The People's Candidate.

The Political Kaleidoscope.

Little Strength Gained by the Late Cabinet Shuffle.

**VICTORIA, N. S.**  
The election for the House of Commons in Victoria on Tuesday resulted in the return of the Conservative candidate, John A. Macdonald, by 49 majority, three less than he got in March. Macdonald (Con.) 975, Ross (Lib.) 926.

**EAST ELGIN ELECTION.**  
The East Elgin bye-election writ was issued Tuesday evening. Nominations will be on Feb. 5, and polling on Feb. 12.

**NOTES.**  
Hon. J. C. Patterson, the new Secretary of State, has been offered the nomination for South Perth, in opposition to Mr. Trow.

A deputation of Richelieu county Conservatives, headed by Mr. Morgan, the defeated candidate in the late election, are in Ottawa. Mr. Morgan states that they will certainly protest the election.

The general opinion in Montreal regarding the latest shuffle in the Dominion Cabinet is that while the same may be pleasing to Conservative wire-pullers, it will not gain the Government much strength in the country.

Sir Richard Cartwright is confined to his home at Kingston with the grip.

Mr. Laurier is getting better, and expects to leave for his Ontario tour early next week.

## Did They Bury a Dummy?

A Startling Story from New Brunswick, N. J.

Rumors that Defaulter Hill is Alive and in Good Health.

A Wax Figure Took His Place in a Coffin—His Defalcation Placed at \$26,000.

NEW BRUNSWICK, N. J., Jan. 27.—A meeting of the stockholders of the Jamesburg Bank, whose cashier, T. Wilton Hill, has been declared an embezzler for a large amount by Bank Examiner Stone, broke up in the greatest disorder yesterday upon receipt of information, alleged to be reliable, that Hill is not dead, and that a wax figure was placed in the coffin which was believed to contain his body.

Some credence was placed in the story when the fact was recalled that no one but Hill's immediate family were present at the interment. A local physician had been called in when Hill was stricken with grip, and no one was admitted to the sick chamber. When Hill's death was announced but little time elapsed before the body was laid in the grave.

The rumor that Hill is still alive has been intensified by the report that he has been seen within the past five days on Fourteenth street, New York, in company with a woman whose name has been closely connected with his defalcation. As Hill's life was insured for \$20,000 a few days before he was said to have died, the company's agent in this city was preparing to pay the claim. Now he has announced that this will not be done until satisfactory proof of the death is given.

The result of the allegations is that it has been decided to open the grave and ascertain whether it contains Hill's body or a dummy. The local lodge of the Royal Arcanum is doubly interested in this, as they allege that Hill committed suicide. If the coffin really holds Hill's body they may demand that an investigation be made to ascertain if he killed himself.

Bank Examiner Stone has excluded his investigation into Hill's accounts. He found that Hill had stolen \$50,000 from the Jamesburg Bank. The stockholders are to be held liable for \$15,000 over the amount realized from Hill's available assets. A vote taken by the stockholders on the question of the bank's continuance resulted in a tie.

Two-thirds of the stockholders have announced their intention of contesting any suits brought against them to recover the deficiency. It is not believed here that this effort on their part to save themselves from the fact has come to light that the bank officers had neglected to place Hill under bonds last year.

## CHILI BACKS DOWN.

Her Reply to the Ultimatum of the United States Government.

The Right of Asylum Acknowledged—Arbitration Proposed.

WASHINGTON, Jan. 27.—The Government has received a long answer from Minister Egan, conveying an offer on the part of the Chilean Government for the settlement of all existing difficulties with the United States. This dispatch confirms the statements made in the Associated Press despatch from Santiago, that Chile is prepared to withdraw the offensive note sent to the United States, to withdraw its request for the recall of Minister Egan and to submit the Baltimore affair to the arbitration of some neutral nation, or to submit the matter to the decision of the United States Supreme Court. There is reason to believe that the Chilean Government not only offers to withdraw the offensive note, but in addition offers to apologize for it. It also agrees to the position taken by the United States in regard to the right of asylum and the safe conduct of refugees. Mr. Egan's dispatch was submitted to the Cabinet. It is understood that a difference of opinion was developed as to the propriety of accepting the offer without modification so far as it related to the submission of the question of Chile's liability for the attack on the sailors of the Baltimore to the arbitration of a neutral nation, or to the arbitration of the Supreme Court. Without reaching this decision, the meeting adjourned.

A Santiago telegram to the London Times says: In view of the disparity between the forces of the two powers, it would seem that Chili had no other resource than to make the sacrifices of dignity necessary to satisfy the more powerful nation.

VALPARAISO, Jan. 27.—Everything in Chili remains quiet, so far.

In the Electoral Commission of 1877, of which Judge Bradley was a member, he cast the decisive eighth vote which made R. B. Hayes President of the United States.

## BLACKENED RUINS.

Destruction of the Metropolitan Opera House at Columbus—Other Conflagrations.

COLUMBUS, Ohio, Jan. 27.—The fire that broke out yesterday in the large block of buildings at the northwest corner of Rich and High streets proved to be the most disastrous event experienced here. The entire block from Rich to Walnut and from High to Wall was gutted. The large brick building on the corner of Rich was entirely burned out and the Metropolitan Opera House was destroyed. Loss about \$500,000; insurance about half that amount.

CINCINNATI, Ohio, Jan. 27.—The laundry and a wing of the Cincinnati work house were burned last night. Loss, \$90,000.

PETROLEA, Ont., Jan. 27.—Cook's hotel at Oil City caught on fire yesterday. No particulars.

MEAFORD, Ont., Jan. 27.—Fire that started last night in Wilcox's shoe store—known as Andrew's block—destroyed the whole structure, including the City Hotel, a grocery store and barber shop, the telephone office and other places of business. Loss about \$15,000; insurance on block, \$7,000.

DRESDEN, Ont., Jan. 27.—Fire started early this morning in Mrs. Hazlett's millinery store and dwelling, and rapidly spread to the next building, owned and occupied by Mrs. Mooney, and occupied as a harness shop and dwelling. The fire three-story block owned by the Oddfellows, and occupied below by drugs in one half, and clothing in the other, and the Oddfellows hall and offices above, were in great danger.

ALBANY, N. Y., Jan. 27.—The extensive plant of Borne, Schrymser & Co., lubricating oil manufacturers at Elizabethport, was almost entirely destroyed by fire last night. Still after still exploded, and the blazing oil floated out on the surface of Staten Island Sound. The wharves along the full length of the frontage were consumed; also the cooper shop and the barreling, filter and pump house. Forty-five thousand new barrels, many thousands barrels of manufactured oil and six immense stoves were destroyed as well. The loss aggregated \$200,000; only partially insured.

MERIDIAN, Miss., Jan. 27.—The china shop of the Queen and Crescent Railroad was burned last night. Loss, \$75,000. Insured.

AVILA, Ind., Jan. 27.—Yesterday the farm house of George Myers, three miles from Canville, was burned to the ground, and Marion, the 16-year-old son of Mr. Myers, and Mr. Owens, a brother of Mr. Myers, who were sleeping in an upper room, were roasted to death.

ALBANY, N. Y., Jan. 27.—Fire was distributed by the fire in the French Church of the Assumption on Hamilton street. The pastor's house was wrecked, and frame dwellings occupied by nine colored families were destroyed. Not a vestige of the church property was saved. The loss is about \$30,000. The thermometer registered 4 below zero and a high wind was blowing, so that the firemen suffered intensely with the cold, some of them being literally encased in ice an inch thick, which had to be broken by their comrades so that they could walk.

ALBANY, N. Y., Jan. 27.—A fire in a row of tenement houses on E. 4th street last night narrowly escaped resulting in an awful catastrophe. As it was, one boy was burned to death and two of the houses were destroyed. Many women and children were cut off by the flames and were taken from windows by the firemen.

CATARINO E. GARZA,

For Whose Capture President Diaz Offers \$300,000.

A so-called bandit force variously estimated at from 40 to 2,000 men is dodging about Southern Texas trying to elude the pursuing United States troops, while on the Mexican side of the Rio Grande a body of soldiers are on the lookout to prevent the elusive Garza from recrossing the river. The Mexican authorities brand him as a bandit, but Garza himself assumes the title of a revolutionist. President Diaz is distrustful by the Clerical or Church party, who are said to be in sympathy with the "bandit" on that account.

Garza is about 40 years old, is tall, robust, and of fair complexion, light brown hair, and wears a heavy mustache. His eyes are brown, and over his right eye he has a scar. He speaks English, and is a good marksman. It is well known that he has never been gained without such information. We usually think that all Mexicans are small and dark, but this particular one is light and over six feet high. He has quite a record, and has "killed his man" several times. He was born in Matamoros, Mexico. He worked in a printing office in Matamoros, but went to Brownsville, Texas, while still a boy. He attended the public schools there, and later went to the University of Mexico.

After being graduated, he entered the Mexican army, but was dismissed for gross misconduct, and to escape further punishment fled the country, crossing the Rio Grande to Palo Pinto. In Rio Grande he shot and killed a political opponent. Two customs officials were also killed there, and Garza, together with a noted contrabandist, were thought to have committed the murders. At Laredo he became involved in a quarrel with certain followers of General Martinez, who was soon afterwards assassinated. About the same time he edited a newspaper, and was through which he vented his hatred for President Diaz and the organized Government of Mexico. He had also been a sewing machine agent, and was for a time connected with the Mexican consulate in St. Louis, Missouri.

It was a year ago that this revolution began. Last summer he collected a little band of political refugees, contrabandists, and other types of lawless men to be found near the border, and crossed the Rio Grande to begin a career of robbery and pillage. At first he was successful, and being aided by 1,000 Mexican troops, he defeated. He escaped capture and fled to Texas, where he was kept in hiding by his friends.

It is a mistake to suppose that his presence in Texas has been known by the United States officials, for he is "wanted" almost as much by the Federal authorities of that country as by those of Mexico.

**Rev. Mr. Spurgeon's Condition.**  
LONDON, Jan. 27.—Rev. Mr. Spurgeon, who is suffering with an attack of the rheumatism and hand, passed a quiet night. He, however, is still in a critical condition.

**Death of Archbishop Langavine.**  
FATHER POINT, Q. Jan. 27.—Archbishop Langavine died yesterday afternoon after an illness of only five hours' duration. The deceased prelate was aged 71 years. He was the first bishop of the Rimouski diocese and his life work was here enacted. Two years ago, after a long episcopate, he resigned his see, and was thereupon appointed Archbishop of Leontropolis in partitioned Armenia, being succeeded as bishop of Rimouski by Bishop Blais. The archbishop was a firm temperance advocate and he was a distinguished educationist. He was a brother of Sir Hector.

**The Famous Downing Street Cat Is Dead.**  
LONDON, Jan. 2.—The widely celebrated Downing street cat is dead, and that distinguished representative of the feline race is deemed worthy of an obituary notice in the morning newspapers of this city. The Downing street cat in the sentry box opposite the official residence of the Prime Minister, in Downing street, near St. James' Park. Nearly every Grenadier, Coldstream or Scots Guardsman in the service is said to have made the acquaintance of the cat while doing sentry duty at the spot referred to. The cat, according to tradition, was frequently noticed and fed by Mr. Gladstone, Lord Beaconsfield, William Henry Smith, Lord Salisbury and Sir Stafford Northcote. Her death was a tragic one. Two bull terriers worried her until life was extinct. It is proposed to give her a proper funeral and to erect a tablet to her memory.

**The Fund for Evicted Tenants.**  
DUBLIN, Jan. 27.—John Dillon has written a protest against the attempts made by the Landlords to prevent subscriptions being made to the fund for the benefit of evicted tenants. In Mr. Dillon's letter appears the past year's balance sheet of the fund. This shows that there was expended £45,220—the proceeds of Mr. Dillon's American tour and his miscellaneous gifts. Mr. Dillon says that since August last the McCarthyites have furnished £11,456 to the fund, that sum being all the money received. There are, Mr. Dillon says, 7,500 persons who receive grants requiring the sum of £3,000 monthly. Giving to the lack of funds some of the grants have not been paid. He concludes with an appeal to the Parliaments to start a separate fund, and enter into friendly rivalry with the McCarthyites in relieving the tenants who have been evicted.

## DEHORNING CASE CONTINUED.

Evidence for the Prosecution Completed and Defense Commenced.

Testimony of the Complainant and Wm. Hawkins, of Brownsville.

When court resumed in the dehorning case after dinner yesterday, Dr. Hutchinson was still in the box. Mr. Cameron read the views of the Agricultural Experimental Station of Wisconsin, that there were many economic reasons for dehorning cattle, to prevent injury, to prevent danger to human life and render shipping easier. He asked the witness if he would set his opinion against these.

Dr. Hutchinson—That question is very easily answered. The horns of Texas cattle are very different from those of some of the horns turn in and just about touch the frontal bone; they could do very little injury with such horns.

Q.—How can you tell that an animal is suffering? A.—One of the indications would be a rise in the pulse, but one cannot tell the amount of pain an animal is suffering. Some horses will stand up and endure an intense degree of pain. Some cows will drop their heads, others will show excitement, others will shake their heads and rub, and if the pain continues a length of time there will be a rise in the temperature of the animal.

Q.—Would it affect the quantity or quality of the milk if the pain only lasted a few days? A.—I could not say it would. The continued drooping of the head is a sure indication of sickness.

Q.—If the drooping does not continue there would be no sure sign of pain? A.—You cannot cut through sensory nerves without causing pain.

Q.—How would you tell if the quality of the milk deteriorated? A.—It would affect the proportion of butter fat in the milk.

Mr. Cameron—If the total loss is given at 4.62 per cent. per cow in six days? A.—That would be a loss of a pound a day for each cow.

Q.—If it shows the return of butter fat to the greater? A.—If the report says that we have a gain in butter fat as the result of dehorning in six days after—if the report says that the increase of butter fat comes from dehorning, it is the veriest nonsense. If that statement is made in the report it is a mile faster with his tail cut off.

Q.—What do you base your observations on? A.—Three cases came under my own experience. I served seven years on a farm, and my general experience in the city.

Witness said that there were blood vessels in the horn as well as in the linings, and that you could not cut into a horn without cutting a blood vessel, although they were very minute. It was just like boring into a man's tooth. A cow of a nervous organization would suffer just as much as a human being.

Q.—You agree with the statement of Professor Williams, that after the main nerves are cut there is little or no pain? A.—I do not; there is more pain in the smaller nerves than he admits. The bone of the horn is simply a prolongation of the frontal bone.

Dr. Hutchinson stated that a clot formed on the wounds but only lasted from 24 to 48 hours. It then shrank away and allowed further bleeding. He considered the pain great and treatment unnecessary. The absorption of the pus tended to render the front bone unwholesome.

George R. Thompson, of Ingersoll, had been a butcher and had had a large experience with stock. He considered the operation as unnecessary. In shipping, the bodies not the horns took up the room.

Wm. Stirling, of Darabum, had never seen any injuries from cows hooking each other. The operation was cruel and unnecessary. Lorenzo W. Stevens agreed with the former witness.

At 6:30 the court adjourned until this morning.

Dr. Hutchinson resumed this morning Dr. T. Hutchinson was recalled but no new points were brought out.

Detective B. B. Allen was the next witness called. He had accompanied Dr. Tamin, the first witness, to York's farm, where it was ascertained that 33 cattle had been dehorned. The defendant told him that the operation did not seem to hurt the cows. After the horns were cut off the animals were turned out of the stable. There had been nothing applied to the wounds. When he saw the cows six weeks afterwards their heads were covered with dirt as if they had been rubbing them on the ground.

This concluded the evidence for the prosecution.

**THE DEFENSE.**  
Wm. Hawkins, of Brownsville, was the first witness put in the box after dinner. He kept on an average about 50 milch cows.

Q.—Have any difficulties arisen in the management of this herd to and from your pasture land? A.—If some of the weaker members of the herd are standing in front the stronger ones rush at them and gore them. The result is that the weaker are often injured. One of my cows had been disemboweled, another had been pushed against a gate post, and the pressure of the horn against her broke her hip-bone. One of his heifers had been hooked between the front leg and the body, and a wound over a foot long resulted. My cows are of about the same class as Mr. York's, native cows. Some of my best milking cows have legs and almost straight horns. I cannot call to mind one of them that could not do serious injury. One of my cows once caught another in the flank and did considerable injury before she could liberate herself.

Witness continued: I once had seventeen milch cattle in my herd. They did not suit me, as they did not milk as well as I wished. I then looked more carefully into the practice of dehorning. On November 29 last, Mr. Elliott, one of the defendants, and myself, dehorned 28 milch cows in 45 minutes. This included tying and untying the cattle. I got a can of tar and intended to apply it to the wounds, but next day I found a clot had covered them. Only 3 of the 28 horns discharged anything. In two months they were all practically healed up. The three that discharged started to discharge about six days after the operation and continued for probably three weeks.

Q.—What symptoms of pain do the animals evince during the operation? A.—At the first two or three strokes of the saw they seemed to wince a little and the eyes winked.

After that they seemed to stand quite contented. After the cutting was over they acted quite naturally, eating the same as ever. The animals that were inclined to fight before the dehorning acted the same, wanting to fight with those they did not know. Before the dehorning the cows fought in the stable when being put in. Now it is a perfect pleasure to put them in. Horns alone were the cause of the having to keep my cows and horses in different pastures. Dehorning secures the safety of children.

**At Home.**  
The active members of the Y. P. S. C. E. connected with the Adelaide Street Baptist Church were invited by Rev. and Mrs. H. C. Speller to spend an "At Home" at their residence on English street, and as a result some 50 or 60 well-pleased people found themselves in the pastor's parlor last evening. There was no attempt at carrying out a "programme," though there was plenty of good music, numbers were wise and witty speeches, refreshments in abundance and enjoyment abounded. The kind and considerate host and hostess were equal to the occasion. They did their best to make each visitor feel at home, and succeeded admirably in their efforts. The meeting part somewhat of the "protracted" character, but this was excusable, it being such a thoroughly enjoyable gathering that no one wanted to bring it to a close. The young people voted Mr. Speller's "At Home" a grand success.

**Foresters Enjoy Themselves.**  
One of those socials that tend to create such good feeling among members of a benevolent society took place last evening in the room of Court Brighton, 6507, when Forest Home Circle, No. 67, and the Junior Branch were entertained by the parent institution, the occasion being a reunion. Chief Ranger George Mansbridge occupied the chair and briefly welcomed the large gathering to the new hall. Short speeches were made by Secretary Harry Sutherland, Comp. Lily White and Bro. D. Spence, who spoke in behalf of Court Brighton Companions and the Juniors, all reporting a promising condition of affairs in each branch of Forestry. An interesting programme was introduced, consisting of songs, readings, recitations, harmonies, guitar and banjo selections, in which the following took part, the several numbers being given in a way pleasing to the audience: Bro. W. Peacock, A. E. White, L. J. Hessel, Wild, Westervelt, R. B. Tatham, Geo. Burrows and C. H. Tatham, and Comp. Lily White, Minnie Dore, M. Connors and L. Taylor. A number of Foresters from Hyde Park were present, Bro. Geo. Routledge, P. C. R., and Bro. P. McNamee responding in short speeches when called upon. Bro. T. Tuxford, D. C. R., following with some general remarks concerning the good being done through the country by benevolent societies, especially when so much sickness prevailed. Refreshments were served, the male members admirably discharging their duties as waiters. The singing of "God Save the Queen" brought to a close an enjoyable evening.

## HURON.

The Victoria street Methodist Church in Goderich has been sold from debt. Friday was a red letter day in their history. The pastor, Rev. Dr. Strongman, assisted by Miss Williams, evangelist, and aided by the congregation, have raised in eight days the noble sum of \$1,000 by subscription, which is the total indebtedness against the church.

## KENT.

John Chambers, Dresden, is as sound as a nut at the age of 105 years. He visited Chatham last Saturday and talked freely of by-gone days. He was once a lumberman in Quebec, and on a purchasing trip took up land near Dawn Mills, where he farmed about 50 years. He is now living with his daughter in Dresden. H. Cooper, Fletcher, is drawing logs to the creek to be floated to Detroit in the spring, a small army of men and teams being employed. Smith Bros., Stewart, will put in a stove knife. They are paying \$4 per thousand for elm.

## LAMBTON.

Walter Herbert Kennedy, of Watford, solicitor of the Supreme Court of Judicature for Ontario, is gazetted to be a notary public for the Province of Ontario.

## LINCOLN.

Mr. and Mrs. John Coulton, Thorold, enjoyed their silver wedding on Friday. Alfred Begg, the 10-year-old son of William Begg, St. Catharines, was riding on passing sleighs, when by some means he was either knocked down or fell under the horse's feet, and received a severe kick on the head which crushed the skull badly.

## MIDDLESEX.

Hector McLellan, an old and respected settler, died at Alisa Craig the other day at the advanced age of 82 years. Alex. Graham and H. Edwards, Ferguson, have been victims of the grip, but are recovering. Rev. P. W. Jones reports that "the pastor's joke" was a success, the church at Ferguson being well filled. F. J. Scott, proprietor of the Birr House, Bryanton, has a quantity of sherry wine stolen from his bar the other night. Jas. Bell has sold his trotting horse to Robt. Morrow, of Bryanton. Squire A. Fenwick, Bryanton, and Miss Maria Morrow were happily united in wedlock at the residence of the bride's father, Arva.

## OXFORD.

Dr. Williams, Ingersoll, has sold his residence to T. W. Dewey for \$2,200. The South Oxford Farmers' Institute has elected the following officers: President, J. N. Chambers; vice-president, William Nancekivell; secretary-treasurer, M. S. Schell; directors, Louis A. Price, R. W. Hawkins, M. Stover, W. McCurdy, A. Frain, J. Coloe, J. A. Blow, John Holdsworth, Wm. Collier, P. Irwin, Jas. Currie and John Cuthbert.

Donald Pollock, a British army pensioner, having served in the Seventy-first Highlanders at Gibraltar, is dead, aged 81 years. He had been a resident of Woodstock for 25 years.

## PERTH.

Edward Stiles, formerly of Mitchell, is now timber inspector for the Union Pacific Railway Company, and treasurer of his sons are occupying important positions in the West. "Your bi-weekly WESTERN ADVERTISER just meets the requirements of us away from home, and is a marvelous volume of Canadian news."—(H. M. Cowan, M.D., Chicago, formerly of Perth county).

Dr. McGuigan has been elected an alderman of Vancouver, B. C. The doctor was born in Stratford in the year 1852. He graduated from McGill University in 1878, and first practiced in Sania as medical surgeon of the G. T. R. He afterwards practiced in London for five years, and in 1885 he went west and followed the extension of the C. P. R., finally settling in Vancouver, when it was the village of Granville.

The Barrie Advance has carried out its threat of publishing the names and amounts of delinquent debtors by the publication of a list embracing half a column, and it promises more in this week's issue. Rev. D. D. McLeod, of Barrie, has been nominated by the Hamilton Presbytery for the office of general missionary secretary.

## WATERLOO.

At a magistrate's court in Arva a case was heard which is of considerable interest to public school boards and municipal corporations. Messrs. Rennie, Henderson and Gerbig, three members of the Arva Public School Board, were charged before Messrs. Howell and Watson, J.P.s, with neglecting their duties as public school trustees by going away from a meeting of the board held last Wednesday evening, and not taking part in its proceedings for organization as required by law. Mr. King, Q.C., of Berlin, appeared for the prosecution, Mr. Bell, Q.C., of Woodstock, for the defense. The reason given by the defendants for their conduct was that D. A. McCrae, a member of the board, who also was present at the meeting, had vacated his seat by being absent from meetings at the board for three successive times, and that they believed the proceeding would be illegal if he took part in the organization. Mr. McCrae had a double vote in the event of a tie on any motions proposed, and the defendants were afraid that he would thus, as chairman, control the board and secure the election of a chairman of Mr. Willison, who is both vice of the village and a member of the board, as against the defendant Gerbig, who aspired to the chairmanship. The defendants are liable to

a fine of \$20 each and costs if they are convicted. Judgment was reserved for a week. The case is curious, because the board not having organized last Wednesday evening, the statute makes no provision for organization on any other day. The defendants as a majority of the board had passed a resolution last Monday evening, in Mr. McCrae's absence, declaring Mr. McCrae's seat vacant for the reason above stated, but Mr. McCrae, who was examined as witness, denied the legality of the resolution because the three months during which he was absent from the meeting had not then elapsed. There are a number of other legal questions involved in the case which will probably be brought on in court. The school board has just finished a course of three years' litigation over their school building and it is feared that there are fresh troubles in store.

**WELLAND.** At the meeting of the Windsor Finance Committee Thursday night, George K. Promte, one of the special auditors, read his report, which reveals a remarkable state of affairs, and shows that there is a deficit in the sinking fund of \$45,000, and that there is just that amount short of what there should be to meet coming debentures. According to the report the deficit started in 1884 and continued until 1889.

**WELLINGTON.** The Mount Forest Representative has entered on his seventh year.

At the recent meeting of the Guelph Presbytery the pastor of Dr. J. K. Smith, formerly of Knox Church, Galt, was proposed for the office of secretary of the Foreign Mission Committee, western division, of the Presbyterian Church in Canada. Thos. Weir, Puslinch, has bought the farm of the late Craven Chadwick, adjoining his own, for about \$1,500. There are 100 acres.

Charles Clarke, of Elora, is gazetted to be, until further orders, a deputy for the purpose of executing marriage licenses, etc. Robert Ormiston Kilgour, Mount Forest, solicitor of the Supreme Court of Judicature for Ontario, is gazetted to be a notary public for the Province of Ontario.

**Room at the Top.** He—I don't see what people keep dairies for. I can keep all my affairs in my head. She—That's a good way, too; but not every one has the room.

**Worth Thinking Of.** Customer—Isn't that a pretty price for a porous plaster? Druggist—Yes, but just think how long it will last.

**The Great Benefit** which people in run-down state of health derive from Hood's Sarsaparilla conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting strength, but Hood's Sarsaparilla builds up in a perfectly natural way all the weakened parts, purifies the blood and assists to healthy action those important organs, the kidneys and liver.

"The proof of the pudding is in the eating." K. D. C. has been tried and tested, and has proved itself to be the king of medicines, the greatest cure of the age, and the only perfect dyspepsia remedy on the market.

**Wabash Line.** A man going west should remember the great Wabash line the banner route to all west and southwest points. It runs the finest equipped trains on earth; the only line using the palace reclining-chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Special parties for California, weekly time tables and all information from your nearest ticket agent, or J. A. RICHARDSON, Canadian Passenger Agent, Toronto. 31-41-xt

## "German Syrup"

We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

ED. L. WILLIS, of Mrs. JAS. W. KIRK, Daughters' College, Harrodsburg, Ky. I have depended upon it in attacks of Croup and never saw any preparation act like it. It is simply invaluable remedy.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs. @

Ladies and Gentlemen.—It is not in com-

large number of the electors of the electoral  
district of London or elsewhere, that we  
now call your attention to the fact that at  
no time in the history of Canada is bile,  
indigestion, sore throats and sore heads,  
more rife than during an election campaign.  
All the foregoing complaints and many  
others to which flesh is heir, can be  
quickly cured by taking "Curative Fluid"  
internally, and using "Curative Fluid"  
externally. They are absolute specifics for  
the cure of disease, neutralizing the acid  
which is nearly always the cause of inflam-  
mation. By removing the inflammation the  
disease ceases to exist.

**LONDON AND ENVIRONS.**

—Miss Shaw, Wellington street, is re-  
covering from a recent illness.

—George Wallis, East Saginaw, Mich.,  
is calling on old friends in the city.

—The building of the new breakwater at  
Victoria bridge is progressing satisfac-  
torily.

—Large supplies of good ice are being  
laid in at present, most of it being secured  
at the Cove.

—Rev. Alex. Grant, of Winnipeg, formerly  
of this city in a sermon on Sunday  
made the statement that in his opinion  
more had been done during the last 50  
years in working out great purposes of  
grace than in the rest of the 1,800 years.

—Mr. J. Tiernan, rector of St.  
Peter's Cathedral, has been confined to his  
bed for over a fortnight, having suffered  
from an exceptionally severe attack of the  
grip. His friends will be pleased to hear  
that he is now able to be up, though still  
very weak.

—A largely-attended drawing room meet-  
ing, held at the Eltona Hotel on Monday,  
The Bishop of Mackenzie River addressed  
the Women's Auxiliary upon his work in  
the far Northwest. The Bishop of Huron  
presided, and the address was listened to  
with much interest.

—The attention a man gives to his busi-  
ness shows whether he is in love with it or  
not. Some men in business do not adver-  
tise their wares, while others do; whether  
the former think so much of them that they  
do not care to part with them, we do not  
know, but the man who keeps the same  
articles all the time is not going to get rich  
very soon. It is as much time as it is to  
a dealer in advertising it is to his goods.

—At the annual meeting of the teachers'  
and officers of the London West Methodist  
Sunday school, at the residence of Mr.  
Wm. Gibson the following officers were  
elected for the ensuing year: Superintendent,  
Mr. Wm. Gibson; assistant superintendent,  
Mr. J. E. Elton; secretary, Mr. R. Don-  
nelly; treasurer, Miss Eliza Woodard;  
organist, Miss Bella Currie; assistant  
organist, Mrs. Wm. Wattam; Bible class  
teacher, Rev. Mr. Godwin; assistant Bible  
class teacher, Mr. R. Greene; librarian,  
Mr. E. Elton; assistant librarian, Mr. A.  
Jeffries.

—One would judge by the amount of ad-  
vertising done and the fact that there is no  
admission fee or collection that the evangelis-  
t who has rented the Opera House for  
Thursday evening, and also the Victoria  
Hall on the following Monday evening, are  
hoping to be able to get the required  
amount in ten years. The choir were de-  
sired to give concert to further the  
project.

—Rev. W. Lowe announced that \$3,100  
was already subscribed towards the new  
church in Glenora, the cost of which would  
be about \$4,000. The church at Newbury  
was in a flourishing condition.

—Rev. H. R. Diehl told of the vigor with  
which the work for the erection of a church  
at Hideron was being pushed. About  
\$1,500 had already been raised by the  
gifts, and the work was on the ground.

—On motion of Canon Richardson, seconded  
by Rev. W. R. Seaborn, a resolution of  
sympathy was tendered Rev. W. Daunt,  
of Adelaide, in his bereavement, caused by  
the death of his wife.

—Rev. S. G. Edlestein was intrusted with  
the preparation of a paper on "The Jews," for  
the next meeting, and the subject of discus-  
sion for the same will be, "The best means  
of retaining the young members of the  
Church."

—A question box will also be established,  
in charge of Rev. Canon Richardson and  
Rev. S. R. Ashbury. On invitation of Rev.  
S. G. Edlestein, the May meeting will be  
held in Glenora.

—Interesting discussions took place on the  
material and spiritual interests of the  
church in the diocese. The arrangement  
of missionary meetings, as mapped out by  
the rural dean, was adopted.

**A WOMAN ATTACKED BY A BABOON.**

She Succs Its Owner and Recovers \$10  
Damages.

LONDON, Jan. 27.—At Bow County  
Court, before Judge Prentice and a  
jury, John Eaton, a "dealer in novelties,"  
of 41 Selsey street, Limehouse,  
was sued by Mrs. Mary Edwards, who  
lives in the same street, and who  
sought to recover £25 on account of  
personal injuries inflicted by a baboon. On  
Oct. 15, plaintiff said she was in her back  
garden, when a large baboon, which had  
broken loose from defendant's yard, sprang  
upon her. The animal gnawed her head,  
bit and scratched her arms, hands and  
face, and she was still dead from the  
effects of her injuries. The same monkey  
had, it was said, on different occasions  
attacked other women, and one of them  
deposed that it sprang upon her in her back  
yard in Whitechapel in May last. The jury  
found for the plaintiff, giving £10 damages.

For the last three issues of the Adver-  
tiser the advertisement of the New York  
Life Insurance Company has appeared,  
and they announce that its twenty year  
tontine policy issued in 1872 are  
now maturing. Examples are given in  
the advertisement showing the profits ob-  
tained by three different parties who took  
out policies twenty years ago. By glancing  
at the advertisement it can be easily seen  
that this company's business has steadily in-  
creased, especially during 1891, when the new  
business exceeded \$150,000,000 and its in-  
come exceeded that of 1890. The assets  
and insurance were largely increased and  
the mortality rate much below that called  
for by the mortality table. Persons desir-  
ing to see results on policies issued at their  
present age and any further policies can  
obtain same by calling or addressing the  
general agent for London, Mr. J. R. Mc-  
Dowell, Bank of Commerce building.

**ETTES COCA—GRATEFUL AND COMFORTING.**

"By a thorough knowledge of the natural  
laws which govern the operations of digestion  
and nutrition, and by a careful application of  
the fine properties of well-selected Cocoa, Mr.  
Epps has provided our breakfast-tables with a  
deliciously flavored beverage which may save  
many heavy doctors' bills. It is by the judi-  
cious use of such articles of diet that a con-  
stitution may be gradually built up, until  
strong enough to resist every tendency to dis-  
ease. Hundreds of subtle maladies are float-  
ing around us ready to attack and often there-  
fore a weak point. We may escape many a  
fatal ailment by keeping ourselves well fortified  
with pure food and drink. Sold only in  
cocoa, by grocers, labeled "Epps's Cocoa."  
—CIVIL SERVICE GAZETTE, Made simply  
with boiling water or milk. Sold only in
