

LOADED AUTOMOBILES COLLIDE BUT THE PASSENGERS ESCAPED

Dr. H. A. and Mrs. McCallum, Their Boy and Chauffeur Were in One Machine, While Mrs. John McNeer, Mr. Fred McNeer and a Chauffeur Were in the Other—One Car Was Badly Smashed.

An automobile was smashed and Dr. H. A. McCallum and his wife and young son were shaken up Wednesday afternoon at 3:30 o'clock, as the result of a collision between Mr. James McNeer's auto and one owned by Mr. Mel. Hueston.

Accounts differ as to who was to blame for the collision. Mr. Hueston's machine, in charge of Chauffeur Cudney, with Dr. and Mrs. McCallum and the boy, was going north for a drive into the country.

Mr. McNeer's car was coming south and when near the corner of St. James and Richmond streets, they met.

Cudney tried to avoid the McNeer car and switched rapidly. The latter car was also turned sharply, but it was too late to avoid a collision.

The autos met practically head-on, and were thrown back a distance.

Dr. and Mrs. McCallum were badly

jarred, and Mrs. McCallum was for a time in a highly nervous condition.

Dr. Hueston's machine was in his auto, and took Mrs. McCallum and her boy home.

Mrs. McNeer, and Mr. Fred McNeer, and the chauffeur, Jack Westcott, were in the McNeer car when the collision occurred. They were not injured.

Damage to Cars.

The McNeer car was not badly damaged. One of the mud guards was twisted and the hood was scratched, but otherwise it was all right.

The Hueston machine was badly smashed. The hood part was crushed in, while the front axle was broken in two, and the auto was otherwise damaged. It was taken to the garage by a derrick, and will be out of commission for some time.

Both machines were going at a fair rate of speed.

FOUR MORE CASES DEVELOP OF INFANTILE PARALYSIS

Two of the Patients Are From a Hill St. Home—All Are Now in Victoria Hospital—Cases Are Very Critical.

Four more cases of infantile paralysis of the most serious nature have developed in the city. Two of the children affected are from a Hill street home. All are at the present time in Victoria Hospital, and the gravity of the situation is shown by the fact that those affected have been placed in a closed ward where they will be absolutely isolated.

"We are taking absolutely no chances," said one of the attending physicians, "in the case of this affliction, and we are treating it as a puerile typhoid as it is known, is most contagious, and if given a chance spreads rapidly. We believe all the patients we have now will recover, but they are all very seriously ill."

TORONTO REPORT SAYS HANNA IS TO RETIRE FROM CABINET

Feeling Among Conservatives Is That He Has Made An Unforgivable Mistake—Has Been Overestimated as a Politician and Offended Many of Best Party Friends.

[Special to The Advertiser.]

Toronto, Oct. 20.—Among local conservatives there is a strong feeling against Hon. W. J. Hanna, provincial secretary, and the opinion is expressed in Conservative organizations that Hon. Mr. Hanna is no longer a safe man to have in charge of important affairs of party.

His mistake is regarded as unforgivable.

His attitude toward members of the cabinet in other affairs has been displeasing to them, and little sympathy is felt in many quarters.

Mr. Hanna, to a very large number of Conservatives, is considered to have been overestimated as a politician. He has turned Englishmen against the move, and on account of his gross indiscretion was responsible for the miserable efforts in connection with the provincial police force, and the organization and adoption of the fool uniforms, to say nothing of the many other matters in which he has offended the best friends of the party. Opinion is expressed in many quarters that Hon. Mr. Hanna will retire shortly from the cabinet.

CITY CANNOT MAKE STREET RAILWAY HUSTLE

Nothing in the Agreement to Compel the Company to Move Quickly.

The city cannot compel the London street railway to hurry their work on Richmond and Dundas streets. The civic officials have the privilege of writing letters, but there is nothing in the agreement with the company, to make them complete the constructive work now in hand, within a given time.

At the last meeting of the council, Ald. Morgan wanted the city engineer's department to hurry the company, and Engineer Wright was instructed to obtain the city solicitor's opinion on the subject. He was told that the city had no power to compel them to rush the work.

Mayor Beattie so informed the council, but now they have a definite opinion from the city solicitor.

CITY COUNCIL SHOULD RESCIND THE BYLAW

Dog Muzzling Order Should Be Brought to an End.

Magistrate Love is of the opinion that the dog muzzling bylaw ought to have been rescinded long ago, and his view of the question coincides with that of the police commissioners and the chief of police. But the Carling street authorities argue that the only proper course to be pursued is for the city council to rescind the bylaw openly. To request the police commissioners to simply neglect to enforce it, as the council have done, is, in his opinion, to invite the police to break the law.

Personally, the police magistrate thinks it is high time to close the chapter of dog muzzling in our civic annals, but he regards it as his duty to abide by the law so long as it stands, notwithstanding that the council have asked that prosecutions be discontinued.

Yesterday, however, he demised a score of charges for neglect of the muzzling regulations, that have been standing for some time, in the expectation of the council taking definite steps to take the bylaw off the statute books. The police commissioners argue that although the Dominion ordinance is no longer in effect, yet the civic bylaw will continue as a law which should be enforced, unless the city council definitely rescind the regulation.

TEN YEARS FOR FRANK HORSEY

Baltimore Youth Convicted on Four Charges of Robbery in This District.

DIDN'T FEEL VERY BAD

Evidently the Prisoner Was Expecting Even More—The History of the Crimes.

Frank Horsey, an insipid appearing youth who claims Baltimore as his home, and who came from Detroit with a man named Stephens a few weeks ago, apparently for the express purpose of burglarizing every house he encountered, drew a ten-year term in Kingston Penitentiary on four charges before Judge Macbeth at noon today.

Three of the charges were house-breaking, and the fourth, the burglarizing of the home of Squire Patrick, of Ilderton. According to the statutes the term for the first-named offence may be made fourteen years, while life is the extreme penalty for burglary.

The Burglaries.

During the latter part of August a number of burglaries were reported to the county police by farmers residing along the line of the London, Huron and Bruce from Hyde Park towards Clinton.

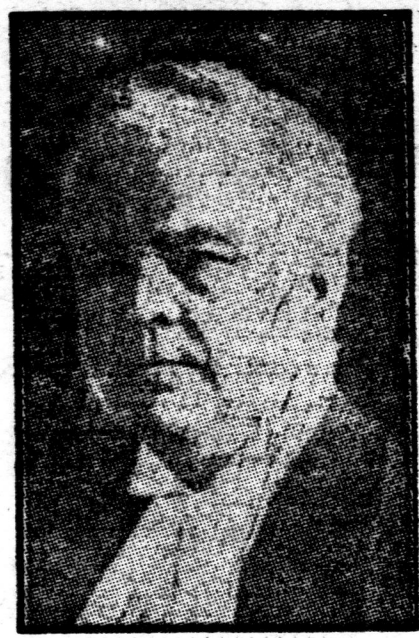

Hiram Shain, of Hyde Park, reported that his hotel was entered and \$150 in small change taken, as well as several flasks of whiskey. A window pane had been removed by the burglar.

Thomas Noyes lost a razor, jewelry and clothing one afternoon when he left his home with his wife. As he drove away Horsey entered the yard and asked for a drink. It was given to him and he went away to return when the house was unoccupied.

Leonard Hughes reported goods stolen in daylight, and then came the most serious offence of all.

One night Squire William Patrick, of Ilderton, heard a noise in the lower part of the house. He crept slowly downstairs, and as he entered a room he found himself looking down the muzzle of a revolver. He was ordered to turn over his valuables, and complied, a roll of bills amounting to \$15 being included. The next day the Squire advertised a reward of \$20 for the arrest and conviction of the burglar, and this morning turned the money over to High Constable Hughes who will divide with him.

Continued on Page Nine.

JUDGE MACMAHON ILL.

Judge MacMahon, of Toronto, formerly of London, is reported to be quite ill in Toronto. He is 74 years of age and practiced law here for many years. It was he who tried Birchall for the murder of Benwell in 1890, Birchall being found guilty. Judge MacMahon was also one of the solicitors for the defence in the famous Donnelly murder case.

CARS COLLIDE IN A BAD FOG

Mr. William Sullivan, of Argyle Street, Slightly Hurt in an Accident.

MISHAP ON DUNDAS ST

Owing to Carefulness of Motorman, No Person Was Seriously Injured—Mist Made Operation of Cars Very Dangerous.

The unusually heavy fog was responsible for a collision on Horton street, east of Clarence street, at 8 o'clock this morning, between Oxford car No. 128, in charge of Motorman W. Livermore, and Oxford car No. 90, in charge of Motorman H. Clark.

Fortunately both cars were travelling at a slow rate of speed, as it was impossible for the motorman of each car to see more than ten or twelve feet in front.

Car No. 128 was proceeding east on Horton street with four passengers on board, when car No. 90 appeared in front.

Motorman Livermore quickly applied the brakes and brought his car to a standstill, but not before the cars had met.

Wm. Sullivan, of No. 2 Argyle street, was standing on the back of No. 128, and seeing the cars coming together, he tried to jump off. Before he could do so, the collision occurred, and he was thrown heavily against the back of the car. He was slightly bruised about the chest.

The other passengers escaped injury.

Car No. 90 suffered a broken fender, but outside of this there was no other damage.

Bad For Operating.

Superintendent Young, of the Street Railway, stated this morning that the mist was the heaviest they have had to deal with this year, and all the cars had orders to proceed slowly.

Two cars backed into each other at the corner of Dundas and Lyle streets, but no damage was done.

There was a great deal of trouble with rigs, but so far no accidents have been reported.

COLD RAINY DAY FOR WORLD'S SERIES

Weather Keeps Crowd From Coming Out Very Strong.

Chicago, Oct. 20.—A light rain early this morning, accompanied by a sharp drop in the temperature, presaged uncomfortable conditions for the third game of the world's championship series between the Chicago Nationals and the Philadelphia Athletics this afternoon.

As no more rain was in sight, however, it was regarded as certain that the game would be played. The diamond, covered by canvas, did not suffer from the wet, but the outfield was slippery.

The weather spread gloom among the spectators. The leaden skies, the mist and chill winds were not incentive to pay three or four prices for tickets.

There was a thin, shivering line of undaunted enthusiasts lined up at the grounds when day broke, waiting for the ticket windows to open. Fifteen thousand seats were available to the crowd.

It was regarded as certain that Ed Reulbach would pitch for Chicago, but Connie Mack declined to make his choice in advance. He said he would not select his man until he had gone on the field and seen the players in practice. The general belief was that Mack's choice would lie between Coombs and Plank, with the former the more probable selection.

The Philadelphia players passed a restless night at their hotel, and seemed perfectly fit when they appeared at breakfast. The locals were in high hope of winning today's game.

Manager Mack announced that Coombs had been selected to pitch today's game. The decision was made before the Philadelphia team left its headquarters for the ball grounds.

Four tickets to a person were sold at the grounds. Scalpers took advantage of this in a peculiar way. As a man purchased his tickets he was compelled to enter the grounds. This the scalpers did, but immediately emerged and endeavored to make a profit on the three remaining tickets. In this way they were usually successful. Boys who had advantageous places in the line sold them for as high as \$5.

The batting order:

Philadelphia—Strunk, c.f.; Lord, l.f.; Collins, 2b.; Baker, 3b.; Davis, 1b.; Murphy, c.f.; Barry, s.; Thomas, c.; Coombs, p.

Chicago—Sheppard, l.f.; Schulte, r.f.; Hoffman, c.f.; Chance, 1b.; Zimmerman, 2b.; Steigold, 3b.; Finkler, s.; Kling, c.; Reulbach or Cole, p.

FIRE CAUSES HALF A MILLION DOLLARS DAMAGE AT ST. LOUIS

Blaze Started in Chicago and Alton Freight House on the River Front and Spreads to Oil Cars—No Loss of Life Reported in the Explosion.

East St. Louis, Ill., Oct. 20.—A fire started in the Chicago and Alton freight house on the river front, and spread rapidly to neighboring structures of like character, causing a loss of more than \$500,000 early this morning. The blaze was of no significance when discovered, but soon spread to ten tank cars of oil, which exploded, hurling blazing fluid in all directions. The oil set fire to the Baltimore and Ohio freight warehouses, covering a block. A score of oil tanks in it exploded with a roar that was heard for miles.

A hotel and a row of boarding-houses were also destroyed. No loss of life was reported.

BOARD OF WORKS MUST STOP IF A DEFICIT IS TO BE AVOIDED

The board of works will have to stop all work at once if they are going to keep within their appropriation. At the present time there is but a trifle over \$6,000 in the treasury, and that will be barely sufficient to do the ordinary work of cleaning streets and the like between now and the end of the year. There will be nothing left to repair streets or do any more grave-digging.

A statement will be presented to the committee tonight, and it will show that there is about \$8,600 on hand. However, there are over \$2,500 outstanding accounts to be paid this week, and that reduces the capital to about \$6,000.

There is the intention of the board to repair Emery street, but this will cost about \$1,000, and it is understood that the work cannot be done this year, but go as a legacy to next year's council.

ORANGE SENTINEL HOT ON TRAIL OF HON. HANNA AND DR. PYNE

Says the Minister of Education Broke Faith With the Order—Mr. Hanna Is Guilty of a Most Serious Indiscretion—The Sentinel Admires Bishop Fallon.

The Orange Sentinel, in a full-page editorial on the Fallon-Hanna matter, after pointing out that the Orange Order had taken steps to prove to the Ontario Government that bilingual schools had been conducted as French separate schools, says:

It is gratifying to us that the agitation have been conducting has at last culminated in a situation that brings this educational abuse up for settlement. The argument that the use of French is necessary where the beginners know no other language is entirely fallacious. To prove our case we need only point to the schools in the city of Toronto, which are filled by the children of Italians, Russians, Poles and other foreigners. The pupils enter Elizabeth street school and McCarroll street school, and are taught in the English language. In a very short time they acquire a knowledge sufficient for working purposes, and before long they show a proficiency which sometimes surpasses the children of English-speaking parentage. If such results are possible in Toronto, like success can be achieved in Prescott, Russell and Essex Counties.

The Sentinel quotes Bishop Fallon and adds: "This is stronger than anything that has been said in the Sentinel. If it had appeared in our editorial columns it would have been treated as a gross exaggeration. But given publicity upon the authority of Bishop Fallon, it must be accepted at its face value."

On Hanna's Trail.

As to the political complexion of the affair, the Sentinel says:

"An astute man—and Mr. Hanna has the reputation beyond anything else—would have been content to make notes which would be sufficient to refresh his memory and impart the information orally. If he had followed that course he would not have been the fountain-head of information which the enemies of the man who confided in him are using in their effort to destroy him. But Mr. Hanna was guilty of a more serious indiscretion than that. After committing to writing the conversation with Bishop Fallon he handed a copy of it to the bishop's enemies. Why did he give Dr. Russell and Essex Counties?"

Continued on Page Four.

C. P. R. PLAN OWN WATER SYSTEM WORK BEGUN ON IMPROVEMENTS

The C. P. R. has commenced work on the first of the improvements announced for the northeast end of the city some months ago. The apparatus for sinking a number of wells is now on the ground, and work has been started on the drilling. The spot chosen for this well lies about 150 feet north of Elm street and 75 feet west of Quebec street.

Mr. W. H. Barff, a local well driller, has charge of the work, and already a shaft has been sunk about twelve feet.

WILL GROW FRUIT.

Forest, Oct. 19.—Fruit growing as an industry on the boom in the district, and it is reported that one agent has taken orders for more than 20,000 peach trees. Orders for apple and plum trees are also very numerous.

THE WEATHER

Tomorrow—Colder.

FORECASTS.

Toronto, Oct. 20.—8 a.m. Increasing northerly winds; weather becoming much colder tonight and Friday, with local rains.

TEMPERATURES.

Stations.	Max.	Min.	Weather.
Victoria	52	40	Clear
Calgary	52	32	Clear
Edmonton	40	22	Fair
Port Arthur	48	34	Fair
Perry Sound	74	40	Cloudy
Toronto	72	40	Clear
Ottawa	70	40	Fair
Montreal	70	54	Cloudy
Quebec	60	40	Cloudy
Halifax	48	36	Clear

WEATHER NOTES.

Since yesterday the southern storm has moved slowly up the Atlantic coast to North Carolina, while the western high pressure has moved quickly towards the Great Lakes.

Severe frosts occurred last night in Saskatchewan and Manitoba, and the cool wave is now spreading over Ontario.

Cautionary signals are displayed both on the Lakes and Maritime Provinces.

YESTERDAY'S WEATHER.

Gales, accompanied by showers, prevailed yesterday, with occasional showers, and the temperature was in the 40s and 50s. The weather was fine, with a west and warm in other provinces. The tropical storm was last night off the coast of Nova Scotia.

Minimum and maximum temperatures: London, 41-72; Victoria, 44-60; Vancouver, 42-60; Edmonton, 40-52; Port Arthur, 48-74; Calgary, 22-52; Moose Jaw, 14-46; Qu'Appelle, 20-44; Winnipeg, 22-40; Regina, 30-48; Pelly, 30-48; St. John's, 44-52; Quebec, 38-60; St. Louis, 62-64; Halifax, 48-56.

TODAY'S PROBS.

The East—Easterly and southeasterly winds, unsettled, with occasional showers.

Lake Superior and Manitoba—Fine and clear.

Washington, Oct. 20.—Forecast: Eastern States and Northern New York—Threatening weather, with rain tonight or Friday; colder; brisk variable winds, shifting to northeast and north, becoming high in south portion.

Western New York—Threatening weather, with showers tonight or Friday; much cooler; brisk north winds.

Lower Lakes—Brisk to high north winds; threatening weather, with showers tonight or Friday.

CRIPPEN WILL GO ON STAND TO TELL OF WIFE'S DISAPPEARANCE

His Counsel Will Try to Prove That Body Found Is Not That of Belle Elmore—Crippen Appears Very Anxious as He Follows Evidence.

London, Oct. 20.—It was decided today to place Dr. Hawley H. Crippen on the witness stand and let him tell his own story of the disappearance of his wife, Belle Elmore, the actress, with whose murder he is charged.

There had been much speculation as to whether Crippen would testify for himself, and the decision of his counsel was not made known until just before the resumption of the trial this morning, when Arthur Newton, announced to the press that this course had been determined wise from the standpoint of the defendant's interests.

Doctors Marshall and Spitsbury, medical experts, who examined the human parts unearthed in the cellar of the Crippen home in Hildrop Crescent, repeated the evidence which they had given in the lower courts. This was in confirmation of the testimony given yesterday by Professor Pepper, the pathologist, who swore that the flesh was human, but that he could not determine anatomically the sex of the victim.

The cross-examination of the experts, in which Lord Chief Justice Alverstone, who is presiding, joined, centred on the alleged scar on the body, which the defence contents was only a fold in the skin.

Alfred Aspinall Tobin, chief counsel for Crippen, piled Spitsbury and Marshall with searching inquiries, but the medical men were not shaken from their assertion that the mark had been left by the wound of an operation, and no sebaceous gland was discovered in the scar area. Spitsbury agreed that if the presence of a sebaceous gland was established, it would be conclusive evidence that the mark was not a scar.

Crippen Anxious.

Crippen, paler than at any time before, followed the evidence with strained intensity.

The defence, it is now known definitely, will attempt to prove that the body found in the Crippen home was not that of his wife. Mrs. Crippen had undergone a surgical operation. The prosecution claims to have found on a portion of the body a scar corresponding to the wound left on Mrs. Crippen's body by the surgeon's knife.

In this way they have sought to establish the identification. The defence maintains that it was not a scar that was found, but rather a fold in the skin, and under cross-examination secured from the prosecution a medical expert witness, the admission that if the presence of a sebaceous gland on the scar area could be established, it would be conclusive evidence that the mark was not a scar.

The Defence.

The defence, it is now known definitely, will attempt to prove that the body found in the Crippen home was not that of his wife. Mrs. Crippen had undergone a surgical operation. The prosecution claims to have found on a portion of the body a scar corresponding to the wound left on Mrs. Crippen's body by the surgeon's knife.

In this way they have sought to establish the identification. The defence maintains that it was not a scar that was found, but rather a fold in the skin, and under cross-examination secured from the prosecution a medical expert witness, the admission that if the presence of a sebaceous gland on the scar area could be established, it would be conclusive evidence that the mark was not a scar.

EXTRA! EXTRA!

The Advertiser will publish an extra giving a full account of the world's series' games at Chicago this afternoon.

Watch for it. It will be out a few minutes after the finish of the game.

SIX FIREMEN KILLED IN BIG EXPLOSION

Boiler Blows Up and Causes a Panic in Factory.

New York, Oct. 20.—A boiler explosion killed six firemen outright, probably fatally wounded two others, and threw 2,000 women and girls and half as many more men into a panic today at the bagging and rope plant of the American Manufacturing Company at Green Point, across the east river.

Circumstances surrounding the explosion are a complete mystery. Without warning the big boiler in the two-story brick warehouse, attached to the plant, blew up, hurling the eight men working on the air to the street. The roar and the hiss of escaping steam caused those who were at work in the factory to become panic-stricken.

There was a rush for the doors, and many of the weaker ones were trampled underfoot. All the time the building was shaken, as another boiler blew up with great violence.

When picked up the bodies of the six firemen were terribly mutilated, and it was with difficulty that they were rescued. The other two firemen were rushed to a hospital in a dying condition.

CHECK FOR FIREMEN FROM REX CIGAR CO.

Brigade Rewarded for Good Work at Bad Fire.

Fire Chief Aitken has received a check for \$50 from the Rex Cigar Company, through Mr. C. G. Carlton, one of the partners and business manager, to be applied to the firemen's benefit fund. Mr. Carlton expressed his appreciation of the excellent services of the firemen on the occasion of the McAdam & Ferguson livery fire. The firemen's fund is now almost \$350.

LEVELS ARE GIVEN FOR NEW RAILS

South Track Is Being Laid This Afternoon.

The city engineers' department today gave the London Street Railway Company its levels on Dundas street for the new rails.

The south track is being laid this afternoon and the cement work commenced. It will take several days to complete that job.

From information received the company will not do much work this fall on the rest of the downtown track.

ACTION BEGUN FOR DIOCESE OF HURON

Mortgage Against London Township Farm Is To Be Foreclosed.

The Trusts and Guarantee Company of Toronto have entered action on behalf of the Incorporated Synod of the Diocese of Huron against Lancel Cole, of London Township, and Annie Kedwell, of Petrolia, to foreclose on a mortgage on 23 acres of land in the Township of London.

The defendants are indebted to the Synod of the Diocese to the amount of \$2,779 13, and the foreclosure on the mortgaged land has been ordered to recover this amount.

DEAD IN BED.

Tamworth, Oct. 20.—Wm. Lyman, a farmer, 65 years of age, was found dead in bed this morning. Death was due to heart failure.

How Nervous Men Get Most Out of Life

(From "Successful Men.")

Every normal-minded man wishes to get all he can out of life—but many a man knows that he is falling far short. The successful man works, eats, and plays with the keenest enjoyment, because his nerves are keenly sensitive. He tastes, hears, sees and feels all with the highest emotions of vibrant healthy nerves. As a consequence he has stamina, endurance and personal magnetism, which makes those near and dear to him, worship his manliness, cheerfulness and strenuousness. Without keen, sensitive, well-nourished nerves, such a man would be an object of pity, and not the brilliant success he is. All men should have well-nourished nerves, but if the blood and vital organs do not supply the channels or substance known as nerve fluid, then the waste of the nerves is not renewed daily and hence the exhausted, giving rise to such symptoms as trembling hands and limbs, cold feet and hands, melancholia, hysteria, timidity, nervousness, sleeplessness, dizzying heart palpitation, pains in the back, headache, languor and weariness at all times. A most valuable nerve treatment, restorative, emanating from a brilliant specialist on nervous ailments. The treatment can be prepared in the privacy of your home, and causes no one any embarrassment. First get three ounces of syrup of sassafras, compound of ginger, ounce bottle. To this add one ounce of compound fluid balsam, shake well and let stand two hours. Add one ounce of tincture caduceus compound (not cadomum), and one ounce of compound essence cardiol. Mix. Shake well and take a teaspoonful after each meal and one when retiring. It is astonishing to feel the new nerve force, the steady nerves, and the control of every muscle of the body after using this. Overworked office men, and the many victims of "nervousness," and dissipation will surely find in this restorative, rejuvenating force they are sorely in need of. The ingredients are used in various prescriptions and any good druggist can supply them.

Household Economy

How to Have the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take two cups of sugar, add one cup of warm water, and stir about two minutes, you have as good syrup as money could buy. If you will then put 2½ ounces of Pinex (fifty cents' worth), in a 16-oz. bottle, and fill it with the sugar syrup, you will have as much good syrup as you could buy ready-made for \$2.00. It keeps perfectly. And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a teaspoonful every one, two or three hours. It is a splendid remedy, too, for hoarseness, asthma, chest pains, etc. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualic acid and all the healing pine elements, and the preparation will work in this formula. This recipe for making cough remedy with Pinex and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated, but never successfully. A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

SANTOL FACE CREAM

Not only beautifies but permanently benefits the skin. At your Druggist's, 25c

For every person who dies in a year there are two people constantly ill. Each person loses, on an average, 13 days a year by illness.

THREE QUESTIONS ON SCHOOL CONTROVERSY

Dr. Reaume Or Mr. Hanna Invited to Answer Them.

[Toronto Star.] The letter Provincial Secretary Hanna wrote to Dr. Pyne, minister of education, purporting to give an account of what Mr. Hanna believed were the opinions of Bishop Fallon, of London, on the bilingual school question, is dated at Sarnia, May 23, last.

The interview Mr. Hanna had with Bishop Fallon, upon which the former's letter to Dr. Pyne is based, was had a day or so previous to the sending out of that letter. The article in the Detroit Free Press which Bishop Fallon takes exception to was published on June 5. A comparison made between that letter written by Mr. Hanna and the article as it appeared in the Detroit Free Press shows that they have many things in common. In fact, it looks as if the newspaper article might have been based on the Hanna letter.

In the statement issued by Dr. Reaume, minister of public works, he maintains that he sent a letter to Bishop Fallon, following an investigation he caused to be made, in which he stated that a newspaperman, Mr. H. E. Wilmut took the responsibility of having written the article in the Detroit Free Press.

A few questions may prove pertinent. 1. Taking it for granted that Mr. Wilmut did not write the article, where did he get the material for it? 2. Was he given access to the Hanna letter, and if so, why? And finally,

3. Whose name was signed to the article when it was forwarded to the Detroit Free Press?

PHILIP BOEHMER DEAD.

[G. N. W. Dispatch.]

Berlin, Oct. 19.—After a lingering illness, Philip Boehmer, a well-known commercial traveller of Western Ontario, is dead. He was in his 53rd year.

Why Suffer From Piles?

Zam-Buk Gives Certain Ease.

Friction on veins (the hemorrhoid veins that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others? Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from the use of Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief. So I continued it, and after using three or four boxes I am pleased to say it has effected a complete cure."

Mr. G. A. Dufresne, 183-185 St. Joseph street, St. Roch, Quebec, P.Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles."

Magistrate Sanford, of Weston, King's County, N.S., says: "I suffered long from itching piles, but Zam-Buk has now cured me."

Mr. William Kenty, of Upper Nine Mile River, Hants County, N.S., says: "I suffered terribly from piles, in pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. I procured a supply and commenced with the treatment. After a very short time Zam-Buk effected what several other ointments and medicines had failed to do—a complete cure."

Zam-Buk is also a sure cure for skin injuries and diseases, eczema, ulcers, varicose veins, cuts, burns, bruises, chaps, cold sores, etc. Fifty cents box, all druggists and stores, or post free from Zam-Buk Company, Toronto, for price. Refuse harmful imitations.

Every Woman is interested and should know about the wonderful **MARVEL Whirling Spray**. The new vaginal spray. Most convenient. It cleanses instantly. Ask your druggist for it. If he cannot supply the MARVEL Whirling Spray, send stamp for illustrated book—called, "It gives full particulars and directions valuable to ladies." **WINDSOR SUPPLY CO.** Windsor, Ont. General Agents for Canada.

DOCTOR MAKES AN IMPORTANT DISCOVERY

Finds Method For Removing Different Portions of Body and Keeping Them Alive.

Baltimore, Md., Oct. 19.—Along lines conceived by himself and worked out under the skillful guidance of the Hopkins men who are at the head of the Rockefeller Institute for Medical Research, Dr. Alexis Carrel has made one of the most important medical discoveries of the age, and one which promises to have a wide influence in the advancement of science. Dr. Carrel's discovery involves a method for removal from the human body of portions of the stomach, blood vessels, skin, bone, and practically every other tissue, and making them grow at as lively a rate as they did in the human form to which they belonged.

Dr. Carrel, who has paid much attention to the cultivation of the germs of disease, some time ago began to apply himself specifically to the growth of healthy tissues of the human system after they had been removed from the body.

He tried his experiments with tissues from the stomach, with tissues from blood vessels, cartilage and bone, and in the end his efforts were rewarded by success. He has kept portions of the body alive as long as three weeks after they were taken from the persons to whom they belonged. Other experiments have resulted in the tissues being kept alive for from a week to two weeks.

The methods of cultivating the living body, or portions of it, are somewhat similar to the cultivation of disease germs.

MARINE.

Sarnia, Oct. 19.—Up: Bennington, Viking 9 Tuesday night; Northern Light, 9:15; Boland, 10; Linn, Tampa, 10:10; Yale, 11:30; Turret Chief, 11:40; Socapa, 12; Astor and consort, 12:30 Wednesday morning; Dixon, 3; Juliet, 3:20; Sheela, 5; Jim Brown, McGean, 7:20; Joseph Wood, 7:20; Pawnee, 8; Jenks, 9; Alaska, Wood, 9:50; Phipps, 10:40; Bangor, 10:50; Favorite, 11; Asetic and consort, 11:20; Intoco, 12:20 p.m.; Crescent City, 1; Republic, 1:20; Advance, Utley, 1:40; Angeline, 2; Frank Ball, 2:10; Rosemont, 2:30; Arlington, 3:50; Zimmerman, 5; Starkey, 6; Rhoda, Emily, consort, 6:20; King Queen, 6:50; Harvard, Allegheny, 7; Ireland, 7:10; Baker, 7:20; Shenandoah, Montezuma, 7:30; Alena, 8.

Y. W. C. A. BOARD

Cooking Demonstration Proved a Decided Success.

A meeting of the Y. W. C. A. board was held in their rooms, corner of Dundas and Talbot streets, yesterday afternoon.

Reports of the different departments of work were read, showing that good progress was being made in all the branches.

The cooking demonstration given by Prof. Getless in the residence, 51 Wellington street, was a decided success, and Prof. Getless will be invited to give another demonstration after the first of the year.

Those present at the meeting were the president, Mrs. Edwards, Mrs. Becher, Mrs. Waller, Mrs. Ellis, Mrs. Jarvis, Miss Moore, Miss Fraser, Miss McBride, Miss Brown, and the secretary, Miss Lindop.

MASONS' NEW HALL.

Berlin, Oct. 19.—The fine new rooms of Grand River Masonic Lodge were opened this evening at a large banquet at which several hundred Masons from all parts of the district were present.

GALT MAN DEAD.

Galt, Oct. 19.—Alexander Walker, of Selkirk, is dead after an illness extending over a year. He had resided in Galt for 29 years and was a native of Georgetown.

A. W. WHITE SUCCEEDS THE LATE DR. WILSON

Appointed to the Vacancy on Western University Board.

At the regular meeting of the board of governors of the Western University Mr. Arthur W. White was selected to fill the vacancy on the board caused by the death of Dr. John D. Wilson. Mr. White's name was the only one mentioned and the selection was made unanimous.

The governors have not lost sight of the fact that Sir James Whitney resigned to discuss matters with the Premier, and give him some idea of the importance of the Western. The conference will be held at an early date. The consensus of opinion was that aid would be given the institution.

A plan of campaign to impress upon the Government the needs and possibilities of the Western will be undertaken by the board. The details are not sufficiently developed yet to make public.

Mr. S. Baker asked to be allowed to resign the secretaryship. He pointed out that with the multiplicity of meetings, increased work, it was impossible for him to continue in the extra duties. It is quite likely that a change of the day of the regular meeting from Saturday afternoon will be made. That suitable arrangements will be made, it is quite possible that he will be induced to remain.

A considerable amount of routine business was discussed, but nothing was done of importance.

Those present were Mr. Justice Meredith (chairman), Mr. T. H. Purdon, K. C., Mr. T. J. Murphy, Capt. T. J. Murphy, Mr. J. O. Drougole, Principal James and Mr. S. Baker.

DROPPED DEAD

Former St. Marys Man Dies Suddenly in Chicago.

St. Marys, Oct. 20.—James McArthur, jun., a former citizen of St. Marys, and a son of Mr. James McArthur, widder street east, North Ward, dropped dead at the corner of Van Buren and Halstead streets, Chicago, early Tuesday morning while purchasing a newspaper from a newsboy. Deceased was 47 years old, and was a carpenter by trade. He was a member of No. 1, Brotherhood of Carpenters, Chicago. Deceased was unmarried, and is survived by his father, James McArthur, St. Marys, and two brothers and one sister, Peter, of Buffalo, N. Y., Richard, of British Columbia, and Mrs. George C. Tomlinson, St. Marys. The remains arrived here yesterday from Chicago, in charge of Mr. Henry Elms, a member of the Brotherhood of Carpenters. The immediate cause of death as given by the medical attendant was heart failure. Deceased had been a member of Chicago for the past 20 years. The funeral takes place this afternoon from the residence of his brother-in-law, Rev. Geo. C. Tomlinson, of the Latter Day Saint Church, Internment in St. Marys Cemetery.

Arch. Crane, of Buffalo, N. Y., putting down a rock well. They expect to strike an overflow spring.

Mr. George Woolway, who recently moved to the North Ward from Lakeside, East Nissouri, has leased the old postoffice premises, and is opening a store.

SCARE IS OVER

No Cases of Rabies Reported for Several Months.

[G. N. W. Dispatch.] Ottawa, Oct. 19.—Inquiry at the biological laboratory in connection with the fact that the rabies epidemic in Western Ontario has about run its course, no cases having been reported in here for observation within the past couple of months.

During the year 1909 and until the end of September, 1910, more than 125 animals have been sent in for examination, of which over half showed positive symptoms of rabies. Some were horses, other cows and calves, but in the main the animals sent in were dogs, which would comprise about 85 per cent.

Among old laws against kissing, those of Iceland appear to have been the most severe. Banishment was the penalty laid down for kissing another man's wife, either with or without her consent.

KIDNEYS ACT FINE AND BACKACHE GOES

A few doses regulate the Kidneys, ending all Backache, Bladder or Urinary misery.

Whether old or young, no man or woman can make a mistake by taking a good kidney medicine any time.

The moment you suspect any kidney or urinary disorder or feel a constant ache in the back, sides or joints, or the urine is full of sediment, or thick, cloudy and offensive, irregular of passage or attended by a sensation of scalding, begin taking Pape's Diuretic, with the knowledge that there is no other remedy at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

The time to cure kidney trouble is while it is only trouble—before it settles into Dropsy, Gravel, Bright's Disease or Diabetes.

Pape's Diuretic acts directly upon the kidneys, bladder and urinary system; cleanses, cleanses, cleanses and regulates these organs, ducts and glands, and completes the cure usually within a few days.

Lame back, painful stitches, rheumatism, urinary trouble, nervous headache, dizziness, irritability, sleeplessness, inflamed or puffy eyelids, bilious stomach, or weak, watery, red feeling and other symptoms caused by congested, active kidneys disappear. Uncontrollable, smarting, frequent urination (especially at night, and all bladder troubles, irritability, sleeplessness, inflamed or puffy eyelids, bilious stomach, or weak, watery, red feeling and other symptoms caused by congested, active kidneys disappear. office as matter of the second class.

LONDON, THURSDAY, OCT. 20.

THE ESSEX PROBLEM.

The Hamilton Spectator, the News,
The London Advertiser and other
journals of Ontario that lend an ear
to the passions of Mr. Fallon are
taking the wrong course. Our com-
patriots from Ontario, no more than
those from the west and the Mar-
time Provinces, have not meant for
an instant to deprive their children
of the knowledge of the English
language. This allegation is false and
ridiculous on the face of it. Even in
the Province of Quebec, where we
constitute seven-eighths of the popu-
lation, you cannot find a single edu-
cational institution where English is
not regularly taught. All that our
people who live in the other prov-
inces demand is that their children
learn in the school their mother
tongue at the same time as they learn
the language of the majority—La
Patrie.

We have much respect for any lan-
guage on this question by La Patrie.
Our Montreal contemporary is not a
professional breeder of strife, like Le
Devoir. It adopted a patriotic atti-
tude toward the naval question, and
has helped to counteract the mis-
chief-making of the Nationalists. It
will no doubt give credit to The Ad-
vertiser and many other newspapers in
this Province for combatting partisan
attempts to stir up prejudice against
the French-Canadian race. The Ad-
vertiser would be sorry if La Patrie
imagined that prejudice lurked in the
protest against school conditions in
Essex County. La Patrie will not
deny that it is the duty of an educa-
tional system in an English-speaking
province to familiarize the children
with the English tongue. Bishop Fal-
lon declares that many pupils of bi-
lingual schools in Essex between the
ages of 11 and 15 can neither read
nor write French or English. He adduces
facts and figures to prove that English
is not adequately taught in any of the
schools in the French settlements of
the county. This state of affairs can-
not be satisfactory to La Patrie or any
French-Canadian who has the interests
of his compatriots at heart. As the
bishop says, it is compelling the
French-Canadians to become hewers of
wood and drawers of water for the
English-speaking people.

There is no desire to banish French
from the schools in the French-Can-
adian districts. Some Quebec papers as-
sert that Bishop Fallon instructed the
religious orders to prohibit the teach-
ing of French. His explicit statement
to the contrary should be accepted. So
long as the children are properly
taught English, there need be no quar-
rel as to the merits of this or that
system. Whether the bilingual prin-
ciple is pedagogically sound or not, is
a problem for educationists, but there
can be no doubt that its results have
been bad, perhaps because of incom-
petent teaching, and laxity in the edu-
cational department. At least a case
has been made out for an impartial
investigation. It is an educational, not a
race, question.

TYPHOID AND WATER.

In a recent address delivered before
the public health committee of the
Dominion Conservation Commission,
Dr. Hodgkiss, medical adviser of that
body, emphasized the fact that Canada
has lessons to learn about sanitation in
regard to water supplies.

In Canada generally the main source
of supply must be the rivers and lakes.
Dr. Hodgkiss points out the menace
due to the discharge of raw sewage
and factory waste in the small bodies
of inland waters. Fortunately these
are seldom used as a source of public
supply, but as tributaries to larger
bodies they befoul the bed of the
river and lake upon which millions
depend for their water. Where they
flow through an agricultural district
they are subjected to the pollution
from fertilizer and barn-yard drainage.
If the nuisance is allowed to continue
it becomes impossible for the water to
be used by either man or animal.

It is generally conceded that a large
percentage of sickness happening in
cities and towns is due directly to the
pollution of the stream, lake or river,
from which the municipality draws its
supply. Cholera, diarrhoea, and typhoid
are the outcome of sewage contaminat-
ed water. The typhoid bacillus is es-
pecially active through this agency,
and it is now almost the general rule
to consider that a continued typhoid
death rate of over 20 per 100,000 popu-
lation is an indication that the public
water supply is greatly at fault.

In the typhoid mortality statistics
for Canada for 1909 it is reassuring to
note that London is particularly for-
tunate in its supply of pure and
palatable water. It shares with Halifax
in having the lowest death rate. Here
is the number of deaths from typhoid
per 100,000 people:

London..... 4.9
Edmonton..... 4.0
New Westminster..... 5.3

Roseland..... 25.0
Vancouver..... 8.8
Victoria..... 10.0
Winnipeg..... 28.4
Moncton..... 8.0
St. John..... 31.2
Halifax..... 4.0
Sydney..... 11.7
Fort William..... 34.0
Kingston..... 31.2
Niagara Falls..... 24.3
Ottawa..... 31.2
Peterboro..... 5.9
St. Catharines..... 24.3
Stratford..... 20.7
Toronto..... 25.7
Charlottetown..... 8.3
Montreal..... 53.8
Quebec..... 78.4
Sherbrooke..... 5.3
Saskatoon..... 66.6

To combat this peril Dr. Hodgkiss
advocates better health laws, the en-
forcement of which should be in the main
rest with some centrally organized
Federal department co-operating with
the health department of the various
provinces. He declares the Provincial
health laws at present are largely non-
efficient and that municipal authorities
do pretty much as they please through
lack of proper restrictive or corrective
powers.

London should count itself fortunate
that it is dependent upon neither river
nor lake, but draws upon pure sources
for its water supply.

WELLMAN'S EXPLOIT.

Although Walter Wellman failed in
his bold attempt to reach Europe in
his dirigible balloon, the experiment
has demonstrated that the feat is
within the range of human achieve-
ment. His flight of 1,000 miles is one-
third the distance across the Atlantic,
and the America was seventy-two
hours in the air when abandoned. Both
are world's records for dirigibles.

Apparently the weak point of the
mechanism was the equilibrium, a
heavy weight suspended from the cen-
tre of the balloon, with the object of
keeping it on an even keel. Its pur-
pose was similar to that of ballast on
a sailing vessel or steamship. Un-
fortunately a heavy northwest blow
shortly after the America had put out
to sea, drove her far south of her
course. The equilibrium, which in
ordinary weather would be clear of the
water, became a toy for the waves,
subjecting the balloon to a terrific
strain. This made it necessary to jet-
tison a quantity of gasoline and
machinery in order to keep aloft.

Despite these handicaps Wellman
daringly set a course for the Azores,
but was obliged later to head for the
nearer Bermudas through scarcity of
fuel. It was found impossible to keep
the equilibrium clear of the heavy
seas, and as the consequent pounding
was slowly wracking the airship to
pieces it was decided to take to the
lifeboat. Wellman and his comrades
can consider themselves lucky to have
escaped with their lives. When res-
cued by the steamship Trent on Tues-
day, the America was within a few
hours of the great West Indian hurri-
cane sweeping up the coast.

The balloon, relieved of its load, and
a prey to the caprice of the wind, may
have circled southward to the Baha-
mas, where it would likely be swept
to the east in the vanguard of the
storm, an aerial derelict.
Incidentally Wellman's timely rescue
furnishes another striking illustration
of the wonder and usefulness of wire-
less. When sighted by the Trent wire-
less communication was at once
established. The operator on the
steamship was informed that the
America's crew wished to abandon
their craft, and they asked that the
Trent follow them until they disem-
barked.

Although overshadowed by Well-
man's great flight, there have been
several notable minor achievements by
dirigibles and biplanes within the last
few days. On Sunday last the dirig-
ible Clement Bayard sailed across the
English Channel with seven men
aboard, the journey of nearly 200 miles
being made with perfect ease, while
at almost the same time two biplane
flights were in progress between
Paris and Brussels, each airman car-
rying a passenger.

Was the rocky road to Dublin any
worse than Dundas street just now?

Man has not entirely mastered the
air, and occasionally this element
takes an awful revenge.

The Premier of Ontario is making a
great fuss about some opinion on the
school question that a Toronto re-
porter is alleged to have expressed to
a man on a train who repeated it to
the Premier. This is a pitiful attempt
to draw a pitiful herring across the
trail. The Premier of Ontario ought
to be in bigger business.

The Globe today credits The Ad-
vertiser with saying that French should
be removed as the tongue of the
French-Canadian franchise in Ontario.
The extract was clipped by the Globe
from some other journal, and assigned
to The Advertiser by an excusable er-
ror. But it does not express The Ad-
vertiser's sentiments.

It is amazing to find so usually sane
a paper as the Ottawa Citizen protest-
ing against the letters "H. M. C. S."—
His Majesty's Canadian Ship—on the
captains of the Canadian sailors. The
Citizen wants the letter "C" eliminat-
ed, so that there will be no distinction
between Canadian and British
tars. This is a poor sort of Canadian-
ism, and it is not the brand of imperi-
alism Canadians will ever accept.

much to the trees. This is nature's
way, and it cannot be improved on."
The leaves are not an unpleasant car-
pet.

"It may be that Sir James is the
victim of too much praise. When
admiration was expressed for the
bluntness which he early exhibited
on assuming office, he straightway
began to cultivate bluntness as a
hobby."—Toronto Star.

Shakespeare had a Whitney in mind
when he wrote:
This is some fellow
Who having been praised for bluntness
doth affect
A saucy roughness.

DISCONTINUED STORY.

Percy Piccadilly was a golfer. Oh, how
he did love golf!
One drawback to his sport was his
nearsightedness. He couldn't see much
beyond his pince-nez (society name for
eyeglasses).
Percy hadn't overpaid any of the caddy
boys lately, so they framed up some-
thing on him.

During a match play they substituted
an invalid caddy for his sport was his
nearsightedness. He couldn't see much
beyond his pince-nez (society name for
eyeglasses).
Percy hadn't overpaid any of the caddy
boys lately, so they framed up some-
thing on him.

Oh, blanc mange!

VERY CARELESS.

A Chicago woman is charged with hav-
ing eight husbands. As she failed to
divorce them, she is threatened with the
penitentiary. She certainly was very
careless.

FIXING HER HAIR.

Marguerite Sylva says that it takes a
woman one hour and a half to dress cor-
rectly. We thought it took that long to
fix her hair.

BALFOUR'S LACK.

The London Morning Post is the high
priest of the tariff reform propaganda, is
bitterly complaining about Mr. Balfour's
lack of leadership. It declares that the
Unionist leaders in his speech at Edin-
burgh the other day, on no single issue
gave his followers a definite lead, and
it predicts that "there can be no alter-
native ministry to Asquith's until the
Unionist leaders know their own minds
and have the courage and intelligence to
announce a well-defined programme." The
truth is, as is well known, Mr. Balfour
is a convinced free trader, and he finds
it increasingly difficult to swallow the
protectionist dose.

DAY DREAMERS.

Oh, for a new generation of day-
dreamers, young men and maidens who
shall behold visions, idealists who shall
see themselves as the heroes of coming
conflicts, the heroes of yet unwritten
epics of triumph and compassion and
stainless love. From their hearts shall
spring the renaissance of faith and hope.
The ancient charm of true romance shall
flow forth again to glorify in the
brightness of their ardent eyes.
"The light that never was on land or
sea."
"The consecration and the poet's dream."

REST.

From farthest distance loom a clear voice
rang:
"Ashes and dust shall blossom as the
rose;
Climb thou above the tempests," sweet it
sang,
"Patience, on every height there lies
repose."

FIELDING THE FEARLESS.

Notwithstanding all the warnings he
has had not to trust himself in the grip
of those dreadful Americans, Mr. Fielding
announces himself ready for business and
has invited the American tariff experts
to Ottawa. If he has the nerve to stand
up to them, the rest of us know his record
well enough to let him try.

WHEN THE FUN CEASES.

A subject race is only funny when it's
racially subject. About three years ago I
stopped laughing at Japanese jokes. We
have to feel superior to a laugh, and I'm
settling over that feeling. An "nawthin"
makes a man so mad and so scared as when
something he looked down on as inferior
turns on him. If a fellow looks at you and
he hits him back. But if a dog bites him
he yells "Mad dog!" an "him an' th'
neighbors pound the dog to pieces with
clubs." If 'niggers down South ever
got tired of their masters, they'd make
him no more coon songs for a while.
It's our conceit makes us superior. Take
it out of us, and we're about the same
as the rest.

WOULD COME BACK.

Mr. Foster, like Jeffries wants to try
"to east wick." Last night he had the
cheek to show up at the North Toronto
Tory ward meeting. It will be interest-
ing to see what the Toronto Tories think
of his performance. Like the comedian's
mud turtle, he's dead, all right, but he's
unconscious of it yet.

FORGET IT.

The Conservative party in Toronto is
divided in opinion as to whether it would
be wise to conduct municipal elections
upon party lines. If the Conservative
party in Toronto have no higher ideal in
this matter than the Conservatives of Ham-
ilton had at one time, the best thing
the Tories could do is to forget
politics in municipal elections.

SAW ONE.

"Did you see Naples when you were in
Europe, Mrs. Gottalotter?"
"Let me see! We saw one Naples, I
think. Are there more of them?"

UNDER DIFFICULTIES.

Opie Read, the novelist, appeared as
entertainer for a switchmen's convention
in Peoria.

"It was a very enthusiastic audience,"
said Mr. Read. "They laughed heartily,
but they didn't applaud much. You see,
there were so many oppressed men there
that they didn't applaud in pairs."

ARCHBISHOP'S REPARTEE.

Archbishop Ryan, of Philadelphia, has
a kindly wit which some persons have
misconstrued as caustic. At a dinner
party a lady whom he had been chaffing
thought she saw an opportunity and his
desert.

"A fig for you, your grace," she re-
marked pointedly, passing him a plate of
leaves in their hands. Her wits were cut
very low in the neck.
The archbishop only smiled politely,
and taking a leaf from the plate, said:
"A fig leaf for you, Mrs. X."

SEVEN-YEAR-OLD MOTHER.

The Governor of Shanxi sent the
official particulars to the Imperial Gov-
ernment of China of a baby born of a
7-year-old mother by an 8-year-old
father. The babe was a foot long at birth.
Photographs of the three, with a printed
Chinese record, are being sent as souvenir
cards all over China. Taylor's medical
jurisprudence test of a 9-year-old mother
figs an 8-year-old daddy! What is this
world coming to, anyhow, these days?

ORANGE SENTINEL.

Continued From Page One.

Resume a copy, knowing as he should
the way the French-Canadians regard
the Bishop of London? He knew, also,
that Dr. Reaume's secretary was a
French-Canadian—Gus who says the
teaching of his language is "dear to
his heart." Hon. Frank Cochrane re-
presents a French-Canadian constitu-
ency, and there is no evidence that he
was supplied with a copy.

The Sentinel concludes that this
"monumental indiscretion" is one that
"seriously impairs Mr. Hanna's repu-
tation as a minister and a politician,
and makes his presence in the govern-
ment as embarrassing to Sir James
Watney as the continuance of Dr.
Reaume."

Says Pyne Broke Promise.
"It is now inevitable," says The
Sentinel, "which goes on to say that
"Dr. Pyne's position is not entirely
satisfactory. It was information that
the education department was going
to supersede an English-speaking in-
spector at Windsor with a French-
speaking inspector that was the im-
mediate cause of Bishop Fallon's pro-
test."

It was reported to the
Grand Lodge of British-Canadians, at its
session in Brantford last May, by the
chairman of the legislation committee
that Dr. Pyne had given the most pos-
sible guarantee that the Government
would not discontinue the school in the east-
ern counties of the province, and con-
ducted in strict conformity with the
public school act and the regulations
of the department. Apparently his first
act after giving these assurances was
to supersede an English-speaking in-
spector at Windsor with a French-
speaking inspector, and they have come to
the conclusion that it is part of the
scheme of the church in Quebec to
turn Ontario into a French province.

The have supplied the money to
make an investigation, and they are
prepared to go a great deal further,
both in supplying funds and maintain-
ing an agitation, to prevent the ex-
perience of the farmers in the eastern
counties of Quebec being repeated
among the farmers of the eastern
counties of Ontario. It is a sore dis-
appointment to the men who have fol-
lowed this question for the past two
years to find the ministry of education
making appointments that constitute
a distinct violation of the policy which
he led them to expect he would en-
force.

Dr. Reaume's Part.

As to Hon. Dr. Reaume, the Sentinel
observes: "Nobody who knows the
Minister of Public Works gives him
credit for discretion. He, above all
men in the cabinet, is the least to be
trusted with such a document. But
having received it, he took the course
which was most likely to secure pub-
licity for it. By placing it upon a
private table to which his French-Can-
adian secretary had access—he opened
the way for its use by the French-
Canadian press."

"Frank and straightforward in all
his dealings, Sir James must be chag-
rined by the attitude of the minister
of his ministers," says the Sentinel.
"He is on the level himself. What
then, must be his feelings in the
present instance? Have not members of
the cabinet to the Government's im-
portance? Is not the sincerity of
the ministry brought into
question? This is, perhaps, the ugliest
phase of the affair."

As to Bishop Fallon: "Whatever we
may think of the church to which he
belongs, no man who has watched his
career can withhold his admiration for
the virile qualities that he has dis-
played. We are quite sensible of the
fact that he may not value our admi-
ration very highly. It may even embar-
rass him. Nevertheless it exists, and
is strengthened by the determination
he shows to fight for a principle in
which he believes."

"There are few men so plentifully
endowed with moral courage as to lead
such a movement as Bishop Fallon has
inaugurated. He is the most power-
ful force of his church. He will be
supported not only by English-speak-
ing Roman Catholics, but by practical-
ly every English-speaking Protestant
in Ontario. He is fighting for national
unity."

The Catholic Register.
The Catholic Register makes no
editorial reference to the controversy,
but in a very brief outline of the news
of the day it states that the result of
the controversy will probably lead to
a thorough investigation of the bilin-
gual school system as it prevails in
this province, and the result of this
investigation will be awaited with con-
siderable interest.

The Presbyterian observes of Bishop
Fallon: "Protestants who know and
admire him as a man of sympathy
as well as of ability, will not hesi-
tate to believe that he has been
guilty of an exaggeration. It is the
obvious duty of the educational de-
partment to take immediate steps to
rectify the matter."

HELP FOR OLD BACKS THAT ACHE

GIN PILLS Cure Them.

Age is no barrier to the wonderful,
soothing, healing properties of GIN
PILLS, the great Canadian Kidney
Cure. We have on record many letters
from men and women of 60, 65, 70, 75,
80 and over, testifying to the great
relief they received from taking GIN
PILLS.

Mr. Samuel Martin, of Strathroy,
Ont., suffered for twenty years with
misery in his back. Some months ago,
he tried GIN PILLS, and after taking
three boxes, he was cured. He is now
Mr. Martin is now 85 years of age,
and enjoys the robust health of a
vigorous man of 60, thanks to GIN
PILLS.

All elderly people are troubled, more
or less, with Kidney and Bladder
Trouble, and pain and weakness in the
back. GIN PILLS are a guaranteed
cure for all these misfortunes. Money
promptly refunded if they fail to give
complete satisfaction.

Fifty cents a box—six for \$2.50.

tioning this paper. National Drug and
Chemical Company, Dept. G, Toronto.

CHAPMAN'S

Embroideries That Women Kid Gloves

Have Been Waiting For

A large purchase of Embroideries has arrived from St. Gall,
and is now on sale. They are the inexpensive sort that many
women have been waiting for, and which we promised to have
in this special purchase. The values are simply wonderful, even
for Chapman's, whose embroidery selling is renowned.

Corset Cover Embroideries, at yard..... 15c, 20c, 25c, 35c
Muslin Flouncings, 27 inches wide, at yard..... 25c, 35c, 40c and 50c
Muslin Flouncings, 50 inches wide, at a yard..... 75c, 85c, \$1.00 and \$1.25 up to \$3.50
Narrow Swiss Beadings, ranging in width from 1/2 inch to 1 1/4 inches, at yard..... 10c to 25c
Finished Embroidery Beadings and Galons, at per yard..... 10c, 15c and 20c
Muslin Embroidery Frontings, in an immense range, from a yard..... 15c to \$1.25
SPECIAL—Embroidery Fronting for making waists and blouses, six different patterns, 22 inches wide, at less than half price, a yard..... 15c
Wide Cambric Embroidery Edgings (8 inches wide), many different patterns, all new. Special, at a yard..... 10c
Beading—Edges of fine Swiss Embroidery, at a yard..... 10c, 12 1/2c, 15c and 20c
Edgings and Insertions—The best values we have yet offered, at yard..... 10c to 25c

J. H. Chapman & Co., 126, 128, 128 1/2 Dundas St.

MAGIC BAKING POWDER

Does not contain Alum

Inform the general public as to the actual facts:

LOBO HONOR ROLL.

The Lobo roll for school section No. 2, of Lobo, is given below:
The name of the pupils are given in order of merit. Those marked with an asterisk were absent during part of the examination.
Senior IV.—Jean Gray, Stuart Tuckey, Harry Mitchell, Mary Gray.
Junior IV.—Wilfred Tuckey.
Senior III.—Katie McBain, Clifford Mitchell.
Junior III.—Matta Tuckey, Douglas Campbell.
Senior II.—Edna Lamont, Charlie Tunks, Harold Easton.
Junior II.—Primer—Stuart Campbell, Clarence Tuckey.
Junior Primer—Allan Campbell, Wilfred Lamont, Edythe Tuckey.
Mrs. Agnes Gray, teacher.

ALD. TANCOCK EXPLAINS AS TO FLAGSTONES

Declares That He Has Ben Misrepresented in the Matter.

To the Editor of The Advertiser:
Following are a few facts about the broken stone and flagstone about which I have been misrepresented through the columns of the press:

In regard to the flagstone, which his worship the mayor so kindly tried to impress upon the public as being obtained in an underhand manner during the last year, I wish to state that I was compelled to have removed from before my horseshoeing shop some three or four stones, in order that I might have an approach or entrance to my shop, and that I had to replace the broken stones by concrete, and have the same corrugated, and they were broken in smaller pieces to enable them to be removed more easily. This appeared to me like waste, and I expressed myself to that effect, whereupon I was told I could have them if they were any use to me. I had to go away from business for a time, and when I came back, the stone, or pieces, were dumped into my yard, and there they remained until this summer, when I had the best pieces cut into narrow strips, and placed on a lane adjoining my property. These pieces of flag, as you or anyone may see, are not laid upon my property, but upon a public thoroughfare, and the expenses for so doing were not paid for by the city funds, but by myself.

Who should own these flags?
Here are a few further facts concerning them: Some 23 years ago they were laid as a local improvement and paid for by the city. They were spread over 20 years, and my property (and therefore myself) was assessed, and paid into the city treasury \$14.02 each year, the last payment being made two years ago. So the flags were paid for, and in the 20 years my property paid, as you will see, some \$280.40 for this walk. Now, my frontage on King street, of building, is 45 feet; add to this five feet for half the lane allowance, the part the public use, and we have 50 feet of sidewalk. The flags were eight feet long. This would make just 400 square feet of walk for \$280.40, or a trifle over 70 cents per square foot, or about eight and a half times the cost of cement for this season. Now, when we consider that the city never paid one cent for this walk, and the citizens used the same for 20 years and over, at my expense, who would you think should get the broken pieces—the city, who used it, or the party who paid for it? Please don't forget that I had to pay spot cash for half the cement walk laid to replace the old flags,

which amounted to \$18.75 for my share. This I was compelled to pay immediately the work was completed, while my neighbors, who were the case, and up Talbot street to Dundas street have the privilege of paying for theirs in ten years. We all remember the old plank walk which was paid for out of the city's funds, and when these were removed, to be replaced by cement, the citizens were allowed to help themselves, if they so desired. See the difference as his worship does: When you pay for a walk yourself, why, the city owns it, and when the city pays for it, why, the private citizens own it. To illustrate this, see Mr. Bert Hunt's walk, at the corner of Wortley road and Beconsfield avenue. See, also, the amount of damage done his property. Please insert copy of letter to explain my position with reference to the broken stone, which the alderman, who is a member of a private detective agency, found in my yard, and then judge for yourself what amount of scandal I should be allowed. Did I steal the stone, or get it as booty? Yours truly,
J. A. TANCOCK.
London, Oct. 19.

Copy of Letter.
Ald. Tancock, London:
Dear Sir,—We are sorry to see by the newspapers that you have been troubled more or less by the comment of disinterested persons over the second-hand concrete, not broken stone, which you kindly allowed us to store on your property.

We have already removed part of this, and will remove the rest as we can use it.
We hope that this will clear up the matter, and if further explanation is required we shall be on hand to give it. Very truly yours,
ANDREW MURPHY,
J. C. FRAZER,
Safety Insulated Wire and Cable Co.,
London, Oct. 2, 1910.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all dealers.

CHOLERA AT RIO.
Rio de Janeiro, Oct. 20.—The statement is published in the newspapers here that the steamer Araguaya, from Southampton, Sept. 30, and Lisbon, Oct. 3, is in quarantine at this port several deaths from cholera having occurred among the emigrants aboard.

CARLING'S
LIQUID
MALT EXTRACT
A Strengthening and Stimulating Tonic for Invalids and convalescents Indispensable for nursing mothers.
NATIONAL DRUG AND CHEMICAL CO.
SOLE AGENTS

"Eat and Be Merry!"

Stop starving yourself—stop suffering the pangs of indigestion—stop worrying about what you dare and dare not eat.
Eat hearty meals of wholesome food, take

NA-DRU-CO DYSPEPSIA TABLETS

and you'll feel like a new person. Sour stomach—heartburn—occasional indigestion—chronic dyspepsia—all yield quickly to NA-DRU-CO Dyspepsia Tablets. The properly digested food restores your strength, your stomach regains its tone, and soon requires no further aid.

THE WOMAN'S CORNER

ELABORATE LACE COLLAR.

For the dressier frocks of lightweight cloth or silk, these smart little ruffles are particularly appropriate. This is a combination of wide Valenciennes lace, and narrow Cluny insertion, and wide Valenciennes lace. The yoke is edged with the ever-present frill, and the cascaded jabot covers the left side fastening of the dress.

ALL AROUND THE HOME

[CYNTHIA GREY.]

To get green, blue, lavender and pink colors in wash goods soak in alum water before washing. Two ounces to a tub of water. Black, dark blue and grey should be soaked in strong salted water.

To keep white silk gloves and waists from turning yellow, wash carefully in the usual way, then add one tablespoonful wood alcohol to the rinse water.

Dust and dampness soon discolor the most expensive settings, and make them shabby. Clean them with soap and water with an old toothbrush. Their brilliancy should be quite restored by this treatment.

If you wish to remove a screw that is difficult to loosen, heat a poker red hot and hold it on the head of the screw for a short time; then, while it is still hot, apply the screwdriver and it will come out easily.

Here is a new way to clean jewelry: Rub the articles to be cleaned with a chamois, on which you have rubbed a little of the soft pink manicure paste.

Continued scrubbing with a brush will roughen a natural wood kitchen table. It may be cleaned even better without roughening it by using half a cut lemon and then rinsing with hot water.

Equal parts of turpentine and ammonia will remove paint from clothing. Soak the spot in the mixture and then rub it hard; dip in soap and water and rub it again. Almost any paint stain can be removed in this way.

FASHIONS

The liberal use of rich, oriental colorings and trimmings we see indicates the fashion is strengthening.

The three-piece suit, or simple dress, with matching jacket, is as great a favorite as ever.

The new blouses are generally collarless and short of sleeves.

Sometimes overlapping of seams of skirt goes is arranged in set designs to form a trimming. Jackets are also worked out in the same manner.

Skirts are very narrow. They are also of the short, round cut. Some models have a simulation of pleats, these, however, being merely cleverly lapped gores, and, therefore, giving no fullness.

Table salt in the proportion of a heaping tablespoonful in a quart of water is one of the best lotions for tired eyes. The water should be pure, and after the salt is dissolved the whole should be strained through cheesecloth, as there are always impure particles that will irritate if allowed to get under the lids. Have the water pleasantly warm, not hot nor cold, and use either an eyeglass or a bit of old linen; bathe without rubbing.

Salt, added to starch, is responsible for the gloss on linen as it is ironed.

Jabots of white net trimmed with lace and bands of Persian silk are among the new ones shown.

For all street costumes sleeves are long, and in these the kimono cut has entirely disappeared, but they are trimmed, they have touches of color and help impart a dash to otherwise severe tailored effects.

Dressy gowns for afternoon are being made of striped satin foulards.

DR. CHASE'S OINTMENT is a certain and guaranteed cure for every form of itching, bleeding, and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 50c at all druggists or EDWARDS, BATES & CO., Toronto.

DAILY MENU

BREAKFAST.
Green Grapes.
Flaked Wheat With Cream.
Omelet. Toast.

LUNCHEON.
Cheese Souffle.
Baked Sweet Potatoes. Crackers.
Scalloped Apples.
Cake. Chocolate.

DINNER.
Souffle.
Roast Stuffed Leg of Veal.
Riced Potatoes. Stuffed Onions.
Chocolate Bread Pudding.
Cafe Noir.

Cheese Souffle.—Cook together in a saucepan two tablespoons each of butter and flour and when they are blended pour upon them half a pint of milk. Stir to a smooth white sauce and stir this into eight tablespoons of grated cheese, a saltspoon of salt, a pinch of baking soda and a dash of paprika. Have ready beaten four eggs, white and yolks separate. Remove the cheese mixture from the fire and gradually beat into it the yolks of eggs; last of all, fold in lightly the stiffened whites. Turn the mixture into a greased pudding-dish and bake in a water bath over a golden brown, serve immediately.

MARY'S COOK BOOK

Old-Fashioned Apple Dumplings.—Pare, quarter and core the apples, then make a stiff, rich biscuit dough, roll, and cut in strips and take four pieces of apple to each dumpling and wrap two or three strips of dough around them, pinching the ends together. Put a quart of water in a pudding or baking cup with a cup of sugar and a piece of butter; let it get to boiling on the top of the stove—place the dumplings in and bake until both the crust and apples are done.

Salmon Souffle.—Separate one can salmon into flakes, and season with salt, paprika and lemon juice. Cook one-half cup soft stale bread crumbs in one-half cup milk 10 minutes, add roll, and cut in strips and take four pieces of apple to each dumpling and wrap two or three strips of dough around them, pinching the ends together. Put a quart of water in a pudding or baking cup with a cup of sugar and a piece of butter; let it get to boiling on the top of the stove—place the dumplings in and bake until both the crust and apples are done.

Hot Potato Salad.—Cut potatoes into half-inch cubes until there is two cupsful. Cook in boiling, salted water until soft, drain, pour over the dressing and sprinkle with two tablespoons chopped parsley. For the dressing mix one-half teaspoon salt, four-fourths teaspoon pepper, four tablespoons olive oil, one-half cup celery (cut in small pieces), two slices lemon, two tablespoons Tarragon vinegar, one tablespoon elder vinegar, two tablespoons onion, and one tablespoon chopped parsley. Heat to the boiling point.

ADVERTISER PATTERNS

BEAUTY PATTERN COMPANY.

No. 8793—A Comfortable, Convenient, Top Garment—Girl's Cape.

For general wear, for stormy or cold weather, this model makes a good feature. It will afford protection from rain if made of waterproof cloth, and the hood is most comfortable and warm for cold days. As an evening wrap, to cover "party dresses," it also has advantages. The hood may be omitted. The pattern is cut in six sizes, 4, 6, 8, 10, 12 and 14 years. It requires 4 1/2 yards of 36-inch material for the full size. A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

PATTERN DEPARTMENT OF THE

Please send above mentioned pattern, as per directions given below, to:

A SON OF THE IMMORTALS

BY LOUIS TRACY.

Author of "The Stowaway," "The Message," "The Wings of the Morning," Etc.

"Come to me, Joan," he wrote. "Don't wait. Don't stop and worry about what the world will say, since it will surely be long before it can be content until I am married, and hints are being thrown out already that there are several eligible young ladies in neighboring states. But if these Kosnovians take me they must take you too, and it will be far easier for me when they have seen you."

"Now, no hesitation, no doubts, no waiting of pros and cons. Just set your teeth and toes, you head up, and tell Pauline to sling your belongings into your trunk, and before you start send me the word in a telegram. I am horribly busy, of course (for details see daily papers), and this must be the most extraordinary love letter ever written; but what does that matter when you and I understand each other? It was you who sent me here. Don't forget that, dear teller of fortunes, and I want you to be standing by my side when the storm breaks that must surely be brewing for me after an incredible success."

There was money in the same vein. Alexis the King seemed to differ in no essential from the Alec Delgratz who was to be his rival for the hand of the heiress of the Pont Neuf. Dare she risk it? The question had tortured her mind for days, and she had decided that such a marriage on the fortunes of the man she loved.

But against that self-sacrificing attitude she was forced to admit the plea of Alec's own bewilderment of conventionality. If half the stories in the newspapers were true, he was the most original-minded monarch that ever reigned. She was quite sure that his answer to his exasperated reply on her part would be a public announcement of the fact that his promised bride was young lady in Paris, Joan Vernon by name. And that would be worse almost than going quietly to Delgratz and being married there.

What was she to do? She found Felix Poluski's grey eyes looking at her steadily in this dilemma he was her only trusted counselor, and he had already advised her to yield.

"If I even knew his relatives," she faltered. "His parents live in Paris. We have never met. How can I say to his mother, 'Your son wants to marry me'?" She, a princess, would scoff at the idea. "Alec is well aware of that; hence he has written direct to you, and said nothing to any other person. Let me assure you that if Prince Michael Delgratz had gone to Delgratz he would have died a sudden and violent death. Prince Michael knew it, and declined the distinction. Believe me, too, Alec has the very best of reasons for consulting no one in his choice of a wife. Now, Joan, be brave! When all is said and done, it should be far more pleasant to marry a King than a commoner, and I have met several young ladies almost as pretty as you who have been ready to adopt the latter alternative. At any rate you will do no harm by crossing the Danube. It is not the Russian, you know, and you have Saint Peter to lean on in case of difficulty."

So Felix did not return to Paris alone, and when he met Count Julius Marulitch next morning in the Louvre he was able to announce that Miss Joan Vernon had accepted the commission to copy the Delgratz Saint Peter, and was ready to start for Kosnovia by the night mail.

CHAPTER VI.

Joan Goes Into Society. Joan did not telegraph to Alec. She destroyed each of half a dozen attempts, and ended by writing him in silence. It was impossible to say what she had to say in the bald language of a telegram. Merely to announce her departure from Paris would put her in the false position of having accepted Alec's proposal without reserve, which was exactly what she meant not to do, and any other explanation of the journey would bewilder him.

Her friend Leontine, housemaid at the Chateau de la Sorbonne, did not fail to tell her of the fact that she had left Paris for Barbizon. There was no mistaking Leontine's description, which was impressionist to a degree. It was evident, then, that he not only possessed her address, as shown by the letter, but knew of her departure from Paris. He did not hear from her within forty-eight hours he would assume that she was still away from home. By the time she would be in Delgratz, and although she felt some uneasiness at the prospect, she was brave enough not to shrink meeting him.

They were not children that they should be afraid of speaking to each other. Their love was romantic, apt to be swayed wholly by sentiment, and she could trust her friend to see the situation into a union that might imperil his career. In the depths of her heart she confessed herself proud and happy at the prospect of becoming his wife; but she would never consent to a marriage that was not commended by practical reasons. If he did not hear from her within forty-eight hours he would assume that she was still away from home. By the time she would be in Delgratz, and although she felt some uneasiness at the prospect, she was brave enough not to shrink meeting him.

This might be sound common sense, but it was not love, yet all this, and more, Joan told to Felix and the latter had nodded his head with grins of approval. Meanwhile he sang and was busy. Count Julius, posted now in the Pole's mottled history, had demanded absolute silence before he could give the negotiations for the picture any further. Felix gave the pledge readily, since Joan could not be sure that he was not the truth. At any rate, Marulitch was satisfied; he introduced Felix to a well-known dealer in the Rue St. Honore, and thenceforth disappeared from the transaction. Joan herself entered into the necessary arrangements, about which there was nothing hidden or contraband. The terms proposed were liberal, considering her poor status in the art world; but they were quite straightforward. She was given return tickets for herself and her maid, and her maid, Felix was similarly provided for; five hundred dollars was paid in advance, and the balance was to be paid when the picture was delivered. She was to be paid when the picture was delivered. She was to be paid when the picture was delivered.

Of course, reviewing matters calmly in the train, Joan expected that the second portion of the contract would be fulfilled. She knew quite well that the character shown in that picture, the Kosnovian capital to their own account, and when their scheme was foiled, she would devise some means of wriggling out of the bargain. But she laughed at the notion that she, an unknown artist, should suddenly become a pawn in the game of empire. There was an element of daring, almost of peril, in the scheme, and she was fascinated by it. She savored of those outlandish incidents recorded in novels of a sensational type, where the most desperate, faced, cigarette-smoking scoundrels plotted the destruction of dynasties, and used the cunningest as decoys for susceptible kings. Certainly Felix Poluski, judged by his past, was no bad prototype of a character shown in that picture, the Kosnovian capital to their own account, and when their scheme was foiled, she would devise some means of wriggling out of the bargain. But she laughed at the notion that she, an unknown artist, should suddenly become a pawn in the game of empire. She savored of those outlandish incidents recorded in novels of a sensational type, where the most desperate, faced, cigarette-smoking scoundrels plotted the destruction of dynasties, and used the cunningest as decoys for susceptible kings. Certainly Felix Poluski, judged by his past, was no bad prototype of a character shown in that picture, the Kosnovian capital to their own account, and when their scheme was foiled, she would devise some means of wriggling out of the bargain. But she laughed at the notion that she, an unknown artist, should suddenly become a pawn in the game of empire. There was an element of daring, almost of peril, in the scheme, and she was fascinated by it. ROBERTS MAY GET TERM IN MICHIGAN

Nothing Has Been Heard in Regard to What Is Going On in Bay City.

As nothing has been heard from the authorities in Bay City, Mich., relative to what is being done with John Roberts, the London jail-breaker, who is held there on a charge of burglary, it is believed that if convicted Roberts will get a term in Michigan before coming back to Ontario.

It is evident that the Michigan authorities are proceeding against Roberts, otherwise he would have been turned over to the local officials some time ago. All arrangements have been completed, and papers from both Ottawa and Washington to bring the man across the line are now in possession of the sheriff's department. Should Roberts get a term of years for the offence in Michigan, he will be turned over to answer the charge of jail-breaking here, and to finish the sentence which he was serving, whenever he is released, so his prospects for free board and lodging are fairly good for a long time to come. When he escaped from the jail here he was awaiting removal to Kingston to serve three years for burglary.

NO TURKEY FAMINE IN THIS DISTRICT

It Is Said That Not Over 20 Cents a Pound Will Be the Price.

According to a local authority there will be no turkey famine in this part of the country as a result of the disease among fowl, spoken of in an Ottawa dispatch.

It is claimed that this disease has been prevalent in all parts of the country for several years and that it has even caused a number of farmers to go out of business. However, it is nothing new, and will have no more serious effect at present than at other times. Last year, this authority claims, the farmers sold their turkeys at prices for birds, but the buyers have so arranged matters that while the farmer will get a reasonable price this year, not over 20 cents a pound will be paid.

LIFE IMPRISONMENT

Louis Young Found Guilty of Man-slaughter at Parry Sound.

[Special to The Advertiser.] Parry Sound, Oct. 19.—Louis Young, alias "Big Boy," was found guilty of manslaughter for his participation in the death of an old man named Davis at the Montgomery Hotel last Spring. He was sentenced to life imprisonment by Judge Clute.

BIGAMIST SENTENCED

Gets Two Years for Having Three Wives.

Sherbrooke, Oct. 19.—Joseph Pinault, alias Alex. St. Laurent, found guilty of bigamy before Judge Mulvena, on Monday, was sentenced this morning to two years in the penitentiary. Pinault admitted having three wives, one in Montreal, which he laid the complaint which caused his arrest, and by whom he had three children; one whom he married in Sherbrooke last May, and another, with two children, in another township town.

HAMAR GREENWOOD HONORED IN LONDON

Given Illuminated Address by York Liberal Association.

London, Oct. 18.—The York Liberal Association presented an illuminated address and dressing case to Mr. Hamar Greenwood, who, in expressing his thanks, referred to the forthcoming imperial conference. He said he believed that Premiers Botha, Ward, Laurier and Fisher would speak in support of the Liberals and not of the Tories, as there was not a colonial representative of any of the self-governing colonies who could be a Tory in England without forsaking his native legislation, and becoming thus a traitor to his country.

WAR WITH MOROCCO.

Paris, Oct. 19.—The Petit Parisien today claims that Spain is on the verge of a rupture with Morocco over the payment of the indemnity of 130,000,000 pesetas (approximately \$20,000,000), which Spain exacted, following the successful campaign against the Riff tribesmen in the summer of 1909, and contending dispatching 40,000 soldiers across the Riff coast to occupy Tetuan.

YEAR FOR STEALING.

Ottawa, Oct. 19.—James Cash, a former corporation employee, was today sent to the Central Prison for one year for stealing lead pipe and brass couplings from the city. Cash has a previous police record.

APPLICATION ADJUDICATED.

[G. N. W. Dispatch.] Sandwich, Oct. 19.—Granting an application of the defendant company, Justice Sutherland adjourned the \$5,000-damage suit of Miss Rose Antaya against the Grand Trunk for injuries she sustained when she was struck by a passenger train at Belle River. The contention of the company was that the extent of Miss Antaya's injuries could not be known for some time.

CANADIAN FLOWERS IN THE FLOWERY KINGDOM

Interesting Letter Received From Japan by a Well-Known Horticulturist.

Mr. H. H. Groff, of Simcoe, the eminent Canadian hybridist, making the horticultural possibilities of Ontario known in all parts of the world. Even in Japan, the Flowery Kingdom, the Canadian gladioli are greatly admired and appreciated, as the following interesting letter, recently received by him, will show:

Tokyo, Oct. 19.—Yodohashi-Machi, Tokyo-fu, Japan.

From Prof. K. Nishijima.

To Mr. H. H. Groff, of Simcoe, Ontario, Canada.

I have heard of your name and address as the high-class gladiolus grower of authority of the world, from Mr. Luther Burbank, of California.

I am growing at the Tamagawa trial grounds five thousand of the finest sorts of gladioli, in the sections, from the leading dealers in Great Britain, Europe, and the United States.

The modern gladioli supplied by you were an immense success. I have never had larger or better colored flowers, and am very much pleased with them. I reported your honor for these, to the Japan Horticultural Times.

K. NISHIJIMA.

Another letter from England, says that the Earl of Devon, of Covent Garden, London, England, made an exhibit of Mr. Groff's gladioli, "La Luna," at the last show of the Royal Horticultural Society, and were granted the "Award of Merit."

The Horticultural Trades Association of Great Britain and Ireland, where twelve persons were drowned, is now in the hands of the Royal Botanic Gardens, Wisley, England, and referred especially to their quality and value in their report.

LOSSES IN CUBA WILL TOTAL MILLIONS

Whole Districts Were Devastated When Cyclone Swept Island.

Havana, Oct. 19.—Relief trains are being sent into Pinar del Rio, which bore the brunt of the recent heavy storms. Reports show that the property losses through that province were enormous.

The greater portion of the province which forms the western extremity of Cuba, was inundated and nearly all of its towns suffered severely. Heavily a house has been left standing in the country districts, and tobacco barns everywhere were destroyed.

The crops were ruined and it is impossible to estimate with accuracy the monetary loss, but it will total millions of dollars.

The loss of life apparently was much less than at first feared, and occurred chiefly in the town of Consolacion, where twelve persons were drowned. It is expected that more cases of drowning will be discovered when the relief trains penetrate the devastated region.

Savannah, Ga., Oct. 19.—With an abating wind at daylight, Savannah appeared to have experienced the worst of the tropical hurricane now travelling northward on the Atlantic coast. Nothing was heard from cities and towns to the south of Savannah, and all trains from the south were several hours overdue.

LATE GEORGE P. ORME

Funeral Was Held Yesterday Afternoon at Birr Cemetery.

The funeral of George P. Orme was held yesterday from the funeral parlors of Smith, Son & Clarke to Birr Methodist Cemetery. Services were conducted by Rev. Humphrey A. Graham, of Wellington Street Methodist Church, at 12:30 o'clock.

The late Mr. Orme was 23 years of age. He was born at Glenmore Farm, Belle Orme, near St. Catharines, and his death occurred suddenly from acute pneumonia on Saturday, Oct. 15, in New York city. He was a son of Thomas J. Livingstone Orme, of Atlantic City, who removed from London in 1838, and for some time was in business in Port Stanley, previous to going east.

The deceased is survived by one brother, J. C. Orme, of New York city, and two sisters, Misses Lillian B. and Belle Orme, residing with their father at Atlantic City.

Services at the cemetery were conducted by Rev. C. J. Moorhouse, of Birr.

APPROVES RESOLUTION

Pope Sends Message Regarding Mayor Nathan's Speech.

[G. N. W.]

Montreal, Oct. 19.—Archbishop Bruchest today received a cablegram from Cardinal Merry del Val, papal secretary of state, in reply to the message sent following the recent Roman Catholic demonstration in this city to protest against the insult of the mayor of Rome towards his holiness and the Church, in which the Pope expressed gratitude for the fresh indication of the attachment of the Catholics of Montreal to his holiness and their religion, coming so soon after the great demonstration in connection with the Eucharistic Congress.

TORONTO DROPS THE WAR AGAINST BAKERS

Will Not Press Any More Charges of Selling Attached Loaves.

Toronto, Oct. 19.—Following the recent decision handed out by Judge Morson that "small bread" means loaves weighing twelve ounces or under, whether they are baked separately or in any numbers in large pans for convenience, the sudden cases which had been accumulated by Inspector Robert Wilson and which have stood several weeks pending the hearing of the test cases, were withdrawn before Magistrate Denison this morning. The bakers against whom charges were dismissed were: Bredin Bread Company, Wm. Smith, Norman Gerrie, Wm. Carlisle, Coleman Baking Company, Charles Hill and Johnston Little.

CALL STRIKE OFF.

Columbus, Ohio, Oct. 19.—The street car men's union by a vote of nearly 3 to 1, called off the strike which has been in progress since June 20. The men, however, could gain no concessions from the company, and those who have forsaken the strike's ranks heretofore have been accepted only for extra run.

WILL CALL FOR TENDERS FOR COLBORNE ST. SCHOOL

Some Doubt Expressed That It Can Be Built For \$35,000.

Tenders have been called for the building of the Alexandra school, which will replace the present Colborne street structure, and they will be opened by No. 2 committee of the board on Friday afternoon at four o'clock.

A large number of contractors have been turning in the plans and have submitted their figures to the committee.

There is some doubt expressed that the school can be built for the money estimated, \$35,000, but Architect Nutter sees no reason why the tenders should not be well below his estimates.

CANADA NEEDS MORE FAST STEAMSHIPS

Lord Strathcona Says British Firm Is Ready to Build Them.

London, Oct. 19.—The Canadian Pacific's new Atlantic steamship programme, as foreshadowed by Sir Thomas Shaughnessy attracts much attention here, especially in view of the known fact that the Canadian Pacific has proved itself capable of running a service with greater profit than any competing line.

Lord Strathcona, discussing the question today said that Canada's need of 22-knot steamers was never more insistent than now. The advantage to Canada of being independent of the United States, he said, should not be neglected as an opportunity.

They would guarantee them and also guarantee that their cost of maintenance would be only two-thirds of that of the American line, he said, should not neglect so excellent an opportunity.

BIG BALLOONS ARE COMING TOWARD CANADA

Only Seven Out of Ten Starters Are Now In Race.

[Associated Press.]

St. Louis, Oct. 19.—Seven of the ten balloons which left here Monday in the international race, are believed to be in the air in Canada. They were last reported from Northern Michigan near Lake Huron. One, the Dusseldorf II, is taking a more northerly course than the others.

The trip across Lake Michigan was made successfully by eight of the entrants. The balloon St. Louis No. 4 was forced to land near Hillman, Mich., after travelling 65 miles, because of lack of ballast to negotiate the flight across Lake Huron. With the Million Club Aerostate down, the hope of the United States winning the race rests in the America II, piloted by Allan R. Hawley.

The third balloon down is the Concord. It, like the Million Club, did not attempt to cross Lake Michigan, and landed in Wisconsin near Two Rivers yesterday. The balloons which came to earth yesterday have cambric gas bags. The others are of rubber. The record made by the late Eszcar Erbsloeh in the 1907 race of 57.4 miles, it is believed, will be broken.

Three Missing.

Detroit, Oct. 19.—It appears probable that four of the five balloons reported as passing West Branch, in Ogemaw County, late yesterday, swept out over Lake Huron and are headed for the St. Lawrence river.

One balloon, belonging to the same five, was seen to pass out over the lake at Alpena. Another, the St. Louis, Pilot H. E. Honeywell, landed near Hillman last night in Montmorency.

With three landed, and four probably in Canadian territory, three remain to be accounted for. One unidentified balloon was reported sailing in a northeasterly direction over Sutton's Bay, in Leelanau County, at 5:30 yesterday, and two more reported over Ludington at 6 p.m. One of the latter went northward, over Lake Michigan, and the other took a northerly direction.

FEEL STRONGLY

Bishop Fallon's Letter on Bilingual Schools Read at Ottawa.

[Special to The Advertiser.] Ottawa, Oct. 19.—The letter of Bishop Fallon of London on the bilingual school system of Ontario has created intense feeling among the French-Canadians of this part of the province. Last night the letter was discussed by the executive of the French-Canadian Association of Ontario.

TRIAL PACKAGE

Free

Quickly Cures Piles At Home

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

Many cases of piles have been cured by a trial package of Pyramid Pile Cure without further treatment. When it proves its value to you, get more from your druggist at 50 cents a box, and be sure you get what you ask for. Simply send your name and address to the Pyramid Drug Company, 25 Pyramid Building, Marshall, Mich., for a free trial package, in plain wrapper.

Could we afford to buy and give away hundreds of thousands of 50-cent bottles of Psychine (pronounced Si-keen) if we did not know from a third of a century's experience that it was the greatest vitality-builder of the age?

You know what it would mean to us were Psychine a preparation without a definite, beneficial action. After the first bottle which we would buy, no more would be purchased. And we would go out of business. But we're not going out of business, and our confidence that we're not is based upon our third of a century's experience with Psychine.

Ten years after Confederation we commenced compounding Psychine. Since that time, we have sold many millions of bottles.

We have cured many hundreds of thousands of virulent and oftentimes fatal cases of diseases.

We have in our files many hundreds of thousands of unsolicited testimonials.

And we have grown from a small beginning to be one of the largest proprietary manufacturers in this country.

Here then is proof that we have in Psychine a preparation with abundant and demonstrated effectiveness, more so than any other preparation we, or anyone else, ever heard of.

Here then is the reason of our unalterable confidence in Psychine, that it is in fact the greatest preparation of its kind in the world.

Here then is why we have inaugurated a policy of actually buying hundreds of thousands of bottles of Psychine to give to those who should use it. To those who are blindly groping in the dark for relief from their misery, who may perhaps be using wrong methods to recover their health and their strength.

LAGRIFFE.

The greatest and most effective agents for the bodily health are the white corpuscles, phagocytes.

HIGHER CRITICS WARMLY ATTACKED

Strong Feeling Shown at Big Baptist Convention in Toronto.

Toronto, Oct. 18.—Time and again, when Rev. Dr. A. A. Cameron, the retiring president of the Baptist Convention of Ontario and Quebec, in his address at the opening session of the twenty-second annual convention in Bloor Street Baptist Church last evening, made references to the all-absorbing subject of higher criticism and McMaster University, the immense audience, composed of delegates from all parts of the two provinces gave vent to their pent-up feelings on the question by loud applause.

The matter of higher criticism and the stand of McMaster University towards it had been brought forcibly before the members of the Baptist Churches within the past week by a circular issued by Rev. R. V. Bingham, entitled "A Protest Against the Findings of the Committee of McMaster's Faculty on the Question of Higher Criticism."

Following in the steps of Rev. Dr. Elmore Harris, the writer investigated the rumors of heretical teachings on the part of Professor Matthews, having accepted by proxy the invitation extended by a member of the McMaster faculty to anyone to spend a day in the classes of any of the McMaster professors and listen to their teachings.

In the circular, Mr. Bingham states that a young man of his household, whose report he confirmed by other witnesses, attended Professor Matthews' classes, and that he had heard other utterances to which he took exception, wrote down this one, which Mr. Bingham prints in capital letters in his circular: "How works like Ezra and Daniel got into the canon is not known. They have been there a long time, and it will take a long time to remove them, but eventually it will come to pass."

Mr. Bingham declares that "This statement will in no wise satisfy the great bulk of our members, who believe that the Old Testament as our Lord Jesus Christ accepted it is the Word of God and abideth forever."

Such a statement, writes Mr. Bingham, he cannot reconcile with the closing declaration of the theological staff in the recently issued report of the senate of McMaster which was signed by Professor Matthews. Such teaching must be repudiated if McMaster wishes to maintain her standing as a thoroughly conservative university.

Dr. Cameron's address was on "Denominational Responsibility."

"No denomination," he said, "was so strong as the Baptist in holding up to the people an unattainable Bible. Baptists felt imperatively called by higher criticism to lose one book out of the great collection. They felt that every book was written under the very breath of God. The story of the flood must not be lost, nor the story of Jonah and the whale—all had their part in the teachings and in the whole religion. If their faith was shaken in one book, the whole massive structure of the Bible was undermined. McMaster University belonged to the denomination, not the denomination to the university. It was their real estate, and the whole staff from the chancellor to the humblest lecturer must reflect the doctrines which had in the past given the church its greatest men and which stood for the Bible intact, for the responsibility of the individual to God, and for religious and civil freedom."

The election of officers was completed last night. The report of the nominating committee was adopted as follows: President, C. J. Holman, LL.D., of Jarvis Street Baptist Church; vice-president, Rev. E. J. Stobo, S.T.D., of Smith's Falls; second vice-president, George McLagan; secretary-treasurer, Rev. C. E. McLeod.

SAYS PEARY NEVER REACHED NORTH POLE

Famous German Astronomer Makes a Sensational Charge.

Berlin, Oct. 19.—Prof. Andreas Galle, the famous German astronomer of Potsdam, today issued a sensational statement in which he declared that Commander Peary did not reach the North Pole.

Prof. Galle declares that none of Peary's methods for reckoning his position in the far north were reliable, and that even had Peary reached the axis of the earth, he would not have known it.

PLEAD FOR LIFE OF DOUBLE MURDERER

Petition to Try and Save Condemned Man at Montreal.

Montreal, Oct. 19.—Started by a letter from Rev. Father F. E. Radcliffe, a priest in Liverpool, to Mr. Ritchie Bell, head of the Sailors' Institute here, a petition has been started asking for a reprieve for Timothy Cuddy, under sentence of death for the murder of

All the Latest News and Gossip of the World of Sport

MACK MAY SEND COOMBS BACK TO MOUND IN 3RD BATTLE WITH CUBS FOR WORLD'S TITLE TODAY

Boss of Athletics Believes John Wesley Can Return and Win Own Game—Talk of Replacing Kling With Archer to Change Luck—Police Keep Crowd Back in Philadelphia, But There Is No Joyous Throng in the Windy City—Rain Today?

Chicago, Oct. 19.—Cornelius McGillicuddy and his Athletics, Frank Chance and his Cubs, National Commission, four umpires, dozens of newspaper men and two mascots, arrived in this city this afternoon, coming from Philadelphia on two special trains, said to be the best wreck-proof affairs in the employ of conveyance companies who do business on rail.

The journey was made in remarkably fast time. The trains did not hesitate much on the way, cut through the bush leagues like a Vanderbilt cup winner, and safely delivered their charges in the city. They are to renew the conflict for the world's baseball championship on Thursday.

When the two trains left the Broad street station in Philadelphia on Tuesday night nearly half of the police force of Philadelphia was on hand to see that the crowd did not prevent the programmed passengers from reaching the trains.

The Difference.

There was a great crowd of cheering men and women and juveniles at the Philadelphia station, but the mayor of this delightful lake city did not find it necessary to take any officers to guard this afternoon to prevent a panic in honor of the athletes.

The Cubs, heroes of other world series, cheered year after year, did not get the welcome they thought last Monday must surely be coming to them this afternoon. The work of two days has settled thousands of throats that would have cheered, and kept thousands away.

There was no demonstration at the depot. There was no cheering, no one cheered. Finally Bill Donovan's Cobb, George Mullin and a few others came through the exit at the station. The crowd recognized them, turned to the Detroit stars, and followed them a block.

Rain Threatened.

The weather here this afternoon was warm, sultry, and the skies clear. After 6 o'clock the skies showed gathering clouds and tonight rain is threatened any second.

The weather man feels sure it will rain tomorrow, and there will be a change of temperature, meaning that it will be much colder.

The only thing to cause a sensation heard in the rival camps tonight was the statement that Cornelius McGillicuddy would work Jack Coombs this afternoon. Chance has selected Reulbach to do the twirling for his Cubs.

Will Coombs Return?

The pitching of Coombs on Tuesday was miserable. A poorer exhibition of twirling has never been recorded in a world's series. Wonderful support kept Coombs from defeat. Mack figures that durable John Wesley will be in fine fettle tomorrow. Coombs has the faculty of coming back strong on the second day, and Mack takes his lunch from that.

Betting on tomorrow's game is even money. There are few Cub followers who care to risk any coin at that game, and there is practically no betting on the series. Many are of the opinion that well all be home for Sunday dinner unless it rains tomorrow or Friday. These Cubs certainly have received an awful body blow. All their supporters concede the title to the White Elephants.

It is not unfair to presume that Frank Chance knows he is beaten. Other members of Chance's team know it. One evening paper tonight declares in flaring headlines, four inches in depth, the members are, and glaringly red—"Well win, says Chance."

John Wesley said that the Cubs would win, but Johnny also has a line of talk about "Don't you think I'm a quitter," and that sort of dope. There are reasons

why Evers and Chance should cry "We'll win," and there are reasons why these cries sound absurd.

Put Archer In.

Evers tonight suggested to Chance that he take John Kling out of the game and put Jimmy Archer, former Tiger catcher, in back of the plate.

Johnny said that it might change the Athletics' luck. A lot of others would like to see the quick-armed Archer doing the pitching to second, to check the work Mr. Collins did between the initial sack and the pivot station yesterday afternoon.

Many Cub supporters are sure that Chicago will win a couple of games. Maybe the two games scheduled for tomorrow and Friday.

Doping It Out.

The reasons most of them have for believing this is that the Athletics, according to Chicago verdicts, are a strong team at home and a weak club on the road. They say that if the Cubs play them to a tie it is all off.

There seems to be no way of stopping it. The police have tried many means and have not succeeded. It is the same old story.

Members of the two contesting teams, club owners and the other followers of the Athletics gathered in the playhouse tonight. It was a pleasant evening for Athletic followers and a tough night for the Cub routers.

At a meeting of the Methodist Athletic Association held recently, a very interesting event took place in the shape of a double presentation.

In the three final league games of baseball which were played off between Askin Street, for the western section, and Dundas Centre, for the eastern section, two umpires officiated—Messrs. Roy Shannon and Howard Crummer. Each was presented with a handsome gold locket, suitably engraved.

Mr. Mel Morrow, president of the association, made the presentation to Mr. Shannon, while Mr. Bert Childs, secretary, handed the gift to Mr. Crummer.

In words which betokened appreciation, the gentlemen thanked the association.

BASKETBALL TEAMS ARE WORKING HARD

Another Strong Practice Held Last Night—Preparing for the Championship Match.

Another basketball practice was held in the Jubilee Rink last night, and, from the ginger displayed by two teams, the game next Wednesday night promises to be the fastest ever played in this city. The teams are fast running into shape, and the team that wins the game, and incidentally the championship of the city, will have to travel every inch of the way.

Hearselessness in a child subject to cough is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the cough has subsided, it will prevent the attack. Contains no poison. Sold by all dealers.

World Series Stars--No. 19

"The Finishing Kid" is what they call Lew Richie, the Cub right-hander. Richie has been used to finish games which were won or lost beyond question.

World Series Stars--No. 18

Foxen became a member of the Chicago team late in July, this year, in trade for Fred Luderus. He is a left hander, and when traded by Philadelphia was one of that club's best heavies. He has not had much chance to work since joining the Cubs.

MERCHANTS' LEAGUE PLAYERS' BANQUET

Street Railway and Water Commissioners Will Be Asked For More.

HOCKEY LEAGUE PLANNED

Steps Will Be Taken to Organize Immediately—Large Number Attend.

The first banquet of the Merchants' Baseball League was held last evening in the London House, and was attended by about 50 players and their friends.

The occasion was a most enjoyable one, and it is more than likely the function will become an annual affair.

After the dinner a toast list was presented by the chairman, J. H. Fowler. When the King's health had been drunk, Mr. Fred Stewart responded to the toast of "Our League." He spoke of the success of the league last summer, and expressed the belief that it would be better than ever in the coming year. Mr. Stewart did not think that the street railway company had given them encouragement at all.

Mr. F. W. Pann replied to the toast of "The Winners." The manager of the Grocers, explained how a winning team could be developed.

"The Other Teams" brought responses from Messrs. George Cook, A. Bridle, L. Beachy, Charles Legg, W. Legg and J. Anderson.

A Hockey League. Mr. C. Legg suggested a Merchants' Hockey League for the coming winter, and the suggestion was very favorably received. No steps were taken last night to organize it, but a meeting will be held in the near future.

The toast to "Other Sports" was responded to by Ed. J. Ryan, R. Donaghy, Harry Ranahan, Thomas Shaw, James H. Haskett, D. Cushing and Norval Wanless. It was suggested that the water commissioners be asked to build a grand stand at Springbank to accommodate visitors to the park. This will likely be done at once.

A fine programme of music was provided by the Elvatt brothers and Benham. Mr. Charles Elvatt also sang some comic songs in excellent style.

Good Crowd Present. Among those present were: Thomas Shaw, Harry Fowler, Ed. J. Ryan, Frank Paul, R. Donaghy, J. H. Haskett, Fred Stewart, G. Gill, J. Webb, A. Bridle, H. Ranahan, W. Bradley, E. Brady, E. Shaw, F. Brill, T. Donaghy, L. McDougal, H. Asplund, W. Cook, L. Perkins, O. Falkner, J. Coates, L. Beechy, H. Legg, J. Gleeson, A. Taschereau, G. Cook, W. Dowdell, P. Craig, E. Emery, J. White, N. Wanless, J. Bear, George Eccleston, T. Vincent, B. Mitchell, A. Kenny, C. Mitchell, H. Anderson, W. Legg, J. Murray and others.

SUNSHINE AND Scott's Emulsion

are the two great creators of energy. You can get along without Scott's Emulsion if you have enough sunshine, but for the millions who don't get much sunshine, Scott's Emulsion is absolutely necessary. You can always get Scott's Emulsion. Get sunshine, too, whenever you can.

SIXTH OF SERIES GOES TO YANKEES

Ames and Wilse Hammered Hard as Americans Beat Nationals.

GIANTS HOLD THE LEAD

Have Won Three to Highlanders' Two and One Was Tied—Second Inning Decided Yesterday.

New York, Oct. 19.—The Highlanders fell upon the Giants' pitchers, Ames and Wilse, and hammered their curves all over the ball yard today, and won the sixth post-season game by a score of 10 to 2. Four doubles, two singles, two bases on balls and an error by Doyle sent eight runs over the plate for the Highlanders in the second inning.

The Giants took to Vaughn's curves kindly in the third inning, driving home two runs. Quinn was called to the pitching mound and stopped further scoring with his spit-ball delivery. The game now stands: Giants three won; Highlanders, two won, and one game tied. The score:

First base on errors—Giants 1, Highlanders 1. Bases on balls—By Vaughn 3, by Witse 5, by Quinn 4. Runs scored—Vaughn 3, off Ames 1, off Witse 1, off Quinn 5, off Ames 4 in 1st inning (none out in 2nd), off Witse 10 in 3rd, off Vaughn 5 in 2nd, off Quinn 5 in 6th. Time, 2:10. Umpires, Evans and Klem.

Interest Lags.
New York, Oct. 19.—The receipts of the sixth game of the championship of Manhattan between the Giants and the Highlanders at American League Park today were \$8,041, of which sum the National Commission will receive \$994.45, and the players \$7,046.55. The number of paid admissions totaled 1,462. Tomorrow the clubs will play at the Polo grounds.

WITH THE HORSES

The newspaper dispatches have told with great frequency during the past summer of the victories won on the Grand Circuit by General H., a stallion that has almost invariably won his races, and he has always been referred to as "the Canadian." It might interest readers of The Advertiser's sports columns to know that this fast horse—his record is 2:04½, made at Lexington, Ky., in a race last week—was owned in Calgary, Alberta, and it is also interesting to note that he is another member of the great Elector family, and is worthy to be classed with Tilton, 1:58½, Walnut Hill, 2:01; Doodle Archdale, 2:05½, and other splendid representatives of that famous family which has achieved peculiar distinction this year, and which has always held such a high place in the esteem of all horse racing devotees.

General H. is a young horse—only six years old. He was sired by Combier, and his dam was Queen Beulah, by Alandor. Combier, in turn, was by Commoner, by Elector, out of Mary Clark, by General Zenton. It is reported that Schlessinger, of Vienna, Austria, has been endeavoring to buy General H., but it is to be hoped the horse will be returned to the stud in Canada.

Margaret O., 2:05 1-4, by Onward, has a colt at her side by Peter the Great, 2:07 1-4.

Evelyn W., 2:02 3-4, used to be the favorite saddle horse of a Tennessee woman.

There is a weanling by The Harvester, 2:01, down in Tennessee, that is a trotting wonder.

Country Jay, 2:05 1-4, threw out a curb after finishing at Detroit a few weeks ago, ending his racing for 1910. Claire Point, 2:20, owned by John Vipond, of Altoona, Pa., died at Altoona Driving Park, Oct. 8, of bowel trouble.

Meston, 2:20, sire of Monticola, 2:15 1-4, and Munchausen, 2:19 1-4, died recently at the Riverside Stock Farm, Weston, Va.

May Dillon, 2:10 1-4, a winner at Sedalia, Mo., is 5-year-old chestnut by Baron Dillon, Jun., out of Flora, by Rosebery, 2:15 3-4.

Princess Hal, 2:08 1-4, is a full sister to Prince Hal, 2:06 3-4, both bred by Star Hal, 2:04 3-4, and out of Lady H., by Alcameda, 2:19 3-4.

Lon McDonald thinks he secured the bargain of the recent Kentucky sale in yearling colt by Bob Douglas, 2:04 1-4, out of a mare by Chatterton, 2:18.

J. H. Conklyn, of Mechanicsville, Ohio, has leased Malcolm Forbes, the brother to Admiral Devoy, 2:04 3-4. He is by Bingen, 2:06 1-4, out of Nancy Hanks, 2:04.

Cleans Silver Quickly.
You can clean more silver with Wonder-Shine in half an hour than with pastes or powders in half a day, and clean it better. In the yellow package—ask your druggist.

FIGHT CALLED OFF.
San Francisco, Oct. 19.—The battling Nelson and Antoine Lagrave fight, scheduled for Oct. 23, has been called off by the promoters. Nelson demand too large a purse.

Mr. R. F. Litter of Point Pleasant, W. Va., has sold the fast pacing road filly, Violet, 2:15 1-4, by Blue Point, 2:23 1-4, dam Lora, 2:14 3-4, to Mr. J. W. Pender, of Johnstown, Pa. Violet is four years old, a very promising pacer, and brought a good price.

The Harvester, 2:01, with his additional championship honors gained when he set a new record for two miles, looks up brighter than ever as a great trotter. It would be hard to point out something a champion ought to have that the great son of Walnut Hall does not possess.

Never heard much about Claude Derrick, did you? Well, few of the fans around the big league circuits have, either, but he is a youngster who may play an important role in the world's series games all the same.

Derrick is a member of the Athletics. He went to the Mackmen from Greenville, S. C. He is a shortstop, and by men who have watched him perform, among whom are C. Mack, he is said to be a wonderful fielder and thrower. Derrick was "discovered" by Capt. Harry Davis, of the Mackmen, in Greenville last spring.

So impressed was Davis that he begged Mack to tie a string to Derrick. Connie listened, and when he saw Derrick at work, he corralled him. To guard against possible accidents, Mack had the youngster report in time to make him eligible for the world's series. Now should anything happen to his infield, Mack is well fortified with capable substitutes for every position.

"himself," said P. M. Love. "No matter what the prisoner is arrested for, he should be given decent treatment. No man shall be abused. We will make inquiries into the matter."

OFFICER IS CHARGED WITH BEATING PRISONER
Alleged That P. C. Snyder Struck With His Fist An Aged Vagrant.

There will likely be an investigation by the police commissioners into a charge that P. C. Snyder struck with his fist William Brophy, of Petrolia, an aged vagrant, last night about 12:30 p.m., after placing the man under arrest.

A citizen complained to The Advertiser today about the officer's conduct, and the police commissioners were notified by a reporter.

According to the citizen's story, the old man was arrested by the officer at the corner of York and Clarence shortly after midnight. The citizen had just got off the Sarnia train when he noticed the two arguing. Brophy did not want to go to the police station, but he offered no resistance. He kept up a continual fire of conversation, however, when the officer, it is alleged, hit him in the face with his fist.

The citizen remonstrated with the policeman, and was informed that he would be taken in, too, if he did not mind his own business.

"I did not know what the old man was arrested for, but he was going along willingly with the officer," the gentleman stated to The Advertiser. "He was old, and no matter what he said he should not be slapped by a policeman. I remonstrated, but was told to mind my business on pain of being arrested."

"No officer should hit a man, unless he is compelled to do so to defend himself," said P. M. Love. "No matter what the prisoner is arrested for, he should be given decent treatment. No man shall be abused. We will make inquiries into the matter."

**SHOT THROUGH MOUTH
BY UNKNOWN MAN****Niagara Falls Woman Victim
in Mysterious Case.**

[G. N. W. Dispatch.] Niagara Falls, Oct. 19.—A young colored woman named Mrs. Maude Smith Washington, was shot in the mouth by an unknown man about 7:30 this evening in a vacant lot on Allen street, at the south end of the city. The woman's chances for recovery are small.

John Shay, clerk in the office of Judge Cadham, was passing at the time. He heard the two shots, and hurrying to the spot, saw the woman's assailant running away. He describes him as a foreigner.

Chief Kimmins was notified and all the bridges were covered promptly.

The woman is known to the police to be an inveterate cocaine fiend, and the police believe she was accidentally shot by her companion in an attempt to frighten her away from them.

A Swede, who was hurrying across the bridge about half an hour after the shooting, was arrested. He claimed he was going to work on the American side, but he had a dinner pail and bore evidence of having been running and excited.

**DEPUTATION WANTS
SCHOOLS RETAINED****Speak in Favor of Bilingual
Schools at Toronto.**

[G. N. W. Dispatch.] Toronto, Oct. 19.—The first official movement of the French-Canadians of the province to offset the words of Bishop Fallon on bilingual schools, was made at the parliament buildings today, when A. A. Aubin, M.P.P. for Sturgeon Falls, and Father Lebel, S.J., of Sudbury, called upon Hon. Dr. Reame, then Hon. Frank Cochrane, who is closely connected with Northern Ontario, and met Hon. Dr. Pyne, the minister of education.

Their visit, it is understood, was to urge upon the ministers the necessity for the retention of bilingual schools, pointing out the great advantage in them if they are conducted under proper conditions.

In an interview, Father Lebel was enthusiastic in their support. "They have worked out exceptionally well in Nipissing and other northern districts," he declared. "The fault with the Essex bilingual schools, I should judge, is that the system was not administered properly."

In Sturgeon Falls, Mr. Aubin said, nine out of twelve pupils who tried the entrance from bilingual schools had passed.

What Sentinel Says. The Orange Sentinel devotes columns of space this week to editorial comment on the Fallon controversy. Its important conclusion is summarized in the following paragraph:

"We feel that Ontario should be preserved as a province, where the English language alone should be used in official life and in the schools. This will work no hardship to any class of citizens. On the contrary, it will be a boon to the children of French-speaking parents, who are today denied the instruction that is necessary for them to succeed in life."

HEAVY SNOWFALL

Trains Blocked by Drifts in Colorado's Big Storm.

Denver, Oct. 19.—Snow is reported from all parts of Colorado, the first general storm of the season.

In the mountain passes of the Moffatt road above Tolland, Col., snow from eight to ten feet deep is reported and trains are blocked.

In Denver the fall was light, but was accompanied by a fall in temperature and high winds.

MANUEL IN ENGLAND

Exiled Portuguese Monarch and His Mother Arrive Safely.

Plymouth, Eng., Oct. 19.—The royal yacht Victoria and Albert arrived here at 7 o'clock this evening, bringing King Manuel and Queen-Mother Amelie from Gibraltar. The Duke of Orleans, Marquis de Soveral, the Portuguese minister and Senor Villa Y Urrutia, the Spanish ambassador, welcomed the royal exiles, who at once left on a special train for Wood Norton, Wiltshire, where they will be their home.

GOVERNOR HILL DEAD. Albany, N. Y., Oct. 20.—David B. Hill, ex-United States senator and governor of New York, died at his home in this city this morning.

**JULIA WARD HOWE
HAS BIG FUNERAL**

Famous American Authoress
Was Buried Today at
Middletown.

WROTE BATTLE HYMN

Had Stirring Career With Her Husband
in Greek Fight for Independence
and Also Took Part
in Woman's Suffrage.

Middletown, R. I., Oct. 19.—The funeral of Mrs. Julia Ward Howe, the noted philanthropist and poetess, was held here today and was very largely attended. The services were held at the Unitarian Church of the Disciples, and were most impressive.

Telegrams and wreaths came in from all parts of the country.

Worked Hard.

After her husband's death, Mrs. Howe continued her work by pen and pencil for many a worthy cause up to the very end. She had shared her husband's labors for the Greeks in their struggle for independence; she had assisted him in his anti-slavery work and fired the nation with her "Battle Hymn of the Republic"; she had joined heartily in the crusade for woman suffrage; and the last year of her life she pleaded the cause of the little children by participating in a public hearing at the state house and urging that action be taken to insure pure milk for infants.

Although perhaps the best known on her literary side as the author of the "Battle Hymn of the Republic," Mrs. Howe was the author of many other poems, of which she had published several volumes, and of many prose works. She was one of the most prolific contributors to the Woman's Journal, the woman's suffrage publication, of which she was a founder. Her works included volumes recounting her travels with her husband in Greece and Cuba.

Mrs. Howe leaves four children, Mrs. Florence Howe Hall, a prominent woman suffragist; Mrs. Laura E. Richards, an author; Mrs. Maude Howe Elliott, wife of John Elliott, the artist; and Prof. Henry Martineau, professor of metallurgy at Columbia University.

Battle Hymn.

Mine eyes have seen the glory of the coming of the Lord;
He is trampling out the vintage where the grapes of wrath are stored;
He hath loosed the fateful lightning of His terrible swift sword.
His truth is marching on.

I have seen Him in the watch fires of a hundred circling camps;
They have builded Him an altar in the evening dews and damps;
I can read His righteous sentence by the dim and flaring lamps;
His day is marching on.

I have read a fiery gospel writ in burnish'd rows of steel;
"As ye deal with my contemners, so with you my soul shall deal,
Let the Hero, born of woman, crush the serpent with his heel,
Since God is marching on."

He has sounded forth the trumpet that shall never call retreat;
He is sifting out the hearts of men before His judgment seat;
Oh, be swift my soul, to answer Him!
be jubilant my feet!
Our God is marching on.

In the beauty of the lilies Christ was born across the sea,
With a glory in His bosom that transfigures you and me;
As He died to make men free,
While God is marching on.

WORK LIKE SLAVES

Toronto Engineer Will Investigate Alleged Unsatisfactory Conditions.

Toronto, Oct. 19.—City Engineer Rust is going to make immediate investigation into the conditions approaching slavery declared by Controller Foster to exist at the filtration works.

The controller said he saw men carrying 60-pound bags of cement across 200 or 400 feet of deep sand, from where the cement was unloaded to where it was being mixed. The men, he said, were so fatigued when they reached the end of the carry that he did not wonder they did not want to stay on the job. He had suggested laying a line of single planks so the bags could be wheeled.

"The men are perfect slaves," exclaimed Controller Foster, "they are worked like horses."

IS IT A SCAR

Dramatic Revelation May Be Made at Crippen's Trial.

London, Oct. 20.—A morning paper today finds a dramatic revelation in the line of defence from the evidence submitted yesterday at the Crippen trial.

Towards the close of a long cross-examination of Professor Pepper by Chief Counsel Tobin, representing the defendant, the counsel obtained Pepper's admission that the presence of a sebaceous gland on the alleged scar on a portion of the dismembered body, would prove that it was not a scar.

Counsel Tobin then announced that he hoped to prove by expert evidence the actual presence of such a gland. The importance of the point lies in the fact that identification of the remains hinges on proving the existence of the scar from an operation.

SHELDON IN NEW YORK.

Montreal, Oct. 19.—[G. N. W. Dispatch.] The missing stockbroker, who was seen in New York this week by a friend. He made no attempt to disguise himself, and showed no nervousness when addressed by his right name. He said he was in New York on business. New York police claim to have no warrants for his arrest.

CAPTURED AT GALT. Galt, Oct. 19.—Kidd Mantanyee, believed to be a convict who escaped from the Central, was arrested here by Chief Gorman.

He had been at liberty two days, and had nothing to eat until he arrived at Crickston Park.

A jailkeeper from Guelph came down this afternoon and took the prisoner back.

**BANK OF ENGLAND
RAISES ITS RATES**

Protects Reserves By Making
Discount Five Per Cent.

London, Oct. 20.—As anticipated, the Bank of England today raised its rate of discount from 4 to 5 per cent. in order to protect its reserve, which had been steadily depleted, despite the improvement of the 4 per cent rate three weeks ago.

The reserve this week is expected to show nearly \$10,000,000 decrease. The Egyptian demand already has exceeded the estimates owing to the hasty marketing of the large cotton crop. India is expected to take gold soon, and the South American demand possibly will appear early, and as very little gold from the mines is going to the Bank of England, a strong protective measure was necessary.

A fresh outburst of speculation in America, and the large number of American finance bills placed here, also are factors to be reckoned with in the monetary situation of the future.

**ATTEMPT TO MURDER
MONTREAL PRELATE**

Canon Dauth Shot at Through
Study Window.

Montreal, Oct. 19.—An attempt was made on the life of the Vice-Rector of Laval University, Rev. Canon Dauth, yesterday by a man whose name the police refuse to divulge. The assailant, who is said to be a well-known businessman of St. Catharines street, fired with a revolver through the window of Canon Dauth's study in the University on St. Denis street. The bullet entered the window and lodged itself in a book-case across the room, the line of fire crossing the place generally occupied by the vice-rector in the morning. The man was arrested at once by Constable Lemire and taken to the station, where he gave evidence of signs of delirium tremens. He has been sent to the Longue Pointe Asylum to be examined as to his sanity.

**BIG MEN MENTIONED
IN GREAT GRAFT TALE**

Said They Subscribed Half a
Million to Keep Race
Tracks.

New York, Oct. 19.—Representative Otto G. Fleisch, the man who was carried from his sick bed into the state senate chamber to cast the deciding vote for the anti-racing bill urged by Governor Hughes, today stated as a sworn witness today and told the legislative committee the details of an alleged attempt in 1908 by former State Senator Frank J. Gardner, who is now under arrest, to buy his vote. Gardner was called to the stand but refused to testify.

The narrative created a sensation. Briefly, it told of a dinner at Delmonico's of prominent men friendly to the race tracks, of \$500,000 subscribed to a corruption fund, of the distribution of this fund to politicians and to well-known political correspondents at Albany of the New York newspapers, and of the secret grievance of the late Senator Patrick McCarran that worked for the passage of the bill against his own wishes and his own associates.

According to Gardner, among the men at the meeting were James R. Keene, David Mitchell, Mr. Parsons, Harry Payne Whitney and Charles H. Hyde.

Chas. H. Hyde is now chamberlain of New York City, and was formerly a law partner of Mayor Gaynor. James R. Keene is the well-known racing man, and millionaire stock market operator.

As high as \$50,000 was offered for a vote when it looked as though the vote would be a tie.

WILSON RESIGNS

Head of Princeton University Is Running for Governor.

New York, Oct. 20.—The resignation of Dr. Woodrow Wilson, president of Princeton University, is now in the hands of the secretary of the board of trustees, the Times says today, and it is understood that it will be accepted by the trustees. Dr. Wilson is now running for governor of New Jersey on the Democratic ticket.

It is said that the trustees would have been glad to extend a leave of absence to Dr. Wilson for the duration of his campaign, with permission to return if he should fall of election, but he declined it on the ground that the university must be absolutely divorced from politics.

CONVENTION AT STRATHROY. Strathroy, Oct. 19.—The West Midland Teachers' Institute is in convention here. Last evening James Samson, M. D., of Windsor, gave a lecture on "Government Annuities."

No doubt about an emerald bed's hygienic merit, none about its beauty. Not any about its being worth its price if it bears the "Ideal" Guarantee on the bottom.

That Guarantee assures you of more than mere surface excellence. It warrants real satisfaction to the buyer. Its snowy enamel will stay white; its parts will not work loose.

Know why "Ideal" Metal Beds are better. Ask for "The Philosophy of Sleep," worth reading, though it is free. Write for Booklet No. 122.

MONTREAL—TORONTO—WINNIPEG

THE IDEAL

Made in 95 different styles.

Offering of \$650,000 of 7%
Cumulative Convertible Preference Shares
With 25% Bonus in Common Stock of the

PACIFIC-BURT CO., Limited

(Incorporated by Ontario Charter.)

CAPITALIZATION:

7% Cumulative Convertible Preference Stock \$650,000
Common Stock 650,000

WE OFFER FOR SALE AT PAR 6,500 FULLY PAID SHARES OF \$100. PAR VALUE EACH OF THE ABOVE MENTIONED 7% CUMULATIVE CONVERTIBLE PREFERENCE STOCK, WITH BONUS OF 25% OF THE AMOUNT OF THE PREFERENCE SHARES IN COMMON STOCK.

Payments are as follows:—

\$10. per share with subscription, and
\$0. per share on or before November 1st next

Applications will be made in due course to have both the Preference and Common stock listed upon the Toronto Stock Exchange.

CHARACTER OF SHARES:

Preference shares carry the right to the holder of exchange at any time, share for share, for Common stock, and are preferential both as to assets and cumulative dividend at the rate of 7% per annum. The company has no bond or mortgage indebtedness.

DIVIDENDS:

Preference share dividends will accrue from November 1st next and be payable, first, on January 1st next, and quarterly thereafter.

It is expected that the Common stock will bear dividends at the rate of 2% per annum from January 1st next.

BUSINESS:

The business of the Company is thoroughly established, and has been in profitable operation for years. It is now earning a surplus over the Preference stock dividend of 7%, and proposed Common stock dividend of 2%. The present business consists of the manufacture of counter-check books, or merchants' sales books, and steps are being taken for the prompt establishment of the manufacture of small paper boxes. The Burt Department of the business, which it is expected will come into good earnings as soon as it is fully established, will be conducted upon the same lines as, and have the right to use the same style of machinery as, the F. N. Burt Company, Limited, at their Buffalo factories. The Burt Company are specialists in the manufacture of small paper boxes.

DIRECTORS:

The Board of Directors is composed of four Directors of F. N. Burt Company, Limited, viz.: S. J. Moore, President, A. E. Ames, Vice-President, F. N. Burt and James Ryrie, together with H. T. Scott, of San Francisco, President of Pacific Telephone & Telegraph Company, and Mercantile National Bank; Dr. Charles W. Colby, Montreal, Director Imperial Writing Machine Company, and Horace P. Brown, Emeryville, California, General Manager.

Mr. Moore is President and Messrs. Burt and Scott are Vice-Presidents of Pacific-Burt Company, Limited.

SUBSCRIPTION BOOKS:

Subscription Books are now open at our offices, and will close not later than four o'clock on Tuesday, the 25th inst. The right is reserved to allot only such subscriptions and for such amounts as may be approved, and to close the subscription books without notice.

SUBSCRIPTIONS MAY BE FORWARDED BY MAIL, OR BY TELEGRAM AT OUR EXPENSE.

Subscriptions may be on regular forms, or, where these are not available, letters simply stating that so many shares are subscribed for under the terms of the Prospectus will be sufficient.

Full prospectuses have been published in the newspapers, and copies, with subscription forms, may be had on application at our offices.

We recommend purchases of these securities, the Preference share dividends being well assured, and prospects being good for satisfactory dividends on the Common Stock.

JOHN BROPHY CANNOT KEEP BUSY IN PETROLEA

As a Consequence He Wanders Into London and Gets Drunk.

John Brophy appeared in the police court again this morning, notwithstanding his solemn promise to go back to Petrolia when last released. "Business is very slack in Petrolia," said Mr. Brophy by way of explanation. He was found guilty of vagrancy, and remanded one week.

Thomas Moylan, found guilty of drunkenness for the second time, was fined \$2 or seven days.

Timothy Grace, for assaulting a young man named Everett, was fined \$7 with \$3.50 costs, and also bound over for \$200 to keep the peace.

Charles Lancaster, for being drunk, was fined \$2 or seven days.

Thanksgiving Day.

The Canadian Pacific will sell return tickets at rate of single fare, between all stations in Canada, on the Ontario Eastern and Lake Superior divisions. Tickets good going Oct. 23, 29, 30 and 31. Return limit Nov. 2. Tickets and full information at C. P. R. City Office, corner Dundas and Richmond.

There are still some good \$1 and 75-cent seats for the Scottish concert at the Grand tonight.

Don't miss the Glasgow Select Choir at the Grand tonight.

NOTICE!

For convenience of the public the London Loan and Savings Company of Canada, will keep open their banking office on Saturday evenings from 8 to 9:30 o'clock, after the first of November, 1910. Corner Park Avenue and Dundas street.

LONDON AND DISTRICT

Liberal Minstrels Tonight.

There will be a practice of the Liberal Minstrels this evening in Hyman Hall. All members are asked to be present, and those wishing to join are invited to be present.

A Reception.

Mrs. J. Campbell and Mrs. Art Greenleaf (formerly Bella Campbell) will receive at their home, 137 Central avenue, on Friday afternoon, Oct. 21, and afterwards on the first Friday of each month.

Athletic Association Officers.

The Western University Arts Athletic Association elected the following officers yesterday: President, A. Murphy; vice-president, Dr. K. F. R. Neville; secretary-treasurer, John Mitchell; captain of rugby team, R. Lee; manager of soccer team, K. Alexander; manager of tennis club, E. Hawkins.

London Has Advantages.

The Hamilton Times says: The Times asked the head office of the Canadian Canners here what the facts were about the removal of the Southern Printing Company from London. The reply was: "Ever since we bought the Southern Company, six or seven years ago, we have been thinking of a change. That is as far as we have gone yet. The Grand Trunk expropriated our London property months ago, and we must get out some time, but just when we do not know. What we will do when we have to get out has not yet been decided. There are certainly advantages in Hamilton, but there are advantages in London, too."

Condon-Quick.

Rev. R. S. W. Howard, of Christ Church, celebrated a very pretty wedding yesterday morning at the residence of Mr. Richard Condon, 263 Cedar street, when his youngest son, Richard K. Condon, was united in marriage with Miss Lydia Quick, daughter of Mr. William Quick, of Edward street, South London. The bridesmaid was Miss Nellie Condon, and the groom was attended by Mr. Gordon Quick. Among those present were Misses Mona Condon, Mabel Jenkins, Elsie Gregory and Elsie Harris. Mrs. Herbert Kelly and Messrs. Harold Quick and E. J. Tallant, Mr. and Mrs. Condon left on the 11:30 train for Saginaw, Mich., on a brief wedding tour. On their return they will reside in London.

MISS FRITZ WROTE 266 WORDS A MINUTE

Remarkable Work on a Typewriter at the Auditorium.

Miss Rose L. Fritz, the world's champion typist, appeared in the Auditorium last night, giving an exhibition of touch-typing, that most people would have thought altogether impossible.

Miss Fritz was introduced by Principal Westervelt, of the F. C. B. College. She gave first a 15-minute typing word test, averaging 142 words per minute gross, or 137 net, after deducting five words per minute for errors.

Her next test was writing blindfolded from dictation, in which her remarkable achievement was 1,933 words in 10 minutes.

In a three-minute test, with interruptions, during which time she answered questions in a rapid and varied conversation, she averaged 149 words per minute.

Equally marvellous was the one-minute test, in which she wrote 266 words per minute from sentences which were familiar to her.

Miss Fritz's wonderful demonstration was instructive and interesting throughout.

It was truly a revelation of what can be accomplished with the system of touch-typing, and a conscientious devotion to regular and systematic practice. For the last six years Miss Fritz has practiced two hours daily.

During the evening a high-class musical and literary programme was rendered by well-known talent, including solos by Mr. Webster, readings and recitations by Miss Gwendoline Anthistie, and piano solos by Mr. Ernest Syls.

The Auditorium was taxed with a capacity audience, the stenographers and typists of the city, and the students of the local business colleges attending in a body.

Glasgow Select Choir Tonight.

The annual Scottish concert at the Grand Opera House tonight promises to be a great success, both in point of attendance and from an artistic standpoint. The famous Glasgow Select Choir is enjoying most phenomenal success on this, its first American tour. Its appearance in Toronto and Winnipeg before large and enthusiastic audiences has received the most flattering comments from the press in these cities. It is seldom that a musical organization—twice honored with a command to appear before royalty—visits our city. There are still a number of good seats available for the concert tonight.

Dixey Tomorrow Night.

"The Naked Truth" seems to please Canadian audiences from the way the Toronto and Montreal papers praise the performance. Henry E. Dixey has always been a successful actor. His plays seem to fit him to perfection, and while the citizens of London have not been able to see him in many of his productions, they have read enough to know that Dixey is one of the cleverest comedians on the American stage. His work in Adonis caused him to be known far and wide. The writer witnessed the four hundredth performance

of this play in New York at the old Bijou Theatre. It established a record in New York that was unbroken for years.

Dixey and his clever associates come to the Grand tomorrow evening. The Montreal Gazette of Tuesday, Oct. 11, had the following criticism of the play:

"With an audience not far short of capacity proportions and a practically unceasing flow of laughter from start to finish, 'The Naked Truth' which has enjoyed a long run in the English metropolis, was presented by Henry Dixey and company under the happiest auspices at the Princess Theatre last evening. It is one of the funniest pieces that have been in Montreal for some time, and, indeed, in point of mirth-provoking qualities, could hold its own with even such rivals as 'Charley's Aunt.' Not that it contains any one character head and shoulders over the others in wealth of humor. The individuals depicted were practically all amusing, with the exception of North Creighton, and pretty girls in love have no wish to be funny. The trouble started, as it has usually done since Adam lost his head in Eden, with a married woman. The plot of the comedy centres in the magic qualities of a certain ring which forced its wearer to tell the truth on all occasions. As he happened to be connected with company promoting, the results may be imagined. When would-be investors inquired whether they should place their money in his hands, they were met by a candor that fairly took their breath away. After a time the morally transformed Bunney began to suspect that he must be ill, as he had previously been a habitual liar. The doctor diagnosed his case in a highly amusing scene and was astonished at length to be told by his patient he was a quack. Mendacity had gone down Bunney for good. He told some plain truths to his finance and nearly drove her to break the engagement. He insisted that the bogus company to which he had sold shares should be put into the receiver's hands. Everybody got the plain, unvarnished truth from his lips.

In the leading role of Bunney, Mr. Dixey played with admirable tact and place. Local favor seems assured. There were nine characters in the cast, and each was well played."

MUSIC CLUB OFFICERS CHOSEN FOR THE YEAR

Mrs. C. B. Hunt Was Named President at Meeting Held Yesterday.

The Women's Music Club held a meeting yesterday and elected the following officers: Mrs. C. B. Hunt, president; vice-presidents, Mrs. S. W. Mowat and Mrs. Arthur W. Smith; secretaries, Mrs. A. E. Jordan and Miss Helen Ivey; treasurer, Mrs. Van Dyke, and assistant treasurer, Miss C. McIntosh.

The members of the executive committee for the year are Mrs. Edwin Paul, Mrs. E. B. Smith, Mrs. W. F. Masure, Mrs. J. J. Callaghan, Mrs. F. G. Backus, Mrs. F. A. Stewart, Mrs. Ralph McCully, Miss Raymond, Miss J. Strong, Miss Nora Little, Miss Talbot, Miss Frankie Cullis, Miss A. Burwell, Mrs. A. A. Campbell, Mrs. A. Blackburn, Mrs. J. H. Smith, Mrs. Wm. Turnbull, Miss M. Campbell and Mrs. J. E. Magee.

Chorus work under the direction of Mr. W. A. Bluetner will be one of the features of work during autumn and winter. It is likely that a recital will be given at the close of the season.

CANON TUCKER ON THE YELLOW RACES

Selfish Policy on Part of Canada Will Have Evil Effect.

Rev. Canon Tucker, who has recently been called to St. Paul's Cathedral, was tendered a banquet in Toronto on Tuesday evening by the Anglican clergy of the city and representatives of the Laymen's Missionary Movement. Canon Tucker is leaving Toronto on a western trip, and will return in December. In a speech of unusual eloquence he referred to the fate of the nations which have followed selfish aims and ambitions. The glowing quotes from his address as follows:

"If we deal with Japan, India, and China in the selfish way," he said, "put up barriers along the Pacific coast, and say, 'No Chinese, Japs or Hindus will come into Canada unless he pays \$500 poll tax, by-and-bye to be raised to \$1,000,' you suppose this will last forever? Japan and China are training great armies and navies, and you suppose we will for all time shut out the Mongolians from our country? Even if we do we are bound to be brought into the closest contact with them."

Dermaline Snow

DERMALINE SNOW is a dainty toilet delight. Its silky softness, graceful coolness and rapidly beneficial effects stamp it as unique for skin comfort.

For removing the harshness and dryness of the skin which follow exercise, DERMALINE SNOW is indispensable.

In 25 and 40 cent jars.

CAIRNCROSS & LAWRENCE

Chemists and Druggists.
216 Dundas Street, London, Ontario.

STREET CAR COLLIDES WITH LADDER TRUCK

Bad Mix-Up at Busy Corner in Toronto.

Toronto, Oct. 20.—A hook and ladder apparatus and a Dundas car smashed together last night at the corner of Yonge and Richmond streets.

The horses were tripped by the fender of the car, and thrown under the front wheels of the hook and ladder, where they were so firmly wedged that they could be released, unhurt, only after a long struggle.

The apparatus was smashed into fragments, and all the car windows and fender. Several people, who had been walking along the street at the time, narrowly escaped injury.

Pacific-Burt Company, Limited.

Messrs. A. E. Ames & Co., Limited, of Toronto, who have been advertising the Pacific-Burt Company's preference shares, wish to inform the public that on account of the attractiveness of the offerings all signs point to a very large oversubscription, if the books remain open for the minimum time stated in the advertisements already published in The Advertiser, viz., Tuesday afternoon next at 4 o'clock. They suggest that small investors who intend investing in this company send in their subscriptions without delay, so that the books may be closed at the time, involving very little friction when the allotment of stock among the largest number is a difficult matter.

The plan for the Abigail Becker concert opens tomorrow morning at Hambley's book store. Mr. Thomas Alexander will recite, besides several local artists will take part.

Special attention paid to wedding orders. Hueston's Livery.

TOOK CHILDREN OUT OF SCHOOLS

Local Catholic Says That Dr. Reaume Finds Bilinguals Unsatisfactory.

BISHOP FALLON POPULAR

His Friends Here Say He Will Not Give Up the Fight Until Conditions Are Remedied.

There is a great deal of interest being taken locally in the Fallon-Hanna-Reaume matter.

His lordship is now finishing up his confirmation work, leaving practically covered the whole diocese—no small one, either, by the way—since his consecration. Yesterday he was in Tillsonburg, and reached London today.

On Saturday he will go to Toronto, to deliver an address there on the occasion of the completion of a seminary or the higher education of Catholic priests.

No hint can be obtained of his programme, but it is surmised that he will meet some of the leading figures in the controversy on the occasion of his visit to the Queen City.

Stand by Bishop.
"The Catholics of London and practically the diocese are behind Bishop Fallon to a man," one Catholic stated to The Advertiser. "Among a large section of right-thinking French-Canadian there are more than a few who sympathize with him in his stand, and they support him. I could name some to you, if it were thought advisable. They are with him hand and heart, and when the facts are known, and the spirit of the man understood, many more who now oppose him will come to his point of view. All during his career he has stood for the square deal, and he is now fighting the battle of the children, who should be given an opportunity of obtaining an education."

How About This, Doctor?
It is thought here that Hon. Dr. Reaume knows more of conditions than he has yet given the public to understand.

"Dr. Reaume will confess to you, if it is the truth, that he had to take his own children out of the bilingual schools because they were not being educated," said one gentleman to The Advertiser. "He put them in charge of a relative, or private tutor, to finish their education. He also declared to more than one person that his children learned all their English while playing marbles with English children. He has made this statement, and that being the case, he should have no quarrel with Bishop Fallon, who desires to correct conditions."

Hon. W. J. Hanna is also coming in for a fine scoring at the hands of many. By his secret copying of the minutes of the meeting of the provincial secretary, and local Catholics are wondering how he can justify himself in the matter.

THE WORLD'S LARGEST STEAMER

Launch of the White Star Line's Triple-Screw Steamship "Olympic" at Belfast, Ireland.

Belfast, Oct. 20.—The White Star Line's giant steamer "Olympic" was launched successfully today. Thousands of spectators watched the monster hull glide swiftly down the ways. The "Olympic" is the largest steamer now afloat.

The White Star Line's triple-screw steamer "Olympic" exceeds by nearly 100 feet in length and 13,000 tons any other ship afloat. Her principal dimensions are:

Length over all.....852 feet
Breadth over all.....92 1/2 feet
Breadth over bottom deck.....94 feet
Height from bottom of keel to boat deck.....107 feet
Height from bottom of keel to top of captain's house.....105 1/2 feet
Height of funnels above casing.....72 feet
Height of funnels above boat deck 31 1/2 feet
Distance from top of funnel to keel.....175 feet

Number of steel decks.....11
Number of watertight bulkheads.....15
The gigantic measurements of this vessel are best appreciated when it is known that in length the "Olympic" overtops the height of the Metropolitan Tower in New York by 182 feet, is twice as long as the height of the dome of St. Peter's at Rome, and equals in length the total drop of the famous Bridal Veil Fall in the Yosemite Valley. Indeed, if the "Olympic" and her sister-ship "Titanic" (soon to be launched) were placed end to end under the Brooklyn Bridge, they would completely block the East River, and extend over the shore 100 feet on each side. It is also interesting to note that the length of each of these ships is four times the height of Bunker Hill monument.

Each ship 3,000,000 steel rivets, weighing in all 1,200 tons, have been employed to bind the massive steel plates, insuring the greatest stability; and the rudder of each vessel weighs 40 tons, yet will be moved by electricity almost as lightly as a feather.

These monsters of the deep will each accommodate 2,500 passengers, carrying a crew of 850, and because of the enormous size of the ships the accommodation is as follows:

WHAT'S THE USE

To Keep a "Coffee Complexion?"

A lady says: "Postum has helped my complexion so much that my friends say I am a growing young again. My complexion used to be coffee-colored, muddy and yellow, but it is now clear and rosy as when I was a girl."

It was induced to try Postum by a friend who had suffered just as I had suffered from terrible indigestion, palpitation of the heart and sinking spells.

"After I had used Postum a week I was so much better that I was afraid it would not last. But now two years have passed and I am a woman. I owe it all to leaving off coffee and drinking Postum in its place."

"I had drank coffee all my life. I suspected that it was the cause of my trouble, but it was not until I actually quit coffee and started to try Postum that I became certain; then all my troubles ceased and I am now well and strong again."

"There's a Reason."

Look in packages for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.
