

The St. John Observer. ST. JOHN, WEDNESDAY, OCT. 3, 1856.

THE WAR.

The glorious news which reached us on Thursday last, was unfortunately just a day too late for our last week's paper; nevertheless, although now comparatively late in the field we cannot refrain from adding our usual congratulations to those which have so universally been uttered by our numerous contemporaries of the Press.

The allied armies, relative to the magnificent triumph of the Allied Armies on the 8th ult., will be found in our columns to-day, and will afford matter for most profuse and loyal congratulation and rejoicing to the mind and heart of every reader. "Delenda est Carthago" may now be written in the proud and vaunted stronghold of Russian rapacity, tyranny, and aggression. SEBASTOPOL HAS FALLEN! Fallen never to rise again, in the hands or for the purpose of her late and oppressive Ruler! The patience, the suffering, the perseverance, the resolution, bravery and indomitable courage of the noble Allied force of England and France, have at length been amply compensated by the complete capture and destruction of the great object of their toil and endurance, without subjecting them to the fearful hardships and privations of another winter campaign in the trenches of the besiegers. Another winter must of course be passed in the Crimea, but the fearless labours and sufferings of the trenches, and the destructive harassing of the enemies' continual sorties are now at an end, henceforth the brave armies will be unable to pursue their more welcome field operations in comparative comfort, and will enjoy such natural seasons of rest and refreshment, as will properly fit them for the stern duties they may be called upon to perform. It would be needless for us to speculate upon the future operations of the Allies, our extracts from English papers will furnish all and more than we could have said suffice it to observe, that a more glorious operation than the driving the Russians out of their boasted impregnable stronghold of Sebastopol, never graced the warlike annals of historic record, and we cannot doubt that the incalculable advantage thus gained, will promptly and vigorously be followed up by the victors. We learn that the Russian power and name be exterminated in the Crimea, and the whole of that important territory be permanently wrested from her grasp, and so disposed of as to secure the future tranquility of Europe. "A consumation devoutly to be wished."

THE HARVEST.—It is with feelings of unbounded gratitude to the Bounteous Giver of all Good, as well as of hearty congratulation to our fellow countrymen at large, that we record the satisfactory accounts which reach us from all parts of the Province, of the general productiveness of this season's harvest. The earth has yielded abundantly and brought forth much fruit, and our Heavenly Father has mercifully blessed us with ample supplies of food both for man and cattle. Similar, if not greater, abundance has been vouchsafed generally throughout the European and American Continents; all the inhabitants of which have infinite reason to pour out their hearts in humble gratitude and thanksgiving.

The receipt of the news by the America on Thursday last, the most intense excitement throughout the City and vicinity. One feeling of admiration and delight appeared to pervade all ranks and classes, every where were seen in our streets and squares, groups of animated citizens, mutually congratulating each other on the exhilarating and glorious tidings. Salutes were fired continuously throughout the day, by various Ships in Harbour as well as on shore; British and French Ensigns were hoisted in numerous places throughout the City, and every demonstration made, which could extemporaneously be effected, to testify the hearty joy felt by our entire community at this most auspicious event. Last evening the Carleton portion of our Citizens illuminated their side of the harbour, by a brilliant pyrotechnical display, and the firing of guns. At Frederickton, on the receipt of the news on Thursday, a public meeting was held, at which congratulatory Resolutions were unanimously adopted; and a Committee appointed, to prepare and superintend a public festive demonstration, which was to take place yesterday.

The loyal and zealous Polymorphous Society of this City, have issued a notification of a magnificent Celebration, to take place under their auspices on Friday the 12th inst., including the firing of a salute of fifty guns in the morning, a superb Regatta in the forenoon, a brilliant equestrian and characteristic Procession in the afternoon; and another salute of fifty guns, together with the most magnificent and costly display of fireworks ever witnessed in this Province, (manufactured expressly for the occasion,) in the evening. The day's proceedings will end with a third salute of fifty guns. This will indeed be a thoroughly gala day, should the weather be propitious, and inasmuch as the occasion and the various amusements are equally interesting and interesting to every member of our community, we earnestly suggest to our civic authorities the propriety of proclaiming Friday the 12th inst. as a public holiday; a suggestion which we are sure our Citizens in general will heartily approve.

Shortly before 1 o'clock, on Saturday morning, the coeprage of Mr. Lordy, on the West side of Water-street, was discovered to be on fire. The combustibles in the shop caused the flames to spread with great rapidity, and in a short time the store under the same roof, at the head of Johnston's Wharf, occupied by Mr. J. D. Turner, provision and fruit dealer, was in a blaze, and the Blockmaker's shop of Messrs. Carleton, adjoining on Johnston's Wharf, had also caught. The plentiful supply of water from the fire-plugs, and the activity of the fire department, however prevented any great damage being done beyond the buildings named, and caused the loss of considerable stock, but, as well as Charles Johnston, Esq., who owned the buildings occupied by Mr. Lordy and Mr. Turner, are all partially if not fully insured.—Courier.

We are pleased to find that among the various notices which the recent victories of the Allied Armies have called forth, the St. George's Society have adopted one in which the ladies can take part. A Ball—which it is anticipated will call together a large amount of the beauty and fashion of the city and neighbourhood—is to take place under the banners of St. George, at Peacock's Brick Building on the 11th inst. The management is in good hands, and as the room is the largest in the city, it is expected that the affair will be worthy of the occasion which has called it forth.—Id.

FALL OF SEBASTOPOL.—CELEBRATION IN CARLETON.—On Monday evening last, at 8 o'clock, a Royal Salute was fired from the heights in Guy's Ward, Carleton, and immediately afterwards there was a splendid exhibition of fireworks under the control of Stephen K. Foster, Esq. Shortly after this display, about one hundred and fifty persons sat down to a well furnished table in the upper portion of the Temperance Hall; Alderman King presiding on the occasion. The following sentiments emanating from the chair, were heartily responded to by the "goodly company":

THE QUEEN. Louis Napoleon, Emperor of the French. The Allied Armies. The combined Navies of England and France. General Simpson, and Marshal Pellissier. The memory of those gallant men who have recently fallen in the cause of civil and religious freedom. The memory of Lord Raglan, and Marshall St. Arnaud. His Excellency the Lieutenant Governor. The Hon. Mr. Manning, Sutton, and the fair daughters of New Brunswick. The sacred principles of the Loyalists of '83; we honor their memory and reverence their example.

The company separated at about 11 o'clock, after having enjoyed the choicest of refreshments, "a feast of reason and a flow of soul," happily inspired without the aid of intoxicating drinks. God save the Queen.—Courier.

THE MAGAZINES.—We have just received from Mr. B. O'Brien, the October Nos. of Harper's Magazine and Chambers' Journal, both of which we shall most fully notice next week.—They are for sale by Mr. O'Brien. Gentry's Lady's Book, for October, an excellent No. is also for sale by the same.

We noticed some weeks ago the launch of a new ship, called the Mary Head, from the building yard of Mr. Thomas McWilliams, at the Straight Shoal, and we understand that this fine vessel has been purchased by the commanding firm of Messrs. J. & R. Reed, of this City, the owners of the Black Ball Line of Liverpool Packet Ships, for about £13,000. She measures 1245 tons, D. M., 1135 tons, lead measurement, and 1050 tons, register. We learn that the transaction was a cash one, and that this is the second new seven years' ship which the same parties have purchased at this port within the last month or two. She is now named the Peter Maxwell, having been called after a gentleman in New Orleans.—Courier.

We are informed on good authority, that the suggestion thrown out in yesterday's Morning News, relative to boat-racing between the Indian Town and Sand Cove Clubs, is about being acted upon, committees from these Clubs intending to meet for the arrangement of preliminaries, at the Seammell Hotel, this afternoon, at three o'clock. The stakes it is supposed will be about \$2,000 a side. The match, no doubt will be interesting in the extreme.—Evening.

The Boat Club Committees met at the Seammell Hotel yesterday afternoon. The arrangements, however, for the great race have not yet been completed.—News, this morning.

At Grand Falls and at Carleton, where Mr. Justice Ritchie has been holding Circuit Court, the magistrates and other inhabitants have presented him with addresses congratulating him on his elevation, and expressing the fullest confidence in his integrity, impartiality, honor and ability.—Id.

IMMIGRATION.—On Friday last the Pacific Ship Joseph Tarrant arrived, bringing 130 passengers, all well. Many of these are Germans.—Id.

FIRES IN NOVA SCOTIA.—Tremendous fires were raging in the Counties of Shelburne and Queens, last week. Much damage had been produced and it was feared that several mills in the vicinity of the fire would be destroyed.—News.

THE GREAT VICTORY.—Upon the receipt of the news of the fall of Sebastopol, in Montreal, public enthusiasm was unbounded and burst forth in the most lively demonstrations of joy. The Mayor of that city issued a proclamation, inviting all good and loyal subjects to illuminate their residences on Friday evening. The proclamation was to parade the streets in a torch light procession. In Toronto, bonfires were lighted, guns fired, rockets set off, and the greatest excitement existed. In Stratford, the Court of Assizes was in session when the news was received. It was handed to the Judge on the Bench, and read by him amid loud cheers. Some time elapsed before business could be resumed. Rejoicings of the same loyal and patriotic order were manifested throughout Nova Scotia. Halifax on Thursday flags were flying in every street, guns firing, and torchlight processions in the evening; on Friday evening the whole city was illuminated. A complimentary address to Her Majesty on the success of the allied arms in the Crimea, was passed by the City Council of Halifax on Thursday last, and was transmitted by the Steamer which sailed on Friday morning. The Editor of the New York Albion, an Englishman, suggests to the British and French residents of that city, that means be taken for a public celebration as soon as possible.

RAILROAD ACCIDENT.—Toledo, Sept. 26.—The one o'clock morning train from Chicago to this city, ran off the track near this place yesterday. Four passengers were injured, and the baggage matter, it is feared fatally. The train was occasioned by the tender, having the switch open.

It is no use saying anything more about the corn crops in this section. They are so large and heavy that the farmers are actually complaining that they have a surfeit of it. Don't waste your corn because you have a superabundance. Use it bountifully because you have plenty, but build it into casks and store away the balance.—Occoca, Missouri, Independent.

A Bedouin Arab stallion has just arrived in Philadelphia, of the celebrated Kylan breed in Eastern Arabia. He is of grey color, and four years old; \$10,000 has been refused for him, and his owner requires \$12,500. The horse was 166 days on shipboard, during which time he never laid down. He is said to be in excellent health.

FROM CALIFORNIA. The West arrived at quarantine at 3 o'clock, P.M., from San Francisco, with 250 passengers, and \$1,156,000 in specie and 650 passengers. The mines were doing well. The State and County elections were progressing with the steamer left; the result was doubtful. Great political excitement prevailed. A riot occurred at the sixth ward primary election on Saturday. Over twenty pistol shots were fired, and several persons were severely wounded. The U. S. steamer Massachusetts had sailed for the Mexican coast to inquire into the recent injuries to the persons and property of American citizens.

The shock of an earthquake was felt along the coast of California on the 21st of Aug. At San Francisco it was very severe. The British frigate Calypso has arrived at San Francisco from Petropulovski, and the Russian Fort at the river Amur. They found the places nearly deserted. She had three days taking surveys of the river. A Russian iron man-of-war was blown up.

FROM CHINA.—Dates from China are to July 5th. A proclamation had been issued by the Chinese Superintendent of Customs for Kaiangtau, forbidding all exports of rice and other grains.

British & Foreign. ARRIVAL OF THE AMERICA. FALL OF SEBASTOPOL.

The steamship America arrived at Halifax, from Liverpool, at 6 o'clock A.M. yesterday morning, with 186 passengers. She left Liverpool on the 15th, and experienced heavy gales on the passage out. The British steamer Washington which sailed on the 12th, brought intelligence of the fall of the south side of Sebastopol.

The news by the America confirms this account, but as yet few details are to hand. The British fleet, under the command of Admiral Gore, sailed on the 12th, and is now in the Gulf before the close of the season. The important despatches, and his return was anxiously looked for by our allies, who couple his departure with the above report.

THE LOSS OF BRITISH OFFICERS IN THE ATTACK ON THE REDAN FORT ON THE 8th ult., was 25 killed, including three Lieut. Colonels, one Major, 8 Captains, 10 Lieutenants, 17 Sergeants, 24 Corporals, 50 privates, 141 and one missing. The number of rank and file killed had not been reported at the last date received. All the killed except three, belonged to the second and light divisions, commanded by Generals Markham and Codrington, which suffered severely in the battles of Alma, Inkermann and the Quarries, and the remaining three belonged to the 90th Light Infantry, now attached to the Highland division.

THE QUEEN TO THE ARMY. Lord Panmure had addressed the following telegram despatch to General Simpson:—WAR DEPARTMENT, SEPT. 12. The Queen has received with deep emotion the welcome intelligence of the fall of Sebastopol. Penetrated with profound gratitude to the Almighty who has vouchsafed this triumph to the allied army, Her Majesty has commanded me to express to yourself, and through you to the army, the pride with which she regards this fresh instance of their heroism. The Queen congratulates her troops on the triumphant issue of this protracted siege, and thanks them for the cheerfulness and fortitude with which they have labored to its termination. The Queen deeply laments that this success is not without its alloy, the heavy losses which they have encountered; yet she rejoices in the victory, her Majesty deeply sympathizes with the noble sufferers in their country's cause. You will be pleased to congratulate General Pelissier in her Majesty's name upon the brilliant result of the assault on the Malakoff, which proves the irresistible force as well as indomitable courage of our brave allies.

SEBASTOPOL NO MORE EXIST. The enemy, perceiving how firmly we were established in the Malakoff, resolved to evacuate the place, after having blown up the mines, and made runs of nearly all the defences. Passing the night here, in the midst of my troops, I am able to assure you, from personal observation, that the Kaghobina suburb has been completely blown up, and the same thing must have happened before our left attack. This immense success does the greatest honour to our troops. To-morrow we shall be able to ascertain more precisely the result of this great day, in which General Bosquet and MacMahon have shared the chief honours. On the Tchernaya all is peaceable. We are guarding that line.

CRIMEA, Monday, Sept. 10, 11 P.M. To-day I have gone over the town of Sebastopol and its lines of defences. Imagination would strive in the vain to realise the full extent of our victory. Nothing short of actual inspection on the spot could supply an idea of the extent and multiplicity of the works and material means of defence, which very far surpasses all that is recorded in the history of war. The capture of the Malakoff, which compelled the enemy to fly before our eyes, three times victorious, has placed in the hands of the allies immense establishments of material, the importance of which is impossible yet to estimate precisely. To-morrow (Tuesday) the troops will enter the Karabelina suburb and the town. Under their protection an Anglo-French commission will take an account of the material abandoned to us by the enemy. Our soldiers are into with joy.

PARIS, Friday Morning.—The Minister of War has received the dispatch from General Pelissier dated "Crimea, Sept. 11," which states that the loss of the French troops upon the storming of the Malakoff, was estimated at 4,500 wounded, of which 240 were officers. The number of killed, it was supposed, amounted to about one-third of that number.

DISPATCH FROM BRITISH GORTSCHAKOFF. In announcing the fall of Sebastopol in the despatch of the 9th, at once, Prince Gortschakoff says:—"The enemy receives constant reinforcements of fresh troops. The bombardment is very violent. The Garrison, after sustaining an infernal fire, repulsed the assault six times, but could not drive the enemy from the Malakoff Tower. Our brave troops, who resisted to the last extremity, are now crossing over to the Northern side. The enemy found nothing in the Southern side, but blew up the fortifications. On the 9th the passages of the garrison from the Southern to the Northern side was accomplished with extraordinary success, our loss on that occasion being 100 men. We left, I regret to say, 500 prisoners, grievously wounded on the Southern side."

THE BALTIC FLEET. The news from the Baltic this week is not of much interior to the only important one, which is that recently has been the recall of the various blockships from the Cronstadt blockading-squadron, which have added to the pennants under Admiral Gortschakoff.

THE LOSS OF BRITISH OFFICERS IN THE ATTACK ON THE REDAN FORT ON THE 8th ult., was 25 killed, including three Lieut. All the killed except three, belonged to the second and light divisions, commanded by Generals Markham and Codrington, which suffered severely in the battles of Alma, Inkermann and the Quarries, and the remaining three belonged to the 90th Light Infantry, now attached to the Highland division.

FROM PARIS.—Attempted Assassination of Louis Napoleon.—On the night of the 8th inst., whilst the Emperor of the French was at the door of the Theatre de la Renaissance, the carriage containing the Emperor, as he was returning from the entrance of the Theatre, an individual who was standing on the trottoir, discharged, without taking aim, two pocket pistols at the carriage. No one was struck. The man who had more the appearance of a fanatic than an assassin, was immediately arrested. The name of the individual arrested is Bellemare. He is about 22 years of age, and was sent to the prison of St. Pierre, where he is confined to two years imprisonment for swindling.

A despatch from Paris of the morning of the 11th says:—The Emperor leaves Paris to-day for the camp of St. Omer, to review the troops under orders for the Crimea. Bellemare will not be tried; he is mad. He will be taken place.

GERMANY. Hamburg, Sept. 11.—The glorious news of the fall of Sebastopol was received here with great enthusiasm and general rejoicing. The quotations of all descriptions of funds, shares, and other securities, with the exception of the Russian stock, have advanced, and large purchases have been made.

AUSTRIA. The philo-Russian party at Vienna has been taken quite aback by the late news from the Crimea. The partisans of the Western Powers, more than ever, have been rejoicing, after having expended immense sums in preparation, did not act in concert with Austria.

MISCELLANEOUS. Private letters from Berlin speak of the King of Prussia's health as being seriously impaired. His breathing has become difficult. The Queen, on her visit to France, did not escape the petitioning fraternity. No fewer than 100,000 petitions, or begging letters, were forwarded to her.

NOTICE. THE Subscriber has recently erected and put in operation a Steam Mill for the manufacture of CHOCOLATE, BROMA, and other COCOA preparations, and he assures the public that the character of the various productions from the Cocoa which he has borne his name for the last ten years will be fully sustained. To the list of the preparations heretofore made by him, he has added Soluble Cocoa; an article, which from its agreeable and nutritious qualities, the facility with which it may be prepared, and its cheapness, will be found to be superior to all other articles of the kind. Purchasers of any of the preparations bearing his brand or label may confidently rely on their being fully equal in quality to similar articles either of English or American manufacture; and if found unequal to the recommendation may be returned to his agents or himself, who will refund the money. Agents in St. John, N. B., Messrs. RAYSON & SMITH, Halifax, August 25, 1855. JOHN P. MOTT.
