OR RAILWAY AND COMMERCIAL RECORD.

No 44] SAINT ANDREWS, N. B., WEDNESDAY, NOVEMBER 3, 1853. [Vol. 19

WINTER IS COMING.

Yes, gentle reader, "Winter is coming," and how are you prepared or preparing for it? We have had "seed time and harvest"—Spring and Summer—and Autumn has come, and now, winter, (death's fitting emblem,) will soon be stepping in Autumn's footsteps.

We have told this far to laggep a store for the winter—so has also told the house, and industrious ant. But so has not told the vagabond grasshopper. He has destroyed man's substance, starved the sheep, the horse, and the cow, and all that he will give in return for all this great damage, is his worthless carcass to the dust when frost comes. The grasshopper is not the only drone that eats out the substance of the prudent and industrious, and gives back only a worthless carcass.

The prudent farmer will now begin to prepare for the winter. As he feeds all his stock in yards or under cover, he will see that every thing is in order, by devoting his hours to fixing up his racks, repairing his sheds, and gathering a supply of litter from his waste places. His poor, weak, and old sheep, will be taken out and put into good food, and fed with corn meal or oil meal, so that they may get into good condition for the butcher, or the yard. Young cattle and colts should be looked after, and if thin and weak, given extra food, for a wonderful saving is effected by having all stock come into the yard in good condition. This is the last month in the year for cutting firewood. If not convenient to draw home, cut it down at least. While the ground is dry, it is also a good time to clear out or construct ditches and drains to swampy places; cut up alders and other bushes.

It is very important this year to make the most of your forage, especially if we have a hard winter, and who can tell that it will not be? The prudent farmer, therefore, will have everything. All his straw will be cut and fed to those animals having roots or grain. And all the grain will be brained or ground before feeding. A great deal more can be saved than people are aware of by cutting straw, hay, and stalk. In feeding sheep, at least on one-third may be saved by cutting, especially if the hay be coarse timothy or clover.

If you begin now, you will barely be ready when winter does come.

MILITARY AND MILITARY EXECUTION.

Corps, Sept. 16.—The 30th Regiment stationed at Cephalonia, and the 41st, stationed at Zante, have been infected by the gold fever, and a sort of plot has been formed among the men to strike their officers with the express purpose of being transported for a term of years, and thus obtaining their discharge from the service and a free passage to Australia. No less than eight of these cases occurred in one month, and the men were brought here to be tried by general court-martial. All the men were found guilty, and of course, according to military law, condemned to death. Seven, however, were let off with transportation, but the general in command, General Conyers, thinking that an example must be made in order to check a crime, which would be encouraged rather than checked if all were transported, ordered the sentence of death to be executed in one case. It was passed on Friday, and on Monday morning the prisoner was shot in the fort of Vido. A company from each regiment attended. The man marched on to the ground, following his coffin, and the chaplain, reading the burial service. Twelve men were led off from the 49th Regiment, and they had to select a musket each from a stack of twelve, ten of which only were loaded with ball, so that no man could be certain if he were the executioner. The sentence of the court-martial was read over to the man. He knelt down only eight paces in front of his twelve comrades, throw upon his jacket; the words, "ready, present, fire," were given, and he fell dead, with one ball through his head and others in the chest. Much interest had been excited for him, as, although a private, his father is a captain in the army, and many petitions were sent to the general, but returned them all with a single notation, "mistaken humanity."

There seems to be a feeling here that the general should have waited for an approval of the sentence by the authorities at home.

NORWAY HORSES.—Laying, in his Travels in Norway, says that the horses in that country have a very sensible way of taking their food. Instead of swilling themselves with a full pail of water at a draught, (no doubt from the fear of not getting any again) and over gorging themselves with dry food for the same reason they have a bucket of water put down beside their allowance of hay. It is amusing to see with what relish they take a sip of one and a mouthful of the other alternately, sometimes moistening their mouths, as a rational being would do while eating a dinner of such dry food. A brown winded horse is scarcely over soon in Norway.

European Intelligence.

SEVEN DAYS LATER FROM EUROPE.

The steamer Niagara, from Liverpool, with dates to the 16th ult. arrived at 3 o'clock on Wednesday morning at Halifax. She has 90 passengers for Boston and 6 for Halifax.

Lord Rollo, a Scotch Nobleman, is dead. The Court has returned to London, and a Cabinet Council was held on the 15th. Parliament is to meet on the 15th November.

A rumour has crept out that Government are about to make a movement in favour of extending the franchise—the plan proposed being to impose an income tax on all wages above one pound per week; and to confer votes on payers of the tax. It is also stated that a strong organization in the new Parliament will press the introduction of the bill. We give these rumours in the absence of more definite news.

The scope of the despatches brought home by Lady Franklin's ship Prince Albert, from Capt. Beahy, is that the searching expedition are proceeding up Wellington Channel, favored by very open weather, and under the strong probability that Franklin passed that way.

A despatch from Trieste states that 9,000 British troops had been landed near Herab, Persian Gulf. It is supposed that their presence is to prevent the Persians from threatening the independence of Herab. Twenty-four political prisoners were shot in Sinigaglia, in the Papal States, from the 1st to the 3d ult.

Affairs in Burmah are in statu quo. In China the insurrection continues under full head. The prohibition on the export of corn from Egypt has been withdrawn.

The yacht America figures largely in the news of the week. On Tuesday, 12th, she completed with the Swedish yacht Sverige, and whipped her full 20 minutes. Lord De Blaquiere, her owner, has published a challenge to the yachts of all Nations, except the United States, and offers to sail the America for £1000 against any yacht in a 5 knot breeze, any where except inside the line of Wight. The challenge has been accepted for £500 by J. L. Craigie, with the yacht Volante, and for £1000 by J. Mackintosh with the Iron yacht Disowned, from Krich to the North and back, the matches to come off when the weather suits.

The Earl of Carlisle has written a preface to "Uncle Tom's Cabin," intended to neutralize the recent criticism in the London Times.

The Earl of Derby has been elected Chancellor of the University of Oxford. A meeting of Iron masters was held at Wolverhampton, 13th, at which the recent rise in prices was approved, although it was stated that the Manufacturers had as yet divided little advantage from the rise, as they had mostly contracts on hand at old quotations. A circular letter issued by a Liverpool House to the trade takes a contrary view, and warns against the reckless speculation that is keeping up the figures. Clerks in Merchants offices and other persons without capital being known to hold large quantities of Iron Scrip, from these and other circumstances the House in question anticipate a panic ere long.

FRANCE.—The accounts of Louis Napoleon's reception at Bordeaux and elsewhere are quite dazzling. Titles of high Nobility are spoken of for M. M. Presigny, Morney, Fould, Baroche and others, and a measure of general amnesty is looked for as the first act of the new Emperor's reign. On the 16th he was to enter Paris in triumph.

Denmark.—There is a rumour that the King of Denmark intends to abdicate; the Constitution forced on him in 1848, being too democratic for his liking. Prince Christian of Glucksburg will be his successor.

SWITZERLAND.—The Prussian Ambassador to the Helvetic Confederation has ordered all Prussian workmen to return to Prussia within a month, to withdraw them from the influence of democratic doctrines.

AUSTRIA.—A Vienna correspondent of the London Times says he is informed that Mr. McCurdy returns home in a few weeks, and there is yet even a Consul here, Mr. Schwartz having recently been dismissed. Americans have been in remarkably bad odor in Austria, and as they are still regarded with extreme jealousy by the Authorities, it is, to say the least of it, hardly prudent to leave them without any protection here.

TURKEY.—The salian has recovered. The trouble between Turkey and Persia respecting the frontier line had been arranged.

ITALY.—Disturbances had taken place at Faenza between the Citizens and the Police, aided by Austrian Troops. Several had been killed on both sides, but as yet we are without particulars.

GREECE.—Negotiations are in progress between the Bavarian Government and the Governments of France, England, and Russia, respecting the succession to the throne of Greece. Prince Adalbert of Bavaria, brother of King Otto is named as their apparent, and has embraced the Greek religion as a preliminary step to the throne.

PRINCE ADALBERT OF BAVARIA, brother of King Otto is named as their apparent, and has embraced the Greek religion as a preliminary step to the throne.

SUMMARY OF NEWS.

NEW-YORK, Oct. 28. Purchase of Spain's title to the Lobos Islands.

The Washington correspondent of the Express says: "It has accidentally transpired within a day or two that the gentlemen concerned in Guano speculation have despatched an agent to negotiate through the American Minister, with the Spanish Government, for a lease or purchase of the Lobos Islands. This is said to have been done by the advice of eminent counsel, who are of opinion that if any nation owns these islands, it is the Spanish nation, who discovered and named them, and from whom alone Peru claims to have derived her title to them."

Interruption of the Telegraph.—The New York Courier says, that the wires of the Eastern Telegraph near Portland, and of House's Telegraph near Boston, were cut at about 9 o'clock on Tuesday night, with the evident intention of cutting off the anticipated despatch of news from Halifax.

The British mail steamer Petrol, from New York 8th inst. arrived at Bermuda on the morning of the 12th, and would sail on the same day for St. Thomas.

The United States steamship Crescent City, Lieut. Schenck commander, sailed yesterday afternoon for Havana and New Orleans, with 95 cabin and 59 steerage passengers.

The scaffolding on the new Catholic Church in Lancaster, Pa. gave way on the 26th, while the masons were placing a large stone sill on the wall, precipitating four to the ground—two of whom are not expected to survive, and the others are seriously injured.

Sch. Cora Ann Captain Lindsey, from Newbury for New York, put into Norfolk on the 26th, to sell a slave belonging to Judge Jancy, who was found stowed away in the fore-cabin.

Extraordinary Railway Accident.—Galignani relates an extraordinary circumstance which occurred a few days ago on the Northern Railway at Montataire, near Creil. A carter arrived with a vehicle containing an enormous block of stone, weighing not less than six tons, drawn by three horses, and asked if he would have time to cross the line before the arrival of a train. The wife of the keeper of the crossing answered in the affirmative, and he went on to the line; but there being a sort of ascent, his horses were not able to drag the vehicle the whole way across. While they were still endeavouring to get across, a train was heard approaching. The carter, fearing a shock, cut the traces of the two leading horses, and removed them out of danger. The keeper's wife ran towards the train, and made signs to the driver to stop. It was an express train, drawn by one of Cremona's powerful locomotives, and was proceeding at a fearful rate. The driver reversed his steam, and made a signal to have the brakes put on; but seeing at the same moment that it was impossible to stop in time, he, with admirable sang froid, put on all the power of the locomotive, and drove right into the cart. The tremendous force of the shock shivered, as he hoped, the block of stone into a thousand pieces, without throwing the locomotive off the line, or causing any perceptible derangement of the train. He was able to proceed to the station at Creil, where he found that his locomotive was a good deal damaged.

The late Hon. Daniel Webster.—A general cry has been raised in the United States over the death of this illustrious man, and the newspapers come to us clad in mourning for his loss, and filled with eulogiums on his name and fame. Meetings have been held in Boston and elsewhere for the purpose of taking measures to testify their respect for his memory, and business had been in a great measure suspended. The funeral was appointed to take place at 12 o'clock on Friday from his late residence in Marshfield.

Mr. Webster was born on the 18th of January, 1782, and was consequently in his 71st year.

Rescue from a Watery Grave.—Yesterday afternoon quite an exciting scene occurred on Long wharf, just as the ship Shirley, Captain Nicholas T. Snell, was casting off her lines to take her departure for Australia. Among the passengers on board was a man who did not intend going, and who was starting, perceiving that the vessel was starting, he attempted to get on shore, but made a misstep and fell into the water, where he struggled and succeeded in keeping his head above water for some time, till at length some person threw a rope to him, with a slip noose on it, and succeeded in dragging him, by adjusting the slip noose around his body, and drawing him safely upon terra firma.—*Boston Traveller.*

Mystery.—A writer from Paris-Bug, Giles County, Va. says: "At a distance of three miles from this place, where some workmen were blasting rock, having made an excavation of ten or twelve feet the earth gave way, and all were plunged into a large cavern, apparently dug out. At the further extremity of the room, a human skeleton was found in a leaning posture, reclining, as it seemed, against the side of the cavern, and seated on something resembling a chest. No clue, as yet is known to get at the history of the human relic."—*Ellenville Journal.*

Verdict Against Railroads.—The case of Douglas against the Buffalo and Rochester Railroad Co., for damages for injuries received by the plaintiff by the upsetting of his buggy in consequence of the horses being frightened by a passing train, was tried at Batavia last week. It was proved that the whistle giving notice of the approach of the cars, was not sounded. Verdict for the plaintiff of \$1,813 damages.

In the case of James Hegeiman vs. the Western Railroad Corporation, was tried at Troy, a day or two ago, and \$9,000 damages awarded. Mr. H. is a cripple for life, and since the accident, some two years, has been subject to great bodily suffering.

Fire.—On Wednesday evening, about 9 o'clock, an alarm of fire was given, which proved to be on board the schooner "Lynfield," lying at the South Market Wharf. It appears that the cook, before leaving the vessel stuffed an old shirt in the stove pipe for the purpose of extinguishing the fire in the stove, but which, as a matter of course, ignited, causing, however no further damage than the consuming of the galley.—*(Morning Times.)*

We learn from the Temperance Telegraph that the Grand Division of the Sons of Temperance held its Annual session on Monday evening. The following gentlemen were elected to office:—Thomas W. Biss, G. W. P.; Robert Siler, G. W. A.; W. H. A. Keas, G. S.; James Galloway, Jr., G. T.; Rev. Samuel Robinson, Grand Chaplain; S. D. McPherson, G. C.; J. F. Gordon, G. S.

Important from Canada.—We are informed by a telegraph despatch, received last evening, (29th) that on Thursday night, the hon. Mr. Hincks carried his Resolutions through the Canadian Legislature for the construction of a Railway by the northern route, which is to meet the line to be constructed by this Province to Miramichi, and connect with the Nova Scotia boundary. Mr. Hincks Resolutions secure the construction of the line to the Trois Pistoles, and it is asserted that the Imperial Government will construct that portion of the line between that place and Miramichi, which is the least thickly settled, and consequently the less likely to pay. The departure of the hon. Mr. Howe in the last steamer for England, it is said, has reference to the line through Nova Scotia. We congratulate our friends at the North on the prospect thus opening of a speedy realization of their ardent hopes.—*[New Brunswick.]*

[From the Fredericton Reporter.]
The great Railway Session is ended, and the great Railroad question is decided in the affirmative by a vote of the whole to 7 in the House, and of the whole to 2 in the Council.

Whether this important measure shall result in good or in evil, time alone will determine. We have felt it a duty, and a most unpleasant one too, to give it our opinion, not that we are averse to the principle of no king Railroads, even in this new country, but because we believed the people of St. John in designing the construction of a Railroad to the American frontier instead of making it in the direction of Canada, had completely and irreversibly lost their way both in reference to themselves, the Province, and the whole of these British Colonies; but the die is now cast, and as it is not our wont to prolong an opposition for its own sake, we shall in future endeavour to direct into a quiet acquiescence, rather than agitate the public opinion.

During the course of the debate in the House of Assembly, it pleased us much to find that few allusions were made to the subject of Loyalty. It was right that silence should be maintained on such a tender and delicate subject. Messrs. Johnson and Smith were the only persons who thought it necessary to allude to their Loyalty; but the latter took special care to inform his audience that he did not value his loyalty so high as to put it in comparison with a Railway to the United States.

It is our firm conviction that as far as the Government and likewise the Company are concerned they mean to carry on the work which is now entailed upon us, with perfect good faith to the Province. With Mr. English in one of his speeches we may safely say that which we have often said already, namely that we have more faith in the government than we have in the opposition; nor is our good opinion of the opposition one which increased by the knowledge that they have taken "one jump more" to join hands with the Government which they affected not long since to abhor and despise for their dishonesty. In the present instance we suppose the Government, whatever might be the secret opinion of its particular members, thought it necessary to yield to the wishes of the people; and the people at present issued their mandates solely from St. John. In giving his support to the Bill, Mr. Johnson of Miramichi said boldly enough that his hostility to the Government was not one which abated, but he had supported this measure solely because it was a good one. It were just as well if he had pursued the same course on former occasions, when his opposition was well known to be so factious that he opposed every thing. Mr. Johnson is a clever man, and would not make a bad ally, or Solicitor General; but we opine that his prospect for either office is now more remote than ever, and that his future opposition will only go for its current value in New Brunswick—the mere scramble for an office which his own action has rendered unobtainable.

One reflection more forces itself upon us in connection with this subject. The hon. Mr. Chandler had all manner of evil and absurdity imputed to him for his apathy in England, while in reality he was effecting the very arrangement which now so well suits the persons who then abused him; but Mr. Hincks was then lauded to the skies, has, at the present moment an overpowering amount of censure to contend with, and that from the party by whom he was then almost deified.

William Jackson, Esq., M. P., and the Hon. Joseph Howe, of Nova Scotia, went passengers in the steamship America, which left Halifax yesterday morning, for Liverpool.

RAILWAY FROM HALIFAX TO WINDSOR.

We have been favoured with information (received by telegraph) that a provisional contract, subject to the approval of the Legislature, has been entered into between the Government of Nova Scotia and Messrs. Sykes & Co. of England, (the contractors for the St. Andrews and Woodstock Railway) for the construction of a Railway from Halifax to Windsor, at £4,500 sterling per mile. We have not learned the character of the road or rolling stock, upon which the price of the Railway altogether depends; but it is stated to be part of the contract, that Messrs. Sykes & Co. are to have a lease of the road for nine years after its construction; the first three years at a rental of 2 per cent. on its cost—the second three years at 4 per cent.—and the last three years at 6 per cent. The road is to be built as a Government work, and paid for in Provincial debentures, bearing interest at 6 per cent.

It is very likely the contract for this Railway has been taken at a low rate, in consideration of the subsequent lease for a long term, at a small per centage, on its cost.—*[New Brunswick.]*

THE STANDARD.

WEDNESDAY, NOV. 3, 1852.

The Court of Oyer and Terminer and General Jail Delivery, was opened here yesterday, (Tuesday) His Honor Mr. Justice Wilnot presiding. His Honor's Charge to the Grand Jury was eloquent and impressive, and of great value, and a synopsis of this admirable address in to-day's paper. There are 17 civil causes and two criminal entered for trial.

EUROPEAN & NORTH AMERICAN RAILWAY.

The Legislature of the Province, composed as it is of the People's Representatives, who, according to Responsible Government, express their well understood wishes, having by a triumphal majority, passed the Railway Bills, we deem it our duty, as a public Journalist, to give our hearty assent to the result of their deliberations. We are aware that there are some, who, from a narrow minded and selfish policy, condemn the Legislature, and broadly assert that the line will not pay even working expenses, as there is no trade to sustain it—that the Province will not be able to pay the interest of its liabilities, and that the contract for the construction of the road is altogether too high. The first objection has been so repeatedly answered, and shown to be incorrect, that it is unnecessary to further notice of it. With respect to the second, we believe it to be unfounded as the first, as from the fact that immense sums of imported capital must be expended on the work, it will of necessity give employment to a great number of men who would emigrate to this Province, and the increased consumption and importations—swell the revenue to an extent much beyond what it has ever been. In reply to the third objection, it should be borne in mind, that the road is to be a permanent one, built in the most approved and substantial manner, with stone bridges and culverts, and heavy iron rails—in fact equal to any English road. It is very natural then, that the people of St. John should rejoice that the object of their wishes is now about to be realized, and that the work will be commenced at an early day. We congratulate them on the success, which has at length crowned their efforts, and are pleased to know, that the Representatives from Charlotte supported with their influence and votes this great measure, as we predicted they would previously to the meeting of the Legislature.

DELINQUENTS.—On our list of Subscribers, there are some who have not paid us for three years, and others who have never paid, notwithstanding we have called upon them year after year. This is not honest to us, nor justice to our paying subscribers. We therefore notify these delinquents, that unless they pay their subscriptions, or make some other satisfactory arrangement, their accounts will be put in suit on the 1st of December next. We have issued the STANDARD punctually every week, mailed it to our subscribers, and waited patiently for payment; but in many cases we have been disappointed. Let those who know these remarks apply to them, take notice and save themselves expense, as we will not be put off any longer.

To those who have paid regularly, we return our thanks.

INITIATION OF GEORGE WASHINGTON.—The masonic fraternity are to celebrate the centennial anniversary of the admission of Washington to the order, on Thursday, Nov. 4, by

addresses, dinner and ball, at Faneuil Hall. It is intended to make the occasion a rare one.

We notice that the celebration above alluded to, has been postponed until a future day in deference to the peculiar state of the public feeling, arising from the death of Mr. Webster.

We notice from the debates of the Legislative Council, published in the Reporter, that

On Monday the 25th ult., the Hon. Col. Hatch introduced the subject of the Fisheries, and after an animated speech, in which he alluded to the depredations committed by the Americans, and the advantages which would result to our own fishermen in getting the exclusive control of the Bay Fisheries, he said he was in favour of encouraging our own people by giving them bounties; as he held it the chief principle in trade to protect ourselves.

[The Council agreed to Col. Hatch's motion for a committee to join one from the House of Assembly, in drafting a loyal and dutiful address to the Queen, thanking her Majesty for the present guardianship of our rights in connection with the fisheries.]

THE FISHERIES.

On motion of Mr. Needham, the following Minute of Council, was laid before the House of Assembly on Monday last. It is a plain, manly, straight-forward document, and furnishes conclusive evidence that the interests of our Fishermen are in safe hands. The Minute was forwarded to the Colonial Secretary, very soon after it was adopted, whose mind will thereby be deeply impressed with the value which New Brunswick attaches to the rights secured to them by the Convention of 1818.

The Executive Council of New Brunswick deem it their duty to impress upon Her Majesty's Government, their most earnest wish, that no deviation should be made from the principles laid down in the Treaty of 1818 with the Government of the United States on the subject of the Fisheries. But, on the contrary, that the rights of British subjects—according to the proper construction of that treaty—should be rigidly enforced.

The people of British North America, now numbering 24 millions, are peculiarly and deeply interested in the preservation of their rights, and would consider the surrender of the privileges they now enjoy as such an abandonment of their interests, as could not fail to excite well justified discontent. It will be admitted, the Council hope, by Her Majesty's Government, that the Governments of these Colonies are fully conversant with the great value the inhabitants attach to this important subject, and the Council humbly trust that in any negotiations which may hereafter take place between Her Majesty's Government and that of the United States, His Excellency the Governor General and the Lieutenant Governors of the respective Provinces be consulted with reference to such negotiations.

In the commercial transactions between the British Provinces and the United States, the latter possess a decided advantage. Their goods are suffered to be imported upon the same terms as those charged on British merchandise, and New Brunswick has been prevented by Imperial authority, contrary however to the wishes and feelings entertained by the Legislature, from imposing discriminating duties. While the goods of the United States are here admitted at a duty of 84 per cent. ad valorem, our productions—as well raw as manufactured—pay there an average duty of 25 to 30 per cent.

Her ships cannot be sold in the American market and obtain registers. Theirs can come in and be sold, transferred, and re-register in British registers, as if built in British dominions. American steamers, thus conveyed, are now plying on the river St. John with British registers.

What our people want are equal rights and commercial freedom, and they would then not fear competition.

ASSENT TO THE RAILWAY BILLS.

On Thursday, the Railway Bills passed the Legislative Council without any serious opposition, all the members voting for it but two—Messrs. Gilbert and Connell. Both these gentlemen spoke against the measure, and predicted that it would prove injurious rather than beneficial to the country; but their speeches had little effect upon the Council.

SPEECH.

Mr. President, and Hon. Gentlemen of the Legislative Council; Mr. Speaker, and Gentlemen of the House of Assembly: I rejoice to find that it has been possible to sanction the scheme for the construction of the European and North American Railway. The readiness with which you have met and entered on this business, and the attention which you have given, deserve my warmest acknowledgments.

Mr. Speaker, and Gentlemen of the House of Assembly: The measures to which I have just assented imply some confidence in the Executive Government. I thank you for that confidence; and I desire to assure that the funds that you have placed at my disposal shall be expended economically, and the powers which you have entrusted to me shall be cautiously exercised.

Mr. President, and Hon. Gentlemen of the Legislative Council; Mr. Speaker, and Gentlemen of the House of Assembly: We may hope that a new impulse will be given to your progress by the Acts just passed. For my own part, I believe that the completion of this Railroad will benefit not only those whose homes it passes, but that

most remote settler and the poorest labourer will perceive a fresh element of enterprise and prosperity at work amongst us.

I have only to repeat my thanks for the assistance you have given me, and to relieve you from your labours for the present.

The special session which has just closed has been a short but an important one for New Brunswick. We learn by telegraph that the greatest good feeling prevailed at the prorogation, and that the members have returned to their homes well satisfied with the result of their deliberations.

COMMUNICATION.

Mr. Editor, When in St. John, the other day, I bought a Temperance Almanac: the astronomical calculations in which are entirely new, and furnished by Mr. William Mills, a teacher of navigation. As I see no notice of it here, perhaps you will insert these lines for the benefit of your readers.

MARRIAGES.

On the 20th instant, by the Rev. I. W. D. Gray, D. D., Mr. Michael Kennedy, of the Parish of Hampton, to Miss Ann Fawcett, of the same place.

On the 28th ult., by the Rev. William Donald, A. M., Mr. John McRae, to Miss Mary Robson, both of St. John.

On the 28th ult., by the Rev. Mr. Ferrie, A. M., Mr. Archibald Jackson, of Lunenburg, to Miss Elizabeth Wallace, of St. John.

DEATHS.

At St. John, on the 25th instant, aged 88 years, Jane, widow of the late Robert Parker, Esq., Comptroller of H. M. Customs in this Province.

At Fredericton, on Thursday morning, the 21st inst., Anna Maria, relict of the late Peter Fraser, Esq., aged 71 years.

At same place, on Saturday, the 23d, Mr. Thos. H. Cripps, aged 32 years.

On the 7th and 8th of Sept. last, Mr. Abner Polleys aged 65 years and Mrs. Jane Polleys his wife aged 55 years; they died within thirteen hours of each other. Mr. P. was a native of Nova Scotia, and left St. John in N. S. in July last with his family for Wisconsin.

NOTICE.

WHEREAS Licence, to sell all the Real Estate of Nevin Thompson, late of Saint George in the County of Charlotte, yeoman, deceased, was, on the 25th day of September last past, duly granted by the Court of Probate for the said County, to me, the undersigned Administrator of all and singular the goods, chattels and credits of the said Nevin Thompson, for the purpose of paying his debts:

And Whereas, the real estate of which the said Nevin Thompson died seized, consists of the undivided moiety or half part of lot number Two, in the grant to Alexander M. Vicar and others, in Miramichi, in the said Parish of Saint George, and which descended to him the said Nevin Thompson as heir at law of his father the late Ebenezer Thompson, an Act which said lot is bounded as follows: On the West by land granted to Nevin M. Vicar; on the East by land owned by John M. Vicar; Northernly by land owned by John M. Vicar; and Southernly by the Campbell grant, (so called), and is the same lot heretofore conveyed to the said Ebenezer Thompson, by Alexander McVicar.

NOTICE therefore is hereby given, that I the undersigned, as Administrator as aforesaid, shall proceed to sell the above described Real Estate, under and by virtue of the said licence by Public Auction, on Tuesday the 7th day of December next, at 12 o'clock, noon, at the Homestead, on the Premises.

Dated St. George, 25th October, 1852.

JOHN McNICHOL, Administrator.

VETERINARY SURGERY.
MARI A. CUMING, VETERINARY SURGEON,
Member of the Royal College of Veterinary
Surgeons of London, and Graduate of the Edin-
burgh College, begs to intimate to the proprietors
of Horses and other domestic animals in St. John
and New Brunswick generally, that he has just
commenced the practice of his profession in the
City of Saint John, and hopes to merit the support
of those who may have occasion for his services.
M. A. C. will have always on hand a stock of
VETERINARY MEDICINES, selected by himself, and
compounded upon the most approved British for-
mule. Parties at a distance can be supplied with
these, made up in doses suitable for the different
kinds and sizes of animals, with full directions
of use.
N. B.—Should it be desired, arrangements will
be made for instructing a few well educated young
men in Veterinary science and practice.

Steam Boats for Sale.
THE Subscriber being desirous of closing up
his present business, offers for sale, the
Steamers COMMODORE, FAIRY QUEEN,
and HERALD.—The Commodore had Six Hun-
dred Pounds laid out on her last winter, and with
a little outlay can be put in good condition. The
FAIRY QUEEN had about Three Hundred Pounds
expended on her also last winter, and a very small
sum will put her in excellent condition. They
would make first rate Night Boats between this
City and Fredericton, or are suited for any route
outside, or for the Grand Lake of the St. Croix,
being well supplied with bedding, &c. or they
would make admirable Tug Boats for the River.
Also, the Steamer HERALD, now lying at Carle-
ton. This Boat, with some repairs, would make
a good Tow Boat.
These Boats have all first rate Engines made
by FAWCETT, PRESTON & Co., Liverpool, and
will be sold low, on a long credit.
If not disposed of by private sale on or before
the 25th November next, they will be offered by
Auction.
Also for sale, an ENGINE, suitable for a Mill
or Boat.
The Subscriber would solicit from parties dis-
posed to purchase, a thorough inspection of these
Boats.
JAMES WHITNEY.
St. John, 9th October, 1852.

BOYS WANTED.
WANTED TWO BOYS from 12 to
16 years of age, at the STANDARD
OFFICE, to learn the Printing business.
August 25. Apply immediately.

Valuable Properties for SALE OR TO LET.
THE Dwelling House, Stores and
Wharf, in the town of St. Andrews,
formerly known as the Jones' property.
The Dwelling House, Oak Houses and
Wharf, in said town, formerly known as
the O'Neill property.
100 Acres of Land in St. James', about
one hour's drive from Milltown, St. Ste-
phen.
100 Acres of Land in St. Patrick, through
which the St. Andrews & Quebec Rail-
road is projected, and on which, or in its
immediate vicinity, will be established a
Depot, which will very materially enhance
its value.
15 Acres of Land within five minutes'
walk of the town of St. Andrews, a deli-
cious situation for a Country Seat. If not
shortly disposed of, it will be laid off in
suitable lots for building purposes, and let
on leases of improvement.
The subscriber begs to announce to the
Public, that he has had his Lands, which
are within ten minutes' walk of Chamcook,
laid off, and will sell or lease Building Lots
on advantageous terms. It is evident, that
owing to the Railroad passing through it,
possessing a safe and commodious harbor
accessible at all seasons for vessels of the
largest tonnage, with an unlimited and un-
rivalled water-power, on which there are
already some manufactories, with others in
a most extensive scale proposed and on the
eve of springing into immediate operation,
that Chamcook is one of the most desirable
situations within the British North Ameri-
can Colonies, for the Capitalist, the Me-
chanic, and operator. In view of which
the said Building Lots are offered to the
Public. Terms reasonable.
B. R. FITZGERALD.
Saint Andrews, June 30, 1852.

Brunswick, that they have on hand, and
are manufacturing PIANO'S of the most
modern style, 6 1/4 and 7 octaves; not sur-
passed in power, brilliancy, and execution, varying in
price from \$250 to \$450. Every instrument war-
ranted to give satisfaction. Pianos for the Pro-
vinces carefully packed in substantial boxes.
W. & Co. are permitted to refer to T. T. Odell,
Esq. for a specimen of their workmanship.
Boston, May 12, 1852.

A Full blooded entire Horse FOR SALE.
THE THOROUGH BRED HORSE
JOHN O'GAUNT.
IMPORTED by the Carleton Agricultural So-
ciety in 1847, will be exhibited at the Show
and Fair of the New-Brunswick Society, in Fre-
dericton on Wednesday the 6th of October next,
and at the close thereof sold at AUCTION.—
This Horse combines the speediest and stoutest
blood as will be seen from his Pedigree, and took
the first premium (£200) awarded by the Legisla-
ture of the Province in 1847. He is 11 years old,
perfectly sound, stands 16 hands high, and weighs
1080 pounds. His stock ranging in age from Colts
of the present season to those rising four, are large
and decidedly superior.
JOHN O'GAUNT was got by Rockingham out
of Purity, Rockingham by Humphrey (Linker out
of Medora by swordsmen; grand dam by Trum-
pet, out of Medora by swordsmen; grand dam
by Trumpet, out of Peppermint, sister to Prunella,
by Highflyer; Purity by Philo de Puta, winner
of the St. Ledger in 1815, out of Rachel
grand dam by Cesar, Miss Holt by Buzzard;
Rockingham won the "shorts" at York, the Great
St. Ledger, and the Cup at Doncaster; the Good-
wood Cup in 1813; the Brighton Cup three years
in succession; and six King's Plates—beating all
the best Horses of the day. Purity never started
but twice, winning both her races. JOHN O'GAUNT
walked over for the Two-year-old stakes at
Litchfield, and was beat by a head, by Henri
Quart, the fastest horse of his day, fifteen start-
ed.
By Order,
H. E. DIBBLEE,
Secretary.
Woodstock, Sept. 11, 1852.

Leasehold Property by AUCTION.
ON Tuesday the 21st day of September
next, at 4 o'clock in the afternoon,
the subscriber will sell by Public Auction,
on the premises, those two commodious
and substantially built DWELLING
HOUSES, and out Houses, situated in
Queen Street (Church Block,) together
with the piece of ground in rear of each
sufficient for a garden. A new lease has
been lately obtained from the Church Cor-
poration for five years from first May last,
at £4 19s. for both, renewable at the ex-
piration for 21 years, at such rent as may

ST. JOHN NURSERY.
J. HARRIS has just received from Lon-
don, via Boston, a good collection of
GARDEN SEEDS.
Farmers and Gardeners would do well to have
these Seeds, as they are excellent samples, and
many of the kinds are of new and improved qual-
ities. At this Nursery the variety of TREES,
PLANTS, SHRUBS, ROOTS, SEEDS, &c., are
extensive, particularly the DAHLIA, of
which J. H. has about 20 new kinds of a novel
character, blended with perfection—a desig-
nated gained after 25 years incessant perseverance.
Every thing suitable for the Kitchen, Fruit,
and Flower Garden, will be sent to order.

JUDSON'S
CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.
DO NOT NEGLECT IT.
CONSUMPTION

Can be and has been cured in thousands of cases by this only certain remedy. JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption where the lungs have become diseased and elevated and the case so utterly hopeless as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medicaments which are peculiarly adapted to, and essentially necessary for the cure of

COUGHS AND CONSUMPTION.
Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter by excretion, producing a most delightful change in the breathing and chest, and this, after the presentation of the very best medical men and the invention of kind-sorrowing friends and Nurses, has failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for all kinds of lung disease. It contains no deleterious drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pain in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is tried.

CAUTION.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St., New York.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof, H. of bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on horses.

CARLTON'S RING-BONE CURE.
For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE
The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c. All which will be prevented by giving one of these powders, and will at any time cure, when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or produced by a bad state of the blood are speedily cured by them. Remem-

ber for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES.
And for the cure of all diseases of man or beast that require external application, and for contracted tendons and muscles, strengthen weak limbs, and is also used for sprains, bruises, swollen glands, scalded legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, Horsemen, stage proprietors and others, with the most marked and decided success.

CAUTION.—None is to be genuine unless you find the name of J. Carlton Comstock on the wrapper of each bottle.

COMSTOCK'S VERMIFUGE.
This is the most extraordinary remedy for Worms ever used; it effectually eradicates Worms from both adults and children, cannot harm the most delicate infant or strongest adult, and never fails to completely root out and destroy all kinds of Worms.

The cost, 25 cts. per bottle, puts it within the reach of all, and all parents who are without it are wantonly exposing the lives of their children to those fell destroyers of youth, "Worms." Look for the name of Comstock & Brother, proprietors, on the wrapper of each bottle.

RHEUMATISM.
Comstock's Nerve and Bone Liniment, is warranted to cure any case of Rheumatism, Gout, Contracted Cords, and Muscles, or stiff joints, strengthen weak limbs, and enable those who are unable to walk again. Comstock & Brother, Proprietors, New York, and none genuine without their name on the wrapper.

TOOTHACHE.
Dr. R. H. Davis, of the City of the North, writes: "It is with confidence that I can recommend it as an infallible cure in all cases, without any injury to the teeth or gums. Price 25 cts. It is used in the most perfect manner, and in the most private manner, in our country, by an immense number of individuals and families, first and most especially by the use of the VERMIFUGE, and secondly by the use of the VERMIFUGE, and thirdly by the use of the VERMIFUGE, and fourthly by the use of the VERMIFUGE, and fifthly by the use of the VERMIFUGE, and sixthly by the use of the VERMIFUGE, and seventhly by the use of the VERMIFUGE, and eighthly by the use of the VERMIFUGE, and ninthly by the use of the VERMIFUGE, and tenthly by the use of the VERMIFUGE, and eleventhly by the use of the VERMIFUGE, and twelfthly by the use of the VERMIFUGE, and thirteenthly by the use of the VERMIFUGE, and fourteenthly by the use of the VERMIFUGE, and fifteenthly by the use of the VERMIFUGE, and sixteenthly by the use of the VERMIFUGE, and seventeenthly by the use of the VERMIFUGE, and eighteenthly by the use of the VERMIFUGE, and nineteenthly by the use of the VERMIFUGE, and twentiethly by the use of the VERMIFUGE, and twenty-firstly by the use of the VERMIFUGE, and twenty-secondly by the use of the VERMIFUGE, and twenty-thirdly by the use of the VERMIFUGE, and twenty-fourthly by the use of the VERMIFUGE, and twenty-fifthly by the use of the VERMIFUGE, and twenty-sixthly by the use of the VERMIFUGE, and twenty-seventhly by the use of the VERMIFUGE, and twenty-eighthly by the use of the VERMIFUGE, and twenty-ninthly by the use of the VERMIFUGE, and thirtiethly by the use of the VERMIFUGE, and thirty-firstly by the use of the VERMIFUGE, and thirty-secondly by the use of the VERMIFUGE, and thirty-thirdly by the use of the VERMIFUGE, and thirty-fourthly by the use of the VERMIFUGE, and thirty-fifthly by the use of the VERMIFUGE, and thirty-sixthly by the use of the VERMIFUGE, and thirty-seventhly by the use of the VERMIFUGE, and thirty-eighthly by the use of the VERMIFUGE, and thirty-ninthly by the use of the VERMIFUGE, and fortiethly by the use of the VERMIFUGE, and forty-firstly by the use of the VERMIFUGE, and forty-secondly by the use of the VERMIFUGE, and forty-thirdly by the use of the VERMIFUGE, and forty-fourthly by the use of the VERMIFUGE, and forty-fifthly by the use of the VERMIFUGE, and forty-sixthly by the use of the VERMIFUGE, and forty-seventhly by the use of the VERMIFUGE, and forty-eighthly by the use of the VERMIFUGE, and forty-ninthly by the use of the VERMIFUGE, and fiftiethly by the use of the VERMIFUGE, and fifty-firstly by the use of the VERMIFUGE, and fifty-secondly by the use of the VERMIFUGE, and fifty-thirdly by the use of the VERMIFUGE, and fifty-fourthly by the use of the VERMIFUGE, and fifty-fifthly by the use of the VERMIFUGE, and fifty-sixthly by the use of the VERMIFUGE, and fifty-seventhly by the use of the VERMIFUGE, and fifty-eighthly by the use of the VERMIFUGE, and fifty-ninthly by the use of the VERMIFUGE, and sixtiethly by the use of the VERMIFUGE, and
