At Hand.

The reign of God, His light and love and joy in glad content I take His guiding hand: In the bright sunshine where I live and move, In this quickening impulse is His kind command.
In Him I am. In Him I move and live; He lives and moves and loves and is in me. Direct my thoughts, dear Father: let me give My heart, my voice, my strength, my life to Thee. Yes, when I choose, I hear my Father's voice, His word my conscience, and His joys my joys— Loving the children of the King's hand!

A Little Child Shall Lead Them.

The fallen Angel picked himself up from the pavement outside the Crown and Compass, where he had been ceremoniously deposited by the barman. He felt indignant, as far as it was possible for a man of his spirit to be so, for the little child, who had been hardly tipsy at all, nothing to what he had been on previous occasions. But the Crown and Compass had grown tired of him. It was not only the quality, but the quantity of offences that the proprietor objected to. The fallen Angel carefully dusted the knees of his dingy trousers, a pathetically out-of-place precaution, and shuffled off in the direction of St. James' Park. It was a tender spring afternoon, when one felt that the world must surely be young and pure and glad again, as in the days before the first fallen angel writhed his destructive way through the Garden of Eden. The descendant of the first fallen one felt he was out of the picture, for he was not lacking in an artistic sense. He gazed hungrily at the little children, dressed with such lavish care by their proud and loving parents, as they trotted along by the side of their nurses. Not that he had any desire to make a meal of two or three of the plumpest, although he was hungry enough for any extreme; but little children had been a special hobby of his before he had become a fallen angel. The sight of their innocent little faces and robust enjoyment of life brought his downfall more poignantly home to him than anything else. He detested a certain grim enjoyment from lurking about his old abiding places on the chance of meeting someone he had known in the old life. It made him feel like his own wrath, as Jones or Smith or Robinson, with whom he had exchanged passages of witty warfare in the days when he had been the 'cutest card' at the Junior Author's club, passed him by, and looked towards him, as if he were, never dreaming that the dishevelled rapscallion selling toy balloons in the gutter was the man who had written 'Songs of the Joyous Child.' But he let his exile from the kingdom of Nursery land very keenly. If he could only feel a little hand in his own more, if he could only guide two little feet here, their first adventurous journey, as he had often done, just once more, perhaps it would not be too late to give up being a fallen angel. That afternoon the theme 'I only' seemed to be running through the whole orchestra of the humming life of the bright and busy town. If only he had stuck to his resolution never to write 'whisper' when he first recognized the key; if only he had stuck to his work his Maker had clearly meant him for, writing for children about children, instead of tilting at literary windmills that had nothing to do with him; if only he had supplied some of the delightful humor in his one successful book to his own case; if he had laughed and busy town and his normal state; if he had stuck back into his normal state; and, oh, God! if only Winifred Drummond had not been so confused. If she had spared him that cold and calculated insult, that portrait of himself as an illustrator's block with the biting acid of her scathing words when he asked her to be his wife; if she had said 'Yes' and there had come into her life a new and potent steadying influence, the sight of the two frail little arms stretching out to him in perfect dependence and perfect confidence.

Itching Piles For 27 Yrs.

Despaired of ever getting relief until cure came 3 years ago with use of DR. CHASE'S OINTMENT.
Mr. John Johnson, Cawley, Alta., writes: "Three years ago I was cured of itching piles of twenty-seven years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I could ever get. Dr. Chase's Ointment is worth a dollar a box instead of sixty cents. I am faring all the time now and never feel from itching and so thoroughly cured every form of piles. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto. denor, the sound of a baby voice framing for the first time that wonderful word, 'Dad—'
'Please, I'm lost.'

'Thus started his reverie, the fallen angel looked down. The little girl who had volunteered this information to him could not have been more than six years old. She was exquisitely dressed, one of those fairy like little people that you quite expect to see blown away by the first puff of wind, or take flight at the least noise, and by way to the top of St. James' Palace or whatever neighboring point of vantage they may happen to be.

The effect of all responsibility for her own safe keeping by taking the fallen Angel into her confidence. The latter was brought to his senses by feeling a tiny gloved hand in his. Having selected her rescuer, the little girl evidently meant to stick to him. It was positively the first time the fallen Angel had felt the hand of a man, woman or child in his since he had shaken hands with his hostess at the end of the ball at which Winifred Drummond had refused him.

The effect seemed to be bracing in the extreme. That his first new friend should be a little strange girl gave him an odd thrill. Were the fairies and goblins that he had written so charmingly about in 'Songs of the Joyous Child' coming to his rescue in the practical way that they always had in such matters? Were they anxious to show their gratitude to the poor fallen Angel for having invented them? Or was it the goodwill of the thousands of little children who had laughed and wondered at the book, and goblins that he had written so charmingly about in 'Songs of the Joyous Child' coming to his rescue in the practical way that they always had in such matters? THE ACADIAN.

WOLFVILLE, N. S., AUG. 19, 1910.

Slanders on the King.

Deep satisfaction has been expressed at the publication of the Bishop of Durham's refutation of certain slanders concerning our gracious Sovereign, George V. It will meet the inquiries and wishes of many if we also state that a similar deliverance was made by the Dean of Norwich (Dr. Russel Wakefield) in an address to a congregation of Friendly Society members assembled in a church near Norwich, on Sunday, June 19, and reported as a Central News telegram in the daily papers of Monday, June 20. Here are the words of the Dean:

"We have now upon the throne a King who to my personal knowledge is a man of intense self-sacrifice and high character.

"Against him one has heard two accusations, brought, as I think, by that part of society which is no society at all; but as these things percolate down, it is just as well that when speaking before a mass of people one should give the lie to those two accusations.

"In the first place the King is sometimes accused of insobriety. You may take it from me on undoubted authority that that is a libel. As far as his close friends have noticed him, he has never been intemperate throughout his life, but, on the contrary, is a man who even from the point of view of health has to be abstemious, and who has no desire to be anything else.

"I want you generous-hearted men, when you hear some light, stupid talk with regards to this irreverence to our King, to say with absolute confidence that there is not a more sober, temperate, quiet-living man in the country than King George.

"The other accusation is still more unworthy. It is, that prior to his marriage he had what is called a secret marriage, with children by it.

"That is absolutely root and branch an untruth. King George is a man who, with a wife of like disposition to himself, has been wont during his leisure to sit in his garden with his young children around him, just the same as any one of us might do in our own patch of garden.

"He has now undertaken the greatest responsibility which any man can undertake, and I ask for him justice, fair dealing, confidence, loyalty, and love in his task.

Picnic.

There will be a Mass Temperance meeting under the auspices of the Kings Co. Temperance Alliance, at Berwick Camp Ground on Friday, August 26th. Practical addresses will be given by Rev. Dr. Pringle, of Sydney, and other prominent speakers.

Everybody is invited to attend. Dinner will be served on the ground at a reasonable rate. Excursion rates from all stations between and including Hantsport and Middleton. Those attending the meeting will go and return by regular trains. The Blue nose will stop at Berwick on that day. The regular entrance fee will be charged at the gate to cover expenses.

The Berwick Brass Band will be in attendance, and the Berwick male quartette will have a part in the programme.

Public meeting will open at 12.30 o'clock.

The attention of the street authorities is called to the pools of water standing in the gutters in front of McKenna Block. Horses standing along Main street here splash pedestrians with mud much to the annoyance of passers. Some action should be at once taken to correct this nuisance.

SEPT. 28-OCT. 6 AT HALIFAX.

NOVA SCOTIA'S GREAT EXHIBITION.

Bigger, Brighter and Better Than Ever Will Be The Big 1910 Fair at Halifax.

Premiums - \$20,000
Racing Purses, \$6,200

Eight Days at the Expo.

The rates of travel to Halifax will be as low as usual, so that the people of Nova Scotia may go in great crowds to the capital, and while enjoying a splendid exhibition, also have a holiday pleasant in other ways and a fine period of recreation generally.

Manager Hall will be glad to answer any inquiries addressed to him at the Exhibition office in Halifax.

If you cannot spend the whole of this time in Halifax, come on one day, or on as many days as you can, beginning on Wednesday, September 29th, and ending on Thursday, October 6th.

It will pay you in every way—in health, in recreation, in business, and in added knowledge of the resources of your province.

THE RACES will bring the finest field of horses Eastern Canada can produce.

THE DISPLAY of our Manufactures, Agriculture, Fisheries, Machinery, Mines, Fine Arts, and Live Stock will be superb and on a grander scale than before.

LOW RATES on all lines of transportation to Halifax. Write for information to

GOODWILL GOSPEL.

Rev. Charles F. Dole, of Boston, has contributed much to the impulse for real civilization and social unity in a recent book on the Coming Religion. For years Mr. Dole has been the foremost prophet and preacher of the good-will gospel, his spoken message and half a score of books published having greatly emphasized the significance and value of good-will.

He says, "See now the supreme law that binds human society together—use a good will at all times and towards everyone. You cannot always feel love towards everyone, to the unwashed tramp who has told you a lie to the boys who have trampled your flower garden, but you can show a determined good will to all these unfortunate people. You can do your best for them, whatever that 'best' may be. You can resolve never to have any enemies, however others may treat you, you will never hate anyone."

Perhaps the greatest significance of this fine statement is in the fact that it expresses nothing new. It is simply the revelation in modern terms of a real principle whose truth mankind has long known. The message of the Nazirine was a message of good-will, a message very simple indeed, at the heart and root of it, a message so simple that we are just beginning to realize how we have erred in making it dogmatically complex. Back of all theories that have been evolved by theologians throbs the living heart of the message, the good of good-will.

In this is found the essence of Christianity and of all religion. We can all unite in the exercise of it. If there is anything in our particular religious form that impedes or prevents our adoption of the basis of this unity, we shall be wise to give it careful and critical examination. Good-will is as essential to the bloom of social life as is the warm breath of summer to the bloom of nature. And in so far as we add to the warmth of the social good-will, are we making it possible for the human race to attain its fullest fruition.

This, then, is the real challenge of real religion to-day. It does not amount to a row of pins to what meeting-house you adhere, or under what creed you bow. The question is, are you able to exercise good-will to all? Are you able, in spite of social differences, commercial conditions that appear to necessitate a declaration of business war with your fellows, and the prejudices and repulsions which are inevitable to all, to project voluntarily a message of good will toward every fellow citizen? Are you able, in spite of the crimes and selfishness and degradation and brutality of so many men, to think kindly of all and to realize that under the slime and evil there are the root and reality of good.

This is not a mere Sunday morning religion. It involves the very existence of the nation. It deals with the fundamental force of civilization. It is the power that surpasses every other power upon which we are apt to depend for national greatness, greater than all else in its influence upon life, individual and social.

We read that one denomination at its gathering, after generously voting \$500 to the relief of the Campbellton fire sufferers, made a proviso that it should only be given to members of that denomination. Suppose the other religious bodies who contribute should say, "let the things starve, they shall not be fed by our bounties." Good will to all is the essence of the religion founded by the Nazirine.

Uses of Sawdust.

Sawdust is usually regarded as an objectionable product because it increases the danger of fire if deposited near mills or lumber piles, and necessitates either cartage with accompanying expense or the construction of a 'burner' and the use of conveyors or carts to transfer it from the saws.

A double economy, however, is now in progress. As a result of the use of hand saws instead of the old circular and gang saws, a log that, under the old system produced 8 boards, will now produce 9, a very substantial increase in product with a corresponding decrease in the amount of sawdust produced.

Owing to its chemical and mechanical properties, it has an ever increasing field of usefulness. Used as an absorbent for nitro-glycerine, it produces dynamite. Used with clay and burned, it produces a terra-cotta brick full of small cavities that, owing to its lightness and its properties as a non-conductor, makes excellent fire proof material for partition walls. Treating it with tused caustic alkali produces oxalic acid. Treating it with sulphuric acid and fermenting the sugar so formed, produces alcohol. Mixed with a suitable binder and compressed, it can be used for making mouldings and imitation carvings; while, if mixed with Portland cement, it produces a flooring material. It is an excellent packing material for fragile articles and for dangerous explosives, and can be used as packing in walls to make them sound-proof and cold-proof.

Miss Clare Burgess, of Brocton, Mass., is visiting her mother, Mrs. Burgess, Wolfville.

Master Horace McKenna is visiting at the home of his uncle, Mr. H. W. McKenna, Parrsboro.

Mr. Rupert E. Banks, mechanical foreman of The Acadian, is spending a week's vacation down the valley.

Miss Alice Mahoney, of Halifax, is visiting in town, the guest of her friend, Mrs. B. O. Davison, Summer street.

Prof. and Mrs. Ringwald and little son, who have been spending the summer in Germany, returned home yesterday.

Gerald and Alex. Hoare, of Halifax, are spending part of their vacation visiting at the home of Mr. John Godfrey, this town.

Mr. Bell, of Bridgetown, is taking the place of Mr. Lyon, teller at the Union Bank, for a while, owing to the illness of the latter.

Mr. and Mrs. Ernest Hosterman and child, of Ottawa, are visiting in town, guests at the home of the former's mother, Mrs. Kaye.

Mr. Geo. E. Higgins, of New York, arrived on Friday last to join Mrs. Higgins and family, who are spending the summer in Wolfville.

Mrs. Wyman and two daughters, of Waltham, Mass., are visiting in town, at the home of Mrs. Wyman's parents, Capt. and Mrs. J. E. Eagles.

Mrs. Champlin, with her son Clyde, of Southbridge, Mass., is visiting for a few weeks at the home of her parents, Mr. and Mrs. D. B. Shaw, this town.

Attorney General MacLean spent Sunday last at Canning. Sir Frederick Borden met him with a carriage on the arrival here of the evening train from Halifax.

Mr. and Mrs. C. E. Starr arrived on Friday last at their farm at Upper Perau, to spend some weeks. They have recently returned from a trip to Colorado and Washington.

Mrs. Kennedy Ransom and daughter Nettie, of Louisville, C. B., arrived at Wolfville on Tuesday, and are visiting at the home of the former's parents, Mr. and Mrs. J. R. Christie.

Dr. E. M. Keirstead, of Toronto, paid a flying visit to Wolfville friends this week. He has just returned from an extended trip to the Pacific coast, and his visit to the east is thus shortened this year.

Mr. I. Arthur Estey, Acadia's Rhodes Scholar, who with Mrs. Estey is spending the summer in Wolfville, has been recently appointed to the staff of the Madison University, Wisconsin. His subject will be political economy.

Prof. Howard Schofield, of Winnipeg, arrived last week on a visit to his parents, Mr. and Mrs. Robert Schofield, Acadia street. Since his visit here last summer Mr. Schofield has made a tour of the world, and is now on his way to Winnipeg.

The Misses Bessie and Hattie Kaye returned to their home on Saturday last, after a pleasant vacation of four weeks spent between Halifax and North West Arm. They were accompanied by their sister, Miss Hesterman, and aunt, Miss Hall, who will remain in Wolfville a few weeks.

Mr. and Mrs. John Swift, of Milton, Mass., and Mr. and Mrs. Frank Fleming, of Roxbury, Mass., are at the Royal. Mr. Swift, who is a native of this county, is renewing old associations.

Mrs. (Capt.) H. A. Henshaw returned to her home on Acadia street on Tuesday of last week, after having spent a very pleasant vacation in northern New Brunswick and State of Maine. She was accompanied by Miss Marion Turritt, of Jamaica, B. V. I., and Dr. Anna E. Smiley, of Philadelphia, Pa.

Miss Luker and her mother, who have been visiting Mrs. Sleep, have returned to Boston. Due credit should be given Miss Luker for the able manner in which she entertained the audience of "Tommy's Wife" between acts by playing popular songs in which the audience joined in singing many of the choruses, thus adding zest to the performance. Miss Luker also accompanied with rare grace Miss Brown and Mr. Peck at the concert in College Hall. She expects to graduate next June from the Fellen Piano school in the professional course, thereby demonstrating her ability to play classic music as well.

Nerves at High Tension

Slight extra strain means collapse. Restoration obtained by using DR. A. W. CHASE'S NERVE FOOD.

The successful man and woman are often of the high-strung nervous type—keen and active—but with too little reserve force.

A little extra worry and anxiety and may go to the nervous system. Weeks and months are often required before energy and vigor are regained.

Best help, so does fresh air and exercise, but the blood must also be made rich and red by use of Dr. A. W. Chase's Nerve Food.

Mr. Wm. Branton, Victoria St., Stratford, Ont., writes: "My nervous system seemed all unstrung. I could not sleep, had no appetite, my digestion was poor and I had jerking of the limbs. Dr. Chase's Nerve Food helped me and I continued until I had taken twenty-four boxes. This treatment has made a radical change in my condition, building up the system and strengthening the nerves." Dr. Chase's Nerve Food, 50 cents a box, all dealers or Edman, Bates & Co., Toronto.

What Do You Know About It?

That's what a customer asked me recently about a patent medicine I had sold for years, and I was forced to admit that in reality I knew nothing more than what appeared on the label, wrapper and advertising.

Some of the claims made were so extravagant that of course I could not take them seriously, but concluded I had better find a line of remedies I did know something about.

The Church of England Sunday school and friends, of Parrsboro, came over by the steamer "Prince Albert" on Tuesday and spent the day in Wolfville. The day was fine and the visitors evidently had a most enjoyable time.

The next regular meeting of the W. C. T. U. will take the form of a pastor meeting at the home of Mrs. L. W. Slep. Programme to begin promptly 7.30, refreshments served at the close. All members expected to be present.

The excursion to Partridge Island by the steamer "Prince Albert", which was advertised for Monday last, did not take place. The manager did not consider the patronage such as to warrant a trip. Those who made their plans to go, among whom were a number of tourists who stayed over to participate, were much disappointed.

Rev. Dr. Hall, of Brooklyn, N. Y., pastor of one of the largest churches of that city, occupied the pulpit of the Baptist church last Sunday morning, and preached a most inspiring sermon. Rev. Mr. Webber occupied his place as usual in the evening. At the morning service Mr. Warren Peck sang a solo which was much enjoyed, and in the evening the congregation was favored by Miss Lorenda Brown, with an exquisite selection.

We regret to learn from a recent Astoria, Oregon, paper that the firm of Ross, Higgins & Co., of that city, of which Mr. J. E. Higgins, formerly of Wolfville, is a junior partner, suffered a somewhat serious loss from fire on the 4th inst. Their large warehouse with its contents was totally destroyed. The stock was valued at \$30,000 insured for \$14,000, and the building at \$10,000, insured for \$2000. The firm will immediately rebuild and their business will go on without interruption as their store was newly stocked.

WOLFVILLE, N. S.

The Wolfville Hockey Club finds itself several dollars in debt for the past winter, and the boys wish to raise funds to pay the Club's bills. Mr. Bastin of the Nickel has kindly loaned his Moving Picture Theatre free of cost as his part to help the Club along. On Tuesday evening next three shows will be put on, the first beginning at 7.45. 10 cents will be the admission for each show. But of course the boys will say "Thank you" to anyone paying more for a ticket. Come and help them along. Special pictures will be shown.

Mr. H. Wilfred Zink, who participates in the concert at Port Williams, Aug. 23, is a native of the town and should be heartily welcomed by the townspeople on his return to sing before them. It will be gratifying to them to know that he has progressed rapidly in his chosen career of a singer and that he is regarded as one of the finest baritones in New England. Miss Johnson, the reader, has command of a splendid repertoire of dramatic and humorous selections. She has read before the principal clubs and lodges of Massachusetts, and returns engagements have been demanded.

The musical people of Port Williams are looking forward with pleasurable anticipation to the concert to be given at the Baptist church, Tuesday evening, Aug. 23rd. The program, which is in interesting one, includes H. Wilfred Zink, basso cantante; Grace Lillian Johnson, reader; Arnette Pollanabee Zink, accompanist. All of the artists come from the states highly recommended as entertainers in their respective lines. They are on tour through some of the principal towns of Nova Scotia, returning to the states about Sept. 1 to fill important engagements for 1910-11 season.

Of the twelve high school students from this town who wrote the Provincial examinations for C the following, named in the order of their aggregate, were successful: Grace Blenkhorn, Emma Crowell, Lizzie Henderson, Laura Ilalley, Ellen Kerr, Freda Woodworth and Lizzie Lynes.

The pulpit of the Methodist church was occupied on Sunday morning by Rev. Prof. Faulkner, of Drew University, who gave a very interesting discourse on "The Naturalness of the other Life," from the text, "If it were not so I would have told you."
Mr. and Mrs. Robert North and two boys spent several days last week at Scott's Bay.

Mr. William McKnight, who has been visiting at Mr. Sidney Blenkhorn's, returned on Thursday to his home in St. John.

Among the many visitors at the Berwick camp grounds were Rev. Arthur Hockin, Miss Hilda Hockin, Miss A. Eaton, Miss Annie Eaton, Mrs. E. Holmes, Miss Gertie Holmes, Miss Harriet Willett, Miss Minnie Eddy, Mrs. Samuel Kerr and son Mr. George Kerr.

Mrs. Wylie and little daughter, of St. John, are visiting the former's uncle, Mr. Fred Northrup.

The pulpit of the United Baptist church was occupied on Sunday, both morning and evening, by Rev. Mr. Fink, of Liverpool, N. S., who made a favorable impression. In the evening the congregation was favored with a well rendered baritone solo by Mr. Loran Blenkhorn, of Medford, Mass., a guest at Mr. L. P. Blenkhorn's.

Mrs. Morris and three daughters, of Waltham, Mass., who have been visiting Mrs. Wilbur Brown, are now at Woodville, guests of Mrs. Morris' brother, Mr. Wood.

Halifax Letter.

UPLIFTERS, THEIR WAYS AND WORK—NEW PROJECTS.

To the Editor of THE ACADIAN.
Mr. HEDDON.—You will have noticed that the "uplifters" are getting to work in Halifax, and none too soon.

We have had "uplifters" in the past; and some of the things they "uplifted" they took away with them. That erstwhile doughty knight, M. J. Butler, for instance, "uplifted" most of our Railroad plant, and took it to Moncton, and with various other "uplift" stunts of this sort, by which he posed as a supreme type of Railroad economist, "uplifted" himself into a \$25,000 job. This "uplift" cost Halifax \$100,000 annually in depleted pay rolls and decreased business.

It was while this great "uplift" was on that our Board of Trade might have uplifted its voice, and demanded the retention of our Nova Scotia work for Nova Scotia's artisans. A "Hands off gentlemen," in a definite tone of voice, would have sufficed. But, bless you, just at that moment the B. & N. was entertaining the International Fgt. agents association, to excursions and lawn parties and banquets, so that they might go home and advertise the quality of our ozone, and the artistic beauty of our men's cards. An annual pay-roll of 75 or 100 thousand dollars was of small moment a longside the weightier matter of entertaining a party of tourists, out for a good time.

Now we are going to have another uplift. The present Board of Railway Management has said that it will carry out such plans as may be recommended for the better handling of business at Halifax.

Our Board of Trade, therefore, proposes sending the local freight business all back to Richmond, from whence several years ago it was extricated after much effort, in order that our merchants might benefit by a shorter haul and quicker delivery of freight. Why this backward movement? you ask. Our steamship business requires more room, and will continue wanting more, year by year.

Well, the Intercolonial Railway owns about a mile of water front at Richmond with a depth, in most places, of about forty feet; a superior position for docking ocean steamers and of giving quick despatch to mails, passengers and freight. No moving at a snail's pace a couple of miles through a congested railway yard would be necessary here. No delays in getting cargo alongside over the dock business. No mixing up of local with ocean business, and consequent obstruction of both. In short the vital point of contact between rail and steamer would here be found, and the possibility of delay eliminated, or reduced to a minimum.

What then is the duty of our Board of Trade? Simply to reverse its request; ask for the retention of the local freight sheds and coastwise shipping business at D. W., in most places, and the removal of all Transatlantic or ocean business, mails, passengers and freights, to Richmond.

This would be an uplift to Halifax in the truest sense, as follows:
1. A heavy tax in cartage on local traffic between Richmond and the city would be made unnecessary, conserving alike the interests of producers throughout the province, and business men of the city.

2. Expeditious delivery, through increased accommodation at D. W. Terminus would mean a saving of time and expense to our merchants.

3. Conservation of our local wharf and dock space, which is none too ample at present, much of which must be expropriated from time to time to meet the growing requirements of our ocean business permanently located along the D. W. T. front.

4. Immediate commencement by the Railway department of the enlargement project suggested, as the property at Richmond is now available; whereas to carry out recommended improvements for ocean business at D. W. T. would mean the acquiring of more property at greater expense and delay.

While many other reasons might be mentioned I fear that I have already trespassed on your valuable space, but feel that you will be doing a good turn for our would-be city "uplifters," for your out of town readers, and for all interested in the question of speedy and economic transportation, by the publication of the foregoing.

Very truly yours,
T. O. Day.

The Great Provincial Exhibition at Halifax.

IT WILL BE HELD FROM SEPTEMBER 28TH TO OCTOBER 6TH, AND WILL BE MORE ATTRACTIVE THAN EVER.

The Nova Scotia exhibition at Halifax this year will be just as attractive as any of the big provincial fairs of the past. It will run from September 28th to October 6th. It will be the fourteenth annual provincial exhibition, and the experience that has been gained will be used to make it the greatest and best yet.

The exhibition will have all the good features of past displays and it will have new attractions. The premium list shows an aggregate fund for the prize list amounting to \$20,000. For the horse races, which will take place daily on the half mile track, there are purses totalling \$6,200.

The fisheries, agriculture, fruit, mines, manufactures, machinery, the women's work and fine arts departments, will have exhibits that will well repay careful study and examination. A gentleman writing to Halifax from Paris says that several splendid paintings from the salons of the French capital will be sent to the exhibition to add to the collection which will be shown from Halifax and other Canadian artists.

A Place in the Family.
If you and your family were obliged to depend on one medicine what would you choose? It is not difficult to guess what medicine Mrs. J. A. Gray, Seattle, N. B., would choose, for she writes:—For five years my husband and I have used Dr. Chase's Kidney and Liver Pills for kidney trouble, biliousness and constipation and find them indispensable as a family medicine.

If You Want to Keep Young.

Hold young thoughts persistently. Avoid fear in all its varied forms of expression.

Never look on the dark side; take sunny views of everything; a sunny thought drives away the shadows.

Keep your mind young by fresh, vigorous thinking, and your heart sound by cultivating a cheerful, optimistic disposition.

Keep busy; idleness is a great friend of age, but an enemy of youth. Regular employment and mental occupation are marvelous youth preservers.

Avoid anger, discord, hurry, or anything else that exhausts vitality or over-stimulates, whatever frets, worries, or robs you of peace or sleep will make you prematurely old.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by Rand's Drug Store.

Good and Bad Luck.
Sir Wilfred Laurier put a homely lesson in brief form in his speech at Winnipeg the other day, when, discussing the question of what constitutes good luck or bad luck he said: "Two boys go to work in the same shop; one is industrious, willing and ambitious; he works hard, getting the approbation of his employer. He is promoted by and by and ambition rises. He goes into business for himself, and by-and-by becomes a capitalist of industry. This is the lucky boy. What of the other boy? He works in a perfunctory manner, never does extra work without extra pay. He remains where he was at first. This is the unlucky boy."

What is Best for Indigestion?
Mr. A. Robinson of Drummond, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at Rand's Drug Store.

Canada's Future.
Canada, which became a "dominion" on July 1, 1867, kept her birthday year with every prospect of a golden future, though British Columbia has previously been the scene of more than one disappointed "gold-rush." Among the Canadian towns which have sprung into prosperity during the forty-three years of the Dominion's existence, even more rapidly than American cities, there is one felicitously named Asquith, the exact centre of Canada, the exact geographical centre of the British Empire. Therefore Asquith is near to the heart of the Empire. There appears to be no flaw in this logic.

Granulated Sore Eyes Cured.
"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Foyd of Henrietta, Ky. In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since. This salve is for sale by Rand's Drug Store."

A Successful Temperance Hospital.
The latest annual report of the Frances H. Willard Hospital has just been issued, which shows that 1,315 patients were cured for during the year in this hospital, which is conducted strictly on a non-alcoholic basis; that 780 were discharged cured, 310 improved while 74 per cent. died. The institution is in a satisfactory financial condition and donations during the year aggregated \$1,566.50. The hospital, which is located in Chicago, conducts an official training school in which the teaching of scientific temperance truths is a conspicuous feature.

An English Chemist Has Discovered How to Grow Hair.
RAND HAS IMPORTED IT.
It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long looked-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale. This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. Mr. Rand, your druggist, is the best to import this preparation into Wolfville, and he has generous bottles can be purchased for 50c.

Fooled the Town.
University students have long enjoyed reputation as practical jokers, but there has been nothing quite so successful as the famous Sultan of Zanzibar hoax of some years ago at Cambridge. One day the mayor of the town received the following wire from one Henry Lucas, Hotel Cecil, London: "The Sultan of Zanzibar will arrive at Cambridge at 27 for a short visit. Could you arrange to show him buildings of interest and send carriage?" The mayor rose to the occasion, and in due course two dark complexioned gentlemen with turbans and voluminous trousers arrived at Cambridge. The mayor and corporation entertained them right royally, but to their chagrin they discovered a few hours later that the interesting orientals were simply a quartet of undergraduates who had played an immense practical joke upon the town.—London Spectator.

Semi-Steel Fire-Pot—Not Gray Iron
A FIRE-POT is a vessel which should be made of a material that will resist the attacks of rust and corrosion. The Sunshine Fire-pot is Semi-Steel.
The material commonly used for a fire-pot is gray iron. The Sunshine Fire-pot is Semi-Steel.
Now, avoiding technical terms, gray iron has what may be called "rust" pores. Through these "rust" pores the destructive sulphur fumes attack the iron and hasten disintegration.
On the other hand, Semi-Steel is a close-grained material, with a smooth-glass surface which naturally seals up the pores. Semi-Steel easily repels the attacks of rust fumes and thus greatly prolongs the life of the fire-pot.

The Ten Commandments and the Drink Habit.
I say to you, gentlemen, that the Bible is against the liquor traffic. The ten commandments forbid the liquor traffic. "Thou shalt not kill," and the liquor traffic kills. "Thou shalt not steal," and the liquor traffic steals from 10,000 American homes the light of love, the opportunities of love, the opportunities of life. The liquor traffic steals from a million American boys and girls the happiness that ought to be theirs. The Bible is against the saloon. If an eloquent friend would stand by the logical inferences of his argument on this point, he will be compelled to advocate polygamy and concubinage, because they, as well as the liquor traffic, are not distinctly prohibited in terms by the word of God. The ethics of the scriptures are representative and not specific. No sane man to-day dare take the ground that the prohibition of the drink traffic is against the commands of scripture.

Temperance Work Among Seamen.
Some interesting incidents relating to temperance work among sailors of the British Navy and among seamen in general have been recently given out by Secretary Matthews, of the British and Foreign Sailors' Society, the headquarters of which are established in the British Metropolis. This organization has over ninety years' work to its credit and stands as one of the most active and successful agencies promoting sobriety among sailors.

In furthering its purpose of administering to the social, intellectual and religious needs of seamen, afloat and ashore, the society comes into helpful touch with large numbers of foreign sailors including Japanese, Greek, Scandinavian, French and Spanish seamen, as well as those of native birth, and by providing rest and reading rooms, and healthful and wholesome recreative interests and environments during their period on shore are able to materially offset the temptation or tendency toward drinking habits. This good work is further extended to the ship themselves where ocean loan libraries have been established with other opportunities for improvement and recreation, apart from the influence of intoxicating drinks.

Records of the work of the past year show that over 300 meetings were held on board ship during 1909, which were attended by more than six thousand seamen. More than seven thousand meetings were held on shore, which were attended by 336,146 seamen, and during the year 1,142 temperance pledges were taken. All this in addition to the long story of ships, lodging-houses, hospitals and prisons visited, and the great work of distributing helpful literature. Branches are now established in 116 ports and the work is still extending.

The results of these influences show well from a temperance standpoint and are indicated in the testimony of admirals and naval officers.
Lord Charles Bessborough, on the eve of hauling down his flag, wrote the secretary: "I am well aware what a benefit the Rests of your society are to the men of the Royal Navy and the immense good they do to the maritime community in promoting sobriety and general welfare."
Sir Percy Scott, vice-admiral, commanding the Second Cruiser Squadron, has also written a tribute to the work, stating that during the visit of the squadron to Monte Video, the local organization of the British and Foreign Sailors' Society was of the greatest assistance to the men while ashore on leave, working for others, and was highly appreciated.

As an instance of the growing sobriety of the British sailor, it may be added that on the occasion just mentioned there were 6,800 men ashore daily for eight days and not an odd police case, nor a single case of drunkenness occurred. One fact like this speaks volumes, and is worth as to the character and conduct of the men, often under trying circumstances of treating, etc.) volumes of theories. At the same time, on the other side of the great Panama at Buenos Ayres, some thousand British merchant seamen were taken by train on a New Year's picnic. The local press, in reporting the outdoor sports, and the thirsty weather, etc., said: "Not one sailor or seaman was seen who was

EVERY ONE SEEMS TO BE TAKING "FRUIT-A-TIVES"

Demand Always Increasing
Because "Fruit-a-tives" Cures

The real value of any article may be judged by the demand for it. Steadily increasing sales are the surest indication of intrinsic merit. This applies to a medicine as well as to a breakfast food. First introduced to the public in Ottawa, the fame of "Fruit-a-tives" quickly spread, and today these fruit juice tablets are known and used in every section of the Dominion. The only reason for this extraordinary demand is that "Fruit-a-tives" is the only medicine in the world made of fruit, and is the only remedy that will positively cure Constipation, Biliousness, Indigestion, Dyspepsia, Backache, Headache, Neuralgia, Rheumatism, Lumbago and Kidney Troubles. One has only to read the testimonials given to "Fruit-a-tives" by some of the people of Canada, to appreciate the wonderful amount of good that this fruit medicine has done and is doing for the sick and suffering. for drink? No one can doubt that much progress—socially and morally, and especially from a temperance viewpoint—has been made, all along the line of the Society's work for seamen.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by Rand's Drug Store.

Fire in a mammoth St. Louis brewery destroyed hundreds of thousands of gallons of the concern's product—a loss of half a million dollars, it is said. Better, a thousand times, that the stuff should flow in the streets, disappearing in the sewers, than that it should be consumed by the people. The destruction caused by drinking the same quantity could not be estimated in dollars.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by Rand's Drug Store.

THAT ACHING BACK
Will Promptly Get Well If You Help It a Little.
Father Morley's medical researches led him to evolve, out of Nature's laboratory, a Liniment of remarkable curative properties of the kind, without their disadvantages, and contained other ingredients of unique value in fodylin. This good priest physician prescribed it for many kinds of aches and pains with most gratifying results, and after his death it continues to relieve and cure suffering.

In cases of backache due to kidney trouble it is efficacious as a supplement to Father Morley's "No. 7." It is indispensable in rheumatism, neuralgia, bruises and many similar affections. Taken with the Lung Tonic, it quickly cures cold on the chest.
The Liniment is clean, has an agreeable smell, and when rubbed in goes to the seat of the trouble and promptly gives relief. Nothing more widely known has ever been compounded. Keep it in the home.
Ask your druggist to-day for a 25c. bottle of Father Morley's Liniment, or get it from Father Morley's Medicine Co., Ltd., Chatham, N.B.
