## A HEADLINE OF REBELLION HEADED FROM THE COAST

**MacPherson, M.P., Declares That British Columbia is Aroused and Will Insist on Exclusion of the Hated Asiatics.**

MONTREAL, Sept. 9.—(Special.)—If the federal government does not step in and put a stop to the already humiliating state of affairs in British Columbia with regard to the present influx of Asiatics there is going to be another episode like the Boston tea-party," remarked Robert MacPherson, Liberal M.P. for Vancouver, who is here this evening. Mr. MacPherson has come east with William Gallinger, M.P. for Kootenay, to lay the whole matter before the premier. They expect to see Sir Wilfrid at Ottawa to-morrow.

"And," remarked the member for Vancouver, "something has got to be done, and done quickly to stop this thing. The people of British Columbia and the west are in a very ugly frame of mind just now, and if the warnings which have been given the government are not heeded very grave consequences may ensue."

**Apologize and Pay.**  
OTTAWA, Sept. 9.—The feeling in official circles in Ottawa is that Canada will have to apologize to Japan and pay for the damage done to Japanese property and for the personal injuries of Japanese in Vancouver. The outbreak is regarded as particularly unfortunate, as it took place at a time when the problem of limiting Japanese immigration to Canada had almost been solved.

Hon. R. W. Scott, secretary of state, said this morning that the treaty between Japan and Canada, as ratified by parliament at its last session, had specified that "the subjects of each of the two high contracting parties shall have full liberty to enter, travel, and reside in any part of the Dominion, and possessions of the other contracting party, and shall enjoy full and perfect protection for their persons and property."

Mr. Scott noted that the treaty had been adopted by the Canadian Parliament after full and free discussion. There was no protest from British Columbia or anywhere else against the treaty. "British Columbia," he said, "benefited now will benefit still further as time goes on, from the fostering of the trade between Canada and Japan."

**Consul is Regretful.**  
T. Nasse, consul-general for Japan, this morning called upon Sir Wilfrid and laid before him the reports he had received from Vancouver.

Asked if any demand had been made for reparation, Mr. Nasse said that he had received no communication clearly from the government, but he had no doubt but the good feeling of the Canadian Government would be trusted to make good what had been done with the formality of a demand by Japan.

**More Trouble Feared.**  
VANCOUVER, B. C., Sept. 9.—There were several arrests made today arising out of Saturday night's riots. The police force is being added to, as further outbreaks are feared with the arrival this week of several shiploads of orientals. These may, however, be landed at Victoria.

That K. Ishii, the Japanese envoy, who arrived in the city during the fiercest part of the rioting, and was by chance actually close to the storm-centre, regards the situation as arising from an international point of view as indicated by the numerous cables he has sent and received from Tokio, all in confidence.

Mayor Bethune has not yet apologized to him or the Jap consul for the affront, though each has declared they expect a prompt re-amenagement.

**Will Refuse to Compensate.**  
Mayor Bethune's emphatic declaration that under no circumstances would he submit to the proposition that the city pay the damages, now variously estimated at from fifty to one hundred thousand dollars, sustained by the shops and buildings of the Japs and Chinese wrecked, is accepted as a definite expression of his sentiment.

Some feeling has followed the developments since the Secretary A. E. Fowler of the Japanese Anti-Asiatic League from Seattle, who attended the meeting to protest against the orientals, at which the riots started, used interperate language in detailing to the excited crowd how the orientals at Bellingham had been treated.

Monday morning the wrecked quarters of the orientals presented a dreary aspect. The interiors of the shops were littered with costly china, silks, teas, and spices, worth thousands of dollars. Few of the Chinese had ventured back to their lairs, but the Japs had, and were here berterent and indignant, ready to fight, and not easily pacified.

**The Damage.**  
The damage done to the Japanese stores is as follows: General stores 13; hotels; 8; candy and confectionery shops; 7; bath houses; 2; barber shops; 5; shoemakers; 2; banking office; 1; newspaper office; 1; employment office; 1; restaurant; 1; rice mill; 1; hat-maker's shop; 1; tailor; 2; watchmaker; 1. Of these 10 stores all the window and door glass was smashed.

**Converted Firebug Says Original Sin Made Him Burn Boat-house.**  
William Alexander Booth Ross, 23 years of age, a baker, living at 78 Denison-avenue, set fire to P. C. Williams Young's boat-house on the bay front on the night of Sept. 8.

## PAPAL DECREE ON MARRIAGES

**Hereafter They Must Be Performed Within the Church.**

LONDON, Sept. 10.—If the long and in the main highly serious comment by most of the morning papers on the Vancouver incident and the news space devoted to it may be taken as criteria, the British public have at last awakened to the importance of the Asiatic question and the fact that it is one of the greatest issues confronting their most important colonies.

It is true that efforts are being made to picture the industry, patience and other good qualities of the Japanese, and to make much of the fact that such incidents of racial prejudice are rare under the British flag, that they have never before occurred in British Columbia, and that the trouble will be settled amicably on just lines. Some papers also endeavor to attribute it to the influence of the San Francisco labor union, the association with which the rioting is regarded, however, makes itself manifest.

The Telegraph, in an editorial, recalls and emphasizes the disgrace of the riot at San Francisco and Bellingham, Washington, but admits that "the same inflamed passions on both sides of the Canadian border, which ever spring from the same economic cause."

Attention is called to the determination of San Francisco, British Columbians, Australians, Cape Colonists and citizens of the Transvaal, to restrict Asiatic immigration, the paper significantly adding: "The sudden rise of Japan to the position of a first-rate power, fully capable of protecting its citizens and securing the respect due its flag, at last, once revealed to the world the gravity of a problem too long neglected."

The Express, like most of the other papers, is rather hesitant in attacking the subject, but says that the incident "brings into prominence one of the most important problems which the empire must face from this time forward."

It was the influx of American workmen into British Columbia that has had much to do with the agitation, is the belief of The Morning Post, which also holds the opinion that the "disorderly" and "disorderly" behavior of the Chinese and Japanese, which the San Francisco rowdies undoubtedly served as encouragement.

The Graphic says the anti-Asiatic rioting is a disagreeable symptom of the rapid growth of a problem which is likely to lead to the gravest consequences in the fields of both imperial and international politics, and trusts that steps will be taken in a large and practical spirit before the time for normal platitudes is past.

## CHINESE BUY WEAPONS TO DEFEND THEMSELVES

**Hundreds of Revolvers Sold— Workmen Huddle in Chinatown.**

VANCOUVER, Sept. 9.—(Special.)—All Chinese domestics and mill workmen in Vancouver quit this morning and announced their intention of staying in Chinatown until the riot trouble is over. Chinese boys who sleep in their employers' homes were notified that they must leave immediately or they would be killed. Many instances of this threat being made are given.

When the hardware stores were opened the sidewalks and crowded the stores immediately. Hundreds of revolvers were sold within a few minutes, and the Chinese carried them by armfuls to Chinatown.

An hour later the police notified the stores to stop selling guns until the trouble was over.

**Brings Empire to Quarrel.**  
WINNIPEG, Man., Sept. 9.—(Special.)—Hamar Greenwood, M.P., addressed the Canadian Club to-day. He dwelt at considerable length on the Vancouver situation.

"I read with regret in the morning papers of an outbreak on Japanese in Vancouver. Personally, I am in favor of the supremacy of the white races in North America, but when a white workman knocks down a Japanese immigrant in the streets of Vancouver, he is starting a quarrel between two empires. Already, I have no doubt, the Japanese ambassador is expressing the indignation of his people in hot terms in the foreign office in London, and it must never be forgotten that no race in the history of the world is more keen to fight or more delighted to die than the despotic militant Jap."

## DIPHTHERIA ANTI-TOXINE.

**Discovery of a Quick Cure Reported from Ohio.**  
COLUMBUS, Ohio, Sept. 9.—Announcement of the discovery of anti-toxine that will kill diphtheria germs in the living human organism within three minutes has been made at the Ohio State Hospital.

## PRESS OF LONDON SERIOUS IN COMMENT

**A Grave Problem Too Long Neglected, but Which Must Be Faced.**

LONDON, Sept. 10.—If the long and in the main highly serious comment by most of the morning papers on the Vancouver incident and the news space devoted to it may be taken as criteria, the British public have at last awakened to the importance of the Asiatic question and the fact that it is one of the greatest issues confronting their most important colonies.

## MOROCCO RESPONSIBLE FOR MASSACRE OF JULY 30

**France Will Hold Her for Damages, to Be Fixed by International Commission.**

PARIS, Sept. 9.—A special meeting of the cabinet was held to-day to consider the Moroccan situation. These conclusions were reached:

(1) The Moroccan Government should be held responsible for the massacre of July 30 at Casablanca, as well as for the damages suffered as a result of the pillage or the destruction of property.

(2) The indemnities should be fixed by an international commission. Incidentally this is France's answer to the demands of the German exporters at Casablanca, that France compensate them for the losses they sustained during the bombardment.

The conclusion arrived at is based on the precedent established after the bombardment of Alexandria by the British fleet in 1882.

The cabinet requested Foreign Minister Pichon to examine the general question of Morocco, and to prepare a note on the subject to be issued as soon as possible.

## JUSTICE HOWELL ILL.

**Suddenly Stricken in Carriage While on Way Home.**  
WINNIPEG, Man., Sept. 9.—(Special.)—Chief Justice Howell was suddenly stricken by illness this morning while driving from the C.P.R. depot to his home. He is in a serious condition.

Mr. Howell has been ordered perfect quiet, and complete freedom from business cares for an extended period. At the time of his seizure the chief justice was returning in his carriage to his home after having met his niece, Mrs. Clara Fitzgibbon, at the depot.

## An Odd Jewish Ceremony in Celebrating the New Year

Special services yesterday marked the observance of the Jewish New Year's Day, the birth of A. M. 5686. In the afternoon many of the Jewish population, male and female, repaired to the water front, where certain ceremonies peculiar to the Jewish rite of Rosh Hashnue were performed. West of the Lake Line's pier, on the new embankment, gathered large throngs and between the ferry wharf and Somerville's pier a considerable number of devout Jews also gathered to observe the ancient rites of their fathers.

The ceremonies are based on that passage of the Psalms which speaks of the sins of God's people being cast into the depths of the sea, and consist of chants and prayers, which are accompanied by movements of the garments to typify the casting off of unrighteousness, the emptying of pockets being symbolic of the removal of sin from the heart.

The groups of worshippers were most picturesque as they grouped themselves along the piers and embankments. There were scores of little children who mingled with the older people and joined their shrill voices in the wailing notes of the chant of lamentations and confession.

Unmoved by the throngs of curious spectators who gathered on the bridge and along the sidewalk, the worshippers continued their devotions with that seriousness and decorum that marks all Jewish religious services.

Mr. Borden spoke at both meetings, developing more fully than at Chatham his views on public ownership. He made it plain that he regarded as a practical and pressing question the nationalization of telegraphs and tele-phones.

"I am accused by some timid friends of being too radical," said Mr. Borden. "They do not appear to understand that the nationalization of telegraphs has already so far proceeded that we have no less than 7000 miles of telegraph, owned and operated by the government. These lines have been built and are being operated in Cape Breton, in the Yukon, along the St. Lawrence, and wherever private companies have failed or refused to serve the people."

"Why is it that the government operates in the lean territory at a loss and surrenders all the profitable territory to private corporations? Is that good sense or fair play?"

"As to the telephone business," Mr. Borden continued, "it seems too plain for argument that by its very nature it must be a monopoly. The more you think about it, the more it becomes apparent that the telegraph and telephone services should be a part of the postal system of Canada, and they are a part of the postal system of Great Britain."

Mr. Borden also spoke strongly in favor of free rural mail delivery. He quoted from the reports of the postal authorities of the United States and told of his personal observations as to how the system worked in the United States, in regions far less wealthy and populous than any portion of old Ontario.

**Give Farmer His Due.**  
The farmers had been loyal and patient. They had submitted to onerous taxation in order to protect the manufacturer, to encourage the farmer, to benefit other classes. Was it not high time for the government to do something towards making the farmer's life more comfortable and more profitable than the rural mail delivery would soon become self-sustaining.

Referring again to electoral corruption in his inclusion of the names of the candidates in West Elgin, St. James and Brockville—Mr. Borden said: "I do not charge that Bergeron spoke from the rank and file of the Liberal party, but I do say that Sir Wilfrid Laurier and his government are responsible for them. I say that many of the most atrocious crimes against the ballot could not, and would not, have been committed except for a well-defined understanding, tantamount to a positive pledge, that the sounder who committed them would be protected, taken care of, and rewarded by the federal government."

Bergon and Sproule. J. H. G. Bergeron, the witty and eloquent member for Beauharnois, captured the people. He is a spell-binding orator, and his wit and his quaint sayings and droll stories kept the audience in good humor. Indeed, the impression that he made this afternoon was a factor in bringing out the enormous audience to-night.

"There will be headlines in the Quebec papers to-morrow a foot high announcing that a factor in bringing out the same platform as Dr. Sproule," said Mr. Bergeron. "I want to say that there is no man in Canada more honest, more patriotic and more highly respected by all who know him, than my good friend, Dr. Sproule. True, he is an Orangeman, and the French Grits will try to make capital out of the fact, and yet, gentlemen, the Orangemen in the Province of Quebec are really all of them supporters of Sir Wilfrid Laurier. I hope that in justice to himself and in justice to the Orange order Dr. Sproule will visit our province and meet the Quebec people, and I will go with him."

Bourassa's Part. Continuing, Mr. Bergeron said that the people of Quebec were honest, and as soon as they realized that the Laurier government was dishonest, they would oust it from power just as in 1882 they had overthrown Honore.

**NOTE THE IMPROVEMENT.**  
The reason so many of your friends are looking a little bit different when you meet them just now is because they have discarded the straw hat and are wearing the new fall felt. Dineen's can account considerably for the change inasmuch as there is an unprecedented demand for the men's new headwear styles at the bright and big store, Yonge and Temperance streets, where there is guaranteed fashion and quality at reasonable price. Mr. Dineen is in New York now arranging for repeat shipments of the popular American shapes.

## HEALTH OFFICERS HOTLY CONDEMN CONDITIONS OF CANNING FACTORIES

Employees of Foreign Birth Said to Live and Work Under Repulsive Conditions—Strict Regulation Recommended.

The great necessity existing for some change in the system of factory inspection is strongly urged in Part 3 and 4 of the twenty-ninth annual report of the provincial board of health, just issued, particularly in view of several recent instances which emphasize this necessity, chiefly in the housing of employees in canning factories, and the use in them of over-ripe, or rotten, fruit.

The report of Dr. Bell, medical inspector in the Niagara district, with Mr. Holmes of the factory inspector's staff, disclosed such a disgusting condition of affairs in the canning factories that Dr. Hodgetts, chief health officer of the province, felt compelled to visit these places.

During the canning season, the canning companies provide accommodation for their help, who are for the most part obtained in the Niagara district, from Buffalo, from among the natives of Central Europe, whose habits are far from sanitary.

For their housing, long shacks, some two stories in height, are provided, and the better ones are divided into compartments with sleeping accommodations.

"The bedding," continues Dr. Hodgetts, "was so filthy that it had to be cleaned, and judging by the way in which the mattresses were left in those factories, it is difficult to see how they could be cleaned for the season no attempt is made to clean even those. It has been my duty to inspect stables for thoroughbred horses, and I am free to confess I have there found better exercised in the keeping of some of these stables than I found to exist in most of the canning factories."

Incidentally this is France's answer to the demands of the German exporters at Casablanca, that France compensate them for the losses they sustained during the bombardment.

The conclusion arrived at is based on the precedent established after the bombardment of Alexandria by the British fleet in 1882.

## LET CANADA OWN TELEGRAPHS THAT PAY

**Government Maintains 7000 Miles of Difficult Service Now, Borden Argues.**

OWEN SOUND, Sept. 9.—(Special.)—To-night the great curling rink at Owen Sound was packed and crowded by more than 2000 people. When R. L. Borden rose to speak many of the audience stood up, and the cheering lasted for some minutes. His speech, and, indeed all the speeches, were listened to with close attention.

There was a smaller crowd at the afternoon meeting, perhaps 300 people being present. The train was more than an hour late, but the speakers drove at once to the place of meeting. The streets were gayly decorated and to some extent the reception was of a non-partisan character. Indeed, a civic address was presented to Mr. Borden by Mayor Kennedy, in behalf of the corporation.

Mr. Borden spoke at both meetings, developing more fully than at Chatham his views on public ownership. He made it plain that he regarded as a practical and pressing question the nationalization of telegraphs and tele-phones.

JIM HILL'S CONTROL

Said to Have Added to His Crow's Nest Holdings.

R. M. Young, assistant secretary of the Crow's Nest Pass Coal Co., discloses a Vancouver report that J. J. Hill has secured a controlling interest in the company.

The report says that Hill's increased holdings in stock were secured from Toronto shareholders at a cost of nearly two million dollars.

Hill's first move, according to the report here, has been to disperse with the services of Manager G. G. S. Lindsey, the reason assigned being that Lindsey was unfriendly to organized labor.

J. J. Hill has been known for years to have been heavily interested in the company, and rumors of his having secured control have been periodically circulated.

While it has been understood that Mr. Hill did not actually own over half of the stock in the Crow's Nest Pass Coal Company, it has been generally accepted as a fact that he virtually controlled the company's policy.

There have been practically no sales of the Crow's Nest Pass Coal stock on the Stock Exchange for the past two years.

Vote of Sympathy.

The district council of the Journeymen Painters and Decorators' Union at their meeting last night at the Labor Temple passed a vote of sympathy and condolence to the relatives of W. W. Townley, who was killed on the G.T.R. on Saturday last.

SAULT STE. MARIE, Sept. 9.—(Special.)—Caught by a rapidly revolving shaft while at work in the sawmill of the Lake Superior Corporation, on the Canadian side of the river, this morning about 10 o'clock Tony Gazella, an Italian, was whirled to almost instant death.

HAMILTON HAPPENINGS

MAN FALLS FROM CAR DIES IN AMBULANCE

Samuel Joyce the Victim—Detective-Juror Creates Sensation at Inquest.

HAMILTON, Sept. 9.—(Special.)—John Dowd, 7 West Pictou-street, was arrested this morning on suspicion of having been one of the gang which assaulted Constable May at Browne's Wharf on Sunday afternoon. A charge of vagrancy was registered, and he was remanded until Thursday for trial.

Fatal Accident.

Samuel Joyce of Bronte was fatally injured by being thrown from a radial car near the Brant House, Burlington. He died in the ambulance while on his way to the city hospital. It is said that he was under the influence of liquor. He was a passenger on the 5:10 car leaving Burlington for this city, and when the car, which was an open one, struck the curve in front of the Hotel Brant, he fell out on the roadway. His face was badly smashed and he is thought to have sustained a concussion of the brain. An inquest will be held.

Sensations at Inquest.

There was an exciting time at the inquest to-night on the unknown baby which was found in a shed in the rear of 352 North James-street about two weeks ago, and which died a few days ago. A man named Huckle, who says he is a private detective, and who was a member of the jury, asked for Chief Smith and Constable Springer called as well as several other witnesses, and he put them thru a volley of questions which proved interesting.

To Quarantine House.

The board of health held a meeting to-night with reference to the isolation of Miss Hutchinson, the young girl who is suffering from an attack of small-pox at the hospital. It was decided to quarantine the house and all the people in it instead of fitting up the isolation hospital in the west end of the city, which had been out-of-use for some time.

Goes Down.

William Blood was sentenced to 18 months in the Central Prison by Magistrate Jelfs, after juvenile court proceedings, for forging the name of T. P. Best, secretary of the M. C. C. A., to a letter of recommendation which he wrote himself. Blood had been in the night with reference to the charge of obtaining money from a number of English emigrants under false pretences, but this case was taken up by the regular court. Blood pleaded guilty and blames his conduct to drink.

Boys Found Guilty.

Timothy Murphy, Joseph Milligan and Ross Moore, boys who live in the north end of the city, were tried and found guilty at the police court to-day on the charge of stealing from \$500 and \$600 worth of brass from the Sawyer, Massey Company. They were remanded until Tuesday for sentence.

Ontario Railway and Municipal Board.

Col. J. M. Gibson and Capt. Skedden.

Col. J. M. Gibson and Capt. Skedden of the 91st Regiment were in the wreck on the C.P.R. at Smith's Falls on Sunday morning. The Imperial Cotton Co. has presented a set of chimes worth \$8000 to the Anglican Church at Yarmouth, N.S., his home town.

Shameful Betrayal.

LONDON, Sept. 9.—The Morning Post declares that the Newfoundland modus vivendi is a shameful betrayal of British honor and imperial interests, and asks if it does not aggravate the most objectionable features of the 1906 agreement.

Council Meets.

There was so much hot air at the city council meeting to-night that it was impossible to dispose of all the business and an adjournment had to be made until to-morrow night. A number of important bylaws were laid over. The bylaw to go back to the ward system of voting evoked considerable discussion, and it may be defeated to-morrow night. The recommendation of the finance committee, that the new Southam Home be dealt with to-morrow night. The city solicitor was instructed to ask the Dominion Railway Commission to compel the Grand Trunk to abate the smoke nuisance on Ferguson-avenue. A joint committee of the board of works and the fuel committee will look into the charges against John Henry.

VACANCIES UNFILLED.

Nothing has yet been done in the matter of the vacant seat for Brockville in the provincial legislature—vacant owing to Mr. Graham's resignation—and the position of official referee and arbitrator for Toronto, vacant thru the death of Mr. J. A. Proctor, will in all likelihood not be filled for some little time.

### THIRD OF U.S. CHILDREN HAVE PHYSICAL DEFECTS

Estimated That 12,000,000 Scholars Are Behind Proper Grades Thru Ill-Nourishment.

NEW YORK, Sept. 9.—The re-opening of the public schools throughout the country is to be the occasion of a report on the physical condition of school children by a committee of prominent educators, headed by Chairman Burleigh, former president of the New York Board of Education.

The report shows that about one-third of all the school children in the United States are behind proper grades because of physical defects that could be remedied. A synopsis of the report says, in part:

**12,000,000 Defective.**  
Based on the physical defects and home conditions of 1400 school children of New York City, it is estimated that 12,000,000 of the children in the United States have physical defects more or less which should receive attention from parents and physicians.

If the percentage recorded by the board of health should be maintained throughout the country (and it seems likely that it would be) and the defects of vision, mal-nutrition and defective breathing being found in rural as well as in urban schools, there must be 1,400,000 children in the United States with defective breathing in the United States.

In New York City, the estimated figures are: Mal-nutrition, 48,000; defective breathing, 187,000; and defective vision, 230,000.

The large percentage of the defects indicate that they are easily remedied, and many could be prevented by proper care, but, except in the case of defective vision, the causes are not always easily determined.

A comprehensive plan for dealing with the physical defects of school children is outlined in the report, including a thorough examination of all children. Notification to parents, the enforcement of existing laws and the securing of proper authority, where this is lacking, to compel parents, who refuse to take necessary steps, enforcement of school hygiene, whose duties include child labor laws; the establishment, in connection with the boards of education, of school hygiene, whose duties include to see that school buildings are so constructed and so conducted that they cannot themselves produce or aggravate physical defects; and the school's curriculum should be so devised and executed as neither to produce nor aggravate them; to study the effect of school environment—curriculum building, home study, physical training—upon the child; and to teach hygiene, so that the children will, themselves, cultivate habits of health and see clearly the relation of health and vitality to present happiness and future efficiency.

### STOP YELLOW MEN NOW MAY BE DIFFICULT LATER

Bristol Visitor to Pacific Coast Says Ingress Will Be Stopped at Expense of Peace.

William Redwood, representative of The Western Daily Press of Bristol, Eng., who was one of the British newspapermen who visited Canada recently, refers to the Asiatic question in a letter to his paper. He says:

During our visits to Vancouver and Victoria, one feature which was brought prominently before our attention was the employment of Asiatic labor. This extends to nearly the whole of the industries and to the hotels and a large proportion of the private residences. The explanation given is that white labor is not available, and that the introduction of Chinese, Japanese, and, in some cases, Hindu labor, has become essential to the development of the resources of the district.

Notwithstanding the \$500 head tax, there is a steady influx of Chinese into British Columbia, and it is alleged that the restrictions imposed upon the introduction of Japanese have not been observed. It is stated that there are 7000 Chinese in Vancouver and about an equal number of Chinese; and that in Victoria, the proportion of Asiatics to white labor is upon the same. The cry has been raised that the introduction of the Asiatics will mean a diminution in the number of whites ready there, and the latter cannot compete with the foreigners in cheapness of labor.

This, perhaps, an extreme view of the situation, but it was given expression to at a public meeting held in Vancouver a few nights ago. The labor unions were taking part in the agitation against Asiatics and an impetus appears to have been given to the movement by the parade of 7000 Japanese in Vancouver on the occasion of Prince Fushimi's visit. This demonstration revealed the extent to which Asiatic labor is employed in the district.

It is only fair to say that public opinion is not all on one side and that there are many British Columbians who do not share in these views. It is of interest to mention that at the Vancouver meeting referred to a resolution was passed, to the effect that the government of British Columbia and the Dominion of Canada the necessity of immediately prohibiting the immigration of Asiatics to Canada.

The reasons enumerated in the resolution include the following: "British Columbia is the western gateway of the Dominion. If it is ever attacked on that coast its defenders must be its own people. If the masses are an alien race, with foreign sympathies, it needs no argument to show how easily a foreign nation could obtain a foothold here, and the latter would be difficult to dislodge. We cannot conceive that the nations affected by an act of exclusion could object to the measures, if they were taken by similar conditions, they would readily adopt similar measures against us."

The question to-day is of easy solution. In time, where these men are not only laborers, but merchants and manufacturers, their interests in the country, their ingress can only be prevented at the expense of the peaceful relations now existing between this country and Japan.

**CLOVER SEED OUTLOOK.**  
The Steele, Briggs Co. say that the outlook for red clover seed in Ontario this year is that the crop will yield well. Although there is not a very great acreage, what there is will yield well. The outlook for the average yield will double that of last year.

**Ashore in Fog.**  
SAN FRANCISCO, Sept. 9.—(Special.)—The steamer San Gabriel, from San Pedro de Los Baños, in ballast, was observed today near Point Reyes, during a heavy fog, and probably will be a total loss.

**BROCKVILLE, Sept. 9.—(Special.)—**The Canadian Northern Railway is considering the building of a main line between Brockville and Ottawa, and the advisability of making Merrickville a junction point of the Brockville branch with the main line running into Ottawa. This would mean a shorter railway line between Brockville and Ottawa by eighteen miles or more, as compared with the C.P.R. lines between the same points. The proposed new railway would tap one of the most fertile districts in Ontario.

### LET THE GOVERNMENT BUY OWN PINE FROM FORESTS

Harvesting of Crop is Natural Duty of Public Ownership, Says Ottawa Citizen.

The Ottawa Citizen, a supporter of the Ontario Government, makes a strong argument in favor of the government harvesting the pine crop of the province, instead of selling the right to cut timber men. The Citizen says:

The Whitney government has sold the right to cut pine on Franklin Island, in the Georgian Bay, at a record price. This is well enough in its way, but no great brag coming after a government which sold the people's pine at record low prices, inclusive of the auctioneer's rake-off.

The Citizen would like to see would be the Ontario Government cutting its own pine and selling the sawlogs to the sawmills, and the pulpwood to the pulp and paper manufacturer as raw material. The government is operating a railroad over which it could earn money by transporting the sawlogs; and it is also engaging in mining, and the selling of mineral properties. We, the people of Ontario, might as well be making some money out of our pine lands also.

The harvesting of the pine crop is a natural duty of public ownership, and would not interfere with any established industry. A small army of men who now go up into the woods to the lumber camps would go up there as government employees instead of to work for the men who buy the lumber berths. Another strong factor in connection with the harvesting of the pine is that the government would be in a position to conserve the forests by a systematic method of selection and reforestation. Under the present methods of the lumbermen nearly as much timber is wasted as is cut. The whole object of the lessee is to cut as much timber as possible, and to leave the stump case of after him the deluge or brule.

On the contrary, if the government had charge of the pine harvest the districts in which logging was to be done each year would be carefully selected, and only such timber would be used as had good and ready growing stock, so that no one berth would be entirely denuded. Only the selected timber would be taken. A much larger area might, if necessary, be cut over, because the yield would be the same, but a new crop would be ready every few years as the medium stock developed into good-sized timber. In this way the province would be both earning and saving money, making money by selling its harvested pine, and also saving the harvesting waste and destruction of its forests. In addition to that the government would be in a position to prevent lumbering companies, because it would know exactly what the raw material was worth when delivered for manufacture. The transportation of logs, by water, to the mill should also, naturally, be a government monopoly, as it controls the streams, and also in the case of the T. & N. O. Railway, which runs through the immense tract of timber-bearing country, the logs could be carried as an addition to its freight-business.

**TREATMENT OF NEUTRALS.**  
Articles Objected to by Germany Suppressed by The Hague.

THE HAGUE, Sept. 9.—All the articles concerning the treatment of the subjects of neutral powers in the territory of belligerents, to which Germany objected at the plenary conference last Saturday, were suppressed by the committee on land war, after a long and interesting discussion.

The delegate of the Grand Duchy of Luxembourg, which according to the treaty of London of 1867 is neutral territory, introduced a motion, which was unanimously adopted, that the powers urge their subjects when they are in the territory of belligerents to respect the laws regarding the observance of neutrality.

**Western Farmers Want Men for Late Harvest—C.P.R. Will Run Extra Excursion.**  
Although several thousand men have gone west on earlier excursions the demand for harvest help still considerably exceeds the supply, latest advices from Winnipeg stating the farmers everywhere are short-handed. The C.P.R. has arranged to run a special excursion, which has been arranged to run an extra farm laborers' excursion to Winnipeg, leaving all Ontario stations, east and west, Tuesday, Sept. 17. Same excursion will apply as on the exhibition, which was obtained from full particulars can be obtained from C.P.R. agents and from C. B. Foster, district passenger agent, Toronto. ed

**Dismissed Assault Case.**  
Mrs. Mary Jones, employed as a waiter at the Nasmith lunch counter, at the ballroom, showed Albert Baker, another waiter, Baker had her up for assault, but as the prosecution was strong, Magistrate Kingsford dismissed the case in the afternoon police court yesterday.

**Bishop of Chichester Dead.**  
LONDON, Sept. 9.—The Bishop of Chichester, the Right Rev. Ernest Roland Wilberforce, D.D., died today at Bembridge, Isle of Wight. He was born in 1840, and was a son of the late Right Rev. Samuel Wilberforce, Bishop of Winchester.

FALL PLOWING.
In spite of the dry weather, much fall plowing is being done throughout Ontario.

As soon as the crop of grain is off, the stubble should be lightly skimmed over with a gang plow.

There are three great avenues open to the successful farmer, for the obtaining of knowledge. Firstly, and the best, is experience.

As is reiterated in many places, farming requires all the abilities of the student of today.

Steam Plowing in Ontario

Is There Likely to Be a Demand for Bigger Farms and Steam, or Small Farms and Intensive Garden Culture? Both Extremes Likely.

The proposal of two or three big farms near Toronto to operate a gang of plows by steam power, opens up the wide question of Ontario's future agriculture.

Many persons are saying that Ontario's future is along the market garden line.

Against this there is the great area of cultivation possible in Ontario. Many men are gifted with the executive ability to control big things.

The big farmer next turns to steam traction. The big farmer means to steam faster than horseflesh and labor.

Wheat—Sept. 90 95 85 85.

Dec. 90 95 85 85.

Chicago Wholesaler. The prices quoted below are for first-class quality; lower grades are bought at correspondingly lower quotations.

Hay, car lots, ton, bales \$14.00 to \$15.00.

Evaporated apples, lb. 0.08 to 0.10.

Butter, tubs, per doz. 0.15 to 0.20.

Wool, washed, per lb. 0.22 to 0.23.

Reflects, per doz. 0.15 to 0.20.

Lambskins, per doz. 0.40 to 0.50.

one time showing 2 cents lower. Weather was favorable for thrashing and there was talk of a more liberal movement in grain. Prospects for the movement of the elevator largely caused scattered lots to sell.

With increased capacity in making grain for delivery will not be so difficult. Cash trade was only moderate, prices ruling lower.

### JUNCTION COUNCIL ARE AFTER ENGINEER

School Trustees Are Busy Finding  
Rooms—East Toronto Council  
Are Cautious.

TORONTO, Junction, Sept. 9.—  
Three men, Frank Handy, Edward  
Handy and Richard Rodgers, were  
arrested to-night at Bartlett-avenue,  
Dovercourt, by County Constable Tomlinson and Police Constable Gooderham. The men were charged with  
theft and assault. They were shortly  
afterwards released on bail.

A little boy about three years old  
was found wandering alone on Annet-  
street to-night and was taken to the  
home of Chief of Police Flintoff on  
Pacific-avenue, where he will be kept  
till claimed by parents.

Tenders for the printing of the vot-  
ers' list were awarded to-day. There  
are 4000 names on this year's list, an  
increase of 700 over last year.

There have been so many accidents  
on the railways lately that many young  
men in the Junction who are railway  
employes complain that they are al-  
most afraid to go on duty, not know-  
ing what will befall them before they  
return home.

The management committee of the  
school board met to-night. The adver-  
tisements for a teacher to succeed Chas.  
L. Barnes, resigned, have so far been  
unsuccessful, so the committee decid-  
ed to advertise again.

Arrangements were made for the  
purchase of fifty new desks for the  
collegiate institute.

Supervisor Wilson stated that the  
schools were greatly overcrowded and  
was at a loss to know how to provide  
accommodation for all the pupils.

There was already a registration of  
127 in St. Clair-avenue school—a re-  
cord number.

Some of the trustees favored the idea  
of building additions to the schools,  
but Chairman Dr. Hackett stated that  
they had not enough money to build  
even a chicken coop. So the proposal  
was dropped.

Supervisor Wilson said that while  
only 50 pupils are supposed to be in  
one room under one teacher, in some  
cases at present there were 75 pupils  
in one room. A suggestion was made  
to fit up the basements of some of the  
schools for kindergarten pupils, but  
Trustee Wright objected on the ground  
that the basements are too poorly ven-  
tilated.

A discussion was entered into about  
the adaptability of "portable schools."

which runs 30 bushels to the acre, and  
his oats will run over 100 bushels per  
acre. After considerable traveling he  
stated wheat and oats never were bet-  
ter, with the exception of Southern  
Manitoba, than this year. The swing  
of property is in the air," was his  
parting salute.

The Deer Park Public School, since  
opening, is far beyond, especially  
the primary room. The trustees are  
forced to make provision for increased  
accommodation. Thirty-five new pupils  
have been enrolled since the opening of  
a week ago.

"North Toronto, Described and Illus-  
trated" will be the title of three pages  
in the illustrative section of Wed-  
nesday's World. Everybody in North To-  
ronto wants one or more copies as a  
souvenir to send to his friends. Leave  
your order before Wednesday night to  
M. Letache, Sherwood-avenue, and thus  
secure prompt delivery.

For some time County Constable  
Tomlinson was looking for a man who,  
it is alleged, has been stealing copper  
wire from the Metropolitan Railway. On  
Saturday the officer arrested the  
suspected party in a restaurant on  
York-street. The prisoner, William  
Sibley, was remanded for a week to-  
day by Police Magistrate Ellis.

County Constables Tomlinson and  
Wainwright went after apple thieves to  
the second concession of East York yester-  
day. While on their errand the constables  
came across rifle-shooters. Rifles,  
birds and names were taken by the con-  
stables, and the offenders will tell the  
story of their Sunday's recreation to the  
magistrate.

Mr. Maher is building a store on  
Yonge-street, just south of St. Clair-  
street. Excavation work was started to-  
day.

St. Clement's Day School re-opened  
yesterday morning with a large attend-  
ance.

Rev. W. Wellwood of the Eglinton  
Methodist Church left to-day on a  
three-day holiday to Carleton Place  
and Ottawa.

At a meeting of the board of work-  
ingmen, Samuel Lawrence completed  
arrangements for a large hall on  
Rochampton-avenue, causing the  
water to run into his cellar. Relief was  
promptly given.

Tuesday, Sept. 10.  
Just 150 Sample Suits for Men  
Coming Season's Best Styles and Cloths

The moment you see these suits, you'll wonder how they're made to sell at this price.  
Well here's the secret.  
They were NOT made to sell at this price.  
They WERE made to sell at about double this price, and they WILL sell at double  
this price all through Canada this season. But these are the SAMPLES that sold the suits,  
these are the representative lines—bound to be exactly as represented, or they would have  
been N.G. as samples.  
Now there are only 150 of them, so they must be extraordinarily good value to justify  
the space devoted to them here. Well, come and see; there should be two men waiting at  
eight o'clock on Wednesday morning, for every suit we have to sell.

150 Sample Suits, an assorted lot, consisting of fancy worsteds, in  
plain and smooth, also unfinished surfaces, this season's newest weaves  
and designs; also a variety of English and Scotch tweeds, the fashionable  
brown shades predominating, all are well tailored and perfect fitting,  
sizes 36 to 42 only, which were made to retail from \$10.00 to \$15.00.

Attacks on Japanese No Surprise  
to London, Who Have Long  
Feared Outbreak.

LONDON, Sept. 9.—The news of the  
attacks on the Japanese and Chinese  
at Vancouver did not surprise the colo-  
nial and foreign office officials here,  
who had long feared an outbreak  
against the Asiatics in Western Can-  
ada, but they have the greatest confi-  
dence in the ability of the Canadians  
to suppress any disturbances and pro-  
tect aliens.

At the same time, the officials realize  
that a most serious problem has arisen  
particularly as the feeling appears to  
be strongest against the subjects of  
Great Britain's ally, and that it re-  
quires the most careful handling, for  
whatever action is taken is likely to be  
resented either by the colony or by  
Japan.

The question has been under considera-  
tion for some time by the imperial  
authorities, who have used their good  
offices on numerous occasions to pre-  
vent the outbreak of anti-Japanese  
legislation by British Columbia. It is  
understood that the matter was dis-  
cussed at length during the recent visit  
of the colonial premiers to London,  
Australia being a most opposed to  
the admission of Asiatics as are the  
Canadians. No steps were taken at the  
time, however, and the subject was  
allowed to lapse until the agitators  
were revived.

"We Would  
Like to Make  
Your Clothes"

Quality with us in the woolens  
we sell starts with the un-  
shorn sheep.

And many a time in our sixty  
odd visits to the old world  
mills have we followed the  
processes of the spinning and  
weaving, the fulling and fin-  
ishing, until the finished piece  
was ready for shipment to us  
for your wear.

We know quality and ex-

NEWMARKET.  
Horse Stumbles and Breaks Neck—  
Old Kirk Was Torn Down.

NEWMARKET, Sept. 9.—A special  
meeting of the W. C. T. U. will be  
held at the home of Mrs. C. M. Hughes,  
the president, on Tuesday evening, at 7.30.  
The Women's Institute held a well-  
attended meeting at Mrs. Gorham's on  
Saturday afternoon.

A horse belonging to Mr. Sommer-  
ville, the liveryman, fell the other day  
in coming down the hill and broke its  
neck.

Major Allan has improved his resi-  
dence on Church-street by putting  
down a cement sidewalk.

MANHOOD—WOMANHOOD  
THE TURNING POINT OF HEALTH!  
Growth, hard study and the tax of  
social life, entered upon with the zest  
of youth, is a severe tax on strength.  
If strength is not guarded it may  
lay a train of evils that retard suc-  
cess, and the restorer is poor health.  
Your son and daughter need some-  
thing to tide them over the first great  
tax on vitality. Give them a fighting  
chance and insure them a period of  
perfect health.

Of what use is education if you have  
not health and vigor? Much cherish-  
ed plans in the future?  
Ferrozone will bestow that priceless  
blessing—health—on every weak, im-  
proving boy or girl.  
Two reasons why young people bless  
Ferrozone: First, it is easily taken,  
secondly, it acts so promptly and with  
such certainty that the falling powers  
of the body are restored, the blood is  
renewed and the color is restored.  
How delightful it is to feel strength  
and hopefulness coming back, after  
months on the verge of physical  
collapse.  
Take Ferrozone, give it to your  
friends and watch the magical results.  
Ferrozone takes away that tired feel-  
ing and gives you a feeling of repose  
and strength.  
Ferrozone is a marvelous tonic—the  
best medicine in the world for those in  
weak or failing health. Do as thou  
sands before you have done, use it and  
get well. Sold everywhere in 50c  
boxes.
