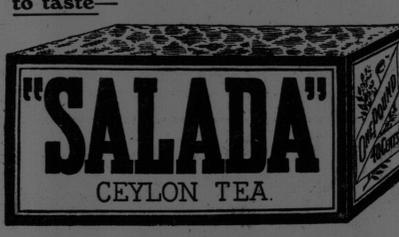

Midland, Ont., July 27—A shooting affair occurred at Port Severn, twelve miles from here, yesterday morning about 3 o'clock. W. J. Campbell, of Thorold, foreman of a gang of men on the Trent canal, and a workman named Tyrell, went to Waubesahe, where they secured a supply of liquor. On their return they were met at the dock by friends. Campbell opened fire on them with a revolver, slightly injuring D. McLeod in the body, John Hunt in the arm and J. Tyrell in the leg. The injured men claim there was no provocation. After the shooting Campbell walked to the edge of the village where several tents are erected for foreign workmen and applied for a bed. He was refused and spent the remainder of the night in the bush. He returned about 9 o'clock to learn what he had done and then took to the woods. Search by the police has failed to locate him as yet.

WORKMEN'S COTTAGES

Catholic Church in Regina Building Block of Them at Cost of \$100,000

Regina, July 28—The Roman Catholic Episcopal Corporation here has taken steps toward the erection of a block of workmen's cottages, at a cost of about \$100,000. It is expected that 200 men, at least, will be employed in erecting

these cottages, which will be rented to tradesmen and mechanics in Regina at a low rate. The city has promised to install the necessary water and sewer connections. The houses will be fully modern in every respect, containing seven rooms and bath and heated by hot air furnaces. Many costly residences are being erected here. The latest for which a permit has been issued is for J. E. Doerr. The cost will be in the neighborhood of \$100,000.

TORONTO HOTBED OF REVOLUTIONISTS

Diaz and Huerta to Meet at Queen City and Engineer Counter Revolution For Purpose of Regaining Power in Mexico

Toronto, July 27—That a new Mexican revolution will shortly be started and that Toronto will be the centre of a conspiracy headed by Gen. Huerta, and Gen. Felix Diaz, was stated today by Senor Luis Elguero, ex-member of the Huerta delegation which attended the mediation conference at Niagara Falls, who arrived in the city, with a view to making arrangements for the proposed counter-revolution, and that way the president Huerta was expected, with his colleagues, in a few days.

After spending a brief time in the city, Senor Elguero said that he would proceed to Montreal to meet Huerta. He and others, he said, had suffered heavily by the condition of anarchy prevailing in Mexico, and added: "The fact that we are supporting General Huerta in the revolution now being planned will be a potent factor."

Health and Beauty Hints
(By Mrs. Mac Martyn)

L. S.: Every woman wants to be slender nowadays, so I don't blame you and since this reliable and inexpensive home-remedy, parrotol, was discovered, we may all make our figures to suit the latest mode. Parrotol allows you to reduce flesh without danger or discomfort. It leaves the skin firm and un-wrinkled. Simply get four ounces of parrotol from your druggist, dissolve it in 1/2 pint of hot water and strain. Take a tablespoonful three times a day. Avoid cereals. They are too starchy for the eye. This is a simple, economical tonic. If troubled with dark rings or flabbiness under your eyes try saturating a cloth in the solution and laying it over the eyes while lying down. It rests the nerves and starts circulation. Both are necessary to beauty of eye.

HILLEN O.: You are one of many who ask me about egg shampoo, and I gladly quote an eminent London beauty specialist: "The silny egg cannot dissolve the scalp impurities, and consequently, the substance sticks, decomposes, and so the hair to assume a dead, dull color. Try the fine preparation made by stirring a teaspoonful cantroxin in a glass of water. It will bring out new beauty-possibilities in your hair, will cure and prevent dandruff, and promote growth and fluffiness. It removes excess oil."

LILLAH G.: I don't believe your skin is so unattractive as you are afraid, and I am sure it can be easily fixed. There is a preparation I am always glad to recommend because it is so reliable, cheap and easily made. And it is a splendid substitute for ordinary face powder which is a plan for rehabilitating the trade, and it was decided that the only corrective lay in a drastic curtailment programme. Other eastern distributing centres have failed to develop any features of a constructive nature, but the situation appears less acute and more along the line of the routine summer lethargy. There is no spot market, and the oldest of farmers report the dullest situation in years.

The long expected improvement in the bituminous movement from the Pittsburgh district, up the lakes has failed to materialize, nor does there seem to be any immediate prospects for such. As a rule, tonnage figures are running close to those of last year, and consumers have little surpluses. Both spot and contract prices are subject to cuts. With the realization that the Ohio mines could not get under operation before Aug. 1, and even then only under a heavily curtailed capacity, a somewhat better tone has developed, particularly in the domestic grades. The lake trade has proved decidedly disappointing so far, although preparations are being made to rush a heavy tonnage into the Northwest during the balance of the season. A distinctly better tone prevails as to the future.

The improving tendency in the middle-western market is being offset to a certain extent by the rapidly increasing production, and the delay in getting the crop movement under way. The demand is slow opening up and the disappointment is general throughout the trade. The labor scarcity, due to the heavy call for men in the farming districts, is interfering with handling the coal at the large distributing centers. The high-grade fuels are holding steady as a rule, and advances in the circuit are scheduled for August 1.

STREAMERS IN COLLISION; LITTLE DAMAGE DONE.

London, July 27.—The British steamship Missoua, passed Greenland this evening with her bows damaged. She reported having been in collision with the Red Star line steamer Zealand, the damage to which vessel was not known. THE RESPONSIBILITY

When anything happens in St. John, or in any other city, of which the people are ashamed, there commonly is an attempt on the part of nearly everybody to evade the responsibility. There also is, as a rule, a series of resolutions to do better next time. We have passed through these periods of shame and good resolutions on several occasions in St. John, and now, once more, we find ourselves at the good resolutions stage.

The settlement of the strike the other day was so complicated a compromise that while it resulted in the resumption of the car service and the re-employment of the striking employees of the company, the principles, such as they were, which were involved in the strike, remain unsettled. That is to be regretted in itself, but a much more serious thing, and one touching the public welfare more closely, is the fact that public disorder has far beyond the control of the authorities, and left behind the feeling that if the city was confronted by serious disorder this week or next we have not as yet an adequate plan to preserve the public peace, or any outstanding group of men in authority whose coolness, whose sane judgment, whose courage, and whose sharp decision, might be depended upon to win through the affair with credit to themselves and to their fellow citizens.

Thoughtful men realize that the unchecked spirit of violence which was allowed to flourish so freely for many hours on Thursday and on Friday, presents the one big issue in the recent situation, and that this issue still confronts us.

Other cities have set their houses in order in this respect, and St. John unpleasant and difficult as the work may be, must similarly set its house in order. We must all trust that it never will be necessary to have the Riot Act read in St. John in our day and generation. But while this plumb wish may be a common one at this time, practical men must look beyond that, and say to themselves that if, unhappily, it should be necessary to read the Riot Act again, and publish proclamations warning all citizens to avoid the points of danger in the public streets and squares, then these proclamations must be obeyed and citizens, respectable or otherwise, must be made to understand that they must go home, or at all events avoid congregating in the troubled areas. They must be made to obey, not in order to demonstrate the efficacy of authority, but for their own safety. Crowds of respectable men and innocent women and children are used in times of disorder as screens from behind which may be sheltered cowardly miscreants who throw stones. These screens prevent effective action by police or militia.

This, undoubtedly, is the first problem St. John has to deal with. It will require strong men to meet it, and they may encounter displeasure and difficulty in meeting it; but we must remember that if the problem is entrusted to weak men the danger will fall upon our citizenship generally, and is likely to be accompanied by grave destruction of life and property. When the authorities of the city find themselves confronted by such issues as stood out clearly the other night in Market Square, it is better to look such matters steadily between the eyes and not attempt to shuffle and minimize them. The first requisite to effective action is the frank recognition and understanding of the case in hand. When the mob again tries to take charge of the city, as it will, it must get a lesson that it will remember. Preparation for that by effective organization and re-organization now is the first factor in the situation today.

PROTECTING THE INVESTORS

The publishers of "Life" are getting up a railway edition to be dated August 4 and to contain, according to the announcement, "a description of such railways as may be in existence in the country at that time." The question of what American railways and railway companies will be in existence at that time is more or less speculative. The government is proceeding to press a suit looking for the dissolution of the New Haven, and several of the smaller stockholders have entered civil action against the directors for the recovery of money invested in the road, while a large number of the stockholders are uniting in an effort to recover from the house of Morgan, Rockefeller, et al, the plunder of a of the plunder they are said to have

secured in the frenzied finance of the past decade.

The whole matter promises to result in the advantage of stockholders in corporations generally. No more promising consistency can be found anywhere than that which the New Haven serves. The stock which is now selling around fifty was worth five times that amount a year or two ago. It was considered such a safe investment that trustees were allowed to invest the money of the widow and the orphan in the enterprise as they would in a savings bank; but men of the highest standing, who would not consider personal acts of dishonesty, set about stinging by syndicates and plundering the impersonal corporation. The probability is at present that they will have to pay in their own proper persons for the improper acts they performed as directors of a corporation. This will make other directors more careful in the future.

Corporations have no souls, and men, supposedly with souls, seeking to perform soulless acts and afterwards escape with impunity, have been doing so through the corporations. They are like oranges, said the same. Have you deceived me?

Charles—"No, mother, we didn't eat your oranges. I ate Jack's and he ate mine!"

"Arry—"And wot kind of people do you 'ave down 'ere in the season?"

The Shipper of the Mary Ann—"Well, sir, all kinds. Some of 'em very common. Some real ladies and gentlemen, an' some like yourself, sir, kind of 'alf and 'alf."

The weather man is making up for his tardiness in bringing summer to us.

Premier Flemming's picture has not appeared in the Standard for some weeks. And yet he has been much in the public eye.

Property damaged, people injured, lives placed in jeopardy while a mob held the central part of the city. It seems unreasonable to say that the police do not know any of the rioters.

If the writer of the pathetic letter signed "Street Cleaner" will send his name in confidence to The Times his communication will be published.

The Times' article of yesterday recounting the result of a citizen's observations in an afternoon's walk makes it strikingly apparent that a firmer grip must be taken by the police and by citizens generally in looking after the danger points of the city, and in applying the ounce of prevention as well as the pound of cure.

Manchester, N. H., July 27—Oddie Ernschaw, at native of St. John, died here suddenly on Sunday evening. She lived in New Brunswick for many years before coming to the granite state. The deceased is survived by her husband, John Ernschaw, also from New Brunswick, a daughter, Miss Delina, of St. John, a son, Alfred, of this city, and several brothers and sisters. Mrs. Ernschaw was rushed to the Notre Dame Hospital and died there.

The death of Mrs. Charles A. Morrison occurred suddenly at her late residence, Lancaster Heights, yesterday. She leaves a sorrowing husband, her mother, two sons, two daughters, two sisters and one brother. The sons are Robert, of Boston and George at home. The daughters are Mrs. G. L. Brown and Mrs. L. C. Cougle, both of Fairville; the sisters, Mrs. Hamner, and Mrs. Barker, both of New York. The brother is Sandy Queen, of Boston.

The death took place on July 23 at Greenwich, King's county, of Mrs. Anna M. Brown, widow of Henry Brown, after a lingering illness of paralysis. She leaves a mother, two brothers, three sisters, five sons and three daughters to mourn. The sons are John, Henry, Robert, Stanley and Frank and the daughters are Mrs. (Capt.) John Livingston, Mrs. B. Bakken, and Miss Gertrude, all of St. John. The late Mrs. Brown was highly esteemed in St. John and Greenwich and the funeral at Brown's Flats was largely attended. The sons acted as pall bearers.

LIGHTER VEIN

Moss' Miss the Chance
 The latest man in the village was actually running and running hard. Before him the awe-stricken spectators fed like chickens before a touring motor car.
 On, on he ran, until—crash!—he landed plump into the portly vicar.
 "What—what is the matter?" gasped the reverend gentleman, in astonishment, as his assailant picked himself out of the mud.
 "Can't stop, sir!" came the hurried reply. "I've just 'ard of some work."
 "And have you got the job?" asked the vicar, interestedly.
 "Don't know, sir; just goin' to see."
 "What is it?" asked the clergyman, in amazement, for this particular 'black sheep' had never been known to work before.
 "Some washin' for my wife."
 "And, like a streak of lightning, he was off again."

Might Not Have Been
 The case had reached a critical stage. Even the judge seemed to awaken to a live interest in the proceedings for the most important witness was about to be cross-examined.
 "So you are the lady's maid?" began the relations' barrister.
 "Yes, sir."
 "And where were you at seven o'clock on the evening in question?"
 "In my lady's room, sir."
 "For what purpose?"
 "Now think," he said "I want you to be very careful in answering this question: Was or was not your mistress in the room at the time?"

Mother—"I gave each of you boys an orange. Charles, you said you wouldn't eat yours till after dinner. And you, Jack, said the same. Have you deceived me?"
 Charles—"No, mother, we didn't eat your oranges. I ate Jack's and he ate mine!"
 "Arry—"And wot kind of people do you 'ave down 'ere in the season?"
 The Shipper of the Mary Ann—"Well, sir, all kinds. Some of 'em very common. Some real ladies and gentlemen, an' some like yourself, sir, kind of 'alf and 'alf."

Mother—"I gave each of you boys an orange. Charles, you said you wouldn't eat yours till after dinner. And you, Jack, said the same. Have you deceived me?"

Where Shall I Invest My Money?

This is a question that often bothers us when we have any surplus money. Some people are born rich and do not have to provide for independence, others are looking for investments that will bring them in good dividends. The Silver Black Fox Industry in P. E. Island has made thousands of investors wealthy. In 1913 alone, 30 companies paid to their shareholders an average cash dividend of 105 p. c. Is there any other industry that would do this? 1914 dividends will be even greater than before. Now is the time to invest. Send in your application today to the

St. Lawrence Silver Black Fox Co., Ltd.
 Head Office—Charlottetown, P. E. Island

Foxes Capitalized at \$17,000 PER PAIR

This capitalization included all expenses for the first year up to September 1, 1914. In other words, the breeding stock will be ranch, cared for, fed and all expenses paid for the first year without any cost whatever to the shareholders. Instead of paying the 10 per cent to \$3.18 per cent increase charge paid to most ranches this money will go directly into the pocket of the investor.

Your Investment is Protected

Each director is placing practically all his fox investments in this enterprise and the directors have their interests so involved in this ranch that they cannot afford to let their interest and watchful care lapse for a moment. The best breeding stock has been secured and one of the strongest, safest and most convenient ranches yet established is being erected and equipped.

Wm Moran, Secretary-Treasurer
 St. Lawrence Silver Black Fox Company, Ltd.
 I hereby make application for shares of the capital stock of the St. Lawrence Silver Black Fox Co. Ltd. Char. lotto town, P. E. Island and agree to pay the balance on or before the first of August, 1914.

The History of The Industry

If you inquire, you will find that the majority of rich men in P. E. Island have made their money in the Fox Industry, which, while yet in its infancy, shows the probability of making a great many more rich men. This being the case, you should not let this opportunity of increasing the earning powers of your money pass without giving it your careful consideration.

Directors ARE Reliable Men

This is a most important feature when you consider that these are the men that you must look to for a square deal. Read the list over carefully and you will certainly conclude that an investment here is as safe with better prospects than money in the bank. This Company has only a limited amount of stock for sale. Secure yours today. This is a gilt-edged proposition.

AMUSEMENTS CROWDED HOUSE FOR SECOND WEEK OPENING

Musical Revue Has Caught The Fancy of The People and Pleases Them Immensely

More than two hours of sparkling and wholesome comedy, bright and haunting musical novelties, catchy and tuneful song numbers, and new and fascinating dance specialties afforded delight last evening to a particularly large audience in the Opera House, where Mack's Musical Revue were again heartily received on the opening of their second week of features.

It would be difficult to mention all the numbers deserving of special notice, but among those which were appealing were "My Home Town," by Frank Yennette, and chorus; "In the Heart of the Rose," by Elyse Wallace, assisted by James Carney and chorus; "Mary, You're a Little Bit Old-fashioned," by Ralph Austin and Elyse Wallace; "In the Candle Light," by Alice Wallace and chorus; and "I Want Some One to Waltz With Me," a descriptive number by the whole company, scored a distinct hit.

IMPERIAL WAS CROWDED TO SEE ENGLISH PLAY

"Lord Chumley"—New Vaudeville, New Singer Make Fine Programme

THE MILLION DOLLAR MYSTERY DRAWS THEM

Beginning of Noted Serial at The Unique Attracts Large Number

The Unique Theatre was the mecca for local picture fans yesterday. From early in the afternoon until late at night lovers of the silent drama wended their way to the cosy Charlotte street theatre attracted there by the announcement of the beginning of Thambousser's great serial photo story, "The Million Dollar Mystery."

Little can be said about the story itself, it being rather early to voice an opinion but if the next twenty-two chapters are as good as the first, then indeed an epoch will become established, and a picture feature will have been placed before the public that for real merit coupled with all that goes toward making a film production successful will be hard to excel.

Chatham, Ont., April 3rd 1913. "I am a veteran of the Crimean War and the Indian Mutiny, volunteering from the Royal Artillery into the Royal Engineers, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British Government. Pierce hand-to-hand fighting and continual exposure left me a great sufferer from Rheumatism, so much so that my legs swelled up, making it impossible for me to walk."

Badin, Marguerite Snow and Sydney Bracey. The Million Dollar Mystery will be repeated at the Unique this afternoon and evening while every Monday and Tuesday for the next twenty-three weeks will be given over to the exploiting of the mystery story.

GETTING AT COST OF VALLEY ROAD

Dugal Inquiry Is Nearing The End
MORE CURIOUS FIGURES
Cost Increased by \$26,000 After Investigation Was Ordered By Reclassification of Grading—Mr. Hoben Still on Stand

Ralph D. Hoben, accountant for the construction company, was on the stand all afternoon when the Dugal inquiry into the Valley railway charges resumed yesterday and will continue his evidence this morning.

Mr. Teed put in a statement copied from the books of the Prudential Trust Company showing the account of the National Security Company.

Eventually the document was admitted. Mr. Teed said the document showed the appropriation of the \$48,000 which had been deposited to the credit of the St. John & Quebec Railway Company.

They were security for the bonds which they collected themselves and had the money in hand when the government reduced their bonds to \$15,000.

Mr. Teed asked witness to make up a statement showing the cost of the road up to March 31, 1914 and also up to April 17, the date of the statement prepared by him showing the cost of the road up to April 30 and March 31, 1914, to support claims on the government for additional payments.

The statements were put in as evidence. The statement showed the cost to March 31, 1914, at \$3,590,722.18, less deductions for Dominion Iron & Steel Company's invoice and the Dominion Bridge Company's progress estimate, \$600,046.26, leaving \$2,990,675.92 as the net total.

Q.—What does your register show as the total interest paid up to March 31, 1914?
A.—\$107,021.63.

The common council met in regular session yesterday afternoon with Mayor Frink presiding. Also present were Commissioners Wigmore, McLellan, Russell and Potts, the common clerk and road engineer.

At a meeting of the executive of the Trades & Labor Council held in their rooms last evening it was decided to hold a big demonstration next Saturday afternoon and a committee was appointed to look after all the arrangements.

RUSSIAN FIRE ON GERMANS.
Bydtkussen, Germany, July 27.—Shots were fired this morning by a Cossack patrol across the German frontier, on the alleged ground that an attempt was being made to cross the border at a wrong place. Germans say that the group fired upon by the Russians was a party of Cossacks. Much feeling has been caused by the incident.

DIARRHOEA and VOMITING
ATTACKED HER LITTLE BOY
He was Cured by Dr. Fowler's Extract of Wild Strawberry
Mrs. Wesley Pringle, Robin, Ont., writes: "It is with great pleasure I can recommend Dr. Fowler's Extract of Wild Strawberry. When our little boy was 3 years old he had the worst attack of diarrhoea and vomiting I ever saw. We called in our doctor, and he came eleven times from Tuesday morning until Saturday night, but still no change. We expected each moment to be the last of his suffering, as the doctor said he could do nothing more. Mr. Pringle was going up town Saturday night and was advised to try your great and wonderful medicine. He got a bottle, and about 9 o'clock the first dose was given, and was kept up as directed, and when the doctor came on Saturday he said, 'what a wonderful change. Why, your little boy is going to get better.' Then we told him what we had given him. He said, 'keep right on, he is doing well.' I often think, as I look at my boy, growing to be a man, what great thanks I owe to Dr. Fowler's Extract of Wild Strawberry." It has been on the market for 67 years, so you do not experiment when you buy it. Insist on having "Dr. Fowler's." There is nothing "Just as Good." Price, 35 cents. Manufactured by The T. Millers Co., Limited, Toronto, Ont.

In Thousands of Homes
BEECHAM'S PILLS
are justly famous because they have proved to be so reliable as correctives or preventives of the sufferings, dull feelings and danger due to indigestion or biliousness. If you will try them to cleanse your system, purify your blood, tone your stomach, stimulate your liver and regulate your bowels, you will know why so many rely on Beecham's Pills to Insure Health and Happiness

Baseball Challenge. The Electric of West Side challenges the Bentley street Stars to a game of baseball to be played on Saturday, August 1, at 2:30 p. m. on Queen Square, West End, and would like an answer through the Times.

ATHLETIC. New World's Record. Chicago, July 27-Patrick Ryan, of the New York Irish American Athletic Club, broke the world's record in throwing the 56 pound weight at the Irish American athletic club at Federal League park yesterday. He made a distance of 42 feet, 10 1/2 inches, standing in a seven foot circle and using both hands. The former record of 40 feet 6 1/2 inches was made by M. J. McGrath in Montreal in 1911.

THE TURF. Grand Circuit Races. Detroit, July 27-More exciting racing than furnished at today's Grand Circuit opening at the State Fair grounds seldom has been seen in Detroit. Of the four events on the card, two required six heats each to decide the winner. One race went one heat and the fourth was won in straight heats.

TWO BEARCATS

Roger Bresnahan and the bear cub mascot of the Chicago Cubs. The Cubs haven't had a bear since the old championship days and this youngster is expected to bring a flag to Chicago.

By Hugh S. Fullerton. Roger Bresnahan has furnished one of the real big surprises of the season. A year ago the scribes were predicting the speedy decline of the rather corpulent Cub catcher, but he has fooled them all and it is doubtful if he ever has had so good a year behind the bat as this one.

From quite a star of the mask and protector with the Giants, Bresnahan went to manage St. Louis in a league deal, did so much for the Cardinals that when he came to the Cubs it was naturally noticed around that Johnny Evers would not be alone in advising the team. It is even true that Bresnahan kept out of the game because Jimmy Archer was holding down the job at the plate, tried hard enough to have a place in the management. Roger was continually picking Evers' pinch hitters for him, and whether or not Johnny accepted his judgment it was quite irritating for the latter.

"Who are you pitching today Roger?" was a common query from the bleachers and Johnny did not like it a bit. It is probably true that friction resulted. When Bresnahan did get in the game he did not show any of the old ability that made him famous.

He was continually letting in runs by passed balls, throwing wild to second and even failed to show much with the stick. But this year, working under Hank O'Day, it is different. Bresnahan himself is different. He is not the fat, slow

moving giant that he was. It is a thinner and quicker Roger that is doing the bulk of the catching for the fast-climbing Cubs during the prolonged absence of Jimmy Archer, who was badly injured down. A now weighs less than he ever did. That twenty pounds of Roger has done much to help the Cubs.

But the greater question is the apparent harmony between O'Day and Bresnahan, who by past performances has the right to believe himself a better manager than O'Day.

Umpire Fred Newton of Berryville, N. Y., writes for a decision on a play that came up in a game between Dallas and Berryville teams on July 4. It is too tough for me, so I pass it along.

The score was 9 to 7 in favor of Dallas in the final half of the eighth inning. Two out and two men on bases, when Center Fielder Callahan of Berryville came out to bat. He hit a high fly and the ball seemed to be falling back of third base when it struck a tissue paper balloon, broke through the paper and fell inside. The balloon collapsed and it descended Shortstop Leota of Dallas man onto fourth ground under it.

The wealthiest bachelor in the world is undoubtedly Alfred de Rothschild. Bachelors are very rare among his race; his single state therefore all the more marks him out for comment. Mr. de Rothschild has never married because he is the type of man who never does marry.

In his tastes, his mode of life, and his temperament he is the bachelor by choice. The busy world of finance, politics, and rare curios and paintings, the opera and his own private band have absorbed all the needs of his nature.

He has kept his freedom of action not from any reluctance to venture on the roughed seas of matrimony, but simply because the desire for marriage has never come to him. There are a number of men in the world who obviously never intend to marry; Alfred de Rothschild is one.

Yet a more gracious host, a more entertaining companion and a more courteous and hospitable man of an age that is passed; he would have shone at the court of any of the Louis.

Mr. de Rothschild's nephew, Hon. Walter Rothschild, is also a confirmed bachelor. One of the most eligible parties in the country, he has led an extraordinarily retired life, happy in his zoological pursuits.

Whilst buying a zebra would send him into the seventh heaven of delight, or reading a new monograph on the vertebrates would cause him to miss his dinner, an invitation to a society function would leave him cold. Women have never interested him, and in their society he is notoriously ill at ease. Yet it seems a pity such a fine, handsome man should have elected to avoid the fuller life of a married man.

Paul Cambon, French ambassador, is a confirmed bachelor. An entertaining man, of homely habits, he would have made an ideal husband. Diplomatic, however, seems to have absorbed all his interests, and left him a lonely man in the great Albert Gate mansion, which is his official residence.

He is well content to pass his days, when not engaged in the work of the Embassy, over the chess board, possibly happy in the knowledge that no wife will come to intrude upon his study of complicated moves.

man in the right social rank he would have married her.

Another diplomat who has never married is the Marquis de Soveral, a great friend of the royal family, formerly minister for Portugal at the Court of St. James' and King Manuel's most trusted confidant.

A courtier to his finger tips, always faultlessly dressed, never missing an opportunity of attending a smart social reception where his presence is regarded as essential, the gallant Marquis has never been persuaded to exchange his comfortable bachelor chambers in Park Square for the larger establishment which a married man would find obligatory.

I think the explanation in his case is that the attentions he has always received from the fair sex have rather spoiled him for marriage. A man who leads the entertaining life he does, who is the guest of the King and Queen one night, at the opera another night, and a third night is the centre of a fascinating group at a society ball, is hardly the man to have his mind bent on marriage.

The very popularity of the marquis has been his best safeguard against going into double harness.

Bishop of London. The Bishop of London has celebrated his fifty-sixth birthday without entering the holy bonds of matrimony. In his case a certain studious turn of disposition seems to have been the main reason for neglecting marriage, though a chaste life at London House, St. James' square, would have given His Lordship a more cheerful outlook on life.

For one who has taken such an active part in combatting the evils of social life in the metropolitan married life might have appeared more appropriate. Doctor Ingram varies his lonely bachelor life with golf, cycling, and fires, but the absence of the joys of the Benedict is reflected in an ascetic line of thought that produces books of the type of "The Men Who Crucify Christ."

In manner he is a typical example of the militant churchman frowning on the frivolity of a pleasure-saturated age. But it is pleasant to know that he has no objection to dancing when it is not too classic.
