

FROM SUFFERING TO HEALTH.

THE EXPERIENCE OF A WELL-KNOWN  
BRUCE COUNTY FARMER.

He Tells the Story of the Disease That Afflicted Him, the Suffering he Endured and How he Found Relief—Other Sufferers May Take Hope From His Release.

From the Timeswater News.

All the ills that flesh is heir to perhaps none causes the sufferer keener anguish, and few are more persistent and more difficult to eradicate from the system than that nervous disease known as sciatica. The victim of an aggravated form of this malady suffers beyond the power of words to express, and it is with the utmost reluctance that the disorder yields to any course of treatment intended for the cure. Hearing that a rather remarkable cure had been effected in the case of Mr. William, a respected resident of the township of Calore, a News reporter called upon that gentleman to ascertain the facts. Mr. William is an intelligent and well-to-do farmer. He is well known in the section in which he resides and is looked upon as a man of unimpeachable integrity. He is in the prime of life, and his present appearance does not indicate that he had at one time been a great sufferer. He received the News representative with the utmost cordiality, and cheerfully told the story of his restoration to health, remarking that he felt it a duty to do so in order that others afflicted as he had been might find relief.

Up to the fall of 1893 he had been a healthy man, but at that time while harvesting the turnip crop during a spell of wet, cold and disagreeable weather, he was attacked by sciatica. Only those who have passed through a similar experience can tell what he suffered. He says it was something terrible. The pain was almost unendurable and would at times cause the perspiration to ooze from every pore. Sleep forsook his eyelids. His days were days of anguish and night brought no relief. Reputable physicians were consulted without any appreciable benefit. Remedies of various kinds were resorted to and his condition was worse than before. The limbs affected began to decrease in size, the flesh appeared to be parting from the bone, and the leg assumed a withered aspect. Its power of sensation grew less and less. It appeared as a dead thing and as it grew more and more helpless it seemed as if the hope of recovery began to fade away. All through the long winter he continued to suffer, and towards spring was prevailed upon to try Dr. Williams' Pink Pills. He commenced using them and soon felt that they were doing him good, and hope began to revive. By the time he had taken three boxes the pain was lessened and the diseased limb began to assume a natural condition. He continued the use of the remedy until he had taken twelve boxes. In course of time he was able to resume work and to-day feels that he is completely cured. He has since recommended Dr. Williams' Pink Pills to others with good results.

An analysis shows that Dr. Williams' Pink Pills contain in them all the elements necessary to give new life to the blood and restore shattered nerves. They are an unfailing remedy for all diseases arising from an impoverished condition of the blood, or from an impairment of the nervous system, such as loss of appetite, depression of spirits, anæmia, chlorosis or green sickness, general muscular weakness, dizziness, loss of memory, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after effects of smallpox, and all diseases depending upon a vitiated condition of the blood, such as scrofula, chronic erysipelas, &c. They are also a specific for the troubles peculiar to the female system, building anew the blood and restoring the glow of health to pale and sallied cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess.

Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Science City, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cts. a box or six boxes for \$2.50, and may be had of all dealers or direct by mail from the Dr. Williams' Medicine Company at either address. Beware of imitations and substitutes.

MANY LIVES LOST.

THE FRASER RIVER A RAGING TORRENT, AND DEATH AND DESTRUCTION FOLLOW AS MAY PLOYS.

VANCOUVER, B. C. May 30.—The Fraser river has become a raging torrent and is dealing destruction and death at every point, and while villages on the banks of the stream are floating, so far eight lives are known to have been lost.

At Langley a little boy was drowned. The Langley hotel was swept away by the flood also. The entire town is flooded. At Langley prairie four Indians were drowned.

The dead bodies of three men and a little girl were found on Hatzic prairie entangled among floating trees. Many other bodies are reported as having been seen in the stream in other localities, but so terrible is the current that all attempts at rescue were futile.

At Morris steamers are sailing right across where farms used to be. Farmers, fearing to remain longer, are taking passage on the steamers and bringing their families here. The damage done to the Canadian Pacific road tracks is very serious along the line.

VANCOUVER, June 4.—The river is still rising. The Canadian Pacific tracks are washed away or unsafe for fifty miles between Mission and Ruby Creek. Passengers are carried back and forth in steamers. Sunday morning's steamer found five dead bodies lashed to a raft floating in the water.

QUEBEC, June 4.—News comes from Charlevoix county, ninety miles below here, that a terrible landslide has occurred, the houses were precipitated into the Red river and this... are a great loss of life. Details are lacking, but the occurrence is similar to an accident that happened at St. Alban's about a month ago. The houses were carried away at Bras Noir, where the stream of that name joins the Red river. There is no telegraph communication with the point and particulars are meagre.

Dominion Parliament.

(Continued from first page.)

The house then went into committee on Dr. Weldon's bill, which was still under consideration at six o'clock. Several important amendments were made, one making the deposit one

(thousand dollars instead of five hundred; another giving an appeal to the superior court to any voter found guilty of accepting a bribe, and others to prevent the use of the bill by parties wishing to fish for evidence to sustain an election petition. No proceedings can be taken under this bill while an election petition is pending.

After recess Dr. Weldon's bill was passed through committee with a rider that no proceedings under it could be instituted after a year from the date of the election.

Mr. Charlton's Sunday Observance bill was next taken up, and took up the remainder of the sitting debating the first section which relates to Sunday newspapers. The bill was vigorously opposed by Messrs. Amyot, Langille, McLean (of East York), Davin and others. It was eventually amended by consent of the mover so as to only refer to the sale of newspapers, but on motion to adopt the first section as amended, it was moved in amendment that the committee rise and report progress which carried 50 to 40.

OTTAWA, May 29.—In the house today Sir John Thompson introduced his bill to amend the act respecting the Dominion Elections, which he explained, provided for shortening the time between nomination and polling in certain constituencies.

The house then went into committee on the tariff and spent all afternoon putting the final touches on it. Mr. Foster explained that the changes were nearly all merely verbal, most of them being recommended by the board of dominion appraisers, who had gone carefully over the tariff with the minister.

After recess the house continued in committee on the tariff for another hour, and then rose and reported progress. The house went into supply and passed the estimates for the department of justice and penitentiaries. A long debate occurred on the subject of the Manitoba penitentiary.

Mr. Davin and other opposition leaders contended that there was evidence of extravagance in its management. The house adjourned shortly after midnight.

Mr. Foster gave notice of the first Atlantic subsidy resolution for next Tuesday.

OTTAWA, May 31.—In the house today Sir John Thompson's motion to give the government business precedence on Wednesday was, after some debate, adopted. In supply, on the item of two hundred thousand dollars for revising the electoral lists, Sir John Thompson explained that the proposed changes in the mode of making up the electoral lists would involve the adoption of provincial lists as the basis, except so far as the revising commission is concerned.

On the estimates for railways and canals, Mr. Campbell, of Kent, objected to the I. C. R. R. estimate on four to five thousand dollars for revising the electoral lists. He explained that the list of ships shipped by Ontario millers to that province went by way of Boston.

On the item of one hundred and ninety-eight thousand dollars for Dartmouth branch, Mr. McMillen made a speech objecting to any expenditure on the line, and also a specific for the troubles peculiar to the female system, building anew the blood and restoring the glow of health to pale and sallied cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess.

Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Science City, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cts. a box or six boxes for \$2.50, and may be had of all dealers or direct by mail from the Dr. Williams' Medicine Company at either address. Beware of imitations and substitutes.

OTTAWA, June 1.—Sir Hilbert Thayer's bill to amend the Inland Revenue Act, and to amend the act respecting the preservation of game in the unorganized territories, and the Northwest, and Mr. Weldon's bill to further amend the general inspection act, were read in committee and passed.

Sir John Thompson then moved the following resolution:

That it is expedient to provide that the salaries of the judges of the county courts of Carleton, New Westminster, Yale, Nanaimo and Kootenay, in the province of British Columbia, shall be \$2,400 each per annum.

Mr. McMillen vigorously opposed this suggestion, and said that the judges were not all getting enough. If they were not, let them resign and there would be no difficulty about filling their places. He said the lawyers in the house of both parties were always kicking about the judges being underpaid, and he intimated that they did this to curry favor with the judges before whom they practiced.

Mr. Fraser warmly resented this intimation. He pointed out that neither he nor Mr. Mills practiced before Judge Johnston and said that it was not true that lawyers equal in ability to any of the county court judges of Nova Scotia could be got to fill their places at the salaries now voted.

After some time spent discussing the intimation, the house adjourned at midnight.

OTTAWA, June 1.—Sir Hilbert Thayer's bill to amend the Inland Revenue Act, and to amend the act respecting the preservation of game in the unorganized territories, and the Northwest, and Mr. Weldon's bill to further amend the general inspection act, were read in committee and passed.

Sir John Thompson then moved the following resolution:

That it is expedient to provide that the salaries of the judges of the county courts of Carleton, New Westminster, Yale, Nanaimo and Kootenay, in the province of British Columbia, shall be \$2,400 each per annum.

Mr. McMillen vigorously opposed this suggestion, and said that the judges were not all getting enough. If they were not, let them resign and there would be no difficulty about filling their places. He said the lawyers in the house of both parties were always kicking about the judges being underpaid, and he intimated that they did this to curry favor with the judges before whom they practiced.

GAVE HER MORPHINE.

The story told by Mrs. Justus Mowry of St. John, N. B.

When the item of coal was reached Mr. McMillen protested strongly against this duty. He said he knew that strong pressure had been brought to bear on the government by railway and manufacturing interests to remove this duty in whole or in part, but he was sorry to see the coal miners of Nova Scotia had been too strong for these parties and their allies.

He was followed by Messrs. Charlton and Campbell of Kent in the same strain. The item was adopted.

Hom. Mr. Foster then moved that the duties collected since the 25th of March under the tariff then proposed and subsequent amendments stand, and that there be no refunds in case of reductions and no additional duties demanded in case of increases.

This passed and the house went into supply, whereupon Mr. Charlton moved an amendment to a resolution demanding that the lands of the Northwest should be sold to settlers. He made a lengthy speech in favor of this policy, and the act respecting the sale of the lands of the Northwest was passed.

The subject was still under consideration at six o'clock.

it was good for the heart, and I had

tried it, and it had done me good. I

was very glad to hear that it was good

for the heart, and I had been told that

it was good for the heart, and I had

tried it, and it had done me good. I

was very glad to hear that it was good

for the heart, and I had been told that

it was good for the heart, and I had

tried it, and it had done me good. I

was very glad to hear that it was good

for the heart, and I had been told that

it was good for the heart, and I had

tried it, and it had done me good. I

was very glad to hear that it was good

for the heart, and I had been told that

it was good for the heart, and I had

tried it, and it had done me good. I

was very glad to hear that it was good

at all, for it made him sullen, and

he got to that point that whenever

I counselled him, he thought I was

scolding. One day he told me he

had much rather be whipped than

be scolded, and—

"That's just Harry over again,"

interrupted Mrs. Beverly. "One

day last week he and the Ryders

went to the railway hall on our

train. I told Harry when they first

went out to be very careful not to

break down any of my plants. In

a short time he came running to

me and said, "Oh, mamma! I

fell against your white hyacinth

and broke it—pot and all." I was

very angry and scolded him well,

right before the boys, and I cannot

forget the hurt, pained ex-

pression on his little face, as he

turned away to hide the tears,

which were fast filling his eyes,

from the boys."

"Poor little darling!" exclaimed

Aunt Laura. "Alice, you should

have first found out if it was an

accident."

"Of course it was purely accidental,"

antique; only you see, it has

become second nature almost for

me to scold."

"That same evening, after tea,"

continued Mrs. Beverly, "Harry

came to me, and putting his arms

around my neck sobbed, "Mamma

dear, I am awfully sorry about your

plant, but please
