er.

12 PAGES, PRICE TWO CENTS

THE ITALIAN SITUATION BRIGHTER

A MORE HOPEFUL FEELING AT ITALY'S HEADQUARTERS

German Couriers Have Arrived at Versailles.

PLENARY SESSION TO BE HELD ON MONDAY

PARIS, April 25.—German official couriers, in advance of the German delegation to the Peace congress, arrived at Versailles today.

Distinctly more hopeful and less irreconcilable feeling prevailed at the Italian headquarters today. No longer was there talk of a breach with the peace conference, but instead it was said: "All may be settled within a fortnight. Premier Orlando has gone to Rome to consult parliament. Thereafter we shall see."

A plenary session of the peace conference will be held Monday to consider the revised draft of the league of nations covenant and also such portions of the peace treaty as may be completed by that time. The session will be open to the public. It is understood that if the covenant is approved, it will immediately be made public.

WHERE THE ONTARIO LICENSE DEPARTMENT ENQUIRY ORIGINATED. View of the little village of Homer, Ontario, which has come into prominence as the place at which whiskey was seized at the time of the St. Catharines by-election. An effort has been made at the enquiry to link up the existence of liquor at this point with the recent election.

Unrest in Metal Trades Reported in Toronto

INVOLVES 6000 MEN AND 100 FIRMS

(Special to The Record)

TORONTO, April 25.—Unless negotiations are opened between the employers in the iron trades in Toronto and Metal Trades Council before May 1, the whole of the metal trades will call a general strike, which will involve over 6,000 mechanics and over 100 Toronto employers. The metal workers demand shorter hours and increased wages. This is the decision of the delegates to the metal trades council last night when the whole situation was discussed and the reply of the Toronto Employers Association, through Secretary J. G. Merrick, was presented to the meeting.

The dispute includes the pattern-makers, molders, machinists, boiler-makers, metal polishers and kindred trades in the iron industry. The delegates to the council last night decided to abide by the decision of the members in the metal trades to cease work on May 1 if negotiations are not opened by the employers. The situation at present looks very much like a general strike of the metal trades on May 1. Tomorrow night the boiler-makers meet to take the final steps in preparation. Next week the molders and machinists will do the same thing. The pattern-makers and some of the others have already taken all the necessary steps. Several of the international officers of the various unions will be in town next week to aid in the final stages of preparation.

Millicent Knowles, the Missing Girl Found

Disappeared From a Guelph Home.

GIRL IS AT Y. W. C. A. IN
BUFFALO.

(Special to The Record)
GUELPH, April 25.—"It is all right. She is found. She is staying at the Y. W. C. A. at Buffalo," said Mrs. Storey, wife of Admiral Storey of Halifax, from whose home Miss Millicent Knowles, the pretty young ward of Mrs. Gerald Borden of New York, disappeared under

Forty Four Boys Welcomed

Forty four returned men

were the recipients of an ad-
dress of welcome and five
dollar gold pieces at the
monthly meeting of the Prin-
cess of Wales Chapter, T. O.
& D. E., held yesterday after-
noon.

The Chapter gave expression to the unanimous desire that a suitable celebration should be provided on the occasion of the signing of the Peace Treaty. A committee was appointed to wait on Mayor Gross to ask him to request the City Council to take the necessary action, and they assured him of their cooperation and support.

The offer of the Kitchener Baseball Club to contribute the receipts on May 23rd and Empire Day, over and above the guarantee for patriotic purposes was accepted.

mysterious circumstances last Saturday.

Mrs. Storey when interviewed today said she had received a telegram from Miss Knowles from Buffalo, where she has presumably been staying since her disappearance.

"Did she give any reason why she left your home?" asked the reporter.

"None at all. She just said that she was in Buffalo," was the reply. "Do you know of any reason for her leaving?"

"No. I do not know of any. It was all very mysterious to us. I do not know Miss Knowles very well," continued Mrs. Storey. "I met her in Montreal and she is the daughter of an American. Her mother was English. She has some friends in Toronto whose names I don't know."

5,000,000 Persons Died of the "Flu" in India

LONDON, April 25.—Almost five million persons have died in British India from Spanish influenza and fully a million others are believed to have died in native states from the same cause, according to a report of the Indian government made public here.

Permanent Directors Have Been Elected

The permanent directors of the new Kitchener and Waterloo Manufacturers' Association were elected at a general meeting last evening when the by-laws were ratified. The officers will be elected by the directors in the near future.

The directors are as follows:
Messrs. W. E. Woelfle, H. Nyberg, F. Hodgins, city; J. S. Valen-
tine, E. Bauer, H. Snyder, Waterloo;
H. Nyberg, E. C. Kabel, George C.
H. Lang, J. H. Baetz, F. Ahrens,
city.

Toronto Favors Better Pay for Postal Clerks

WILL PETITION OTTAWA
(Special to The Record)
TORONTO, April 25.—Toronto Board of control decided today to add this city's voice to the petitions to the Ottawa government to give the postal clerks in eastern Canada as good pay as those in western Canada.

Head of Detectives Closely Cross-Examined

In Liquor Probe at Os- goode Hall.

DUNCAN BELIEVED SOLO-
MON'S STORY

(Special to The Record)
TORONTO, April 25.—Walter Dun-
can, erstwhile inspector of the Toron-
to detective force and now president
and general manager of Duncan's
detective work, was subjected to a
bitter, rapid fire cross examination,
this morning at the liquor probe
being heard by Chief Justice Sir
William Meredith at Osgoode Hall.

Mr. J. L. Monahan, counsel for
Mr. John Ayerast, chief inspector
of the Ontario License Board, drove
home with acidity the circumstances
surrounding Duncan's severance of
connection from the Toronto detec-
tive force, seemingly striving to bring
out that Duncan had been discor-
ded in the inquiry at the time of his
leaving the force.

Sir William Meredith time and
time again administered stern rebukes
to Duncan, cautioning him with such
remarks as: "Now don't hedge with
the questions" and "You should be
more careful, for a man in our
position."

The feature of the evidence was
the admission by Duncan of the fact
that the only reason why he had
believed Mr. Ayerast was to get a
share of the money received by the
men acting as liquor spotters
must have come to him from con-
versation with Solomon, one of his
operatives.

Italian Premier Left For Home Last Night

WAS ACCOMPANIED BY
OTHER DELEGATES

PARIS, (Thursday).—Premier Or-
lando, left Paris for Rome at 8:30
o'clock last night, accompanied by Sal-
vatore Barzilai, General Diaz and
two other members of the Italian
mission.

Czecho-Slovaks Attack City of Waitzen

FRENCH TROOPS ARE AIDING
RUMANIANS

GENEVA, (Thursday).—Czecho-
Slovak forces have attacked the city
of Waitzen, twenty miles northeast of
Budapest, which is expected soon to
fall.

French troops are said to be aiding
the Rumanians in their advance in
Eastern Hungary, according to ad-
vice received here from Vienna.
The Polish agency at Lausanne

Sparks at The Auto Exhibition

"There is no doubt but that the benefit of the show will be felt by all dealers. It is a good thing to have such an exhibition," Mr. H. E. Bra-
zier, Manager of the Service De-
partment of the Willys Overland
Limited, Toronto said regarding Kil-
chener's automobile event at the
auditorium.

"The effect of the show will be felt, especially in the vicinity. It has given all dealers a broader view and they have learned things they did not know before. It makes for a better spirit," he added.

Referring to features of automobile exhibits in general, Mr. Brazier incidentally alluded to the fact that the tendency of auto owners to use their car only one year is dying and that manufacturers' products are approaching a more permanent and fixed standard of models. The result, he said, is that cars several years had made for a more healthy state in the automobile business.

While here Mr. Brazier visited with Messrs. A. Lockhart and Co., the local agents for the company. Mr. Brazier is confident of the success of the new Overland Four which is a feature at the exhibit of the Overland company.

The Canadian General Electric Co., Ltd., are showing a splendid line of appliances. These include spark plugs, lamps, batteries and diverse other articles. The exhibit is a very attractive one and has been favorably commented on by many.

Among the attendants at the show agents for the same companies, who are with Mr. H. J. Hambrecht, the local agent, are Mr. N. Steinman, of Baden, Mr. A. Jennerette of Elmhurst, and Mr. Wm. Hunter of Galt, all representing the Maxwell and Chalmers companies. Mr. A. Hedrick of Windsor chief salesman of the same companies also was a visitor here.

It is sometimes said that eight out of every ten people are color blind. It would seem so, to judge by the opinions of a handsome McLaughlin model "French blue" "Mist of the Marne," "Mist of the Marne Green," and so forth are a few of the remarks overheard among spectators at the cars.

A feature at the show is the tea room provided by the Daughters of the Empire.

The phrase "a baker's dozen" or commonly known as thirteen, is said to have originated in Italy, though there it is called "a cobbler's dozen". There is a tradition that in Italy there was formerly a law compelling cobblers to put twelve nails round the edge of a boot-heel and that when the nails were cheap a thirteenth was to be driven in the centre for luck.

One of the last of the Fenian Raid veterans passed away in Owen Sound in the person of John A. Cornett, 79.

TABBY CAT MOTHER-
ING TWO LITTLE
BLACK FOXES

CHATHAM, April 24.—An interesting story has just come to Chatham from the Ruckle fox farm, near Thamesville, where a tabby cat is mothering two little black foxes which were in danger of being destroyed by their own mother until Mr. Ruckle rescued them and added them to the tabby family. They are reported to be doing nicely.

CABLE NEWS In Tabloid Form

PRINCESS MARY'S BIRTHDAY
LONDON, April 25.—Princess Mary, the only daughter of the King and Queen of England, is 22 years old today, and flags are flying throughout England in her honor. She has been one of the most active of war workers.

War Bread Basis May be Reinstated

WORLD MAY BE UNDER IT
FOR NEXT THREE
MONTHS

PARIS, April 25.—An increase in milling percentage, which will virtually put the world back to war bread for the next three months, is part of a program adopted by the Supreme Food Council, under the chairmanship of Herbert C. Hoover.

Sarnia Housing Plans are Ready

COMMISSIONERS WORK OUT
VALUES, RENTS AND LENGTH
OF PAYMENT.

Sarnia, April 25.—Mayor William T. Nesbitt and M.A. Sanders, two members of the Housing Commission, of which W.D. Giffert is third member, have returned from Toronto, where they interviewed J.A. Ellis, director of the Provincial Housing Commission, and they are now in a position to receive applications for the erection of houses as provided in the by-law passed by the City Council adopting the Ontario Housing Act. The scheme of the Housing Commission embodies two plans by which homes may be erected first, where a man owns a lot he may have a house erected on it and may pay for same over a period of twenty years; secondly where he does not own a lot the commission will erect a home for him and give him an opportunity of paying for both house and lot. The amount of monthly payments will vary with the cost of dwelling, but the following figures will give some idea of what is possible. On a house costing \$3,000 the monthly payments will be approximately \$20. On a house costing \$2,000 the monthly payments will be about \$13.50, and on a house costing \$1,000 about \$8.50. A table of rates is being prepared by provincial authorities, and will be in the hands of the local commission at an early date and application forms will also be ready within a short time. The figures given above are about the same as a man would have to pay for the rent of a house here, but under the housing plan at the end of twenty years he owns the home.

Returned After a Long Period Overseas

Pte. Ion Voelker has returned after being a long period in France. He arrived on the 6:16 train last evening, where he was met by his parents and the Patriotic Committee. Pte. Voelker was also welcomed in London with the First Division forces, to which unit he was transferred, from the 118th Battalion. He enlisted in this city with the 118th and went overseas with his brother, Pte. Harold, who was wounded and is now in Toronto, being paralyzed in the legs. Pte. Ion is in the best of condition, having gone through the fight without a scratch. He left today for Toronto, where he will visit his brother, who is in the Hospital. He also stated he was glad to get back to this city and his friends.

Rev. Charles Patterson, Toronto, has accepted the call to Bethel Congregational Church at Kingston.

The Exhibit by the Evening Classes at the Collegiate

Splendid Samples of Work Done in Clay Modell- ling, Millinery, Wicker Work and Sewing.

Again the citizens have an opportunity to see the good results of the evening classes conducted by the Advisory Industrial Committee and the Public School Board. The annual exhibit is being held at the Collegiate Institute. It opened last evening and will continue until this evening.

Coming into the assembly hall of the building one beholds the handsome wicker and basket work and the clay modelling specimen. Across the way in the domestic science department are to be seen the nifty dresses made by the sewing classes, the results of instructions in home cooking and an additional exhibit of wickerwork. A brief reference to each.

The clay modelling articles indicate that the students are receiving a benefit from their instruction. They have all the features which go to make a good work of art. Mr. Fred Schmidt, the instructor, deserves credit for the work, and also commendation is due the students for their success. All the exhibits are excellent and draw the attention of the observer.

Prize Winners
A feature, commendable it is, is the awarding of prizes to the students in the clay-modelling class. The winners of the prizes are first, Miss Edna Paetz; second, Miss Elsie Poehlman; third, Mr. Oscar Schmidt; fourth, Miss Lily Schmidt.

The Wicker Work
Wonderful wickerwork has been done by the class which is in charge of Miss Noecker. The articles shown in the assembly hall are valued at from \$1400 to \$1500. They include waste paper baskets, trays, fruit baskets, fern stands, lamp stands and shades and other articles. One of the lamp stands particularly arouses interest and admiration. In a supplementary exhibit in the room across the corridor there are dinner wagons and stands.

Miss Noecker also has an exhibit of home cooking and table setting. Relishing and inviting are the foods on the table. The exhibit shows portions of various examples of foods each of which supplies the body with one hundred calories of heat. The exhibit therefore fulfills a purpose of instruction in health as far as diet is concerned.

The Millinery Exhibit
An exhibit of work in millinery is also noted. Handsome hats made by the students, featured by attractive designs and good workmanship, are exhibited. The instructor is Mrs. Ruffer. The success of her efforts is self evident.

The Sewing Classes
As to the sewing classes which have been held in Victoria School whose work also is being exhibited at the Collegiate, the articles speak for themselves. Apparently many more ladies have received instruction in sewing which is proving invaluable. The instructors, Miss Krueger and Miss Chesney and their assistants, must have a sense of satisfaction when they see their students' accomplishments. The articles include skirts, dresses, aprons, lingerie, housedresses, everyday frocks and so forth. They are featured by fine work. Hem stitching, crochet work and embroidery work done in a skillful way are noticeable.

The whole exhibit this year demonstrates that the work in the evening classes this year has reached the high standard of former years. The public will have another opportunity this evening to view the display.

IN MEMORY OF LIEUT.-COLONEL JOHN McCRAE. The above memorial tablet to the author of "In Flanders Fields" is being put up inside the front entrance of the main building, University of Toronto, alongside the University honor roll. On the cross are the words of the famous poem. The late Colonel McCrae graduated in 1904.

WATERLOO NEWS RECORD

Pies Chas. Krentzweiser, A. Pym, F. Trimbler, H. Garner, J. Laurie and G. Crinkshank were accorded a real warm welcome home yesterday and today are receiving the congratulations of their friends on their safe return. The boys returned at different times during the day and while it was unaccountably cold the reception committee and many citizens met every train to make sure that not a boy was missed. The reception was enthusiastic and all the boys were glad to get home. It is pleasing to note the fine healthy appearance of the returned heroes.

Mr. and Mrs. A.E. Sanderson are visitors to Toronto today.

The cold weather has put a crimp in business it being practically at a standstill.

Running with lights out and passing street cars seems to be the main offense against Antioists and every few days some are called upon to settle for this offense. The usual fine of \$1.00 and costs have been assessed and paid without argument.

Mr. H. Rutledge of Hamilton was a business visitor in town yesterday.

Mr. and Mrs. R. Anson of Stratford have returned home after spending several days with friends in town.

The weather has taken a decided change and snow flurries have been the order of the day. Cool weather will likely continue until the moon changes when we can hope for warmer weather.

Sturm Bros have had their Bowling Alleys removed and a number of new billiard tables have taken their place which makes their billiard and pool parlors as good as any in the twin city.

Among the boys who returned home from overseas yesterday was Lieut. Harry Garner who is today receiving the congratulations of his many friends on his safe return. He looks fine and dandy and glad to get home.

ST. QUENTIN CHAPTER HOLD SOCIAL EVENT

A most successful social evening was held last night at the Orpheus Hall when St. Quentin Chapter I.O.O.F. were at home to their twin city friends. The attendance was exceedingly gratifying and those present enjoyed themselves to the fullest extent. There was cards and dancing the music being supplied by Kruger orchestra in their usual high artistic style. A dainty lunch was served and the delightful event was brought to a close by the singing of the national anthem.

For Sale—One iron bed, refrigerator, two burner automatic coal oil stove, one iron kettle. Apply 25 South Cedar St. 4-24-2ts.

THINGS THAT NEVER HAPPEN

"First of All, Reliability"

For years we've been operating this store under that policy--and, this season it's particularly important.

This season, as in all other seasons, reliability characterizes our clothing---reliability means clothes that "stand up" that's the only kind worth owning.

But we haven't stopped at reliability --- we've coupled it with value and

the combination will result in another season of great popularity for us.

The man or young man who spends wisely is invited to view our Spring exhibit of 'reliable clothing.

Prices range from \$5.00 up.

Woolstock Gets Busy To Build New Homes

Regarding the new housing commission in Woolstock the Sentinel Review says:—"The local Housing Commission consisting of Chairman Ben Gale R.W. McPherson and Mayor Gahagan met this morning and organized for carrying out the details of the Ontario Housing Act as it applies to Woolstock. John McBerth was appointed secretary of the Commission and will assume the duties of that office on Friday when the new office at 9 Graham street will be open for business.
For guidance of the commission in dealing with all applications for grants under the Housing Act, a form has been drawn up covering all the main conditions to be met by the applicant and all data required by the department relative to the prospective builder, his intentions, etc. These forms will be available at the office of the commission on Friday and all who intend to build according to the provisions of the Housing Plan, are requested to first get one of these forms and have it properly filled out. The secretary will be at the office of the commission, each day, beginning Friday from 9.30 a.m. to 4 o'clock in the afternoon. For the convenience of those who wish to get their plans under way immediately the office will be open from 7.30 to 9.30 on Friday and Saturday evenings.
It is most important that all prospective builders become thoroughly acquainted with the conditions of the act and get full information on the complete building scheme before they go ahead with their plans. This will prevent all possible misunderstanding and will greatly facilitate matters both for the individual builder and the commission. Complete data will be available at the office of the commission at all times.
The office will be on hand at the above hours to supply full information and the public is requested to take full advantage of the facilities offered.

AN INGERSOLL REPORT

"The Ingersoll Housing Commission yesterday visited Brantford and Simcoe, looking over houses and lands in the hope of gathering data and information which may be of assistance to them in their summer's work here.
The Commissioners are very much impressed with what they saw and heard. For instance the town of Simcoe during the past seven or eight years, has built several hundreds of houses, ranging in value all the way from \$1,500 to \$12,000 and \$15,000. They saw where ten acres of land had been purchased for building at \$10,000.
The commission also in the course of their trip saw where forty acres of land had been bought in the country for \$40,000 and saw lots forty feet wide and a hundred and five feet in depth which sold five years ago at \$1,000 each. The result of the trip was that the commission returned to Ingersoll pleased, if possible, more than ever with the purchase they made here.
In fact, one real estate man in Brantford when told of the purchase and how closely the land was situated to the front street, asked if any more could be bought at double the price paid for this. This is an indication of how real estate men thoroughly conversant with property values regard the transaction of the local commission.

Other Exhibits at Automobile Show

A splendid exhibit of cars is that by Mr. S. E. Bowman, the Chevrolet representative. Five beautiful cars are being displayed in addition to a Chevrolet truck and an International Truck. In the Chevrolet exhibit is one particularly handsome model at \$1600 which has attracted the attention of all viewers of the exhibit.
The International truck is a ten and half machine. It is of substantial construction, a noticeable feature is that it is on a style necessitating the fan being behind the engine.
Outside representatives who have been here this week are Mr. Host of Oshawa of the Chevrolet company and Mr. Wright of London, Ont., representing the International truck manufacturers of Chicago.

Dobbin's garage is showing two attractive Saxon cars, a number of motorcycles and bicycles. The machines on display appeal to the passerby and many enquiries are made by interested parties.

The firm of Ellis and Howard, the well-known electrical house of this city have a fine exhibit. They are displaying batteries and diverse articles in the electric line. A special feature are two washing machines which are run by electric power. The machines when running for demonstration purposes have aroused the interest of many housewives and homeowners who pass by.

The Twin City Vulcanizing Company have an interesting display. Among other points impressed is that of their efficient method of retreating tires by the single cure and the double tread process.

Besides these here is a demonstration adjoining it of the Hart-Bell motor cleaner.

A variety of automobile sundries are shown by the Electric Repair Co. The articles of this firm are brilliantly and attractively arranged. The exhibitors allude to their storage battery, service station, their specialty as electric winders and motor repairers.

Mr. George E. Potter has an attractive exhibit of tires, automobile appliances and tools, and other accessories.

An interesting exhibit is that of the Reliable Welding Co., city. Many an attendant enjoys the opportunity to see the welding by the oxy-acety-

MENTAL PICTURE GALLERY

I saw a pool, a shadowed pool
Where cool lipped lilies grew;
And there a little path, my dear
Of rosemary and rue—E.T.W.
Can't you almost see that picture?
The poet had it stored away in her mental picture gallery. One day when she was happy she saw the cool lipped lilies, and the shadowed pool so refreshing and tranquil; she gathered up the picture and hung it on memory's wall. A cool sweet, ever green picture that defies the cobwebs of time.
Have you got a mental picture gallery; a wall where on you hung sweet spots of earth that you have seen? The mountain stream where you rested and watched the sheep in the valley; or the little corner you stumbled upon one morning, just before the sleepy flowers had shaken the dew from their eyes. Have you hung them away where you can see them again? Or are the walls hung with cobwebs?
Not only in the woodland, or by the stream mat you gather nature's masterpieces for your collection; on a busy street corner you may catch a glimpse of heavenly joy in a young lover's eye; you may see a rosy child at play, or behold an eager young puppy trying to bury his first bone. Love, contentment, and triumph. They are every where portrayed for you, if you have the understanding heart, and the observing eye.
If you have not, you are missing a great joy, and life to you is merely a race with nothing gained at the end; for aught you know violets grow on trees and roses are grey and lambs walk like Quakers.
His FLESH HORRIBLY BURNED.
His druggist sold him a cheap acid corn cure, what he should have bought was Putnam's Corn Extractor; it's purely vegetable and acts in 24 hours. Insist on only "Putnam's Extractor" 25c at all dealers

SALIENT POINTS OF SCHOOL ATTENDANCE ACT

One of our readers, who lives in an industrial town in the North Riding and has been closely following reports on the new School Act, asks, Whether the provincial authorities have taken into consideration the fact that the majority of workmen, who have boys over 14 years of age, are obliged by the high cost of living to send them to work?

This is a practical question from a practical man. When a boy reaches fourteen and there are no continuation classes nor a high school in the community in which he lives, it is better for him that he enter upon some useful employment. This holds good in normal as well as in abnormal times.

The majority of parents in this thrifty riding have been able to make ends meet only by employing all the resources of their households. It accounts in a large measure for their having been able successfully to turn the corner. These would be right in viewing with some misgiving any change which would make a break in the family income, even to the extent of 400 hours for boys and girls of from 14 to 16 and of 320 hours per annum from 16 to 18 years.

Allowing 40 weeks as covering the school year, it would mean 10 hours for those of 14 to 16 and 8 hours per week for those of 16 to 18 years of age.

The terms of the Act do not apply to every child: "Where, in the opinion of the school attendance officer, the services of an adolescent between fourteen and sixteen years of age are required in some permitted gainful occupation for the necessary maintenance of such adolescent or some person dependent upon him, he may be granted by an attendance officer, on the written application of his parent or guardian, an employment certificate to engage in such services."

This takes into account the necessities of a family. Whenever it can be shown that its circumstances are such that an adolescent's services are needed to help sustain it, he would be exempt from the terms of the Act.

So far as this particular questioner is concerned, the Act does not apply to any urban municipality of less than 3000 population.

Since the point raised by him is of general concern, it will be of interest to learn that the new Act will not come into force until a proclamation is issued by the Lieutenant-Governor in Council. And this will not be done until preparations have been made. These include the building of schools and the training of teachers.

Presumably, the more progressive industrial centers will first make these preparations and probably will follow the lines laid down in the Industrial Education Act, providing courses of study for adolescents engaged in or about to engage in trades or in industrial or manufacturing occupations. To do this will require time. Probably several years. It is conceivable that by the time these occupational schools and courses are ready, those boys and girls, or the majority of them, will have passed their sixteenth if not eighteenth year. Seeing that this new school act will in a sense be revolutionary in its effects, it will not be adopted in haste nor any attempt made to swallow it all in one dose.

Were it, however, adopted within twelve months by any forward-looking community, Clause 15 of the Act is worth careful consideration. This reads:

The time spent by an adolescent in attendance at part-time courses of instruction shall be reckoned as a part of the number of hours per day or week that such adolescent may be lawfully employed.

It is probably a fair construction to place on this clause to say that the 10 hours spent by a boy or girl of 14 to 16 and the 8 hours per week of those between 16 and 18, is to be considered as though they were at work for the full week. If so, no deduction in their pay would be made for the time they spent at school.

Employers are just as keen to increase the technical or occupational knowledge of their employees as are the employees or their parents. In fact they are urging the establishment of such schools. Does it not follow that the time which adolescents in their employment would spend at such schools would be regarded as part of their shop training? That the majority of employers would sum it up as a case where the community would provide the schools, the courses and the teachers and the employer will bear the expense of sending the beginner in industry to these classes?

KEEP UP THE WORK

Hardly is the breath of life kept in any great national effort. Enthusiasm generated by voluntary cause is effervescent. Repatriation, though both a national and an individual problem, is subjected to this rule of life. Yet, the spirit must be kept strong, for the returned man has a paramount claim upon his country.

Eager humanity must be prevented from slow petrification and creatures of flesh and blood must not be treated as machines merely, through the business-like methods of departments. Workers for the cause must preserve their keenness and refrain from all semblance of formal attitudes. All this though man is rarely constituted to deal out sympathy and helpfulness wholesale.

The need for breadth and living sympathy to the returned man is imperative. It is hard to criticize a disabled soldier making an attempt to get on terms with life again if he is exasperated by the lack of breadth and sympathy.

The gods have been very good to those who by accident stayed at home, and very ill to those who went out to fight. Every citizen who does anything for returned men can at least do it patiently, ungrudgingly and with a real desire to forestall their wants; for, otherwise, he is weighed in the balance and found to be base metal. The spirit in which citizens try to serve those who have truly served them should never change.

It may be that in the hearts of many men injured in the war there burns a feeling that the country they served is grudging them a fair recovery and a decent living. The country is not grudging it to them, but there is so much delay, deferred hope and so many sick hearts, that it may often seem so.

The disabled man may often be impatient and restive. Can it be because of the life he has lived dur-

ing the past four years? So much the more need for patience and sympathy in those who want to help him. Understanding is what he wants more even than he wants larger pensions and better allowances. He wants to feel that those whose duty and pleasure it is to deal with his case realize the nature of that case in terms of human emotion; that to get a training for him, may mean all the difference between an interesting future and blank drudgery; that to go back under a doctor who has begun his cure and gained his confidence would be half the battle of recovery.

In this machine-ruled world, where everyone strikes an attitude of facts and figures, all the broad humanism that can be got is needed, so that when a returned man comes into an office or an institution he may always feel friendliness about him and know that he will be treated, not in accordance with the letter but with the spirit of the law.

Keep up the work in the proper spirit.

BY THE WAY

Among the men in the public eye, Christian Jans Smuts, of South Africa, has gained foremost rank. A paper presented last December by him had much to do with the decision to form a League of Nations and the lines it should follow.

A city reader who likes an afternoon's sport with a fishing rod, points out, very sensibly we think, that the local authorities should not confine their efforts to stocking private preserves with trout and bass fry but should also stock the Grand river and other streams with bass, pike and pickerel. In support of this he points to the success attending an effort of this kind in the river Nith. It seems worth trying and would please hundreds of local fishermen.

WAIT A MINUTE

FIFTY YEARS OF HAMPTON INSTITUTE

This year marks the fiftieth anniversary of the founding of Hampton Institute, and the semi-centennial is to be celebrated with appropriate ceremonies next month. The plans for the celebration cover the first two days of May, and comprise the dedication of an auditorium erected in memory of Robert C. Ogden, for many years president of the board of trustees, and addresses by Dr. William H. Taft, the present head of the board, Chancellor Kirkland of Vanderbilt University, Isaac Fisher of Fisk University, Rev. Dr. M. Ashby Jones of Atlanta, Dr. R. R. Moton, president of Tuskegee Institute, and others.

The semi-centennial of Hampton Institute is noteworthy. It is the oldest and still one of the foremost industrial schools in America where men and women of the negro, Indian and other dependent races can learn practical trades by which to support themselves, and from which teachers are sent out to all parts to become instructors among their own people. In fifty years the institute has sent out more than ten thousand graduates and undergraduates to carry the "Hampton spirit" of labor and service into the world, and the carefully kept records show that more than eighty per cent. have kept the faith.

It was Gen. Samuel Chapman Armstrong who at the close of the war between the States conceived the idea of a practical education for the negro and saw his dream come true in Hampton Institute. Gen. Armstrong was born in an environment that made it easy for him to understand the emotional and simple negro race. His father, who was of Scotch-Irish ancestry, went from Pennsylvania as a missionary to the Hawaiian Islands, and was minister of education there for many years. When the call came for troops in the civil war the younger Armstrong left Williams College and joined the Federal army. At the close of the war he was placed in charge of the Freedmen's Bureau district that embraced the ten counties about Hampton. Here it was that he realized the desperate need of the freed negroes and the urgent necessity for giving them a practical training so that they might earn their livelihood.

The American Missionary Association came to Gen. Armstrong's aid, having faith in his views. Land was purchased on the shore of Hampton Roads—and the Hampton Institute began. The first man asked to take charge of it declined, and then Gen. Armstrong was asked, and accepted the trust at once. He lived to see the institute grow and prosper and to develop into a strong factor toward the solution of the race problem in the South.

Next to Gen. Armstrong, the genius who founded the school, Hampton owes its deepest debt of gratitude to the late Dr. Hollis Burke Frissell, who became principal of the institute following the death of Gen. Armstrong in 1893 and continued to direct its destinies for nearly a quarter of a century. In the late Robert C. Ogden, millionaire merchant and philanthropist of New York, Hampton also had a friend who gave freely of his means and labored long and faithfully for the development of the institution. Mr. Ogden was closely associated with Gen. Armstrong, the founder, whom he succeeded as president of the board of trustees.

The valuable work accomplished at Hampton during the half century of its existence needs little mention, for its record commands the attention of the world. In the industrial village into which the institute has developed hundreds of negro youth of both sexes are being taught not alone to labor skillfully in field and shop, in home and workshop, but to understand the dignity of labor and the honor of service. All over the South there have sprung up schools, great and small, modeled after Hampton, and directed by Hampton graduates. It was at Hampton that the late Booker T. Washington acquired the training which enabled him to make a wonderful success of the Tuskegee Institute in Alabama.

Hampton, since 1876, has always had a fair proportion of Indian students, and the institute's work for the red man has gone hand in hand with its labors for the negro.

"IN THE DAY'S NEWS"

To-day is the forty-fifth birthday of Signor Guglielmo Marconi, who has accomplished such wonders with his wireless telegraphy. Signor Marconi is half Italian, half Irish, his mother being an Irishwoman. He was born in Italy and was educated at Leghorn, and at the University of Bologna, where he made his first experiments in wireless telegraphy when he was but twenty years old. The success of his system proved rapid. In 1896 he was able to transmit messages across the mouth of the Severn River, and in another three years the first wireless communication was established between England and France. Two years later messages were sent over a distance of 2100 miles, from Cornwall to Newfoundland. Marconi's wireless has long become a commonplace of everyday life, and most of the great shipping companies as well as the navies of the world now use the system.

Didn't Have Well Day in Five Years

Toronto Man Says Tanlac Has Given Him A New Lease on Life.

"I went five long years without enjoying a well day till I started taking Tanlac," said Harvey Hamilton, of 4 Gloucester St., Toronto, Ontario. "Five years ago," he continued, "I had a severe attack of pneumonia which left me in a badly rundown condition. I lost weight till I was almost a shadow. I had no life nor energy and could sleep but a few hours at night. I lost my appetite, and the little I did eat soured. I had pain in my stomach and sides and often had dizzy spells and I would feel so weak and played out I'd have to cut out working."

"I was in this fix when I read of a man who had been relieved of a trouble like mine by taking Tanlac, so I decided to try it, and feel like I have taken a new lease on life. I have a fine appetite eat three square meals a day and have no trouble afterwards. Gas has disappeared, on my stomach, the pains have disappeared, I sleep like a log, and have gained six pounds feel better all over, and my work is no longer a burden, but is a pleasure to me."

Tanlac is sold in Kitchener by E. O. Ritz & Co., in Galt by R. W. McKelham, in Hespeler by Jno. R. Pihl, in New Hamburg by W. J. Boullie, in Milbank by R. B. Hamilton, in West Montrose by A. E. Richert & Co., in Preston by H. L. Friel, in Waterloo by A. B. Learn, in Doon by L. C. Bullock.

Woman's Hair Reaches to Knees

A Year Ago was Threatened with Baldness. Tells How She Made Her Hair Grow.

Mrs. Esther Emery now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when loosened from its coil falls to her knees. Moreover it is of soft silky and fluffy texture and in color a glorious, glossy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time she said:

"Twelve months ago my hair which, then reached barely to my shoulder, was falling out at an alarming rate and growing very thin, actually exposing the bald scalp in several spots. It was dull and lifeless in color, turning grey in patches and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried fully a dozen different hair tonics, but they never did me a bit of good. On day I happened to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well-known physician. It said to take ordinary Lavona de Compose and mix with Bay Rum and Menthyl Crystals and applying to the scalp each night with the finger tips that hair would grow very rapidly. I decided to try it and had my druggist mix 2 ounces of the Lavona de Compose with 6 oz. of Bay Rum and 1 dr. of Menthyl Crystals and started to use it. My hair quickly began to grow. First the hair stopped falling, the itching ceased and the dandruff disappeared. Then tiny little hairs appeared all over my scalp. These grew and grew as though nothing would ever stop them. They are growing yet and while of course, I have used the treatment steadily and expect to continue it, at least until my hair reaches the floor, I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get along, thick, beautiful hair by using this prescription as I have recommended it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it."

Those who use it should be careful not to get it on the face or where the hair is not desired.

Liberals to Honor Dr. Beland in Toronto

WHO STANDS FOR CLOSER UNION BETWEEN ONTARIO AND QUEBEC

(Special to The Record)
TORONTO, April 25.—Liberals here are meeting to-morrow night at 7 o'clock to honor Hon. Dr. Henri Beland, M. P. for Beauport, at the Ontario Club. Dr. Beland is a former postmaster-general, who was in the Belgian army, and a prisoner of war for a long time, and is looked upon as a power in bringing about a full union of spirit between Ontario and Quebec.

New Date To Be Set For the Execution

ACTION TO OBTAIN NEW TRIAL FOR McCULLOUGH

OTTAWA, April 24.—Frank McCullough, the escaped murderer from Toronto, is not captured before the

First Class Food for an appetite like mine.
says Bobby

date set for his execution a reprieve will be granted by the courts, extending the date for the execution. The matter has been before the justice department, but the action will be taken within the next two weeks by the provincial authorities. The trial judge or any judge of the same court may grant a reprieve for any cause. This would mean simply fixing another date for the execution. The process can be repeated from time to time and in this way, if the man be caught, a new trial would be obtained.

There were numerous petitions for clemency to McCullough and asking commutation of the sentence to life imprisonment. The head of the clemency branch said to-day that the escape of the condemned man has suspended consideration of the matter and added that "for the time being McCullough has forfeited any claim for consideration on the score of clemency."

German Forces Attack Munich

WURTEMBERG TROOPS ADVANCE UNDER COVER THE ARTILLERY FIRE

London, April 22.—An attack on Munich by Wurtemberg troops launched under cover of artillery fire from all around the city is reported in a Geneva dispatch forwarded by the Exchange Telegraph correspondent in Paris.

The date of the reported attack is not indicated but the message apparently is a belated one. Munich advices received in London Monday reported the collapse of the Soviet Government in Munich to have occurred on Saturday night, with the Government of Premier Hoffman resuming judicial control of the capital on Sunday morning by proclaiming martial law.

A country densely populated as India is with its 320,000,000 of people, must have terrible suffering, as no help can come until next September or October, unless those who are more fortunately situated send and confine to send all help possible.

The Government of India are establishing stations and doing their utmost to cope with the situation, but the conditions have got altogether beyond them. They are calling in missionaries and others and placing them on relief committees to help cope with the conditions.

The Times of India states that the poor of India have eaten all their food and that this famine is an all-India affair. It means that, at the most conservative estimate, 10,000,000 of people are continually hungry and growing weaker daily.

Lithuania, which asks for its recognition as a free nation on the basis of the declared war aims of the Allies and of the United States, has a population of 6,000,000 and is geographically larger than Switzerland and Denmark combined. In the fourteenth, fifteenth, and partly in the sixteenth centuries Lithuania was the largest state in Europe.

Under- Currents By The Duchess

of Mr. Peyton to come! He must know how Uncle Gregory would regard him, or any one's presence here."
"His especially. But as I told him half an hour ago, I tell you now, he was unfortunately born without a grain of sense. Never mind I have to thank him, in that through his coming I was able to outwit the lively Grunch. But darling, how ill you look! Oh, Vera I do believe you are letting that old man's insolence prey upon you!"
"I don't know what is the matter with me. My brain seems on fire sometimes. How cruel, how cruel, a thing it is for parents to bring children into the world, and then to die and leave them there unprotected at the mercy of strangers!"
"That is true"—slowly. "There is a great comfort in that thought. Death as you say, is always near us. It may reach us at any moment, and save us from the trouble."
"Indeed!" indignantly. "I said nothing of the kind. Catch me wanting to die. I think I see myself. And as for you my good child you look like living for many a day in spite of your dismal expression!"
"One can't be sure; our mother died young. Happy mother!" sighs Vera forlornly.
"Rubbish!" cried Griselda with more force than elegance. "It is maddening to hear you. See now, if Death were to walk in here, this instant, bony arms, sickle, eyeless sockets and all the other regulation charms complete, I can just imagine the squeal that would follow. You are posing as one of those wretched heroines one meets with in books, who always cries aloud on kindly death to take her whenever she has so much as a pain in her big toe!"
"My dear Griselda. Really anything so graphic to put it calmly."
"Well, I haven't patience with the die-away lot. And after all, there isn't the remotest fear of your being forced into a marriage with—that man! It isn't the ego for that sort of thing. One is quite independent enough now to be able to shout a good sound 'No.' at the altar even if compelled to go so far and there is always the law after that. And besides let the worst come to the worst, let us suppose that terrible uncle of ours should be able to persuade you into accepting his son; why, rather than permit you to be sacrificed, I would—ironically—" sacrifice myself and marry Tom Peyton!"
"How would that help us?"
"Why if I were to be driven for your sake into marriage with him, that would secure a home for you, as well as for me."
"But why should you be sacrificed? Surely such an end is as bad for you as for me!"
"I am the stronger; I feel I could bear up under an adverse lot better than you could," says Griselda with a far away, high and mighty look.
"Oh, no darling," says Vera quite touched. "And besides," falling back into the original gloom. "Perhaps Mr. Peyton doesn't want to marry you!"
This suggestion is received with marked disfavour.
"Oh, doesn't he?" says Griselda, getting up from her seat, as though still in a hurry not to be bothered.
"That's all you know about it. You are very much out of it, if you think that. He—he would marry me to-morrow if I would let him."
"How do you know? How can one believe in any one?"
"I can believe in him," says Griselda stoutly. "If you only say him—as I do—you would know."
"You are a lucky girl!" says Vera. "To know that someone really cares whether one lives or dies is a great matter!"
"Oh, he cares," says Griselda. "Then you ought to be happy."
"Well, I don't know really."
"With a little laugh—"I think I'd like him better if he wasn't so awfully silly, that is, in earnest, don't you know? Now what do you think he said to day? That he—must be the absurdity of it!—that he honestly believed I hadn't a fault in the world! That was a little too much eh?"
"I do know," I like it. I call that being a good lover," says Vera thoughtfully.
"Perhaps you would have told him so. For me, I said, 'Heaven give you success! I hope it will!'"
"What sense would you give him? Sense to see your faults? After all, you are well matched. Like him, I begin to think you haven't a grain of sense yourself. And a word, Griselda; tell me this, are you in love with him?"
"Well, that's it I don't know. I wish I did. I've been thinking Vera, that is an excellent thing to have been in love with some one before, then you know all about it the second time, and you can tell when the attack is coming on. I shall know next time."
Oh, could Peyton have only heard her!
"Perhaps there won't be any next time. If you do like him, I hope not!"
"Just so, but do I? That's what I can't find out!"
"I think—I think I should know if I were in love," says Vera, dreamily.
"You have a doubt about it, nevertheless? I tell you it is the most difficult thing in the world. When I'm not with him, I want to see him, yet when I see him, I feel that I don't want him. Bye the by—"as if struck by a sudden thought—"of something tells me Seaton will come today."
"Now that you can't see him, do you want him too?" says Vera with a smile. "Well, I hope your instinct will prove false here!" She puts her hand to her brow and presses it tightly. "I have such a headache!" she says wearily.
"Lie down. Here let me tuck you up. Poor darling you do look wretched. Some Eau de Cologne on her head!" cooing. "Yes, do, I have some still, a remnant of mine. I wonder if we have, begun to look poor? If that dread wedding 'once in a lifetime, now reduced' is graven upon our foreheads? Thank Heaven our clothes still hang together, and give us a touch of respectability, but when they fall apart, seem from seams, how shall we go then? In long bags with holes cut out for our arms? The early Britons will be fools to us. There, now isn't that doing your head good?"

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Purge Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by A. J. Ross in Kitchener and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance, the appearance, the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION!—Although bitro-phosphate is unsurpassed in its curative nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Girls! Draw a Moist Cloth Through Hair, Double Its Beauty

Try this! Hair gets thick, glossy and beautiful at once

Immediate?—Yes! Certain!—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time! This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments your hair will be doubled in beauty. A delightful surprise awaits those whose hair has been neglected or is ragged, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses and invigorates the scalp, forever stopping itching and falling hair, but which your hair, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knoll's Danderine from any drug store or toilet counter for a few cents.

Acids in Stomach Cause Indigestion

Create Gas Sourness and Pain How to Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food soon causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people with excellent results.

Report Many Cases of Rheumatism Now

Says we must keep feet dry; avoid exposure and eat less meat. Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxins, called uric acid, which is generated in the bowels, and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of this impurity.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

New Spring Waists

The excellent qualities and lovely styles of these new spring waists will attract you, you will be pleased with the diversity of models provided, and pleased with the perfection of fit and style possessed by each waist in the collection. Moreover you will be pleased with the values offered.

STOP LOOK and LISTEN
before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

Big Hydro Radial Meet Was Held at Guelph

Federal Government Is Asked To Turn Over Branch Lines

SIR ADAM BECK CONDEMNED
INTERFERENCE

Guelph April 24.—All Hydro gurus were ranged on Ottawa from the Hydro-radial meeting to the Regent Theatre here today. Primarily the 200 representatives of Hydro radial municipalities assembled to ask the Dominion Government to turn over to the people for electrification the branch lines of the G.T.R. and C.N.R. but Sir Adam Beck called to their attention Hon. Dr. Reid's statement in the House concerning Federal development of the St. Lawrence power for railway purposes, and then he went on in vehement terms to tell both the meeting and the honorarium doctor at Ottawa what he thought of such "unwarranted interference" with Provincial rights. After he concluded Mr. Sam Carter, M.P., wanted to start a new party. The same opposition.

In opening his address Sir Adam said that while the work on Hydro developments had entailed many years' labor on the part of its supporters no one could say that the power enterprise had not been an unqualified success. Hydro-radials, he prophesied, would meet with the same degree of success. "The same opposition," he said, "is still in evidence. It always seems to be present—no matter what effort you make, and no matter in what district the effort is made there is that constant and ever present opposition. It is probably only natural that the interests affected should endeavor to balk the possibility of going on with the Hydro-radial scheme." Scores Harris and Bradshaw.

He referred briefly to the recent contest on the floor of the City Council and of Commissioners Harris and Bradshaw said "I am sorry to feel that there are in the employ of the great city of Toronto officials who would dare to recommend the Metropolitan scheme that they did. They addressed Council as officials, but as the authorities who would carry out the agreement they had prepared. I am not going to question the loyalty of such officials, but I do say if any official on the Hydro-radial Power Commission had undertaken to use the language they did, to use the methods they did, in connection with the assumed obligations of the municipality they serve, they would not remain in the employ of the Commission twenty-four hours if I had any support on that matter. I think it is an iniquitous thing.

Parting of the Ways.
"I do not know," he continued, "that we have not reached the parting of the ways so far as Hydro-electric power is concerned in the Province of Ontario. The reason I make this statement is because of the apparent attitude of the Dominion Government." He referred to early efforts to balk the power scheme, and read Dr. Reid's statement on the floor of the House that the Dominion Government was considering developing the St. Lawrence water powers for the steam railroads "I, for one, am alarmed, and have been alarmed," he added "as to what the real attitude of the Government is going to be, not only in regard to the radial railway, but in regard to the Hydro-electric power scheme."

No Reason to Enter Ontario Field.
"Surely the municipalities have demonstrated that they are capable of handling their own power business. Surely there can be no just reason for the Dominion Government entering the power field of Ontario. Fortunately for the people of this Province we are so firmly established at Niagara that the Government dare not attempt to interfere there, but even then credit might be given to a statement that I heard not more than a year ago, that dependent upon the Toronto Electric Light Company being unloaded upon the people of Toronto, the Government would take over the Electric Development Company."

From the St. Lawrence waterways he said, more than 2,500,000 horsepower could be developed whereas it would require only 150,000 horsepower to operate all the train roads in Ontario. "Either Hon. Mr. Reid doesn't know what he is talking about or he is talking to a purpose," said Sir Adam.

"Can you conceive of a more extraordinary statement coming from a Cabinet Minister? They have no right whatever to the waters of the stream or the body of the stream."

"Aly regret is," continued Sir Adam, "that although our Legislature meets from session to session

presumably to legislate for the people, we never set up our claim with any degree of vehemence that these waters shall be preserved for the people of Ontario and that they shall not be exploited for the C.P.R. or any other railway."

Is Quebec Favored Province?
He asked if Quebec were a favored Province; by leasing from that Province certain of its water powers the Dominion Government had recognized the Provincial rights of Quebec. "I think the people of this Province should protest, and protest in the strongest terms," he went on. "They must warn the Legislature of this Province to wake up before it is too late. An undertaking such as Hon. Dr. Reid proposes is absolute interference with the rights of Ontario."

When he went on to deplore what he termed the unfaithfulness of Dominion members to their duty as representatives of the people this only interruptions were the loud "Hear, hear's" of acquiescence from his audience. Was there not some vestige of fairness in the minds of the representatives elected by the people? Surely with the solid support given to Union Government the people had a right to expect fair and decent and just and equitable treatment.

Two Reasons Against Proposal.
"There are just two reasons," he said, "against the Minister's proposal; one is our just rights to the body of the stream and the surplus waters, the other is that in the last twenty years the Dominion Government have, in connection with their railway enterprises failed to show any good judgment in protecting the rights of the people. Have we any reason to expect that they will in any way justify public ownership in the operation of their railways? I do not wish to denounce Mr. D.B. Hanna, but if we are to believe the statements about him, the Dominion Government have no right to entrust the Canadian National Railway System to him. What mandate have they to enter the field of radial railway enterprise in Ontario?"

"A Nice Object Lesson."
He again read from the Ottawa report Hon. Dr. Reid's refusal to give the House information concerning the awarding of contracts to the Northern Construction Company, because it was not a Mackenzie & Mann concern and it was not in the public interest to give the information. "The Northern Construction Company," he said, "is run by Alexander Mackenzie and Donald Mann, two nephews of the Toronto Knights. Is there any wonder there is mistrust in the minds of the people? Is there any wonder we feel there is politics still rampant in the affairs of the country? That sort of thing is a nice object lesson to the men coming from overseas. It is enough to create a will say unrest."

"Bolted out of a member of the Dominion Government."

The Situation.
He touched on the Saltfleet township situation the only township on the Toronto-Niagara line which had not carried the Hydro-radial scheme. The radial could be operated through that district with no stop; All the Hydro-radial project asked of the Dominion Government was, not a subsidy, or financial assistance, but co-operation instead of interference.

American and Canadian Methods.
He contrasted the assistance given by the American authorities to power development at Niagara and the obstruction which he said the Canadian legislators put in the way of the Ontario Hydro. The United States Power Controller had agreed with the speaker to pay 40 per cent of the cost to the Hydro of speeding up work on the Chippewa development. The Ottawa powers mulcted the Commission of 42 1/2 per cent, duty on every item of machinery it was necessary to bring in to construct the plant.

Hand over Branch Lines.
"We appeal to Ottawa," he added, "if they take over the Grand Trunk which is the obvious thing to do, to hand over the branch lines to the people of the Province. Let them, if they wish, put it to a vote in the Province and hear the voice of the people on public ownership. Let them keep the main lines, and we will not as feeders to them through the whole Province of Ontario."

Time for a Showdown.
When Sir Adam had concluded Mr. Sam Carter M.P., jumped to his feet and declared it was time for a showdown between the people and the Parliamentary representatives

who disregarded their interests "I am prepared," he said, "to stamp this country from one end to the other on Hydro rights. I am prepared to call a meeting in every riding to defeat those members at Ottawa who will not stand up for the people. I am prepared to drop all economic questions and battle up with the West and the U.P.O. They want public ownership and let the Grits and Tories sink or swim. Ontario and the West can do it."

Short speeches were made by W.V. Utley of Kitchener and J.P. Jaffray of Galt both stating that the people of Ontario were behind Sir Adam Beck and wanted the G.T.R. taken over. They moved the following resolution which was unanimously carried.

"That this meeting strongly petition the Government to co-operate with the Hydro-Electric Power Commission of Ontario in that the municipalities through the commission, may acquire by lease purchase or otherwise such branch lines of the G.T.R. System and the C.N.R. System as will enable the municipalities to carry out the hydro radial scheme to best advantage throughout the Province of Ontario."

Three Resolutions Adopted.
There were three resolutions carried. The most important that asking the Government to turn over to the Hydro-radials the branch lines of the G.T.R. and C.N.R. in Ontario, asked "the Government to co-operate with the Hydro-electric Power Commission of Ontario to that the municipalities may acquire by lease purchase, or otherwise" such branch lines as are necessary. Another asked for immediate authority by order in Council for the construction of Hydro-electric railways already approved, involving a \$82,000,000 expenditure. The third endorsed the action of the Hydro-electric Power Commission in opposing the Harris-Bradshaw proposed Toronto-Metropolitan agreement.

Other Speakers.
Other speakers were: Geo. Wright, Toronto; Ald. O'Heir, Hamilton; ex-Mayor Lemon, Owen Sound; C.P. McGregor, Waterdown; Warden Brown Bruce county; ex-Mayor Clark, Mount Forest; President J.W. Lyon-Guelph; Mayor J.E. Carter, Guelph and Controller Halford, Hamilton.

WEAK, RUN-DOWN WOMEN
This Letter Will Show You How Other Women Keep Up Strength.

Cleveland Ohio—"I keep house for my husband and myself and get into a weak run-down condition, no strength, languid and no ambition. After doctoring for a while and getting no better I tried Vinol, and to my surprise it built me up and strengthened my whole system."—Mrs. Wm D. Dawson.

The reason you guarantee Vinol is because it is a constitutional remedy containing beef and cod liver peptones iron and manganese peptones and glycerophosphates the most successful tonics known.

A.J. Roos Kitchener, A.G. Haehnel, Waterloo and at the best drug store in every town and city in the country.

ALKAHI IN SHAMPOOS
BAD FOR THE HAIR

In you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary mild coconut oil (which is pure and reasonable) and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mildified coconut oil at any pharmacy it's very cheap, and a few ounces will supply every member of the family for months.

St. Jacobs

Mrs. Edna is visiting her relatives in Ingersoll this week.

Messrs. Edward Arnold and Thos. Dillon of the Elmir Furniture Co., Montreal and Gardner Mass., business trip for the firm.

Gertrude Winger left on Saturday for her home in Toronto, after spending a week with her cousin Miss Adele Winger.

Miss Gertrude Hillborn is visiting relatives in Paris.

Miss Susie Weidenhammer spent the Easter holidays with her sister, Mrs. Wm. Manning at Merri town.

Mr. A. Werner and Mr. Wm. Rahn attended the Ontario Educational Convention at Toronto this week.

Mrs. Sidney Franklin and child ren left on Friday for their home in Cobourg, after spending a week with friends in town.

Mr. and Mrs. Sawyer went to Toronto on Tuesday to meet their son, Pte. Alfred Sawyer, who returned from overseas on the "Olympic" with the 1st Battalion.

Pte. Alfred Sawyer arrived home Thursday evening on the C.P.R. He was met at the station by members of the Welcome Home Committee and was taken to his home in a motor.

Among the list of soldiers, who have returned to Canada on the "Belgie," we notice the name of Corp. George Christman. George's many friends will be glad to welcome him home after his two years overseas.

One of the things you may have noticed is that usually the man who won't go out into the back yard and dig a little flower bed for his wife to enjoy is the same fellow who is always predicting that some day he will own a farm.

Hon. Elsie Jenkins, who is the only woman railway chairman, a young daughter of Lord Glenave, on the death of her father, to his place as head of the Swansea Mumbles Railroad, and has increased the family fortune many times by her shrewd business judgment.

"Canada's Best Sweets"
We keep a well assorted stock fresh and good at all times. Metcalf's quality is the standard all over this country—and there's no better made. When you want candy that is pure, and healthful, get Metcalf's—and you get the best.

Neilson's Ice Cream

Our Soda Fountain is the most popular spot in town. It is a real pleasure to drop in here and get something cold and refreshing. Ice Cream in brick or bulk—to take home with you. Any kind you desire, the same quality that we serve at our fountain—and the best cream that you can buy anywhere—Neilson's.

COMMISSION APPOINTED BY PEACE CONFERENCE TO FIX RESPONSIBILITY FOR THE WAR.
A remarkable photograph of the special commission which has been appointed by the delegates to the Peace Conference in Paris, to ascertain and fix the responsibility for the Great War. Shown in conference at the Quai d'Orsay, Paris.

Does This Appeal to You?

Yet how many people realize what it means to know any other surroundings than that of the four walls of an apartment or a dingy back yard. In this paper you now hold are advertised nearly every day homes similar to the above.

Don't delay another day in deciding upon the home that is to be yours. Delay only means more money frittered away for worthless rent receipts. To save, to enjoy happiness to its fullest extent, buy a home. Follow closely the Home Bargains listed in the Want Ads. If the home you want isn't there today—look for it tomorrow or the next day.

A WORTH WHILE DADDY
The transport came in this morning there's the wire to prove it. Ready it says and convince yourself. It really coming home. See what it is. "Just off the boat, home as fast as steam can bring me, love, hug babies." Jamie has been sitting the curb stone over since it arrived.

watching and waiting for his old Daddy. I have told him that Daddy can't possibly be here before tomorrow evening. And Dick has carried telegram all round the neighborhood tied to the end of a stick like a banner and chanting in his loudest key "my Dad's coming home, my Dad's coming home." Nobody in the district can remain in the least doubt that life has taken on a new hue for us through big son, small son, and me.

We can't eat, because if one of us can't talk, and we can't listen each other, because we are all listening for a footstep at the door.

FARMER DIE FROM A BOIL

The death of a young farm was recently reported from blue poisoning, which developed from a boil. Such a small beginning to so disastrous! Yet this is liable to happen to anyone who allows sore or wound to become infected. The surest and easiest way safeguard yourself is by using Zam-Buk. As soon as it is applied to a sore or wound it destroys germs and acts as a protective thus preventing infection and possible blood-poisoning. At the same time, Zam-Buk ends pain and draws out inflammation. Then its action on the tissues results in the quick growth of new skin, so that sores and wounds are healed in the shortest possible time. Get a box today and be prepared. 50c. box.

And Escaped an Operation!
Taking Lydia E. Pinkham's Vegetable Compound.

Hazelhurst, Ga.—"I have used your remedy for only ten months, and I have saved me from an operation. Before I took Lydia E. Pinkham's Vegetable Compound I was ill from a female trouble that I was forced to stay in bed for a week at a time with weakness and pain, but your medicine has done much for me that am recommending to all suffering women. It certainly is a great medicine and is a sure road to health for women. You may publish this letter if you like."—Mrs. W. LITTLE, R.F.D. A, Hazelhurst, Ga.

Women who suffer from headache, nervousness, backache, the blues or other symptoms of a functional derangement should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such ailments of women after other medicines have failed. If you want special suggestions regarding your condition, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of long experience is at your service, and your letter will be held in strict confidence.

TALKING IT OVER

With Lorna Moon

A WORTH WHILE DADDY
The transport came in this morning, there's the wire to prove it. Read what it says and convince yourself. He is really coming home. See what it says, "Just off the boat, home as fast as steam can bring me, love, hug the babies." Jamie has been sitting on the curb stone ever since it arrived.

watching and waiting for his soldier Daddy. I have told him that Daddy can't possibly be here before tomorrow evening. And Dick has carried the telegram all round the neighborhood tied to the end of a stick like a banner, and chanting in his loudest key, "my Dad's coming home, my Dad's coming home." Nobody in the district can remain in the least doubt that life has taken on a new hue for us three, big son, small son, and me.

We can't eat, because if one enters one can't talk, and we can't listen to each other, because we are all busy listening for a footstep at the door.

for as Jamie reminded us "HE might fly here in a plane and not wait for the lazy old train," and we can't think that we can do when Daddy comes, keep chasing each other through our heads.

We've caught the fattest chicken in the pen and cleaned it all ready for roasting. Dick did the cleaning, and the killing, for no mere maid could be allowed to assume any such sacred rite. He's out in the yard now burning the rubbish and clearing up the paths, every few minutes he rushes in breathless to make some excited remark that has to do with the most wonderful Daddy in the world, or if worst fail, him, he just grins his exaltation in answer to mine, and he runs back to work again.

"Yes, sonny, he's worth while."

Trip To The South Is Much Enjoyed

"It was simply heavenly to me, this being the first time I was down there. It was a beautiful sight to see the flowers out everywhere, the rows and rows of roses on the roadways and the boulevards, also the orchards with trees bearing lemons and oranges. Many palm trees also are seen along the highways. It was certainly a splendid sight to behold." Mr. C. A. Ahrens said when reviewing a trip to the states of California, Oregon, Washington British Columbia and the other western provinces from which he has returned. He was accompanied by Mrs. Ahrens, and Mr. and Mrs. J. M. Schneider of this city. They were joined by relatives of Mr. and Mrs. Ahrens in Kansas City, and at Los Angeles they joined Mr. and Mrs. L. McBride, sr., who had gone down several months previously and who also returned this week after many months' sojourn in the south. The party in California consisted of nine.

During the tour a wide stretch of country was covered, the mileage being over two thousand miles, all made by auto under the blue canopy of heaven with a smiling sun overhead. They left here on February the thirtieth and arrived in California on the twenty-fifth of that month. When they reached there it rained but soon more favorable and usual kind of weather set in and continued to prevail. Among the places visited in the states were Los Angeles, San Francisco, Portland and Seattle. The prevalence of good paved roads makes travelling in autos over this section of the continent an easy and comfortable undertaking. Asked which he thought was the finest place Mr. Ahrens cited Los Angeles and Long Beach.

The Grand Canyon at Arizona also was visited. This was found to be the world wonder for which it is noted. An unusual feature here was the snow.

From Seattle the party proceeded to Victoria and Vancouver via boat. Banff in the Canadian Rockies was visited including the C.P.R. hot springs whose hotel there and at Lake Lewis, however, have not yet been opened for the season. At Banff a snowfall also was experienced. The trip through Canada on the return journey included Winnipeg from which they proceeded to Duluth, St. Paul, Fond du Lac, Wis., and Chicago.

Asked whether there were any evidences of hard times in any of the places visited Mr. Ahrens said he did not see a sign. Everybody is busy. Many people are travelling he stated and booking for tourists must be done far in advance. Accommodation is to be secured.

FARMER DIED FROM A BOIL

The death of a young farmer was recently reported from blood-poisoning, which developed from a boil. Such a small beginning to end so disastrously! Yet this is liable to happen to anyone who allows a sore or wound to become infected.

The surest and easiest way to safeguard yourself is by using Zam-Buk. As soon as it is applied to a sore or wound it destroys all germs and acts as a protectant, thus preventing infection and possible blood-poisoning. At the same time Zam-Buk ends pain and draws out inflammation. Italian Delegates Have Left Paris

PREMIER ORLANDO, ON EVE OF DEPARTURE FROM PARIS FOR ROME, MAKES STATEMENT HIS AIDE SAYS DISPUTED TERRITORY TO BE OCCUPIED.

PARIS, April 24.—Reuter Limited learns that the Italian Government is taking measure to protect the American embassy at Rome, and consulates in all Italian cities in event of demonstrations in that country following the attitude of President Wilson at the peace conference regarding Fiume.

The possibility of ordering all American Y.M.C.A. workers out of Italy is being considered by John R. Mott, of the war work council of the Y.M.C.A. There are about 200 American workers in Italy, assigned to various units of the Italian army and Mr. Mott to-day was somewhat perturbed over the possibility that they might become involved in manifestation on anti-American feeling.

Guard U.S. Embassy. PARIS, April 24.—Italian military forces will occupy that part of Dalmatia and other Adriatic territory named in the pact of London with about 100,000 men, it was said to-day by Capt. Pozzi, of Premier Orlando's staff. A similar force, the captain added, would be sent to the northern region and around

Fiume. It was stated in Italian quarters to-day that should the break become definite Italy would take steps to approach Germany with a view to making a separate peace.

Orlando To Quit. Associated Press Cable.

PARIS, April 24.—Premier Orlando, of Italy, and Signor Barbi-ai will leave for home to-night. This decision was announced after Premier Orlando's return from his conference with the other members of the council of four, at which, according to the Italian premier, only questions of principle and not territorial questions, were discussed.

This is explained as meaning that the discussions centered on the question of prestige, involved in the publication of President Wilson's statement, and that no effort was made to reach a settlement on a territorial basis. The conference lasted two hours.

Baron Sonnino, the Italian foreign minister, and the other Italian delegates and representatives will remain in Paris temporarily.

Keen For Settlement. LONDON, April 24.—An official statement issued by the press bureau says that before his departure for Rome Premier Orlando had another meeting with Premiers Lloyd George and Clemenceau and President Wilson. All displayed the strongest desire to reach a satisfactory solution of the problem.

The heads of the British and French governments expressed to Premier Orlando the hope that the Italian Parliament would assist in arriving at such a settlement.

Before leaving for Rome Premier

EXCESSIVE ACIDITY is at the bottom of most digestive ills.

for indigestion afford pleasant and prompt relief from the distress of acid-dyspepsia.
MADE BY SCOTT & BOWNE
MAKERS OF SCOTT'S EMULSION

Orlando in a statement said: "We do not break with our allies, but hand over our interests to their hands, trusting they will loyally fulfill their mission."

Statement by Orlando.

PARIS, April 24.—Premier Orlando, of Italy, issued a lengthy statement to-day replying to President Wilson, in which the premier states in so many words that he is compelled to withdraw from the peace conference after President Wilson's action, which is regarded as a departure from diplomatic customs and leaves the Italians no other course.

An Italian headquarters the announcement was made that the Parliament of Italy would meet immediately upon Premier Orlando's return to Rome.

Premier Orlando's course, it was said, would be to convoke Parliament in special session and secure from that Parliament the passage of a measure providing for the annexation of the Dalmatian and other Eastern Adriatic territory given to Italy by the London agreement, and also of Fiume.

Reports have been received, it was said, that a military demonstration by the Jugo-Slavs at Spalato was contemplated, in which event the Italians would take proper counter-measures.

Demonstration in Rome.

ROME Wednesday, April 23.—An imposing demonstration occurred here yesterday, parades traversing the principal thoroughfares acclaiming Fiume and Dalmatia and cheering for Premier Orlando and Foreign Minister Sonnino.

The British, French and American embassies and the offices of the Socialist newspaper Avanti were each guarded by 200 soldiers to avoid possible incidents.

Addressing a throng that had gathered, Prince Colonna, the mayor of Rome, asserted that Italy's right to demand the fruits of her victory "would not have to be complicated by hypocritical combinations."

The Rome newspapers are unanimous in declaring that the Italian program, as set forth by its delegation at Paris, represented the minimum demands compatible with the dignity and safety of Italy.

The Italian press as a whole considers that the withdrawal of the Italian delegation from the peace conference is inevitable if Italy's aspirations are not recognized.

The modern kingdom of Belgium dates from 1830, when the seven provinces revolted from the unpopular union with the Netherlands.

The Denver Woman's Club is to celebrate its silver jubilee on April 20.

Cleverly Designed Suits

—A Host of New Developments
in the Established Fashion Ideas

\$25 \$30 \$35 \$40

Refinement and good taste characterize the Raphael-Mack displays—which are as modishly "correct" as they are attractive. This week we are showing many recent developments in the accepted Spring styles; in garments which were made for the holiday season. Because these suits were delayed in delivery, we are able to present them now at specially favorable prices. Come and see the extra-value groups at the four prices listed; they establish beyond question Raphael-Mack's supremacy in value-giving.

Distinctive New Coats and Dresses

—Many Late Arrivals Now Shown At Popular Prices

You can't help becoming enthusiastic over the charming styles that are on display this week. And if you have the slightest doubt about the becomingness of the newer coat modes, you will lose it when you see the Raphael-Mack offerings in

—Cape Coats
—Dolmans
—Capes

\$25 \$30
\$35

Another attractive group just received is that of Scotch Donegal Tweed Coats in a variety of patterns and colorings.

Dress styles are here to suit every fancy—as well as every purse. In fact, you would hardly believe there were so many ways to make a dress "different" and desirable, if we couldn't prove it by the wonderful diversity of styles in the Raphael-Mack showing.

—Georgettes
—Crepes
—Metres

\$20 \$25
\$30

Prominent amongst the great variety of attractive values is that of special new dresses in all the best effects—\$29.90.

Royal Cord

The Master Creation of Canada's Leading Tire Builders

WERE ease and comfort their only superior qualities, they would
still be the choice of every car-owner who could afford them.

But they are more than a luxury, they are a delightful economy.

Their marvellous construction of tens of thousands of cords, each imbedded
in pure rubber, makes a tire that is practically proof against blow-outs. Yet so
yielding and resilient is the tire-structure and tire-wall that the shock of most
road obstructions is absorbed. It also relieves the non-skid tread of a portion
of its strain, and reduces side-slipping without impairing the ease in steering.

Careful tests show that a car equipped with "ROYAL CORD" TIRES makes
more miles per gallon of gasoline than the same car can make on fabric tires.
This saving alone pays the difference in cost.

With blow-outs reduced to a minimum; and a practical saving in gasoline;
there is ample proof of the sound economy of "ROYAL CORD" TIRES.

Then, too, there is the luxury of easy riding, and the assurance of having the
finest tires that can be made.

"DOMINION" INNER TUBES

are made expressly to fit "Royal Cord" Tires, as well as the
other five brands of "Dominion" Tires. Be sure to have your
tires fitted right—with "Dominion" Inner Tubes.

DOMINION TIRES and ACCESSORIES are
distributed through DOMINION RUBBER
SYSTEM BRANCHES and sold by the best
dealers throughout Canada.

Catarrhal Deafness And Head Noises

Tells Safe And Simple Way To Treat
And Relieve At Home.

If you have catarrh, catarrhal deaf-
ness or head noises caused by catarrh,
or if phlegm drops in your throat and
has caused catarrh of the stomach or
bowels you will be glad to know that
these distressing symptoms may be
entirely overcome in many instances
by the following treatment which you
can easily prepare in your own home
at little cost. Secure from your drug-
gist 1 ounce of Parnint (Double Str-
ength). Take this home and add to it
1 pint of hot water and a little granu-
lated sugar; stir until dissolved. Take
one tablespoonful four times a day.
An improvement is sometimes noted
after the first day's treatment. Breath-
ing should become easy, while the dis-
tressing head noises, headaches, dull-
ness, cloudy thinking, etc., should
gradually disappear under the tonic
action of the treatment. Loss of smell,
taste, defective hearing and mucus
dropping in the back of the throat
are other symptoms which suggest
the presence of catarrh and which
may often be overcome by this effec-
tious treatment. It is said that nearly
ninety per cent. of all ear troubles are
caused by catarrh and there must, there-
fore, be many people whose hearing
may be restored by this simple, harm-
less, home treatment.

Japanese girl babies have their
heads shaved until they are three years
old.

TODAY'S EVENTS

TODAY'S EVENTS
Anzac Day will be observed today
with a triumphant march of Australian
troops through London.

Today is the 150th anniversary of
the birth of Sir Mark I. Brunel, the
English engineer and architect who
built the Thames Tunnel and drew
competing plans for the Capitol build-
ing at Vespertine.

The annual convention of the Nation-
al Association of Cotton Manufacturers
in New York City will conclude this
evening with a dinner at which ex-
Senator Albert J. Beveridge of Indiana
will be the chief speaker.

The Twenty-sixth (Yankee) Divi-
sion is to be welcomed home today with a
parade and demonstration will pro-
mise to eclipse in magnitude anything
of the kind ever seen before in Boston.

The Earl of Reading, Admiral Sims
and other men of international promi-
nence are to be among the speakers at
memorial services to be held today for
late Walter Hines Page, United States
Ambassador to the Court of St. James.

The newly organized League of the
Southwest which aims to promote the
purchase or annexation of Lower Cali-
fornia to the United States is to hold a
convention today at El Centro Calif.

**SEVERAL AMENDMENTS PRO-
POSED BY OPPOSITION**
MEMBERS

Ottawa April 23.—This was a rail-
way day in Parliament, the Commons
devoting all its time to consideration of
the bill for the reorganization of the
Canadian National Railway System
through the formation of a holding com-
pany to cover all public owned roads,
including the Grand Trunk, if it should
be absorbed. There was considerable
objection to the bill from the opposi-
tion. The plain fact is that most of
the opposition members are anti-public
ownership, but only Hon. Jacques Bu-
reau was candid enough to state so.

Mr. Bureau's statement was important
in view of the fact that he holds a
front bench position on the Opposition
and is one of the leading lieutenants of
Leader Mackenzie.

I do not believe in Government own-
ership or operation" declared Mr. Bu-
reau. The experience of the United
States Government in this line of un-
dertaking should serve to cool the ardor
of advocates of public ownership in
Canada.

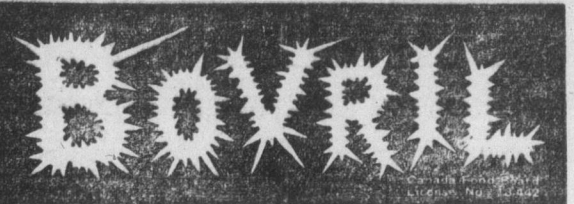

Chief criticism.
The chief criticism from the left of
the speaker was in regard to the
method of the appointment of the di-
rector of the roads. The bill provides that
they shall be named by the govern-
ment-in-council, or in other words, by
the Government. The opposition proposed
a plan which is without Parliamentary
precedent. The scheme which was em-
bodied in an amendment moved by A.
R. McMaster Brome, was to the effect
that the directors should be selected
from a list of not more than 15 to be
furnished by the House, this list to be
composed of 60 per cent nominated by
supporters of the Government and 40
per cent by the Opposition.

The Government secured unexpected
support from Hon. W.S. Fielding. Mr.
Fielding pointed out that the functions
of Parliament were legislative and that
Mr. McMaster's resolution was an in-
vasion by Parliament of the functions
of the Cabinet which those of the Gov-
ernment were executive. The Govern-
ment after taking cognizance of all the
suggestions made by Parliament as to
the best men to fill the positions
should make the appointments and
take the responsibility for them. The
amendment was introduced on a principle
which could not be found in the statute
law of any British Government. The
British constitution did not recognize
the party system, yet the proposed
amendment recognized it by law. The
opposition to the amendment developed
such strength that finally Mr. McMas-
ter withdrew.

Amendments defeated.
There were several other amend-
ments but they were all defeated the
Government taking the ground that it
should take the responsibility and
should not have its hands tied by
statute. One amendment proposed by
Major Fowers asked that one of the
directors should be a returned soldier.
Ernest Lapoint moved a second amend-
ment that two of the directors should
be labor men selected from the em-
ployees. Sir Thomas White described
the amendment of Mr. Lapoint as un-
sound in principle as the Government
should take the responsibility and
should be prepared to appoint directors
satisfactory to the country at large. If
the country was dissatisfied the Gov-
ernment would have to bear the blame
if it was expedient the Government
would appoint labor representatives on
the board, but it should not be fettered
by legislation. They wanted the best
possible men. Incidentally during the
course of the debate Dr. Reid said the
present directors were only temporary,
and the whole personnel of the new
board would have to be considered.
With such an extensive system under
their control the selection of the direc-
tors was important.

A game system is said to have sug-
gested the career of life insurance, now
so universal. A Flemish nobleman in
the seventeenth century tried to divide
equitably the even stake upon an
interrupted game of chance. He was
helped in his attempt by Pascal, a
distinguished French mathematician,
who solved the problem. In doing so,
he also solved the "doctrine of proba-
bilities" or laws governing insur-
ance of all kinds.

The Women's Engineering Society
has been formed in London to aid
securing for women equal opportunities
with men in the engineering professions.

DID YOU EVER STOP TO
THINK

how much better appearing the fellow
is who has his clothes custom tailored?
It stands to reason that he should be.
No two men are exactly alike, and every
man's clothes should conform to his
physical peculiarities.

LET US TAILOR FOR YOU.
and we'll guarantee the fit and ap-
pearance of your garments will be
the envy of every man.

To make the improvement will
not cost much if you come to us.

You will like our work.

Board of Health Met

The Board of Health held the regular session this morning. Routine business was transacted.

Is Indisposed

Mr. L. Sachs, market-clerk, is indisposed and is therefore not able to be at his usual duties.

Gehl-Levandusky

Married on April 23rd, Mr. Levi Gehl and Miss Mary Levandusky. Rev. Dr. H. Sperling performed the ceremony.

NOW FOR SATURDAY'S RUSH

Hundreds will come to see Nikol Burn, have you seen it? Come Saturday to Bucher's Hardware Store, 57 King, East. Save \$4.00 a ton on your fuel.

A car of quality for people of quality the Cadillac on exhibition at the Auto Show Friday and Saturday.

Coming Home Next Month

Mr. S. F. Howard, of the Ellis and Howard Electric firm, has received word from Pte. Jack Howard, who is overseas at present, that he will probably be home next month. Pte. Howard is at present visiting different places in Belgium to view the devastation. He also stated that he is in the best of health.

Rev. Capt. Boal the Irish Orator will address a mass meeting of citizens at Trinity Methodist Church on Sunday evening at 8.15 p.m. He comes to Kitchener under the auspices of the Navy League and will speak at the annual meeting of the league Monday night.

Born to Mr. and Mrs. J. Ensey, E. King st. a son.

Mrs. D.B. Detweiler and family wish to express their appreciation and thanks for kindness and sympathy shown them in their recent bereavement.

MUST HAVE BEEN THE REAL

When the local license inspector, Mr. J. Winterhilt, approached the municipal court this morning, the reason for his coming seemed obvious. The press thought that he had been put wise to an infraction of the O.T.A. However it was a case of mistake in interpretation. The official denied that there was anything doing. And his statement was accepted. The basis for the suspecting on the part of the press that there was to be a prosecution for having partaken of too much of the flowing liquid was the fact that a guardian of the police, retained in the basement, was under the influence of liquor. It was a fact that a canister in the old coils had been overcome by the aroma of the 'stuff' that had been removed to Toronto a few days previously. Judging by the ecstasy and contortion of the animal there was a real 'link' in the chain which somebody today is missing.

At the time of going to press no further report had been received. If the canine was kept in the cell he must surely be far away in a seventy two hours sleep.

Speaking of fashions, do the ladies have to have their hobbles skirts pressed to take out that bag at the knees? asks an impertinent man.

A 'Success' Food—Grape-Nuts

Why? Because it builds sturdy bodies and keen brains.

Ask your grocer for it.

Proceeding to Complete Organization

Asked to-day whether anything further was being done to complete the organization of a local fire prevention league, following the meeting held here recently, Ald. Sass, the chairman of the Fire Committee, to-day said that further steps were being taken. More information was being sought but it was hoped to have something definite in the near future.

Mr. and Mrs. G. R. Burroughs, who leave shortly for their home in Edmonton, were pleasantly surprised by their friends on Tuesday evening at the home of Mr. Jos. Walker. The evening was spent with games and music and after a dainty lunch was served Mrs. Allen Shoemaker presented them, on behalf of the gathering, with a silver teapot and salver as a slight token of the high esteem in which they are held.

See the Pioneer Eight Cadillac on exhibition at the Automobile Show Friday and Saturday.

Millicent Knowles Was At Georgetown.
Millicent Knowles Guelph who disappeared from the home of Mrs. Storey in that city last Saturday morning, was at Georgetown Saturday afternoon, according to a message received by the Guelph Chief Constable.

Relatives are advertising for information as to the whereabouts of this girl, described as the ward of a wealthy New York manufacturer, who disappeared Saturday morning. She is twenty-two years of age, fair, of medium height. She has been attending the Sacred Heart Convent in Montreal, but because of poor health had only lately gone to stay with Mrs. Storey, wife of Admiral Storey, of Halifax, at her home near the O.A.C. Saturday morning she left to go to church, and has not been seen since.

Probably Fatal Accident.
Walter G. Chamberlain, well-known throughout Stratford as a window cleaner, was probably fatally injured when he fell from a window of Mrs. Pherson & Makins' law offices on Downie street, a height of twelve or fifteen feet, shortly after 10 o'clock yesterday morning. He has been removed to the Stratford General Hospital. His skull is fractured, several ribs are broken and he received a bad cut on the face. He was unconscious at last reports from the hospital. He lost his balance while cleaning a window on the outside and fell to the street. In his fall he hit a passerby, who broke the fall to the cement walk.

New Traffic Regulation In Effect Today

Most important measures affecting motorists become law to-day, and hereafter it will be legal to drive at twenty-five miles an hour on country roads and twenty miles per hour on the city streets and within the limits of towns and villages. However, it will not be legal to use the out-south in the days to come, and all commercial vehicles must carry a mirror on the car, located so that the driver can see any machine, vehicle or pedestrian that may be approaching him from the rear.

101 Years Old.
To but few who were born in the far-off year of 1818 has been accorded the privilege of attaining a birthday in 1919. Such has been, however, the happy lot of Colin LeFortune, who resides with his daughter, Mrs. F. L. Nicolls, at the Dominion Hotel Port Dover, the auspicious event taking place last Wednesday.

The aged gentleman is quite vigorous, and busies himself each day performing the little light tasks which he delights in doing. To judge by his present good health, Mr. LeFortune bids fair to surpass the age of his four elder brothers, one of whom died at the age of 105, another at 103, another at 98, and one at 94.

Be sure you hear Mr. B. W. N. Griggs, B. A., lecture on Edmund Spenser's "The Faerie Queene" in the Y. W. C. A., Tuesday, April 29th. The lecture, the fourth in the Course, should be of special interest to all young people.

NICHOLSON AND BIRD REPORTED YESTERDAY

Ovid Nicholson, outfielder, of Kenosha, Wis., and Tommy Bird, infielder, Toronto, reported to Manager Beatty yesterday. Nicholson holds a record for base-stealing in 1912, when he pilfered 111 bases in 126 games playing Class D ball. Two years ago he stole 22 bases in 68 games when playing Class B ball.

Tommy Bird is confident he can make a place for himself on the infield and will get all kinds of encouragement from Manager Beatty. Transportation was forwarded to fifteen players yesterday. They report for duty next Monday.

Toronto secures catcher Hafner on the recommendation of Melvin. Hafner is of the U.S. navy team of Philadelphia, has had good experience in handling big league pitchers and is highly boosted by Melvin and also Holden. He is a young fellow and was tried out by Connie Mack three years ago. Hafner will report at once. When Poland, of the New York Giants, a graduate of Kauff's army team, was also available, Hafner was given first call.

It is now possible for fourteen of the sixteen major league teams to play ball on Sundays. Were the two parks available in New York, it would be possible for every team to play each Sunday. Pittsburgh, Philadelphia and Boston are the only cities with their parks locked on Sundays.

King Lear was left in Los Angeles by the Chicago Cubs, in order that he might get his sore shoulder treated by an osteopath. The treatments have resulted favorably, according to reports. Lear played first base with the Leafs last year.

CLAIM SENIOR HOCKEY TO BE A CITY PROPOSITION

At the recent banquet of the Sudbury Hockey Club the speakers all characterized O.H.A. senior hockey as a purely city proposition. Sudbury this year, has supplied quite a number of players for outside teams and in the opinion of the speakers, the trend of these players after they had reached a certain stage to the larger towns and cities was inevitable. This opinion was voiced very strongly by R.C. Clarke, one of the speakers and a former prominent Queen's Rugbyist who favored the fostering of sport among Public and High school boys as decidedly preferable to launching into a senior team. The experience of Kingston, Stratford, Preston and other towns was cited as instances where senior hockey had been proven a lamentable "flash in the pan." All speakers

reserved their whole-hearted support for a junior O.H.A. team in Sudbury next year and a significant remark was expressed at the outset by Mayor Morrison, toast master who said that next year he hoped to have the junior O.H.A. championship cup at the head of the table while Green and Duncan of the champion Tigers, Kilpatrick and "Red" Green all whom are now resident here could bring the senior trophy from Hamilton or elsewhere and it would be placed at the other end of the banquet hall.

AMERICAN LEAGUE

Yesterday's Results

Chicago 6 St. Louis..... 2
Philadelphia ... 6 Washington ... 5
Cleveland at Detroit—Cold weather.

Boston at New York—Wet grounds.

Games to-day: Chicago at St. Louis; Philadelphia at Washington; Cleveland at Detroit; Boston at New York.

NATIONAL LEAGUE

Yesterday's Results

Chicago 5 Pittsburgh 1
Cincinnati 3 St. Louis 1
Philadelphia ... 8 New York 5
Brooklyn at Boston—Rain.

Games to-day: New York at Philadelphia; St. Louis at Cincinnati; Pittsburgh at Chicago; Brooklyn at Boston.

PHILLIES RECRUIT PITCHER

Philadelphia, April 24.—Woodward, a recruit pitcher, stopped New York's scoring to-day after Oeschger had given them a five to two lead at the end of the fourth inning, and Philadelphia, chiefly through the batting of Cravath, won the game 8 to 5. A wild throw by Jones helped them tie the score in the fifth and after Cravath drove in the winning run, errors by Young and Chase presented the locals with their last two tallies. Cravath had two doubles, two singles and a base on balls in five trips to the plate. The local club announced the purchase of Secondbaseman Raymond from the Boston team of the International League.

HORNBY DECLARED OUT FOR SHOWING HIGH SPEED
Cincinnati, April 24.—Ray Fisher, formerly of the New York Americans, pitched brilliantly for Cincinnati to-day and the local team won the second game of the season 3 to 1. Sherdel, who was dropped in the opening game yesterday, did much better work to-day.

In the third inning, with Heathcote on first, Hornby hit over Roush's head apparently for three bases, but Heathcote, thinking the ball might be caught, turned and ran back to first base. Hornby passed him on the line, and was declared out for so doing.

CHICAGO OPENS SEASON WITH VICTORY

Chicago, April 24.—A second-inning batting rally combined with errors enabled the Chicago Nationals to win from Pittsburgh to-day 5 to 1. Jim Vaughn pitched steadily ball for the Cubs and Cooper was strong in all except the second inning. Eight thousand persons saw the opening.

GENERAL SPORT

WILL ATTEND O. B.
The Ontario Baseball Association are holding the annual meeting in Toronto to-morrow. Mr. "Hen" Sturm will attend in the interests of the local Inter County League team.

WILL PITCH FOR STRATFORD

Lumby, who was pitcher for Goderich, but whose home is in this city, has left for Stratford, where he will pitch for the Classic City in the Inter County League.

ROCHESTER GETS PAIR OF NEW YORK PITCHERS

New York, April 24.—The New York Nationals to-day announced the release of John Gillespie, infielder, to the Binghamton club of the International League and Pitchers Howard Clary and Wilfred Ryan to the Rochester club of the same league.

The New York club also announced the purchase of Lee King, outfielder, from the Pittsburgh club for the waiver price.

UNDERHANDED PITCHING BEAT THE KILTIES IN THE OPENING GAME

New York, April 24.—The Carl Mays submarine ball, the only delivery of its kind in the major leagues, has been officially inspected by the Kilties and every member of the team, from Higgins down to the bat-boy, will attest that the underhand thing is in perfect working order. Some 30,000 fans who looked on sorrowfully at yesterday's affair at the Polo Grounds will add similar testimony if any is needed. To that peculiar delivery and the "stuff" which Mays is able to put on it and control can be charged the big failure of the Kilty run-making machine in the opening game of the year at the Polo Grounds.

Several more Michigan Ontario players selected by Manager Beatty are coming this afternoon.

STORKS ONCE MORE VISIT OLD NESTS IN STRASBOURG

Strasbourg, April 24.—Storks which cleared their annual visits to Strasbourg in the spring of 1914 returned this week to the old nests on a building on the left side of the Place de Broglie, in the centre of Strasbourg. Several storks the first in five years, now occupy the nests. The unexpected return in the present circumstances is commented upon with pleasure by the native population who have always held that the storks brought good luck. The building to which the storks returned is next door to the house in which on April 23, 1792 Ronget de Lisle first sang the Marseillaise. The Bank of France recently has established its offices in the building with the stork nests. Before the war the storks of Strasbourg brought many tourists here.

100% Service

KNOW your bicycle before you buy. A cheap assembled wheel with its parts purchased from far and wide "at a price" may look like a good bicycle, but is it? The firms making some of the parts may put good honest value into their products; others may not, or cannot. One bad part will ruin your wheel. You take the risk—and it is a costly one. Exactly the opposite policy is pursued in the making of

C.C.M. Bicycles

We make in our own splendid factory at Weston practically all the parts required in the finished bicycle—a larger proportion than does any other bicycle manufacturer in America. This serves a double purpose:

- 1st.—It gives us the opportunity of scrutinizing every detail of workmanship and material.
- 2nd.—It gives employment in Canada to the largest possible number of Canadian workmen.

This policy has been maintained since the inception of the Canada Cycle & Motor Company. It has given our wheels a character and dependability unrivalled in the Dominion. In other words, it means 100 per cent. service.

C.C.M. Bicycles in every part give maximum service and satisfaction, and every part is guaranteed. This means extra years of service.

In case of accident you can renew C.C.M. parts without loss of time. C.C.M. dealers are to be found almost everywhere in Canada. Ride a C.C.M. bicycle.

Look for these Name Plates when choosing a Bicycle. All of these well known lines are members of the "C.C.M." family.

90% of the Parts of Every C.C.M. Bicycle are Made in Canada and Each Machine is Fully Guaranteed by

INDUSTRIAL COMMISSION

Begins its H

CAPITAL AND LABOR

VITED TO ATTEN

(Special To The Record)

VANCOUVER, B.C., Ap

After their nonstop trip a continent, the members of the commission on industrial relations reached Vancouver this morning, where they begin the on Monday.

All the members of the board Chairman Chief Justice Macmillan started the journey at Montreal or Ottawa, by a special compartment car to the Imperial Limited. The man got on at Winnipeg and the sessions of the commission.

The first thing to discuss was in regard to witnesses, already been sent to all labor unions and boards of trade in Columbia and other western states, giving the terms of the mission, giving the terms of and asking that their representatives at the hearing C.M.A. is also urging its the west to be ready to pre-

claims. The Department has notified its agents in them to prepare the way for Business methods were by the members on the train, as to how the report of the should, as far as possible, be as the journey proceeds. In to the arrangement of details mission has discussed broadly own information the prole dustrial relations and the tr importance its assumed in t

Budget to be Presented Middle of Next

SIR THOMAS WHITE ANNOUNCEMENT IN HOUSE OF COMMONS

OTTAWA, April 25.—I get speech, will be delivered the middle of May. This moment was made to the this afternoon by Sir Thomas minister of finance.

No budget speech for excited as much interest, on account of the financial ment as to the Dominion's position and future outlook account of the large surplus will be brought down. V Thomas will have another get to present, with hundreds to be spent on reconstruction—a big sum on top of our expenditure of the last four years—also be the optimistic side. The budget will show a of over three hundred millions—easily the largest in history—with a surplus of a millions. This means that mount can be devoted to outlay.

ONE OF THE CHAS

Sergt. R. A. Seiber

Who Reenlisted i

Sergt. Robert A. Seiber home, the second time. H quietly in the city recently last Tuesday after being several times. He was on first to enlist from this city He enlisted in Guelph with Battalion August 27th. If several other men from 1

After training for some arrived in the trenches Feb. He was stationed at many places in both Belgium and was in the great battle He was wounded by shrapnel and struck on the back bags in a huge concussion, then sent home and died June 1916. He was home months. He then enlisted t time in Hamilton July 17th, the Canadian Railway troops overseas the same month. He did duty in France and line of work being lecturing When asked how it was received his stripes he said work.

He stated that he had a delig while "over there" and that his life is altogether different his experiences.

He is one of the very few reenlisted and saw active second time after being wounded. When he arrived his first time he was given a "Sergeant." This time, however, he is quickly, and thus attached of that modesty which is his
