Ayer's Cherry Pectoral

The best of anodynes, this preparation rapidly soothes irritation, strengthens the delicate organs of speech, and restores the voice to its tone and power. No singer or public speaker should be without it. Lydia Thompson, the famous actress, certifies: "Ayer's Cherry Pectoral has been of very great service to me. It improves and strengthens the voice, and is always effective for the cure of colds and coughs."

"Upon several occasions I have suffered from colds, causing hoarseness and entire loss of voice. In my profession of an auctioneer any affection of the voice or throat is a serious matter, but at each attack, I have been relieved by a few doses of Ayer's Cherry Pectoral. This remain, with ordinary care, has worked such a

adjusting one of the large pulleys at the leather board mill, Milton, N. H., on Saturday, came near losing his life. He was inside the pulley, and, the gate not shutting tight, his weight on the front side caused the shaft to start, and his only chance for safety was to clutch the irms of the pulley and revolve with it. It was a desperate move, but he did so, and for two or three minutes rode as fast as a man often has an opportunity of doing. Oscar Hueston discovered the situation and stopped the machinery. Griffin was released from his danger un-

NEW YORK, June 14 .- A special from Chester, Pa., says that at a recent convention of the Ancient Order of Hiber. nians there, a plan was proposed by a number of Irish-American capitalists to establish in Ireland factories for the if a single negative vote will be cast when manufacture of boots, shoes, clothing and anderwear in counties Cork, Kerry, Galin a few days, and will be submitted to Parnell, Davitt and O'Brien.

> The sugar market is booming at present, being very strong and active, prices showing an all round advance of \$e. in ympathy with the New York market, there granulated is advancing steadily Canadian refiners predict a further advance, and are refusing to sell large lots f granulated at present quotations. tated above trade is very active, buyers showing considerable anxiety to lay in a supply, the stocks of country dealers beng generally very low. The stock of aw in four ports of the United Kingdom 138,000 tous against 156,000 tons at he same time last year. The trade in nolasses continues rather quiet, only a mall business being transacted .- Halifax

A bill has been introduced into Congress to prohibit aliens from owning or acquiring title to lands in the United States. It also contains a provision to compel aliens who are now landowners to he United States within ten years. oill is aime l at absentee landlordism which appears to have obtained quite a foothold across the border, one English andlerd being said to own 90,000 acres in Illinois, occupied by tenants from whom he receives as rent \$200,000 yearly, which he expends in Europe. It is also stated that the United States has 570,000 stated that the United States number pos-tenant farmers, the largest number posthese are facts they are not pleasant ones, out some other remedy could surely be found beside the extraordinary measure

Toledo, Ohio, June 14 .- A Findlay Ohio, special, says:-At 2.30 this morn ing everybody was awakened by a trem endous shock that rocked every building, breaking windows in many places. It was found to be an explosion of Carcorrespondent just from the scene reports a hole in the ground large enough to was no loss of life. Five tons of nitroery direction and was generally thought to be an earthquake perceptible at Toledo.

In the Weslevan conference at Ottawa amounts for the insurance of church buildings and church property. There FREDERICTON, June 13.-Represent- has been a feeling for some time past an annual profit of \$25,000,

The Fortnightly Review draws a comparison between Victoria and New South parison between Victoria and New South which countries the relative merits of protection and free trade have been carefully tested. The reviewer says:

"Opposite fiscal policies have long been pursued in the two chief Australian colonies of Victoria and New South Wales, which are inhabited by the same race, and whose territory is contiguous. The former has adhered steadily for the last 12 years to a rigorous protective.

The Fortnightly Review draws a comparison \$4000.

J. D. Leary's two powerful tug boats arrived to-day to tow a raft of piling to New York. This piling was brought down the river from Grand Lake and vicinity. There are 17 sections each about 50 feet long, each section bound by wire cable and all of them fastened together by the same material. The logs all run lengthwise. It is a monster series of rafts and many persons predict hard work in the people of the United States owe \$27, \$247,048. This includes nationally an annual profit of \$25,000.

"Certain persons in Canada are fond of making comparisons of the public debt of Canada with that of the United States, much to the disal vantage of their own country. But Dr. Dinslow, in his recent work on political economy, shows that the people of the United States owe \$27, \$247,048. This includes nationally an annual profit of \$25,000. The former has adhered steadily for the last 12 years to a rigorous protective policy, while the latter has adopted for a prompt and heroic work of 30 nuns in the Catholic Mercy nospital here this at sixty millions, it means a per capita in the Catholic Mercy nospital here this bankruptcy, and, though prosperity may

appear to be bounding at present the weight of this stupendous burden must make itself felt with increasing pressure as years advance."—Montreal Star.

This Ointment has been used with the greatest success in the speedy cure of all cruptions arising from an inpure state of the blood or from infection. The settlers are thoroughly alarn and are sending their women and children into the towns for safety. Friendly In-dians have reported to the whites that there is to be an outbreak and the hostiles are being joined by allies from Standing Rock, Sioux and Pine Ridge. The Cheyenne Indians are well armed with Winchester rifles and government ammuni-tion. Major Catrol has three troops of cavalry and more have gone to his assis-

RAILROAD PURCHASED. - Mr. Harmon, President of the National Improvement Co., of New York, and Mr. Wm. Willis, of London, England, representative of the English bondholders of the Salisbury the English bondholders of the Salisbury and Harvey railroad, net in this city Friday, and the result was a purchase of the road by the American company. The price paid was \$70,000. Mr. R. O. Stockton acted as solicit a forthe National Improvement Company. The company have purchased manganese mines in Albert county, and the road will be run to them. A considerable sum will be spent in fixing up the road and putting it in good order. The deeds have been sent to the Registrar of Albert county to be filed.—Globe.

Surgeon Dentists,

Teeth extracted without pain by the use of ficial Teeth set in Gold, Rubber, or Celluloid. Special attention given to the preservation and regulating of the natural teeth, also crown and bridge work. All work guaranteed. Offices Chatham—Benson's block. Telephone call No. 53. Newerstle—fronting square to the Registrar of Albert county to be filed.—Globe.

St. John, Jane 13.—Albeit Morgan, sentenced to twelve conths and 12 lashes for indecent assault, received the lash in an upper room of the jail to-day. He was stripped to the waist and strapped to an iron railing over the stairway. The Sheriff and other officers, Dr. Jas. Christie and press representatives were present. and press representatives were present. The lash was wielded by a fellow masked and muffled so that his identity could not be discovered. He struck so lightly that he was urged "to lay it on" harder. This he failed to do and neither blood nor ridges followed his blows. Mergan yelled when struck but took the matter very coolly. An old time schoolmaster would have wept to see the performance.

General Freigh

LONDON, June 7.—A great sensation in educational circles has been caused to day by the publication of the New York Pier, North End. day by the publication of the mathema-tical tripos of Cambridge university. The success of the female students has been phenomenal. The highest educa-tional honor yet won by women has been won by Miss Phillippa Fawcett, aged 22, who is bracketed as superior to the senior wrangler. Previous to this the first place was occupied by a Miss Ramsay, who was senior wrangler in the classical troops in 1887, and the second by a Miss Scott, who was the eighth mathematical wran-gler in 1880. The former has since married the master of Trinity college, Cambridge, and the latter is understood to be a professor in an American university. In addition to Miss Fawcett's wonderful achievement, two ladies figure in the list of wranglers, 10 are senior optimes, and four are junior optimes. No atoman failed to pass, but six men failed completely. Miss Fawcett, is a daughter of the late Prof. Fawcett, the blind philosophia and statesman who was the past pher and statesman, who was the post master general in Mr. Gladstone's government. She is described as a charming high spirited nervous young woman.

Details have now reached Breslau of the accident by which forty two children were drowned in the Oder, near Thurze. A number of church-goers, including about forty young girls belonging to the villages of Budziek, Siedlisk, Ruda and Thurze, were returning hor e from Slawikau, where they had been to receive interesting for the state of the s structions for their tirst communio When they arrived at the bank of the river to be conveyed to the opposite side the ferryman, instead of using the weight carrying flat ferry, contented himself with the ordinary ferryboat, into which the children all crowded together so that the gunwale of the boat, which should have been 35 centimetres out of the water, wadepressed to the water's level. Nevertheless the boat with its living freight, crossed to within a few yards of the opposite shore, when it suddenly capsized and sank, carrying most of the children in it to the bottom. One great shrick of horror issued from the lips of the spectators on the bank from which the boat started. They saw for a moment the look of terror on the children's faces; they heard their heartrending cries, but could do nothing but watch one little head after another disappear beneath the water.

a favor and purchase one of The Wortman & War Mfg. Co.'s Barrel Churns. Co.'s Revolving This Churn has been in use over twelve years in the United States and six years in Canada, and has steadily grown in favor steadily grown in lavor wherever its merits have become known. It has given more solid and uni-versal satisfaction than any churn ever placed on the market. It makes more butter, and of a better qual-ity, than the old churns. ty, than the old churns. The cream is churned by

Farmers! Do your wife

he revolution of the barrel, instead o whipping a part of it at a ime with a dash or paddle, as is the old style of churns. It is washed from side to end and from end to side, and is thoroughly changed and mixed through at every revolution of the Churn.

Those who have used the Revolving Barrel Churn say their buttermilk looks poorer and thinner than when they used the old dash or paddle churns, corroborating our statement that with this principle of churning there is an increase of the quality, as well as the quantity, of the butter. As every particle of cream is subjected to the same agitation, the globules are all freed at the same time, converted into butter, and saved by a much larger percentage than by the old method. The grain of the butter is the same time, converted into butter, and saved by a much larger percentage than by the old method. The grain of the butter is better preserved, as there are no dashers or paddles to pound and destroy the globules, thereby making the butter soft and sticky, like lard, such as is often seen in butter made in a dash or

Butter made with the Revolving Barrel Churn is not streaked or salvey, because the cream is all churned alike, the buttermilk thoroughly washed away while the butter is in a granular form, thoroughly washed away white the butter is in a granular form, and is all of a uniform color and quality.

Having bought a car-load of these churns at low figures we offer them much below the manufacturer's list price as follows:

No. 1—Nine Gallon Churn, churns from 1 to 4 gallons

No. 2-Fifteen Gallon Churn, churns 2 to 7 gallons No. 4-Twenty-live Gallon Churn, churns from 7 to 12

# Wonders

Are wrought by the use of Ayer's Hair Vigor in restoring gray hair to its original color, promoting a new growth, preventing the hair from falling, keeping it soft, silky, and abundant, and the scalp cool, healthy, and free from dandruff or humors. The universal testimony is that this prepared The universal testimony is that this preparation has no equal as a dressing, and is, therefore, indispensable to every well-furnished toilet.

"I have used Ayer's Hair Vigor for some time and it has worked wonders for me. I was troubled with dandruff and was rapidly becoming bald; but since using the Vigor my head is perfectly clear of dandruff, the hair has ceased coming out, and I now have a good growth, of the same color as when I was a young woman. I can heartily recommend any one suffering from dandruff or loss of hair to use Ayer's Hair Vigor as a dressing." - Mrs. Lydia O. Moody, East Pittston, Me. "Some time ago my wife's hair began to come out quite freely.

# Ayer's Hair Vigor

not only prevented my wife from becoming bald, but it also caused an entirely new growth of hair. I am ready to certify to this statement before a justice of the peace."—H. Hulsebus, Lewisburgh, Iowa.
"Some years ago, after a severe attack of brain fever, my hair all came out. I used such preparations for restoring it as my physicians ordered, but failed to produce a growth of hair. I then tried, successively, several articles recommended by druggists, and all alike fell short of accomplishing the desired result. The last remedy I applied was Ayer's Hair Vigor, which brought a growth of hair in a few weeks. I think I used eight bottles in two years; more than used eight bottles in two years; more than was necessary as a restorative, but I liked it as a dressing, and have continued to use it for that purpose. I believe Ayer's Hair Vigor possesses virtues far above those of any similar preparation now on the market."

—Vincent Jones, Richmond, Ind.
