LAW RESPECTING NEWSPAPERS
Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.
If Subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid.
If Subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their paper to be discontinued.
If Subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

ANTIDOTE TO METALLIC POISONS

In an article in the Dublin University Magazine, there is a most striking instance of the difficulty that medicine had in grappling with a metallic poison, and of a beautiful remedy discovered accidentally:—"Is there any of our readers who has not been acquainted with a paralytic house-painter? Many of them must have witnessed the shaking palsy of metal gliders, or silvers of looking glasses; and few need to be informed that these chronic maladies are occasioned by the absorption of the metals we have named, which are retained in the system after it has got over the first violent effects. They may endure for many years; but it was only the other day that M. Maurice Vergnes, of the Havannah, accidentally discovered a means of curing them by the removal of their material cause. M. Vergnes having occupied himself with galvanic gilding and silvering, had his hands in continual contact with solutions of nitrate and cyanure of gold and silver. They were in consequence, covered with ulcers, into which particles of the metals were introduced. One day, however, he chanced to plunge them into the electro-chemical bath, at the positive pole of the galvanic pile, and to the great surprise of the beholders, a small plate of metal, brought into contact with the negative pole, became covered with a thin coating of gold and silver, extracted from the hands of the operator, whence the most powerful remedies had not been able to eliminate them. This discovery was made on the 16th of April, 1852; and it was shortly afterwards applied by M. Poey, also of the Havannah, to medical use in the following manner:—"M. Poey takes an unfortunate patient, corroded by lead, mercury gold, silver, or any other metal, and places him in a metallic bathing tub, isolated from the ground. The man sits down, his legs horizontally stretched out on a wooden bench, isolated from the tub, which was filled with water up to his neck. The water was slightly acidulated, to increase its conductivity; and the acid varies according to the cases. This done, the negative pole of a pile is brought into contact with the sides of the bathing tub, and the positive pole placed in the hands of the patient. The work of purification is now in full activity; the electrical current precipitates itself through the body of the sufferer, penetrates into the depth of his bones, pursues in all the tissues, every particle of metal, seizes it, restores its primitive form, and chasing it out of the organism, deposits it on the sides of the tub, where it becomes apparent to the naked eye."

A CURIOUS ANECDOTE.—The sermon in our February number has recalled to an Alton (Ill.) correspondent, one which was preached in Tennessee by a Baptist minister. When drawing near the close, he said: "Brethren, I am an hostler, and I must carry those horses before I leave. Here is this high-blooded Episcopal horse; see what a high head he carries, and how black his coat is, and soft as silk; but he'll kick you if you touch him on his Liberty or Prayers; whoa, sir, whoa! Here is an old Methodist horse; whoa, old fellow! Just slip away his love feast and class meetings, and he'll kick till he falls: Whoa, you old shouter! whoa! Ah! here is the horse that is ready to kick at all times; don't you go near his Confessional or Penance: Whoa! Mr. Pope, how beautiful his trappings are!—his surplice and mitre! Whoa, sir, whoa! and so he went on through the various denominations. When he was nearly through, an old Methodist gentleman, well known in the place, offered his services to conclude, which were readily accepted. He said: "Friends I have learned this morning how to dress down horses, and as the brother has passed two of them, I will take it upon myself to finish the work: Here is an animal that is neither one thing nor another. He is treacherous and unceremonious; you cannot trust him; he'll kick his hindquarters for a controversy. Whoa, mule, whoa! See brethren, how he kicks; Whoa, you old Campbellite! whoa! Here friends, is an animal that is so stubborn, he will not let me in his stall to eat from his trough; he is so stubborn that he would go where a prophet wished him; he is so hard mouthed, that Sampson used his jaw as a weapon of war against the Philistines. Whoa, you Close Communion Baptist: Whoa!" "Do you call me an ass?" exclaimed the minister, jumping. "Whoa!" continued his tormentor: see him kick! whoa! Hold him, friends!—whoa!" and thus the old gentleman went on; the minister ranting meantime until he got out of the church. The congregation unanimously agreed that they had never seen an ass so completely "curried" before.—Knickerbocker Magazine.

The following reply to that everlasting enquiry, How do you do? was made by an original the other day:—"Rather gim, thank ye; I've got the

CHARLEY MACAULEY'S WAGER; or, betting on a certainty.

The following funny anecdote is taken from the published journal of a British officer in India:—"At seven o'clock the dinner was served up and a better one never was given in Calcutta; but as every pleasure must come to an end, so this excellent dinner was at last finished. The desert was served up, and the hookahs began to emit their gurgling notes. Many were the subjects broached and got rid of; many the toasts which enlivened the fashionable feast. At length, by the most skilful manoeuvring, and with infinite tact, Macauley brought the beauty of the new tables on the tapis. Every one admired them, and felt grateful to them for having so lately supported the rich dinner of their host. They are the finest mahogany I ever saw, said Major Briscoe. They are perfect, said another. I never saw any so well proportioned in my life. I must have some made like them. They are too high, chimed in Charley Macauley, with affected indifference—just a little too high. Don't you think so, Gordon? On the contrary, replied the host, if anything I consider them a shade too low. You are mistaken my dear fellow; I have an excellent eye, and I am sure I am right. No table should exceed two feet six, and these are at least one inch higher. You are in error, they are not more than two feet and a half. Don't bet James, don't bet; for I am sure of the fact. I tell you I cannot be deceived; always correct. Not bet! If the tables were not my own, and consequently I should bet on a certainty, I'd lay you a lac of rupees that they are not more than thirty inches in height. Oh, if you are willing, I will make the bet; but remember, gentlemen, I tell you before-hand that I am certain of the fact. I say these tables are at least thirty one inches from the ground. Done, for a lac of rupees! cried Gordon. Done! re-echoed Charley. The wager was duly registered. A servant was ordered to bring in a yard measure, when Macauley turned round with an air of triumph, and said: You may save yourselves the trouble of measuring—ha! ha! and he chuckled with delight. I warned you fairly that I bet on a certainty, so the bet must be binding. I stand to my bet, said Gordon. Well, then pay me the money! I measured the tables this morning while you were shaving, and here is their memorandum of height—thirty one inches exactly! And the colonel burst into a roar of laughter, as he produced his pocket book with the memorandum in it. I know you did, said James; I saw you do so, in my looking glass. The colonel started. Yes, I saw you do it, and as soon as you had gone away, knowing well your object I had on each squared off every leg; so for once, my very knowing friend, the tables are turned! The roar that shook the table would have drowned Niagara. Charley Macauley left Calcutta the next day ten thousand pounds sterling poorer than he was the day that he arrived; and what was still worse, the very poorest ensigns in the army quizzed him about it forever afterwards. Perhaps he was richer in the end, however, for it was his last bet."

INCORRIGIBLE.—A tutor of a college, lecturing a young man on his irregular habits, added, with great pathos, "Your conduct will bring your father's gray hairs with sorrow to the grave." "That is impossible," replied the youth, "my father wears a cauliflower wig!"

NEARLY COMFORT.—A dying West India planter groaning to his favorite negro servant, sighed out: "Ah! Sambo, I'm going a long long journey."

"Never mind, massa," said the negro, "him all do way down hill."

SCROFULA.—Joe, how many scrofulas are there in a drachm? Do not know zur. Well, remember, there are eight. Eight! pooh! dad always takes his without no scrofulas.

There are now not less than 35,000 miles of telegraphic wire intersecting the United States—more than enough to belt the earth.

The Irish News, Meagher's paper, states that Smith O'Brien, the noted "patriot," is coming to America.

TRUST IN GOD.

One beautiful evening in summer a carriage drove up to a village inn. A stranger stepped out and directed the landlord to prepare him a supper, and also to feed his horse. The last rays of the setting sun were visible on the fleecy clouds, and on the vane of an antiquated church which stood on the opposite side of the way. The stranger looked about him for a few moments, and then directed his steps to the church, that he might meditate while the landlord was fulfilling his directions.

He entered the gate which opened into the grave yard, and walking around he viewed the grassy beds beneath which the sons of other years lay silently resting from want, and toil, and pain. While he was reading the various inscriptions on the tomb-stones, his attention was drawn to a corner of the church yard by the sob of a little child. He went immediately to the spot, where two ragged children sat weeping upon a newly made grave. A piece of hard bread was between them. The stranger being sensible to the sorrows of others, sat down upon the grave and inquired into the cause of their distress. The little boy, whose name was Henry, began to tell him that his sister Mary was naughty, and would not eat the piece of bread he had begged for her. She interrupted her brother here, and told the man that she had eaten some bread yesterday, but her brother had eaten none since the day before, and she wanted him to eat this.

The boy then proceeded to tell the stranger that about a year ago his father left the village and went to sea, and that in a storm he was drowned: "And poor mother cried so hard, and said she must soon die too; but that we must love each other, and God would be our Father. She called us to her bedside, kissed both, and then died. Now we have no mother; but we have come to her grave to see if we can find our Father. Mother said he was in Heaven. Can you tell us, sir, where our heavenly Father can be found?"

The stranger listened to the tale of sorrow until his eyes were filled with tears, and he was moved with compassion for the wanderers. He exclaimed as he rose from the grave, "Come with me, my children. God will be your Father. He has no doubt sent me here this night to befriend you." He took them to the inn and had them provided for until he returned home. They were then received into the bosom of his family, where they were well fed, clothed and instructed; and the stranger in his declining years witnessed them pious and useful members of society. His hospitality was rewarded on a hundred fold.

Let all children who may hear about Henry and Mary put their trust in God, and he will raise up friends for them when their fathers and mothers die. Let parents instruct their children in the knowledge of Christ, that when death shall make them orphans they may find a Father in Heaven.—Presbyterian

PEARL FISHERY.—Acapulco is celebrated for the pearls which are found on some islands lying twenty or thirty miles off. The fishery is carried on in a very simple manner, by men who dig seventy or eighty feet deep into the sea, taking with them knives to loosen the pearl oysters from the rock, and baskets to put them in, and, after remaining below one or two minutes, they come to the surface again, with or without booty. The chief danger of the pearl fishery is from sharks which swarm round the coast, but which the fishers are very dexterous in escaping from. They always take with them a long rounded piece of wood, which when they cannot get away by swimming or diving, they stick into the open jaws of the monster as he comes towards them, and they have plenty of time to escape before he can recover from his peculiar kind of locked-jaw. The pearls are found, not in the shell, as it is often asserted, but in the animal itself; the shell contains only mother of pearl. In many shells there is a kind of excrescence like pearl, but not really such; it proceeds from some other animal, and resembles the excrescences on leaves and plants. Although every one of these oysters contains the material of pearl, and sometimes as much as eight or nine, a fisherman may bring up before he is lucky enough to get a really fine one; and the more there are, in an oyster the more certain it is that none of them are of much value.—A Lady's Second Voyage Round the World, By Ida Pfeiffer. Vol. 11.

ULCEROUS SORES.—A poor man named Mackey, in the employ of Lieut. Webster, of Poughkeepsie, was terribly afflicted with several ulcerous sores on his body, and two on his leg, which rendered him a most miserable object, and frequently deprived him of the means of earning his daily bread; he obtained advice from some very eminent medical men, but he did not get any better; however, the gallant and humane Lieut. finally purchased for him a quantity of Holloway's Ointment and Pills, which Mackey commenced using; he persevered with these

remedies for only nine weeks, when to the astonishment of every one, the ulcers had entirely disappeared, leaving scarcely the scar perceptible after 10 years of acute suffering. These famous medicines will cure old wounds even of 30 years standing.

TO DESTROY RATS.—Professed rat catchers in England use the following compound, and so affected are rats by this perfume, that they can be taken by the hand with impunity. Powderd Assafetida 14 Grain, Oil of Aniseed 1 Drachm, Essential Oil of Lavender 1 Scruple, Essential Oil of Rhodium 3 Drachms. Mix this compound and spread it on the bait in the trap.

THE GRAY MARE IS THE BETTER HORSE.

A STORY WITH A MORAL.
"The gray mare is the better horse." We know very well the line is in Prior's Epilogue to Lucius; but the story from which the phrase is derived is something like this:—

A gentleman who had seen the world, one day gave his eldest son a span of horses, a chariot, and a basket of eggs. Do you, said he to the boy, "travel on the high road, until you come to the first house in which there is a married couple. If you find that the husband is the master there, give him one of the horses; if, on the contrary the wife is the ruler, give her an egg. Return at once if you part with a horse; but do not come back so long as you keep both horses, and there is an egg remaining."

Away went the boy full of his mission; and just beyond the borders of his father's estate, he met a modest cottage. He alighted from the chariot, and knocked at the door. The good-will opened it for him and curtsied. "Is your husband at home?" "No," but she would soon call him from the hay-field. In he came, wiping his brow. The young man told them his errand.

"Why," said the wife, bridling and rolling the corner of her apron, "I always do as John wants me to; he is my master, and not you John?" To which John replied—"Yes."

"Then," said the boy, "I am to give you a horse; which will you take?" "I think," said John, "as how that bay gelding seems to be the one as would suit the best." "If we are to have a choice, husband," said the wife, "I think the gray mare will suit us best." "No," replied John; "the bay for me; he is more square in front, and his legs are better." "Now," said the wife, "I don't think so; the gray mare is the better horse, and I never shall be contented unless I get that one." "Well," said John, "if your mind is set on it, I'll give up; we'll take the gray mare."

"Thank you," said the boy, "allow me to give you an egg from this basket; it is a nice fresh one, and you can boil it hard or soft as your wife will allow."

The rest of the story you may imagine; the young man came home with both horses, but not an egg remained in his basket.

ROBERT BURNS.—It is a common mistake to imagine that the "Ayrshire Bard" did not possess any knowledge, however slight, of music. One of his biographers says:—"At an early age he was taught Church Music, but in this branch of harmony he made scarcely any progress." A more recent and talented biographer, whose research and veracity may be relied upon, states upon the authority of one of his own family, that he was able to perform on the violin many of the airs to which he wrote his imperishable verses. The songs of Robert Burns, by the simplicity and power of his genius, have done much to promote the happiness of his fellow men. He unlocks the store of memory, and reminds his countrymen, however distant from the scenes of their childhood, impressions which once were felt in rapture, making them live over again hours of past happiness, and bringing back the cloudless skies of hope. While his sentimental songs have elevated in the youthful breast the object of the attachment, his patriotic lyrics have awakened in the bosom of maturer age every grand ennobling feeling.

CUT THIS OUT.—A correspondent of the London Literary Gazette, alluding to the numerous cases of death from accidental poisoning, adds—

"I venture to affirm that there is scarce even a cottage in this country that does not contain an invaluable, certain, immediate remedy for such events—nothing more than a desert spoonful of made mustard, mixed in a tumbler of warm water, and drunk immediately. It acts as an emetic, is always ready and may be used with safety where one is required. By making this simple antidote known, you may be the means of saving many a fellow creature from an untimely end."

WASHINGTON, April 26.—The amount of forged land warrants already discovered,

exceeds one million of acres. The investigation is still in progress, and additional frauds are coming to light.

IMPRISONMENT FOR DEBT IN ENGLAND.—A return has been laid before the British Parliament of persons confined for debt or contempt of court in the prisons of England and Wales. It is a long and sad list, occupying some 40 pages. The "contempt" consists generally in not having means to come before the Insolvent Debtors' Court. A man aged 70 has been incarcerated in Chester County Gaol, nearly five years for the paltry debt of £41 4s. 6d. and £17 11s. 3d. costs; and two others, aged 77 and 75, are imprisoned in the same goal for debts of £27 and £50. At Lancaster Castle two persons have been detained for six and seven years. One debt- or aged 86 is confined in Monmouth Gaol for a debt of £180, plus £100 costs, and has been starving on the "county allowance" for two years, though it is believed the detaining creditors have already been paid what is really due from the proceeds of his estate. A prisoner in York Castle, committed at the suit of the Attorney-General for contempt, refused to put in an appearance, and "had apparently no desire to leave the gaol." This person is 70 years of age, and has been deprived of his liberty for seven years and a half. In France, septuagenarians are exempted from arrest for debt.

Advertising considered as a science, presents many curious and instructive facts. Judiciously followed, it leads almost invariably to success; while used sparingly and at long intervals, it has no more effect than a slice of raw turnip would have in satisfying the appetite of a hungry man. It fulfils the conditions of a seemingly paradoxical proverb of Solomon—"There is that scatters seed, and yet increaseth, and there is that withhold more than is meet, but it tendeth to poverty." We recommend advertisers to ponder well over the mystic meaning of this proverb.

A MEDICAL NOTORITY.—The New York Express states that Alexis St. Martin, noted in annals of medical science as the soldier who accidentally shot himself at Mackinaw in 1816 in such a manner as to lay open his side and expose the entire process of digestion to scrutiny—upon which Dr. Beaumont made a valuable though too brief series of observations—is now in New York in company with Dr. Bueving of Montreal, who has taken him thither in the interest of physiology.

The Great Republic, the largest clipper in the world, built by Donald McKay, Boston, in running between Marseilles and the Crimea for the French Government, has frequently with a common single reef top sail breeze, outtailed the fastest steamers afloat. An English merchant, who had made two passages in her, offered \$100,000 for a nine months charter, which was declined on the ground that she was doing better in her present employment.

The shipments of gold from Australia for 11 months in 1855 were 2,399,064 ounces. Adding one twelfth for the last month in 1854, the value of gold exported from Australia would be \$50,455,000, which will equal the amount shipped from California in the same period.

An ingenious machinist at Washington, is devoting himself and his resources to the construction of a "navigating balloon," by which he is confident he shall yet revolutionize the whole business of locomotion, and make railroads and steamers obsolete. As a war machine he thinks nothing could be more destructive. Mr. Tippet has been at work on his machine since 1842, and it is said that General Houston of Texas believes in its practicability and will urge an appropriation in its behalf from Congress.

GROWTH OF ROCKLAND.—The Democrat of this young and growing city, says there will probably be about three hundred new dwelling houses erected the coming season in Rockland, besides other buildings for business purposes.

The salt making season at Turks Island has commenced with the brightest prospects, and a large crop is anticipated, while the quality was never better. At least 100,000 bushels have already been prepared for shipping.

An old press bearing the initials of Johannes Gottberg, and the year 1441, was recently discovered by some well diggers, in Mayence.

Oregon is now taking measures to be admitted into the Union. It is stated that the population now amounts to 50,000, "with more wealth than any other community of 50,000 people on the globe."

European Intelligence.

HALIFAX, May 8.
America arrived this day at 11 A.M.
The Herman sailed from Southampton on Wednesday.

The new Canadian Mail Steamer North American sailed from Liverpool on Wednesday the 22d, with 150 passengers, and a large cargo for Quebec and Montreal.

City of Baltimore sailed from Liverpool noon, same day, for Philadelphia, with 63 passengers, and 150 tons cargo.

The Atlantic arrived at Liverpool at 1.45 P.M.

The London Morning Star (organ of Manchester party) says "we are told that the meeting of the Cabinet, 23d, at which Lord Clarendon was present for the first time since his return from Paris, the answer to the U. States was agreed on. Upon some points connected with Central American Question the British Government are prepared to give way, but they will not recall Mr. Crumpton, and they are prepared to communicate to the United States Government that they are unanimous in determination to continue him in his present position as British Minister at Washington."

The Army is being placed on a peace footing.

The Times has a leader on the grandeur of the Naval Review, which takes place this day. There will be 250 sailers of various sizes, propelled by 30,270 horse power, and manned by 30,000 men.

THE VERY LATEST.

Despatches from Gen. Codrington.—The London Gazette contains despatches from Gen. Codrington, dated the 7th and 8th inst., with enclosures. Gen. C. forwards a letter from Prince Babouff, showing that General Williams had recovered, and was forwarded to Brozan, near Moscow, so that it was not necessary for Dr. McIlrea to go to Tiflis, nor did the Russians seem to have wished that he would pass their lines.

The Armistice is re-established in Asia. Gen. Codrington speaks in the highest terms of Mr. McIlrea's services.

Dr. Hall reports the sanitary condition of the Army for the week to the 7th as very satisfactory. The ratio of sick had not increased, but the winter had been very severe.

Russia.—We have received the following telegraph despatch from our Berlin correspondent.

Berlin, Tuesday, 22d.—The Russian Militia is disbanded. The Admiralty has ordered all the Light Houses to be lighted, and all the boats to be laid down in the Gulf of Bothnia and Finland, and in the Baltic and White Seas.

The Paris correspondent of the Times says that the treaty of Peace contains a clause to the effect that the Allies shall evacuate Ottoman territory on the exchange of ratifications.

The new laws are to be rigidly enforced in Turkey.

MARRIAGE WITH A DECEASED WIFE'S SISTER.—This subject was under discussion in the House of Lords on the 25th ultimo, when

"The Earl of St. Germain moved the second reading of this bill to legalize marriage with a deceased wife's sister. The argument in support of the proposition, derived from Scripture and founded on the 18th chap. of Leviticus, was really in favour of no prohibition. That chapter prohibited such marriage during the first wife's lifetime, and the logical inference was that it allowed them after the first wife's death, and in supporting this reasoning the noble Earl quoted largely from several modern divines and ancient fathers. The Bishop of Oxford moved that the bill should be read a second time that day six months. After a long discussion their lordships divided, when the numbers were: Ayes 24, Noes 43."

THE CRIMEA.—Camp, April 11.—The preparations for the speedy evacuation of the Crimea are proceeding with rapidity and energy. It is said that 6000 Sardinians will be the first to leave, and the Guards the first English troops. No intelligence has been received respecting the future destination of the troops. The sanitary state of the army is excellent—for one regiment, 700 strong, only two men on the sick list. The intercourse between the Russians and the Allies increases. A great attraction is the Russian band of 160, at Alaskozie. The other day, on playing the Russian National Anthem, every Russian took off his cap; and also when "God save the Queen" was performed—but the English officers present did not pay the same delicate compliment to their late enemies. The English fraternize more freely with the Russians than at first.

THE TRIAL OF WILLIAM PALMER.—In the Court of Queen's Bench on Thursday, the rule was made absolute for the removal of William Palmer, of Rugeley, to the Central Criminal Court, on the 14th of May, the judges presiding to be Lord Campbell, Baron Alderson, and Justice Cresswell.

Messrs. Baring Brothers & Co. are at the head of the English companies who are seeking the privilege of being allowed to establish a bank in Russia.

Once more emigration from Ireland is on the increase, and the peasantry are leaving the country in large numbers. From Dublin the departures are considerable.

THE TROOPS IN CANADA.—In the House of Commons on the 25th ult., in reply to Mr. Laing, Lord Palmerston explained that the number of troops sent to Canada was little more than 4000, and they were only intended to replace those that had been detached at the commencement of the war.

SAINT ANDREWS AND QUEBEC RAILROAD.

To the Editor of the Standard.

SIR,—As the prosperity of this community, as well as of a large section of the Province, depends so much on the success which may attend the exertions now making for the prosecution of the life of the Railway from this place to Woodstock; I believe that the information received by yesterday's mail from the Secretary to the Company in London, will be read with interest by all your subscribers.

After expressing himself very sanguinely on the future prospects of the undertaking, he says—"We are progressing very favorably with the formation of our new company, and I have the pleasure to inform you that I have succeeded in obtaining the cooperation of Mr. Crawshaw Bailey and Mr. Marshall of Leeds. They have become Directors of the new Company, so that we have now in the Direction one of the greatest financiers in England, Messrs. Baxter, Rose & Norton have also consented to be the Solicitors."

As your subscribers may not be aware of the influence and prominence of the accession of these latter Gentlemen to the Company, I beg to add, that they are one of the leading law firms in London, and were the successful projectors and promoters of the "Great Northern Railway" in England, in opposition to the London and North Western Company.

I will of course be understood that all these names are in addition to the influential ones already belonging to the Board.

I am, Sir, Your obedient servant,

JULIUS THOMPSON

Manager.

St. Andrews, May 12, 1856.

"It has leaked out," and we have no doubt of the correctness of the report, that the Hon. Mr. Johnson is to be Chief Railway Commissioner, and the Hon. Mr. Smith is to be Solicitor General. Thus Mr. Johnson will be sheltered for—we had almost said for life, but at all events, as long as we have any railways to construct or look after, holding a non-political office worth £500 a year; while Mr. Smith will have an office of £250 a year and be within two jumps of the Bench. When Mr. Johnson receives his appointment we wonder if he will retain a portion of his Executive functions? One who was promoted to a high situation from the ranks of the present administration retains—we will not say the privilege of advising His Excellency, but it is currently reported, and generally believed, that he advises His Excellency's advisers.

The above appointments sufficiently account for Messrs. Johnson and Smith's denouncing their policy last fall, and speaking of them in terms of contempt; there was straw in the perspective! But what will Mr. Cullen say, after coming to their rescue (on the no confidence question) at the eleventh hour? Will he be content with one of the minor offices connected with the railway; a Directorship, for instance, with a salary of £200 a year? This may suit Tall George, or Broad George, but we always thought Mr. Cullen's ambition took a wider range, and that when he made up his mind and supported the Government, he bargained for something higher,—for more straw.—[Head Quarters.]

LARGE OXEN.—A few days ago the Hon. Col. Allen brought to town a fine stall fed ox, which was purchased by Mr. N. Cameron, and when killed the four quarters weighed 998 lbs. His Excellency the Lieut. Governor has several cattle in his stable stall fed all winter, and said to be the fattest ever seen in Fredericton. One of the oxen is very large.—[Ibid.]

EMIGRANTS.—The total number of passengers arrived in the United States for the year 1855 was upwards of 230,000. Over 160,000 of these arrived in New York. Germany furnished 66,000, Ireland 49,000, and England 39,000, in round numbers. The total number of passengers arrived in this country since the 30th April, 1853, is 3,450,000.—[Herald Farmer.]

AN OLD CLAIM RECENTLY DISCOVERED.—The U. S. Senate on Friday was chiefly occupied in discussing a claim of Samuel F. Morse, of Machine, Me., and others, for a number, who in 1815 destroyed a ferry in Penobscot river, which was tender to the British seventy-four gun ship "Balwalk", and also for destroying a barge and capturing fourteen men. The claim is made under a law of Congress of 1813, which the captives have recently discovered in a reached their case, and amounts to \$14,000 as the value of the property and \$100 for the capture of each of the men. The resolve was finally recommended with instructions to refer the capture of the armed men portion to the Court of Claims. It gives one half the claim to Mr. Morse, and was respectfully defended by Mr. Hamilton, who reported.—[Boston Courier.]

Sale of New Stock of the Bank of New Brunswick.—One thousand shares—£50 each—of new Bank Stock of the above institution were offered for public competition on Tuesday at 11 o'clock, on the Bank steps. Mr. Hanford acting as Auctioneer. All the business people of St. John appeared to be present—numbering perhaps three or four thousand. The competition among the company was sharp and spirited; and the shares were knocked down without any occasion for dwelling any time for bids. Five thousand

pounds is the total value of the stock disposed of. There were 180 purchasers—the premiums ranged from 10 to 17 per cent, averaging 14 per cent on the fifty thousand pounds.—[News.]

TERRIBLE ACCIDENT.

Explosion of Steamer "J. D. Pierce."

FIVE LIVES LOST.

Fredericton, May 9.
Yesterday, about noon, the Steamer "J. D. Pierce" burst her boiler, while on her way to Woodstock; Steamer "Richmond," which was passing down at the time, immediately rounded up, and rescued passengers and part of freight.

It is not yet ascertained exactly how many lives were lost, certainly not less than five; among whom were, Mrs. T. M. Johnston of Gagetown, Mr. Robert Millar, of Woodstock, (pilot), and two others, named respectively, Merritt and Work, the latter from Tobique. The steamer sunk immediately in five feet of water. Cause of explosion not yet known.—Col. Presbyter.

We have been informed this morning by a member of the Legislature, that the Provincial Inspector of Steamboats in his two annual official Reports addressed to the present Executive, strongly urged that all Steamboat Engineers should undergo a strict examination before a Board of competent persons, and that none should be allowed to be employed as the Engineer of a Steamer, unless his competency for the important office had been previously certified by such board. The Government has paid no attention to these important suggestions—hence the late and deadly disaster in Great Britain, and this fact truly accounts for the paucity of steamboat disasters in the mother country. A similar system has become a law of the United States, but is not so rigidly carried out as it ought to be. If the information we have received in reference to this matter be correct, we shall only remark for the present that the Executive government of New Brunswick have a fearful responsibility to encounter. Meet it they must, for the untimely death of five persons, and the serious injury inflicted upon several others, owing to the incompetency of an engine driver, form too grave a matter to lightly passed over.—[Chronicle.]

Mr. Smith, the Inspector, proceeded to scene of disaster, by directions of the Government, to make strict inquiry into the cause of the explosion.

The Standard.

WEDNESDAY, MAY 14, 1856.

Before the present Government came into power, one of their favorite cries against the then Executive was the absence of any Cabinet measure for the revision and better organization of the educational system of the Province. Indeed not only did they rail against the old Executive for the want of action on this important question, but if our memory does not greatly deceive us, the most profuse promises were made on the hustings, of the mighty reforms and gigantic advantages in the cause of knowledge, which should be given to the public as soon as they had obtained the reins of State, and had overturned the old Tory administration.

Our old friend the voluble and honorable the Surveyor General, made himself particularly conspicuous, for the fervor of the interest which he professed to feel, in the cause of the education of the people, and if the importance of the subject did not forbid us to joke about it, it would really excite our risible faculties, to see what a complete revolution of sentiment has taken place in him, as well as some of his colleagues on this matter.

A great philosopher has said that "knowledge is power," but our present rulers appear to think that by fostering ignorance, they will best sustain their own power; for only on such grounds can one reconcile with common sense the motion brought in by Mr. Connell, and supported by members of the Government to shut up Kings College, and the reduction of many of the grants which have heretofore been given in aid of schools.

That the House of Assembly should have supported and sustained Mr. Connell's motion, will, we think, not be surprising to any one when they reflect on the lamentable want of education even in the common rules of gentlemanly conduct, which has been evinced by so many members of the House during the late session. It would more than fill our whole columns, were we to detail all the disgraceful scenes which have within the last three months been enacted by our legislative Representatives—and we are therefore forced to the opinion that it would be most desirable for the Governor to exercise his prerogative and dissolve the present House, in order that they may not again disgrace the Province by being allowed to assemble any more.

Skylarking and members pelting each other with paper pellets—putting water stamps in each others' pockets, or moving chairs so that they might fall backward after speaking, are perhaps trivial, but certainly childish and disgraceful acts, and totally unbecoming the

solemnity which befit the proceedings of a legislative body; but when it comes to giving the lie, which was done two or three times in open debate; and when on one occasion, the Speaker even did not consider it beneath his dignity to assure the House "that it was not after luncheon with him," we cannot forbear from expressing our disgust at such exhibitions, and again expressing our hope that the Governor will give the people an opportunity to remove the men who thus trifle with their destinies, and inflict upon them, at a cost of £100 per diem, the loss of some three or four days of the public time, while they sit with closed doors to adjust their own unseemly squabbles.

Want of space prevented us last week from adding at the foot of the Report to the Shareholders in the St. Andrews & Quebec Railroad a list of the Directors elected for the ensuing year—we now repair this omission.

Hon. Admiral Owen, Capt. J. J. Robinson, Capt. Moses, Richard Hayne, John Farmer, Chas. Connell, Wm. Whitlock, G. D. Street, Harris H. Hatch, Wellington Hatch, Edw. Wilson, Jas. W. Street, Freeman H. Todd, Esquires.

TO CORRESPONDENTS.—"A Resident and Voter" St. George is received, and is inadmissible, without the author appends his real signature. He cannot expect that we would publish his letter impeaching the character of a public officer, and leave ourselves open to an action for libel! at the instance of an anonymous correspondent.

Wm. O. Smith, Esq. has been re-elected Mayor of St. John by a majority of 801 votes over his opponent Mr. Salter. The numbers being, Smith 1201, and Salter 400.

BRITISH STEAMERS TRIUMPHANT.—The quickest trip ever performed across the Atlantic, was made by the British Steamship Persia from New York to Liverpool in 9 days 12 hours! It is reported that the Persia's last trip to New York was accomplished in nine days and a half—which beats the Baltic one hour and forty minutes.

TALL WHEAT.—We were shown Wheat at the store of Messrs. Jardine, weighing 68 lbs per bushel, which cannot be excelled in the world. It was raised on the farm of Mr. James Gault, South Bay. A few more such wheat growers as Mr. G. and New Brunswick will be able to support herself with the staff of life. For three successive years his wheat has averaged the above weight.—[Chronicle.]

It is reported that the stock of Mr. Robinson, Wine Merchant, Fredericton, was seized on Tuesday evening by the Prohibitionists in due form of law, and it was almost immediately replenished. The whole value of the liquors found in the store, does not it is said exceed £200.—[Freeman.]

By the last week's trip of the Adelaide an attempt was made to smuggle into this port a large quantity of Boots and Shoes. A similar attempt was made to smuggle some Brandy which was put up in barrels of Oysters.—[Morning Telegraph.]

BOAT RACE.—The preliminary arrangements of a proposed trial for superiority between the "Union Boat Club," of St. John, N. B., and the "John R. Putnam Club," of New York, are to be made at Dooley's Exchange on Tuesday evening, 6th inst., by the coxswains of the respective clubs. New boats have been built for their express use, which will be inaugurated upon the occasion of this race.

FIRST ARRIVALS.—The Packet Schooner Phantom, Ellis, with a cargo of produce, from Prince Edward's Island, arrived here on Monday last. This is the only arrival at our port, although the river has been open a week.—[Gleaner.]

Small Pox and Yellow Fever at Quarantine.—The ship Empire State, Captain Briggs arrived at Quarantine, N. Y. on Sunday last, having had on board during her passage 33 cases of small pox, 8 of whom died on the passage, and 25 of whom were sent by the health officer to the Marine Hospital. This ship brought into port 516 passengers. The vessel and her passengers have been detained at Quarantine for the purposes of cleansing, ventilation and fumigation.

The brig General Taylor, Captain Waterman, arrived on the 28th inst., from Port au Prince, having lost half of her crew by yellow fever during the passage, and the Captain reports that at Port au Prince the disease is very prevalent and fatal, seizing and cutting down many seamen who have hitherto visited that port with impunity, and who were supposed to have become acclimated to its infected atmosphere.

GREAT LOSS ON PRODUCE.—It is now stated that the immense quantities of wheat purchased at Chicago, Milwaukee, and other points at the West, last fall, said at the time to be on account of the French Government, were in reality bought for parties in Boston, New York, &c., who will "realize" a loss of something near a million of dollars! Millions of bushels were purchased, and the price paid were considered as high at the time,

the purchasers expecting to realize an immense profit; but when it comes to giving the lie, which was done two or three times in open debate; and when on one occasion, the Speaker even did not consider it beneath his dignity to assure the House "that it was not after luncheon with him," we cannot forbear from expressing our disgust at such exhibitions, and again expressing our hope that the Governor will give the people an opportunity to remove the men who thus trifle with their destinies, and inflict upon them, at a cost of £100 per diem, the loss of some three or four days of the public time, while they sit with closed doors to adjust their own unseemly squabbles.

Green peas from the South have been in New York for some time. Strawberries, very large and fine, made their debut on Tuesday morning.

TRANSCENDING FOR PEACE AT TORONTO.—The Council of Toronto appointed Tuesday week to be held as a day of Thanksgiving for the return of peace.

ESCAPE OF SHIPPING FROM GENERAL WALKER.—A private letter from Panama, dated the 6th ult., says, that among the arrivals at that port was the ship Daylight, Capt. Wilson, in tow of the steamer Cortes, from San Juan del Sur, whence they made their escape on the night of the 1st of April, together with the ship Continent, Captain Gibbs, and the —, a California packet, Captain Bears. They were threatened with seizure by the forces of General Walker.

HATCHED.—At St. John, the 6th inst., at the residence of Admiral Owen, in that city, by the Rev. G. M. Armstrong, Rector of St. Marks, the Honorable William Johnson Ritchie, one of Her Majesty's Justices of the Supreme Court in this Province, to Grace Vernon, daughter of the late Thomas Nicholson, Esq. of St. John.

E. D. SPEAR,
INDIAN DOCTOR.
18 Kneeland Street, Boston, Mass.
THE great success which has ever attended
the Indian Practice of Medicine, as per-
fected by E. D. SPEAR, M.D., excites envy in the
hearts of the many advocates of Mercury. Many
of his remedies, as the public have already learned
from newspapers of the day, are prepared from
recipes which are believed to have originally been
received from the Indians one hundred and seventy
five years ago. No other remedies deserve the
name of Indian.
DR. SPEAR'S
GREAT INDIAN MEDICINES.
(For names and description see his "Family
Physician"—to be had, free, at his office, or sent
to order, prepaid on receipt of a paper postage
stamp.)
Are certain cures for—
Asthma, Ague and Fever, Barbers' Itch, Bile,
Bronchitis, Cancer, Croup, Colds, Consumption,
Coughs, Costiveness, Cramps, Debility, Diarrhoea,
Derangement of the Bowels, all humors in the
blood, Giddiness, Headache, Inflammation of the
Eyes, Jaundice, Kidney Complaints, Liver Com-
plaints, Loss of Hair, Lumbago, Milk Leg, Night-
mare, Rupture of the Heart, Pains in the side,
back, and other parts of the body, Painful Men-
struation, Pin Worms, Rheumatism, Salt Rheum,
Sciatica, Shortness of Breath, Sore
Throat, Spinal Complaints, Strangury, &c.
Dr. Spear's Female Medicines have become very
celebrated, and it is now admitted that his treat-
ment of Female Weaknesses, Prolapsus Uteri, Ir-
regularities and Suppressions is far superior to
every other treatment for these complaints.
DR. SPEAR,
Is also celebrated in the treatment of children.
His medicines being vegetable, do not poison the
system.
Dr. Spear is now being visited by one thousand
patients every month, some of whom travel hun-
dreds of miles to consult him and to obtain his medi-
cines.
He will warrant a cure in every curable case.
After giving his remedies a fair trial, if a cure is
not effected, he will pay any other physician, who
will effect a cure, his bill, not exceeding \$100.
Persons at a distance can consult him by letter,
enclosing a stamp to pay the answer.
Dr. Spear consults with patients at his Office
No 18 Kneeland street, upon all conditions and di-
rections of the system, free of any charge.

materials of all kinds for sale.

Stammering Cured!
DR. BRONSON, AND C. C. BEERS.
ARE happy in announcing that STAMMER-
ing can be PERMANENTLY CURED by
Medicine and Vocal Gymnastics. It is first treat-
ed as a Nervous Disease, (like St. Vitus' Dance,
Epileptic Fits, &c.), and then the habit, incident
to the disease, is corrected, by exercises in Elo-
cution. Mr. Beers has been an inveterate stam-
merer for thirty-five years; has attended many
institutions for the cure of stammering, and ex-
pended hundreds of dollars without any perma-
nent benefit, but cured himself, 18 months ago,
and has ever since remained so. With the
same means, we have cured others, to whom we
would gladly refer any applicants—not having
failed in a single instance. Being satisfied from
reason, experience, and observation, that stam-
mering is the effect of a Nervous Disorder, and
can be perfectly cured by the above means in the
course of two or three weeks, we assure all in-
terested of these gratifying results, and guaran-
tee a permanent cure, or refund the small fee
paid in advance. Those desiring further infor-
mation on these subjects, (including terms,
guaranty, &c.) can obtain it from our New
Work, just issued, on Stammering, its Effects,
Causes and Remedies. Illustrated by One Hun-
dred Engravings. Price, One Dollar, on the
receipt of which the Book will be sent without
expense, and the money thus paid will be credit-
ed in the bill for Treatment. Board, and fur-
nished on reasonable terms.—Address BRONSON
& BEERS, 150, Washington-street, Boston, Minn.

Valuable Farm for Sale.
THE Subscriber offers for sale, his Farm sit-
uated 5 miles from St. Andrews, fronting
on the River St. John, and bounded in the rear
by Chatham Lake, containing 120 A. & a c. s.,
more or less, of excellent land, divided equally
for Tillage, Pasture, and Wood Land.
There are on the premises a substantial
"STONE HOUSE,"
40 ft. by 28 ft., well adapted for a large fam-
ily, with a new falling Spring of Water
in the cellar, also a good BARN, 40 ft. by
30 ft., with aerial. The land yields about 20
tons of hay, with other crops.
There is a fore in front, where a quantity of
Sassaparilla may be obtained at all seasons of
the year, likewise a SHIP YARD, and a Fish
Weir, in which were caught during the past
season, 20 barrels of Mackerel, Salmon, Hec-
tor, and other fish.
The above farm is pleasantly situated in a re-
markably healthy and good neighborhood. If
applied for early, will be sold for less than first
cost.—Please address,
CAPT. JOHN MOWAT,
Hay side, St. Andrews.

To be sold at Public Auction on Saturday the 17th day of May next, at 12 o'clock at the Court House in St. Andrews:

ALL the right, title, interest, claim and demand of EBERNEZER R. DOREN, to the following Properties, situated in the Parish of St. David, in the County of Charlotte, viz:

All that certain lot, piece, or parcel of land, part of the Penobscot Grant, containing 17 acres, more or less, beginning at the intersection of the Tower Hill road with the great road leading from St. Andrews to St. Stephens, and running along the Eastern side of the said Tower Hill road, North 29 degrees West, about 90 rods to the North line of Isaac Garcelon's land, thence by said line South 24 1/2 East about 40 rods, to a cedar stake on the old division line between Garcelon's land and Moore's land, thence North 66 East on the Southern line of land owned by Ebenezer R. Doren about 24 rods to a brook on the Eastern branch of the Mill stream; thence by the centre of the said brook to the flowage of the Saw Mill Pond; thence by the flowage of the said pond Westerly to the West branch coming from the Carding Machine house; thence crossing the said branch Southerly about 6 rods to a cedar stake on the West bank of the saw Mill Pond; thence Westerly on a line about 8 rods to a cedar stake about 20 feet from the South West corner of the Carding Machine house; thence West two rods to a cedar stake, the same being allowed for a public road; thence South about 10 degrees East to a cedar stake by the great road aforesaid about 24 rods; thence Westerly to the said road to the place of beginning.

ALSO—All that certain lot, piece, or parcel of land, part of the Penobscot Grant, containing 25 acres, more or less, commencing at a cedar stake on the division line between Garcelon and Moore's lands, North 15 30' West 52 rods to a stake and stones; thence East 92 rods to a stake and stones; South 49 rods to a stake and stones; thence West about 75 rods to the place of beginning.

ALSO—All that certain lot, piece, or parcel of land, being part of the Penobscot Grant, containing one acre, more or less, being the same lot on which Ebenezer R. Doren now lives, and deeded by Isaac Garcelon to him, with all the buildings, machinery, improvements and appurtenances in any way appertaining to the said lots, pieces or parcels of land.

The same having been seized and taken to satisfy an Execution issued out of the Supreme Court of this Province.

THOS. JONES, Sheriff of Charlotte, 5th Nov. 1855

To be sold at Public Auction, on Saturday the 19th day of April, 1856, at 12 o'clock, at the Court House in St. Andrews:

ALL the right and title, interest, claim and demand of JOHN MCCOLEY, to the following Lots, Pieces, or Parcels of LAND, with the appurtenances belonging to them, viz:—

ALL that Lot, Piece or Parcel of LAND situated in Milltown, in the Parish of St. Stephen, near land, now, or lately occupied by John Young, purchased by the said McColey from John McGarrigue, as by deed bearing date 14th February, 1854.

AND ALSO, All that Lot, Piece, or Parcel of LAND, situated on the northern side of the road leading from the Upper to the Lower Mills, in the Parish of St. Stephen, excepting that part sold by said McColey to one Donald Campbell; the same having been purchased by said McColey from James Murchie, as by deed bearing date 10th July, 1854.

The same having been seized and taken under an Execution in favor of Samuel Neill.

THOS. JONES, Sheriff of Charlotte, 1st October, 1855.

The above sale is postponed till Saturday the 24th day of MAY, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, 19th April, 1856.

TO BE SOLD at Public Auction, on Saturday the 31st day of May next at 12 o'clock, at the Court House in Saint Andrews:

ALL the right, title, interest, claim and demand, possessory right, right of entry, and beneficial interest whatsoever both in law and in equity, of ELISHA STYLES, of, in, and to, that certain piece, parcel or Lot of LAND situated on the Magaguadavic River in the Parish of Saint George, in the County of Charlotte—containing on the bank of the said river Magaguadavic, at the north corner of the old school house on the land formerly owned by the late Stuart Seelye, the grant to Philip Bailey and others; thence running west to John Oliver's eastern line; thence north eighteen rods to a lot formerly owned by Nelson Seelye; thence east to the Magaguadavic river aforesaid; thence south following the bank of the said river to the place of beginning—With all the Buildings and Erections thereon:—

SHERIFF'S SALES.

mening on the bank of the said river Magaguadavic, at the north corner of the old school house on the land formerly owned by the late Stuart Seelye, the grant to Philip Bailey and others; thence running west to John Oliver's eastern line; thence north eighteen rods to a lot formerly owned by Nelson Seelye; thence east to the Magaguadavic river aforesaid; thence south following the bank of the said river to the place of beginning—With all the Buildings and Erections thereon:—

The same having been seized and taken to satisfy an execution in favor of Edward Seelye.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office St. Andrews, 20th Nov. 1855.

To be sold at Public Auction, on Saturday the 28th day of July next, at 12 o'clock, at the Court House in St. Andrews:

ALL the right, title, interest, claim and demand of GEORGE WILSON, to a piece of LAND in the Parish of St. Patrick, on the Western side of the Digde quash river, being part of lot No. 9, formerly granted to Lauchlan Cameron, containing about 12 acres, and situated on the Frederick road. And also, to another piece of LAND contiguous to the last described piece, and also part of the said lot Number 9, containing about 4 acres, and lying between the Frederick and Dambarton roads; with the Buildings and Erections thereon, now in the occupation of Patrick Devoy.

The same having been seized and taken to satisfy an Execution in favor of James W. Street, endorsed to levy £15 10 10, besides Sheriff's fees, &c.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office, St. Andrews, 15th Jan., 1856.

To be sold at Public Auction, on Saturday the 24 day of August next, at 12 o'clock at the Court House, in St. Andrews:

Ten following Properties situated in the Parish of St. Patrick, viz:

ALL the right, title, interest, claim and demand of JULIUS L. INCHES, of St. Stephens, Merchant, to that tract or parcel of LAND, containing 100 acres more or less, beginning at a Spruce stump on the Western shore of the Robabec river, thence running North till it comes to a lake or pond &c.

That tract or parcel of Land, being part of lot No. 8, containing 40 acres more or less, being on the South side of the Highway, adjoining the lot now, or lately owned by Charles Carlick.

That tract or parcel of Land, containing 100 acres, bounded Northerly by a lot granted to one William Smith.

That lot of Land, commencing 19 chains and 20 links, North 79 degrees West of a marked tree standing on the South end of the Western side line of Robert Hanson's grant, containing 400 acres more or less, being the Western part of the tract of land granted to Lieut. J. Clarke.

And also, that Lot No. 15, being the middle division of Isaac Young's parcels of lot No. 12, as per grant to James Turner and others, containing 100 acres more or less.

Together with all the improvements, erections and buildings thereon.

The same having been seized and taken to satisfy an execution at the suit of George Greenwood Teley, endorsed to levy £133, 5s. 3d, besides Sheriff's fees &c.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office, St. Andrews, 19th Jan. 1856.

On Saturday the twenty third August next, will be sold at the Court House in St. Andrews, at 12 o'clock, by Public Auction—

ALL the right, title, interest and claim whatsoever, of Edward Lynott, to the following Properties, situated in the Parish of St. George, viz:

All that LOT, now occupied by the said Edward Lynott, in the town of St. George, with the House and appurtenances thereunto belonging.

AND ALSO, All that certain LOT of LAND, No. 53, in the Marcareen Grant, bounded on the North by the river Magaguadavic, and containing 50 acres, more or less, formerly owned by William Lockett.

The same having been seized and taken to satisfy an execution in favor of Thomas S. Magee, endorsed to levy £207 4 5, &c.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office, St. Andrews, 12th Feb'y, 1856.

TO BE SOLD at Public Auction, on Saturday the 6th September, 1856, at 12 o'clock, at the Court House in St. Andrews:

ALL the right, title, interest, property, claim and demand, of James Magwood, to all that certain lot, piece, or parcel of LAND, containing One Hundred Acres, more or less, situated in the Parish of St. James, deeded by Mary Ann Magwood to James Magwood—beginning at a stake placed where the North Western line of lot No. 2, granted to Levi Weston, strikes the North Eastern side of the road from Saint Stephens to Clarke's Point, &c.

The same having been seized and taken to satisfy an execution in favor of John Magwood, jun., endorsed to levy £42 14 2, &c. &c.

SHERIFF'S SALES.

to satisfy an execution in favor of John Magwood, jun., endorsed to levy £42 14 2, &c. &c.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office, St. Andrews, 26th Feb. 1856.

TO BE SOLD AT PUBLIC AUCTION, on Saturday the 1st day of November next, at 12 o'clock, at the Court House in Saint Andrews:

ALL the right title, interest, property, claim, and demand, of REUBEN BROCKWAY, JUNR., SILAS BROCKWAY, and WILLIAM BROCKWAY, to the following properties, viz:— All that certain Mill Site, or Lot, together with the Mill thereon now occupied by the said Reuben Brockway, junr. and William Brockway, situate, lying and being on the Western side of the river Magaguadavic, at the second Falls thereof in the Parish of St. George, together with all the rights, privileges, sluices, sluice ways, dams, water courses, and piers to the same belonging.

Also, That half of FARM LOT, No. 2, situated on the Western side of the Magaguadavic river, at the second Falls thereof, in the Parish of St. George, and now occupied by Reuben Brockway, Junr. opposite the Meeting House.

And all other the Real Estate, and possessory right of the said Reuben Brockway, junr. Silas Brockway, and William Brockway, or either of them, wheresoever situate in my Bailiwick.

The same having been seized and taken to satisfy an execution in favour of Tobias G. Mealy and Samuel Johnson.

THOS. JONES, Sheriff of Charlotte, Sheriff's Office, 19th April, 1856.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK? It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM. Of all climates, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD. These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

- | | |
|----------------------------|-------------------------------|
| Ague | Jaundice |
| Asthma | Liver complaints |
| Bilious complaints | Lumbago |
| Bloches on the skin | Piles |
| Bowel complaints | Rheumatism |
| Colic | Retention of Urine |
| Constipation of the Bowels | Scrofula, or King's Evil |
| Consumption | Sore Throats |
| Debility | Stone and Gravel |
| Dropsy | Secondary symptoms |
| Dysentery | Tic Douloureux |
| Erysipelas | Tumours |
| Female Irregularities | Ulcers |
| Fever of all kinds | Veneral Affections |
| Fits | Worms of all kinds |
| Gout | Weakness, from whatever cause |
| Head-ache | &c. &c. |
| Indigestion | |
| Inflammation | |

Sold at the Establishments of Professor Holloway, 244, Strand, near Temple Bar, London, and 50 Maiden Lane, New York, also by all respectable Druggists and Dealers in Medicines throughout the Civilized World, at the following prices:— 1s 4d; 3s 6d; 5s 6d each box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Sold by all Venders of Medicine throughout New Brunswick, and by A. H. Thompson, St. Stephen; Billings & Dyer, Eastport, and

O'DELL & TURNER, Of Saint Andrews, Wholesale Agents for the County Charlotte, Janus v 15, 1856.

HENRY SALTER, Manager, 30 Sackville Street, London. WM. WHITLOCK, Agent for Saint Andrews

To Let, THE HOUSE at present occupied by Mr. Joseph Walton, on the corner of Water & Elizabeth streets; to which is attached a large Garden. Possession given 1st May next. Apply to G. F. CAMPBELL, St. Andrews, 26th March, 1855.

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements. Price \$1 25, 85c. 67c.

We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for it. (Portian Recorder.) No person who has ever tried one of the Lamps, would be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer.]

FIRST premium for the best Melodeon was awarded by the Mechanic's Fair, Boston.

PARKS & FOLSOM, 236 Washington St., Boston. P. & F. would respectfully give notice, that they still continue to manufacture the Melodeon and Seraphine, in a variety of styles, which, in point of finish and tone, are not surpassed by any other manufacturers. Also, the Melodeon Organ, with a sub bass, suitable for Churches, Vestries and Halls. The public are invited to call and examine before purchasing.

Dealers supplied on favorable terms.

However Cautious! EP TESTIMONY.—Mr. Editor: Seeing an advertisement that the Deaf might be relieved by applying to DR. BOARDMAN, 304 Washington street, corner of Suffolk Place, BOSTON, I was induced to leave home and test the Doctor's skill. I was so deaf that I was unable to hear ordinary conversation. To my astonishment, in twenty minutes my hearing was perfectly restored. I recommend all persons to try the Doctor's new method of cure.

FRANCIS RICHARDSON, of Stoughton. Letters, post paid, attended to.

A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!

Holloway's Ointment.

THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM, AND SCORBUTIC HUMOURS.

No remedy has ever done so much for the cure of diseases of the Skin, whatev form they may assume, as this Ointment.—Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence.—The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

- | | |
|--------------------|-----------------------------|
| Bad Legs | Chilblains |
| Bad Breasts | Chapped hands |
| Burns | Corns (soft) |
| Bunions | Cancers |
| Bite of Mosquitoes | Contracted and Stiff Joints |
| and Sand Flies | Fistulas |
| Coco-bay | Glandular Swelling |
| Elephantiasis | Lumbago |
| Gout | Piles |
| Scurvy | Rheumatism |
| Sore Heads | Scalds |
| Tumours | Sore Nipples. |
| Ulcers | |
| Wounds | |
| Yaws | |

Soap and Candle Factory

AGAIN. The subscriber in returning thanks for the extensive patronage received for the last twelve years, respectfully informs his friends and customers, that since the late disastrous fire in Water-street, he has erected a new Factory in Princess-street, a very short distance above the Post Office, and next adjoining Dunn's Swan 21st, where he will be happy to receive and execute all orders from his old customers and the trade generally; and by manufacturing a good article, at a fair price and light profit, to give satisfaction.
