CHAPTER VI
In the outer room Winterset, unable to find Lady Mary and supposing her to have joined Lady Bellefontaine, disposed of his guests, then approached the two visitors to pay his respects to the young prince, whom he discovered to be a stripling of seventeen, arrogant looking, but spunky as a girl.

"Say," said Lady Mary wearily. "Shall I tell you why I must be 'victor' and 'Beaucaire' and 'Chateauroux' and 'bary'?"
"Escape from the balliffs for debts for razors and soap," gibed Lord Towbrake.
"No, monsieur. In France I have got a cousin who is a man with a very bad temper at some times and a very good temper at other times."

FLOODS IN CHINA AGGRAVATED

Peking, Oct. 3.—Dikes on the Hoang-Ho or Yellow River, have been broken by floods at two places near Fuchow, in the eastern part of Shantung Province, according to Government reports. The water is flowing in a northeasterly direction and probably will aggravate the situation at Tientsin, where there has been no abatement in the rise of the floods.

DANGER TO SYSTEM UNLESS ACTION IS TAKEN

Ignorance alone can excuse neglect of the health when all indications point to kidney trouble. Be vigorous enough to know that from the hour the kidneys fail to remove the poisons from the blood stream, these poisons are accumulating, ready to cause sickness, pain and suffering.

THE END.

"The villain in, and Molyneux had gone mad."
Mr. Bastion, who had been secretly elbowing his way toward them, joined heads with them. "You may well say 'he is in,' " he exclaimed. "If you want to know where, why, in yonder card room. I saw him through the half open door."
"Thank me for it," rejoined Winterset.
An attendant begged Mr. Nash's pardon, and said that Beaucaire had long since entered the building by a side door. It was supposed to be a trap for the French nobility-making much of Molyneux's ex-barber, who had been got out of the way. "The rascal leaned toward me anxiously," rejoined Winterset.

WHY ARMY IS LIKE A CIRCUS

MEN BACK FROM FRONT POINT OUT CERTAIN SIMILARITIES

Ottawa Oct. 9.—An army in the field has been compared with a circus traveling about the country. The comparison is a rough and ready one but, according to military officers back from the front it suffices to show certain essential features of the fighting force.

One is that a large number of men are needed to look after the transportation and care of equipment, to cook the meals and 'put up' the tents, etc., while the number of actual performers are comparatively few. Many more work outside the ring than in it.

The army has many disadvantages, however, from which the circus does not suffer. It has to build its own railroads, as a rule, run them and keep them in repair, while it must also bring in with it nearly all the food and other supplies that it needs. It must be braced also for a constantly increasing burden of casualties requiring special care and comfort, and in modern war the big guns consume vast quantities of shell daily which must be replaced immediately.

Ever notice the number of men who are engaged to keep the circus in running order? If you have, you may be able better to understand why an army needs thousands of men behind the lines.

"If Canada fails us in October, we must curtail many of our activities."

Sir ARTHUR STANLEY,
Chairman, Executive Committee,
British Red Cross.

It now costs \$300,000.00 a week to carry on the work of the British Red Cross, or \$16,000,000.00 a year.

Last year Canada's magnificent contribution paid for the entire work of the British Red Cross for nearly seven weeks.

This year, in view of the greater need, it is earnestly and confidently hoped that Canada's contributions will be as great proportionately as the magnificent offering of last year.

Our trust is, that the Citizens of Canada will give generously to this noble cause on—
