BRITISH FORCES MEET WITH SUCCESS IN GERMAN E. AFRICA

Roumanian Troops Form New Line and Give Battle to the Invaders

ENTENTE FORCES PREPARE TO LAND TROOPS IN ATHENS TO-DAY

Ultimatum for Surrender of War Supplies Expires To-day - Greek Government Takes Back Control of Post Offices and Telegraphs.

Athens, Nov. 30.—The Entente Allies are ready to begin the debarkation of troops at Piraeus, the port of Athens. The Greek Government has retaken control of the post-offices and telegraph lines in Athens, expelling the French control officers.

According to an Entente diplomat King Constantine has given assurances to Admiral Du Fournet, commander of the Anglo-French fleet in the Mediterranean, that order will be maintained Friday, the date of the expiration of the Admiral's ultimatum for the surrender of the Greek artillery. The diplomat also says that on the other hand Admiral Du Fournet has promised that the measures he will take to induce compliance with his demand will not include forcible seizure of arms.

Russians Meet With Success On Roumanian Front—Bucharest Prepares for a Heavy Siege.

Petrograd, Dec. 1.—Via London 2.11 p.m.—The Russian offensive has been successful along the whole Roumanian frontier south of Kiritibaba, says the official statement issued to-day by the Russian war department. In spite of violent German counter-attacks, the statement adds, the Russians occupied the whole range of heights.

London, Dec. 1.—The Exchange Telegraph Company says it has received information from Zurich by way of Rome, that the Roumanian military authorities are making preparations for a desperate defense of Bucharest. The civilian population is said to have evacuated the city and the government officials have retired to a town on the Russian frontier. (This probably refers to the Roumanian town of Jassy, to which the government officials and diplomatic corps were said several days ago to have gone.)

SUBMARINE A SHARP WEAPON

In Germany's Hands, and She Declines to Be Deprived of It.

Christiania, Norway, Dec. 1.—via London.—The Dagbladet today publishes an interview with Herr Michelsen, German minister to Norway, outlining Germany's point of view on the submarine controversy with Norway. The minister says in part: "Germany cannot tolerate any special treatment of war and merchant submarines by neutrals. Norway is the sole neutral, which by special instructions has conveyed the impression of adopting the view of the Entente."

ROUMANIANS ON NEW BATTLE LINE OPPOSE INVADING TEUTONS

Serbs Repulse Teuton Attack German-Bulgar Forces Driven Back With Heavy Losses.

Paris, Dec. 1.—11.45 a.m.—A violent counter-attack was made by German and Bulgarian troops on Wednesday on the Macedonian front near Grunishite, east of the Cerna River bend. The war office announces that the Serbians succeeded in retaining all their positions except one trench.

The text of the war office announcement follows: "There took place Wednesday to the northwest of Grunishite two violent counter-attacks on the part of the Germano-Bulgarian forces against the positions conquered previously by the Serbian army. These heavy losses for the enemy, but at certain points the enemy was successful in regaining his footing in certain trenches, which he had lost. "Yesterday bad weather prevented any important operations. Prell had been bombarded by our aviators."

Desperate Fighting Occurs North of Bucharest—Russian Forces Attacking Falkenhayn's Troops Meet With Success

London, Nov. 30.—The Roumanian troops have taken a stand along the Glavatzotzu River, south of Bucharest. The War Office to-day reports violent fighting on this front. The forces of Field Marshal von Mackensen are thus almost within shelling distance of the southern forts which protect the capital. Driving along the railroad leading north from Giurgiu, von Mackensen captured the town of Tsomana, 16 miles south of Bucharest, and a few hours later came in touch with the defending armies.

Meanwhile the army of General von Falkenhayn is keeping up its pressure against the Roumanians west and north-west of the capital, in the centre having forced the Roumanians to fall back to within 37 miles of Bucharest. But here also the Roumanians have decided to give battle and are vigorously opposing a further advance.

Vienna, Nov. 30, via London, Dec. 1.—The Russians are attacking incessantly and in great force along the eastern Transylvania front in an effort to relieve the Roumanians, according to an official statement issued by the war office. The text of the statement is as follows: "Between the Uzul valley and Tartar Pass the Russians continue their attacks for the relief of the harassed Roumanians, using great masses of men. The armies of General Arz and Koevess, on almost their whole front, were day and night struggling stubbornly against constant enemy attacks. At several points there was hand-to-hand fighting. The Russian onslaught failed with slight local successes which cannot alter the fact that the enemy's great sacrifices were again yesterday in vain. The battle continues."

CONSUL AND OTHER GERMAN DIPLOMATS FACE BIG TRIAL

Are Arraigned in San Francisco on the Charge of Bomb Conspiracy to Dynamite Bridges, Tunnels and Stations in Canada.

San Francisco, Cal., Dec. 1.—Subpoenaing of witnesses for the trial of Franz Bopp, German consul-general at San Francisco, and four members of his official family, charged with breaches of neutrality in aid with breaches of a bomb conspiracy, was begun to-day. United States district attorney Preston said about 250 men and women would be summoned by the government in the case, which is set for next Monday.

The names of witnesses were not announced, but Mr. Preston said some of them would come from as far as New York. "Our case," he declared, "is complete." "Immunely," he said, would not be given to Johannes Van Koolbergen, the so-called "double spy." "If Van Koolbergen appears," he said, "it will be as a defendant and not as a witness."

Louis J. Smith, alleged to have been in the employ of the German officials, has been granted immunity, although he is named in the indictment. Preston said the government would ask for dismissal of the charges against him and that he would be the government's star witness.

In addition to Bopp, those to be tried are E. H. Von Schack, German vice-consul; William Von Bricken, attaché; Chas. C. Crowley, detective for the German consulate, and Mrs. Margaret W. Cornell, Crowley's secretary.

It is alleged by the government that Van Koolbergen was employed by German officials to dynamite bridges, tunnels and stations in Canada. The German officials deny this allegation, holding that the man was a British spy. Van Koolbergen recently was released from prison in Alberta, Canada, where he served a sentence for forgery. The government cannot force him to come to this country, as the charge against him is not extraditable.

Conspicuous Success For British Aim in East Africa

Main Body of Western German Forces Repulsed in Attack on British Port—Half of It Being Captured--Huns Driven Over Ruhuote River.

London, Dec. 1.—(12.10 p.m.)—Conspicuous success has been gained by the British in their campaign against the Germans in German East Africa, the war office announced to-day. On October 19 a strong German force commanded by Major General Wahle, dislodged from Tabora, (in the central part of the colony) came in contact with the British south of Iringa, the statement says. "Simultaneously the enemy in the Mahonge area took the offensive against the British on the Ruhudje River with the evident intention of assisting the western German force to penetrate the British cordon and form a junction with the main German force. The attempt to break through was repulsed near Aeuringa and the British gained a conspicuous success on the Ruhudje River, driving the enemy over the river with the loss of 200 killed, 82 prisoners and booty.

"The main body of the western German force divided into two parts. One invested the British post at Lupembe and was driven off. The remaining force was isolated in the Illembule mission station and forced to surrender, about 500 strong on November 26. A howitzer, ammunition and three machine guns were included in the booty. The remnants of Major General Wahle's forces having lost the bulk of its artillery and machine guns and suffering probably over fifty per cent. of casualties, is making eastwards for Mahenge."

Another member of the 84th Battalion seriously wounded and at present confined in a hospital is Pte. James Trebble, of Echo Place, whose condition is reported as being very critical. He is of English nationality, 25 years of age, and unmarried. He was employed formerly at the Starch Works.

MAKES THE SUPREME SACRIFICE

Pte. Jack Brendon Killed at the front.

His Brave Deed During the Boer War.

Miss Brendon, 156 Brant avenue, received a telegram from the militia department at Ottawa, conveying the sad intelligence that her brother, Jack Brendon, had been killed on Nov. 18th.

The deceased was a lieutenant in the Dufferin Rifles but went out west in order to get to the front enlisted there as a private. He also demonstrated his patriotism at the time of the Boer war and went all through that struggle without sustaining any injury. During that struggle there was one occasion when it became necessary to send someone over a heavy fire zone. Two men attempted the task and were both shot down. Brendon was the next volunteer and he made the journey there and back in safety. This was certainly a supreme test after seeing two of his comrades killed on a like mission. "Jack" was never told the story himself; it was never told by Mr. T. F. Best, the M. C. A. secretary with the Canadian forces.

He was the eldest son of the late Mr. and Mrs. H. M. Brendon, who during his absence on overseas service, passed away within a few days of each other.

Another sister is Mrs. Newman, now in England to be near her husband, Major Newman, who is at the 12th. Another brother is at the front and one Jasper at home.

The dead hero was a young man of many likeable qualities and possessed a most fearless disposition.

Much sympathy will be extended the bereaved.

Pte. G. Caswell
Pte. G. Caswell, of this city was reported in the official casualty list this morning as killed. He was formerly a member of the 14th battalion, having been drafted to the front, where he was wounded previously in October. He is an American, married, and resides at 102 Marlboro street.

Pte. R. Pearce
The name of Pte. R. R. Pearce, of this city was given this morning as dead of wounds. Word of his death had already been received in the city.

Pte. F. Plumer
Word was received yesterday by Mrs. Plumer of Echo Place that her son, Pte. F. Plumer, formerly of the 84th battalion, was seriously wounded in the face, and at present confined in a hospital. Pte. Plumer enlisted here in the summer of 1915.

Pte. T. Howland
The sad intelligence was received this morning by Mrs. Margaret Rowland, that her son, Pte. Thos. Rowland, formerly of the 84th battalion, had died of wounds in No. 4 General Hospital, Rouen, France. Pte. Rowland was only yesterday reported wounded. His home was at 163 Rawdon street, and he was formerly employed at the Massey, Harris plant. Sorrow weighs heavily upon the Rowland household, for two of his sons are in khaki at the front. George Rowland, a brother of Pte. Thos., is at present ill in England. He is with the 12th battalion.

Pte. A. C. Hallinger
Pte. Albert Charles Ballinger, infantry, has been officially reported admitted to the Queen Mary Military Hospital, at Whitley, on November 26. This was the word received by his mother, Mrs. Agnes A. Ballinger, 34 Erie avenue. The nature of Pte. Ballinger's wounds was not made known.

Pte. M. Smiley
Mrs. Smiley, Tutela P. O. received a telegram stating that her son, Pte. Marshal Smiley, who left here with the 84th Battalion, had been admitted to No. 3 General Hospital, at Boulogne, on November 21. His injuries according to the message, are wounds in the back and side.

Pte. JAS TREBBLE
Another member of the 84th Battalion seriously wounded and at present confined in a hospital is Pte. James Trebble, of Echo Place, whose condition is reported as being very critical. He is of English nationality, 25 years of age, and unmarried. He was employed formerly at the Starch Works.

Entente Forces

(Continued from Page One) at Syro. The families of the consul were also deported. London, Dec. 1.—3:05 p.m.—In view of the definite refusal of the Greek Government to deliver the arms demanded by the Entente allies and the threat of Vice Admiral Du Fournet, commander of the allied squadron, to take action to-day unless his demand was acceded to, news from Greece is awaited anxiously. Cable messages despatched from Athens late yesterday afternoon showed that preparations were being made to resist seizure of arms, and also that a French transport had arrived at Piraeus to land troops if trouble should develop. British blue jackets were ordered to co-operate, and the Admiral gave warning that prominent persons taking part in any resistance would be arrested. The Greek Government has given guarantees that order will be maintained, but it is feared the calling up of reservists will have the opposite effect. Admiral Du Fournet insisted that 64 mountain guns be delivered today. Further time has been given for the delivery of other guns and war material. An Evening News despatch filed at Athens at 1:45 o'clock this morning says further reports have been received of forces marching south from Thessaly and other sections of Greece north of Athens. The garrison of Chalcis is marching with rifles toward Schmatari. The despatch says a minor disturbance occurred last night. A few revolvers were fired. No one was injured. Just before the time of the filing of the despatch King Constantine notified the Entente ministers of his definite refusal to hand over the guns.

REVIEWED TROOPS.

Toronto, Dec. 1.—The Duke of Devonshire reviewed the troops at the exhibition camp this morning. There were two brigades, (six battalions, more or less complete) of infantry, four batteries of artillery and a cyclist corps of three hundred, in all six thousand men. When the troops paid their respects to their government-general at the command "eyes right," as they marched by the saluting base, they looked upon a new figure. It was not the khaki-clad figure of a royal-blooded duke, but a civilian peer, who although by virtue of his office is commander-in-chief of the Canadian overseas forces, was dressed in a frock suit and silk topper. The Duke expressed himself as highly pleased with the men's appearance.

NATION WELCOMES FRESH BLOOD TO THE ADMIRALTY

Balfour Has Determined to Surround Himself With New Body of Expert Advisers Who Will View Problems of War With Fresh Vision.

By Courier Leased Wire. London, Dec. 1.—(New York Times cable)—The appointments of Admiral Sir John Jellicoe as first sea lord and vice Admiral Sir David Beatty to command the grand fleet drew this comment from The Daily Telegraph: "The whole nation will welcome the decision to bring fresh blood to the Admiralty board. It has been only too apparent that the department needed strengthening and new men needed strengthening from the sea. The Admiralty had exhibited for some time a lack of vigor which occasionally natural uneasiness on the part of the public, which was conscious of the most serious of war command, the time had come for an infusion of sea air. We assume that with the advent of Admiral Jellicoe, other changes will now be made and at an early date the nation will learn that Mr. Balfour has determined to surround himself with a new body of expert advisers, who will view the problems which the war at sea has brought into prominence." The Daily Chronicle's naval correspondent says: "There has been a certain sense of disquiet in the country at a sort of quiescence that seemed to have settled upon the Admiralty. The extension of the German submarine campaign to distant waters called obviously for new dispositions. The Admiralty board had not answered the expectations of the country and the Admiralty was supposed to be the obstacle that resisted development. What the Admiralty had asked for was a sufficiency of machines of the type required for its duties. For the solution of these and other problems Admiral Jellicoe has had unrivalled experience." Speaking of Jellicoe, The Chronicle says: "There are obvious advantages in bringing to headquarters a man who has held a great war command. The case is somewhat paralleled to the transference of General Sir William Robertson and his colleagues from the French front to the war office, for though Robertson had not been in command and had been at the centre of the machinery of actual warfare, Jellicoe deservedly inspires great confidence both among specialists and among the public. His twenty-eight months' command of the Grand Fleet has beyond question been a most masterly performance."

BULGARIA NOW MAKES CHARGES

That Apex of Treachery Accuses Roumania of Breach of Faith

Berlin, Dec. 1.—(By Sayville wireless)—"A despatch from Sofia says that Premier Radoslavoff has made sensational disclosures in the Bulgarian parliament," says the Overseas Agency. "The Roumanian Government in 1915 at the beginning of the war between Bulgaria and Serbia declared it would remain neutral until the end of the European war. But it was soon evident Roumania had changed its mind. Toward the end of August, the Roumanian minister to Bulgaria, G. C. Darnesi, who had been sent from Sofia returned and spread the report that the Roumanian Government in order to further good relations with Bulgaria, was ready to give back Dobruja. If Bulgaria would observe neutrality in case of war between Austria-Hungary and Roumania. The Bulgarian Government was not deceived by this treacherous behaviour. Premier Radoslavoff refused to grant an audience to the Roumanian minister. Speaking of the expulsion of the ministers of the Central Powers from Athens by the French vice-admiral Du Fournet, Premier Radoslavoff said good relations continued with the lawful government of King Constantine. The Greek Government, he said, had no power to prevent this violation of international law. Premier Radoslavoff expressed the hope that in a short time the (Teutonic) allied governments would communicate good news to their parliaments, which would be applauded by all the allied nations. WITNESS AGAINST BROTHER. Buffalo, Dec. 1.—The announcement that Miss Grace J. Teipel would appear today as a witness in the trial of her brother, John Edward Teipel, alleged murderer of a large crowd to the court in city hall, With the exception of the accused brother, Miss Teipel is the only surviving member of the automobile party murdered on the night of January 30. She was terribly beaten about the head and for several weeks her life hung in the balance. Her injuries, it is said, blotted out memory of events on the scene of the murder. Sheriff Edward Stengel gave her important evidence for the prosecution Wednesday afternoon, which recalled today for cross-examination. Sheriff Stengel testified that Teipel's car which was on the highway at the time the murders were committed was proceeding in the next morning merely by inserting a magnet brush. He also told of his denial of ownership of the revolver found near the murder car and his later acknowledgment that it was his property.

Reading—Miss Della Riley. Song—Mr. Farnsworth. Reading—Miss Pearl Fyle. Song—Mr. Jago. At the conclusion of the program refreshments were served by the teachers to those who participated in the entertainment of the evening. The success of the undertaking was largely due to the efforts of Miss R. C. Fyle, the principal of the school, and Messrs. Geo. Lawton and William Harris, the chairman and secretary of the school board respectively.

OPPOSED BY SOCIALISTS

London, Dec. 1.—The first clause of the German home army bill as adopted by the main committee, has passed its second reading in the Reichstag according to a Berlin despatch to Reuters by way of Amsterdam. All amendments were rejected. The Socialists and Labour members voted in the negative.

FLOODS IN SPAIN.

Madrid, Spain, Nov. 30.—Via London, Dec. 1.—Serious floods are ravaging eastern Spain, particularly the province of Valencia. The railways have collapsed and the people took refuge on roofs and church steeples. Communications have been cut at various places and covered the whole country side. At Murcia the waters are still rising. Thousands of families have been reduced to beggary.

STEAMER DAMAGED

Kingston, Ont., Dec. 1.—Standard Oil barge 32, which broke away from her tug in a big gale a week ago and went aground near Grenadier Island, while on her maiden trip to New York, has been released. Her bottom is badly torn and she has been taken for repairs.

ALL QUIET

Berlin, Dec. 1.—(Via Sayville)—The army headquarters statement of today, contains the following regarding the western front: "There have been no important events."

NO CHANGE

Paris, Dec. 1.—Today's official report says there was no change during the night in the situation on the front in Paris.

Mrs. Johanna Christensen was knocked down and seriously injured by an automobile coal truck in New York while trying to save the life of her four-year old son who had got in the way of the truck. The child was killed, and the mother's condition is critical.

Recruiting For 215th

General optimism was expressed by all the officers of the 215th battalion this morning in regard to the recruiting situation in the three counties. Since active steps have been taken to increase the supply of recruits, results have been encouraging those in charge of the work to double their efforts. For the past two or three weeks, a daily average of from three to four men, who have signified their intention of enlisting, has been the rule, and while some of these have been unable to meet the requirements, the strength of the battalion has been materially increased. The date of the organization meeting to be held in Paris has been finally set for next Monday night when in some way with every eligible man in town. Lt.-Col. Morris has expressed his intention of attending the meeting, and it is likely that some substantial result will be arrived at.

Classified Advertising PAYS

The waste paper basket in some offices is emptied once a day, sometimes twice a day. Besides scraps of paper and envelopes it usually contains many circulars addressed to the man who seldom opens them. Thousands of dollars are wasted by circular publicity. There is no surer method of reaching the people you want than through the CLASSIFIED COLUMNS OF THE COURIER. There is no waste publicity in CLASSIFIED ADVERTISING. You can reach a greater number of possible buyers at a cost far below that of sending circulars, and the only time needed is to write your copy. Eliminate office basket waste and turn your money into CLASSIFIED ADVERTISING.

THE SITUATION. Mackensen's army is now only fourteen miles from the Roumanian capital. All reports agree that King Ferdinand's troops in falling back have done so in good order, and with such skill that their losses have been comparatively light.

The allies continue to be the aggressors on the Macedonian front, with satisfactory results. A crisis has been reached in Greece and the time of the ultimatum having expired without the handing over of the artillery, the seizure of Athens is regarded as likely to be the next step in order.

THE QUIETUS FOR THE NICKEL AGITATORS. The Courier has more than once referred to the men and the papers who have been trying to make political capital out of the nickel question as in diabolical and dirty work.

After Hon. Mr. Meighen made a speech in Toronto, which completely knocked the under-pinning from these political apostates, the Toronto Star (Liberal) was frank enough to say editorially:—

"While it seemed impossible to suppose that our nickel was being turned over to neutrals who would let our enemies procure their share of it, yet it was quite necessary to demand assurances that the obvious duty of keeping our nickel away from the enemy was being efficiently performed."

"There have been those, however, who have made of the nickel question nothing but a partisan issue. It is a subject that easily lends itself to the purposes of men who merely agitate. It is so charged with high explosives as to tempt the political sensationalist to throw it at the other party. There was, of course, always the danger that like a bomb with a short fuse, it would explode in the hands of the thrower."

"The popular interest as regards nickel is an honest interest arising in a desire to know for sure that no bonehead play is being made by our Governments and that the best course is being followed that the situation and the war interests of the Allies presents."

"The explanation of the whole situation as given in a speech by Hon. Arthur Meighen will probably satisfy most people whose interest in the matter is not partisan that the Federal Government has been in full consultation with the Imperial Government in regard to the nickel policy followed during the war—that the policy followed is, in fact, Britain's policy which the Administration assists in applying."

first of the arrangements made by your Government for refined nickel to American plants. It is recognized by his Majesty's Government that it would be impossible and indeed manifestly injurious in the conduct of the war to prohibit the export of Canadian nickel matte, and they have concurred in the method of supervision now being adopted, which seems to them to be the best practical method.

"Mertons have eliminated the enemy holding in the company with the approval of the Board of Trade. His Majesty's Government therefore utilized the services of this company, which have assisted in securing Government control of metals. Such control, owing to pre-war conditions, could hardly have been secured without their help."

NOTES AND COMMENTS. The weather has apparently gone on the Indian list. A Pittsburg judge recently rendered a protest against severe cross-examination methods. The "Answer me yes, or no, sir," is the biggest bugbear to most witnesses.

Wesley Church Holds Banquet

A very successful affair was the banquet tendered the members of the "Big 16" class of Wesley Sunday School, by Mr. and Mrs. G. A. Ward, in the school room last evening. A hike into the country occupied the earlier part of the evening, the boys returning about 9 o'clock and sitting down to well laden tables, tastefully decorated. Some 30 of the 32 members of the class were present. The age of the members averages 15 years, and in point of size, and for the age, the organization is said to be the largest on record. At the conclusion of the feast, Mrs. J. Jewell entertained the boys by conducting a guessing contest, the prize in the competition going to Master Stuart Lavery. The pastor of the church, Rev. D. E. Martin, gave a very interesting and practical talk on the subject "If I were a boy again," which was much appreciated. Rev. D. E. News From Terrace Hill

(From our own correspondent) It is with regret that many friends will learn that Mr. Gordon Showler, at the Brant Sanitarium, is seriously ill.

Last Sunday special services were held in the Sydenham street Methodist church, there being a general exchange of all pastors in the district. The Rev. Jos. Wells, of Paris, preached in the morning and Rev. Mr. Brandon of St. George in the evening. This is the second Sunday of a missionary campaign extending over three weeks.

Mr. Fred J. Cunningham, now of Hamilton, paid a short visit to his parents on Sydenham St., a few days ago.

Mr. W. W. Ellis, assistant Inspector of Division Courts Dept., Parliament Buildings, Toronto, was the guest of Rev. E. Soffley on Monday last.

The Terrace Hill Social and Industrial Club met on Tuesday after-

noon last at the home of Mrs. H. J. Ayres, Dundas street. This organization is doing a good work for our wounded soldiers and sailors in connection with the Red Cross. A pleasant afternoon was spent in making articles for hospital use, after which tea was served by the hostess, Mrs. Ayres. Miss Poppy Atkinson, who has been in the hospital in, we are glad to learn, improving. The people of Terrace Hill are awaiting with interest, the report of the Railway Commission on the St. Paul's Avenue Subway question. As indicated by the Mayor's statement to the City Council recently, St. Paul's Avenue is, in fact, the only perfectly safe way of reaching the Hill, and it is a pity it was ever closed. New cement steps have been built from the terrace of the hospital, down the side of the hill to St. Paul's Avenue. They meet a long felt want.

LADY SCOTT IS DOING WAR WORK

Widow of South Pole Explorer Finds Lots to do in Munition Factory.

Lady Scott, widow of Captain Scott, the British naval officer who lost his life while returning from the south pole, is now one of the thousands of British women who are working in the munitions factories of England, to keep the armies at the front supplied with ammunition and other war necessities. The story, issued by the Official Press Bureau in London, contains the following:
 "I confess the change to such unfamiliar conditions made an adventure of which, contrary to my expectations, the seat did not wane. Partly, I suppose, because I made friends; they came and stayed with me, I stayed with them; they were new to me as I was to them; but we liked each other. There was a jolliness about it all—arriving with daylight into a warm room among friendly faces and in the evening hurrying each other up to get ready so that friends could walk home in company.
 "In short, there was real comradeship, and the personal lives of my friends because of great importance to me. Beyond all this there was absolute freedom from the unrest which is a characteristic disease of this time. The munition worker, is under orders, doing her piece of assigned work."
 There is no time to be anxious, to fret for news, to feel the days drag heavily. One gets home, eats, sleeps like a tired animal, and awakes afresh, ready to go again. Looking back on it I would not for anything be without the experience, and I honestly believe that no one who volunteers will regret the choice. "Earning money, too, will be for many an adventure and not an unpleasant one. Men have told me more than their shillings drawn at the pay table. Women have the advantage of the soldiers, because what the munition worker learns is very appreciable. You go for six weeks to one of the schools established by the Ministry of Munitions and then you can go into a factory and start at \$5 a week, earned by making what your country urgently requires; and you feel good about it.
 "But above all, you will escape the spectating girl or woman when she asks herself whether it is right or fair or decent that she should be having a good time suffering what folk are facing and doing, that we hear of—and much, too, that we

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well, what a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.
 Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instating a large volume of water from the drug store. This previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal, before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity, and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and betting ready for a thorough flushing of all the inside organs.
 The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.
 do not. It is no small moral comfort in these days to feel yourself clear of the disgrace of leisure."

Belgian Consul Speaks Against Deportation of His Countrymen.

New York, Dec. 1.—Pierre Mail, the Belgian Consul in New York, made public last night the following cable message from Carton de Wiart, Belgian Minister of Justice, at Havre, France:
 "According to the last information received here more than 100,000 Belgian workmen have already been thrown out of their homes and taken into slavery in unknown places. The mothers, wives and children who want to retain them are driven back by the Germans and are torn with despair.
 "The Belgian Government has just sent bread, through the Swiss Government, to 10,000 of these unfortunate actually kept together in Soltau Camp, and the Germans are breaking them with a starving system to try to get them to sign work contracts.
 "What do the American people, whose Belgian relief work is put into serious danger, think about this?"
 "What would the great soul of Abraham Lincoln have thought about it?"

On Charge of Aiding British Messenger to Conceal Mail.

Berlin, Dec. 1.—A semi-official announcement issued yesterday says Dutch packet steamer Koninck Regentes, which was taken into Zeebrugge recently by a German submarine, will be released. The announcement adds that the mail matter carried by the vessel will be detained and examined for contraband, such as currency and negotiable securities. This investigation will determine whether the mails will be forwarded to their destinations.
 Three members of the crew, says the announcement, will probably face an investigation by a court martial on a charge of assisting a British courier to endeavor to conceal his mail pouch. The German government considers that there was sufficient justification for taking the Koninck Regentes into port on the suspicion that she was carrying contraband and because of the use of her wireless after she was halted, and that she might be brought into the prize court as a result of the conduct of her crew.
 The announcement concludes with the statement that the release of the vessel is granted in favor of the crew.
 The incident probably will result in diplomatic representations because Dutch torpedo boats, which had been summoned by wireless, tried to prevent the German submarine from capturing the steamer.

STEAMER SUNK

London, Dec. 1.—12.25 p.m.—Lloyds reports the sinking of the British Steamship Reapwell.
 A large German submarine on Tuesday afternoon made an attack without warning, according to Lloyds, on the British fishing fleet. Two trawlers were sunk by gunfire and bombs, and another was disabled. The masters and crews were saved. The submarine is reported to have fired on the boats after the trawlers were abandoned.
 The Reapwell, 5,417 tons gross, was built in 1900 at West Hartlepool and owned by the Reapwell Steamship Company of London.

THINK OF SELVES FIRST, SAY HUNS

In Answer to Swiss Protest on Deportation of Belgians.

Berlin, Dec. 1.—Commenting on the representations made by Switzerland regarding the deportation of Belgian laborers, The Cologne Gazette says:
 "We cannot govern our policy by unfavorable impressions of neutrals. Our military security and interests of the Belgian population demands removal of Belgian workmen to Germany. Until the reasons leading to the adoption of the measure are changed, it cannot be revoked. No matter what the impression the incident may give, our security comes first."

Wear Those Comfortable Old Shoes This Winter

And Show Your Patriotism and Thrift—Inexpensive Rubbers or Overshoes Will Protect Your Feet

The spectacular rise in leather prices has a significance far beyond its painful effect on our personal expenses—it is becoming a serious matter for the Government and our soldiers at the Front.

The war is using up leather much faster than it is being produced. The reserve, particularly of high-grade leather, is steadily diminishing. If the soldiers are to have plenty for shoes and equipment, and if the Government is to be able to procure it at prices within reason, civilians must economize on it to the limit.

This is the reason well-worn shoes are no longer a discredit, but an honor—an evidence that the wearer puts patriotism before pride, thrift before vanity.

Fortunately the prevailing low prices of rubbers and overshoes make this practicable. In most cases they cost little more than before the war, and a very small expenditure for either will protect the old shoes perfectly through the winter, keep the feet dry and comfortable, and guard the wearer's health. Many are following the sensible course of getting a pair of rubbers or overshoes to exactly fit each pair of shoes, for rubbers that conform closely to the shoes they cover wear much longer as well as look neater.

This is one of the rare cases where virtue brings its own reward, for in addition to the very considerable money saving, what is there that affords such solid comfort as a well-worn pair of shoes?

Saving Shoe-Leather Is a Public Service as Well as a Private Economy

Gen. Turner to Command Canadian Forces in England

Selected as Qualified by Experience to Prepare Troops for Conditions at Front.

Ottawa, Nov. 30.—The appointment of Brig.-Gen. Turner to command of the Canadian forces in England is the first step in the general reorganization planned by Sir George Perley as Minister of Overseas Forces in connection with the administration of the forces in England. Gen. Turner will exercise a military supervision of all the forces in England, and will act as chief military adviser to the Minister. His appointment is in accord with Sir George Perley's desire to have this office occupied by an officer of high rank and of experience at the front. Gen. Turner, V.C., D.S.O., C.B., has rendered valuable service at the front as commander of the second general division, and his work has won him high military honors. Sir George Perley has selected him with a view to placing the Canadian troops in England under the command of a man qualified by actual experience to prepare them for conditions at the front. Other appointments it is understood here, are pending.

ELECTRIC SIGNS BANNED IN BERLIN

And Early Closing Hours are Enforced for Economy by German Govt.

By Courier Leased Wire. Berlin, Dec. 1.—via London.—Prohibition of the use of electric signs and other forms of illuminated advertising, restriction of lighting for show windows and the interior of shops, limitation of street railway and elevated traffic and an early closing ordinance for business establishments, restaurants, hotels, theatres, and moving picture shows are in prospect as parts of the campaign to reduce the consumption of fuel and employment of labor to which the government is now energetically bending its attention. These measures have been discussed by the ministry of the interior and representatives of the federated states and according to the afternoon papers have been approved in principle. The lighting of show windows will be permitted only so far as it serves for interior lighting, which will be restricted to half the usual amount in some cases. Although no definite decision has been reached regarding hours of closing, it is probable that business establishments other than groceries, butcher shops and other food distributors, will be closed at 7 p.m., and theatres and restaurants at 10 p.m. The people will be urged to restrict lighting in their homes.

Huns Take Lion's Share, Leaving One Third for Those Who grow Them

Montreal, Dec. 1.—Deprived of all means of livelihood, their factories closed, their shops empty and their cattle driven away to a foreign land or slaughtered to feed a foreign army, a new scourge has now been visited upon the people of Belgium, who are behind in the territory occupied by German troops.

Word has reached here that after having worked diligently all summer an effort to raise crops that would help tide over the winter and allay a bit of the starvation that is the lot of the people of Belgium has now failed. That one third of the crops is sufficient for the people who raised them and the balance must go to feed their conquerors. The effort seems to have been only through the efforts of Mr. Herbert Hoover, the American, who is heading the neutral committee of the Belgian Relief Committee, that this concession was obtained. Mr. Hoover has worked indefatigably in the interests of the Belgians for the past two years, giving his time, money and energy and receiving not a cent for his efforts. He is a shining example to those of the allied nations who are in a position to help their deserving cause—the cause that is endeavoring to save millions of helpless men, cripples, women and helplessly children from death by starvation.

The third of the crops which Mr. Hoover succeeded in diverting from the Germans to the rightful owners will assist in the food situation but under normal conditions Belgium is obliged to import foodstuffs, and the Belgians now obtain during the coming winter are likely to be as serious—more serious, in some ways—as in the past two winters. The problems now facing the Belgians, in addition to the providing of food to keep starvation away, is the providing of food of such quality that it will build up the wasted tissues and repair the broken health of the thousands who have been declining in their state of health through months of under-feeding.

The problem is the greatest of the kind that has ever faced the world and it is now at a climax. From all quarters it is necessary. Thousands of dollars and millions of tons of food are necessary to meet it. Canada is being asked to bear her portion of the responsibility that rests on the shoulders of those nations that can help. There is a Belgian Relief Committee branch in almost every community in Canada. Two dollars and a half will keep a Belgian family a month—twenty-five dollars will keep a family nearly a year. If not keep a family nearly a year, it will then send your contribution to the treasurer, Belgian Relief Committee, 59 St. Peter St., Montreal. The money will be spent in Canada to buy Canadian products for these starving, dying people over the seas.

CAMPAIGN GOES ON AGAINST H. C. OF L.

Boycotts on Poultry and Butter Soon to Follow That on Eggs.

New York, Dec. 1.—The campaign against the high cost of living entered another stage to-day when the presidents of nearly a score of retail grocery associations and representatives of several delicatessen associations met with Joseph Hartigan, commissioner of weights and measures and secretary of Mayor Mitchell's food commission, to consider remedial measures. Mr. Hartigan was prepared to place before the representatives statistics relative to food stuffs and to the methods of the so-called cold storage trust. A series of boycotts on poultry, butter and other food stuffs similar to those now in force on eggs, is proposed, the butter boycott to begin December 12 when the egg ban will have run two weeks. Whether the latter will continue or not after that depends, it was said, upon the price at which eggs are selling then. The wholesale price of eggs has dropped from three to four cents a dozen on all grades since the inception of the boycott.

The egg boycott, while not at its height yet, is gaining ground fast, declared Commissioner Hartigan. "It is proving an effective weapon to decrease the demand and lower prices. It helps to establish prices. It promotes economy in the use of eggs and it contributes in the stoppage of waste." Commissioner Hartigan declared that a national cold storage law was needed to protect consumers against abuses in the marketing of perishable foods.

Reports from various cities to-day are to the effect that thousands of turkeys were left on the hands of the dealers Thanksgiving as the result of the refusal of housewives to pay high prices.

Thomas E. Watson, who twice was populist nominee for President, is on trial for a third time in the Federal Court at Augusta, Georgia, charged with sending obscene matter through the mails in articles attacking the Roman Catholic Church. At his first trial the indictment was dismissed on a technicality, and at the second the jury disagreed.

FUNERAL OF FRANCIS JOSEPH

Body of Late Austrian Emperor Placed in Burial Crypt.

London, Dec. 1.—The funeral procession of the late Emperor Francis Joseph, says a Vienna despatch received by way of Berne, left at 2 o'clock yesterday afternoon the Hofburg Chapel, where the body had lain in state since Monday, and traversed the streets of Vienna by a circuitous route to Saint Stephen's Cathedral. The hearse was drawn by eight horses and surrounded by an imperial body-guard, lackeys and pages, bearing torches and umbrellas. The route was lined with troops, infantry and cavalry, and tens of thousands of spectators crowded the pavements and the roofs and windows of houses.

Kings There. During the progress of the cortege Emperor Charles drove direct to the cathedral, where he waited with the empress, the king of Bulgaria, Bavaria, Saxony and Wurttemberg and nearly 100 other members of the imperial family and other royal houses. Cardinal Pini officiated, assisted by four cardinals, 30 bishops and 48 priests. At the conclusion of the funeral service Emperor Charles walked behind the coffin to the pews in church. This is a small edifice and only a few of the privileged were able to enter, the remainder standing outside during the final ceremony of bearing the coffin to the crypt. The emperor, the grand master of the court and two chamberlains followed into the crypt and formally transferred not the body to the custody of the Capuchin monks and the golden key of the coffin to the senior monk. As Emperor Charles resounded the church the boom of artillery in salute sounded in the distance. Blame Franz Joseph. London, Nov. 30.—A Berne dispatch to the Wireless Press says that negotiations undertaken by the Austrian premier, Dr. Ernest Von Koerber, with Austrian political leaders in an attempt to obtain assurances that there will be no opposition to the government to obtain assurances Charles opens parliament, and that the penalties which have been imposed on Czech deputies have been unsuccessful. The despatch also says that the deputies of the Hungarian independent party decided to absent themselves from the funeral of Emperor Francis Joseph in token of disapproval of the late emperor's aggressive war policy.

To Remove Dandruff

Get a 25-cent bottle of Danderine at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff, stop scalp itching and falling hair.

CONFIDENCE IN FINAL VICTORY

Affirmed by Sir Douglas Haig in Message to Governor-General.

He had at the time of his death been promoted to the position of Corporal.

Toronto, Nov. 30.—His Excellency, the Duke of Devonshire, governor-general of Canada, was the guest of honor at the 80th anniversary luncheon of the St. Andrew's Society of Toronto. In the course of a brief speech he said: "The record that Scotland and Scots are writing today will be one of their proudest. Having set our hands to this task we will not withdraw until our work is finally and definitely done."

Great enthusiasm was aroused by the reading of the following cable from Sir Douglas Haig in response to a message of congratulations: "Please accept on this anniversary of Scotland's national day, the hearty greetings of all ranks of the British army in France, and grateful thanks for your inspiring wire. We are proud to have earned the praise of our brother Scots of Toronto, and, strong in the knowledge that the whole British Empire stands solidly behind us, we share

to the full your absolute confidence in final victory." (Signed) "DOUGLAS HAIG." A brilliant reception was held tonight at the government house.

The N-4, an even keel type of submarine, similar to the Prussian submersibles now in operation, was launched at Bridgeport, Conn.

FISHING SHIPS FIRED ON BY SUB

Two Trawlers Sunk and a Third Damaged by Shell Fire.

London, Dec. 1.—Without warning, a large German submarine on Tuesday afternoon attacked the Brixton fishing fleet, sinking two trawlers and damaging another, a Lloyd's despatch yesterday asserted. The two trawlers were sunk by gunfire and bombs. The submarine is reported to have fired on the boats after the trawlers were abandoned. The masters and crews were all safely landed.

Brixton is in Devonshire, on the English Channel, about 20 miles east of Plymouth. It is on Torbay, where William of Orange made his historic landing. A hundred miles or so farther west are the Scilly Islands, one of the chief seats of submarine activity earlier in the war.

HONOR FOR VON TIRPITZ

Aimed, He Says, to Maintain Position Equal With England.

Berlin, Dec. 1.—(By wireless to Sayville)—Grand Admiral Von Tirpitz, on being appointed an honorary member of the German navy association, sent the following telegram to the association: "For more than twenty years I have felt certain that the German nation cannot make its way without a strong navy. As far as the general conditions and the means at my disposal permitted, I used my best endeavors in this direction. Not to be held in this direction maintain a position of equal rights in the world was my aim. If Germany does not obtain this object after this terrible struggle, the life of the nation will be dwarfed."

Degree Given Candidates

The initiatory degree was conferred on a class of 8 candidates by Grand Master Parks at last evening's lodge meeting of Mohawk lodge, I. O. O. F., attended by visitors from Lynx, Paris, Waterford and Hamilton, as well as members of the other lodges of the order. The initiatory degree was conferred in faultless style under Degree Master J. G. Seyers, P. G., the Grand Master assisting in the ceremony. Refreshments were served and a social evening then passed, the following toast list being rendered: "The Grand Lodge of Ontario," responded to by Bro. J. C. Spence, P. G. proposed by Bro. Chas. Tucker, P. G. and Patriarch, and responded to by Grand Master Parks, with a solo by Bro. Richards. "District No. 10," proposed by Bro. Charles Parker, P. G., of Harmon lodge, and responded to by Bro. Charles Cowherd, P. G. of Gore lodge, and district secretary. "Our Brethren in Khaki," proposed by Bro. Chas. Tucker, P. G. and responded to by Bro. Capt. L. H. Coates, M. O., with a song by Bro. Richards. "Our Visitors," proposed by District Deputy Grand Patriarch Cross, of Hamilton, and responded to by Noble Grand Barralough of Gore lodge, and Noble Grand Brown of Harmony lodge.

In his address to the gathering, Grand Master Parks of Toronto gave a most interesting and instructive talk upon Oddfellowship, which was listened to with great attention and appreciation by all. The singing of the Maple Leaf then served to bring to a close one of the most successful and memorable evenings in the history of the lodge.

DRINK MORE WATER IF KIDNEYS BOTHER

Eat Less Meat and Take Salts for Backache or Bladder Trouble—Neutralizes Acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set fine. This fam-ly medicine is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys, stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
