IRELAND A POWDER MAGAZINE, EXPLOSION IS IMMINENT Russo-German Alliance Threatens to Plunge Europe Into Great War

GERMANY IS IN PACT WITH REDS OF RUSSIA TO START GREAT WAR

Germany Will Put Lid on Bolshevism as Soon as Peace Treaty is Revised to Meet Her Desires—Poland Really Theatre of War Between Huns and Entente Allies.

BY B. F. KOSPOTH. [Special Copyrighted Cable to The Toronto World and Philadelphia Public Ledger]

Geneva, July 31.—"Bolshevism in Russia will cease automatically as soon as Germany obtains the revision of the peace treaty according to her wishes," was the prediction made in my presence the other day by a Russian statesman who is deeply initiated into all the obscure diplomatic secrets of Moscow and Berlin.

Recent events, indeed, have dispelled every vestige of doubt that Lenin is Germany's occult powerful ally in the attempt to substitute a "German peace" for the peace made by the victorious allies at Versailles. From the time of the armistice, until quite lately, the assistance rendered by the red dictator to Germany consisted in revolutionary propaganda in the allied countries and their intimidation thru an internal Bolshevist menace. Now he is giving Germany military aid against the nations that frustrated her plans of world domination.

In reality, the war between Germany and the allies has begun once more. Its battles are being fought in Poland. The red army fighting to realize the aims of the Prussian militarists, its victories over the Poles are German victories over the entente, impelling and nullifying the triumph of western democracy achieved on the battlefields of France.

While the allies were struggling to "disarm" her, Germany has launched a vast attack against them with an army of at least a million men, organized chiefly by German officers strategically "inspired" by Ludendorff's secret staff. Germany is fighting the allies again, and fighting successfully after having demoralized and divided them by intrigues and diplomatic manoeuvres of all sorts. She has started the war again, in the east, where she knows they are impotent and can be most easily forced to sue for peace, the kind of peace she wants.

Relies on Armed Force

The Spa conference was dominated by this alarming fact that Germany, without renouncing her diplomatic machinations, has resorted to force of arms to impose her conception of peace on her conquerors. The advance of the red armies on Warsaw forced the allied statesmen to stand on the defensive for the first time since the collapse of the Kaiser's armies.

Already the future position of Poland in Europe, which is of paramount importance to Germany, depends no longer on the deliberations of diplomatic conferences, but on the sword. So far as Poland is concerned, the revision of the peace treaty is being carried out by the victorious Bolshevist leaders—in Germany's favor.

Peace with the Bolshevists will leave Poland so greatly diminished in territory and population and prestige that she will cease to exist as a military factor capable of frustrating the alliance of the military despots of Germany and Russia and the subsequent joint onslaught on the democracies of the west which they are planning.

From the first, the vanquished German realized clearly that the establishment of a powerful Polish state would definitely frustrate their schemes of revenge and prove an insurmountable obstacle to Germany's preponderance by preventing union with Russia, on which all their hopes of regaining their lost greatness are based. Therefore, while the attention of allied diplomats was almost exclusively directed on averting an attack by the reduced but still formidable German army in the west, the German statesmen concentrated all their efforts on the east and secretly prepared the destruction of Poland with the help of the Russian dictators.

Russo-German Alliance

It were vain to attempt to conceal the fact that the allies have lost Russia, and that Russia has gone over definitely to Germany. Today, there is no Russian political party in existence that does not hate and distrust the

allies and that is not supporting or ready to support the Germans. In trying to conciliate the Bolshevists, who are irreconcilable and will never renounce their plans of destroying western democracy, the allies have made mortal enemies of all the Russian anti-Bolshevists, monarchists, as well as democrats, who feel that they have been betrayed and deserted.

The Soviet dictators are implacably hostile to the allies, and neither "trade relations" nor even recognition of their criminal government will ever divert them from their course of destruction, which coincides with Germany's interests; but if they are overthrown, as they probably will be, sooner or later, their successors will carry on their foreign policy unchanged.

The alliance between Germany and Russia, which allied diplomacy sought to prevent by means of measures as ambiguous as they were ineffective, (Continued on Page 2, Column 6).

AUSTRIAN ARSENAL IS RAIDED BY HUNGARIANS FOR MUNITIONS

Guards Overpowered and Many Rifles and Machine Guns Taken—Rumors That Raid Is Preliminary to Polish Invasion.

Vienna, Aug. 1.—A Hungarian force of more than 500 armed and uniformed men crossed the Austrian frontier early Friday morning, overpowered the guards and raided the Furstenfeld Arsenal, snatched 2,000 rifles, 2,000 uniforms and 21 machine guns. The raiders returned to Hungary with the booty loaded on motor-trucks.

The government has protested to the Hungarian minister, demanding punishment of the raiders, return of the loot, and an apology and payment for damages. It has also communicated the fact to the foreign missions.

It is feared that in other raids of other armaments the raiders obtained more than 4,000 small arms. An official account asserts that Hungarian and Austrian reactionaries plotted the raid, which was thoroughly organized, and caused renewed rumors that the Hungarians are planning to aid Poland.

RAILWAYS GRANTED INCREASED RATES TO SWELL REVENUES

Washington, Aug. 1.—Rate increases granted United States railroads by the Interstate Commerce Commission are designed to give the carriers an annual net operating income of \$1,124,000,000 or \$241,000,000 more than the amount returned by the government last year, based on the average of the three-year period immediately preceding federal control.

This sum is \$45,000,000 more than the rate set by the commission last year, 1916, but is \$93,000,000 less than the total of \$1,233,000,000 net operating income which they sought in presenting their applications to the commission. Rate experts of the carriers will set to work tomorrow on the tremendous task of preparing the new tariff schedules which it is planned to file in time for the increased rates—freight, passenger and Pullman—to become effective on September 1. On that date the government guarantee of the standard return of 4.5-5.0 per cent actually will expire and a provision of the transportation act limiting this guarantee to six months after the carriers were returned to private control.

Experts of the commission and the carriers will also undertake to figure the actual money return which will accrue to the roads from the rate increases granted, which are about 32 per cent on freight rates, 20 per cent on passenger, excess baggage and milk rates, and 20 per cent on carriers for space in sleeping and tourist cars.

Increased Revenue Problematic. The annual increased amount to be received by the roads as a result of the rate advances has been estimated at \$1,200,000,000, but until the new tariffs are worked out and put into operation, the exact amount is problematical. With passenger fares increased one-third and Pullman charges advanced one-half, passenger travel probably will be reduced.

Based on the present passenger traffic, these increases are expected to yield the roads a return of \$275,000,000, all of which was sought to absorb the wage advance to railroad workers, which the United States rail-

WIDE CONFLAGRATION IN IRELAND IS FEARED FAILURE OF CIVIL LAW

OBJECT TO TAKE SOVIET'S ORDERS

Berlin, Aug. 1.—Strong opposition to obeying orders from the Moscow government has sprung up in the Russian army on the Polish front, it is declared in a despatch to The Tageblatt, from Koenigsberg. It is pointed out that the Soviet army is to a great extent led by former officers of the imperial army.

LORRY WAS BOMBED; SOLDIERS WOUNDED; FURTHER OUTRAGES

Belfast, Aug. 1.—Five soldiers and two policemen were wounded and a number of buildings were burned in disturbances reported here from various sections Friday night and yesterday.

A military lorry, carrying mail from Cork to Fermoy, was attacked. A bomb thrown from a hedge wounded five of the nine soldiers in the lorry. An airplane, accompanying the lorry, brought the news to Cork. The wounded were taken to a hospital. No arrests were made. The soldiers on the lorry were reported to have used a machine gun during the fight.

The Athlone courthouse and police barracks were burned here from various sections Friday night and yesterday. A large creamery at Thurles was burned during the night, and two policemen were wounded by explosions, chiefly because production in the shipbuilding, textiles and woolen industries has more than caught up with the demand. Secondly, the home public has ceased to buy both necessities and luxuries at the extravagant rate of 1919 and thereabouts. Capitalists are declaring that the excess profits tax does not allow a fair return on investment, and they are therefore unwilling to start fresh enterprises, while the middle class, owing to heavy taxation, is equally unable to act as the consumer.

The announcement that Great Britain was building more than half of the world's total output of ships was hailed here as a great triumph and as proof that England had regained her supremacy in this threatened industry. This is, however, a little less promising than it seems on the surface. The enormous war profits in shipbuilding caused a great rush of capital to this industry and, consequently, the situation of the trade which expected prosperity are reporting depression.

In the cotton trade the depression is increasing and has been during the last two months. Twenty-seven mills are reported idle by Blackburn, and others are running on part time. In raw cotton prices, but more serious is the failure of demand in the eastern markets, and the fact that the home demand has been satisfied. One of the remarkable stiffening in the resistance of the Polish northern army under Gen. Haller.

The chief concern of the experts is the position of the Fourth Polish army, defending Brest-Litovsk. Polish advice declares the pressure upon that army will be relieved shortly by the Polish counter-offensive which is being directed northeastward from the region of Brody, northeast of Lemberg.

A large number of ships are arriving at Lantz daily from French and British ports with munitions which are being unloaded rapidly and rushed to the Polish front, according to word received here. An efficient unloading system has been organized by the military experts, and in putting this system into effect, French, British and Polish workers are laboring side by side without interference, it is declared.

POLISH RESISTANCE STIFFENS IN NORTH

Pressure on Army Defending Brest-Litovsk Will Soon Be Relieved, Experts Think.

Paris, Aug. 1.—The Russian Soviet army is within 75 miles of Warsaw. It has captured Lomza, which is just that distance northeast of the Polish capital, and the towns of Kolno and Szarugzyn, near the German border, in the Lomza region.

In spite of these and other Bolshevist successes, the military experts of the Anglo-French mission in Poland are reported to be optimistic because of the remarkable stiffening in the resistance of the Polish northern army under Gen. Haller.

Three Bulgarians Killed by Lightning at Niagara Falls

Niagara Falls, Ont., Aug. 1.—(By Canadian Press).—The city and district was visited by a brief, but severe, electrical storm yesterday afternoon. Three Bulgarians, who had taken shelter from the storm below a big shovel on the Hydro canal, were killed when a bolt struck the shovel. Another man who was with them escaped with severe burns.

A big chimney stack on the Vaughn Lumber Mills here was struck and the top torn off. The lightning cracked it all the way down and blew a heavy furnace door a distance of 20 feet. Bricks were thrown a considerable distance, but no one was injured. Trees in the city and district were struck and shattered.

BRITAIN FEELING SLUMP IN TRADE

Textile Industry Among Those Hit Hardest—Prices Are Dropping.

Special to The World: London, Aug. 1.—A survey of industrial conditions in the British Isles has been made and the special commissioner, F. A. MacKenzie, has given the summary of results. I believe that they must be of exceptional importance to America.

The first point is that the boom which followed the armistice, what we call the transition boom, is now sagging, chiefly because production in the shipbuilding, textiles and woolen industries has more than caught up with the demand. Secondly, the home public has ceased to buy both necessities and luxuries at the extravagant rate of 1919 and thereabouts. Capitalists are declaring that the excess profits tax does not allow a fair return on investment, and they are therefore unwilling to start fresh enterprises, while the middle class, owing to heavy taxation, is equally unable to act as the consumer.

HEIFER GOES FARMERS; ONE DIES, ONE BADLY HURT

Bellefonte, Ont., Aug. 1.—(Special).—Robert Watts, well-known and highly respected farmer, residing near Wellington, on Friday afternoon was fatally injured by a two-year-old heifer. Edwin and Edward Hanna were driving cattle along the road when a heifer became unmanageable and jumped a fence on Mr. Watts' farm. The latter went to the assistance of the men when the animal attacked him, going him in a frightful manner. Death ensued shortly after. Ed. Hanna was also knocked by the heifer and an ugly wound in the abdomen was received.

Wheat to Teeter and Totter and Make Commissions.

"What will we get for this year's crop of wheat?" is to be the supreme question with the farmers of Canada and the States.

There is a free market in both countries; last year both governments bought all the wheat and sold it. They may not be authorized to do it this year, but not likely. It is to be a year of gambling, speculation, in wheat. The speculators who have all been kept out of the wheat market for Chicago this year, will be in. So all sorts of schemes to boost and knock it will be tried, and if it can be got to teeter up and down the boys will be delighted. There will be "a game" anyway.

Whether the British and French governments working together to place their orders now, or arranging the market as against the exchange of Chicago and Winnipeg will be the main cause of speculation. But they can play it either way and both ways and make the air bristle with transactions on which the broker can at last get commission. And the bill can also get in the game in a big way.

"Bids will be much higher on the railways, that move the wheat; the inland steamers also; perhaps ocean boats, too.

So, in the first place, there will be lots of stories sent out one way, one another, but in any case "to make the teeter go!"

Freight Rates One Third, Passenger Fifth and Pullman Charges Half. MUST IMPROVE ROADS

Washington, Aug. 1.—Rate increases granted United States railroads by the Interstate Commerce Commission are designed to give the carriers an annual net operating income of \$1,124,000,000 or \$241,000,000 more than the amount returned by the government last year, based on the average of the three-year period immediately preceding federal control.

Crew Picks Up Man, But Efforts to Restore Life Fail. IDENTITY NOT CERTAIN

A man, believed to be S. W. Switzer, of Toronto, jumped overboard from the steamer Cayuga, about twelve miles out on the lake from Niagara last night, and was drowned before members of the boat crew recovered the body. Switzer boarded the boat at Niagara-on-the-Lake, where he had spent the day, and was sitting on the main deck. When the steamer had been out on the lake a short time on its way back to Toronto, he walked over to the side, and after muttering a few words which could not be heard by passengers on the boat, he flung himself overboard. The cries for help were given, and the hundreds of people on board rushed to the assistance of the drowning man. Within fifteen minutes time, they recovered the body and brought it on board. All efforts at resuscitation proved futile, and the dead body was carried to the lower part of the boat.

On the left arm of the man's body the name "S. W. Switzer" was tattooed. These were nothing in his pockets that would lead to his identification. The sum of \$1 and one cent was found in his clothing. Policeman Fraser, of Court street station, was on duty on the boat, and he took charge of the body. The police removed it from the dock at the foot of Yonge street to the morgue where an inquest will likely be held. The man, believed to be Switzer, was about 5 feet 8 inches in height and clean shaven.

ALLEGED JEWELRY THIEVES CAPTURED

Police Arrest Four Men Blamed for Recent Robberies.

Four men, alleged by the police to have been implicated in two jewelry store robberies and a shopbreaking case in the east end of the city, were arrested Saturday and Sunday by Detectives Silverthorn, Strom, Crowe and Wickett. The men arrested—Herbert Hickey, Bellwoods avenue; Stanley Curtis, 93 Ryerson avenue; Herbert Spano and Thomas Davidson—will each face several charges of shopbreaking. Louis Turano, 394 West St. Clair avenue, is under arrest, charged with receiving some of the stolen goods from the accused.

To Face Another Charge.

The four prisoners are also charged with breaking into the Danforth Val-canting store, 311 Danforth avenue, and stealing 91 automobile tires. The detectives found a number of the motor tires hidden under some packing cases in the rear of Turano's store, in St. Clair avenue, which resulted in Turano being arrested for receiving.

After Spano, who was the first man arrested, had been held for one week in police court Saturday morning, the detectives cut open the peak of his cap and found two diamond rings sewn inside. Up until Sunday night, this was all of the jewelry recovered by the police.

A resolution proposed by those calling the meeting was killed, after a denunciation of the boycott workers appeared and declared that if the corporation carried the resolution they would not be responsible for the consequences. An amendment was carried by 25 to 5, commending the efficiency of the military and police in disturbances, and declaring the object of the resolutions was likely to be attained only when the government took stern measures to bring to justice gangs of assassins in the rest of Ireland.

SOLDIERS TOOK REVENGE

Tipperary, Aug. 1.—Exciting scenes were enacted here Friday night as a result of the killing of two soldiers in the fight following the escape of Brigadier-General Lucas from a Sinn Fein prison. A party of 20 soldiers went thru the streets, calling out challenges to Sinn Feiners. They entered a moving picture theatre and called on the soldiers there to come out and avenge their comrades. At this point, however, an officer appeared with a patrol and ordered them away.

UNCONDITIONAL RELEASE OF SINN FEIN MEMBER

Dublin, Aug. 1.—A Londonderry message reports the unconditional release of Joseph O'Doherty, Sinn Fein member of parliament, to prevent whose trial the Sinn Feiners recently burned the Buncrana court house, in County Donegal. O'Doherty was arrested on the charge of soliciting subscriptions for the "Irish republican parliament."

HARVESTERS STILL GAIN IN THE CITY LEAGUE

Hamilton, Aug. 1.—Harvesters tightened their hold on first place in the city league on Saturday by losing only one game in a 4 to 4 tie in 12 innings. Tigers, who have protested one Harvesters' victories, defeated Westinghouse, runners up, 7 to 2. Sullivan pitched first-class ball for the Century club, but errors behind him turned the tide in favor of Harvesters. Williams did mound duty for Harvesters.

HAMILTON

More Reconstruction.

The reorganization of city hall department is well under way. The latest to come under advisement is the tax office. The death of the deputy collector and the transfer of another official to the treasurer's department, together with the increased work following the annexation to the city of a large section of the township of Barton, have made immediate action imperative. W. A. Kerr, tax collector, has, therefore, recommended to the board of control certain changes he wishes to be made in his staff, with the salary he desires paid to each of the persons affected. Among those listed for promotion are more than one on Mr. Kerr's staff, who merit the advancement by reason of long and efficient service.

Returned Man Named.

On the recommendation of the city engineer, an appointment has been approved by the controllers of a buying clerk for the civic works department. The man suggested for the post is John Leith, formerly steward at the General Hospital. Mr. Leith has an excellent war record. He went overseas with the 33rd Howitzer Battery, served as quartermaster-sergeant in the C. F. A., in France being appointed to the staff of the salvage department. His qualifications, otherwise, also commended him to the controllers, while his war record gave him merited precedence over the large list of applicants for the position. In Mr. Leith's hands the duties of works buying clerk will be carefully and efficiently performed.

UNKNOWN AUTOISTS RUN OVER WOMAN

Miss Elizabeth Bullock Thrown Out of Cycle Under Fast Moving Train.

Hamilton, Aug. 1.—At 10 o'clock tonight, the police had been unsuccessful in their efforts to locate the driver of the automobile which ran down Miss Elizabeth Bullock, 187 Lock street north, on the Grimsby road, this morning. Miss Bullock was in a serious condition at the City Hospital, having sustained fractures of the skull and jaw.

MACBRIDE SCORES RANEY AND ROLLO

Attorney-General's "Special Instructions" by Brantford Labor Member.

ROLLO ON RADIALS

Labor Minister Accused of "Stalling" on Hydro Development Plans.

Brantford, Ont., Aug. 1.—(Special.)—Mayor MacBride, M.L.A., who has just returned from Nova Scotia, where he took part in helping the Labor cause in that province, has taken issue for his opinion upon the advisability of the municipalities appointing a solicitor to represent municipal interests before the Dryden royal commission on Hydro radicals. He says he is quite sure that the absolute disgust with which all staunch Hydro supporters, including Mayor Church, must look upon the whole proceeding of wasting more money by another commission, which cannot possibly tell the government anything it should not already know. I think perhaps we should be represented by counsel, if for no other purpose than to be in a position to watch the entire proceeding, and to see that the Hydro radicals are not able to carry the fight thru to a definite and conclusive finish. Hydro has nothing to fear from the most searching and thorough inquiry of any phase of its development over the past eighteen years. At the same time we should remember that the opponents of Hydro are, after all, the enemies of the whole principle of public ownership, and we should be on the watch.

The first duty of counsel, if one is appointed, should be to demand the production and publication of the "special instructions" which were given to the Attorney-General Raneley had asked Mr. Justice Sutherland not to read at the opening sitting of the royal commission. What is there in that document that the honorable Mr. Raneley was so prompt to say "undue" and "not read"? If you ask my opinion just now I say that was a piece of down right impudence. Sutherland is a man capable of sitting upon the supreme court bench of this country, and his instructions should not have been necessary for the attorney-general or any person else to read. It is a document which is lost forever from the gentleman reading them if he saw fit to do so.

What are We Drifting?

What are we drifting in Ontario, anyway? Only recently we read of this specially appointed commission, and now a letter of "instructions" to our magistrates in which he all but tells them how and in what manner they are to administer justice on his pet O.T.A. Next we have the incident just referred to, in which Mr. Justice Sutherland is instructed to act as a high court judge, and to act as the chairman of a royal commission. What is there in that document that the honorable Mr. Raneley was so prompt to say "undue" and "not read"? If you ask my opinion just now I say that was a piece of down right impudence. Sutherland is a man capable of sitting upon the supreme court bench of this country, and his instructions should not have been necessary for the attorney-general or any person else to read. It is a document which is lost forever from the gentleman reading them if he saw fit to do so.

Unique Position.

"Ever since the great charter almost, it has been a tradition of British justice that 'the accused, no matter what the charges against him, is to be innocent until proven guilty.' I think Mr. Raneley is the first man to occupy such a position, and to issue 'special instructions' to either a judge or a magistrate. If the same methods of 'instruction' are to be used in the trial of the 'radial' and 'hydro' men, every man who is accused of a crime will be treated in the same manner. Down under the shadow of the mountain in Hamilton, there is a man named Walter Kolo who is the central figure at the head of the editorial column. In a very laborious effort to work up an attack upon MacBride, and in an attempt to justify his own infidelity stand, the Newscaster makes the admission that 'a several months' hold' on Hydro radicals would amount to a bill of attainder. Let us have what appears to be the position of our labor minister. The article concludes by referring to Hon. Walter as a 'stalwart' for Hydro. That is a fine word. Say it over slowly, accent both syllables, and you will see that it is not a word to carry. It is a word which is not in any dictionary, and it is not a word which is not in any dictionary, and it is not a word which is not in any dictionary.

NO RAILWAYS MAY RUN.

Dublin, August 1.—If Premier Lloyd George's threat to "disarm every man on the Irish railways unless they carry arms, munitions, soldiers, police, or anything that the government asks them to carry," is enforced, there will be no railways operating in Ireland next week, according to predictions from those best informed here.

FREE DENNIS VALLEE OF BIGAMY CHARGE

Woodstock, Aug. 1.—(Special.)—Dennis Vallee of Beachville, was acquitted before Judge Wallace, Saturday, on charge of bigamy. Defendant left Beachville one day last April with 15-year-old daughter Canfield, and two days later married her in Kingston. At the time of his disappearance Vallee had been living with Mrs. Vallee whom he had married seventeen years ago.

LACK A QUORUM TO DISCUSS RADIAL

Guelph Council Intended Deciding Action in View of Non-Ratification.

Guelph, Aug. 1.—(Special.)—Although the stage was all set for a special meeting of the city council last evening to take up the local street railway problem, the session did not get under way because of lack of a quorum, and the meeting automatically adjourned. Mayor Westoby and eight aldermen were present, which was just one under the required number to legally transact business. Before the meeting adjourned, Mayor Westoby expressed himself as being greatly disappointed at the failure of the aldermen to turn out on such an important occasion.

STRIKEN IN STORE.

Kingston, Ont., Aug. 1.—(Special.)—Death came with startling suddenness yesterday to Henry S. Crumley, aged 54, for many years a prominent dry goods merchant of Kingston. He was stricken with heart trouble as he entered the store of Newman and Shaw, dry goods merchant. His wife and one son, a son of the late Hugh Crumley, of Kingston.

BOGUS CHEQUE ARTIST VISITING MANY TOWNS

Guelph, Ont., August 1.—(Special.)—From communications received by Chief Rae from various cities and towns, it is apparent that the bogus cheque artist who victimized three local merchants on Saturday last, has been successful in many other places throughout Guelph. It is believed that the cheque artist has made his way into the United States.

MUCH BUILDING IN GUELPH.

Guelph, Ont., August 1.—(Special.)—The building permits issued in the city engineer's department show a very encouraging state of affairs for the month of August. The total represents new buildings and repairs aggregating \$42,470, a large increase over the same month last year, when the total was \$26,123. Up to date, however, building this year does not show up as well as last year.

BIG CONFLAGRATION FEARED IN IRELAND

The August Sale of Furniture and House Furnishings

Begins on Tuesday and Continues Throughout the Week

With Stupendous Quantities of Specially Priced Offerings from Every Department in the House Furnishings Building---

Furniture, Drapery and Upholstery Fabrics, Floorcoverings, Wallpapers, Paints, Pictures, Electric Fixtures, as Well as Chinaware

It is in many ways the most remarkable Sale in all the long annals of the House Furnishings Departments—remarkable by reason of its scope, of the vast quantities of specially priced merchandise secured in the face of tremendous difficulties. The buyers concerned did their utmost to make this August Sale comparable with others, and they have bettered their highest aspirations to such an extent that actually it surpasses in many points other sales of like character. These are the outstanding features:

Variety

Bigger stocks than we have ever before featured in an August Sale naturally pre-suppose greater variety. And this is especially evident with regard to furniture and furnishings for the house of average size. The Furniture includes much from our own factory, as well as large quantities from the most important furniture factories of this country, comprising practically every type of furniture that is needed in a house. The Draperies are immensely varied—not only the merchandise purchased specially, but some that was bought for September, and having arrived ahead of time, is marked at very low prices for inclusion in the Sale. Floor coverings include Rugs and Carpets of Axminster, Wilton, Brussels and Tapestry Weaves, Matting, Linoleums and Floor Oil-cloths—some from regular stocks as well as mill clearances. Wall papers embrace papers for upstairs and downstairs—chintz papers, striped, plain and tapestry papers of many kinds, all printed on good Canadian stock, which means that many are less than half the price of imported papers in the same designs.

Quality

Without hesitation we can state that the quality of the goods offered throughout the Departments far exceeds anything we have hitherto attempted in an August Sale, the merchandise being of the good conservative type and the higher grades demanded by the present-day purchaser. In Furniture the quality of material, workmanship and design are all of a high order, and at figures which, in view of the increased market prices, are almost incredibly low. In Draperies there are fabrics which we have seldom before offered in an August Sale—some, such as art serge, coin spot muslin and fine corded velvets, which have been unobtainable since the early days of the war. In Wallpapers, Floor Coverings and Paints the qualities are all of the higher grades.

Prices

Ever since the August Sale was inaugurated, low prices have been our outstanding aim, and never, speaking on the comparative basis with regard to costs, have we attained our objective more successfully than this year. Never before have we offered better values. Much of the Furniture comes to us at wholesale prices prevailing six to twelve months ago (and during the last few years all kinds of furniture have been advancing in price almost monthly). Much of the Furniture was made in our own factory, of materials which have been in stock since the early days of the war, and is marked proportionately low. In addition we secured the entire bedroom furniture stock of one of the largest furniture factories in Canada, at a bigger discount than we have obtained since 1914. In Draperies, much of the merchandise is marked at less than the present wholesale price. Wallpapers and Floor Coverings also show lower prices than have prevailed for many a long day. In short, values are phenomenal.

Store Opens at 8.30 a.m.
CLOSES AT 5 P.M. DAILY

DELAY IN TAKING
REFERENDUM VOTE
WAS BIG SURPRISE

Dominion Alliance Secretary
Says He is Not Responsible
for Postponement.

WANT QUICK ACTION

The postponement of the taking of the referendum (substantial prohibition) in Ontario, set for October next, until April, 1921, practically extends the wide-open importation of liquor and bootlegging in Ontario for at least another year. Even if the law comes next April it may not be put in operation until midsummer.

Thousands of men and firms are engaged in this business in Quebec and in Ontario, Ontario is being flooded with whiskey from \$5 to \$10 a gallon. The United States (now under prohibition) is also being supplied by bootleg liquor across into New York, Maine, Vermont and Michigan. Many boats, especially motor launches, are running the Niagara, Detroit and St. Clair Rivers.

Attorney-General Raney says he will swear in a lot of special inspectors and constables at once, and has also asked the Dominion government for the assistance of the Royal Canadian Mounted Police.

A prominent temperance worker said Saturday Mr. Drury should call a special session of the legislature to deal with the matter.

But another man, a friend of the government, said Mr. Drury would leave it to the Dominion government, who had postponed the taking of the referendum.

In the meantime a still larger number of illicit liquor dealers, mostly foreign born, are rushing into the business and trying to get into partnership with Ontario citizens who will import the goods and then secretly turn it over to them.

Against Postponement. Rev. Ben H. Spence, secretary of the Dominion Alliance, last night issued the following statement: "The announcement comes as a surprise. Campaign plans have been all ready for the referendum for October 25. It is a matter of profound regret that there should now be a postponement for practically six months. The referendum, and the campaign against it, recognize the injustice of a vote on liquor over a year old. Fifty thousand young men and women come of voting age every year. These have citizen rights. That is, they have the right to be heard. It is a disgraceful thing that during the last year, after fighting our battles for us, should be deprived of a voting voice in some of our own affairs.

ARCHBISHOP MANNIX
GETS A SEND-OFF

Crew of Olympic Stages Hostile Counter Demonstration Across Ship.

New York, July 31.—Archbishop Daniel J. Mannix of Australia, sailed away for Ireland this afternoon on the steamer Baltic, the premier of Great Britain had announced that the Australian prelate would not be permitted to land on Irish soil because of his expressed views on the Irish question.

A remarkable demonstration preceded the departure of Archbishop Mannix, who stood on the after deck of the big Baltic holding two red roses in his hand while he invoked repeatedly a silent benediction upon hundreds of cheering well-wishers who crowded the pier from end to end and waved scores of Irish flags.

Counting Demonstration. Lying alongside the other side of the dock was the steamship Olympic, whose after decks swarmed with the ship's company, who staged a counter-demonstration by waving British flags and cheering for Great Britain, with an occasional hostile note directed against Ireland.

Issues Statement. Shortly after his arrival, the archbishop issued the following statement. "I am deeply sorry that I have been represented in certain quarters as a promoter of strife." He declared that he really was working for peace in Ireland.

to the matter," said Attorney-General Raney on Saturday. "How long will it take to prepare a new voters' list?"

"That I am unable to answer, the intention was to use the old voters' list and I had been assuming that the first announcement would be effective."

MANY ATTRACTIONS
FOR CIVIC HOLIDAY

Outdoor Amusement of
Every Description for Mr.
Public and Family.

The city has applied itself industriously to the preparation for today's enjoyment, and all that remains is for the weather to enter into the spirit of the festival and contribute to the success of the festivities by a clear, refraining from being inclement. Outdoor amusements of every description will take place and Mr. Public, his wife, daughters and sons, will have wide field of selection; everybody will be able to indulge in or witness their favorite sport.

Among other sporting events, the following are scheduled to take place: At Ward's Island the Lake Sailing Skiff Association is holding its annual regatta and will offer the usual program of aquatic pastimes; at the Exhibition track the Motorcycling Racing Association has prepared a program of motor-cycling events; the Toronto Swimming Club meets at Hanlan's Point at 2.30 p.m.; Toronto and Akron will play baseball at the island in the morning and afternoon.

Memorial Fountain. The memorial drinking fountain in Balmby Beach Gardens, to the late Dr. Wm. D. Young, is being unveiled today by Sir John Eaton. Vessell's band has a special program of holiday music; the residents of the Beach are holding a general sports day and picnic taking place all over the city, and may be seen frolicking on the green near the foot of Woodbine avenue; Todmorden branch of the C.V.A. is holding a field day at Rivercourt Park, and the company picnic is taking place at Earlscourt.

Other field days, picnics, sporting events and all sort of things are taking place all over the city, and they are too numerous to mention, the best way to find them is by following the crowd.

POLICEMAN GRABBED GUN
WHEN MAKING ARREST

When Plainclothesman Mulholland approached Ross Avin, 161 Centre avenue, on the street early yesterday morning, Avin is alleged to have drawn a 38 calibre revolver from his pocket and attempted to use it on Mulholland. The officer suspected Avin had a gun and grabbed it from his hand. It was found to be fully loaded. Avin is charged with attempting to shoot a police officer.

ALLEGED "BOOTLEGER"
CAUGHT BY POLICE

John Russell, 431 Church street, was arrested Saturday night by plainclothesmen Clarkson and Mulholland, charged with selling whiskey. The plainclothesmen were investigating a house on Jarvis street, and, on walking in, they asked for a room. The lady agreed to rent one, and when asked if she had any liquor she replied that she had not, but that she could have some delivered in a few minutes. The policemen decided to purchase six bottles at \$4 a bottle. In a few minutes Russell drove up to the house in a touring car. Walking in the front door, he opened a small suitcase and presented the bottles. The plainclothesmen placed him under arrest, and on searching the cellar of his home found seven cases of whiskey.

DOG-CATCHING MUST
STOP, MAYOR ORDERS

Mayor Church instructed Acting Chief Dickson on Saturday to have to be discontinued immediately. The police stopped, and this is the last day on which dogs will be in danger of being impounded.

ASKED FOR MONEY AND
THEN SNATCHED TIEPIN

On a charge of highway robbery, Vincent Griffith, 220 St. Clarence avenue, was arrested early Sunday morning by plainclothesmen Allen and Hutchinson. Griffith is alleged to have stopped a man named Harry Kemp on Brock avenue near Pranklin street, and asked him for money. While Kemp was looking for change in his pocket, Griffith is alleged to have snatched his tiepin. Griffith ran thru a yard, and the noise made by him in getting thru the back door attracted the attention of a lady, who called the police. Allen and Hutchinson entered the yard and found Griffith in hiding.

Nurses and Doctors
Likened to Angels

HERE was still a delicious brogue and a humorous "twish" to Norah's tongue, despite years in Canada and many heartaches. Deserted by her husband, she broke down and for the best of war times by day and family care by night. "Tuberculosis," said the doctor. Only rest could save her. "But doctor, dear, what about the children?" defied Norah. Eventually the "children" were cared for, while Norah was sent to the Muskoka Free Hospital for Consumptives. Eight months effected a cure, and, with help from the Samaritan Club, she is now making a home for the "children."

MOUNTIES ASKED TO
STOP RUM-RUNNING

Attorney-General Raney Requests
Dominion to Lend Province
Force of Men.

The assistance of the Royal Canadian Mounted Police in Windsor and other border points has been requested by Attorney-General Raney. "We have asked the Dominion authorities for their co-operation in cleaning up the whole situation," said Hon. Mr. Raney on Saturday.

"Ottawa thinks that it is a provincial matter," it was pointed out. "That may be so," replied Mr. Raney, "but we are hoping that they will co-operate with us. Up to the present I have not received any reply." Extra provincial policemen are urgently needed on the border, but no appointment will be made for some days. At 9.30 Monday morning applicants to select the men who, in the opinion of the civil service commission, are best fitted to grapple with liquor-runners in Windsor and district.

RECORD MOVING JOB

Adams Furniture Company to Be Ready for Premises in New Store On Tuesday. "Isn't moving an awful job?" is an expression often heard, especially during the selling of whiskey. The Adams Furniture Company showed considerable efficiency in moving several hundred loads of furniture from their old building to the new between six o'clock Friday night and 8 o'clock Saturday morning. Twenty-two drays and 160 men working in two shifts of 75 each, carried thru the job on schedule. On Saturday the necessary furniture was moved. The firm will be ready for business on Tuesday morning in their new building on Yonge street, south of Shuter. They occupied the building just vacated for 20 years, going there from 177-79 Yonge street.

DESIRES BRIDGE BUILT
OVER DETROIT RIVER

Dr. Hugh A. Stevenson, member for London, wants Hon. E. C. Drury to appoint a committee of the legislature to see if a joint arrangement can be made for the building of a bridge over the Detroit river between Windsor and Detroit. He thinks the province of Michigan is interested, and says the province of Ontario could derive a fair revenue from such a bridge.

TRIPLE SHOOTING

Young Dentist Killed and
Porto Rican and Chorus
Girl Badly Wounded.

New York, Aug. 1.—Dr. Jose Aronson, a young dentist who came here recently from Colombia, was found last night shot to death in his home on West Seventieth street, a block away from the house in which Joseph B. Ewell, horseman and whist expert, was shot and killed June 11.

Ruth Jackson, a chorus girl, who, the police say, had been in Aronson's apartment, was found with a bullet wound in her chest. Ignacio Marti, a young Porto Rican, who went to the hospital with a wound in his chest, told the police that he was shot by Aronson at the latter's home, and that the dentist then shot the girl and turned the revolver upon himself.

NEW COMMISSION IS
TOPIC FOR COUNCIL

Aldermen Likely to Move
Amendments to Recom-
mendation of Controllers.

The most important item of business for the meeting of the city council next Thursday will be consideration of the recommendation of the board of control that Messrs. Ellis, Wright and Miller compose the transportation commission in connection with the taking over of the street railway by the city.

The board's suggestion, it should be pointed out, only has the support of three of its members, the mayor, Controller Cameron and Maguire, a most unusual trio to be found in perfect accord on any matter of public policy. Controller Gibbons wants a labor man on the commission, and Controller Robbins is the man of his choice. Controller Ramden prefers John O'Neill to Fred Miller.

It is also openly hinted that some of the aldermen have a name or two up their sleeves, and the present indication is that this phase of the council meeting will be of a decidedly lively character. The general opinion prevails, however, that the majority of the council will eventually favor the three strong pro-Hydro men named by the board of control.

Whoever the three commissioners may be, they will assume their new duties immediately they are appointed by council. They will, it is also stated, at once take up the supervision of the civic car lines and thereby gain some experience, which will be of value to them when they confront their more stupendous task next year of looking after the great transportation system of the city.

The commissioners will also, and there is Mayor Church's authority for saying so, at once take up the all-too-long-pending question of building the Mount Pleasant line, and bring it to an early practical issue. They have also to order new cars, study the bus problem, answer the many other matters incidental to the taking over of the street railway system.

Business in Arrear

Board of control matters are very much in arrear in consequence of the absence from the city of most of the members. Only the mayor and Controller Gibbons turned up at last Wednesday's meeting. Controllers Ramden and Cameron being in Quebec at the municipal convention and Controller Maguire being otherwise engaged. No business could, therefore, be done beyond a few non-contentious items such as the granting of \$2,500 for the purpose of entertaining all the Canadian V.C. men on the first day of the Exhibition. It is understood that meetings of the board will be held on Tuesday and Wednesday in order to clear up arrears, ready for the council meeting on Thursday.

Dr. Hugh A. Stevenson, member for London, wants Hon. E. C. Drury to appoint a committee of the legislature to see if a joint arrangement can be made for the building of a bridge over the Detroit river between Windsor and Detroit. He thinks the province of Michigan is interested, and says the province of Ontario could derive a fair revenue from such a bridge.

TWO GAMES TODAY.			
Eddie Onslow will be back in the Leafs' line-up in today's game with Akron, and his presence should enable the local pennant aspirants to close their home stay with a double victory over their divisional rivals who also have signs on the chief prize. The morning game will be called at 10.30 and the afternoon contest, 3.15. The series now stands at one all with Ryan, Heane and Craft ready for duty, the Leafs are hopeful of making it a "perfect day." There will be a special ferry service.			

LACROSSE GOSSIP.			
The first holiday lacrosse battle to be staged locally since the close of the war will take place at Scarborough Beach this afternoon at 3.15 sharp. Visitors from out-of-town who are interested in the national pastime may see a game worth while at the east end grounds. The officials, neither St. Simons' nor Young Toronto's wish to divulge their probable line-up, but it is likely that a shift may be made on both sides.			

This week's games are as follows:			
Monday—Young Toronto at St. Simons; Toronto at Scarborough; Hamilton at St. Catharines; Weston at Shelburne; Toronto at Stratford.			

Wednesday—			
Brantford at Orangeville; Toronto at Shelburne; Maitlands at Mimico; intermediate; Brantford at Woodbridge; Orangeville at Weston; Maitlands at Young Toronto; St. Catharines at St. Simons.

A WORD OF COUNSEL.

THE most frequent sources of litigation and loss to estates are as follows:—

"Home-made" Wills; Old Wills, not up-to-date; Badly-drawn Wills; Wills executed contrary to Law; Death-bed Wills, made in a hurry, under undue influence.

Have your Will drawn by your Solicitor, and to ensure careful and competent management for your estate, appoint as your Executor and Trustee

IS NOW OIL BURNER.

Gold is to be the subject of the next great boom

Industrial stocks have had their turn, so have the oils. Both are now quoted at prices far beyond the reach of the average speculator.

The mines are receiving a premium of about 15%, or the equivalent of the ruling premium on American money.

This is an important source of revenue and represents on the average an added value of about \$1.50 to every ton of ore milled in the gold camps of the north.

Furthermore, costs are decreasing because of the decline in price of materials used in mining. The gold mines are assuredly coming into their own.

The industry is entering a period of prosperity probably unprecedented in history. If you want to make money, buy gold stocks of merit—and buy them now.

Our list of attractive gold stocks, maps, and copy of The Mining Digest will be sent to you upon receipt of attached coupon.
