HERE'S AN ART in Footwear, although few stores give any evidence of that fact. It requires great skill to produce an artistic boot, one that combines comfort and graceful appearance. We know of two American makers who excel in that respect. They are Krohn Fechtmeier & Co., of Cincinnati, and Hathway, Soule & Harrington, Boston, Mas. They produce the finest and most artistic of Ladies' Boots. Their styles are models of elegance and grace in Footwear. Their boots fit perfectly and possess an attractiveness of style that win the favor with careful dressers. We are the recognized headquarters for American Footwear in Chatham.

POOR WING WAU KEE BECAME SOMEWHAT TIRED

Had Been Shipped Many Hundred Miles Like Goods—No City Gave Him the Glad Hand—Finally he Ponied up and Windsor Sheltered Him.

For the first time since the Canadian government placed a tax on Chinese entering Canada, a Celestial has made his entry at the Windsor customs. The Chinaman's name is Wing Wau Kee, and the trouble he has had in gaining entrance to the Dominion would make a good foundation for a novel. He sailed from Hong Kong on the City of Japan, and landed at Vancouver. When he stepped ashore he was put in bond the same as dutiable merchandise, and shipped to Boston over the Canadian Pacific Railway. Arrived at the boat of the boat caters, it was found that Wing Wau Kee's credentials were not sufficient to entitle him to citizenship in the Hub, and he was promptly bundled on board a train, and shipped, again, in bond, to the Canadian frontier. Wau Kee was becoming tired of his flying trips from one point to another, and when he reached Montreal, he wished to remain there, but the immigrant inspectors were firm in their decision that the Chinese must locate elsewhere, and he was reshipped under sealed orders. This time the railway brought him to Detroit, and he had taken a glance at the beautiful De-

HIS MAJESTY HONORS THE HEROES OF WAR

They Receive Their Medals From the King's Hands—Impressive Spectacle—Traucherous Boers Courtmartialled—Dewet's Cousin Addresses Pro-Boer Meeting

London, June 12.—London seldom had a finer spectacle than was witnessed on the Horse Guards parade this morning, when King Edward presented medals to three thousand soldier participants in the South African campaign. The great square was lined with guards, drawn from the various regiments. In the centre of the ground was a purple-covered dais, surmounted by an Indian tent, with silver corner-poles. In the space between the dais and St. James Park were drawn up three thousand officers and men of the Guards, Household Cavalry and City Imperial Volunteers, all of whom had served in the campaign. The Admiralty, Horse Guards and other official buildings fronting the parade were all decorated with flags. The Lord Mayor, Frank Green, attended in state, and the members of the special Moorish Embassy, in picturesque costumes, were interested spectators. Promptly at 11 o'clock the King, in a field marshal's uniform, the Queen, Princess Victoria and other members of the royal family, arrived and took up places on the dais, and the ceremony began. The recipients of the medals, in a long line, marched past the King, Lord Roberts came first, followed by Lord Milner, while behind them came crowds of generals and lesser officers whose names have become familiar owing to the war. Buller, Ian Hamil-

ton and a host of others. Among the members of Lord Roberts's South African staff who received the medal was Captain the Duke of Marlborough. The Boers, as a whole, were most incongruous. The officers of the Guards, Lancers, Hussars and Highlanders, in dazzling uniforms, rows of solemnly gazed men in frock coats, doctors who had served at the front, and a dozen foreign attaches in uniform. There were also groups of time-expired men in civilian clothing, policemen and wounded soldiers, limping along in hospital clothes. The ceremony lasted nearly three hours, the Queen standing beside the King throughout.

TWO BOERS SHOT.
Pretoria, June 12.—Two Boers have been court-martialled and shot for trying to escape from Pretoria and to join their commandoes, after having taken the oath of neutrality.

DEWET'S COUSIN.
Berlin, June 12.—Andries De Wet, a cousin of General De Wet, the Boer commander, last night addressed a pro-Boer mass meeting in the Philharmonic. Ten thousand persons were present, and the speaker's utterances were received with enthusiastic demonstrations.

LORD MILNER'S RETURN.
London, June 12.—In the House of Commons yesterday afternoon, Colonial Secretary Chamberlain stated that Lord Milner of Cape Town, Governor of the Transvaal and Orange River Colony, will return to South Africa in August.

A DARING BRAKEMAN

How the Unfortunate Beavely Came to his Sudden Death.

Chathamite Who saw him When the Train Passed Through Tilbury at Forty Miles an Hour.

"I saw that brakeman Beavely, who was killed near Fargo Tuesday night, just about twenty minutes before he met his death," said Joseph Tilt, of this city, to The Planet last evening. "I was in the hotel by the track at Tilbury and I heard a goods train come thundering along at about forty miles an hour. I went out and I saw Beavely. The first fourteen cars of the train he was on were flat cars loaded with stone slabs and the unfortunate brakeman was making his way along the cars on a narrow strip just at the edge and he was hanging on to the stone. I noticed that the man was in a dangerous position and I remarked to one of the men near me that there was a man who was putting a precarious trust in stone. The man had to take horrible chances and I really wasn't surprised to hear that he had fallen off and been killed. They say after he fell some seven trains passed to and fro over him.

"The accident recalled a frightful accident that happened in Detroit while I was in the freight department there. A new man, an Englishman recently from the old sod, was working in the yard. He was at the freight office and was called to make a shunt. I bet him a cigar that he wouldn't make it the first time, rebounds barred. Had he stuck to the terms of the bet his life would have been saved but he went in to make the coupling on the rebound. One of the cars was a freight and the other was laden with lumber. The first impact of the two cars had shifted the lumber and when the cars came together the second time, the shifted lumber caught the yardman's head and crushed it. "I saw his light go out and, turning to James Couzens, another old Chatham boy, I said, 'something is wrong. We both ran down and found the most sickening sight that I have ever seen my misfortune to behold. The man's head was crushed flat, his tongue was hanging out, and his eyes bulged away out of his head. The very thought of that scene makes me shudder, even now."

Mamma—Ethel, what do you mean by shouting in that disgraceful fashion? See how quiet Willie is.

Ethel—Of course he's quiet; that's our game. He's papa coming home late, and I'm you.

The man who would rather fight than eat never has, to eat his own words.

LACROSSE CLUB

Enthusiastic Meeting of Maple City Young Men—Re-organize for the Ensuing Season.

One of the most enthusiastic lacrosse meetings ever known in Chatham was held in the parlors of the Grand Central Hotel last evening.

The meeting was called for the purpose of reorganizing the club. This was done and the boys are now ready to turn out and practice and put new life into the team.

The following is a list of those present at the meeting last evening: A. Richardson, W. Wilson, A. Jahnke, B. Northwood, A. Hutchinson, A. Moffat, Geo. Willard, A. Wigley, W. Chrysler, C. Williston, E. B. Fetterly, E. Williston and others.

E. Williston occupied the chair and presided over the election of the following officers:

Hon. Pres.—G. P. Schofield.
President—A. Richardson.
Vice-Pres.—R. Gray.
Sec.—Frank A. Hutchinson.
Capt.—J. W. Wilson.
Executive committee—M. Fraser, A. Jahnke, W. Elliott, W. Jahnke and J. W. Wilson.

The team will hold its first practice next Friday evening on Tecumseh Park, when everybody who has played or will play lacrosse is requested to be on hand.

Lacrosse promises to be the popular game in Chatham this year. The secretary is now communicating with the captains of the Kingsville, Thomesville, Wallaceburg and Dresden teams with a view to forming a lacrosse league.

The Chatham team is now open for challenges from any outside club and would like to arrange for a game at an early date.

AT THE PINES

Delightful Piano Recital by Students at Ursuline Academy Last Evening—Creditable Program.

Delicately decorated with many chaste, beautiful and fragrant flowers—arranged with exquisite taste and alluring abandon—the assembly hall at The Pines presented a most attractive and picturesque appearance on the occasion of the delightful piano recital by the pupils last evening.

The program was an exceedingly brilliant one, evidencing the careful and proficiency training meted out and the proficiency attained by the students. The audience was large and much pleased.

The first number—an instrumental duo, last piano, Miss Sullivan; and piano, Miss Edmondson—was very brilliant. Miss Sullivan, of Troy, N. Y., exhibited a good technique and fine interpretation. Miss Edmondson's contribution was excellent.

On account of illness Miss Maria O'Leary was not able to contribute her part of the program. In place thereof a vocal number was substituted and proved very acceptable. The semi-chorus was "Ring Out, Wild Bells," by Tennyson, and the young ladies are to be complimented on its soulful rendition.

Miss Mary G. Sullivan, of the senior class, performed excellently in her three piano selections, which were much appreciated.

Miss H. Thomas, a junior pupil of exceptional ability, also contributed a triple number, in a most captivating manner.

The splendid work of Miss Mabel Edmondson in her solo numbers was universally admired and brought many eulogies.

Miss Eva Deziel, of the junior class, made a most creditable showing by her excellent work.

The program in its entirety was exceedingly fine, reflecting great credit upon the young ladies who took part and their consecrated and accomplished teacher.

STEEL COMPETITION.

The papers have been for the past few weeks full of exaggerated reports about the dire results of American competition in the British steel trade.

SURPLUSAGE.

European Political Economists of the Protectionist school have always contended that Great Britain has a science of political economy peculiar to herself.

ices on which it is based are strong. As the customers gradually realize that the sacrificed surplus is a better bargain their preferences will grow into prejudices in its favor.

THE WEST DURHAM CASE.

Mr. Thornton's action, says the Toronto World, in declining to ask the court to give him the benefit of the saving clause after corrupt practice had been proved against a man for whose acts he was held to be legally liable.

A SOCIETY PARASITE.

Society people, especially society girls, was the dominant note in a recent lecture by Prof. J. Scott Clark of the Northwestern University at Chicago.

recent lecture by Prof. J. Scott Clark of the Northwestern University at Chicago, says the Toronto News. "The society girl," said the Professor, "is a parasite. She lives on her father and in return she gives him nothing."

While Professor Clark's observations are to a great degree correct, he neglected to speak of that person of greater insignificance and uselessness, called "the society man," whose object in life seems to be to keep the crease in his trousers and the curl in his moustache.

THE NEW VERSION.

Some Canadian papers are anxiously asking what had become of I. William Mulock, who went out to represent Canada at the inaugural ceremonies of the new Australian Commonwealth.

Recently there have been several cases of prominent men suddenly falling a collapse just after eating a hearty meal. These men have all been under treatment for gastric "trouble," and yet the result shows that the treatment they had received had smothered the symptoms but had not retarded the progress of the disease.

There is a real danger in the use of palliatives when there is disease of the stomach and its allied organs of digestion and nutrition. The disease in such cases goes on, while the distressing symptoms alone are stopped.

The use of Dr. Pierce's Golden Medical Discovery results in a radical cure of diseases of the stomach and other organs.

"I will tell you what myself and family think of your medicine," writes Mr. M. M. Ward, of Linwood, Leavenworth Co., Kansas. "It will do all you say and more. I was taken sick nine years ago, got so weak I couldn't lie down, nor hardly sit up."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent for a receipt of one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

S. E. Holmes is busy setting up a new pair of weigh scales on Jos. Hamtram. Mrs. Somerville, Michigan, is visiting with her mother, Mrs. Chas. Martin, for a short time.

BALDOON. A pretty social event took place on Wednesday, June 5th, at 5:30 p. m., at the residence of Mr. and Mrs. J. Rankin, Baldoon, when their only daughter, Miss Mary J. Rankin, was married to Mr. Hugh Montgomery, of Dover.

The ceremony took place on the lawn, which was tastefully decorated for the occasion. The bridal party stood under a flower-trimmed evergreen arch, while Rev. Chas. E. Clarke, assisted by Rev. J. M. McIntock, conducted the impressive service of the Methodist church.

The bride looked charming in a beautiful gown of cream satin trimmed with white and baby ribbon. She wore a wreath of orange blossoms and a veil and carried a large bouquet of white roses.

The bridesmaid was Miss Maria Trotter, of Dover, who looked well in a very pretty costume of white organdie over pink. She carried a bouquet of white and pink carnations.

The bride was ably assisted by Miss Edith Nelson, of Chatham, and like services were rendered the groom by Walter C. Newton, of St. Thomas. Little Bessie Cumming, niece of the bride, made a very pretty maid of honor.

After the ceremony about 45 guests sat down to a bountiful wedding breakfast spread on the lawn. The presents were numerous and costly, showing the high esteem in which the happy couple were held.

Mr. and Mrs. Ferguson took the 11 p. m. train from Chatham for their homes in St. Thomas and showers of rice and the good wishes of hosts of friends.

WEDNESDAY EVENING, June 5th, was the date of a very pretty wedding at the residence of Mr. James Walker, who is one of Dover's most prominent farmers.

The bride was ably assisted by Miss Edith Nelson, of Chatham, and like services were rendered the groom by Walter C. Newton, of St. Thomas. Little Bessie Cumming, niece of the bride, made a very pretty maid of honor.

At 6 p. m. the bride entered the parlors on the arm of her father, and Rev. Mr. Clark tied the knot. After the ceremony the guests sat down to a sumptuous repast, which was fully enjoyed by all.

The presents were numerous, elaborate and all very useful. The guests numbered about fifty, all immediate relatives of the happy couple.

The bride was one of Dover's most highly respected young ladies and a general favorite, being popular for her genial manner and frank disposition.

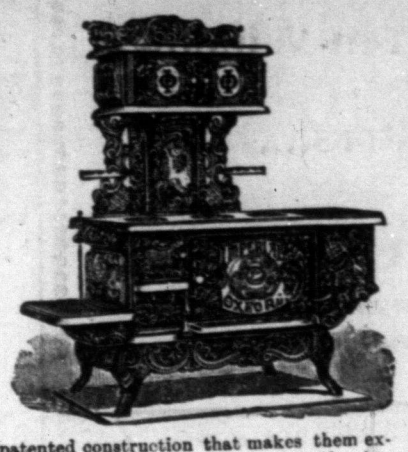

She was very useful in church affairs, officiating as organist for years in the Presbyterian Church, and lately as soprano in the Methodist choir at Baldoon.

Among the guests from a distance might be mentioned Mr. and Mrs. Buist and Miss Shaw, of Chatham; Mr. and Mrs. Wm. Walker, of Haron, Ohio; Mr. and Miss Drummond, Mr. and Mrs. Walker and Mr. and Mrs. Brown, of Wallaceburg.

Regrets at not being able to be present were received from Rev. and Mrs. Bonnie, of Leamington, and Mr. and Mrs. Jas. Walker, Jr., of Sental, Wash.

**MAD MOB MAY
 MASSACRE**

**Wealthy Planter Shot Down by
 Colored Desperado Near
 Shreveport.**
 Whites Corralled all the Blacks on the Farm—overing Darkies are Frantic with Fright as Lynchers Await the Murderer's Capture to Begin Wholesale Slaughter.
 Special to The Planet.

New Orleans, June 13.—A telegram from Shreveport, this morning says: "It looks as though there will be a wholesale lynching of all the prisoners implicated in the murder of John Gray Foster."
 "Several negroes have been taken forcibly from the Bossier city jail. Thirteen negroes are scheduled for lynching, though it may be decided simply to whip the women."

BLOODHOUNDS ON HIS TRAIL.
 Shreveport, La., June 13.—Latest reports from the Foster plantation say a dozen or more frightened negroes are cowering in the Kinnebrew store, surrounded by a big mob, which threatens every moment to lynch the whole party.
 "Prince Edwards, the negro who is charged with having fired the fatal shot, has not yet been apprehended, however, and it is the desire to get him that has restrained the mob thus far. Bloodhounds are being used on his trail."
 The mob includes nearly every man and boy for miles around. Most are armed. Rifles, pistols, shotguns, guns that saw service in the civil war, and even pitchforks, make up the array of weapons.

The imprisoned negroes are frantic with fright. They are "officially" in the hands of the authorities but they realize that their real captors are members of a white mob which has guarded every avenue of escape since yesterday.
 Foster was a young man, well known, a brother-in-law of Gov. McMillen, of Tennessee, and a member of one of the leading families of Louisiana.
 The negroes were placed in the store at 9 o'clock last night, and although some members of the mob went home during the night, every avenue of escape was still doubly guarded, as sunrise to-day. It is said that several times the mob came near throwing off all restraint and lynching the prisoners. Other counsel, advising a delay, until Edwards shall be caught, prevailed, however.

Mrs. Edwards is among those arrested. She had in her possession a shotgun with which her husband is said to have killed Foster. She is quoted as having said:—"Prince told the other men to stand back and he would settle the business. Then he went in front of them and fired and Foster fell."
 Foster plantation is five miles east of this city on the Vicksburg, Shreveport & Pacific railway. Trouble has been brewing for some time between the negroes and the overseers. Foster, thinking he could succeed where the overseers had failed, started for the negro headquarters yesterday. The negroes were gathered in a cabin, and he was some distance away when the shot which killed him was fired. All but Edwards were quickly captured.

Valuable Advice to Rheumatics
 Eat meat sparingly, and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25 cent bottle to-day, test it, and see if this is not so. Polson's Nerviline always cures rheumatism.
 "We were very much pleased with the design you sent. It was beautiful and appropriate." The Victoria Ave. Green Houses receive such words of commendation every day. Telephone No. 181.

LIFE.
 The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run-down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abounding. We are glad to say these words in its favor to the readers of our columns.
 If one can wear old, loose kid gloves while ironing they will save many calloused spots on the hands.

SUGAR

That there is a great difference in the quality of sugar will be readily admitted. Those who have had the misfortune to get low grade Canadian Granulated or the German article will fully appreciate the fact that there is a difference. Besides the fact that the ordinary granulated is not so nice to use, it has not the same sweetening qualities as the "Extra Standard" kind.

What is true of granulated is also true of yellow sugars. Some are much better than others—better flavor, better quality,

In the office of the Waterworks Department this morning the secretary, superintendent and foreman were discussing some of the ways and means adopted by people to do this civic department. Mike O'Mara said that one old couple had been using the city water. Then their married daughter moved into the house across the street and the elderly couple at once had their city water shut off and the married daughter uses city water. Mike thought this looked kind of queer. Supt. Jones said that one neighbor proposed to another that the other should purchase the hose and they would both water their lawns from the proposer's hydrant.

At the regular monthly meeting of Court Pride of Kent, No. 99, Juvenile there was present a good turnout of the boys, when they put through a candidate in good shape. They also transferred a Juvenile member to the adult court in Dover, Court Pride of Dover. The boys have a good membership, and are constantly adding to their number, due to a great interest in the excellent set of officers connected with the branch.

The regular monthly meeting of the Ladies' Aid of Park St. Methodist church, was held on Wednesday afternoon, Mrs. E. W. Scane, President, in the chair. The ladies have decided to have a jubilee tea on Monday, October 21st. Some time ago the society voted \$1,000 towards clearing the church debt. They have paid \$800 and church debt. They have paid \$200 with the proceeds of the Jubilee Tea. The society is a large and prosperous one, the meetings being well attended and full of interest. Miss Peate favored the gathering with a musical selection which was thoroughly enjoyed by all present.

Mr. Adam Birch and his granddaughter, Miss Sarah Birch, of Jackson, Mich., who have been visiting relatives and friends in the city for the past few days, returned home this morning. Mr. Birch is well on to ninety years of age, but is still a comparatively healthy man.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

ST. THOMAS Business COLLEGE

The growth of this institution during the last two years has been wonderful. The attendance has been doubled on account of the thorough course of training which we give. One of our young men is now drawing a salary of \$1,800 a year; another \$200; others from \$400 to \$800. Within the last month two of our students have gone direct from the College to positions paying \$500 a year. WE QUALIFY OUR STUDENTS TO FILL THE BEST POSITIONS.

Young people are foolish to spend the best part of their lives learning Latin, French and the dead languages, when a few months spent in our Commercial or Shorthand Department will fit them to earn salaries like the above.

Eighty-seven per cent of all our students who have written on the examinations of the Business Educators' Association of Canada this year have been successful.

NEW ZEALAND BIRD

ONE WAS AS TALL AS A GIRAFFE AND LAID EGGS LIKE A PUMPKIN.

SKETCH OF EXTINCT GREAT MOA

It Was a Giant Edition of Some of the Curious Wingless Birds That Exist in That Part of the Empire at the Present Day—Some Freaks of Nature.

How would you like to meet a bird as tall as a giraffe, which lay eggs as big as a pumpkin? You can see the image of one at Christchurch, New Zealand.

There are different theories as to how the keas acquired this taste for the finest mutton. They had nothing but berries and insects until sheep were introduced.

The first bones of the moa were discovered about sixty years ago. The bird existed in New Zealand at a very recent period, and within a few years will tell you that their forefathers hunted it.

I like the black swans of New Zealand. They are to be seen in all parts of the island, and you can shoot them anywhere along the lakes. They are even more beautiful than the white swans, their feathers being like black velvet plush as they sail along the waters.

Commandant Krizinger. A trooper of Colonel Goring's, which were five hundred men, and has since succeeded in making his escape, gives the following description of Commandant Krizinger.

He is a short, thick-set man, standing about five feet eight inches. He wears a moustache and habitually speaks in an extraordinarily loud voice.

Western Australia's Premier. Sir John Forrest has tendered his resignation as Premier and Treasurer of Western Australia.

One of the most curious things about the kiwis is the size of its egg. It is almost as big as the bird itself, being of a creamy white color, as smooth and as glossy as ivory.

There is another bird in New Zealand which is quite as curious as the kiwi. This is the kea parrot, which eats sheep, fastening its claws into the wool of the back, and digging out the choice bits of flesh.

A FIERCE BATTLE.

A Fight to the Death Between Deer and Cougar.

A fight to the death between a deer and a cougar was witnessed by two hunters up in the north fork of the Kettle river, in the interior of British Columbia.

The contestants were a large buck and a powerful cougar, and John Sell and A. B. Jones, who were up in the country on a fortnight's shooting trip, say that it was a battle royal.

The hunters ran forward until they were within thirty feet of the now thoroughly enraged animals, but so intent were the latter upon settling their feud that they paid absolutely no attention to the intruders.

The buck had not long to wait for a renewal of the contest, for with a roar of pain and rage the cougar sprang upon him. He was deftly caught upon the antlers of the buck and hurled high in the air.

The buck walked up to his fallen foe, struck him a few times with his feet, and then, after sniffing at him and satisfying himself that the cougar was dead, slowly walked away.

THE CIRCUS HABIT.

INDIANS HAVE THE WILDEST CRAZE FOR THE TENTED SHOWS.

After the Red Men the Negroes Will Go to the Greatest Lengths to See the Performance, and Third Place is Held by Chinamen.

"You may talk about your city circus goers," said the old circus man, "but the Indian, the wild, untutored red man of the plains, has got them all beaten to death. There's no circus goer in the world like the North American aborigine. He will travel farther, endure more privations and skip himself harder to get the price of admission than any other human being in the world. What's more, I believe he really enjoys the circus better than the negro, though he doesn't make any fuss over it.

"The negro, as every circus man knows, will sell the family cook stove to get money to see the elephant, but the Indian will barter off his papoose, his squaw or even his most cherished possession, his horse, to get a ticket. After the negro comes the Chinaman. The Mexicans, too, are not slow in responding to the toot of the calliope. The laziest greaser on the Texas border, who never paid a debt in his life, bolts up promptly on circus day with his 50 cents, though nobody knows where he got it. But the Indian is the greatest circus fiend of all.

"In the west our circus is known among the Indians as 'the heap brothers' show.' It is the only circus that attracts the red man, and he waits for its yearly appearance as confidently as he awaits the return of spring. In Missoula, Mon., one of our regular stands, fully one-half of the audience is made up of Indians. They come from as far as 200 miles on horseback and even on foot, starting on their long journey days before the circus date and arriving promptly on the morning of the day of exhibition.

"On circus day it is a case of every man for himself with the Indians. The lord of the tepee brings enough trinkets in the shape of moccasins and bows and arrows to peddle around town and in the way gets money for his own admission ticket. His squaw brings willow baskets and has to hustle for her own ticket. They generally come in couples astride of a pony, and if the market is overcrowded with Indian relics they will sell the nag.

"When the show trains arrive in these western towns early in the morning 200 and 300 tents have already been pitched by the Indians, some of which have arrived the night before. Their little colony is almost as interesting as the circus itself. It is a veritable bazaar of relics and papoose exhibitions. While the old squaws are getting breakfast the children are playing knickknacks and the chiefs are taking the first ones after the doors of the big tents are opened to land on the blue planks. They fill a good part of the arena, and they never move during the entire performance. Applause is unknown to them. They make as little show of enthusiasm as their brothers in wood in front of the white man's cigar stores. If the trick elephant were to climb the center pole, they would no doubt enjoy the performance, but they would make no more show of surprise than if they were molded from clay. If the performing muffs were to make a hop on the hippodrome track and make a concert announcement in the Indian tongue, they would only grunt.

"After the show is over the chiefs proceed to fill their skins with the white man's firewater, and the squaws with the papooses wait on the lumber piles till the gray streaks begin to sprout over the hills, when the unsteady train winds out of town over the trail.

"Along the Pacific coast the Chinamen are among the firm friends of the circus people. Like the Indians, they are good patrons of this particular show. In San Francisco at least 50,000 Chinamen saw the circus one season. Some of them came in coaches drawn by handsome horses, and they sat in their millions gave matinee parties, the men wearing richly embroidered gowns and the women clad in costly silk not in the form of dresses, but as a man wears his broadcloth. At one matinee given in the California city 8,000 Chinese and fully 2,000 Japs attended. The remaining few of the spectators were Americans. The Chinaman is as undemonstrative as the Indian. He expresses his appreciation of the performance by attending time after time.

"Probably the strangest mixture of people that ever attended a circus was found beneath the tent of our show one day at Tucson, A. T., when Indians, Mexicans, greasers, Japs, negroes, Chinamen and a few American cowboys fairly packed the big canvas arena and sat promiscuously mixed over the blue seats. Though the Chinamen and Indians are undemonstrative, the cowpunchers, Mexicans and negroes made as much noise that day as was ever made at a frontier massacre. The cowboys yelled like a pack of coyotes when Mma. Noble rode the bucking horse, the Mexicans yelled at every act, and the negroes laughed at the clowns till the earth shook. That night the cowboys and greasers turned the town into a shooting gallery, emptying their revolvers at the stars and manifesting their sorrow at the departure of the circus by licking up all the refreshments in the town.

The mother who would be horrified at the thought of letting her daughter wander away to a strange world, yet permits her to enter that unknown land of womanhood without counsel or caution. Then, in utter ignorance, the maiden meets physical problems whose solution will affect her whole future life. Dr. Pierce's Favorite Prescription has been well named a "God-send to women." It corrects irregularities and imparts such vigorous vitality to the delicate womanly organs, as fits them for their important functions. Many a nervous, hysterical, peevish girl has been changed to a happy young woman after the use of "Favorite Prescription" has established the sound health of the organs peculiarly feminine.

A Proper Treatment for Catarrh,

reaches every affected part. Such a remedy is Catarrhose, which is inhaled into all portions of the throat, lungs and nasal passages, where it kills the germs and cures the disease. Catarrhose is pleasant, safe and absolutely sure to cure. It relieves the distressed feeling in the head, clears the throat and nostrils in one breath. Positive proof of cure is found in the words of Mr. Kirk, of Kingston, Ont., who says:—"I suffered for fifteen years from Catarrh of the nose and throat, and pains of rheumatism. I consulted specialists, but was not permanently benefited. Having personally witnessed a cure of thirty years' standing, effected by Catarrhose, I bought an outfit and used it for a month. It cured me and I am now no more liable to catarrh than if I never had it." This is most convincing testimony from one of the best known and most highly respected business men. It proves beyond question that Catarrhose absolutely cures Catarrh. It never fails; never loses its strength. Price, \$1.00, small size 25 cents. Druggists or Polson & Co., Hartford, Conn., U. S.

A STRANGE CASE

A Woman Coughed Up a Spring and her Suspenders.

The case of Mrs. H. T. Smith, who six weeks ago coughed up the snap of a suspender and a week ago coughed up a spring coil, is a most peculiar one and has attracted the attention of medical men.

About five years ago Mrs. Smith, then Miss McHenry, thoughtlessly placed a snap-off a pair of suspenders between her lips. Accidentally the piece of metal slipped down her throat and into her stomach. Physicians declared that the snap would give her no trouble, as it had passed down her throat into the stomach.

In time she experienced trouble in her right bronchia, and was affected exactly as a person suffering from tuberculosis. The difficulty continued, and the afflicted woman was almost continuously under the care of a physician. During the latter part of October, while seized with a severe coughing spell, Mrs. Smith spat out the metal snap minus the brass spring. She improved immediately and has since increased in weight.

A short time ago Mrs. Smith was compelled to cough violently and felt a severe pain in her chest. Almost immediately she spat out the missing spring from the suspender snap. The spring was in the form of a coil about three-eighths of an inch long and an eighth in diameter, with a prong at each end.

Curious Features of Railroad Fatalities. "There is hardly another calling," said a railway official, "so beset with danger and hardship as that of a brakeman on freight or coal trains, although the introduction of safety appliances and auxiliary brakes has greatly reduced the peril, and yet when a brakeman is killed on a railroad there will be a dozen applicants for his place as soon as the news of his death gets around. Every railroad has a small army of those eager applicants for dead men's shoes hanging about its division yards and terminal stations. They are chiefly men who have followed railroading all their lives, and who have in some way lost their places. Railroading is a good deal like politics—a man gets into it once he isn't worth a snap for anything else, and so, if he gets out of it, he is perpetually on the lookout for the opportunity that he believes must come for him to get in again.

"It would naturally seem that the new and inexperienced men who work on railroad trains would be the most likely to get injured, but statistics are to the contrary. They show that the largest average of injuries to trainmen occurs after the employe has been six years in the service, the evidence being that trainmen are careful of themselves up to their third or fourth year, because of fear or lack of confidence. Reading from the testimony of the figures, it would seem that then they regard themselves as being able to ignore more danger, owing to their skill and aliveness. It takes them two years to discover that such is not the case, if we may judge from the percentage of accidents that befall them, which in the sixth year is about 22, as against 9 1/2 per cent in the first year. The trainmen, learning from experience, becomes careful again, and the percentage of men injured after the eighth year is no instance shown to be more than 9 per cent. This would seem to indicate that it takes a trainman five years to forget fear and six years to learn wisdom."

Coughing Bean. To the ordinary household the fainting of a house plant in a violent paroxysm of coughing is a naturally discouraging sight. Yet the art plants which will do this when the broom or the duster begins to make dust fly. This singular plant is the "coughing bean," known to the botanist as the Eutata distensa. It is a native of warm and moist tropical countries, and can not and will not stand dust. When dust settles upon the breathing pores and the leaves of this plant and chokes them a gas accumulates inside the leaves, and when it gains sufficient strength forcibly it "coughs off," clearing the pores of dust and making a sound exactly like coughing. At the same time the leaves tremble and the plant actually "gets red in the face," through the sinking of the green chlorophyll grains and the appearance of red particles on the leaves.

This plant, is sometimes used as a house plant, and sweeping the room sets it coughing, to the intense astonishment of persons not familiar with its peculiarities. There seems to be hardly a natural fruit to the life of some kinds of fishes. There are in the royal aquarium in Russia several carp which are over 600 years old according to Professor Suelco, and he believes that the ordinary carp lives to at least 500 years if not interfered with. Ordinarily goldfish have been known to live for 100 years in the museum in Munich, Germany, is preserved the skeleton of a pike which was caught in 1497. It was nine feet long and weighed 350 pounds. In the gills was fixed a ring bearing this inscription in Greek: "I am the fish which was first of all put into this lake by the governor of the universe, Frederick II., the fifth of October, 1280. The pike was therefore at least 267 years old when caught.

"Mamma," queried five-year-old Harry, as they were returning home from church one Sabbath morning, "why do they play the organ so loud when church is over?" After a few moments' serious thought the little fellow said: "I guess it must be to wake the people up."

Grand Trunk Railway time table changed Sunday, June 10th. Chatham passengers going east for Toronto and points east of that will now leave at 10:32 instead of 9:02 as formerly, and the Eastern Flyer which formerly left here at 3:30 will for the future leave at 5:30, arriving in Toronto at 10 o'clock and Montreal early the following morning. This latter is the popular train which has revolutionized travel in Canada since being put on by the Grand Trunk Railway.

THE WORK OF THE CHURCH

Western Baptist Association now in Session at Florence.

Proceedings of the First Day—Rev. J. J. Ross Delivers a Striking Address.

Special to The Planet. Florence, June 13.—The Western Association of Baptist Churches commenced its fifteenth annual session here yesterday morning, with a large number of delegates in attendance. The first day was devoted to the work of the Woman's Mission Circle of the Association. Devotional exercises were held and a nominating committee appointed during the morning session from eleven to twelve o'clock.

During the afternoon session there was a report of the committee and the election of officers. Following this was an excellent solo by Mrs. S. C. Walker, Chatham. Mrs. W. H. Rodman gave the address of welcome, to which a pleasing reply was given by Mrs. Dewey, of Wheatley. Mrs. J. E. Ostrahan, Chatham, gave a minute and excellent account of "Nineteenth Century Missions." Miss Chamberlain, Wheatley, presented "The Advantages of the Mission Band." A concise synopsis of "Our work of Foreign Stations," was given by Mrs. Dewey, and the meeting was closed by taking of the collection and prayer. The evening session opened with devotional exercises led by Rev. W. H. Rodman, followed by the annual report of the director, Rev. J. J. Ross, of Chatham, gave an address on "The Divine Method of Christian Liberty." This method was shown to be voluntary, self-sacrificing, reciprocal, liberal, reasonable, cheerful, increasing and systematic. The claims of the Holy Spirit were ably presented by Mrs. John Little, Toronto, and Mrs. S. Walker gave a review of the work of Home Mission Stations. The services of this pleasing and profitable day were brought to a close by music by the choir.

W. telegraph office, was in Bothwell on Sunday. A friendly game of lawn tennis has been arranged between Glencoe and Thamesville to take place on Monday next. This will be in addition to the series of games under the league schedule.

FATALLY BURNED

Distressing Accident to a Little Girl Near Ridgetown—Clothes Caught Fire.

Special to The Planet. Ridgetown, June 13.—A bad accident occurred Tuesday about 11 o'clock at Arch McDermid's farm, about two miles south of town. Julia Powell, a home girl, aged thirteen years, was lighting the natural gas to prepare dinner, when her clothing took fire, and before the fire could be put out the little girl was badly burned, all her clothing being burned off to her waist. She died at 9 o'clock Tuesday night. The funeral will take place to-day.

Vice-Pres.—W. Cornish. Sec'y.—Miss M. McColl. Treas.—Miss Hall. Cor. Sec'y.—Miss J. Paxton. Convenors of Committees.—Misses Sarah Robertson, M. Samson and G. Echlin, and Mr. Chas. Doherty. The society will not meet during July and August.

YOUNG HERO

Tom Baxter, a lad of 14 Years, Assisted by Willie Houston, Rescues a Comrade From Drowning.

Yesterday afternoon a number of lads were swimming in the river to the rear of Drader's mill, South Chatham. After dressing, they were running the logs out to the boom, in the middle of the river, in order to reach the boat to cross to the north side, when a log which a young lad, named Vergil Perry was on, rolled, precipitating him into the river, and he was going down a second time, when a companion, Tom Baxter, a son of Wm. R. Baxter, plunged into the river after him, with all his clothes on. He caught the drowning lad by the hair of the head and getting the log steady told him to hang on, as his (Baxter's) clothes were getting heavy on him. He then climbed upon a log, but the log which young Perry was holding on commenced rolling, and the lad was again thrown into the water. Young Baxter, seeing the perilous situation of the boy—under water—plunged in again after him and again brought him to the surface, where, with the assistance of Willie, son of Judge Houston, he landed him safely on the boom. A boat was brought by three boys and Perry was taken to shore in an almost exhausted condition. It was a miraculous escape and were it not for young Baxter's courage in plunging in after him, Perry would doubtless have been drowned. The authorities should recognize the heroism of the lad in a suitable manner.

HUTTON CHOSEN

Editor of The Tilbury News Selected by Liberal Executive as Customs Collector.

Special to The Planet. Tilbury, Ontario, June 13.—The executive Liberal committee of the county of Kent met yesterday in Chatham for the purpose of recommending a person for the position of customs collector in the village of Tilbury. It appears there were many applications, but they eventually narrowed down to two, namely, Henry Richardson and W. A. Hutton, principal of the Public school. The figures were 15 to 12 in favor of Mr. Hutton.

The competition for the position was, as mentioned in yesterday's Planet, quite keen and the Liberal executive, which met in Secretary Thrasher's office, had a busy session. Mr. Hutton, editor of the Tilbury News and principal of the school there, was heartily endorsed by many delegates, but the following of Mr. Richardson and other candidates is said to have been very aggressive. There was apparently no prospect of a harmonious union upon any one name; so the vote in question was taken and the claims of Mr. Richardson and other applicants firmly and sedately put aside.

Mr. Hutton is well and favorably known in the Maple City, where he was for nearly two years engaged upon the staff of the Banner.

ARE CARELESS

Maple City Lawyer Thinks Some of our Business Men Very Much so at Times.

"The carelessness of some business men is remarkable," said a leading lawyer in a talkative mood. "Business men whom you would imagine too cautious to do anything in an indifferent manner, are often the ones to do the most foolish things. I have known men who in their business wouldn't pay the smallest sum without a receipt, buy land, pay for it, and never get a deed of the property. A case in point came to my notice recently in the southern portion of the county, where a man sold 50 acres of land. The purchaser had it four or five years and, now desiring to sell, has to get a deed from the original owner. A similar case occurred in connection with one of the cottages at Eric Beach. A prominent Maple City business man purchased a cottage and never discovered he hadn't a deed until he went to sell the property when he found that the deed was still in possession of the original owner and had never been signed. "These cases arise not so much from carelessness as that the transactions are outside the ordinary work of their everyday pursuits and their business occupies so much time that anything beyond the range of their everyday work easily slips from their mind."

THE MACCABEE MEMORIAL DAY

The Maccabee Memorial Day, Sunday, June 10th, will be observed by Chatham Tent No. 8, in a manner befitting the Order of which we have the honor to be members. The Tent has arranged the following program for the day: The Sir Knights will assemble at the Lodge room at 1:30 p. m., and welcome the visitors from a distance who are going to join with us. At two o'clock the procession will form, headed by the 24th Regiment Band, and march to the cemetery, where the beautiful Ritualistic work for the occasion will be carried out by the officers. After the services are through the lines will reform and march back to the lodge room and disband till 6 p. m., when the Sir Knights will again form and march to the Baptist church, where Rev. J. J. Ross will deliver our annual sermon. Let every Sir Knight be in line and show the citizens what a good turnout the K. O. T. M. can make. G. W. SULLMAN, Record-Keeper. R. O. SPRINGER, Commander.
