Ship Lost Propeller in Strange Upheaval in Atlantic While En Route to New York.

New York, Jan. 24.—Add to the mysteries of the sea, the fate of the steamer Calmar, which limped into New York today from Central American ports with one of its propeller blades missing. Captain, officers and passengers were agreed that it was a rough day on the ocean when last Wednesday the ship began rolling so violently that persons were thrown out of their deck chairs. But whereas the skipper held to the theory of a submerged volcano, his passengers clung to the most imaginative theory of the ship bumping over a school of whales. Anyway, the rumpus ruined a perfectly good propeller.

GASOLINE CAR EXPLODES; TEN KNOWN KILLED

Spark from Chisel is Supposed to Have Been Cause of Tragedy.

WHOLE ROWS OF HOUSES WRECKED

Death List May Total Twenty-Five With Forty Seriously Injured.

Memphis, Tenn., Jan. 24.—A complete check will be required to determine the casualty list from an explosion of a car of gasoline here today. Latest estimates placed the number at from six to fifteen dead and forty, injured, all negroes. The original estimate was 25 dead. Six bodies have been recovered from the wreckage of the car. The explosion destroyed a row of frame dwellings at Front and Loony streets, shattered windows within a radius of fifteen blocks and shook the entire north end of the city.

The resultant fire, which, for a time, threatened to spread to a gas plant and several nearby manufacturing concerns, was checked before it gained headway.

Blame Chisel Spark

Three men were caulking the tank car and police and fire department officials attributed the blast to a spark from a chisel which fell into the gasoline when another workman removed the cap from the top of the tank. Two of the workers were torn to bits, while the third escaped practically unscathed. A row of tenement houses a block in length, all of frame construction, were levelled by the force of the explosion and many of their occupants were killed or injured.

The bodies, torn almost beyond recognition, were removed within a few minutes and every ambulance in the city was summoned to remove the injured to hospitals. A number of the persons given treatment were seriously hurt. Others bruised and cut by glass were treated by physicians at the scene.

Widow to Continue Fight

It was reported that his widow would continue the fight for possession of Streeterville, or the "district of Lake Michigan," as it was termed by Captain Streeter.

Captain Streeter has been fighting since 1886 to establish his claim to one of the most valuable sections of Chicago's lake front. In that year his son, the Roulan, stranded on the beach during a storm. Captain Streeter built a breakwater about the stranded vessel, 450 feet off shore and made it his home. The rapidly shifting sands filled in the space between the boat and the shore, and in time 123 acres was added to the city's area. It was this land which Captain Streeter fought for.

Site of Immense Value

In 1915 the court ruled that Streeter had no title to the property, and his brick dwelling, which had succeeded the steamer domicile, was wrecked by deputy sheriffs.

The site of Captain Streeter's "district" is part of Chicago's famous "gold coast," and is now covered by more than a dozen skyscrapers, apartment buildings and hotels.

In 1902 Streeter and two friends were convicted of manslaughter in connection with the death of John S. Kirke, killed in one of the frequent assaults on the castle. All were sentenced to life imprisonment, but after a few months were released.

Interest in the case has been heightened by an interview with "Gypsy" Smith the evangelist publisher in the Belfast Telegraph. Smith ridiculed the reception given De Valera and the Rev. Mr. Irwin wrote a long reply testifying to the enthusiastic nature of the reception accorded De Valera.

Father Claims He Got His Clue from Spirit That He Saw at Graveside

Philadelphia, Pa., Jan. 24.—Charles Edwin King, twenty-one years old, was arrested today charged with the killing of Arline May Stout, seventeen year old high school girl, who was found dead in her home October 10 with a bullet wound in her shoulder.

The warrant for the arrest was out by Freedman M. Stout, the girl's father, charges King with homicide. King was arrested in Bristol and brought to this city.

Laid Protest Innocence

King today declared that he was innocent. He said he had been with his father the afternoon before he died, but had left her early and had heard of the shooting at Bristol, the following day.

Miss Stout was found on a couch by her father. She was clad in a night dress. An army revolver, which Stout kept in a desk drawer in the hallway, lay beside her with one cartridge discharged.

At a hearing before the coroner's jury, King was held in \$5,000 bail for an inquest next Monday. The bond was furnished by his attorney.

FATHER HAD A VISION

A vision at the side of his daughter's grave Saturday, Mr. Stout said, led him to have the warrant issued for King's arrest.

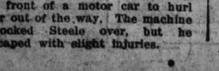

"I went to my daughter's grave on Saturday," he said, "and while I stood there a vision appeared over the grave and Arline stood there; 'Father, she told me to go to see Edwin. He can tell you all.' 'She told me she had gone to see Edwin several times and tried to induce him to tell the truth.'"

MEIGHEN THINKS CHANCE GOOD IN WEST-PETERBORO

Riding is Well Organized With Every Prospect of a Substantial Victory.

FIVE CANDIDATES IN THE BY-ELECTION

Burnham Will Injure Gov't But Labor and Farmers Will Hurt Liberals.

(Continued from page 1) This aspect of the contest, however, makes the situation somewhat blurred and predictions difficult. The Government is concentrating all its resources upon winning the fight, while the Liberals are making even more desperate efforts to win. Mr. Meighen, the group leader, and Hon. Hugh Guthrie have thus far addressed great gatherings in the riding, while Mr. King and Ernest Lapointe have spoken for their party.

Ready for Battle

The Government, taking advantage of mistakes which fell at East Elgin, has a perfect organization. Dr. Black, national organizer, is on the ground personally conducting the fight; the Ottawa propaganda department of the party is keeping the electorate well advised of the issues, and everything is being done that can be done to win out in what is admitted to be a bitter and difficult fight.

Perhaps the best comment that can be made on the situation is to repeat what Dr. Black said last night. "After East Elgin," he said, "I am not making predictions, but you may say that speaking as one who has been all over the ground, I am very confident of the result."

Many Applicants For Assistance

Returned Soldiers Swarmed Offices of D. S. C. R. Yesterday Looking for Work.

Many applicants for financial assistance besieged the local offices of the D. S. C. R. yesterday morning in connection with the recently adopted plan by which Government aid is to be distributed to returned soldiers, and a scene of pronounced activity was very much in evidence. The scheme went into effect yesterday, and the rush started with the opening of the office. Before noon about seventy-five cases had been dealt with, and almost as many applicants were in the hall waiting for attention.

Little Investigation

Very little investigation was necessary in regard to most of the cases which came before the officials yesterday, as the department had been in touch with many of them during the past year. Some applied who do not come under the plan, while there are others who are apparently eligible for assistance, but about whom some enquiries are essential.

The men to be aided are either pensioners or men who have been discharged in a lower category than A, and who have been technically trained through the D. S. C. R. No cash is given, but for unmarried men an order is issued for board and lodging up to \$50 a month. The allowance for a married man with wife and no children is \$75 a month; with one child, \$87; with two children, \$97; and more than two, \$100, which is the maximum.

What is Provided

It is provided also that a card be issued weekly to the applicant by the local federal office in order to keep a check on those seeking assistance, so that aid to those obtaining work is discontinued. As there is no federal employment office in existence in this city at the present time, the investigation and check falls upon the officials of the D. S. C. R. In the majority of cases, however, the D. S. C. R. people have been in touch with the applicants every month and know their circumstances.

Mr. Buckley spoke on the educational side of the Canadian Standard Efficiency Tests. He deplored the fact that so many boys leave school at the age of fourteen and asked that the education of the boys of the city should be made as broad and as practical as possible. Following this splendid talk, a discussion took place on the importance of education in a boy's life. A hearty vote of thanks was passed to Mr. Buckley for his valuable address.

COUNCIL TALKS OF HUN FAILURE TO DISARM ARMY

Military Committee to Report Soon on What Should be Done With Issues.

CASE OF AUSTRIA TO BE HEARD NEXT

Premiers Greatly Alarmed Over Situation in That Land and Seek Some Solution.

Paris, Jan. 24.—The Supreme Council, composed of representatives of Britain, Italy, France, Belgium and Japan, today heard the military experts, and later conferred together regarding the failure of Germany to disarm as provided for by the treaty of Versailles. The experts were asked to make a detailed report on the subject with recommendations regarding measures to insure execution of the disarmament clause of the treaty. The experts will meet tomorrow morning while the council will, contrary to expectation, take up the situation of Austria, instead of reparations. Brian desires an opportunity to talk over the different phases of the reparations question before the subject comes up for discussion at the full council. Thus the change in the council's programme.

Where Will Germans Sit?

In this connection the premiers are said to be considering whether it is feasible and advisable to have the German representative sit with the council before the final decision on reparations is taken. The British delegation is believed to favor inviting the Germans to take part in the discussion after the Allies come to an understanding among themselves. The premiers are understood to be greatly alarmed at the situation of Austria, and will endeavor to find some way for the continued existence of that country. The eastern question, Greece and the treaty of Sevres, will be taken up after the council has finished considering the Austria situation.

Ottawa Has Won Which Ended Lost Only Two

Montreal, Jan. 24.—Ottawa won the first half of the National Hockey League race which ended last night. Ottawa lost only one game at home last season.

By coincidence Ottawa also administered by the Ottawa team.

The defeat of the Ottawa team, small in numbers, regulars forced to go to almost every game, is a blow under the circumstances only a couple of regulars in the game in practically a game which is too strong a set of men to stand.

Ottawa Has Won First Half Which Ended Saturday—Lost Only Two Games.

Montreal, Jan. 24.—Ottawa has won the first half of the National Hockey League race which ended on Saturday. Ottawa lost only two games, one being at home last Saturday.

By coincidence Ottawa's only defeat at home in last season's race was also administered by St. Patrick's.

The Ottawa Team.

The defeat of the Senators lends color to the belief that the Ottawa team, small in numbers and with the regulars forced to go the full limit in almost every game, is starting to show off under the pace. Senators have only a couple of games, with the result that the regulars play an entire game in practically every start, a pace which is too strenuous for any set of men to stand.

The Canadians.

Canadians gave further evidence of having rounded into condition to be formidable contenders in the second half by handily whipping the strong Hamilton team Saturday. Canadians were at a disadvantage in the opening half from lack of training opportunities, and from the fact that they started their campaign away from home. They finished with a rush, however, and in the section which opens Wednesday the habitants have a more favorable schedule. They announced today that they had signed Stanley Vase of Chatham, N. B., to play with them, and that the latter would be here Wednesday next to play against Ottawa.

"Stylish Wasp" Is Bird Dog Champion

Judges Pick Miss Marion Dupont's Derby Pointer After Long Consideration.

Letahatchie, Ala., Jan. 24.—Stylish Wasp, the noted derby pointer being hunted by Miss Marion Dupont of Montpelier Station, Va., handled by E. K. Armstrong of Barber, N. C., won the championship for bird dogs, which was held here under the auspices of the National Field Trial Club. The judges came to their decision shortly before noon today. The runner-up was the setter dog Dr. John Corwell, owned by Scott Hudson of Atlanta, Ga., handled by Ed Parrier of Letahatchie, Ala.

When the judges called for these two dogs this morning to run an hour's best the Dupont representative was the favorite. The little Atlanta setter, however, gave her the race of her life and during part of the heat he held all the advantage. Had it not been for the remarkable heat that Stylish Wasp ran in the first series it is almost a certainty that Dr. John Corwell would have beaten her. But the judges took all the work of both dogs into consideration and at the end declared Stylish Wasp the derby champion of the year, but Dr. John Corwell a close second.

Claims Foreigners At Sugar Factory

City Council is Told 75 Per Cent of Employees Are Not Canadian Citizens.

The City Council yesterday opened tenders for the work at Newman's Brook, had before it a petition for sidewalk from the residents of Somerset street, gave permission to the Commissioner of Water and Sewerage to call for tenders for the hauling of iron pipe now at Lake Lattimer to Little River and heard a delegation from the Trades and Labor Council and Mr. L. P. D. Tilley in regard to civic assessment and other matters.

One of the features of the session was the charge by J. E. Tighe that the opposition to the opening of a labor bureau here was wholly political and due to the quarrel between the Council and Provincial Government over the division of the fines from violations of the prohibition act and the amusement tax.

The Tenders.

The Common Clerk read a communication from the residents of Somerset street, asking for a sidewalk. Referred to Commissioner of Public Works.

Commissioner Jones moved the tenders for excavation at Newman's Brook be opened. The tenders were per cubic yard:

John Flood & Sons	\$11.90	\$5.75
Louis Corey and Jones	8.00	2.75
Simon	8.00	2.75
Peter Saab and Wm. Swanson	8.00	2.75
Leahood and Peters	4.95	1.45
Charles A. Donald	\$4,900 for the job.	

Are Foreigners Working?

Mr. Campbell, who was the first speaker, asked the Council to investigate matters at the sugar refinery, where it was charged seventy-five per cent of the employees were foreigners, while citizens and taxpayers were walking around the streets without employment.

Mr. Tighe asked that when the hydro power from Musquash was ready for distribution that it be not handed over to any private corporation which would make a profit out of it.

Mr. Melvin made a plea for the establishment of a government labor bureau. The Trades and Labor Council were heartily in favor of the establishment of such an office which they believed would help in a large measure to remedy conditions which existed at the present time. They also wanted the city to go ahead with any work which it could do so as to make employment for as many as possible.

Mr. Tighe in discussing this phase of the question charged that the opposition manifested by the Council was

For the first time since the winter preceding the commencement of the recent European war in 1914, a provincial bonspiel will be held in St. John. Lovers of curling from every prominent city in the province will contend, and members of many of the rinks from outside points poured into the city last night.

Interest in the bonspiel starting this morning is at fever heat, and indications are that it will be the most successful ever held in the history of the game in the Province of New Brunswick. In the single rink competition the following is the order of play by skips:

In the afternoon the second round of the single competition and the first round of the consolation will begin at 2:30 sharp in all three rinks, viz., Thistles, St. Andrew's and Carleton.

EVENING PLAY

The double rink competition will commence in the evening, when St. John will compete with Thistles on Thistle ice. Sackville will also play St. Andrew's on St. Andrew's ice; and Fredericton will meet Carleton on Carleton ice. The evening games will start at eight o'clock.

Prizes.

For the double round the Blair trophy with individual prizes for the winning rinks are being offered. The Commercial Club has donated a trophy for the winners of the single competition, and individual prizes will also be given to the winning rinks. In addition individual prizes will be handed out in the consolation contest.

St. John will also fight against all comers this afternoon at 2:30 and many interesting matches are assured, as the rinks are especially well matched.

Banquet in Evening.

political and due to the refusal of the Provincial Government to share the liquor fines with the city.

Mr. Melvin also asked that the Council take steps to try and force those concerns receiving concessions from the city to operate and provide work for their hands, and referred particularly to the Maritime Mall Works.

Mr. Hilley said he had come in answer to the invitation of the Mayor to offer some suggestions. He criticized the present method of making up the valuations, claiming that two or three highly paid experts should be secured for this work and contended that it could hardly be expected that men only getting \$1,500 per year could give sufficient time to the work. He also asked that Marsh Road, from Cooper's Corner to the One Mile House, be paved, and intimated the automobile owners might be willing to pay a share of the cost.

Fredericton High Defeated Rothesay

Inter-scholastic League Game at Capital Finished With Score of 3 to 2.

Fredericton, N. B., Jan. 24.—Fredericton High School defeated Rothesay at the local rink here tonight in the opening game of the Inter-scholastic League by a score of 3 to 2.

The game was loosely played, but the close score made it interesting. In the last period with the score 2 to 1 in favor of Rothesay, Fredericton High started off with a rush and evened the score after two minutes of play. The final score of the game came within the following two minutes when Keene scooped the puck into the net for the winning score of the game.

The first score of the game went to Fredericton within nine minutes of the start of play, when Cain nosed a hole in the Rothesay defence on a long shot from the wing. Rothesay scored twice in the second period, Stevens slamming to curtain fourteen minutes after play began, and Bownell following two minutes later. Jimmie Sterling, Keene and Cain, for the forward line of P. H. S., played good hockey, while Hickson in the net put up a splendid game at defence. Stevens, Gibson and Kitchen starred for Rothesay, although there was little or no combination play, and both teams proved awkward on their feet. Blain Fugh handled the whistle, and too much off-side loafing and tripping passed without action.

The line-up follows:—
Fredericton H. S. Rothesay H. S.

Hickson	Goal	West
Sterling	Cover Point	Douglass
Currie	Right Wing	Stevens
Cain	Left Wing	Brownell
Bliss	Centre	Gibson
Keene	Spares	Kitchen
J. Sterling		Skelton
Dennison		Dennis

Has Ontario Right To Prevent Betting?

Supreme Court of Province Has Question Before it on Issue Raised by Race Tracks

Toronto, Jan. 24.—Argument was begun but not finished today in connection with questions submitted by the attorney general's department to the appellate division of the Supreme Court at Osgoode Hall on the question of power to enact laws to prohibit betting on the race tracks in this province. The submission of the questions to the court follows an order-in-council dated December 2 last.

Two questions were submitted as covering all phases of the matter. The first is whether the provincial treasurer, who issues the licenses to the various tracks and collects the fees, has power to make the absence of betting a condition of the issuing of the license, and the second is asked by the attorney general's department as to whether the legislature has power to pass legislation that will prohibit betting.

Dead Men Tell No Tales" Is Great

Wonderful Vitagraph at the Imperial This Change—English Story by English Players

"Dead Men Tell No Tales," a story of crime, love and adventure, by E. W. Hornung, has been made into a Tom Terriss production by Vitagraph. The motion picture version was edited by Mr. and Mrs. George Randolph Chester. It deals with a plot to steal chests of Australian gold from the Lady Jermyn, a passenger ship bound for England. To cover up their crime, the plotters set fire to the vessel, intending to cause the death of all the passengers and crew on the principle that "dead men tell no tales."

The spectacular production is now being shown at the Imperial theatre, playing to crowded houses yesterday. The gold miners in the Australian fields toiled and fought in frenzied excitement for the precious metal. Senor Joaquin Santos, a Spanish adventurer, plotted boldly and deliberately to steal the treasure while on its way to England.

John Rattray was a young man of engaging personality and some fine qualities, though his conscience had been somewhat dulled by his misdeeds. By inheritance he had come into possession of a large estate, Rattray Hall, with no money to keep it up. This situation made him eager to win a large amount of money quickly. Another reason for wanting money was young Rattray's love for the beautiful stepdaughter of Senor Santos.

Even with all these considerations making the chance of getting the Australian gold a tempting one, Rattray at first refused to join Santos in his criminal enterprise, declaring that it would endanger the lives of passengers and crew of the doomed passenger ship. Santos, smiling sardonically, assured Rattray that there really will be no danger, as all on board the ship can easily reach an island in the lifeboats.

In reality, Santos had determined to cause the death of all on board the Lady Jermyn, by damaging the lifeboats, after loading the gold into the captain's gig and seeing the ship on fire.

From first to last the spectacular motion picture drama is replete with thrills. The scenes on the burning ship, and at sea, with the blazing vessel in the distance, as the lifeboats are sinking, are strikingly impressive. The escape of George Stevenson Cole, a young English barrister, in

Plenty of Sport At The Y.M.C.A.

Wrestling With All Classes Will be the Attraction Tomorrow Evening.

A boxing and wrestling exhibition which will include entries in every class, from fly-weight up, will be held in the Y. M. C. A. gymnasium tomorrow evening, beginning at eight sharp. The City Basketball League games will be postponed for the event.

The large number of boys who attended the Y. M. C. A.'s boxing and wrestling classes this winter, and a number of boxers and wrestlers who have been working out with other clubs, or on their own, should provide a list of entries for a splendid evening of sport.

SWIMMING MEET AT THE Y. M. C. A.

A swimming meet is being held at the Y. M. C. A. tonight, all classes have entered in the different events and keen competition will result before the winner of many of them may be decided on. Tonight's programme will serve as an opportunity of sitting up the likely men in the coming championships of the local associations.

The Intermediates and Seniors are holding a joint athletic meet Thursday night. The two classes have always been rivals, and every event will be fought out to a finish.

MURRAY BELL

Murray Bell, the well known speed skater, will compete at the Montreal championships Friday and Saturday. Bell is going unattached, but is a strong skater and his friends look for results.

FRISCH WITH GIANTS.

New York, Jan. 24.—Frank Frisch, third baseman of the New York Giants, returned his signed 1921 contract to the club management here today. He was given an increase in salary, the amount of which was not stated.

In spite of the peril of drowning and attacks by sharks, constitutes a flaw in the plan of Santos based on the "dead men tell no tales" principle, and many efforts to accomplish his death are made after he is safe in England.

MACDONALD'S CUT BRIER

MACDONALD'S "BRIER" has become a Canadian institution. Smoked by the men who made history. In the bush, on the trail, in mining camps, prospectors' huts, factory yards, on trains, steamships, in the luxurious homes and downtown clubs of our Canadian cities—Macdonald's has always been recognized as the smoke.

MACDONALD'S CUT "BRIER"—the same tobacco but in new form—maintains every Macdonald tradition since 1858, and gives to smokers—more tobacco for the money.

CONCERNING MR. ROGERS' VIEWS

The mere fact that the Hon. Robert Rogers and the Hon. Mackenzie King should be in agreement as to some political question is in itself sufficient to raise the gravest suspicions regarding it.

Mr. Rogers does not feel that Premier Meighen and the Unionist party has any moral right to remain in power any longer, for the reason that the purpose for which they were elected has now been accomplished.

Mr. Rogers does not feel that Premier Meighen and the Unionist party has any moral right to remain in power any longer, for the reason that the purpose for which they were elected has now been accomplished.

What is to be done with those former members of the Liberal party who have no use for Mr. Mackenzie King and his policies if they leave the Meighen party? Are they to be left to form yet another group in the House?

Admiral Sir Percy Scott, who has developed an intense literary activity of late, is bombarding the English Press with letters and articles to prove that the battleship is dead.

The country were suffering by reason of the Meighen Government remaining in office there might be something to be said. But it is not generally speaking public affairs are being as well and efficiently managed today as ever they have been at any time since Confederation.

It is not a demand, except from the small but noisy group which constitute his political opponents, for an appeal to the people, because the people are quite satisfied with conditions as they are.

CANADA'S FORESTS.

A news dispatch says that two men who have been exploring Northern Canada in search of suitable tracts of timber for a New York pulp and paper mill have arrived in Quebec on their return trip.

sleds and Indian guides, they followed the Milcougar River to its source, made headquarters there and explored the territory for 300 miles in every direction.

The men are bringing back with them samples of the wood they found there, and if they prove suitable to the purpose, the company will, it is said, immediately make arrangements for the purchase of a tract of land more than 300 miles square in the extreme north of Canada.

Some Canadians are living in a fool's paradise. Canada is still a very young country, and yet the drain on the forest supply has been enormous.

The circumstance must give us pause if we call to mind the present condition of countries that have never protected their forests or those other countries of limited area and over-abundant population.

Matters have come to the point where we cannot raise the finger of ridicule or scorn to those countries that have allowed depletion.

David Robichaud.
David Robichaud, aged 22, of Riviere des Cachees, near Chatham, N. B., died yesterday morning at 120 at the St. John County Hospital, after having been ill there since December 17 last. He joined the Depot Battalion on May 20, 1918, and saw service in France. Besides his parents, Mr. and Mrs. Phillip Robichaud, a sister survives.

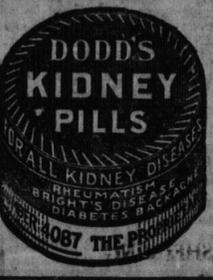

Mrs. J. S. MacLaren.
The death of Mrs. J. S. MacLaren, which occurred yesterday morning at her home, 101 Coburg street, will be heard of with regret by a large circle of friends in the city and province. She was taken ill about two weeks ago and gradually sank until death came.

Before her marriage to Mr. MacLaren, who retired a few years ago from the post of customs inspector, she was Miss Frances Dolb Snider, oldest daughter of the late George E. Snider, at one time a member of the firm of Cudlip & Snider. Besides her husband, she is survived by one son, Lawrence, of the C. P. R. staff here and a veteran of the 6th Siege Battery; two daughters, Mrs. Ronald McAvity, and Mrs. Caldwell, wife of W. L. Caldwell, manager of the Standard Bank here; three sisters, Mrs. Short, wife of Frederick Short, manager of the Union Bank, Truro; Mrs. Louis Whitman, of Ottawa, and Miss Minnie Snider of Truro; and one brother, Frederick Snider of Brooklyn, N. BAIT DIFFICULT TO PROCURE THIS YEAR

Lobsters Taken Are Small and Many Fear Supply is Being Exhausted.

The once prolific and commonly used lobster, which could be purchased for 75 cents per hundred pounds some twenty-five years ago, has reached the unusually high price of 75 cents each, at Basport, Me., the crustaceans averaging 1 1/2 to 2 pounds, and reported very scarce this month about Passamaquoddy Bay and Bay of Fundy, although veteran fishermen have given possible reasons for the present scarcity and high price.

It is claimed that at certain parts of the season lobsters do not crawl about the deep waters in search of food, and January seems to be their month for hibernation so that only a small amount of the usual catches are being gathered up in the many thousands of "pots" and slatted traps now set up daily by Canadian and Yankee fishermen.

Man Who Was Stabbed With Hat Pin Received Lecture in Police Court.

A fine of \$200 was struck against Theodore Saunders of Gondola Point for a serious offense committed on a moving train. Several of the friends of the accused were in court and the magistrate advised the prisoner to confer with them and see if he could raise the money. In imposing the fine he explained the gravity of an assault on a woman, either by look, threat, or deed, and took the prisoner to task for his conduct, which, he said, was not worthy of one who had enlisted at the age of sixteen, and gone overseas, following in the footsteps of two brothers who had fallen in France. He advised the young prisoner to leave drink alone in the future and think more of his mother. In view of the good record of the accused, following in the footsteps of two brothers who had fallen in France, he advised the young prisoner to leave drink alone in the future and think more of his mother. Finer Two Hundred And Then Let Go

A case against Jack Beckwith, charged with using abusive language and threatening to shoot Charles Ackerman, Erin street, was resumed, and again postponed till today at 2.30. George Drew, held for assaulting the little Northrup girls, was remanded to jail.

Thomas Carey was again before the court on the charge of stealing 23 hens from M. Budovitch, Douglas avenue, on January 9, valued at \$3. Mr. Budovitch told of missing the hens and of calling in the police. His wife corroborated his evidence. Sgt. Rankin stated that the consequence of evidence given in the case on Saturday, when the accused, was charged with stealing hens from William Brown, he laid the additional charge of stealing from Mr. Budovitch. Remanded.

Far Flung Bottle Line Leaks Liquor

Vancouver, B. C., Jan. 24.—Canada's far flung bottle line leaks liquor at boundary points, but where do corks float quite so freely as at boundary points immediately southeast of Vancouver. Once in a while a bootlegger gets caught and fined, but for every whiskey car that runs foul of the customs officers, a dozen are loaded and ready to start on the run. If the run smugler makes three trips to Bellingham or Seattle in a safety, he can well afford to lose his next cargo, see his car confiscated, and pay a heavy fine in the bargain.

Government officials have lately been making spectacular efforts at stopping bootleggers on their way south by stretching heavy chains across the roads, one end being attached to a stout tree, and the other to a skimpy post driven in the ground. No cars have yet been stopped but the officials hope to get strong enough to post that is not strong enough to bear the weight of the chain is not likely to hold up a heavy car.

Baptist Young People Hold Rally

Large Attendance at Charlotte Street Church Last Evening—Fine Program.

One of the most successful rallies of the Baptist Young People's Union took place last evening at Charlotte street Baptist church, West St. John. The programme began at 7:30 with an organ recital by Stanley M. Stout, organist of the church. The rally opened at 8 o'clock, the president, R. Hunt, or Parsons, presiding. A fifteen minute song service was led by Professor A. U. Brander, at which favorite old hymns were fervently sung. The twenty-third Psalm was then recited and prayer offered by Rev. J. M. Jenner.

In his address of welcome, the president spoke of the really splendid attendance on such a cold night, and congratulated all societies on the fine showing made in this respect. He drew attention to the coming visit of Dr. James A. White, of Chicago, general secretary for America of Baptist Young People's Work, and urged that plans be made for his entertainment. He is expected in April.

The roll call of the societies called by R. R. Rupert resulted as follows:—Charlotte street, present, 98 per cent.; Tabernacle, 90 per cent.; Ludlow street Baptist, 52 per cent.; Main street, 45 per cent.; Victoria street, 40 per cent.; Waterloo street, 40 per cent.; Central, 40 per cent.

Tabernacle R. P. U. held the banner for attendance at the last meeting, and the president, Peter Murray, brought over last evening a large number of members of that society. Their members are very enthusiastic. Charlotte street, however, outdid all others and the banner was presented to Miss Jessie Hart to be held until the next rally.

In the musical programme the choir of Charlotte street took a large part. A solo was given by Mrs. Patterson, of Charlotte street; a trio by Misses McAlary, Lettroy and Bailey of Main street, and a solo by Professor Brander.

Rev. R. P. McKim, of St. Luke's church, delivered a eloquent address, taking as his subject, "I Am Ready," and illustrating his talk by incidents in the life of Joseph. He showed that Joseph was ready to stand true to God at any cost, and that to be successful, young people have to place themselves absolutely in God's hands, ready to serve Him.

Rev. George Hudson led in prayer, and after the reading of a hymn, the meeting closed with the Misses benediction.

AMATEUR ACTORS WERE REMEMBERED

Miss Hilda Williams and Henry McEachern Received Presents.

The Society of "Tens," who so successfully produced the play "The New Minister," were entertained to supper at Douglas Avenue Christian church last evening, and a real enjoyable evening was spent by all. During the course of the evening presentations were made to Miss Hilda Williams and Henry McEachern, two of the popular leading persons in the cast. The play has been given on a number of occasions and is seemingly better on every production. The company has received bookings for out-of-town performances.

Her Friends Said She Was Going to Die

WHY MRS. MARKLAND PRAISES DODD'S KIDNEY PILLS

She suffered terribly and lost sixty pounds, but Dodd's Kidney Pills started her on the road to health.

Pictou, Ont., Jan. 24—(Special.) Enthusiastic in her praises of Dodd's Kidney Pills is Mrs. Finlay Markland, a well-known and highly respected resident here. And Mrs. Markland is always willing to tell why she places her faith in the great Canadian Kidney remedy.

"Two years ago I had a bad attack of flu and pneumonia," she states, "and the doctor put my system all wrong. I had it for nearly a year before I knew it, but last fall I broke out all over with boils.

"I suffered something terrible. I went down in flesh till I lost 60 lbs. The doctor put me on starvation diet. I could not even put my shoes on. My husband and all my friends thought I was going to die.

"Reading of what Dodd's Kidney Pills had done for another woman with kidney trouble led my husband to get some for me. After I had taken two boxes I began to feel better. I have taken 21 boxes and feel splendid. I can do my work and eat almost anything. I have gained 20 lbs. I tell all my friends what grand pills Dodd's Kidney Pills are."

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for kidney trouble.

Beauty And Customs Of Fiji Islands

Rev. R. Moorhouse Legate Gives Interesting Description of Habits and Customs.

With picture and vivid description, the Fiji Islands, their beauty and curious customs, were clearly brought before a large audience at Trinity church last evening in a lecture given by Rev. R. Moorhouse Legate. Those present regretted the close of the lecture, so interesting were the facts told by Mr. Legate who spent three years in these islands as minister of St. Andrew's church, in connection with the Church of Scotland. In the course of his talk it was clearly shown that inhabitants of the Fiji Islands could teach St. John people some things. Their villages are clean and their churches packed to the doors.

Loyal to Empire

Their unflinching and touching loyalty to the British Empire was strikingly manifested in the late war when, after four refusals, they were at last allowed to send a native battalion, which acquitted itself creditably. The natives, out of love and respect to Queen Victoria, collected enough money to build a fine memorial hall in honor of "The Great, Good Queen."

As illustration of the wonderful work accomplished by the Methodist church, which has evangelized the nation, Mr. Legate told of the ancient stone upon which the breasts of victims used to be dashed out before cannibal orgies, now being a baptismal font in one of the churches. Near where such feasts were held, comparatively few years ago, a man can leave his house with doors unlocked and nothing will be touched.

Mr. Legate paid a fine tribute to the educational policy of the Methodists, to whom the British Government have entrusted the teaching of the children. He praised the care and wisdom of Great Britain in her treatment of these people.

One of the cheerful little customs which Christianity has abolished was formerly followed in the building of chief's houses. Four of the finest young men of the village would stoop into the holes dug for the corner posts and submit to be buried alive, holding the posts of the houses and decaying in an honor thus to die. Quaint marriage customs were described, and excellent views shown, giving some slight idea of the glorious scenery, beautiful palms and strange vegetation.

Rev. R. A. Armstrong, president of the Church of England Institute, presided, and thanked the lecturer for his fine address, stating that it was for the funds of the institute of which Mr. Legate is an honorary member.

Music included a violin solo by Miss Winifred Barker, accompanied by Mrs. Kent Scott; a solo by Stewart Smith, accompanied by R. E. Coupe, and a solo by Mrs. Harrison. The singing of God Save the King closed the meeting.

AS A WOMAN THINKETH

By HELEN ROWLAND
(Copyright, 1924, by The Wheeler Syndicate, Inc.)
"Any Wife To Any Husband"

Be My Friend, Beloved!
This is all I ask—but it is no little thing. In the name of Friendship, do not endow me with all the virtues of saint—and then expect me to live up to them.

Do not place me on a pedestal. Pedestals are so slippery—and halos so hard to keep on straight! It is inspiring to be worshipped—but it is more comfortable to be "liked." You can worship me blindly—but you can LIKE me with your eyes wide open. And to keep a man "blinded," forever, is a life-work!

Be my Friend!
Do not cover me with illusions, and invest me with all the charms of a Circe, and the mystery of the Sphinx.

Infatuation is thrilling, exhilarating—for a little while; but, like wine, it wears off and is apt to leave you with a headache, a heartache, and that "Oh-what-a-awful" feeling.

Do not make me play the "stren."

Be my Friend!
No not cherish me as a fragile flower of a delicate bit of a briar-rose.

Chivalry is beautiful—but do not lay down a cloak for me to walk upon. Take me by the hand and let us walk together, play together, dance together, race together, climb together to the summit of Life; and then, together, limp down the hill, still keeping step, through the sunset of the years.

Do not ask me to grow WINGS!
I may change the color of my hair to please you, but I cannot change the color of my soul, nor the shape of my brain, nor the quality of my character.

Help me to live up to my best, my very highest—but do not ask me to live up to another woman, nor to an impossible ideal!

For marriage may be a refinery—but it is not a reformatory!

Be my Friend!
Look at me with clear, friendly, approving, loving eyes—not through rose-colored glasses, nor through blue spectacles nor through a microscope.

And when you discover a fault or a falling, say of me as of a friend.

"Well, that's just her way!"

Be my Friend, Beloved—

Not my worshipper, my adorer, my guardian, my critic, my reformer, my overseer, my slave nor my sultan—

Be my Friend!

A Night In A Picture Gallery

St. David's Young People Had Entertaining Meeting Last Evening.

"A Night in a Picture Gallery," was the attractive title given last evening's meeting of the St. David's Young People's Society. Those who attended were treated to a delightful programme arranged by Miss Gwen Ewing and Miss Helen Hannah. The chief part of the programme consisted of lantern slides of famous paintings, which were interestingly explained. Musical numbers were given by the Misses Marion and Betty Cruikshank, Miss Tweedie and Mr. Johnson.

Fun Followed

A game which proved very amusing followed, in which members dressed to represent well known advertisements appeared, and the audience was required to guess these names. Major Allan presided, and all present voted it a very pleasant entertainment.

In His Name Circle Of King's Daughters

A meeting of the "In His Name Circle" of The King's Daughters was held last evening at the home of Mrs. George Dharat, the president, Mrs. E. E. Thomas, presiding. After the regular business members worked on a quilt. It was decided that this circle shall take charge of the novelty table at the coming Valentine Tea to be given by the Order. It was reported that coal and provisions had been provided for a widow with a family of four children, and it was voted to supply the children with milk for the remainder of the winter.

NEWSPAPER CONTEST AT CENTENARY

Sides Selected from Y. P. A. Members to Prepare and Present the Newspaper.

The newspaper contest conducted by the Young People's Association was held last evening. Some weeks ago two sides were chosen from among the members of this society, each side selecting from its number a staff of seven to prepare and present the newspaper.

Intense interest

A great deal of care and no little ability were displayed in the composition and make-up of the Bulletin and the News, as these papers were named; while each bore very striking evidence of originality.

The audience present was a very large one when the Bulletin was read by Grant Smith and the News by Wilfred Tait. The readings of these papers occupied almost two hours but intense interest was manifested to the end. The judges had some difficulty in making a decision, but awarded the prize to the Bulletin on the ground that while not as carefully prepared, nor as strikingly presented as its rival, it contained a better selection of matter, both in editorial, social, general news and later features.

During the evening solos were given by Miss Lillian Clark and readings were given by Miss Nan Powers.

FINANCIAL TO RUSS.

Socialist Leader Re- tent of Govern- Assistance.

PAID OVER FIVE MILLION

Furnished in Gold Besides Supplying Railway Transport

Berlin, Jan. 24—The German government, or at least the cabinet, has decided to issue a loan of 100 million marks to Russia, on the condition of having the Russian railway car through the border into Russia, and thus introduced into the Russian market the goods that are in short supply. But they have also denied the accusation a pamphlet published in the east of 1918 or 1919, to the effect that government supplied 100,000 gold rubles. Mr. Bernsten, the well-known leader, makes the state delivered facts which exactly with the American far as the sum mentioned other details are concerned.

Von Hoffman Resigns

According to Bernsten of the whole idea seems an engaged enemy of whose plans for holding the German national in the hands of the German government was financed from persons then in the German national in the sum granted to Lenin to create more than gold marks, not rubles, paid mainly in coin. The sale of the national bank of von Hoffman, who by gone for that purpose land, placed several hundred thousand gold marks in the hands of who until that time had possessed of more than a rubles. These golden marks were known that across Russian border, and were covered by Russians as ruble pieces.

Gold From Imperial

Another installment, was paid to Lenin by German government the Purenburg at Stockholm last part of the month, paid to Lenin's right. The state secretary, Menasse instalment came direct from Imperial Bank. It was assigned by one official.

Berstein doubts that von Kuelmann played the deal with Lenin, according to Bernsten, consenting to von Hoffmann's order that proposed exaction from Lenin in no circumstances. It is a member of the clan family to be killed the desired promise, which he afterward disavowed. The murderer as proof that he intended Bernsten could not be of the story, but his revelations connected with the Bolsheviks.

FINANCIAL AID TO RUSS REDS

Socialist Leader Reveals Extent of Government Assistance.

PAID OVER FIFTY MILLION MARKS

Furnished in Gold to Lenin, Besides Supplying Him With Railway Transportation.

Paris, Jan. 24.—The German government, or at least the men who advised Germany's fate in 1917, never desisted, and at one time even brought off having shipped Lenin and some of his Bolshevik adherents in a sealed railway car through Germany across the border into Russia, and of having the "microbe" inside Lenin's body the poison that is slowly killing her now. But they have always staunchly denied the accusation contained in a pamphlet published in Washington at the end of 1918 or the beginning of 1919, to the effect that the German government supplied Lenin with 50,000,000 gold marks. Now, Edward Bernstein, the well known Socialist leader, makes the statement he has discovered facts which do not tally exactly with the American story, so far as the sum mentioned and some other details are concerned.

Von Hoffman Responsible.

According to Bernstein, the father of the whole idea seems to have been General Ulrich von Hoffman, now an exiled enemy of Bolshevism, whose plans for fighting his former protégé, Lenin, have been recently discussed in the press of the world. Ludendorff and Helfferich shared in the conspiracy, and the latter secured the funds with which the Bolshevik revolution was financed.

Bernstein has reliable information from persons then in close touch with the German national treasury, that the sum granted to Lenin amounted to somewhat more than 50,000,000 gold marks, not rubles, and was supplied mainly in coin. Before affixing the seal to Lenin's saloon car, General von Hoffman, who had personally gone for that purpose to Switzerland, placed several heavy bags filled with thousands of golden Wilhelm marks, showing the Kaiser in his glory as a war lord, in the hands of the agitator, who until that time had never disposed of more than a few hundred rubles. These golden Wilhelm marks were known then across the German-Russian border, and were as much coveted by Russians as their own tin ruble pieces.

Gold From Imperial Bank.

Another instalment, also in gold, was paid to Lenin by the Imperial German government through Banker Furstenberg at Stockholm, and the last part of the 50,000,000 marks was paid to Lenin's right hand man and close secretary, Menshikov. This last instalment came directly from the German Imperial Bank in Berlin, and was consigned by one of its highest officials.

Bernstein doubts that ex-Secretary von Kuhlmann played any part in this deal with Lenin, but he is inclined to believe that General von Hoffman's attitude at Brest-Litovsk, how he successfully blocked Trotsky and Hindenburg while the German and Austrian diplomats talked, obviously shows that he was unaware what Lenin and his friends owed to the Hoffmann-Helfferich-Ludendorff triumvirate.

There is a story current here, according to which Wilhelm II, before consenting to von Hoffman's plan, gave an order that promise should be exacted from Lenin that he would in no circumstances permit the Carrington or any member of the imperial Russian family to be killed. Lenin gave the desired promise, and the energy which he afterward displayed in prosecuting the murder of Carrington is proof that he intended to keep it. Bernstein could not confirm this part of the story, but he promised further revelations connected with the financing of the Bolshevik revolution.

"A woman's life is divided into two great periods."
"Elucidate."

Bandits On Warpath On Indian Frontier

Slay British Surgeon, Kidnap Women, Hold up Trains and Commit Outrages.

(Copyright 1921, By Public Ledger.) Calcutta, Jan. 24.—A strong tribal band from the mountains had penetrated to the Indian plains, with its stone church and good roads, and placed its pickets round the bungalow of the chief of local administration. The commotion attracted the attention of Colonel Foulkes, assistant director of medical services, living in the next bungalow, with the result that the operations of the band were directed against his household.

Colonel Foulkes was shot dead and his wife released only after the wild hillmen had dragged her some distance from the house. Three hillmen lately have a number of daring outdoings to their credit. Two white elephants, assistants to the very best, were snatched and taken away into the mountains on the Afghan frontier. Shortly before a white woman was carried off in a similar fashion from the very heart of the plain near Peshawar, the great frontier mart for Asiatic carpets. Trains several times have been held up and an elaborate but on one occasion a train was made on one occasion to "bag" a brigadier general.

The frontier raiders of today are composed of the younger hillmen, whose fathers are good terms with the Indian Government and often actually in receipt of its subsidies. The young men are influenced by the Alghans, who themselves are led on by the Bolsheviks and the Komalst extremists.

RUNAWAY STAR BREAKING ALL HEAVEN RECORDS

Rushing Away from the Earth at Rate of 2,000 Kilometres Per Second.

PREVIOUS SPEED LIMIT 1,180 KILS.

Only a Faint Trace of the Dashing Star Can be Seen in Southern Sky.

Cambridge, Mass., Jan. 24.—The Nebula Dreyer, No. 25, in the constellation of cetus, has broken all known speed records of the heavens. It is dashing through space away from the earth at a velocity of almost 2,000 kilometres a second, the highest speed ever attained by a celestial object. This was the word received at the Harvard College observatory today from Dr. V. M. Billigher of the Lowell observatory, Flagstaff, Arizona, in announcing the result of spectrographic observations there.

With this velocity Dreyer No. 25 is showing its steady back to the rest of the universe at a rate of speed almost twice as fast as the highest velocity previously known.

A Runaway Star.

Professor Helen I. Bailey, of the Harvard observatory, said most stars move through the heavens at less than 100 kilometres a second; runaway stars have been known to gain a momentum of a few hundred kilometres a second, and other objects have been found to go as fast as 1,000 kilometres a second. The highest celestial speed previously recorded was by another nebula and was only 1,180 kilometres a second, the Harvard scientist said.

Sun, star or nebula has never closely approached the speed of Dreyer No. 25 in his opinion. The nebula, which is so faint that it is not visible to the eye, flashes across the lower southern sky in the early evening.

THE DINOSAUR

Behold the mighty Dinosaur, Famous in prehistoric lore, Not only for his weight and strength, But for his intellectual length. You will observe by these remains The creature had two sets of brains— One in his head (the usual place), The other at his spinal base. Thus he could reason a priori As well as a posteriori. No problem bothered him a bit; He made both head and tail of it. So wise he was, so wise and solemn. Each thought filled just a spinal column. If one brain found the pressure strong, It passed a few ideas along; If something slipped his forward mind, 'Twas removed by the one behind; And if in error he was caught, He had a saving afterthought. As he thought twice before he spoke, He had no judgment to revoke; For he could think, without congealing. Upon both sides of every question. Oh, gaze upon this model beast, Defunct ten million years at least! —From B. T. L.'s "Fossils," in Chicago Tribune.

AROUND THE CITY

Rotary Club. The Rotary Club yesterday decided to get behind a drive for \$1,000 for the Boy Scouts.

Grateful to Citizens. That a club house has been secured for the boys of the South End is largely due to the unselfish and untiring efforts of a few citizens of that portion of the town who have devoted considerable time and care to securing their cherished ideal.

Fibre Box Factory To Open April 1st

Work Being Rushed on New Industry for St. John—Promoters in City.

W. G. Clarke and W. W. Clarke, of Bear River, and A. Grogan, of Montreal, members of the firm of Clarke Bros., now building the big "Kraft mill" at Bear River for the manufacture of pulp, were in the city yesterday on route to Bear River from Montreal, where they were in attendance at a convention of pulp and paper manufacturers.

Plenty of Wood. Mills, he says, are well supplied with wood; in fact, the wood supply is now sufficient to keep the mills busy for the next two years without the cutting of another stick.

Patent Process. Mr. Clarke is very much impressed with the new process to be employed in the manufacture of the fibre and corrugated boxes to be made here.

C.P.R. Official On Prevailing Low Prices of Fish

Reports Scottish Steel Mill Owners Reducing Quotations.

Among the passengers who arrived yesterday morning on the C. P. O. S. liner Victoria was C. A. Langovin, C. P. R. City Passenger Agent at Quebec, accompanied by Mrs. Langovin, who returned to City Canada after a three months' trip to England and Southern France.

Reduction in Steel. When questioned by a Standard reporter as to his personal impressions of the situation in Europe, Mr. Langovin stated that several Scottish steel mill owners had reduced their quotations for steel, and also the wages of their employees.

Pseudo Blind Officers. The unemployment situation in England is somewhat similar to that existing in Canada.

Reduction in Clothing. Many of the clothing houses in London have reduced the prices of their goods by from forty to fifty per cent.

The Unemployment in France. As regards France, no unemployment exists in that country.

City Cornet Band In Delightful Concert

Gives Pleasing Programme of Popular and Operatic Selections Assisted by Vocalists.

The concert given by the City Cornet Band in St. Vincent's Auditorium, last evening, was one of the most successful of the series of winter recitals given by the band this winter.

The programme of the evening was well planned and executed. Mrs. Blake C. Ferris sang with a sweetness of tone, and a compass seldom attained by other vocalists.

The Moore Brothers quartette, in a number of harmony songs, carried all before them and were forced to respond to six successive encores.

The Programme. The evening's programme follows: Grand Operatic March—"Light Cavalry" (Panella).

Vocal Solo—"The Bedouin Love Song" (P. B. Cross (Pianist)).

Operatic Selection—"Gems from Sir Arthur Sullivan's Operas" (Hume).

Dealer Says There is General Diminution of Trade Existing Throughout Country.

That the prevailing low prices for fish is due to the general diminution of trade now existing throughout the country was the opinion voiced yesterday by a well known fish merchant when interviewed in the matter by a Standard reporter.

Many Concerns Affected. It was pointed out by the merchant that the prices in war time on fishing traps, stakes, weirs and other paraphernalia were about three hundred per cent. in excess of those quoted at present.

Prospects Problematical. In so far as canners are concerned they are selling at very low cost, notwithstanding the scale of wages paid to labor and the high price of tin.

Reasons For High Prices. The indications are that the prices of dried cod, canned goods and boneless fish will advance in the near future, which will help the situation.

Summer Operations. New Brunswick canners, however, have been receiving many orders within the last three weeks and at the present rate they will have little present stock when the time comes for the resumption of the summer season activities.
