CIVIC ELECTION.

All over the Province they are getting into time for the civic election which takes place the first week in February. Our advice to the citizens is to select their men, pay up the taxes and elect the best qualified. The Town require men in the Council who are wide-awake roogressive men. Men who are not controlled by any other influence than the good of the whole body of ratepayers. It is no use to send men who know nothing of public requirements. A man who goes to the Council with the idea that he smale vote against every expenditure, or is atraid to vote for what is for the good of all for fear of some private interest is not then who know nothing of what is for the good of all for fear of some private interest is not than who will do best for all. There will be three venancies in the Councill and a Mayor to elect, as we understand Mayor Rudolf retires after efficient service of three, years. Therefore the electors should be gin at once to select men to fill the vacancies.
