Why American Reciprocity?

Soon after the Americans achieved their independence they assumed that the whole continent of the new world was their birthright, and that sooner or later it would pass under their dominion. And they have within the past one hundred and twenty-five years acquired a lot of it.

Here is how one of their statesmen delivered himself sixty odd years ago, when addressing a political convention in Chautauque:

"I want no war; I want no enlargement of territory sooner than it would come if we were contented with masterly inactivity. I abhor war, as I detest slavery. I would not give one human life for all the continent that remains to be ANNEXED."

"But I cannot exclude the conviction that THE POPULAR PASSION FOR TERRITORIAL AGGRANDIZEMENT IS IRRESISTIBLE. Prudence, justice, cowardice, may check it for a season, but it will gain strength by its subjugation. An American navy is hovering over Vera Cruz. An American army is at the heart of what was Mexico. Let the Oregon question be sealed when it may, it will nevertheless come back again. OUR POPULATION IS DESTINED TO ROLL ITS RESISTLESS WAVES TO THE ICY BARRIERS OF THE NORTH, and to encounter oriental civilization on the shores of the Pacific. The monarchs of Europe are to have no rest while they have a colony on this continent. France has already sold out. Spain has sold out. We shall see how long before England inclines to follow their example. It behooves us to qualify ourselves for our mission. We must dare our destiny."

England has not yet "inclined to follow Spain and France." England is here, and Canada is here, and we propose with God's help to both stay here.

But let us pass from the opinion of an American statesman of sixty years ago to American opinion of to-day: President Taft at New York, April 28, 1911:

"I have said that this is a critical time in the solution of the question of reciprocity. It is critical because unless it is now decided favorably to reciprocity it is exceedingly probable that no such opportunity will ever again come to the United States. The forces which are at work in England and Canada to separate her by a Chinese wall from the United States and to make her part of an imperial commercial band reaching from England around the world to England again by a system of preferential tariffs will derive an impetus from the rejection of this treaty, and if we would have reciprocity with all the advantages that I have described, and that I earnestly and sincerely believe will follow its adoption, we must take it now or give it up forever."

Champ Clark in the House of Representatives, February, 1911:

In the speech of Champ Clark he expressed the hope that he would "see the day when the American flag would wave over the North American continent clear up to the North Pole." The Canadians spoke the same language and were the same people. If the Treaty of 1854 had not been abrogated the two nations would have been a good deal nearer together now than they are.

W. R. Hearst in New York Journal, June, 1911:

"We have in our hearts no thought of annexing Canada or of committing any national theft—but we should be very glad and very proud if one day Canada would kindly annex us. In other words, Canada, when she is ready, can step into the great well-known firm of U. S. & Co., and take her place as a full partner, and a very welcome partner. It would be like taking an admirable first-class young business man into a big first-class firm—the transaction equally honorable to both partners."

"Canada would have her own say, as she now has, in her own affairs—as Texas or Maine has—and she would also have her full say in the legislation and elections that control the destinies of this continent. She would lose nothing, no fraction of autonomy—SHE WOULD GAIN HER PARTNERSHIP IN A BIG CONCERN WHILE GIVING UP NOTHING."

"This we say with all deference to Canadian ideas and Canadian susceptibilities. If for any reason Canada does not care for the proffered partnership and prefers to stick to the old London house—acting as a distant sub-station of the empire rather than become an integral and ultimately almost a dominating part of the big Republic—well and good."

"United or separate, we want to be friends with our northern neighbors. We want to tear down tariff and other barriers as rapidly as we can, and to make of this great northern continent at least a united commercial whole, while hoping that it will ultimately become—thru good will and confidence on both sides—A POLITICAL UNIT OF FREE MEN."

Read these opinions, one of the leading Republican, President Taft, to wit—the other of the leading Democrat—Speaker Champ Clark; also of Mr. Hearst, who, with his newspapers, is the most influential journalist in the States, and who speaks for the great mass of the "insurgents," and for progressive government. Read them and you become convinced that all parties and political sections in the United States are uniting to carry Reciprocity—nay, further, that the United States Senate, that in the last congress defeated reciprocity, is likely this session to carry it almost unanimously—and you will be more than convinced that the

HOPE OF WORLD IS IN ZIONISM

Pastor Russell Sees Divine Inspiration in Movement—Noted Speaker Addresses Large Audiences.

On an invitation from the International Bible Students' Association, Pastor Russell, the celebrated preacher, is paying Toronto a flying visit, and yesterday delivered two addresses in Massey Hall, and one addressed especially to Jews in the Zionist Tabernacle.

The pastor is a man of striking personality, patriarchal appearance, and unassuming manner, who reaches the hearts of his hearers by his lucid eloquence. His gestures are redolent of earnest conviction. As evidence of his magnetic powers, it might be stated that people have come to Toronto from a distance of six hundred miles and from all parts of the Province of Ontario, to hear him preach.

At 3 o'clock yesterday afternoon, Massey Hall was filled to its utmost capacity, over two thousand people being turned away. Four thousand people listened to a most interesting, thoughtful and instructive address on the subject "Hereafter." The service opened with a hymn, after which Bro. Brethren of Brooklyn, offered prayer. Another hymn was sung heartily by the vast audience, when the pastor was introduced to the people present by J. W. Shorney of Toronto.

Mr. Shorney mentioned that the pastor was the author of the studies in the Scriptures, which have had a circulation of over four million. Pastor Russell had previously been a favorite among the Toronto people, therefore he expected he would be greatly enjoyed.

Message to Zionists.

In the afternoon Pastor Russell addressed a meeting of the Jews at the Zionist Institute, Simcoe-st., having been invited by them to be present at a memorial meeting in memory of their leader, Dr. Herzl.

It was a sight not to be easily forgotten. A Christian minister preaching to an assemblage of Jews. He did not scold them for not becoming members of the Christian community, he did not tell them that they must embrace the Christian faith or they would be damned eternally. On the contrary, he praised their late leader, eulogized the great work he had done and urged them to follow in the path of righteousness. Their gratitude for his address and interest in their well being was evidenced by the large number of Jews at the evening service in Massey Hall.

Addressing the Zionists, Pastor Russell said he recognized Dr. Herzl as one raised up of the Lord for the work which he did, after the same manner as Ezra and Nehemiah in the olden times. He said his speech of interest in Zionism was from the prophetic standpoint; he exhorted his hearers to remember that God works by means and along the lines of principle. Whoever, therefore, would be used by the Almighty in connection with any part of His work, must seek to be noble-minded and God-fearing.

As Elsie Sughin, 48 years, an Italian living at 258 Claremont-st., was riding along College-st., near Brunswick-ave., about 5 o'clock last night, he was struck by an automobile which had come east along College and turned sharply up towards Brunswick. He fell to the ground on his shoulder, breaking his collar bone.

The auto, No. 681, stopped for a few moments, but finding the man not seriously hurt, left him lying on the ground and hurried northward. The police ambulance carried the foreigner to Grace Hospital.

leaders and parties in the United States are bent on carrying reciprocity FOR A POLITICAL REASON—the continentalizing of North America—of absorbing Canada into the American Union—of wiping the name of Canada off the map—of our becoming a Texas or a Maine—of driving England and the flag of England (the Union Jack) from America forever!

One other idea: All Germany has been unified by what they call a zollverein—a customs union. The United States and Canada are to-day closer by race, by language and law than were Prussia, Saxony and Bavaria; but these latter have been consolidated into the one empire, and are now one to all the rest of the world. The customs union did it. Mr. Taft and Mr. Clark and Mr. Hearst hope to "unify" Canada and the United States by a customs union, by commercial union!

Sir Wilfrid Laurier, the chief apostle of commercial union twenty odd years ago, has self-installed himself in that same role again, only this time he did it off his own bat, without consulting his party or the country. He did it in the night, and secretly!

But he gives no political reason, can give no political reason, for so great a change in the future of his country. He has only A MONEY REASON, that our farmers will get their products into the United States duty free! That is all. He is willing to let the United States have a say in making Canada's tariff, and a nation that parts with any share in the control of its tariff has already sold her birthright. Commercial union made one Germany, and may make one America!

But we believe Canadians are not willing to jeopardize their country and their name for a wider market or a higher price for wheat—they are not ready to commit national suicide for a mess of pottage!

British institutions and British connection are worth more to us than a better price for wheat—even if it can be got by the deal—and of this we have every doubt.

Reports of Disaster Exaggerated

PORCUPINE CAMP, July 16.—(Special.)—Limited wire service makes it necessary to sum up all the news in a few words. Rumors on the outside have stretched the fire calamity into a far greater one than it really is. Returning searching parties from various parts of the district report no distress in the following places so far as they could find: Goose Lake, except two bodies found yesterday; McKay and Simpson lakes, in Deloro Township; Price, Langmuir, Bristol and Turnbull.

Only eight bodies have been taken from Porcupine Lake, and it is feared there are very many more to be recovered. Several who were known to cross the lake on Tuesday are missing. A party of twelve were rescued at Redstone Rapids.

The death list at noon to-day totaled sixty-one from drowning and burning. The list may not reach seventy. There are eighty-six on the missing list, and many of these are known to be safe. By patient and hopeful. The calamity, judged from reports sent in from the outside, is not half so alarming as reported. If friends in the district have not been heard from, do not worry. Thousands of telegrams have been filed, and in time you may hear from them. The relief committee have matters well in hand, and no one suffers except temporarily.

Money is needed to carry on the work of the committee, and funds should be sent to Recorder Arthur Bruce and A. G. Slaght. Tents for shelter, bedding, and cooking utensils are needed. Relatives enquiring should wire C. T. Young, chairman of the relief committee.

Already a new Porcupine has been started, and a tented city looms up on the old ruins of Porcupine City. Lumber is scarce, and should be shipped in as soon as possible. Help must be rendered to get families back into homes. Fire protection must be afforded Golden City. Under gloomy circumstances that naturally must follow such a disaster, all are happy and rejoice in the thoughts of a good future for Porcupine.

A memorial service held to-day was largely attended. Mr. Weiss was buried on Edward's Point. Charles Fox.

21 MINERS KILLED BY EXPLOSION IN SHAFT

No Survivors to Tell How It Happened—It is Believed That Some of the Men Bored Thru Into a Pocket of Gas.

DUBOIS, Pa., July 16.—Twenty-one miners were killed in an explosion in the shaft of the Cascade Coal and Coke Company's mine at Sycleville, nine miles from here, last night. The explosion occurred at 8.30, but it was after midnight before the extent of the disaster was known. All of the dead but three are foreigners. The explosion was slight as evidenced by the small damage done. It is believed that the deadly after-damp is responsible for most of the deaths.

Three sets of brothers, a father and son are numbered among the dead. George and John Heek and Nick Pavlick and his 15-year-old son were found by the rescuers locked in each others' arms. The shaft is known as a poisonous one, and Fire Boss John Brown reports he was thru the heading where the explosion occurred but an hour before and found no trace of gas.

Six men working in another heading of the mine at the time of the explosion were killed. The explosion until the compressed air stopped their drills and one man was knocked from his rock drill. They realized something had happened, but did not know the nature of it until they met a party of rescuers coming for them.

Neither mine officials nor mine inspectors are able to assign a cause for the explosion, as there are no survivors from whom to gain an explanation, but it is the general belief that some of the men drilled into a pocket of gas. The shaft is known as a poisonous one, and Fire Boss John Brown reports he was thru the heading where the explosion occurred but an hour before and found no trace of gas.

The missing list contains upward of 100 names, and it is known that some of them are dead. Chas. Fox.

FIVE VIOLENT DEATHS IN MONTREAL SATURDAY

Street Cars Responsible For Two—Lineman Electrocuted—Young Pole Hanged Himself.

MONTREAL, July 16.—Five sudden and violent deaths were reported yesterday afternoon and evening. Christian Marcotte, aged 34 years, was struck and killed by a street car while playing tag in front of her home on Ontario-st. J. B. Girouard, a lineman of many years' experience with the Montreal Light, Heat and Power Co., received an electric shock and was instantly killed while working on the Longue Point-road. Marcin Wasnisch, a young Pole, who came to the city two months ago from the United States, suicided in his room on Iberville-st. His landlady found him hanging from the ceiling. He was out of work, due to ill-health.

James Wilson, 35 years of age, died in the hospital Saturday evening as the result of being struck by a heavy stone while at work on a house built on Seaford-ave., Cote des Neiges. An unknown man was struck and killed by a car at Montreal West Saturday evening. He is thought to be an employee of the Dominion Textile Co. since a pay envelope of that company was found in his pocket.

LAWRENCE PARK PROGRESSES

The opening of the Lawrence Park Bowling and Tennis Clubs, North Toronto, on Saturday afternoon marks a forward step in the development of a residential section of Toronto that bids fair now and in the years to come to be most favored. What a few months ago was farm land is now a community of magnificent homes, laid out with method and an eye to the fact that Lawrence Park is the ideal spot on Yonge-st. for selective Torontonians to build upon.

W. E. Dinick, the energetic and able managing director, is to be congratulated on the success that has come to the Lawrence Park estates. The opening of the club house by Bishop Sweeney is a good augury for continued progress.

A RAINY HARVEST! The farmers heretofore have just got started cutting wheat and barley, and they are into what looks like a rainy spell. Rain stopped the reaping machines on Friday; in places on Saturday, and they may not be able to go this morning!

CHOLERA EPIDEMIC

Threatens New York, Says Health Officer of That Port.

NEW YORK, July 16.—Altho the cholera situation at quarantine is at present regarded by Dr. Alvah H. Doty, health officer of the port of New York, as being well in hand, Dr. Doty did not conceal to-night his apprehension that New York is "in the very midst of a threatened invasion of cholera."

To-day's official report of the situation shows that there are fifteen cases of the scourge at Swinburne Island Hospital, and four cases symptomatic of the disease. Within the past twenty-four hours, one more victim has died. The steamer Perugia is still detained and the medical staff is preparing to make bacteriological examinations in the case of each of the 248 persons from the steamer Moltke, who are now under observation.

BOY CARRIED ARSENAL

Thomas Boylan Arrested for Stealing Revolvers and Knife.

Thomas Boylan, 51 Edward-st., a young lad of 18 years, was arrested last night by P. C. Kilty (262) and lodged in the Agnes-st. police station on a charge of shopbreaking. The young man had in his possession at the time of his arrest two loaded revolvers of large calibre as well as a formidable looking jackknife, alleged to have been stolen from D. Pike & Co., sporting goods merchants.

Goods have been missing from Pike's since Thursday of last week. The articles taken were numerous and varied, the thief evidently choosing his chief delights in the sporting line. Detective Montgomery has been working on the case, but has not yet located the bulk of the stolen goods.

TOO LOYAL TO FRIEND

Robert McMillan Attacked Policeman in Attempting Rescue.

Robert McMillan, 1520 Dundas-street, an employee of a piano works in West Toronto, was arrested by P. C. Small (25) after he had broken the end of a wagon shaft over the P.C.'s helmet in an attempt to save a drunken friend from arrest at King and Simcoe-streets at half-past 6 o'clock last night.

The friend was the noisiest and most disorderly of a party of six, all of whom were decidedly the worse for liquor. McMillan was not slow in resenting the arrest of his friend, pulling the stick from his coat-sleeve when hands were laid on him. P. C. Small let go the disorderly, and hung on to the assailant, carrying him off with the assistance of an employee of the street railway.

Town of Matheson, Which Had Been Reported Surrounded by Flames, Now Declared to be Safe—Commencement Made at Rebuilding Cochrane—Loss of Life at Porcupine Not as Great as Supposed.

NORTH BAY, July 16.—(Special.)—T. and N. O. Railway Superintendent J. H. Black and General Passenger Agent Parr returned from Porcupine and Cochrane to-day and report that the relief committee are doing good work. There is a splendid organization at Cochrane, where everybody is being fed and sheltered. A lunch counter has been opened at Cochrane station. Building operations have already started at Cochrane, and 40 small structures are under way with what lumber could be secured nearby.

Several carloads of tents and blankets from the militia department reached Porcupine to-day.

Matheson is safe, but 12 settlers' families, who lost everything, are being cared for in the town. Their crops, farm houses and schoolhouse are gone. The official list of dead is now given, as the missing ones have been located. The death list is not expected now to reach over 100.

At the Hollinger mine a hard fight was successfully waged against the flames, but the teams were lost and one man is reported missing. There is the real hardship in the fire zone now, as everybody is being cared for. Rain fell at Cochrane and Porcupine last night, which helped the situation.

NEWS FROM PORCUPINE TENDS TO ALLAY FEARS

Homeless Are Well Provided For With Supplies and Tents—North is Grateful.

Reassuring reports from the fire-swept region in Northern Ontario reached Toronto yesterday. Every communication arriving in the city since Saturday indicated beyond a doubt that the worst is over and that order is developing out of chaos. The fires have abated and the people are recovering to some extent from their days and nights of anxiety and alarm. Nothing like comfort is yet obtainable in Porcupine or Cochrane, but the necessities of life—food and shelter—have arrived in quantities sufficient for the needs of everybody in distress.

As such an extent has been reached, it is believed that the relief committee are working energetically to provide for the wants of all, and latest reports bring the assurance that no hungry or shelterless people are now to be found in any of the centres of population where the relief committee are sending their supplies.

Cochrane Sends Thanks. Yesterday morning a telegram from the chairman of this committee in Cochrane was received by R. S. Gourlay, president of the Toronto Relief Committee, tendering the thanks of the community to the citizens of Toronto for their generous aid, and specifying what supplies were still needed.

The telegram reads as follows: "To the president of the Board of Trade, Toronto: 'Cochrane grateful for your assistance. Can now take care of self regarding food stuffs. We are pressed for tents and mattresses to aid the women and children.'"

Sent Five Hundred Tents. A detachment of troops under command of Major Hallett and Henderson left the city on Saturday night with 500 military tents and 4000 blankets. Major Henderson and some of the soldiers detained at Matheson with part of the military supplies. The other detachment proceeded on to Cochrane under command of Major Hallett, who will oversee the distribution of his consignments of tents and blankets. The supply train arrived in Matheson at 6.15 last night, and Major Hallett's party reached Cochrane a little over two hours later, and in plenty of time to get the tents pitched for the homeless people before the night was far advanced. As each tent is of sufficient capacity to provide sleeping accommodation for twelve soldiers it is apparent that a family of eight or nine persons can be tolerably well protected in each of the tents. The total consignment of tents will thus house upwards of 3500 people if necessary, and the supply of blankets is also sufficient for the need of all.

In addition, a carload of mixed groceries was also despatched from Toronto on Saturday night, and will have arrived in Cochrane by this time. The groceries will be distributed at intermediate points between Matheson and Cochrane, according to where they are needed for them.

Sixty Deaths Reported. The actual number of deaths accounted for up till yesterday morning was 60, all told. No further telegrams were received during the day, and hence the officials of the board of trade believe that the death list will not be much further increased. While the number of deaths is large, it is somewhat comforting to know that the first reports were greatly exaggerated.

The final in the men's singles between Baird and Henderson on Saturday was one of the first games seen in Toronto for many a day. In the first set Baird set a terrific pace, his volleying at the net being most effective. He showed great generalship and repeatedly drove Henderson out of position. Henderson's returns in this set were rather short at times and allowed Baird to use his smash very effectively. In the second set Baird won the first game, Henderson, by good playing, the second. Henderson's game here showed quite a change for the better and by good driving and lobbing he won the set, 6-3. In the third set Henderson's long low drives seemed to worry Baird and he carried the score to two one in his favor and eventually 4-2 and 40-15 was called in Henderson's favor. Here Baird got going again and by magnificent and pucky effort, in which his clean driving and steady net play was much in evidence. He won the set by the score of 6-4. This made the score two sets to one in Baird's favor. In the fourth set Henderson's lobbing again seemed to bother Baird, the latter missing several easy ones in the middle of the court. Henderson, still playing steadily, ran the set to 6-3 in his favor, when Baird by another splendid effort, which brought both the constant applause of the large gallery present, evened the score up to all. It was nip and tuck here, the times saw-sawing to seven all. Baird missed the cooler of the two at this point and in winning the next two games he played his best tennis of the match, his service in the last game being too much for his opponent. The winning of this match makes Baird the All-Canadian champion, the former holder being C. R. and of Halifax, who did not defend. In the ladies' singles, Miss Moyes, playing a splendid all round game, won from Miss Summerhayes by the score of 6-2, 6-1. Miss Summerhayes made a pucky effort in the first set, bringing the score when it was 2-1 against her, to 3 all. After this she seemed to fade and Miss Moyes won the championship rather easily. Owing to the length of these matches the mixed doubles final and ladies' double final were not able to be played. The semi-finals in the men's doubles takes place to-day at 4 o'clock, and the final in the mixed doubles at 10 p.m. Results: Men's open singles, final—Baird beat Henderson, 6-2, 3-6, 6-4, 8-7. Ladies' singles, final—Miss Moyes beat Miss Summerhayes, 6-2, 6-1. Men's doubles—Ross and Henderson beat Lee and Summerhayes, 6-3, 6-2. Ladies' doubles—Baird and Hitchell beat Laird and Hall, 6-4, 6-4. To-day's Program—1 p.m.—Henderson and Ross v. Burns and Smart (semi-finals). 2 p.m.—Mixed Doubles—Baird and Miss Adams v. Henderson and Miss Moyes (final). 4 p.m.—Novice and handicap—Carlaw v. Noyes, Martin v. Young (winner to play Spair at 5), Sargent v. McTaggart, Lamb v. MacKenzie, Rook v. Starr, Langford v. MERIDIAN WINS FEATURE ZEUS, FAVORITE, THIRD

Plate Glass Splits the Pair in Frontier Handicap—Opening Day at Windsor.

WINDSOR, July 15.—The Frontier stakes event of the card offered by the Windsor Jockey Club for its opening day's program brought out a smart field. The warm weather and fast track just suited Meridian and he showed a splendid performance. In the early stages he forced a very fast pace, running head and head with Zeus the warm weather and fast track just suited Meridian and he showed a splendid performance. In the early stages he forced a very fast pace, running head and head with Zeus the warm weather and fast track just suited Meridian and he showed a splendid performance.

FIRST RACE—Two-year-olds, conditions, furlongs. 1. Tiptoad, 105 (Ducan), 4 to 5, 1 to 5 and out, won by a length. 2. Buckhorn, 110 (Koerner), 2 to 1, 2 to 5 and out. 3. Dalmain, 100 (Schuttlinger), 12 to 1, 1 to 1 and 3 to 5. Time 1:01. Mad River, Ontario, 'Burlly' and 'Sly' Lad also ran. Coupled with Plate Glass into the home stretch. At the sixteenth pole he shook off the latter, and at the end drew away into a five lengths lead. Plate Glass beat Zeus the same distance for the place. The fractional time of the race was .24, .47 2-5, 1.12 2-5, 1.38 2-5, 1.52 1-5. The attendance was the largest that ever witnessed a race run over the Windsor course. Long before the time set for the running of the first race even standing room was at a premium. Thirty-two bookies were in line in the betting ring, and speculation was keen. Weather clear; track fast.

SECOND RACE—Purse \$600, 3-year-olds and up, 6 furlongs. 1. Myle Light, 140 (Dayton), 7 to 1, 1 to 1 and 4 to 5, by half a length. 2. Ticket of Leave, 148 (Kemnath), 11 to 10, 2 to 5 and out. 3. Governor Gray Beaten a Length. TORONTO, Ky., July 15.—Get-away day at Latonia not only furnished the largest crowd of the meeting, but also some of the best racing seen at the track for many seasons. Fauntleroy won the Cincinnati Hotel Handicap, working his way up after a poor start. Governor Gray, after trailing his field, came with a tremendous stretch run, but was a length out of it at the wire. Nimbus, always well up, managed to last long enough to finish third. Summary: FIRST RACE—Two-year-olds, purse \$500, 1-1/2 furlongs. 1. Sister Florence, 108 (Wilson), 23 to 2 straight, 5 to 1 place, 2 to 1 show. 2. Acquin, 103 (McCabe), 7 to 5 place, 1 to 2 show. 3. INDIANS' FIRST DEFEAT BEATEN BY MONTREAL

Injuries and Sickness Weakened Tecumseh—Montreal, However, Played Great Lacrosse.

Tecumseh met their first defeat at the hands of the fast Montreal team by 8 to 2 and before the largest crowd to witness a lacrosse match this season at the Island. The Indians were outplayed by the visitors almost from the commencement of the game. In justice to the home team it might be said that they were in pretty bad shape. Kinsman had been laid up for nearly a week and a bad knee ailment came right from the hospital to the game and returned just as soon as the contest was over. Manager Quette had to retire in the second quarter, his knee giving out on him, and both McKenna and McKenna had to be replaced by substitutes.

The credit of winning the game, however, must not be taken from the Montrealers, who played excellent lacrosse and for the first time this season the home defence found themselves up against a home team, if anything, had a little on them. The Tecumseh defence this season have been playing some excellent lacrosse and were at all times steady, while on Saturday they seemed to go up in the air and when anybody by the name of Scott had the ball two or three of them would try to get it, thus leaving their own checks uncovered. They also did considerably too much slugging and slugging was certainly missed. Murton, Durkin and McDougall played well, but McDougall was sick and had to retire. The defence played well, but owing to the penalties Montreal had the game, which gave them a big advantage. Kinsman, owing to his knee, was not able to go after the ball behind the net, which was another detriment to the team.

The absence of Quette and the presence of too many Tecumseh players on the penalty bench was largely the reason of the downfall. Fowler did some good fielding while he was playing, but he was off too much. Rowtree was not near up to the game he has been playing this season, and his usual strong fielding was certainly missed. Murton, Durkin and McDougall played well, but McDougall was sick and had to retire. The defence played well, but owing to the penalties Montreal had the game, which gave them a big advantage. Kinsman, owing to his knee, was not able to go after the ball behind the net, which was another detriment to the team.

Tecumseh scored the first goal of the match and had the score one to nothing at the end of the first quarter. Montreal forged ahead in the second period and at half time the visitors led by 4 to 2. The second quarter was more closely contested and the score at the end of that period was 2 to 2. Montreal got three more goals in the last quarter and the final score was 8 to 2. Goals, Kinsman; point, Gagnon; cover, Gagnon; defence, McKenna, McKenna, McKenna; centre, McKenna, McKenna, McKenna; outside, McKenna, McKenna, McKenna.

Shamrocks had plenty of dash and started off well every quarter, but the French-Canadians had it on them in speed, stick-handling and experience, and the result was never in doubt. The closing minutes of each half found the Irish played out with their efforts to keep the pace set by the speedy Nationals. It was witnessed by a large crowd, the Shamrocks being quite a novelty to the regular twelve place, but otherwise Ducket in Decarie's ground, on Decarie's replaced Ducket in the second half and finished the game. Shamrocks had neither Hogan nor Kavanagh in line and the frequent changes which the Irish had been making seemed to have caused a lack of cohesion in their play. The youngsters on the team showed good form, but seldom worked well together when it came to an attack. The Nationals have proved altogether too fast and tricky for the Shamrock defence and there was always one of them on hand to take a pass when the ball came up. Everyone of the five figured in the scoring. Despite twelve goals against him Mulr played a good game in goal, for the Frenchmen bored in with greater persistence and nerve than they have yet exhibited this year and the Shamrock goal was often up to take dozens of hot shots from close in.

The game was a fairly clean one and no foul play was shown. The final list was not a large one. Ron Piniason and Bob Taylor handled the match in first-class shape. Teams, officials and summary: Shamrocks (5): Mulr, goal; Clingen, point; Dillon, cover; Rochford, McMillane, Smith, defence; Munday, centre; W. Munroe, George, Quinn, home; Hyland, inside; McIntyre, outside. Nationals (12): L'Heureux, goal; Cattaranch, point; Gagnon, cover; Ducket, McKenna, Lachapelle, defence; Seacours, centre; Dulude, Gauthier, Pitre, home; Lamoureux, inside; Dussault, outside. Cornwall Defeat Capitals. OTTAWA, July 15.—The Capital lacrosse team clinched its hold on the cedar championship of the N. L. V. Saturday afternoon, when, after a listless match at Lansdowne Park, they lost to Cornwall Club by 2 goals to 1. Cornwall took a lead in the first quarter and held the lead at a safe distance through the Capitals, in fact, playing the poorest game they have put up this season. It was confidently expected that Bliskey's brigade would pull out their first victory of the season, for Cornwall appeared without a solitary win. One more, however, the unexpected happened, for but had been expected, and the Capitals far outplayed the Capitals, left at almost every stage of the match. "That team will beat Tecumseh at Cornwall," remarked Pete Green, in cursing the merits of the Lalyleville twelve. And Pete was not the only one deeply impressed by the improvement of the Capitals, in fact, playing the poorest game they have put up this season. It was confidently expected that Bliskey's brigade would pull out their first victory of the season, for Cornwall appeared without a solitary win. One more, however, the unexpected happened, for but had been expected, and the Capitals far outplayed the Capitals, left at almost every stage of the match.

Estons Win From T. R. C. HANLAN'S POINT, July 15.—(Staff Correspondent).—Estons defeated the Toronto Rowing Club in a Senior O.C.A. game 4 to 3 here this afternoon. The game was late in starting, owing to the non-appearance of some of the Estons players and play started with nine a side. Brantford: Goal, Slattery; point, Chavers; cover, Shannon; defence, Gilligan; Hawkins; Collins; centre, Lawton; home Ion, Nichol; Atkins; outside, Hawkins; inside, Terrill; field captain, Hambourg. Matilda's: Goal, Grant; point, MacKie; cover, Slack; defence, Stroud, Kirk, Bullen; centre, Barber; home, Spellen, Stevenson, Britnell; outside, Gates; inside, Lillie; field captain, Ed. Carmichael.

Lacrosse at Cornwall. CORNWALL, July 15.—In the inter-provincial Intermediate Lacrosse League yesterday the Internationals put a double hitch on the championship by defeating the Mintos by a score of 8 to 4. It was a rattling good game all the way, and was witnessed by a large crowd. The Victorias have childishly dropped out before the Shamrocks being quite a novelty to the regular twelve place, but otherwise Ducket in Decarie's ground, on Decarie's replaced Ducket in the second half and finished the game. Shamrocks had neither Hogan nor Kavanagh in line and the frequent changes which the Irish had been making seemed to have caused a lack of cohesion in their play. Berlin 12, Guelph 5. BERLIN, July 15.—Berlin had an easy time of it with Guelph Saturday in the opening game of the Ontario Lacrosse Association's intermediate series, winning by 12 to 5, and had they not scored it would have been still more one-sided. The teams were: Berlin (12): Goal, Brishow; point, Stevedart; centre, Galbraith; defence, Wilson, Machan, Kane; centre, Anderson, home, W. Fair, Wallace, Ealf; outside, Smith, inside, Wolfe. Guelph (5): Goal, Grant; point, Duncan; centre, Felker; defence, Higgins, McGowan, Mitchell; centre, Lovegrove; home, Fair, Allen; Barber; outside, Sargent; inside, McKellar.

Estons Win From T. R. C. HANLAN'S POINT, July 15.—(Staff Correspondent).—Estons defeated the Toronto Rowing Club in a Senior O.C.A. game 4 to 3 here this afternoon. The game was late in starting, owing to the non-appearance of some of the Estons players and play started with nine a side. Brantford: Goal, Slattery; point, Chavers; cover, Shannon; defence, Gilligan; Hawkins; Collins; centre, Lawton; home Ion, Nichol; Atkins; outside, Hawkins; inside, Terrill; field captain, Hambourg. Matilda's: Goal, Grant; point, MacKie; cover, Slack; defence, Stroud, Kirk, Bullen; centre, Barber; home, Spellen, Stevenson, Britnell; outside, Gates; inside, Lillie; field captain, Ed. Carmichael.

Lacrosse at Cornwall. CORNWALL, July 15.—In the inter-provincial Intermediate Lacrosse League yesterday the Internationals put a double hitch on the championship by defeating the Mintos by a score of 8 to 4. It was a rattling good game all the way, and was witnessed by a large crowd. The Victorias have childishly dropped out before the Shamrocks being quite a novelty to the regular twelve place, but otherwise Ducket in Decarie's ground, on Decarie's replaced Ducket in the second half and finished the game. Shamrocks had neither Hogan nor Kavanagh in line and the frequent changes which the Irish had been making seemed to have caused a lack of cohesion in their play. The youngsters on the team showed good form, but seldom worked well together when it came to an attack. The Nationals have proved altogether too fast and tricky for the Shamrock defence and there was always one of them on hand to take a pass when the ball came up. Everyone of the five figured in the scoring. Despite twelve goals against him Mulr played a good game in goal, for the Frenchmen bored in with greater persistence and nerve than they have yet exhibited this year and the Shamrock goal was often up to take dozens of hot shots from close in.

Pastor Russell's Sermon

TORONTO, July 16.—Pastor Russell lectured here to-day under the auspices of the International Bible Students' Association. His topic was, "Where their worm dieth not and the fire is not quenched" (Mark ix, 44). He said: This text has stood in the way of God's people for centuries, and still continues in the way of many. To such proves the Almighty Creator to be a most unkind one, a most un-fatherly one.

If, by God's grace, this sermon shall be an even one here present about the horrible nightmare of the dark ages, I shall feel fully repaid. And the publication of this sermon in more than a thousand newspapers, may hope, will clarify the vision of many. To what extent it shall sweep away the cobwebs of error and bring to the enlightenment of mind, it will surely bring an increase of rest and of loyalty and love to the creator and a corresponding blessing to the helms, which likewise is indispensable. We cannot expect them to see nor understand such of the divine program now. As it is written, "None of the wicked shall understand." They must wait for the dawn of the new dispensation of Messiah's kingdom, when all the blind eyes shall be opened and all the deaf ears unstopped.

As we have heretofore seen, the only Hebrew word translated hell, from Genesis to Malachi, is sheol, which is indiscriminately translated grave, pit, and hell in our common version of the English Bible—and the greater number of times grave—its proper translation. Its Greek equivalent in the New Testament is hades, which likewise is indiscriminately translated grave and hell, but always should be rendered grave. No scholar in the world will claim that there is the slightest thought of life or suffering connected with these words.

The scriptures distinctly declare that there is neither wisdom, nor device, nor knowledge in sheol—to which all, both good and bad, go to death, and where they remain until the resurrection. In the New Testament the word tartarus occurs only and is mistranslated hell, whereas it should be rendered our earth's atmosphere. It has no reference whatever to humanity, but to the fallen angels. The apostle says that as a punishment "God cast them down to tartarus, reserved in chains of darkness until the judgment of the great day" (II Peter ii, 4).

To-day we will examine the fourth and last word translated hell in our common English Bible. This word in the Greek is gehenna. It occurs but twelve times, as follows: Matthew v, 22, 29, 30; x, 28; xxiii, 33; Mark ix, 43, 45, 47; Luke xii, 3; James iii, 6. One of the occurrences is found in our text to-day. The question is, to what does this word gehenna refer? Is it a name for purgatory? Or is it hell for a still worse place of unending torture as our Protestant creeds declare? We answer, no. It is a figure of speech used to emphasize the second death, the death from which there will be no resurrection—the everlasting destruction mentioned by St. Paul in I Cor. xiii, 8. St. Peter says that they which are "like unto beasts, they are brutish" (II Peter ii, 12). This is very plainly stated in Revelation xiv, 14, where of this lake of fire it is declared, "This is the second death."

The Greek word gehenna is the synonym for the Hebrew word gehinnom, which means "The Valley of Hinnom." This valley is repeatedly mentioned in the Bible. The first reference is in Joshua x, 5, 8. At a time when the Israelites were sadly involved in idolatry, this valley was used as a sacred place. An image of the heathen god, Moloch, made of brass, and hollow, was erected. It was so constructed that the child, which was to be sacrificed, was placed in a furnace of the image, and the head of the image was the top of a fire.

The image held out its arms as the child to receive something and, heated red hot by the fire, was a receptacle in which the child, Israelites, placed their children as sacrifices, while trumpets were blown, drums beaten and the people shouted, strolling the cries of the tortured infants (I Kings xiii, 10), when the good king Josiah came to the throne, all this idolatry was abolished and the words of God in the temple were resumed. Then the people should ever again revert to such atrocious customs, the valley was desecrated. It became a dumping place for the filth of Jerusalem. Dead animals were thrown there, and it is claimed that some of the vilest criminals, after execution, were thrown there to rot. It is stated that there was no future life for such obnoxious beings as these were typified. The bodies of animals were thrown there intended for destruction the worms feeding upon them.

No one sought to hinder the worms from making a complete destruction of the bottom of the valley. They were kindled for the consumption of the waste debris, and the worms were added that the fumes might destroy any germs of disease. No one thought of muzzling that fire. It was one that was desired. This was the scheme of our Lord's day. He uses it in a figurative sense as illustrating the second death, which would be the portion of all unrepentant sinners. He uses it also in connection with other symbols. In the book of Revelation, where He explains it to mean the second death (Revelation xx, 14).

The worms of that valley were no more immortal than any other worms, and the fires kindled there are not burning now. This expression, "Where their worm dieth not and the fire is not quenched," merely signifies that the destruction of the class represented would be complete, that nothing would interfere to save them from destruction. Adamie died will be destroyed, as the scriptures declare, Christ died that He might have the rightful authority to destroy Adamie and to uplift all of Adam's race who will accept His favor back to all that was lost in Adam, and redeemed at Calvary. But the second death is a threat to all who love righteousness, since it will utterly destroy such as have loved or sympathized with the devil, and obedient to the divine will after full enlightenment.

In the earthly Jerusalem was a figure of the heavenly Jerusalem, a figure of God that is to be established in all the earth, so gehenna and its "fire" and "worms" preferred the final destruction of the second death upon all the terminators of Christ's mediatorial kingdom reign, and the destroyers of the kingdom of God with righteousness fully established.

POSTMAN DROPS DEAD ON OUTING AT ISLAND
Robert Mitchell was Veteran Member of Department—Had Heart Trouble for Years.
Robert Mitchell, 773 Gerrard-street East, for many years a member of the postoffice department, dropped dead at about 5.45 o'clock.
Mitchell had been suffering from heart disease for several years past and for this reason was given an inside position, which was considered easier than carrying delivery bags. During the day he appeared to be in usual health and had not been complaining so far as Postmaster Ross was aware of about 2 o'clock he said that he intended going over to the island as it was his afternoon off. Postmaster Ross said he considered Mitchell amongst the best men and had every confidence in him. He was a man of about fifty years of age and is survived by a widow, and several children.
Considerable time was lost in identifying Mitchell as he was wearing a coat belonging to W. S. Hanna, 30 Guelph-avenue.
It is not expected that an inquest will be held.

CORN AND OATS LOWER WHEAT SCORES ADVANCE

Chicago Market Turns Dull at Week-End With Tendency Generally Easier.

CHICAGO, July 15.—A revival of the export trade brought new strength today into the market for wheat. Bullish estimates regarding the northwest crop gave help. In consequence, closing prices were 1/4 to 3/4 higher than last night. The end of the day, however, left corn down 1/4 to 3/4, and oats off 1/4 to 3/4. Hog products finished all the way from 1/4 to 1 1/2 gain. Sales of wheat to foreign countries were made both here and at Toledo. The news of these transactions had an immediate effect causing shorts to cover in a lively fashion. In this connection, the fact was pointed out that July wheat here was being quoted at 12 1/2 under the futures current at Liverpool. Much interest, too, was displayed regarding predictions by a leading authority that the three most important spring crop states, North and South Dakota and Minnesota, would not yield more than 140,000,000 bushels, as against 131,000,000 indicated in the government July report, and 177,000,000 bushels the total official yield for a year. Another source of assistance to the bulls lay in explicit denials that the banks here had been calling in any loans on wheat. During the session spot ranged from 87 1/2 to 88 1/2, closing easy, 1/4 to 3/4 up at 87 1/2 to 88 1/2. Corn values generally were under free selling for country account. There was also considerable realizing on the part of local longs. Rains in Nebraska favored the bears. September moved a year steady but 1/4 to 3/4 net lower at 65 1/2. Cash grades were active. The new crop made the oats market heavy. Besides, the weather map showed extra good conditions for harvesting. High and low points touched by September were 47 1/2 and 46, with last rates at 45 1/2. A rally in provisions was attributed to shorts covering because meat and lard shipments from Chicago for a week were in short supply. Pork varied from 10c lower to 1 1/2c gain; lard and ribs hung virtually at last night's level.

Snow's Crop Report.
 Snow's report says condition of spring wheat on July 10 was 63 per cent, a decrease of 2 points since July 1. Loss mainly in South Dakota, which dropped from 90 to 70, due to hot weather at end of June. Yield of winter wheat bushels, against 15.8 bushels per acre last year.

Snow's special report makes winter wheat crop 425,000,000 bushels, and spring wheat 225,000,000 bushels, a total of 650,000,000 bushels, against 635,000,000 bushels final last year.

Flour Stocks.
 Flour stocks in the United States and Canada, July 1, were 1,830,000 barrels, last month 1,510,000, last year 2,163,000 barrels.

ST. LAWRENCE MARKET.
 Receipts of grain produce were four loads of bay, a moderate supply of mixed oats in the north building, and a plentiful supply of butter, eggs and poultry on the Hay-For-Trade and poultry on the Hay-For-Trade.

Butter—Receipts liberal, with prices advanced at 20c to 25c per pound.
 Eggs—Prices firm at 22c to 25c, the latter price being paid by special customers for eggs laid during two or three days before marketing them, the bulk going at 20c per dozen.

Poultry—Spring ducks sold at 20c to 25c per pound; spring chickens, 20c to 25c, and one or two very choice lots, 25c per pound; fowl, 15c per pound.

Market Notes.
 Messrs. John Barron and J. M. Patterson of Swan Bros. were the highest purchasers of spring chickens and ducks. Arranges to make better prices by keeping their chickens until they weigh at least 2 1/2 pounds each when dressed, and then sell for at least twelve hours before killing.

SOCIETY OUT IN FORCE AT LAWRENCE PARK

Opening of Bowling Green an Enjoyable Event—District Was Greatly Admired.

NORTH TORONTO, July 15.—(Special.)—A delightful event was the formal opening of the magnificent grounds of the Lawrence Park Lawn Bowling Club on Saturday afternoon. Ideal weather conditions from all parts of the city, constituted an attraction seldom if ever surpassed in city, in genuine pleasure.

Lawrence Park has long been noted for its many natural advantages, but it needed the presence of many fair ladies in their charming gowns and the more sober but not less picturesque scores of lawn bowlers on Saturday afternoon to indicate just what a green paradise system really exists up on the northern highlands. Everybody was happy, delighted, but the face of Mr. Dinick and that of John Brooks, on whom devolved the work of superintending the new lawn and tennis grounds, were a sight to see.

And why? It was the formal opening of the magnificent grounds of the Lawrence Park Lawn Bowling Club on Saturday afternoon. Ideal weather conditions from all parts of the city, constituted an attraction seldom if ever surpassed in city, in genuine pleasure.

W. E. J. EDWARDS, B.S.A.

District representative of the Ontario Department of Agriculture for York County, located in Newmarket.

architect in charge, S. G. Beckett of Chadwick & Beckett, was heartily congratulated.

The formal opening of the grounds was marked by simplicity, the playing of the National Anthem by Dale's orchestra, followed by a brief invocation by his Lordship the Bishop of Toronto, and a few words of congratulatory remarks by Nicholas Garland, confiding to open the proceedings.

Special interest attached to the tennis play, especially in the presence of Miss Florence Sutton, Miss Lois Myles, Miss Summerhayes, and Ralph Burns constituting a great attraction. Doubles were exemplified by Miss Radcliffe, Miss V. Taylor, Miss Lois Myles, Miss Minnie Blong, and the Messrs. Firstbrook and Mr. Brooks.

The reception committee was composed of Mr. W. S. Dinick, Miss Firstbrook, Mrs. Alfonso Jones, and Mrs. M. H. G. Jones. Refreshments were served from the large marquee erected on the grounds, and needless to say this was a favorite resort throughout the afternoon.

The officers of the bowling club are: Nicholas Garland, president; W. S. Dinick, president; John Firstbrook and John Brooks, vice-presidents; D. A. Radcliffe, honorary treasurer, and E. H. Green, secretary.

The men who have made the management of both companies particularly successful in the past will continue at the head of their respective companies, and the Board of Directors will include five practical millers. The latter are J. D. Finlay of Lindsay, Ont., president of the Canadian Cereal Milling Company; F. Rees of Minneapolis, president of the International Milling Company; George E. Goldie, vice-president and managing director of the Canadian Cereal Milling Company; and F. A. Rean Jr., vice-president, respectively, of the International Milling Company.

We would be pleased to forward special circular giving full particulars regarding the Company.

On the issued bonds \$1,207,000 are to be held in escrow to retire underlying bonds.

The International Milling Company of Canada, Limited, will operate as a holding company, and has acquired all the outstanding shares of the International Milling Company of Canada, Limited, and over 80 per cent. of the shares of the Canadian Cereal & Milling Co., Limited. The above companies own and operate thirteen flour and rolled oat mills, located as follows: Three in Minnesota, U.S.A.; one in Iowa, U.S.A.; one in Moose Jaw, Saskatchewan, Canada; and the remainder in Ontario, Canada. The combined daily capacity of these plants is 9000 barrels of flour and 5000 barrels of rolled oats. The companies' plants are situated at points that will permit them to take the greatest advantage of the markets, both of Canada and the United States, as well as of the foreign markets of Great Britain and European countries.

The Collateral Trust and Refunding Mortgage Bonds now offered are secured by the transfer to the Trustee of all the Shares of the International Milling Company of Canada, Limited, and over eighty per cent. of the Shares of the Canadian Cereal & Milling Co., Limited. The remaining Shares of the Cereal Company as they are acquired will be deposited with the Trustee, and become subject to the Mortgage. When the balance of the Cereal Company's Shares are acquired these bonds will constitute a first lien on all the assets of the Company now owned or hereafter acquired, subject only to \$1,207,000 underlying bonds, which are being annually redeemed by Sinking Fund.

The total value of the Fixed and Liquid assets of the above companies, which constitute the International Milling Company of Canada, Limited, is \$3,500,000, or twice the amount of bonds outstanding.

The net profits of the constituent companies for their last fiscal year, according to the audit of Messrs. Harwick, Mitchell & Co., for the International Milling Company, Limited, of Minnesota, and of Messrs. Riddell, Stead, Graham & Hutchison for the Canadian Cereal & Milling Co., Limited, before allowing interest on borrowed money, but after allowing for extraordinary expenditures, repairs, renewals, etc., amounted to \$414,194, or about four times the interest requirements on the outstanding bonds.

The earnings for the past year show the position of the company as follows:

Net Profits of constituent companies for their last fiscal year, before paying interest on borrowed money \$414,194
 Bond Interest 108,920
 Surplus Earnings \$305,274

It is expected that the consolidated companies will effect economies and increase business in a way which was not possible for the individual companies acting independently, and the present management estimate the net profits should run from \$550,000 to \$600,000 per annum.

The men who have made the management of both companies particularly successful in the past will continue at the head of their respective companies, and the Board of Directors will include five practical millers. The latter are J. D. Finlay of Lindsay, Ont., president of the Canadian Cereal Milling Company; F. Rees of Minneapolis, president of the International Milling Company; George E. Goldie, vice-president and managing director of the Canadian Cereal Milling Company; and F. A. Rean Jr., vice-president, respectively, of the International Milling Company.

We would be pleased to forward special circular giving full particulars regarding the Company.

On the issued bonds \$1,207,000 are to be held in escrow to retire underlying bonds.
