MAYOR GAYNOR IN A SERIOUS STATE

Reports Are That His Condition is Much More Serious Than Officially Reported.

Gallagher Decides That His Defence Will be Based on Ground of Hereditary Insanity.

New York, N. Y., Aug. 11.—The following bulletin on Mayor Gaynor's condition was issued at 10.30 tonight by his physicians: "Mayor Gaynor has had a comfortable day and has taken sufficient nourishment. He is cheerful, strong and is now resting quietly. The complete radiographic examination by Dr. C. Caldwell shows definitely that the bullet is lodged in the vault of the pharynx, easily accessible; but it is not considered wise to attempt to remove it at present. The blood examination is also satisfactory."

New York, Aug. 11.—Mayor Wm. J. Gaynor, may be making satisfactory progress, as his attending physicians persistently maintained today and tonight, but there is an undercurrent of doubtful anxiety tonight that runs contrary to the official bulletin.

His surgeons say that he had a satisfactory day, that he is cheerful and stronger and was resting quietly, more than holding his own against the pistol shot wound inflicted on Tuesday by James J. Gallagher. As opposed to this attitude of optimism, those who read the 10.30 bulletin thoughtfully noted reference to "complete radiographic" examination, indicating that it was necessary to take a second set of negatives in order accurately to find the position of the bullet. That an additional set of negatives was taken has been reported heretofore but the rumor lacked confirmation.

Nothing is said in the bulletin of the "split bullet" mentioned as indicated in the first picture; instead the lead is now said to be lodged in the roof of the mouth. Whether the other shadow as indicated in the first picture is a splinter of bone, none of the physicians would say. A sample of the patient's blood was examined carefully this evening and pronounced satisfactory, the relation of the white and red blood corpuscles having been found so near normal as to cause no alarm. Although rumors are afloat that his physicians are in disagreement, Robert Adamson, his secretary and E. J. Lederle, health commissioner of New York, gave out a statement discrediting the reports of friction among the medical advisers. The statement does not deny the report specifically, but by implication, as follows: Continued on Page Five.

HAS GYRNEY COMPANY BOUGHT PENDER PLANT?

Report That Big Local Industry Has Been Purchased By Dominion Iron & Steel Company—Mr. Pender in Sydney.

Special to The Standard. Sydney, Aug. 11.—It is generally believed here that the Dominion Iron and Steel Company has purchased the Pender Nail Works in St. John. The report received confirmation on the arrival here of James Pender, the owner of the latter concern, who is accompanied by his brother, John Pender, of Melbourne, Australia.

Mr. Pender was at the steel works this morning with J. F. McNaughton, of Montreal, sales agent of the Dominion Iron and Steel Company. The scheme to purchase is part of the Dominion Iron and Steel Company fight against the new Upper Canadian steel combine, which has declared its intention of cutting into the local firm's business. The idea is to manufacture nails in the Maritime Provinces and ship right through to western Ontario by cutting down the company's steamers so that they can get through the locks between Montreal and the lakes.

HON. A. B. AYLESWORTH WILL TOUR EUROPE

Special to The Standard. Ottawa, Aug. 11.—Argument in the fisheries dispute before the Hague tribunal is expected to be concluded tomorrow and Hon. A. B. Aylesworth and Mrs. Aylesworth will probably proceed upon a holiday trip on the continent. The minister of justice will return to the Hague on October 5 to hear judgment delivered in the case. It is not unlikely that as usual some further argument will follow.

CANADA AND STATES MAY ACT AS ONE

New Treaty And International Tribunal To Regulate And Control Through Railway Traffic Is Suggested.

New York, Aug. 11.—The suggestion of a new treaty between the United States and Canada, and the establishment of a joint tribunal in the nature of an international traffic commission as the means of effective control of through railroad traffic between the two countries, was made at a conference here today between Martin A. Knapp, chairman of the Interstate Commerce Commission and J. P. Mabee, chief of the railway commission of Canada. The meeting was preliminary to further conferences at which it is hoped to outline plans for full control of such traffic. Any agreement reached will be submitted to the two commissions and reports will also be made to their respective governments. No statement was made as to the result of the conference, except that it was satisfactory to both parties.

The possibilities of regulating traffic under pending laws, or new concurrent laws, and enforcing the statutes through separate administrative and judicial authorities in both countries, was also discussed as an alternative to negotiating a treaty and forming an international tribunal. Another topic considered was bringing express, telephone and telegraph companies under similar control.

FIRE IN CANADIAN IRON COMPANY PLANT

Aided By Rain Men Succeeded In Confining Blaze To Machine Shop But Whole Plant Was In Danger.

Special to The Standard. Halifax, N. S., Aug. 11.—The great plant of the Canadian Iron Corporation at Londonderry came dangerously near being wiped out by flames tonight by a fire that destroyed the machine shop. The fire broke out during the evening and about an hour after they left the shop, flames were discovered. The building was a wooden one and the flames spread with great rapidity and the employees continued their efforts in an endeavor to save the foundry, and pattern shop, and the remainder of the plant. The heavy rain aided the workers and the machine shop was the only building destroyed.

GEORGE W. HOBEN SUFFERS A SEVERE PARALYTIC STROKE

Brought To The City From Harvey In Helpless Condition And Now In Hospital Seriously Ill.

Lying on a stretcher, stricken with paralysis, and unable to move hand or foot, George W. Hoben the well known Main street druggist, was brought to the city on the Boston train last night from Harvey and taken to the general public hospital. About two weeks ago he left the city to spend a few weeks vacation in the country. He was apparently in good health then, although he sometimes complained of not feeling just right. About four days ago he became ill at Harvey where he was fishing and gradually grew worse until yesterday when he suddenly lost the use of his arms and legs. Although completely powerless he suffers no pain.

He was attended by the doctors at Harvey who advised his immediate removal to the hospital here. Upon arriving here last night, he was met at the station by friends and in the ambulance was conveyed to the General Public Hospital. He was found to be suffering from a paralytic stroke. At a late hour his condition was practically unchanged.

A Fine Trip to the Bermuda Islands and New York for Nine Popular Young Women

Tour in West Indies for Successful Competitors and Chaperon in St. John's Big Voting Contest--Details of the Standard's and New Star's Great Offer

A unique offer, fraught with much interest and possibility for delight to the residents of St. John and the surrounding country, is announced today by The Standard and New Star. It involves sending nine representative young ladies and chaperone, ten in all, on a personally conducted tour, combining pleasure with education, to the Bermuda Islands and New York city.

No better itinerary could possibly have been selected than the one arranged for the party of ten which will make the trip as guests of The Standard and New Star.

On another page will be given an outline of the extraordinary opportunity that is offered those who desire to enter the contest.

The only rules surrounding the enterprise are made with the sole object of guarding the interests of each candidate alike, and of making the contest as fair for one as for another.

SIMPLE RULES.

These rules are given in detail in the full-page announcement appearing elsewhere in this issue, and a careful reading of the terms of this rare opportunity is commended. It would be better still to preserve this important announcement, making sure to familiarize yourself with all the information therein contained.

METHODS OF VOTING.

The decision as to who will make the trip lies with The Standard's and New Star's readers by popular vote. There will be two methods of balloting, by coupons clipped from the paper and by special ballots issued for paid-in-advance subscriptions, as will be explained more fully later.

TERRITORY DIVIDED.

That the young ladies residing in St. John and vicinity may have an equal chance to win these splendid trips, the territory has been divided into nine districts. The nine young ladies whose votes at the end of the contest, Saturday, Oct. 8, 1910, are the highest in their respective districts will win the nine trips. To the young lady who has the highest vote in all the districts will fall the honor of naming the chaperone of the party, thus giving her two free trips as the Grand Prize.

Be one of the select party of guests of The Standard and the New Star on the trip—that you will enjoy far in excess of any you have ever taken. Enter now. Get in before the race starts. Select a hustling campaign manager, just as any political candidate would do, and get your friends working for you. Do this, hustle a bit yourself, and you will be rewarded with this trip that will teach you what you cannot hope to learn from books.

SPECIAL PRIVILEGES.

Privileges and courtesies have been secured especially for The Standard and New Star's party. Not a listless moment will be spent on this trip, the attractions constantly commanding the attention of the traveller. Without fatigue one can enjoy to the full extent the privilege of seeing and studying.

NOMINATION.

Nominations may be made at once, using the nomination blank which appears in another part of the paper today. Young ladies may nominate themselves or their friends may do so for them. Do not delay, but get in the race now and make the victory yours.

The finest hotels have been secured and the happy tourists will be provided with every accommodation and comfort. While the territory has been divided into districts, the contestants may secure votes anywhere they like. If there is anything you do not understand call at The Standard and New Star office or call up the contest department on the phone and full particulars will be cheerfully given.

A SPLENDID TRIP PLANNED.

Every woman has some time in her life dreamed of an ocean voyage. Perhaps she didn't want to go alone. Possibly she feared inconveniences in strange customs and languages, then again maybe she "never found the time," but without doubt she has often dreamed of such a trip, and wished that fortune might arrange it for her. Well, fortune has arrived; grasp this opportunity of a life time. Think of a trip to the beautiful Bermuda Islands and New York City in October, the most delightful month of the year. Then go into the contest with the determination to win and you will find yourself among the happy winners who leave St. John about the middle of next October. See the full page announcement in today's issue.

Twenty-five dollars in gold will be given to the person who first nominates the young lady who secures the largest vote in the contest. (See page five for Nomination and Application blanks.)

CARVELL HAD BIGGEST PULL

Member For Carleton County Landed Dr. Weaver In Fat Job In Fredericton And Liberals Are Sore.

Fredericton, N. B., Aug. 11.—A great deal of bad blood exists in Liberal circles here over the appointment of a surgeon to the Military School. The position has been occupied for some years by Dr. W. J. Bridges, who has been promoted to Montreal. For the vacancy thus created there were a number of applicants including Dr. J. W. Peake of Sunbury County, Dr. W. J. Weaver, Dr. W. J. McGrath, Dr. C. T. Holden and others. There was a very general opinion that, from a political and military standpoint, Dr. Peake was entitled to the position. He had run two elections for the local house in Sunbury County at the personal solicitation of the leaders of the Liberal party in the province and opposed Messrs. Hazen and Glasier in 1908, when he knew there was not the slightest chance of his being elected. He had also helped engineer the movement that enabled Colonel McLean to obtain the Liberal nomination over Dr. Hetherington at the last Dominion contest, and, but for his efforts in getting the Sunbury County Liberals into the contest, it is to Dr. Peake, therefore, that the Colonel owes his position in the House of Commons today.

It is true that the doctor's ardor for Colonel McLean underwent considerable cooling and that he rendered him little, if any, assistance in the election. It is believed by his friends, however, that this is due to the fact that Colonel McLean had failed to make good certain promises. Dr. Peake also qualified himself for the position from a military standpoint, and has attended the camps at Sussex for several years past. His friends have stated that in spite of the coolness between himself and Colonel McLean at the last election the latter would give him all the help in his power and would insist upon his appointment.

They now universally believe that the Colonel has failed to do so as the plum has been captured by Dr. Weaver of this city, a gentleman who came here from Ontario a few years ago, who has no claim upon the Liberal party at all, who does not exercise the slightest influence in political affairs, and whose party services cannot be put for one moment in the same category as those of Dr. Peake. It is now given out that no appointment will be made to fill the vacancy caused by Dr. Bridges' resignation, but that a civil surgeon will be appointed and that the duty will be performed by Dr. Weaver.

Dr. Weaver had no backing for the position here or in York County. His only pull lay in the fact that his wife had some relatives in Carleton county who were supporters of F. B. Carvell, and if Colonel McLean used his endeavors to get the position for Dr. Peake it is quite clear that his influence with the government is small compared with that of Mr. Carvell. There is great indignation in Liberal circles over the matter here. It is felt that Dr. Weaver had less claim than any of the other applicants, and in Sunbury county the turning down of Dr. Peake, in view of his party services, is regarded as a deed of great ingratitude on the part of Colonel McLean and the Liberal government.

Dr. McGrath, who was an applicant for the position is said to have the support of Henry R. Emerson and all the Liberal clique that frequent the Queen Hotel, while Dr. Holden's friends confidently whispered about that he would get the position because of Dr. Pugsley's support.

STEAM TRAWLERS ARE OUSTING SMALL BOATS

Fishing Trade On Atlantic Is Passing From Sail Craft—Scottish Trawler At Canso After Quick Trip.

Halifax, N. S., Aug. 11.—The day is not far distant when the fishing vessel will be a thing of the past on the Atlantic coast as the steam trawler is fast taking the place of the hundreds of little boats engaged in the fish trade. The steam trawler Coquet of Aberdeen, Scotland, arrived at Canso today after passage of two weeks. Capt. Sheeky and his crew of ten men have come to this side of the Atlantic to experiment in trawling. The Coquet is owned in Aberdeen, Scotland.

ALL OFF BETWEEN ROME AND MADRID

DR. A. D. SMITH CHOSEN HEAD OF THE I.O.O.F.

Officers Were Elected By Grand Lodge Of Oddfellows At The Annual Session In Truro Yesterday.

Truro, Aug. 11.—The general routine business goes on in connection with the I. O. O. F. assembly.

Wednesday evening's session opened at 7.30 and several reports were read and adopted among others being the financial report which increased the secretary's salary from six to seven hundred dollars. This morning the grand lodge sat in session at 10.30. After the opening ceremonies a telegram was read which conveyed greetings from the grand lodge of Alberta now in session at Calgary, to the grand lodge of the Maritime Provinces.

The Campbellton fire sufferers relief committee reported that the funds so far collected amount to \$1,500. Grand Master Hooper and Past Grand Representative C. A. Sampson, were chosen a committee to carry on the work for the relief of the sufferers in ill-fated Campbellton.

After this came the election of officers, the following being chosen: Grand Master—A. D. Smith, St. John.

Deputy Grand Master—J. A. Craig, Yarmouth. Grand Warden—D. Stewart, Bridgewater.

Grand Secretary—J. J. McKinnon, Charlottetown. Grand Treasurer—J. A. Balcom, Halifax.

Grand Chaplain—H. B. Thomas, Dorchester. Grand Representatives—S. L. Walker, Truro; L. M. Robinson, St. Stephen. After the report of the appeals committee which caused quite a lot of discussion today's session was closed.

The Grand Lodge accepted an invitation for the visiting delegates to have a look over the experimental farm. Rain started to fall, however, just at the time of leaving but, notwithstanding, quite a few took advantage of the chance to see the agricultural college and lands.

MANITOBA MEMBERS ASK FOR GRAND LODGE, S.O.E.

Application Made Yesterday To Supreme Lodge, Meets With Opposition And Is Finally Left Undecided.

Ottawa, Aug. 11.—The Supreme Lodge, Sons of England, this afternoon discussed the request of the Manitoba members of the order for the establishment of a provincial Grand Lodge for the prairie province. There was a good deal of opposition to the proposal, it being argued that if Manitoba were granted a Grand Lodge similar demands would be made by other provinces with the result that the authority of the Supreme Lodge would be affected and apart from insurance there would be little for it to do. The Manitoba delegates advanced many arguments in favor of their demand and it was decided to leave the matter over for further discussion.

LANGFORD-KAUFMAN BOUT OFF

Negro Pugilist Would Not Enter Ring With Big Californian Unless He Received \$7,500—Money Not Paid.

Special to The Standard. Philadelphia, Aug. 11.—The six round bout between Al Kaufman and Sam Langford was called off today, the negro refusing to fight unless guaranteed \$7,500.

NEGRO LYNCHED.

Helena, Ga., Aug. 12.—Jim Toller, a negro was lynched at one o'clock this morning at Alamo, seven miles from here by a mob of over 100 men for having entered the room of two daughters of a prominent planter of Montgomery county Tuesday night, while the girls were asleep. The negro was caught, confessed, was tied to a tree and shot to death.

Vatican Announces That No New Proposals Will be Made to Spanish Government.

Premier Says "I Am Determined Not to Allow Development of Clericalism in Spain."

Rome, Aug. 11.—The Vatican in a semi-official communication says that the idea of making new proposals to Spain is so far from the intention of the holy see that some of the officials support the suggestion of sending no further answer to the last Spanish note on the ground that this note is a reply to that addressed by the holy see to the government and there by requires no new answer.

If Premier Canalejas is sincere, the communication says, he must resume the negotiations at the point where they were abruptly interrupted.

The Giornale D'Italia publishes an interview with the premier, who says he has done nothing that could be construed as interference of the state in church affairs, but has proclaimed the respect due the authority of the state. Nor has he done anything, he declares, to encroach upon the ideal and traditional patrimony of a religion to which he himself belongs and to which he gives deep respect.

"But," continues the premier, "I am determined not to allow the development of clericalism in Spain."

MONTREAL SHIP LINERS RESTLESS

Men Who Fit Cattle Boats Want Increased Pay And Have Applied For a Conciliation Board.

Montreal, Aug. 11.—There is some unrest among the ship liners of the port of Montreal, who have applied for a board of conciliation and investigation under the Lemieux act and there is every indication that their request will be granted.

The men want increased rates of pay, but it was pointed out today by the shipping interests that whereas in busy seasons 200 men are employed this year owing to the great falling off in the number of cattle shipped, the supply of ship liners has been greatly in excess of the demand.

Ship liners are the carpenters who fit up the vessels which carry cattle to British ports with the necessary pens and woodwork. In past years their numbers have been quite numerous. It was stated that the various shipping companies have for years employed as a rule, the same men, and that if the demands of the liners had been made to the companies individually, instead of by two men claiming to act for the ship liners as a whole body, there might have been no necessity for running to the minister at Ottawa and endeavoring to put into movement the rather cumbersome machinery of the Lemieux act.

SIR THOMAS HAS NOTHING TO GIVE OUT

C. P. R. President Very Non-committal Regarding Reported Absorption Of All Line By Big Railway Company.

Montreal, Aug. 11.—In regard to the report that the Canadian Pacific had absorbed the Allan Line, Sir Thomas Shaughnessy, president of the Canadian Pacific, said this evening: "The Canadian Pacific is always working some new plans for their steamship service. There is, however, nothing special going on just now."

TYPOS WILL MEET IN 'FRISCO

Minneapolis, Aug. 11.—San Francisco was selected as the next meeting place in 1911, of the International Typographical Union. The count of the vote late this afternoon, showed that San Francisco got 171 votes and Salt Lake City 70.

THE ST. JOHN STANDARD and NEW STAR will send TEN young women to the Bermuda Islands and New York City in October, and every cent of expense from the time of leaving home until the return will be paid by this paper. The party will be chaperoned by a competent lady, and the contestant receiving the greatest number of subscriptions to the STANDARD and NEW STAR will be accorded the privilege of selecting the chaperone for this party. The party will be accompanied, too, by a representative who will look after their comfort and pleasure.
 PLAN OF CONTEST—The City of St. John and vicinity has been divided into nine districts, as described on this page. The young lady in each district receiving the highest number of votes will be entitled to this splendid trip. A coupon will be printed in each issue and will entitle the holder to vote when properly filled out. Paid in advance subscriptions will be entitled to votes in proportion to the length of time subscriptions are paid.
 PLAN OF NOMINATION—Any young woman over 16, who lives in St. John or territory comprising the various districts, is eligible to compete in the contest. She must be endorsed by three reliable citizens, who will vouch for the candidate's good character. Candidates may nominate themselves or their friends may do so for them. Read over the list of the nine districts determine which one you or your friends are in, and send in your nomination. The rules of the contest are very simple. The list of nominations will soon be published and the voting will then begin. Get an early start, for the trip is going to be worth while.

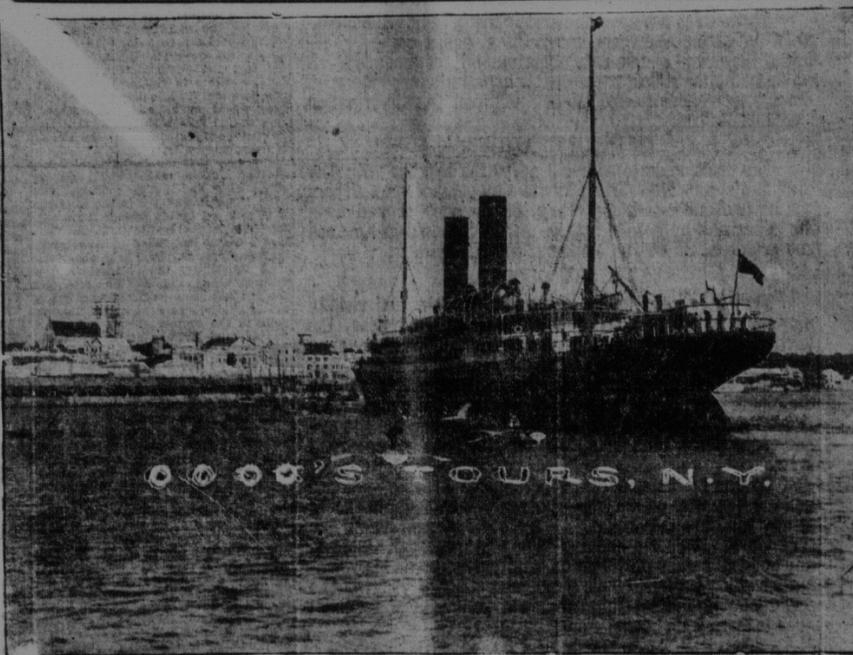

Rules, Regulations and Conditions

RULE NO. 2—There will be NINE separate districts from which to enter, described in this prospectus. All coupons clipped from the STANDARD and NEW STAR will be known as "SINGLES," and in order to be voted must be neatly trimmed for filing. All coupons issued on paid subscriptions will be known as "SPECIALS," and must bear the receipt number from which it was issued for the proper recording of same in vote ledger. No coupon, either "SINGLE" or "SPECIAL" will be sold for money or other consideration, but shall be obtained only by being clipped from the STANDARD and NEW STAR, or be secured through the regular subscription channels. No vote coupons will be issued on subscriptions to the STANDARD and NEW STAR during the life of this contest, unless paid in advance, and for no shorter period than three months, on the STANDARD, six months on the NEW STAR, and twelve months on the WEEKLY STANDARD.

RULE NO. 3—First publication of names of candidates will be made Monday, August 22. Voting will commence Tuesday, August 23. First publication of names of candidates and vote exhibit will be made Thursday, August 25, 1910. After Thursday, August 25, all Single and Special coupons will be void unless voted within seven days of date of issuance.

Get in and Win

Think of the great sights of a life time that the fortunate young ladies will be enabled to witness. One continuous round of pleasure from the very moment they start on these grand tours, until our happy guests return to their homes. Not a dull moment, not a second without pleasure of some kind. Not the smallest amusement will be missed. To our "Young Tourists" it will be a case of on the go all the time; and such arrangements have been made, in transporting the young ladies from one place of interest to another, that they will suffer no fatigue and will enjoy the panorama constantly being unfolded, with all the comforts supplied by a modern up-to-date steamer.

Woodstock, Aug. 11. - The following transfers of property have recently been made through the real estate agency of J. W. Astle: John Fleming, who recently purchased the Tabor house, is remodeling the building, adding a broad veranda around the exterior of the building and will have an up-to-date building in every respect.

George W. Gartley of Weston is in town today with some new potatoes, two of which were quite large, one weighing a pound and the other 1 1/4 pounds. These were grown on the Jarvis Baker property.

Mrs. J. Charlton Berrie of Woodstock is visiting her father, J. L. Thorne, in St. John. Miss Lottie Manuel of Houlton is the guest of her aunt, Mrs. B. W. Cummings of Woodstock.

Miss Estelle Kelly has returned to Houlton to take up her position as clerk at J. H. Brown's.

Misses Myrtle Kelly and Lizzie English of Houlton were here today on their way to visit friends at Skit Lake.

Gordon Carpenter of Green Lake, who has been working with his uncle in Hodgdon, has returned home. Mr. and Mrs. Ezra Tabor are the guests of their son, A. F. Tabor at Green Lake.

John Driscoll, Jr., son of Mr. and Mrs. John Driscoll, who for several years has been a soldier in the regular army of the United States, has arrived home dangerously ill from fever contracted in the Philippines. He is in receipt from the government of a pension of \$50 a month.

George Corkery, son of J. Corkery, formerly of St. John, who had been a patient in the hospital here, leaving it a fortnight ago for the Boston General Hospital, to be treated for a diseased bone in the foot, is very ill from the effects of the amputation of the foot at the ankle, which operation was performed in Boston on Saturday.

Guelph, Ont., August 11. - Captain C. R. Crowe, one of the Canadian team at Bisleigh, declares that the treatment accorded the Canadians was of the best, despite rumors to the contrary. "There has been a tendency on the part of some members of the Canadian press to state that the Canadian team at Bisleigh this year were in some indefinable way not given a square deal." Capt. Crowe said in an interview, "I wish to give this an unqualified denial, for the team this year received most courteous treatment, and so far as the rules

SAINT JOHN, FRIDAY MORNING, AUGUST 12, 1910.

THE CASE FOR VIVISECTION.

With the exception of vaccination probably no scientific method for the amelioration of human suffering has been so severely attacked as vivisection. It is claimed by the anti-vivisectionists, who are still active, that nothing new or desirable is learned through vivisection, and one result of the many reckless and ignorant statements which have been advanced has been to create a prejudice which investigation shows is in no way justified.

Two articles on animal experimentation were published recently in the Ladies' Home Journal, one written by the Rev. F. W. Tompkins, and the other from the pen of Dr. W. W. Keen. The clergyman adopts a more moderate tone than is usually to be found in the average "anti-vivisection" article, but advocates restriction of scientific experimental work, and favors its regulation by those whom the Medical Journal has classed as "men admittedly of unscientific training," in order to avoid the possibility of preventable cruelty. He apparently depends entirely on hearsay and is without personal or accurate knowledge of the facts involved.

Dr. Keen, who, as the editor of the Ladies' Home Journal points out, is "as well qualified to present the advantages of vivisection as any American writer," has spent a long, useful and honorable life in the active practice of surgery and of warfare against disease. When therefore he states facts, which have come to him through his own experience as a surgeon, they are entitled to far more weight in the minds of all rational persons than the theorizing and hearsay arguments of those who would lock the doors of laboratories and compel scientific men to abandon their life-saving work.

Dr. Keen's first illustration is an exceedingly graphic one. In 1905 his assistant, a young man of brilliance and promise, was stricken with cerebro-spinal meningitis and died in less than thirty-six hours, no relief being possible. In 1909 Charles E. Hughes, junior, the son of the Governor of New York, was seized a few weeks before graduation with the same dreadful disease. His death also would have been inevitable had not Drs. Flexner and Jobling, of the Rockefeller Institute, discovered in 1907, by researches on animals alone, a serum by which this disease could be cured. Three injections of the serum were given Mr. Hughes, with the result that within a few weeks he was completely restored to health.

In discovering this serum, Dr. Flexner experimented on twenty-five monkeys and one hundred guinea pigs. Dr. Keen shows that this discovery has reduced the mortality of cerebro-spinal meningitis from 75 to 25 per cent., and then says:—"Let me now put a plain, straightforward, common-sense question:—Which was the more cruel: Dr. Flexner and his assistant who operated on twenty-five monkeys and one hundred guinea pigs with the pure and holy purpose of finding an antidote to a deadly disease and with the result of saving hundreds, and, in the future, thousands of thousands of human lives; or the women who were 'fanned into fury' in their opposition to all experiments on living animals at the Rockefeller Institute, 'no matter how great the anticipated benefit?'"

Dr. Keen gives other graphic illustrations of the result of animal experimentation, all proving that much of the present success in treating disease depends on investigations that have been made on animals. He also states that 97 per cent. of the animal experiments performed in England last year were merely hypodermic punctures and involved no pain whatever.

Vivisection today implies, not dissection in the ordinary sense, but the performance of an operative experiment upon a living animal for the purpose of advancing biological science. In Great Britain experiments which inflict pain upon animals may be undertaken only by those teachers and investigators who have obtained a government license. Vivisectionists themselves agree that the experimenter must be a skilled anatomist and physiologist, that anaesthetics should be used to the utmost possible extent, and that mere repetitions of experiments whose object has been attained are unjustifiable.

In the United States anaesthetics are regularly used during all cutting operations and experiments otherwise involving pain. When the end sought is obtained during the operation the animal is destroyed while unconscious. With these precautions, and bearing in mind that nearly all our knowledge of physiology, of the effect of medicines, and of bacteriology has been secured by these means, and that human pain has been relieved and human life has been saved in countless instances through the knowledge obtained through vivisection, the case for the anti-vivisectionist stands on very poor foundation.

Laurier's Wearisome Talk of Loyalty.

Much has been said and written in the political press, and much more has been spoken on the political platform, on the fact of Sir Wilfrid Laurier's French-Canadianism. No one on either side of politics has offended in this matter in the same degree as Monsieur Laurier himself. His western tour has witnessed the exploitation of his nationality to a degree that is wearisome. He has not failed in a single opportunity to refer to his race in some form or other, either directly or by inference. "I appreciate that I am a British subject. I am proud to say that I live in a British country, and I am glad to know that I have the freedom of speech." This is the favorite form of expression.

The Premier of Canada, for a period of fourteen

years, repeating day after day his appreciation of British citizenship, is just a little ridiculous. Fancy Mr. Asquith working this kind of a game upon the people of England. Yet has Sir Wilfrid Laurier greater occasion to be everlastingly parading his loyalty? The Canadian Premier was born under the British flag. His forefathers found the flag meant freedom in all things. They regarded it as a good flag under which to continue their citizenship. Had they felt otherwise there was no restraint placed upon them to remain under it. Sir Wilfrid can have no personal complaint against Canada. He has been called upon to make no sacrifices in her behalf. He has been given a post of honor that he would hardly have attained to in any other land under the sun.

Goldwin Smith was a student of men and affairs, and he classed Sir Wilfrid as an opportunist. Opportunity has come to him here. His birth of itself proved an advantage that brains could not equal. It is this advantage which Sir Wilfrid is still playing to the limit when he parades it as he is continually doing. It was this accident of birth which gave him an almost solid Quebec, and the same fact has enabled him to retain the Lower Province against his opponents. And despite this he flaunts his loyalty to the British Empire in the face of the people of the West as though this loyalty were something which has called for personal sacrifice.

As a means of retaining power, Monsieur Laurier has played his birth as a French-speaking Canadian to the limit. The grain growers of the West are making it plain to him that what they want is not so much that he be loyal to the British Empire; they take this for granted. What they demand is that he be loyal to the promises he made to them and to the people of Canada in 1896. This is a form of loyalty much more difficult of performance than is loyalty to the Empire. It is a kind of loyalty in which Sir Wilfrid has been particularly lacking—London Free Press.

RAPID TOWN BUILDING.

"Building a Town in a Day," is the title given to an article by a special writer in the Technical World Magazine for July, showing the wonderful rapidity of development attending or following in the wake of Transcontinental Railway construction in the West. In this article the writer says that "It is expected that the next eighteen months will see the culmination of one of the greatest colonization movements in history, for during that time it is schemed to build and populate 120 towns in the Dominion of Canada, an average of one town for every other week day in the year and a half."

"By the middle of 1911, if Canadian government officials are not wrong in their estimate, these 120 towns will have their official places and names on the map of Canada and a population of from one hundred to a thousand people each. On the new Grand Trunk Pacific westward from Winnipeg, a distance of 960 miles, a new town is to be located during the next year and a half at a distance of every eight miles, or 120 towns for the total distance. Most of these towns are already marked on the corporation maps and the majority of them are named."

"On the mountain division of the same road, which is to terminate at Prince Rupert on the Pacific, 35 new towns are to be planted. On the main line and branches of the Canadian Northern in Saskatchewan and Alberta 30 new towns are to be brought into existence and on the Canadian Pacific in the same province 35, a total of 220 in all. The history of these towns is to be unlike that of any other in existence. They are not to be merely planted and named and then left to vegetate. They are to be forced into life. That is the remarkable thing about them. And this is neither a guess nor a hope. It is the result of a game of town building, which has been planned out as carefully as one might play a game of chess."

A UNIQUE OPPORTUNITY.

The announcement which The Standard makes this morning of free trips to the Bermuda Islands and New York City for nine young ladies and a chaperon, who are residents in St. John or the immediate neighborhood, will doubtless be read with much interest. The rules for the voting contest which will decide the names of the lucky participants are simple in the extreme. The territory has been divided into nine districts. The nine young ladies whose votes are highest in their respective districts on Saturday, October 8, when the contest closes, will win the nine trips. To the one who leads the poll is given the privilege of naming the chaperon. Coupons clipped from The Standard or from the New Star, and special ballots issued for paid-in-advance subscriptions, are the two methods by which votes can be registered.

Nominations can be sent in at once and after that it is only a question of votes. Any young man who wants to secure the undying gratitude of his best girl has the opportunity of a life time, or young ladies may nominate themselves, and not wait for their friends to do it for them. The contest promises to be keen and exciting.

There is no more delightful place than the Bermuda Islands in the month of October, and New York, which will be in the height of the season, can then be seen at its best. The trip has been mapped out, so that the tourists will enjoy their holiday to the fullest extent. Everything in connection with it has been arranged except one important detail—the names of the lucky participants. That is left for the readers of The Standard and the New Star and the friends of the young ladies who will be nominated to decide. There is no time to waste. Get Busy!

CURRENT COMMENT

(Winnipeg Free Press.)
The distance between Canada and the Motherland shrinks steadily. The London Times, of Saturday, July 30, reached Winnipeg on Saturday, August 6, just a week later, and found its way yesterday to the Free Press exchange table. Ten years ago it would have taken twice as long to bridge this distance with a communication.

MAN'S PLACE IN THE UNIVERSE.

Let not this contemplation discourage man, as if he thought himself abandoned by God; for in extending and enlarging the universe, he is himself elevated beyond measure, and his intelligence is no longer deprived of breathing space beneath a sky meagre, narrow, and ill contrived in its proportions. And better still if God is everywhere present in the whole of the world, filling it with his infinity, and with his immeasurable greatness, if there is in reality an innumerable host of suns and stars, what of the foolish distinction between the heaven and the earth? Dwellers in a star, are we not comprehended within the celestial plains, and established within the very precincts of heaven?—Bruno.

MR. MACDONALD WRITES OF MAIN ST. PAVING

Member of Contracting Firm of MacDonald & McLeod Says if Base Comes Up to Standard City Gets Good Job

Editor Standard:
Sir—I notice by your report of the meeting of council held August 8th that my name was mentioned in connection with some changes that were made in the specifications for the retaining wall on Main street. I also notice that by a majority of votes of council a resolution was passed saying that the specifications had not been departed from. Now the council can pass resolutions to the effect of doom, but that does not alter the fact that the concrete wall on Main street bears mute testimony to the fact that the original specifications have been departed from. The original specifications specified a dry stone wall. This was changed, and changed, I believe in the best interests of the city, to a concrete wall. According to the specifications it is the engineer's privilege to change anything which to him seems in the best interest of the city so to do.

I notice that some of the aldermen laid great stress on the fact that Messrs. McDonald and McLeod wanted only \$11,500 more than the contractors who received the job. Now that alderman has lost sight of the fact that when we figured on the job, we figured on a dry stone wall twelve feet wide at the base, and also the great amount of excavation that would have been entailed by putting in a wall of this size. The present wall is only about one half that size. Then again in our figures, is an amount for replacing the sidewalk on

Headaches or Glasses?

The choice is yours. Headaches are a result of eye strain. Medicines will not effect a cure. Glasses will.

Do not think because your vision is good that you do not need glasses, for headaches come usually when the vision is good, because there is a strain on the muscles of the eye to get that good vision.

If you "don't like glasses" and "won't wear them till you have to" don't complain—that's your choice.

If you want to be rid of your headaches let us make you a pair of glasses that will relieve the eye strain.

Re. The Concrete Base On Main St.
The specifications called for concrete consisting of certain quantities mixed. Now, I do not think that it makes very much difference whether this concrete is mixed by hand or by machine so long as the materials used become thoroughly incorporated and the broken stone becomes coated with the cement to form a bond. The concrete as soon as placed must be tamped at once so as to compact the mass and fill the voids. Authorities claim that if the mass is disturbed after initial set has commenced the concrete never attains its full strength. There is some slight variation in cement as to the time it takes for the initial set to commence. My understanding of the specifications was that the concrete was to have been prepared as above, and laid to a depth of six inches, but what do we find? The engineer has adopted a substitute for this. The concrete must be to the satisfaction of the engineer, and he would not have accepted the substitute unless he was convinced that it was just as good. Of course opinions differ as to the particular style of base which is being used on Main street. Some engineers and authorities claim that unless the concrete is mixed thoroughly and the mass incorporated together that it will never attain its full strength.

Concrete has two strengths or two breaking tests, crushing and tensile. The crushing strength of concrete of the following: 1 part cement, 3 parts sand, and 6 parts broken stone, is 1200 pounds per square inch. The tensile strength of concrete which is the strength that applies to this job, is for concrete composed of Portland cement 1 part, sand 3 parts, 125 pounds to the square inch. Now instead of the concrete proceeding to dig up ten feet of this pavement, it would be better that a small section of this base be taken up and a test of the strength of it made, and if it comes up to the standard, this city is getting a good job. If this base is as good as the one specified, it does not make any difference to the citizens who gets the 50 per cent.

Briefly, the whole situation is this: The engineer changes the specifications from a dry stone wall to a concrete, the city gets the benefit. The city council passes a resolution saying the specifications have not been changed. The engineer allows a substitute for a mixed concrete base. Mr. Carleton says somebody saves 50 per cent. The engineer is satisfied, and beyond him there is no other. The taxpayers pay the bill and try to look pleased. The Hassam Company take the 50 per cent. and look pleased.

Thanking you in anticipation for your space, I am
Yours truly,
N. L. MACDONALD.

FIRE FUND CLOSED AT CITY HALL TODAY

Amount Privately Subscribed So Far by Citizens of St. John Reaches \$3000 Mark—More to Come.

The Campbellton fire fund at City Hall is now closed, the last subscription coming from an unknown source and marked, "Dollar friend," consisted of the sum of one dollar.

The total receipts amounted to \$3,109.25. From this the sum of \$4.25 for duty paid on some provisions brought into the country, has been deducted, leaving \$3,105 clear, which will shortly be sent forward.

The receipts from the Polymorphian Club band concert, on being recounted were found to contain a small percentage of mutilated and foreign coins, but the total contribution from this source has reached the figure of \$901. Adding this to the private subscription, the sum subscribed privately by the citizens of St. John amounts to \$5,006. The proposed tag-day for the benefit of the fire sufferers should bring a further amount to be added to this.

ROBERT TREAT PAINE DIED LAST EVENING

He Was President Of The American Peace Society And Noted Philanthropist—Prominent Resident Of Boston.

Waltham, Mass., Aug. 11.—Robert Treat Paine, president of the American Peace Society, and a widely known philanthropist, died at his home here tonight.

The end came at 10.40 p. m., very peacefully, the sick man sinking into death almost imperceptibly. At his bedside were his sons, George and Robert Treat Paine, Jr., and his physician.

It was through his efforts in behalf of peace among the countries of the world that Robert Treat Paine became a figure of more than national prominence. As president of the American Peace Society his work occasionally took him to Europe, and at The Hague his name was enrolled among the prominent advocates of disarmament.

ST. JOHN SHOTS LED ALL OTHERS

Great Showing Made Yesterday by the St. John Men at Sussex Rifle Meet--Fine Work Done by the Cadets--Last Day Will be Biggest of Meet.

Sussex, Aug. 11.--St. John men carried off all the silverware in sight in today's matches of the P. R. A. meet and also took unto themselves a goodly number of clean crisp dollar bills.

The example set by Sergeant J. E. Sullivan in pocketing the ladies match silver cup, was not unheeded by the St. John team of eight, who are taking away the challenge shield presented by the J. and A. Coleman Co., Ltd. of London, Eng., competed for by four county teams this afternoon.

Taking after their elders the St. Andrew's cadet corp won the \$10 presented by Major J. M. Kinnear for a match between two corps from the Roxbury Collegiate School, one from Sussex and the St. Andrew's brigade itself.

The cup for individual efficiency goes to Pte. W. Welsford, of the St. Andrew's corps, who also nets the shooting bag presented by Major O. W. Wetmore, Pte. Welsford will hold the cup for a year when it will go back to the association for competition for two more years. The man who wins it on the fourth year keeps it. Another St. Andrew's boy, R. Robertson, pockets second money, \$2.

The St. Andrew's aggregation got \$20 out of the \$30 presented. Their shooting, and indeed the shooting of all four corps met much favorable criticism from the crack shots at the meet.

Sergt. J. P. Archibald made 99 in the special extra series this afternoon and came out ahead.

The shoot offs for the Donnyville Cup, Prince of Wales Cup and medals and the Association Challenge Cup, came off this morning during the 600 yard race of the 600 and 500 yard Ladies' Cup match.

Victory alighted on the kindly head of Lieut. A. B. Maggs, 74th in the Prince of Wales shoot off of sniping. The assistance of Lieut. D. R. Chandler, 74th, who made two points less.

The Association Cup was found to exactly fit the pocket of F. H. Price, Grand Falls, who made 32 points in the P. R. A. match, 67th, 31. Capt. Forbes, 73rd, got knocked out in the first five shots only making 21 to the two others 22.

The Donnyville Cup goes to Sergt. F. E. Gladwin, 62nd, who made 22 points. E. B. Hagarty, M. R. A., 21 points and Pte. H. Chandlemire, 20, 19 points.

The weather was somewhat better for making bullseyes this morning than yesterday, but not a great deal. A little drizzle fell all morning and while there was no wind there was just a little light.

Contrary to expectations it did not rain, but remained sultry all the afternoon.

Shooting for the ladies cup and 105 this morning was fine, considering the rain. Sergt. J. E. Sullivan's score of 68 out of a possible 70 was followed by one of 66 by F. H. Price, of Grand Falls, and one of 65 by S. J. Burlock, of the M. P. Rifle Association.

Following is the detailed score: Ladies' Cup. 600 500 T1

The Cadet Match at the 200 yard range was watched with a great deal of interest and the boys were warmly praised for their expert shooting. The superior practice of the St. John corps due to a large extent to its instructor Col. Magee is said to be the reason for its winning by so large a margin.

WOODSTOCK BEATEN BY WATERVILLE

Maine Team Proved Too Fast for Carleton County Player--Eddie Ramsay Played Short for Woodstock.

Woodstock, N. B., Aug. 11.--The ba game this evening in Houlton between Woodstock and the crack Waterville Me. team resulted, as generally expected, in a victory for the Maine boys. The score was 12 to 4.

The local boys accompanied by Eddie Ramsay went over in the early morning train and hundreds of their supporters left here on an excursion train at noon for Houlton to witness the game. The prestige of the Waterville team dare not be lowered and to sustain that standing it put up the game of its life. Moore, the Waterville pitcher, was almost invincible, while the team behind him batted like fiends. This defeat makes the record for the Woodstock team stand fourteen games won, and four games lost this summer.

Pesley had twelve strike outs but five three-liners were also chalked up against him. Manning and McLean were umpires.

A more even game is expected tomorrow in Woodstock when it is expected it will put its strongest nine in the field. The absence of Black, the catcher, weakened the team today. The teams lined up as follows:--

Waterville:--Cobb, catcher; Moore pitcher; Wilson, 1st base; Rawson, 2nd base; Baker, 3rd base; Higgins, short stop; Farnham, right field; Sturtevant, left field; Stobie, centre field.

Woodstock:--Iott, catcher; Pesley, pitcher; McTae, 1st base; Hughes, 2nd base; Neptune, 3rd base; Ramsay, short stop; Michael, right field; Pickel, centre field; Milmore, left field.

HE FLEW THE KITE OVER NIAGARA GORGE

Minneapolis, Aug. 10.--The boy who flew the kite across the Niagara gorge, enabling the baffled engineers to span it with a cable for the first suspension bridge, has just died here at the ripe age of 78.

CAPT. EUGENE CHILDS.

Minneapolis, Aug. 10.--The boy who flew the kite across the Niagara gorge, enabling the baffled engineers to span it with a cable for the first suspension bridge, has just died here at the ripe age of 78.

There are five teams in the county match instead of four. St. John's Co. has 720 points, Carleton Co. 711, Kings Co. 704, Victoria Co. 672, Westmorland Co. 667.

The silverware earned during the whole meet will be presented during an at home given by the ladies in the bungalow at 4 o'clock tomorrow afternoon. Another first worked in by a St. John man was that by the champion cup winner, Sgt. J. E. Archibald, who got away with first money in the special extra series aggregate. The sergeant made another possible in this match. The detailed score is as follows:--

PINCH BATTER WON GAME IN ST. STEPHEN

St. Stephen Thistles Defeated Eastport Browns in Good Game Yesterday--Timely Hitting Won the Game.

St. Stephen, Aug. 11.--The Thistles again cast a shadow on the baseball game, having fully recovered from the setback that overtook them at Eastport on Tuesday, when the score was Browns 11 Thistles 2.

Today the Browns came up to see us on our own grounds and the score was Thistles six, Browns four. The Browns secured two runs in the first and two in the second and it looked dead for the home team.

In the third the Thistles got two runs, another in the fourth and three in the seventh, these latter being secured largely on Eastport overthrowing.

Carter and Chaplain formed the battery for the Thistles, Harriman and Dana for the Browns. Walter Cobb, catcher for the Calais Stars, refereed the game and gave good satisfaction. Carter struck out twelve and Harriman seven. Jimmy Humphrey who has been out of the game for some weeks because of an amputated finger joint, came into the game again as a pinch hitter in the seventh inning. His presence was directly responsible for the Thistles' three runs and victory. Altogether it was a good game with a satisfactory termination.

SONDER BOAT SEMI-FINALS ARE ON TODAY

Marble Head, Mass., Aug. 11.--The preliminary races in the trials to select three American sonder boats to meet the challenging Spanish yachts next week, were concluded with two events today. The result was that the committee selected seven yachts to continue the semi-finals tomorrow. The boats chosen with their owners and clubs are as follows:

Harpoon--C. F. Adams, 2nd, Eastern Yacht Club. Lady--R. deB. Boardman, Eastern Yacht Club. Sally XI--L. F. Percival, Corinthian Yacht Club. Bonivue--G. H. Wightman, Boston Yacht Club. Olma--Guy Lowell, Eastern Yacht Club. Beaver--C. H. W. Foster, Eastern Yacht Club. Demon--F. B. Crowninshield, Eastern Yacht Club.

The seven chosen boats will race in one division tomorrow and it is said that the Spanish yachtsmen who arrived at Marble Head tonight, will see their performances from Commodore Clark's flagship Emerald.

AROUND THE CITY

Ferry Step Approaches Improved. The approach to the East Side ferry slip have been replanked. A force of men under the direction of Street Superintendent Winchester started work Wednesday evening and finished at 4 o'clock in the morning.

Report May be Published. Mayor Frink, who has a private report on the Main street pavement has written to the engineer who prepared it asking permission to make it public. The engineer is well known, and the report goes into details in a very thorough fashion. It should be of interest to the public.

Temperance Federation Meet. A meeting of the St. John County Temperance Federation was held in the rooms of the W. C. T. U. last evening, with President Stockwell in the chair. The question of formulating a programme of work for the winter was discussed, but definite action was deferred till the next meeting.

Elm Street Stars Won. The Elm Street Stars defeated the Fort Howe Tartars in a four inning game last evening by the score of 2-0. The game was replete with sensational outfield catches, and some good infield plays. The battery for the Stars was Loyd and Garnett; for the Tartars, Foley and Buckley.

Got Glad Hand But No News. Hon. L. P. Farris, commissioner of police on the Transcontinental railway arrived in town yesterday and registered at the Royal. "Always glad to see the reporters," he said, "but have nothing of interest this time. Several constables here and there have sent in reports that will keep me busy for a while, but I can say nothing now."

Has Stirred 'Em All. "After all the Main street paving agitation has been a good thing for the city," said a citizen yesterday. "Anybody who has watched the progress of the work must have remarked that the contractors are doing better work now than when they started. The agitation has stirred up the contractors as well as the city officials."

Annual Parade in Lorneville. The Prentice Boys of Lorneville will have their annual parade today and the Orangemen will walk with them. The Lorneville Fifes and Drum Band and the Carleton Pipers will be in attendance. Parade will start at 10 o'clock from Orange Hall. Dinner at Mr. William Downey's. Mrs. Wm. Dobson of New York is providing a free dinner.

Rushing Work on Water Street. The Hassam Paving Company is rushing the work on Water street. A force of men are employed removing the subsoil to a depth of 18 inches or more, in order to grade the street with concrete. The subsoil is being carted away, and used to repair other streets. Most of the stone curbing has been laid down, and the work of putting down the concrete foundation will be proceeded with as soon as the street is excavated to the proper grade.

St. John Should Be There. The tenth annual convention of the Union of Canadian Municipalities will be held at Toronto on Aug. 21 and Sept. 1 and 2. No arrangements have as yet been made to send delegates from St. John, but it is hoped that the city authorities will take measures to send representatives as St. John ought to be in line as the meeting place of the next annual convention. In 1906 the convention met in Halifax. The New Brunswick representatives are Mayor Frink, of St. John and J. W. McCready, city clerk of Fredericton.

NO DATE SET YET FOR THE DIGGING OF MAIN STREET

Neither City Authorities Nor Mr. Carleton Have Made Any Move to Start Work—What is the Reason?

Neither the city authorities, nor ex-inspector Carleton have as yet made a move to arrange for the digging up of the ten foot strip of concrete on Main street. No instructions have been given to the common clerk to write to Mr. Carleton, notifying him of the decision of the council, and the city engineer is of the opinion that the decision of the council should be conveyed to Mr. Carleton by the common clerk. And Mr. Carleton has as yet not undertaken to advise the city authorities that he is ready to point out the spot where he alleges the concrete is not laid to the required depth.

SUCCESSFUL OPENING OF ST. JOHN BOAT CLUB'S MARBLE COVE QUARTERS

Smoker Last Night in New Club House Attended by 300 Guests—Excellent Program Was Rendered.

Everything that goes to make a celebration successful, was in evidence at the St. John Boat Club's formal opening of their new and commodious clubhouse last night. Eloquent and witty addresses, excellent songs, good cigars, alleged humorous stories, and last, but not least, refreshments aplenty, made everybody happy, and the occasion was one long to be remembered by all who had the good fortune to be present.

It certainly was an auspicious opening, and if the past be a mirror of the future, as somebody has said it is, then the St. John Boat Club surely has a successful career in store for it, and will attain the very important mission it has been organized to fulfill.

Long before the hour set for the opening hundreds had wended their way to the foot of Cedar street where the many lights, and the quickly gathering crowds told the uninitiated that something unusual was taking place in the brilliantly lighted building below. By 8.30 almost every available seat in the commodious mainroom was occupied, fully 300 persons being present. Many were content to enjoy the crisp evening air and remained on the large veranda, while others told stories—some of which were funny—some true.

Looking over the harbor the scene was an unusually picturesque one. The many little boats brilliantly lighted resembled so many twinkling stars and shone with a grotesque effect through a heavy haze; from out the stillness of the night the soft joyous laughter of a boating party was wafted by the breeze.

The rooms of the club house were decorated in truly artistic and patriotic style. The ceilings were prettily decorated with bunting, and directly over the commodore's seat Old Glory and the Union Jack were lovingly entwined.

Commodore S. P. Gerow was master of ceremonies and right royally did he officiate. His Worship Mayor Frink, Aldermen Poole, Sprout, Willet, McGoldrick, Chief John Kerr of the fire department, Captain William Allan of the Eastern Steamship Company and many prominent business and professional men were among those present.

Commodore Gerow was in his best form. In an opening address that was eloquent and witty, but which nevertheless plainly told the audience that the genial commodore, feelingly appreciated the support they had given him. He reviewed at some length the short but successful history of the club was organized. They were then without funds or without a building site. But they had that determination and optimism that overcomes all obstacles, and from a membership of 47 the club had grown by leaps and bounds, until today they could boast of a membership of 360, and one of the finest boat houses of its kind in the Maritime Provinces. In doing this they had accomplished something of which any organization might well be proud, and it augured well for the future of the club. They were filling a much needed want and he was sure they would receive the unequalled support of every lover of aquatic in the city.

There was yet much to be accomplished however, and he hoped that the general enthusiasm displayed during the past three months would be continued. He then read telegrams regretting their inability to attend, from Dr. Daniel, M. P.; W. S. Hardkins and Hon. William Pugsley.

He also stated that the club felt grateful to the Hon. William Pugsley for attending to dredging the entrance to the boathouse. After several songs and selections that were much enjoyed, His Worship Mayor Frink, was called upon.

It was a pleasure for him, he said, to be present at their opening celebration. He always took a deep interest in aquatic, although he was not much of a sailor. He did not understand much about sailing, he held the position of chairman of the water-boat though, for several years. He hoped, however, to soon become a member of the club and hoped that success would crown their efforts to produce good, clean aquatic sport. Selections by the orchestra, solos by F. T. McKean, R. Seeley, D. B. Pidgeon and orchestra selections were then in order and were much appreciated. After which refreshments were served and the celebration came to a close about midnight with the singing of the National Anthem. The programme was as follows: Oh! Canada Orchestra Address The Commodore Overture Orchestra Solo F. T. McKean Comic Selection F. T. Nuttall Piano Solo A. Lindsay Solo R. Seeley Selection Orchestra Solo H. Noakes Cornet Solo Prof. Waddington Solo D. B. Pidgeon Piccolo Solo James Meyers March Orchestra Refreshments God Save the King.

WHAT ABOUT DURANT AND HIS PLANS FOR THE SUGAR REFINERY?

Unless Plans are Filed by August 19th, Whole Deal With City is Off—Aldermen are Uneasy.

St. John's prospects of securing a \$2,000,000 sugar refinery do not appear very bright. F. C. Durant has only one week more to file plans and specifications of his proposed building. Under the terms of his agreement with the city dated Nov. 19, 1909, Mr. Durant is required to file plans and specifications on or before August 19th, 1910, and to begin the actual work of construction within three months thereafter under penalty of forfeiting all the properties, privileges and exemptions granted him by the city.

Mayor Frink stated yesterday that no communication of any kind had been received from Mr. Durant for months, and that some uneasiness was felt as to his ability or intention to live up to the terms of his contract.

"As I understand the agreement," his worship added, "Mr. Durant, at least he files his plans and specifications by Aug. 19, forfeits all his rights, and the property presented to him reverts back to the city. I have tried to secure some information as to Mr. Durant's intentions from F. R. Taylor, who was Mr. Durant's legal representative during the negotiations with the city but it seems that Mr. Taylor closed his connection with Mr. Durant some months ago and I was unable to find out anything from him. Mr. Durant may turn up with his plans yet, but if he intends to do anything he ought to be getting busy."

"Has the I.C.R. made any arrangements to carry out the work that it would have to do when Mr. Durant starts operations?" the mayor was asked. "Not a thing that I know," was the answer.

LITTLE INTEREST SHOWN IN TECHNICAL EDUCATION COMMISSIONERS' VISIT

No Meeting Held at Board of Trade Yesterday—Mr. Hatheway Emphasizes the Importance of the Subject.

A special meeting of the technical committee of the board of trade had been called for 3 o'clock yesterday afternoon, but only the chairman, W. Frank Hatheway, M. P. P., and a reporter of this enterprising journal showed up. Speaking of the plans for a representative before the royal commission Mr. Hatheway told The Standard reporter that at the last meeting the committee talked the matter over and had the names of about 20 manufacturers and a dozen workmen who had signified their willingness to appear before the royal commission.

"At the same time," Mr. Hatheway continued, "I could wish that the people of this city manifested more interest in the question of technical education. To me it seems a very important subject. According to such information as I have been able to secure, something like one quarter of a million dollars are sent out of Quebec and the Maritime Provinces to the corresponding schools in the states every year. That would seem to indicate that the young men are very much interested in technical education. No doubt these correspondence schools fill a much felt want in a rather ineffective way; their diplomas are probably only worth about 50 per cent, what a diploma from a school at which the pupils are able to attend would be worth."

Need of Technical Schools. "And it seems to me that the sooner we establish local technical schools the better it will be. The good influence of such schools upon the industrial progress of a community is well recognized, and we ought to try to keep that \$250,000 at home. That amount expended every year ought to establish and maintain a good many first class schools. And we should not expect the young men to pay so much for educating themselves. No doubt they benefit, but they are so much more valuable to their employers because of their technical knowledge that the employers or the community ought to bear a fair share of the expense."

"St. John will find it difficult to realize its ambition to be a manufacturing centre of importance unless facilities for the technical education of our young men are provided. And therefore I would like to see the manufacturers showing more interest."

Those who advocate the proper care of perishable goods, especially during the warm weather, will be interested to learn of the completion of a modern sanitary cold storage department, probably the only one of its kind in the Maritime Provinces, by the F. E. Williams Co., Ltd., in connection with the meat and fish department of their grocery establishment in Charlotte street. The new freezer is large, and one might almost say luxuriously appointed, the interior being plainly visible through large windows fitted with heavy plate glass which is also utilized for the greater part of the shelving. An unique feature, and one which conveys the impression of additional length and breadth, is a series of bevelled, heavy plate mirrors, which extend the entire length of the rear and side walls, additional light is provided by incandescent electric lights. The facilities for handling fowl, fish and large portions of meat are of the most modern type and neither effort or expense have been spared to secure cleanliness, and thus assure patrons of the choicest stock in the best condition. The Board's advertisement appears on page five of this issue.
