CARNIVAL WAS DECIDED SUCCESS

Large Attendance, Strik Costumes and Good Music for Enjoyable Eve

The first Carnival in Bridgetown's new rink took place last night and was a complete success in every way.

The attendance of skand spectators was around two hundred and fifty, and nearly a half of the former appeared on the special costumes which were distinguished in many cases by beauty, originality. After the decision of things was given, skaters not in special costume were allowed on the ice, and a band furnished a nice programme of music and the skaters tried costumes presented a plain and attractive appearance.

The judges, Mr. B. Nessinger, Mrs. Will Lockart and Harry Ruggles, had no little difficulty in arriving at a decision. Winners were—Ladies, first—Miss Piggett, as a "Kewpie Doll"; and Miss Vera, as "Highland Lass Gentleman"—First, Harold Price "Robin Hood"; Second, Jesse Sanders, as "The Weekly Monitor".

Among those whose names called for special mention Eugene Poole, "The Man From S"; Frances Fowler, "Squaw"; Helen Fay, "Indian Princess"; L. Fowler, "Hiawatha"; John Br., "John Bull"; Mrs. H. T. LOWER GRVILLE

A very pleasant afternoon was spent on Tuesday, 1st inst., at Mrs. J. R. Elliott's, with the annual Christmas tree of the Anglican Sabbath School was given by Miss E. A. Bettis. After an interesting address by Ven. Archdeacon Atson, the gentlemen distributed gifts, oranges and candy from a heavily laden tree to each boy and girl.

Mr. and Mrs. F. Sabean and daughter, who has spent the last few months in the S.A., returned on Tuesday.

On Thursday, 4th inst., was considered the worst snow storm of the season.

Mrs. Maud Farrington, of Lowell, Mass., spent the Xmas holidays with her parents, Mr. and Mrs. J. K. Winchester.

PUBLIC UTILITIES HOLD SESSION

Meeting in board of trade room—Changes proposed in collection of water rates.

A session of the Public Utilities Board was held in the Board of Trade room, Bridgetown, on Tuesday morning, presided over by Mr. R. T. McBrieth, K.C. Miss L. B. Taylor, Secretary of the Board, was present, and Mr. J. E. Lloyd, Town Clerk, and Councillor C. B. Longmire and others were present at the sitting which was in connection with proposed changes in connection with water rates in the town.

It is proposed to allow a cash discount for prompt payment within a short time, not yet decided by the Board, after the date bills are usually sent out for a six months period, Jan. 1st and July 1st, each year. After that time interest will be charged at the rate of 8% per annum up to the time water is shut off if such a stop becomes necessary.

WILLIAM RUSSEL IN "DESERT BLOSSOMS"

In "Desert Blossoms", a William Fox photoplay which will begin a run at the Primrose Theatre next Monday, William Russell is starred in the role of a young construction engineer connected with a mighty government irrigation enterprise.

Many of the scenes were filmed on the Mojave Desert, in California, forty miles from Death Valley. The story is by Kate Corbaley. Arthur Rosson directed the production. The popular Fox star is supported by Helen Ferguson in the feminine lead, W. J. Rigby, Willis Roberts, Margaret Mann, Dulcie Cooper, Charles Spere and Gerald Pring.

The young engineer is shown first in charge of construction on a bridge contract. The bribing of an assistant by a swindling cement dealer results in the supplying of inferior material for the last two spans. As a result, the spans fall, and the engineer is disgraced. Then begins the fight to rehabilitate himself, under an assumed name. The irrigation project offers him his chance.

"Desert Blossoms" is declared to be one of the best vehicles Russell has had. An engaging love theme is interwoven with exciting adventures.

STAFF OF COUNTY HOSPITAL EXTEND THANKS

To the Editor of THE MONITOR: Dear Sir:—The staff of the County Hospital and Home, beg to extend hearty thanks to the Bridgetown Monitor, and to all those who have in any way contributed toward the success of the Xmas tree and entertainment, held in the Recreation Hall, Dec. 28th, 1922.

It is indeed fortunate and justly commendable that there are those, who, at this season of the year, and at other times are mindful of the unfortunate and afflicted, and who live, even in their isolation from home and freedom are considerably brightened by the efforts of those, who from time to time, act the part of the good Samaritan—the Samaritan of whom the world is in need today, the one, who's life is well spent on this earth, because he thinks not only of himself, but of his fellowman.

In behalf of the staff,
A. F. HILTZ.

ANNAPOLIS COUNTY FARMERS' ASSOC'N

Nineteenth Annual Meeting Held at Lawrencetown—Summary of Proceedings

The Nineteenth Annual Meeting of the County Farmers' Association was convened in the Demonstration Building, Lawrencetown, on the 3rd of January, 1923. President C. S. Bothamley presiding. He read an excellent address reviewing events of the past year (this paper will appear in the local press paper.)

The Secretary referred to some work of the Association, viz. The Instructive Short Course held in the Demonstration—Building on the 14th, 15th and 16th of March, conducted by Dr. M. Cumming, Secretary of Agriculture, and staff of the Agricultural College, Truro, also the pleasing speakers on the 20th of August by Prof. Saxby Blair, of the Experimental Farm, Kentville, and Prof. Trueman of the Agricultural College, Truro, and Dr. Lovet, M. F., of the County.

On the 7th of September, J. Forsyth Smith, Canadian Fruit Commission to Great Britain, well known to fruit growers by his frequent reports of the English markets, was favored with a good audience.

MRS. E. C. YOUNG REACHES EIGHTEETH BIRTHDAY

Receives Messages From Far and Near—Many Visitors Tender Congratulations.

On Saturday afternoon a large number of friends tendered their felicitations to Mrs. E. C. Young on the attainment of her eighteenth birthday. The occasion was one most thoroughly enjoyed by all present who were delighted to see how lightly their esteemed hostess bore the weight of her four core years.

Mrs. Young has ever been an active force in the community for all good words and works and in the evening of her life enjoys the highest tributes of esteem and respect from friends far and near.

She was the recipient of numerous letters and messages and of many gifts from members of the family and from others. Among the latter was a purse of one hundred dollars from her sons and daughters who are now quite widely scattered, only two in Bridgetown, Mr. Herman Young and Mrs. Eugene Saunders.

Among messages received were ones from two daughters, Miss Gertrude and Mrs. John Daniels, who were in South Carolina on their way to Florida.

The position of esteem and respect in which Mrs. Young is held in the community cannot be better expressed than in the letter sent her by a former pastor, Rev. E. E. Daley, now of Tabernacle Church, Halifax, all will join in wishing for her many more happy anniversaries of her birthday. The letter referred to follows below:—

Halifax, N. S.
Jan. 3rd 1923.

Mrs. E. C. Young,
Bridgetown, N. S.

My Dear Mrs. Young:— Last Sunday as I talked to Fred for a few minutes about Bridgetown he happened to say that Next Thursday was your eightieth birthday, and I thought that I would drop you a line of congratulations. You are not eighty years old but eighty years young, I am sure of that. I know that the body may not be as strong as once it was, but I also know that there is a spirit in you that must always keep you young.

My Bridgetown friends always hold a very high place in my thoughts. They were happy years that we spent there, and we often look back to them.

I do not know whether you would like to live life over again or not. I think that you enjoyed life and while you have had, like all others, their rough places, yet I am sure that in many ways the years have dealt kindly with you. You have enjoyed the blessings of a home in which you were loved and respected and which you ruled well. Your children have not been the kind to cause you trouble. They have always been a great comfort to you, all of them, and that is a great deal to be thankful for, and especially when your family has been so large. I know that you have been happy in your life, both as a wife, and a mother.

Then you have been permitted to live a useful life in your home community. I know that you have won a high place in the esteem of the brothers and sisters of the Bridgetown church. I am satisfied that the rec'ord that is on high is a good one. At this time you, as you look back, may be inclined to think how little

"FATHER AND SON" BANQUET

AND SOCIAL EVENING

The Boys' Work Board of Bridgetown, are making arrangements for the holding of the annual "Father and Son" banquet on Friday, the 19th January. This popular annual institution, it is expected, will be as attractive this year as it has ever been.

Last year's banquet is memorable for the visit of the great Boys' Work-er, Taylor Statten. A good inspirational speaker is being arranged for.

One of the most pleasant social affairs of the past week was the dinner of the "Edgewood Club", at the Riverside Inn on Wednesday evening.

After a sumptuous dinner cards were enjoyed. Some stunning gowns were worn. Mrs. O. C. Jones, White Satin; Mrs. Ernest Dargie, Blue Satin; Mrs. B. N. Messenger, Blue Satin; Mrs. C. L. Piggett, Brown Velvet and Lace; Mrs. T. B. Chipman, Red Silk Crepe Meteor and Lace; Mrs. J. Herbert Hicks, White Satin; Mrs. Capt. Longmire, Blue Voile Satin trimmings; Mrs. Chas. Bent, Blue Satin; Mrs. A. F. Little, Black Satin and Lace; Mrs. Wm. Jones, Navy Blue Satin fur trimmings.

A sumptuous banquet well served and complete in all its appointments was served and the occasion was thoroughly enjoyed by all the ladies and gentlemen present.

Plan deliberately—execute promptly. Be the master of money, not its slave. Silence is a hard argument to answer.

TOWN COUNCIL HOLDS SESSION

Revisors and Election Officials Appointed—Various Other Matters Dealt With.

The Town Council held its regular session Monday night, Mayor Warren presiding.

A number of bills were taken up and those O. K'd were ordered paid. The Committee on Public Property reported that preparatory work had been entered into re some water extensions, but that nothing further would be done before Spring.

Messrs. F. E. Bath, Arnold McKenzie and W. H. Maxwell were appointed revisors for 1923.

Mr. A. C. Charlton was appointed presiding officer and Miss Jennie Foster, Poll Clerk, for the present year.

Chief Bishop reported the hydrants all in good shape except one.

On motion Chief Bishop will be supplied with new uniform.

Mr. Harry McKenzie representing the Bridgetown Rink Co., requested the free use of water. Use was granted for a nominal and statutory sum of \$100 per year.

On motion Council adjourned.

I have been able to do. But it is not so. I am sure you have done much. If you could see the aggregate of hours spent by you in the service of the Lord and His church you would see that your life has not been profitless, but one of blessing to the church and the community in which you have lived. In my experience I have met with a good many useful women and I can say in plain statement of fact, that you have been among the best deeply interested in the things that belong to the Kingdom. I am sure that the Lord will not be unmindful of your labor of love.

When I think of you I think of what the good book says of a woman. The heart of her husband doth safely trust in her. She will do him good and not evil all the days of her life. Her children shall rise up and call her blessed. She stretcheth out her hand to the poor, yea she reacheth forth her hand to the needy. She openeth her mouth with wisdom and in her tongue is the law of kindness. Many daughters have done virtuously but thou excellest them all without flattery.

I am sure that there must be in your heart a feeling of thanksgiving to God for the abundance of his mercies and especially that that the future is as bright as the promises of God. I am sure that the very best life would be a disappointment to all of us if it were not beyond that rim we see the country of our dreams. When we reach four score the threshold cannot be so very far away, but the door leads to the homeland. But I must not get on this strain for I hope that ten years from now I shall be permitted another word of congratulation and who knows perhaps on beyond that.

Mrs. Daley joins me in wishing you all blessing and a very happy birthday and many more of them.

With all good wishes,
Sincerely yours,
E. E. DALEY.

ENTERTAINMENT AT RECREATION HALL

First to be given on January 30th, By St. James' Church.

The evening of Tuesday, the 30th inst., has been decided on as the date of the entertainment to be given in the Recreation Hall for the month of January.

This is the first of the monthly series to be given by the local churches and will be under the auspices of St. James' Church. We would particularly ask our readers to keep this evening clear and to give the entertainment the patronage the cause-deserves. Funds are needed to pay for the Pipeless furnace now being installed. The Christmas tree concert had been looked to, to help provide these, but the violent storm prevailing on that evening made the takings almost nil. A bumper house then, in the Recreation Hall, on the evening of Tuesday, January 30th.

PARADISE

The Literary Society met New Year's evening at the home of Mr. and Mrs. Joseph Longley. Music was the special feature of the programme. Selections were given by the Paradise Male Quartette and by Miss Eleanor Longley, and Mr. E. G. Morse, who sang solos. Piano solos by Miss Marjorie Morse and Mr. Ralph Baird, of Massachusetts, were much appreciated. Rev. W. Steadman Smith read a paper entitled "1922 in Fact and Fancy." The President, Mr. H. A. Longley, gave a paper, prophetic of the New Year. A reading by Mrs. W. H. Robinson and one entitled "Matilda's New Year Resolutions," were also enjoyed. The attendance was not as large as usual, owing to the heavy snow drifts.

The Women's Institute will meet January 11th, at the home of Mr. and Mrs. Arthur Whitman. Mrs. Parker, of Middleton, will be present and will address the meeting. A large attendance is expected.

The box of Christmas goodies sent to the Kentville Sanatorium by the Women's Institute has been graciously acknowledged. The ladies are glad they helped Santa Claus in this special way and hope to do something bigger along this line in the future.

Rev. and Mrs. W. Steadman Smith were the recipients of a beautiful Saskatchewan, buffalo robe and a purse of money as a New Year's gift from friends in Paradise and West Paradi.

Deacon and Mrs. J. S. Longley gave a dinner party, Dec. 26th. The guests were Rev. and Mrs. Ritchie Elliott, Rev. and Mrs. W. H. Robinson, Deacon and Mrs. Norman Longley, and Rev. and Mrs. W. Steadman Smith. A very delightful social evening was enjoyed which ended with an old-fashioned sing.

The past school term was far from satisfactory for our teachers, owing to so much sickness among the boys and girls. We trust the coming year may find our children in the best of health, working hard to make up for lost time.

Sorry to report Mr. Edwin Tilly ill with tonsillitis for the last two weeks.

Miss Bessie Durling and Miss Marjorie Bishop are both visiting friends in Halifax.

Mr. and Mrs. E. W. Schlecher, of Massachusetts, are visiting Mrs. Schlecher's parents, Mr. and Mrs. Jodrie, of Paradise.

Miss Eleanor Longley returned to Halifax on Tuesday for the remainder of the winter.

MISS WHITMAN NOW ON BRIDGETOWN TEACHING STAFF

Miss Georgie Whitman, daughter of Rev. A. H. Whitman and Mrs. Whitman, of Lawrencetown, has entered upon her duties as teacher in the Bridgetown schools succeeding Miss Gladys Maitman, now Mrs. Clyde Marshall.

NOTES AND NEWS OF LAWRENCETOWN

Interesting Budget of Personal and Social Notes—Services in the Churches

Sunday, Dec. 31st, a good number were out to the Baptist Church. It really was a union meeting. Both the ministers, Rev. Whitman and Rackham, took part.

Evening service in the Methodist Church.

Sunday afternoon the Free Masons attended service in the Anglican Church. Rev. Canon Morris gave a fine address to the assembled congregation.

Monday, Jan. 1st, passed quietly away. Family dinners, parties, and reunions, made a happy time for many.

Mr. W. Beng is, we are glad to hear, nearly himself once more. We hope he will soon be as well as ever. His general kindly manner has made him a great favorite in his office and in town.

Mrs. (Dr.) Primrose has gone to Kentville to see her aunt, Mrs. Dodge, who is quite ill.

Miss Clara Longley has gone to Boston to visit relatives.

Miss C. Peters, well known for her musical ability, is spending the Winter in Sydney, C. B.

Mrs. L. Stoddart spent a day out of town with her daughter in South Williamston.

Mr. Clyde Morse has returned to the Royal Bank, Windsor.

Mr. E. Stevens, Halifax, spent Xmas at the home of his sister, Mrs. Wm. Prince.

Mrs. J. B. Hall has been suffering from a severe cold. We hope she will soon recover.

Professor Blair, Mrs. Willet, Mr. and Mrs. Bothamley were guests of Dr. J. B. and Mrs. Hall.

On Tuesday a meeting of the Trustees of the Methodist Church was called to consider ways and means for the coming year.

We're all glad to see Dr. Phinney and family in town for the Christmas season. They now reside in Yarmouth. Mr. W. Phinney is making a good recovery from his very serious and painful accident.

Rev. L. and Mrs. Wallace will soon return to their Mission work in N. B.

Mrs. B. A. Kintney has returned to her home from Berwick where she spent a week with friends.

Mr. Benjamin Whitman passed quietly away to the Great Beyond at the home of Mrs. Ernest Whitman. On Wednesday he was laid to rest in the old Whitman Cemetery, South Lawrencetown.

A day of storm and stress, wild winds, drifting the snow in high banks. Few are brave, or strong enough to face the riot of the winds.

Miss Paterson, of Sanford's, has gone to Ayestford.

Miss Josephine Banks, of Moncton, is spending her vacation with her parents, Mr. and Mrs. B. S. Banks.

One of our Lawrencetown boys, Edward G. Daniels, Inspector of Schools, in British Columbia, has been very ill with typhoid fever, is slowly getting better.

Mr. J. C. Archibald and Dr. Archibald went to Halifax on Sunday to see their mother who is very ill.

FUNERAL OF LATE HUGH BAULD

There took place from the home of his parents, Mr. and Mrs. W. C. Bauld, 367 Morris Street extension, the funeral of Hugh Gray Bauld, news of whose death in early manhood, at the very beginning of a career which promised success and happiness, so saddened all who knew him. There was a large attendance and many tokens unmistakable of sorrow and a sense of loss, these including a wealth of flowers, among which, together with many from relatives and friends, were a wreath from the Session of St. Andrew's Church; a wreath and Masonic emblem from Burns Lodge, A. F. & A. M.; a wreath from the staff of the firm of Bauld Brothers; and a plant from the Ladies' Aid Society of St. Andrew's Church, whose minister, Rev. D. MacDorm, conducted the service. Two hymns were sung—"My Faith Looks Up To Thee", and "Asleep in Jesus", and the occasion furnished abundant and touching proof of the real sorrow friends feel in the death of this promising youth, whose young wife and parents have the sympathy of all who know them in a truly grievous blow.

PREDICTS POPULATION 50 MILLION IN POLAND

Poland will have a population in excess of 50 million in 1971 and will then rank fourth among the nations of Europe, according to a prediction made by John Dombalski, one of the leaders of the Polish delegation which negotiated the Treaty of Riga with Russia in 1921. Dombalski sets forth his reasons for this belief in an article on "The Population of the Polish Republic" which appeared in a recent issue of "Polityka," a Warsaw periodical published under his direction.

Only Russia, Germany and England will have larger populations than Poland fifty years hence, the writer believes. Poland now ranks sixth in population among the nations of Europe, but according to Dombalski's prediction Poland will pass both France and Italy before 1971.

FASCINATING STORIES

Two fascinating stories of adventure and romance will commence this month in The Family Herald and Weekly Star of Montreal. "The King's Arrow," by H. A. Cody, takes one back to stirring times in the picturesque days of the Acadians and the United Empire Loyalists. "The Yellow Flower," by Thompson Cross, is a thrilling tale of adventure in the Far East. These two stories alone are worth double the subscription price of The Family Herald and Weekly Star of Montreal for a full year. Subscription sent in immediate payment will catch the opening instalments.

250,000 TONS CAPE BRETON COAL TO BE DELIVERED AT BOSTON

While newspapers and prominent officials in the United States are loudly protesting against the shipment of American hard coal to Canada, it is interesting to note that Canadian soft coal is now being shipped in large quantities to the New England States, the British Empire Steel Corporation having contracted to deliver 250,000 tons at Boston alone during the coming winter.

Six or seven cargoes of this coal have already been landed at Boston and the steamers Ligan and Rose Castle will be employed regularly in transporting it from Sydney and Louisburg, while other steamers of the Cape Breton coal fleet will also deliver cargoes at Portland, Rockland and other American ports.

Most of the Cape Breton coal will be used by the New England railroads and industrial plants, whose stocks were badly depleted as a result of the miners' strike in the United States last summer.

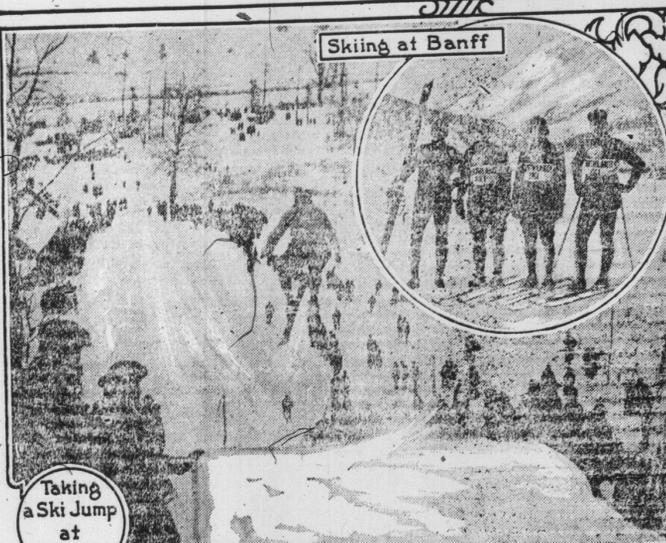

Twenty-five years ago, when the Henry M. Whitney interests were in control of the Dominion Coal Company, and the New England Gas and Coke Company, there was a considerable trade in Cape Breton coal to Boston, but the withdrawal of these interests from active control of the companies mentioned and a heavy adverse duty on Canadian coal entering the United States, caused a cessation of this trade until it disappeared entirely some fifteen years ago.

During the past summer a number of cargoes were shipped from Sydney to Boston in American colliers belonging to the New England Fuel and Transportation Company and these shipments started a revival of the trade, which promises to keep the Cape Breton mines working pretty steadily until the St. Lawrence shipments are renewed in the Spring.

BANFF IN WINTER

Girl Hockey Teams at Banff Carnival

NATURE has made Banff, Alberta, one of the finest summer and winter resorts in the world.

Heretofore most of the visitors came in the summer. Within the last few years large numbers have been attracted in winter when sports carnivals have been held with great success. The season 1922-1923 is likely to make a new record in the popularity of Banff as a winter sports centre.

Did you ever ski down a mile-long ski-slope in a pass in the Rocky Mountains? Did you ever swim in a hot sulphur swimming pool and gather snow from the sides to snow-ball your companions? Did you ever meet a deer suddenly on a mountain road and find it unafraid? Did you ever wait on skates? Did you ever climb a mountain and slide all the way down its side on your snow-shoes?

All these things you can do in winter at Banff—famous Canadian mountain resort, 4,534 feet above sea level in the clear bracing air of the Rocky Mountains.

One of the most unique attractions of Banff is the swimming in the hot pools. Sulphur Mountain is named for its remarkable health-giving springs of sulphur water which gush out of the side of the mountain, and even in zero weather are so warm that they are delightful for swimming.

Ample opportunity is afforded for every variety of winter sport. Down on the river is a rink where one may practise figure-skating, or watch some accomplished skaters waiting to music. One of the best toboggan runs comes down the side of Tunnel Mountain. Skiing is also a popular sport here and splendid opportunities are offered for jumps on the mountain slopes. The little mountain

town is also famous for hockey and a number of fast teams have their home here among which those of the ladies are far from the least important.

There are walks with unique attractions around Banff. You may be coming down one of the beautifully graded roads, flanked by the slender ranks of the mountain pines, and a deer will walk out of the woods just ahead of you and stand and gaze at you. This is because Banff is in a government park where it is against the law to shoot wild animals. Any day walking down the main street, you may meet a large mountain sheep. But he is no longer a wild one—he is the mascot of the mounted police stationed here. There is also the but-

falo park to visit, and a glimpse of one of these magnificent animals is largely sought.

But the outstanding wonder of Banff is its mountains. Whatever winter sports you may delight in, you are always ringed by an amphitheatre of mountains. Range upon range, and snow-covered peak beyond peak, they tower above one and stretch away into the distance. Against the snow on their sides, the dark mountain pines stand out in sharp relief. In climbing one is tempted to stop often, for every new level brings into view fresh peaks, and hitherto unguessed valleys.

Banff is easy of access, being on the main line of the Canadian Pacific Railway, three and a half hours' journey from Calgary.

SUGGESTS THAT CANADIANS RETURN CAPTURED GUN

Boston Mayor Suggests Restoration of Alleged Bunker Hill Cannon Would Touch Heart of America as Good Will Token.

Boston—Mayor Curley wrote to Hon. George F. Graham, Canadian Minister of Militia and Defence, suggesting that the Dominion present to Boston in time for this year's celebration of the Bunker Hill anniversary a cannon said to have been captured by the British in that historic battle. The cannon, a small field artillery piece, has been on exhibit for many years at the Citadel, Quebec. In his letter requesting return of the gun in time for the annual June 17th celebration at Charlestown, the Mayor said that the proposed gift would not only move Boston's feelings, but would touch the heart of America as a fresh sign of the goodwill and amity so long existing between the United States and Canada, among the world's few neighboring nations whose 4,000 miles of frontier remain unfortified.

Doubt has been cast on the authenticity of the Bunker Hill relic by United States historians who contend that the Americans used only muskets in that engagement.

TAKING THE "CURE"

A man with a few hairs consulted a chemist, who recommended a cure for partial baldness. The customer tried it, and returned a few days later to report

"It worked splendidly," said the customer. "I am no longer partially bald. I am completely bald."

Minard's Liniment for Distemper.

SHOE ON OTHER FOOT NOW

The Canadian wood pulp embargo, which at present sorely handicaps United States paper mills, is likely to be extended to exports from all forest lands in the Dominion, according to Chief Forester William B. Greely in the annual report of the Forest Service, U. S. Department of Agriculture, just issued. Should this be done, raw wood from Canada will be completely shut off as a source of supply for the paper industry of the United States.

The paper mills of that country now draw one-third of their requirements from Canada, and northeastern mills, he says, have already been seriously handicapped by present embargo, which prohibits pulpwood exports from crown lands.

This illustrates, the report continues, the hazard of becoming dependent upon foreign supplies. The rapid increase in lumber shipments through the Panama Canal foreshadows the time, in the near future, when the principal source of softwood lumber for the entire nation will have shifted to the west coast, and the averages freight cost paid by the home builder or manufacturer will have advanced to a new and higher level.

THE TRICKS TYPE PLAY

As a result of a typographical error which appeared in Mr. E. Scarow's advertisement yesterday, offering "garters for women hard to fit," when the word "garters" should have read "gaiters," there was approximately 250 male applicants for positions in Mr. Scarow's store. The young men evidently thought that the "garters" would be fitted in the store.—Owen Sound Times.

ANCIENT ORDER OF YESBUTTERS

The yesbutter is the man who says: "Yes, I think it's a pretty good idea, but—" "Yes, Blank is a pretty good director, but—" "Yes, I'm in favor of a new club house, but—" The yesbutter is forever on the fence, unable to make up his mind on which side he should take up his abiding place. He dwells in the valley of Hesitation and founders about in the fog of Indecision. The yesbutter lacks self-confidence. Not having the courage to wholeheartedly embrace one side or the other, he oscillates between two opinions. He is like a straw in the air, blown here and there by every stray breeze, floating about in the clouds of irresolution and never finding a permanent resting place. "He that shoots best may sometimes miss the mark," said Owen Feltham, "but he that shoots not at all can never hit it. Irresolution loosens all the joints of a state; like an axe it shakes not this or that limb, but all the body is at once in a fit. The irresolute man is lifted from one place to another; so hatched nothing, but adds all his actions." Don't be a yesbutter. Let your speech be "yea, yea, and nay, nay."

Railway News

Winnipeg, Man.—Since the commencement of the crop year up to Oct. 1st, 85,955,574 bushels of wheat have been marketed by the Canadian Pacific Railway western lines, it was announced at the local office recently. During the same period, the company handled 12,229,772 bushels of coarse grain and for the same period last year 56,164,115 bushels of wheat were marketed as well as 6,940,888 bushels of coarse grain. Total cars loaded to date amount to 52,773 as against last year figures of 38,257.

There is every indication that the volume of travel to Europe during November and December will this year be heavy. It is already apparent that the number of those who intend spending Christmas in the Old Country will be unusually large, and the Canadian Pacific Railway is making special arrangements to accommodate the traffic. A special through train will be run from Winnipeg to the steamer "Montezuma," sailing from St. John, N.B., on December 12, and through tourist sleepers will run from Edmonton, Calgary, Saskatoon, Regina and other western points to catch other C. P. R. sailings from St. John, thus giving a through service from these cities to the Old Country.

Bow Island.—The Canadian Pacific Railway Company has a gang of men at work here on the improvements to their pumping plant and when completed there will be quite an improvement to the volume of water that can be pumped from the river. The work includes the putting in of a new boiler and pump at the river, so that they can use natural gas as well as gasoline, and thus be sure of fuel at all times for pumping, and does away with water trouble and having engines run for water. It also increases the service here and practically does away with supply at other points.

H. R. Miles, division engineer, has charge of the work and has a crew of eighteen men working with him under Foreman W. J. Oliver. It will take at least three weeks for the work to be completed. When finished they will be able to fill the present water tank, which holds 16,000 barrels, in three hours. When it is considered that there will be at least twelve to sixteen trains daily taking water here it means there must be a supply of it on hand at all times. This new installation will meet the requirements.

Winnipeg.—Western Canada's export business in fruit, potatoes and other lines of produce has developed to such proportions that it is now arranging to establish big collecting warehouses in Winnipeg and other cities of the prairie provinces. The Canadian Pacific has granted special storage in transit privileges at Winnipeg, Regina, Moose Jaw, Lethbridge and Calgary on carload shipments of apples in boxes originating in British Columbia.

Under the new arrangement the shipper has the privilege of holding this produce in Winnipeg or any of the other western cities named for a period of six months and then on reshipment he gets the advantage of the through rate.

St. John, N.B.—The prize awards to section foremen on the New Brunswick district of the C. P. R., for the best sections of rails, read: H. R. Miles, division engineer, recently by General Superintendent J. M. Woodman. His prize of \$50 for the second best went to N. Mason, Roadmaster, Telford, N.S. The first prize of \$100, given by Manager J. J. Scully, was announced a few days ago. Of third prizes of \$25 each, one given by Superintendent Boyle of Brownville, is awarded to W. E. Nason, on section 5, Mattewamkeag sub-division; and one given by Superintendent Gilliland of Woodstock, to T. Abbott for section 11 on the Shogomoc sub-division. The list of roadmaster prizes of \$10, the sub-divisions and the winners, follows:—

- Roadmaster, Telford, St. John; winner, W. B. Harris.
- Roadmaster, Owens, Shore Line; winner, T. Gidden.
- Roadmaster, Hodgson, Moosehead; winner, B. Beaudin.
- Roadmaster, Bird, Moosehead; winner, E. Plante.
- Roadmaster, Richardson, Shogomoc; winner, B. Beaudin.
- Roadmaster, Lister, Gibson, winner, B. Clark.
- Roadmaster, Walsh, Edmundston; winner, W. H. Morill.

OBITUARY

Rev. G. O. Gates, D. D. Wolfville.—Rev. Geo. Oscar Gates, D.D., passed away at midnight New Year's day, at his home on Acadia St. He is survived by his wife, formerly Miss Cynthia Armstrong, his sister, Mrs. Deyton, of Vancouver, and his brother, James, of Middleton.

Dr. Gates was born in 1846 in Melvern Square, graduating from Acadia in 1873. Entering the Baptist ministry, he held successive pastorates in Liverpool, Moncton, St. John, Windsor, Montreal and other towns. He received the degree of D. D. from Acadia in 1869. Since his return from active pastoral work nine years ago, he has resided in Wolfville, where he has been a valued citizen and upholder of community life.

Dr. Gates was a man of marked ability in his profession, an eloquent and forceful speaker, faithful and energetic, exceptionally kind hearted. A man of high ideals he left the world a better place for his having lived. The funeral services were held on Wednesday afternoon at half past two in the Baptist Church, interment taking place in Willow Bank cemetery.

Ask For

Mrs. J. E. Bierwith, of Carnduff, Sask. writes: "My little boy cut off the end of his finger and it seemed a matter for a doctor. However, I applied Zam-Buk to stop the pain and bleeding and it gave the child such relief that I continued the treatment. Nothing but Zam-Buk, I pressed the finger each day, and the wound healed perfectly."

THE SCHOOLMARN

(By Walt Mason)

The teacher in the country school, expounding lesson, sum and rule, and teaching children how to rise to heights where lasting honor lies, deserves a fat and handsome wage, for she's a triumph of this age.

No better work than here is done beneath the good old shining sky; she guides the youths who will be great; she gives the childish spirit wings, and points the way to noble things.

And we, who do all things so well, and of our "institoshuns" yell, reward the teacher with a roll that brings a shudder to her soul. We have our coin done up in crates, and gladly hand it to the skates who fuss around in politics and fool us with their time-worn tricks.

In Halifax one common joy will loaf a week, and draw more pay than three tired teachers, toiling near, will ever see in half a year. It were running this old land, I'd have a lot of snatsmen canned; politicians and folks like those, would have to work for board and clothes; I'd put the lido n scores of snaps, and pour into the teachers' laps the wealth that now away is snined, for words and wiggle-jaw and wind.

You can never read bad literature too little, nor good literature too much.

Miss Edith Porter, teacher, spent the Xmas holidays with her parents, Mr. and Mrs. Harding Porter, of Hall's Harbor.

Quite a number from here attended the Hines-Tupper wedding at Cottage Cove, Dec. 27th, 1922.

THE VALUE OF NIGHT AIR

The time of the year has arrived when the so-called "cold-blooded" members of the community spend the most of their time hugging the fire, or radiator, as the case may be. It is also the time when the time-worn advice to keep the window open and to look after the proper ventilation of the home and office is in order. Here is what one paper says:—

"One of the most persistent theories is that about the 'cold dark night air' being injurious to health. As a result of this foolish notion thousands sleep in tightly shut bedrooms breathing over and over again vitiated air and as a result we have colds and other ills."

"The question might well be asked, what are we to breathe at night if not 'night air'? But night air has been found to be purer than the air we breathe during the daylight hours. At night the activities of the world are largely at a standstill, and there is less dirt in the atmosphere. Science has demonstrated that night air is purest, but the old notion persists among many people.

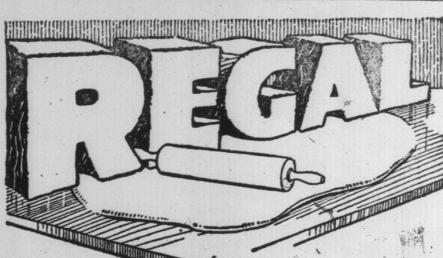

"In Summer the matter is not so serious, but in Winter time thousands and thousands almost hermetically seal their houses and emerge in the Spring like the bears. Is it any wonder they suffer from colds and other ills?"

"Pure fresh air is one of God's greatest gifts. It is most essential to health, and much more attention should be paid to it in school and church and theatre as well as in homes and offices. Let in the pure fresh air—both by day and night."

MORE WOMEN THAN MEN LEAVING FARMS

Washington.—Larger number of women than of men are leaving the farms in search of more lucrative fields of endeavor, the Census Bureau says, basing its statement on an analysis of the 1920 census statistics. The enumeration shows the ratio of males to females was higher for farm population than for the total population, despite the fact that the foreign born element, in which the males considerably outnumber the females, is found mainly in the cities. The sex ratio of farm population on July 1st, 1920, was 109.1 males to 100 females, while the ratio for the entire population was 104 males to 100 females.

Of the number of farm dwellers, totalling 31,614,169, males number 16,496,328 and females 15,117,841. Of the total farm population, 48.5 per cent. was 21 years and over, 24.7 per cent. between 10 and 20 years, and 25.7 under 10 years. Those 21 years and over numbered 15,632,093. For the country as a whole, those 21 years and over comprise 67.6 per cent. of the total population. The farm population, therefore, includes a relatively large proportion of persons under 21 and a relatively small proportion 21 years and over.

Business and Travel Less In 12 Months of 1921

Value of Economical Management at This Time is Shown in Big Railway's Increase in Net Earnings in Face of Decrease in Gross.

THE report of the Canadian Pacific Railway's operations during the year 1921 will be an unusually interesting document to all Canadians. The annual report of this Company is always of interest in view of the fact that, more truly and more completely than any other report issued, it year by year reflects the state of national trade and industry. The C. P. R. touches all parts of Canada. Its earnings at once reflect the prosperity or depression that may exist in any part of the country, and the sum total of the year's operations as analyzed in this report may confidently be accepted as an unerring indication of how the country has prospered during the twelve months under review.

At this late date there is no news in the statement that 1921 was not a year of uninterrupted progress, but it is interesting to review the period, and in the light of some such comprehensive report as that of the C. P. R. to clearly see in what direction Canada's business affairs are moving. In this respect the C. P. R. report for 1921 is an outstanding example. In spite of a large decrease in gross earnings, the company is able to show an increase in net as the result of rigid economy throughout its working operations, and in so doing it has pointed out to all Canada the shortest road back to normal trade activity.

During 1921 the company's gross earnings were \$193,921,854 as against \$216,641,349 in 1920, a decrease of \$22,719,494, or 10.20 per cent. This decline followed naturally upon the general business depression resulting in lessened passenger and freight traffic, decreases in both passenger and freight rates, and to a partial crop failure in some parts of Western Canada.

The Company's sales of agricultural land in the year were 153,304 acres for \$2,872,000, or an average of \$18.74 per acre. Included in this area were 6,686 acres of irrigated land which brought \$55.13 an acre, so that the average price paid for the balance was \$17. Land sales reflected a large decrease in acreage, but as is pointed out by President F. W. Seasty in his annual report, the adoption of reasonable amortization laws designed to encourage the entry into Canada of immigrants of the right type would result in an improvement in this connection.

In the face of the decline in earnings it was necessary to make a sharp reduction in operating expenses if the sound position of the company was to be maintained. For the year these expenses amounted to \$158,820,114 as compared with \$183,488,304 in 1920, the result of the decrease being that the net earnings for the year showed an increase of \$1,048,665, totalling \$34,201,740 as against \$33,153,044 in the previous year. The year's operating expenses amounted to \$2.25 per cent. of the gross earnings and the net to 17.72 per cent. as compared with \$4.70 per cent. and 13.30 per cent. respectively in 1921.

How large a part the Canadian Pacific plays in industrial life may be gathered from the fact that more than half, or 53.84 per cent. of the total \$158,820,114 working expenses for the year was paid out in wages, while one quarter, or 25.92 per cent. was used for the purchase of supplies. The purchase of fuel and supplies for locomotives took another 15.51 per cent. and government taxes consumed 3.49 per cent.

The contraction in the country's general trade is perhaps more clearly indicated in the following figures on passenger and freight traffic. During the year 15,186,081 passengers were carried, \$193,921,854 as against 16,769,555 in 1920. The average journey was 89.67 miles and average fare paid was \$2.56. In 1920 the average journey was 102.45 miles, and the average fare paid was \$2.89. Thus we see that not only was the number of passengers smaller in 1921, but each passenger, on an average, made shorter trips, and paid less in fare.

The total tonnage of all classes of freight, multiplied by the number of miles it travelled, was 12,124,475,979 tons, as against 15,687,014,791 in 1920, a decrease of 3,562,538,812 tons. The company plans to spend \$10,622,137 during the coming year on replacement and extensions that will improve the operating facilities of the entire system and incidentally amortization laws designed to encourage the entry into Canada of immigrants of the right type would result in an improvement in this connection.

HELP HELPLESS BLIND BABES

A Dominion Charter, without stock subscription, was recently obtained for the establishment in the city of Ottawa, of a Home, Nursery, Hospital and Kindergarten, for the blind under six years of age, free to all from any Province in the Dominion. So far nothing has been done for those poor unfortunates. According to reports received from the various Provincial authorities, there are at present nearly 250 in the Dominion. The late Sir Arthur Pearson, before his death, claimed that "Sunshine Home," at Chorley Wood, England, was "the only home in the Empire for blind babies." It is hoped shortly to have the SECOND in Canada. To this end money is urgently required. Help us with your generous gift. "Lest we forget; Do it now" Cheques should be made payable to the Canadian Blind Babies Home Association. Remittances will be promptly acknowledged.

GORE REJOICES OVER RESULTS OF GOLD MINE

Gore, December.—At last the most encouraging success has crowned the efforts of the men boring for the government drill at the Gore Coal Mine, at Gore, Hants Co. A report from there indicates that Christmas cheer all along the line with the big thing in coal development booming large in this vicinity during the New Year. The drill had bored to a depth of 295 feet when it struck a good seam, but not satisfied with that, the men in charge moved the drill to another place and kept on for the last two months and after penetrating 562 feet, struck a four foot three inch seam. The quality of the coal is the best yet exposed since the work of development began early in the year.

THE NATIONAL RAILWAYS

The Monitor Transcript, in a thoughtful and carefully considered article on the subject of Canadian trade through Maritime ports, very aptly says:

Because the business interests of the Maritime Provinces insist strongly on the routing of exports through St. John and Halifax there are some who think this a narrow or parochial view. Such is not the case. In presenting the case for St. John and Halifax, the business interests of these cities are really presenting it from the truly national standpoint. It is not asked that something unusual be done; that a new policy be undertaken. All that is asked is that, insofar as the National Railways are concerned, the policy on which the great national railway development of the last twenty years was launched, and which has cost hundreds of millions, shall be adhered to.

The Transcript follows a well-weighed statement of present trade facts with these thoughtful reflections:

Viewed from a hard-headed business standpoint, here is the situation:—The United States, through the imposition of almost prohibitive duties, has done her best during the last two years to reduce our exports of wheat to that country, and has succeeded to the extent that, whereas during the fiscal year 1921 they amounted to 42,000,000 bushels, in the fiscal year 1922 they were only 16,000,000 bushels; and yet Canada, to some extent through her National Railways, whose port on the Atlantic is Portland, now actually sends more grain to the markets of the world through the American funnel.

The Transcript has always loyally supported the principle of reciprocity, but there is nothing of a reciprocal nature in this method of doing business. It baffles comprehension how serious minded men can expect to build up a profitable national transportation enterprise under conditions such as these. It can't be done, and the situation may as well be faced. Both in respect to the building of the Canadian Pacific and the Grand Trunk Pacific with the National Transcontinental, the fundamental idea was that Canadian trade should follow Canadian channels, and that Canadian exports should find their way to the markets of the world through Canadian ports. And yet, strange to say, we have a National Railway system diverting millions of bushels of very valuable produce to an American port.

The country has been a long time awakening to the real situation involved in this issue. What it is actually confronted with is an undermining of the whole of the National system built through the northern portions of Ontario and Quebec, and designed to feed the Intercolonial. This is something more than a Maritime Province, it is of truly national importance.

CANADIANS OWN \$204,000,000 IN PULPWOOD INVESTMENTS

The theory held in many quarters that more than fifty per cent. of the investments in the pulp and paper industry in Canada for the years 1919 and 1920, so far from holding fifty per cent. United States investors in 1919 held only 24.2 per cent., and in 1920 this had fallen to 19.4 per cent. It is Canadians who hold the large end

of pulp and paper investment in Canada, their total holdings of stock, bonds and other securities being almost identical from a percentage standpoint in 1919 as in 1920, namely, 67 or over two-thirds. The difference between the investments in the two years was made up by an increase on the part of English investors whose shares rose from a little over four per cent. to about eight per cent.

Not only in the preferred and common stocks do Canadians predominate but in bonds as well. For the year 1920 out of \$41,000,000 in bonds Canadians held over \$25,000,000 with \$7,900,000 in the United Kingdom and a little over \$5,000,000 in the United States, although some bond houses may be inclined to dispute the latter figures as incorrect, as not stating sufficiently the United States' holdings.

As far as stocks are concerned these increased from \$161,000,000 in 1919 to \$244,000,000. Canadian-held stocks increased from \$107,000,000 to \$170,000,000; those in the United Kingdom from \$5,000,000 to \$16,000,000, and those in the United States from \$42,000,000 to \$51,000,000.

The Canadian holdings of stocks represent 70 per cent. of the total as compared with about 66 per cent. in 1919. They have failed to keep pace, however, with holdings of bonds, as in 1919 the percentage was 66 and in 1920 only 63.7 of the total. Below are given the figures covering the various groups for that year:—
Thus out of a total of \$294,550,000 in all securities Canadians held 204,641,000 with \$57,058,000 held in the United States, and \$32,851,000 held in the United Kingdom.—Toronto Financial Post.

OBITUARY

Norman A. Brooks

The death of Norman A. Brooks, son of Benjamin Brooks, of Centreville, N. S., occurred at his home in Campbellton, N. B., Thursday, Dec. 23rd, after a lingering illness of over a year.

Deceased, who was 48 years of age, was born in Centreville, N. S., and has resided in Restigouche County for the past eighteen years.

He leaves to mourn the loss of a kind and devoted husband and father, a wife, and seven children, six sons, Robie, in Halifax, and Leigh, Hugh, Edward, Albert and Allan, and one daughter, Mildred, at home, also an aged father, seven brothers and three sisters.

The funeral, which was conducted at his late home on Sunday, December 24th, at 2.3 p.m., was largely attended. Rev. W. Camp officiating. Interment being made in the Campbellton Rural Cemetery. The floral tributes were most beautiful.

BRIDGETOWN HIGH SCHOOL ATHLETIC ASSOCIATION

A Bridgetown High School Athletic Association has been formed in order to organize a hockey team among the High School boys. Edward Orlando was elected President, James Fay Secretary and Harry Mack Treasurer.

The rink has been hired for Saturday mornings and it was decided that each of the four grades would put in a team and have a competition among them. The best players will be picked to form a regular team.

The captains were elected for the various grades as follows:—
The "A" Class, Aubrey Price; "B" Class, Jack Hoyt; "C" Class, James Todd; "D" Class, Douglas Tupper.

A small entrance fee is charged and this ought to be a very good thing for the boys.

"THE QUEEN OF THE BASIN"

With many feet of the beautiful white snow blanketing our countryside, we are made to realize the advantages of preparing for cold weather before it comes. One of the greatest improvements that can be effected by many of our farmers with beneficial results to themselves and families, is to plan to have a year's wood ahead. It is astonishing how many who have acres of excellent woodland live right "up to the axe" or nearly so. They plan to get their wood out on the snow in latter part of December or January. Now take a year like this—deep snow, cold weather, and swamps not frozen, and out of wood. Furthermore a day's work chopping in latter part of October or in November before the snow comes is worth two now, to say nothing of the increased comfort. After all, it is largely a matter of planning. We trust next year at this time more wood houses will be full than at present.

Robins are reported from Bear River and from this place, one in each case. We are rather of the opinion that they have been late for the great exodus in the Fall and not the advance guard of the harbingers of Spring.

School opened on Monday, Jan. 8th, with Miss Anna Robertson and Mrs. Messenger at their posts, and the pupils all glad to get back and to be at work again.

The County Council meets in Annapolis Royal, Tuesday, Jan. 9th, at 10 a.m. There are two things we would like to have our Council, Mr. Robertson and do his best to carry them through—1st—The matter of "The Children's Aid Society of Nova Scotia" There seems to have been some reason why the Council withdrew their

support in 1922. We would like to know the reason? In the circular sent out in an appeal for help, the following statement is made "Cases reported were so numerous that the County officials decided at their January session of 1922 to withdraw their assistance to Mr. Stairs". Now Mr. Councilor, please press the common sense argument that if the need is greater, the Council should grant more rather than withdraw its whole grant. Your answer is always—too much taxation. I repeat your answer is ridiculous, in the face of your assessment. Clark Bros., Ltd., or the assessors, have with an assessment of \$15,000 have deprived the children of Deep Brook of sufficient educational advantages. Is the same thing to be done with the "Children Aid Society"? Even if you stand alone, Mr. Councilor—vote for the grant. The second thing is to move a resolution that a recommendation be made to the Highway Board to provide snow plows to break our highways within winter. This would mean a saving of time and labor and a better road when done. We trust that both these matters will be carried to a successful issue.

An epidemic of heavy colds seems to be prevalent. Nearly every family has some member in some stage of coughing or sneezing. We are sorry to learn that Mr. Ezra Hamilton is seriously ill at Mr. Amos Frazer's. Mr. Hamilton contracted a heavy cold and it was feared pneumonia had set in. Mr. Taylor Ray is also suffering severely. The family of Mr. W. D. Robertson has been laid up. Mrs. Payer who has been laid aside by a severe cold or gripe for several weeks is, we are glad to say, able to be about again. We trust all the sick may soon regain their health and strength and the well keep well.

MEMORIAL SERVICE AT LAWRENCETOWN

Splendid Tribute to Memory of Sons Who Died for King and Country—The Programme.

A very interesting and memorable event took place at the Lawrence-town Baptist Church on Sunday evening, Dec. 17th, in the nature of a Memorial Service for the purpose of honoring the memory of four of Lawrence-town's noble sons, connected with the Baptist Congregation who gave their lives for the cause of freedom in the great war. These were: Harlan Balcom, Charles McKeown, Vernon Stoddart, and Leonard Mellick.

The service also commemorated the splendid service of a number of devoted men and women who had been particularly useful in connection with the musical services of the church, and who had gone on to their reward. The memorial was a beautiful Thomas organ. Symphony pipe tone particularly well adapted to the music of the church, with pipe organ effect. This instrument was purchased from the firm of N. H. Phinney & Co., Wolfville, and the general opinion is that it is a very useful and appropriate memorial. Much credit for the success of the service was due to the perseverance and faithfulness of the church organist, Mrs. R. J. Shaffer.

One hundred and twenty-five new hymn books, the gift of Mr. W. B. Bishop, of Halifax, to the church, were used at this service for the first time, and were greatly appreciated by all. Notwithstanding the stormy evening, the service was well attended and the following programme was successfully carried out:—
Organ Voluntary—Selections from DeKoven.

Doxology.
Invocation.
Hymn 682.
Opening chorus (choir) "God of Israel", from Rossini.
Scripture Reading—Rev. H. G. Mellick Solo—"Come Ye Blessed!"
Miss Marion Bishop.

Prayer—by Pastor.
Quartet—"Lead Kindly Light"—Mrs. E. C. Shaffer, Mrs. L. H. Hanley, Mrs. Jas. Sanford, Mr. Alton Brown.
Solo—Psalm XIII—Rev. W. Raskinham.
Offering and Offertory—
Mozart's Twelfth Mass: Mrs. R. J. Shaffer.
Anthem (choir) "Praise Ye the Lord" Memorial Address—Rev. H. G. Mellick Solo—"In Flanders Field"—Miss Ethel Shaffer.
Address—Lieut.-Col. C. E. Bent.
Quartet—Recessional.
National Anthem.
Postlude.

The Memorial Address was given by Rev. H. G. Mellick, a former pastor of the church, and was highly appreciated, the speaker referring in a tender manner to the brave boys

whom laid down their lives for Liberty's sake. Special reference was also made to the equally brave men, several of whom were present as members of the Great War Veterans' Association, who, in the Providence of God, had been saved in war's awful perils and were permitted to return to the homeland. At this reference to these lenis the whole congregation arose and stood for a few moments in silence.

A beautiful allusion was also made to the late Benjamin F. Prince who served so faithfully and courageously overseas, the tragic closing of his bright and promising young life last Summer being a source of deep regret and sorrow to all.

The speaker also referred in fitting language to those who had contributed so much to the service of song in the church in the past, among these being the late Mrs. L. R. Morse, Arthur Bishop, and the Hon. N. H. Phinney, emphasizing especially the life and influence of the latter, who had been untiring in his efforts to promote the best interests of the church and community along musical (Continued on Page Eight.)

MUNICIPALITY OF ANNAPOLIS

Road Sections Overseers and Their Duties.

32. (1) The Council shall divide the Municipality into road sections, in the best and most convenient manner so as to effectively ensure the performance of the duties required by sub-section (2) of this section, and shall appoint an overseer for each such section.

(2) It shall be the duty of such overseer during the Winter, whenever the highways become impassable from snow, to order all male persons between the ages of 18 and 60 residing within his section, to work with their shovels, horses, oxen and teams, upon any of the highways in order that the same may be rendered passable, and every person so liable who does not comply with any other such order, shall be liable to a penalty of ten dollars, and any such order shall be sufficiently communicated to the person required to obey the same if sent, left or given verbally or in writing at the usual place of residence of such person at or before the hour of nine o'clock in the forenoon of the day on which such person is required to work.

(3) Until such division is made, the road sections or divisions, constituted and existing before the coming into force of this Act, for the performance of Statute Labor, shall continue to exist for the purpose of this section.

(4) Any overseer failing to act or failing to perform any of the duties imposed on him by this Act, shall for such offence be liable to a penalty of twenty dollars. All penalties imposed by this section shall be recoverable under the provisions of Summary Convictions Act.

Removal of Snow, Petitions to Rate and Collect Expense.

32. (a) Notwithstanding the provisions of said Section 32, a majority of persons referred to in said section

may petition the Council at an annual or semi-annual meeting to have the future expense of the removal of snow from the highways and making them passable in the road section or division in which said persons reside, levied and collected upon said person and, or, upon all the real, and personal property within the said road section or division and rateable thereon, according to the rate roll of the polling district in which said road section is situated.

Expense, How Rated and Collected.

(2) If the Council approves of said petition, it shall by resolution agree to pay any expense so incurred in carrying out the request of such petition for the removal of snow, and shall direct that any expenditure so incurred be rated and collected by so much on the dollar on the assessed value of the property and income assessed in respect to the rate-payers residing in said road section, and, or, by a levy of a Poll Tax upon all persons liable to be ordered out to work in said road section and the same shall be collected from such property and income and, or, persons only in the same way in all respects as a general Municipal rate is collected. The Council shall also make all necessary regulations to give effect to said resolution.

(3) Every such resolution shall be and remain in force until the Council shall by resolution rescind the same.

SLICK TALKER OPERATES IN SYDNEY

Numerous Men in Sydney Sadder But Wiser This Week

Neither age, sex nor previous condition of servitude have been respected by a slick talker who has been operating in this city for several weeks past.

The story of some of his success came out when he was tried in a local court on a complaint issued at the instance of a Charlotte Street clothing merchant, who has an uncanny instinct for detecting the proper moment to collect from doubtful accounts.

This man got his money, but the other creditors will probably have to whistle for theirs.

The affair is causing more amusement than grief in commercial circles as the amounts involved in each case were small.

First he stung his landlady for a week's board and lodging. There is nothing out of the ordinary in that. Where his real genius shows itself is in the fact that he was able to borrow \$2 additional from her when leaving.

Then he stung two other ladies in the same manner, only he didn't last as long at each place as he had at the first one.

Meanwhile he went to a music store "purchased" a phonograph, flashed a couple of Masonic signals and borrowed \$2 from the proprietor to get his landlady out of lock.

From the dentist who fixed his teeth and could not cash the cheque he presented, he borrowed \$1.50 to get a parcel out of the express office.

A photographer pressed him for payment for some pictures he had taken. This man threatened to sue, whereupon the con artist visited a local clergyman, springing a line of chatter which showed him to be well posted on the ins and outs of that particular denomination and confided that he wanted to get married on St. Thomas' Day.

He wound up by separating the minister from \$4, which he used to pay the photographer's bill, instead of for a cook-stove, as represented.

Another photographer who worked on him is still waiting for his money.

At another music store he tried to collect a commission on a certain sale for which he claimed to be responsible.

His nerviest stunt was "buying" an automobile from a well known local dealer and then borrowing \$3 from him.

He "bought" cars from two other dealers, also, but whether they fell for the touch, deponent sayeth not.

He is said to have a working knowledge of all the fraternal orders and flashes the proper signals as soon as he finds out whether he is talking to an Elk, Moose, Owl, K. P., Mason or what not.

He was arrested and locked up on the capias mentioned above, but paid his way out and is still at large. So look out for him.—Sydney Record.

STORMY WEATHER CAUSES DECREASE IN FISHING CATCH

Ottawa—A decrease in the quantity and value of sea fish landed on both Atlantic and Pacific Coasts during the month of November as compared with the corresponding month last year, is reported by the Department of Marine and Fisheries. The total quantity landed on both coasts November, 1922, was 451,792 cwts, as compared with 487,542 cwts. in November, 1921. The value of the catch to the fishermen was \$1,301,831 in 1921, as against \$1,332,116 in 1922.

The new season for lobster fishing opened in the Bay of Fundy during the month. There were 2,594 cwts. taken as compared with 3,014 cwts. in November, 1921. Stormy weather was chiefly responsible for the decrease in the catch.

The word "knowledge" strictly employed implies three things—truth, proof and conviction.

THE FARM WOOD LOT

(Experimental Farms Note.)

According to the 1910 census the value of forest products produced on the farms of the United States East of the Great Plains was close to \$200,000,000. In 1918, over 100,000,000 cords of wood were burned on American farms or sold off the farms to town and city dwellers. Throughout Eastern Canada the value of forest products sold on the average farm is probably greater than in the United States.

Except in the more thickly settled sections of the country lucrative employment is found for farm labor and teams during the winter months cutting and hauling logs, ties, pulpwood, pit timber and cordwood. Even in the thickly populated portions of the Eastern townships of Quebec where the farms have been cultivated for well over one hundred years, it is quite common for farmers to handle from 10 to 200 cords of firewood in a season. This year stove and furnace wood is selling for from \$10.00 to \$14.50 per cord. This will give an idea of the important part the farm wood lot plays in helping farmers through periods of depression or financial difficulty.

In many sections considerable revenue is derived from the sale of maple sugar products.

Forest areas conserve moisture for springs and wells, act as windbreaks, make the landscape more attractive and utilize land unfit for cultivation. Every farm should have at least enough home grown timber to supply fuel, fence posts and lumber for repairs to farm buildings.

A little care given each year to fire protection, proper thinning and utilizing of the timber would nearly double the yield from the average woodlot. Instead of slashing half grown trees of the useful marketable varieties for home requirements, if the less valuable varieties, windfalls, and trees showing signs of insect damage and rot were used, the remaining trees would make more rapid growth.

Open spaces should be avoided as much as possible because once a grass sod is formed the growth of the trees is checked. Tops should be lopped to ensure more rapid decay and to lessen the danger from fire. The main idea is to keep a blanket of leaves and wood on the forest floor to hold moisture and encourage the growth of the young trees.

It is bad practice to allow sheep or cattle to pasture in the woodlot, because they destroy the young growth which should come on as soon as the heavier timber is removed.

Of the hardwood trees the hard or sugar maple is the most valuable. Besides supplying sap for sugar making, the wood is valuable for fuel, the manufacture of agricultural implements, furniture, hardwood flooring and distilled products. Other valuable hardwoods are, birch, beech, brown and white ash and elm. Basswood and poplar grow more quickly than other deciduous trees and are useful for reforestation. Among conifers spruce is the most important wood, supplying the bulk of the timber for building purposes. Besides, it is useful for pulpwood and pit timber. Pine is not often found in farm woodlots, but is useful for manufactured lumber. Fir and hemlock are used mainly for building lumber and pulpwood. Cedar makes the best shingles and is also used for telephone and telegraph poles, cross-ties and fence posts. Tamarack, although not a common wood, is very durable and is valuable for fence posts, ties, mine and crib work timbers.

Wherever there is plenty of moisture a second growth usually springs up where heavy timber has been removed. Because of their rapid growth the spruces, firs and poplars often supplant the original hardwood forests. Fully stocked with trees an acre of soft woods will grow at the rate of one to two cords per year, will supply posts or pulpwood in 15 to 25 years and saw logs in 20 to 40 years. Hardwoods grow at the rate of one-half to one cord per year, a cord being equal to about 500 board feet of raw lumber. By proper management rocky, waste and swampy land if allowed to grow up under forest may be made to yield a worth while income.

M. D. MacCHARLES, Assit. Superintendent, Experl. Station, Lennoxville, Que.

'COONS AND PORCUPINE

W. C. MacDonald, James River, picked up a peculiar track in the woods near his home a few days ago, and trailed it to a hollow tree. While inspecting this retreat a sudden rumpus broke out inside the tree and a fine large raccoon shot out and escaped. The noise inside the tree continued and on closer investigation Mr. MacDonald found another large raccoon being flattened out under a still larger porcupine. "Porky" was pried off, but the raccoon was dead, the owner of the tree apparently having dropped on him from a considerable height. The raccoon had a stray ring around his throat, and had evidently at one time been a pet. His mate was trailed and caught later on.—Antigonish Casket.

CANADIANIZING CANADA

Travel is one of the great elements in education and is one of the fundamentals of good citizenship. The desire to know one's own country should be inculcated into the system of every Canadian and to obtain any adequate knowledge, how can it be acquired better than by travel? "Canadians, see Canada," and "See Canada First," etc. have been adopted as slogans in the endeavor to create in the minds of Canadians the advantages of national travel and the attractions Canada has to offer.

The purport of this article is not only to give expression to the sentiments of Canadians seeing Canada that they may have a fuller appreciation of what their own country has to offer them in the way of scenery and interest, but to emphasize particularly the value of tourist travel to the nation, and the duty we owe ourselves in developing our tourist territory—so to speak, to capitalize the resources. Possibly no other country in the world gives up to its people a greater area of country for recreation purposes and these great playgrounds are not confined to any particular section but are spread from the Atlantic to the Pacific. Then, again from the seashore resorts of the Atlantic and the lower St. Lawrence to the Pacific coast the interests are so varied and so distinctly different from one another that our Canadian people may use their vacations for years and find new scenery and new interest annually. From the quiet beauty of the Maritime Provinces to the more rugged scenery of the Province of Quebec, the almost continuous lake and river country of northern Ontario, the Rocky Mountains so immense, beautiful and wonderful, on the Pacific coast, one cannot imagine without personal vision and knowledge what a wonderful asset we have in our widespread playgrounds and national parks.

But to make the most of these wonderful heritages, to realize the fullest amount of profit, they must be developed. The Provincial and Dominion governments must be keenly alive to what the possibilities are. Good roads to the wonder places and beauty spots are essential so that the way of the tourist may be made easy and attractive.

Much has been done by the railways to advertise our tourist territory, which has resulted in millions of dollars being spent in Canada annually, principally by our neighbors to the south of us, but the fringe has as yet only been touched. The Canadian National Railways during the year opened Jasper Park Lodge, in Jasper Park, that largest and most wonderful of all our national parks, 4,000 square miles of magnificent mountainous scenery. There wild life roams unmolested and thousands of tourists from all parts of the globe will gladly assemble annually when the ark is fully developed with good motor roads, and the system of lodges so auspiciously opened on June 15th last are extended through the park. Jasper Park is but one of the many feature places to be developed. Mount Robson Park, just fifty miles west from Jasper Station, is another. Aside from Mount Robson being the highest peak in the Canadian Rockies (13,068 feet), the park, which is entirely within the Province of British Columbia, is an Alpine kingdom in itself, but until such time as it is developed, the glory and majesty of its scenery is denied the tourist who does not choose to ride a cayuse.

By way of comparison it has been stated that tourist traffic in California alone nets approximately a hundred million dollars a year, and the more northern Pacific Coast States, Washington and Oregon, add fully half that amount to the total, whereas it has been said that tourist traffic in Canada, all told, did not net beyond ten or twelve millions.

Again, the Provinces of Nova Scotia and New Brunswick have all the advantages of the State of Maine, but comparatively little has been done to develop them. What this development may mean in a measure can be expressed by the fact that Maine last year reaped a harvest of over \$40,000,000 in tourist business.

Our wonderful tourist territory is undoubtedly one of our largest assets, and greatest heritages to be developed, and in the opinion of inter-national travellers who have visited us, Canada possesses the finest aggregation of scenery in the world.—Toronto Saturday Night.

OH, WOULDN'T THERE!

The performance at a crowded picture theatre had just concluded. Round the exits there was the usual crush to get outside. "This crush is a nuisance," complained a disheartened one, sinking into a seat beside a man who had retained his place to wait until the press was over. "It is" assented the comforted one. "If only everybody would do like me—sit still until the others had got out—there wouldn't be a crush at all."

To bear is to conquer our fate.

A simple fact is worth a shipload of argument.

THE LOST ARMY

(By Merial Buchanan, daughter of Sir George Buchanan, formerly British Ambassador at Petrograd.)

England and France and Belgium, Italy and Canada have honored their dead. With all the ceremony and reverence due to a fallen hero, an unknown soldier from each army has been laid to rest, and his grave has become a sacred spot for a nation's mourning heart, while in every little church and village a memorial is covered with names.

On Armistice Day there were Flanders poppies everywhere, and the spirits of those who had died walked hand in hand with the living, but in the reverent hush of the busy streets I seemed to see the ghosts of a lost army, unheeded and unremembered, standing in shadowy throngs behind those whose names were honored, remembered and prayed for.

We have almost, I think, forgotten the Russian soldiers who fell in millions the first three years of the war! The memory of all they suffered in the cause of the Allies has been wiped away! The flag they carried through hell to so many victories has been trampled in the dust. The Emperor they fought for has been murdered! The golden bells of the Kremlin that triumphantly proclaimed the war have never rung in a glorious peace. They are a lost army; they have no home and no country. Their countless graves are abandoned and neglected.

And yet, through the grim cold of those terrible Winters, they fought for us, mown down by the pitiless guns, laid very often to die of cold, of starvation and disease.

Away back in tiny villages the women prayed for them before the golden ikons, and on the vast frozen plains, among the grim mountains of Galicia, in low, white hospital wards, the Russian soldiers died for a cause very few of them ever really understood.

So the grey ghosts of that vast army come among us still, asking us rather pitifully perhaps only for a smile—a big children as they were who were grateful, always for just a friendly look, a little word of sympathy and understanding.

Let us not forget that they, too, suffered and died for us.

OUTRAM

Glad to report Miss Alma Slocomb convalescent. Mr. and Mrs. Anthony Slocomb, of Mt. Hanley, attended the funeral of Mrs. Bent on Tuesday. Mr. Talmadge Marshall spent Xmas week in Bridgetown. Mr. and Mrs. Avar Slocomb were the guests of Mr. and Mrs. Joseph Hines, Port George, recently. Mr. Wilbur Beardsley returned to his home in Wolfville. Mrs. Beardsley will remain for several weeks. Mr. and Mrs. Percy Marshall and family, of Arlington, spent Christmas day with her parents, Mr. and Mrs. W. A. Marshall. Mr. and Mrs. G. B. Hines and daughter, Mary E., of Mt. Hanley, spent over Xmas with her parents, Mr. and Mrs. James Slocomb.

Those on the sick list at time of writing are:—Mr. and Mrs. J. H. Slocomb and Mrs. William Bent. A speedy recovery is the wish of their friends.

Mr. and Mrs. Frank Marshall and son Lawrence, of Middleton, are spending the holidays, guests of Mr. and Mrs. W. M. Bent, and Mr. Simeon O'Neal. With deep regret we chronicle the death of a much liked and respected neighbor, Mrs. Mary Elizabeth Bent, who passed from this earth to that "land that is fairer than day" at her home at four o'clock on Saturday morning, Dec. 23rd, 1922, at the age of 78 years. She will be very much missed by relatives and friends in this place and elsewhere. Great sympathy is felt for the sorrowing ones. Gone, but not forgotten.

THE SMALL TOWN

Each week a leading Toronto paper carries a full page of advertisement in which Toronto merchants offer for sale by mail special articles such as violins, furs, dress-goods, blankets, men's furnishings, etc. It is another attempt to draw money by mail from the small town to the city, it is another attempt to build up the city at the expense of small town and country. And that it will succeed in accomplishing its purpose is a foregone conclusion. There is always the short sighted person who for the sake of a few cents will buy by mail, forgetting that every dollar spent in the home stores means better times for all in the town. To offset this campaign, which the city paper is putting to increase its own income and the income of its advertisers, the small town merchants must advertise his own wares and his own prices. If the buyer can learn the price while seated in the home, he or she will buy in nine cases out of ten. This is the charm of the city advertisement; you know just exactly how much you have to pay before you make up your mind to make a purchase.

SUFFERED YEARS WITH ECZEMA

"Fruit-a-tives" Cleared Her Skin

POINTE St. PIERRE, P.Q.
"I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good. Then, I used one box of "Sootha-Salva" and two boxes of "Fruit-a-tives" and my hands are now clear. The pain is gone and there has been no return. I think it is marvelous because no other medicine did me any good until I used "Sootha-Salva" and "Fruit-a-tives", the wonderful medicine made from fruit."

WHAT THE CHOIR GIRL SEES

"You would smile, too, if you could see what we do," was the reply of a Kindergarten choir girl when her attention was called by one of the members of the congregation to the amount of laughing going on among the warblers. No doubt she is right. The choir girls must see some funny things. We know they do from what she tells us. So when you are tempted to go to sleep and let your head flop about like a hen with a broken neck, think of the poor choir girl, who needs the sermons more than the comedy.

COMPENSATIONS

Man likes to think he's wise and great. The notion of being the world's producer.

Each man will tell you, sure as fate, "This man is wiser than the roost."

The wisest plans each household makes, is to have time to boast. And when it comes, it's nice to feel that you are the roost.

SKATING IN CANADA THIS SEASON

Much Enthusiasm in Many Quarters.

Toronto.—For many years Canada has provided champion speed skaters. The success of Canadians in competition with the best from other countries, notably the United States, has been most remarkable. Such names as Fred Robson and Miss Gladys Robinson, in particular, will go down in the world's speed-skating records.

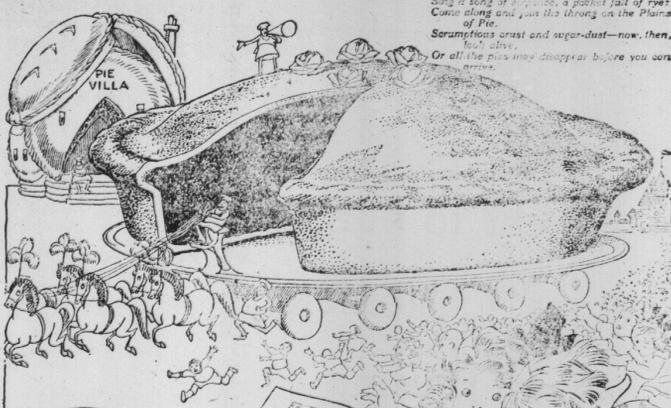

Enthusiasm is now manifesting itself in quarters hitherto uninvaded. For many seasons knowledge of speed-skating was learned only thru the perseverance of youngsters on open-air surfaces. When they showed exceptional speed they were generally taken in hand by a trainer and tested in a series of races. But times have changed. To-day speed skating is being fostered by many individual amateur organizations. And most of the past Canadian artists on the polished steel blades are devoting considerable time to coaching the future champions. Girls' clubs, as well as men's clubs, have been given stimulus. The well-known successes of Miss Gladys Robinson, of Toronto, in attaining the title of the world's champion woman skater has proved an unprecedented stimulus among Canadian girls. In Toronto alone three large athletic clubs are vying for the leading position.

All of the leading skaters in Canada are preparing for the coming Championships in the United States. The leading men are Russel Wheeler of Montreal; C. Gorman, St. John, N. B.; Eddie Gloster, Toronto, and Emery Stevenson, Toronto. From Wheeler and Gorman much is expected. Three years ago Mike Goodman, of Winnipeg (the prairie pride) was regarded as one of the finest skaters ever developed. But Goodman insisted in also playing hockey, and his speed-skating retarded. He was of 1919, world's hockey champions at the Olympia.

The itinerary prepared for Miss Gladys Robinson, the pride of Canada's skating feminity, would make a travelling salesman jealous. The fair-haired speeding marvel has been practising daily on artificial ice for a month. In preparation for all the skating championships listed in the States and Canada. Basil Cosgrave, her trainer, and a good skater himself, says Miss Robinson is in the best condition of her meteoric career. "Better than ever she was," is his estimation. Last Winter in defeating Elsie Muller, of New York, and Rose Johnson, of Chicago, besides others, and winning the silver skates derby and other championships, the Canadian girl made sporting history. She is not yet 23 years of age—and a world's champion.

Laudation must be given Fred Robson, of Toronto, the grand old veteran of the game. Robson has put in 29 years of actual racing. Lot Roe, Piper and Cody are three others of the old Canadian school of speed skating. Last Winter, after being away four seasons, Robson returned and won the Ontario championship and hurdles at Ottawa and had two seconds. When he quit racing he held nine world's records and two Canadian skating records. They nearly all stand today. So many prizes has Robson won that he doesn't know their actual value or number of hand. He estimates his collection at about 250 medals and 250 trophies. When pinned on to his skating apparatus, he appears to be wearing a suit of armor. Robson is now coaching a recreation club and believes he has several girl skaters who are near champions.

Figure-skating has always been popular in Canada. It has made even more remarkable strides than the speed variety, considering its limitations. Figure skating is now a special department of the Amateur Skating Association of Canada in affiliation with the International Skating Union of Europe. The Minto Skating Club of Ottawa, the Winter Club of Montreal, and the Toronto Skating Club of Toronto, are the largest, with

YOUR own particular Jack Horner may be grown up now, but don't imagine for a moment that he has lost his old-time relish for good pastry. So you delight both little folks and big, when you wrap your favorite "filling" in a FIVE ROSES crust.

That well-raised crust that FIVE ROSES brings—that dainty appearance and golden bloom—how cleverly this famous flour seconds your baking skill!

And when you serve it—it cuts different. Instantly you notice the lively, close-grained flakiness that melts away on the tongue tip. It eats easy, of course; but, better still, it digests unconsciously. Pastry at its best—FIVE ROSES pastry—YOUR pastry!

CURLERS CLUB ORGANIZED MONDAY NIGHT

A well attended meeting of Curling enthusiasts was held in the Board of Trade rooms on Monday evening and all the initial steps were taken to give the "Roarin' Game" a proper place and status in Bridgetown.

Officers were elected as follows:—
President—Mr. A. F. Little.
Secy.—Treas.—Mr. Harry Magee.
Ice Committee—Messrs. R. V. Arnold, E. R. Orlando and J. S. Moses.

There was also a discussion on the financial aspect of matters and steps will be taken at once to secure stamps and get the game going in good shape.

Parliament will meet on January 31st.
Big business men prophesy great prosperity.

Local Happenings

The Women's Institute will meet in the Board of Trade rooms on Thursday afternoon at 3.30.

There will be skating after both hockey matches, that with Middletown Friday evening, and that with Annapolis on Monday night.

H. P. Sanford, Lawrencetown, and The Dominion Envelope Co., have the thanks of THE MONITOR for exceedingly attractive calendars.

During last week's storm a large warehouse at Tiverton was reported to be lifted by the violence of the gale and hurled off the wharf into the sea.

The service in St. Mary's Church, Belleisle, next Sunday afternoon, will commence at 2 o'clock instead of 3, and will be followed by the annual Congregational meeting.

As we go press the local hockey team has proceeded to Annapolis for their first League game there this season. We trust to have a few notes on the game for our next issue.

Last week five patients from the Nova Scotia Hospital were transferred to the County Hospital here. At present there are said to be about 550 patients in the N. S. Hospital and its accommodation is taxed to the limit.

The last issue of the Royal Gazette contains notice of the appointment as a Stipendiary Magistrate in and for the County of Annapolis of Mr. Wm. C. Parker, of Lawrencetown. Mr. Parker should be able to hold the scales of justice with an exceedingly even hand.

The Berwick Nurseries suffered a heavy loss as a result of the severe storm on Friday and Saturday, when the roof of their large greenhouse saved in from the heavy weight of the snow that had drifted onto same. The loss is estimated at \$3,000. A similar disaster occurred three years ago when the roof of an adjoining greenhouse fell in.—Derwick Register.

Middletown hockey team are scheduled to play the local boys here on Friday night. Middletown this year decided not to enter the Valley League but to remain contented with picking up a few exhibition games. Loss of last year's players is given as the reason for a failure to enter the League. No doubt Friday night's game will be well attended. Contests between Bridgetown and Middletown always bring out a big bunch of enthusiastic rooters.

MEMORIAL SERVICE AT LAWRENCETOWN
Continued from Page Four.)
lines. The address throughout was marked by deep feeling—choice language and a comprehensive grasp of conditions prevailing, both at home and abroad, during the war, the congregation responding heartily with expressions of appreciation.

The pastor then called upon Lieut. Colonel C. E. Bent to come forward and speak of his experiences overseas and on behalf of the G. W. V. Association. Col. Bent, who was known as one of the most efficient and dashing officers of the Canadian Army in France, after asking the congregation to rise and with bowed heads pay their silent tribute of respect and honor to the memory of the men who had made the supreme sacrifice, gave a short address which gripped and stirred the hearts of all and formed a fitting climax to this most inspiring service, as he told of our deliverance from a terrible foe and referred eloquently to the splendid type of heroic manhood—men with whom it had been his privilege to be associated overseas and who now rest where the poppies grow having fought the good fight, men over whom we should not mourn, but rather be proud and thankful that they had given their lives for such a glorious cause, and whose sublime self forgetfulness, and sacrifice could never be forgotten.

In closing his address, Col. Bent, on behalf of the G. W. V. A., presented to the choir a beautiful memorial wreath of poppies and palm leaves as a tribute to the worth and valor of the heroic dead.

This most impressive and memorable service closed with the singing of the National Anthem.

HOCKEY TEAM ONE AND DONE

Bridgetown Defeats Annapolis 6-2—Loses to Middlebrook 4-1

In a game which was somewhat rough in spots the hockey team took a camp with a score of Annapolis rink on Feb. 1st last week.

The Annapolis team very vigorously with a win, but did not play all the way, subsequently penalties were somewhat freely.

After five minutes play made the first score, and Jackson, with a centre ice, eyed another made it three. Buckler landed one in the net of the first period.

In the second period the score up two and Jackson getting the In the third period he tip a big battle, but the was done by Ruggles.

V. Melanson, of the referred, to the satisfaction.

A large number of supporters here went with the team and Tuesday night joy into their hearts, the first time in many years locals were able to come from Annapolis.

Ruggles and Donald top form in the forward line and McKennie proved a hard defence to penetrate and proving a feature of the in goal showed marked in form.

After the game the ice treated to an oyster feast by the Annapolis team, appreciated this thought.

Line-up of the teams follows:—

W. Donat	Goal
M. Jackson	Defence
H. T. McKenzie	Centre
J. Ruggles	Right Wing
J. Roberts	Left Wing
R. Donaldson	Referee—V. Melanson.

On Friday night last hockey team defeated here by a score of 4 to 0.

The ice was in good condition throughout. Middletown supplied with subs that having five. These played in with good judgment. Both teams hit and went in to win.

While good individual done on both sides the team, worked together. A strong substitute did not did with by their own hand, were disappointed, giving Middletown the end of the first period, but work of Fred Flaher, Thompson was high class play at centre, played for Bridgetown, and came scoring on a number of.

From the first period, west at it hammer and with rapidly varying position. The local boys pretty fast for a time at ton goal, but Cleveland all. Some little time before of the first period Thom for the victor.

The second period was and E. A. Hicks in goal busy man at times.

Cox and Palmer, how managed to score in the.

The visitors were quite penalized for short period third period Andrews final score.

Harry Donaghy referee satisfactory manner.

Line-up as follows:—

Bridgetown:	Goal
E. A. Hicks	Defence
M. Jackson	Centre
Jack Ruggles	Right Wing
J. Roberts	Left Wing
