The report of the Board of educational experimendence was then read, showing that 43 students had attended the Seminary in Traro last term. Of these 5 were from New Branswick, 3 from P. E. Island, 3 from Cape Breten, and 31 from Nova Sootia It further appeared that 16 stadents had prosecuted of theology in the college at Halifax, and that the grea r of these gave good promise of success. The report study of number

study of theselogy in the college at Halifaz, and that the greater number of these gave good promise of encoses The report re-commended greate strictness in adherence to the proper stand-ard of admission, and the appointment of a Synadical committee to consider the gaussion of The consolidation of their educational outablishments in one locality and under one read, and a memorial ottablishments praying that the term at the Sominary might be reduced from 6 to 5 months, in order to give those of them who tand to engage in teaching the opportunity of taking schools for 6 months, and also that the close of the term he so late in the opping, as to render an inconvenience to students from P. E. laland, New Benaevick and Cape Breton who have or may desire to return home by water.

Island, New Branswick and Cape Breton who have or may desire to return home by water. The financial accounts of the two establishments having also been read, which showed some confusion in regard to the ar-rangement of the items of receipt and expenditure, a large com-mittee was appointed to device some means to prevent a recur-rence of this leave, and for the purpose recommended in the report of the Board. The Committee in relations to the verying circumstances of the Foreign Mission, presented the same, which recognized in the reverses of the Mission a series of trials which called for deep sarchings of heart, and for humility and contribution on account of manifold shortcomings. The statement also recorded the Synod's high ensue of the same, which recognized in the failes missionaries, and expressed its deep sympathy with the of new a sugn sense of the gaal, fortitude, and self-denial of the falles missionaries, and expressed its deep sympathy with the widow in a strange land, and the relatives of the deceased mis-sionaries, with the servicers who have had to flee for their lives, and with the whole Mission band over whom wave after wave has been made to pass. It also recommanded that all pastors of congregations under the Synol, should make special reference to these mysterions dispensations on the 2d Sabhath of August next, that the people may have an opportunity of uniting in exercises of Jumility.

A latter was read from Rev. Allan Pollock, convener of a Committee appointed by the Krit Gyned, expressing their readi-uese to confer with any Committee which this Synod angles ap-point on the athigst of the higher education of the Province in connection with Dalheusie College, and suggesting a estable time and plate of meeting. A Committee was appointed consis-ing of Rev. Professore Ring and Rese, Itor. Mr M Colloch, and Mr C. Robson, to meet at the time and place meetined. Rev. J. L. Mardoch, convener of Committee en anion with other Presbytesian Churches, stated that no communications had here given or received by the Committee during the past year. The Committee was requested.

we or received by the Committee during the past year. mittee was reappointed. Professor King read the report of the Committees of cor-mes with the Parent Churches, so far as proparing that id devolved upon him. This was a latter addressed to and Assembly of the Free Church of Scotland informing by of the Usion, and a letter to the Convener of the Committee of the same Church softnowledging obliga-part hindness, and especially in the advancement of a devolved, and especially in the advancement of the devolved on the same church softnowledging obliga-part hindness, and especially in the advancement of a devolved, and containing for a time the continuence hat body of the

MUSIC, MUSIC !

SRS S. D. & H. SMITH'S MELODEONS!

At the same Prices as at the Wareroo

in Boston." MARK BUTCHER. THE NATIONAL COMPLAINT.

Dyspapsia in the most common disease among all classes this country. It assumes a thousand shapes, and is the prima source of insumerable and dangerous unstalies; but whatev it type or symptoms, however obtaints its resistance to ardiom prescriptions, it yields readily and rapidly to this searching at ing remedy.

SICK HEADACHE AND LOSS OF APPETITE. A certain care for headache, less of appetite, and low spirits These Pills may be taken without danger from wet or cold, and require no restraint from business or plossers. They strengthen the stomach, and promote a healthy action of the liver, purfying the blood, cleaning the skin, bracing the nerves, and invigor-time the store. ing the system.

A WORD TO FEMALES.

The local debility and irregularities which are the especial annoyance of the weaker sex, and which, when neglected lways chercise life, are relieved for the time being and prevented for the time to come, by a course of this mild but thereage locanize.

DROPSICAL SWELLINGS-TURN OF LIFE. This is the most distressing period is woman's history, --it de-stroys thousands; the whole of the gross homore collect tegether, and like a tide sweep away beath and his inself, if not inself and powerfaily checked. The most certain remady for all these dangerous symptoms is Holloway's Full. Aroused with this great antidote, the first ordeal is passed through, and the sufferer is ource, more restored to the possession of unimpaired beath. These Pills are equally efficiencies and all finalle complaints, and obstractions at the dawa of womanhood.

DISEASES OF THE HEAD AND HEART.

DISE ASES OF THE HEAD AND HEART. Why are these diseases so fatal? The answer is soft-oriden because the first disordered action is neglected, or the mean for its rectification are misapplied. Neither need be the case at the present day, when these excellent Fills can be purchased everybody. No misapplication can be comparison everybody. No misapplication can be comparison everybody. No misapplication can be comparison everybody. No misapplication can be compared direc-tions are properly attended to, as they invariably address them-selves to the seat of the afficient, without deranging these ergans which are already acting healthig. Holloway's Fills are the best particles, and therefore the sureat preventives of serious misables; of which, it they be already established, they then become the mest anremitting estimates.

NERVOUS DISORDERS. Any derangement of these delicate organs affects disast both the body and the mind. To the servous invalid, if way's Pills are an article of vial necessity. They impar and vigot to the internal organs, out consequently to the as symeon, which pervades and connects them. Hence their lid, Holl t tome ria, low opi
