Lumber Declaration issued at Washington, November 17, 1938, on behalf of the Governments of Canada and the United States of America.

The Governments of Canada and the United States of America, desiring to proceed toward the removal of those restrictions on the international trade in lumber which have operated to the disadvantage of their respective lumber industries;

Recognizing that as a first step towards this objective the duties and taxes levied on lumber imported into the United States from Canada were reduced by 50 per cent to \$2 per thousand feet in the Trade Agreement concluded between Canada and the United States of America on November 15, 1935;

Noting that as a consequence of the coming into force of the Trade Agreements signed this day:

- (1) the United Kingdom duty on softwood lumber in those forms of which the United States is an important supplier of the United Kingdom's requirements will not exceed 16 shillings per standard (approximately \$2.00 per 1000 feet), without any restriction as to the quantity that may be imported at the reduced rate of duty;
- (2) the preferential margins enjoyed by lumber of Empire origin in the British West Indian Colonies will not exceed \$2.00 per thousand feet;
- (3) the Canadian duty on planed or dressed lumber imported from the United States will be reduced by 50 per cent and the special excise tax of 3 per cent will be removed from rough and dressed lumber, without any restriction as to the quantity that may be imported either at the reduced rates of duty or free;
- (4) the quantity of red cedar shingles that may be imported into the United States free of duty will be fixed at 30 per cent of United States consumption and imports in excess of this quantity will not be dutiable at more than 25 cents per square;
 - (5) the quantitative restriction on the importation into the United States of lumber of Douglas fir and Western Hemlock at the reduced rates duty and tax in effect since January 1, 1936, and confirmed by the Trade Agreement signed to-day, will be removed; and that
 - (6) lumber and timber imported from Canada will not be required to be marked to indicate their country of origin.

Noting further that the Governments of Canada, the United Kingdom, and the United States of America are, for their part, prepared to give effect to the arrangement envisaged in the Trade Agreement between the United Kingdom and the United States whereby lumber of the values and sizes therein set forth shall on its importation into the United Kingdom from the United States of America be admitted free of duty as soon as the import excise tax now levied on Canadian lumber imported into the United States is removed.

Have resolved to record their readiness to co-operate, as opportunity occurs, in restoring the reciprocal advantages enjoyed by the timber products of their respective countries prior to the general resort to retaliatory restrictions on the importation of lumber and to confirm their understanding that the Government of Canada will interpose no objection to the reduction by Empire Governments other than the United Kingdom of differential duties now levied on United States lumber to a point at which the margin of preference enjoyed by Canadian lumber will not exceed the duties and taxes now imposed on Canadian lumber on importation into the United States, and that when, and for so long as, the United States import excise tax ceases to apply to lumber imported from Canada, Canada will concur in any request it may receive from such Empire Government for the extension to United States lumber of the tariff treatment enjoyed by Canadian lumber.

Apples and Citrus Fruits

Copy of Note to be addressed by the United States Secretary of State to His Majesty's Ambassador at Washington

EXCELLENCY:

During the course of the negotiation of the Trade Agreement signed this day, it has been explained that the fruit growers of certain parts of the British Commonwealth, together with the United Kingdom producers, have for some time past cooperated in an organization called the Empire Fruits Council, which has made arrangements concerning the shipment of apples to the United Kingdom market from overseas, with the object of maintaining a stable and remunerative market in the interests of all concerned and of avoiding, in so far as possible, temporary periods either of oversupply or of shortage. It is understood that British Empire producers of citrus fruits are also represented in this Council.

It has been represented to me that the cooperation of the exporting interests in the United States, which is the only other major apple-exporting country, would be of great assistance in securing the orderly marketing of the crop and would be of no less benefit to them than to the other suppliers. I have the honor to inform you that the Government of the United States inclines to the view that it is in the general interest that the shipment of apples to the United Kingdom market should be so planned as to avoid excessive variations in supplies and prices, and that it will call the attention of United States exporting interests to the desirability of their cooperating with the Empire Fruits Council in such arrangements as may be feasible to assure the orderly supply of apples to the United Kingdom market.

In the foregoing connection, your attention is invited to legislation in effect (Public No. 39, 73rd Congress, approved June 10, 1933) which provides for the regulation of exports of apples (and pears) from the United States on the basis of grade or quality. Under this Act, the Department of Agriculture has issued regulations which require that all apples (and pears) shipped to foreign countries meet certain export standards. The effect of these regulations is to make large shipments of low-quality fruit to British or other foreign markets impossible.

I understand that up to the present no arrangements have been made for planning shipments of citrus fruits to the United Kingdom market, but that certain British Empire producers have expressed a desire for some form of arrangement for the orderly marketing of citrus fruits in the United Kingdom, with a view to avoiding disturbances resulting from sudden fluctuations in supplies. I have the honor to inform you that, in the event the principal supplying countries (including foreign countries) should agree to cooperate in arrangements for the orderly supply of citrus fruits to the United Kingdom market, the Government of the United States would call the attention of the United States exporters to the desirability of cooperating in any feasible arrangements to this end.

^{*}The Hon. Cordell Hull, Secretary of State of the United States of America, signed this note to His Majesty's Ambassador in Washington on November 17, 1938.

I have the honour to acknowledge your letter of to-day's date setting forth the understanding of His Majesty's Government in the United Kingdom the arrangements discussed between His Majesty's Governments in Canada and in the United Kingdom for the modification of the terms of the Canada United Kingdom Trade Agreement of 1937, in accordance with the provisions of Article 17 thereof, with a view to facilitating the conclusion of Trade Agree, ments between the United States of America and the United Kingdom and between the United States and Canada. I desire on behalf of His Majesty's Government in Canada to confirm their agreement with the arrangements indicated in your letter and its enclosures.

I should be glad to receive the United Kingdom Government's formal confirmation of our understanding that they have waived until August 20th 1940, their rights under Schedule I of the Canada-United Kingdom Trade Agreement of February 23rd, 1937, to impose a duty on eggs, poultry, butter, cheese and other milk products produced in and imported from Canada. the same time I understand that they agree that no quantitative restrictions will be imposed on the importation into the United Kingdom of such products from Canada, unless imports should be such as to lead to instability in the market for those products in the United Kingdom.

I have the honour to be,

OTTAWA, November 16, 1938.

In view of the willingness expressed by His Majesty's Government in the Union of South Africa to facilitate the trade negotiations between Canada and the United States by consenting to the modification of certain margins of preference guaranteed under the Canada-South Africa Trade Agreement of 1932, I have the honour to inform you that the new Agreement will provide for reduced duties on imports into Canada from the United States on a number of articles in respect of which the Union Government have agreed to waive their rights to the extent necessary to permit of the inclusion in the forthcoming Agreement, of the reduced duties indicated below on imports from the United States of America:—

At the same time they wish to express again their appreciation of the willingness of the Government of the Union of South Africa to facilitate the successful conclusion of Canadian trade negotiations with the United States of America and to confirm their understanding that the modification thus effected in the Canada-South Africa Trade Agreement will be taken into consideration when that Agreement is revised.

Exchange of Letters between the High Commissioner for the United Kingdom and the Secretary of State for External Affairs regarding the Margins of Preference on Wrought Iron and on Logs of certain dimensions. ments outlined therein with record to the modifical

OTTAWA, November 16, 1938.

In my letter of to-day's date I referred to certain modifications of the United Kingdom-Canada Trade Agreement which His Majesty's Governments in the United Kingdom and in Canada have agreed to make in order to facilitate the conclusion of Trade Agreements between the United States and Canada and between the United States and the United Kingdom.

Apart from these modifications, which relate to United States goods specified in the schedules of the two Agreements about to be concluded, the negotiations have suggested the desirability of two further modifications of the United

Kingdom-Canada Trade Agreement.

The United Kingdom Government understand that the Canadian Government would appreciate release from the obligation to maintain a fixed margin of preference on wrought iron (Item 377e-formerly ex 377a et al.) which appears to complicate unnecessarily the wording of a number of iron and steel items to be included in the Canada-United States Agreement. The United Kingdom Government for their part are accordingly prepared to agree to the deletion of this item from Schedule V to the United Kingdom-Canada Trade Agreement of 1937.

At the same time the United Kingdom Government, with a view to maintaining a proper relationship between sawn timber and the logs from which it may be sawn, would appreciate your consent to the extension to logs of certain dimensions of the rates of duty on wood and timber of coniferous species for which provision is to be made in Schedule I of the Trade Agreement between the United Kingdom and the United States of America. They accordingly propose to reduce the duty on wood and timber of coniferous species in logs neither end of which is less than 14 inches in mean diameter to 16s. per standard as from the date on which the Trade Agreement is to become effective (1st January, 1939). In the eventuality contemplated in the proviso to the concession (removal of the import excise tax on lumber imported into the United States of America) the United Kingdom Government propose to accord free entry to wood and timber of coniferous species in logs neither end of which is less than 12 inches in mean diameter and which are 15 feet or more in length.

I should be glad if you would be so good as to advise me whether the Cana-

dian Government concur in the arrangements outlined above.

I have the honour to be. Sir. Your obedient servant,

GERALD CAMPBELL
