MCGRAW AGAINST PLAYERS' UNION

Ingrates, He Says, if Major Leaguers Enroll

Dispute Over Weight for George Fifield-Roy Chisholm Bout in Toronto on Tuesday—Winnipeg Wrestling Match—Hockey Results.

(Canadian Press) New York, Dec. 16.—Manager John J. McGraw of the New York Giants today made public what he said was the tentative list of officers of the proposed new baseball players' union, naming Frank Frisch of the Giants or George Burns of the Cincinnati Reds for president, and at the same time announced his opposition to the union. Frisch said his nomination was new to him, and that he would not accept. He declared, however, that if the union was formed he would join, as he felt it his duty to stick by the players. He made it plain that he had always been treated well by the Giants and was satisfied with present conditions. McGraw said he could see the need for such an organization in the minor leagues, but that major league players, getting high salaries, would be nothing less than ingrates if they enrolled in the union. McGraw said the union's nominees for vice-president were Jack Fournier of the St. Louis Cardinals and Jake Daubert of Cincinnati, and that Dave Bancroft of the Giants had been elected secretary.

Chicago, Dec. 16.—Adoption of a schedule for 1923 was the chief business before the club owners of the American Association at their meeting here today. President Hickey said a majority of the club owners favored a 168 game schedule, opening the season on April 18.

Toronto, Dec. 16.—Darkey Daniels, manager of George Fifeild, former national champion, who will box Roy Chisholm of Halifax on Tuesday night in a jangle of the Associated Veterans over the matter of weight at which the boys will meet. Chisholm, who left the city yesterday, contends he is agreed to box at 180 pounds ring-side, while Daniels says the conditions to which he subscribed called for 178 at two p.m. His forfeit is up and he intends to live up to his agreement. It is said that the Nova Scotia battler can make 125 without exerting himself unduly. Chisholm will arrive tomorrow.

Winnipeg, Dec. 16.—Jack Taylor of Winnipeg disposed of another stiff opponent here last night when he defeated John Freuhung of Chicago, after the most sensational wrestling match ever seen in Winnipeg between two heavyweights. Taylor won two out of the three falls. The Canadian championship was at stake.

Victoria, B. C., Dec. 16.—The Cowgill drew themselves up from the cellar in the Pacific Coast League here last night by trouncing the leading Mets, two to one, in an exciting contest. The locals are now on even terms with the Vancouver Maroons, with six points each, while Seattle has an aggregate of twelve points.

Regina, Sask., Dec. 16.—The Regina Victorias, finalists in the last Allan cup series, opened the Saskatchewan A. H. L. last night by defeating Moose Jaw 8 to 2.

Toronto, Dec. 16.—Advance sales of tickets indicated a crowded rink when the St. Patricks and the Montreal Canadiens met in the opening match of the N. H. L. The St. Patricks returned after their western trip yesterday and had a light workout this morning.

FREDERICTON NEWS

(Special to Times) Fredericton, N. B., Dec. 16.—The first Christmas market today was not large and was characterized by high prices. Turkeys, geese and ducks did not appear, but chickens were in demand and sold at 35 and 45 cents and in a few cases 60, the highest prices for a long time. Eggs were scarce and sold for 75 and 80 cents.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbloom, "I saw a man yesterday leading a cow by a rope along Princess street. Can you explain it?" "Mebbe he was going to get a pasture," suggested Hiram. "They pasture milk-cows," said the reporter, "and that does not come into effect until the first of May. I had thought myself that the man was leading the animal around to show that cows still exist, in spite of the milk we get."

"Now, look-a-her!" said Hiram. "If you're aimin' to hev a job, on the farm, that ain't nothin' to be proud of. You want to say right now that if folks gets milk, it's water it aint the farmers' fault, it's the cows' fault. The farmers is made the goat every time—no matter who's to blame. You folks here in town'll pay five dollars for a bottle of rum that cost about fifteen cents—an' it's fine—it's all right. But when the's any talk about raisin' the price of milk half a cent, can the farmer is put down as a public enemy—an' a robber. But I'm gettin' mad—an' too near Christmas to get mad. After New Year's I'll come round an' hev it out with you—By Hen!"

MUSTAPHA KHALIF TO RECEIVE SOME FINE PRESENTS

Three Airplanes and a Finely Decorated Sword to be Presented to Him by Indian Mohammedans—Resolutions Against British Policy.

Delhi, India, Nov. 22.—Three airplanes and a finely decorated sword are to be presented to Mustapha Khalif by Indian Mohammedans as tokens of their sympathy with his cause. These gifts have been offered through the Central Khalifat Committee, which recently has been in session here. One of the airplanes is to be given by the Aga Khan. The Khalifat Committee, in the resolutions it passed, congratulated Mustapha Khalif and the Nationalist Turks upon their recent victories over the Greeks, and approved of the establishment of an Angora region in India. The governments of France and Italy were thanked for the aid which they had given to Turkey. Appreciation was also expressed to the King of Afghanistan for granting special rights to Hindus, in the interest of Hindu-Muslim unity.

With regard to the anti-Turkish policy recently displayed by Great Britain, the Khalifat Committee was outspoken in its condemnation. Resolutions passed on this subject were as follows: "It is the opinion of the Central Khalifat Committee that the challenge thrown by Mr. Lloyd George, the British Premier, in his speech at Manchester, to Asia on the one hand and Islam on the other, and assures him and other persons of his way of thinking that so far as Islam is concerned, this challenge to the Moslems of the world, alive to their responsibility, are ever ready to meet in every possible manner."

The meeting of the Central Khalifat Committee considers the British activities, in their attempt to internationalize the Turkish Straits, as unjust and contrary, and in the opinion of this committee such internationalization could only be justifiable in case of a world war, especially Britain, internationalize the seas under their respective influences, and, further, in the opinion of this meeting, such attempts are detrimental to the freedom of the Khalifat of Islam and the seat of the Khalifat."

"SOCIETY EDITOR" SUSPECT TRAPPED

Charged With Collecting From Women Whose Pictures Were Printed in Paper.

New York, Dec. 16.—William Rath, thirty years old, a salesman of Richmond Hill, was arrested on a charge of grand larceny by detectives of the East Fifty-first street station, who said that he had been posing as the society editor of a newspaper and had obtained money from women whose pictures had been published in that paper. Rath made an appointment by telephone with Mrs. Vera Hutchinson of East Twenty-ninth street. She, suspecting fraud, telephoned the police. They were on hand when Rath called. Officials of the newspaper and the District Attorney's office have been on the watch for the man for some time. According to the police, Rath called on Mrs. Corolla Seabury, wife of the Supreme Court Justice, about a month ago, following the publication of her picture, and collected \$27. He also received checks of \$100 and \$200, it is said, from Mrs. William Hayward, wife of the United States District Attorney. Newspapers make no charge for pictures published in their columns.

WANT EVIDENCE OF S. M. O'MARA

U. S. Court Order to Irish Free State

Called on to Disclose Place of Imprisonment—Matter of Money Subscribed in States—Victoria League Dissolved.

(Canadian Press) New York, Dec. 16.—The Irish Free State has been ordered by Justice Geo. V. Mullen in Supreme Court to show cause on next Tuesday why the place of imprisonment of Stephen M. O'Mara, Irish Republican leader, should not be revealed to attorneys for O'Mara and James J. Valera. The order was granted on petition of John F. Finerty of Washington, through Martin Conboy, his New York representative who seeks to have a commission take O'Mara's testimony in the \$2,000,000 Irish Republican bond suit, which has been in the New York courts for more than a year. The papers allege that O'Mara was unlawfully detained in Ireland and it was feared he would be killed or otherwise prevented from giving testimony before the case could be brought to trial. This development of affairs of the Irish Free State in this country followed the receipt of a letter by Daniel J. McGrath, who has been handling the consular affairs of the Free State since Joseph Connolly resigned on Nov. 26, warning him to leave the country before Dec. 28 or he would be shot at sight. It was signed "Competent Military Authority."

Mr. Finerty went to court today on receipt of reports that O'Mara, who raised the \$2,000,000 by popular subscription in the U. S. during the world war, was in the custody of Free State authorities. League Dissolves. Melbourne, Dec. 16.—(Canadian Press via Reuters)—After having existed for forty-two years, the United Irish League of Victoria has dissolved, because its object has been attained by the inauguration of the Irish Free State, under which, the league declares, Irishmen enjoy Dominion home rule of a far-reaching and generous character.

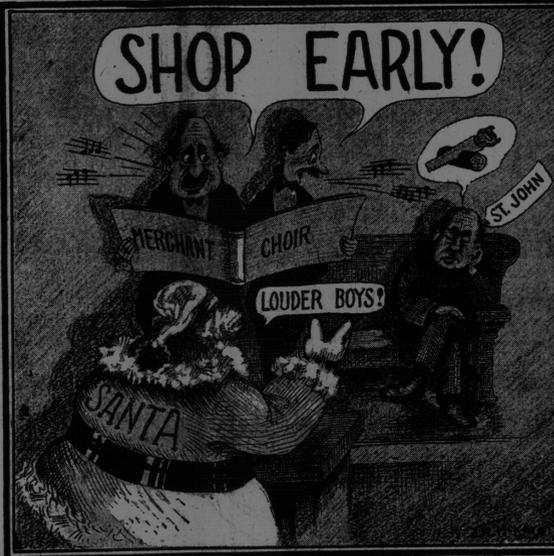

Standardization Completed, Second Car Ferry, Better Through Service With Boston. Charlottetown, Dec. 16.—Sir Henry Thornton on arrival here today received from the Board of Trade a memorial setting forth the need of certain improvements in railway transportation system, including: Completion of the standardization of the island railway gage. Provision of a second car ferry between Port Borden and Cape Tormentine. A through train from Boston to Charlottetown during tourist season. Elimination of present twenty-four hours delay at Sackville by passengers coming to the island from Boston and Montreal.

Reduction in freight rates. Sydney, N. S., yesterday pleaded guilty to smuggling liquor into the U. S. and paid a fine of \$200. Well, Have You Bought It Yet?

The shops in St. John just now are a very fairland, and they present a truly wonderful array of all kinds of gifts for those who desire Christmas shopping. There are gifts of the practical and useful kind in bewildering array, but also there are the other, and perhaps more delightful, kind of gifts, ornamental, artistic, conveying the true Christmas spirit of kindness, of joy, of memory. Whatever you want, whatever you have in mind, see the shops, and you can find it. And give the shops a real chance to serve you well. Shop early, and try to shop during those hours when the stores are not most crowded. Be courteous in the shops and your courtesy will be returned five-fold.

FORTY FRENCH MARES FOR \$140,750

New York, Dec. 16.—A lot of forty French bred mares, brought here recently in a specially chartered ship, were sold at auction last night. The forty head made \$140,750, and average of \$3,518. Ten year old Sandbars, by Mainstem, was bought by J. O. Kerne of Kentucky, for the top price of \$12,000. The same buyer also paid \$11,000 for War Lore, a six year old by Prince Palestine.

INCREASED VALUE OF THIS YEAR'S U. S. CROP

Washington, Dec. 16.—The United States crop this year is worth \$7,372,800,000 based on the farm value as of December 1st, the department of Agriculture announced yesterday, in its final crop report of the year. The value is \$1,946,000,000 more than last year's crops, reflecting improvement in prices for farm products prevailing as compared with a year ago and increased production in some crops. Record production was made this year in 17½ white potatoes, sweet potatoes and hay.

PLEAS GUILTY TO SMUGGLING INTO UNITED STATES—ANOTHER IS FINED \$200

Boston, Dec. 16.—Frederick T. Quinn of Sydney, N. S., yesterday pleaded guilty to smuggling liquor into the U. S. and paid a fine of \$200. Polish President, But Two Days in Office, Assassinated Today

Narutowicz Slain at Art Exhibition—Nationalists Had Resented His Election as Being the Work of People Other Than Poles.

(Canadian Press) Warsaw, Dec. 16.—Gabriel Narutowicz, first president of Poland who took office two days ago, was assassinated today. He was killed while visiting an art exhibition.

There have been continuous disorders ever since Narutowicz was elected by the National Assembly, a week ago. On that occasion there was tumultuous clamor owing to his unexpected choice to succeed General Pilsudski, the battle between the rival factions and the police resulting in four deaths and the injury of more than 100 persons.

The opposition to Narutowicz as first president of Poland came mainly from the Nationalists, representing the purely Polish population, the members of this party resenting the election of a man who they declared represented the non-Polish and Radical elements.

The Nationalist deputies asserted he was elected by the votes of the Jews, Ukrainians, Germans and Russians, receiving only 186 Polish votes, while 227 Polish votes were cast for Count Zamoyski, a member of the party supporting former Premier Witos.

Under the constitution, the Speaker of the House, Maciej Rataj, acts as President in case of the death of the President and is required at once to convene the National Assembly to choose a new chief executive. M. Rataj is a prominent member of the party supporting former Premier Witos.

The vessel was reported to be under way, the latest message said, adding that the vessel was proceeding to Savannah, where, it is expected, she will arrive today.

Lausanne, Dec. 16.—Drafting of the treaty of Lausanne is now in progress. The experts are working, however, on clauses that involve no disputed points, and although the sub-committees are making rapid progress, it seems impossible that any complete document can be initiated before Christmas.

Any clause that is now in circulation to the effect that January 24 has been fixed as the tentative date for signing the pact, for the present good feeling among the delegations continues, observers believe that that date would seem reasonable.

Any considerable vacation over Christmas seems unlikely, largely because of Turkey's determination that there shall be no lull in the conference until definite terms of peace are agreed upon at least in principle, or until it is clear that there can be no agreement.

Ismet Pasha has been instructed by his government not to permit a break in the conference until some definite decision is reached. Turkey has 250,000 men under arms, and practically in the trenches. She does not propose to keep them in suspense unnecessarily in order to allow European diplomats to spend Christmas and New Year's with their families.

"Our soldiers are needed at home and on the farms and villages which need to be reconstructed and restored," said Ismet. "We want to know as soon as possible whether we can release them for the reconstruction of Turkey so sadly needs."

It now appears likely that several of the European delegates will leave Lausanne next Saturday, returning on Dec. 26 or 27. Unless some serious disagreement arises, Ismet and his associates will not leave under any circumstances.

The Oil Fields. Lausanne, Dec. 16.—The rich Mosul oil fields in Mesopotamia suddenly jumped to the fore last night as a big issue in the Near East peace conference. It is reported the Entente nations have informed the Turks that the Vilyet of Mosul cannot be considered as detached from the Arab realm in Iraq.

This would mean that the Allies have declined to admit the Turkish contention that Mosul is within the confines of Turkey proper, and consequently that Turkey has the right to dispose of the Mosul oil concessions.

By insisting that Mosul lies within Iraq, which is part of Mesopotamia, the Allies, it is asserted, will declare that it comes under the British mandate, since Mesopotamia is assigned to Great Britain under formal mandate. It is further reported that Great Britain and France have reached an agreement over the Mosul oil question.

A prominent official from Iraq arrived at Lausanne a few days ago and announced that his country would insist on sovereignty over Mosul.

According to another version of the situation current last night, Great Britain and France have reached an agreement outside the peace conference regarding Mosul, whereby Turkey is to have sovereignty over the region, and England the oil concessions.

Steamship Adrift in Atlantic Picked Up and Will Try for New York or Halifax—Search for a Missing Schooner With Cargo of Alcohol.

(Canadian Press) Los Angeles, Dec. 16.—Fire in the hold of the Japanese steamer Chicago Maru, lying in the outer harbor with a \$750,000 cargo, including 6,400 bales of cotton, got beyond control early today. One hundred passengers were taken ashore soon after the fire was discovered. The vessel arrived yesterday from New Orleans.

MAY SIGN NEAR EAST TREATY ON JANUARY 24

Ismet Against Adjournment for Christmas—Conflicting Reports About Rich Oil Fields, Which Have Become a Big Issue.

(Canadian Press) Lausanne, Dec. 16.—Drafting of the treaty of Lausanne is now in progress. FIGHT HARD TO DEFEAT HUGHES

Keen Interest in the Federal Elections in Australia Today.

Melbourne, Australia, Dec. 16.—(Canadian Press)—(via Reuters)—There is keen interest in the federal elections throughout Australia today. The fight is running against W. Piddington, has been warm. The Labor Party withdrew its candidate in this constituency in order to assist Piddington.

The Premier has lately represented Bedford in the house but as a change in the electoral boundaries seemed to prejudice the chance of reelection there, he decided to contest the North Sydney seat. In the days when he was a leader in the Labor Party Mr. Hughes sat for a working class riding of Sydney.

**FIFTEEN MINUTES  
OF RADIO EACH DAY**

By Edward N. Davis  
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 183.  
RADIO FREQUENCY AMPLIFICATION AND REGENERATION.  
In order to obtain the advantages of one stage of radio frequency amplification, the experimenter may employ the circuit shown in the diagram.

The portion of the diagram included between the dotted lines represents the standard regenerative receiver with tickler coil for feedback. The condenser usually connected in series with the aerial should in this case be connected in shunt to the primary of the variocoupler. The additional apparatus required consists of a hand receiving tube, socket, rheostat, variometer and condenser for tuning the antenna circuit. While not absolutely essential the variable condenser aids in tuning the antenna circuit.

The plate circuit of the extra vacuum tube which acts as a radio frequency amplifier is connected to the antenna post of the regenerative receiver, while the plate circuit is completed through the primary of the variocoupler, the ground binding post being connected to the plate battery. The same filament and plate batteries may be employed in this circuit without materially affecting the results obtained.

It is desirable to shunt the filament battery with a potentiometer to a variable tap of which the negative terminal of the plate battery is connected. A study of the circuit shows that the variocoupler of the regenerative receiver in this circuit arrangement acts as radio frequency amplifying transformer, the primary and secondary windings being the primary and secondary of the coupler. Tuning to resonance with the incoming wave is accomplished of the variocoupler (by the usual switches) and by varying the values of capacity in shunt to these windings by manipulating the primary and secondary condensers.

The antenna circuit is tuned to resonance with the incoming wave by means of the variometer and variable condenser in series in this circuit. The grid and negative side of the filament of the radio frequency amplifying tube are connected across the windings of the variometer in the antenna circuit. The circuit thus becomes in effect, a single circuit receiver with one step of radio frequency amplification and recommends itself on account of its simplicity and the need for few instruments in addition to the usual regenerative receiver.

While for clearness sake the circuit is shown with only two tubes and no audio frequency amplification, there is no reason why the usual two or more stages of audio frequency amplification should not be employed in connection with this arrangement. Also the circuit shows a regenerative receiver of the tickler feed back type, although it should be just as practicable to employ the common form of two variometer and variocoupler receivers.

If it is desired to employ more than one stage of radio frequency amplification, it will be necessary to add a radio frequency transformer as well as the tube and other apparatus for each additional stage, that is, a two stage amplifier will require one transformer, and a three stage amplifier, two transformers.

**MR. PHILLIPS' STATEMENT**

At yesterday afternoon's meeting of the Common Council C. H. Peters said that according to the report he had read of Herbert Phillips' declaration at Tuesday's council meeting the civic distribution plant could not be completed within four, five or even six years.

In connection with this Mr. Phillips said yesterday that any distribution system would have to be extended from time to time as circumstances warranted and would never be completed in the strict sense of the word. He said he hoped this would correct the wrong impression Mr. Peters had received from reading the newspaper report.

**MORE DIFFICULT TO RECOGNIZE**  
New Irish Detectives Have Advantage Over the Old Force—Congratulated on Efficiency.

Dublin, Nov. 28.—(By Mail)—The Criminal Investigation Department, established by the Irish Government, has largely replaced the old detective department of the Dublin Metropolitan police.  
It has its headquarters in Ortel House, and its task is the rounding up of the ordinary criminals, bank robbers and burglars, who have taken advantage of the prevailing troubled times to prey on the citizens. The new force has the advantage, over the old, that its members have none of the traditional and easily recognizable appearance of the ordinary police detective in Dublin. They are mostly young men, very like the average young man in dress and build, and their operations are increasingly effective. They recently made 36 arrests in one week; have recovered much property, and have been congratulated on their efficiency by the Recorder of Dublin.  
Scientists say that if insects stopped warring among themselves man would be driven off the face of the earth.

**QUOTES LORD NORTHCLIFFE ON DOCTRINE OF HATE**

Industrial Editor Says Late Publisher Saw Reason as Europe's Hope.  
New York, Dec. 16.—When he was in the world of Europe being on a real basis in one year from now," Lord Northcliffe told Mr. Rogers. "There is just one gleam of hope and that is down in Italy. There is a little fellow down there, no more than 35 years old, who has been listening to all the agitating Bolsheviki for the last five years and who has decided that it is just as easy to sell faith as it is to sell hate. That man's name is Mussolini. He is appealing to the best there is in Italy and selling faith. If Italy is going to be saved Mussolini is going to do it."  
Mr. Rogers pictured the immigrant coming to this country as "getting a jolt" as soon as he reached Ellis Island and was welcomed only by the I. W. W. "This was true in the best also, he said. The radicals, said Mr. Rogers, instill so much hatred in the minds of Europe, are so full of hate that they are licensed against the employers. He also blamed the "business agents" in the unions for sowing much of the discord, and said it was they and not the actual gunman who were responsible for the Herrin murders.

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 16, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

MONDAY'S GUEST.

Sir Henry Thornton will be in St. John on Monday. He will be met by a joint committee of the City Council and Board of Trade, and will be entertained at luncheon by the Canadian Club. Before he arrives he will have received a communication from the Council and Board pleading before him matters affecting the port, so that he will not have to depend wholly upon the short period of his stay to get the city's point of view and a knowledge of those things which are to be brought to his attention. It is not to be expected that Sir Henry will make definite pledges concerning any C. N. R. work in this city. This is his first visit. He is seeking to inform himself fully upon all matters affecting the railway and its business, and to learn just what the people think about the possibilities of developing a greater traffic. If the representative men he meets are able to impress upon his mind the great opportunity they see of benefiting the Dominion as well as this city by providing better facilities and routes for more traffic this way, they will have accomplished a great deal, for he comes with an unprejudiced mind and a desire to regard the railway problem of Canada from every angle. President Harbour of the Board of Trade has urged that we present our case as those who do not merely complain, but who see great possibilities and are ready to do their part. That is the right spirit and will bear good fruit. Sir Henry has made a tour of the C. N. R. in Nova Scotia and if we may judge from the press comments he has won golden opinions by his manifest knowledge of railway problems and his earnest desire to get close to the people. Of his visit to Halifax the Chronicle says—

Sir Henry Thornton's speech at the banquet in his honor last night strengthened the conviction which his public utterances since he came to Canada have created, that the Government has committed the huge task of selling the National Railways system to competent hands. As an after-dinner speech alone it was a model both in form and in content. It was happily phrased, it evidenced a sincere desire to acquaint himself with the peculiar needs and difficulties of transportation in this section of the Dominion, and it was lightened with gleams of humor which quite caught the fancy of the company. Sir Henry Thornton impressed the gathering as a gentleman of prudence as well as courage. His personality is at once attractive and commanding. Behind the charm of his manner there appears to be power of firmness and determination in decision. He has already shown an appreciation of some of the difficulties from which we are suffering, he has affirmed his eagerness to investigate these difficulties and endeavor to provide remedies. His declaration on this point, reinforced by the words of Mr. J. H. Sinclair, the Maritime member of the Board, encourages the hope that our claims and representations will receive sympathetic consideration and favorable action from the new management.

Some remarks made by Mr. Herbert Phillips at City Hall regarding the civic distribution system were welcomed by the friends of the New Brunswick Power Company, after a distorted version of what Mr. Phillips said had been published, and an attempt made to make capital out of it for the power company. Mr. Phillips said, and said with truth, in pointing out that tenders could not be called for the whole distribution system at once, that the system would be under construction for several years. Who denies the truth of this statement? A distribution system is never completed unless a city is dead. The suggestion that the Telegraph, Times and Globe deliberately suppressed information which the public should have to be expected from the power company advocates but not from any other source.

The last week has given rise to more hope of good results from the conference at Lausanne. The firm attitude assumed by Mr. Child, the American representative, has had a pronounced effect upon the Turkish delegation, which a week ago was in a very uncompromising mood. Turkey does not want the western world against her, and when the United States supports the European Allies the whole situation assumes from the Turkish standpoint a new aspect. Great hope is expressed of benefits to accrue to the world if Turkey assumes a pacific mood and enters the League of Nations.

When Lady Astor contrasted the lot of families who live in two houses with those who have to live in two rooms, an English lady audience howled her down. The force of her comparison, however, is not lost upon the people.

BOOST THE CARNIVAL.

If there is to be a successful winter carnival in connection with the international skating meet a lot of people who were not at last night's meeting must interest themselves in the project. The joint committee having charge of the skating meet have the work cut out for them, and cannot be expected to conduct the carnival in addition. It is of the utmost importance that the arrangements for the skating meet be so complete as to leave no room for criticism. We want to make an even greater success of this meet than was made of the event of last winter, which did so much to spread the fame of St. John as a sporting centre. This will be a greater meet for a wider interest, and attended by many more people from abroad. The skating committee, therefore, will have to take hold and make the affair the greatest possible success. One complaint at last night's meeting was that there was not a large enough representation of the commercial organization of the city. Of course this is an extremely busy season, but there is much to do and no time should be lost. There can be no doubt in the mind as to the value of this carnival to the city of St. John. It will be an advertisement such as the city needs, but it is also an opportunity for team work and a display of community spirit. It would have a most beneficial effect upon the citizens. Only this morning the Times received from the Winter Sports Committee of Montreal an invitation for St. John to be represented in the "Miss Canada" contest which is to be a feature of their sports in the week beginning Feb. 5. The writer says: "The presence of a candidate from your city will give wide publicity to your city." Montreal realizes the advantages of a winter carnival. Its event will of course be on a scale worthy of a great city. St. John can have quite as attractive a programme on a scale in proportion to its population. All that is needed is a real community effort, and that should be aroused at once if success is to crown the effort. Let us all get the carnival spirit.

Messrs. Fielding and Lapointe have concluded an important trade treaty for Canada with France.

A new trade treaty with Australia has been concluded by Hon. Mr. Robb. The Government at Ottawa is making a good record in this regard. Canada needs enlarged trade and the more favorable treaties she can make the greater the assurance of a return to prosperity. It still remains true, however, that the greatest need of the country is an influx of the right kind of immigrants to increase production, provide more traffic for the railways and a larger home market for the products of our industries.

Addressing the Council of Women yesterday Dr. F. G. J. Knowlton uttered some unpalatable facts. One is that the fire loss in New Brunswick this year will probably exceed \$8,000,000. This is a direct loss of that amount, for whether there is insurance or not the value is destroyed and can never be replaced. Mr. Knowlton also said that New Brunswick has a larger proportionate fire loss than any other province in Canada. There is no excuse for this condition. It is largely a result of carelessness. All the people must learn the lesson that fire prevention is a matter of the utmost importance.

Another last offer has been made in behalf of the New Brunswick Power Company. The Bodell offer was that the city should give the Company's property a value of \$3,900,000. The offer informally made to the City Council yesterday cut this figure to \$3,068,000. There is here a drop of \$820,000, but the figure is still over half a million in excess of the offer made by the city. And the city's offer was final. The new offer by the Company, however, proves the wisdom of the city in the course thus far pursued.

The Times yesterday broke all the former records for the amount of advertising carried in any one day. That is not merely a tribute to its value as a medium for advertising but an evidence of the fact that merchants generally are recognizing more and more the importance of telling the patrons of a widely-read journal what they have to offer.

Mr. Justice Barry declares that it is against the law for a citizen to treat another to liquor in his barn. The only remedy will be to plant it in the haymow and let the thirsty one help himself.

ONE PASSED SINGING.

(Vilda Savage Owen, in New York Times)  
Orpheus with his silver string,  
Fam with his quiver,  
Full of living reeds, they say,  
Down by the river,  
Made the stones to cry with fear,  
Made the trees to nod,  
Ahl how could they know music  
Who never knew God?

Music is for healing hearts,  
Song is God-given,  
Melody that soothes and binds  
Is a gift of Heaven.  
One passed a day ago  
Who knew this way,  
His was the magic of the  
Angel Israel.

One passed yesterday,  
Singing, singing,  
Swift was his flight  
As the swallow's winging.  
Open to him, Gabriel!  
He never brooked delay.  
No avails some day,  
He will find the way.

He will find the pathway to the  
Simple folk and poor.  
He will sing a welcome to the  
New at Heaven's door,  
Cheerful with his healing song,  
Calming with a nod,  
Souls a bit bewildered,  
Just a bit afraid of God.

Music is for mending hearts,  
Lonely and five,  
Melody that eases pain  
Is God-given.  
And oh! could it be quiet  
For awhile some day,  
That I might hear him singing

MOTORS  
And Their Care

Practical Suggestions for Insuring Longevity of the Car  
Care of Wheels.  
Wheels should be removed for inspection once or twice a season, new washers replacing the old ones if necessary.

The Fan Belt.  
Slipping of the belt may be caused by several things. The belt may be oily, greasy or too loose; the fan may be tight on its bearings, possibly from lack of lubrication, or the pulley may be loose on the shaft.

Rust Prevention.  
This is the proper time of the year to clean the under parts of the car, and then to apply a good metal paint or enamel to prevent rusting. A wire brush and emery cloth should be used to clean off rust spots before painting.

Clean Connections—More Current.  
Because an electric current will not pass through fouled connections, all wires should be examined occasionally and connections cleaned. Only the amount of current proportionate to the cleanliness of the connections will pass through the circuit.

When the Starter Refuses.  
When the gears of the electric starter become stuck, turn off the ignition switch, put in "high" gear and then gently rock the car backward and forward. This will release the starting motor gear from the flywheel gear and the starter will turn the engine easily.

Non-Freezing Mixtures.  
Ninety per cent. water, 10 per cent. alcohol freezes at about 20 degrees Fahrenheit. Eighty per cent. water, 20 per cent. alcohol freezes at about 10 degrees Fahrenheit. Seventy per cent. water, 30 per cent. alcohol freezes at about 5 degrees Fahrenheit. Sixty per cent. water, 40 per cent. alcohol freezes at about 20 degrees Fahrenheit.

The Carburetor.  
The carburetor, known as the "heart of the car," should be left alone; not once in a thousand times does trouble come from this source. It is not good policy to see change adjustment. See that there are no air leaks at the manifold connection, but now and then open the pet-cock under the bowl of the carburetor to drain out an sediment that may have accumulated.

Inserting Piston Rings.  
Piston rings seldom break, but when one does it is not difficult to insert a new ring if the job is tackled in the right way. Remove the connecting rod cap and pull the piston out from below. The rings may be slipped on off the piston by inserting thin strips of sheet metal under them to prevent their dropping into the grooves until they are in their proper places. Pieces of old hacksaw blades are good for this purpose.

Mending Small Holes in Tubes.  
It is not necessary to have a garage or service station make a small repair on a tube. The easiest and quickest method of treating holes which are not more than a sixteenth of an inch in diameter is to use any one of a variety of cementless patches, which simply require one side of the patch covered with gasoline. Clean the space about the hole with the petrol, rub with sandpaper to provide the necessary

**EAGLE'S WAYS WITH AIRMEN**

Scheme to Secure Reports from Pilots of Aircraft Regarding Monarchs of the Sky.

London, Dec. 16 — That human "birds"—that is to say, the pilots of aircraft—should make studies while aloft of the real feathered folk—of eagles and other lordly denizens of the sky—is the fascinating scheme which is to come before the great international air congress to be held in London next June.

What is proposed is that the thrilling adventures of airmen with birds, more especially when flying over the form of detailed reports containing all the specialized information which ornithologists require.

Some of these encounters have been terrifying. One British pilot, flying high in misty weather, suddenly saw a great angry winged shape dart at him. With a fearful impact, it struck and broke his propeller, and he had to come gliding down, and make a perilous landing. He never knew what enraged denizen of the air had attacked him, or what its fate had been after the collision.

Great eagles which haunt mountains sometimes betray a lively dislike of the big man-driven mechanical "birds." Used His "Gat."

One pilot, on descending from a trans-mountain flight in a fast monoplane, told an extraordinary story.

Probably it was the single-wing shape of the aeroplane, looking just like a big bird, which exasperated a great lonely eagle. It flashed down upon the flying machine, and flew round and round it with angry eyes trying apparently to see which was the most vulnerable part of this noisy, fast-moving adversary.

Then, attracted perhaps by some movement of the pilot's head, the great bird really prepared for flight, and there might have been some very tragic

### GRANITE PAVING NOW SUPERSEDED

Asphalt Preferred by Montreal Chief Engineer as Possessing Several Advantages.

Montreal, Dec. 16.—Paving of city streets with asphalt instead of with the more expensive and heavy granite blocks, which has been proceeding during the last summer, will be continued next year, the only exceptions being a few streets where the grades are particularly steep or on which traffic is abnormally heavy.

In discussing this matter H. A. Terreault, chief engineer of the city, remarked that during the past summer when the city had spent over \$2,000,000 on new pavements, not more than \$800,000 of that sum had been used for paving streets with granite.

With a solid foundation consisting of not six, but eight or nine inches of concrete, the chief engineer declared that good asphalt on top of a foundation of that kind would give the best satisfaction, and with the exceptions noted he saw no reason to lay more paving blocks in Montreal.

This is in direct contrast to what has been done previously on the sup-

position that no paving material but granite was suitable to the streets of this city, on which an unceasing flow of traffic takes place at practically all seasons of the year.

It is further the intention of the chief engineer to make prompt repairs in asphalt pavements before the foundation has become worn, and in that way to preserve the pavements and diminish the cost of maintenance. In this connection the chairman of the Executive Committee recently stated the department of public works

would next year have a flying squad of street repair gangs with the object of looking after pavements on the first sign of wear.

**Asphalt's Advantages.**  
The points emphasized by Mr. Terreault in favor of asphalt pavements were that they cost less than granite blocks, and were easier to maintain; they were less noisy; they were not the cause of breaking so many vehicles; and except where traffic was as heavy as on Commissioner street,

or the grade as steep as on Cole de Neiges road, asphalt would give as good results, he asserted, as granite.

The paving programme carried out last summer was the most extensive in the recent history of Montreal, and when the season was over, a considerable sum of money remained with which to make an early start on paving operations next spring.

Many inquiries seem to be made about the progress with the reconstruction of the city hall. The chief engineer said he expected the work on the steel structure to begin any day this week, which would be completed in about a month, and after that the whole work would go on towards completion.

It seems that no detailed plan has yet been drawn showing the estimated cost of the reconstruction, for which the Legislature authorized an expenditure not to exceed \$1,500,000.

#### BRITISH GENERAL KILLED IN CRASH

(Canadian Press Despatch.)  
London, Dec. 15.—Lieut.-General Sir George Montague Harper, K. C. B., G. O. C. of the southern command since 1919, was killed and Lady Harper was seriously injured today when their motor car skidded into a bank and overturned near Sherborne. Both were pinned under the car and Sir George's skull was fractured. He served in both the South African and the late European wars.

Lake Megantic, Que., Dec. 16.—Mr. Charney, a local resident, was instantly killed while aiding the fire fighters to check the flames that destroyed the Church of England parsonage here this week. While at work with several other men handling a hose at the fire Mr. Charney was buried under a mass of bricks when the parsonage chimney fell. A number of other men had narrow escapes when the chimney fell. Rev. Mr. and Mrs. Plummer, who occupy the parsonage, were away at the time of the fire, the former in Quebec and the latter in Montreal.

#### GUNMAN GETS AFTER HEAVYWEIGHT ON SHIP

Negro Boxer Was Not Intimidated by Revolver

The chief steward and cook of the steamer Seneca, figured in an attempted shooting case in the Magistrate's Court, in St. John's, Nfld. one day this week.

From the evidence it appeared that ill-will had existed between the two men, one of whom, the steward, is a small size white and the cook a large size negro, with a reputation as a heavyweight boxer.

The cook had refused to do something for the steward and about 2 o'clock the steward went to the galley, armed with a .38 calibre revolver, which he had taken from the captain's room and a large butcher knife. He spoke to the negro, who told him he wanted to have nothing to say to him. "The steward then said 'I'll get you' and pulled the revolver. Before he had time to do anything else a 'clip' under the chin from the pugilist sent him spinning and ultimately the revolver and knife were taken from him. He said that the cook had threatened him on several occasions. A young man from St. John's, who was in the galley when the steward came there supported the cook's testimony and said that when he saw the revolver come out he had jumped on a table to get out of range. The steward was

Do You Remember My Pictures? Charlie Chaplin

\$2500.00 IN PRIZES  
NAME THE PICTURES THESE SCENES ARE FROM

CHARLIE CHAPLIN'S Picture Plays have made millions laugh. He is particularly well known and appreciated in Canada. But whether or not you have seen the famous Charlie Chaplin films that are being shown in the country, we are clever enough to find the names of the pictures from which the scenes are taken. If you can you may share in the winning of \$2500.00 in cash and prizes.

HOW TO SOLVE IT.  
The object of this contest is to name a few of the most popular of the famous Charlie Chaplin picture plays. The 3 scenes at the left are taken from one of five of his great picture plays. In order to help you name them correctly the artist has put into them scenes the names of the pictures. Uncoverable letters, put them into their right order and you will have their names. In case you are not familiar with the popular Charlie Chaplin picture plays the following list of names appearing in Canada save, the names at the left will help you!

CHARLIE CHAPLIN HIMSELF IS HONORARY JUDGE!  
Frankly this contest is intended to further advertise and introduce EVERYWOMAN'S WORLD, Canada's Greatest Magazine, but you do not have to buy anything, subscribe, or anything of the kind to enter. It is free to all.  
Write the names of the five pictures you think these scenes are from, using pen, ink or blue ink. Put your full name and address (including Mrs. M., or Misses) in the lower right hand corner. Use a separate sheet for anything due you wish to write.  
Mr. Chaplin as Honorary Judge, and three independent judges, having in connection with the contest, will award the prizes, and the answer

gaining 250 points will win First Prize. You will get 20 points for each picture you name correctly. 40 points will be awarded for the general outline, pronunciation, spelling, etc., of your answers. 10 points for handwriting and 100 points for filling in a simple condition of the contest. This condition is only that you send in this great advertisement page by showing a copy of EVERYWOMAN'S WORLD, Canada's Greatest Magazine, (which we will send you free) to just four friends or neighbors who will appreciate this really world wide Canadian publication and urge it to come to them every month. The contest will close at 8 p.m. June 30th 1923, immediately after which the answers will be judged and prizes awarded. We reserve the right to alter the qualifying conditions from time to time as may appear necessary, though of course any such change will not affect anyone who has already qualified their entry. Don't delay sending your answer. This announcement may not appear in this paper again. Address: Charlie Chaplin Contest Editor, Continental Publishing Co., Ltd., Dept. 25 Toronto, Ont.

WOOD AND COAL

Several new members were accepted at last night's meeting of the Y. M. C. A. of the Victoria street Baptist church and it was decided to enter upon a larger membership campaign. The association holds physical evenings each Friday and classes each Sunday. E. D. Howard, the physical instructor, was in charge last night and it was agreed that, since the aim of the association was to support all clean physical and social activities, all young men who subscribed to these principles would be eligible for membership. Frank Dumfield is the leader for the Sunday classes.

HALIFAX ASKS FOR A GOOD TURN FOR PORT DEVELOPMENT

The Case as Presented to Sir Henry Thornton This Week in That City.

The citizens of Halifax placed before Sir Henry Thornton this week the claims of that port. They said, among other things: "A safe and commodious harbor opening directly on the Atlantic Ocean with very little tide, 650 miles nearer than Portland, notwithstanding which the Halifax Ocean Terminal, built by the Canadian Government at a cost of some \$18,000,000, have been allowed to stand year after year uncompleted and idle."

The erection of a grain elevator was strongly urged, as well as a bridge to Dartmouth. It was also said: "The raising of the British live cattle embargo has resulted in enquiries made by various steamship companies as to the facilities at Halifax for care for cattle before embarkation."

Of the effect of the longer haul to Halifax, the address presented to Sir Henry said: "In considering the use of Halifax for foreign traffic, we admit that the longer haul from the west is a disturbing factor. We are, however, of the opinion, that the Canadian National Railways, being in a position to control a large volume of cargo and import freight, should be able, either by the use of Canadian Government steamers or by co-operation with privately owned steamship services, or a combination of both, to establish the same through rates to and from Europe and elsewhere."

In addition more than 2,000 tons of general cargo and 5,188 bags of mail and packages of parcel post, of which 815 were for maritime province points. She docked at No. 2 and 3 berths, Sand Point about 2 o'clock. John J. Bradley of Montreal, formerly of St. John, was one of the passengers returning after a trip to Europe.

A GOOD TURN FOR SCOUTS TODAY

People Helping Worthy Organization by Contributing as Taggers Present Request.

It was the public's opportunity today to turn the tables on the Boy Scout and to adopt temporarily his slogan, "Do a Good Turn Every Day." For the citizens contributed generously to the solicitation of a squadron of young ladies who, in return for a cash donation decorated the contributors with a tag bearing the Scout crest and motto. The proceeds of the campaign will go into the funds of the Boy Scouts Association.

The Y. M. C. A. was the headquarters of the tag day operations, which were capably directed by Mrs. G. Wilford Campbell as general convener. She was assisted by the following ladies who undertook the organization in various sections of the city: Mrs. H. Usher Miller, Mrs. Kenneth Campbell, Mrs. Leslie Peters, Mrs. H. O. Clark, Mrs. A. C. Wilson, Miss Katherine Siskion, Miss Hortense Master, Mrs. J. R. Haycock, Miss Katherine O'Neill, Mrs. Nichols, Miss M. McCloskey, Mrs. Crocker, Mrs. W. L. Caldwell, Mrs. C. W. Holder, Miss Gladys Gibbon, Miss Thelma Alward, Mrs. Allan Bestway, Mrs. Frances Miller, Mrs. Sydney Jones, Mrs. J. Ernest Waring had charge of the West Side plans.

Luncheon was served to the workers at noon, the arrangements for this feature being under the direction of Mrs. A. C. Siskion, Mrs. E. H. Turnbull, Mrs. Joseph Fowler, Mrs. Rowland Frith, Miss MacColligan, Mrs. H. O. Evans and Mrs. J. H. Doody. Mrs. Campbell was in charge of the book committee and was assisted by Miss Estey, Mrs. H. B. Peck, and Mrs. H. L. Coughlan.

The finance committee was composed of H. J. Cheehan, Guy L. Short, T. E. Simpson, H. Usher Miller, T. F. Drummond and others. V. C. Timberley, district secretary of the Boy Scouts' Association had charge of the tags and was assisted by members of the local troops, who also worked with taggers, who were drawn from the various ladies' and girls' organizations in the city, including the members of St. John and St. Vincent High Schools.

Missed One Santa, But Found Another He was only a tiny mite of a chap, but he still had implicit faith in the existence of that munificent personage, Santa Claus. Accompanied only by a red-robed canine of doubtful lineage, restrained by only a dirty length of knotted string, he appeared wide-eyed at the corner of Germain and King streets about eleven o'clock this morning. His air of expectancy attracted the attention of one of our city officials who approached him.

MRS. FAIRWEATHER DEAD IN SUSSEX In Sussex at an early hour this morning, the death of Mrs. Sarah A. Fairweather took place. She was the widow of Douglas M. Fairweather one of the Kings County's prominent citizens in days gone by. The deceased lady, who had been in declining health for some months, resided at the home of her granddaughter, Mrs. Murray Gambin. She was one of the older generation of residents who helped to found the sure success of the town in which she lived, taking an active part in Anglican circles in her younger years and being kindly and charitably disposed towards all. Mrs. Fairweather, who was 81 years of age, leaves three sons and five grandchildren. The sons are George M. Fairweather, druggist of Sussex; D. Hallet Fairweather, insurance broker of Vancouver and Walter S. Fairweather, merchant of Sussex, whose home and business premises were destroyed by fire on last Thursday night. Mrs. Fairweather's maiden name was Spear. The funeral will take place on Monday afternoon at two o'clock from the residence of Mrs. Gambin, Main street. Rev. Canon Sewin will officiate and interment will be in the Church of England cemetery at Sussex Corner.

ANOTHER BOND DEALERS' LETTER The Bond Dealers' Association of Canada has proved not to be so quiescent as it appeared to be yesterday, for after more than a week's silence, its officials in Montreal woke up to the fact that its United States counterparts, the Investment Bankers' Association, New York, was beating them to it in its fusillade of correspondence directed against Mayor Fisher and his offer to the New Brunswick Power Co. The net result was that in this morning's mail to Mayor Fisher, came a letter from the Montreal people purporting the arguments advanced in previous letters on the subject. The Mayor immediately replied in the same vein as he did yesterday to the New York Association, requesting them to address any further communications which they may desire to send, to the Common Council.

MONTCLEARE IN The Canadian Pacific steamship Montclare arrived in port this morning from Liverpool with 160 cabin and 399 third class passengers. In addition more than 2,000 tons of general cargo and 5,188 bags of mail and packages of parcel post, of which 815 were for maritime province points. SEE NO GERMAN LOAN LIKELY AT PRESENT TIME

Rumor Far Ahead of Fact, Say London Experts

Must be Greater Confidence in Germany Than Now—London Comment on Conditions of Great Britain's Debt to the U. S.

(Canadian Press) London, Dec. 15.—The diplomatic and financial experts of the London morning newspapers are of the general opinion that the rumor of a U. S. or international loan to Germany runs far ahead of the fact. Reports of possible financial assistance to the Germans, together with the attitude taken yesterday in Washington next week, and intimations that the Harding administration is disposed to exert a helpful influence in European affairs, attract wide attention here and Washington and New York dispatches bearing on these questions fill the chief columns of the press. The experts, in viewing the suggestion of a loan with considerable skepticism, reflect the attitude taken yesterday in responsible circles in the money market. The Morning Post's financial editor writes that financial quarters consider it unlikely that confidence in Germany will be sufficiently restored to render an international loan to that country at all probable for some time to come, although some day, under favorable conditions, it will be possible. Rationally emphatic doubts are expressed by several other newspapers, although it is clear that the opinions of their experts are not necessarily based on suspicion of Germany. The Daily Telegraph's diplomatic correspondent writes that one of the conditions precedent to any loan to Germany must be the scaling down of the German indemnity. None of the newspapers discuss the question editorially. U. S. and British Debt. London, Dec. 16.—Commenting editorially on the mission of Stanley Baldwin, Chancellor of the Exchequer, to the U. S., the Daily Mail insists that his discussions with the U. S. authorities on the debt question must be free from sentiment. "We cannot be sentimental towards others," the newspaper says, "when our own standard of living for a generation and our future existence as a trading nation are at stake. If we are to make fresh concessions we must receive some consideration."

Wants Hydro From The Tusket River

(Yarmouth Times.) The rights of our coal have been given to capitalists, and now it costs so much money as to be beyond the reach of the poor man. The oil business is also controlled by monopolists, who make their thousands per cent. profit out of the public. Our only possible chance of obtaining these necessities at a reasonable cost lies in the development of our water powers, most of which are as yet owned by the public. It is up to them to see that no scheme is allowed to put us in the same position as to the City of Halifax, where their water power, after having been developed, is given into the hands of private corporations, who sell it back to the public with a profit of 800 per cent. It is not a question of "do we want hydro?" We not only want hydro, but we want it at the minimum cost of production for the consumer. We already have hydro in small quantities, but at high prices, and have had enough at present cost. The profit that immense masses can be made from the hydro-electric development is that the profits made by the Yarmouth Light & Power Company were more than \$38,000 per year after paying expenses and interest. The Nova Scotia Powers Commission was created by Chapter 6 of the Statutes of Nova Scotia of 1919, and was granted full power to acquire by purchase, lease or otherwise, or with the consent of the owner thereof, or of any person interested therein, enter upon, take possession of, expropriate and use; (a) material adapted for the generation of electrical energy; (b) any property, real or personal, or any right or interest therein, which is necessary for any development, it is necessary to acquire, or to develop, or to use, or to maintain, or to develop such property, and a contract or agreement entered into by which said town or municipality should take sufficient control to pay for the interest on the development and provide a sinking fund to repay the amount of the loan, as well as a sum sufficient to keep up the plant. This is the psychological time to protect ourselves, and before making application and granting the Commission the right to exploit all the country-side from Harrington to Middleton. The Times is repeatedly asked which proposition it favors. Our answer is that we favor the one which will be a burden for us to pay. The Times is repeatedly asked which proposition it favors. SUSSEX PLANT NEARLY READY

Hydro Distribution Expected to be in Order When Current Turned on Trunk Line.

(Sussex Record.) While Sussex will not have Hydro Electric from the present outlook, to light the way for Santa Claus, it will be lighted by a short time and should be on hand closely following the New Year. It may be a really treat the while that is a possibility, it does not look like a probability. However, the other view is that the power or the other will not make any material difference. The town of Sussex distribution plant is well under way. The pole line is up, wiring completed, and the standards for street lighting lamps in position. The sub-station which is being built on the Fred Morrison property, corner of Main street and Floral avenue, by Contractor Heber Cripps, is nearly completed. The big transformer to be installed there has arrived. Every effort is being made to rush the completion of the plant. The town of Sussex distribution plant is well under way. THIS BIRD WAS SLICK, BUT HE LANDED IN CAGE

Effective Work Done by St. Stephen Police This Week

(St. Croix Courier.) While Donald McGeechay, his mother and sister were at church Sunday evening somebody unlocked the front door, snatched the house and got away with \$75 in cash, two gold watches, four gold rings, a revolver and some other articles. When the police was discovered, it looked like the work of somebody who knew the premises, for there was evidence of about every room having been ransacked and every small article of value lifted. When the case was reported to the police, Sandy Cleghorn, the night man, commenced to do some thinking and suspicion with him fell on a young man who had been in a few of his places, from Halifax and had been given a night's lodging in the lockup. He represented himself as a returned convict, and wore the soldiers' service button, but returned men found him unable to tell of any unit he had served in. Sandy secured him a job with O. McBride on his farm just outside of town on Monday. A few days later the chap returned to Sandy with a tale of having no clothes and a request that the policeman give him an old suit down at the lockup, while a free lodger. Sandy found these to be the plans of one of the men about the place, and of course, could not dispose of them. Then he informed the stranger that the policeman had a suit down at the C. P. R. station which he agreed would probably give him if the agent would be exempt from the payment for his services and suit case, but could only be had in the morning, and further that he had been absent from the farm-house Sunday evening between six and nine o'clock. The scent was getting strong and it was learned that, in a payment for his services and suit case, but could only be had in the morning, and further that he had been absent from the farm-house Sunday evening between six and nine o'clock. SAYS BRAZIL IS OVERLOOKED

British Manufacturers Said to Have Lost Opportunities Which Were Grasped by Americans.

London, Nov. 30.—(Associated Press, by Mail)—Brazil has been overlooked by the British manufacturer, according to Sir John E. Thornycroft, and the American manufacturer, and which exports in that South American republic. Sir John has just returned from a trip to Brazil, and speaks glowingly of the latest possibilities of the country. "Brazil is virtually as large as Europe, and yet there are only about 15 or 16 millions of inhabitants. There is an enormous wealth in natural resources, and there are vast areas in Southern Brazil suitable for stock-raising, where the climatic conditions are good for Europeans, and which the Americans are exploiting before the war. Then again, the extent of Brazil's mineral wealth is often entirely overlooked at home. It has probably the richest iron deposits in the world, besides diamonds and other precious stones, which are by no means worked out."

It is declared that American railroads made starting offers to Makhonini, but he is awaiting the patent before considering the proposals. The greatest pearl fishing centre on the Pacific Coast of America is at La Paz, near the southern end of Lower California.

FORMER CONSUL OF DAIL EIREANN WARNED TO LEAVE

New York, Dec. 15.—Daniel J. McGrath, former Dail Eireann consul to the United States, today was warned to leave the United States before the morning of December 26 by a mysterious letter writer who signed himself "Authority, Irish Republican Army."

MISSION LAND CONCERT.

The Mission band of the Waterloo street Baptist church held a Christmas concert last evening in the vestry of the church under the able leadership of Miss Margaret Hamilton. The building was especially decorated for the occasion and in various sections of the room booths were arranged, one for the sale of home-made candy, the second for fancy articles, the third for packages, candy, and the fourth for Christmas novelties.

Summer time brings many children back to the old home—among pleasant memories renewed will be the Tea they used in childhood—"RED ROSE" TEA "is good tea" RED ROSE Crushed COFFEE pleases particular folks.

GERMANS DECLARE INVADING BELGIUM CAUSED DEFEAT

Violation of the Treaty Gave Impetus to the "Might is Right" Charge and Made Foes of Many Nations.

London, Nov. 25.—(By Mail)—Referring to recent attempts to reopen the question of Germany's war responsibility, "The London Morning Post" refers to an article entitled "Belgium" in the "Worterbuch des Volkerrechts und der Diplomatie," a work begun by Dr. Julius Hatzfeld, the jurist, and continued by Dr. Karl Strupp, of the University of Frankfurt. The article is a categorical denial on the part of its German authors of the arguments propounded during and since the war by German propagandists, as the following extracts sufficiently show:

The entry of the Germans into Belgium was of immeasurable importance; it was the official motive of England's coming into the war, though it was certainly only a "pretext for war" in any case. It was the first step to this pretext that Grey influenced public opinion in favor of war; it made England the guardian of international treaties and the protectress of small nations, and placed Germany in the wrong from the beginning (see England's declaration of war, Grey's speech of 3F-VII-1914; Asquith's speeches of 6 and 27-VIII-1914, and 18-IX-1914).

This same action was the motive for an ever-increasing number of other states to declare war on Germany the entry of the Germans into Belgium became, for the Entente, an example of the German maxim: "Might is Right." It echoed loudly among belligerent and neutral countries, and put Germany into moral isolation. (Speeches made by Masterlink in Italy in favor of Belgium, in the winter of 1914-15; impression made on Wilson by the Belgian Mission to America; formation of the "Belgian Relief Commission.")

Germany had undertaken to respect Belgian neutrality; her entry into Belgium constitutes, therefore, prima facie, a transgression of international law. The most important attempt at justification by producing proof that Belgium herself had violated her own neutrality in connivance with England is found in the "Brussels Publications" relating to the "Anglo-Belgian Conversations" of 1906 to 1912. The point raised is the conversations (and not the "conventions") between the chief of the Belgian General Staff and the British Military Attaché in 1906; Ducloux and Barnardiston in 1912; Jongbluth and Bridges.

These were conversations between military experts relating to eventualities in the sole case of a previous invasion of Belgian neutrality by Germany. Baron Greindl, to whom the Belgian government at once communicated these "conversations," several times blamed "the singular step taken by Colonel Barnardiston." No convention was ever concluded (see the Belgian note of 4-III-1915, 2d Belgian Gray Book, No. 101). It is impossible to share the opinion put forward by German writers that these conversations, since they only dealt with eventualities, already constituted a violation of neutrality; subjection carried so war would no longer mean perpetual neutrality for a state, but would be equal to a protectorate.

At the Red Cross depot yesterday twenty-three Christmas parcels for the families of soldier settlers in the province were packed up, all ready for dispatch to their destination. The head of the home department of the Soldier Settlement Board for the Maritime Provinces, Miss Mabel Marven, had asked the New Brunswick division of the Red Cross to send gifts to some of the families over which the board has supervision who might most appreciate such a remembrance at Christmas time. The division readily agreed to provide the necessary funds and the local Red Cross took charge of the making up of the parcels.

Poverty... Look about you. Count the number of old men you know who are dependent upon others for their living. Will you be in their shoes if you live to be old? Are you one of countless thousands who live from week to week on your pay envelope, without any thought of to-morrow? Wishing, alone, will not create a competence. The setting aside of a part of your income year by year while you have health and earning power will provide for the uncertain future. Start to-day to ward off poverty with a Manufacturers Life Double Maturity Endowment Policy. THE E. R. MACHUM CO., LTD., Managers for the Maritime Provinces, St. John, N. B.

RUSSIA PREPARES TO EXPORT GRAIN

Harvest This Year 18 Million Tons More Than Last Year — 8 Million Available for Export.

Moscow, Nov. 15.—(By Mail)—Export of Russian grain by way of foreign capital was advocated in a report to the central executive committee of the Soviet government...

The linking up of the rural economy of Russia with foreign markets is looked upon by Soviet officials as a means of bringing into the country foreign capital which would help in the re-establishment of both agriculture and industry.

This year's harvest of grain has yielded 47,000,000 tons, which is about 18,000,000 tons more than last year, and 20,000,000 tons less than the year's production. Allowing 7,000,000 tons for the needs of the peasants, and some 8,000,000 tons for the needs of the towns, there is a balance of over 8,000,000 tons the greater part of which, according to the report, could be used for export.

MORNING NEWS OVER THE WIRES

John Gallah, from Dorchester penitentiary, was arrested in Newcastle yesterday afternoon on a charge of theft of a quantity of liquor from a drug store.

The funeral of Mrs. Mildred Carvell Fisher, only child of Hon. and Mrs. F. B. Carvell, was held at Woodstock yesterday afternoon. Service was conducted by Rev. H. E. Bigby and interment was in the Methodist cemetery.

The residence of Walter B. Hall, in Windsor, was totally destroyed by fire which broke out yesterday afternoon. The damage is estimated at about \$5,000 and it is understood that there is no insurance.

J. Bacon Dickson of Fredericton, commissioner appointed by the Provincial Government to investigate the circumstances surrounding the hanging of Benny Swin, received a letter on Wednesday from M. A. Doyle, and inter-locked, saying that he had not ordered that Swin be cut down and that he had not sent a telegram protesting against the hanging. The commissioner said that the evidence indicated that Swin had been cut down by Doyle's orders and that he had received a telegram of protest dated Montreal and signed Doyle.

Dividends Send Some Up at Irregular Opening in Wall Street — Moderate Activity in Montreal.

New York, Dec. 16.—(10:30)—Paris, the regular stock market, opened at a continuation of yesterday's late decline. The market was pushed up three points to a new record and Stronberg Carburetor established a new peak price on a gain of one point. The declaration of a 20 per cent stock dividend by the Pan-American Petroleum and Transport Company and an increased dividend in Mexican Petroleum, owned by Pan-American, found reflection in a 5 1/2 point gain in Pan-American stock. Fisher Body also touched a new top on an overnight gain of two points. Chesapeake and Ohio advanced a point and slight fractional gains were made by Northern Pacific and Pennsylvania. The former, however, later cancelling its gain. Crucible and Corn Products each advanced a point in the later trading. There were some profit-taking in the coppers. Foreign exchanges opened firm.

TWO ALARMS IN QUICK SUCCESSION

McLaughlin Bakery, Prince Edward Street, Damaged — Chimney Blaze in King Square.

Two alarms of fire followed by what was apparently a general alarm aroused the citizens last night. The first alarm was from Box 16 and it was followed immediately by an alarm from Box 73. The latter was for a chimney fire in the LaTour Hotel which was extinguished with salt.

The former alarm resulted from a fire in McLaughlin's bakery in Prince Edward street, near Haymarket Square. It is a three-story wooden building with a bakery on the ground floor and a dwelling occupying the upper two. The blaze was first discovered over an oven in the bakery and worked its way to the upper floors. The upper floors, occupied as a residence by Misses McLaughlin, were damaged by smoke and water. The loss is said to be partly covered by insurance.

The alarm from Box 73 brought the North End ladder truck and the City road apparatus to King Square.

CAN PRODUCE BETTER QUALITY OF BEEF HERE

But the Present No Time to Enter Chilled Meat Business, Says J. S. McLean.

Brandon, Man., Dec. 16.—It would be unwise for any province of Canada to attempt a chilled meat business at present, J. S. McLean of Toronto declared at the annual meeting of the Western Canada Livestock Union. His company, the Havel Abattoir Company, had discontinued chilled meat shipments because 17 shipments made in 1921 lost the company an average of 1-1/2 cents a pound. The total loss on 1,200,000 pounds was \$28,000. No province at present had a sufficient supply of the right quality of animal to establish a chilled meat trade that could compete with Argentina. He pressed the idea of a chilled meat trade which Canada could produce a better quality of beef than Argentina, owing to the fact that, in his opinion, a grain ration, which Argentina beef never gets, will be essential to the very best quality of beef.

'HAD A NARROW ESCAPE'

'I never realized until a few moments ago how risky it is to neglect a cold in the chest. I have always had such good health that I never thought of anything but chest, while unpleasant, never gave me any worry. Outside an occasional cold, I had never known anything but a cold in the chest for a day in all my life, until last December. One afternoon I had a chill and no matter how close I got to the stove, I couldn't seem to get warm. This chill was followed by a cold in the head, which I neglected for several days. I kept getting worse and worse. Finally I had to go to bed and send for the doctor. His examination showed that I had pneumonia and a bad case of that. By careful nursing on the part of my husband, I managed to pull through, but the doctor told me I had a narrow shave. And here's the point, although I had a cold in the head and energy before my sickness, I was now worn out and tired all the time. I slept fairly well, more because I was exhausted. But my sleep didn't refresh me because, while I appeared to be sleeping, I was conscious most of the time of what went on around me. Although all kinds of tempting dishes were prepared for me, I had no relish for food. This sickness had already undermined my health to such an extent that I was a living skeleton. I was getting discouraged as nothing I took seemed to do me any good. I wonder if Carmol wouldn't help, for a friend said one day, 'It did me a world of good, I'm completely run down and you can see for yourself how well I look today. Why don't you try it?' Thanks to this friend's advice I am in perfect health again, as healthy as a full of life and vitality as I have ever been.'

Carmol is sold by your druggist, and if you can't get it, write to Carmol, 100 St. John Street, St. John, N. B. Carmol could see them all this morning or to get them all this morning or to get them all this morning.

COLDS ARE ENEMIES OF HEALTHY LUNGS

A Neglected Cold is Always Looking for Mischievous

It may start in the head—nothing unusual—just an ordinary cold, but that is just the cold, because you neglect it, which sows the seed of lung trouble. Prevention is far better than cure. The cold can be cured and other and more serious ailments thus prevented. Anyone suffering from a cold, however slight, should take prompt measures to break it up. You cannot do better than take Grip Fix, which has an unrivaled record of success in cases of either the common cold or grippe. Grip Fix does its wonderful work in a single night. It tones up the system, takes away the fever and relieves the soreness. It is compounded of the same pure drugs which every physician prescribes, which are stated on the box. Grip Fix, however, comes in a capsule form that is ideal for home use. It can be given to children without the slightest fear of harm. Once you have tried Grip Fix, you will keep it in mind in need whenever you or another has a cold. At Watsons Drug Stores, 33c a bottle.

DOUBLE TRACK FROM MONCTON TO HALIFAX

(Halifax Chronicle) The President of the Canadian National Railways, we believe, will not fail to recognize the importance from the point of view of the province to the fullest extent of utilizing the natural advantages of Halifax as a terminal for ocean passenger travel, and not the less the handicaps which we have suffered in having only one line for railway communication with the other provinces of the Dominion. It is unnecessary to point out to him that it is of prime importance to the commercial interests of this city and essential to the prosperity of our province that this railway should afford the best possible service for the transportation of freight and passenger travel. To increase its efficiency in this respect, some years ago an agitation was begun with the view of having the line double-tracked between Halifax and Moncton. In certain sections of the line this has been accomplished, notably from the station to Windsor Junction and from Moncton to Palsac Junction. On another section of the line, the double-tracking has been completed, and the Government has agreed to double-track the line through the Cobequid Mountains, a proposal of particular interest to the people of this province. The main track near Truro, proceeding west back of Parrsboro, and connecting again with the main line near Palsac Junction. This proposition met with much favor and support from the community. It is interesting to note that were not such by railway facilities. Public meetings were held, resolutions were passed by the community, and the Government interviewed the railway authorities, until public interest was so aroused that the Government was forced to take a survey of the proposed route. From information received through this survey it was found that a line could be located there which would almost eliminate the high grades met with on the mountain section, as well as avoid the danger of rock formation of the grades of the two lines. A comparison of the present location of the road has grades averaging from 30 to 120 to 100 feet, the proposed line would be not more than four-tenths of one per cent. Crossing the mountain there is a summit of 607 feet above tide water at Folly Lake, while by the Shore route a summit of less than one hundred feet only is encountered. Another point in favor of the Shore route would be the ability to move heavy loads of freight without the aid of a pushing engine, and the avoidance of snow blockades on the mountain section, which sometimes have held up trains for days at a time. Similar conditions are to be encountered on the line between New Glasgow and Miramichi, and it is believed that the Shore route would increase its efficiency in service and economy in operation.

HEART PALPITATED AND WAS SHORT OF BREATH

Through one cause or another, a large majority of people are troubled, more or less, with some form of heart trouble. Many people may be unaware of having anything wrong with their heart till some little excitement, overwork or worry starts it to palpitate and they feel as if they had a flutter and then so slow as to seem almost to stop, then it ceases almost suddenly and alarm.

Milburn's Heart and Nerve Pills

will give prompt and permanent relief. Mrs. Alice Bishop, 15 Hawthorne Ave., Hamilton, Ont., writes: 'I take pleasure in recommending Milburn's Heart and Nerve Pills to all persons troubled as I had been. I suffered from palpitation of the heart and shortness of breath, my heart would skip beats, and in the night, at times, I would have to sit up to get my breath. I could not go upstairs without my heart fluttering, and my nerves were all unstrung, but since using your famous Pills I have felt like a different person.' LET KIDDIES ROMP OUTDOORS—TREAT COLD EXTERNALLY

Vaporizing Salve Is the Method Now Relied Upon in Millions of Homes.

MEANS BETTER HEALTH IN FUTURE YEARS

Most children do take cold so easily—run from one cold into another—never have a chance to build up strength. This leads many a mother to keep her child indoors too much in winter. Let the youngsters romp outdoors, and when a wetting or chill starts them sniffing rub their chests with Vicks VapoRub at bedtime.

ONE COLD AFTER ANOTHER

Mrs. R. Dougherty, of 407 McNab St., N. Hamilton, Ont., says: 'I think Vicks VapoRub one of the best remedies I have ever used. I have a child two years old who seems to no sooner get rid of one cold than he has another. I find Vicks stops the coughing so quickly when applied to his chest. I would hate to be without Vicks in the house.'

HARDWARE SALES DOUBLE 1921

Holiday sales of hardware this year will nearly double those of last year according to figures received by 'Hardware Age' New York. 'Buying in the larger cities,' says the weekly review, 'is more vigorous than it is in the smaller towns and agricultural districts, where the low price of farm products is said to be retarding business. Large volume orders continue to be received by wholesalers for garden tools and spring wire goods. Few price changes were announced during the last week. Price readjustments are predicted by wholesalers generally for the first of the year.'

PORTLAND PLACE AN IDEAL "HOME" DISTRICT

When Portland Place was opened to development years ago, it was laid out as a "Garden Home" district in the heart of the city. Situated within one minute's walk of schools, shops, churches, banks, picture theatres, street cars, and only eleven minutes' walk from King street, it offered all the advantages of city and suburban homes combined. The original plans have been faithfully followed. LANDOWNE AVENUE with its well paved surface, wide grass plots, concrete sidewalks, lawns and comfortable homes is a street in which the residents take pride. DUFFERIN AVENUE has this year been paved on the same plan and several attractive self-contained homes built. These are ready for immediate occupation and are offered for sale on terms to suit people who now pay \$50 upwards per month rent. Inspection and full particulars on application. FACTS ABOUT THE GENERAL MOTORS CORPORATION

I doubt whether most people have the faintest conception of the magnitude of General Motors Corporation of today. General Motors in its magnitude is one of the marvels of the modern industrial world. Fonder these facts and figures, keeping prominently in mind that this enterprise is only twelve years old: Its total assets exceed \$600,000,000. Its capital stock amounts to \$310,000,000. It comprises 67 divisions, meaning of subsidiary and affiliated companies, all contributing to motor production and distribution. It has plants located in 35 cities in the United States and Canada. It occupies more than 1,500 buildings, covering more than 2,000 acres of land. It utilizes a total floor space of 35,000,000 square feet. It makes one of every six motor cars in the United States today—the grand total exceeds 10,000,000 passenger and commercial cars. It has been turning out 45,000 cars a month, equal to 1,700 cars every day of 16 cars every five minutes of an eight-hour day. It produces automotive machines for use in the ground, on the ground and up in the air. Its employees aggregate 70,000, not counting dealers or service men. It has 70,000 stockholders. Behind it are the greatest banking houses in the world today—J. P. Morgan & Company—and one of the ablest and most successful industrial families in America—the Du Ponts. It has a Research Corporation which spends over two million dollars a year under the direction of C. F. Kettering, the Edison of the motor industry. It has an Acceptance Corporation to finance domestic and foreign sales which handles upwards of \$100,000,000 of business a year. It has two housing corporations to look after the providing of housing for its employees. It has an exchange corporation to handle its insurance brokerage and underwrite its business. It owns the largest office building of any industrial corporation in the world—C. F. Forbes in Forbes, Magazine (N. Y.).

### SNAPPY FLAPPER IN THE DISCARD

Demure, Willowy Girl with Tresses and Dresses Long, Prime Favorite at Lausanne Show.

Lausanne, Dec. 16.—Short hair and short skirts won the favor in the fashion conference which Paul Point, the Paris artist, conducted at the Grand Theatre for the fashionable crowds gathered in Lausanne for the Near Eastern conference.

Ten Parisian mannikins displayed more than 100 costumes before the exclusive audience, which registered its approval by loud applause, or was dead silent when a mannikin moved across the stage in a costume which did not meet the fancy of the audience.

It soon became apparent that the girls counted more than the costumes. It was difficult for a short-haired girl to call forth much applause from the young diplomats who constituted a

### NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).

The inventor, O. K. Johnson, 246 Craig St., W., Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$200 to \$500 per month.

all the applause. And the more modest and demure the mannikin was, the greater her popularity with the spectators.

The snappy flapper was clearly in the discard, in the opinion of the international crowd gathered at Lausanne, and the willowy girl, in extremely long skirts, and with plainly dressed hair, was in favor. The prime favorite among the mannikins was a gray eyed little Quakeress, with brown hair parted in the middle, and simply dressed. Her suits and gowns were all gray or blue, and whenever she appeared on the stage the applause was deafening, while the more flashy mannikins, walking with great affectation and dressed in conspicuous red and yellow gowns, were greeted with little enthusiasm.

### MAIN STREET BAPTIST MEN HOLD A BANQUET

About 100 members of the Men's Brotherhood class of the Main Street Baptist church held a banquet last evening in their class room. Rev. Dr. David Hutchinson, the teacher, gave an account of the class. It had flourished for seventeen years, having only seven members when it was organized and now having more than 100. He told of the evangelistic, educational and service aims of the class.

Another address was given during the evening by Rev. James Dunlop, acting pastor of Central Baptist church. A male quartette, composed of Dr. I. N. Baker, Samuel Holder, Hugh Smith and R. Mawhinney sang several songs in a pleasing manner. The balance of the programme was as follows:—Solo, Mrs. H. K. Omstedt; violin and piano selections, Miss MacKay and Mr. Cameron; solo, Miss Ethel Parize, and solo, Percy Crutcher.

At the conclusion of the programme, Rev. R. O. Morse moved a vote of thanks to the ladies and gentlemen who had so kindly contributed to the entertainment, and this motion was seconded by W. H. White and carried unanimously. A very enjoyable evening was closed with the singing of the National Anthem.

**HAD THRILLING TIME**

Yorgen Petersen, a Norwegian, who was arrested on Thursday night as a result of having imbibed not wisely but too well in a beverage commonly designated as "white mule" had some interesting experiences in the last three weeks. He was a sailor on the steamer Nordfeld which was wrecked in the Straits of Belle Isle about three weeks ago. Along with the captain and other members of the crew he landed at a point in Newfoundland and took steamer for Sydney, going on from there to Halifax. The majority of the members of the crew decided to go home but, with some other adventurous spirits, Yorgen decided to go to the United States. He got as far as St. John when he learned that he could not pass the requirements of the U. S. immigration authorities. While here he applied to the Norwegian consul to be sent home and arrangements were made to send him on the steamer Brant County, sailing early next week. In

the meantime Yorgen connected with some local bootlegging fraternity and from there it was a short step into the hands of the police. Arrangements probably will be made whereby he will go home on the Brant County.

### SPEAKER SAVES B. C. GOVERNMENT

Victoria, B. C., Dec. 16.—For the first time in twenty years the Speaker of the Legislature on Thursday night by his vote saved the Government from defeat. The division was called on the initiative of R. H. Pooley, Conservative member for Esquimalt, who introduced a technical amendment dealing with the registration of wills. A demand for division, though objected to, was carried into effect and the vote stood 22 to 22. The Speaker defeated the amendment.

L. Northrup, of 78 St. John street, west end, was taken to the Emergency hospital yesterday afternoon, suffering from a crushed finger. He was engaged as a longshoreman on the steamer Lexington, at No. 5 pier when the third finger of his right hand was jammed in a winch, badly crushing it. He was taken to the Emergency hospital, and after having his injury dressed was able to return to his home.

### Starr Skates

The Popular Christmas Gift

Quality—Lightness—Resiliency

This is but natural, when you consider the wonderful popularity of skating during the last few years. Everybody skates; because of the keen, healthful, vigorous pleasure it provides—and it costs but little.

Not is speed skating alone the favorite; fancy skating has taken a tremendous hold, skating clubs for the development of this art are being formed in every province.

But skating pleasure, in all its fulness, comes with the use of STARR SKATES which are clearly in a class by themselves, being favored the world over, many of the best skaters in the United States preferring to pay the heavy duty on the importation of STARR SKATES.

The great success and popularity of STARR SKATES are due to the fact that, since their inception over 56 years ago, QUALITY has been the chief consideration in their manufacture, only the finest steel and lightest workmanship being employed. Their resiliency and lightness prevent weariness and the glass-hard blades save re-sharpening. The Starr Tempering process places Starr Skates far above and beyond the rank-and-file.

MANY MODELS there are in Starr Skates. A perfect Hockey Model, Speed Styles, Figure Skates and Pleasure Skates.

Our STARR SKATE DISPLAY includes Starr "Velo," Starr "Imperial," Starr "Mimac," "Tuba Hockey," "Tuba Pleasure," Starr "Bull-dog," Starr "Demon," Starr "Acme," Ladies' Starr "Glasier" and Ladies' Starr "Eleg."

**REAL PERIL FACED  
BY FILM ACTORS IN  
WILD ANIMAL REELS**

**Belief of Many Spectators  
That Thrills are Faked is  
Disproved by Acts Re-  
quiring Skill and Bravery.**

London, Nov. 30.—(By Mail)—Nothing is more disconcerting to the actors who face wild animals for the purpose of making serial-film thrills than to enter a picture theater and hear one omniscient spectator telling another that all the dangers are "faked," writes the cinema correspondent of "The London Daily Express." A scene showing the heroine running through the jungle with a tiger bounding after her is dangerous only if the heroine stumbles. The relative speed of girl and beast have been worked out.

"On the other side of these bushes is a cage which she can enter and fasten before the tiger crashes against it. Similar feats, such as leaping to catch the branch of a tree as the animal rushes beneath are equally a matter of careful timing.

"The cinematographer, if he is not working with a long-distance lens, is in a cage from which are filmed those "head-on" rushes of wild animals that one so frequently sees. Operators have been imprisoned in these cages for hours at a time, the beast sometimes leaping on top of the structure and remains there.

"On one occasion a tiger charged a cinematographer, who had foolishly left his cage, and knocked his camera to pieces. The infuriated photographer, forgetful of his danger, picked up the tripod and belabored the tiger until he retreated.

"Workers in animal serial films generally keep three things handy—a chair, a club and a revolver. The chair is an awkward obstacle for any beast to face, the club is a warning and the revolver is a final argument, seldom needed.

"The most dangerous feat probably ever attempted in this class of production is that of fighting an alligator. The actor gets under the animal, seizes it by the lower jaw and forces the jaw upward, keeping his legs wrapped round the alligator's body. This attitude prevents the alligator from biting him and at the same time keeps him out of reach of its powerful tail. He may be severely scratched, but he cannot be seriously harmed."

**AIRPLANE MAKES

AS A TRAMCAR**

**Records 832 Journeys Be-  
tween London and Paris;  
Employed 127 Out of 165  
Days.**

London, Nov. 28.—(By Mail)—An example of the regularity and efficiency which can be obtained with modern aircraft is furnished by the record of D. H. 34, G-EBBS, fitted with a 400-horsepower Napier "Lion" engine, be-  
longing to Daimler Airways, Ltd., operating on the London-Paris service, points out "The London Daily News."

Between April 13 and October 7 this year the airplane carried out 832 single trips over the 210 miles between London and Paris, a total of about 175,000 miles, and in addition made a trial flight to Berlin and back.

It was actually employed on 127 out of a possible 165 days, and as eight days were spent on the visit to Berlin and five days on Air Ministry tests, etc., there was only twenty-five days on which it was unemployed. At the end of this time the machine had done more than seven hundred hours of flying and was in excellent condition, clearly proving that the common idea that the life on an aircraft is limited to about two hundred hours is a fallacy.

Since October 7 this machine has still been regularly employed, and is one of the airplanes which flies regularly on the Manchester-London-Amsterdam service.

It was on this airplane that our aviation correspondent, Major W. T. Blake, made four journeys between London and Paris in one day last May.

Mrs. Kraus in her complaint declares that on the night of December 3, 1921, her husband was found in the apartment of a Mrs. Bingham in West Seventy-first street, Manhattan.

**BROTHERHOOD MEETING.**

The meeting of the Ludlow street Baptist Men's Brotherhood last night was well attended, the chairman was George T. Ring. The speaker of the evening was A. M. Belding who greatly interested the gathering by giving an address on social life in the community welfare subjects generally. He aroused much enthusiasm and was asked many questions which he gladly answered. The pastor, Rev. W. Alvin Robbins, gave a short address and a vocal trio was given by G. A. Vincent, Percy Butler and William Wallace. Refreshments were served by a committee of ladies, consisting of Mrs. W. A. Robbins, Mrs. Thomas Browne and Mrs. William Gray and the good things were heartily approved of. A social hour followed and the members joined in a sing-song. William Wallace gave a vocal solo and Thomas Browne contributed a reading. Mr. Robbins, senior, also pleased the audience with a short speech and the meeting dispersed after Mr. Belding had been honored in the singing of "For He's a Jolly Good Fellow."
