INTEREST IS INTENSE.

Grand Jury Says "True Bill" to Both Indictments

IN BANK ROBBERY CASE.

Evidence Against Ponton and Mackie Will Be Begun This Morning.

The Napanee Police Are Keeping a Sharp Lookout for Jury-Fixers—Extra Precautions Taken—It is Now Said That Holden Will Give Crown Evidence and Take His Chances—Pointers Picked Up at the Court.

Napanee, Ont., Nov. 22.—(Special.)—The bank burglary case was reached this afternoon, but was not touched. To-morrow morning the selection of a jury will take place and will occupy the whole forenoon. Interest is intense.

The sheriff has taken pains to see that the law regarding tampering with a jury is known. All over the court are posted bills that state "Everyone is guilty of an indictable offence and liable to two years' imprisonment who influences or attempts to influence, by threats or bribes or other corrupt means, any jurymen in his conduct as such, whether such person has been sworn as a jurymen or not, or accepts any such bribe or other corrupt consideration to abstain from giving evidence, or on account of his conduct as a jurymen."

A Fear of Jury-Fixers. The police have been on the qui vive since the trial began, and last night one man in particular, it is said, was shadowed away on into the morning, but nothing was revealed. The police seem to fear that an effort will be made to reach some of the jurors, and they are vigilantly personified as a result. Sheriff Hawley, asked if he anticipated any such serious affair, replied that the sentiment of those who knew him. It is in contemplation, it is a sad thing for our country to have justice thus perverted.

But these who know the gentlemen on both sides of the case and the unimpeachable character of the yeomen of Lennox laugh at the alleged fears of the guardians of the law.

A gloom has fallen upon the interested parties in the case by the death of Lawyer Lyons of Belleville. Detective Donoherty's statement, "He was a special soul," voices the sentiment of those who knew him. It is learned that the deceased made an antemortem statement that may be produced in court. Constable Sillis is the authority for the statement that an application to take the deposition had been made to the judge six days ago. It will be Saturday night at the earliest before the case is handed to the jury.

True Bills Found. At 2 o'clock the Grand Jury, headed by Foreman Anson B. Aylsworth, filed into the Court room. The foreman handed some documents to the Clerk of the Court, who read as follows:

"Queen v. William Henry Holden and George H. Pare, burglary, true bill.
"Queen v. William Hamilton Ponton and Robert Mackie, burglary, true bill."

After a whispered conversation with the foreman of the jury the judge thanked the jury for their expedition, and sent them to the discharge of their additional duties. Acting County Crown Attorney W. S. Herington suggested, at the instance of B. B. Oster, Q.C., that the case against Ponton and Mackie be not brought on till 4 o'clock.

This the judge assented to, and intimated that he thought the petit jury, when once empanelled, should be kept together, as this case was one of those that warranted that precaution. He expected the jurors to be selected to-night, and requested the sheriff to see that they were lodged comfortably and properly fed.

E. Gas Porter made a slight objection to the immediate bringing on of the case, as the witnesses he had telegraphed for had not yet arrived. However, he was ready to go on.

The Court then convened again for the hearing of the bank case at 4.20, but it was getting late and His Lordship said there would be nothing further done till to-morrow morning at 9.

Holden to Tell a Story. There is something new in the bank case, and it comes as a surprise to many. At the preliminary investigation three months ago, P. C. Holden refused to plead, and it was recently reported that when he was put on the stand he would knock Pare's story to slivers. The World talked to reliable authority yesterday, and was told that Holden would throw himself on the mercy of the Court and would tell a story corroborating Pare's in all its essential details.

Holden Knew Pare. It has transpired that the \$425 held in Boston under an attachment from the bank has been sent to Holden, the bank waiving its claim. It is also learned, on the best of proof, that Mrs. Holden has admitted that Pare was staying with her husband at her house in Boston. This seems to shatter the reported statement that Holden reported, when confronted by Pare, that he never knew the man. The judge's declaration that there was sufficient evidence against Holden, without Pare's testimony, to warrant a true bill.

Lord Aberdeen Speaks at a Banquet

GIVEN IN HIS HONOR

And Applauds Canada's Policy of Turning Towards Great Britain

When the Markets of the United States Were Closed to Her—He Pays Sir Wilfrid and Rejoices at the "Good Understanding" Between England and the United States Shared by Canada.

Liverpool, Nov. 22.—The Earl of Aberdeen, the recent Governor-General of Canada, who, with the Countess of Aberdeen, arrived here to-day from Quebec on the Dominion Line steamer Labrador, speaking this evening at a banquet given in his honor, referred to the "keen gratification experienced by Lady Aberdeen and myself during our sojourn in Canada," adding that they felt they now had "ties of lasting association with the Dominion."

Lord Aberdeen applauded "Canada's holding the policy in turning toward England when the markets of the United States were closed to her."

After enlarging Sir Wilfrid Laurier, the Dominion Premier, he said: "The proximity of the United States is a great factor in Canadian affairs, and, therefore, we all rejoice in the tendency toward a good understanding and friendship between Great Britain and the United States—a tendency fully shared by Canada in her attitude toward the United States."

"I am sure we all welcome whatever will help the unity of the whole Anglo-Saxon race, and in this respect the commission now sitting in America has an important and significant bearing."

Referring to the French-Canadians, he expressed their devotion and loyalty, remarking that he was sure that, though they treasured their own traditions, they would do their duty if ever called upon.

In concluding his speech, which touched upon various Canadian matters, Lord Aberdeen said: "Canada is working out her own development and destiny for her own sake, but, in so doing, she is necessarily working also for the sake of the great empire of which she forms so splendid a portion."

SULTAN HATES UNCLE SAM. Will Close the Orphanage at Zeitung Run by U. S. Charity.

London, Nov. 22.—The Constantinople correspondent of The Daily Chronicle says: "The Sultan has ordered the closing of an orphanage at Zeitung, which shelters 90 homeless victims of the Armenian troubles. The institution is admirably managed by American missionaries, being chiefly supported by British charity. Mr. Oscar Traus, the United States Minister, and Sir Nicholas O'Connor, the British Ambassador, are both intervening energetically."

200 Arrests; Two Duels. Branda Esposito—Two duels have been arranged as the outcome of the scene in the Unterhaus, one between the Minister of the Interior, Desirius von Peretz, and Herr Helle, a member of the Chamber.

Disgraceful scenes were enacted at the University by the students, who poured hot water and turned a fire hose on a member of the police force, whose horse became unmanageable. Altogether, 200 persons were arrested, but only a few were detained long in custody.

This message came over the telephone to The World last night: "I want you to tell your readers in the morning that Muller will keep open his store till 10 o'clock on Wednesday night. Some people forget till the last moment that they need a good cigar, as the 'after-dinner' when they've dined sumptuously on turkey and pumpkin pie. G. W. Muller imports very fine cigars of rare favor and goodness."

THE B. A. C. CONTROLS LE ROI

Purchase of 205,000 Minority Shares Did the Trick.

PRICE AT \$8.50 A SHARE.

A Syndicate of Roseland Men Will Buy B.A.C. Stock on the London Market—The Deer Park Mine Never Was in Better Shape—Work on Silver Bell Going on.

Roseland, B. C., Nov. 22.—(Special.)—After many conflicting stories, it is now stated on good authority that the British America Corporation has completed negotiations for the purchase of the minority of the stock in the Le Roi mine, comprising 205,000 shares, thus obtaining full control of the mine. The price of the stock, including dividends to be declared in favor of old holders, will probably be about \$8.50 a share. A syndicate of Roseland men is being formed to buy British America Corporation stock on the London market.

Deer Park All Right. An effort is apparently being made to bear Deer Park stock. It has been originated by interested parties. The mine never was in better shape. Superintendent Treagar of Le Roi, who examined the property last week, says it will be a big mine and a proper system of working it is being pursued. There is no reason for any decline in the price of the stock.

Work on Silver Hill. The contract for the resumption of work on Silver Hill has been let and sinking signally by the students, who poured hot water and turned a fire hose on a member of the police force, whose horse became unmanageable. Altogether, 200 persons were arrested, but only a few were detained long in custody.

In Possession of Le Roi. Roseland, B. C., Nov. 22.—(Special.)—The British America Corporation is now in possession of the Le Roi mine. The first payment has been made on the minority stocks. The corporation now owns all but 35,000 shares.

BLAST FURNACE THE NEXT!

The Roger Brown Company of Tonawanda, N.Y., Likely to Establish a Branch of Their Business in Toronto Employing 250 Hands.

Tonawanda's big array of factory chimneys is likely to be very shortly augmented by another tall smokestack and the boom of ponderous machinery.

The firm contemplating the project is the Roger Brown Company of Tonawanda, N. Y., one of the largest sellers of pig iron on the continent. The Canadian manager, Mr. J. G. Miller, whose headquarters are at Buffalo, was at the Queen's Hotel last night, and speaking to The World, said: "The Roger Brown Company is making 500 tons of iron a day at its factory and employs 350 hands. There are nine offices in the United States, and we sell the products of forty different blast furnaces, or some 750,000 tons a year. The Canadian trade has trebled during the last three years, and we want a blast furnace on this side."

"A stock company is being organized, with a capital of \$100,000. The plant proposed would make 250 tons a day and employ 250 hands."

"Asked if the site had been determined on, Manager Miller replied: 'Not definitely, but it is pretty certain to be Toronto, and near the lake front. Toronto has the finest distributing facilities in Canada. We are negotiating with a number of big men in this city and shall know the result in a few days.'

NON-UNION MAN ASSAULTED. London Car Conductor Struck Down While on Duty—His Recovery Doubtful—Regrettable Affair.

London, Nov. 22.—Austen Addison, a non-union conductor on the Street Railway, while on duty about 11.30 o'clock last night, was run over by his car on Adelaide-street, near Elias-street, and brutally assaulted. The victim of the dastardly outrage was very seriously injured, and his recovery is doubtful.

Threats had been made against Addison because of his attitude during the recent strike, and for this reason the company employed special detectives to shadow him. Acting on the belief that the feeling died out and no rowdy violence was to be feared, the company discharged the detectives last Saturday.

Addison was a relief man on the belt line, and the car was on its last trip south on Adelaide-street. A passenger got off at Elias-street, and the motorman slowed up at the opposite crossing to take on a man who was signalling for the car to stop. No sooner had this fellow got on board than he struck Addison a vicious blow with a blunt instrument, knocking him flat. Another of the assailants seized the rope, and pulled the trolley pole of the wire, putting the car in darkness. The rest of the gang of rowdies immediately dragged Addison into the road, and brutally kicked him about the face and head.

It was but the work of a moment. The ruffians vanished, and when Motorman Braithwaite went to the rear of the car to learn what was wrong he found his conductor bleeding and unconscious. The injured man was taken to the barns, where Drs. Moore and English attended to his injuries.

Addison was in a faintful condition. Both eyes were badly blackened and swollen, and his head was one mass of cuts and bruises an inch or more in length. The wounds were full of sand and required very careful treatment. He was conveyed to his home on Dundas-street east.

Street Railway employes who belong to the union deeply regret the unfortunate affair, and express an earnest wish that the perpetrators may get the punishment they deserve.

RAN AWAY WITH HER HUSBAND.

Mrs. Miller, Who Became a Chorus Girl, Turns Up at Her Home— Goes on to Port Hope.

Newark, N. Y., Nov. 22.—Mrs. William A. Miller, who, it was reported on Saturday, had run away to New York from her husband, came here with him and passed Sunday with his parents.

William A. Miller is the son of W. M. Miller, one of the most prominent business men of this county. Mrs. Miller was Miss Frances Palmer, elder daughter of Frank A. Palmer, assistant passenger agent of the Wabash Railway, who lives in Chicago. She is 24 years old. They were married here two years ago. The wedding was a private one, and did not seem to please anybody except the contracting parties.

The couple went to Port Hope, Ontario, where the husband engaged in business, and that was the last the good folk of Newark heard of them until they saw in New York papers on last Saturday that Mrs. Miller had been appearing as a chorus girl at the Casino; that she was no longer known as Mrs. Miller, but as Frances Palmer, and that Frances Palmer and her little daughter had been living in the Gilsey House.

They read also that Mr. Miller had learned that his wife was in New York and had confronted her there and demanded an explanation, whereupon the young woman had sent in her resignation as a chorus girl and paid her bill in the Gilsey House and fled with the child.

The people of Newark had not digested this news when who should drop into the town but Mr. and Mrs. Miller themselves, with the little Miller. Mr. and Mrs. Miller refused to see anyone or throw any light on the situation, and left here early this morning for an unknown destination.

The people here think the couple may have gone back to Port Hope.

They're at Port Hope. Port Hope, Nov. 22.—Mrs. W. Miller, who, with her child, has been on a visit to her father in Chicago, returned home with her husband from the Windy City yesterday.

NOTHING NEW IN THE RATE WAR, Says Vice-President Shaughnessy to The World at Montreal—The G. T. R. Operations.

Montreal, Nov. 22.—(Special.)—There is nothing new in the situation of the Grand Trunk operators yet. It is generally supposed that the company and men are reaching a solution of the difficulty. Mr. Powell arrived to-day and negotiations are continually going on.

Vice-President Shaughnessy told The World to-day that there was absolutely nothing new to report in the rate war matter.

The Harbor Commissioners had a meeting to-day, and defended themselves against the Mayor's attacks. His Worship, however, defeated himself, and matters remain in statu quo.

THE CLAIMS OF IRELAND Must Be Redressed Before Any Anglo-American Union Can Come, Says Chanler.

Dublin, Nov. 23.—Mr. Louis Stuyvesant Chanler, who went on a stumping tour through Ireland with Mr. John Redmond during the summer of last year, is addressing the Irish Independent League here to-day, and is making a strong appeal to the Irish vote in the United States against any American Government that would enter into an alliance with Great Britain.

"Irishmen," said Mr. Chanler, "ought to appeal to America on loftier grounds. America has become a great nation by Ireland's aid. I do not believe she intends to form an alliance with Great Britain. Though naturally, she is grateful to the Britannic, singing of England's display of preparedness for war and the dignity of her enemies. The eleventh stanza reads thus:

But they who watch From where the west wind blows, Since great themselves Proud that their kith are great, Seel'd: 'twere what comes When England with her foes Speaks at the gate."

Railway Concession in China. London, Nov. 22.—The Pekin correspondent of The Daily Mail says: "An Anglo-Chinese railway syndicate has obtained an important concession for a railway from Canton to Cheng-Tu, in the Province of Sze-Chuan, crossing the Yang-Tse-Kiang, probably at Su-Pu, where it will join the projected extension of the Burmah Railway."

SHARKEY IN 9 ROUNDS

Corbett, Hopelessly Beaten, Fouled Out.

SECOND ENTERED THE RING

Looked Like a Job When Referee Made Award and Declared Bets Off.

Ex-Champion Was Held Safely by the Sailor All the Way—Corbett Opened Favorite in the Betting at 5 to 4 on, But After Second Round He Was a 2 to 1 Shot— Record Crowd at Lenox A. C.

New York, Nov. 22.—The Corbett-Sharkey fight, which was witnessed by the largest and most representative gathering of sporting men that ever congregated to see a ring contest, ended in a most disgraceful fiasco to-night at the Lenox Athletic Club. Corbett had all the worst of the encounter, when one of his seconds, Connie McVey, jumped into the ring, appealing to the referee, thus violating the rules, and Referee Honest John Kelly had no alternative but to disqualify Corbett and award the bout to Sharkey. McVey's intemperance was absolutely inexcusable, and the referee, believing that there was a job in McVey's action, took it upon himself to declare all bets off. Before Kelly did so, however, many of those who had bet on Corbett—and they were legion—appealed to the referee to take such action, while the Sharkeyites shouted against such interference on Kelly's part, and protested that he had no authority to declare the bets off. However, the referee's word went with the majority of the spectators, and consequently all money paid on wagers made will be refunded. It was a most unfortunate and absurd ending to what promised to be an interesting fight.

Sharkey Always Confident. For weeks both Corbett and Sharkey had trained faithfully and carefully for the contest, and when they stripped to-night both of them showed in excellent condition. Sharkey was very confident of success, and the manner in which he acquitted himself in the ring while the fight lasted showed very plainly that his confidence was founded on good grounds.

Those who believed that Sharkey could not fight fairly changed their opinion after the bout had gone one round. On the other hand, Corbett hit rather low and Sharkey protested. Sharkey's quickness and aggressiveness were astonishing from the very beginning, and from the very first it was very evident that he held Corbett safely.

In the second round there were wild yells from the admirers of the Sailor-Irishman when he floored Corbett with a right tawing on the head, which was preceded with a powerful blow on the body. Sharkey's rushes were successful invariably, and Jim's quickness and leg-work were the most to be admired. Sharkey was very plainly that his confidence was founded on good grounds.

Corbett Never in It. At no time had the Californian the upper hand of his younger and more sturdy rival. Sharkey is a fighter, and a clever one, at that, and his work to-night stamps him beyond all doubt as being second only to Fitzsimmons, who will have to meet him in order to decide which is the better man, and when these two meet they should put

HORSE SALES AT NEW YORK

Crow & Murray's High Stepper Blucher Brings \$2800.

Only \$2200 for Sampson and Sigbee - Bratton's Prize Winner Brings Fair Prices - Racing Summary for the Day.

New York, Nov. 22.-Thomas W. Lawson of Boston purchased yesterday from Crow & Murray of Toronto the crack high-stepper Blucher, that was placed second in the champion race at the Horse Show last week.

The sale of John S. Bratton's prize-winning high-stepper attracted a large crowd to the American Horse Exchange yesterday morning, but the prices realized for the animals offered were low. Sampson and Sigbee, the champion carriage pair of the recent Horse Show, brought only \$2200, Joseph E. Widener of Philadelphia being the buyer.

Bratton stated that the two horses had won upward of \$7000 in the show ring within two years, and he was disappointed at the price for which they were sold.

Miles and Blucher, the big brown horses that are driven as wheelers in a four-horse team with Sampson and Sigbee as leaders, were sold to W. M. Marshall of Chicago for \$1900. George Watson and J. H. Wilson of England were among the largest buyers.

THEY'RE AT A STANDSTILL

Anglo-American Commission May Be Delayed

FOR MORE THAN A WEEK

Presentation of Local Issues Responsible—Attitude of the Commissioners—The Canadians Hint at Retaliation—The Trade of the Klondike—American Commissioners Desires to Consult Members of Congress.

New York, Nov. 22.—The Commercial Advertiser has the following special from Washington: Work in joint sessions of the Anglo-American Commission is practically at a standstill. The negotiations have reached a point for the presentation of demands, and the serious consideration of concessions to be granted. Each side is quite able to anticipate the future attitude of the other.

The Americans have intimated to the Canadian commissioners that they wish to confer with members of the Senate. That will necessitate a delay of a week or ten days. Many Congressmen have been called to the city by reports that the interests of their constituencies were threatened in the negotiations, and they are endeavoring to influence to bear on the American members. It is that presentation of local issues which brought negotiations to a standstill. The American commissioners show no inclination to enter into a treaty which will be unsatisfactory to their colleagues in the House and the Senate. It is the plan, therefore, to consult both Senators and Representatives before going on with the negotiations, and the American members of the commission are again presenting their claims before the commission.

or earshot of a Salvationist the last few days will need much proof of this being the case. There is no space to record the many and varied means by which this unique institution has this year been brought before the eyes of the public. The Army's soldiers have never worked harder than they are doing at present, and their energy and persistence well deserves the credit due them for their plan for the co-operation of the public is solely the great and increasing needs of the spiritual and social wants of humanity, towards which the Army's peculiar methods have in the past been so successful. Donations for this worthy cause will be gratefully received by the officers in charge of the Temple Corps, whose address is Adjutant Barnes, S. A. Temple, James and Albert streets, city.

David Smith to Aid. Lamb. Editor World: When I was reading the business transaction by Monday's Council meeting, I noticed that my name was mentioned in connection with a letter to the Marine Department at Ottawa in reference to the draw bridge across McMillan street. I do not believe that I existed, or that I might be in fall for all he knew, as my name is not in the list of names, and that the gentleman was excited, as he seems to have been all through the meeting. I wish to assure him that I am living and kicking, and in fall nor do I expect to be, and also that if he will take the trouble to look in the directory he will see my name there along with my name. I do not know whether Aid. Lamb knows me or not, nevertheless I had a conversation with him about the bridge before he built, and I know that he gave me the glad hand when he met me on the street, and asked me how my wife and children were. He also said that I also occasionally. I do not know whether Aid. FIRST LICK OF \$12,500

To Fit out the City Clerk, City Solicitor, Engineer and Commissioners—Contractor Daniels Will Probably Do All This Work of Furnishing—First Meeting in the New Building on Dec. 22. The Property Committee held a meeting yesterday afternoon, at which a great deal of talk and discussion took place, with no very material result, though the object of the meeting was carried out to the full. The question that engaged so much attention was the allotment of quarters to the different departments in the new city buildings, and the partitioning and general arrangements to be carried into effect for the proper accommodation of the same. Aid. Lamb was in the chair and the other members present were: Aid. Leslie, Lamb, Graham, Hanlan and Bryce, with City Commissioner Conventry, City Solicitor Caswell and Mr. Lennox, architect.

Chairman Dunn, when a quorum had collected, explained the reason for calling the meeting—to look over the plans for the division and sub-division of the new City Hall, and to approve and give the figures to them, so as to settle the business at once and forever. Aid. Lamb was inclined to give the figures as they stood first, but when Aid. Leslie explained that the partitions in question were mostly of wood and could be shifted with more or less ease, and that the figures were only preliminary, the chairman's expression. The departments had all professed themselves satisfied with the arrangements submitted, added Mr. Lennox, as the real discussion began.

Where They Are Located. The arrangement of the City Engineer's room on the ground floor, as the plan is, and the other followed one by one in rotation. Aid. Lamb had the room of the chairman of the Board of Works transferred from the James-street side to the front, and he objected also, on general principles, to the awarding of large separate rooms to the various departments. The City Commissioner, Board of Health and City Engineer, and the other departments, had all professed themselves satisfied with the arrangements submitted, added Mr. Lennox, as the real discussion began.

SHAE MAKES ON STRIKE

Men Refuse to Accept Reduction of Pay—Employers Confident—Tariff Cause of Lower Wages. The window-shade makers, employed by the firms of Menzie, Turner & Co. and George Hees, Son & Co., have been informed that their wages would be reduced from 10 to 20 per cent, and have consequently laid down their tools and walked out. There are 15 men from each firm interested, and they claim that the present wages, which average about \$9 per week, are as small as they can possibly live on. They have formed a union in affiliation with the Toronto Labor Council, and are determined to fight the matter out.

What Mr. Hees Says. Mr. Stephen Hees of the firm of George Hees Son & Co. stated that last April they had been obliged to carry on their work in unsuitable quarters and had raised the men's wages, and now that they had returned to a suitable plant they were only returning to the old scale. Their wages are the same, he says, as paid by all similar firms in the United States, and range from \$10 to \$19 per week, according to the work done. Yesterday afternoon Mr. Hees' office was besieged with men looking for work. These he sent up to the factory on Devonport-road, where the foreman, Mr. Philip Radner, started three men to work. This morning he will start three more, unless, he said, "the pickets which I hear the men have stationed about the factory prevent them from coming."

Change in the Tariff the Cause. Mr. Menzie says that it is only 15 men out of 275, and the stock on hand is so large that they are not worrying about the men coming back. "If the tariff had not been changed," said Mr. Menzie, "we would not have to cut the men's wages, but as it is we have to compete with American firms and cannot afford to pay higher wages than the men in the Northern States, which have been reduced to the same scale as the American firms."

No Waste of Words. Evidence Which is Right to the Point and Reliable. Judge Frank Ives of District Court of Crookston, Minn., says: "For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit with few exceptions. I have not been so free from indigestion in twenty-five years."

George W. Roosevelt, U. S. Consul to Brussels, Belgium: "Stuart's Dyspepsia Tablets are concerned in my case. I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal. I ate one of your boxes of the tablets from my drugist and have fully cured me. I find them pleasant to take, convenient to carry."

Rev. G. J. Brown, Mondovi, Wis.: "The effects of Stuart's Dyspepsia Tablets are simply marvelous; a quite heavy dinner of broiled beefsteak causes no distress since their use."

Over six thousand people in the State of Michigan alone in 1894 were cured of stomach troubles by Stuart's Dyspepsia Tablets. Full-sized packages may be found at all druggists at 60c, or sent by mail on receipt of price from F. A. Stuart Company, Marshall, Mich. Send for little book on stomach diseases, mailed free.

HEADACHE AND NEURALGIA.

Too many times the origin of a headache is mislocated, and one begins dosing the stomach for it, when an application of Griffith's Liniment would draw out the pain and give immediate relief—it will cure any ache, no matter how severe.

"I suffered from severe headaches and could not obtain any relief until I had used Griffith's Menthol Liniment—the cooling, soothing action of this medicinal preparation had a headache last longer than ten minutes since I began using this wonderful liniment." L. Deas, 157 Centre-avenue, Toronto.

Stuttgarter Sanitary Woolen Underwear.

Stuttgarter Sanitary Woolen Underwear, which has gained a foremost place through sheer force of merit, is highly endorsed by eminent physicians and scientists. It is made from the purest Australian sheep's wool—undyed—and woven by a scientific process into health and comfort giving garments, which ensure protection against heat and cold, keep the body dry and give the greatest warmth with the least weight. "Stuttgarter" is an ideal underwear in this climate, where sudden changes are frequent:—

- Shirts and Drawers for Men, \$1.50 to \$2.50 each; for Boys at \$1.00 each.
- Vests and Drawers for Women, \$1.65 and \$1.75 each; for Girls, 85c to \$1.05 each.
- Combination Suits for Women, \$2.50 and \$2.85 each; for Girls, four sizes, at \$1.50 each.

We control the Stuttgarter Brand for Toronto and Canada, and show a complete assortment of garments for men, women and children. Mail orders filled promptly.

A Short Talk About Silverware!

The centre of attraction in our Yonge street windows is the fine display of Silverware, which excites the admiration of every passer-by. The window display, however, is a mere suggestion of what may be seen in the department, where the most prominent and reliable manufacturers are represented. Among them such names as the Meriden Silver Plate Co., Pairpoint Silver Co., Standard Silver Plate Co., are sufficient guarantee of the quality of the wares we carry in stock. Besides the guarantee of the maker the goods carry our own guarantee of "proving satisfactory or money refunded." In selling we are satisfied with a reasonable margin of profit. Hence the absence of any extravagance in our prices. For instance, you can buy:—

- Silverware, Quadruple Plate.**

There's Safety in Buying Furs Here.

Our policy to refund money if goods do not prove satisfactory applies as much to Furs as to anything we sell. That's why buyers are afforded every protection in selecting Fur Garments at this store. Our goods are exactly as represented. In the first place, the fur skins are personally selected by our own experts. These are then fashioned into garments by skilled hands who are at our command. The workmanship and finish are of the very best, the styles the very latest. While the superior excellence of our Fur stock has been an important factor in making it so popular among fashionable women, this popularity has been greatly enhanced by our uniformly reasonable prices. For example we are selling:—

- Ladies' Astrachan Jackets, from \$22.50 to 47.50
- Ladies' Grey Lamb Jackets, box fronts and blouse style 47.50

TORONTO AND UPPER CANADA COLLEGE.

It is suggested that one of the collegiate institutes might be advantageously closed up, or rather that it might be converted into a public school. Whether such a change would be advisable or not is open to discussion. But it is true that three collegiate institutes would be less necessary if the city adopted an intelligent policy towards Upper Canada College. This institution would be much more liberally patronized by the residents of Toronto if an efficient street car service were provided in connection with the school. In its present isolated condition the college is practically inaccessible to the young of the city. Only those who live in the immediate vicinity of the college can take advantage of its splendid educational facilities. Those who live any distance away must either board at the college or waste hours every day in going between the school and their homes. It seems ridiculous that the aldermen of Toronto should persist in their policy of isolating Upper Canada College. The college possesses many educational advantages, and it should be our policy to avail ourselves of these advantages as far as possible. With this end in view the aldermen should desist from their dog-in-the-manger policy of preventing the Toronto Railway Company from extending its tracks to the college. The company is willing to extend the Avenue-road line through the city and township, passing Upper Canada College and giving a service at the same time to Mount Pleasant Cemetery. The railway promises to give this extended service for a single fare. There is hardly a resident of Toronto who is not personally interested in having the railway system extended to the cemetery. The policy of the aldermen who are opposing the extension will become a subject of lively interest at the approaching municipal elections. The argument that the interests of a few residents of the township would be served by the proposed extension is a mighty poor excuse for depriving the 200,000 residents of Toronto of a much-needed convenience. The people wish to have a direct street car service to the cemetery. They wish to be in a position to take full advantage of the educational facilities of Upper Canada College. That a few people living in York Township would be incidentally benefited by the extension is a matter of no concern to them. The aldermen who oppose this project do not represent the people, and several of them may become painfully aware of the fact at the January elections.

HAMILTON'S ALIEN LABOR LAW.

The people of Canada will please take notice: The city of Hamilton has passed an alien labor law and adopted a closed door policy. A Toronto firm that went to the Ambitious City the other day with a new idea for delivering baggage was yesterday refused permission to put its scheme into operation, although it or a similar one has been adopted by all progressive cities. By refusing to take advantage of the ideas of progressive business men, Hamilton admits to the world that it has reached the limit of its development. Little wonder that several of its factories have moved to other cities and that other removals are in contemplation. By refusing permission to the Verral Carriage Company to do business in Hamilton that city has inflicted greater injury upon itself than upon Toronto or the rest of the Dominion. In addition to rejecting a progressive project, the Hamiltonians have exhibited a lack of confidence in their ability to meet their rivals in fair and open competition. Toronto will not make the mistake of retaliating. The freedom of Toronto is open to our neighbors at all times and on all occasions.

MAKING A GOOD START.

The Spanish-American war, undertaken solely on humanitarian grounds, will leave the United States in possession of a very respectable colonial empire. In the Pacific our neighbors already possess the Hawaiian Islands, and to these will be added the Island of Guam, which is one of the Ladrones and the Philippines. The Ladrones group comprises an irregular string of islands stretching from about the 22nd to about the 12th parallel of latitude. Guam, which is the most available of the group for naval purposes, is another link in the chain of marine possessions which the United States has constructed with such amazing rapidity across the Pacific. It will provide an admirable coaling station and refuge in the Oriental waters. In the Atlantic the United States will possess Porto Rico and Cuba. These various possessions include a large extent of territory and include a numerous population. The year 1898 will be a memorable one in the history of the American Republic.

Narrowly Escaped Death.

St. Thomas, Nov. 22.—What nearly proved a fatal accident occurred on the farm of W. David S. Thompson, River-road, South-west, this morning. Mr. Thompson, assisted by Joseph Mullen and Joseph Stephenson, was felling trees, when the butt of a large one became lodged about six feet from the ground. On chopping off the limbs to release it the tree fell, rebounded and pinned Mullen beneath it. After a good deal of difficulty the injured man was released from his dangerous position, and was found to have received some serious wounds on the head and shoulder. Both Mr. Thompson and Mr. Stephenson received severe scratches.

THE QUESTION OF SEALING

Is Now Being Discussed by the Commission at Washington.

MAY BUY CANADA OUT.

Value of the Canadian Sealing Fleet Not So Great as Expected, But There is a Difference in the Appraisal—The Behring Sea Estimates Before a Committee.

Washington, Nov. 22.—The Behring Sea question was the main topic before the Anglo-American Commission to-day, when it resumed its sessions, after several days' recess. For the first time the two sides were prepared to exchange their estimates on the value of the Canadian sealing fleet, the purpose being to arrive at some fair valuation, and retire the fleet by a purchase. The initial steps in this direction were taken while the Commission was at Quebec, since which time Captains H. T. Taylor, in behalf of the Canadians, and Thayer, in behalf of the Americans, have been making appraisals of the fleet. After several weeks at Victoria, where the sealers rendezvous, Messrs. Taylor and Thayer have arrived here, accompanied by Capt. Cox, who represents the sealers. The two appraisers made their reports to the respective sides, and these reports in turn were sent to the Commission. It is understood that both appraisals are considerably below what was expected, and before an agreement is reached, they do not exceed much over a half-million. Under the circumstances strong hopes are expressed by members of the Commission that the matter will be settled upon the basis of this industry and the final settlement of this long-pending and vexatious controversy. It is said, however, that there still considerable difference between the appraisals of the Canadian and the American expert, which will have to be reconciled before an agreement is possible. After the joint meeting of the Commission, a special committee, consisting of Lord Herschell and Sir Louis Davies, Senator Fairbanks and ex-Secretary Foster, took up the Behring Sea estimates. Besides the written reports of the appraisers, the latter were also heard and examined regarding the sealing fleet. At the afternoon session of the Behring Sea Committee, it was agreed that each side would place its appraisals on the stand, allowing him to be cross-examined by the other side as to the justice of his appraisal of the sealing fleet. The action was proceeded to on Monday, the Canadian side and Sir Louis Davies for the Americans, and Sir Louis Davies for the Canadians. It is hoped thereby that errors may be detected and a balance struck between the two estimates.

THE CASE OF CAPTAIN DREYFUS.

Petit Bleu Dossier to Be Joined With the Relations Preceding the Court-Martial.

Paris, Nov. 22.—The Figaro says the Court Cassation has manifested a desire to join the Petit Bleu dossier with that of the revision proceedings. General Zurlinden has consequently decided to order the postponement of the court-martial of Col. Picquart, which will appear in the hands of the custody of the civil judicial authorities and may claim provisional release. The Math claims to know that the Court Cassation regards the dossier of Dreyfus as a secondary question, which does not necessitate a special enquiry, and it is possible that the dossier will not be called as a witness. The Math also says that the Prince of Monaco is about to request the Ministry of War to give the principality to Major Forcennet, formerly governor of the Cherche-Midi Prison, who was dismissed from that post for expressing an opinion favorable to Dreyfus.

London Journals Pleased With the "Open-Door" Intentions of the U. S. in the Philippines.

London, Nov. 22.—Most of the afternoon newspapers comment upon and express satisfaction in the "open door" intentions of the United States in the Philippine Islands. The Pall Mall Gazette says: "Whatever success may be achieved in the United States themselves, America's colonial policy in the Pacific is the 'open door'." It is a wise decision on every ground, in the interests of the prosperity of the Philippines themselves and as securing the good will of nations really friendly to America in the Pacific. The community of interests of the two English-speaking nations is thereby definitely assured.

Congo Free State Said to Have Accepted an Allowance for Ferry.

London, Nov. 22.—The Birmingham Post says that an agreement has been arranged with the Congo Free State, allowing a reduction in the average rate to \$21. This may bring about a rate war. The new company expects to run steamers to Paspopac throughout the winter, but the venture is problematical. The first sailing will be on Dec. 3.

Chimes Sent to Russian Church at Bridgeport in Sheriff's Charge.

Bridgeport, Conn., Nov. 22.—The chime of bells sent to this country by the Czar of Russia, and which were placed in the belfry of the Holy Ghost Russian Orthodox Greek Catholic Church, on Hallett-street, was attached to-day by Deputy Sheriff Doolin in a suit brought to recover a \$200 note which the trustees of the church gave to C. W. Hawley of this city. The church property was attached in the usual way of serving notice. In the town clerk's office a special charge was put in charge of the bells. The bells were brought to this country about a year ago, and a special act of Congress was passed admitting them to this country free. The bells are valued at \$10,000.

The Social in Guild Hall Takes a Practical Turn. Building Inspected—Speeches and Song.

A large crowd gathered last night at the social given by the ladies in the Y. W. C. E. Hall, and, after an inspection of the building, listened to a program, consisting of music by Granger's Orchestra, songs by Misses Milne and Street and Mr. Lawrence and short speeches by Hon. S. H. Blake, Senator George A. Cox, Rev. Dr. Peitz, Rev. William Patterson, Messrs. Elias Rogers, T. Eaton and J. W. Plaville. Mr. S. H. Blake, in his address, stated that there was a mortgage of \$20,000 on the building, which meant \$1000 interest had to be paid yearly. One thousand dollars of the principal had also to be paid each year. Five hundred dollars of the principal with interest on same, was due Dec. 1, and last night \$300 had been subscribed to pay off the amount. The following are the contributors: Elias Rogers \$200, T. Eaton \$200, J. W. Plaville \$100, Blake, Lash & Cassels \$100, Senator Cox \$100, H. H. Fugler \$100. Refreshments were provided at the close of the program.

KEELEY'S SECRET DISCLOSED.

In a Manuscript of 2000 Pages He Describes His Mysterious Motor.

Philadelphia, Pa., Nov. 22.—B. L. Ackerman, president of the Keeley Motor Company, arrived here from New York to-day in response to a telegram from Mrs. Keeley. He said this afternoon: "My Keeley's secret did not die with him. On my arrival at Mrs. Keeley's house I found her so ill that she was unable to move. She stated that she was unable to move because she had left in her possession a manuscript of 2000 pages, which expressed the whole system and the work it has done." Among the passengers who arrived at New York yesterday morning per Atlas Line steamer Altal from Port Ligon and Kingston, were President Rafael Iglesias of Costa Rica and party.

A BRITISH SOLDIER

Tells how Milburn's Heart and Nerve Pills Conquer Disease.

Like the conquering armies of Britain, which have marched in every quarter of the globe, Milburn's Heart and Nerve Pills are everywhere triumphing over sickness, weakness and suffering by the shackles of disease. Mr. David Walsh, of Carlton Place, Ont., a man who has served with distinction and credit in the British army, and is now an employee of the C. P. Railway, says, "While in the army I got broken down, and my nervous system was completely shattered. It was many troubles with liver complaint, loss of appetite, etc. My rest became broken and was disturbed by vivid dreams. This had been going on for 14 years, although I took a great many remedies to escape from the troubles which afflicted me. "However, I got no relief until I started to take Milburn's Heart and Nerve Pills, which I used together with Laxative Pills, and now after having used a few boxes, I am better than I have been for years. My nerves are restored to full force and vigor, I eat and sleep well, and my entire system has been toned and strengthened. "Milburn's Heart and Nerve Pills are a positive and perfect remedy for Weak, Palpitating Hearts, Nervousness, Sleeplessness, Headaches, Dizziness, Spinning Sensations, St. Vitus Dance, Debility, Female Complaints, etc. Price 50c a box, or 3 for \$1.25, at all drug stores. OSGOODE'S DEBATE AND DANCE.

The Forty-Ninth Event of the Kind Was a Marked Success Last Evening.

Osgoode's annual debate and dance, held under the auspices of the Legal and Literary Society, is too well-known a society event to require any comment of an introductory nature. Yesterday evening the forty-ninth event of the kind took place in the large convocation hall at Osgoode and it was attended with all the traditional success that has become peculiar to the occasion. The musical concert and Mrs. Nordheimer's dance added a perceptible shrinkage in the usually large attendance, but the dancing was all the more enjoyable for that.

THE DEBATE.

The program and debate, which occupy the first half of the evening on such occasions, is not usually the prime attraction, but yesterday it proved very successful. Mr. W. D. McPherson's inaugural address as president of the society was practical and up to date to an unusual degree. The benefits of the society, the duties of the law lecturers and a few sensible hints to the newly fledged barrister represent the main topics covered by it. The debate, "Resolved that Canada should contribute to the maintenance of a standing army and by augmenting the navy," was spoken to affirmatively by Messrs. O'Brien, Birmingham and McKinnon, and by Messrs. O'Donoghue and Makins negatively for Osgoode Hall, and the latter won on a show of hands. Mr. J. H. H. Kirkpatrick, the chairman, professing to be unable to reach a decision himself.

WEDDED AT GUELPH.

Mr. Edward Carroll, M.P., Married to Miss M. Dillon Yesterday.

Guelph, Nov. 22.—A happy event took place at the Church of Our Lady this morning at 7.30 o'clock, being the marriage of Mr. Edward Carroll, clerk of the County Court, to Miss Margaret Dillon of this city, formerly of Berlin. A large number of the friends of the contracting parties were present to witness the sacred and interesting ceremony. Rev. Father Kenny, S.J., conducted the service. The bride entered the church with her brother, Mr. Charles Dillon of Berlin, and now after having used a few boxes, I am better than I have been for years. My nerves are restored to full force and vigor, I eat and sleep well, and my entire system has been toned and strengthened. "Milburn's Heart and Nerve Pills are a positive and perfect remedy for Weak, Palpitating Hearts, Nervousness, Sleeplessness, Headaches, Dizziness, Spinning Sensations, St. Vitus Dance, Debility, Female Complaints, etc. Price 50c a box, or 3 for \$1.25, at all drug stores. THREE LIVES WERE LOST

In the Big Fire at Dawson City—The Blaze Was an Accident, After All. Victoria, B. C., Nov. 22.—Miners reaching here from Dawson bring more news of the fire of Oct. 18. Investigation, they say, has shown that the conflagration was the result of an accident pure and simple. It was not the result of the throwing of a lamp. True, the accident occurred during a quarrel between the two women before referred to in the Green Tree Saloon, but the facts of the case, as told by the late arrivals, are that the woman Belle Mitchell fell against the table and upset the lamp, which exploded, and began the fire which ended so disastrously. One of the just-returned miners says that it is thought that two miners, whose names he could not learn, and a woman, who he also could not learn, were in the saloon, the two men having been missing since the fatal night. At Dawson, when the last arrival left, there was a rumor in the saloon that there is a considerable rumor there, but those who hold it have kept up the price to \$3 a pound.

THEIR ANNUAL SMOKER.

The Members of St. George's Society Had a Merry Time. The annual smoker of the St. George's Society was held last night in St. George's Hall, where the ladies spent the evening very pleasantly playing cards, listening to an excellent program and enjoying the refreshments provided. Mr. George Musson, vice-president of the society, presided, and the entertainment under the management of Major Manley and Mr. Thomas Mason, consisted of vocal selections by Mr. C. Robins Pierce, violin solo by H. O. Bayley, English bell ringers, under the direction of Mr. Cashmore, and songs by Messrs. J. F. Howitt, L. E. Davies, Charles Meach, J. F. Howitt and Major Manley. The accompanists were F. H. Torrington, J. Pearce and H. A. Among the many present were the venerable secretary, J. E. Pelt; Major Manley, Capt. Faber, Messrs. G. H. Musson, John Taylor, J. E. Thompson, J. H. Mason, E. H. Scott, R. W. Elliot, J. Pearce, John Barley, J. G. Gibson, John Xuan, George Stanway, E. W. Barker and Dr. Snelgrove.

HARNESS HORSES OF A YEAR

A Long List of Performers in the Magic Class, 2.10.

Sixty Set New Marks—Twenty Trotters and Twice as Many Pacers—Reach the Sought-for Figures—Breeding of the Horses. The season of racing on the harness turf just concluded has been marked by the making of fewer new world's records than any other almost since the advent of the bicyclist in 1897, says The Chicago Record. But while this is incontrovertible fact, it is equally a fact that never before was a season marked by the appearance of as many horses of extreme speed, both trotters and pacers. In proof of this is presented below the list of 210 performers of 1898, comprising both those that entered the 2.10 class for the first time, and those that were already in it, that succeeded in lowering their records.

- The 210 Performers—Trotters—Bingen, by May King, 2.08; Young Miss, by Young Jim, 2.08; Clio, by H. S. by Highwood, 2.11; Niska, by Cosack, 2.12; ...

Richard Roche of Brussels, Ont., Raced in England, Germany and Austria. Last Monday evening Richard Roche arrived home from the Continent after an absence of 10 months. He came back by the Lake Superior, and was two weeks and two hours on the water. The Vienna Express says that Roche was over as driver in the employ of Messrs. G. & W. K. of the horseman of Liverpool, Eng., who purchased Reddy, the trotting stallion, formerly owned by Richard Roche, in March was spent in England racing at Manchester, Blackpool and Aintree. Reddy, who was sold to Roche for \$2000 after campaigning for the month of March, was a very good performer himself to be a mean competitor among the first-class horses of the Old Country, and made his debut in the English mile race in 2.15 to the mile.

Whereupon the Deceased's Relatives Locked Up the Money Lender and Burned Him Alive. Vienna, Nov. 22.—A few days ago a clerk named Ladislaus Klodetzki died at Rank in Galicia, leaving an aged mother and a 3-year-old daughter unprotected. He also left a debt of \$200 due to a usurer named Leber. As soon as he heard of his debtor's death, Leber obtained power to seize the contents of the house after the funeral, and the value of the money lent. He entered the room where the deceased was lying and removed all the furniture from the room. He was locked up in the jail and threw it on the ground, in order to be able to take the bed away. The wreaths laid round some of the relatives of the deceased, who were in a valuable ring drawn off the dead man's finger. Leber's act so enraged the relatives and friends of the deceased that they immediately set on foot a plan to remove the corpse, they locked up the heartless usurer in the room, and setting fire to the house, burned him alive.

Why They Have Dyspepsia—How to Cure It. In the form of gastric juice—to soften and moisten it. A healthy stomach supplies sufficient gastric juice to ensure the digestion of the food particles of an unhealthy, dyspeptic, stomach can not. DODD'S DYSPEPSIA TABLETS are composed of substances that, when dissolved, form the fluid that the stomach is unable to supply, and which is absolutely necessary to digest the food. Therefore DODD'S DYSPEPSIA TABLETS supply the gastric juice. They thus put the stomach in a position to carry out its work of digestion, thoroughly. By doing this they prevent Dyspepsia from returning after they have banished it. DODD'S DYSPEPSIA TABLETS contain, also, substances that tone and strengthen the stomach, and stimulate the glands that supply the gastric juice. They thus put the stomach in a position to carry out its work of digestion, thoroughly. By doing this they prevent Dyspepsia from returning after they have banished it.

CROSSED BETWEEN THE CARS. How James Bonar, an Old Employee of the Grand Trunk, Was Killed on the Esplanade. A railway train was the cause of another fatal accident yesterday when an old and trusted employe of the Grand Trunk was crushed to death while performing his duties. The unfortunate man was James Bonar, who resided at 48 Wyndham-street, and worked around the Union Station as a car cleaner. Bonar had been employed on two passenger coaches that were side-tracked immediately under the John-street bridge, and crossed over the tracks to an adjacent hydrant with two empty pails. After filling the buckets with water he started back. On one of the trucks he had to pass were two cars with a space between them of a foot or so. When Bonar came to the passage he tried to walk through the narrow space, holding in his hands a pail of water. Just as he had reached the middle of the passage, locomotive engine No. 642, in charge of Engineer David Lynch, started into the car to the west, and pinned Bonar between the two coaches. The unfortunate fellow being knocked unconscious, he fell to the ground, and was run over over one hand and arm. John Stewart, the yardman, found the man lying on the track a few minutes after, and in company with other employes removed him to the building at the station, which is occupied by the conductors of the Canadian Pacific and Grand Trunk. Dr. Hoesen of King and Peter-streets was summoned, but life was extinct on his arrival. P. C. Reburn notified Coroner Johnson and Detective Duddy, the undertakers were sent for. The body was removed to their establishment on Queen-street west, and Coroner Johnson will open an inquest there this afternoon at 3 o'clock.

Those \$10,000 Bonds. W. H. Ponton was approached concerning the evidence of the \$10,000 Government bonds that is presented as a strong point of the prosecution. He declares that he is one could, by looking at the books of the entry regarding these, and that he himself knew—would know they were not kept in the bank, but at the head office, because coupons relating to them at regular intervals came into the office. The defence is inclined to present that after the removal of the bonds from the bank, they were thoroughly looked through by others than the officials, and that in this way the matter came out.

Notes of Starting Developments. The Crown still keeps up the interest of the townfolk with tales of startling developments. The latest is that some time in July, 1897, a certain renovation of the bank building was in contemplation. The question is how could an outsider know of this if the officials of the bank did not know it? Yes, it was known by an outsider whose evidence is held to be strong. Detective Greig, asked by the Ontario Government, says that the expenses of any of the witnesses for the defence, said he knew the Government had not advanced any money. "The witnesses for the defence are not the witnesses so orders if he paid by the Government, but until such an order is given such witnesses must look to the defence alone." He was asked to report on the case, and said the detective, Miss French was at the Court House yesterday afternoon, and was seen by The World. She declares she not nearly so nervous as she was three months ago, and promises to have a good story to tell when she enters the box. E. Northrup, Q.C., and Col. Penson of Belleville came to town this afternoon. Inspector Healy of Manchester, accompanied by his charming wife, are here while "Chesterfield" Wilkes is the latest arrival.

Quarters for the Jury. Sheriff Hawley has arranged for quarters for the jury when the trial opens. It will be lodged at the Campbell House, and a watch set over it night and day. It is held out that the deliberations of the grand jury were not altogether harmonious. When it was first shut up there they were in a state of great excitement, and true bill against Holden and Pate, but no bill against Mackie and Ponton. It was only by much argument on the part of those present that a bare majority was obtained for true bills in both cases. This majority was afterwards in the customary way made the majority of the grand jury. One of the men that signed a petition to the Government for a change of venue on the ground that twelve impartial men could not be found in this county. The Expert Safe Cracker. The expert safe-cracker has arrived. He is Arthur Caselle of The Renfrew Journal. He was locked up to report on the case, and said he has opened many combination locks. He says: "It is possible to close a safe so that I couldn't open it for three days, but I could close it so that it could not be opened for three months." The young man who was arrested as to his alleged abilities, the bulk of the opinion being that "he can't do it." Lawyer W. G. Wilson is out in the country, and has not been seen for two days. It is still "There's a hen on it." W. H. Ponton is still free to go where he will. He will not be arrested till the court orders it, when his case is called.

A Distinguished Civil Engineer - Built the Fifth-of-July Bridge. London, Nov. 22.—Sir John Fowler, the widely known civil engineer, is dead. He was 81 years old.

Sir John Fowler was born near Sheffield, England, and was educated as an engineer. His first work was the construction of several railroads, the principal one of which is the road from London to Brighton. He superintended the building of the electric bridges, viaducts and docks, and was constantly engaged in important engineering work all over Europe. In 1870 he was appointed a lieutenant as a revenue collector for his achievement in connection with the building of the bridge across the Fifth of July. For services rendered in the military campaign in the Sudan he was knighted by the Emperor of the Order of St. Michael and George.

The Great Furniture Sale To-day. The gigantic auction sale at the Toronto Furniture Company's warehouses, No. 249 Yonge-street, will be continued today. Wherupon the Deceased's Relatives Locked Up the Money Lender and Burned Him Alive. Vienna, Nov. 22.—A few days ago a clerk named Ladislaus Klodetzki died at Rank in Galicia, leaving an aged mother and a 3-year-old daughter unprotected. He also left a debt of \$200 due to a usurer named Leber. As soon as he heard of his debtor's death, Leber obtained power to seize the contents of the house after the funeral, and the value of the money lent. He entered the room where the deceased was lying and removed all the furniture from the room. He was locked up in the jail and threw it on the ground, in order to be able to take the bed away. The wreaths laid round some of the relatives of the deceased, who were in a valuable ring drawn off the dead man's finger. Leber's act so enraged the relatives and friends of the deceased that they immediately set on foot a plan to remove the corpse, they locked up the heartless usurer in the room, and setting fire to the house, burned him alive.

INTEREST IS INTENSE.

points to the weakness of Holden's holding out. All these facts, besides the statement made to The World by one who knows, form the grounds for the statement that Holden will testify for the Crown and live in hope that such an act will mitigate his sentence. The defence are not at all alarmed by this announcement, but declare that it is rather hard to give credence to the testimony of self-convinced wrong-doers. The impression still remains that "Holden will testify."

Those \$10,000 Bonds. W. H. Ponton was approached concerning the evidence of the \$10,000 Government bonds that is presented as a strong point of the prosecution. He declares that he is one could, by looking at the books of the entry regarding these, and that he himself knew—would know they were not kept in the bank, but at the head office, because coupons relating to them at regular intervals came into the office. The defence is inclined to present that after the removal of the bonds from the bank, they were thoroughly looked through by others than the officials, and that in this way the matter came out.

Notes of Starting Developments. The Crown still keeps up the interest of the townfolk with tales of startling developments. The latest is that some time in July, 1897, a certain renovation of the bank building was in contemplation. The question is how could an outsider know of this if the officials of the bank did not know it? Yes, it was known by an outsider whose evidence is held to be strong. Detective Greig, asked by the Ontario Government, says that the expenses of any of the witnesses for the defence, said he knew the Government had not advanced any money. "The witnesses for the defence are not the witnesses so orders if he paid by the Government, but until such an order is given such witnesses must look to the defence alone." He was asked to report on the case, and said the detective, Miss French was at the Court House yesterday afternoon, and was seen by The World. She declares she not nearly so nervous as she was three months ago, and promises to have a good story to tell when she enters the box. E. Northrup, Q.C., and Col. Penson of Belleville came to town this afternoon. Inspector Healy of Manchester, accompanied by his charming wife, are here while "Chesterfield" Wilkes is the latest arrival.

Quarters for the Jury. Sheriff Hawley has arranged for quarters for the jury when the trial opens. It will be lodged at the Campbell House, and a watch set over it night and day. It is held out that the deliberations of the grand jury were not altogether harmonious. When it was first shut up there they were in a state of great excitement, and true bill against Holden and Pate, but no bill against Mackie and Ponton. It was only by much argument on the part of those present that a bare majority was obtained for true bills in both cases. This majority was afterwards in the customary way made the majority of the grand jury. One of the men that signed a petition to the Government for a change of venue on the ground that twelve impartial men could not be found in this county. The Expert Safe Cracker. The expert safe-cracker has arrived. He is Arthur Caselle of The Renfrew Journal. He was locked up to report on the case, and said he has opened many combination locks. He says: "It is possible to close a safe so that I couldn't open it for three days, but I could close it so that it could not be opened for three months." The young man who was arrested as to his alleged abilities, the bulk of the opinion being that "he can't do it." Lawyer W. G. Wilson is out in the country, and has not been seen for two days. It is still "There's a hen on it." W. H. Ponton is still free to go where he will. He will not be arrested till the court orders it, when his case is called.

COUNTY AND SUBURBAN

Toronto Junction, Nov. 22.—(Special)—The funeral of the late James Ness left the family residence on Pacific-avenue this morning for Davenport station, accompanied by a large delegation from the Brotherhood of Railroad Trainmen and Locomotive Engineers. The remains were taken to Ossington for interment. At the home Mr. and Mrs. J. Shultz on Medland-street was the scene of a festive gathering last night, when their friends reassembled in large numbers to celebrate the tenth anniversary of their wedding. Amusements of various kinds were indulged in, songs were sung and congratulatory speeches were delivered. Mr. and Mrs. Shultz made an admirable evening of it, and they were the recipients of many kindly remembrances in tinware.

The positions on the teaching staff of Annet-street school have been changed, leaving the respective teachers with the following assignments: Junior fourth, Miss Conley; senior third, Miss Rowley; senior third, Miss Thompson; junior third, Miss Barnes; senior second, Miss Straight; junior second, Miss Ellis; senior part two, Miss Conley; junior part two, Miss Rowley; senior first, Miss Willard; junior first, Miss Stearns; Kindergarten, Miss Stock. Miss Hooper was appointed dressmaker in the Carlton Kindergarten.

At the Police Court this morning, Fred Brom was allowed to go on suspended sentence for picking up cedar blocks, which rain, sun and age had turned into punk. Rev. Dr. Tovey of Trinity Methodist Church and Rev. Dr. Tovey of the Woodgreen Tabernacle, will address the social, under the auspices of the Ladies' Aid of Annet-street Methodist Church, to be given on Thanksgiving night.

Lambton Mills. David Ross, well-known character on Dundas-street, living in the old toll-house, which years ago did duty during Lambton Mills and Jalington, was laid to rest in St. George's Cemetery yesterday. At the advanced age of 80 years. Many a nickel did Mr. Ross collect from the way-faring traveler who perchance alighted at the toll-house way to market, from the window of the little toll-house where he died; but that is many years ago, for the toll at the end of Centennial-road was subsequently erected, and this did duty until toll roads were finally abolished two years ago. Mr. Ross, in late years, was engaged by the county and his cheerful "Good day" "What is the weather going to be?" will not soon be forgotten, at least by a few.

Mimico. The Mimico Methodist Church, of which Rev. J. T. Caldwell, M.A. is pastor, has had its recent Thanksgiving offering cleared off the entire debt of the church, and have been able to appropriate \$70 to liquidate the \$1500 debt on the parsonage. Much credit is due the Ladies' Aid of the church for their indefatigable efforts to render assistance also to the choir, which is a very efficient one, under the leadership of Mr. Heslop.

North Toronto. The annual conference evening under the auspices of Eglington Lodge, A. O. U. W., drew a full house. The program was supplied by the Kenney-Harvey company, and provided an address by Rev. E. W. May, and a recitation by Mrs. E. W. May. Mr. James Curry, a recent resident of the town and an old real estate agent, is much struck on the possibilities in population and building at no distant date. A committee of the County Council will meet with one appointed by the town and endeavor to arrange for the separation of the two, by calling in the services of arbitrators.

Retail Merchants Kicking. About the Way They Have Been Treated by the Council-Ward. A special business meeting of the Retail Merchants' Association was held last evening in the parlors of Shaftesbury Hall. The members turned out in large numbers, and much enthusiasm prevailed. The following citizens were appointed to interview retail merchants in their wards, with a view to bringing out good men to represent the trade at next year's City Council: Ward 1: S. Goddard, N. Armstrong, W. W. Dallimore, J. R. Lee. Ward 2: W. W. Steward, J. Stewart, W. G. Ward, J. Hargreaves. Ward 3: J. B. Banks, J. Murell, Ward 4: M. Marmion, S. Hobbs. Ward 5: J. M. Marmion, S. Hobbs. Ward 6: J. M. Marmion, S. Hobbs. Ward 7: J. M. Marmion, S. Hobbs. Ward 8: J. M. Marmion, S. Hobbs. Ward 9: J. M. Marmion, S. Hobbs. Ward 10: J. M. Marmion, S. Hobbs.
