### SHORT CHANGE MEN FAIL TO REAP A HARVEST HERE

#### Pair Who Worked Edmonton Are Now in the Police Barracks in Calgary; Fail to Get Ten Dollar Bill Game Past in This City

#### BARTENDER AT HOTEL SELECTED AS VICTIM

#### Marked Money Method Used Many Times at State Capital, and Local Police Are Ready for Men When They First Arrive

Two men are in custody at the barracks of the Northwest Mounted Police charged with the offence of short changing. Before they were finally caught at the game they were throwing business in Edmonton and then invaded Calgary. Their professional life here was short-lived as they were worked only the bartender at the Empire Hotel when the police gathered them in.

The names of the men are being kept secret by the Mounted Police officials, who believe the swindlers are such a nuisance that they can be worked up in such a manner that the swindlers will be sure of a good long term in the penitentiary.

One bartender at the Empire was victimized by the swindlers before they were caught. The game is an old one, but experience proves that swindlers do not play old and certain games can get easy money by the very varying of the cards. The bartender worked here on the condition that he would not be asked to give out the cards.

An Irrefutable Argument. One would go to a suit, buy a dress, and a ten-dollar bill in payment. The bill would bear a certain mark for identification. The swindlers would make a mental note of the bank issuing the bill. The bartender would then change the bill into a ten-dollar bill.

A Bill from the person of the swindler would appear in the newspaper. The smaller bill was offered he would be caught. The man who had the bill in his pocket would describe the bill to the man who had the bill in his pocket. The man who had the bill in his pocket would then demand that the man who had the bill in his pocket should bring out a ten-dollar bill so marked, and the man would insist that this bill was the one he had.

The frequency with which the swindlers worked in Edmonton warned the local police, who look steps to prevent the same being worked here. One day the police succeeded in getting the change for the larger bill, when they were taken into custody.

The "stranger" was Mr. H. A. Hartman, one of the original citizens of the village of Calgary. He has been away from Calgary for the past two years showing his family the wonders of the old world while all the time he was growing up in the new hemisphere.

"I am severely realistic that this is the Calgary I left two years ago," said Mr. Hartman. "We have been looking at cities that have remained a city for centuries, and here is a city which has grown from a village in a decade. The city looks clean and neat, bustling and prosperous, and the always has just started to my mind. I was not prepared for the wonderful growth of the city. And I believe there are still more opportunities for the development of the city for the next century."

Hartman and his family will remain in Calgary indefinitely and take the reins of the family business in the town where they were relinquished two years ago.

#### Bulgarian Spies Are at Salonica

Gen. G. S. 23-11 is stated that the 200 former Bulgarian revolutionaries who were arrested in the Balkans are now being held in the barracks at Salonica. It is stated that they were arrested on a charge that they were plotting to assist the Greeks in the event of hostilities between Bulgaria and Greece.

### GIFT SITE FOR INTERNAL ELEVATOR ARRANGED FOR AND OTTAWA IS NOTIFIED

#### South Pole Hero

EDMONTON HAS FARM FOR INEBRIATES OF ITS OWN

LD. GARDEN, chairman of the railways and industries committee, Ald. Costello and J. W. Davidson, made arrangements yesterday afternoon to secure as a gift to the city, a five-acre site accessible to three railway tracks, for the location of an internal elevator and a flour mill. The arrangement was put in writing and the particulars have been wired to Ottawa.

The aldermen are now looking about for a strong company to locate a flour mill adjacent to the elevator.

Pending a reply from Ottawa, particularly as to the exact location of the site will not be made public. It is a very handsome gift, however, the value of the land being upwards of \$15,000. It is located in a district already subdivided and largely sold, and is one of the few available sites adjoining the three railway lines.

This action followed the special meeting of the city council yesterday morning, at which Aldermen Costello, Garden and Frost were appointed to take the matter up with the board of grain commissioners.

The board of trade will also assist in the matter. The government is planning to erect five internal elevators with a capacity of 5,000,000 bushels each. One to be located at Calgary must be accessible to the C.P.R. and one other railway.

At a previous meeting of the railways and industries committee, the matter of a site was taken up and a few weeks ago, Ald. Garden, Commissioner Graves, President J. W. Campbell of the board of trade, and Secretary Wilson, went over the city map and selected several possible sites.

Who Procrastinated? Lately there has been some criticism of the city council for dilatoriness in the matter. But, as the board of grain commissioners has not yet made up their minds, it is not surprising that the board of trade yesterday afternoon appointed a special committee to look after the city's interest. If the arrangements made by the committee yesterday are satisfactory to the Dominion board, the city will have benefited to an unusual extent by the generosity of one citizen. The several sites considered, on Bonnybrook mill and the vicinity of Bonnybrook were very expensive, and it is understood that the government objects to paying a high price for an elevator site which does not necessarily require to be inside the business section of the city.

The gift site proposed will accommodate both the elevator and a large flour mill and will save the city \$15,000. The aldermen who have investigated it are of the opinion that for the purpose in the district.

### THIRD ACQUITTAL IS GIVEN BY JURORS AT ASSIZES

#### Dick Forbey, Charged With Attempting to Murder Wife, Found Not Guilty by Jury—Case was Shortest of Present

#### NO EVIDENCE WAS CALLED FOR DEFENCE

#### Judge Gave Charge to Jury After Crown Had Presented All Evidence for Prosecution; Verdict Did Not Take Long to Be Arrived at

Dick Forbey was the third to be acquitted of the charge which he had to face at the present session of the criminal assizes, before the supreme court. The case was the shortest so far, and Forbey was acquitted without any evidence being called for the defence. Mr. Justice Scott addressing the jury after the crown had put in its evidence, and a verdict of not guilty being returned almost immediately. Forbey was accused of attempted murder, the person complaining being his wife, and he was charged by M. B. Pascoe, who had now got two clients off at the present court.

The principal witnesses in the case were Mrs. Forbey and Gus Hartney, a neighbor of theirs. It appeared that Forbey had been away from home working for some weeks, and on his return he found that his wife had gone over to Hartney's place late in the evening, though he had told her not to have anything to do with Hartney. The wife and Hartney were seen together at the farm about 9 o'clock, and left on her way home about 11. She was then accompanied by Hartney. On their way to the gate they heard someone coming along on a horse, and they turned and went inside the gate. They then saw it was Forbey, who hollered at them and followed them along. Three shots were fired, and Mrs. Forbey and Hartney went on to the house of the latter. Forbey came after, and Hartney claimed another shot was fired. Mrs. Forbey went into the house, and the husband left her there, taking home the horse on which she had been riding. Two weeks later a warrant was taken out against Forbey, and he was arrested, and later allowed out on bail.

When the evidence for the defence was put in, the judge said it would hardly be necessary to take evidence for the defence, and addressed the jury, practically saying that there was no case made out under the charge, and the jury accordingly, after being out of the room for a few minutes, returned a verdict of not guilty. F. S. Selwood conducted the case for the crown.

### OFFICIAL LION AND LAMB OF NEWSPAPERDOM LIE DOWN TOGETHER

Commissioner Samis resumed his attendance at the Commissioners' meeting yesterday morning in the presence of The Herald reporter.

After a private consultation between the mayor and commissioners, the Mayor in his report, in which he made a statement to the effect that Commissioner Samis thought he had carried his protest against The Herald far enough to convince the public of his interest in the public welfare. He also had the assurance of Mr. Woods of The Herald that any misstatements would be corrected, and the principle for which he stood had been made clear to 100 people he represented.

### What the West Did Yesterday

#### WINNIPEG.

The Winnipeg Imperial Home Reunion association has brought 272 delegates to the city this year, and has 53 applications under consideration.

#### KAMLOOPS.

Three bylaws aggregating \$480,000 were passed, including \$100,000 for extensions to the water works, \$120,000 for extensions to electric light system, and \$260,000 for a hydro-electric power plant.

#### MEDICINE HAT.

Inspectors has commenced on the new wheel shops to be built on the new street.

#### TABER.

Crop prospects in this district best yet. Total area under cultivation is 17,000 acres, of which 75 per cent is now seeded, about 70 per cent of crop is in.

#### CALGARY.

Plans prepared for erection of dormitory for University of Calgary and to accommodate 200 pupils. Secretary Calgary Y.M.C.A. will give address at 7:30 p.m. tonight at the University of Calgary.

It was a tale of fearless heroism and careful foresight that was heard by the couple of thousand people who attended the Amundsen lecture in the Sherman rink last evening. They heard of the daring of the men who drove their dog sleds over glaciers where crevasses yawned between the icy slopes of the perilous climb up the log hut buried in the snows of the Antarctic and the dark storm of four months night. They heard at the same time of the men who placed their lives in jeopardy to bring the bodies of the men who were stored for the return journey, of the days of extra calculation, and of the mile which was located on December 14, 1911, of the care of dogs that was almost scrupulous as the care of the men themselves.

#### Looks an Athlete.

Amundsen has all the appearance of a leader of men. He is more wiry and taller than either Scott or Shackleton, and his walk, as he walks with a light step that betrays at once a man of fine physique and his fine physique, a little inclined to hardness, but he easily makes himself heard and the strange tone of his accent which denotes his birth, grows on one and is quite pleasant after a time.

#### At the Bay of Whales.

Amundsen who was introduced to the big audience by James W. Davidson, himself an explorer of renown, started with the course of his journey from the day that he left Norway in August, 1910, till he reached the Bay of Whales, which was his camping ground. There the log hut was built, the tents erected and fortunately they were able to bore through the great ice barrier and construct a number of extra rooms in the interior of the log hut. So far were they able to proceed in the way of their journey. He told of the longest night and the work he did as done through the depth of winter.

#### Towards the Pole.

With August the sun returned, and a start was proposed but not made, as the thermometer hovered round the seventies with the single stroke in the twenties. In October a start was made, five men making for the pole, while King Edward land scenes of the march south were shown by the explorer, and the pictures were fine indeed. He told of the progress along the ice barrier, the climbing of the mountains of Victoria land, and the planing of the many depots with provisions. The pole was reached on December 14, and for some days they took observations for every hour, so as to determine their position.

#### Mikado Improved.

Tokio, May 24.—A bulletin issued this morning announced that the temperature of the emperor was 38.2 degrees. His pulse was 78 and respiration 26.

### EDMONTON HAS FARM FOR INEBRIATES OF ITS OWN

Is Therefore Not in a Position to Support the Request of Calgary to Provincial Government for Establishment of a Provincial Institution

#### FAVORABLE RESPONSES FROM OTHER TOWNS

#### Edmonton Will Apply to Legislature for Charter Authority to Care for Habitual Drunkards on Its Farm; Will Establish a Precedent

The city of Edmonton has notified the mayor of Calgary that it already has a 200-acre prison farm for inebriates in operation, and is not, therefore, in a position to support the request of Calgary to the provincial government for the establishment of a provincial institution.

Other towns and cities in the province are sending favorable responses to the request for the establishment of a provincial institution for the care of habitual drunkards on its farm.

Application will be made by the city of Edmonton at the next session of the legislature for an incorporation of the charter, making provision for the detention of habitual drunkards at the farm.

It is probable that the precedent established by the city of Edmonton will affect the attitude of the provincial legislature on the question.

When the matter was first brought up in Calgary council by Alderman William Ross, it was argued that such an institution should be the responsibility of the province rather than the city, as at least half of the prisoners sentenced for drunkenness and disorderlyness in Calgary came from outside the city, and were merely transients here.

#### It is in the opinion of the aldermen, the city should not be taxed to maintain an institution for the care of inebriates from all parts of the province.

It was estimated that one large farm, which could be maintained and managed by the city, would care for small ones, and the smaller towns and cities. Calgary efforts to establish a provincial institution would benefit as well as the large cities. The families of convicted inebriates who are now charged on various communities would be benefited by such a scheme, which would be profitable to the province on a large scale.

The province also controls the liquor licenses, and therefore creates a condition of affairs for which the city is financially responsible. Therefore, the aldermen argue that the province should be responsible for the establishment of a provincial institution, especially for this class of offender.

The communication from Edmonton will probably be referred to the legislative committee, which has the matter in hand.

#### FARMERS LISTEN TO IRRIGATION EXPERTS

#### Maple Creek Water Users Addressed by Alfalfa Expert Pawson

Maple Creek, Sask., May 23.—The Cypress Hills Water Users' association tonight listened to a number of addresses on irrigation by the Canadian association, over five hundred farmers, attending.

W. H. Pawson Jr., of Coaldale, Alta., one of the most successful irrigation farmers in Western Canada, gave a practical talk along the lines of his own experiences, dwelling especially on the raising of alfalfa.

W. H. Fairfield, superintendent of the Dominion Experimental Farm at Lethbridge, also gave an interesting talk on the work now being carried on at the farm.

#### Butterfly Danes.

The next number was full of art and grace as any performance by children can be. A number of girls from St. Mary's school, as tiny as they were sweet, dressed in the crimson and amber colors of the butterfly and sang a number of songs, which brought a round of whole hearted applause from every part of the arena. In fact that readiness with which the children cheered the performers taken from their own number, was one feature of the day.

#### Saluting the Flag.

The next was the supreme moment of the afternoon. Heralded by the sound of a shrill whistle, it came one too soon for the faint up feelings of those youngsters who a whole day through and more had waited anxiously for it. The leader standing in the platform before the mass of children raised his right hand to position a big right arm. Quick as lightning hundreds of flags, unseen before, red and white and blue rose from every corner of the arena. The Union Jack suspended from the roof was lowered as the boys and girls brought their flags to position and in the manner of a true salute their tinner flags bowed and the great banner of the Empire, the British spirit of daring and liberty.

Then the band struck up the first notes of the national anthem and the great throng joined in the words of "God Save the King" and then followed three loud and ringing cheers with which the whole building resounded.

### HORSE SHOW AMPHITHEATRE CROWDED TO SEE CHILDREN HOLD GREAT CELEBRATION

Patriotic Songs, Folk Dances, Drill and Flag Salutation Make Up Program, Which Closed With National Anthem and Loud Resounding Cheers for the King.

#### FIFTEEN thousand people of Calgary yesterday afternoon paid honor to Empire Day at the great celebration in the Horse Show amphitheatre. It was such a gathering as has never before been seen in Calgary and May 23, 1913, will go down in history as a red letter day in the annals of the city of Calgary on that account.

The great building was crowded in every part, the arena being given over to the school children, whose day it was, and the rest of the building being thronged with parents and friends and the great hosts that are the school pupils to be of Calgary in the near years to come. It was a great buoyant, exuberant crowd charged to the full with a magnetic force that spread its way all round and gave a real inspiration to all present. For such a reason the sight was one that will never fade in the minds of those who looked on at the great spectacle of youthful enthusiasm and vigor.

#### Simple Programme

The programme was one that from its simplicity gained strength and what with the old time patriotic songs of old England and young Canada in which sweet youthful voices blended with the sound of the brass instruments, the quaint old folk dances whose charm was their very casiness and simplicity and the loud reverberating cheers for the flag and the King, the emblems of Britain, it was a simple thing indeed, yet for all that very great.

#### Enormous Crowds

Early in the afternoon it was evident that the great building was to be thronged with a crowd that was far beyond the dreams of those who had promoted a general celebration of the day by the school children of Calgary. Charmed by the warm sunshine many parents were brought forth to the demonstration and all the summer finery was in evidence, judging from the many colors to be witnessed there.

Children assembled at their various schools at 1:30 and they received their final instructions from the teachers in charge. They then proceeded to the horse show building by street cars, the young scholars, those under 8, being carried free by the courtesy of the street railway. Arriving at the arena, each child bearing a sacred treasure a little flag, wound up and tucked in close to the side, went to the space allotted in the arena. There they took their places and with the side seats all thronged with eager and expectant parents and relatives there was excitement that spread like lightning everywhere.

#### Children Take Places

Promptly at 3 o'clock the children began to file into the arena and without the slightest hitch each found his way to the little space allotted to him and marked off with a red cord, by reaching which each child took his place in the great living organism which the flags of red and white and blue were raised and the colors of the flag of the empire were shown in order due.

Col. James Walker, chairman of the board, presided over the gathering and it was soon apparent as one looked out over the vast sea of faces that speaking was beside the question and in such a happy exuberant throng there was no need for speechmaking and that part of the programme was readily abandoned. The strains of the first of the great songs were raised, the Citizens' Band leading the way, but though it had the most rousing melody of all it appeared to be hardly familiar to the children and the band was nearly all that was heard of "O Canada."

Dr. Scott then announced the winners of the prizes for the Daughters of the Empire which were then distributed.

If there was any hesitation about "O Canada," there was none about "The Maple Leaf," which was the next song and the band was at once drowned by the great strains of the children's voices blending in the great Canadian anthems with the memory of a scene and spectacle such as they will not readily forget.

#### Good-Natured Audience

There were many comments to be heard in the great audience. Despite a stuffy atmosphere, they also wished to have been avoided in such a throng, the best of good spirits prevailed and the performance which brought a round of whole hearted applause from every part of the arena. In fact that readiness with which the children cheered the performers taken from their own number, was one feature of the day.

#### Next followed that rousing melody "Rule Britannia" of which two stanzas were sung with great enthusiasm, the children again exclaiming in the effort.

#### Butterfly Danes.

The next number was full of art and grace as any performance by children can be. A number of girls from St. Mary's school, as tiny as they were sweet, dressed in the crimson and amber colors of the butterfly and sang a number of songs, which brought a round of whole hearted applause from every part of the arena. In fact that readiness with which the children cheered the performers taken from their own number, was one feature of the day.

#### Saluting the Flag.

The next was the supreme moment of the afternoon. Heralded by the sound of a shrill whistle, it came one too soon for the faint up feelings of those youngsters who a whole day through and more had waited anxiously for it. The leader standing in the platform before the mass of children raised his right hand to position a big right arm. Quick as lightning hundreds of flags, unseen before, red and white and blue rose from every corner of the arena. The Union Jack suspended from the roof was lowered as the boys and girls brought their flags to position and in the manner of a true salute their tinner flags bowed and the great banner of the Empire, the British spirit of daring and liberty.

Then the band struck up the first notes of the national anthem and the great throng joined in the words of "God Save the King" and then followed three loud and ringing cheers with which the whole building resounded.

#### Dr. Youkm Arrives from California

Dr. F. E. Youkm of Los Angeles and Dr. Walter Harris, Baptist minister of San Jose, arrived in the city last night, and will open a series of meetings in gospel tent, on Eighth avenue west, between Fourth and Fifth streets, same hours on Sunday. The series of meetings will continue until May 27, afternoon and evening until May 28.

### TWO THOUSAND HEAR AMUNDSEN TALK OF POLAR DISCOVERY

#### Famous Explorer Has Wholesome, Athletic Look, and His Face Shows the Hardships Through Which He has Gone; Accent is Pleasing

#### TELLS GRAPHIC STORY OF LONG TRIP TO POLE

#### Takes Hearers With Him From the Time He Left Norway to the Pole Itself; Tells of Establishment of Camp on the Bay of Whales

It was a tale of fearless heroism and careful foresight that was heard by the couple of thousand people who attended the Amundsen lecture in the Sherman rink last evening. They heard of the daring of the men who drove their dog sleds over glaciers where crevasses yawned between the icy slopes of the perilous climb up the log hut buried in the snows of the Antarctic and the dark storm of four months night. ### EDMONTON HAS FARM FOR INEBRIATES OF ITS OWN

Is Therefore Not in a Position to Support the Request of Calgary to Provincial Government for Establishment of a Provincial Institution

#### FAVORABLE RESPONSES FROM OTHER TOWNS

#### Edmonton Will Apply to Legislature for Charter Authority to Care for Habitual Drunkards on Its Farm; Will Establish a Precedent

The city of Edmonton has notified the mayor of Calgary that it already has a 200-acre prison farm for inebriates in operation, and is not, therefore, in a position to support the request of Calgary to the provincial government for the establishment of a provincial institution.

Other towns and cities in the province are sending favorable responses to the request for the establishment of a provincial institution for the care of habitual drunkards on its farm.

Application will be made by the city of Edmonton at the next session of the legislature for an incorporation of the charter, making provision for the detention of habitual drunkards at the farm.

It is probable that the precedent established by the city of Edmonton will affect the attitude of the provincial legislature on the question.

When the matter was first brought up in Calgary council by Alderman William Ross, it was argued that such an institution should be the responsibility of the province rather than the city, as at least half of the prisoners sentenced for drunkenness and disorderlyness in Calgary came from outside the city, and were merely transients here.

NEXT WEEK'S ATTRACTIONS AT THE LOCAL THEATRES

Sherman Grand
First three nights, with Wednesday matinee. First appearance in Calgary of the distinguished actress Rose Stahl. In a comedy drama of department store life, "Maggie Pepper," by Charles Klein.

BRIGHT PROSPECTS FOR THE SYMPHONY ORCHESTRA

The hundred and one details in connection with the organization of the local Symphony orchestra are being attended to by various committees of the board of directors and the enthusiastic way in which the public men of the city are lending their co-operation leaves no doubt as to the success of the venture.

The local Musicians' local have shown a very commendable spirit in their attitude to the new organization and a working agreement satisfactory to both parties has been effected.

PROVINCIAL MUSICAL FESTIVAL NEXT WEEK

The annual musical competition for the province of Alberta will be held in Edmonton the latter half of next week. Unusual local interest is attached to the event this year by the entry of Central Methodist choir, and its understood also that several of the individual members of the choir will compete in the solo competitions.

LOCAL MUSICAL GOSSIP

Mr. E. Graham Morgan, musical editor of The Herald and tenor soloist of Wesley Methodist church, went east this week on an important mission, in which two people are particularly interested.

Mr. Wrigley has practically completed his selection of choristers for the choir in the new Knox church, and it can be taken for granted that the choral services will surpass any previous efforts of the choir.

Captain Bagley, the energetic co-

ROSE STAHL
In the Great Comedy Success "Maggie Pepper," Sherman Grand, Monday.

ductor of the Calgary Citizens' band has returned from Toronto, where he represented the local Musicians' union at the international convention, which has just closed.

Another handsome pipe organ is to be added to the city's musical equipment in a few weeks, when a \$10,000 Grace Presbyterian church. The organ is being presented by one of the members of the congregation and is from the factory of the Canadian Pipe Organ company of St. Hyacinthe, Que.

GIRL FROM BUTTE FEATURE OF NEW ORPHEUM BILL

It's a mark of affection when the folks plaster a nickname on you and it holds for all time. That's why everybody must know that "Mike" Berkin is a popular personage.

And "Mike" is a sweet young girl, too, instead of the ferocious individual you might imagine she is—for she is billed on the Sherman Grand program as "Mike" Berkin, of Butte.

Back in Butte her father is a wealthy mining man, and Miss Mike is prominent socially and in the leading arist-

"MUGGINS" DAVIS
At the Orpheum next week.

LYRIC THEATRE OPENS WITH NEW LINE OF ATTRACTIONS

Max Bloom, at the Head of "The Sunnyside of Broadway" Will Be First Attraction

Mr. W. B. Sherman, manager of the Lyric Theatre, will inaugurate a new policy as this popular family theatre, commencing Monday, June 2, with Max Bloom in "The Sunnyside of Broadway," as the first attraction.

The Allardt-Woolfolk company, of Chicago, have entered into contract with Mr. Sherman to book a new show and a new company for this theatre every week for one year.

The general policy will be a condensed performance, with three shows a day, counting a matinee and two evening performances, one at 8 o'clock and one at 9:30, at a minimum price of admission.

The shows that will appear on the new circuit will be the very best, with not a few of the original stars, who made their respective attractions popular during long engagements in Chicago and New York.

The Max Bloom show will be Jesse Huston, the original star of "Mort Sners," "The Time, the Place and the Man," "Madame X," and "The Bell Hop," a musical farce, which is said to be in a class with the humor-

DOUBLE HEADLINER IN NEXT WEEK'S ORPHEUM BILL

One of the best balanced bills that has been to the Orpheum in a blue moon comes next Thursday—some idea of the strength of the bill can be gained from the fact that there are two headliners so evenly matched that it would be impossible to choose between them.

The first of these headliners is Willard Mack and Marjorie Rambeau, who appear in a playlet "Kick In." This sketch deals with the crook problem in a new and decidedly refreshing manner. Both are late recruits from the legitimate stage and, as a matter of fact the name of Willard Mack is one of the best known on the American stage today.

The other of the headliners is "The Trained Nurses," a creation of the facile pen and brain of Jesse L. Lasky, who has been responsible for some of the best acts that have visited the Orpheum this year—notably "California" which appeared as the headliner on one of the October bills.

The scene is laid on the roof of a sanitarium and the plotline of the nurses is such that many will wish themselves in the sanitarium.

Professor Ota Gygi is regarded as one of the greatest pupils of the wonderful Jochim and is, therefore, one of the greatest violinists of the day.

This is his first tour in vaudeville and it was only after considerable persuasion—moral and financial—that he was finally persuaded by Martin Beck to tour the circuit in which Calgary is one of the strongest links.

Song and dance teams that have genuine merit will always find a welcome in the hearts of Calgarians, for this is without question one of the most popular forms of the entertainment.

Walter De Leon and "Muggins" Davis have been granted great receptions all over the Orpheum circuit and should make a great local hit.

The four De Grohs have a European novelty which they keep to themselves to the last minute and then spring it in a most delightful and refreshing manner.

Lew Hoffman calls himself the "Big Man" and when you see him, you will be content to concede him this title from the manner in which he suggests the idea of a long series of wheels, but hats, capes, etc., etc.

Miss Cecil Bersford has earned for herself an enviable reputation as an entertainer in the vaudeville music halls and is touring Canada to make herself a favorite in the greatest of the western colonies.

Then there will be some more of the talking moving pictures with an entire change of subject matter that has never been shown in any house before.

This will make the fifth installment of the "talkies" and as each week goes past, their popularity increases.

Blanche Bates, that clever young American actress, comes to the Sherman Grand a week from Monday in a stirring drama from the pen of A. E. W. Mason, "The Witness for the Defense." This is the play in which Elnor Barrymore appeared early in the season with somewhat indifferent success, but it is said that Miss Bates does some of the best work of her career in it.

blood was spilled, but the press agent agreed to use no more offending sobriquets, and the chief agreed to confine his destructive efforts to lifting the roof off the theatre with his summary in its temperature." No voice.

WEEKLY ALBERTAN.
Per Year \$1.00

SATURDAY, MAY 24, 1913.

MR. BORDEN AND THE SENATE.

If the Dominion Senate defeats the Borden Navy bill, the Senate will surely get its' is the attitude of Premier Borden to that august second chamber, as expressed in his speech in Toronto on Monday night.

If the Dominion Senate has powers which are dangerous to the well being of a democratic country like Canada, the powers of the Senate should be curbed. The Senate is not only a useless affair as a rule, but it is a dangerous body as well.

If that is not the Borden policy. If the Senate is good and gentle and does not do its duty—that is to curb, check or oppose. But if it should do any of these things, then Mr. Borden says that he will clip its claws.

If the Senate ever had an excuse for acting, it has that excuse at the present time. It is supposed to be able to step in to prevent hasty legislation which should be submitted directly or indirectly to the people before any action is taken.

The duty of the Senate, whether the members favor the Borden policy or not, is to send it back to the Commons with the instructions that this question is one for the people of Canada to decide.

ABOLISH THE WARDS

An evening paper which seems disposed to oppose the suggested change of the ward system believes that while party politics may be kept out of municipal affairs when the city is divided into wards it cannot be kept out when the citizens vote as a whole.

The same paper says that it would be difficult for an undesirable man to get to office when the area was wider, but that it would also be

difficult for the same man to be put out of office. That is only partly correct. It would be difficult for such a man to get to office under the wider area, but it would be quite as difficult for a poor man to continue in office under that system.

It would be different if he were elected for the entire city. Then the sectional bias is eliminated.

The city council should eliminate the ward divisions. But whether they do or not they must change the divisions. At present an elector in Ward III, has about as much representation as three representatives in any other ward in the city, which is most unjust.

AUSTRALIA'S LAND TAX.

In 1905 the local government system of the State of New South Wales, Australia, was reconstituted and it was made mandatory that a rate of one penny in the pound on capital unimproved value should be imposed.

The reform, however, has been fully justified by results, as given in a statement signed by ninety suburban mayors and aldermen, recently made public. It says:

In response to a request for an expression of opinion, we wish to say that the system of rating on unimproved values, which came into force under the provisions of the Local Government Act of 1905, is working remarkably well. It has reduced the rates of a very large proportion of the ratepayers, although we are raising a larger revenue.

Front an official statement issued in December last, it appears that the city of Sydney is growing at a rapid pace, and the building done in 1911 constituted a record.

Editorial Notes

The weather prophet predicts floods for Calgary, before many weeks. It may be added that there never was a flood, near flood, or anything that looked like a flood in this part of the country in any year that the crops were watered and everything was very satisfactory from that end of it.

Mr. Cookbutt, the high priest of the tariff party, refers to the luxury of some heads of the household in a family of five, who are getting \$450 a year. To him doubtless that seems like a pretty lofty price.

Let us all close up shop and have a holiday and take the whole family with us. In Ontario, philosophers say, that more reformatrans were created from boys who were forced to stay at home on the 24th and hoe potatoes than from any other quarter. Let us make no such common error in western Canada.

Letters to The Editor

Without any desire for controversy, I fear the second editorial in your issue of May 19 cannot, in fairness to all concerned, be allowed to pass without comment.

First I would like to say, the viewpoint of the editorial of May 19 is very different from that of May 14. Those reading the two would feel convinced either different minds dictated them or a change of mind had been experienced in the interim between the two articles.

The cut worm has cut loose in the southern country and is filling his stomach at the expense of the Alberta farmer. The southern newspaper is authority for the report that the old fashioned beetle that wanders aimlessly and slowly about the earth has come to the rescue and is busy eating the cut worm that is eating the grain of the southern farmer.

The clearing returns show a decrease compared with last year, and the reason is that the Bank of Montreal is holding money tight and the results in the bank while its sollicitors armed with million power magnifying glasses of extortion and shot guns of antiquated style are attempting to shoot holes in city council resolutions, so that the bank may have an excuse for not handing over the money.

If there are any serious objections to the passing of the by-law to be submitted next week for manufacturers' building, now is the time to state them. As far as we can see, the scheme is a very good one and should receive the sanction of the public.

The net effect of the Wilson tariff is to reduce the cost of living across the line and increase it on this side of the line. That will mean that our manufacturers will be at a great disadvantage compared with the manufacturers in the United States.

There was a time when no self respecting weather man would let Victoria day pass without shouting it with some rain. The weather man let us hope is better behaved in this country.

The Conservative politician cannot get it through his head that reciprocity would result in increased prices for the producer and cheaper prices for the consumer. The designer made a demonstration about it in the house Thursday. But it is true. At the very time last winter that George Leung was paying high freight rates and very excessive duty charges on cattle going from Seattle to the coast, the restaurant men were bringing in meat from Seattle, paying duty and extra charges and saving money by the transaction.

Of course every public man has his own ideas about humor and pathos, and that sort of thing. They are matters of opinion. But for ourselves we do not believe that the proposed introduction of Tamanyism in its worst form is just the best kind of stuff to place at the foundation of high-class humor, particularly by the mayor of a city.

MODERN INVENTIONS

The oriental rug is not strictly a modern invention, but the prices now obtained for them are.

The oriental rug was originally woven by hand in some far-off corner of the desert by a family and its descendants. It was woven out of camels' hair or silk in fantastic oriental designs, which the designer carried in his head and altered whenever he had a lapse of memory.

Some years ago people began to import these rugs to America. They are now very popular. If a rug is valued kindly it will last forever, and a number of centuries the importance of an American family will be determined by the number of oriental rugs its ancestors have bequeathed to it.

Presidential wife in aid of blind babies. New York, May 23.—Mrs. Woodrow Wilson, wife of the president, has been asked by the International Sunshine Society, which is holding its fifteenth annual convention here, to design a ribbon which should go to help support a educate all blind babies in the United States.

Victoria Day

May 24th
This Store will be Closed All Day

YOU CANNOT BE LOST ON A STRAIGHT ROAD

But do you stick to the straight road when buying? Don't you wander off into the pleasant paths of buying on impulse buying at strange stores, at odd times, and sometimes even needlessly?

And consequently both yourself and your pocketbook suffer when you leave the straight road. You are compelled to buy oftener by having unknowingly bought poor quality. You lose time in searching for the articles you need, and you receive too frequently unnecessarily poor service.

The Hudson's Bay is the straight road to satisfactory service, quality and price in buying. By keeping in constant touch with this helpful store you gain a knowledge of the best quality merchandise, the best service and the greatest value at the least cost.

It is the endeavor of this store to make it easy for the public to profit by following the straight road to most successful buying. Read its daily announcements closely and constantly. Make it part of the day's pleasure — and profit.

Takes Short Time to Come to Decision on Serious Charge Against Half-Breed—Evil Effects of Liquor on Indians Commented on

SISTER OF ACCUSED WIFE OF DECEASED Man Charged With Murder Took Stand in His Own Behalf and Denied All Intention of Hurting or Killing Joe Paul

Justice McDougall, the half-breed, was yesterday acquitted on the charge of the murder of Joe Paul. The jury took but a short time to reach their decision, which was the second of the present session of the criminal assizes and the second of the present term of the court.

ROSY CHEEKS, STRONG NERVES

Should be the Birthright of Every Woman and Growing Girl. Many women and growing girls who should have bright eyes, rosy cheeks, strong nerves and elastic step and a good appetite, are seen to decline in health. Their spirits grow sluggish, the cheeks become pale, temper fitful, the nerves over-sensitive. They may have inherited a tendency to ill-health or they may have overworked, overwrought or worried until the strength of the body was not equal to the demands made upon it.

used and wife of the deceased, was the last witness. She said Paul had been drinking all week up to the time of his death. She was not drunk at the time that her husband died.

Deadly Effect of Liquor. Mr. Peacock, in addressing the jury, touched on the deadly results of liquor being supplied to the Indians, and said the law in this matter ought to be more strictly enforced.

Evidence Not Very Clear. Mr. Justice Scott, in summing up, said that if they found the deceased died as the result of injuries inflicted by McDougall it was their duty to find the accused guilty either of murder or manslaughter. He said, however, that none of the witnesses could give a very clear account of what had happened, as they had been drinking all the time and their remembrance of what happened was very vague.

Well Satisfied With Baby's Own Tablets Mrs. John Kenny, St. Norbert, Man., says: "I have used Baby's Own Tablets and well satisfied with them."

TWO THOUSAND HEAR AMUNDSEN TALK OF POLAR DISCOVERY

There were some fine touches added to the lecture by the great explorer, as when he told of the hoisting of the flag to greet the furthest point of Shackleton, his reference to the course of Scott from McMurdo Sound to the pole, and his death on the way back; his unfaltering faith in the Fram, the boat which holds the world's records for furthest north and furthest south; and his deep respect for Captain Nilsen and the other members of the party.

AMUNDSEN'S FINE TOUCHES. There were some fine touches added to the lecture by the great explorer, as when he told of the hoisting of the flag to greet the furthest point of Shackleton, his reference to the course of Scott from McMurdo Sound to the pole, and his death on the way back; his unfaltering faith in the Fram, the boat which holds the world's records for furthest north and furthest south; and his deep respect for Captain Nilsen and the other members of the party.

THE LITTLE REPUBLIC OF HAYTI DOES NOT FOLLOW THE COURSE AND CRUDE METHOD OF DISPOSING OF UNPOPULAR RULERS. The recent death of President Auguste is said to have been caused by poison administered in his food.

FRANCISCO, WHO WILL BE THE PHYSICIAN OF THE PARTY; AND JOHN BIRKELAND, A METEOROLOGIST. The fourth man, who will be an oceanographer, is not yet chosen.

FRESH TEA IS IMPORTANT. Ten weeks after being picked in the tea gardens of the island of Ceylon (the finest tea-producing country in the world), "Salada" reaches you. The flavor of tea consists in an essential oil, which deteriorates rapidly with age. In order to preserve the delicious flavor of "Salada" tea it is packed in sealed lead packets (never sold in bulk), guaranteeing you a superior tea in flavor, quality, purity and economy in use.

TO SAN FRANCISCO, WHERE CAPT. AMUNDSEN WILL JOIN HER. Her own crew will sail her from Buenos Ayres.

Francisco, who will be the physician of the party; and John Birkeland, a meteorologist. The fourth man, who will be an oceanographer, is not yet chosen.

## BIG BOUT BOOMS CALGARY AS SPORT CENTER, SAYS SMITH

By Ed. Smith  
CALGARY has been a huge revelation to me. I expected from what I had heard that the place would prove to be a pretty good sporting town, but it is vastly better than that. After looking it over I am satisfied that as a city it hasn't many equals anywhere on the continent and I have seen cities of similar size in every section of the land.

Never have I seen better arrangements made in advance for a glove contest and if the affair is a disappointment in an athletic sense, as I am sure it will not be, the fighters alone will be to blame. And your twilight baseball is one of the real wonders of the world. The idea of going to a ball game after the dinner hour in the evening is something that will at once astonish and appeal to the baseball fans all over the country. It is truly remarkable.

I discover that all sorts of the cleaner sports are flourishing here wonderfully and from a sporting standpoint I cannot see that Calgary suffers by comparison with cities of twice its size in the States or in the motherland. And the city itself has been a positively astonishing to me. I never expected to see such wealth, activity, prosperity and energy as I noted on every hand during my first 12 hours in the city. It is wonderful, the more so because I am told this is all of very recent growth and attainment.

As for the glove contest itself I should be willing to predict with great freedom that it will be a ring struggle worth going miles to see. My meeting here with Arthur Pelkey was quite pleasant and the first I ever had had with him. Certainly he has the size and good enough—and for that we cannot but take the strong recommendation handed out for him by Tommy Burns, who is one of the keenest judges in the business. He has boxed Pelkey and should know every inch of him. He looks to me as if he would.

Pelkey talks like a courageous man. His jaw shows that he doubtless is. It is a great ring asset. When I asked him about the style of boxing in vogue here he told me that he didn't care much how they boxed but was willing to go any way that McCarty saw fit. Certainly no sign of faint-heartedness about that line of conversation.

McCarty looks to be in perfect shape. He hasn't underrated this foe of him in any way but has prepared carefully for this battle as he would if matched with a known champion. There is a jaunty confidence about him that is altogether reassuring to his friends and I look for him to show some mighty pretty work.

Let us hope, at least, that Albertans will see one grand combat when they clash out in the city limits arena. It is an entirely fair field and neither man is looking for or will be granted any favors. The referee is entirely unbiased, I can assure the people of Calgary of that, and as long as the rules are followed the men will not be touched or interfered with in any way. I came a long way for this 40 minutes' work and am as anxious as the promoter, or anybody else, to see everything pass off cleanly and without a hitch.

## FOOTBALL GAME WILL BE AT HILLHURST TODAY

International Benefit Match Will Be Played at Riley Park

This afternoon at Hillhurst Park, the teams chosen to play the International game between Scotland and England for the benefit of the widow of the late William Melville of the Hillhurst Football club will be played. The kick-off is timed for 2:30 p. m. and Referee Sheldon will have charge of the game. The intimation yesterday morning that the game would be played at Victoria Park was entirely erroneous, and the article which was written on the subject of the meeting between the Hillhurst committee and the League committee, was written and published altogether on wrong information. The article containing the information which was authentic, and which transpired at the meeting at the Hillhurst Club House, did not get to The Albertan until some time after the game had been played. And that's exactly what it will be as far as I am concerned.

And let us all hope that the better man will get the honors and that the loser, whichever it is, will come out at least without any stain.

## FIRST EXTRA SESSION CONTEST LAST NIGHT

Bronks and Mad Hatters Play Ten Innings to an Eight to Eight Tie

Ten innings of close zig-zag baseball without a decision being reached was on the program last night at Victoria Park, the final figures for the contest reading 8 to 8 when Umpire McDonald called the game. It was exactly eighteen minutes before nine o'clock when the announcement was made that there would be no more baseball on the program for that night, which, if not a record, is very close to being one. To a neater game a baseball game being played until almost nine o'clock seems an impossibility, and the sprinkling of eastern fans who were present last night talked more of the remarkable time at which the game was played than they did about the game.

The contest itself was not much to write home about. In fact, if the word "rotten" were in Webster's dictionary it would be used to describe the affair. The boss, being a crank on pure dictation, will let the boys down by saying that the game was just plain—common ordinary punk. This was the case in spite of the fact that the score was close. It just looked like each team was trying to hand the game to its opponents, and both being imbued with the same spirit to an equal extent, the referee handed the hands of both principals and called the affair a draw. Never mind how the runs were scored—they were scored, and that is all there was to it. First the Hatter got a couple, then the Bronks four, then the Hatters a pair of equips, and the Bronks another couple.

Toward the finish there was a little excitement, but it was not the game itself which caused it, but rather the umpire. Both teams appeared to care more about getting the goat of the umpire than they did about winning the game. The umpire, however, was not the one who favored the Calgary team, so of course the decision at the plate, which allowed Harry Piper to score the ninth inning with the run which tied the game.

## SASKATOON WINS 10 TO 1 GAME FROM REGINA

Regina, May 23—Saskatoon showed why it is leading the Western Canada league and Regina for occupying the cellar position when they opened the local series today. Harper's team completely outclassed Regina, winning 10 to 1. Churchill came close to hitting a no-hit game, but got the only safety off him in the 6th. Harper's batting and fielding was a feature. The score:

Regina . . . . . 080 200 161—10  
Saskatoon . . . . . 000 000 000—0

## McCARTY SHOULD WIN TODAY'S BATTLE WITH ART PELKEY

9 1/2-in.	9-in.	9-in.	9-in.

By Joe F. Price  
BEFORE one o'clock this afternoon there may be a new heavy-weight champion, Art Pelkey, but in my humble opinion the result of the fight which is being staged at the Manchester Arena, Saturday night, will mean the lengthening of Luther McCarty's claim upon the white heavy-weight honors. My statement made only after careful consideration based upon the form both men have shown in the workouts. Luther McCarty should win this afternoon but I do not think he will have an easy time of it. He will be fighting two men when he meets Pelkey today. Both are natural born fighters and both have good grey matter. If it were a matter of natural ability in corner men, both are natural born fighters and both have good grey matter. If it were a matter of natural ability in corner men, both are natural born fighters and both have good grey matter. If it were a matter of natural ability in corner men, both are natural born fighters and both have good grey matter.

### Importance of Burns As Second Bout to Offer the Experience of McCarty

McCarty is Tommy Burns' corner. He is not yet decided where McCarty will fight. He is not yet decided where McCarty will fight. He is not yet decided where McCarty will fight.

## McCARTY TO AGAIN GO ON THE STAGE IF HE WINS

If Luther McCarty is successful in his fight with Arthur Pelkey this morning, he will leave for Vancouver Monday, where he is to open a three-week tour in the Sullivan-Considine theatres. He is booked to show at Vancouver, Seattle and Portland. By that time it looks as if the match with Gumbo Smith will be closed, and McCarty will get short his tour to prepare himself for this important bout. Immediately following the bout with Smith the theatrical tour will be resumed.

It is not yet decided where McCarty and Smith will battle. Jim Cafforth, of San Francisco, has entered the ranks as a bidder for the bout, and has offered 40 per cent of the gate receipts for McCarty's end to reserve the man from the navy. According to Billy McCarty this is not nearly so good as the offer of \$15,000 flat made by the new club at Venice. The bout between Ad Wolgast and Willie Ritchie, a native son of the city, drew less than \$25,000, and using this as a standard of the size houses to be expected, McCarty heated up the wires trying to get some action from the men at Venice.

### No Burns-McCarty Match

"There is no chance of getting McCarty and Tommy Burns together," said McCarty last night. "As I had a long talk with Burns, and he has come to the conclusion that he had better not take another try at the game. I had hoped to match McCarty with the clever Tommy, but you have to hand it to the ex-champion. He is clever in making, as well as going through with action, there is no one else to match McCarty with in this section, so I guess when we go away it will be for quite a spell, or until another man is developed hereabouts."

"Our stay in Calgary has been particularly pleasant, from the very beginning, and it would be our pleasure to return at an early date. It may be that Pelkey, with one of his healthy wallop, will make it unpleasant for us at the finish, but if so that is in the regular order of events. We will take our medicine and have no excuse to offer. We hope for the best. McCarty has trained faithfully and is ready to deliver his very best brand of the 'hit-and-get-away' stuff, and we both sincerely trust the battle will be well, fairly and equally contested, and that the sports of Calgary will be satisfied."

## SASKATOON WINS 10 TO 1 GAME FROM REGINA

Regina, May 23—Saskatoon showed why it is leading the Western Canada league and Regina for occupying the cellar position when they opened the local series today. Harper's team completely outclassed Regina, winning 10 to 1. Churchill came close to hitting a no-hit game, but got the only safety off him in the 6th. Harper's batting and fielding was a feature. The score:

Regina . . . . . 080 200 161—10  
Saskatoon . . . . . 000 000 000—0

arranged to lease eight Municipal Street cars. These will make their first trip at 9:45 a.m. The regular Manchester cars will also be in commission. The fare on the special cars will be twenty-five cents. The regular five cent fare will prevail on the regular Manchester cars.

## THE PRIZES AND THE CANDIDATES

Only seventeen young ladies, of the many nominated in The News-Tribune's Great Trip-to-Europe Contest, have turned in subscriptions and announced their determination to work for the big rewards.

Only seventeen candidates—and there are THIRTY-THREE regular prizes offered, and as many cash commission prizes as there may be ladies to give them.

The names of the ladies who have personally turned in subscriptions appear below. The addresses have not been given for reasons of privacy. The list does not include the names of ladies for whom subscriptions have been paid by others, or for whom free votes have been received. Each candidate has been credited with the 1,000-vote nomination.

- ### THE CANDIDATES.
- ANDREWS, MISS MABEL . . . . . 1,000
  - BRADSHAW, MISS OMA . . . . . 1,000
  - BANTON, MISS B. . . . . 1,000
  - CLETHROE, MISS MINNIE . . . . . 1,000
  - DEMINGS, MISS MYRTLE . . . . . 1,000
  - KIRK, MRS. . . . . 1,000
  - JOHNSON, MISS MABEL . . . . . 1,000
  - McCARTY, MISS HELEN . . . . . 1,000
  - McDONALD, MISS PANSY . . . . . 1,000
  - ORR, MISS FLORENCE . . . . . 1,000
  - RYALL, MISS P. J. . . . . 1,000
  - STEWART, MISS J. . . . . 1,000
  - SKONSON, MISS D. . . . . 1,000
  - SIBBARD, MISS MARY E. . . . . 1,000
  - THOMPSON, MISS FRANKIE . . . . . 1,000
  - WALKER, MISS M. . . . . 1,000

The first vote standing of the candidates will be published after the close of the First Period, ending June 11—

- ### THE CONTEST PRIZES.
- The first thirty-three young ladies who finish in the big contest will be given the following prizes—provided there are thirty-three candidates to give them to:
- 1—TWO FREE TRIPS TO EUROPE
  - 2—TWO FREE TRIPS TO EUROPE
  - 3—Free Trip to Europe
  - 4—Free Trip to Europe
  - 5—Free Trip to Europe

  - 31—Solitaire Diamond Ring
  - 32—Solitaire Diamond Ring
  - 33—Solitaire Diamond Ring

AND  
Twenty per cent cash commission prizes to all ladies who finish in the contest and do not win one of the regular prizes.

The Tour Editor would like to give all of the above prizes away on June 30, but some of the young ladies who are still "thinking it over" will have to enter the contest soon—or there will not be enough candidates to take up all the prizes.

How about YOU? Why not call at 215 Burns Building TODAY for a receipt book and win a Free Trip to Europe? Phone M4848.

## IF YOU KNOW CANADA YOU'LL WONDER AT THIS

Not a few motorists thought it would be impossible to cross Canada on tires. One can hardly blame them. These motorists had travelled over our Western country and knew the lamentable condition of the trails. They felt that no tires could be made which would stand up under such strains as the driver unwillingly would be forced to put on them.

The success of Dunlop Traction Treads proves that the trip was not impossible and that these tires are capable of doing anything which a rubber-made article could scientifically be expected to do. The driver of the car, F. V. Haney, says: "Dunlop Traction Treads never skidded once on that terribly exacting journey of 4,160 miles." Could a tire receive more enduring or more convincing praise than that?

Thomas W. Wilby, newspaper writer, who also made the trip, confirms Haney in his praise of Dunlop Traction Treads. These men ought to know. While they completed a trip which the average autoist will probably never undertake, at the same time, if Dunlop Traction Tread tires are not found wanting in the biggest test possible to give tires, it is pretty safe to say that they will more than make good in any test that every day use can give them.

## FERDY WOULD BE A ROMEO

Popular Pitcher Lonesome in Winter Months

(By Frank McPherson). OVALESKI, the Polish pitcher, who beat the New York Giants out of a pennant, was driven from the big league by his opponents, giving an initiation of a bass drum. It seems that the giant Pele undertook to beat the drum in a local band to win the favor of a Polish beauty, but his ideas of time were such that he lost his place in the band and also his chances of winning the fair maid, after one performance. The tingle of a school bell bids fair to cause disruption in the ranks of the Saskatoon Quakers. It was this of the way. A few weeks ago a school district was organized where the baseball colony is located in the constituency of St. Paul. Hon. P. E. Lessard agreed to present a bell to the new school. After some able discussion it was decided that the district should be called the "Shamrock" district, as a compliment to the manager Bill Hurley, near whose farm the school was located.

**Foxy Old Ferdy.** Ferdy Manning, whose quarter section adjoins that of Manager Bill, did a little political manoeuvring, having hopes for the future, no doubt, as he is a bachelor. By working upon the susceptibilities of his neighbors, Ferdy has been lured to a new home, not far from his homestead. As an inducement, Ferdy promised that his neighbor, Bill Noble, would take care of the wood for the school and ring the bell every morning to assemble the pupils. Bill was agreeable, and Ferdy induced Mr. Lessard to donate a large and magnificent bell upon which Bill Noble was to operate. The bell was purchased, and is now on exhibition at 229 1-2 Jasper east. All was lovely. Manager Bill was to provide the music. Ferdy negotiated the bell through Mr. Lessard, and Bill Noble was to furnish the chimes and the sound. Meanwhile, Ferdy still had hopes.

**Enter New Romeo.** But a new Romeo entered the field

## RUGBY TALK ALREADY STARTED

Y.M.C.A. May Consider Dropping the Game

WITH the arrival of Rev. "Bob" Pearson in town and his taking up his duties of general secretary of the Y. M. C. A., the talk of the Y. dropping from the Alberta Big Four has been lured up with an ominous silence and it would not be at all surprising to hear that the local Association had reconsidered its decision and would be found on the schedule when the season opens next September. As yet there have apparently been no steps taken to organize the team of last year. Mr. Pearson, who is also the president of the Alberta Big Four is known to be strongly in favor of the Y. entering a team again this year. However, if the Y is to have a team it had better get busy at once signing up players for the Tigers, the oldest rugby organization in Alberta already has about twenty players under contract and Capt. Wark and Manager Squib Ross are busy every day rounding up new men. Capt. Wark is very optimistic regarding the Tigers of this year but also hopes that the Y will have a team to provide local competition.

**Tigers Will be Strong**

Speaking to the Albertan yesterday Wark said: "The Tigers this year will have the best team that ever donned the yellow and black in this city. We have made it a point all winter to keep in touch with the boys and every new arrival into the athletic ranks of Calgary is questioned as to his rugby ability. We have a fine line of players and with our foundation of last year's team will have a nicely balanced outfit that can play with the best in the land. "But although I am intensely interested in the success of the Tigers I certainly do hope that the Y will have a team in again this year. It is essential that there be two rugby teams in this city and although I have heard rumors to the effect that another team will be organized if the Y does decide to drop out. Yet I believe that the Y has better facilities for producing a good team and has men back of it who know how to direct things better than any possible organization. A strong organization is needed behind any new team and there is a strong athletic organization in the city with the exception of the Y. M. C. A. that is in a position to run a rugby team."

**Edmonton Strengthening**

The Albertan has it from an authoritative source that the Edmonton Eskimos are straining every nerve to have a team this year which will win the Alberta championship. They are scouring the country for stars and word has been received from some eastern football men that they have been offered fat positions in Edmonton.

## GOOD PURSES OFFERED FOR PONY RACES

Meet Will Be Held at Victoria Park August 30—\$600 in Prizes Offered

Owners of ponies which come under the classes eligible for the pony and Galloway race meeting to be held at Victoria Park, Aug. 30, will find in the program of eight races which are to be run that day, good chances to get their horses in action.

There is a purse of \$100 for each of the three races, split three times, \$50, \$25, and \$15. The height of the Galloway ponies is set between 14.2 and 15 hands. Some of these ponies will be seen in the races to be held during the fair, but the meeting in August is confined to the horses up to 15 hands. This is the list of races which have been decided on:

**Race No. 1—One mile, Galloway race, 15 hands and under.**  
**Race No. 2—Quarter mile polo pony dash.** Ponies and riders must have regularly played in matches in 1912 and 1913, and the pony must be owned and ridden by members of recognized polo clubs, who must present a certificate to this effect, signed by the secretary and captain of the club of which the owner is a member. This certificate must be attached to the entry. Ponies entered in this race not eligible for entry in other races at this meet this year, and ponies that have started in any race other than the polo pony dash this year not eligible. The decision of the directors as to the eligibility of any pony or rider to be final.

**Race No. 3—Half mile dash for maidens, 14.2 hands or under, that have not been placed first in flat race.** Weight not less than 100 lbs.

**Race No. 4—Six furlongs for three- and four-year-olds, Alberta bred, Galloways.** Three-year-olds allowed 7 lbs.

**Race No. 5—Gentlemen's race, three-quarter mile, open, to hair-bred horses that have never won a purse exceeding in value \$100 in the year (hurdle races and races confined to gentlemen riders excepted) and that have been in the province of Alberta for at least six months prior to the date of the race.** Stallions barred. Weight 150 lbs. To be ridden by gentlemen. Professional riders barred.

The decision of the committee as to the standing of any horse or rider shall be final. Horses not locally owned must be identified. Horses that have previously won a gentlemen's race at the Calgary exhibition to carry 5 lbs. extra for each win.  
**Race No. 6—Half mile Galloway and pony race, 14.2 or under.** Galloway weights.  
**Race No. 7—Galloway hurdle race, one mile, over four flights.**  
**Race No. 8—Five-eighths consolation, open to horses that have not won first second at this meeting.** Galloway weights.

## LESTER PATRICK, REFEREE

Victoria, May 22.—Owing to the refusal of Fred White and Herbert Jesse to act as referees in the B. C. L. A. during the coming summer, it has been necessary for the officers of the Coast league to make a change in the office list. Lester Patrick and Leo Sweeney have been proposed to take the place of Messrs. White and Jesse, and as both have accepted, their names have been forwarded to President Kellington of the B. C. L. A. for approval. Frank Cullen and Robert Dewar of the original list will likely act on Victoria Day at New Westminster, when Vancouver will meet the Salmonbellies in the coming game of the 1913 season.

## Played Game in Rain.

Brooklyn, May 22.—Today's game between Brooklyn and Pittsburg degenerated into a farce because of Umpire Klem's determination to continue the game in face of a pelting rain. The crowd in the open pavilion withstood the storm until the Pittsburgs had the bases full and two out in the first half of the fifth, and then rushed out on the field. In order to prevent a forfeited game the management permitted the invaders to take seats in the grand stand.

In the sixth innings the game was again delayed while attendants scattered seaward around the pitcher's box, the home plate, and third base, but Umpire Klem finally called the game when Stengel, after reaching first on balls, attempted to steal second but in doing so slid fifteen feet in the mud beyond the bag and was tagged out.

After a delay of fifty minutes the game was called back to the fifth inning. The province of Alberta for at least six months prior to the date of the race. Stallions barred. Weight 150 lbs. To be ridden by gentlemen. Professional riders barred.

## Derby Favorite Won

London, May 21.—The Newmarket stakes was run today over a 1-1/2 mile course at Newmarket and resulted in a win for the Derby favorite, F. Bower Ismay's colt, Craganour, by Desmond-Veneration II, which started at 3 to 1. Joel's chestnut colt, Sun Yat, by Sundridge-Angelic, starting at 100 to 8 was second, while W. Raphael's bay colt, Louvois, by Isinglass-St. Leger, 1 to 2, was third. Craganour came in three and a half lengths ahead of Sun Yat, while Louvois was one and a half lengths behind Sun Yat. Louvois for a time was co-favorite with Craganour in the betting for the derby.

## White Sox Beat the Champs.

Chicago, May 22.—Russell proved too much for the world's champions today and Chicago won the final game of the series by 2 to 1. Bodie, who replaced Mattick in centre field, was responsible for driving in both of the locals' runs. Russell pitched fine ball in the pinches.

**Watch Repairs of All Kinds.**—American, English and Swiss. Moderate charges, work legally guaranteed. Dickens, working watchmaker, 331 Eighth avenue east, just below the Queen's. Phone 2440. Open till nine every night. Issuer of marriage licenses.

A place for the business man and woman to be served quickly and economically. Service strictly a la carte. See our specially trained baker cook griddle and butter cakes in the window.

OPEN SUNDAYS FROM 5 to 9 p. m. ONLY

Calgary St. Andrew's Golf Club The Calgary St. Andrew's Golf Club will hold its spring meeting on Victoria Day, the 24th inst., and a very varied program has been arranged for the entertainment of the members. The Moffat trophy will be competed for under handicap conditions and other valuable prizes will also be given. Special prizes will be given for the best scores for 36 holes and a prize will also be given for the best scratch score. Play will commence at 8.30 in the morning and the draws will be made on the arrival of each car thereafter.

EIGHT

## HAS THE CANADIAN NORTHERN ARRANGED FOR ANOTHER RAID UPON THE CANADIAN DOMINION TREASURY?

Winnipeg Free Press Says So and Insists That Some Daylight Should Be Let in Upon the Financing of the Canadian Northern and Other Enterprises

SUGGESTS FORMATION OF BULL MOOSE PARTY AMONG FARMERS OF WESTERN CANADA

Believe Both Political Parties Are Lined Up Behind Demand of the Celebrated Railway Promoters and That There Will Be No Real Opposition to Demand in Parliament

The Winnipeg Free Press, which has taken the lead in recent years in denouncing particular interest in Western Canada, predicts another invasion of Canada by Mackenzie and Mann. It says that all the indications point to the completion of arrangements for helping themselves to many millions of cash from the Dominion as well as a very large loan from this country.

The Free Press rather believes that the two parties are lined up behind these railway adventures and that the discussion in parliament will be of the perfunctory order and that the criticism will be followed by the creation of a Bull Moose party.

The Free Press does not say that no assistance should be given to railways by the Dominion, but that no aid is coming to or is needed by the Canadian Northern. "Before any more aid is granted to the railway," says the Free Press, "some daylight should be let in on Canadian Northern financing."

The Free Press editorial is as follows:

"All the indications at Ottawa go to show that arrangements have been completed by those two masterful knights who are such outstanding figures among the overlords of our modern feudalism, Sir William Mackenzie and Sir Donald Mann, for helping themselves—that is, the Canadian Northern, which is theirs—many millions of cash from the Dominion treasury, and for securing, in addition, a loan from the Dominion."

"The dispatches which the Free Press has been publishing from its Ottawa correspondent have kept the West informed in regard to this intention on the part of the C.N.R. was first published a couple of days ago, a dispatch from Ottawa was promptly set forth in the government newspaper organ in Winnipeg, and Sir Donald Mann, in an interview with the representative of a Toronto paper, professed to know nothing about the matter and treated the published report as a thing unconnected. Meanwhile the arrangements were being pushed forward at Ottawa with persevering energy and thoroughness."

"As the Ottawa correspondent of the Free Press stated yesterday, Sir William and Sir Donald and their force of lobbyists great and lobbyists small, have taken their departure from Ottawa, their work being finished, and the Government now has its part to do in bringing the matter before Parliament at an early date. The lobbying has been most persistent and skillful. The lobbyists great and the lobbyists small have played their cards on both sides of the house; and all the signs go to show that Sir William and Sir Donald regard it now as a foregone conclusion that the necessary government legislation they have arranged for to enable them to help themselves to cash from the Dominion treasury and to grant them a Dominion loan will slide through parliament without difficulty or delay."

**Bull Moose Party Suggested**

"If this is done, if there is merely a perfunctory debate, if there is only a make-believe criticism, there will be many from end to end of the Dominion who will indignantly declare that parliament exists not to do the will of the Canadian people, but to do the will of Big Business and High Finance. If both the parties show themselves subserviently servicable in carrying through this arranged raid upon the Dominion treasury and the credit of the Dominion, there will be many Canadians who will believe that the time has come for the organization of a Bull Moose party in this country."

The Free Press is not prepared to say dogmatically that circumstances do not warrant the granting of some Dominion aid, direct or indirect, to the Canadian Northern. But there is a strong presumption, that the Canadian Northern is not entitled to, and does not rightly need, such assistance. This presumption is held by the people of this country generally, and it is the manifest duty of parliament to have

## ADVENTURERS START FOR NOME IN CANOE

Seattle, May 23.—Arthur D. Simpson and Forrest Clark, of San Diego, have started from Seattle harbor in an 18-foot canvas canoe, in which they expect to row to Nome, going all the way by water except the distance between Skagway and the head of navigation on the Yukon, at White Horse, which must be travelled by the White Horse Railroad.

The voyagers will be in sheltered water nearly all the way, but there are open places on the inside passage and rapids in the Yukon that are full of peril. They expect to reach Skagway in three months and to take less time in floating down the Yukon. The crossing of Norton Sound from the mouth of the Yukon to Nome, is the most venturesome part of the cruise.

## PUPILS PRESENT GOLD PIN TO MISS HALLETT AT CLOSING

Domestic Science Night Class Gives Successful Luncheon at End of Term

The pupils of the night class in domestic science gave a closing supper Wednesday night in the public school domestic science room in the Garbutt College Block. A pleasant feature of the event was the presentation of a gold pin to the teacher, Miss Hallett, by the pupils. Mr. T. B. Kidner made presentation, and Mr. Arnold and Mrs. A. D. MacDonald addressed the class and teacher complimenting them on their success.

The luncheon was given as the formal closing of the term, the invited guests being Dr. and Mrs. Scott, Mrs. Harnall, Mr. A. D. MacDonald and Miss MacDonald, and Mr. and Mrs. Arnold.

The night class in domestic science was organized three years ago, and has been one of the most successful departments of the high classes of the public schools.

## HALT SPECULATION; WORK THE LAND IS DANE'S ADVICE

Dairy Expert, Visiting Alberta in Interests of Danish Societies, Believes Country Will Be Better When Actual Development Work Is Started

BUTTER PRODUCED AT LOWER PRICE HERE

Certainty of Water at all Times Through Irrigation Ditches a Wonderful Advantage, He Declares; Produce Brings Higher Price

"The one fault I find with Alberta and particularly with the conditions in the immediate vicinity of Calgary, is that too many men are trying to make fortunes in land speculation instead of actually working the lands they possess."

This is the statement of Lars Frederiksen, cattle expert to the United Agricultural Societies of Jutland, a province in Denmark. Mr. Frederiksen, who is registered at the King George, was the guest yesterday of Provincial Dairy Commissioner Markar. The Danish expert is making a tour of the North American continent getting advanced ideas regarding cattle raising and dairying, and plans to spend at least two months in western Canada before departing for Denmark.

"I have gained many valuable ideas of dairying through my inspections of Alberta farms," said Mr. Frederiksen last night. "Of course, we want to keep our own people in Denmark, and I believe the new ideas I have absorbed in the United States and Canada regarding the proper method to get as much cash as possible out of the stock raising industry will be of

great benefit to the Danish farmers. I find that some of our people want to try their fortunes in this wonderful new western country, and I shall undoubtedly be asked to designate the places where Danees should emigrate if they are bound to come to the new world.

Is Impressed With Alberta

"So far I have not really made up my mind what section to recommend, but Alberta impresses me as a wonderful land of possibilities. It does not seem to me that this great horde of land speculators, however, are of any benefit to the country. The inflated values they are attempting to give the land must in course of time be retrospective. If they would get down to real development work, and farm their land instead of speculating in it, the country would be far better off."

"From a dairy standpoint it seems to me that butter, for instance, can be produced here at a smaller cost and sold for a bigger amount than in the old country. When you get labor on a permanent basis, and the farmer can depend upon a steady supply of help the year round, your conditions will also be better. I am not familiar with irrigation, and expect to study the huge water ditches considerable before leaving this section. The certainty of water, no matter what the climatic conditions may happen to be, is also a great advantage to your province, and one which I shall appreciate in making out my final report to my societies."

From Calgary Mr. Frederiksen will

go to the C. P. R. Demonstration at Lethbridge, and then to Regina.

**Tenant's Action Dismissed**

In the district court yesterday before Judge Carpenter, the case of Stein was dismissed without the defence being heard. The suit was for the sum of \$15.65 which was claimed for repairs which were done by the plaintiff in Suite 12 of Mosson's building. It being averred that the defendant ought to have kept the building in proper state of repair. After seeing the evidence for the plaintiff the case was dismissed. A. Adams appeared for the plaintiff and E. A. Dabbar for the defendant.

**MILLION ACRES SERVED BASSANO**

Great Development Place at Hundred Mile Gary—Gas and in Large Quantity

**BUILDING ACT CANADIAN**

Splendid Hotel Completed W Schools Are Larger and Rapid Progress

Bassano, May 23. The "Big dam"—the great irrigation undertaking of the province, is the new Alberta dam on the main line of the Canadian Pacific railway, being the largest section of the irrigation system in Alberta. Adjacent to the dam is the Bassano Electric Power Company, which has been installed for the connection of electric lines to the dam. The dam is three miles long and will supply to feed the irrigation of the dam. It has a height of 4,000 feet and is estimated to cost \$10,000,000. It will be completed in 1914. In addition to the dam, the project includes the construction of a canal, a reservoir, and a power plant. The project is one of the most important in the history of the province.

Approximately 3,000 acres will be irrigated. In addition, the project will produce an abundance of electrical energy, of which an ample supply will be available for manufacturing purposes. The dam is the largest in the world. It is a masterpiece of engineering. The project is one of the most important in the history of the province.

Also, the discovery of natural gas in an extensive deposit in the area within three miles of the dam. The gas is of high quality and is expected to be a valuable asset to the province. The project is one of the most important in the history of the province.

MILLION ACRES TO BE SERVED BY THE BASSANO DAM

Great Developments Are Taking Place at New Town a Hundred Miles East of Calgary—Gas and Coal Found in Large Quantities

BUILDING ACTIVE IN CANADIAN PACIFIC TOWN

Splendid Hotel Has Just Been Completed While Banks and Schools Are Worthy of a Larger and Older Town—Rapid Progress is Assured

Bassano, May 23.—The town with the "Big Dam"—the immense engineering undertaking in connection with the great irrigation scheme—not the other kind. This appellation briefly epitomizes the predominant feature of the new town of Bassano, Alberta. The town is located on the main line of the Canadian Pacific railway, being 83 miles east of Calgary. Also it is the chief centre of the eastern section of the recently completed and vast Canadian Pacific railway irrigation project in southern Alberta. The entire half million acres of adjacent lands, 30,000 acres of these irrigated lands, are in connection therewith. The Electric Power and Traction company has been granted a charter for the installation of a network of lines through this irrigated section. This scheme will link up with Bassano the entire half million acres of adjacent land. The great irrigation dam is situated three miles southwest of Bassano. It is the largest in Canada, and the sources from whence will be derived the water supply to feed the hungry acres. The dimensions of the dam are 7,000 feet in length, with a base of 310 feet and its height is 45 feet. There are 1,000 men employed on its construction, and it is estimated that it will be completed in about a year's time. Its estimated cost is five million dollars. Water will be served from this dam. In addition to the water, an extensive deposit of first class steam and domestic coal is located within three miles of Bassano. Having water power, gas and coal in abundance right at its doors, it is quite on the cards that Bassano should be an attractive place for various manufacturing enterprises. Already some half-dozen manufacturing establishments are located here, and other manufacturing concerns are now in negotiation with the Bassano town council with a view to erecting their respective factories. These facts conclusively suggest that Bassano is destined to become an important manufacturing centre in the near future. Although not much more than three years old, it is one of the liveliest, go-ahead towns "out west," and during its short span has already been "going some." It was incorporated in January, 1911, and it now possesses a large and growing population. Assessment statistics are another indication of its rapid growth. Thus it is found that assessment on its rateable property in 1911 was \$400,000 and for 1912 had increased to \$1,400,000. Between the value of \$150,000 were levied for 1912-13 for the construction of sewer and water systems.

Also Coal. With the discovery of a local supply of natural gas it is not surprising that an extensive deposit of first class steam and domestic coal is located within three miles of Bassano. Having water power, gas and coal in abundance right at its doors, it is quite on the cards that Bassano should be an attractive place for various manufacturing enterprises. Already some half-dozen manufacturing establishments are located here, and other manufacturing concerns are now in negotiation with the Bassano town council with a view to erecting their respective factories. These facts conclusively suggest that Bassano is destined to become an important manufacturing centre in the near future. Although not much more than three years old, it is one of the liveliest, go-ahead towns "out west," and during its short span has already been "going some." It was incorporated in January, 1911, and it now possesses a large and growing population. Assessment statistics are another indication of its rapid growth. Thus it is found that assessment on its rateable property in 1911 was \$400,000 and for 1912 had increased to \$1,400,000. Between the value of \$150,000 were levied for 1912-13 for the construction of sewer and water systems.

New Buildings. Local long distance telephones have already been installed. The proposed new buildings for 1912 include a fine new post office to cost \$30,000, an ad-

dition to the Canadian Pacific railway roundhouse, three business blocks, and the magnificent Masonic temple. The water building when completed will cost \$25,000, and will be an ornament to the town, and provide a permanent home for the brethren of the mystic tie. In addition to the Masons, three other fraternal orders have been established, Odd Fellows, Foresters and Rebekahs.

The commercial spirit of the town is also revealed by the several lines of business which have been established here. Three Canadian banks have their local branch offices: Canadian Bank of Commerce, Union Bank of Canada and Bank of Quebec. In addition to these there are five general stores, five implement warehouses, an automobile garage, four livery stables, two confectioners, a liquor store, three lumber yards, two drug stores, two furniture stores, three hardware stores, two harness shops, a shoemaker, two tailors, a gent's clothing store, a dentist, two doctors, an electrician, four real estate firms, a printing shop, newspaper, The Bassano News, four restaurants and three hotels. The Berkeley Hotel, which has recently been erected, was built by Mayor Whiting at a total cost, including annex, of \$100,000, and probably ranks as one of the best hotels in the west, excepting probably the Canadian Pacific Hotel at Calgary. A very favorable impression is created by its interior, its furniture and fixtures being quite up-to-date in every respect, and no expense has been spared in order to make it one of the most comfortable and accommodating. A bright idea in connection with this hotel was the construction of a roof garden, the only one in Western Canada. This garden runs in the shape of an L along the side and end of the building, and having aisles extending the entire length with porches for observation purposes. Running through this garden are many rooms fitted with hot and cold water and telephones. Shower baths will also be installed for the use of the guests. Senator Lougheed and the government objected to the amendment arguing that the bill was merely a tentative one and the government was anxious to see how it would work out. By passing this amendment the senate practically declared that it proposed to take charge of the distribution of the money of the Dominion. He declared that in offering this amendment the Liberals had become an echo for the minority in the commons.

Senator Lougheed for the government objected to the amendment arguing that the bill was merely a tentative one and the government was anxious to see how it would work out. By passing this amendment the senate practically declared that it proposed to take charge of the distribution of the money of the Dominion. He declared that in offering this amendment the Liberals had become an echo for the minority in the commons. Sir George Ross denied this and explained and declared that the government in the senate would not act in a partisan way in making a proper amendment to the bill.

Good Schools. For meeting the educational requirements of Bassano, there is a local school containing four class rooms, a building being erected in 1910 at a cost of \$22,000. It has seating accommodation for some 300 scholars. There are 272 on the roll, and the training of the scholars is in the hands of four capable teachers. The social and recreative side is represented by local baseball and hockey teams, a town and country club, and an opera house. There are two representative churches, the Presbyterian and the Anglican.

Land in the Bassano district averages \$20 per acre. The nature of its soil is chocolate loam. Last season this district produced some very fine flax and its excellence is proven by the fact of the Canadian Pacific Railway producing its flax samples from the big crops raised here. The company's experts declared the flax grown in this district to be as near perfection as possible. The crops from which the samples were obtained were estimated to run from 13 to 20 bushels to the acre, a heavy yield and grading well. The following culled from The Bassano News shows that the crop was such as to prove the district one of the finest in the west: "There was not a poor or even one that could be termed only fair field in the vicinity. They all yielded heavily and the demand upon the local elevator (it has a total storage capacity of 30,000 bushels) was more than it was feared it would be able to cope with." The immense water power, natural gas and coal deposits and fine farms are tangible evidence to justify the assurance of Bassano's future and to warrant its slogan—"the best in the west by a dam site," to which the modifying phrase is sometimes appended. "No profanity intended."

MANITOBA ELECTION TRIAL MAY NOW PROCEED

Objections Made by MacDonald Member Disallowed by Supreme Court

Ottawa, Ont., May 22.—The supreme court today disallowed the appeal in the MacDonald election cases instituted by Alexander Morrison, the member-elect against the judgment of Mr. Justice Cameron of Winnipeg, on the preliminary objections to the petition contesting the election. The appeal was dismissed with costs, and the judgment of the trial judge upheld in every particular the lordships of the supreme court not bringing down a reason. The petition can now be filed, and the protest against the election heard as soon as parliament prorogues.

GENSUS OF THOSE WHO PASS OVER 12TH STREET CROSSING OF THE C.P.R.

According to the census taken by the police, the traffic over the Twelfth street east crossing of the C.P.R. amounts to 3,366 pedestrians daily, and a total of 669 vehicles per day; forty-eight trains, 59 switching engines and 88 handcars cross the crossing. The average is about 100 pedestrians and between 50 and 60 vehicles each hour for 24 hours, each day, and several trains or engines per hour of a 24 hour day. The residents are asking for a subway at this crossing and the census was taken to provide a basis of calculation on which to base an appeal to the railway commission.

By far the greatest amount of traffic at this point is drays. Three hundred and thirty-two drays a day use the crossing, but only 75 automobiles pass the

LIBERALS IN SENATE WILL THROW OUT HIGHWAYS BILL

Want Government to Divide the Money to be Expended Among Provinces According to Population of Provinces.

MOVE SAME AMENDMENT BROUGHT IN LAST YEAR

Senator Lougheed Accuses Senators of Being Part of Liberal Organization; Sir George Ross Denies the Charge.

Ottawa, May 23.—That the majority in the senate will reject the highways bill was made evident when the bill reached the committee stage in the senate today. The bill is the same which was passed by the commons last year, amended by the senate and finally abandoned by the commons. Senator Kerr introduced the same amendment providing that the commons shall apportion the money granted to the provinces in the Highway bill according to the population as shown in the recent census.

DEMOCRATS ALREADY PLANNING 1916 FIGHT

Washington, D. C., May 23.—Plans for drawing the political battle lines of 1914 and 1915 have been talked over at conferences with the executive committee of the Democratic national committee. The programme included a conference over what the national committee should do to make the party successful in the state and congressional elections two years hence, with a look ahead to the next national election; and a meeting with officers of the Democratic congressional committee regarding a greater representation of senators in that body, and a conference with President Wilson.

"BORAX" SMITH SAID TO OWE \$1,500,000

San Francisco, May 22.—Claims aggregating \$1,500,000 against F. M. (Borax) Smith, the Oakland millionaire, whose tangled finances have been taken out of his hands, are today in the hands of the committee in charge. On June 27 an arrangement must be made with the New York banking firm of N. W. Halsey & Co. for handling a debt of \$2,500,000, secured by Key Route bonds issued for \$3,250,000.

IMPERIAL BANK SHOWS CONTINUED PROSPERITY

The thirty-eighth annual statement of the Imperial Bank of Canada which has just been issued contains the following information which may be of interest to people of Calgary. Increase in net profits, respectively of premium received on new capital stock, \$121,531; dividends paid, \$88,319 over an above previous year, applied after transferring \$211,880 from profit and loss account to reserve, balance is carried forward amounting to \$1,992,388, so that rest account and undivided profits amount to \$3,989,588; increase in circulation, \$500,000; increased deposits (notwithstanding stringency of money market) so that they now stand at \$56,802,111; total assets now stand at \$77,964,108, as compared with \$73,751,667 in 1912.

MAWSON TO ADDRESS THE CANADIAN CLUB

Thomas H. Mawson, the town planning expert who is here to do work in the city, is to have a busy time outside his official duties. On Tuesday he will address the members of the Canadian Club at the Young Men's Club rooms of the Central Methodist church at 1230. Tomorrow afternoon he will address the city of Calgary. A very favorable evening he will give a lecture in the public library to all who are interested in the subject. To the Canadian Club Mr. Mawson will speak on "City Planning in Calgary, A Retrospect and Prospect."

JINGO JAPANESE ARE REBUKED BY OWN COUNTRYMEN

Prominent Orientals Counsel Others of Race to Peace Pending Settlement

Los Angeles, May 23.—That there has been much talk of war among Japanese residents in California and in the Pacific insular possessions was incidentally admitted in an appeal published by officials of the United Japanese Association of Southern California, counselling patience pending the outcome of diplomatic negotiations with regard to the California-anti-alien land-ownership bill. The appeal is signed by George T. Heral, president of the Southern California Japanese association; R. Traill and K. Oishi, representing the United Associations of Southern California, and S. Mitau, president of the diplomatic committee of the United Associations. It is directed to all Japanese residing in the United States and in the American possessions in the Pacific, and sets forth that the "war talk now widely prevalent among our people" will only embarrass the Japanese and American governments in their efforts to arrive at an amicable adjustment. The statement also declares that it is hoped the outcome will be the negotiation of a treaty that will confer naturalization rights upon Japanese.

LAWYER DARROW MAY NOT BE TRIED AGAIN

Los Angeles, May 23.—Action, it is said, which may ultimately operate as a dismissal of the remaining indictment against Clarence S. Darrow, the Chicago lawyer, accused of jury bribery in the McNamara case, was taken by Assistant District Attorney Ford Wood, acting presiding judge of the superior court, struck the indictment from the calendar, leaving the case to be reset at the option of the district attorney. In the case thus virtually disposed of, Darrow was charged with procuring the corruption of Robert Bain, a juror sworn to serve in the trial of J. B. McNamara.

THOS. MAWSON TO GIVE A SERIES OF LECTURES

Mr. Thomas Mawson, the city planning expert, is becoming one of the foremost educational institutions in the city. Although Mr. Mawson has been engaged to prepare preliminary plans for the city, that is only a small detail of the part he is performing during his sojourn here. A series of lectures have been arranged, by various bodies which will fill all the

PRISONERS TO SMOKE IN JAIL

Change in Maryland Penitentiary Forced by Warden. Baltimore, May 23.—Visitors to the Maryland penitentiary yesterday were surprised at the unwonted sight of practically all the male inmates sitting in their cells conspicuously smoking pipes. One of the strictest regulations of the institution has been that forbidding smoking. Through the efforts of Warden John F. Leonard, in line with his endeavors to better the condition of the inmates, the penitentiary board has lifted the ban on the use of tobacco and henceforth the inmates will be allowed to smoke pipes. The use of cigars and cigarettes is still prohibited.

"I Never See You Dusting" said Mrs. White

"WELL, Mrs. White, I'll confess that I don't have to do much dusting since we got our McClary's Sunshine Furnace."

"You don't say so, Mrs. Wright. What difference does that make? Isn't one furnace the same as another?"

"Well, I'll tell you, Mrs. White—McClary's Sunshine is certainly different from our last furnace. It's a clean furnace. It has what McClary's call a sure-acting dust flue."

"A dust flue, eh?"

"Yes, and when George, my husband, 'rocks' down the ashes—he doesn't have to break his back shaking the Sunshine, you know—the dust all goes up the sure-acting dust flue. It doesn't come up into the house."

"Wish our furnace was a Sunshine, Mrs. Wright. And you should just see Mr. White after shaking our furnace. Mad! Well, I should say so. And he sure looks his name. He is WHITE. His suits are ruined, he declares, as soon as he gets them, and he swears that the thing is not a furnace at all, but a patent coal-consumer gotten out to benefit the coal man."

"But why not get your husband to put in a Sunshine furnace, Mrs. White? You can persuade him to do most anything for you. And it will cut down your coal bills. We burn a third less coal with the Sunshine."

lecture of the famous city planner for the next week. On Friday afternoon, May 20, he will address an open meeting of the city planning commission at which Mr. J. W. Davidson, delegates to the Chicago convention, will also speak. On Tuesday, May 27, he will speak to the Canadian club at a luncheon at 1230 in the Young Men's club at the Central Methodist church "On Calgary City Planning, a Retrospect and a Prospect."

MANITOBA ELECTION TRIAL MAY NOW PROCEED. Objections Made by MacDonald Member Disallowed by Supreme Court. Ottawa, Ont., May 22.—The supreme court today disallowed the appeal in the MacDonald election cases instituted by Alexander Morrison, the member-elect against the judgment of Mr. Justice Cameron of Winnipeg, on the preliminary objections to the petition contesting the election. The appeal was dismissed with costs, and the judgment of the trial judge upheld in every particular the lordships of the supreme court not bringing down a reason. The petition can now be filed, and the protest against the election heard as soon as parliament prorogues. GENSUS OF THOSE WHO PASS OVER 12TH STREET CROSSING OF THE C.P.R. According to the census taken by the police, the traffic over the Twelfth street east crossing of the C.P.R. amounts to 3,366 pedestrians daily, and a total of 669 vehicles per day; forty-eight trains, 59 switching engines and 88 handcars cross the crossing. The average is about 100 pedestrians and between 50 and 60 vehicles each hour for 24 hours, each day, and several trains or engines per hour of a 24 hour day. The residents are asking for a subway at this crossing and the census was taken to provide a basis of calculation on which to base an appeal to the railway commission. By far the greatest amount of traffic at this point is drays. Three hundred and thirty-two drays a day use the crossing, but only 75 automobiles pass the

### CAUSE OF WRECK ON C. P. R. BAFFLES OFFICIALS

Injured Men Are Discharged From Hospital—Barber Will Recover

Officials of the C.P.R. after a thorough investigation, have been unable to fathom the cause of the wreck which dethroned a colonist car of train No. 4 near Mitford Thursday afternoon, injuring a score of passengers. District Supt. Uren was in Calgary yesterday investigating the wreck, but gave up no statement as to its probable cause. Among railroad men it is believed that the breaking of the coupling between the tender and the locomotive, thus automatically causing the wreck, caused the derailment. The train left without the locomotive as a buffer and under the full pressure of the train, the coupling broke along the track, the train, and at last left the rails. Only the breaking of the coupling of the colonist car which went into the ditch saved the passengers of the other cars from a serious calamity.

At the General Hospital, Henry G. Barber, the guard who was the victim of the wreck, was discharged yesterday and is in a fair way to recover. An examination failed to find a fracture of the leg, and although a number of the cuts were found on his head, it is believed that he will be able to leave the hospital in a few weeks.

The Rev. Thomas Griffiths, pastor of the Holy Trinity church, was discharged from the hospital yesterday and taken east by the railroad company. The Rev. Griffiths, who was discharged yesterday, is in a fair way to recover. An examination failed to find a fracture of the leg, and although a number of the cuts were found on his head, it is believed that he will be able to leave the hospital in a few weeks.

The Markets

NEW YORK SPECULATION IS WINNIPEG WHEAT TRADING LACKING IN VITALITY OPENS FAIRLY STRONG

New York, May 23.—Speculation lacked the vitality to carry forward the movement, St. Louis and San Francisco securities declined yesterday, and the effect of today's trading on the average of quoted values was negligible. Business fell off considerably, and traders who looked for a continuation of the preceding day's display of strength, abandoned efforts to bid up prices early in the session. The list opened fractionally lower, and although there was no pronounced pressure, stocks sagged generally during the fore part of the day. Subsequently the market moved upward slowly, cancelling the early losses in most cases.

Chicago opened unchanged to 3-8 higher, but closed 5-8 down for May. July unchanged, and September 1-8 lower. The cash market for wheat was quiet, and although receipts continued to be heavy, offerings were only fair. Lower cables and higher prices here have again thrown export quotations and samples of wheat flour, however, steady to firm. Cash flour advanced 1-4, while white options were unchanged for May and 1-4 higher for July. Receipts of flour were 118 cars, against 25 for last year.

Winnipeg, May 23.—The local wheat market opened strong following the sharp break in prices Thursday, being 1-2c higher for July and October, in face of lower Liverpool cables. Prices following opening were steady, and in sympathy with markets across the line. Fluctuations were as narrow as they were wide on Thursday, and closing figures were 1-8 higher on all months, with a strong tone.

Chicago opened unchanged to 3-8 higher, but closed 5-8 down for May. July unchanged, and September 1-8 lower. The cash market for wheat was quiet, and although receipts continued to be heavy, offerings were only fair. Lower cables and higher prices here have again thrown export quotations and samples of wheat flour, however, steady to firm. Cash flour advanced 1-4, while white options were unchanged for May and 1-4 higher for July. Receipts of flour were 118 cars, against 25 for last year.

Winnipeg Stocks. Winnipeg, May 23.—Listed stocks: City & Provincial Loan, 140; Canada Fire, 168; 110; Empire Loan, 112; 116; Great West Life, 200; 210; Home Investment, 126; 136; Northern Mortgage, 120; 130; Northern Trust, 110; 120; Occidental Fire, 110; 120; Standard Trust, 174; 174; Union Bank, 110; 120; Winnipeg Paint & Glass, 110; 120; S. A. Warrants, 110; 120.

Medicine Hat, May 23.—The latest industry for Medicine Hat is a wood-working factory which was arranged for last night. The concern will spend \$15,000, and they have agreed to employ at least 20 men every working day. The heads of the new industry are William Rutherford and Mr. Merriam. They are both local men, the former for many years, the latter a sawmill in the Cypress Hills. They have been given by the city a tract of land which comprises about one acre of the Powell subdivision adjoining the Powell gas well. They will be given gas at the usual manufacturing rate, 80c per 1000 cubic feet, and the city has agreed to supply them with 20,000 cubic feet of gas daily.

**MEN, NOT VOTES, IS  
GAYNOR'S SUFFRAGE  
SOLUTION**

Million and Half Are Single in  
England; They Cause  
Trouble, Says Mayor

New York, May 23.—"As soon as  
a majority of the women want to vote,  
they will get it, but as soon as every  
woman has a man, the women get to  
be very peaceful," said Mayor Gaynor,  
in an interview discussing the question  
of "votes for women."  
"I do not think the women in this  
country will ever resort to the violence  
of the English suffragettes," said  
the mayor. "There is a deep reason  
for that. Over in Great Britain there  
are about a million and half women  
who have no man. We have no such  
condition over here."  
As soon as every woman has a man  
the women get to be very peaceful. But  
just think of a million and half women  
without a man. I do not blame  
them for getting mad. They ought to  
tear down all England. The men got  
up and went off to Australia and Can-  
ada and Van Dieman's land, and Lord  
knows where else, and left the women  
there. And now we are having the  
result.

"The women are going to burn the  
whole place down unless they are al-  
lowed to vote. But will it do them any  
good if they are allowed to vote? Val-  
uing their men, are their husbands.  
They will be as 'had off' in that re-  
spect as ever. Over here there is no  
such numerical disparity between men  
and women. I suppose most of our  
women suffragettes are married."

**Gooderham Not Millionaire.**  
Toronto, May 22.—The late Robert  
Turner Gooderham of 331 Sher-  
bourne street, brother of the late  
George Gooderham, whose death oc-  
curred last autumn, left an estate  
totaling \$720,572.33.

**IMPORTANT UNRESERVED  
Auction Sale  
of  
CATTLE**

Acting under instructions from  
Mr. O. W. Bowles, who is selling  
his entire herd of cattle, re-  
designed will sell by Public Auc-  
tion the stock described herein, at  
the premises of the owner,  
1 1/2 Mile East of Blackie, and 13  
Miles North East of High River.

**Tuesday, May 27**  
Commencing at 11 o'clock.  
Lunch Served  
**DAIRY AND RANGE CATTLE**

22 head of excellent milch cows,  
fresh or close to  
40 head of Grand Holstein Heifers,  
25 with calves at foot and bal-  
ance to calves sold, these heifers  
are a grand bunch from the best  
milking strain that can be pro-  
duced, and they are gentle.  
25 head of mixed yearlings.  
25 head of nearly pure, mostly  
Herefords, nearly all with calves  
at foot.

3 high grade Holstein bulls, from  
1 to 2 years old.  
These cattle will be sold in lots to  
suit purchasers. Persons desir-  
ous of buying either milch cows  
or range stock will do well to  
attend this sale.

There will also be sold, without  
reserve, a nearly new 35-hp. in-  
cylinder separator and 25-horse  
power portable engine. This engine  
is in perfect order and has threshed about  
30,000 bushels of grain. Terms, \$500  
cash and the balance can be ar-  
ranged.

Trains leave Calgary at 8:15, ar-  
riving at Blackie at 10 a.m., re-  
turning the same day.

**TERMS CASH.**

**Auction Sale  
OF NATIVE  
Range Cattle  
and Horses**

at  
**ALBERTA STOCK YARD,  
CALGARY.**

**Tuesday, May 27.**  
At 1:30 p.m. Sharp.

The undersigned will sell the  
following—

**CATTLE.**  
220 head or more.  
65 head or more 2 year old steers  
100 head or more 3 year old steers  
55 head or more 4 year old steers

**HORSES.**  
4 head heavy mares, well broken  
and bred.  
1 team 3 year old geldings.  
5 two year old colts, Clyde bred.  
1 registered Clyde stallion,  
weight 1800 lbs., 8 years old,  
a sure foal getter. This horse is  
an exceptionally good type.  
Papers on view at time of sale.

The above cattle are a choice  
lot native stock Shorthorn and  
Hereford bred; and having been  
well wintered, are in fine shape  
to go on the grass for early beef.  
The horses are Clyde bred; the  
grown stock well broken, and the  
mares have been tried.  
The cattle will be sold in  
bunches.
