The train is being financed by ten prominent Presbyterians of Toronto and a very large number of elders and pastors of various churches are taking advantage of the excursions to attend the meetings. The special consisted of eleven cars, six of which were sleepers, a baggage car, two first-class cars, two dining cars, and a Pullman.

With the members of his staff, Ambassador Page was driven, together with the naval and military attaches, from the hotel, where the ambassador is staying for the present, to Buckingham Palace in royal carriages. The string of carriages passing through Mayfair to Buckingham Palace attracted considerable attention. Sir Arthur H. J. Walsh, the king's master of ceremonies, accompanied the ambassador from and to his hotel.

Speaking of the audience afterwards, Ambassador Page said: "It was one of the most pleasing experiences of my life. His Majesty the King, and Her Majesty, the Queen, spoke frankly, cordially and kindly on a number of subjects. They asked after President Wilson and family and also my own family."

SIZE OF PROPERTY NOT MATTER FOR SELLER

Montreal, May 30—According to a ruling handed down by Mr. Justice Archibald, a purchaser of property having examined it before the sale, cannot claim reimbursement if the latter finds the property smaller than he understood it was. The case was that of J. Menard against Dame L. Couillard.

The plaintiff sought to recover \$1,170 from the defendant, representing that he had bought a piece of property from the latter, only to find that it contained 1,800 feet less than what he had been given to understand.

The court dismissed the case, holding that as the property was visited and examined by the buyer before the sale, the transfer was to be regarded as involving a certain piece of property, without regard to the area.

MURDER FOR MONEY FAILS OF ITS PURPOSE

Bandits Hold up Pay Wagon of Zinc Company in Illinois

La Salle, Ill., May 30—Four masked bandits held up the pay wagon of the Illinois Zinc Company five miles south-east of here last evening, killed one man and wounded three others, but \$8,000 in cash for the semi-monthly pay of 160 miners was saved by a wild dash of a wounded officer under fire of the robbers. He escaped. Ben Dierks, a former police chief, acting as guard for the company's men was instantly killed by bandits.

Regarding the grounding of the Haverford, C. P. Allen of Cambridge, Mass., said:

"We fell into the fog immediately after leaving the Mersey. It continued all night. The ships were blowing continuously in a dense fog. When the ship was brought into port today, she was blown by the waves with twenty-one feet of water in her fore hold and a considerable quantity in No. 2 hold.

The cabin passengers were mainly English. Arrangements have been made for them to resume their voyage on Sunday.

The dense fog has resulted in the delay of several liners. The Oceanic, due here at ten o'clock yesterday evening, did not arrive until three o'clock in the afternoon. She sailed again at 8:30.

ALTRINGHAM DEFEAT RESULT OF TAKING THINGS TOO EASILY

(Times Special Cable)  
London, Eng., May 30—The Altringham election result has given a galvanic flip to the rather listlessly Liberal preparations for amending the Insurance act. The London party organizers are dismayed at the debacle. Headquarters never expected the victory which the local optimists predicted, but the election was treated as a test, and the party's efforts were put forth to elicit the support of this typical constituency. The most disquieting feature from the party point of view is the suspicion that the electors are out of hand, expressing their own verdict on insurance independently of party leading.

Insurance dominated the contest from the background almost against the wishes of the candidates. Both sides tried to raise steam on other questions. The Tory attack on insurance was curiously half-hearted, and the candidate seemed afraid he might be attacking a popular measure. The Liberals took it for granted that the contest was confined to details. This is probably true, but the sweeping turnover of votes shows that details count with the electors.

The truth is there is still a great deal of sand in the machinery of national insurance, and the Liberals, lulled by the collapse of the main Tory attack on the act, have neglected the supremely important work of guiding it into smooth running order. There exists a strong feeling that Lloyd George should himself superintend the act in the troublesome initial stages, using his unrivaled conciliatory powers in solving the countless problems entailed in the start of so huge a scheme. Altringham is a severe lesson to politicians that giant innovations cannot be unloaded by politicians and left to run themselves.

Senator Ellis Votes With Tories—Welland Canal Improvements to Cost \$50,000,000—Big Outlay at Quebec

Ottawa, May 30—At 1 o'clock this morning the senate voted on the amendment to the second reading of the naval bill offered by the Liberal leader, Sir George Ross, which would refer the proposal to the people. The vote against the amendment, 51.

Opposition majority, 24. Senator Ellis, appointed by a Liberal government, voted against the amendment.

Senator Montplaisir, appointed by a Conservative government, voted for the amendment.

A further reading of the naval bill with amendment attached will likely be moved by Sir George Ross.

On both imperial and national grounds the senate has asked the government to trust the people to rightly decide the naval issue.

The vote came at the end of four days of vigorous and high-level debate, listened to throughout by crowded galleries and by a large attendance of members of the lower chamber.

The result indicated that the principles of Liberalism are the same in both houses of parliament. The naval contribution bill is killed.

The government has now two courses open to it. If there is a real belief in an emergency a supplementary estimate can be brought down tomorrow in the commons under the Laurier naval service act to vote the \$85,000,000 for warships to immediately strengthen the effective naval forces of the empire. Liberals will offer no objection to that.

The other alternative is for Premier Borden to show the courage of his professed conviction, to carry out the promise he made publicly in Montreal on his return from England and appeal forthwith to the Canadian people. That course will not be adopted. The government is afraid to trust the people.

NAVAL AID BILL  
TO THE PEOPLE**

Moreover it does not yet want to declare its permanent policy. That this permanent policy is one of periodical contribution and no Canadian navy was made plain by the tenor of the majority of the speeches from the Conservative members of the senate.

Hon. Mr. Pelletier, postmaster-general, grew weary at hearing a long string of complaints in the matter of dismissals from office for partisanship from members of the opposition tonight and when they followed this up with requests for increased pay for letter carriers and rural postmasters, he pleaded illness, and asked to be excused. Before he left the chamber, however, he made a statement to the effect that he was prepared to proceed this session with a parcels post bill, provided the Liberals would promise not to contest it, but Hon. Mr. Lemieux said they would have to see the bill first.

**GOOD DINNER AS DRINK ANTI-DOTE**

Mrs. Grace made a brief address at the annual meeting of the St. Pancras School for Mothers. She added: "The mothers of this generation left school with little knowledge of hygiene or of domestic science. Many are incapable of raising children, or of cooking wholesome meals. I hope we will soon see a system of schools for mothers established that will give a higher standard of health for the coming generation."

A lumber company on the St. Croix River, Wis., is going to try to recover the sunken logs in the river. After fifty years of logging in which attention was not paid to the deadends, it is estimated that from 50,000,000 to 100,000,000 feet of logs are at the bottom of the river.

**TWENTY-ONE DAYS  
LONDON TO SYDNEY**

Five Day Trip From Empire Capital to Winnipeg  
BLACKSOD TO LABRADOR

Plan for Imperial "All-Red Route" as Highway to the Antipodes—Contracts for Irish Railway as Part of the Project Are Let

Washington, D. C., May 30—From London to Winnipeg, a distance of more than 8,400 miles, in five days is the object of an important consideration in the working out of the new project, according to Harry Chapin Plummer, who, in an article in the June issue of the National Waterways Magazine, published in this city by the National Rivers and Harbors Congress, states that by the BlackSod Cape St. Charles route and Quebec, one day may be gained over the existing schedule maintained by the Mauretania and Lusitania between Liverpool and New York. He observes: "Although considered as a new method of transportation between the capital of Britain and far-away New Zealand and Australia, the 'All-Red Route' enters as a fraction of the grand project for distances that, while representing but a fraction of the grand project, are in themselves of great extent. From London to Winnipeg in five days is as important an object, relatively, as the accomplishment of a twenty-one day schedule between London and Sydney."

The lowering of the time of passage between London and New York, as well as Toronto, Pittsburg, Detroit, Chicago and other American and Canadian cities is an important consideration in the working out of the new project, according to Harry Chapin Plummer, who, in an article in the June issue of the National Waterways Magazine, published in this city by the National Rivers and Harbors Congress, states that by the BlackSod Cape St. Charles route and Quebec, one day may be gained over the existing schedule maintained by the Mauretania and Lusitania between Liverpool and New York. He observes: "Although considered as a new method of transportation between the capital of Britain and far-away New Zealand and Australia, the 'All-Red Route' enters as a fraction of the grand project for distances that, while representing but a fraction of the grand project, are in themselves of great extent. From London to Winnipeg in five days is as important an object, relatively, as the accomplishment of a twenty-one day schedule between London and Sydney."

The great highway through England, Scotland and Ireland, across the Atlantic to Labrador, across British North America over the most northerly parallels of latitude yet followed by trunk line railways, and, diversely, across the Pacific to distant Yokohama, Hong Kong and Shanghai and to yet more distant Auckland and Sydney, is planned to serve the purposes of peace, as well as the pursuits of peace. It will be backed by the might and the combined resources of the United Kingdom, Canada, New Zealand and Australia.

Sir Thomas H. C. Troubridge, of London, and a syndicate of leading financiers of England, have let contracts for the commencement of construction work upon the line of railway which is to connect BlackSod with the northern cross-country routes of the Irish Railway system terminating at Larne, on the North Channel, near Belfast, where a car-ferry connection will be effected with Stranraer, on the Scottish coast, near Dumfries. The All-Red Steamship company, originally planned to operate between BlackSod and Halifax, was incorporated under federal charter by the Canadian Parliament in 1907, and this corporation will operate the steamship service between the Irish port and Cape St. Charles, whence the air line railway is soon to be constructed, under heavy Dominion subsidy, to Winnipeg.

The benefits—Inestimable social and economic benefits to be derived by each of the territories which will be traversed by the "All-Red Route" are predicted by the writer, who states: "Australia and New Zealand, by the saving of almost a week in the journey to and from London will derive manifest commercial advantages. Canada, in the words of Vice-Admiral Sir Charles Campbell, of the British royal navy, must become the central province of the Empire and the barrier of all the traffic between the Australian colonies and the mother country. Proportionately, however, Ireland stands the most to enjoy yet greater advantages, for the making of the erstwhile lonely and isolated BlackSod Bay, on the Mayo coast, the port of London must bring about the concentration at that point of the trade of interests sure to follow the sudden diversion thither of a traffic universal in its scope and gigantic in volume. Grain elevators, coal and oil storage, warehouses and all the equipment of a great harbor terminus, where a vigorous and spreading population is sure to be attracted, will place BlackSod well in the race for maritime supremacy among the port cities of the British Isles. The consequent effect upon the industrial position of the North Irish country, of which BlackSod will be the logical gateway, is obvious."

The establishment of a first class seaport so far north on the Atlantic coast of Ireland as BlackSod would not only afford greater security to the United Kingdom as a nation, but would better insure the entry into the country, under stress of war, of provisions, for which the British Isles are quite dependent upon the outside world. In this respect Vice-Admiral Campbell is quoted, as follows: "In the undesirable, but not impossible, event of war between Great Britain and two or more European powers the position of BlackSod Bay would force the enemy's cruisers, should they attempt to rove upon the vessels using it, to run the gauntlet of the English channel and near Atlantic and operate on a prohibitive and almost impossible radius, with absolutely no recuperative base. "Any national expenditure necessary to insure the success of the 'Imperial All-Red Route' would be repaid a hundred fold by the saving effected in the protection and the feeling of security which would result from the certainty of the continuation of the Canadian wheat supply by the shortest possible route, even in the most serious condition of a two-power war. "Although a well known fact, it has never been brought home to the inhab-

**Tired Women**

The womanly system must have rich, red blood. The tediousness of household duties, the lack of open-air exercise as well as modern conditions of life overtax the delicate organism of women, cause the blood to become thin and watery and a feeling of discouragement and despondency soon weighs down on them so that they feel that life is scarcely worth living.

**CLOSE CALL FOR SUSSEX MAYOR AND COMPANIONS ON A FISHING TRIP**

Sussex Record.—His worship Mayor Lamb, Abner Cripps, Kyle Johnson and Fred Radcliffe had a narrow escape from drowning on Saturday, while fishing at Jacks Lake in the parish of Springfield. There is only one boat on the lake and it is somewhat the worse for age. The party embarked in the boat and spent some time in landing the speckled beauties, without mishap. Suddenly one of the boards in the bottom gave away and the craft commenced to fill rapidly. The men were then some distance from shore and as several of them were unable to swim, the situation, for a time was a most threatening one. The cool heads in the party, however, were equal to the occasion and gave directions which were followed, with the result that the entire party was brought to shore without further accident. All hands stuck to the craft, which was worked towards land by those who could swim and, beyond a wetting, the quartette were little the worse for their experience.

**RUDOLPH'S LONG TROUSERS**

Office Boy Does His First Pair and Finds Them a "White Elephant" on His Legs.

I wore my first pair of long trousers Sunday. Gee, it was a funny day. Never had so many people pay attention to me before. It felt all right to be a man instead of a kid. But all the smiles and whistles and giggles that I got were a hard enough job to go through with let me tell you!

I had them hung over the back of my chair in the morning so the creases wouldn't be spoiled. You must take a lot of care to keep the creases in long trousers, you know. That's the worst thing about them. Well, I dressed up. I felt funny right away. I looked down at the trousers and they looked miles too big for me. Every time I looked down they all crumpled up in front as if they had the creases all spoiled.

So I ran to the mirror in mother's room to see whether they were all right when I didn't bend down. They did. Gee, I looked pretty good in that light. The creases looked just like kid's. After I knew I looked all right I went down stairs. Dad he laughed when he saw me first. Then he looked at mother and went to get his paper without saying anything more.

I thought mother was going to cry for a minute. But then that's the way it is with women; they cry every chance they get. But she got over it, and said I was a man and was as big as she is. But that was the easiest part of it. When I stepped out on the street I started right there till I got used to the feel of it. Then, when no one was in sight, I started out for a minute, just to see how it got used to them some time, you know, so I thought I better begin right away.

Well, I hope I never feel again the way I did while I was walking. Every step I took I was wishing no one I knew would come along and get hopping that one of the fellows would just get a glimpse of my new trousers. I looked out of the corner of my eyes all the windows, for I was sure some one was looking at me out of every window. Then they came along and going to Sunday school. Say, I never want another experience like that.

First thought of turning around and starting back. But I knew that would be worse than passing them. I wanted to run down somebody else's yard and get out the back way. But instead I shoved my hands into my pockets and whistled and looked right straight ahead. My heart was beating, all right, but I called past the girls and never saw them. They laughed, too—giggled like school-girls, you know—and my face got hot, but I didn't blush, no, sir.

I met the fellows, too. Know I would like to know if I felt different. Felt the goods. Aakes me if I put my hands on them and pulled 'em down. Gee, they did laugh at me. But I wasn't bothered a bit. Their turns is coming. I just grinned at them, and told them to go ahead. When they got through I knew I could stand anything. I look long pants. It's all right, being a man all right. But I'm kind of glad I only wear them on Sundays.—Rehoboth Sunday Herald.

The following is a conversation overheard between two small boys in a city street not long ago. The first boy said to the second boy: "Gee, your father must be dreadful mean; he's a shoemaker, and you have to wear them old shoes."

The second boy answered: "You needn't talk, your father is mean, too, 'cause he is a dentist and your baby's only got one tooth."

The effect of a resolution passed yesterday in New York by the board of health of that place will be to prohibit further inoculations of the Friedmann cure. Although the name of Friedmann is not mentioned, the resolution prohibits the use of living bacterial organisms for the treatment of disease. Premier Fleming was responsible for an unnecessary expense yesterday at Newcastle on the part of the parties in the case of Mereseau and Swim. He had been served with a subpoena to appear as a witness, and as his testimony was most important, the case was adjourned until June 24, although all else was in readiness. In answer to the telegram which had followed a few days after the subpoena reminding him of the case, the premier had said he was going to Toronto with his wife, and to Montreal on public business. Justice McKeown made some strong comments upon the lack of respect shown the court by the premier, but refused to issue a bench warrant to compel his attendance.

**For Two Years SUFFERED SEVERE PAIN IN THE BACK.**

Many people fail to understand the significance of a lame, weak, sore aching back. When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise, and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills go right to the seat of the trouble, cure the back and prevent any further trouble from the kidneys.

Mrs. D. J. McInnis, Carleton, P.E.I., writes:—"For two years I had a severe pain in my back. I was so bad that when I would stoop down I could not straighten up for quite a time. I got a box of Doan's Kidney Pills and they helped me so I kept on using them until I had used three boxes, and now I am completely cured. I think they are the only remedy for disordered kidneys."

Doan's Kidney Pills are 60 cents a box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

**Skin Diseases ARE PAINFUL AND UNSIGHTLY.**

Among the most prevalent are Salt Rheum, Eczema, Tetter, Rash, Boils, Pimples and Itching Skin Eruptions. These troubles always arise from the blood being in a bad condition and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape. This you can do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich. Thousands of people have used it during the last thirty-five years and have been cured.

Mr. Robert Gamble, Jones Falls, Ont., says:—"I write with the greatest pleasure to recommend your great blood purifier, Burdock Blood Bitters. My wife and I had itching sores on our face and ears, and tried everything to help them, but found no relief until we saw your B.B.B. advertised and got a bottle, and before it was half gone we both were getting better, and when it was all gone we were cured."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

In Montreal

Montreal, May 30.—Although the Bank of England's reserve ratio is the highest in a decade at this season, the bank did not lower its discount rate. The primary reason for that was the Berlin demand for gold and the hardening of money rates in Paris.

The weakness of Canadian Pacific is due to the bad Berlin situation, the principal selling coming from there. Another factor which causes this morning's pronounced weakness is the dislodging of long stocks owing to margin calls and stop loss orders and aided by an attack of one of the most powerful operators of New York. His principal argument is that the price of C. P. R. is out of line with other high class railroad stocks.

The selling of Union Pacific and Southern Pacific was based on the notion that the first of the two published plans was more likely to meet the court's approval and as such meant the casting of a bad of Southern Pacific on the market. The management, however, will ask the court to approve both plans, with permission to employ whichever seems best afterward (and it is hard to tell if the situation has been much changed). It is evident that even with judicial approval granted for one or both plans, obstacles may be found in the way of execution, and indeed the official statement seems to recognize more than a possibility that a receiver will have to be appointed to take care of the S. P. shares in question. In any case, both plans provide for an underwriting and as the underwriting price will surely be lower than the one agreed to recently, it stands to reason to suppose that Southern Pacific should still go there, but there is not much doubt that around 90 the stock will be eagerly bought by a very large number of investors all over the world.

Fears Steady Drop

Montreal Witness.—Upon being requested by a group of callers at his office this morning to give his views on the future course of the stock market, Sir Rodolphe Forget, M.P.—who is generally somewhat optimistic—said that he did not look for any panic in this country, but was very much afraid that the downward trend of prices would continue right on into the fall months. "Canadian Pacific," said Sir Rodolphe, looking down the quotation board, "will probably go to 200. Laurentide will possibly go to 150. Richelle to 85, and Steel common to 80—maybe 25, while other issues will come down in keeping with the decline."

The factors and reasons which impel Sir Rodolphe to these conclusions are many and numerous.

It is worth recalling, however, that during the summer of last year Sir Rodolphe predicted very correctly regarding conditions this year as they now are.

THE OUTLOOK AT OTTAWA

Borden Has Nothing to Say Today--Belief That Election May Come in November or December

(Special To Times) Ottawa, May 30.—The senate's rejection of the naval bill did not create much stir in the capital this morning, as it was a foregone conclusion what the action of the upper house would be. Before the commons met Premier Borden was seen, but did not desire to make any statement. He said that if he does make a statement it will all probably be in the House of Commons.

As the bill is dead and will not go back to the lower house, it is possible that nothing more will be said about it within the walls of parliament this session. Opinion as to the wisdom of the action of the senate runs pretty evenly on many lines. The Conservative members of the upper house have made a grave political mistake, while the Liberals say that if the government appeals to the country the result will be

that the majority of the people would declare against the bill. It is altogether probable that the situation will be considered by a meeting of Borden and his ministers at a meeting of the cabinet on Monday. It is quite possible that a decision may be arrived at to let matters jog along until another session of parliament has been held.

An autumn session may be decided upon. At this session the chief business would be the passing of a redistribution bill after which there would be an appeal to the country in November or early December.

Ottawa, May 30.—At one o'clock this morning, before well filled galleries and large attendance of deeply interested members of the commons including ministers and ex-ministers, the naval contribution bill was turned over, so far as the senate could do it, to the people for final decision. Final speakers were ex-premier Sir MacKenzie Bowell, who supported the measure, and an ex-minister of the crown under a Conservative government, Hon. John Costigan, who condemned it.

London, May 30.—Intense heat has shrouded Great Britain since Sunday, accompanied by a heavy fog everywhere on the water, and there have been many minor slipping accidents.

Winnipeg, May 30.—The Free Press says that Hon. G. H. Howden, attorney-general, will resign soon to take a judicial office in Gimli, will succeed him.

Chicago, May 30.—The body of Luther Meade was brought here this morning. The funeral party were Mrs. Rhoda McCarty, widow of the deceased, Bill McCarty, McCarty's manager, and Fred Sears.

SOME FARMERS BITTEN (St. Croix Courier) Representing themselves as conducting a sale under the authority of the local government, a party of men brought a number of sheep here last night in different sections of the county. Many of the sheep have developed disease, and some have died, and the disease may spread and attack other flocks. Representations made to the local government have elicited the fact that the disease was not in any way connected with this sale, and that the men whom he could get in touch with the sale was carried on as a private enterprise. It seems too bad that responsible people are permitted to bring in diseased sheep and sell them to the public, leaving purchasers without redress where disease develops.

It is high time that steps were taken to prevent anything of this kind in future, and that either the plain or provincial government should undertake to stamp out the disease at once. The sheep which are the cause of this trouble are not in any way connected with this sale, and that the men whom he could get in touch with the sale was carried on as a private enterprise. It seems too bad that responsible people are permitted to bring in diseased sheep and sell them to the public, leaving purchasers without redress where disease develops.

REPORTING THE CONCERT (Boston Sunday Post, May 18, 1913) A newspaper reporter critic was obliged to leave town, and turned over his work for one night to the sporting man of the staff. This is how the critic looked on an important concert appeared the next day.

Time was called about 8 o'clock, and some fifty bays, fies and fiddles entered for the contest. The fiddler won the prize, and took the inside with the chandeliers right in their eyes. The umpire, with a small stick, also acted as starter.

Just before the start he stood upon a small cheese box, with a lunch counter before him, and shook his stick at the entries to keep 'em in the ring. The contestants first started it to "Landliche Hochzeit," by Goldsmid, Op. 26. They got off nearly even, and struck up a rattling gait. At the half way the man with the trombone showed signs of fatigue. There was a little boisterous flute which swayed with the big bugle at the mile, but he was wind-broken and wheezed.

The big fat bugle kept calling "whoa" all the time, but he seemed to keep up with the rest till the end of the race. They all came together and struck up a rattling gait. SEVENTY THOUSAND IN MONTREAL DO NOT GO TO CHURCH

That is One Feature of Yesterday's Whirlwind Religious Census

Montreal, May 30.—While 70,000 Montrealers do not go to church, there are only a dozen infidels in the city, and very few members of other than the orthodox denominations, according to figures made public today by the Montreal Home Visitation Committee which yesterday, in a whirlwind religious census, visited eighty-two per cent of the city's homes representing 400,000 people.

A remarkably small diversity of religious faith was shown. Catholics are greatly in the lead, although definite comparative figures were today refused. The largest number of children found in any one city family was eighteen, in a Hebrew home. The census takers report that aristocratic Westmount has by far the smallest number of children to the number of homes of any district in Greater Montreal.

Winnipeg, May 30.—A form of confirmation for the Methodist church was proposed yesterday at a meeting of South Winnipeg Methodist ministers by Rev. Charles Morgan, of Rosedale, seconded by Dr. Andrew Stewart of Wesley College, adopted unanimously and will go as a resolution before the Brandon conference this summer.

Mr. Morgan said it was designed somewhat after the Anglican model to provide a link between the cradle roll, Sunday schools and church membership and was calculated to stop the leak of children from the church after leaving Sunday school.

A resolution urging the provincial government to reorganize the license commission of Montreal "in such a manner that the public may have assurance that the laws will be administered for the moral welfare of the community" was also passed.

How French Used Bread. More bread is eaten in Paris than in any other city in the world, and it is estimated that every inhabitant eats on the average of one pound a day. The French had a horror of stale bread and had a curious way of making it palatable.

The bread, prepared in huge round or square slabs, was used as a dish on which the meat was carved and bore the name of "franchises" or "franchises." The juice of the meat, having penetrated the bread, imparted a pleasant taste and prevented it from becoming dry.

Some people like their potatoes to have the additional flavor given by a pinch of sugar added (as well as salt) to the water while boiling.

FREDERICTON SAYS THE LUMBERMEN ARE MORE HOPEFUL NOW

Heavy Rain Last Night—Miss Annie Rutter Dead in Capital

Fredericton, May 30.—The St. John River Commission met at the Barker House this morning and heard evidence of John A. Morrison, John Kilburn and Arthur Noble. They were called as expert lumbermen as to what can be done to facilitate sorting of logs at Van Buren and Grand Falls. They were also questioned in regard to reservoirs and storage dams and means of facilitating driving on the St. John. The commission now is preparing its report on the Van Buren bridge and Melville power project.

The rain fall here last night was an inch and a fifth. The river rose about three inches and is still coming up. Lumber operators who abandoned small drives on the streams in the central portion of the province are preparing to resume driving operations. Already several crews have been sent out and the prospects are considered excellent now.

The River Valley Lumber Co. of Ontario have men at work on their Little River drive. Men are also at work on the Tay and other tributaries of the Nashwaak. The lumbermen are now taking a most hopeful view of the situation.

Miss Annie Rutter, sister of Chief Rutter of the local fire department, died here last night, aged sixty-three. Members of a vaudeville troupe performing here got into a row last night and resorted to legal proceedings. Two left the city this morning.

English Judge Praises Boxing, But Wants "Cover-up" Barred

By TOM ANDREWS

Can you imagine a judge of the courts offering a suggestion that the "crouch" or as we term it, the "cover-up," be eliminated from the boxing game?

Well, that is what an English judge recently made a suggestion that the boxing promoters prohibit the habit in boxing matches, and there are thousands of fans in the States who will second the motion a dozen times over.

The "cover-up" habit was touched on in these columns some time ago and met with the approval of nearly every fan in the country, the same as the baseball fans disapproved of the "spit ball" in a game.

It was during the big tournament given by the metropolitan police of London that the judge got into the game. There were hundreds of entries, from light weights up to heavy weights, and the contests were attended by many of the leading business men, magistrates and big political men of the city.

He told the patrons and the contestants that he desired a lover of the boxing game from childhood and that in his youth he had been a pupil of the famous Nathan Langham, the only man that had defeated the more famous Tom Sayers.

Judge Dickinson followed Sir Thomas and said that a knowledge of the boxing game was very desirable and necessary for a man knowing his own power, not only to keep control of himself, but to assist greatly in time of need and in the discharge of his duties.

What contrast! Some of the biggest men in England trying to help the boxing game along and similar men in this country endeavoring to tear it to pieces. However, there is hope, for some of the more broad minded men of the states are beginning to favor the game and pay less attention to the mollecolle element.

CANADIAN HORSES AT THE LONDON SHOW

(Times' Special Correspondence) London, May 29.—As usual Canada will be well represented at the International Horse Show at Olympia. Hon Adam Beck will be represented by a good stable, and King, Clifford Sifton will delight us again with his jumpers, which his sons will ride. Mr. Beck will be in charge of the Canadian officers who will compete for the King Edward VII. cup, and in other events.

Some famous continental competitors will appear, France, Belgium, Russia and Sweden having entered, but the United States and Italy have not yet given their decision. Miss Mona Dunn, a young Canadian girl who has accompanied both Paris and London with her horse, has no fewer than thirty-five horses entered, including "Biska," which has already this season at Vittel, jumped 7 feet 10 inches and at Paris 7 feet 6 inches. Miss Dunn will ride in some of the events.

Canada at London Olympia Ottawa, May 29.—Canada will be represented this year at the royal military naval tournament at the London Olympia. One Ottawa officer, Lieut. H. Batt, of the 6th Princess Louise Dragoon Guards, is on the team with Mr. Gordon Milne of the Mississauga Horse, Toronto. This tournament is one of the big annual military events in England.

In past years Canada has not obtained a first prize at the Olympia show, although Canadian representatives have won places.

The proceeds of the Olympia go towards army and navy charities. The Canadian officers with their horses will embark at Montreal on Saturday.

Game Cocks Behaved.

Thirty-four cocks captured by the state police and agents of the Massachusetts S. P. C. A. in a raid at a main in Hudson a week ago were sentenced to death by Judge Kingsbury in the South Framingham court, and soon after were taken to Shaw and executed. The birds were valued at about \$2,000 and were all full-blooded fighting cocks, many of them considered to be some of the best in the country.

KINGS COUNTY BOOZE

Sussex Record.—The Scott Act authorities have issued an ultimatum that hereafter the conveyance of liquors from St. John to Kings county must cease. It has been customary for persons going to St. John to bring out liquor and then accept payment for it from a second party. This is viewed as a sale and a few days ago a conviction was registered against a Sussex resident, who was found guilty of the offence. The authorities say that much booze has been brought in by such methods and they will prosecute all persons detected in violating the law governing such cases.

FOUR INJURED IN MONTREAL AUTO COLLISION

Montreal, May 29.—Four persons were injured, one perhaps fatally in a collision between an automobile belonging to Eudore Brussette, who was gliding in the car at the time, and one of the big construction cars of the street railway, at St. Laurence street and Laurier avenue this morning. The street car hurled the automobile twenty feet through the air against the stone wall of the police station at the corner completely wrecking the car and smashing the windows of the station.

The women occupants of the machine were Miss Victoria Choinard, and her sister, Leonie. They were taken to the Royal Victoria Hospital, Antoine Laccette, the chauffeur and the owner, E. Brussette, the other occupants, were taken to the Notre Dame Hospital.

At the Royal Victoria it was found that Miss Leonie Choinard had sustained a broken leg, while her sister escaped practically uninjured. The chauffeur received very severe internal injuries, and the doctors at the hospital declared he was not recover. Mr. Brussette was very badly hurt, about the head and shoulder.

WEATHER NOT TO BLAME

It's Your Condition "This weather simply takes the life right out of me. I can hardly drag one foot after the other," said a rundown, tired-out woman, the other day.

We want to say to every such person in this vicinity, Don't blame the weather. You need a strengthening tonic and the very best we know is Vinol, which is a combination of the two most world-famed tonics, namely, the medicinal, curative elements of cod liver oil and tonic iron, for the blood.

A case has just come to our attention from Vineland, N. J. Mrs. Allen T. Godfrey says: "I never fail to say a good word for Vinol, for it restored my strength and vigor after I had been in a badly run-down condition for several months. Every one who is broken in health ought to know that Vinol will build them up and make them strong."

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

UNITED SHOE CO. HEARING

(Canadian Press.) Boston, May 29.—The Thomas C. Plant Company, of Boston, was an active competitor when the United Shoe Company acquired it, according to testimony introduced today by the government in the dissolution proceedings against the United Shoe Company.

It was the largest and the most important of the fifty-five subsidiary companies bought up by the defendant, and its purchase is regarded as one of the principal points in the government's case. Plant had acquired a complete line of shoe machinery when the latter bought him out for \$6,000,000. This was after St. Louis manufacturers had opened negotiations for the purchase of a half interest in Plant's shoe machinery business.

The government contends that the Plant concern was bought up in pursuance of a plan to monopolize the shoe machinery business of the country.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

DECLARES STEEL TRUST A MODEL

A Fine Example to Business World, Says Chairman Gary

ALMOST PERFECT

Has Made a Few Mistakes, Kept Prices Steady in the Trade and Has Not Crowded Competitors—Morgan Praises the Foresight of Morgan, Who Financed The Big Deal

New York, May 29.—"I believe the United States Steel Corporation has set a good example in the business world. If it seems like boasting I beg your pardon."

These words epitomized the testimony today of Judge Elliott H. Gary, chairman of the corporation, in the hearings of the government dissolution suit against it as an illegal combination. Judge Gary spent a second entire day on the stand and devoted most of his testimony to pointing out the good which he said had been accomplished by the corporation in the steel industry as the result of its organization.

"The policy of the corporation has been so to manage and conduct its affairs as to make it certain that it did no wrong to any person or interest. It seems to me that this is the important thing in a quasi-public corporation. I believe that we have been of assistance in promoting the interests of all concerned with or affected by the corporation."

"Although there were difficulties and obstacles among us as to how labor and our competitors should be treated, for the last eight or nine years, our administration has been very successful and everything is very satisfactory except the government does not seem to think we have done as much or as little as we ought, which ever it is."

Judge Gary praised the part that the

A Constant Change in Body Tissues

Our bodies, says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing."

The tissues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease.

In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesium, potash, etc., and when these are not supplied in sufficient quantities in the food we eat it is necessary to aid nature by the use of some restorative preparation.

Most people find Dr. Chase's Nerve Food particularly effective under such circumstances, because it is composed of the very elements of nature which go to form new, rich blood, create new nerve cells and rebuild wasted tissues.

This great food cure is radically different from medicines which are usually employed in the treatment of nervous diseases. For, while they stimulate the nerves to overexcitation or by narcotic influence soothe and deaden them, Dr. Chase's Nerve Food revitalizes wasted nerve cells and so accomplishes lasting beneficial results.

Such symptoms as sleeplessness, irritability, headache, indigestion, brain tire and feelings of fatigue and discouragement soon disappear when the system is built up by the use of

RECOVERS SENSES TO FIND HIMSELF ENLISTED SOLDIER

German Mayor Joined French Legion While Temporarily in Mental Oblivion

Berlin, May 29.—After keeping his family in intense anxiety for forty days owing to his mysterious disappearance, Mayor Troemel, of Usedom, in Pomerania, has written a postcard from Algeria stating that he enlisted in the French Foreign Legion for five years while in a condition of complete forgetfulness of his identity and former life.

Here Troemel, who is thirty-two years old and married, once previously disappeared and was found some months later in a Paris hospital, having recovered his knowledge of his identity. This time, after writing from Berlin instructing the deputy-mayor to represent him, he vanished, and all inquiries were fruitless until a letter living in Bavaria received a card postmarked Saida, Algeria, asking her to break the news gently to his wife that he had found himself, on recovering consciousness, a volunteer in the French Foreign Legion.

He also appealed to his sister to take all possible measures to have him released.

According to the papers there is no agreement between France and Germany regarding the release of volunteers unless they are minors. Hence the press once more invites the courtesy of the French government. Medical authorities declare that it is a case of epileptic oblivion.

**BAILEY-HOWARD**  
A pretty wedding took place at the residence of Mr. and Mrs. J. C. Howard, in Gibson, on Wednesday evening in the presence of a large number of relatives and friends, when their daughter, Miss Nora E. Howard, was married to Arthur G. Bailey, of the firm of G. Bailey & Son, Gibson.

**AUTO WAS STUCK**  
One of the motor trucks owned by the firm of Murray & Gregory and loaded with lumber became stuck in the mud at the lower end of Harding street, Fairville, yesterday afternoon. The larger truck was finally successful in rescuing the other with its load.

**EIGHT DWELLINGS UP IN A DAY**  
A decided boom in building operations at East St. John has been noted during the last few months, but the greatest activity in this direction was seen this week when eight dwellings were begun and finished in one day. They were not the substantial wooden structures that are usual in this locality, but were the canvas tents of a band of gypsies who have taken up a temporary abode on the lot near the flats.

**WILL NOT HELP**  
Although during the last several days considerable rain has fallen, it is not expected by the lumbermen that it will have much influence upon lumbering conditions on the upper rivers, as the quantity has not been sufficient to raise the waters to any appreciable extent. Much lumber will likely be hung up this season, as any which is not now in the main streams will have to lie till next season, as the water in the main streams and tributaries of the St. John has fallen off greatly.

**BURIED TODAY**  
The funeral of William M. Edgar took place this afternoon at 2 o'clock from the residence, 28 Simonds street. Rev. W. W. Malcolm conducted the burial services and interment was in Fernhill.

The funeral of Mrs. Thomas Southern took place this afternoon at 3:30 o'clock from her late residence, Baywater. The funeral services were conducted by Rev. Mr. Daniels and interment was in the family lot at Baywater.

The funeral of Mrs. Alice Lenahan was held this afternoon from the residence of her son, 118 Waterloo street, to the Cathedral, where Rev. M. Howland conducted the burial service. Interment was in the Catholic cemetery at Golden Grove.

**BYE-LAW MATTERS**  
Several bye-law cases came up before Magistrate Ritchie in the police court this morning.

P. A. Lagan appeared to answer seven reports made by the police against the British American Construction Co. for having staked and building material obstructing Church and Prince William streets without lights on the nights of May 24, 25, 26, 27 and 28. The complainer, Ross and Sullivan both testified that the lamps had been lighted early in the evening, but were gone out during the night. Policeman Sullivan said that a man had been put on to watch the lamps last evening, but even then he was unable to keep them all going. The case will come up again this afternoon.

Charles Edmunds, reported by I. C. R. Policeman Smith for going beyond the stand allotted to coachmen on two occasions on May 27, pleaded guilty to one charge, but denied the other. Policeman Smith gave evidence and the case was postponed until this afternoon.

A charge of allowing people to stand in the aisles of the Unique Theatre on the night of May 24 was made against the proprietor, Mr. Spencer, said that he was not present at the time.

**EVIDENCE COMPLETE IN FAIRVILLE CASE**  
The case against John Burns, charged by Allan Green with assaulting his daughter, Agnes, on the road from the Milford ferry on last Friday, was resumed in the Fairville police court this morning. J. A. Barry appeared for the prosecution, and D. Mullin, K.C., appeared for the defendant.

Miss Annie Clark and Miss Violet Boyd told of Miss Green coming to them and asking them to go as far as their home with her, as she had been attacked, she said, by the defendant. They also corroborated the evidence given by the complainant on Wednesday in regard to the assault.

The defendant, sworn, said that he was coming from the ferry at the time and saw a man passing Miss Green. In stepping aside she slipped from the plank sidewalk. He took hold of her arm in order to assist her and she said something about telling her brother about the matter. He denied that he had any intentions of assault.

This concluded the evidence and the case was postponed until Wednesday when Magistrate Allingham will give his decision.

**ST. JOHN IRISH SETTER BEST AT MONTREAL SHOW**

E. A. Sturdee's Corry Law Takes Prize, With Charles Conway's Barney Well Along

The judging of the Irish Setters in the Montreal dog show took place yesterday afternoon. There were sixteen entries and the results go to show that St. John can at least hold her own with the best dogs of this breed, both in Canada and the United States. A Alban Sturdee's Corry Law won first prize in the junior limit, American bred and open classes. When the winners of all classes came together to decide which was the best Irish setter in the show for the allotment of championship points, Corry Law, owned by E. A. Sturdee, was the old pup, best every dog in the ring, taking winner's ticket.

Charles Conway's Barney was also well up in the prize list, taking second limit and third open.

**JOHN E. MARTIN FOUND DEAD ON LOUNGE AT CHAPEL GROVE HOME**

Neighbor Making Call Finds Him Lifeless—Around as Usual Previous Day

News reached the city this morning telling of the sudden death of John E. Martin at Chapel Grove yesterday. He had been in good health up to the time of his death and the news was a great shock to his friends. He had been about his house the day before and had not been complaining of ill-health, but it is thought he never awoke from the slumber into which he fell on Wednesday night. A neighbor missing him about the house yesterday morning called there at noon, and found him lifeless on a lounge.

Mr. Martin, who was fifty-nine years of age, had lived practically all his life at Chapel Grove, where he was respected by a large number of friends. He was unmarried, and is survived by one brother, Thomas Martin, also of that place, and two sisters, Mrs. Frank Morton, and Miss Nellie Martin in Portland, Me.

The funeral will be held tomorrow morning from the residence of his brother, Thomas, with requiem mass at St. Bridgett's church. Coaches will leave Scott's corner at eight o'clock.

**KNIGHTS TO GATHER HERE NEXT MONTH IN STATE COUNCIL**

Local K. C.'s Preparing for Entertainment of Visiting Delegates

Much interest is being taken by the local members of the order and those in other councils throughout the maritime provinces and Newfoundland in the approaching state convention of the Knights of Columbus which will be held in this city next month.

Delegates from each council in the jurisdiction will be present and the convention will be presided over by State Deputy Beady, of Halifax. Matters of importance to the knights in this territory will be considered, reports presented, and the election of the state officers for the ensuing year will take place while there will also be the selection of the place of the next meeting.

Plans are now being made for the entertainment of the visiting members while in the city, the arrangements being in the hands of a strong committee from the St. John council.

**EARLY MORNING FIRE**

Outbreak in Mr. Hopkins' Smoke Room and Storehouse

A fire which did considerable damage broke out this morning a little after 6:30 o'clock in the two storey building at the rear of J. Hopkins' meat store and used by him as a smoke room and storehouse. The origin of the fire is not known, but it is thought that it started behind the boiler in the smoke room downstairs. The flames had made good headway before the fire was discovered and had reached into the second story and to the roof, but the streams of water which the fire department played on the burning building soon had the blaze under control.

The extent of the damage done cannot be ascertained at present, but it is estimated that it will be considerable, as there was a large quantity of stock in the building at the time. The loss will be covered by insurance.
