DOWNFALL OF KARTOUM.

Union Jack Hoisted on Sunday and Gen. Gordon Avenged.

We have been so interested in the Spanish-American combat that we had nearly forgotten that our own Imperial government was at war, conducting one of the most far-reaching campaigns of the century—affecting a much larger territory and meaning more to more people than any of the wars since the days of Napoleon Bonaparte.

Once the whole of the vast territory of Egypt was under British sovereignty but in 1885 the British forces were defeated at Kartoum, the great inland metropolis of Egypt fell into the hands of the Mahdists. Since that time murder, robbery and slavery has been the order of the day in that vast and wealthy territory. Little more than a year ago the British Government decided quietly, as Englishmen do, without any gust or sound of trumpets that this whole territory must be retaken. The flower of the British army, coupled with several regiments from the Egyptian Volunteers, were put under the command of General Sir Herbert Kitchener. Outside of the British cabinet, no one knew what his orders were, but month by month the plan has been unfolded to an astonished world. All critics agree that never has a more successful and brilliant campaign carried forward, step by step, without a hitch or reverse, than when this Kitchener marched his forces into the heart of Egypt until last Friday night they lay upon the armies outside of Kartoum, scarcely a mile distant. On Saturday morning they stood face to face with the rebel army of 35,000 strong, well equipped and enthused with that mad enthusiasm of their fanatical religion. The British army numbered but 25,000 of all classes. Shortly after daybreak the battle began and raged until 6 p. m. Madly the rebels planted their standards and defeated them desperately. Again and again horse, foot and artillery charged the British lines, but the usual discipline and courage prevailed. At 6 o'clock the tide of battle turned: the rebels were routed, leaving from eight to fifteen thousand dead upon the field.

On Sunday morning the Union Jack was hoisted over the famous city, and Gordon, that gallant soldier, who perished there, was avenged.

Next week we will speak of what this victory means to Egypt and the world.

Something Spicy.

Esty & Curtis have the same mixed pickling spice that gave such good satisfaction last year: white ginger root, whole red pepper, powdered tumeric, white mustard seed, whole cloves.

Always on hand at Estey & Curtis' latest styles in stationery and school scribblers, etc.

EMMERSON WILL COME.

To Hartland on the 20th inst.

The ADVERTISER is creditably informed that Hon. H. R. Emmerson and Provincial Secretary Tweedie will visit Hartland on the 20th inst. accompanied by Messrs. Smith and McKain, M. P.'s. The chief object of their visit will be matters touching the Bridge. Owing to press of business the premier has been unable to arrange an earlier date, but on the 20th we shall no doubt hear the conclusion, or the beginning, of the whole matter.

Doubtless a public meeting will be held and the people aroundabout will look forward to the occasion with much interest.

PLEBISCITE CAMPAIGN.

A very enthusiastic meeting was held at back Newburgh on Tuesday evening. It was a joint meeting under the auspices of the Free Baptist and Roman Catholic congregations, and was held in the school house. The building was packed with an attentive audience. The speakers were enthusiastically received and as point after point was made they were lustily cheered. The speakers present were Rev's C. T. Phillips and J. B. Daggett, and Allan Rideout, E. M. Boyer and Ed. Gilmore. Father Bradley was unable to be present but had made all the arrangements for the meeting and had expressed sympathy with the movement.

On Wednesday evening Col. Vince addressed a meeting at Johnsville, where there had been a picnic during the day. Rev. Wm. Deware spoke at Williamstown, C. J. Connolly at Lower Windsor, and Rev. W. H. Spargo at Waterville. The last named spoke at Avondale on Tuesday.

The open air temperance meeting of Monday evening held on the platform of the Riverside Hotel was a good one in every respect. The list of speakers included Rev. J. B. Daggett, J. K. Flemming, R. W. Demmings and Mr. Price. The band discoursed unusually fine music. There was a large, attentive audience and excellent order.

Woodstock Marriage.

Miss Susie Williams, was married on Monday to William Balmain, of the firm of Belmain Bros. The ceremony took place in the Methodist Church and was witnessed by a large concourse of friends. Rev. H. G. Marr tied the knot in orthodox fashion. Mr. and Mrs. Balmain immediately after left for a trip to Montreal and other cities.

Ottawa Exhibition

Return tickets to Ottawa will be sold Sept. 16th to 19th inclusive, at \$18.95 each, and on Sept. 20th, only, at \$11.50 each. All will be good for return passage until Sept. 27th.

A P. E. ISLAND J. P.

Interviewed by the Patriot's
Special Correspondent,

Overwork Brought on Neuralgia and Shattered Health Generally—Passed Many Sleepless Nights.

From the Charlottetown Patriot.

The Patriot's special correspondent "Mac" being in the eastern section of the island on business, heard many complimentary remarks concerning Dr. Williams' Pink Pills, which appear to be the favourite medicine in all parts of Canada. Among those who are very emphatic in the praise of this medicine is Neil McPhee, J. P., of Glencorrodale, and our correspondent determined to call upon him and ascertain from his own lips his views in the matter. Mr. McPhee was found at home, and as he is a very entertaining and intelligent gentleman, our correspondent was soon "at home" too. When questioned about the benefits he was reported to have received from the use of Dr. Williams' Pink Pills. Mr. McPhee said:—"About four years ago I got run down from overwork on the farm. As there is considerable timber land on my property, I thought I could go into making timber in addition to my farm work. The task proved too heavy for my strength, and I soon began to break down. I contracted a severe cold, neuralgia followed, and I found myself in shattered health generally. I felt very much distressed and discouraged and spent many sleepless nights. I tried several very highly recommended medicines, but received no permanent benefit from any of them. As Dr. Williams' Pink Pills were so highly recommended through the press, I thought I would give them a fair trial. After using a few boxes I found they were having the desired effect and I began to find my wonted health and strength gradually returning. I kept on using the pills until I had regained my former vigor and had gained considerable in flesh as well. Now I consider myself a healthier man and feel as well as ever I did in my life. I can conscientiously recommend Dr. Williams' Pink Pills to any person suffering as I was. I have the utmost confidence in their curing properties."

Rheumatism, sciatica, neuralgia, partial paralysis, locomotor ataxia, nervous headache, nervous prostration, and diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc., all disappear before a fair treatment with Dr. Williams' Pink Pills. They give a healthy glow to pale and sallow complexions. Sold by all dealers and post paid at 50c. a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to take some substitute.

Pope Leo Has \$20,000,000.

Rome, Aug. 29.—It is estimated that during his pontificate, Leo XIII has amassed \$20,000,000, including presents of precious stones, gold and silver, to the value of \$10,000,000.

President Kruger, of the Transvaal republic, is said to have presented the Pope with the largest diamond in the world. It is valued at \$4,000,000.

Canada's Opportunity in Hog Raising.

1. Great Britain and Ireland are losing thousands of hogs annually through swine fever: during the first 27 weeks of this year 27,648 diseased or exposed to contagion, being slaughtered and the movement of hogs from place to place is restricted. There have been more outbreaks of the disease this year than last. Canada has not this obstacle to contend with. We have healthy hogs.

2 We can grow practically unlimited quantities of the choicest swine foods in the world.

3. Our climate and water supply for this industry in conjunction with dairying is unsurpassed on the globe.

4. We have unequalled pure bred foundation stock, and the general hogs of the country are of a fairly good type.

5. Our breeders and farmers are progressive, enterprising, intelligent.

6. Our packers have already demonstrated their skill in sending pork products to England that are crowding the best for top place.

7. Our food products are growing more popular in Britain every day, and are being boomed by their intrinsic merit, private enterprise, and government effort.

8. The increase of our exports of bacon and hams to Britain in 1897 exceeded 1896 by nearly \$1 400,000.

9. Transportation and cold storage facilities are being improved.

10. England imports annually about \$55,000,000 worth of pork products. We sent last year less than \$6,000,000, while Uncle Sam furnished \$30,000,000, and little Denmark some \$14,000,000 worth.

11. New packing houses are springing up at various Canadian points, and old ones enlarged and improved.

12. Should the returns not pay the farmer, he can easily slacken production.

13. Swine raising but tends to conserve soil fertility.

Moral—Let Canada get up and possess the land.

An Absent-minded Man.

The absent-minded man took his seat at the restaurant table, and, as usual, buried his face at once in a newspaper.

"What shall I bring you, sir?" asked the waiter.

"What's that?" said the absent-minded man, starting up suddenly, not remembering what it was all about.

"What do you want for lunch, sir?" the waiter asked again.

"Oh! yes," said the absent-minded man, trying to collect his wits. "Bring me a cup of coffee and a ham sandwich."

The waiter supplied the order, and put a large pastboard ticket for it down on the table, the absent-minded man continuing to read his paper. The waiter went away to attend to the wants of other people, and about fifteen minutes later came back.

"Do you wish anything more?" he asked politely.

"Yes!" snapped the absent-minded man, somewhat viciously. "Go and get me a fresh ham sandwich. The one you brought me was as dry as a bone!"

"Why, here is the sandwich I brought you, sir," said the waiter, pushing the plate towards him. "You've eaten the ticket!"

Well, That's Cool

Is what everyone says when they get a glass of Soda from Thistle & Co's new fountain. "How refreshing" are other expressions. The new fountain, which is a picture to look at, produces man different flavored Sodas, including Cream Soda and Orange Phosphate. Call and get a drink. A no more refreshing nectar flows in Carleton Co. This warm weather is fatiguing, don't suffer with the heat, cool yourself at Thistle's fountain.

THE NEW (?) JAIL.

Councillor Connelly airs his Opinions—He Speaks for the People.

To EDITOR OF THE ADVERTISER :

Will you allow me space in your valuable paper to make some remarks about the proposed new jail, and let me give some reasons why we should not be put to the expense of building at the present time. Some of the reasons are as follows :

Because the jail we now have is a better building than it was when first built, which we can prove by the men that are most familiar with it ; will refer you to Mr. Stuard, of Lansdowne, who had charge of building of the jail ; can refer you to a number of others if you want the proof.

Because the jail is not the stinking, filthy place that some have said it was. This we will prove to you if you have a mind to visit the jail and see for yourself. If you do you will find the premises clean and well kept.

Because the jail should be near the court house and it is admitted by all that the court house will be a good building for a good number of years yet. That it is good enough ; as good as any in the province, except in some cities.

Because the present jail can be made as convenient and healthy as the new one would be for less than one tenth the expense, and one fiftieth the expense if the court house is built new in the town, which it most certainly will be in a very few years if the jail is built now.

Because there are large roomy and beautiful grounds where the buildings now are, where those confined can breathe the free pure air that is not contaminated with impurities that arise from other premises near by, as it is liable to be in the town.

Because the majority by which the Council is now working is not sufficient to justify the change being made at so large an expenditure.

Because that more than two-thirds of the rate payers of the County are opposed to changing the site and building in the town, which we will prove if the people are allowed to vote on the matter. This has been acknowledged by some of the ablest advocates of the new building, for they said this in the June meeting: "The people voted on the matter of building new buildings in the town some years ago and the people said "No" and if you allow them to vote on the matter now they will say the same thing," but "No" says he, "we will not give them the chance to vote on it, we have the power now to vote ; let us build the the new buildings in the town and the people will have to pay for it and cannot help themselves." That does not look much like being the servants of the people.

Because when the County buildings are all built in the town, probably amounting to \$75 000. we will be called upon, by the town, to pay into their Treasury, as a tax, several hundred dollars per year. We will not say how many for it might begin to make you uneasy, but will venture to say that it would not be much less than it would now take to put the jail in good and thorough repair.

I will forbear trespassing further on your space at this time, but will give you some more reasons next week.

Yours truly,
C. J. CONNOLLY,
Councillor for Brighton Parish.

Gough-D'Orsay.

Queen Square Methodist church was beautifully decorated on Tuesday by the members of the Epworth League of the church in honor of the marriage of their president, Miss Emma Louise D'Orsay, which took place in the sacred edifice at 5 o'clock that afternoon. The bride, attired in a pretty travelling dress of fawn, trimmed with taffeta silk, entered the church upon the arm of Mr. O. H. Warwick. Miss Flossie D'Orsay, of Lynn, Mass., neice of the bride, was bridesmaid and wore a pretty gown of blue trimmed with green silk and chiffon. The groom, Rev. J. B. Gough, was supported by his brother, Rev. Thos. Gough. After the ceremony, which was performed by Rev. R. W. Weddall, the newly married couple left in the Quebec express for a honeymoon trip to Northern New Brunswick. They will reside at Jerusalem, Queens county, where the groom's circuit is. The bride received very many beautiful gifts from friends. That from the groom was a very handsome gold watch. The various associations connected with Queen Square church united in giving a very valuable silver service, and the bride's Sunday School class gave a silver salver with the bride's monogram engraved on it. The present from the class in the High School, grade 7, boys, recently taught by Miss D'Orsay, was a set of silver tea spoons. The bride also received a very flattering letter from the school trustees, who acknowledged her worth as a teacher and wished her happiness in her new home.—Globe.

FOR THE AGED.

Paine's Celery Compound gives the needed stimulus to good digestion and assimilation, and keeps the blood pure Nature's medicine brings health and happiness to those in advanced years.

King David, the sweet singer of Israel says: "The day of our years are threescore years and ten ; and if by reason of strength they be fourscore years, yet is their strength labor and sorrow."

The physical troubles and burdens of old people are many. Disordered nerves, constipation, flatulence, drowsiness, indigestion, palpitation and impoverished blood seem to make them grow weaker from day to day.

Paine's Celery Compound is a precious and invaluable medicine for old people. It is nature's true nerve, tissue and nerve builder ; it keeps the blood pure and fresh from day to day, regulates the organs of digestion, and keeps the appetite natural and healthy. No other medicine in the world so quickly recruits the strength and waning energies of men and women advanced in years. Paine's Celery Compound has added many long years to the lives of old people in the past, and today thousands sing the praises of this wonderful medicine, because it has bestowed peace and comfort and kept them free from the infirmities of old age.

South Knowlesville.

There was a quilting party held at Mr. West Lawson's last evening, at which there was a large gathering. The elite of Knowlesville turned out en masse to attend it. Supper was served about 5.30, after which there was music and singing. Miss Emma Barker and Mrs. James Simms furnished the music. The pieces rendered by Mrs. James Simms were particularly fine, showing a touch and finish that only a practiced hand can give. Mr. and Mrs. Fred Carter of Lowell (who are spending the summer here), Mr. and Mrs. James Simms and Mrs. Lizzie Whitehouse of Knowlesville were among the guests of the evening.

Altogether it was a pleasant affair and was ably managed by Mrs. Lawson, assisted by her daughter, Miss Hattie Lawson, who has just returned from Lewiston, Maine.

Bruce Brown, an employee in the woodworking factory, had two fingers taken off by the machinery on Friday.

Messrs. McKinlay, while excavating a cellar for their new house at Red Bank, Northumberland, exhumed parts of two skeletons, stone hatchets, axes, spars and other instruments of Indian warfare wrapped in birch bark, which were perfectly sound.

The members of the Bristol Baptist Church will hold a tea meeting and farmers' supper in their new church next Wednesday, the 14th inst. The tables will be set from 3 to 6 p. m. Should the day be unfavorable, the supper will be held the next fine day. An entertainment will be given in the hall in the evening.

There was a very enthusiastic temperance meeting at Florenceville on Friday evening. D. W. Hamilton was chairman. The speakers were Rev. J. Cahill, Col. Vince, H. H. McCain, M. P. P., James McCain and Mrs. C. D. Dickinson. Fine music was rendered: Miss Alverette Estabrooks, organist. On Saturday there was a meeting at Glassville addressed by Rev. D. Fiske, Allen Rideout and others.

J. L. Driscoll of St. John, has been in this section for some time making arrangements for the purchase of lumber to enter into the construction of the C. P. R.'s new grain elevator at St. John. He will buy about 1,400,000 feet of spruce, 2x7, 2x6 and 2x4 inches planed and dressed on one side, from Woodstock, Gibson Branch, and Campbell & Hale's mill above Hartland. This is a good thing for our part of the province.

Taylor has the largest assortment of neck ties, dress shirts, cuffs and collars in town. Prices way down.

South Knowlesville.

The weather is somewhat dull for harvesting, and oats are breaking down very bad on account of the rust, which will make a shortage in the year's crop.

Mr. J. R. H. Simms has the school here for the fall term.

Mrs. David Fraser has gone to Lewiston, Me., to visit her sister and daughter. Miss Laura Fraser has been on a visit to her mother. She made a stay of about four weeks, but has returned to her home at East Somerville, Mass., a week sooner than she expected on account of her sister's illness.

Miss Hattie A. Lawson has returned home from Lewiston, after an absence of about twelve months. We are glad to see Hattie returned. There were twenty couples met at her parent's residence on Wednesday evening last, and gave her a right hearty welcome, Mrs. James Simms presiding at the organ.

On Sunday many went from here and Knowlesville to the new meeting house at Biggar Ridge to attend the funeral of Samuel Bell, who was killed in M. Welch's mill. Rev. G. A. Giberson preached a very appropriate sermon for the occasion.

Mr. Buckley of Bath, brother of Mrs. Jas. Simms, was in South Knowlesville on a visit last Friday. Perry Barker, of Bath, was in South Knowlesville on Monday.

Geo. Simms is kept quite busy with his "Daisy Reaper" cutting wheat and buckwheat, as we have lots of "buckwheat days" this season, it keeps George pretty busy.

General News.

Various Items from all Around.

Back From the Klondyke.

Among the arrivals on the C. P. R. train today were Messrs. A. J. Blackhall and H. H. Bridges. Mr. Bridges is a Sunbury County boy, and Mr. Blackhall hails from Gloucester. Both have been to the Yukon country and have experienced life on the trail and in Dawson City and are now returning home wealthy only in experience and satisfied to let others get the gold of the country.—Globe.

A Hale Old Man.

There is an old gentleman in Norton 82 years of age, who has worked every day in the hay fields this season, weather permitting, at mowing, raking, etc. He has loaded and mowed away in the barn 80 loads of hay, besides all the grain raised on the farm. He not only has done this, but thinks he can hold his own in a Scott Act argument with any of them.—Gazette.

Fatal Train Wreck.

London, Sept. 2.—A terrible accident has taken place at Wellingborough Railway station, on the London & North-Western Railway, near Manchester. Two boys pushed a loaded luggage 'trolley,' on the track just as the express was approaching at a speed of fifty miles an hour. The train was derailed, and a fearful scene ensued. The wreckage of the railway carriages caught fire. The engineer, fireman and two passengers were killed, and many others were seriously injured.

Is It Andree?

Chicago, Sept. 4.—A Times-Herald despatch from Winnipeg says: "Indians from the Dauphin, from the far north, met Esquimaux who told of the appearance among them of a strange man who descended from the clouds on the shores of Hudson's Bay. The opinion among the whites is that the man is Andree, the Arctic explorer."

Independent Order Foresters.

Toronto, Sept. 2.—The Supreme Court of I. O. F. today decided to replace the capitation tax with a tax for the extension of the order. It will be five cents per month on \$500 insurance ten cents on a \$1,000, fifteen cents on two thousand and so on. A resolution was adopted that no persons of Chinese, Japanese or negro extraction should become members of the order. Judge Wedderburn protested against the introducing of the color line, and every lower province man opposed the exclusion of the negroes, but the American delegates carried the point.

The Medical Profession Recommend Dr. A. W. Chase's Ointment

Dr. C. M. Harlin, writing in the American Journal of Health, February 10th, says:—"Among the proprietary medicines deserving recognition is Dr. Chase's Ointment, as a remedy for Piles, Eczematous skin eruptions of all kinds, for which it has been used with marked success, and has effected remarkable cures in many obstinate cases which seem to baffle the skillful medical attendant."

Married at Bath.

A very pleasant social event occurred on Wednesday, Aug. 31th, at 9 a. m. when Mr. Francis McElroy, son of Roger McElroy, of Bath, led to the altar Miss Ida Ryan, of Knowlesville, N. B. Miss E. Coggar, of Woodstock, cousin of the bride, acted as bridesmaid, while the brother of the groom, Thos. McElroy, did the honors of best man. The church at Johnsville, the scene of the event, was very prettily decorated for the occasion; Rev. Fr. Murray officiating. The bride was very prettily dressed in a costume of cashmere trimmed with brocaded silk, with hat to match and carrying a very pretty bouquet of orange blossoms; while the groom looked so charming many of the young ladies present wished they had been the lucky one.

After the ceremony the bridal party drove to the residence of Mrs. John McCready, sister of the bride, where the wedding reception was held; they doing ample justice to the good things served. In the afternoon a large number of invited friends, numbering over three hundred, gathered to do honor to the newly married couple. The presents were of unusual magnificence, including nearly everything necessary to furnish their new home, which was only a slight token of the esteem in which they were held. Your correspondent would like to here enumerate the presents, but space will not permit.

The old folks once more became young, and celebrated the afternoon in real good, old fashioned style by dancing all the latest dances and some clog and jig dances, which they brought from the old sod.

In the evening the party repaired to Phillips' hall, where a grand, good time was indulged in by all present, by dancing, music, song, etc., which continued till "the wee sma' hours of the morning," when the bride and groom departed for their new home about two miles distant, accompanied by the best wishes of all present, after having spent one of the most enjoyable evenings it has ever been the good fortune of your correspondent to attend.

A GUEST.

A Popular Home Work.

Successful Only When the Diamond Dyes are Used.

In thousands of happy and thrifty homes in the Dominion and in the colony of Newfoundland the work of rug and mat making is becoming very popular. Homemade rugs and mats are more highly esteemed just now than imported goods. This is surprising when we remember the fact that the home articles are the best wearing and prettiest.

The Diamond Dyes have given a great impetus to the work of making home made rugs and mats. In former times the troublesome part of the work was the dyeing. With the old fashioned and poorly prepared dyes the dyeing operation was long and unsatisfactory. The introduction of the Diamond Dyes with their special colors for wool, and for cotton and mixed goods, has been boon to womankind. Old and faded rags and yarns for mats and rug can now be dyed any beautiful and brilliant shade with the Diamond Dyes—shades that are perfectly fast to sun and soap.

If you wish to be at all times successful in dyeing for rug and mat making, we here utter a warning note against the use of the adulterated package and soap grease dyes that only produce muddy and streaky colors that cannot possibly stand an ordinary washing. Ask for the Diamond Dyes, use them as per directions and your success is sure.

WHITE HORSES.

(Rudyard Kipling in Literature.)

Where run your colts at pasture?
Where hide your mares to breed?
Mid bergs against the ice-cap
Or wove Sargossa weed;
By lifeless reef and channel,
Or crafty crosswise bars,
But most the deep-sea meadows
All purple to the stars.

Who holds the rein upon you?
The latest gale let free.
What meat is in your mangers?
The glut of all the sea.
Twixt tide and tide's returning
Great store of newly dead,
The bones of those that faced us,
And the hearts of those that fled.

Afar, off-shore and single,
Some stallion, rearing swift,
Neighs hungry for new fodder,
And calls us to the drift.
Then down the cloven ridges—
Ten million hooves unshod—
Break forth the wild white horses
So seek their food from God.

Girth-deep in hissing water
Our furious vanguard strains—
Through mist of nightly tramlings
Roll up the fore-blown manes—
A hundred leagues to leeward,
Ere yet the deep hath stirred,
The groaning rollers carry
The coming of the herd?

Whose hand may grip your nostrils—
Your forelock who may hold?
E'en those that use the broads with us,
The riders bred and bold,
That spy upon our matings,
That rope us where we run—
They know the wild white horses
From father unto son.

We breathe about their cradles,
We race their babes ashore,
We snuff against their thresholds,
We nuzzle at their door—
By day with stamping coursers,
By night in whinnying droves,
Creep up the wild, white horses,
To call them from their loves.

And come they for your calling?
No wit of man may save,
They hear the wild white horses
Above their fathers' grave:
And kin of those we crippled
And sons of those we slew,
Spur down the wild, white riders
To lash the herds anew.

What service have ye paid them,
Oh, jealous steeds and strong?
Save we that throw their weaklings,
Is none dare work them wrong,
While thick around the homestead
Our grey-backed squadrons graze—
A guard behind their plunder,
A veil before their ways,

With march and countermarchings—
With press of wheeling hosts—
Stray mob or bands embattled—
We ring the cho-en coasts;
And careless of our clamor
That bids the stranger fly,
At peace within our pickets
The wild white riders lie.

* * * * *

Trust ye the curdled hollows—
Trust ye the gathering wind—
Trust ye the moaning groundswell—
Our herds are close behind!
To mill your foeman's armies—
To bray his camps abroad—
Trust ye the wild, white horses,
The horses of the Lord!

Boarding House Geometry.

DEFINITIONS AND AXIOMS.

1. All boarding houses are the same boarding houses.
2. Boarders in the same boarding house and on the same flat are equal to one another.
3. A single room is that which has no parts and no magnitudes.
4. The landlady of a boarding house is a parallelogram—that is oblong angular figure which cannot be described but which is equal to anything.
5. A wrangle is the disinclination of two boarders to each other that meet together but are not on the same flat.
6. All other rooms being taken a single room is said to be a double room.

POSTULATES & PROPOSITIONS.

1. A pie may be produced any number of times.
2. The landlady can be reduced to her lowest terms by a series of prepositions.

3. A bee line may be made from any boarding house to any other boarding house.
4. The clothes of a boarding house bed though produced ever so far both ways, will not meet.
5. Any two meals at a boarding house are together less than two square meals.
6. If from the opposite ends of a boarding house a line be drawn passing through all the rooms in turn, then the stove pipe which warms the boarders will be within that line.
7. On the same bill and on the same side of it there should be two charges for the same thing.
8. If there be two boarders on the same flat and the amount of the side of the one be equal to the amount of side of the other each to each and the wrangle between one boarder and the landlady be equal to the wrangle between the landlady and the other then shall the weekly bills of the two boarders be equal also each to each. For if not let one bill be greater, then the other bill is less than it might have been, which is absurd.

MRS. WRIGHT, OF NORVAL, ONT., EXPERIENCES INTENSE SUFFERING FROM ECZEMA IN HER FEET.

Raw From Her Toes to Her Knees

Dr. Chase Makes a Wonderful Cure.

Mrs. Knight, 17 Hanover place, Toronto, makes the following statement:—

My mother, Mrs. Wright, who lives at Norval, near Doncaster, suffered a summer and winter with Eczema in her feet. She could not walk, and very seldom got any sleep. It became so bad that she was perfectly raw from the toes to the knees. After trying every available remedy without receiving any benefit, and almost hopeless of relief, she was advised to try Dr. Chase's Ointment. She has altogether used 8 boxes since commencing, but with the happiest results, for she is now completely cured. There is but one scar on one of her feet, a memento of her fearful suffering condition. Any person desiring further testimony in this case is at liberty to communicate with Mrs. Wright at her address, Norval P. O.

Mrs. Knight says after such a grand success, is it any wonder we recommend Dr. Chase's Ointment?

W. H. De Long, Civil Engineer, ex-Warden, and County Councillor, New Germany, Lunenburg Co., N. S., Oct. 28th, 1897, says:—"I had itching piles for thirty years, and have tried various kinds of pile cures, but none gave me permanent relief until I used Dr. Chase's Ointment. I have recommended it to others with the same result."

A Conundrum.

A tall girl named Short loved a certain big Mr. Little, while Little thinking little of Short, loved a little lass named Long. To make a long story short, Little proposed to Long and Short longed to be even with Little's short-comings. So Short on meeting Long threatened to marry Little before Long, which caused Little in a short time to marry Long. Query—Did tall Short love big Little less because Little loved Long?
