

THE FARMERS' MARKETS

This column of the Bulletin will endeavor to give its readers from week to week a survey of the western commercial markets from the standpoint of the farmer.

Not being able to get sufficient seed. Dealers are paying 40c to 50c per bushel.

Hay Market. The hay market is still firm, but the demand is weakening owing to the fresh pasture which is now available.

Crop Outlook. The prevailing topic of interest during the week has been the crop outlook for the coming season.

Vegetables. The vegetable market is quiet. Potatoes are quoted at \$1 to \$1.10 per bushel at local Alberta points.

Live Stock. The scarcity of good fat cattle is the feature of the live stock market.

Quotations. The list of market quotations is as follows: Wheat No. 1 hard 75c to 80c.

Strange Rumblings. San Bernardino, Cal., June 4.—Manuel Lopez, who arrived Wednesday night from San Jacinto mountains, brings information concerning strange earth rumblings that have been heard there for many weeks.

Demers Commissioner. Ottawa, June 4.—Captain Demers, chief examiner of masters and mates in Canada, will be wreck commissioner, replacing Commander Spain.

Flour Goes Up Thirty Cents. Following the rise in flour of twenty cents per barrel several weeks ago, flour has taken another increase of thirty cents.

Fishing Boats Missing. St. Johns, Nfld., June 5.—Over a dozen fishing schooners are now a week overdue.

EAST END BRIDGE COMMITTEE MEETS

Prominent Citizens Declare the Project Necessary—Committees Chosen.

The committee meeting called for last evening by Mr. C. B. Williams was well attended. Civil Engineer B. F. Mitchell had a full set of plans together with a complete report and

Mr. Wm. Short considered it wise to have a strong committee appointed to interview the Dominion and Alberta governments, also the city council.

Mr. J. P. Hyndman believed that the city should be willing to bear the whole cost, as it would be a good investment. Also that a great many people wished to live across the river, and trade in this city.

Mr. Little said the bridge was necessary. The city should see that it was built. The citizens of Edmonton should see that it was built.

The following committee was chosen to draw up resolutions showing reasons why the bridge should be built: Messrs. Short, Bellamy, McDonald, Dawson, Williams, Haldane, and McGeorge.

Edmonton's New Court House. The new \$200,000 court house, for which the construction was let last fall to A. Manson for the exterior work, is progressing very favorably.

Quebec Town Wiped Out. Riviere Du Loup, Que., June 5.—The little town of St. Francis was almost completely wiped out by fire last evening.

Americans Honored by McGill. Washington, June 3.—U. S. Secretary of Agriculture Wilson, and Gilford Pinchot, chief of the forestry service, left here yesterday for Montreal.

MAY BUILD A CRUISER FLEET

Montreal Despatch Outlines Proposed Program of Government in Coast Defence Squadron

New York, June 4.—The Times prints the following despatch from Montreal: The Dominion of Canada has finally decided to show her Imperial point by an offer to build a navy of her own.

Returned From Extended Trip. Major and Mrs. Saunders Home From Four Months Tour of Europe.

Attorney Talks at Last. New York, June 4.—Sanford Robinson, of the law firm of Cary & Robinson, and a United Copper director, today, to save himself from jail, told United States District Attorney Wise all that he was asked to tell in reference to the missing books of the company.

Columbia Honors Harvard President. New York, June 3.—Abbott Lawrence Lowell, the new president of Harvard university, was today honored by Columbia university at its 135th annual commencement.

Strike Hinderers Building. Boston, June 3.—Building operations in this city were given an additional hindrance today, when about 800 electricians, including practically all the union men of this trade in Boston, went on strike.

Douks Migrating to Coast. Broadview, Sask., June 3.—A second party of Doukhobors numbering 472, mostly women and children, arrived here yesterday in prairie schooners to entrain for Waterloo, B. C., to join their friends who have preceded them.

Quebec Town Wiped Out. Riviere Du Loup, Que., June 5.—The little town of St. Francis was almost completely wiped out by fire last evening.

Americans Honored by McGill. Washington, June 3.—U. S. Secretary of Agriculture Wilson, and Gilford Pinchot, chief of the forestry service, left here yesterday for Montreal.

TREASURE SHIP LOST

Was Sunk Century Ago and Traces Supposedly of it Are Found.

Chester, Pa., June 3.—Government officials are agitated over the discovery of an obstruction in the Delaware river within the vicinity of Fort Mifflin, which they think may prove to be a treasure ship which went down in 1812.

Military Orders. Winnipeg, June 4.—Military orders contain the following: Transfer of headquarters of E company 95th regiment from Wolsley to Regina authorized.

Attorney Talks at Last. New York, June 4.—Sanford Robinson, of the law firm of Cary & Robinson, and a United Copper director, today, to save himself from jail, told United States District Attorney Wise all that he was asked to tell in reference to the missing books of the company.

MONDAY, JUNE 7, 1909.

CURRENT COMMENT.

Count Zeppelin's airship was wrecked on a pear-tree. This will no doubt encourage the culture of fruit trees in England.

A Guelph editor tried to save another man from drowning, when a third party coming to the rescue jumped on the editor. 'Twas ever thus.

According to one ex-applicant for a job on the Montreal police force, Alderman Proulx either delivered the goods or cheerfully refunded the money.

France denies that the French ambassador was recalled because he was found to be on Abdul's payroll. This is quite different, of course, from saying that he did not get the money.

Musselman mobs have broken loose again in the Adana district, though fortunately the presence of the troops disappointed their intended removal of the slaughter. The latter fact is gratifying news and if the preventive measures are made final and permanent in the case of a large and representative selection of the flocks, nobody but themselves will have reason for much regret.

The date for entering protests against the election of members of the Provincial Assembly, closed on Saturday, except for the constituency of Red Deer, where the returns were delayed, and for the two northern ridings where elections are deferred. No protest has been lodged against the return of any member, and it is improbable that any will be lodged in Red Deer. The Province has practically passed through two general elections therefore without protest being laid against the return of any member returned of either party. This is a record of which Alberta may be proud. It is a tribute to the fairness and honesty with which our election contests have been carried on. Public spirited citizens will hope that it may always be that neither party has to look to the courts for protection from real or believed wrong-doing of their opponents.

The Provincial Government has decided to adopt the Strowger automatic telephone system for installation in Calgary and Lethbridge. No doubt this means that the Strowger will be adopted generally on Government lines if found satisfactory in these cities. That it will be found satisfactory there seems little room to doubt from the excellence of the service given by it in Edmonton. It is fitting that having led the provinces of the Dominion in the public ownership of telephones Alberta should also lead in the installation of the most modern and best phones that money can buy. Desirable as it is that the service should be economical it is of more concern that it be efficient. Edmonton finds the new system both efficient and economical. There is no reason why it should not be equally satisfactory to the other cities in which it is to be installed, and to the province generally—unless and until something better is produced.

People have yet a lot to learn about gasoline. The point that seems most needful of learning is that it is a dangerous commodity to handle. Considering the amount used and the variety of purposes for which it is employed it cannot be said that the accidents from it are very numerous. When one does occur, however, it is usually attended by horrible results. In a large proportion of cases some one is burned to death or to a condition of suffering scarcely preferable to it. Legislative enactment could not prevent these accidents without imposing practically prohibitive restrictions on the users of the combustible. More rigid inspection of the quality of the article manufactured and offered for sale might do something. No doubt a large fortune awaits the discoverer of some less dangerous fluid which will be equally adaptable to a multitude of uses; or of cans in which to store it and machines in which to use it whose explosion would be impossible. Meantime the remedy lies with the people who use the article. If they regard their own welfare and that of their associates they

The date for entering protests against the election of members of the Provincial Assembly, closed on Saturday, except for the constituency of Red Deer, where the returns were delayed, and for the two northern ridings where elections are deferred. No protest has been lodged against the return of any member, and it is improbable that any will be lodged in Red Deer. The Province has practically passed through two general elections therefore without protest being laid against the return of any member returned of either party. This is a record of which Alberta may be proud. It is a tribute to the fairness and honesty with which our election contests have been carried on. Public spirited citizens will hope that it may always be that neither party has to look to the courts for protection from real or believed wrong-doing of their opponents.

The Provincial Government has decided to adopt the Strowger automatic telephone system for installation in Calgary and Lethbridge. No doubt this means that the Strowger will be adopted generally on Government lines if found satisfactory in these cities. That it will be found satisfactory there seems little room to doubt from the excellence of the service given by it in Edmonton. It is fitting that having led the provinces of the Dominion in the public ownership of telephones Alberta should also lead in the installation of the most modern and best phones that money can buy. Desirable as it is that the service should be economical it is of more concern that it be efficient. Edmonton finds the new system both efficient and economical. There is no reason why it should not be equally satisfactory to the other cities in which it is to be installed, and to the province generally—unless and until something better is produced.

People have yet a lot to learn about gasoline. The point that seems most needful of learning is that it is a dangerous commodity to handle. Considering the amount used and the variety of purposes for which it is employed it cannot be said that the accidents from it are very numerous. When one does occur, however, it is usually attended by horrible results. In a large proportion of cases some one is burned to death or to a condition of suffering scarcely preferable to it. Legislative enactment could not prevent these accidents without imposing practically prohibitive restrictions on the users of the combustible. More rigid inspection of the quality of the article manufactured and offered for sale might do something. No doubt a large fortune awaits the discoverer of some less dangerous fluid which will be equally adaptable to a multitude of uses; or of cans in which to store it and machines in which to use it whose explosion would be impossible. Meantime the remedy lies with the people who use the article. If they regard their own welfare and that of their associates they

MONDAY, JUNE 7, 1909.

CURRENT COMMENT.

Count Zeppelin's airship was wrecked on a pear-tree. This will no doubt encourage the culture of fruit trees in England.

A Guelph editor tried to save another man from drowning, when a third party coming to the rescue jumped on the editor. 'Twas ever thus.

According to one ex-applicant for a job on the Montreal police force, Alderman Proulx either delivered the goods or cheerfully refunded the money.

France denies that the French ambassador was recalled because he was found to be on Abdul's payroll. This is quite different, of course, from saying that he did not get the money.

Musselman mobs have broken loose again in the Adana district, though fortunately the presence of the troops disappointed their intended removal of the slaughter. The latter fact is gratifying news and if the preventive measures are made final and permanent in the case of a large and representative selection of the flocks, nobody but themselves will have reason for much regret.

The date for entering protests against the election of members of the Provincial Assembly, closed on Saturday, except for the constituency of Red Deer, where the returns were delayed, and for the two northern ridings where elections are deferred. No protest has been lodged against the return of any member, and it is improbable that any will be lodged in Red Deer. The Province has practically passed through two general elections therefore without protest being laid against the return of any member returned of either party. This is a record of which Alberta may be proud. It is a tribute to the fairness and honesty with which our election contests have been carried on. Public spirited citizens will hope that it may always be that neither party has to look to the courts for protection from real or believed wrong-doing of their opponents.

The Provincial Government has decided to adopt the Strowger automatic telephone system for installation in Calgary and Lethbridge. No doubt this means that the Strowger will be adopted generally on Government lines if found satisfactory in these cities. That it will be found satisfactory there seems little room to doubt from the excellence of the service given by it in Edmonton. It is fitting that having led the provinces of the Dominion in the public ownership of telephones Alberta should also lead in the installation of the most modern and best phones that money can buy. Meantime the remedy lies with the people who use the article. If they regard their own welfare and that of their associates they

SUPPOSED LEPROUS FREED FROM

Modern Scientific Test Brings to Men Long Held in Colony.

Honolulu, June 6.—After they had spent twenty years in the leper settlement and of Molokai, ten supposed to be cured of the disease, following a new test, were today declared to be free from the disease. Eleven persons were brought here for examination at the request of a legislative committee. They were six and seven years old, and were all of the same family. They were found to have leprosy, but the older freed patients who had been shut off from their friends so long have no other place to go, and the patients were sent to a home before the banishment for leprosy was discovered. It is believed that the test has been effected, and it is supposed to be leprosy will be removed from the settlement soon.

BIG CONVENTION

Resolutions Submitted by Boards of Trade for Discussion.

Medicine Hat, June 5.—The secretary of the Associated Boards of Trade in Canada, has received a list of resolutions submitted to the annual convention which is to be held at Saskatoon, June 15 and 16. Calgary—Desirable immigration of townships under government control. Canadian trade with other countries, bank notes, tax, discontinuance of home by municipalities, standing of companies in provinces.

Edmonton—Conservation of resources, general insurance, general insolvency act, der exemption ordinance, toll resolutions, possession of land, wrongful use of name, board insurance companies, claim make proper repairs, traffic and railways, reformation, ment of commission to adopt law, express companies to pelled to deliver to all parts and towns.

Lethbridge—Uniform municipality charter for Manitoba, Saskatchewan and Alberta. Report from municipal ratepayers, and general improvement of boards of trustees, etc.

Moore Jaw—Settlement of claims, exorbitant rates, equal endorsement of Canadian and Selkirk colonial action by telegraph, exemption from coal mining strikes, etc. of daylight saving bill, etc.

Prince Albert—Navigation Saskatchewan river, reorganization between railway lines to passengers and baggage.

Raymond—Excessive expenses in Alberta Railway and company's line. Swift Current—Creditor in title to costs, exemption to association, exemption from and excessive sheriff's fees, mechanics' lien of time, lien notes and chattel.

Wainwright—Transfer of passenger and freight at junction competing railways.

The "Ladies" Were Thorough.—June 3.—The speech of Mr. Burns before the local government board at the opening of the tuberculosis hospital in Whitecourt, Alberta, was repeatedly interrupted by women suffragettes, who cried for women to make the cost of human life less. Mr. Burns finally lost his temper and demanded that the interrupters be removed from the room by the police.

Manchester Races.—June 4.—Lord De Walden's well-backed five colt, Cargill, carrying 8st 4lb won the Manchester cup, with coverings, over a mile and L. Robinson's Russeter, the favorite, was second. Cargill's time was 1:10.4. Sixteen ran and the field was most brilliant handicap for the year. Among the unplaced top weights, August Belger play II, and Norman II. American contingent lost the race.

The "Queens" Problem.—Hamilton, June 4.—A plan nationalization of Queen's city was advanced largely when by Mr. Burns' vote the assembly agreed to appoint a commission to meet the trustees of the city and inquire into the next assembly. The commission submitted an report reaffirming the assembly's decision in 1907 and 1908, but on by sixty-three.

Hotel Builders Quit.—Ottawa, June 4.—The Great Lakes employed the Lanier have struck for higher wages and shorter hours. They are \$1.50 per day and work to 10:30 p.m. They want \$1.75 for a day.

er of competition driving him to pay too much for his bonds. Or, if the municipality could deal directly with the bond buyer it in turn might affect the saving. The loss in the process of getting the debentures from the municipality up to the safe of the man who puts up the money and awaits the payment of interest and instalments. If the parties could get together without the intervention of the middleman there would be money in it for both of them. The bar to this course is that the people who really buy the bonds are frequently people with small capital, who do not make a business of financing but who invest their spare means in securities which offer both absolute security and a reasonable return. A man or woman in such position cannot travel about the world looking to buy direct and save commissions. The municipalities, however, by joint action might be able to meet directly with them by establishing a

PROTEST AGAINST THE INDIAN CELEBRATION

Missionaries and Others Interested in Their Welfare Don't Want Red Men to Come to Edmonton.

A number of missionaries and others interested in the red men's welfare at the Hobbsa reserve are strongly protesting against the proposed Indian celebration at Edmonton during the fair week.

Last night the delegation appeared before the executive of the Temperance and Moral Reform league, in session in Strathcona, and urged that every possible effort be taken to persuade the exhibition authorities not to bring the Indians to Edmonton.

Those who know the Indians best say that a visit to "civilized" life will do more than anything else to stay the good work that is being done among them. The missionaries say that the red men fail to understand the celebration and think that the noise and commotion with their old time dances is a revival of old time conditions.

"A celebration such as is contemplated," said one missionary, "will mean a set-back of years to our work at Hobbsa."

When the arrangement was made for the visit to Edmonton, the assurance was given the chief that no liquor would be allowed and that police protection would be given, but despite this it is claimed that there will be great injury done.

Czar and Kaiser.

Berlin, June 3.—The forthcoming meeting on June 15, of the Kaiser and the Czar portends changes of great importance in the international situation. The opinion entertained by German diplomats that Kaiser details of the conference will show it was arranged at the express desire of Nicholas II., who thus is considered to have given proof that Russia is prepared to forgive the diplomatic defeat she suffered at the hands of Germany and Austria, and to renew friendship with powers that can be more useful to Russia than England has been. The press points out with great satisfaction that the conference may mark the beginning of the end of England's "isolating" policy and may be a wedge towards breaking up the entente of Britain, France, and Russia.

U. S. Crops.

Minneapolis, Minn., June 3.—Of a hundred and fifty letters and telegrams regarding crops received at the chamber of commerce, not more than five are in any degree unfavorable, others reporting almost perfect conditions. This refers to the Minneapolis territory. It is not true of the winter wheat states. John Marfield, Minneapolis, who is in Hastings, Neb., today wired that the outlook there is not good. Kansas, Missouri and Oklahoma are in doubt as to yields. The winter wheat crop, however, is short. It is the northwest that is holding the promise this year of a record production. Fine weather has aided and the country is abundant in rain. Great Northern, Northern Pacific, Omaha and Soo avenues are of conditions close to perfection.

Policemen Maltreated.

Fort Arthur, Ont., June 4.—Policemen Synnons was killed last night by a couple of drunken lumberjacks who he was attempting to arrest for disorderly conduct. One named Keenan, who did most of the damage claims to have cleaned up four policemen at Fort William and one at the Soo, and before coming out lay down at the water's edge for a nap. There is a sheer drop to the water of six feet and while sleeping he rolled over, plunging into fifteen feet of water. Two passersby plunged in and after a terrific struggle rescued Synnons, who revived and received him after two hours' work.

Sleeper Rolled Down Bank.

London, Ont., June 4.—Jos. Stinchcombe, a brewery wagon driver, at the conclusion of his rounds yesterday lay down at the water's edge for a nap. There is a sheer drop to the water of six feet and while sleeping he rolled over, plunging into fifteen feet of water. Two passersby plunged in and after a terrific struggle rescued Synnons, who revived and received him after two hours' work.

Change of Judicial Districts.

Peterboro, Ont., June 3.—G. M. Rogers, K. C., of this city, who was appointed judge for the River district a few days ago, will not go to that place. Word has been received from Ottawa that a change has been made, by which he becomes judge for Northumberland and Durham and will reside in Cobourg. The vacancy at Cobourg was created by the death of Judge Keitchum.

Dean Fisher.

Ottawa, June 3.—R. A. Borden has returned from the Echo Beach, where he had gone with G. H. Perley, M.P., for a fishing excursion. The Conservative leader is much improved in appearance. He leaves on Saturday for a train into the west a few days at his mother's home, after which he will return to Ottawa and then proceed to Europe.

Army Officers in Trouble.

Troisik, Stiers, June 3.—A military court has been convened here to try the colonel, lieutenant-colonel and six other officers of the Oranburg Cossack regiment, who are alleged to be involved in far-reaching financial irregularities. Penalties amounting to \$70,000 already have been discovered.

SOUTH AFRICAN UNION.

Cape Town, June 3.—The assembly passed into law the bill for the adoption of the Act of Union. There were two dissentients only, Schreiner and Sir G. Spring.

STEAMER HAD ROUGH TIME

Out From Wales Twenty-Two Days—Made North Sydney.

Hullfax, N.S., June 3.—Capt. Winsnes, of the steamer Admiral Borensen, which arrived at North Sydney from Newfoundland, tells of hardship and danger while the ship was imprisoned in ice fields off the Newfoundland coast. The steamer left Cardiff, Wales, on May 11, loaded with ore. Nearing Newfoundland the vessel encountered huge fields of ice. An attempt was made to force the steamer through, but she found herself surrounded by fields of drift ice, some of which reached a tremendous height. Here the ship remained for eight days, the crashing of the ice against the steamer being a constant source of danger.

On May 24 a big gale set in and for a time the destruction of ship and crew seemed inevitable. Finally the wind veered and the steamer was carried further along the coast toward Ferry Land. The schooner Carlsen was in the harbor nearby, and Capt. Ernest Young, seeing the dangerous position of the steamer, made his way out and piloted the Borensen out of the ice against the steamer being a constant source of danger.

DROUGHT IN MEXICO.

Large Demands Probable for Alberta Wheat Via Vancouver.

Vancouver, B. C., June 4.—The Canadian wheat export trade has just been advised that severe drought conditions are existing in Mexico, with the result that there is every probability of a large export of wheat from that country through the port of Vancouver during the fall. This wheat will be Alberta red winter and it may be expected to start moving shortly after the harvest, provided the Mexican government reduces the duty, as it did last season. According to an estimate made by the transportation companies, who have been recently in touch with both the Mexican market and the Canadian export trade, between 30,000 and 30,000 tons of wheat will be shipped to Mexico if the import duty of that country is reduced. It is reported today that largely on account of the expectation of a good grain carrying trade between Vancouver and Mexico the Canadian-Mexican Steamship company, operating the steamers Londale and Georgia, is negotiating for two larger steamers to put on the route.

"NONSENSE."

Visitor to Canada Says That War Rumors Are of Most Nonsensical Nature.

Vancouver, June 3.—"War between England and Germany, and an invasion of this country, not more than five are in any degree unfavorable, others reporting almost perfect conditions. This refers to the Minneapolis territory. It is not true of the winter wheat states. John Marfield, Minneapolis, who is in Hastings, Neb., today wired that the outlook there is not good. Kansas, Missouri and Oklahoma are in doubt as to yields. The winter wheat crop, however, is short. It is the northwest that is holding the promise this year of a record production. Fine weather has aided and the country is abundant in rain. Great Northern, Northern Pacific, Omaha and Soo avenues are of conditions close to perfection."

Bull-Dogs Mangle Child.

St. Lambert, Que., June 4.—As 18-month-old son of M. G. Bouchard, shoemaker, was terribly bitten by a couple of prize bull dogs and, it is said, the child was almost killed. The little boy was out playing with dogs and wandered into a neighbor's yard, where two thoroughbred English bulldogs were kept by Thomas, dog fancier. For some reason not known both dogs flew at the youngster, making for his throat and face. The child was almost killed by the mother and a couple of men to his assistance and the dogs were beaten off. The child was almost killed. One man had to use a hammer before the child could be made to loosen the hold.

NEW ZEALAND LEADERS

Of Government and Opposition Will Both Go to London.

London, June 4.—It is proposed to New Zealand to demonstrate the national attitude in support of the Empire in the face of foreign naval menaces by sending the leader of the opposition, as well as Sir Joseph Ward, the Premier to the Imperial Naval conference in July. Seeing the Canadian attitude, as expressed by the unanimous resolution in the Commons no national and entirely removed from party politics. It suggested that the Canadian might do likewise by Sir Wilfrid Laurier inviting Mr. Borden to accompany the ministers. It is felt this would be the most effective demonstration to Germany and other nations that the Empire means to unshakably hold its own and also to remind every man here that the security of the Empire is a question for common agreement not for political wranglings.

Floods Occasion \$500,000 Loss.

Deadwood, S.D., June 3.—A conservative estimate of the flood loss from the recent rains in the Black Hills is \$500,000. Both the northern and western side of the Burlington roads have suffered heavily. Neither road was open to traffic since Sunday and will be obliged to bring in mails by team for several days. Fourteen miles of rain has fallen in the Black Hills since Sunday night, breaking all records. Many mills have been forced to suspend.

CANADA'S GROWING MINERAL OUTPUT

Report of Department of Mines Shows 1906 the Largest Year on Record—Coal Contributes Largest Percentage of Total.

From the annual report of the Department of Mines: "It can truly be said that the condition of the mining industry in Canada in 1906 was one of great prosperity, and that it, in fact, achieved greater progress, and gave bigger results, than during any previous year on record. In 1906, the total mineral output in Canada aggregated \$39,078,999, as compared with a little over \$60,000,000 in 1904; but in 1906, the output reached a total value of \$79,297,097, an increase of \$19,297,097, or 14.7 per cent over the production of the previous year. This large increase is particularly gratifying because it occurred despite a continued falling off in the total gold output of the country. There was, during the year, an active demand for nearly all mining products, and the higher prices realized, especially for the metals and their ores, not only helped to increase the actual value of the year's output, but also greatly stimulated development and prospecting throughout the country."

The value of the production in 1906 was \$20,005,917. A steady annual increase in production is shown during the following years, until a maximum output of \$65,904,811 was reached in 1901. The next three years showed slight decreases, until in 1904 the production had fallen to \$60,073,897. The next year, however, a large increase placed the output beyond the former high mark, followed by still larger increases in 1906. Examining the statistics of production during the year under review, it is found that \$41,949,983, or 52.9 per cent of the total value, is to be attributed to the value of the metals contained in the metallic ores shipped; \$37,037,194, or 46.7 per cent, natural gas. The relative importance in value of output of the different items contributing to the total mineral production is shown in the following table:

Table showing the value of different mineral products in 1906. Includes categories like Gold, Silver, Copper, Iron, Lead, Zinc, etc.

Proportionate Value of Different Mineral Products, 1906.

Table showing the proportionate value of different mineral products in 1906. Includes categories like Gold, Silver, Copper, Iron, Lead, Zinc, etc.

Mineral Production by Provinces 1906

Table showing mineral production by provinces in 1906. Includes Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Alberta, Saskatchewan, Yukon, British Columbia.

Exports of Canada During Classified Year 1906.

Table showing exports of Canada during classified year 1906. Includes categories like Iron ores, Copper ores, Lead ores, etc.

THE STATIONING COMMITTEE DRAFT

Conference Hears Proposed Allocation of Ministers for the Coming Year.

Following is the first draft of stationings presented by the stationing committee to the Alberta Conference of the Methodist Church today: G. C. Buchanan, president of conference. T. P. Perry, secretary of stationing committee.

Table showing proposed allocation of ministers for the coming year. Includes names like Calgary, Calgary, Calgary, etc.

As would naturally be expected, the first table shows that the metallic ores constitute the bulk of the exports, while the second table indicates that over 92 per cent of the exports are shipped to the United States and only 4 per cent to Great Britain.

Table showing exports of Canada during classified year 1906. Includes categories like Iron ores, Copper ores, Lead ores, etc.

There is but one metal refinery in Canada, viz., at Trail, British Columbia, which has sold one fine silver and fine lead are produced; but the great bulk of the products of the metallurgical furnaces in this province are shipped to the United States for refining. In Ontario also, practically all the metallic ore production, comprising chiefly the nickel copper ores of Sudbury district, and the rich silver ores of Cobalt, though partially refined in Ontario, are ultimately exported to the United States or Great Britain for refining. So also many of the non-metallic minerals, asbestos, gypsum, mica, corundum, are largely exported to the United States.

Statistics of imports of minerals and mineral products during the fiscal year ending June 30, 1906, come from the same source, are shown in the last table.

Since we export practically all our metallic ores, it naturally follows that we are compelled to import a large value in metals and their manufactures. Thus we find that in 1906-07, out of a total importation of minerals and mineral products of \$89,889,694, \$80,000,000 worth of metals and their manufactures were imported, while coal and iron ores were imported for another \$9 million. Copper, gold, lead, brass, tin, zinc, and their manufactures, make up nearly ten millions more.

Imports—Mineral and Mineral Products for Fiscal Year 1905-1906.

Table showing imports of mineral and mineral products for fiscal year 1905-1906. Includes categories like Iron ores, Copper ores, Lead ores, etc.

Imports—Mineral and Mineral Products for Fiscal Year 1905-1906.

Table showing imports of mineral and mineral products for fiscal year 1905-1906. Includes categories like Iron ores, Copper ores, Lead ores, etc.

WITH THE FARMERS

CREAMERY OUTFIT. Red News: The Trimble Creamery Company reports for the winter months to April 30th, was most gratifying. The number of patrons supplying cream was 117, pounds of butter manufactured, 29,963; average selling price per pound, 29.65 cents; average price paid to patrons, 29.90; average price for making, 4 cents; average price for hauling cream, 1.75; average over-run for winter, 9 per cent; average price paid for butter fat, 28 cents; average price paid for butter, 23.90.

COMMERCIAL MARKETS.

U. S. STEEL ON BOURSE. New York, June 3.—Official announcement that negotiations are under way to list the common stock of the United States steel corporation for trading on the Paris Bourse, was made today by J. P. Morgan, jr., who was recently elected a director of the steel corporation. The announcement of the steel common and will not make reasonable concessions in its requirements.

YESTERDAY'S MARKETS. Winnipeg, June 4.—Cables came 1/2 lower to 1/2 higher today. There was a good demand on the Winnipeg market for Nos. 2 and 3 Northern and No. 4 with practically no offerings. The morning prosals a very dull one and price weakened all round. June was off 1/2, July 1/2 and October 1/2. Cattle continued strong with good demand, and June advanced 1/2, July 1/2 and October 1/2. Chicago market was dull and 1/2 to 1/2 lower. Minneapolis was steady, all over the western states were lower.

VERMILION VALLEY CROPS DOING WELL. Winter Wheat Doing Well—Much Larger Area Under Crop Than Last Year—Growth is Splendid. Vegreville, June 2.—Crops reports throughout the Vermilion valley show the situation to be in advance of what it was at this date last year, and, in fact, in no year since grain has been grown in the valley has the outlook been brighter. Winter wheat, although not grown to any great extent, has stood the winter well and very few fields have been re-seeded. The cold and wet weather was not so prevalent during the past month as in some districts, consequently a comparatively early start was made at seeding. No surplus grain was raised in the district, as the rather light soil has absorbed all the moisture. Spring wheat and oats have had a phenomenal growth during the past two weeks, and the acreage seeded is now showing above ground. A greater amount of barley will be sown this spring, and the bulk of it still remains to be put in the ground.

The Vermilion valley can hardly be said to have made much more than a start in agricultural development. Last year, as a result of the experiment in nature, the crops, some of the wheat and oats were affected by the frosts. A great deal of this grain was unsuspectingly used for feed this spring, and in some cases it failed to germinate. Some of the Galician settlers were caught in the act of sowing their grain. Hitherto the shipments of grain along the C.N.R. from the Vermilion valley have not been as large as might be expected. A better showing has been made in horses, fat cattle and hogs than in grain. The expectation here ever is that, in view of the much larger acreage under crop and the good start which the growing crops now have, there will be a material increase in the amount of grain available for shipment this year.

The hay crop all through the district will be abnormally large this year. Many of the farmers are thankful for the early pasture available for hay, as their stores of hay are about exhausted. One district has been festering for some time that the cattle are already troubled by flies and mosquitoes, myriads of which have been seen in the warm weather of the past week.

SETTLER SUICIDES. Old Time of Content District Found Dead in a Shed. Lacombe, June 2.—Frank Graham, a well known and highly respected citizen of the Lacombe district, committed suicide at his ranch near Content. Mr. Graham had been in very bad health for the past few years, and it is the opinion of his friends that his mind had become unbalanced through suffering. He was found in a shed, but nothing was thought of his absence, as his wife was sure he had gone either to Lacombe or to the store at Content. An inquiry was made at the station and it was learned that he had not boarded the train at Nevis. A search for the missing man was made by the family and the unfortunate man was found in his implement shed with a bullet wound in his head, and a revolver lying beside him. The late Mr. Graham was about forty-seven years of age, and located in the Lacombe district many years. He leaves a wife and nine children.

WINNIPEG MURDER CASE. Two Galicians Charged with Killing Another. Winnipeg, June 2.—Before Magistrate Mackenzie Miller, Pihurny and Nikola Romanci appeared for preliminary hearing on the charge of murdering a companion. All parties concerned in the strike and a meeting was found near Sandilands. The third man, a Galician, was taken to the hospital and died. The prisoners' statements are that they found the deceased dead during the night, but they admitted there was an altercation between the deceased and the other two men. Medical evidence stated that the man's throat was cut and that he could not have lived more than a minute after the blow, while the police testimony that no cutting weapon was found near by eliminates the theory of suicide. A blood-stained razor was found in the bag of Kudson, who said he did not have a razor. Interest centres on the evidence of Kudson, who will appear in the morning.

Strikers Work Election Dodge. Philadelphia, June 2.—The Central Labor union has decided to take advantage of the political feature involved in the strike and a meeting of its conference committee decided to issue a call upon all its members to attend a meeting at the union next Saturday. While this is primarily an election day here, the white ribbon is the emblem chosen by the strikers and sympathizers to wear this emblem on election day and vote for Dr. Clarence Gibbons for district attorney and President Murphy, in opposition to the slated Republican nominees.

QU'APPELLE DIOCESE. Bishop in Opening Address Deals with Progress and Prospects of Work. Regina, Sask., June 2.—The only work of the synod of Qu'Appelle done this morning was the delivering of the address of the Bishop. This was from the pulpit of St. Paul's church, the service being conducted by the Bishop himself. There are over two hundred clergy and laymen in attendance and a large number attended the morning service. The Bishop in his address dealt with the work that has been done in the diocese and what is ahead. He felt that in justice to the diocese he was in need of an assistant who could do the most tedious and strenuous work. That was to be one of the most important subjects to come before the synod.

EXHIBITION THE BEST EVER. Signs are not wanting that the exhibition and stock show which is to be held at Edmonton on the 29th and 30th June and the 1st and 2nd July, will be "the best ever." The details of a grand parade to be held on the opening day are now being arranged. An Indian parade will also be held in which some 350 Indians, all decorated in war-paint and feathers, will participate—200 of the brave will be mounted on horseback. The platform stragglers in front of the grand stand will be altogether unique and far in advance of anything ever seen before in Edmonton. The cowboy quartette will put on the same act as they had the honor of presenting before His Majesty the King in London, Eng., last year; the famous Gladstone children will give their wonderful singing, dancing and acrobatic act. Messrs. Short and Edwards will discourse sweet music and the Similette trio (late of Ringling Bros.) will present their great comedy farce act. In addition there will be an animal act, particulars of which will be published later, four balloon ascensions and parachute jumps; Scotch dances, sword dances, Highland fling, and by the Scottish bagpipers, and plenty of good music by three or more excellent bands.

The racing program will be very strong and there is to be a steeplechase with a bush and water jump thrown in. There will also be a parade by the freemen of Western Canada, who will hold their annual convention during the week. The Knights of Pythias will also have a parade in full regalia. Strathcona day will be a big day. The citizens of the University city are very enthusiastic about the exhibition and are giving it much valued support.

"Choice Tomatoes" Bayne Again. Truro, N.S., June 2.—The final act in the celebrated Bayne case, arising out of the Colchester by-election, was probably witnessed last yesterday, when Chief Justice Townshend introduced to the court for the prosecution that it would not do to have indictments hanging over a man's head indefinitely when they must be proved or dropped. The evidence of one particular charge was then presented to the grand jury, returned "no bill." Consequently Mr. Bayne is clear on this account.

Powell in Finals. London, June 4.—R. Powell has well completed the last round in the test for the northern championship singles. Those who contemplate building this year will appreciate the information embodied in the advertising announcement of Marriott & Co., of Vancouver, B.C., lumber manufacturers, who state that they are prepared to furnish lumber at wholesale prices direct from their mills to Consumers—has saved the contractor the retail profit. They invite correspondence, and will be pleased to furnish prices and all particulars regarding lumber, shingles, doors, mouldings, and in fact everything made in an up-to-date mill. Those who intend building would do well to contact with Marriott & Company at once, if quick shipments are desired, owing to the fact that so many farmers and contractors are taking advantage of the low prices offered. A car shipped from Vancouver usually reaches its destination in about a week.

ESTATE OF THE LATE BENJAMIN ADMINISTRATOR'S SALE. The undersigned Auctioneer has received instructions to sell by Public Auction at his rooms in the CITY OF WETASKIWIN, ON SATURDAY, THE 26th DAY OF JUNE, 1939. At the hour of two o'clock in the afternoon, the South-East quarter of Section numbered twenty-four (24) township numbered forty-nine (49) range numbered twelve (12) West of the Fourth Meridian in the Province of Alberta. This land is four (4) miles from Gilpin Post Office, and about ten (10) miles from two of the stations on the Great Trunk Railway. There are some buildings on it. The land is rolling and about one hundred (100) acres can be broken. About seven (7) acres fenced, also there is a good hay flat on the quarter and a twenty-four foot curved well on the place. It is partially timbered. It contains one hundred and sixty (160) acres more or less. The lands will be put up for sale subject to a reserve bid. Ten per cent of the purchase price to be paid the Auctioneer at the time of sale and the balance within thirty (30) days after without interest. The purchaser will have to sign agreement attached to the conditions of sale. For particulars of conditions of sale and other information apply to M. E. O'Brien, Solicitor for the Administrator, Wetaskiwin, Alberta, or to GEO. L. OWEN, Auctioneer, Wetaskiwin. M. E. O'Brien, Solicitor for Administrator, Wetaskiwin.

THE MAKING OF A MAN. Every loaf of bread made from "MOTHER'S FAVORITE" FLOUR contributes to the building up process. GOOD TEA. In small chests, 25c, 30c, 35c per lb. Call about your summer supply. First-Class Value. H. WILSON, 44 Queen's Avenue.

TO LAND BUYERS. And investors—Don't Miss These Pomona Land Bargains, G.T.P. bridge, Entwistle, Alta. A choice block of about 8 acres, river frontage, cash and terms—adjoining C.N.R. survey, 10 minutes from Hotel Pembina. A choice block about 1 acre, two good buildings on, near bridge. Lot in town, next to hotel, with buildings on, cheap. Also sawmill. Choice and cheap lots in all localities of the town. Write for terms to A. W. ARNUP, Auctioneer, Valuer, Real Estate Agent, Agencies for The West Markets Solicitors, Entwistle, Pembina, G.T.P., Bridge, Alta.

HOME INVESTMENT AND SAVINGS ASSOCIATION WINNIPEG. MONEY TO LOAN On Improved Farm and City Property. LANE & SCARTH Insurance and Financial Brokers, Crystall Block, Telephone 1824. OFFICES AT KINGSTON, TORONTO, WINNIPEG, FORT WILLIAM AND CALGARY. Jas. Richardson & Sons GRAIN MERCHANTS. Experienced counts. Let us handle your grain and get full value. Consignment—handled strictly on commission or net truck offers made at any time on any grain of any quality. Liberal advances and prompt adjustments—Write for information to branch offices. Room 2, Alexander Corner, Calgary, Alta.

ANARCHISTS DECLARE WAR ON THE CHURCHES. Membership of Church or Religious Sect Contrary to "Principles" of the Gang—The Gauntlet Down. Leipzig, June 2.—The anarchists of Germany are at present in conference here and the attendance is large. Today the congress adopted a motion declaring that membership in any church or religious sect was contrary to the principles of anarchy and calling on all anarchists to cease their membership in churches. The congress came to an end with the passing of a resolution to attend in large numbers the international anarchist congress to be held in London in 1910.

NOTICE TO INTENDING SETTLERS. Take notice that on Monday, July 3rd, 1939, the following lands will be open for entry. For Homesteads: The available lands in: Part of Townships 11 and 12, Range 9, W. 5th M. Part of Township 6, Range 9, W. 5th M. Also Sections 9, 27, W. 12 of 17, and S.S.B. 2, 4 and 5, of Sec. 20, in Tp. 9, Rge. 28, W. 4th M. and N. 12 and S.W. 14 of Sec. 35, Tp. 8, Rge. 14, W. 4th M. For Homestead, Purchased Homestead and Pre-emption. The available lands in: Townships 2 and 3, Range 8, W. 4th M. Part of Township 2, Range 7, W. 4th M., south of the river. Part of Township 5, Range 9, W. 4th M. Also Sections 19, 20, 21, lying north of railway, W. 12 of 28, all of 29, 31, 32 and W. 12 of 33, in Tp. 10, Rge. 11, W. 4th M. East halves of Secs. 24, 25 and 36, in Tp. 10, Rge. 12, W. 4th M. All Secs. 3, 6, 7, 9 and that portion of 16, 17, 18 south of the river, in Tp. 11, Rge. 11, W. 4th M. and N.E. 14 of Sec. 33, Tp. 16, Rge. 17, W. 4th M. (1) A quarter before survey (within the pre-emption area), desiring to secure a pre-emption adjoining the quarter homestead upon and the quarter will be given fifteen days within which to make pre-emption entry for the same. For further particulars as to the available lands apply to the Agent of Dominion Lands, Lethbridge, Alberta. J. W. STAFFORD, Agent Dominion Lands. Dated at Lethbridge, 31st May, 1939.

Canada's Representative Backed by Those of Australia for State-Owned Wires. London, June 3.—It is stated the opportunity will be taken at the imperial defence conference in July to discuss the question of the establishment of state-owned cables. Probably the first imperial cable will be from Britain to Canada. Hon. R. Lemieux will be supported in the project by the representatives of Australia.

AUCTION SALE. Of Live Stock, Implements, Produce, Furniture, Etc. WEDNESDAY, JUNE 9th, 1939. At 1 o'clock prompt. On the higher Farm, situated 2 miles North of Edmonton city limits, straight up Park Street. Canada's Representative Backed by Those of Australia for State-Owned Wires. London, June 3.—It is stated the opportunity will be taken at the imperial defence conference in July to discuss the question of the establishment of state-owned cables. Probably the first imperial cable will be from Britain to Canada. Hon. R. Lemieux will be supported in the project by the representatives of Australia.

AUCTION SALE. Of Live Stock, Implements, Produce, Furniture, Etc. WEDNESDAY, JUNE 9th, 1939. At 1 o'clock prompt.
