MONTREAL

GERHARD R. LOMER, M.A. Ph.D.,  
LIBRARIAN

April 12, 1922.

Sir Arthur Currie,  
Principal,  
McGill University.

Dear Sir Arthur:

I enclose a copy of a paragraph from a letter just received from Dr. Casey Wood regarding a catalogue of Ornithological periodicals which he has been preparing and which I had been planning to print next fall and pay for out of part of the proceeds of the Douglas Fund. Dr. Wood, however, raises the question of a University periodical devoted to the publication of research by McGill men ~~and~~ in which his catalogue might appear as one number. If there is any likelihood of such a publication being undertaken I shall be glad to know before replying to him.

Faithfully yours,

*G. R. Lomer*

Enc.

University Librarian.

Copy of paragraph from letter of April 5th from  
Dr. Casey Wood to Dr. Lomer.

"You have said nothing in answer to my query regarding the publication of my Annotated and Illustrated Catalogue of Ornithological Periodicals. As you know, I have spent a good deal of time and energy - not to mention money - on the same, and for the glory and advertisement of the University in general and of the Library in particular would like to see some such more or less original piece of work put out as a beginning of a serial open to every department. I wish you would write me quite frankly your opinion of this suggestion. The Catalogue will be ready very soon, indeed is practically in shape for the printer now, but if it is decided to go ahead with it for McGill I could polish it up some more - especially with the aid of the additional magazines that will undoubtedly be meantime acquired - and see it partially through the press when I am in Montreal next Fall. If the suggested plan cannot be carried out I shall have to adopt another, but much prefer the first, since I am convinced that the University is making a great mistake in not issuing a periodical, scientific in character, that will enable the Library more easily to exchange with similar publications of other Universities throughout the world."

tributed.

G. R. L.

MCGILL UNIVERSITY, MONTREAL, QUE.

UNIVERSITY PUBLICATIONS: LIST NO. 1.

(November, 1922)

The re-organization of the publications of McGill University has involved a change in classification and numbering which affects papers previously sent out as exchanges. The attention of librarians is therefore called to the new and corrected list, as given below, in which the papers are divided into eleven series (which will be added to as occasion arises) and in each of which the papers are arranged as far as possible chronologically. This new arrangement takes the place of the previous departmental arrangement, and the papers which you have received in the past should now be re-numbered to correspond with the revised list given below. These are now regarded as publications belonging to the series in which they can be most properly classed.

We take pleasure in sending you, under separate cover, papers now due you as exchanges. If this Library does not happen at present to be on your exchange list we shall be grateful for the courtesy of being included in the distribution of your publications.

It will be noted that certain items on the list are marked "out of print". This is due to the small number of copies printed when our exchange list was smaller and we take this occasion of expressing our regret if for this reason we are unable to complete the series of any of our correspondents. Those numbers out of print are marked with an asterisk (\*).

G. R. Lomer,

University Librarian.

SERIES I (Addresses & Lectures)

- No. 1 Ruttan: International co-operation in science.
- " 2 Fraser: Sir William Peterson.
- " 3 Fraser: The theological college and the university.

SERIES II (Botany)

- No. 1 Lloyd: Abscission in cotton.
- " 2 Lloyd: The origin of ascidia under quasi-experimental conditions.
- " 3 Lloyd: The colloidal properties of protoplasm: Imbibition in relation to growth.
- " 4-5 (bound together) 4. Stansfield: Problem of the "Burn-Out" district of Southern Saskatchewan. 5. Derrick: Two plant associations from areas near Radville, Sask.
- " 6 Lloyd: Environmental changes and their effect upon boll-shedding in cotton.
- " 7 Lloyd: Growth in *erigonum nudum* in relation to environmental factors.
- " 8 Lloyd: Abscission of fruits in *Juglans Californica* Quercina.
- " 9 Lloyd: Mutual precipitation of dyes and plant mucilages.
- " 10 Lloyd & Scarth: An introductory course in general physiology.
- " 11 Lloyd: The structure of cereal straws.

SERIES III (Chemistry)

- \*No. 1 Ruttan: Margaric acid and its relation to palmitic and stearic acids.
- " 2 Ruttan & Roebuck: Fat acid esters of ethylene glycol.
- " 3 Harding & Warneford: The ninhydrin reaction with amino-acids and ammonium salts.
- " 4 Harding & McLean: The ninhydrin reaction with amines and amides.
- " 5 Ruttan & Marshall: The composition of adipocere.
- " 6 Ruttan: Human adipocere.
- " 7 Hatcher & Skirrow: Compounds of phenol and the cresols with pyridine. I.
- " 8 Harding & Mason: The estimation of chlorides in body fluids.
- \* " 9 Harding & others: A study of the ninhydrin reaction.
- " 10 Skirrow: The estimation of phenol in crude carbolic acid and in coal-tar oils.
- " 11 Howe: Stearic and palmitic esters of the isomeric propylene glycols.
- " 12 Skirrow & Binmore: The compounds of phenol and the cresols with pyridine. II.
- \* " 13 Maass: An automatic device for the make and break of electric currents.
- \* " 14 Maass & Russell: Unsaturation and molecular compound formation.
- " 15 Maass & Russell: An accurate method for measuring the density of gases.
- " 16 Whitby: Moisture in raw rubber.
- " 17 Maass: Automatic variation of gas pressure and its application to a vacuum pump, circulation of gases, magnetic stirrer.
- " 18 Krieble & Bergeim: Study of the metabolism in multiple exostoses.
- " 19 Harding & others: (1) The amino-acids of mature human placenta; (2) Action of enzymes on human placenta; (3) Placental feeding and purine metabolism. (Bound together).
- " 20 Maass: Sulfuric acid concentrator and vacuum pump.
- " 21 Maass & Hatcher: Properties of pure hydrogen peroxide. I.
- " 22 Maass & Herzberg: Properties of pure hydrogen peroxide. II.
- " 23 Maass & Russell: Hydrate of an oxonium compound.
- " 24 Maass: Note on a modified form of freezing point apparatus.
- " 25 Whitby: Variation in Hevea brasiliensis.
- " 26 Ruttan & Howe: Composition of bog butter compared with that of adipocere.
- " 27-28 (bound together). 27. Maass & Wright: A variable resistance. 28. Maass & Wright: Some physical properties of hydrocarbons containing two and three carbon atoms.
- " 29 Maass & Russell: Unsaturation and molecular compound formation. II.
- " 30 Whitby & Walker: Influence of certain organic accelerators on vulcanization of rubber.
- " 31 Ruttan: A plan for the development of industrial research in Canada.

SERIES IV (Engineering)

- No. 1 Batho: The torsion of solid and hollow prisms and cylinders.
- " 2 Batho: The partition of the load in riveted joints.

SERIES V (Geology, Mineralogy, & Metallurgy).

- No. 1 Stansfield: Retarded diffusion and rhythmic precipitation.  
" 2 Graham: Origin of massive serpentine and chrysotile-asbestos, Black Lake-Thetford Area, Quebec.  
" 3 Adams & Bancroft: On the amount of internal friction developed in rocks during deformation and on the relative plasticity of different types of rocks; King: On the mathematical theory of the internal friction and limiting strength of rocks under conditions of stress existing in the interior of the earth. (Bound together).  
" 4 Graham: The determination of the specific gravity of mineral fragments by heavy liquids.  
" 5 Graham: On Ferrierite, a new zeolitic mineral, from British Columbia; with notes on some other Canadian minerals.  
" 6 Stansfield: Electric furnaces as applied to non-ferrous metallurgy. (Formerly "Papers from the Department of Metallurgy, New Series, No. 1.")

SERIES VI (History and Economics).

+  
SERIES VII (Library).

- No. 1 Lomer: Report of Library Committee, 1919-20.

SERIES VIII (Medicine).

- No. 1 Porter: Sphagnum surgical dressings. (Formerly, "Papers from the Department of Mining, New Series, No. 1").  
" 2 Abbott: Clinical and development study of a case of ruptured aneurysm, etc.  
" 3 Papers from the Sir William Osler Memorial Number of the Canadian Medical Association Journal, July, 1920.

SERIES IX (Mathematics).

- No. 1 Sullivan: Concerning a certain completely integrable system of partial differential equations.

SERIES X (Physics).

- No. 1 King: On the determination of the electrical and acoustic characteristics of telephone receivers.  
" 2 King: On the propagation of sound in the free atmosphere and the acoustic efficiency of fog-signal machinery.  
" 3 Lloyd: The structure of hailstones of exceptional form and size. (Formerly, "Papers from the Department of Meteorology, New Series, No. 1").  
" 4 Shaw & Henry: The analysis of simple periodic curves by a projection method, etc.  
" 5 Shaw & Reilley: Effects of ageing in standard Weston cells of a modified type.  
" 6 Shaw: The mutual potential energies of circular coils and small magnets.  
" 7 Gray: Scattering of X- and y-Rays.  
" 8 Shaw: Transmission of heat through single-frame double windows.  
" 9 King: On the design of diaphragms capable of continuous tuning.  
" 10 King: On some new formulae for the numerical calculation of the mutual induction of coaxial circles.  
" 11 Eve: Physics a hundred years ago.

- +No. 1 Abbott: McGill's heroic past, 1821-1921.  
" 2 Macmillan: McGill and its story, 1821-1921.

SERIES XI (Zoology).

- Nos. 1 - 3 (bound together) 1. Willey: Organisms and organization. 2. Welch: Alaskan glacier worms (Oligochaeta). 3. Willey: Scope of biology.
- " 4 - 7 (bound together) 4. Ruttan: Fossil fats. 5. Jackson: Dorso-epitrochlear muscle. 6. Hickson: West coast corals. 7. Willey: Introduction to zoology. (Formerly, "Papers from The Peter Redpath Museum, Bionomical Leaflets, Nos. 1 - 7").

McGILL UNIVERSITY  
MONTREAL

FACULTY OF ARTS  
OFFICE OF THE DEAN

February 27, 1925.

COPY FOR THE PRINCIPAL, SIR ARTHUR CURRIE.

Dear Prof. -----

I am sending a copy of this letter to each and every member of the Faculty of McGill College. The letter is confidential, therefore, only in the sense that any discussion of its contents had better, for the present I suggest, be confined to our own Faculty and to the members of any other Faculty of the University who may appear personally interested.

Several departments of the University have recently mentioned to me the possibility of publishing a departmental journal or series of approved departmental studies, and I need not say how praiseworthy these proposals are. There is, however, a bigger question involved in these proposals and that is the question whether or not McGill can any longer afford to do without a scholarly magazine similar to The University Magazine which was discontinued a few years ago. I know from personal experience East and West that The University Magazine was one of the best ventures McGill ever undertook, and the University owes a deep debt of gratitude to Sir Andrew Macphail for the careful, scholarly character of that Magazine. Why not revive The University Magazine or a similar magazine? I am convinced that

COPY

2.

the number of men in and about McGill who can contribute to a really first-class magazine is much greater than we sometimes suppose. Should we associate with us in any such venture our sister French University, the Université de Montréal? The Magazine would, in any case, be bilingual. If the Magazine were issued periodically all University studies of an extended character might very well be published as a joint venture with the Magazine. Arrangements can at present be made for an office and for printing on a very reasonable basis. I should like to receive suggestions.

Yours very sincerely,

(Sgd.) Ira A. MacKay  
Acting Dean

McGILL UNIVERSITY  
MONTREAL

FACULTY OF ARTS  
OFFICE OF THE DEAN

March 2, 1925.

Sir Arthur Currie,  
Principal, McGill University.

My dear Principal,

I am enclosing a copy of a letter, which I sent to the members of the Faculty this morning, which may interest you. I do not know whether anything will come out of the suggestion or not, but I think the venture is one which should be very seriously considered by everybody interested in McGill. I have always thought that with a little vigour a magazine of this kind might be made to practically pay its own way.

Yours very truly,

Encl.

*Ira A. Mackay*  
Acting Dean

The Society for Ethical Culture in the City of New York  
(Founded 1876)

From the Study of Alfred W. Martin, Leader

995 Madison Avenue

4/15/27

Dear Sir Arthur,

I write to ask if  
you could favor the World-Unity  
Conferences Committee, of which I  
am a member, with the privilege  
of having one of their beautiful  
sessions held at Mr. Gill's on  
Saturday Evening April 30<sup>th</sup> when  
I am to be one of the speakers &  
Augustus Thomas, Commissioner  
of Education for the State of Maine  
(the other). We have had sessions  
in the auditoriums of several  
Universities already, including Yale,

Michigan, Wisconsin & has already  
arranged for meetings at Harvard &  
Cornell in the fall. The organization  
is absolutely non-sectarian &  
non-political, favoring the  
development of better international  
and interracial relations.

The subject for Saturday  
Evening April 30<sup>th</sup> is to be The  
International Spirit and how  
to cultivate it.

Mrs Sutherland Maxwell of  
716 Pine St West has the  
arrangement of the meetings in  
charge & would greatly ap-  
preciate your letting her  
know if the Mc Pitt audi-  
torium could be had for the

Evening of the 30<sup>th</sup> Prof Best, I believe, is much  
interested in the Conference & cannot doubtless  
give you fuller information if desired. I am  
sending you this letter in response to Mrs  
Maxwell's request, just received -

hoping you will find it possible to  
favor the Committee as have other Universities &  
hoping to see you when in Montreal April 30<sup>th</sup>  
or May 1<sup>st</sup> Linnain, Jones faithfully

Principal Sir Anthony Currie L.D.  
McGill University  
Montreal.

Alfred W. Baxter

February 3, 1927.

Alfred W. Martin, Esq.,  
Society for Ethical Culture in the City of New York,  
Central Park West and 64th Street,  
New York.

Dear Mr. Martin:-

I was very much interested by your letter of January 27th. I agree with you that if it were possible to resuscitate the McGill Magazine, if necessary under another form, another name and another organization, nothing but good could ensue.

I will discuss the matter at once with some of the members of my staff and will write you later.

Yours faithfully,

Principal.

---

HENRY J. GOLDING

Principal Sir Arthur Currie, L.L.D.,  
McGill University,  
Montreal, Canada.

Dear Sir Arthur:

I write to ask if in your judgment it would be practicable to arrange for a discussion meeting on the revival of the University magazine of which you may remember I spoke at the New York dinner of McGill graduates last year. Since then I have had several conferences with my fellow graduate, Mr. Francis Wickware, and have received an encouraging letter from the leading representative of the Dalhousie Review. It would seem as though the time were now ripe for some concerted action.

It so happens that I am to deliver an address in Montreal early in May and would willingly remain over a day or two if arrangements could be made for assembling a few interested graduates to push the project further. Little headway can be made by correspondence, whereas a round table discussion is likely to result in definite and prompt action. Perhaps you will be good enough to refer my suggestion (if you approve of it) to someone who would take it in charge and communicate with me direct.

Besides the modest legacy I am leaving my Alma Mater, I want to ~~do~~ everything possible in the limited free time at my disposal to help resuscitate, under a new name and with a staff representing all the Universities of Canada, the noble McGill Magazine, justly ranked among the leading university publications of our continent.

Assuring you of my hearty appreciation of your friendly interest, and thanking you in advance for whatever help you may find it possible to proffer, I remain

Very respectfully,

*Alfred W. Martin*

Twelfth February,  
1930.

Dr. C. F. Martin,  
Faculty of Medicine.

Dear Dr. Martin,

I shall be unable  
to attend the meeting of the Publications  
Committee tomorrow, as I have another meet-  
ing here.

Some time ago I  
had a letter from Dr. H.M.Ami, containing  
a suggestion as to McGill linking up with  
Cambridge University press. I am attach-  
ing an extract from his letter, in case  
you wish to talk about this idea.

Yours faithfully,

Principal.

## UNIVERSITY PUBLICATIONS

Dear Sir Arthur,

Your letter of February 12th addressed to  
addressed to Dr. Martin with enclosure from Dr. H. M.  
Ami, was brought before the Committee on University  
Publications at its meeting yesterday. The Committee  
felt that there was no special advantage to be gained  
from the proposal, and that association with a local  
press would be just as advantageous as with the  
Cambridge Press.

Faithfully yours,

*G. R. Lomer*

University Librarian.

## UNIVERSITY PUBLICATIONS

Dear Sir Arthur,

At the meeting of the Committee on University Publications held yesterday I was directed to remind you of the following excerpt from the Minutes of the Meeting of December 13th, 1929:

"After considering the recent annual expenditures, the Chairman decided to recommend to the Finance Committee an annual appropriation of \$2500 to supplement the (approximate) \$885, representing the entire income of the Douglas Fund".

As the income of the Douglas Fund is now over-expended, the Committee will be grateful if your proposal may be brought before the Finance Committee at the earliest opportunity.

Faithfully yours,

*G. R. Lomer*

McGill University.

Dear Sir Arthur,

In accordance with your request,  
I submit herewith a copy of the University Publications  
for the years 1928-29 and 1929-30, with an analysis of  
the lists by departments. Trusting that this will be  
satisfactory for your purpose,

I am,

Faithfully yours,

University Librarian.

McGILL UNIVERSITY LIBRARY

MONTREAL

November 21, 1931.

25/11/31  
Dean Ira A. MacKay,  
Faculty of Arts,  
McGill University.

For Faculty Meeting

Dear Dean MacKay:

At a recent meeting of the Committee on University Publications the question of the most effective use of the limited funds at the disposal of the Committee was considered, and it was felt that an expression of opinion on the part of the various Faculties would be of assistance in planning future expenditures.

At present the fund at the disposal of the Committee amounts to \$3,397.00 of which \$897.00 represents the income from a Library fund and \$2,500.00 is an annual University appropriation. In addition, the Library pays \$500.00 a year for the services of an assistant to look after the distribution of publications. The fund has been used almost entirely for the purchase and distribution of reprints of periodical articles by members of the staff. The inclusion of titles was originally made on the suggestion of the writer until continued overdrafts led the Librarian to request the appointment of a Committee on University Publications in 1929. This Committee consists of the Deans, with the Librarian as Secretary, and it is responsible for the selection of papers and the distribution of funds. The handling of papers distributed and of exchanges received is still carried on as a part of Library routine.

The Committee is unanimous in feeling that the present system is not ideal and, in order to serve the interests of the University in the most effective way, the Committee on University Publications would welcome an expression of opinion on such points as the following:

1. The present system should be discontinued and the practice of distributing reprints should be abolished.

2. The present system should be continued with modifications, and definite suggestions as to practical changes are desired.
3. Reprints should be sent out by Departments to institutions and individuals interested and only two copies should be sent to the Library for binding and reference.
4. The fund should be used to aid in the publication of original manuscripts, special studies, and theses which have not a wide appeal but are important contributions within their special field.
5. The fund should be used to aid in the re-establishment of the University Magazine, so that McGill resumes its former position in a field already represented by, e.g., Toronto and Dalhousie.

The Committee requests that this matter be brought before your Faculty at its next meeting and that it may have an early reply to the various questions involved.

On behalf of the Committee on University Publications,

Yours faithfully,

Signed: G.R. Lomer

Secretary.

McGILL UNIVERSITY PUBLICATIONS COMMITTEE

1. On February 1, 1932, there will terminate the present system of distributing, through the University Library, the 200 copies of reprints of papers published by the teaching staff and graduate students of the University.
2. In the future two copies of all published papers or one copy of a published book, will be sent, in every case, by the author to the Library for:
  - (a) inclusion in the section on McGill University (History, Archives and Publications);
  - (b) reference use by readers.

N.B. In the case of a book of which only one copy is received from the author, a second copy for Library use will be purchased from Library funds.

3. Authors are also requested to send two copies to the Departmental Library of their Faculty or Department, when such exists.
4. The papers sent to the Library will form the basis for the list of publications prepared as a part of the Principal's Annual Report.
5. In future the Department concerned will issue, at its own discretion, a small number of reprints to suitable institutions or interested persons. The number ordinarily received as "free reprints" will be sufficient for this purpose.
6. If more are required, or if the reprints are not issued free to the author, the funds of the Committee may be drawn upon for a limited number on application to the Librarian.

7. The series hitherto constituting the University Publications will now end with the last published number included in each case, and the Librarian will notify all institutions and individuals on the exchange list that the series have terminated.
8. Reserve copies now in storage will be used by the Library for exchange purposes as heretofore until the supply is exhausted. (This has already occurred in the case of certain papers).
9. The bulk of the funds available by the Publications Committee will henceforth be used for the purpose of aiding the publication of original literary, scientific, or historical material collected, edited, or written by members of the teaching staff and students of the University.
10. For consideration by the Committee, this material must be submitted by the author in a form ready for publication and with a definite recommendation by the Head of the Department concerned, including an estimate of cost, and suggestions as to publishing, methods of sale, and distribution.
11. The responsibility of making a grant and of publication will rest with the Publications Committee, who shall take such steps as they deem necessary to insure the publication of only such work as will reflect credit on the University.
12. When a grant has been made to an author, the profits on the sale of his publication shall be assigned in the contract to McGill University until the amount of the grant has been repaid, after which further royalties will revert to the author.

February 13th, 1929.

Dear Professor \_\_\_\_\_

At a recent Meeting of the Finance Committee, you were appointed a member of a special Committee to consider the question of University publications.

The first Meeting of this Committee will take place on Friday, the 15th instant, at 4.00 p.m. in the Principal's Office, and I sincerely hope you will be able to attend.

Faithfully yours,

Acting Principal.

February 10th, 1930.

Dr. H. M. Ami,  
Department of Mines,  
O t t a w a .

My dear Dr. Ami,

Please forgive me for not acknowledging sooner your letter written from Italy regarding McGill and its avenues for publication. I have had this in mind and am reminded of it by the fact that our University Publications Committee is meeting this week. I shall bring before this body your suggestion re McGill linking up with Cambridge in some way.

Cordially reciprocating  
your good wishes, I am,  
Yours faithfully,

Principal.

To Queen Victoria Memorial Hospital 24  
Mont-Boron, Nice (A.M.) xl  
The Principal of 1929.  
McGill University, Montreal, Canada.

My dear Sir Arthur,

While I am here recuperating  
— a little after a strenuous summer  
in excavations in France in Prehistoric  
sites, I was thinking of McGill & its  
avenues for publications, issuing of  
volumes as a University Press, or in  
tying itself with that great model on  
which McGill was modeled The Uni-  
versity of Cambridge.

It is not for me to make compa-  
risons. Yet methods of work of others  
may be looked into at times.

The Cambridge University Press has  
no academic affiliation in Cana-  
da that I know of & whilst  
Toronto University is tied (Toronto at  
least) tied with the Oxford University  
Press, could not Montreal have  
the Cambridge

2,

Cambridge University Press beside it.

Montreal (McGill as a centre helped so much when it) had a "Canadian Naturalist & Geologist" which was, & is yet - though extinct in last year - a great reference work - then the Canadian Record of Science followed which McGill Professors & men kept going.

Now we have no such quarterly or monthly magazine of true scientific character where McGill men can record their scientific discoveries & work from time to time.

Governmental publications are not available for the general run of University men - unless employed by the Government.

Nevertheless, I try to throw out the suggestion that The Cambridge University Press might find some Montreal backing just as the Oxford University Press had a Toronto backing. I hope to return in Canada about Dec. 15<sup>th</sup> & with best regards & wishes.

I am yours very sincerely,  
H. M. Allen,

Letter sent to Deans regarding University Publications

November 21, 1931.

For Faculty Meeting

Dear Sir:

At a recent meeting of the Committee on University Publications the question of the most effective use of the limited funds at the disposal of the Committee was considered, and it was felt that an expression of opinion on the part of the various Faculties would be of assistance in planning future expenditures.

At present the fund at the disposal of the Committee amounts to \$3,397.00 of which \$897.00 represents the income from a Library fund and \$2,500.00 is an annual University appropriation. In addition, the Library pays \$500.00 a year for the services of an assistant to look after the distribution of publications. The fund has been used almost entirely for the purchase and distribution of reprints of periodical articles by members of the staff. The inclusion of titles was originally made on the suggestion of the writer until continued overdrafts led the Librarian to request the appointment of a Committee on University Publications in 1929. This Committee consists of the Deans, with the Librarian as Secretary, and it is responsible for the selection of papers and the distribution of funds. The handling of papers distributed and of exchanges received is still carried on as a part of Library routine.

The Committee is unanimous in feeling that the present system is not ideal and, in order to serve the interests of the University in the most effective way, the Committee on University Publications would welcome an expression of opinion on such points as the following:

1. The present system should be discontinued and the practice of distributing reprints should be abolished.
2. The present system should be continued with modifications, and definite suggestions as to practical changes are desired.
3. Reprints should be sent out by Departments to institutions and individuals interested and only two copies should be sent to the Library for binding and reference.
4. The fund should be used to aid in the publication of original manuscripts, special studies, and theses which have not a wide appeal but are important contributions within their special field.
5. The fund should be used to aid in the re-establishment of the University Magazine, so that McGill resumes its former position in a field already represented by, e.g. Toronto and Dalhousie.

The Committee requests that this matter be brought before your Faculty at its next meeting and that it may have an early reply to the various questions involved.

On behalf of the Committee on University Publications,

Yours faithfully,

Secretary.

December 10, 1931.

Dr. G. R. Lomer,  
Redpath Library.

Dear Dr. Lomer,

With reference to the meeting of the University Publications Committee which you have called for December 15th, I may say that Dr. Tory is coming down to spend the afternoon with me at Macdonald College and as I shall be leaving town on the 12:15 train it will be impossible to attend the meeting of your Committee.

However, I shall have a chat with Dr. Martin about the proposals for a change in the University Publications.

Yours faithfully,

Principal

McGILL UNIVERSITY PUBLICATIONS COMMITTEE

1. On February 1, 1932, there will terminate the present system of distributing, through the University Library, the 200 copies of reprints of papers published by the teaching staff and graduate students of the University.
  2. In the future two copies of all published papers or one copy of a published book, will be sent, in every case, by the author to the Library for:
    - (a) inclusion in the section on McGill University (History, Archives and Publications);
    - (b) reference use by readers.
- N.B. In the case of a book of which only one copy is received from the author, a second copy for Library use will be purchased from Library funds.
3. Authors are also requested to send two copies to the Departmental Library of their Faculty or Department, when such exists.
  4. The papers sent to the Library will form the basis for the list of publications prepared as a part of the Principal's Annual Report.
  5. In future the Department concerned will issue, at its own discretion, a small number of reprints to suitable institutions or interested persons. The number ordinarily received as "free reprints" will be sufficient for this purpose.
  6. If more are required, or if the reprints are not issued free to the author, the funds of the Committee may be drawn upon for a limited number on application to the Librarian.

7. The series hitherto constituting the University Publications will now end with the last published number included in each case, and the Librarian will notify all institutions and individuals on the exchange list that the series have terminated.
8. Reserve copies now in storage will be used by the Library for exchange purposes as heretofore until the supply is exhausted. (This has already occurred in the case of certain papers).
9. The bulk of the funds available by the Publications Committee will henceforth be used for the purpose of aiding the publication of original literary, scientific, or historical material collected, edited, or written by members of the teaching staff and students of the University.
10. For consideration by the Committee, this material must be submitted by the author in a form ready for publication and with a definite recommendation by the Head of the Department concerned, including an estimate of cost, and suggestions as to publishing, methods of sale, and distribution.
11. The responsibility of making a grant and of publication will rest with the Publications Committee, who shall take such steps as they deem necessary to insure the publication of only such work as will reflect credit on the University.
12. When a grant has been made to an author, the profits on the sale of his publication shall be assigned in the contract to McGill University until the amount of the grant has been repaid, after which further royalties will revert to the author.

## University Publications

Dear Sir Arthur:

There will be a meeting of the Committee on University Publications in my office on Tuesday, February 23rd, at twelve o'clock to consider the enclosed proposed procedure. We shall be glad if you can be present, or if you will send any criticisms or suggestions regarding details.

Yours faithfully,

Secretary,  
Committee on University Publications.

Enc.

March 2nd, 1933.

Dr. G. R. Lomer,  
University Librarian.

Dear Dr. Lomer,

Thank you for your letter of the 28th of February. I shall be glad if you will include the following letter when sending out your forms for the Bibliography:-

"Dear Sir or Madam,

The List of Publications compiled by the Librarian, at my request, for inclusion in the Annual Report, constitutes one of the most important records of the work of the University and the accomplishments of members of the staff during the year.

May I impress upon you, therefore, that it is essential to fill out the enclosed forms and return them to the Librarian at your earliest convenience.

Publications that are not, strictly speaking, of an academic or scientific nature should be omitted.

Yours faithfully,

Principal."

If you will prepare a stencil as above and send it to me, I shall gladly sign it and you may send the letter out with your own material.

Yours faithfully,

Principal
