## JAIL PHYSICIAN CODEMIS FOOD

### Food to Hard Men

Would Make Any Man  
Anaemic, Dr. Christie  
Declares

Says Nothing There Even So  
Appetizing As a Potato and  
Salt—Tells of McArthur's  
Treatment and Death—  
Turkey Asserts that Jail  
is Clean.

Friday, April 28.

That four months of the diet provided in the county jail for hard labor prisoners is enough to make any man anaemic was the starting statement made last night by Dr. James Christie at the inquiry before Coroner Berrymann into the death of William McArthur, who died in the General Public Hospital a few hours after having been taken from the jail. "It has been happening for years to long term prisoners in the jail to get anaemic. Let any man be on a stereotyped diet for four months as this man was, and he would lose his appetite. Why, they have got nothing so appetizing even as a potato and salt. They have bread and beef for dinner, tea, bread and molasses for supper, and bread, molasses and tea for breakfast," Dr. Christie added. The inquiry which opened in the police court room at 7 o'clock adjourned at 10 o'clock till Monday evening on the same place at 7.30. Daniel Mullin, K. C., watched the inquiry in the interests of the patients of the deceased, while the county authorities were represented by County Secretary Keeler. Only two witnesses were examined, Dr. Christie and William W. Cunningham and Dr. Christie.

### Turnkey's Evidence.

Mr. Cunningham said that he had been turnkey in the jail for seventeen years. He remembered William McArthur being brought into jail on January 4, on a commitment for four months for drunkenness. Three days later he was sent for into the police court and another commitment was made out for two months more for assaulting George Danguard. For two weeks or thereabouts, he was kept in and then he went out with the chain gang to break stones. The last time that he went out was April 12.

Mr. Mullin witness said that he was after that date was that he had a black spell, but he had no idea of him to have that. A few days later he was sent for into the police court and another commitment was made out for two months more for assaulting George Danguard. For two weeks or thereabouts, he was kept in and then he went out with the chain gang to break stones. The last time that he went out was April 12.

## TELEGRAPH RATES BEING PROBED

### Managers of Canadian Companies Before Railway Commission

### G. N. W. Official Tells of His Concern Having a \$400,000 Surplus on a \$125,000 Capital—Action Taken at Instance of Winnipeg Board of Trade.

Toronto, April 27.—Shortly before noon today, the Dominion Railway Commission got down to hearing what is tersely designated on the order book as a "general inquiry into tariffs of telegraph companies." The inquiry is apparently to be very complete, and it would not be surprising if it took all of a week to get the evidence before the board.

The investigation is the fruit of a complaint lodged by the Winnipeg Board of Trade, which the Dominion government was sufficiently interested in the enquiry to appoint Mr. Pittblado of Winnipeg to conduct the investigation before the railway commission.

The heads and superintendents of various companies, occupied seats in the court. Among those present were Jas. Kent, manager of telegraphs for the C. P. R.; Mr. Camp, electrical engineer, and Mr. Perry, general manager of the G. N. W. Mr. Perry was the first witness called, and he was still in the box when the commission adjourned for lunch.

The witness was examined at great length as to operating expenses and the comparatively large amounts written off from time to time for depreciation, a sum of over \$200,000 having been written off at one time.

Mr. Perry was asked who ordered the audit of last July, which showed a surplus of \$400,000 on a paid up capital of \$125,000. Mr. Perry replied: "The Western Union."

Mr. Pittblado—"Well, then the Western Union controls the G. N. W.?"

Mr. Perry—"Not necessarily, but they are very large creditors."

Mr. Markley here jumped to his feet, and declared with much emphasis that the G. N. W. had no money to pay dividends.

"Well, if you are all going to talk at once, I will adjourn till 2.30," said Chairman Mabee, smiling.

## HAZEN WILL REJECT I. C. R. OPERATION PLAN

### Another Scheme for Valley Road

### Local Government Heads at Ottawa to See About Federal Subsidy for Proposed Line—A. R. Gould is There Also.

### Special to The Telegraph.

Ottawa, April 27.—Hon. Messrs. Fleming, McLeod, Maxwell and Morrissey, of the New Brunswick government, had an interview with Hon. William Eganley, minister of public works, this evening in regard to a dominion subsidy for the Valley railway, and so far as is known, the result of the talk was a request by the minister for them to put their request in writing.

It is understood that this delegation in regard to the Valley road is not the first one that has been in Ottawa recently, though the first one was not of the provincial government, and was perhaps in a less official capacity, but the information he brought was in the nature of a surprise here, as it was the first intimation that was made that the government of New Brunswick proposed to depart from their request that the Valley railway should be operated by the Intercolonial as part of the national system of railways.

The request was preferred first by a large delegation two years ago, headed by Provincial Secretary Fleming, and was heard by the prime minister and members of his government. Later the same idea was put forth by Premier Hazen in a letter to the Valley Railway Company. Since then the federal government has proceeded to carry out its promise to legislate for such operation, and there is now a bill before parliament for that purpose.

If the provincial government of New Brunswick has changed its mind, and does not wish government operation of the railway, their intention will no doubt be required to be stated formally before the federal government will take action.

Mr. Hazen was here again today in company with the delegation, though he did not appear before the minister.

It seems that before the delegation from the Hazen government came to Ottawa they were in Montreal in conference with the C. P. R. people. Mr. Fleming did not accompany his associates to Ottawa this morning, but remained in Montreal for a later train that arrived this evening.

Sir William "an Honorary old friend of his, is also in Montreal.

The delegation was pleasantly received here. Acting on a wire from Premier Hazen, H. L. Bordet, secretary of the province, cordial reception, and Messrs. Morrissey, Maxwell and McLeod had lunch with him at the Rideau Club.

Los Angeles, Cal., April 27.—John J. McNamara, secretary and treasurer of the International Bridge and Structural Iron Workers' Association, gave his first authorized statement as to his arrest to the Associated Press today. The statement follows:

"To the brotherhood of organized labor in California and the United States: In this second attempt to crush and discredit the cause we represent, I fully realize the desperation of the enemies of labor arrayed against us, but I am of good heart for it will fail.

## TWO CARLETON COUNTY CHURCHES BURNED DOWN

### Grass Fires Destroyed the Baptist and Methodist Edifices at Waterville—Nine Buildings Were Afire at the Same Time But Good Work of the Bucket Brigade Saved Them.

### Special to The Telegraph.

Hartland, N. B., April 27.—Fire running in the dry grass extended to the Methodist church at Waterville, four miles from here, today. The building was completely destroyed, as was also the Reformed Baptist church across the road. The weather was warm, very dry and a moderate breeze was blowing.

There was intense excitement for some time, a barn caught and although the fire got at the harvest and burned off the roof, the bucket brigade put it out. Nine buildings were afire at one time, but all were saved. A great army of men, summoned from all points by telephone, provided the salvation of the village.

## ARTILLERY TEAM FOR BRITISH COMPETITION

### Highest Man in Each of Fifteen Field Batteries Scores Last Year to Go— Officers Not Chosen Yet.

Ottawa, April 27.—The officers commanding fifteen field batteries have received instructions to the effect that one man from each of the fifteen highest field batteries in last year's efficiency list, will be taken on the composite team which goes to England in August for the artillerists' competitions. Thus each of the Ottawa batteries will be allowed to send a man.

The field battery men will be assembled at Petawawa before the team leaves for preliminary training on the grounds there. They will then go to Halifax for training with the coast defense guns. The officers for the team have not yet been chosen. There will be eight men from the heavy artillery and seventeen from the coast defense, making a team forty strong. The men will probably be chosen on their showing in camp.

## INVITES GRAND TRUNK TO BUILD LINE TO BOSTON

### Lower Branch of Massachusetts Legislature Adopts an Order to That Effect.

Boston, April 27.—An invitation to the Grand Trunk Railroad to build its lines to Boston was extended by the lower branch of the legislature today, in the adoption of an order to that effect, introduced yesterday. A similar order was placed on the senate calendar for action later in the day.

## NEW BRUNSWICK GRADUATES AT DALHOUSIE COLLEGE

### Dalhouisians Confer LL. D. ON FIELDING AND E. L. NEWCOMBE

Halifax, N. S., April 27.—(Special)—Among the graduates of Dalhousie College today were the following from New Brunswick:

Bachelor of laws—Ralph Chester Burns, B. A. (Dal.); Milton; George Paget Owen Fenwick, B. A. (U. N. B.); Apoha; John Murray Keefe, Lakesville.

Diplomas of Honor.

Classics—High honors, Alexander David Fraser, awarded (Quebec).

Pure and applied mathematics—Honors, John Alexander Thomas Weatherbee.

Diplomas of General Distinction.

Great distinction—Isabel MacGillivray Grant.

Distinction—Thomas Maxwell Hibbert, Annie Sadie MacKenzie (Quebec).

But Prize—John Robert Mitchell Collier, Master of Arts—marguerite Hattal, Louise Silver, B. A. (By examination in Latin); Charles Guy Black, B. A. (By examination in history and economics, John Shastone Roper, B. A. (By examination in Shakespeare).

Bachelor of Arts—Margaret Irving Ross, St. John; Chester Alan Moore Earl, St. John.

## ANNEXATION TALK "BOSH," SAYS TAFT

### HATTIE LeBLANC'S EVIDENCE HELD-UP IN BOSTON COURT

### Objected to Because of Ruling of the St. John Commissioner

### Mrs. Lillian Glover Listens to Testimony of Brothers of Her Murdered Husband, Which is Aimed at Her, Without Emotion.

Cambridge, Mass., April 27.—Having passed through a similar ordeal several times before, Mrs. Lillian P. Glover, widow of the murdered Waltham laundry man, who made a will in her favor, did not wince today when the testimony in the trial in the supreme court of the appeal from the probate of the will was aimed directly at her.

Three brothers of Glover and a sister-in-law testified that Glover frequently had said that his wife had threatened to shoot him, that his life with her was unhappy, and that he feared her. He also told them, they said, that he had made a will and that they must not mind if it were disappointing to them, for he was compelled to make it that way.

Just before adjournment, the deposition of Miss Hattie LeBlanc, the little French-Canadian girl, who was acquitted on a charge of murdering Clarence Glover, was offered in evidence. On objection of counsel that the commissioner who took the deposition at St. John (N. B.) had excluded pertinent questions, the deposition was held over.

## LANCOT'S CASE DEBATED IN PARLIAMENT

### Majority Report Exonerated Member—Hon. Mr. Avles- worth Contends There Was No Wrongdoing.

Ottawa, April 27.—The commonsense spirit of the whole of today's sitting in a dignified and illuminating discussion of the legal and ethical aspects of the independence of parliament act. The question at issue was as to whether or not Adolphe Lantot, Liberal member for Richelieu, should lose his seat by reason of the facts disclosed before the privileges and elections committee which investigated Mr. Blonfin's charges in reference to the painting of the former's house at Sorel by employees of the government shipyards at Sorel last summer.

The debate followed the introduction of the majority report of the committee by Mr. German, who reviewed the evidence taken and the facts upon which the charge was based. The finding exonerated Mr. Lantot.

The member for Jacques Cartier, Mr. Monk, presented the minority report, declaring that Mr. Lantot had forfeited his seat. While some partisan sentiment cropped up in the discussion, the principles adhered closely to the counsel of the minister of justice, who urged that parliament vindicate its position as the highest court in the realm by dealing with the serious issues before it in a thoughtful and impartial manner and upon their merits.

Sir Alan, dealing with the legal aspect, pointed out that the majority report was justified from the fact that there had been no violation on the part of Mr. Lantot of the independence of parliament act, that the country had been recompensed for all labor and materials supplied, and that the actions of the member for Richelieu had been frank, open and above board throughout.

Judge Doherty, who replied to the minister of justice, concurred in his legal judgment, but maintained that the transaction was ethically wrong.

Dealing with the conclusions of law on the matter, the minister of justice showed from the statute touching the independence of parliament that the only contract with the government forbidden to a member of parliament was one for which any public money was to be paid to the member. It was not the intention of parliament, but the Canadian commissioners did not feel justified in going so far. It is only reasonable to infer, therefore, that with respect to those articles upon which the strongest kind of evidence that if the profitable price at which they could be sold by our manufacturers in Canada was less than the price at which their manufacturers could afford to sell the same either to their own people or to us. Hence it follows that their refusal to agree to free trade in these articles as we proposed, is the strongest kind of evidence that if we should take off the existing duty from such articles coming into the United States it would not affect in the slightest degree the price at which those articles could be furnished to the public here.

Others, however, the proposition to put on the free list for entrance all articles that Canada has declined to make free in both countries would not lower the price to the consumer here.

Democrats Playing Politics.

"And yet, gentlemen insist that the farmer has been unjustly treated, but we have not put Canadian flour and meal on the free list. And it is proposed to satisfy the supposed grievance of the farmers by now doing so without any compensating concession from Canada."

"This proposal would be legislation passed for political platform uses, without accomplishing any real good."

While such reductions on the establishment of a free list would not interfere with the Canadian agreement, the president said, it involved a more serious aspect. Under the interpretation put upon the "favored nation" clause by the law officers of the government, all nations with which the United States have "favored nation" treaties would be entitled to the benefits of the free list.

Besides the proposed gratuitous concessions were in the nature of an admission that an injury to a particular class had been done by the Canadian agreement. "I deny it," said Mr. Taft.

## \$25,000 FIRE IN TRURO YESTERDAY

### Stanfield, Smith & Co.'s Warehouse Badly Damaged —Cigar Stump Thought Re- sponsible.

Truro, April 27.—The fire department was called out this afternoon for a blaze in Stanfield, Smith & Co.'s wholesale shipping and warehouse building, corner of Louise and Prince streets. The fire was confined to the first and second floors, and is supposed to have started from a stub of a cigar.

A member of the firm stated that he was up stairs about five minutes before the alarm was given, and he saw no evidence of fire. Most of the staff were taking stock in the basement. The firemen soon had a number of streams on the blaze, and in a short time was under control. Smoke and water were responsible for most of the loss, which will amount to about \$25,000, and is covered by insurance in a number of different companies.

## HALIFAX FIREMEN HAVE CLOSE CALLS IN \$4,000 FIRE

Halifax, N. S., April 27.—(Special)—A warehouse with its contents consisting of a variety of goods, at the North West Arm, owned by George Brant, was completely destroyed by fire today. The loss is placed at \$4,000, with no insurance.

## WOULD NEUTRALIZE THE PHILIPPINES

### Resolution in Congress to Place Islands Under Protection of the World Powers.

Washington, April 27.—Representative Sabath, of Illinois, today introduced a resolution providing for the neutralization of the Philippine Islands, which will be considered by the house committee on insular affairs.

The resolution directs the president to take steps to secure an international guarantee whereby the islands shall be forever neutralized and placed under the protection of the world powers.

# FROM ALL OVER THE MARITIME PROVINCES

## MONCTON

Moncton, N. B., April 28.—As the result of a sharp trick played on a Campbell man who arrived in the city this morning and in search of whiskey, Ned Armstrong was arrested in the police court charged with theft. He was convicted and sentenced to three months in jail. Armstrong was given money to purchase liquor but instead of getting the bottle he disappeared with the cash. The party complaining was Frank Doucet and Armstrong was hunted up by the police. As the amount was small the magistrate apparently took this into consideration and allowed the sentence to stand.

A lad named Dan Leighton was arrested on a charge of stealing copper from the warehouse of Harry Ross. The police found the property in a pool room and Leighton was convicted and sent to jail for three months.

Fred LeBlanc, who conducts a place on Lower Lotz street, was convicted of a violation of the liquor law and fined \$50. A short time ago LeBlanc's place was raided and thirty bottles of whiskey found. With his conviction today the whole of the liquor was poured into the sewer.

The smallest situation at Fox Creek and Paines Road is reported to be improving as a result of more stringent quarantine regulations being enforced by the county board of health. There are still many cases and at least eight or ten houses under quarantine. The schools at Fox Creek and Paines Road still remain closed. The disease is of a mild type and no deaths are reported. No new cases have appeared in Moncton.

At a meeting of the water and light committee tonight the first step was taken towards the construction of a new reservoir for Moncton's increased water supply. Orders were given to call for tenders in clearing a site for the dam which will be located three or four miles from the city. The city will spend about \$250,000 in the construction of a new reservoir and installation of the system.

Moncton, April 28.—Prince Albert Lodge, I. O. G. T., tonight fittingly celebrated the 22nd anniversary of Oddfellows. After the lodge session a short musical program was carried out, after which a social hour was spent around the festive board.

Judge Wells arrived home this evening from Bermuda, where he spent the last six weeks. He reports unusually cold weather in Bermuda during his trip.

Roy Mills, son of David Mills, will leave Friday next on a trip to Europe and will take in the coronation.

Navigation between Summerside and Point du Chêne, the summer route between the Island and mainland, is expected to open tomorrow. The steamer Northumberland will start the run and the Empress, it is stated, will be sent to Halifax for dock for repairs before taking the route. The Northumberland is expected at the Point Thursday morning. The ice has been out of Point du Chêne harbor some time.

Three accidents of a minor character, except one, occurred in the I. C. R. yards today. Bruce Nodden, machinist in the hoppers shop, was struck in the eye by a piece of flying steel and it is feared the injury may prove serious. Whether the sight of the eye will be destroyed the medical attendant cannot yet determine. V. C. Fowler, an apprentice in the same shop, had his hand caught in a planer and painfully lacerated. Donald Malcolm, a machinist in the round house, was struck in the eye by a piece of flying steel but the injury is not serious.

Moncton, N. B., April 28.—The annual

## FEEDING BRAINS

**Why Studious Children Always Crave Oatmeal**

Nature gives oats more organic phosphorus than to any other grain she grows. And phosphorus is the brain's main constituent. Brains can't grow, brains can't work without phosphorus.

Oats also contain more lecithin—the nerve food—than any other grain. They form our greatest energy food.

That's why growing children love oatmeal. Some instinct within them calls for these elements, and one to still make them doesn't get all it wants.

The right oats for food are the rich, plump grains. In the coldest parts there are but ten pounds to the bushel. In making Quaker Oats these choice grains are selected by 65 separate siftings.

Quaker Oats—just the cream of the oats—costs but one-half cent per dish. One dish is worth two dishes of any other oatmeal. Don't you think it would pay to serve your children such oats?

Made in Canada. (12)

**Buy Direct from The Bon-Ton Factory**

The following short descriptions of the articles illustrated give only a faint idea of the values offered in the Bon-Ton Catalogue.

- 440—Tailor-made suit of excellent quality. All-wool, stylish and becoming. The coat is semi-fitting, both front and back, about 34 inches long. Stylish notched collar, trimmed with fancy silk braid. Front displays an entirely new cut, attractively finished with satin, silk and serge buttons. Lined throughout with good quality silk lining. Narrow band of white flange, as vest at collar and cuffs. The skirt, cut in the new six-gored model, fits smoothly over the hips, two side pleats on either side of the waist. Excellent value at \$14.95
- 441—Child's romper, made of Chambray in light of dark blue. Low square neck, pocket at waist, buttoned at back. Size 1 to 6 years. \$5.00

Buy your Spring and Summer garments economically by our catalogue, but you will have the very newest styles. No matter how small your purchases, we pay shipping charges on all articles bought from us. Every article offered in our catalogue is guaranteed. If it does not in every way come up to your expectations, return it and we will not only refund your money but pay all postage and express charges both ways.

Can we do more to prove our faith in our ability to please you. If you have not already received a copy of the Bon-Ton Catalogue, write for it now. It is a guide to the newest and most stylish in women's and children's clothing.

THE BON-TON CO., 434 St. Joseph St., QUEBEC, P. Q.

## "I COULD NOT LIVE" WITHOUT "FRUIT-A-TIVES"

Writes the Treasurer of Caledonia Township

Feagvale, Ont., Jan. 26th, 1910.

For thirty-five years (and I am now a man over seventy) I have been a terrible sufferer from constipation.

No matter what remedy or physician I employed, the result was always the same—impossible to get a cure.

About two years ago, I read the testimonial of Hon. John Costigan regarding "Fruit-a-tives" and I decided to give this fruit medicine a trial. I have used "Fruit-a-tives" ever since. They are the first and only medicine that suited my case. If it were not for "Fruit-a-tives" I am satisfied that I could not live.

The liver controls the bowels by giving up enough bile to make the bowels move. The only possible way to cure constipation is to make the liver active and healthy and thus store up sufficient bile to move the bowels.

"Fruit-a-tives" acts directly on the liver—stimulates an abundance of bile—and causes the bowels to move regularly and naturally. 50c a box, 6 for \$2.50, trial size, 25c a box, or from Fruit-a-tives Limited, Ottawa.

## ALMA

Alma, April 23.—Fred Rommel, bookkeeper for Donald Fraser at Bonanza Cabano (Que.), is home spending the Easter holidays.

Herman Dixon has gone to St. Paul (Minn.).

Misses Florence Snell and Clara MacDonald, of Acadia Seminary, are spending a few days here with their parents.

## MORE TROUBLES FOR THE SALISBURY & HARVEY ROAD

Hopewell Hill, April 23.—At a meeting of the proprietors of the Hill Dyke division of the Shepody marsh, on Thursday evening, it was decided to proceed at once with the rebuilding of the Badegon Creek abutment, which was put in last year jointly by the marsh people and the railway, and unfortunately destroyed by the tidal waves during the winter. Work will be begun on Monday. The cost will amount to several hundred dollars.

Teams that drive from Albert to Daniels Station daily to meet the R. & A. train had to go two miles further yesterday afternoon to get the passengers and mails, the train getting off the track about Montville crossing and being unable to get down to Daniels. On account of there being no way of turning at the temporary terminus, the train backs down from Hillsborough, thirteen miles, and yesterday the engine and tender got badly off the rails on the down trip, so that the run could not be completed last night.

Quite a number of cases of scarlatina are reported at Lower Cape, several families being affected. One adult has the malady, which is mostly among the children. Dr. Lewis has been attending.

## TRAGIC DEATH OF LITTLE GIRL

Ten-Year-Old Child of Thos. S. Taylor, North River, Fatally Burned

BRUSH FIRE DID IT

Victim's Clothes Caught and She Ran Towards Home With Garments Ablaze—Mother Too Late to Save Her—Walter B. Henry of Scott Road Dead.

Salisbury, N. B., April 24.—A terrible fatality occurred at North River a few miles north of this village, Monday evening, by which the ten-year-old daughter of Thos. S. Taylor lost her life.

It appears that Mr. Taylor's neighbor was burning off some heaps of brush and old fence poles and the little girl and her younger brother went over to watch the fire, and by some means or other the little girl's clothing ignited.

Her screams attracted the attention of Mrs. Taylor, but she was unable to get to her in time to save her. She was so badly burned that she died in a few minutes.

Dr. Jones was summoned from this village but nothing could be done for the child and she died about 2 o'clock this morning. The father of the unfortunate little girl is a brother of G. A. Taylor, secretary of the municipality of Westmorland.

It was learned with much regret here this afternoon that Walter B. Henry, J. P., of Scott Road died this morning of pneumonia. The late Mr. Henry's son, J. Stewart Henry, principal of the school at Surrey, is also at home ill with pneumonia. Mr. Henry was about 66 years old and one of the most prominent men in Salisbury. He is survived by his wife, who was a daughter of the late John Stewart, of St. John, and a large family, including a Methodist in religion and a Liberal in politics.

## WOMAN TELLS SAD STORY OF HER LIFE IN WEST

Came Here, She Says, With Youngest Child After Husband Ordered Her to Leave.

Wednesday, April 26.

In a boarding house in Peters street there is staying a woman with a year old baby whose story of wedded unhappiness and alleged cruel desertion by her husband is very sad. Some years ago this woman, then only about twenty years of age, left her home in London to go out to service in the Canadian west. Five years ago she met and wedded a horse trader in the vicinity of Calgary and two children were born to the couple.

Their life was not a happy one, however, and the woman tells a sad story of abuse and neglect. Her husband's parents, she says, sided with him against her, although her husband had taken a dislike to her for no apparent reason, and, try as she would, she was not able to retain his affections. Some weeks ago, she says, he suggested that she should go home to her people in London and never return. He bought her a ticket through by steamer via St. John and tried to take the lady and leave with him the two-year-old boy. Discouraged by her husband's coldness and the loneliness of a strange land, a few days ago in time to take the last C. P. R. steamer. On the journey, however, the mother's heart cried out for the child left behind in the west and not caring to face her father as an abandoned wife with a babe in arms, she decided she would return to claim her other child and make her own way in it, likely that she should. She refused to take the steamer and has made every effort to have the steamer ticket to England changed to a return railway ticket to Calgary. Last night all her hopes were dashed to the ground when she was told definitely by the C. P. R. officials that the ticket could not be changed and it is likely that she will leave here on the Empress of Britain on Friday.

If a garment is faded and one wishes to bleach it white, boil it in water to which a good amount of cream of tartar is added.

## ALBERT COUNTY PEOPLE AROUSED

Prominent Residents Hold Indignation Meeting Over Railway's Proposals

CALL IT AN OUTRAGE

Ex-Governor McClellan Tells of the People's Contribution of \$70,000 to the Road That is Now Threatening to Be Sent Railway Resolution.

Hopewell Hill, April 23.—That the action of the Salisbury & Albert Railway Company in proposing to close down the lower portion of the road, between Hillsboro and Albert, after May 1 is meeting with the strong disapproval of the people of this section of the county was shown in a unanimous manner tonight, when a largely attended indignation meeting was held at Albert to make emphatic and public protest against what the people consider would be a grave injustice to the citizens of Albert, Hopewell Hill and other localities, should such proposal take effect and the train service in that section be stopped.

The meeting was held in the hall of the Hill and other localities, should such proposal take effect and the train service in that section be stopped.

The meeting was held in the hall of the Hill and other localities, should such proposal take effect and the train service in that section be stopped.

## TRAGIC DEATH OF LITTLE GIRL

Ten-Year-Old Child of Thos. S. Taylor, North River, Fatally Burned

BRUSH FIRE DID IT

Victim's Clothes Caught and She Ran Towards Home With Garments Ablaze—Mother Too Late to Save Her—Walter B. Henry of Scott Road Dead.

He bought her a ticket through by steamer via St. John and tried to take the lady and leave with him the two-year-old boy. Discouraged by her husband's coldness and the loneliness of a strange land, a few days ago in time to take the last C. P. R. steamer. On the journey, however, the mother's heart cried out for the child left behind in the west and not caring to face her father as an abandoned wife with a babe in arms, she decided she would return to claim her other child and make her own way in it, likely that she should. She refused to take the steamer and has made every effort to have the steamer ticket to England changed to a return railway ticket to Calgary. Last night all her hopes were dashed to the ground when she was told definitely by the C. P. R. officials that the ticket could not be changed and it is likely that she will leave here on the Empress of Britain on Friday.

If a garment is faded and one wishes to bleach it white, boil it in water to which a good amount of cream of tartar is added.

## SAVES Down and Tangled Grain

On the Deering Binders the guards are placed so that the machine can be tilted to cut close to the ground without pushing trash ahead of the knife.

This is why you can make a 100% harvest with a Deering Binder. The reel can easily be adjusted high, low, forward, or backward, to save grain in all conditions—short, tall, standing, down, or tangled. It can be shifted quickly to push very short grain and green undergrowth from the guards to the platform canvas, saving the time and annoyance of stopping frequently to clean the guards.

The Deering third packer, reaches up close to the elevator and pulls the grain down to the other two packers, preventing the grain from lodging there. The shape of the needles and breastplate is such that straws are not pulled through to the bill hook. This also prevents clogging at this point.

There are many other features of Deering Binders which you ought to know about. The Deering hay-making machines and tools are worth your consideration. Write for a list of agents in your town.

If you prefer, write direct to nearest branch office for catalogue.

## THIS MAN IS YOUNG AT 55 YEARS

He is a "Health Belt Man." Therefore Has the Vitality and Hot, Red Blood of Youth in His Veins. He Towers Like a Giant Above the Ordinary Difficulties of Life.—Be a "Health Belt Man" Yourself—It Gives Manly Strength; It Makes You Young and Keeps You Young All the Days of Your Life; It Takes All the Coward Out of Your Make-Up—Let Me Give You of This Abundant Vitality, Then Nothing Can Ever Conquer You But Death Itself—100,000 Men Have Taken My Advice, Why Not You?

The secret of life-long youth may be gummied up in one word—Vitality. If you have this great natural power in abundance years count for nothing. I use no drugs. I recommend none. Just the Health Belt. No privations, no dieting and no restrictions, excepting that all dissipation must cease. Put the Health Belt on nights when you go to bed; let it send its power into your nerves, organs and blood while you are sleeping. It gives you a great flow of soft, gentle, galvanic-vital electricity during the entire night. One application and you are like a new being; it takes all the pain and weakness out of your back; it makes you answer the morning greeting with "I'm feeling fine." It is a great strength-giver; it overcomes the results of earlier mistakes and indiscretions; it gives you the power, so that you are attractive to all women and men who come in contact. Three months' use is sufficient. Salem Cohen, H. N. S., writes: "I am a man again, thanks to you. Nothing can ever conquer me now."

This is one among tens of thousands.

I TAKE ALL THE RISK

All I want is a chance to prove to you the truth of my claims, or call at my office, and you can arrange to get the Belt and pay for it. If not cured, send it back. If you prefer to pay cash down discount.

Let Me Send You Two Books FREE

They fully describe my Belt, and contain much valuable information. One is called "The Nature of Man," and deals with the common ailments of both men and women, such as rheumatism, kidney, liver, stomach, bladder disorders, etc. The other, "Strength the Glory of Man," is a private treatise for men only. Both sent upon application, free, sealed, by mail.

If in or near this city, take the time to drop in at my office that you may see, examine and try the Belt. If you cannot call, fill in the coupon and get the booklets by return mail. They are better than a fortune for any one needing new vigor.

Authorized Agent The following agent is authorized to canvass and collect for The Semi-Weekly Telegraph, viz: W. M. SOMERVILLE.

THE DAILY TELEGRAPH THE SEMI-WEEKLY TELEGRAPH THE EVENING TIMES New Brunswick's independent newspapers. These newspapers advocate British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion. No graft. No deals!

Semi-Weekly Telegraph and The News ST. JOHN, N. B., APRIL 29, 1911.

THE PREVENTION OF CRIME The causes of crime are exceedingly complex, and some of them very remote—so remote as to be beyond our control.

FINANCING THE ANTI-RECIPROCIITY CAMPAIGN Some light on the methods pursued by the Canadian interests that are opposing the proposed trade agreement is to be found in a circular letter recently issued by the editor-in-chief of the Canadian Century, Mr. Watson Griffin.

DRESS REFORM

The wearing of a harem skirt in State street, Chicago, has caused a riot which is described as second only to the rioting of twenty-five years ago when 40,000 men struck, four anarchists were hanged for murder, and others were imprisoned for long terms.

Good taste is a very delicate and refined philosophy of action, and it escapes from any attempt to formulate or define it. It floats in the ways of the group, and is absorbed by those who grow up in it.

The opposition to the harem skirt proves nothing as to the superior utility of the form it would displace. In fact the new skirt may be due to motives of utility and convenience. It is quite possible that it is an evolution in that direction.

FINANCING THE ANTI-RECIPROCIITY CAMPAIGN

Some light on the methods pursued by the Canadian interests that are opposing the proposed trade agreement is to be found in a circular letter recently issued by the editor-in-chief of the Canadian Century, Mr. Watson Griffin.

Dear Sir: It may interest you to know that during the last seven weeks the editor-in-chief of the Canadian Century against reciprocity have been regularly reproduced in over four hundred rural weekly newspapers, so that they have been read by a large proportion of our farming population.

Who pays for the protectionist editorials written by Mr. Griffin reproduced in "more than four hundred rural weekly newspapers"? The explanation is to be found in Mr. Griffin's final paragraph in which he says: "The Century will continue to advocate thorough tariff protection for all Canadian industries and an individual preference" for some. Mr. Griffin does not tell us what he means by "thorough tariff protection," but presumably it is an advance upon Mr. Borden's "adequate protection," and is identical with the tariff "as high as Haman's gallows" which is the favorite plank of the inner ring of the Conservative party.

One former is worth a hundred reformers. Prevention is easier and better than curing. With the growth of intelligence, financial and commercial questions are falling into the background, and questions of human welfare and social morality are coming into the foreground.

A REFUGE OF LIES

An extraordinary pamphlet, purporting to be a speech by Mr. Champ Clark in Missouri, is being circulated among the farmers of Ontario. It is printed in red ink and contains the most lurid of statements that Mr. Clark is represented as making regarding the annexation of Canada.

The great tide of those Gothic nations, of which the Norwegian and the German are the purest remaining types, through every nation of Europe, from Gibraltar to St. Petersburg, owes to them the most precious element of strength, was sweeping onward, waves of a steady, steady, steady current, across the Roman territory, and only stopping and receding when it reached the shores of the Mediterranean.

There is to be a conference at Ottawa this week between the Dominion and Provincial governments in regard to the St. John Valley Railway. It looks more and more as though Mr. Hazen would decide not to take advantage of the chance to have the Valley road leased and operated by the Intercolonial.

NOTE AND COMMENT

Former U. S. Senator Beveridge of Indiana, who has been enjoying a trip over the Intercolonial, says it is as good a railroad as can be found in America, equal even to the famous Pennsylvania.

These were better men than the Romans, who despised them for barbarians. Their coming was irresistible. Numerous as they were, they could have been but few compared with China's population of today; and it would be strange if their fighting efficiency was any higher than that of the Japanese in our day.

A JUVENILE

As a proof that it is better to prevent crime than to cure it, the statement is made that it costs the State of New York nearly \$700 annually to maintain each individual dependent upon it, while the George Junior Republic in the state for the treatment of juvenile delinquency costs a boy or girl for life at a cost of from \$250 to \$300 annually.

HYPATHIA AND THE "YELLOW PERIL"

Is there a "Yellow Peril"? Is the yellow man a menace from the standpoint of our generation? Mr. Frederic Campbell's address on "The Awakening of Asia" gave his hearers a new and most intimate sense of the power, yet but half conscious, of the Far East.

THE SEMI-WEEKLY TELEGRAPH

possible. The earth's girde is no longer 24,000 miles in the sense the figures implied one hundred years ago, or fifty, or even ten. We have seen a Japanese general handling an army of half a million men in a great war, and certainly the captains of older military nations went to school to him.

It is a wholly voluntary institution, and receives no state aid. The institution is entirely free from debt and the capital for its equipment and endowment has been contributed by citizens who know the immense good being done within its bounds.

There are an enormous class of persons in our modern cities who are delinquent, intemperate, criminal or in other ways unfit, and men are beginning to ask seriously if this is necessary. We are no longer able to charge these things up to the sovereign and inscrutable decrees of God or the mysterious operations of nature.

NOTE AND COMMENT

Former U. S. Senator Beveridge of Indiana, who has been enjoying a trip over the Intercolonial, says it is as good a railroad as can be found in America, equal even to the famous Pennsylvania.

These were better men than the Romans, who despised them for barbarians. Their coming was irresistible. Numerous as they were, they could have been but few compared with China's population of today; and it would be strange if their fighting efficiency was any higher than that of the Japanese in our day.

As a proof that it is better to prevent crime than to cure it, the statement is made that it costs the State of New York nearly \$700 annually to maintain each individual dependent upon it, while the George Junior Republic in the state for the treatment of juvenile delinquency costs a boy or girl for life at a cost of from \$250 to \$300 annually.

HYPATHIA AND THE "YELLOW PERIL"

Is there a "Yellow Peril"? Is the yellow man a menace from the standpoint of our generation? Mr. Frederic Campbell's address on "The Awakening of Asia" gave his hearers a new and most intimate sense of the power, yet but half conscious, of the Far East.

THE SEMI-WEEKLY TELEGRAPH

possible. The earth's girde is no longer 24,000 miles in the sense the figures implied one hundred years ago, or fifty, or even ten. We have seen a Japanese general handling an army of half a million men in a great war, and certainly the captains of older military nations went to school to him.

It is a wholly voluntary institution, and receives no state aid. The institution is entirely free from debt and the capital for its equipment and endowment has been contributed by citizens who know the immense good being done within its bounds.

There are an enormous class of persons in our modern cities who are delinquent, intemperate, criminal or in other ways unfit, and men are beginning to ask seriously if this is necessary. We are no longer able to charge these things up to the sovereign and inscrutable decrees of God or the mysterious operations of nature.

NOTE AND COMMENT

Former U. S. Senator Beveridge of Indiana, who has been enjoying a trip over the Intercolonial, says it is as good a railroad as can be found in America, equal even to the famous Pennsylvania.

These were better men than the Romans, who despised them for barbarians. Their coming was irresistible. Numerous as they were, they could have been but few compared with China's population of today; and it would be strange if their fighting efficiency was any higher than that of the Japanese in our day.

A JUVENILE

As a proof that it is better to prevent crime than to cure it, the statement is made that it costs the State of New York nearly \$700 annually to maintain each individual dependent upon it, while the George Junior Republic in the state for the treatment of juvenile delinquency costs a boy or girl for life at a cost of from \$250 to \$300 annually.

# COULDER HEADS IN DYMA CASE

## Detectives Held for Kidnapping

## Burns and Assistants Put Under Heavy Bail Bonds

## Labor Leaders Declare the Whole Case Against McNamara is Result of Conspiracy to Break Up Union—Call Explosives Found a "Plant."

Indianapolis, Ind., April 25—Detective William J. Burns tonight was served with a warrant charging him with complicity in the alleged kidnapping of A. J. McNamara, secretary and treasurer of the International Association of Bridge and Structural Iron Workers, said to be implicated in the Los Angeles explosion. Three lawyers were arraigned today on the same charge and they spent two hours in jail because of delay in obtaining bonds for them. They are Walter Drew, J. A. Bodor, and New York counsel and assistant for the National Erectors Association, and W. Joseph Ford, assistant district attorney of Los Angeles.

Burns was arrested in a street car as he was going to the court of Justice of the Peace Manning to surrender himself. Constables had searched for him all day. He was released under \$10,000 bond to appear before the grand jury.

The hotel at which Drew, Ford, Bodor and Burns and his operatives have been staying was searched for Burns by constables who seemed bent on going every corner, until the hotel management declared they should not intrude on guests.

## Unions Will Unite in Defence.

After a secret conference of the National officers of several labor organizations today it was announced that definite plans are to be made for the assistance of Burns and his associates in their defence in defending itself and its secretary, J. J. McNamara.

Five witnesses were examined by the grand jury during the day. Superintendent of Police Holt and Captain of Detectives Hartz were the first summoned, and it is intimated that the grand jury purposes to learn if the police officers and Police Judge Conroy were in any way connected with the arrest of McNamara.

Attorney W. C. Appleman was the next witness called, probably for the purpose of showing the grand jury that McNamara, C. Dye, formerly private secretary to McNamara. According to the attorney, the claim in forcing the payment of a legal claim of \$300 against McNamara, told Appleman that she had important information about McNamara and the iron workers organization which McNamara would not like to have known. The claim, according to Appleman was paid.

## Burns' Long Chase.

Chicago, April 24—William J. Burns, the detective who was instrumental in bringing the Los Angeles gang under control, his brother, James W. McNamara, and Otis E. McManis, said that his agency had the evidence to show that the Los Angeles gang had a property ranging in value from \$300,000 to \$500,000 in the last two years and that they would not be able to prove that they were guilty of not fewer than eight mysterious explosions.

"We have known for six months the men responsible for these outrages, but we had to get them with the goods, and that is what happened," he said. "They put over two explosions about two months ago. One was in Chicago at the Illinois Iron Works and the other in Milwaukee, where \$200,000 damage was done to a coal-hoisting plant under construction by open-shop men for the Hyde & Patterson Construction Company of Pittsburgh. Their job at Peoria last September, where they blew two girders out of a bridge built by the McClintic Marshall Construction Company, was so nearly a counterpart of the Times job with the same material and the same men that we can state from the start that both jobs were the work of the same gang. Our investigation has proved this to be a fact.

"In Los Angeles we got some of their clocks which were placed at the scenes of attempted outrages against the publisher of the Times and the other citizens. We got the same clocks at Peoria, where the bridge explosion took place. We found their counterparts in the suit-cases captured with the pair in Detroit. The strongest evidence either of the men arrested in Detroit, gave any reason for their arrest, was the trip to Chicago, when McNamara said: 'This is all a stall; you want us for the Los Angeles explosion.' That was sufficient to show where they stood," said Mr. Burns. "We had said a word about the Los Angeles business to them until then and had told them in fact that they were arrested for a safe-blowing job in Chicago the Saturday night before. We knew they would come back to the city without extradition on that charge, for our men had followed McNamara on the Saturday night in question, and he had spent the evening down town with his family. With the certainty that he could prove this all was sure he would offer no objection to coming back to Chicago. Both men signed the extradition waiver as we expected and were not wise to the real cause of their arrest until it happened to strike them on the way to this city, when McNamara made the Los Angeles statement without any prompting except that of his own conscience. We have trailed the pair for six months with out being able to get them together in the act of pulling off a job until we got them in Detroit, where they were preparing to blow up new terminals and five bridges under construction.

The internal machines found in the prisoners' baggage, the police say, are similar in every detail of construction to those found near the residence of Secretary J. J. Zochendler, of the Merchants & Manufacturers Association of Los Angeles, a few hours after the Times building explosion. They are also similar to internal machines found near the scenes of explo-

# WARM DEBATE OVER EIGHT-HOUR BILL

## Bowell Leads the Attack

## Declares Public Works Contracts Should Not Be Singled Out, and That Long Hours Don't Hurt Laborers—Surprised at Government Endorsing the Measure.

Ottawa, April 26—The length of time a man should work a day engaged the attention of the senate and brought out most opposite opinion today. The question could not be settled after three hours argument, and will have to be taken up again.

"It is not difficult for capital to find things which will commit crimes that later fastened on the shoulders of honest men. I tell you these dynamites that have been occurring all over the country during the past year are only a part of a plot that capital has framed, in a last desperate effort to crush labor unions.

"But if money will buy tools it will also buy the lawyers and labor will see that the McNamara and any others who may be arrested with them have the best talent in the country to defend them."

## Burns is Confidant.

Columbus, O., April 25—Detective W. J. Burns, who was in Columbus for an hour last night en route to Indianapolis, divulged some of the evidence on which he bases his charges against McNamara and his brothers and O. E. McManis were connected with the dynamite outrages in Los Angeles.

Burns said he learned that James McNamara was in Los Angeles at the time of the explosion; in fact, had been there for several days prior to the disaster.

"When J. W. McNamara reaches Los Angeles this week he will be identified with McNamara, who was in a room of the Grand Pacific Hotel, and who used the alias of J. B. Bryce at the time," said Burns.

"We have learned that McNamara (J. W.), was in the pay of J. J. McNamara, secretary of the Iron Workers' Association, during the time that he was in Los Angeles and we have also proof that McNamara was in the pay of the secretary."

"McManis also will be identified by persons in Los Angeles who can furnish proof that he was the man who did the work," said Burns.

Los Angeles, Cal., April 26—James W. McNamara and Otis E. McManis were brought here at 2:35 p. m. and placed in the county jail. There was no demonstration.

John J. McNamara arrived at the jail five minutes later. He had been brought by automobile from Raymond station. District Attorney Frederick stated today that McNamara and McManis had correspondence with John J. McNamara, the secretary of the Iron Workers' Association in Indianapolis, and a watch was set on them.

On April 11 last twelve junks were arrested in Toledo, Ohio, for bank breaking. This was the cue for Raymond J. Burns, son of William J. to arrest McNamara and McManis. They were arrested at two John Doe warrants. The pair were leaving their hotel in the evening with a dress suit case filled with dynamite and other explosives. Burns and McManis were charged with conspiring to take the two men to Chicago without giving notice of the real cause for the arrest. Burns wanted to get them to Chicago before the police could get to them. He was going to that city with the requisition papers from Governor Johnson of California, made out on the governor of Illinois, which were worth \$20,000, and held until Burns was ready to arrest the other McNamara in Indianapolis last Saturday.

After his two months incognito Burns returned to his home and attended to other matters, unless the dynamite case happened to show any important turn. He had made his theories and was only waiting to get evidence against his men. He had proved in the last two years and that they would not be able to prove that they were guilty of not fewer than eight mysterious explosions.

"We have known for six months the men responsible for these outrages, but we had to get them with the goods, and that is what happened," he said. "They put over two explosions about two months ago. One was in Chicago at the Illinois Iron Works and the other in Milwaukee, where \$200,000 damage was done to a coal-hoisting plant under construction by open-shop men for the Hyde & Patterson Construction Company of Pittsburgh. Their job at Peoria last September, where they blew two girders out of a bridge built by the McClintic Marshall Construction Company, was so nearly a counterpart of the Times job with the same material and the same men that we can state from the start that both jobs were the work of the same gang. Our investigation has proved this to be a fact.

"In Los Angeles we got some of their clocks which were placed at the scenes of attempted outrages against the publisher of the Times and the other citizens. We got the same clocks at Peoria, where the bridge explosion took place. We found their counterparts in the suit-cases captured with the pair in Detroit. The strongest evidence either of the men arrested in Detroit, gave any reason for their arrest, was the trip to Chicago, when McNamara said: 'This is all a stall; you want us for the Los Angeles explosion.' That was sufficient to show where they stood," said Mr. Burns. "We had said a word about the Los Angeles business to them until then and had told them in fact that they were arrested for a safe-blowing job in Chicago the Saturday night before. We knew they would come back to the city without extradition on that charge, for our men had followed McNamara on the Saturday night in question, and he had spent the evening down town with his family. With the certainty that he could prove this all was sure he would offer no objection to coming back to Chicago. Zochendler, of the Merchants & Manufacturers Association of Los Angeles, a few hours after the Times building explosion. They are also similar to internal machines found near the scenes of explo-

## Nation-wide Conspiracy?

Chicago, April 25—A sweeping investigation for the purpose of establishing the men higher up in the alleged union labor conspiracy which is said to have resulted in the dynamiting of the Los Angeles Times plant and other of their buildings, is being conducted by the Chicago police.

Chicago detectives joined with government agents in the effort to solve what is believed to be a nationwide plot to terrorize and intimidate non-union men in every city of importance in the United States.

With the arrest of three of the alleged conspirators and the partial confession of one of them, the government is said to have a lead on the men who are believed to be the masterminds of the plot, and to have a list of their names.

This offer aroused the suspicion of government authorities, who began the task of tracing the enormous fund to its fountain head.

The series of explosions led to the conspirators, which resulted in property losses of millions of dollars, was an expensive business, and the officers believe men higher up furnished the "war fund."

"The plot to blow up the Los Angeles Times building was hatched in Chicago, in a prominent downtown hotel between a police leader well known to the Pacific Coast and Matt Schmidt," said a central station detective detailed on the investigation.

"Schmidt was a former roommate of the man whose name has not been made public, but who is being trailed by private detectives," said the detective.

"Evidence in possession of the Burns Detective Agency shows that the Pacific coast labor leader came to Chicago a month before the Times building was blown up with charts and photographs of the plant and displayed them to Schmidt."

The men met nightly in the headquarters of a certain labor union in Washington street and then engaged a room in a downtown hotel, where the plot to blow up the Times building was hatched.

The arrest of the labor leaders will follow the capture of Schmidt."

Information was received today by Capt. Wood of the central station that Schmidt, who before his disappearance from Chicago was a frequent visitor at a Randolph street saloon where politicians and labor leaders held secret conferences, was seen in the place a few weeks ago. Detectives were detailed to watch the saloon.

## \$250,000 to Defend McNamara.

Denver, Col., April 24—The Western Federation of Miners stands ready to levy an assessment of \$5 upon each of 50,000 members as a defence fund for secretary J. J. McNamara, the Structural Iron Workers' Union. This statement was made today by Charles H. Moyer, president of the Western Federation of Miners.

"I consider the entire affair a frame-up, similar to the one I and my associates were victims of some years ago in connection with the death of former Governor Steunberger of Idaho. The arrest of McNamara shows on its face that it was a frame-up. He was treated exactly as we were. He was not given a single shot either by the governor of Indiana or the courts of Marion County. The charge that dynamite was kept by McNamara in the headquarters of his organization is silly, if he was in the blowing up business he would have too much sense to keep dynamite around the headquarters. It is very easy to hire 'Orchards' to plant dynamite where the detectives who paid them to do it can find it."

"The person instrumental in McNamara's arrest will have to produce good evidence to show why he wanted to blow up the Los Angeles Times building, which is a charge that McNamara made the Los Angeles statement without any prompting except that of his own conscience. We have trailed the pair for six months with out being able to get them together in the act of pulling off a job until we got them in Detroit, where they were preparing to blow up new terminals and five bridges under construction.

The internal machines found in the prisoners' baggage, the police say, are similar in every detail of construction to those found near the residence of Secretary J. J. Zochendler, of the Merchants & Manufacturers Association of Los Angeles, a few hours after the Times building explosion. They are also similar to internal machines found near the scenes of explo-

## Rev. Father Morrissey

Why Not Get Rid of That Catarrh?

There are few people in this extreme and changeable climate who have not at least a touch of nasal catarrh. Yet because in itself it is not very dangerous most people put up with it, in its first stages, as a matter of course, till some day they wake up to the fact that the trouble has crept down to the lungs, or perhaps, through swallowing the phlegm, to the stomach.

In this way, catarrh is most disagreeable to oneself and others.

**Father Morrissey's No. 26**

is a combined internal and external treatment that has cured, and will cure, the most stubborn cases.

The tablets, taken three or four times a day, purify the blood and help to throw off the disease, while the antiseptic, healing saline, applied up the nostrils, cleanses the diseased parts, heals, and completes the cure.

Now is the very best time to get No. 26 and start to get rid of that catarrh.

Combined treatment so at your dealer's. 110

Father Morrissey Medicine Co., Ltd., MONTREAL, QUE.

# LAURIER TO ALLAY TORY ANXIETY

## To Make Statement About His Plans

## Assures Monk He Hasn't Forgotten About the Coronation

## Nationalist Ally of Borden Very Anxious That Premier Should Carry Parliament's Message to His Majesty—Copyright Bill Given First Reading.

Ottawa, April 26—It fell to the Nationalist leader in the commons today to call parliament's attention to the position of Canada in connection with the forthcoming coronation of George V. The Nationalist Conservative opposition is engaged otherwise. According to the official statement issued at the close of its caucus this morning, it is planning a "fight to the bitter end," which will prevent (unless representation at either the imperial conference or the coronation.)

Mr. Monk directed his comments to the published plans of the prime minister to leave on May 12 for England to attend the imperial conference and the coronation. It would be, the member for Jacques Cartier suggested, a loyal and patriotic thing, in accordance with custom, for the Canadian parliament to pass an address to his majesty on that occasion. He asked if it would not be well to have the address conveyed by the prime minister and his colleagues. In view of the fact that the address should be suitably expressed, and that the time was now growing short, he called attention to the matter, and asked the prime minister to give the address to the imperial conference.

Sir Wilfrid Laurier said the matter had not escaped his attention. As a matter of fact, he had given instructions to have the address prepared in such cases looked upon as Canadian action might be based thereon. He expected to be in a position to make an announcement at an early date.

## Copyright Bill.

Hon. Sydney Fisher secured the first reading of new government copyright act, providing for the protection in Canada of literary, dramatic, musical and artistic works, the fees to be paid for registration, the penalties for infringement and the prohibition of the importation of reprints of copyrighted works.

The bill was based upon the results and was in conformity with that of Great Britain, which was adopted by the British parliament, and also by other British overseas dominions. The new provision was made for the sake of the imperial uniformity and to provide the machinery for copyright protection of the empire.

The provisions will affect all subjects of his majesty and bona fide residents in his dominions who reside in Canada or the subject is produced in his majesty's dominions. All kinds of copyrights will be grouped together and a criminal penalty incorporated to protect literary, dramatic and musical productions as well as literary and artistic productions. The protection of the copyright act would extend during the life time of the author and fifty years thereafter.

Mr. Borden asked if the proposed act established Canadian copyright legislation on practically the same lines as that of Great Britain and the other overseas dominions.

Mr. Fisher replied in the affirmative. He also explained that a United States copyright act, which was passed in the year in Canada, would secure the advantages of the act.

The new bill was given its first reading.

## Balloon Best Railway Time.

Dusseldorf, Germany, April 25—The dirigible, which was built by the Zeppelin company, made a flight today from Aachen to Chapelle in a time of 58 minutes. The fastest express train covers the distance in 89 minutes.

## FATAL ROW AT LABOR MEETING AT GLACE BAY

Halifax, N. S., April 27—A shocking tragedy occurred at Glace Bay last night near the close of a labor meeting and resulted in the shooting of William Bryant, a miner and Michael Murphy, a cooper, both of whom were in the hospital with their wounds in an abandoned and not expected to recover.

The meeting was being addressed by a local labor organizer, James D. McLeish, when a man named Connelly who had been drinking persisted in interrupting the meeting and was cautioned to remain quiet or he would be put out of the hall. Connelly defied any of them to put him out and he was again warned that if he persisted in his interruptions the police would be sent for.

Connelly continued talking and a man named Best started to put of the hall. Connelly turned upon him and asked him if he were going for the police. Best said he was but if he would remain quiet there would be no need of a policeman. Best was struck by a friend of Connelly, Mike Murphy and a scuffle ensued during which Best drew a revolver and threatened Murphy if he did not remain quiet. He started to back away when Murphy struck him again and Best fired three times.

The first shot broke a window and the second lodged in Murphy's stomach and the third took effect in Wm. Bryant's heart and he dropped to the floor dead. The scene became one of wild disorder. Murphy, when a man named Connelly who had been drinking persisted in interrupting the meeting and was cautioned to remain quiet or he would be put out of the hall. Connelly defied any of them to put him out and he was again warned that if he persisted in his interruptions the police would be sent for.

Connelly continued talking and a man named Best started to put of the hall. Connelly turned upon him and asked him if he were going for the police. Best said he was but if he would remain quiet there would be no need of a policeman. Best was struck by a friend of Connelly, Mike Murphy and a scuffle ensued during which Best drew a revolver and threatened Murphy if he did not remain quiet. He started to back away when Murphy struck him again and Best fired three times.

## Senator Ellis' Views.

Senator Ellis said that in a measure which would place a large proportion of the community, the opinion of the commons should have great consideration, as the members of that house were more closely in touch with the people.

Senator Oostigan was sorry to hear the arguments which had been used against the bill in the senate. He would like to see it enacted without the delay involved in consideration by a general committee.

Senator William Ross, of Halifax, said that in the postal and custom services of Canada men worked but six hours a day. He thought the bill was good for all labor, to make their own bargain, without too much executive interference. He had been called a "Tory," but the radicalism contained in such a bill as this was more than eight hours a day while the men on the building would not be allowed to work more than eight hours a day. He did not think this would be satisfactory.

He was not opposed to the length of a working day being restricted to eight hours when it could be done, but it was not always possible to impose this restriction. The men on the building would not be allowed to work more than eight hours a day. He was surprised that the human race had not become extinct, for certainly up to within a few years men who had not yet been and automatic that they had worked hard for many hours a day. He yet they did not seem to suffer. He had worked hard from the time he was nine years old, and he was a man who worked twelve and fourteen hours a day, and the fact that he was still in good health showed that men could work for more than eight hours a day.

In his opinion, the best relations between employers and employees would be maintained by allowing the people who sell their labor, and the people who buy it, to make their own bargain, without too much executive interference. He had been called a "Tory," but the radicalism contained in such a bill as this was more than eight hours a day while the men on the building would not be allowed to work more than eight hours a day. He did not think this would be satisfactory.

## MEXICO PROTESTS TO GREAT BRITAIN

London, April 26—The Mexican government has communicated to the British foreign office a formal protest against the action of Capt. Vivian of the British sloop Shearwater in landing marines at San Quentin, Lower California, which action is described as an interference in the internal affairs of Mexico.

Announcement to this effect was made in a very brief despatch received at the foreign office today from C. D. Hohler, British charge d'affaires at Mexico City since the departure of Minister Tower.

Hohler stated that the text of the protest was going forward by mail and action in the matter will be taken here pending the receipt of the text and also the explanation of Capt. Vivian which he has mailed to London.

## Shooting of Spaniards Stirs Spain.

Mexico City, April 26—Six Spaniards were shot and killed on Monday at the Hacienda Atencingo in the state of Puebla, by a small band of rebels, following their refusal to contribute 3,000 pesos to the insurgent cause. Atencingo is the Hacienda where the rebels some days ago secured a quantity of rifles, considerable ammunition and 25,000 pesos. An account of that has the owner of the hacienda, Angel Diaz Rubin, a Spaniard, announced his intention of demanding an indemnity.

The band of rebels on Monday entered a house where nine employees were assembled. The rebels demanded money and were refused. They then attacked the Spaniards with machetes and drove them from the house crying out: "Run, for we are going to shoot you." As they ran, six were shot and killed and the others fled. The reason assigned by the authorities, who had been heard pressing the case, was that the Spaniards were not permitted to work more than eight hours a day. He did not think this would be satisfactory.

He was not opposed to the length of a working day being restricted to eight hours when it could be done, but it was not always possible to impose this restriction. The men on the building would not be allowed to work more than eight hours a day. He was surprised that the human race had not become extinct, for certainly up to within a few years men who had not yet been and automatic that they had worked hard for many hours a day. He yet they did not seem to suffer. He had worked hard from the time he was nine years old, and he was a man who worked twelve and fourteen hours a day, and the fact that he was still in good health showed that men could work for more than eight hours a day.

## TO GREAT BRITAIN

## WANTS EXPLANATION AS TO WHY MARINES WERE LANDED ON HER SOIL

## REPUBLICANS MAKE SAVAGE ON-SLAUGHTER ON DEMOCRATIC MEASURE

Washington, April 25—The Democratic free list bill, characterized by the Republicans on the ways and means committee as "political soothing syrup" was roughly handled in the house of representatives this afternoon by its political enemies on the Republican side.

Mr. Underwood, Democratic chairman of the ways and means committee, introduced it to the house in an hour's speech shortly after the session convened at noon. Then it was left to the mercies of Representatives Mann, of Illinois, leader of the Republican side, and the things Mr. Mann labor about in the two hours he held the floor, gave both sides of the house food for much debate, and occasion for much comment and criticism.

Mr. Mann declared that the free list, introduced by the Democrats as the first of their tariff measures, was drawn inaccurately, indefinitely and with such general language that it might be stretched to include almost half of the imports on which the United States now collect tariff revenues.

The free list bills put agricultural implements of "any kind and description" on the free list. Mr. Mann expressed the belief that this could be stretched to include the free entry of saws, axes, forks, garden hose, hayknives and almost everything else that a tiller of the soil ever uses. He said the bill was so drawn as to admit free entry of the leather from which the farmers' shoes were made, but would exclude that from which his wife's shoes were made. It put a premium on foreign labor by permitting the special kinds of leather to come in free when they were partly made up.

## THE NOTE WAS FRIENDLY.

Mexico City, April 26—Mexico does not anticipate any unpleasantness as a result of the note sent by the foreign office to Great Britain regarding the Shearwater incident. Senor De La Baza says that the note was couched in cordial and friendly terms, and while a protest was made and his rights in Mexico were maintained, "it was done in such a manner as to show the consideration this government wishes always to have for the British government, and in accordance with the existing friendly relations."

It is expected that the incident will be satisfactorily explained by Great Britain.

## BOWELL AGAINST IT.

Sir Mackenzie Bowell declared that the bill was not permissive, but compulsory, and if it passed no man could work for more than eight hours a day on construction work on a public building. He had always been a working man himself and therefore had the most intense feelings for working men of all classes. However, he had not worked on a public building for many years, but he believed that the men who were being raised against those men, who by great effort, both physical and mental, had acquired capital and who provide labor and employment for many men, should be treated as men, and not as a class. He did not agree with the view which had been expressed, that because the commons had passed this motion the senate will be bound to pass it.

Senator Campbell proposed to send this bill to committee he would withdraw his motion for the six months hoist.

## FATAL ROW AT LABOR MEETING AT GLACE BAY

Halifax, N. S., April 27—A shocking tragedy occurred at Glace Bay last night near the close of a labor meeting and resulted in the shooting of William Bryant, a miner and Michael Murphy, a cooper, both of whom were in the hospital with their wounds in an abandoned and not expected to recover.

The meeting was being addressed by a local labor organizer, James D. McLeish, when a man named Connelly who had been drinking persisted in interrupting the meeting and was cautioned to remain quiet or he would be put out of the hall. Connelly defied any of them to put him out and he was again warned that if he persisted in his interruptions the police would be sent for.

Connelly continued talking and a man named Best started to put of the hall. Connelly turned upon him and asked him if he were going for the police. Best said he was but if he would remain quiet there would be no need of a policeman. Best was struck by a friend of Connelly, Mike Murphy and a scuffle ensued during which Best drew a revolver and threatened Murphy if he did not remain quiet. He started to back away when Murphy struck him again and Best fired three times.

## To Make Statement About His Plans Assures Monk He Hasn't Forgotten About the Coronation

## Nationalist Ally of Borden Very Anxious That Premier Should Carry Parliament's Message to His Majesty — Copyright Bill Given First Reading.

Ottawa, April 28.—It fell to the Nationalist leader in the commons today to call parliament's attention to the position of Canada in connection with the forthcoming coronation of George V. The flag waving Conservative opposition is engaged otherwise. According to the official statement issued at the close of its caucus this morning, it is planning a "fight to the bitter end," which will prevent Canada's representation at either the imperial conference or the coronation.

Mr. Monk directed his comments to the published plans of the prime minister to leave on May 12 for England to attend the imperial conference and the coronation. It would be the member for Jacques Cartier suggesting, and his thing thing, in accordance with custom, for the Canadian parliament to pass an address to his majesty on that occasion. He asked if it would not be well to have this address conveyed by the prime minister and his colleagues. In view of the fact that the address should be suitably expressed, and that the time was now growing short, he called attention to the matter, lest it should have escaped the attention of the prime minister.

Sir Wilfrid Laurier said the matter had not escaped his attention. As a matter of fact, he had given instructions to have the precedents in such cases looked up, that Canadian action might be based thereon. He expected to be in a position to make an announcement at an early date.

### Copyright Bill.

Hon. Sydney Fisher secured the first reading of the copyright bill, providing for the protection in Canada of the copyright in original literary, dramatic, musical, artistic works, the fees to be paid for registration, the penalties for infringement and the prohibition of the importation of reprints of copyright works.

The bill was based upon the results and was in conformity with that of Right Hon. Sydney Buxton, adopted in the British parliament, and also by other of Britain's overseas dominions. The new provision was made for the sake of imperial uniformity and to provide the machinery for copyright protection all over the empire.

The Canadian bill would secure copyright holders and authors the same degree of copyright protection in Canada to owners of copyrights in other parts of the empire.

The provisions will affect all subjects of his majesty and bona fide residents in his majesty's dominions where the article or object is produced in his majesty's dominions. All kinds of copyrights will be grouped together and a criminal penalty clause incorporated to protect dramatic and musical productions, the literary and artistic productions. The protection of the copyright act would extend during the life time of the author and fifty years after his death.

Mr. Borden asked if the proposed act established Canadian copyright legislation on practically the same lines as that of Great Britain and the other overseas dominions.

Mr. Fisher replied in the affirmative. He also explained that a United States authority who resided the greater part of the year in Canada and produced his works in this country, would secure the advantages of the act.

The new bill was given its first reading.

### Balloon Beat Railway Time.

Dusseldorf, Germany, April 28.—The dirigible balloon Deutschland II, with passengers, made a flight today from Aix La Chapelle to this place in 38 minutes. The fastest express train covers the distance in 80 minutes.

### Why Not Get Rid of That Catarrh?

There are few people in this extreme and changeable climate who have not at least a touch of nasal catarrh.

Yet because in itself it is not very dangerous most people put up with it, in its first stages, as a matter of course, till some day they wake up to the fact that the trouble has crept down to the lungs—perhaps, through swallowing the phlegm, to the stomach. In this way, catarrh is most others.

### Mr. Sclanders Has Grown Alfalfa Successfully and Says It Should Do Better in New Brunswick—A Penobsciquis Farmer's Good Example.

To the Editor of The Telegraph:

Sir,—When in New Brunswick last July I ventured some comments upon the outstanding value of alfalfa for which you were good enough to find space in your columns. In the course of these comments I stated my humble opinion that on your reasonably fertile uplands alfalfa would prove an exceedingly profitable crop; and shortly thereafter had the satisfaction of actually seeing my contention demonstrated on the farm of Hiram Seard, Penobsciquis. Mr. Seard has two patches of alfalfa which so far as I could determine, was the Grimm strain, introduced into Minnesota in 1857 by Wm. John Grimm, a German immigrant, and which has proven by far the most successful of all the varieties so far offered. Both of the experimental patches in question were just as thrifty as one could wish; and it was most pleasing to note Mr. Seard's knowledge of the habit and handling of the plant, which knowledge he had apparently shared with his lands. He informed me also that quite a number of other farmers in the district had undertaken similar trials, and that the moving spirit of these trials was generally in the provincial dairy service, whose name I am sorry has at the moment escaped me; but who organized such trials, and who has proven by far the most successful of all the varieties so far offered. Both of the experimental patches in question were just as thrifty as one could wish; and it was most pleasing to note Mr. Seard's knowledge of the habit and handling of the plant, which knowledge he had apparently shared with his lands. Scott Act Violations Will Be Winked At if Bars Are Not Run Too Wide Open.

Chatham, April 26.—The newly elected town council is getting down to business. It is understood that one of the chief matters that has come under discussion is the question of the enforcement of the Scott Act. The citizens by their vote last week showed very plainly that while they didn't want any return to the open bar system, they did not favor the very strict system of enforcement, as attempted to be carried out by the late council, under which a few of the citizens were prosecuted, while others equally culpable were passed by.

### CONDITIONS HERE BETTER THAN WEST

Mr. Sclanders Has Grown Alfalfa Successfully and Says It Should Do Better in New Brunswick—A Penobsciquis Farmer's Good Example.

To the Editor of The Telegraph:

Sir,—When in New Brunswick last July I ventured some comments upon the outstanding value of alfalfa for which you were good enough to find space in your columns. In the course of these comments I stated my humble opinion that on your reasonably fertile uplands alfalfa would prove an exceedingly profitable crop; and shortly thereafter had the satisfaction of actually seeing my contention demonstrated on the farm of Hiram Seard, Penobsciquis. Mr. Seard has two patches of alfalfa which so far as I could determine, was the Grimm strain, introduced into Minnesota in 1857 by Wm. John Grimm, a German immigrant, and which has proven by far the most successful of all the varieties so far offered. Both of the experimental patches in question were just as thrifty as one could wish; and it was most pleasing to note Mr. Seard's knowledge of the habit and handling of the plant, which knowledge he had apparently shared with his lands. He informed me also that quite a number of other farmers in the district had undertaken similar trials, and that the moving spirit of these trials was generally in the provincial dairy service, whose name I am sorry has at the moment escaped me; but who organized such trials, and who has proven by far the most successful of all the varieties so far offered.

### TO SEEK CHARTER FOR N. B. HYDRO-ELECTRIC CO.

Lepreux Power Will Likely Be an Active Competitor in St. John in a Year or Two.

Fredericton, April 26.—Notice is given by H. A. Powell in the Royal Gazette of application for incorporation, by letters patent, of the Hydro-Electricity and Power Co., Ltd., a company to be incorporated in the province of New Brunswick. The company is to be incorporated in the province of New Brunswick. The company is to be incorporated in the province of New Brunswick.

### STRIKES CLOSES ST. GEORGE INDUSTRIES

Trouble at Pulp Mill Forces Granite Quarries to Close; Also for Want of Power.

St. George, April 26.—The pulp mill and granite works are idle this afternoon because of some trouble between the pulp mill employers and the workmen. The granite works are also idle because of some trouble between the granite firms pending adjustment of the difficulty between the pulp mill men and their employers. A longed strike, if it tied up both industries, would be most disastrous.

### NEARLY 100,000 DIED OF BUBONIC PLAGUE IN CENTRAL INDIA

London, April 25.—The official figures of ravages of the bubonic plague in the central provinces of India show the appalling total of 95,284 deaths from the disease in March. The fatalities during February were 43,308.

### MARRIAGES

BARTON-McLEAN—At Cumberland Bay, Queens county (N. B.), April 19, by the Rev. H. A. Bonnell, Leonard D. Barton and Nellie B. McLean.

REV. GRIVAN—At St. Andrew's church, St. John, N. B., April 25, by the Rev. David Lang, Dr. F. Gordon Sanction and Minnie Richards Grivan, daughter of Samuel Grivan.
