SIGNATURE OF "J. BROWN" FOUND IN POISON BOOK WAS PENNED BY BRUCE

Sensational Evidence Given by W. H. Shaw of Toronto, Handwriting Expert, in Trial of Man Accused of Murder of Rose Zeipe—Much Evidence Taken.

(By Staff Correspondents).
HAMILTON, Thursday, Oct. 10.—The evidence of W. H. Shaw, a Toronto handwriting expert, in the Bruce murder trial yesterday afternoon, apparently welded one of the most important links in the chain of circumstantial evidence which the crown has endeavored to forge in its efforts to convict James Bruce of the murder of 19-year-old Rose Zeipe on Aug. 11 last. Mr. Shaw's evidence also provided the only new feature which has developed in connection with the case.

The evidence in the case yesterday morning and early in the afternoon was substantially the same as that given at the Zeipe inquest and at the prisoner's preliminary hearing, and indicated that Miss Zeipe came to her death by strychnine poisoning on Sunday evening, Aug. 11, a few minutes after she had eaten some chocolate candies given her by the prisoner's wife, a patient at the city hospital, whom she was visiting when she was taken ill.

Identified Writing.
W. H. Shaw, the handwriting expert, described the process by which he had arrived at the conclusion that the signature of Bruce in the cartage company's book, on the shipping bills and the signature of "J. Brown," on the "poison book," were all written by the same hand. All the signatures were first photographed the capital letters "J" and "B" had been separated from the words with which they had been written, and from them a composite photograph had been made. The letters taken from the three different sources had been arranged in a line for comparison. The general appearance of the signature, said the witness, indicated that they had all been written by the same hand.

Characteristic uniformity of style of letters was another important factor considered by the witness. The similarity of the signatures was striking in the comparison between the signature of "J. Bruce" on the "wage book" and "J. Brown" on the "poison book." The portion of the two signatures composed respectively of "J. Bru" in the Bruce signature and "J. Bro" in the "Brown" signature were almost identical.

Showed No Concern.
F. B. Holmes, a newspaper reporter, who interviewed James Bruce on Sunday night after Miss Zeipe's death and before Bruce was arrested, said that Bruce exhibited no anxiety when told that Miss Zeipe was thought to have died from eating some candies sent by him to his wife.

William Nichol, a clerk in the drug store of E. B. Mealey, corner of York and Pearl streets, testified that he had sold a sale of one dram of strychnine to a customer, whose description he could not clearly recollect, between 7 and 8 o'clock on the evening of July 28. The purchaser, Nichol said, was a young man a little under medium height. The prisoner was directed to stand up, but Nichol could not identify him as the man to whom the poison had been sold.

To C. W. Bell, Bruce's counsel, Mr. Shaw explained that he had not compared a table of graphs and ranges in considering the signatures, for the reason that their obvious similarity made such a process unnecessary. The witness said he had no trace of the "tremor of fraud."

Gave False Address.
The purchaser of the poison said he wanted the strychnine to kill rats, and signed the name and address, "J. Brown, 88 Locke street south," in the "poison book" in the store. The witness at the time of the transaction remembered that J. Allander, a rag and metal dealer, who might be expected to use rat poison owing to the nature of his business, lived at the address given, and thought nothing of the matter.

J. Allander swore that he had never employed a man named Brown nor any one fitting the description given by Nichol.

Roy T. Hickey identified a number of Bruce's signatures written in the wages book of the Armstrong Cartage Company, by whom the prisoner was employed until his arrest, and also a number of Bruce's signatures on shipping bills.

In the poison book signature of "J. Brown" Mr. Bell observed that Bruce had signed a fictitious name it would have been of the nature of fraud with which witness agreed. In reply to the counsel's question witness stated that the pupils taught by the same teacher are liable to use the same style of writing. "They usually change, however," added the witness. Mr. Shaw concluded his evidence by admitting to Mr. Bell that he was simply expressing his opinion and belief in the matter.

Another Expert Corroborates.
C. R. McCullough, a local handwriting expert, testified that he witnessed the "Brown" signature was written by the same hand as some of Bruce's signatures. He admitted he had used no scientific process in reaching his conclusion.

E. B. Mealey, proprietor of the store where Nichol sold the strychnine in question, partly corroborated Nichol's evidence, but added nothing to it.

S. V. Shuter, a confectioner, at 244 York street, testified to selling Bruce 10-cent worth of chocolate drops on Saturday evening, Aug. 10. Bruce had been in the habit of buying candies from his regularly.

Herbert Rice, who was with Bruce when the candies were bought, testified that Bruce said the candies was for his sister's children.

Objected to Removal.
Joe Morgan, another companion, gave evidence to the same effect. Dr. Hopkins, who treated Mrs. James Bruce for several weeks, said he first saw her on Aug. 5, when she came to his office. Among other things Mrs. Bruce said she was pregnant, and Dr. Hopkins ordered her removed to the City Hospital. Bruce called at the doctor's office on Aug. 6 and in a disagreeable manner disapproved of the physician's action in sending Mrs. Bruce to the hospital.

Bruce told Dr. Hopkins he had been induced to marry the girl on account of her own illness. A subsequent operation, the doctor said, showed that Mrs. Bruce had been pregnant six weeks. Bruce objected to paying his wife's doctor bill or hospital expenses, but professed to be willing to pay her board at her mother's house.

Mrs. McLeod, a patient in the semi-private ward with Mrs. Bruce, had no visitors between the time Bruce left at 4 o'clock and Miss Zeipe and three other girls came about 7 o'clock Sunday evening.

On Sunday afternoon they both seemed to be in good spirits, and Bruce said nothing to her and stayed only a short time each visit until Sunday afternoon, when he and Miss Zeipe went to the cinema and ate something together. Witness saw Mrs. Bruce spit something out of her mouth.

Mrs. Walno, another patient in the same ward, testified to practically the same effect.

Recalled to the witness box, Mrs. McLeod said that Mrs. Bruce had no visitors between the time Bruce left at 4 o'clock and Miss Zeipe and three other girls came about 7 o'clock Sunday evening.

Gertrude Dalby, a sister of Mrs. Bruce, was one of the girls who called to see Mrs. Bruce on Sunday evening, Aug. 11. All four sat beside Mrs. Bruce's bed. Mrs. Bruce offered them some cherries, and then passed some chocolate candies in a small bag. Miss Zeipe was the first to take some, she took two pieces stuck together. The others took one piece each. A few minutes later Miss Zeipe became ill. Her legs and body became stiff, and she died in about half an hour. Miss Zeipe was 19 years old at the time, and was on "pretty good terms."

Margaret Vance corroborated the previous witness.

Mrs. Sampson and Miss Miller, day and night nurse, respectively, in the ward where Mrs. Bruce was a patient, both swore that no strychnine was used in her treatment, so far as they knew, and that the strychnine in the ward was kept locked, and they carried the keys to the cabinet in which it was kept.

At 8:30 p.m. court was adjourned until nine o'clock this morning, when the trial will be resumed. The evidence will likely be finished early this morning, and it is expected the case will go to the jury about noon.

BATEMAN'S ODD BEHAVIOR DEFENCE'S STRONG POINT VERDICT EXPECTED TODAY

Counsel for Old Man Accused of Wife Murder Apparently Paving Way to Insanity Plea—Witnesses Told of Frequent Quarrels and Threats Made by Bateman.

WHITBY, Oct. 9.—(Special.)—John Bateman, aged 77, on trial here before Justice Latchford and a jury, will know his fate tomorrow. The case for the crown was completed tonight and tomorrow morning, Gordon Conant, the prisoner's counsel, will present the defence. Damaging evidence against the prisoner was adduced from the many witnesses during three sessions of the court today, who revealed details of the gruesome tragedy in which Mrs. Bateman, aged 70 years, was found dead on the morning of Sept. 5, in her bedroom, with a fire burning over her body, which, according to witnesses, was started by the use of coal oil.

It is more than likely that the defence relies on an insanity plea to save Bateman. The defence endeavored to bring out evidence indicating that the prisoner was irrational and not responsible for his actions.

Dr. J. F. Finnegan, of Ottawa, who performed the autopsy, stated that the woman's death had resulted from a fractured skull. He held the skull fractured, which wounds had been inflicted. They could not have been self-inflicted or by falling, but they were caused by a sharp instrument, he declared.

Suspected Derangement.
A witness told of a call the prisoner had made a few months ago at his office, when he said that his wife was suffering from a serious disease. Bateman wanted the physician to examine her. "After I heard his reason I didn't think it was necessary," said Dr. Finnegan. "I did not think it was wise to see her because of his exaggeration and extravagant statements. I found that the wife's words of those conditions which he had stated when I performed the autopsy."

"Did anything strike you as peculiar about Bateman?" asked Mr. Conant. "Yes, he had a facial expression which indicated to me to some degree an unusual mind," replied the witness.

Dr. Bruce Smith, superintendent of hospitals and asylums in Ontario, and Dr. Besmer, formerly of Mimico Asylum, will be called as expert witnesses by the defence tomorrow. As Bateman has no money, the crown will pay the expense.

Blood Stains on Coat.
Dr. G. B. Archibald, of Toronto, who analyzed the stains on the ax and coat which Bateman wore on the day of the murder, testified that they were spots of human blood.

Leeta McDonald, of Cobourg, who up to July lived in the Bateman residence, which was divided into three apartments, said that Bateman had threatened to cut her throat when she interfered in a quarrel between the old couple. She declared that they squabbled considerably because of Mrs. Bateman's fond possession of a number of cats.

During most of the day Bateman, who has a patriarchal appearance, displayed considerable interest in the proceedings. At times he stood in the dock listening with close attention and on other occasions, when stories of the smashed in skull were told, he leaned in his seat, gripping nervously the railing.

The council are determined to stop all rowdiness in the games.

MONTENEGRINS MAKE ASSAULT ON STRONG TURKISH POSITION FIERCE BATTLE IN PROGRESS

Call to Rescue Compatriots

CETTINJE, Oct. 9.—(Can. Press.)—King Nicholas has issued a proclamation summoning the Montenegrins to go immediately to the assistance of their brethren in old Servia, where, he declares, women and children are being massacred.

"Montenegro had hoped to secure the liberation of the Serbs in Turkey without the shedding of blood, but peaceful endeavors proved unavailing," continues the proclamation, "and no other recourse was left but to take up the sword in their behalf."

"We are assured of the sympathy of the whole civilized world, and we will have the loyal assistance of the kings of Servia, Bulgaria and Greece and their peoples, who in this affair have ranged themselves with the Montenegrins like brothers."

The proclamation concludes: "Montenegro is attacking Turkey not from motives of arrogance, but inspired by a noble resolve to prevent the final extermination of her brethren."

TYRANNY AND INJUSTICE SAYS A FRENCH TRUSTEE OF WHITNEY REGULATIONS

"We Ask That Nefarious Regulations Be Withdrawn and That We Be Given Justice," He States—Incivility Toward Inspectors Disclaimed.

OTTAWA, Oct. 9.—(Can. Press.)—The Ottawa Separate School board tonight received a circular from the Ontario Department of Education dealing with the board's opposition to the new bilingual regulations, which define the attitude of the minister of education in the matter.

"That any school which disobeyed the regulations would cease to become a part of the provincial system, and that its supporters, while they might voluntarily contribute toward it, would also be classed as public school supporters and would have to contribute as such, was one of the statements of the circular. Teachers who disobeyed the regulations would have their certificates canceled, while walking out from schools of pupils would also be construed as a violation of the law and would destroy the standing of the institution where it occurred as a unit of the Ontario educational system. The circular follows closely along the lines of the statement made by Sir James Whitney.

Trustee Genest proposed that the matter of the bilingual regulations should be left over for a special meeting.

He thought it was evident from the circular received from the department that the board's purpose was misunderstood. He disclaimed any incivility towards the inspectors appointed. "It is a movement, not to educate the children, but to Anglo-ize them, to crush back in their throats the tongue the Almighty has given them," he said. "I do not think the government is stronger than the Almighty, and it is not beyond the Whitney government to change its mind. Are we uncivil and unkind in pressing for the right to sing the praises of our Lord and King in our own tongue? Emphatically I say it is tyranny and injustice. We ask these people to withdraw these nefarious regulations and give us the justice to which we are rightly entitled."

A number of letters from parents supporting the action of the board were presented, as was also one from Rev. Father Thomson, parish priest of St. Joan Baptist Church, this city, along the same lines. No further action was taken by the board, and a further meeting will be held to take up the matter.

TURKS BEAT A RETREAT

That the Turks held in reserve should be covered by a concentrated artillery fire the infantry moved forward the strongly fortified Turkish positions in Detlich Mountain, which commands the road to Scutari. At 2 o'clock the Turks landed troops on the shores of Lake Scutari, near the Montenegrin frontier. A general engagement followed, and was still in progress at 4 o'clock in the afternoon over an extensive front.

TOLD PECULIAR STORY

Woman Says Ex-Policeman in Toronto is Father of Baby.

(By Staff Correspondents).
HAMILTON, Thursday, Oct. 10.—A peculiar story was told to the police last night when Mrs. Courtois, a delicate woman, 39 years of age, was brought to the central police station for a night's lodging. The woman, who has been in the city for several days, was accompanied by a six months' old baby and a five-year-old boy.

She said she left her home in Toronto because she did not want her husband to support her baby, whose father she declared, is an ex-policeman in Toronto. The police are inclined to believe her story.

WATER RATES ARE TOO HIGH

So Contends Hamilton Cemetery Board—Committee to Confer With Board of Control.

(By Staff Correspondents).
HAMILTON, Thursday, Oct. 10.—Dissatisfaction with the city water rates being charged to the Hamilton Cemetery was expressed at the cemetery board meeting last night, and it was decided that a committee consisting of Chairman Campbell, Secretary Rutherford and Messrs. Fearman and Lovejoy, should take the matter up with the board of control on Oct. 17.

The board favored the building of a new office and chapel, and tenders for the work will be asked for.

The secretary's report of receipts and expenditures for September showed that \$2,572.86 had been taken in and \$1045.10 of this sum had been set aside for the perpetual care fund.

The expenditures for the month were \$1503.15.

Receipts and expenditures for the three quarters period ending September 30 were \$15,445.50 and \$14,147.71 respectively. Within the nine months, the sum of \$995.40 has been contributed to the perpetual care fund.

ALL DRAIN PIPES OF IRON IF NEW BYLAW CARRIES

Proposed Plumbing Regulation Prohibits Use of Tile, Drain or Sewage Pipes—Thoro Inspection of Slaughter Houses Impossible, Says Dr. Hastings.

"All drains used for sewage or waste water under any buildings shall be of cast iron and of the kind and weight specified by this bylaw."

The above clause is probably the most important change in the new proposed bylaw respecting plumbing, a draft of which was sent on to the council by the board of health, after a lengthy discussion yesterday afternoon.

The board of health, after a lengthy discussion yesterday afternoon, has adopted a regulation that the plumbing trade of Toronto is that tile drains are to be no longer used, and as a result the drainage work on an ordinary house will cost from \$25 to \$35 more than under the existing system.

The bylaw containing this change, however, was merely sent on to the council without any recommendation.

In a letter to the board A. M. Trowbridge, secretary of the Retail Merchants' Association, protested on behalf of that body that the iron pipe regulation could, if enforced, constitute an unfair discrimination against the manufacturers of vitrified pipes. This contention found support in the board.

Aid, Map Opposed.
Ald. May, a practical builder, was strongly opposed to the change. Iron pipes, he claimed, would corrode and rust, and hence were not suitable for any purpose.

Stable Bylaw.
The bylaw requiring that all stables should be at least a distance of 50 feet from residences or places of business, that the floors should be waterproof and that they should be properly drained, was endorsed by the board and sent on to the city council.

Meat Inspection.
In discussing his monthly report Dr. Hastings commented upon the impossibility of his department maintaining a thoro inspection of the 22 slaughterhouses in the city.

OTTAWA, Oct. 8.—(Special).—C. Hamilton Wilkes, British trade commissioner to Canada, who succeeds Mr. Richard Grieg, lately appointed chief Canadian trade commissioner, will be here tomorrow to confer with the government before taking up his new duties.

The Taste in the Water.
A combination of the tar from the sand boxes in the filters and the hypochlorite and the organic material in the underdrains caused that bad taste in the water some time ago. Dr. Hastings explains the situation as follows: "The taste which developed in the water at Exhibition time began at the same time that the filters were put in operation, and was undoubtedly due to a combination of the tar from the sand boxes in the filters, the hypochlorite, and probably to an organic material from growth in the underdrains of the filters while standing idle for two months. The same amount of chlorine was being used as has been in use for several weeks before, and the taste was not due to free chlorine, but to a combination that could not have been foreseen. Experiments carried on in the laboratory proved the correctness of this fact, the filtered water itself had no taste of creosote or tar."

Worse in the Morning.
"The reason why the taste always developed in the early morning hours was only detected by two of us spending two nights at the main pumping station, when we found that the water pumped dropped from approximately 45-48 million gallons down to 40 million or lower. This simply meant that in the early morning it was practically only filtered water which was being pumped and the taste would then develop with the filtered water and chlorine where it would not develop when 8-10 million gallons of unfiltered water was mixed with the filtered water."

THE TORONTO WORLD'S GREAT PROVERB CONTEST

JUST BEGINNING! JUST BEGINNING!

THE Contest is a brain exercise that will do you good—the pictures will test your ability and develop your memory. There's no soliciting, no nominating, no voting. Just the naming of the proverbs as they appear each day. The contest began on Thursday, Oct. 3rd. If you missed the first pictures you can get them at the office of The World, or by mail, at one cent for the Daily and five cents for the Sunday.

Here Are the Rules of the Contest

- The Toronto World Proverb Contest is a test of skill and diligence, designed to encourage thought and reward mental diversion for everyone.
- Every day, for a period of seventy-five (75) days, there will appear The Toronto Daily and Sunday World an illustration, cartoon or other representation of a commonly used and well-known English proverb.
- The Toronto World will award PRIZES AGGREGATING OVER \$5000 IN VALUE to readers of The Daily and Sunday World who send in the correct or nearest correct answers to the entire series of illustrations. The correct answer, and three representatives of the Daily and Sunday World, will shortly be placed under seal in a Safety Deposit Vault.
- Answers must be sent in until the last proverb illustration has been printed. After the last picture has been printed, contestants must arrange their coupons in numerical order, fasten them securely together and deliver or mail them in a post paid package (not folded or rolled, plainly addressed to the Contest Manager, The Toronto World, Toronto, Canada, within the time specified in the following rule.
- The time of receiving answers will have no effect upon the awarding of the prizes with this exception: All answers must be delivered at the Office of The Toronto World or bear postmark of mailing of not later than midnight, December 28, 1912, twelve days after the last of 75th picture is published.
- The prizes will be awarded to Toronto Daily and Sunday World readers sending in the correct or nearest correct set of answers to the entire series of seventy-five (75) Proverb illustrations.
- In the event of a tie between two (2) or more persons, the contest manager will award the prize to the contestant sending in the nearest correct set of answers with the least number of coupons will be declared the winner. Where two (2) or more contestants submit the same number of correct answers upon the same number of coupons the value of the prize or prizes tied for will be equally divided among those tying.
- In making the awards, the Contest Manager, whose name will be announced in due course, will take into account the similarity and exact wording of the proverb answers as selected by the Contest Manager and three representatives of The Daily and Sunday World, as contained in The Toronto World's Book of English Proverbs; spelling, wording, punctuation, and the correct construction of the proverbs are the essentials that will be graded.
- Where a set of answers is securely fastened together the contestant will be permitted to stamp his or her name on the space allotted from the greater majority of the blanks. PROVIDED THAT SUCH FULL NAME AND FULL POST OFFICE ADDRESS IS plainly and distinctly written upon the FIRST SIX and LAST SIX BLANKS of the set.
- In sending in the answers at the close of the contest it is important that contestants seal all packages containing answers, and if mailed, contestants should exercise great care to see that postage is fully prepaid at the rate, one cent per ounce or fraction thereof, in Toronto, and two (2) cents per ounce, or fraction thereof, outside of Toronto, as The Toronto World is not bound to pay postage due on any set of answers.
- All communications or letters of enquiry concerning the Proverb Contest must be addressed to the Contest Manager, Toronto World, Toronto, Canada.

YOU CAN ENTER THE CONTEST TODAY BY SIMPLY SECURING THE BACK PROVERBS
All of the back Proverb Pictures from October 3rd to date will be sent to any address in Canada upon receipt of 13 cents.

ENGLISH-FRENCH SCHOOLS REGULATIONS IN CIRCULAR

In response to the alleged educational controversy now waging throughout the province, the department of education has issued a circular in order that all parties concerned may more clearly understand the nature of their responsibilities, and the results that may ensue from their refusal or neglecting to perform their respective tasks.

thereof as he may be able to communicate with, the results of their refusal to do their duty, and to notify them of the minister's intention to see that the law and the instructions and other regulations of the department are duly enforced.

Excerpts from the act are cited in the circular stating that the public and separate schools act provides that it shall be the duty of the teacher to teach the prescribed courses of studies of the department of education, and in these respects the teacher is directly responsible to the minister of education.

"In the case of a school which has ceased to be a part of the provincial system, while the supporters of said school may voluntarily contribute moneys for its support, they cannot use the municipal machinery for the collection of any moneys, and ipso facto they become public school supporters and must pay their share of any taxes levied for public school purposes in addition to any voluntary contribution they may make for a school that has ceased to belong to the provincial system."

A GREAT WORK IN TORONTO LIQUOR HABIT CURED IN THREE DAYS By GATLIN Treatment

Realizing that but few people in Canada have any idea or conception of the extent and magnitude of the work and the grand results for afflicted and suffering humanity accomplished by the Gatlin Three-day Treatment and methods of saving men from the curse and awful consequences of excessive indulgence in strong drink, we submit a few facts.

That the Gatlin Treatment cures the drink habit in three days has been demonstrated in over 20,000 cases, and its merits proved in many splendid institutions established in principal cities in Canada and foreign countries.

ALLEGED HOCKIN DIRECTED PLOT

He is Said to Have Disguised Identity as "Ping" - Original Telegrams Destroyed.

INDIANAPOLIS, Oct. 9.-(Can. Press.)-Telegrams signed "Ping," alleged to have been an alias of Herbert S. Hockin and sent to Orrie E. McManigal, directing him where to "drop" dynamite bombs on his trips about the country, were sought by the government thru the examination of the first witnesses called in the trial of the accused dynamite plotters today.

Managers of telegraph offices in Buffalo, Detroit, Toledo, Chicago, Cincinnati, Indianapolis, Evansville, Ind., and Salt Lake City, Utah, testified. With one exception they asserted that the originals of telegrams asked by the government covering a period as far back as 1908 had been destroyed in the ordinary course of business.

Clancy Mysterious "C" ? One telegram identified as being sent from Salt Lake City read: J. J. McNamara, Indianapolis; Everything O.K. Glad C. is coming. Patient is out of danger and will get well. He is improving right along. You can depend on me to handle matters carefully. Will wire again if there is any chance.—"J. E. Munsey."

It would be shown that "C" referred to was Eugene A. Clancy of San Francisco, the government said. Clancy is now on trial. News of loss of life at Los Angeles caused Clancy, who had been in Boston, to hurry west.

BASEBALL AT STAR THEATRE.

While watching the Paragon Score Board at the Star Theatre yesterday afternoon, Jim Healy's Orchestra caused a stir over three runs, by playing the Dead March in Hell and his noise-makers, however, were made to sit up and take notice for the remainder of the evening. The Alerts are 40 per cent stronger than last year. Marrott continues to lead on the trotting on the wing line, has had this effect, and if he backs division and one or two changes the Dale Paddlers, there will be nothing to stop us. The Paddlers are to be feared, especially with Hugh Gall, Henry and Ross Binkley, on their back division, but I don't see how we can lose—Hamilton Spectator.

THURSDAY MORNING, OCT. 10, 1912

THE GRAND TRUNK AND THE NATIONAL TRANSCONTINENTAL RAILWAY.

If the Grand Trunk Pacific refuses to operate the National Transcontinental between Cochrane and Moncton, it will also have to give up the entire line between Moncton and Winnipeg and cut off its connection with the head of navigation at Fort William.

The Toronto News assumes that the company may in some manner possess itself of the line between Cochrane and Winnipeg, without being burdened with the line between Cochrane and Moncton, thus reviving some old stories and giving a certain color to sensational charges against the present government.

It is now perhaps an open secret that many Conservatives in 1908 believed that it would be advisable, in case Mr. Borden came to power at the election of that year, to end the National Transcontinental on the coast at Cochrane and to sell the Temiskaming and Northern Ontario road to the Dominion Government.

Just now The Quebec Telegraph is charging Hon. Frank Cochrane with degrading the standard of the road between Cochrane and Quebec for the express purpose of having the Grand Trunk refuse to take over the line east of Cochrane and to turn it over to the Canadian Pacific.

Would it be a great calamity to this country if the Grand Trunk Pacific did refuse to carry out its contract? Is the government preparing for this contingency? Or is there any likelihood that the Canadian Pacific may take over the line from Winnipeg to Moncton, upon default by the Grand Trunk Pacific?

CIVIC ADVISORY BOARD.

Controlled by McCreagh of the Ottawa City Council has a motion before that body proposing the formation of the heads of the civic departments into an advisory board. The board would be composed of the city clerk, engineer, solicitor, collector, assessment commissioner, treasurer, head of the municipal electric department, fire and police chiefs and auditor.

PARLIAMENT SHOULD ACT.

The Ottawa Citizen remarks that it is difficult for an outsider to say what railway rates are reasonable, and believes that to establish uniformity of rates would be a long step in the right direction. But how is this uniformity to be brought about? The World believes that it can only be brought about by parliamentary action.

and parliament has such plenary powers that the whole complicated network of railway rates, classifications and differentials can be swept away and standardized freight rates for the whole country established just as the uniform and universal two-cent-a-mile passenger rate should be established. But this requires action by parliament.

THE ONLY DEFENCE OF THE MELON.

The insinuation in a Winnipeg daily paper and the direct statement in a weekly paper in the same city that Hon. Clifford Sifton has control, ownership or interest whatsoever in The Toronto World are absolutely false.

SWEET MELONS.

Montreal Star: Speaking about appreciation in stock values, it requires very little farsight to show how shareholders are securing splendid dividends from the Bank of Canadian Prosperity.

THE MELON AND THE NAVAL ORANGE.

Does Mr. Borden think the western farmer will warm up very quickly to his naval policy just after the cutting of the Canadian Pacific melon? The farmer is to pay for both. Sir Thomas Shaughnessy is telling him to pay both.

Why did the C. P. R. In August, 1912, make application to the government for authority to lease stock, thus adhering to the precedent of the previous ten years, and then switch to a procedure which enabled it to issue its stock without the government's consent?

Why did the C. P. R. In August, 1912, make application to the government for authority to lease stock, thus adhering to the precedent of the previous ten years, and then switch to a procedure which enabled it to issue its stock without the government's consent?

Then again the question arises—is it desirable to collect as rental from any company more than the government section of the N. T. R. is worth, if that excessive rental is to be sweated out of the Canadian people by excessive freight rates?

MICA DEPOSITS LOCATED IN B.C.

Experts Declare That Sheets Up to Ten Feet Square Can Be Taken From Mountain.

It is now thought probable that British Columbia is in possession of what will turn out to be perhaps the richest mica mining country on the continent. The view taken by Herbert Carmichael, mineralogist to the British Columbia Government, who in an interview states that the B. C. Government is to conduct in the near future an investigation into the possibilities of the mica deposits on Mica Mountain.

PRETTY GOOD SENSE.

Editor World: You believe in public ownership. Why not extend the Intercolonial Railway as a public owned railway from one end of the country to the other? If there are any millionaires to share let them be given to the people in the shape of lower fares and lower freight rates, and so bring the farmer, the merchant and the consumer closer together.

THE SUNNYSIDE BRIDGE AND STREET CAR TRACKS.

Editor World: I desire to direct your attention to the new bridge at Sunnyside, and the elevation of the new diversion of the Lakeshore road. I noticed the other day that a single track has been laid in the centre of the new roadway, evidently with the intention of continuing a single track from the law bridge at Sunnyside, and on to the Humber River.

MILK DEALERS FINED.

In the sessions yesterday, Judge Denton took away from the City half a dozen cases of breach of the Trade Marks Act, in which milkdealers were found using bottles not their own.

Public Ownership

Public ownership is vigorously championed in this week's Christian Guardian in regard to the Toronto Hydro-Electric system. The Christian Guardian says: "Should a city tax its own public plants? This question has been raised by the decision that the Toronto Hydro-Electric Commission should be created, and which, as a private corporation, is compelled to pay taxes.

OFFER SERVICE
ON GERRARD LINE

Real Estate Firm Wants Priv-
ilege From City — Would
Give Low Fares—Resi-
dents Disappointed.

W. N. McEchren & Sons have writ-
ten to the board of control offering to
give a service over the Gerrard street
tracks until such time as the city can
procure equipment and a power supply
to operate cars. The service, they say,
will be given at a low fare, and while
it does not include what many resi-
dents would probably be by horse. The real
estate firm are known to have two or
three services of this nature in other
parts of the city. The board of control
is in the large part of the east end
that is hoping and counting on a ser-
vice of this nature. When the city car
project was first talked of, many
built homes on the cheap land in the
district, on the assurance from adver-
saries and during last summer. Most
of these people have to go a long dis-
tance to street cars, and now the pro-
posal of winter walks is far from ap-
pealing.

Nelson of 135 feet, with light on all
sides. The price was \$100,000.

Opening Up
Land Around
Small's Pond

A road from Queen street across
Small's Pond, by a new bridge, to open
up for building the land back of the
pond, has been proposed and the nec-
essary roadway set aside by property
owners.

There is now a narrow bridge across
the pond, on Berkeley street, which
runs in from Kingston road. The idea
is to widen this bridge and connect it
up with Orchard Park avenue, which
runs of Queen street. The scheme
makes available considerable building
land that has justifiable claims to nat-
ural beauty. Some houses have been
built on the old hotel grounds and the
whole district has been popular for
years, but not until recently opened up. There
is room for two or three hundred
homes along the north of the pond,
where land is going at \$4000 an acre
and about 138 a foot for building lots.
The proposed road will also give ac-
cess thru to Gerrard street by Norman-
by boulevard.

UNIVERSITY DANCES.

All the university dances this year

tions would be held in the future, but
Superintendent of Buildings Campbell
settled the difficulty yesterday.

Pacific live stock market the receipts of
live stock for the week ending Oct. 9

and 600 calves.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Oct. 9.—The market opened
with a firm undertone, and prices led
to bid higher, and later advanced, with
shorts covering. The closing strength in
Winnipeg yesterday and increased appre-
hension regarding the political situation
caused the strength. There was a good
demand reported from the continent for
cargoes arriving, and an increased de-
mand for No. 2 red winter. During the
morning there was a disposition shown
for profits, and prices reacted, losing on
least inquiry for forward shipment. The
weather in the United Kingdom continued
fine, with offerings liberal, and European
crop prospects are improved, and Russia
presenting offer for sale for nearby ship-
ment.

Mining Market Drags Lower, But Shows Good Resiliency

BALKAN WAR PROSPECTS SENDS WHEAT UP AGAIN

Foreign Political News Over shadows All Other Developments in Chicago Pit—Prices Score Sharp Advance—Corn and Oats Up

CHICAGO, Oct. 9.—War news overshadowed everything else in today's wheat market. In consequence there was a net advance of 3-4c to 1-1/2c to 1-3/4c, with the feeling at the close strong. Corn finished 1-4c to 3-8c up, oats at a gain of 1-4c to 1-2c and provisions dearer by 5c to 17-1/2c.

Foreigners were reported as buyers and American speculators showed even keener desire to take advantage of a possible big bulge in prices. The government crop report, which turned out to be against the bulls, came too late to affect the market.

Corn derived much of its strength from wheat. An after session surprise came in the government figures raising the condition percentage, whereas a drop had been expected. Cash grades were strong.

Export demand for oats continued lively, sales being almost as large as on the day before. Outside limits reached for December were \$2 1/2c and \$2 3/4c. Provisions advanced to new high records for the season. Eager buying on the part of foreigners and shorts led the way.

Northwestern Receipts Receipts of wheat at northwest points, with usual comparison, follow:

Chicago... Today... Week... Year... Minneapolis... Duluth... European Markets The Liverpool market closed today 1/2c to 1c higher on wheat, and 1/4c to 1/2c higher on corn. Berlin wheat closed 1/4c higher, Budapest 1/2c higher.

ST. LAWRENCE MARKET Receipts of farm produce were 400 bushels of grain and four loads of hay.

Wheat—Two hundred bushels sold at \$2.00. Oats—One hundred bushels sold at \$1.25. Hay—Four loads sold at \$15 to \$17.

Seeds—Wheat, No. 1, bushel, \$1.00 to \$1.10. Oats, No. 1, bushel, 70c to 80c. Corn, No. 1, bushel, 50c to 60c.

Vegetables—Potatoes, per bushel, \$3.00 to \$3.50. Apples, per bushel, 1.00 to 1.25. Cabbage, per bushel, 1.00 to 1.25.

Dairy Produce—Butter, farmers' dairy, \$1.50 to \$2.00. Cream, per gallon, 15c to 20c. Eggs, per dozen, 1.00 to 1.25.

Poultry, Retail—Turkeys, dressed, 10c to 12c. Chickens, dressed, 8c to 10c. Ducks, dressed, 6c to 8c.

Fresh Meats—Beef, forequarters, 10c to 12c. Pork, ham, 12c to 14c. Bacon, 10c to 12c.

Winnipeg Grain Market. The wheat market today was strong and decidedly active, with values higher on all accounts.

Local grain dealers' quotations are as follows: Ontario oats—New, 5c to 6c per bushel, outside, old, No. 2 white, 4c to 4 1/2c.

Manitoba oats—None offering; prices purely nominal. Ontario wheat—New, 9c to 9 1/2c, outside; old, No. 2 red, white or mixed, 8c to 8 1/2c.

Barley—No. 2, 6c to 6 1/2c; No. 3, 5c to 5 1/2c. Flax—No. 1, \$1.10; No. 2, \$1.00; No. 3, \$0.90.

CATTLE MARKET MORE ACTIVE

Heavy Steers and Good Butchers Were All Bought Up—Hogs Firmer

Receipts of live stock at the Union Yards were 71 cows—1012 cattle, 388 hogs, 1087 sheep and lambs and 106 calves. There was a little more activity on the cattle market, all the heavy steers and good butchers' cattle having been cleaned up, as well as most of the light eastern cattle.

Prices were steady for good to choice butchers and the light common cattle being being bought up at Tuesday's decline.

W. Howard bought for Swift & Co. of Chicago 100 steers for the London market at \$8 to \$9.15.

Choice butchers' steers and heifers sold at \$10.25 to \$11.50; common, \$4.50 to \$5.00; inferior, \$3.75 to \$4.25; bulls, \$3 to \$3.50; cows, \$2.50 to \$3.00.

Stocks and Feeders. Steers, 100 to 1200 lbs., \$5.00 to \$7.50; stockers, 200 to 400 lbs., \$4.25 to \$4.75; feeding bulls, 500 to 1200 lbs., at \$3.75 to \$4.25.

Milk and Springers. A moderate number of milkers and springers sold at \$10 to \$12 each.

Veal Calves. The market for veal calves was strong. Common, fourth season, calves sold at \$3.50 to \$4, and early calves ranged from \$7 to \$8 per cwt.

Sheep and Lambs. The sheep, lamb market was about 10c to 15c higher; lambs sold at \$5.00 for culls, and \$6 to \$6.15 and as high as \$6.25; light ewes, \$4 to \$4.50; heavy ewes and rams, \$3 to \$3.50.

Hogs. The market for hogs was firmer, at \$8.20 to \$8.75 for select, fed and watered, for the bulk, and \$8.40 f.o.b. cars at country points.

Representative Sales. Coughlin & Co. sold: 1000 lbs., at \$10.75; 1000 lbs., at \$11.00; 1000 lbs., at \$11.25; 1000 lbs., at \$11.50.

Charles Zeigman & Sons sold: 200 lambs at \$3.25 per cwt.; the top price, 50 lambs, \$3.50; 500 lbs., each, at \$5.25; 1000 lbs., each, at \$5.50; 2000 lbs., each, at \$5.75.

Winnipeg Grain Market. The wheat market today was strong and decidedly active, with values higher on all accounts.

Local grain dealers' quotations are as follows: Ontario oats—New, 5c to 6c per bushel, outside, old, No. 2 white, 4c to 4 1/2c.

Manitoba oats—None offering; prices purely nominal. Ontario wheat—New, 9c to 9 1/2c, outside; old, No. 2 red, white or mixed, 8c to 8 1/2c.

Barley—No. 2, 6c to 6 1/2c; No. 3, 5c to 5 1/2c. Flax—No. 1, \$1.10; No. 2, \$1.00; No. 3, \$0.90.

Charles Maybee, who has declared himself to be an aldermanic candidate for ward six this coming election, Mr. Maybee is a prominent and enterprising live stock dealer and butcher in that ward.

GOOD WEATHER IS REFLECTED IN MARKET

Mining Stocks Show Disposition to Sag—Swastika Leads the Decline—Hollinger Drops Back to \$14.00—Cobalt Easier.

The mining market today seemed to reflect the gloominess of the weather more than anything else, the action of prices proving a decided disappointment in view of the anticipations of a revive of the recent upturn. Speculators were plainly disappointed and the public demand showed no improvement over night, quotations were lowered practically through the whole list.

The most noticeable feature of the day's events was the fact that the leaders in the recent movement showed a good deal of resiliency at the lower prices, thus evidencing the fact that the public were good buyers on the decline.

In many instances it looked as if the day was a recapper in prospect, and only the continued offering of stocks kept values from regaining a portion of their loss. Net changes for the day were small in the majority of instances.

Hollinger was on offer all day at quotations some distance under the previous day's level, but a consideration of the sharp advance last week, the recession of 20 points which occurred did not look large. The shares fell down to \$14.40, and closed bid there.

Swastika Hit the Bumps. Weakness in Swastika was the most significant incident in the recapper of Porcupine. Heavy selling of these shares was under way from time to time during the session, and the result was a decline in further decline.

The market for the day was a couple of points at 3-4. There was no news to account for the down turn, outside of the fact that speculators who had bought at lower prices were taking their profits. The shares closed at 3-4 bid.

Declines of greater or less moment were shown in the general list, thus bearing out the weaker undertone. Crown Chartered sold below 6 cents for the first time in several days.

Porcupine was a further decline. Dome Extension dropped below 14 to a new low level for the current month, and some others of the recent active spot and lower prices were making their profits. The shares closed at 3-4 bid.

Cobalt Turn Quieter. The Cobalt list, while inclined to turn active at recurring intervals, did not show any material change in the market on the whole manifested no material changes for the day. The demand was not so active as it has been in the last couple of sessions, and offerings were easily absorbed, the fact that an easier disposition appeared in some of the lower priced shares.

The market on the whole did not give a very good account of itself, the optimistic traders found some ground for consolation in the general list, but resisted the selling pressure so well. It is felt that a turn for the better will be experienced within the next few days, but this opinion comes in expectation to bring about another sharp movement which will wipe out the recent reaction in short order.

Balkan War Clouds RULE WHEAT SITUATION Turkey May Close the Dardanelles—Broomhall on Supply and Demand Conditions.

Broomhall's weekly summary of the wheat situation, issued yesterday in Liverpool, is as follows: The market has ruled fevered during the week owing to the Balkan scare, but prices generally have shown but a slight advance since they came.

The market has ruled fevered during the week owing to the Balkan scare, but prices generally have shown but a slight advance since they came. India needs rain soon; Australia is shortly entering upon the critical period of the growing season.

The political situation has deterred buyers operating in Black Sea ports, therefore attention is being given mostly to American and Indian offerings, causing some hardening of these quotations. Offers are in no wise plentiful, excepting perhaps American wheat.

The European consumption continues on a very large scale and consumers are absorbing freely, consequently the continent is not providing for the necessary winter requirements, and actual stocks are dwindling and millers are only providing for current wants. Germany is in particular short of supplies for the winter, and this makes the situation bullish, as their crop will be very great, as well as Italy.

The political situation is unfavorable, but not generally regarded as serious. It foresees that the big powers favoring peace will ultimately effect a settlement, but there is a grave possibility of war, especially being cited by Turkey, and this would greatly curtail supplies.

HOLLINGER FACTS

We would like to draw the attention of our clients and others to these facts in connection with Hollinger. The capital of the company is \$3,000,000, and the stock is now selling at nearly three times its par value.

Porcupine and Cobalt Stocks Bought and Sold. We will be glad to furnish information regarding the different properties.

REACTION BENEFICIAL

A few days of easier prices will let out pure speculators in mining stocks and their positions will be taken by holders who have more of an investment view and who look for larger profits in the future.

COBALT PRODUCTION WILL MAKE NEW RECORD

But Only in Point of Value—Actual Output Not Up to Last Year. It is now evident that while the Cobalt mines will this year make more of their silver than in 1911 or ever before, the production of metal will be less.

The reduction in the production of the silver district of northern Ontario for the first six months of 1912 amounted to 978,556 ounces, or owing to the higher prices of silver \$252,490 more was received for it. It is very interesting to notice that after years in which the by-products of Cobalt's ores have been a drug on the market, there has been a little quietness in the market, and cobalt and cobalt oxides realized \$192,073 for the first six months of this year, or three times the amount obtained last year.

COBALT, cobalt and nickel oxides, \$54,824 lbs., value \$192,073. The selling of this was by the Erie Electric and Power Co. of Erie, Pa., who had a full two points a week ago. It was by Erie Electric and Power Co. of Erie, Pa., who had a full two points a week ago.

NEW MINING LAWS IN EFFECT IN ALASKA

Legislation to Prevent "Hogging" of Properties—Protection For the "Little Man." Under the new mining law, recently put into effect in Alaska, the location of association claims is no longer possible.

The present law permits the holding of the power of attorney from two individuals or one association only, and restricts the location of claims to not more than two placer mining claims for each individual or association in any one calendar month.

RECORD SHOWING OF UNCLE SAM'S CROPS

Government Report Issued Yesterday Shows Prospects to Be Highly Favorable. The crop report issued at Washington yesterday made wheat, corn and oats estimates considerably higher than a month ago, when the crops were promised.

The indicated spring wheat crop is now 3,392,331 bushels, as compared with 3,000,000 bushels a month ago. This makes a total wheat crop—spring and winter—of 7,203,331 bushels, which compares with a yield of 621,888,000 bushels last year.

The corn promise on Oct. 1 was for a crop of 2,016,000 bushels, as compared with 2,065,000 bushels a month ago, and a final harvest of 2,331,888 bushels last year. The record crop of 1906 was 2,277,400 bushels.

The indicated oats crop is 1,417,720 bushels, as against 1,200,000 bushels a month ago, and 222,720 bushels last year. The corn condition as of Oct. 1 was \$2.2, against \$2.1 a month ago, 70.4 a year ago, and a ten-year average of 80.4. The spring wheat yield per acre is 17.2 bushels, against 15.6 a month ago, and a final yield of 24 last year.

The report speaks for itself, and more confirms early predictions of bumper grain crops. The consensus of Chicago expert opinion is that the report will have a bearish influence on sentiment as affecting all classes of grain.

MARKET TRIUMPH

Influence of Clouds Reflected in Exchange—The General Sentiment in the Toronto yesterday was buoyant by changes and the decline in the Balkan war cloud. The local market was buoyant by adopting a wait-and-see attitude was shown in the market rather than the usual sudden lull.

REACTION BENEFICIAL

A few days of easier prices will let out pure speculators in mining stocks and their positions will be taken by holders who have more of an investment view and who look for larger profits in the future.
