MABEL HOWARD, OF THE LYRIC

CHAPTER XXV. THE MIDNIGHT CLUB.

Paul is soon back," she murmured, glancing at the clock. "Perhaps Mr. Montgomery has broken his word, and has not heard the music. Ah! I am always looking on the dark side," she murmured penitently. "It is more likely that he has heard enough to tell Paul that he will have a great success."

"He's at Mr. Montgomery's," said the boy, with all the gibberish of a London archer who had been brought up behind the stage wings. "He's gone there to play—"

With a low bow he held out his hand to Iris. "Welcome to the Midnight, Miss Howard!" he said with a smile that was half-respectful, half-triumphant. "The Midnight!" repeated Iris. Then she understood where she was. White to the lips she looked round with a frightened gasp. She would have turned and fled, but Ricardo had closed the door and leaned against it in a lounging and careless attitude, but at the same time effectually barring her retreat. "The Midnight!" she repeated. "What—what does this mean? Oh, your grace—" she faltered, breathlessly. "I—I came because they told me that Paul was ill!"

S. A. NATIVE QUESTION. LONDON, Dec. 10. General Smuts, Premier of the Union of South Africa, discussing native questions yesterday, according to Reuters' Bloemfontein correspondent, expressed the opinion that the natives' rise in scale of civilization had completely changed their position. The question was now solely economic, he said, for white laborers could not compete with native.

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman. Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and headache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. Elizabeth L. Cassen, 15 Main Court, Providence, R. I.

FRANCE'S ARMAMENT BUDGET. PARIS, Dec. 9. The Chamber of Deputies yesterday unanimously adopted a measure providing for the building of three light cruisers, six destroyers, twelve torpedo boats and twelve submarines, during the period 1922 to 1925. Voting on the Budget of the Ministry of War was completed by the Chamber. This budget, the Finance Minister said, amounts to over four billion francs.

APPEAL TO ULSTER. CORK, Dec. 10. Liam Reisite (William Roche), Sinn Fein member of Parliament for Cork City, says the terms of the Anglo-Irish Treaty will satisfy the overwhelming mass of the people. "Wisdom dictates that Ulster should enter the Free State where she would be treated, not alone with justice, but with generosity," added Mr. Reisite.

NEW ZEALAND'S NEW LOAN. LONDON, Dec. 11. A Reuter despatch from Wellington, New Zealand, states that a bill authorizing the loan of five million pounds has been introduced into the House of Representatives. Premier Massey explained the money was required for hydro-electric development, railways, new roads and the opening of new lands for settlement.

THE NAVAL RATIO QUESTION. WASHINGTON, Dec. 11. Instructions from Tokio regarding the decision of the Japanese Government on the naval ratio question is in the hands of the Japanese delegation. The nature of the communication has not been made public, but it was indicated to-night that another meeting of the Big Three will be necessary before Japan's stand on the 5-5-3 capital ship ratio will be announced.

Just Folks. Just a cherry word of two. Change skies of gray to blue, Just a glad hello that's sung To the neighbors old and young. Send them on their busy way. Happier for all the day.

Just the waving of a hand— Something all can understand— Carries with it something real, Which a troubled heart can feel. More than words perhaps can say To the friend across the way.

I have read in eyes that shine Messages superbly fine; In one glad glance given me, Often I've rejoiced to see. More than spoken words can tell From a friend who wished me well.

Every living mortal knows Who are friends and who are foes. He can read it in the eye Of the distant passer-by; Though he's hidden far apart, He can feel it in his heart.

He can tell it by the way You salute him day by day. From the waving of your hand He can read and understand. And your friendliness he'll know— From the way you say "Hello."

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness. He tells his own story in this letter.

Mr. Ralph A. Roberts, Liverna, Sask., writes: "In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39."

"Then I read about people being restored by Dr. Case's Medicine and after three months' use of Dr. Case's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement, rest day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for their benefits."

The quotations are now \$8.50 to \$7.75 per barrel.

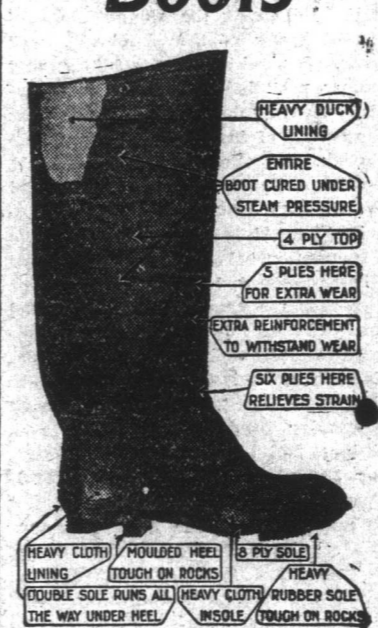

Ons—The imports for the week totaled 2,816 sacks by the s.s. Manoa from Montreal. The local market is now well supplied with stock purchased when the prices were at bottom. The price has stiffened within the past two weeks and the local quotation is now \$3.80 per sack for white and \$3.50 for mixed, wholesale. Higher freight rates incidental to a closed St. Lawrence will likely make the local price \$4.00 a sack by the end of the year.

Hay—The market for baled hay is quiet in Canada, and the American markets keep on declining, so that the United States hay is finding its way across the border to Canada for better prices. The export demand continues poor though Montreal prices is quoted at \$28.00 per ton for No. 2 Timothy, and United States hay \$25.00. The imports to St. John's the past week by the s.s. Manoa were 2,465 bales from Montreal. The local quotation is \$49.00 wholesale, for No. 2 Timothy, per ton, and at the rate of \$50.00 for single bales.

Herring—Export is coming up again in good shape. The steamers plying here took out 1,113 barrels to foreign markets this week, the s.s. H. H. McIntosh took 1,000 barrels to Gloucester, 950 of which were Scotch Pack; the schooner Bohemia took 1,247 barrels from Wood's Island to Gloucester, from S. Harris, and the Donald T. Silver also loading at Wood's Island, carried 1,238 barrels to Gloucester from the Bay of Islands Fisheries Co., total 4,598 barrels.

**St. Mary's Parish Honors Gallant Dead.**

**Impressive Ceremony of Memorial Unveiling—His Lordship the Bishop Present.**

The unveiling of a War Memorial is ever a solemn ceremony, and all who attended St. Mary's Church last evening for the dedication of a tablet to those of the parish who died in the Great War, were greatly moved by the impressiveness of the occasion. From an early hour people began to pour into the church until before long not even standing room could be found. The ceremony opened with the processional hymn, "Through the night of doubt and sorrow." The procession moved from the vestry to the chancel in the following order:—Men of the parish who fought in the Royal Naval Reserve of the Army, in uniform, and with war medals, the choir, the Rector, Rev. A. B. S. Stirling, and Revs. Dr. Bolt, A. Clayton, E. C. Earp, Dr. Facey, Canon Jewes, and finally His Lordship the Bishop, who was attended by Rev. H. L. Pike, carrying the crozier. Amongst those present in the chancel were His Excellency the Governor, Capt. P. Saltmarsh, A.D.C., Commander Kerr, R.N.R., Sir Richard and Lady Squires, President J. G. Higgins, Capt. G. J. Whitty and Lieut. C. F. Garland of the G.W.V.A. and many other prominent citizens. A naval Guard of Honour stood before the tablet, which was covered with the Union Jack. The Processional Hymn ended, the Rector officiated at Evening Prayers, assisted by the Rector of the Cathedral, while the special Lesson was read by Canon Bolt. Following the "Nunc Dimittis," "Great Ruler of the Nations" was sung, after which the soldiers and sailors preceded the clergy and Government to the tablet, which stands near the centre of the south side of the church, and Sergeant Rowland T. Williams, People's Warden, presented the Memorial on behalf of the congregation. It was received by the Governor on behalf of the Rector, and His Excellency, having drawn up the flag, read the names of those who had made the sacrifice, which are as follows:—Seaman Levi Jarrett, R.N.R., Seaman Harold A. Stanley, R.N.R., Capt. Charles St. Clair Strong, Sergt. Alexander Boddell, Sergt. William B. Knight, 2nd Lieut. Samuel J. Ebsary, Sergt. Hubert Edgar Ebsary, L. Corp. Nathaniel Cross, Private Frank Roberts, L. Corp. Frederick E. Snow, M.M., Private Ernest Leslie Chafe, Private Ira J. Gosse, Private Wilton Morgan, Corp. Alfred Stanley Cook, Private Edgar Charles Whitten, Private William Taylor, Private Samuel Learning, Sergt. Hubert V. Gullage, L. Corp. Herbert J. Bolbin, Private Wallace LeMessurier, Private Walter Andrews, Private John Squires, Private Moran Gallop, Private John Cook Barnes, R.A.M.C., Ehelbert Churchill, Private Reginald Parmenter, C.E.F.

Two minutes of impressive silence followed, during which the thoughts of all must have fled back to those dark days of anxiety when grim war laid waste the smiling land of France. The Dedication of the Memorial by the Bishop came next, and this was followed by the Dead March in Saul, played by the C.L.B. Band, the General Salute, and finally the plaintive notes of the "Last Post." During the singing of Hymn "God of the Living," floral tributes were placed at the base of the Tablet. The first was by the Prime Minister, then President Higgins, the G.W.V.A., next Messrs. Williams and Colton representing the soldiers and sailors of the Parish, Captain Eric Chafe, M.C., and others. It was appropriate that the sermon should be preached by the Rev. E. C. Earp, Rector of the old garrison church of St. Thomas's, who himself an army chaplain, and who had been badly gassed while bringing spiritual comfort to the men in the trenches. His text was, "The bricks are fallen down; but we will build with hewn stones"—Isaiah ix. 10. The sermon was a splendid one.

Rev. E. C. Earp said in part, "The war was so stupendous an event in human history that it is difficult to think of anything except in war terms. It has created a new watershed of history, and now we speak of events as happening before or after the war. To-night we thank God for victory. We praise Him for His Grace and favour to us; not because we fought as Britons, not because we outnumbered the Germans, but because the Cause was righteous, and the justice of the judge of all the earth was ours, in the battle and in the victory. The greatest asset in the allied armour was not in our invincible navy or in our gallant armies, but in the moral righteousness of the Cause.

The Bricks have fallen down. To-night in this service we are reminded of the awful cost of war. We can regain our lost assets in finance, we can recover devastated areas, we can rebuild the broken and the ruined towns. But who can give us back the men who fought and died? Who can bring again the boys who went

the French general went when he the bridge were the bodies of some of his soldiers who had given themselves and died to build the bridge. Men and women, you and I have crossed the bridge from war to peace from the awful hell of four years of bloodshed to all the promise of these days of reconstruction, and welded into the fabric of that bridge is the life blood of these very men of St. Mary's whose names we honour this night. Surely we should walk worthily of the peace they died to secure. Surely it remains for the living to complete the glorious work of the dead, surely if they thought it worth while to die for peace, we here in Newfoundland will think it worth while to live in peace with God and man.

"We will build with hewn stones." The future must be worthy of the sacrifice of these brave men. We will build on the hewn stones of suffering, of honour, of integrity, of nobleness walks in our ways again. And we have come into our heritage."

"Honour has come back as a king and paid his subject with a royal wage; and nobleness walks in our ways again. And we have come into our heritage."

To those who proudly mourn their dear ones let us say this. The suffering of these men remind us of the sacrifice of Christ. It binds us to the God of love and helps us to understand the love of Jesus. The death of the heroes on land and sea has given us a fuller realization of the Cross of Christ. The life of the world is in that Cross, the consolation of all who weep, the hope of all who die, the pledge of pardon for every sinner. The rows of little crosses on Flanders' Fields are overshadowed by the Cross of Calvary, and in the loving embrace of the stretched arms of Jesus your loved ones are at peace, and you yourselves are secure for this world and the next.

Let us arise and build. The bricks have fallen down, but we will build with hewn stones, Jesus Christ Himself being the chief corner stone.

We will remember them, these valiant hearts of our own kith and kin. We will honour them and seek to be worthy of them.

"For our dead are ours, and the Empire's." "Till the last red sun doth set, And may God in His terrible justice Deal with us, if we forget."

Hymn, "For all the Saints," was next sung and the C.L.B. Band played the Hallelujah Chorus. This was followed by the National Anthem, and Benediction, while "O God our help in ages past" was sung as a Recessional. The service throughout was impressive and inspiring, and Rector, Choirmaster Lloyd and choir are to be complimented. The Church arrangements were faultless; nothing had been over looked, and the ushers who looked after the visitors and the squad of little C.L.B. lads in uniform gave every satisfaction.

The Tablet, which measures 36 inches by 48 inches, was made by the Flour City Ornamental Iron Company of Minneapolis. It embodies two figures representing the army and navy, inserted in two panels at the top. Over these is the caribou's head. The Committee, Messrs. L. G. Chafe (chairman); E. Dawe, G. F. Pike, S. Bradbury, R. F. Williams, W. J. Pike, and J. Noonan are to be complimented. It cost in the vicinity of \$1000, and was entirely subscribed by members of St. Mary's Parish. The following is a copy of the inscription and the names.

**MURAL TABLET.**

Set up in memory of the men of St. Mary's Parish "who, at the call of King and Country, left all that was dear to them, endured hardship, faced danger, and finally passed out of the sight of men by the path of duty and self-sacrifice, giving up their lives that others might live in freedom"; and also to be a continual reminder of the devotion to duty of the men of the Parish who served in the Great War, and in the Providence of God returned.

"Let those who come after see that they be not forgotten."

—THE OBTAINING OF ADDITIONAL REVENUE WITHOUT ADDITIONAL TAXATION.

What this town needs is increased revenue without increased taxation. The third plank in my platform shows how this can be obtained. We should take outside drummers and other who come here, spend a week or so and then, like the Arab "fold their tents and silently steal away" after clearing up a goodly share of our hard earned money—money that really belongs to the St. John's citizen who has to pay up his taxes every half year at the risk of being disfranchised. **Voters, Attention!**

Citizens of St. John's, North, South, East and West. The following are a few of the many improvements which, if elected, and supported by your hearty co-operation, I hope to be instrumental in carrying to a successful issue.

**1. STREET CLEANING.**  
General clean up of every street and lane in the Municipal area of St. John's, mud to be taken off New Gower, Duckworth and Water Street, Long Bridge and South Side, placed on board Government Dredge, boat and deposited outside the entrance to Harbor.

**2. CABMEN'S HEADQUARTERS.**  
Cabmen's headquarters or waiting room, East, West and Central, properly equipped with Telephone and Quick Lunch counter, etc. Cabmen's official number to be placed on a card near Telephone for quick service.

**3. PUBLIC MEETINGS.**  
General meeting of Citizens at least three times a year or immediately before making City improvements or expenditure for any big undertaking, such as Bridge construction, Road Building, Sidewalks or Sewerage. Municipality are to get the best value for the least possible expenditure.

**4. POLICE PROTECTION.**  
Booths for policemen to be placed at intervals along our thoroughfares as at present they are absolutely unprotected from wind or weather, although the entire City is more or less dependant on them for protection.

**5. SHELTER FOR EMPLOYEES.**  
Temporary shed or shelter of some kind to be erected outside rear of City Hall for use of employees while waiting their turn for weekly payments.

**6. CRUELTY TO ANIMALS.**  
North side of Water Street only to be used by Street Car service during the months of January, February and March, no salt or sand to be used or thrown on South Side of said street, to be kept entirely free from any foreign matter detrimental to Cabmen, Truckmen or Private Teamsters or their horses.

**7. SANITARY CARTS.**  
Sanitary Cars to be removed from Streets or Lanes where at present they have to go out of their way practically a whole street or lane for one individual receptacle, which no doubt the owner of said property if approached in the proper way would gladly fall in line and connect up, naturally enhancing the value of the property one hundred per cent.

**8. DEPOSITING OF GARBAGE IN PUBLIC PLACES.**  
Discontinuing the depositing of Garbage above Job's Bridge until surveyed or a direct line given for a water way between Browning's and Job's Bridge; also the discontinuing of depositing Garbage in or near Rennie's River or Head of Quidi Vidi Lake.

**9. LOCATION OF FIRE ALARM BOXES.**  
Small Red Bells to be placed on every pole containing a Fire Alarm Box in order to locate instantly the Alarm Box in case of Fire, saving Time, Energy and probably life.

**10. NEW SERVICE ROUTE.**  
George's Street between Beck's Cove and Springdale Street to be opened for traffic to enable all Motors, Motor Trucks, Carts, Carriages, etc., to avoid being held up at Adelaide Street Junction while waiting for the transferring of passengers from one car to another, present system not satisfactory and extremely dangerous.

**11. SIDEWALKS.**  
To be placed on all the principal thoroughfares between Patrick Street, West End, via Gower, Duckworth Street and Holytown to St. Joseph's Chapel, extreme East, Water Street East to Lower Battery Road and West to Cross Roads, Long Bridge, Southside, East and West.

**12. CROSSINGS.**  
Wood Blocks consisting of Tar and Sand filling to be placed at intervals of 50 yards on all the principal streets in the City.  
(CLOSING).

**SIX PERSONS BURNED TO DEATH.**

On September 24th, about two hours before daylight, some persons at a wake in Northern Bay observed an alarming fire at Smooth Cove in the vicinity of that place, where there was an isolated dwelling belonging to David Walsh. On hastening to the spot they found the house burnt to the ground and no living person but themselves to be seen. They were aware that Walsh and his wife had gone to Low Point, some days previously, and it appears that they had committed their five children, one of whom was an infant of seven months old, to the care of a neighbours daughter about thirteen years of age named Gill, and it is supposed that the latter having had occasion during the night to give the infant some nourishment, lighted a lamp, and afterwards left it burning in the chamber, and that by some accident the lamp set fire to the house. The remains of the children and the girl were found among the ruins in such a position as to give the melancholy evidence that the unfortunate little sufferers had all perished in their beds.—Conception Bay Mercury, Oct. 7th, 1920.

**Prisoners Refuse to Go to Jail.**

An embarrassing situation arose in the Magistrate's Court this morning when a prisoner who had been convicted of petty larceny refused to accept the sentence of the magistrate. Two months' imprisonment had been imposed and the accused said he would not serve the full term. He was willing, he stated, to go down until Christmas and then serve the balance next spring. The police were on the point of enforcing the order of the Court when the prisoner left the dock and whispered in the Inspector General's ear. The I.G., in turn leaned over and said something to Judge Morris and both laughed heartily when they found the culprit desired to be out in time to attend the Quaker Girl in January to which all the town is going.

**Says It Was Agony to Straighten Up**

**Phillip Madden Was So Weak His Legs Gave Way Under Him.**

"No wonder people talk so much about Tanlac, for it certainly does everything that is claimed for it," said Phillip Madden, of Maddox Cove, near St. John's, N.F.  
"I suffered so much after eating that I got to where I was almost afraid to eat anything. My back hurt me a great deal too, and it was just agony for me to bend over and straighten up again. Finally I got so weak that my legs would give way under me."  
Tanlac has benefited me in every way and I eat, sleep, and feel better than I have in years. When my friends meet me now they stop and ask me what has made such a big change in me, and I'm glad to tell them it's Tanlac."  
Tanlac is sold by leading druggists everywhere.

**Sensational Sales.**

**Auction Records.**  
Still more remarkable, judged by the pecuniary result was the sale of Fonthill Abbey, Wiltshire, the seat of William Bekford, author of "Vathek." Interest in the sale was so great that in a few days 7,200 catalogues were sold at one guinea each, and there was spirited bidding during the thirty-three days it lasted. The Abbey realized about £330,000, and the contents more than £1,000,000.

Numerous lots were such as appeal to collectors, who have made many a sale stand out in the annals of auctioneering. At Setheby's, in 1907, no less than £13,985 was realized for books in a single day, and a few years later a one day's sale of pictures at Christie's produced £105,845.

There was a sensational scene at the same rooms in 1908, when the Holland pictures fetched £198,118. At that time this was the largest amount realized at any public sale of such works of art, but it has been surpassed since. The Young collection of pictures, sold at Christie's in 1910 brought £254,069.

Auctioneering records contain some big totals for stamps; but these are being dwarfed at the sales of the Ferrary collection in Paris. This vast accumulation was made by the late Phillip von Ferrary, who, at the outbreak of war, transferred himself to Switzerland. On his death in 1917 he bequeathed his collection, which remained in Paris, to the Berlin Postal Museum. The French Government, however, sequestered it as enemy property, and is now disposing of it at a series of auction sales.

At the first, which took place in June, more than a million and a quarter francs was realized, and it is estimated that the entire collection will fetch about £1,000,000.

**STORES OPEN.**—The Water Street Stores are open for the Christmas season to-night. The windows have all been decorated and some of them present a very pleasing appearance.

**RECOGNITION.**  
The care of the teeth is now recognized as a necessity. In fact the large hospitals all over the world examine the patients' teeth and where it is possible put them in good condition before attempting a surgical operation. Experience has shown that the patient has a better chance for recovery with a clean healthy mouth than without it. This ought to convince the most skeptical that care of the teeth is requisite to health.

Monday, December 12, 1921.

House of Assembly.

The House of Assembly meets at three o'clock this afternoon. There is no business on the Order Sheet, as all the business which was on the Order Paper of August 12th, when the House adjourned, was finally disposed of before adjournment. It will be remembered that the adjournment was taken, so that in the event of the fishermen not being able to sell their fish or the merchants not being able to market the fish, the serious problem which that situation would have developed could be dealt with by the Legislature as a body, instead of by the Executive Government. The fish situation has worked out satisfactorily. There is less fish in the hands of fishermen unsold as at this date than in any year during the last ten or fifteen years. There is likewise less fish in the hands of merchants. This special consideration which both the Government and Opposition had in view when the House adjourned last August instead of proroguing having worked out satisfactorily in the ordinary course of business transactions without Legislative interference. The Prime Minister stated that it was not his intention to introduce any new legislation at this adjournment. He said that it was the intention to meet the Legislature in February, by which time he hoped to have the accounts for the first half of the current fiscal year and definite information could be given in connection with the Fishery Supply Account and other matters upon which accurate information would not be available until after the 31st day of December. Sir Richard Squires says that when in May last he delivered the Budget Speech on behalf of the Minister of Finance and Customs, who was then ill, he estimated that the Colony would on the first day of July have a credit balance on Surplus Trust Account of about \$73,000. He says that he has not yet seen the completed figures, as it usually takes six or seven months after the close of the year to have the Colony's accounts finalized, but that work is being rapidly pressed forward, and he has recently been informed by the Auditor General that the amount which is now expected to be to the credit of that account as at the first day of July is \$167,000, or \$94,000 better than the Prime Minister's estimate.

Sir Richard also stated that the total Customs revenue to date is fully up to the Estimates which he submitted in the Budget Speech. The Premier stated that the basis of taking the year's revenue and dividing it by twelve and estimating it on the basis of so much a month was not a sound practice; that the only safe way in which to calculate revenue for any part of a fiscal year was on a basis of comparison of the total revenue which had been collected during the corresponding period in previous years. This, he said, was due to general trade and transportation conditions. He had a statement prepared in this way

going back to the year 1913. For the first five months of the fiscal years from 1913-1921 the amount of Customs revenue received amounted to 43.18 per cent of the total Customs revenue received for the whole fiscal year. The amount of revenue received to the 30th day of November, 1921, representing the corresponding period of five months, works out at about 44 per cent of the total Customs revenue estimated to be received for the entire fiscal year. It was thought that the revenue for the past five months would be substantially less than the revenue for the same period of the preceding year. There has, however, been no substantial drop. The revenue from July 1st, 1920, to December 10, 1920, collected at St. John's, amounted to \$2,554,479.51. The amount collected for the corresponding period of 1921 is \$2,551,586.69. Definite information as to the returns from the outports up to the tenth of December are naturally not available, and, as a matter of fact, the returns up to the 30th day of November are only partially in. The Prime Minister stated that immediately after the reading of the Minutes this afternoon he proposed to express the sorrow of the House in the death of the Hon. John Browning, a member of the Legislative Council who passed away during adjournment, and he took it for granted that this motion would be seconded by Sir Michael Cashin, the leader of the Opposition. After that he hoped to make a general statement covering the facts above quoted and other matters of general interest.

St. George's Coal Fields, Ltd.

MINING OPERATIONS WILL BE STARTED IN SPRING.

Amongst those who arrived home by Saturday's express was Mr. T. J. Freeman, Secretary-Treasurer of the St. George's Coal Fields, Ltd., Mr. Freeman has come from London, Eng., via New York, crossing the ocean on S.S. Berangaria late Imperator. During his stay he has succeeded in interesting a group of financial men with interests in Europe and America, who have made arrangements to thoroughly prospect and operate on an extensive scale the carboniferous areas owned by the St. George's Coal Fields, Ltd. Speaking to a Telegram reporter Mr. Freeman said that it was difficult to get anyone interested in such business as he was engaged upon due to the conditions brought about by unemployment and the uncertainty of settlement of the Irish question, the latter prevailing up to a short while ago. Mr. Freeman states that the syndicate he is dealing with is fully conversant with the coal areas, as they had their information from engineers who had some time ago been over the property. It is composed of men who are colliery owners and who have large interests in the coal fields in the counties of Northumberland and Durham. "The syndicate proposes to operate on a large scale," said Mr. Freeman. "They plan that by building a broad gauge railroad from the property to LaPointe they will establish a coaling station for transatlantic steamships, which will be more convenient than Sydney. They also propose, in order to supply local needs, building a spur line from the mines to connect with the Reid Co's railroad. Owing to the intensity of the season nothing will be done this year, but in the early spring a party of engineers will arrive from London to make preliminary surveys for the railroads and the layout of the plant. Mr. Freeman said he expected to go to London again in the course of a month to finalize the financial arrangements. This proposition will mean the expenditure of several millions of dollars and the giving of employment to a large number of men. If the Humberbrough proposition materializes there is no doubt that in a short while there will be a great boon on the West Coast."

Not the Majestic.

We are authorized to state that the footnote under the Majestic ad in this morning's News, to the effect that there would be no performance in that Theatre to-morrow night, is incorrect. The meeting of Mayor Morris will take place in the Casino and not the Majestic.—adv.11

Labrador Boundary Claim.

READY FOR EXCHANGE IN FEBRUARY.

Newfoundland's statement of claim in reference to the Labrador Boundary will be ready by February, Hon. W. R. Warren, Minister of Justice told a Telegram reporter this morning. Mr. Warren returned by Saturday's express from a visit to London in connection with this matter. He took with him all the documents that had been assembled since last year, and the replies to questions submitted by the lawyers handling our case on the other side. Mr. Warren informed our reporter that after numerous consultations the draft case was licked into shape. So far all the evidence upon which the claims are based has not been submitted. As Sir Patrick McGrath, who has been doing research work amongst the documents in the Archives at Ottawa has not yet submitted his report, when his collection is received, our case will be ready for simultaneous exchange with Canada. It has been agreed between us and the neighbouring Dominion that such exchange would take place, each showing the other on what grounds the claim is based. Whether the Dominion of Canada will have their case ready for exchange in February Hon. Mr. Warren was not certain. In this connection whilst in England he saw Hon. C. J. Doherty, Minister of Justice of Canada who had been at the League of Nations session at Geneva. Mr. Warren urged the necessity of prompt action, unfortunately just a week prior to the meeting Hon. Mr. Doherty had resigned his position so that he could not do anything in the matter. It is probable that it will take the new ministry in Canada some time to pick up the threads of the case and it is not expected that the exchange of cases will take place when ours is ready in February next.

McMurdo's Store News.

MONDAY, Dec. 12. Our display of French Ivory (the Genuine Article) this year has been very carefully selected, and will be found a really nice assortment. Among the articles listed we note: Napkin Rings, Hair Pins, Manicure, and Brush and Comb Trays, Ladies' and Men's Combs, Files, Perfume Bottles, Vanity Boxes, and Mirrors. As we have said, these items are all Genuine French Ivory, and (considering the extra taxes) the prices are reasonable. See our window or still better come in and look at these items.

More Bodies Recovered.

A message was received by the Shipping Department on Saturday evening from Magistrate Vatcher, stating that two other bodies of victims of the Caplin Cove tragedy had been recovered, making four so far accounted for. Arrangements were made to have the Cabot bring the corpses to Greenspond for burial at 8 o'clock Saturday night. None of the bodies recovered have as yet been identified.

Accidentally Shot.

Mr. M. S. Sullivan, M.H.A. received a message Saturday afternoon from D. Leonard of St. Leonard's stating that Matthew Lake of Darby's Harbor had accidentally shot himself on Saturday morning. The victim of the tragedy only lived a few minutes after the accident.

The Humber Proposition

MR. REID HAS NOTHING TO SAY.

H. D. Reid, President of the Reid Newfoundland Company, told the Telegram this morning that until the matter had received the consideration of the Government, he could say nothing with reference to the Humber proposition. He said that he was preparing a formal proposal to lay before the Government to-day. Mr. Reid has been in England for several months in connection with the exploitation of the Humber areas and has had several conferences with English capitalists. The schemes, which is now to be discussed, is entirely different from that which Mr. Blacksted laid before the Government during the early part of the year. Three agents of the English capitalists accompanied Mr. Reid to Newfoundland. Two of these, Messrs. J. M. Alexander and H. E. Whitehouse, left the express at Deer Lake for the purpose of going over the areas concerned, and the third, Mr. H. S. Waite is in town and is at present staying at the Cochrane House. It is generally understood that the proposition is one likely to confer considerable benefits upon the country, and it should therefore receive the earnest consideration of the Government.

Road De Luxe Charges.

HEARING BEGINS ON FRIDAY NEXT. Arising out of the enquiry into the Road-de-Luxe scandal action was taken on Saturday with regard to the contractor, who had charge of the work, and one of his assistants. Both appeared before Magistrate Morris this morning. Mr. E. L. Carter represented the prosecution and W. J. Higgins, K.C., appeared for the accused. It was ordered that the preliminary investigation take place on Friday at 4.30 p.m. Bail of \$1000 and a surety of \$500 each was allowed. The charge was that on divers occasions between June 20th and August 28th, 1921, the accused did unlawfully obtain from His Majesty the King, the sum of \$120 by means of certain false pretences. The charge is preferred by Mr. W. B. Jennings, Minister of Public Works.

Vagrants Held.

Two Portuguese, who some time ago landed away in a vessel and were found in Newfoundland, appeared before Judge Morris this morning, charged with vagrancy. They had just served a sentence of 10 days on a similar charge. One complained of being sick, and they were both ordered to be held until the Portuguese Consul could be communicated with.

Disabled Ship Reported.

The Minister of Shipping is in receipt of a message from Race Race reporting that the S.S. "Geldis" is 600 miles East of St. John's in a disabled condition and in need of assistance. The Department got in touch with Capt. Couch of the Daisy ordering him to the scene. It was, however, found that owing to a small bunk accumulator the ship could not carry coal enough for such a long tow.

Leaving for Winnipeg.

R. C. Morgan, General Manager of the Railway, will leave on Thursday's express for Winnipeg, where he will spend Christmas. Morgan expects to be absent about three weeks. Ever stuck his return to his post as General Manager, he has been investigating the various methods by which the railway may be run economically, and has so far, been quite successful in his efforts to give service with the minimum of expense.

The Political Situation.

With the opening of the Legislature this afternoon, after the long adjournment, the political situation will naturally be the centre on which all eyes are focussed. The Government organ, the advocate, has lately been raving in its well known manner, on what is called "Wigs on the Green in the Opposition Camp," but the old Lady of Duckworth Street has yet a lot to learn. The Opposition party held a meeting on Saturday night, but matters of policy only were discussed. The Government will probably attempt to prorogue the House as soon as possible, and this afternoon will probably show just how soon this may be.

Another Vessel Lost.

THE "PERCY WELLS" MISSING. Very little hope is held out of ever hearing from the three-masted schooner "Percy Wells," owned by the Horwood Lumber Co. The vessel left New York on Sept. 25th for this port with a cargo of hard coal. She also carried a deck load. The schooner Aviator, owned by the Gorton Pew Co. towed into Boston, has reported that on October 2nd she encountered a terrific storm, during which the spars went by the board. It is thought that the Percy Wells was also caught in the same gale. The Percy Wells was commisioned in March, and under Capt. Hanan, loaded molasses at Barbados for Campbellton, N.B. At the latter port she loaded lumber for New York, from where she loaded coal for Dog Bay. She arrived at New York from Dog Bay with a load of lumber, and then loaded with hard coal on this last voyage. The Percy Wells was a staunch vessel, well found. She was built at Hare Bay in 1919 by Thos. Wells for the Horwood Lumber Co. Her crew consisted of six men all told. The captain is a native of the West Coast, but resided in the city with his family. The mate, Solomon French, is a native of Bay Roberts. He is a married man with a family. The other members of the crew are, Luke Feltham, cook; Chas. Brown, sailor; Peter Nottal, and a man named Snow of Newfoundland's Bay.

Grocery Store Entered.

Burglars recently forced an entrance to the shop of Mr. Brown, grocer, at the Cross Roads, but so far as can be ascertained, did not get away with any goods. The police are investigating the matter. Latterly, there has been a cessation in the epidemic of burglaries which were once so prevalent, and the police deserve great credit for the success which rewarded their investigations.

Shipping Notes.

Schooner Freedom left Turk's Island, yesterday for this port. S.S. Sabie I was expected to arrive from North Sydney this forenoon, but is probably delayed by the storm. The ship after discharging will proceed to Bay of Islands to load herring for Halifax. The Sabie is scheduled to leave Halifax for this port on December 26th. S.S. Rosalind leaves New York on Wednesday for this port. The ship is due here on Monday, 19th inst. Schooner Fulton sailed from Fogo on Saturday with 3000 qts. of fish for Oporto, shipped by Earle and Sons. Schooner Felle (Danish) has cleared for Oporto from St. Lawrence with 2727 qts. fish, shipped by A. E. Hickman. Schooner Winifred, Capt. Hobbs, has cleared from Boane Bay for Gibraltar with 3,462 qts. codfish, shipped by A. Lindsay.

Big Demand for Fish. COLD STORAGE CO. MAKES BIG SHIPMENTS. The demand for the various fish products of the Newfoundland Atlantic Fisheries Company is steadily increasing and some big shipments have recently gone forward. By the S.S. Bonholm, 500 boxes of specially smoked herrings will be sent to the Boston market and 5000 boxes of filets were sent to the Boston market by S.S. Digby on her last trip from this port. Trade in Boston in these fish products is very good at present and the Cold Storage Co's staff has as much work as it can handle preparing the various shipments. The new product of fish sausage, is now being turned out rapidly and is going well. These sausages are labelled Caribou Brand. By the Digby, 200 tons of large frozen salmon will be sent out to England to meet the requirements of the Christmas season. There is a big demand for these fish and prices are on the increase. A sample case of fifty one-pound packets of smoked caplin were recently sent to the Company's directors and a sample was sent to Lord Morris who commented very favourably on the product and predicted a big future for it.

C. M. B. C. The class met yesterday afternoon in the Synod building and was largely attended. The series of lectures now being given by the Chairman on the subject of Holy Matrimony are proving very attractive, and are both interesting and helpful. Until a decade or so ago this subject did not call for any special treatment, but the ease with which marriage were contracted during the Great War and the alarming increase of divorce in other countries has placed the problems of marriage in the forefront of those requiring immediate attention. The boldness and frankness with which these lectures are given must certainly be of immeasurable assistance to the homemakers of the future.

**HIS DIARY.**

December 10th.—All the talk is to-day of the air flight that Mr. Cotton and I had to descend at Deer Lake, which I am greatly vexed, because my letters by air mail will be greatly delayed. By railroad come the Coaker, that is sometimes called the Great Pooh Bah, and with him the Great Pooh Bah, that is Minister of Justice, and Mr. Reid, that is President of the railroad. To walk at night, the day being invigorating, and I greatly enjoyed thereby. Comes Miller, and in your scandal in my ear, whereas, I did tell him that he should close his mouth, and go about his business, there being overmuch of his talk in the town.

December 11th (Lord's Day).—To-day with my wife of a fine joint and I greatly pleased, as she tells me it costs only 30 cents the pound which is much below the charge that the members make here in the city. Comes Mr. O'Reilly to tell me how a local journalist that is looking always for a scoop, did go to meet the express which were Mr. Coaker and others, whom he did interview, and after all his trouble, he could not get out a special edition to print the interview, and was greatly vexed thereat. A most amusing tale. Much talk of what will take place when the House meets to-morrow and some do say that John Crosbie will go as an independent, but he himself will say whether the one way or the other.

**MAIL PLANE HAS BAD TIME.**

Engine trouble forced Major F. S. Cotton and Capt. V. S. Bennett to descend at Deer Lake Beach from a height of 5,000 feet, two hours after they left Botwood for Halifax by aeroplane. News of the forced landing was received by the Telegram shortly before press hour Saturday, but fuller particulars came too late for insertion in the evening edition. According to Major Cotton, good progress was made until Millerton Junction was passed at 11:16 a.m. From then on, a heavy head wind was encountered. When Deer Lake station was passed the engine began to run unevenly and as weather conditions were getting bad, the aviators circled back and landed on a strip of frozen beach at the east end of Deer Lake. The radiator froze and had to be thawed out and the engine had to undergo an overhauling. Several parts were required from Botwood, and the plane may get away to-day.

**TODAY'S MESSAGES.**

**PLAYED A LONE HAND.**  
MOOSEJAW, Sask., Dec. 11.—A lone hand held up a Dominion express messenger on Canadian Pacific train No. 2, after it left here Saturday night, and cut open the safe with an axe, but got nothing of value. The hand then jumped from train and escaped.

**BUSINESS MAN DEAD.**  
LONDON, Dec. 11.—John McClary, founder and President of the McClary Manufacturing Co. he died, aged 93, after a few hours illness.

**THE PRINCE AT LUCKNOW.**  
LONDON, Dec. 11.—A Prince's call to Lucknow, the Prince of Wales's great reception. A strike had been proclaimed by a disloyal element but the population clearly disregarded it.

**LORD CHANCELLOR DEAD.**  
LONDON, Dec. 11.—The Earl of Halsbury who was Lord High Chancellor from 1895 to 1905 in Lord Salisbury's and A. J. Balfour's Ministries died here yesterday.

**DE VALERA TAKES NEW STAND.**  
LONDON, Dec. 12.—The Daily News says that De Valera is against his stand with regard to the Peace Treaty. He will resume his professorship in Maynooth College and not lead an opposition in the Irish Parliament.

**CONTUMACIOUS ULSTER.**  
BELFAST, Dec. 12.—The Ulster Unionist Labor Association on Saturday demanded the unconditional release of all Protestants, who are now in jail, charged with offences in connection with the present state of Ireland. There were numerous shooting affairs in various Belfast districts last night, but one man wounded was the only casualty. Considerable bitterness over the Irish Agreement was evinced Saturday night at various social gatherings in Ulster, particularly noticeable where such gatherings returned to acknowledge loyal toasts.

**Obituary.**

**JAMES WARREN.**  
There passed away at Harbor Grace, on Friday last, one of its best known citizens in the person of Mr. James Warren, carriage builder and painter. As a citizen of Harbor Grace Mr. Warren was always foremost in any undertaking for the benefit of the town, and as a society and church member he took a keen interest in their welfare, and his advice was always sought and gladly given. Of a quiet but thoughtful, kindly disposition, Mr. Warren won the esteem and respect of every citizen. He was also well known in this city. He returned home on Thursday night after spending a few days here, and the news of his sudden death was quite a shock to his friends. Mr. Warren, although nearly four score years of age, with the buoyancy of youth had a complete outfit of new machinery installed last year, all being driven by electricity. He leaves one daughter, Mrs. Dr. Goodwin, of Harbor Grace, and four sons, one of whom Capt. Ernest, is master of a large ship sailing between the Old Country and the Antipodes; the others, Percie, Charles and James, residing in the United States. Mr. Wm. Warren of Hr. Grace is a brother. The Telegram begs to extend sincere sympathy.

**MISS URSULA PINE.**  
There passed away at her home, 175 LeMarchant Road, on Saturday morning, after a lingering illness, Ursula, daughter of Mr. J. J. Pine, of Messrs. Hickman & Co's. Ursula, as she was familiarly called by her friends, was of a quiet and loving disposition, and to know her was to love her. Hence she made lots of friends. It was in the home however, that she was loved best, being the favourite of the family, ever ready and thoughtfully rendering little acts of kindnesses that were always appreciated by loving sisters and brothers. Heartfelt sympathy will go out to Mr. and Mrs. Pine in their bereavement, as this is the second time within six months that the grim reaper has visited their loving family. Left to mourn, beside father and mother are four brothers and three sisters, Dolph, of St. Pierre; Frank, agent of Hickman & Co's at Greece; Andy, operator at English Harbor West; Bertha, at J. Bindon's, and Mary at home—all of whom keenly feel the loss of a loved and loving daughter and sister. The Telegram tenders its sympathy to the bereaved family.

**THOMAS TURPIN.**  
There died at St. Lawrence on the 2nd inst., a conspicuous old landmark in the person of Thomas Turpin, who peacefully passed away at the ripe old age of 98 years. The deceased was a man of wonderful vitality, and although almost having attained the century mark, he was quite hale and hearty up to twenty-four hours before his death, and could chop wood and do other work with as much precision and alertness as a man of the ordinary period of life. He was, during his lifetime an industrious and hard-working fisherman, and a genuine specimen of the old stock, who prosecuted this industry during the pioneer days of the last century. What was most remarkable about him he was never known to be sick during his whole life, defective hearing being the only serious impediment during the closing years of his life. For a man of an illiterate mind he possessed an extraordinary memory, and could recount with minute exactness the principal events of the last century. He was the father of ten children who have large families; the grandfather of seventy-five and the great-grandfather of seventy-two children, all of whom nearly survive. His immediate relations left to mourn are five sons and three daughters, with whom the writer in common with numerous other friends sympathize in their sad bereavement.—M.J.M.  
St. Lawrence, Dec. 5, 1921.

**BRIDE McNEIL.**  
The Angel of Death has been for some time hovering over the home of Mr. and Mrs. Peter McNeil, Trepassay, and on Friday, the 2nd inst., it descended, and robbed from its circle their darling daughter Bride, at the early age of sixteen years, which is another striking proof of how death deals at random. For many months the deceased had been suffering from a disease which despite medical skill and tender nursing of devoted parents could not be stayed, and on the above mentioned date her pure soul, fortified by the rites of the Holy Church took its flight heavenwards. Sad it is to see one so young, so full of life and joy snatched off just when life seemed sweetest. But God in His wisdom knoweth what is best; for who can tell how youthful feet may range? Amiable and kindly in disposition she will be missed by many friends who will not fail to breathe a prayer for her who has departed in the spring-time of life. By none will she be missed as by her grief-stricken parents who will ever "sigh for the sound of a voice that is still." Besides her sorrowing parents there are left to mourn three sisters and two brothers, to all of whom deepest sympathy is offered. "In that great cloister's stillness and seclusion, By guardian angels led, Safe from temptation, safe from sin's pollution, She lives, who we call dead."

**Heart's Content Dissatisfied.**  
 Public opinion has been stirred up here, writes a correspondent from Heart's Content, by the substitution of a tri-weekly branch line service for the daily railway service. Petitions are being signed on the South side of Trinity Bay praying for a resumption of the daily service and a determined fight will be made for it. Trinity Bay South will be affected far more than any other place, as nearly all the other bays have steamship connections throughout the winter. No steamer enters Trinity Bay South after December, and the danger of complete isolation is very great. Every day since the tri-weekly service came into being an engine with coal cars have passed through. It would be quite easy for that engine to take a passenger and mail car. Something should be done at once, and it is up to the representatives of the district, Messrs. Halfyard, Targett and Guppy to interest themselves in this important matter at once.

**JEWELLERY FOR CHRISTMAS.**

Give Jewellery because no other form of gift so well expresses the glorious sentiment of Christmas. What so greatly prized by a lady as a dainty Brooch, a Pendant, a Bracelet, a Vanity Case or a beautiful designed Ring? What so enduring to give a man as a set of Cuff Links, a Cigarette Case, a Waldemar or a Scarf Pin. Give Jewellery—and give Jewellery that carries with it the assurance of Quality and Permanence. Choose it from the store where the selection is always better, the variety larger and it is sold to you with the one idea of making you an absolutely satisfied customer. Have you thought of a Bracelet Watch for that very particular gift? You will enjoy looking over the really dependable, fully guaranteed and handsome ones we are showing this season. All of them attractively cased and some selling as low as \$28.00; or maybe a Solid Gold Pendant and Chain would appeal to you. The assortment we have for your approval in this line is particularly good and they range in price from \$8.00 up.

**A Learned Disquisition on Governments and Politicians.**

"Observer" Sees a Remedy For All Our Ills in Confederation.

The Evening Telegram. The Hon. Mr. St. John—May I through your columns speak to the electors of the party on some subjects which perhaps would interest them. I am a native of Terra Nova, and have always been interested in its development and progress. I am also interested in government, as good government is the basis of all progress. I am interested in the rapid progress both in the industrial and agricultural fields. However, I do not think that I say be taken in a literal sense entirely, any more than the word "economic" in its general sense of matters economic. One must speak of its political side as well. In the reasonable fusion of the two I wish to be understood. Our nation is an entity—a large family whose destiny is progress and enlightenment. There are three factors contributing to the realization of this destiny: (1) An energetic, intelligent and progressive government. (2) Natural wealth, and (3) A Democratic Government. If one or more of these factors are lacking, the nation falls to languish, it falls short of its destiny, and retrogrades. This country was colonized in 1629. There were attempts at colonization before that, but it was that date that marked the beginning of Newfoundland history—that is 338 years ago. Our English ancestors came to prosecute the codfishery, with which its waters teemed. Other people came also, attracted by the same lure. Many left the precarious and unprofitable fishery of the north and built trading posts and settlements in this country, but the aboriginal Indians were driven inland where they gradually became extinct before the invasion of the white invaders. This history by the way, the Pilgrims, feeling from religious persecution in the Old World took their "Mayflower" and the germinal ideas of Democracy with them on their voyage to North America in 1620, and began their history. James Carter, in 1535, sailed up the St. Lawrence and began the colonization of Canada. Newfoundland has not kept pace. There are very significant events showing that Canada, the United States and Newfoundland are opening up to the civilization of the Old World at virtually the same time. Our country has not kept pace with its neighbours in progress and development. For this statement there need be no apology, a casual glance around us and we see the glaring truth of it. The cause must be sought in one or more of the factors that make for development—people, government or natural wealth. (1) Its people: In the main of English and Irish descent. They are of the same race as those who have made the United States the richest and most compact nation on the face of the earth, who have made Canada the most prairie wilderness—into smiling corn fields, rich cities, wonderful industries, an inexhaustible source of national wealth; the Anglo-Saxon race with astonishing energy, initiative and great genius, an uncon-

quered good of the greatest numbers, it has failed here. This is no mere assertion, it is the logic of events, it is the truth. When a system of government fails after 300 years to materially improve the condition of the governed, it is time for the abolition of that system. Newfoundland has an area of 42,200 square miles, and a population of approximately 250,000 inhabitants. Toronto has a population of over 800,000. Why this great disproportion? It can be explained in one word—ignorance. Our people have left the country, and half of our present population are in Toronto. When a man leaves his native land, he must have some very good reason, and here the reason is not hard to find. He could subsist here, he had to leave. Ignorance the Tool of Politicians.

The policy of the governments of this country has been one of isolation. It has striven to disconnect itself from the other parts of the new world. In isolation is stagnation and ruin. Most—not all—of its politicians have tried and to a great extent have succeeded in keeping the people in ignorance for their own self-enlightenment. Ignorance has always been the sovereign tool of the political exploiter and the despot. Russia is a standing example. The demagogue's greatest asset is the ignorance of the electorate; with a few catch-phrases he can win all within hearing of his side. With a few empty words and a well-timed joke he can turn men's heads—and votes. This condition is a direct result of a lack of general education on the part of the electors. Our educational system is a standing disgrace to a people calling themselves free. If my readers require a proof of this statement let them visit some of the more isolated parts of the island. On the West Coast, from Cape Norman to Cape Ray, illiteracy is almost general. From Cape Ray to Cape Race, with the exception of some of the more important coast towns the condition is as bad. Along the East Coast, I speak conservatively when I say ten per cent. of our people are illiterate in this section. (I wish not to be misunderstood. I cast no slur on individuals when I speak of illiteracy. I discuss existing facts and not the individual misfortune). The oldest representative of New World civilization has not an University! Its highest dedication to the muses is a High School. A native of Terra Nova must go to Canada or America to get a qualification as Doctor or Lawyer, or what profession soever. This is not the most reprehensible feature. No effort is being made to improve conditions. We have a Department of Education, true, we require also a Department of Bell-Ringers to wake the Department of Education. Ignorance is the greatest deterrent to progress; general academic enlightenment its greatest asset.

An Anachronism. Again, it is a generally recognized fact by political economists that there is also a deficiency of national sentiment among our people. We think in terms of districts or towns, and not in terms of the whole country. Our people seem not to be interested in general development, unless it is also directly local, and politicians work on this sentiment; their platforms are local, and the promise of a grant of money to be spent in a community will generally bring more

—By Bud Fisher

without a railroad system, no modern nation can compete and take its true place in civilization. I have said that we are an isolated people; and our railroad system proves this in a great measure. Our narrow gauge railway is an anachronism; the introduction of a tallow candle into an apartment brilliant with electricity. Mr. R. G. Reid came to Newfoundland to construct a railroad, and with all due deference to that pioneer we have a pig track instead—the wonder and dismay of travellers coming to the country. In England and Scotland and in fact any European country, such a gauge is perhaps suited. They are all compact, populous countries; freights are transferred only short distances in short periods of time. This requires small cars and small engines. In Newfoundland our overland trade with Canada must go on three freights per week. This country can support 15,000,000 people; suppose we had that population and 5,000,000 were industrial workers, how could our produce be transferred from coast to coast with such antique railroad facilities? A Tariff Barrier. See another proof of our isolation in our trade barriers. The present Government has erected a solid wall between this country and Canada, a tariff barrier of 70 per cent., and this is protection! Too unfortunate we haven't a Cobden to tell our political geniuses what asses they are. This is isolation with a vengeance. We are to-day 100 dollars per capita. In Canada, I believe, the per capita tax is 108 dollars. You say that is in favour of this country. Not so. Newfoundlanders are paying besides an inefficiency tax of 100 dollars per capita. In Canada people are taxed for what they have, hold and enjoy. In this country we pay for what we never see. You are paying for your children's education. Do they receive it? They do not and cannot. The Government makes it impossible—I speak of Government as an entity, and not as a party—We are paying for railroads that are not such. We are paying for political representatives who are as dumb in Parliamentary proceedings as the janitor employed there. We are paying for efficiency, and receive inefficiency. In the nature of things, governments will be more or less incompetent and unfitted to meet the demands of the age in which they find themselves. Our governments have never served the age in which they found themselves, but generally the succeeding one and in consequence have barely kept within balling distance of neighbouring states.

Parochial Sentiments. There is also a deficiency of national sentiment among our people. We think in terms of districts or towns, and not in terms of the whole country. Our people seem not to be interested in general development, unless it is also directly local, and politicians work on this sentiment; their platforms are local, and the promise of a grant of money to be spent in a community will generally bring more

on the part of the electors will surely exercise it.

I thank the Editor for space.

Sincerely,  
OBSERVER.

**Should Stop Waste.**

The herring fishery has been good at Bay of Islands the past two weeks and the people engaged in the industry are likely to have a prosperous season. Business has improved there wonderfully since the 20th of November and for the first time in two years every-body is buying all they require in the food line, and all the store hands are as busy as they can be. There were four of Harris's vessels from Grand Bank at Bay of Islands the past week loading salt bulk herring for the United States Market. One of Hollett's is also there loading. The price of the herring from the net is from \$2.00 to \$2.50 a barrel. There are two New York firms Agents at Curling buying Scotch Pack at \$14.00 a barrel, and are taking no herring under ten inches in length to fill the barrels. This is leading to a terrible waste of the herring that are netted, as about 40 per cent. are thrown away dead as too small to put in the barrel of Scotch Pack. The shore is strewn with scores of barrels of dead condemned herring from Humbermouth to Melven's and the people who value the herring fishing are disgusted that this practice is not stopped by the authorities. These herring are good food and packed as "small" would fetch at least \$5.00 to \$7.00 a barrel in Nova Scotia and the United States. It is a criminal waste of good fish food, and if there is no law on the Statute Book to prevent the practice, one should be enacted at the first opportunity.—Trade Review.

The most captivating and useful Men's Winter Vests have now been greatly reduced at BISHOP'S. Any one of these would make a most acceptable man's gift and the dramatic reductions place high class Wool Vests within reach of every purse. A new Vest is sometimes the means of making an old suit take on a new appearance and give many months' longer wear.

To ¼ cup heavy cream add 2 tablespoons vinegar, 2 teaspoons salt, 2 tablespoons finely chopped beets, 1 tablespoon finely chopped mint and ½ teaspoon paprika.

quered race. The natives of this country have not deteriorated, they have not become effete physically or mentally, they have become bankrupt of ideas, they are the same race in another country. (2) National wealth: apart from the codfishery, which is but too well known, have we any other resources on which to draw. I will quote from the text-books: "The rocks around Notre Dame Bay are rich in metals and have yielded large quantities of copper. Bell Island in Conception Bay is extremely rich in iron ore and there may be other veins of equal value as yet undiscovered. On the West Coast, three distinct coalfields are known to exist of considerable extent, and containing coal of good quality." And again: "In the Codroy Valley there are 280 square miles of good agricultural land. Gold, nickel and antimony are mixed with some of the other metals. Asbestos is found around Bay of Islands. Petroleum oil is found at Parson's Pond and other places. Newfoundland lies in the natural forest belt of North America, and in the river valleys there are wide stretches of good timber. The Exploits and Humber rivers have tremendous water force possibilities." Now, the above are facts, the results of investigation and research through the country. They mean that our natural wealth is lying dormant, that we have as yet untouched resources, awaiting the plough and the pick-axe of farmer and miner. Indeed if our fisheries failed entirely, this country could support ten times its present population if only our hidden wealth were brought to the light of day.

**Governments to Blame.**

Then the onus of blame for Terra Nova's undevelopment must be laid at the doors of the government of the country. If governments exist for the

**There's No Getting Around Jeff's Argument.**

purpose of the governed, it is time for the abolition of that system. Newfoundland has an area of 42,200 square miles, and a population of approximately 250,000 inhabitants. Toronto has a population of over 800,000. Why this great disproportion? It can be explained in one word—ignorance. Our people have left the country, and half of our present population are in Toronto. When a man leaves his native land, he must have some very good reason, and here the reason is not hard to find. He could subsist here, he had to leave. Ignorance the Tool of Politicians.

**Should Stop Waste.**

# Fish Sausages

We beg to state that we have now installed modern machinery which will enable us to cope with the increasing demand for our latest product--Fish Sausages. Stores may now order their requirements, and we hereby guarantee to supply a wholesome, tasty, cheap and pure article, as testified by several of the local doctors.

We also take the opportunity of warning the public that there are imitations now being put on the market, and we would impress upon them to insist on seeing our registered label.

## Microbes Cleverer Than Men.

MANY INVENTIONS "CRIBBED" FROM NATURE.

Many of man's most admired inventions are simply imitations of things which Nature has been doing for hundreds of thousands of years. The telephone, for example, is "cribbed" from the human ear and vocal cords. We hear sounds by means of the drum of the ear, a tightly stretched membrane which is set vibrating by the sound waves which strike upon it.

The telephone transmitter, the part into which you speak, is a very perfect model of the ear. The drum is represented by the carbon disc. The ear communicates sounds to the brain by means of nerves; the transmitter sends them over the wires.

A Human Telephone.

The receiver—that is, the part which you place to your ear—speaks to you in just the same way as your own vocal speak. In everyone's throat there is a pair of folds which are tightly stretched in the act of speaking. Air from the lungs is forced past their taut edges, and causes them to vibrate in such a way as to produce sounds. In the telephone-receiver the electric current takes the place of air; but its effect is exactly the same. It sets up the vibrations which make the receiver speak.

The camera is nothing more or less than a large model of the eye. Light passing through the lens of the eye is focused on the retina, which corresponds exactly to the ground-glass screen or the plate of the camera. Through the retina's chief use is to send on impressions to the brain, it is capable of retaining an image for some time. Light has the same effect on it as on a photographic plate. To test the truth of this you have only to look for a moment at some brightly illuminated object, and then to cast the eyes up to the white ceiling; you will find that you can see the image of the object for quite a long time.

Again, the idea for the mechanism of the pump, which works by means of valves so arranged that water can flow in one direction only, has been "cribbed" also. The liquid is sucked in at the intake pipe, then it is driven forward by compression, and as the valves will not allow it to flow back it must go out through the delivery-pipe. In our bodies we have a complete pump, with intake and delivery pipes and a complicated system of valves.

Mechanical Elbows.

Ages before the mechanical pump was ever dreamt of the heart was sucking in blood from the veins and delivering it into the arteries. It works on precisely the same lines as the most perfect pump and the valves of the veins are exactly the same as those used by the engineer.

Two hundred years ago man conceived the idea of making coal give light by turning it into inflammable gas. His process was, and still is, rather clumsy and not very economical. Nature has been doing the same thing for millions of years by means of her tiny servants, the microbes. One class of these minute beings have the power of turning any vegetable substance into gas. It is they who produce the marsh gas which gives us the will-o'-the-wisp.

All the levers which the engineer uses to operate his machinery are borrowed from the principles of the human frame. Your heel or your elbow are mechanical devices exactly similar to the levers pulled by the railway-signalman.

# Grocers---Shopkeepers! Please Read This Carefully

**REMEMBER EACH PACKAGE OF LANTIC SUGAR IS GUARANTEED TO CONTAIN FULL WEIGHT OF HIGHEST QUALITY GRANULATED SUGAR. WHEN YOU BUY LANTIC PACKAGE SUGAR YOU GET Purest—Finest—Cleanest—Sweetest—Sugar**

## GROCERS' BULLETIN

Shopkeepers who want to stay in business will need to figure the cost of their goods closely during the next few months, otherwise they may be selling goods at a loss and then "good night."

Such goods as flour, oats, beef, pork, sugar and other bulk goods will need careful watching as it is on such goods that most losses are made. Receiving a few pounds too little and giving a few pounds too many have put the shutters up on many a grocery shop.

Besides loss of weight and the consequent loss of profit on retailing pork, flour, sugar, etc., out of bulk, the cost of time, bags, twine and paper must be considered and unless these costs are figured properly the grocer is within sound of the breakers.

Grocers should handle package goods if at all possible, because the invoice cost of package goods is their actual cost and the difference between cost and selling price is actual profit.

Shopkeepers who have carelessly figured the retailing cost of sugar are selling package sugar, because package sugar pays a definite, certain profit—a profit that can be seen; whereas the profit on bulk sugar can only be estimated or guessed at.

Lantic Sugar in 2 pound and 5 pound packages is a boon to shopkeepers in these days of small profits. The shopkeeper who sells Lantic doesn't need to worry about his profit because he knows exactly what it is. It may be small, but at least it IS profit, and even small profits are not to be despised in these days. LANTIC LESSENS LOSSES.

**Government Contracts.**

Arrangements are now being completed by contractors for the cutting of pulp-wood in different parts of the country during the winter, and so much employment will be given in this way that the threatened destitution for want of labor amongst able-bodied men will be very much reduced, or almost entirely overcome. The cutting of the logs is being given out to contractors, each one taking on an average 2,000 cords. The contractors will employ the loggers and the Government will have no responsibility except to ensure the purchase of the logs when piled on the banks next Spring.

There is one little difficulty that seems to be causing some trouble, and that is the overlapping of contractors in their work on the same crown land areas, and we have heard a good deal of dissatisfaction expressed this week owing to the fact that so many loggers will be working in the same area, that the contractors will find it difficult, if not impossible, to fill their contract on the territory assigned them, and they say that this could be easily avoided by giving territory somewhere else. Quite a large amount of food supplies have been given out to contractors, on the guarantee of their agreements with the Government for the purchase of their winter's output of pulp-wood and if the scheme works out according to estimate, upwards of 3,000 men will find employment in the woods this winter.—Trade Review.

**The Loss of the Chipman.**

**CREW SUBSISTED ON RAW TURKIPIS.**  
 On yesterday a copy of the Telegram containing a reference by a correspondent to the old L. de V. Chipman reached the writer. The account given is in the main correct, but it is probable that enquiry would establish that the old ship was timber instead of ore laden. The ship's insurance occasioned a prolonged law suit as the Insurance Company refused to pay because the master had brought the vessel out of the Gulf of St. Lawrence via the Straits of Belle Isle at a date later than the insurance conditions permitted. The Chipman, after repairing, left here for an English port in charge of the late Capt. Richard Kearney. She met bad weather on the run across and her seams opened and she became water logged. The crew stood by her for nearly a month before they were taken off. During the last seven-teen or eighteen days before rescue they had to subsist on raw turkips and a small quantity of hard bread.

**Moplah Revolt.**  
**TROUBLE SPREADING TO NEW DISTRICTS.**  
 Much anxiety is being caused to the Indian authorities by the spread of the Moplah rebellion in the Malabar district. As our readers are aware, the Moplahs are a Mohammedan sect. The trouble has now lasted for more than two months, and has developed into a species of guerilla warfare. Owing to the cover afforded to the rebel bands by the jungle country, operations are necessarily slow and difficult. The latest official report is as follows: The spread of the Moplah rebellion from the area hitherto mainly affected to Callout Taluk (sub-district) has caused considerable anxiety, but there are reasons to believe that the call to arms in those parts has not met with a very general response. A number of rebel bands have, however, done considerable damage. They have also been engaged in looting, forcibly converting Hindus, and collecting arms. A party of special armed police sent to deal with the situation in Callout Taluk was ambushed at the end of October, and accounted for 28

rebels; but of their own number six were wounded, including Mr. Colebrook, who had just been appointed to command the company, and one was killed. Mr. Colebrook's wounds are not serious. In the areas which are most seriously affected there seems to be no alternative to dealing with rebels in detail, and this is bound to be a long and difficult business. There are signs, however, in some parts of an increasing desire on the part of the rebels to surrender, and on Nov. 7 it was reported that nearly 1,000 from different places in the neighbourhood of Malapuram had signified their submission, and that overtures had been received from other quarters. It remains to be seen how far their professions are genuine, and in any case, the problem of how to deal with them is a difficult one, and this, together with the problem of the treatment of refugees, who are now very numerous, is engaging the attention of the local authorities. The reinforcements asked for towards the end of October have arrived. The local government have also sanctioned an increase in the force of special armed police, which was formed at the beginning of October, to double

the new Indian Territorial Force Act, and the number of applications from Hindus for enrolment is reported to be very satisfactory. A general state communique on the oplan situation says: Two thousand Moplahs heavily attacked the Pandikott post, which was held by a company of the 2/8th Gurkha Rifles. The enemy lost 230 killed. Our casualties were: Capt. Averill, of the 2/8th Gurkhas, killed. Three other ranks killed and 24 wounded.—News of the World, Nov. 30.  
**Sensational Sales.**  
 No doubt the number of large properties now coming under the hammer is one of many indications that we are passing through hard times. But, though a whole town near London—as in the case of Relgate—has seldom been offered for sale by auction, knights of the rostrum have had many big "deals."  
 At the Mart here was offered a royal forest of about fifteen hundred acres, Burnham Beeches and Hardicanut's Wood, a Roman camp, the Falls of Lodore, and many important industrial undertakings.  
 A curious lot of this nature was a gasworks, including plant, because when the auctioneer's hammer fell it struck a spot 8,000 miles distant from the property, which was in Copiapo, Chile.  
**Taxes Never Paid.**  
 Over and over again a "kingdom"—Lundy Island, in the Bristol Channel—has been sold by auction in London. Once it was knocked down for 2,750, while some years later it was withdrawn when the bidding reached £13,000.  
 When it was set up for auction on another occasion, Mr. Aubrey de Vere's grandfather, who had been walking aimlessly in the streets, was attracted by the noise, and entered the room.  
 "He knew nothing whatever about the island," said Mr. de Vere, "but when the auctioneer proclaimed that it had never paid tax or tithe, that he acknowledged neither King nor Parlia-
