BRITISH BUDGET PLACED AT £812,641,000

19 MILLIONS FOR NEW EXPENDITURE SLATED

Includes Erection of Cruisers and Empire Marketing; Total Debt Given As £7,616,000,000

FRANCE TO START PAYING THIS YEAR

Coal Subsidy Turns £5,000,000 Surplus Into £14,000,000 Deficit In Year, Churchill Tells House; Tax Rate Remains Unchanged With Levy On Betting Added.

LONDON, April 26.—France will begin to pay her war debt to Great Britain during the present British fiscal year. This was one outstanding announcement made by Right Honorable Winston Churchill, Chancellor of the Exchequer, today, in presenting the budget to the House of Commons. France's initial payment will be £4,800,000.

LONDON, April 26.—Introducing the budget in the House of Commons, Rt. Hon. Winston Churchill, Chancellor of the Exchequer, estimated that the cost of running the British government for the coming financial year will be £812,641,000.

This figure includes nearly nineteen million pounds for new expenditures including cruiser empire marketing and other necessary expenditures. The dead weight debt on March 31, he reported, was £7,616,000,000. The floating internal debt was reduced by nearly £38,000,000 during the past year.

The chancellor told the House that during the last year the attempt to place the coal industry on an economic basis had overshadowed all other questions.

COAL SUBSIDY COSTLY.

The coal subsidy, he said, had turned a possible surplus of £3,000,000 into a deficit of nearly £14,000,000. He declared that the nation was richer than a year ago, but that general trade was improving, but that basic industries were depressed.

Mr. Churchill stated that the consumption of beer and spirits had decreased during the year because of his taxation. Under the budget as presented the existing rate of taxation for 1926-27 would be continued.

ECONOMY URGED.

The chancellor said that further reduction in expenditure was imperative, and that the cabinet committee on economy would continue its work.

He asserted that all estimates of the three branches of the military services would be considered jointly. This statement was taken by observers as foreshadowing the Ministry of Defence, which would combine the important services.

He said that the revenue in the permanent branches of the government was barely holding its own, with a strong and swelling tide of expenditures, and that therefore the outlook for them was somewhat bleak.

The chancellor announced that a tax would be imposed on betting.

£7,941,000 DEFICIT

He estimated the revenue for 1926-27 on the existing basis of taxation at £804,700,000. Thus the estimated deficit is £7,941,000.

HIGH WATER WATER ON OROMOCTO RIVER

Level at Mouth Rose Foot Since Sunday; Two Driving Crews Sent

Special to The Times-Star. FREDERICTON, April 26.—The River Valley Lumber Company, with mill at Oromocto, this afternoon sent a driving crew to the north branch of the Oromocto, and another to the Rockwell stream, also in Oromocto waters. This is the first despatch of driving crews in this section, although some work on brooks has been done. Stream driving is more than three weeks late.

WATER RISING

The Oromocto river at its mouth rose one foot since Sunday morning and the ice there is breaking up. Further up the river the ice is firm and extremely high water is feared.

The upper Nashwaak is rising, but ice is still hanging. The Nashwaak Pulp and Paper Company will drive 9,000,000 feet on that river, the quantity being less than usual, as the company bought much pulpwood instead of cutting it.

The Saint John river continues to rise, but the ice is still solid.

News Association Formed In Japan

TOKYO, April 26.—Dissolution of Kokusai, Japan's national news agency, and the formation of a new non-profit mutual news association similar to The Canadian Press in Canada, the Associated Press, in the United States, was announced today following a meeting of representatives of the empire's largest vernacular newspapers.

Boivin Admits Exceeding His Authority In N.B. Liquor Case

SECOND PLANE PLANS TO SEEK CAPT. WILKINS

LONDON, April 26.—Eve was rightly excluded from a banquet in the House of Commons at which 38 unmarried members of Parliament celebrated what they described as their "freedom of matrimonial shackles." Sir Robert S. Horns, former chancellor of the exchequer, presided.

There was an additional writing, notifying the celebrants that this was not "forbidden fruit."

Toasts were drunk in melancholy silence to the bachelors who had become bachelors since the last dinner in 1923. Five Labor bachelors were absent, and the woman bachelor of Parliament, Miss Wilkinson, was not invited.

TO THE question why they had remained single, many of the members gave evasive answer, but Sir Park Goff, who is 55 and has been 18 times "best man," replied: "Marriage is a lottery, and lotteries are forbidden by law. Therefore I shall remain a law-abiding subject."

Bachelor bachelors, which were the table decorations in 1923, are not yet in flower, so trophies were utilized instead.

MUCH LEGISLATION IS DUE THIS WEEK

Falls Bridge Painting to Come Before Committee at Capital Tomorrow

Canadian Press. FREDERICTON, April 26.—The final drive towards prorogation of the Legislative Assembly will commence today with the presentation of the bill for one of the busiest weeks of the session.

There still is considerable amount of legislation to be completed this week, including several bills in connection with the Grand Falls development, as well as a number of government bills still standing for final consideration. In addition the Public Accounts Committee will have a busy day completing their findings with respect to the numerous probes, investigations, and examinations undertaken by the committee during the session.

The committee on agriculture still with several matters which are to be taken up this week for final consideration.

FALLS BRIDGE PROBE.

Tomorrow the Public Accounts Committee is due to consider the report of James Lewis, member for Saint John, for an investigation of the cost of painting the highway bridge over the Reversing Falls at Saint John. Mr. Lewis drew the attention of the committee to the fact that this had cost the province some \$25,000 by day's work, while a few years ago the cost had been \$8,000. The committee will also render its findings on the Lancaster Highway lands, as well as the charges preferred in connection with the River Valley Lumber Company, Ltd.

NOT SERIOUSLY HURT

The city ambulance made a record run to the Bay Shore about 8:30 o'clock this morning in response to a call stating that a man had been injured. It was found that in the heavy mist prevailing at the time, Edward Boone, a fireman employed by the C. P. R., had jumped from the running board of a motor car and received a shaking up. He was examined by Dr. F. L. Kenney, who found no injuries, but to make sure the man was taken to the General Public Hospital for an X-ray. On arrival there it was not thought necessary to take an X-ray and he was sent to his home on the West Side.

Restrictions Placed On Canadian Milk

WASHINGTON, April 26.—Milk and cream imported from Canada would be required to meet health requirements of the respective states to which it is shipped, under a bill drafted for introduction today by Representative Tolley, Republican, New York. A similar measure is expected to be introduced today by Senator Lenroot, Republican, Wisconsin. The bill would affect bulk shipments into practically all border states.

Winnipeg Rector Warns of Americanism In Dominion

WINNIPEG, Man., April 26.—Canon Bertril Heene, rector of St. Luke, presiding at a St. George's Day service for the Daughters of the Empire, declared that there was a grave danger of Americanism instead of Canadianism being developed in the Dominion.

Nerve Saves Life of Girl Hero

While making a speed of 130 miles an hour at Dayton Beach, Fla., the car driven by Joan La Coate, noted French racer, caught fire. Her brakes would not work. She drove into the surf at an angle. The pressure of the water halted the car. This picture was taken the moment Miss La. Coate (crouching in inset) jumped out. Three days later she smashed three world records, traveling at 138 miles an hour.

Comedian, Neck Broken In Finale Of Act, Smiles At Unsuspecting Audience, Dies

CHICAGO, April 26.—His neck broken in the finale of a comic vaudeville sketch, while the unsuspecting audience laughed his approval, Ralph Mackenzie, an 18-year-old student, died here yesterday. Mackenzie played the part of an old professor, who was hazy by a group of college students, and finally tossed in a blanket.

Young Fredericton Couple Married Today

Special to The Times-Star. FREDERICTON, N. S., April 26.—The wedding of Miss Rita McGinnis, daughter of James McGinnis, and Michael McAllinden, both of Fredericton, was solemnized this morning at St. Dunstan's Church, Very Rev. Dean Carney performing the ceremony. After a honeymoon the young couple will reside in this city.

TWO FEET OF ICE AT FREDERICTON STILL

Water Level Only Foot and Half Below Last Spring's Run-out

Canadian Press. FREDERICTON, April 26.—With the water level in the St. John river here but a foot and a half below that at which the ice was carried out last spring, there is still two feet of clear blue ice spanning the river, it was stated today, following examination by the staff of the city waterworks.

During the week-end the water level was heightened four feet, and two inches, the only previous recorded increase being fourteen inches. Ten inches of the latter was recorded for Friday and Friday night. The week-end increase in the level was rapid and was augmented to some extent by the heavy rainstorm which commenced early yesterday morning and continued on well into the afternoon.

MRS. R. TRUE DIES

Aged Resident of Lincoln Passes Away at Fredericton Home of Niece

Special to The Times-Star. FREDERICTON, April 26.—Mrs. Rebecca True, widow of Albert True of Lincoln, died at an early hour this morning at the home of her niece, Mrs. Jas. Pringle, 140 Charlotte street, after a brief illness. The deceased had resided in Lincoln practically all of her life, but came to Fredericton to spend the winter with her niece. She suffered a stroke of paralysis some time ago and died after a few weeks' illness. Surviving are three sisters, Mrs. Mary Patterson, of Lincoln, Mrs. Jane Bird, of Fredericton, and Mrs. Elizabeth Sewell, of Vancouver. The funeral will take place Tuesday.

REPAIRS COMPLETED.

Repairs were completed last week to the Public lighthouse which was damaged by fire during the winter. A new signalling apparatus has been installed which shows a white light visible six seconds and eclipsed four seconds, according to announcement made this morning by H. F. Morresey, inspector of Lighthouses.

WOMAN CALLED AS WITNESS IN CUSTOMS PROBE

Release of Caraquez Man After Prosecution Up Again

ADMITS MISTAKE

Customs Minister Declares He Had No Intention of Blocking Sentence

OTTAWA, Ont., April 26.—For the first time a woman was called as witness at the customs probe today. The letter from the private secretary of the customs department, William Lee, asking for a stay of proceedings in the case of Miss Tremblay, was the prosecution of Moses Aziz, Caraquez, N. B., was under discussion. The letter was translated into French by Miss Juliette Tremblay, a confidential clerk in the customs department. It was Miss Tremblay who appeared to identify her translation of the letter ordering that the proceedings against Aziz be stayed for a while. When the Aziz case was up last week it was disclosed that Aziz had not yet been prosecuted for his alleged smuggling of liquor.

ROBICHAUD'S REQUEST

Mr. Robichaud, M.P. for Gloucester, N. B., had asked that the proceedings against Aziz be put off until he could have a personal talk with the minister. There had not been an opportunity for a full discussion of the Aziz case, "and I have remained on my desk," added Mr. Robichaud.

TERMS OF 15 N. B. SHERIFFS END SOON

Changes Are Expected in York, Sunbury and Kings Counties

Special to The Times-Star. FREDERICTON, N. B., April 26.—Sheriffs for the 15 counties of New Brunswick will begin their terms of office on Saturday May first. It is expected that appointments will be gazetted in the near future.

RUSH DAYS HERE FOR INCOME TAX PAPERS

Friday of This Week Will Be Last Day For Filing of Returns

The office of the federal income tax inspector in the Post Office here anticipates a heavy rush of business this week as the time limit for all returns under this tax act expires on Friday, April 30. Lieut. Col. N. P. MacLeod, in charge of the New Brunswick district, said today that the staff had not had time to check up returns yet, but he thought they were well up to payments made in former years. Mounted police are on duty at the office during the filing period.

STERLING EXCHANGE

NEW YORK, April 26.—Sterling exchange steady. Great Britain 485 15-16; France 388 1-2; Italy 402; Germany 28.80; Canadian dollar 11-5/8 of one per cent premium.

Huge Still Is Taken In Home At Winnipeg

WINNIPEG, Man., April 26.—Federal officers and Royal Canadian Mounted Police combined here early yesterday in a raid on premises in aristocratic Dorchester avenue which yielded what was described as "one of the most sensational moonshine discoveries in Western Canadian records."

Youth Speaks of Race Which Won Him Widespread Fame

Jack Miles, the blond 19-year-old youth from Sydney Mines, who upset the best hope of the sporting world and temporarily, at least, dimmed the lustre of the classic Boston marathon last week against a field of over 100 runners, passed through the city at noon today accompanied by his father, mother and two Boston newspaper men, Bill Cunningham, James, photographer, Dr. J. Sullivan, also of Sydney Mines was in the party. He had followed the fortunes of his young fellow townsmen in the glorious event that has made him the talk of the sporting world. Eli Lynn, theatre manager of Sydney, was aboard the Boston Express too, and saw the race in Boston.

JACK'S A TEAMSTER

While ready to answer the flood of questions from all points as knots of young folk were not doing any voluntary talking. He is just a plain, healthy, respectful lad about 5 ft. 7 in. tall, medium heavy in build. He said he was a teamster for the British Co-operative Co. and a lover of horses, and that he was with his father and 'uncle' or Jack as his father and

his case for Aziz, he was willing to issue an order. He did not believe that his order for a stay of proceedings was worth the paper it was written on. He doubted if his order would be carried out.

WHAT JACK SAYS

Speaking of the contest itself, Jack Miles said he was led for 18 miles out of the 24 by the terrible Finn, Stearns. Then he noticed the famous runner's legs beginning to quiver. This was his cue to put on extra effort. In a few minutes he was abreast of the foreigner and for the next five miles the Cape Breton boy drum-majored the procession.

PARENTS FELT SURE

Mr. and Mrs. Miles were in an automobile on the outer edge of the crowd at the race, but by standing on the seat they saw their boy do to win after the 20th mile had been passed. They had seen him win numerous events in Cape Breton in late years, ranging from one mile upwards, including the Nathanson cup race, which is run every May 24 in Sydney, and in which Jack is to compete next month again.

ADMITS MISTAKE

"There had been a mistake on my part in the granting of an injunction," Mr. Bovin further stated. "I had been under the impression that I was preventing the carrying out of the sentence. He had hesitated somewhat though about giving two definite refusals to the same member of Parliament in the matter."

CASE WELL KNOWN

Mr. Bennett remarked that the case was already well known along the North Shore of New Brunswick, and there has been a great deal of interest in connection with the administration of justice in this case.

BALDWIN TAKES STEPS TO AVERT BIG DISASTER

Only Five Days Remain Until Mine Subsidy Ceases

ELECTION HINTED

Premier Threatens To Take Pits Out of Hands of Owners and Miners

By HERBERT BAILEY British United Press. LONDON, April 26.—A sudden realization that a stoppage of production of coal may involve Britain in the biggest industrial strike ever known in history, and may even include the closing down of newspapers owing to the printers being drawn into the struggle, is forcing Premier Baldwin, the mine owners and the leaders of the Trades Union movement to try every means under their control to avert such a disaster.

GENERAL VOTE POSSIBLE

It is recalled in political circles that if the coal strike is supported by the other unions it would create a political situation which might bring about a general election. This result Lord Birkhead has already hinted at.

Premier Baldwin is credited with the intention of taking the mines out of the hands of both the owners and the miners if he cannot secure a settlement which would mean radical legislation so that he might feel necessary to take the country's decision on the issue of such a settlement before attempting to pass such a law.

OPPOSITION LIKELY

Should the Prime Minister decide to inaugurate such a drastic policy he would meet with considerable opposition within his own party but it is said he is fully prepared to face this if he believes it is the only solution of the problem.

PROTECTION ON BRITISH RUBBER IS INCREASED

New Restriction Aims To Keep Price At 21 Pence

OLD MARK WAS 15D

Maximum Export Limit of 500 Pounds An Acre Is Abolished

Canadian Press. LONDON, April 26.—The element of uncertainty which has existed in the outlook for the crude rubber market and rubber shares has been removed. The colonial office announces that a new method of output restriction will go into effect in August if rubber meanwhile falls below 21 pence (42 cents) a pound, whereas the original restriction scheme aimed at keeping the price over 15 pence.

MAXIMUM RAISED

The maximum limit for the assessment of standard production in the case of small holdings, will be raised to 500 pounds an acre for mature rubber and 200 pounds for rubber in bearing but not mature.

"My! What Delicious Bread"

"Yes, it's Butter-Krust, that new and tasty loaf baked by Robinson's, Ltd. I tried it the first day it was advertised and I have bought it ever since.

"Really, dear, it's always good. Every loaf my grocer delivered was just like this and since we have eaten Robinson's New Butter-Krust Bread we do not care for any other.

"I used to bake bread myself, but since I can buy bread as good as Butter-Krust, I think it is a waste of time

and energy. Every loaf is exactly the same—good, wholesome and delicious.

"You know, Robinson's, Ltd., use nothing but the best ingredients and watch every operation to see that everything is just right in their bakery. And that's why they turn out such wonderful bread.

"All of our family enjoy Robinson's New Butter-Krust Bread and I am sure no better bread can be made."

ACTION COMING

"Parliament must deal with Maritime Province grievances," says the Toronto Mail and Empire editorially.

It is an excellent development that both Liberal and Conservative journals in Toronto, and indeed throughout Ontario, have come to the point where they are denouncing the Maritimes as given their place.

It is very seldom that the enemy's tactics are acceptable. The appointment of the Duncan Commission appeals to the Mail and Empire as a useless sort of gesture, insincere and wholly unlikely to produce the desired results.

"Instead of at once consulting with the members of the House representing that part of Canada and taking their best advice for the remedying of the economic ills of the Maritime Provinces, the King Government appoint a Royal Commission to find out what those ills are and to report as to what should be done about them."

It is very seldom that the enemy's tactics are acceptable. The appointment of the Duncan Commission appeals to the Mail and Empire as a useless sort of gesture, insincere and wholly unlikely to produce the desired results.

The Last Straw (Exchange, British). Bostonian culture extends even to lowest classes. A tramp charged with drunkenness in New York gave his birthplace as Boston. "Indeed," said the magistrate, "you're a sad fall. And yet you don't seem to thoroughly realize how low you have sunk." The prisoner started as a stroke, and exclaimed: "The disgrace of arrest, the mortification of being thrown into prison, the publicity and humiliation of trial in a dingy, crowded courtroom. I can bear; but to be sentenced by a magistrate who spits his indignation—that is indeed, too much."

Wonder What Happened

POEMS I LOVE

"To Helen," by Edgar Allan Poe. The saddest figure in American letters, the most tragic career of any great man—that is how one inevitably thinks of Poe. His was a life of storm and struggle; and it is ironic to think that the simple cottage which sheltered this genius who suffered the bitterest poverty, is now a shrine which thousands of people visit each year.

THE BEST OF ADVICE

IT IS CUSTOMARY today to deride the age as material and ungodly. The age-old beliefs are being questioned and discarded. Men and women yearn for more and more of the material things of life and care less for spiritual values.

Alone UNTIL yesterday, this girl's husband had lovingly encouraged her small extravagances and boasted laughingly that his income was ample and growing.

He worked with might and main to "gather the fruits of success for his fair trinity at home"—and was succeeding.

But death, without warning, cut down his guard, and the three he loved more than his own life were now at bay to the world—alone.

Her faith was strong. Her husband she knew, would not leave her with the children to face a financial situation for which there was no solution. Yet when she tried to calculate the income she would receive from the savings he had left, a panic of fear overcame her.

The greatest and hardest of her duties now was the one she knew the least about. If she had come to you for advice—that would have been her story.

Perhaps someone depending on you is destined some day to be left alone—at bay to the world. This is a situation so appalling that its very contemplation makes thinking men turn cold with apprehension. That is why we have written a little work called "Her Way Out"—to make you realize how serious is the situation which may overtake those for whom you believe no sacrifice or effort is too great.

In addition it provides the one sensible solution for such a tragic problem. Would you like to have a copy? We will be pleased indeed to send you one.

Can the Engaged Couple Who Cannot Afford to Marry Find Happiness Outside of Wedlock?—Should We Be Absolutely Frank With Others?—Why "Keeping Company" is So Unfair to the Girl.

DEAR MISS DIX—A young man of character and good morals has suggested to his fiancée that they live together, lack of funds having prevented their marriage. Is happiness to be found by following the dictates of love and does that happiness last? If his love is sincere, would he have made this suggestion if he were not a man of character and good morals? Do people who live together unconventionally eventually marry? Just what does the girl sacrifice? The girl is decent in every respect. Does love make a difference? If it is her only chance of happiness, should she take it? What are your ideas and your advice?

ANSWER:
To begin with, no young man of character and good morals would make such a degrading proposition to his fiancée. He would not be willing to sacrifice her to his passion, nor to make of her that pitiful and bedraggled thing—a woman with a past, who lives in terror and dread of her neighbors and her children ever finding out what she has been.

The man's excuse for making this suggestion to his sweetheart is as contemptible as his proposition, for the price of virtue is no higher than that of vice.

A wife is no more expensive than a mistress, and it costs no more for two persons to live together when they are decently married than if they are doing so without benefit of clergy. Moreover, so many women continue to work after marriage now that the woman's earning power would be no less one way than the other.

Of course, men and women who live together unconventionally do sometimes eventually marry, but not often. Generally, the man gets tired of the woman, and after he has taken the best years of her life and her youth and good looks are gone, he wearies of her and throws her aside as a child does a broken toy of which it has wearied.

The conditions under which those who live who defy the conventions do not foster love. Instead they put an almost intolerable strain upon it, and there are few liaisons that survive longer than a year or two.

To begin with, the loose relationship between the couple promotes jealousy. Each is eternally suspicious of the other. Each, knowing the other recognizes no law higher than his or her desires, is eternally fearful that some gust of fancy will blow the other in a new direction.

This is particularly true of the woman, who nearly always gets to the place where she feels that she has sacrificed her virtue, her right to affection from her husband and her respectability for a man who does not care for her as she deserves.

Then, no matter how much two persons may think they love each other and that they can give all for love and the world forget, they soon find that this is not true. They realize that they are ostracized by their mutual friends. And when they realize that they are ostracized they begin to count the cost and find it too much, and to hate each other for their mutual folly.

You ask what the woman sacrifices in such a case. Everything that makes life worth living. Her self-respect, her virtue, her right to love the world in the face. The right to have her children respect her and honor her. The right even to a husband's respect. No man is worth the trouble of being with a woman who is ostracized by her mutual friends. There is no happiness to be found anywhere except in right doing and clean living.

DEAR MISS DIX—Do you believe in being absolutely yourself, no matter how you act? Should we be absolutely frank? And when should we use subtlety? Can you square the Golden Rule and competition?

ANSWER:
Heavens, no! If most of us were absolutely ourselves and acted just as we felt, we would revert to savagery and go about with a hatchet or a stone club smashing everybody who got in our way.

It has taken centuries of civilization to keep us from being absolutely ourselves and to put a restraint upon our actions. We work when we feel like loafing. We put on the smile that won't come off when we feel grouchy and gloomy. We force ourselves to speak pleasantly when we would like to howl and curse and swear. We throw out our chests and put up a brave front, when inside of us we are quaking with terror.

In a word, we control ourselves and our appetites and our passions and our tempers and our tongues, and try to act as we should act and not as we feel like acting. That is why our fellow creatures can endure us and we have a few friends.

As to your second question, I think frankness is one of the virtues that lean to vice's side, because nearly always the people who pride themselves on being frank merely use it as a cloak for their brutality. You will observe that when most people want to say something very insulting to you or something that will hurt your feelings, they always preface it by saying, "I am always perfectly frank and candid."

When it is a matter of principle and you must take sides on a question, it is, of course, necessary to be perfectly frank and say just what you think. Frankness is also the only honorable thing in making any sort of a contract.

But just in general, everyday life, it is not incumbent upon you always to express your opinion when it differs from those about you and thus precipitate an argument. In such cases lack of frankness is not hypocrisy, it is just good manners.

Of course, the Golden Rule works out in real life. Honesty, for instance, is really the best policy, as every big business proves. We go to the shops where we don't have to watch the scales or the yardstick.

The men who build up fortunes are those who are trusted. There is no surer way for a young man to win advancement than by giving to his employer the kind of service that he would like his employees to give him.

DEAR DOROTHY DIX—Suppose you had an 18-year-old daughter who insisted in taking part in petting parties. Wouldn't you consider her much safer if she kept company with one young man than she would be if she accepted attentions from any man who sought her company for the evening only? Don't you think the petting party is the real answer to the old question of why girls will, and always have, submitted to the "keeping-company" proposition?

ANSWER:
Any girl who takes part in "petting parties" is standing on the very brink of the pit, and nothing but the mercy of God saves those who don't go over the brink. Personally I should think she was in more danger when she concentrated her petting on one man than if she diffused it among many. Certainly there are less chances of harm in a casual good-night kiss to a perfect stranger than in constant familiarity with the "steady" against whom a girl ceases to be on her guard because she is so accustomed to him.

But it is no sense of fitness or delicacy that makes girls submit to the "keeping-company" proposition. It is because they have been rightly taught to let men impose it upon them. And the objection to it is its unfairness to the girl, for it gives a man everything and commits him to nothing. He can pet and pet and rub the bloom off of the rose, and then when he is tired he can cast the flower aside and hie on to fresher gardens.

He has taken the girl's time. He has kept other men away and perhaps prevented her from making a better match than he would have been. Very often he has won her heart, but when he goes he leaves her without redress.

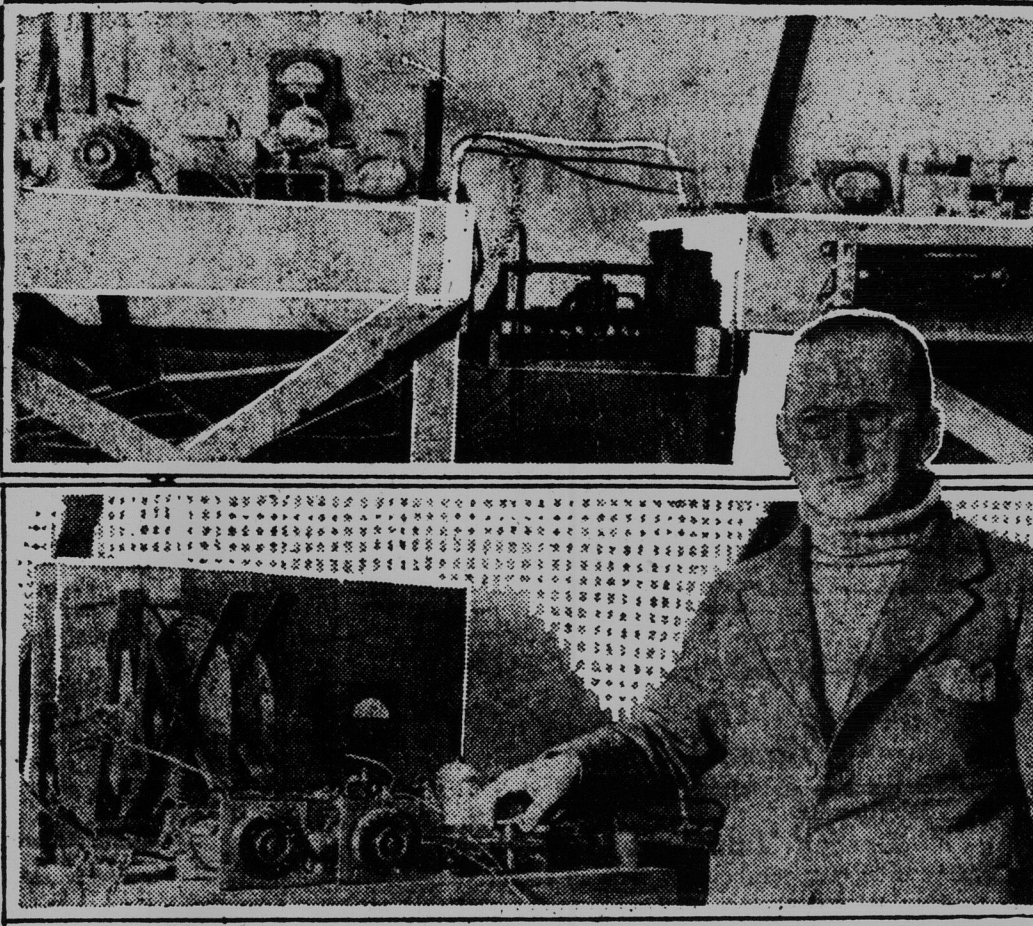

That is why I think any girl is foolish to tie herself down to one man and give up all other men for him until she definitely engaged to him.

Secret Transmitting Advice For Radio

Upper photo is of Chisholm's transmitter showing the regulator mechanism in centre, which gives the combination in wave lengths. Below, Chisholm with one of his special transmitters.

By JACKSON V. JACOBS
Who cares to cut in on the air, who cares to get the communications on their sets. A combination of wave lengths is used. He has turned an old garage into a studio and the transmitters are housed in a tiny booth.

A limited company has been formed to commercialize the invention and Chisholm will be the managing director.

Three veal kidneys and take out the fibrous parts. Spread both sides with a mayonnaise, season quite highly with pepper and salt, roll in bread crumbs, dip in melted butter, and broil over a hot fire. Serve at once.

Tomatoes, Corn and Cheese—Use one can corn, one pint can tomatoes, one-half pound cottage cheese, one tablespoon cracker crumbs, one tablespoon butter. Put a layer of corn in a buttered baking dish, layer of tomatoes, a layer of cheese, and repeat. Sprinkle cracker crumbs over top, dot with butter, and bake for one-half hour. Fresh corn and tomatoes may be used in season.

Brazilian Meringues—Beat the whites of three eggs with a pinch of salt, then add gradually two cups of powdered sugar, flavor with one tablespoon of lemon juice, and stir in one cup of chopped Brazil nuts. Drop the mixture from a teaspoon on well greased baking tins, and bake in a moderate oven.

IN NEW YORK SEE-SAWING UP and DOWN BROADWAY

CERTAIN night clubs, it seems, try to keep tabs on fast-purged "butter an egg" who come to town. Wires are then pulled to get the visitor to bring a slice of his bank-roll to the place for a night's spending. The other day the proprietor of one place heard through his private sources of information that such a prospect had arrived. He had an agent call the hotel, bid the man welcome and announce that a case of fine sherry was coming over. Shortly afterward an automobile was carrying the gift to the prospective spender. The proprietor was highly pleased at his bright idea. That night he waited. The "victim" didn't come.

The next day the visitor came on the phone. "Say, did you send over that wine?" "Yes," returned the salved voice of the cafe.

"Is that the brand of liquor you serve?" "It certainly is," said the cafe man, highly pleased.

"Well, it's the worst stuff I ever drank and I'm mighty glad to find out where it comes from so that I won't go there."

ADVENTURES of the TWINS by OLIVE ROBERTS BARTON

A CHANGE OF TUNE
Nick took the big box with Ringtail Coon's spring clothes in it under his arm. I'd rather have a good time, I've fooled them all now— Suddenly he stopped. There, on the bank opposite sat Nick and Nancy and Mister Tingaling in a row. All of them were quietly fishing and watching the water, not saying a word. "I wonder if they saw me," thought Mister Ringtail Coon uneasily. "I don't believe they did. I'll just slip away quietly and they'll never—" But just then his eye lit on the hat on Mister Tingaling's head. Not his hat, cream saucer hat with the feather. "A new green one exactly like one Ringtail had just ordered. And the little fairymen had on a new coat, too! One with big zig zag stripes on it like flashes of lightning. Exactly like the coat Ringtail had ordered also. And the fairymen had on a necktie with big sky-blue mosquitoes all over it. And out of his breast-pocket hung a silk handkerchief with lavender grasshoppers and pink snails in the corners. By this time Ringtail Coon was so worried that he called across the creek. "Hi, there! Those are my clothes you're wearing, Mister Fairymen! They are my best new spring clothes and you can't have them." "Oh, hello, Ringtail," said Tingaling. "If you can't pay me my rent so I can get some clothes, I'll have to borrow yours." "I'll pay you! I'll pay you right now," said Ringtail reaching for his pocket-book. So Mister Tingaling got his rent and Ringtail went home with his box of clothes.

RADIO LEAGUE OF MARITIMES IN CONVENTION

Delegates Praise Work of Amateurs in Two-Way Communication

JOS. FASSET GETS MAYOR MURPHY CUP

Acting Mayor Frink Offers Cup To One Best Boosting Maritimes

THE high place that the Maritime Provinces and Canada have won in the world of radio communication, was the keynote of the annual convention of the Maritime Branch of the Radio Relay League of America in the Admiral Beatty hotel here Saturday evening.

Because of the proximity of amateur transmitting stations to the Atlantic seaboard this section of North America is credited with the most outstanding achievements in two-way communication with Europe. The winner of the cup donated by former Mayor John Murphy, of Halifax, Joseph Fasset, of Dartmouth, N. S., has "worked" the principal countries of the old world and hung up a record said

to be unequalled by any other member of the relay league on this continent. It was further disclosed that vital assistance has been given by Maritime radio keymen to Arctic explorers and in a general way to others using this method of long distance communication in emergencies.

The convention was attended by the leading amateur transmitters of New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland. Technical experts from American centres, were present and addressed the gathering in addition to Canadian radio workers of note. Acting Mayor Frink of Saint John, offered another silver cup to succeed that of former Mayor Murphy, of Halifax, to the member of the league doing most to present the Maritime Provinces prominently before the world per the air.

PROCEEDINGS BROADCAST.

A transmitting set in the banquet hall broadcast the proceedings for scores of miles around about. The meeting was technically, socially and educationally a decided success. At each place around the festive board bits of radio literature were distributed explanatory of the purpose and progress of the American Radio League, which according to one historical sketch is termed a great fraternity of radio experimenters, students, hobby-riders, sportsmen and plain lovers-of-the-other-fellow who have formed themselves into a society round about the world, to which they bring their loyalty and skill in transmitting message one to the other. The league is purely amateur though approximating the professional radio club in efficiency and ingenuity and because of this they accept the sobriquet which dubs them "ham" as a compliment. In the world of telegraphers a "ham" is a clumsy-fisted operator, a learner usually. It came out in the speech reception and transmission better or more prolific than in the Maritime Provinces of Canada. Indeed this section of the map is famous in radio circles for that reason.

DR. FRINK OFFERS CUP. Acting Mayor J. H. Frink welcomed

the radio "brass-pounders"—code transmitters—in his characteristic good-fellowship style and before closing offered to donate a silver cup for the best all-round two-way communication achievement as soon as the cup given by ex-Mayor John Murphy had been won three consecutive times. The present winner is Joseph Fasset, a prominent member of the Radio League whose station is located in Dartmouth, N. S. Major Borrett received the cup for the absent winner.

Mr. Fasset was awarded the "Murphy radio cup" for his record-breaking work. This cup was donated by ex-Mayor Murphy to be awarded to the owner of the amateur radio station who had done the most during the year to put the name of the Maritimes before the world, and a glance at the map of the world will show the Dartmouth man has done excellent public work for the Maritimes by his two way work which has always brought the name of Halifax to the front. Among the countries that his station is now known in are the following: Argentina, Bermuda, Brazil, Cuba, Czechoslovakia, Denmark, France, Great Britain, Greenland, Finland, Holland, Italy, Iraq, New Zealand, South Africa and Australia. Also all over the United States and Canada. These achievements won Fasset the cup.

HOW IT WAS DONE.

A record such as the above can only be obtained, it was said last night, by hours of painstaking work both in the building of a transmitter and a receiver, and by careful adjustment and efficient operating. Most of Fasset's record was established on high frequencies (or low waves in other words), and often Mr. Fasset operated as low as a wave at 18 metres, on which wave he operated right across the continent of America in broad daylight. By using such a low wavelength—which is out of the range of local amateurs can operate without any ordinary radio set. It is claimed, knowing that they are on and in addition to the wonderful daylight distances obtainable, they cause no interference to the broadcast programs.

ASSISTED EXPLORERS. Mr. Fasset's station in Dartmouth played a leading part in the sending

and receiving of news from the K-Mililla expedition while they were at Etah, North Greenland, and on many occasions gave Commander McMillan's radio operators messages of greetings and other personal messages to the crew which could not be delivered to the expedition in any other way than by amateur radio. This service alone justifies the existence of such amateur stations.

Major Borrett, divisional manager, sketched briefly and interestingly the accomplishments of the members of the Maritime branch in reaching out to distant places, nearly all of them having "worked" European stations.

J. M. Clayton, of the radio magazine QST, Hartford, Conn., discussed in technical terms many of the problems, departures and achievements of overseas transmitting and receiving. He is a radio technician. James E. Palmer, of Fredericton, also spoke, as did Loyd Reid, of Newfoundland, who told of his chatting with Spain, Germany, Poland and other faraway places from his outfit at St. John's on the ocean's edge. H. S. Thompson, of the Marconi Company staff, gave some outstanding incidents of radio usefulness and complimented the league upon its work.

INITIATION.

Then came an amusing episode, the initiation of a group of members who had "worked" Europe into the dignified fraternity of "Rotary" Royal Order of Trans-Atlantic Brass-Pounders. Blindfolded, the key-liters were put through a series of hilarious stunts. Later the whole party were asked to compete in sending code messages by tapping the key with the nose, untangling radio wires, reading and send-

ing signals backwards and various other tricks of the game. Valuable prizes, mostly radio equipment parts, were given. It was a merry touch to the proceedings and in Mr. Atkinson's capable hands went off appropriately.

OTHER ITEMS.

It was announced that Warner Brothers, picture producing concern, was sending out a radio equipped van across the continent from Hollywood which would be the objective of many signalers as cash awards amounting to \$1,000 were to be given for the best communications. The signal of this traveling outfit is 6-KY and the Hollywood base 6-XDR. District Manager Borrett requested the members of the Maritime branch to keep up an exchange of news per the air route and asked that an special watch be kept for intelligence of the North Pole expeditions. He thanked P. D. Thorne for his broadcasting of the proceedings and Messrs. Lacey and Atkinson for their local labors in making the meeting such a success. The party disbanded with a terrific broadcast of Auld Lang Syne. During the evening songs were sent forth from the hotel by the league outfit.

THOSE PRESENT.

Those present included Divisional Manager Major William C. Borrett, (Signal 1-D-D), Dartmouth, N. S.; Assistant Divisional Manager Thomas Lacey, (1-EL) Saint John, N. B.; Assistant Divisional Manager Walter Hyndman, (1-BZ), Charlottetown, P. E. I.; Divisional News Manager Elliott Campbell, (1-DY) Halifax, N. S.; Dist. Supv. Loyd Reid, (8-AR), St. John's, Nfld.; J. Fraser Gregory, J. P. Robison, representing Department Marine and Fisheries; Frank P. Vaughan, M. C. S. M. A. I. E. M. E. I. C.; Dr. A. E. Macaulay, Roland McAvity, Frank D. Thorne, A. Lee Atkinson, Dr. J. M. Cruickshank (G-M-C), George F. Gregory, A. E. Mcpartry, J. E. Clarkson, George B. Ingraham, Acting Mayor Frink, all of Saint John; James E. Palmer and G. McCormack, Fredericton; Alex. A. Macdonald, Halifax, and J. L. Fenderson (1-A-F), Quacquet River,

N. R. J. M. Clayton, assistant editor of QST, a leading radio publication, was present from Hartford, Conn. and addressed the meeting. A. Lee Atkinson, of Saint John, was local chairman and chief of the committee of arrangements whilst Major Borrett, as head of the league branch, conducted the general proceedings.

Weddings

VanWart-Ellison. A wedding which has been anticipated with interest was quietly solemnized in Trinity church at 6:15 o'clock this morning, when Marjorie Pearl, youngest daughter of Mr. and Mrs. Alexander Ellison, became the bride of Robinson LeBaron VanWart, son of Mr. and Mrs. J. Robinson VanWart, 53 Albert street. Rev. Gordon C. Lawrence, the rector, performed the ceremony. The bride, who was unattended, looked charming in her traveling suit of navy blue chamoise, with small navy blue French hat and blonde shoes, stockings and gloves. She also wore a brown fox fur, the gift of the groom, and carried a nosegay of flowers. Donald Ellison, brother of the bride, and George MacDonald, her cousin, acted as ushers. Dr. H. C. Dunlop presided at the organ and rendered appropriate music. After the ceremony, Mr. and Mrs. VanWart left on the early train for New York, where they will visit Miss Muriel Ellison, Reg. N., and Raymond Ellison, sister and brother of the bride. Among the many beautiful gifts received were an electric bridge lamp from C. A. Munro, Canterbury street, by whom the bride was employed, and

an electric grill from her associates on the staff.

Jenkins-McLeod.

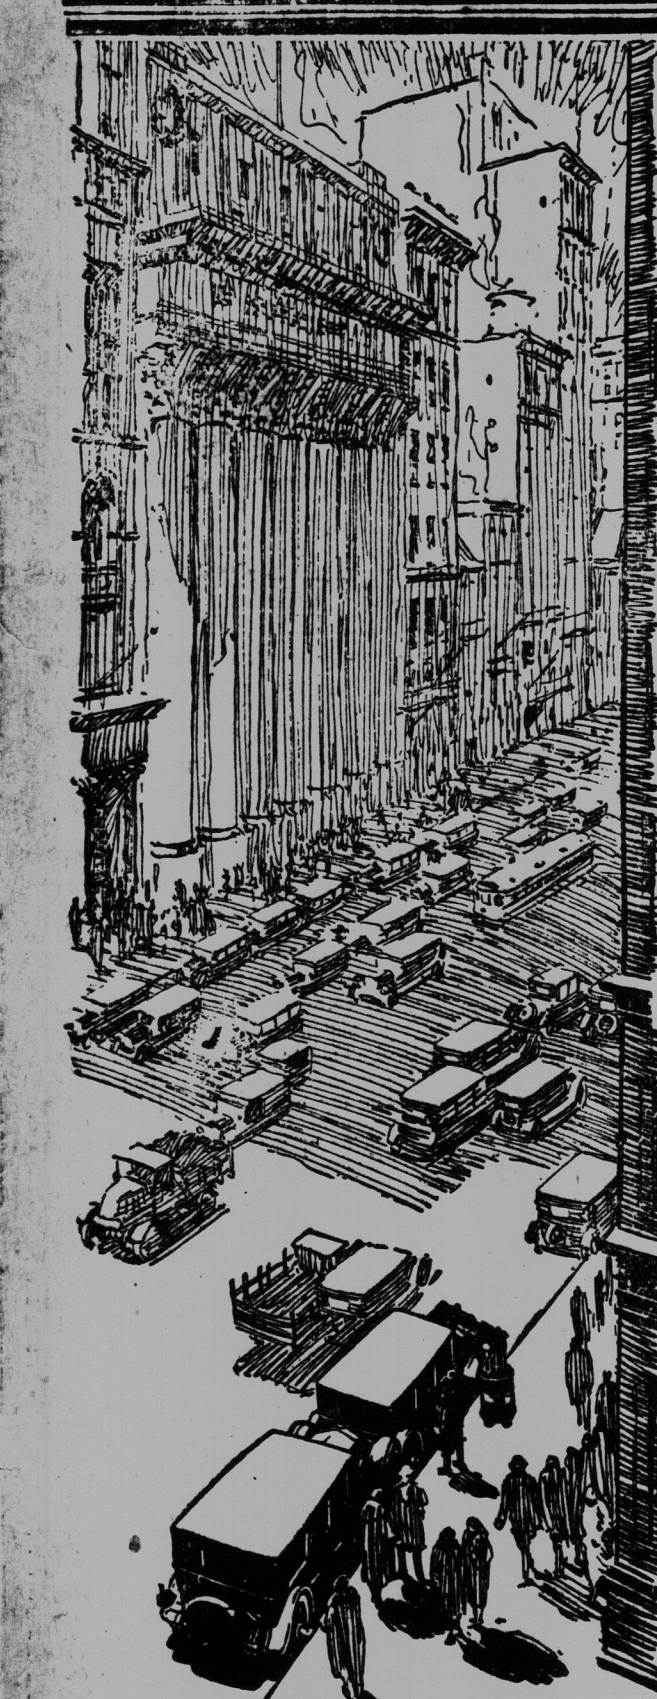

The marriage of Miss Mary McLeod, daughter of Murdoch McLeod, of St. Anne's, C. B., and Victory Samuel Jenkins, of Saint John, was solemnized on Saturday evening at the residence of the officiating minister, Rev. A. L. Teiford, 187 Waterloo street, at 8 o'clock. The bride was becomingly gowned in a navy blue suit with hat to match. She was attended by Miss Ethel Hazel Perry, Carl Meredith MacCollum was groomsmen. Mr. and Mrs. Jenkins will make their home at 104 Winter street, Saint John, and have the best wishes of many friends.

POLICE CALLED.

Yesterday morning at 8:15 Detectives Kilpatrick and Garter were called to a residence in Rockland Road on a complaint that some person, who was acting in a suspicious manner, was loitering about the premises. On the arrival of the officers they made a search but could not find any person.

Seventy Parade To West Side Church and Hear Sermon By Rev. J. Unsworth

ST. GEORGE'S SOCIETY AT TRINITY

Rev. Mr. Bonnell On City Churches—St. David's Pastor Continues Sermon Series—Story of Christ in Picture Sermon At Main Street

About 70 of the ex-service men formed up at the Carleton Curling rink yesterday morning to attend the G. V. V. A. service at St. George's church in commemoration of the second battle of Ypres.

The parade fell in at 10.30 and moved off shortly afterwards under command of the president, J. G. Hest, accompanied by the Carleton Curling Band. Besides the ex-service men there were present in the church...

Rev. John Unsworth, chaplain of the branch, delivered an inspiring sermon and was assisted by Rev. W. H. Sampson, rural dean, in conducting the service. The service was held in the Trinity church, and was conducted by Rev. J. O. D. E. Brouse, pastor of the Trinity church.

Members of St. George's Society in large numbers attended the annual service of the society held last evening in Trinity church, and conducted by Rev. C. Gordon Lawrence, chaplain of the society, assisted by Rev. W. E. Fuller.

Mr. Lawrence went on to recall how St. George, the patron saint of England, by his courage and devotion to God in declaring himself on the side of Christ when the Emperor Diocletian sought to wipe out Christianity, had been an inspiration to others who had remained true through the years of terror and persecution.

CARRYING ON GOOD WORK. The St. George's Society had been carrying on its good work in the city for 125 years, Mr. Lawrence said, and he paid a glowing tribute to the society, but he said also that the annual service in commemoration of St. George was not alone for the members of the society. In that service every true citizen of the Empire had a share.

The cross of St. George had the red, typical of the blood of martyrdom, but there was much more of the white in the flag than of the red, and the white

Panelled Beauty and Rich Effects With WALLPAPER. YOU would not hang on the wall an oil painting without a frame. The beauty of the picture would be lost for lack of a definite and harmonious boundary. In the same way, wall panels set off the artistic beauty of a good wallpaper. By selecting STAUNTON Semi-Trimmed Wallpaper of correct design and color, the beauty of the room can be enhanced in a surprising way. Every STAUNTON wallpaper has its banding, which with not only borders but effective panels can be formed. Such panels can be designed to suit the size and proportions of any room. The use of panels, bandings and borders in transforming rooms is only one feature of home decoration dealt with in our new book, "Decorating the Walls". For the nominal charge of 20 cents, this book is sent, on request, to any interested homemaker. Write today to Stauntons Limited, Toronto, Ontario. Staunton leadership in Wallpaper design has the added advantage of the wider roll. The 22-inch width permits of better treatment of the decorative motif of the pattern. Then, too, fewer strips mean fewer joints, and a better finished job. Only Staunton Papers Are Semi-Trimmed. Paperhanging has been vastly simplified by our exclusive Semi-Trimmed system, without adding anything to the price of the Wallpaper. Gone is the mass of sticky, hand-trimmed selvages. Gone the uneven edges and the torn ends. In far less time, the work of redecorating the walls and ceiling is better done. There's a real saving in it. Sold by Estate D. BURNING STEAMER TO UNLOAD CATTLE

Fire Still Proceeds in Bunkers of 'Ontario' at Halifax

HALIFAX, N.S., April 25—The Danish cattle steamer Ontario, which got into this port last Thursday on account of fire in her bunkers and which was kept at anchor in the stream while efforts were made to extinguish the conflagration, has docked at Pier Nine in order to unload her 1,000 head of cattle and to enable workmen who have been engaged in removing several steel plates from her side, to quench the burning coal. It is expected she will be here for another week.

The Ontario sailed from Saint John last Wednesday for Glasgow.

Stanley Men Lost Control Of Snowboat

STANLEY, April 25—A number of young men had an interesting experience at Williamsburg this week. Wishing to go to a store a mile distant and finding the snow too soft and too deep to permit horses to travel on the road, they decided to use a high wind which was blowing in the right direction for their purpose. Placing a team-aid on the road, they put up a horse cover as a sail and started. It worked. The road was straight and level and by the time they reached the store their speed was such that they could neither stop nor get off. Their only alternative was to go on, which they did for over five miles as far as the Cross Creek corner. How they took their sled back has not yet been reported nor what would have happened had they met teams on the way.

LEADING FARMER DIES. WINNIPEG, Man., April 25—James William Scallion, for many years an outstanding figure in the farmers' movements of Western Canada, died at his home in Virden, Manitoba, Saturday, at the age of 84. FOX CO. RECEIVERS GIVEN SALE RIGHT

May Dispose of Enough Animals of Gordon Ranch to Pay For Upkeep

BANGOR, Me., April 25—The receivers of the Frank H. Gordon, Inc., who have been caring for some 2,700 silver black foxes on the ranches at Lincoln since October of last year, were today granted the right in a court order, signed by Associate Justice Charles J. Dunn, to sell at auction as many of the foxes as are necessary to reimburse the receivers for the money advanced for feed and care of the foxes also to reimburse some of the contract holders who have advanced cash for that purpose. Approximately \$30,000 has been expended by the receivers in the maintenance of the ranches and they have received about \$20,000 for sale of young stock and pelts. In a recent court order the receivers were granted permission to dispose of all of the property but, the breeding season being on, it was deemed advisable to defer a general sale.

Facism Must Cross Frontiers and Take Territory By Force, Is Significant Statement Made By Rome Newspaper, Corriere Padano

MUSSOLINI'S ATTITUDE STIRS EUROPE

Imperialism of Dictator Seen As Peril To Peace and Reconstruction; Urgent Instructions Given Army Staff To Prepare Mobilization For June

LONDON, April 26.—The Chiasso, Switzerland, correspondent of the Daily Herald, Labor organ, claims to be able to confirm the report that the Italian war office is busily engaged in war preparation. The correspondent understands that urgent instructions have been issued to the army staff to have everything ready for mobilization by June. He reports intense activity among the military divisions stationed on the Adriatic coast.

He quotes as significant a statement published by the newspaper Corriere Padano, which is controlled by Mussolini's friend, Italo Balbo, "Europe must peacefully grant us some colonies, or we will sooner or later take them by force. Facism must cross the frontiers of Italy, or perish like an unfulfilled promise."

FEAR FOR LOCARNO PACT.
BASILE, April 26.—Will Mussolini imperialism imperial the movement for European reconciliation and reconstruction begun at Locarno, and represented permanently by the League of Nations?

WANTS MORE COLONIES
All responsible information obtained in Rome indicates that Mussolini, realizing that lack of raw material handicaps the country from the very start, wants more colonies, in this respect duplicating the ambitions of the Germans, who want the restoration of some of their lost colonies with which to provide additional raw material to feed some industries.

Last year Italy's unfavorable trade balance reached eight billion lire. Her imports, chiefly wheat and oil, from the United States alone aggregated four billion lire more than her exports to the United States. Wheat purchases in the United States constitute the biggest adverse item in the Italian trade balance and to offset this Mussolini

DANGER SPOT IN SOUTH AMERICA

The disputed Taca-Arica territory which has been a bone of contention between Peru and Chile for 44 years. The United States has been attempting since 1922 to make a settlement but the situation is as bad as ever and threatens to break out into something fiercer than resentment at any time.

generally accepted that he has produced a nationalistic spirit not exceeded elsewhere in the world, which leaves little room for the internationalism represented by Geneva.

(Will correspondents favoring the Evening Times-Star with letters on matters of public interest please note that it is necessary to append name and address for publication. The shorter communications are given the right of way.)

DELEGATIONS
To the Editor of The Times-Star: Sir,—Having read the other evening the press of the possibility of another delegation to Ottawa, to inform the Government that we have a harbor at Saint John, also a breakwater to be extended to the island, might I ask how this theory becomes contagious at City Hall? It does appear that every year a delegation or two is despatched to Ottawa to inform them of the above facts. Now Sir, don't you think with our representatives Mr. T. Bell and Dr. MacLaren, who compare very favorably with the Commissioners or any delegations that we may send, should be in a position to inform the Government of the above facts? If not, why should we send any more delegations, as you remember a short time ago we had a carload of Senators, followed later by another carload of repre-

ICE RUNNING OUT OF SHEPODY BAY
HOPEWELL HILL, April 25.—Ice is now rapidly running out of Shepody Bay. The light at Grindstone Island has not yet been in operation, but the keeper expects to get on the island this week.

GRAND FALLS WORK TO BEGIN AT ONCE IS OPINION GIVEN

Necessity of Getting Rights From Waterways Board is Recognized

TO BREAK GROUND IN THE MEANTIME

Govt. and Hydro Board to Ask For Same Privilege Granted Latter

FREDERICTON, April 25.—Development work at Grand Falls will not be delayed even if it is necessary, as indicated at yesterday afternoon's session of the committee of the Legislature on corporations, to get a new order from the International Joint Waterways Commission for the International Paper Company's new subsidiary, the St. John River Power Company, to have the same rights as granted a year ago to the New Brunswick Electric Power Commission to dam the St. John River and complete the development.

TO BEGIN ON TUNNEL
That is the opinion of Premier Baxter, who says that the International Paper Company's officials have advised him that they will break ground and proceed with work on the tunnel leading from the site of the dam above the falls, under the town of Grand Falls to the power house site at the basin below the falls.

SAME RIGHTS ASKED
While it may be necessary, and probably will be, to get a new order from the International Joint Waterways Commission, the work on the tunnel can be started as planned. The Government and the Hydro Commission, he said, would ask the commission to grant the new company the same rights which had been granted to the commission. It would be impossible for the commission to meet and give an order until the Canadian vacancy on the board is filled, and, of course, it was not known when this would be filled.

PEACE PARLEY TO OPEN
OUJDA, French Morocco, April 25.—The French, Spanish and Rifian delegations will meet at Oujda tomorrow for the official opening of the peace conference. The policy of preliminary meetings has been abandoned. Spain is understood to have agreed to waive the formalities of signing an armistice.

RED-GERMAN PACT SIGNED
BERLIN, April 25.—The Russian-German amity treaty was signed Saturday. Foreign Minister Stresemann affixed his signature in behalf of Germany and Ambassador Krestinsky in behalf of Soviet Russia.

Holland Progresses In Commercial Flying

AMSTERDAM, April 26.—Great strides are being made in commercial flying in Holland. It will soon be possible to travel by air from London to Moscow within less than two days. Summer schedules beginning within a few weeks will enhance Amsterdam's importance as a European air junction. There will be three flights daily to London.

KENNEBECASIS FREE OF ICE AT NORTON

NORTON, April 25.—The ice in the Kennebecasis River moved quietly out on Thursday from up-river to some distance below the Norton village. Open water is running as far as can be seen from the village.

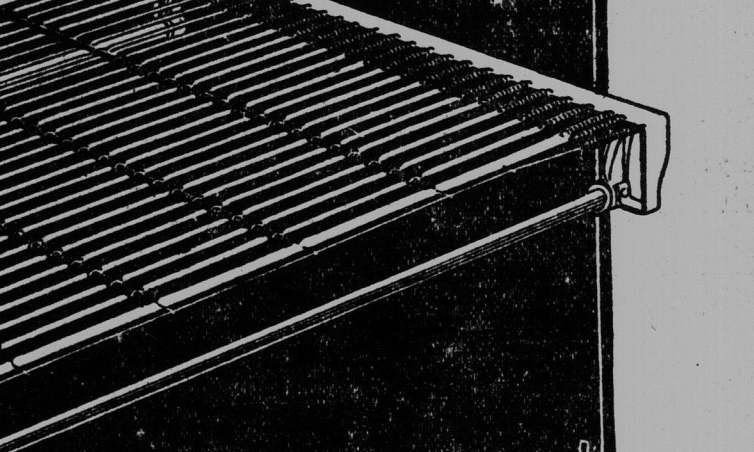

Asks Reopening of Case Allowing Foreign Tonnage in U.S. Coastwise Traffic

WASHINGTON, April 24.—In transmitting to Attorney General Sargent the appeal of the American Steamship Owners Association to reconsider the recent ruling which throws open the coastwise trade to foreign tonnage, Chairman O'Connor of the Shipping Board said the board "views with grave concern" the effect of the opinion, and suggested a reopening of the case.

In his letter Chairman O'Connor said: "There is enclosed herewith a copy of a letter addressed to the United States Shipping Board by the attorney for the American Steamship Owners Association with reference to your opinion recently made public in the matter of the transportation of oil in British tankers from California to New Orleans in relation to the coastwise laws."

The American Steamship Owners Association has jealously guarded the coastwise laws of the United States and is always on the alert to prevent any attempts on the part of foreign ships to break down the existing laws. It achieved a notable victory at the last International Shipping Conference, where it resisted all efforts on the part of foreign nations to bring about a change in the laws of the United States which would throw open the coastwise trade lanes to foreign ships.

Ends the pain in one minute
Corns

COMMON sense has taught, and experience has proved to millions of sensible people, that any corn remedy that does not stop the cause—friction and pressure of shoes—can never effect a cure.

Dr. Wm. M. Scholl's internationally famous Foot Specialist, has perfected a thin, medicated, antiseptic, protective pad that has revolutionized the treatment of corns. These pads are called Dr. Scholl's Zino-pads.

Dr. Scholl's Zino-pads
Put one on—the pain is gone

The pain ends the moment you apply one to a corn. The soothing medication in Dr. Scholl's Zino-pads does this, and at the same time heals the deeper tissues, removing all sores. Then the real healing starts, because the cause—rubbing and pressure of the shoe—has been removed.

Dr. Scholl's Zino-pads are made in three sizes for Corns, Callouses and Bunions. At all drug and shoe stores. Mail coupon below for free sample.

General Electric Breaks Five Points and Hudson Motors Two

Trading is dull on MONTREAL MARKET

Quotations Move in Narrow Range—New Asbestos and Steamships Most Active

Canadian Press

NEW YORK, April 25.—Scattered prices, induced by fast work, rapid advance, unsettled the stock market as trading resumed today. General Electric broke five points, and Hudson Motors, which was again subjected to bear attacks, yielded two points. Despite the announcement of record breaking earnings in the first quarter, General Motors also joined the downward movement of the automobile shares at the opening.

MONTREAL MARKET

MONTREAL, April 26.—Opening trading on the local stock exchange this morning was a dull affair. The trend of values was irregular in a narrow range. New Asbestos common and Steamships preferred were the most active issues, the former being steady around 2 1/2%, while Steamships preferred lost a half at 4 7/8. Spanish River gained a quarter at 100, and Smelters lost a half at 18 1/2. Bank of Montreal on a small turnover, was up 2 points at 54.

Surveying The Townsite of Hudson

Lots in Hudson are being leased by the government, not sold, in order to prevent a real estate boom in the little settlement which is the jumping off place for Red Lake district. One enterprising man, it is reported, attempted to stake the site of the town as a mining claim, but was foiled in his purpose.

LEMIEUX EXPECTED TO GET ENVOYSHIP

Reported to Have Received Offer of Ambassador to Washington

OTTAWA, April 25.—The Journal says it learns on reliable authority that Hon. Rodolphe Lemieux, Speaker of the House of Commons, has been offered the appointment of Canadian Ambassador to Washington. The report adds that it is believed that Mr. Lemieux will enter upon his new duties at the close of the present session.

HERE ALREADY FOR CHRISTMAS TREES

U. S. Buyer Tours Queens County—Fury Dollars Paid in New York

Forty dollars for a New Brunswick Christmas tree in New York city points a moral, according to a commercial traveler who related the incident to The Times-Star.

He said while in Queens county lately he met an American agent contracting for next season's Christmas trees. He was making arrangements for carloads, thousands of trees. The price per tree was a matter of a few cents on the average for New Brunswick's farmer, but the price in the U. S. city was another thing.

The informant of The Times-Star said it was a matter of comment among rural residents that the young growth of timber of the province should thus be uprooted and sawn down, shipped off in trainloads for ornamental purposes only. It was, they thought, a timely text for "Save-the-Forest" as the first question and carelessness in the woods.

On the other hand, a lumberman today stated that Christmas tree exports looked worse than reality was. It was figured by a forestry expert that all the Christmas trees the United States required, if the best of this province, could be grown on a 5,000-acre area. As a matter of fact, the cutting of Christmas trees was a thinning-out process in many localities—a helpful measure—and in most cases the cutting was done on land where lumbering was not engaged in or ever would be, in reality pastured-land.

NINE TOOK COURSE IN SCHOOL IN CITY

Electric Refrigeration Instruction Given in N. B. Power Co. Building

A school on electric refrigeration was conducted during last week in the New Brunswick Power Co. building by representatives of the Kelvinator Institute, and men from Halifax, Truro, New Glasgow, Moncton, Sussex, Fredericton and Saint John took the course. It is necessary to make 90 per cent in the examination to obtain a certificate. This is the first school of its kind to be held in the Maritime provinces, but they have been held in other parts of the country during the last twelve years. The school was conducted by Ashford Stewart and A. H. McLellan. It is the intention to conduct another class this week for men from Prince Edward Island.

Those who took the course last week were: Mr. Colpitts, of Sussex; Mr. Co. Sussex; E. S. Smith, of J. S. Neil & Sons, Ltd., Fredericton; A. J. Pike, of N. B. Power Co., Saint John; J. R. Dickey, of Lounsbury Co., Ltd., Moncton; D. A. Cook, of Thompson & Sutherland, New Glasgow; W. L. Mulholland, of Cragg Bros. Ltd., Halifax; G. A. Strudwick, of Halifax Creamery; Halifax; C. McLennan, of Brookfield Creamery, Truro; Robert Boyer, of Pacific Dairies, Ltd., Saint John.

A Severe Illness Caused Constipation

Mrs. Wm. Hill, Wapella, Sask., writes: "Three years ago I had very severe illness, and ever since I have suffered with constipation. A few months ago a friend advised me to use

Milburn's LAXA-LIVER PILLS

which I did, although not expecting any results, but I am pleased to say that since using them I have had perfect use of my bowels without any trouble or pain, and have never had bleeding piles since. Now, I never fail to recommend 'Laxa-Liver Pills' to all my friends."

RUSH OF LAST-HOUR BUSINESS SLATED FOR LEGISLATURE

Prospects Seen of Session Running Into First of Next Week

GRAND FALLS BILLS MAY CAUSE DELAY

Direct Taxation Measure Contains Contentious Clauses

FREDERICTON, N. B., April 25.—A considerable amount of business has piled up on the agenda for the final week of the first session of New Brunswick's ninth Legislature and it will require almost continuous sittings of committee and the House to get through in time for prorogation of the House on Friday of this week, as now planned. The expectation is that if the entire list is not clear on Friday, the members will be asked to remain over the week-end and sit on Saturday and commence on Monday instead of going to their homes on Friday and returning on Tuesday as has been the custom.

Some observers believe it will be necessary to hold over for the week-end the Grand Falls bills and all bills relating to increased taxation. House and some of them contain contentious matter, notably the bill relating to direct taxation. So far, about sixty-five bills have been presented in the House with about three-quarters of them through the committee stage. In speculating on the probable date of prorogation, it is well-known that the members can speed up work considerably with the final date in sight.

While, of course, direct taxation and Grand Falls will hold the centre of the stage, there is much interest also being manifested in the various reports to be tabled by the House committees this week, particularly that from the public accounts. This committee, under the chairmanship of Dr. Frank Smith, Carleton, has had plenty of work this session. It had barely started consideration of the accounts when James Lewis, M.L.A., for Saint John, presented charges in connection with the Lancaster paving work and it was only last Thursday that the final bit of evidence in regard to that was placed before it. A sub-committee composed of A. D. Tupper and Dr. M. A. Quilley is now at work on a report. Then, E. C. Atkinson, Sunbury, demanded an investigation into the grant of a cutting privilege to a former legislator from Sunbury and these charges occupied the spotlight for several days. Reports on both these charges will be made this week.

The government will sit on Monday evening, when several important questions will be before it. The corporation committee takes up its work on the Grand Falls bills on Tuesday morning at 10 o'clock.

There will be only a formal sitting of the House on Tuesday afternoon and the corporation committee will sit in the afternoon on the Grand Falls bills.

COUNCIL SLATE IN TOWN OF ST. GEORGE

Mayor McGratton Announces Committees For Year; Fire Warden

ST. GEORGE, April 25.—The Town Council organized for the year at a meeting held during the week-end in the council rooms. Mayor McGratton submitted the following committees for the year, the first named being chairman:

Streets—Dow, O'Brien, Seelye.
Lights—Murray, council members.
Licenses—Watt, McHugh, Meating.
Police—O'Brien, Murray, McHugh.
Assessment—McHugh, Stewart, Watt.
Poor—Seelye, Dow, Meating.
By-laws—Stewart, Murray, Watt.
Town property—Meating, Murray, Stewart.
Finance—The whole council.

A delegation from the fire organizations appeared before the council and recommended the appointment of E. J. O'Neill as fire warden for the town. This appointment lies with the local government, the council making the recommendation.

The Mayor gave a short address, impressing on the aldermen the necessity of attending the monthly meetings. He said that they should all take a great interest in local affairs and should feel flattered as being chosen again to carry on the business of the town.

British Labor Leader Gets Short Hair Cut

LONDON, April 25.—Ramsay MacDonald has had his hair cut so short and his moustache so close that many of his friends laughingly charge him with disguising himself.

Longish hair and large moustaches are numerous in the Labor party leadership, and for years Britain's only Labor premier wore his iron gray, curly hair long enough to satisfy the demands of the artist colony in Chelsea. But now he is trimmed up as neatly as a city stock broker.

REGINA NETS MORE ON CANADIAN ROUTE

BEATS SISTER SHIP SERVING PORTLAND

Major Jones Tells White Star Line's Results on Halifax Run

MONCTON, April 25.—The White Star liner Regina, which recently made the round trip from England to Halifax instead of going as it usually does to an American port for cargo, made more money than her sister ship, the Doric, which made her terminus Portland shortly before. Major A. N. Jones, of Halifax, representative of the White Star Line there, said Saturday as he was passing through this city en route home from Montreal. The Regina was handled well on that trip, too, said Major Jones.

What this will lead to it would be hard to say, but it is not improbable that a line of ships with their terminus at Halifax will be established as a season in general from that port has been a satisfactory one from both passenger and freight standpoints and will continue to call there throughout the coming summer, Major Jones said.

The chief item of interest in Nova Scotia at the present time, Major Jones said, was in the report that several of the fish corporations were to amalgamate with headquarters in Halifax. In order to effect certain economies and to give better service. He did not believe, however, that the Maritime Fish Corporation, the head office of which is in Canada, at the present time was involved in this merger.

FROM INTERMEDIATE TO TOURIST CABIN

Change of the term "intermediate" to "tourist cabin" on the steamer Manichuria and Mongolia, plying between New York and California ports by way of the Panama Canal, is announced by the Panama Pacific Line.

The Manichuria and Mongolia have always carried first-class passengers, and when in the run to Hamburg, following the war, they carried third-class also. When refitted for the California trade, their third-class accommodation was rebuilt at heavy expense, for a grade of accommodation, somewhat cheaper than first cabin, termed intermediate.

It is said that they should all take a great interest in local affairs and should feel flattered as being chosen again to carry on the business of the town.

Brokers Opinions

NEW YORK, April 25.—Block trading conditions ought to work better from now on and if so sentiment will improve.

Each of the three main groups of stocks is in a somewhat better position than it was a few days ago. The iron and steel group is particularly strong today and is expected to continue to lead. The automobile group is also strong and is expected to continue to lead. The coal and oil group is also strong and is expected to continue to lead.
